U.S. Census Bureau

Hawaii General Demographic Characteristics: 2004

Data Set: 2004 American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

General Demographic Characteristics: 2004	Estimate	Lower Bound	Upper Bound		
HOUSEHOLDS BY TYPE					
Total households	427,673	417,280	438,066		
Family households (families)	295,350	287,445	303,255		
With own children under 18 years	123,168	117,888	128,448		
Married-couple families	223,999	219,018	228,980		
With own children under 18 years	90,535	87,016	94,054		
Female householder, no husband present	50,113	46,297	53,929		
With own children under 18 years	22,707	20,157	25,257		
Nonfamily households	132,323	126,125	138,521		
Householder living alone	104,002	96,712	111,292		
65 years and over	33,570	30,824	36,316		
Households with one or more people under 18 years	148,387	141,972	154,802		
Households with one or more people 65 years and over	123,428	118,714	128,142		
Average household size	2.87	2.80	2.94		
Average family size	3.48	3.38	3.58		

Source: U.S. Census Bureau, 2004 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

• The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

• For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, Overview of Race and Hispanic Origin, issued March 2001. (pdf format)

Explanation of Symbols:

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.

4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an openended distribution. A statistical test is not appropriate.

7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

8. An 'N' entry in the estimate, lower bound, and upper bound columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
