Print Public Service Announcements (PSAs)

Smoking is the number one cause of home fire deaths in the United States. A publication can make a difference by including a campaign PSA an upcoming issue.

The U.S. Fire Administration and its partners are pleased to provide you with print PSAs that encourage smokers and people who live with smokers to learn how to prevent home fires caused by smoking. These PSAs are copyright-free. Please distribute to local newspapers, magazines, newsletters, and Web sites. Visit www.usfa.dhs.gov/smoking (English) or www.usfa.dhs.gov/fumar (Spanish) for additional Smoking & Home Fires Campaign materials.

FEMA

The U.S. Fire Administration is a division of the Federal Emergency Management Agency (FEMA) and is part of the U.S. Department of Homeland Security. FEMA coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

Cigarettes don't know when you are asleep.

Every year, men, women and children are killed in preventable home fires caused by cigarettes and other smoking materials. Most victims of smoking-related fires never thought it could happen to them.

If You Smoke, Put It Out. All the Way. Every Time.
