Subject: Letter of Interest
Regarding: Cellular Messaging Alert System

Dear Mr. Vella,

The Oregon Department of Transportation has met with members of your Cellular Messaging Alert System ([CMAS](#))TM staff on two occasions. At this time, we have interest in partnering with your organization for the purpose of conducting a Beta test on your CMAS product. At the earliest convenience, we will schedule a meeting with yourself or designee to determine the period of time and the parameters under which the product will be tested. At the conclusion of a successful test period and business use determination, we would entertain reviewing requirements for a right of use licensing for the CMAS product.

Sincerely,

A handwritten signature in black ink that reads "Ben Berry".

Ben Berry
Chief Information Officer
Oregon Department of Transportation
