This document is prepared for general reference and may not reflect all the details of a state's law. Consult the state agency or the state law for authoritative information. More detailed information may be found in the Comparison of State Unemployment Insurance Laws, which also includes information on Temporary Disability Insurance Programs, at www.workforcesecurity.doleta.gov/unemploy/laws.asp. This is also the website for this document.

KEY:

Avg - Average
BPW - Base Period Wages
DA - Dependents Allowance
MBA - Maximum Benefit Amount
" $\geq$ " - Greater Than or Equal To
Qtrs - Quarters

AAW - Average Annual Wage<br>CQ - Calendar Quarter<br>HQ - High Quarter<br>WBA - Weekly Benefit Amount<br>$" \leq "$ - Less Than or Equal To<br>" $x$ " - Times

| AWW - Average Weekly Wage | BP - Base Period |
| :--- | :--- |
| CY- Calendar Year | Dep - Dependent |
| HQW - High Quarter Wages | InAvg - Industry Avg |
| "=" - Equal To | " $>$ " - Greater Than |
| "\%" - Percent | "+" - Plus |

OTHER PROVISIONS OF LAW:
Waiting Week - Most states require a 1-week waiting period where the claimant must meet all eligibility conditions before benefits are payable. The following states do not require a waiting week: AL, CT, DE, GA, IA, KY, MD, MI, NV, NH, NJ, VT, WI, WY. The waiting week may be paid after a specified period of unemployment in KS, TX, and TN. In some states, it may be suspended under certain conditions.

Base Periods -Almost all qualifying earnings are determined using a base period consisting of the first 4 of the last 5 completed calendar quarters. A few states use a different base period. In the following states, more recent earnings may be used in an alternative base period under certain conditions: CT, DC, GA, HI, ME, MA, MI, NH, NJ, NM, NY, NC, OH, OK, RI, VA, VT, WA, WI.

## FOOTNOTES:

${ }^{1}$ Reflects basic qualifying formula. Some states have alternative qualifying formulas.
${ }^{2}$ When two amounts given, higher includes dependents' allowances; the higher figure for both the minimum and maximum WBAs includes dependents' allowances for the maximum number of dependents. If state has a dependents' allowance and only one amount is given, the maximum is the same with or without the allowance. The total amount of dependents' allowance payable in any week is limited by a cap.
${ }^{3}$ This column lists the amount of weekly earnings that are disregarded (will not reduce the weekly benefit amount). However, earnings in excess of those listed will be deducted from the weekly benefit amount, resulting in a reduced payment.
${ }^{4}$ For states that use earnings, further calculation is needed to derive the number of benefit weeks--take the amount obtained from the formula listed (which is the claimant's maximum benefit amount) and divide it by the claimant's weekly benefit amount. States with uniform duration do not have to calculate the number of benefit weeks since it is fixed.
${ }^{5}$ Lists number of benefit weeks for only the regular program for total unemployment. In states with uniform duration, all eligible claimants receive the same number of benefit weeks (in IL the maximum amount payable cannot exceed one's BPW, resulting in some claimants being paid less than 26 weeks). For WA the maximum number of benefit weeks decreases from 30 to the lesser of 26 or $1 / 3$ BPW if the state unemployment rate falls to $6.8 \%$ or below. In some states, additional weeks of benefits are payable under limited circumstances such as high unemployment, continuation of approved training, or workforce dislocations.
${ }^{6}$ Coverage is determined by the size of the employing unit's payroll or the number of days or weeks worked during a calendar year and applies to employing units who during any calendar quarter in the current or immediately preceding calendar year paid wages of $\$ 1,500$ or more, or to employing units who employ one or more workers on at least 1 day in each of 20 weeks during the current or immediately preceding calendar year; such employing units are liable for taxes, and the workers accrue benefit rights. For those states with "Any size," all workers are covered regardless of payroll size or weeks worked. States may have different thresholds for agricultural, domestic, and nonprofit employing units.
${ }^{7}$ Rates apply only to experience rated employers for the current year and do not include applicable surtaxes or penalties.
${ }^{8}$ New employer rate shown is basic rate. Higher rates may apply depending on industry classification and/or other factors in AK, CO, DE, IL, KS (6.0\% applies to all construction employers), KY ( $9.50 \%$ entry rate for contract construction), MA ( $7.17 \%$ minimum rate for construction workers), MD (3.6\% for foreign contractors), MI, MN, MO, NE, NJ, ND, OH, PA, SD, TN, UT, WV. Also, for AK $4.15 \%$ until assigned rate based on InAvg; NJ rate depends on rate schedule in effect; for WI 3.25\% with taxable payroll under \$500,000 and 3.40\% over \$500,000.
