<u>Charts</u> <u>Glossary of data definitions</u> <u>Choose another quarter</u>

The UI Data Summary is produced quarterly from state-reported data contained in the Unemployment Insurance Data Base (UIDB) as well as UI-related data from outside sources (e.g., Bureau of Labor Statistics data on employment and unemployment and U.S. Department of Treasury data on state UI trust fund activities). This data base is maintained by the Division of Actuarial Services, Office of Income Support (OIS), U.S. Department of Labor.

This report is intended to provide the user with a quick overview of the status of the UI system at the national and state levels. Tables are provided for each state and many data items are repeated on <u>summary tables</u> which show all states together. The <u>glossary</u> gives the definition of each data item in the report. Except for recipiency rates, UCFE and UCX data is not included. Except for covered employment and wage data, which have a reporting/processing lag, all the data refers to the same quarter. This quarter is shown on the front cover and is also the first column heading on each individual state page. The year and quarter are indicated by the notation CYyyyy.q (e.g. CY1995.4). For many data items, the report shows -- in addition to the latest quarter -- data for the latest twelve months, the highest and lowest quarters historically, and the state's rank among all states. If a state has failed to report for a particular time period, estimated data are used; however, if the time period extends too far for reasonable estimates, blanks are displayed instead.

Your comments and suggestions are welcomed. For further information please contact **Kevin Stapleton** at the Division of Fiscal and Actuarial Services, Room C-4514, 200 Constitution Ave., NW, Washington, DC 20210, phone (202) 693-3009. You can also reach the receptionist at (202) 693-3039. If you want quarterly copies mailed to you, add your name to the <u>Data summary mailing list</u>.

NOTE: Starting with 2006.3, interstate initial claims and weeks claimed are reported in the paying state rather than the state of residence.

ATTENTION:

Now available on the Department of Labor, Office of Workforce Security website, and by mail, is a new report called "Significant Measures of State Unemployment Insurance Tax Systems" (http://www.ows.doleta.gov/unemploy/finance.asp). This will be a yearly report containing a compilation of new and existing tax measures for each state, which is intended to provide users with the information necessary to evaluate and compare state UI tax systems. The report is produced by the Division of Fiscal and Actuarial Services in the Office of Workforce Security and calendar years 2006 and 2005 are now available.

DATA DEFINITIONS

Back to Data Summary HomeBack to State Selection PageEXHAUSTION RATEA rate computed by dividing the average monthly

A rate computed by dividing the average monthly exhaustions by the average monthly first payments. To allow for the normal flow of claimants through the program, the numerator lags the denominator by 26 weeks, e.g., the exhaustion rate for CY 1995.3 is computed by dividing the average monthly exhaustions for the twelve months ending September 1995, by the average monthly first payments for the twelve months ending March 1995.

- **EXTENDED BENEFITS** The supplemental program that pays extended compensation during periods of specified high unemployment in a state to individuals for weeks of unemployment after exhaustion of regular UI benefits. One-half of EB is funded by the state trust fund. (ETA 5159)
- **FIRST PAYMENTS** The first payment in a benefit year for a week of unemployment claimed under a specific program. This is used as a proxy for "beneficiaries" under a specific program. (ETA 5159)
- **HIGH-COST MULTIPLE (HCM)** "TF as % of Total Wages" divided by the High Cost Rate. The High Cost Rate is the highest historical ratio of benefits to wages for a 12-month period.
- **HIGHEST/LOWEST QUARTER** The value displayed represents the quarter with the highest or lowest value beginning with the January through March quarter of 1971 (CY 1971.1). Exhaustion rate and average duration are for 4-quarter periods, ending with the quarter shown.
- **INITIAL CLAIMS** Any notice of unemployment filed (1) to request a determination of entitlement to and eligibility for compensation or (2) to begin a second or subsequent period of eligibility within a benefit year or period of eligibility. Interstate claims are counted in the paying state. (ETA 5159)
- **INSURED UNEMPLOYED** The average weekly number of weeks claimed for the three months of the quarter. (ETA 5159)
- INSURED UNEMPLOYMENTThe rate computed by dividing Insured UnemployedRATE (IUR)for the current quarter by Covered Employment for the first
four of the last six completed quarters. (ETA 539)
- **INTEREST EARNED**The amount of interest earned on the Unemployment Trust
Fund account. (unpublished US Treasury reports)

| D Back to Data Summary Home | ATA DEFINITIONS Back to State Selection Page |
|--------------------------------|---|
| OUTSTANDING LOAN BALANCE | Balance, as of the end of the quarter, of advances acquired by the state under Title XII of the Social Security Act. (unpublished US Treasury reports) |
| RANK | All rankings are from highest to lowest for a particular item. Ties receive the same rank. |
| RECIPIENCY RATE | The insured unemployed in regular programs as a percent of total unemployed. |
| STATE REVENUE | Funds deposited in state accounts in the Unemployment Trust Fund (UTF). These revenues are used to pay state UI benefits and the state share of EB. (ETA 2112) |
| SUBJECT EMPLOYERS | The number of employers subject to UI taxes. (ETA 581) |
| TAX YEAR | The twelve-month time period in which a state's tax rate schedules and taxable wage base remain constant. This is equivalent to the calendar year for most states, with the exception of NH, NJ, TN, and VT. These 4 states have July-June tax years. |
| TAXABLE WAGES | Wages paid to covered employees that are subject to State Unemployment Insurance taxes. (ES 202) |
| TAXABLE WAGE BASE | For each State, the maximum amount of wages paid to an employee by an employer during a tax year which are subject to UI taxes. Wages above this amount are not subject to tax. Note: The taxable wage bases published in this report are current as of the date of issue. Therefore, they do not match the time period of the taxable wages and average tax rate on taxable wages. |
| TF AS % OF TOTAL WAGES | Trust fund balance as a percent of estimated wages for the most recent 12 months. Also referred to as the Reserve Ratio. Estimated wages are based on the latest growth rate in the 12 month moving average (MA). <i>Example for 1997.4</i> : <i>Growth rate =((MA1997.2-MA1996.4)/MA1996.4); MA1997.4=MA1997.2*growth rate)</i> |
| TOTAL UNEMPLOYED | The average number of individuals, 16 years of age or older, who do not have a job but are available for work and actively seeking work in the week of the 12th for the three months of the quarter. This includes individuals on layoff and waiting to report to a new job within 30 days. (Bureau of Labor Statistics-Not Seasonally Adjusted) |
