

Description of Proposed Ruedi Round II Water Marketing Program Contract with the Town of Silt

Reclamation is considering a request from the Town of Silt (Silt) to enter into two 25-year repayment contracts for 217 ac-ft and 325 ac-ft to augment out-of-priority municipal depletions. The only difference between the contract requests is the way Silt intends to pay for the water. Therefore, for the purposes of the Environmental Analysis (EA), the requests will be treated together, totaling 542 ac-ft.

Table 2.1 shows the estimated amount and flow of water to be released from Ruedi as a result of Silt's request.

TABLE 2.1 – ANTICIPATED RELEASES FROM RUEDI RESERVOIR

	AC-FT	CFS
January	36.17	0.59
February	29.18	0.53
March	29.24	0.48
April	57.36	0.97
May	48.09	0.78
June	41.86	0.7
July	57.68	0.94
August	56.44	0.92
September	57.05	0.96
October	44.21	0.72
November	43.46	0.73
December	41.02	0.67
Total	541.76	8.99
