The tax liability on the -14% wine for this small winery is \$.17 per gallon, and \$.67 per gallon on the 14-21% wine.

		<b>Bond Requirement:</b>	<b>\$100,000.00</b>

## Determining Tax Deferral Bond Coverage

 27 CFR 24.146(b)

When wine is removed from the bonded wine premises for consumption or sale, and the tax has been determined but the tax has not yet been paid, the tax deferral bond coverage must be sufficient to cover the amount of tax that, at any time, has been determined but not yet paid.

**Quarterly Filings:** To determine if your tax deferral bond coverage is sufficient for Quarterly Excise Tax Returns, compare your current deferral bond coverage to the amount of excise tax you expect will be determined during the quarter in 2008.

**EXAMPLE, using 2007 taxable removals for guidance:**

Jan. 1 – March 31	Due April 13	\$2,250
April 1-13	Outstanding liability	\$ 500
	Total liability	\$2,750
April 1-June 30	Due July 13	\$5,000
July 1-13	Outstanding liability	\$ 250
	Total liability	\$5,250
July 1 – Sept. 30	Due October 12	\$5,500
October 1-12	Outstanding liability	\$1,000
	Total liability	\$6,500
Oct. 1 – Dec. 31	Due January 14	\$7,000
January 1-14	Outstanding liability	\$ 500
	Total liability	<b>\$7,500</b>

- 1) Taxable removals in October, November, December 2007 totaled \$7,000.00.
- 2) Taxable removals during January 1-14, 2008 totaled \$500.00.
- 3) Tax liability was at its highest from October 1-January 14 at \$7,500.00

You expect your removals to be similar in 2008. Your deferral bond coverage may be not less than \$7,500.00. (A \$10,000 bond deferral bond would allow for growth.)

**Annual Filings:** To determine if the \$500 or \$1,000 tax deferral coverage provided on your bond is sufficient for annual excise tax filing, estimate the amount of excise tax you expect will be due during 2008. Remember that you may only file annually if your taxes will total less than \$1,000 and you do not have additional bond coverage. If the \$500 or \$1,000 provided on the bond is not sufficient, you will need to file your tax returns either quarterly or bi-weekly.

**Bi-Weekly Filings:** To determine if your tax deferral bond coverage is sufficient, compare your current deferral bond coverage to the maximum amount of excise tax you estimate will be due during 2008. This determination requires estimating what

will be due, but not paid, during a typical semi-monthly tax period and during the 14 days that follow, until the tax is paid.

**EXAMPLE, using 2007 taxable removals for guidance:**

March 1-15	Due March 29	\$2,000	
March 16-29	Outstanding liability	\$ 500	
	Total liability March 1-29	\$2,500	
March 16-31	Due April 13	\$5,000	
April 1-13	Outstanding liability	\$ 500	
	Total liability March 16-April 13	\$5,500	
April 1-15	Due April 27	\$8,000	
April 16-27	Outstanding liability	\$2,000	
	Total liability April 1-27	<b>\$10,000</b>	<b>(High Point)</b>
April 16-30	Due May 14	\$7,500	
May 1-14	Outstanding liability	\$1,000	
	Total liability April 16–May 14	\$8,500

## Options for Entering the Wine Industry

**“Stand Alone” Bonded Winery:** Some people dream of owning their own winery and producing wine for sale. They will qualify with TTB as a Bonded Winery. This qualification (generally registration under the Internal Revenue Code and issuance of a Basic Permit) allows a specific entity (example: a corporation) to conduct a specific activity (example, producing wine) at a specific location (the given address).

**Alternating Proprietor:** Others would also like to make wine for commercial purposes, but are not interested in building or buying a winery of their own. These companies find that sharing a winery facility with other companies will suit their purposes, and will qualify with TTB as an Alternating Proprietor winery. Each alternating proprietor must separately qualify, just as a stand-alone winery does, including obtaining their own registration, basic permit and bond, and maintaining their own records. This alternating proprietorship qualification is also specific to an entity, activity and location.

**Custom Crush Client (Wholesaler):** Still others have grapes or other winemaking materials that they would like to have made into wine, but would prefer that someone else make the wine for them. These companies are Custom Crush Clients, and will qualify as Wholesalers. The Bonded Wineries that produce the wine for the Wholesalers are known as “custom crushers.” The winery produces the wine, obtains the label approval and pays taxes on the wine; the client receives fully finished, bottled, labeled wine on which the Federal excise tax has been paid.

**Bonded Wine Cellar:** Some companies will qualify with TTB as a Bonded Wine Cellar, which is a bonded storage warehouse established to store, blend, or bottle untaxpaid wine. (Note: The Internal Revenue Code identifies all premises where untaxpaid wine operations take place as “bonded wine cellars” and those premises where wine is produced as “bonded wineries.” For the purposes of this list, the term “bonded wine cellar” is used to identify those premises which store, blend, or bottle untaxpaid wine, but do not produce wine.)

## **Alternation of Wine Premises as a Brewery, Distilled Spirits Plant and/or Taxpaid Wine Bottling House**

27 CFR 24.135

If you wish to alternate the use of the bonded wine premises as a brewery, distilled spirits plant or taxpaid wine bottling house, you must submit the following:

- Amended Form 5120.25 with description of new operations
- Diagram of premises
- Consent of Surety Form 5000.18 to cover winery premises alternation
- Original Brewery, Distilled Spirits Plant, and/or TPWBH application

## **Alternation of Wine Premises as a Distilled Spirits Plant for Alcohol Reduction of Wine**

[http://www.ttb.gov/wine/reduction\\_wine.shtml](http://www.ttb.gov/wine/reduction_wine.shtml)

When a bonded winery proprietor wishes to reduce the ethyl alcohol content of wine, certain processes are authorized by wine regulation 27 CFR 24.248, *Processes Authorized for the Treatment of Wine, Juice, and Distilling Materials*. The approved processes include Reverse Osmosis, the Spinning Cone Column and osmotic transport.

Although these processes are used to facilitate the creation of a wine product, they must be conducted on Distilled Spirits Plant (DSP) premises. The wine may be transferred in bond to a DSP for processing and returned to the winery, or the winery proprietor may wish to have the process conducted at the winery facility.

If the alcohol reduction is to take place at the winery facility, the proprietor of the bonded winery must first qualify to alternate the use of bonded wine premises as a DSP. Once qualified to alternate the premises as both a winery and DSP, the alcohol reduction may be conducted on DSP bonded premises. When the process is completed, the space and equipment can revert to winery use.

## Alternating Proprietors At Bonded Wine Premises

[http://www.ttb.gov/industry\\_circulars/archives/2003/ic2003\\_07.html](http://www.ttb.gov/industry_circulars/archives/2003/ic2003_07.html)

To Wine Premises Proprietors and Others Concerned:

### What is the purpose of this circular?

This circular announces the policy of the Alcohol and Tobacco Tax and Trade Bureau (TTB) with respect to the qualification of alternating proprietors and related issues affecting alternating proprietors, such as the small domestic producers' credit and the separation of operations.

### Background.

As a result of the Homeland Security Act of 2002, the revenue collection function and certain other duties of the Bureau of Alcohol, Tobacco and Firearms (ATF) were transferred to TTB. In this circular, "we" refers to TTB. Sections 7805 and 5041(c) of the Internal Revenue Code of 1986 (the IRC) authorize the Secretary of the Treasury (the Secretary) to administer the tax and qualification requirements for producing wine, including the qualification requirements for the small producers' wine tax credit. Sections 103-106 and 117 of the Federal Alcohol Administration Act (the FAA Act), 27 U.S.C. 203-206 and 211, authorize the Secretary to carry out the provisions of the FAA Act with respect to qualification of wine producers and blenders, and labeling of wine. The Secretary has delegated these functions to TTB. Regulations in 27 CFR part 4 cover the labeling requirements under the FAA Act and regulations in 27 CFR part 24 cover the production, removal, taxpayment and tax credit requirements under the IRC. In these regulations, TTB sets out qualification requirements, including those for qualifying alternating proprietorships and for qualifying for the small domestic producers' wine tax credit for which certain alternating proprietors may be eligible.

### What is an "alternating proprietorship?"

An "alternating proprietorship" is a term we use to describe an arrangement where two or more persons take turns using the physical premises of a winemaking facility. In most situations, the proprietor of an existing bonded wine premises (the "host" proprietor) agrees to rent space and equipment to a new ("tenant") proprietor. This allows existing wineries to use excess capacity and gives new entrants to the wine business an opportunity to begin on a small scale without investing in equipment.

ATF recognized the need to formalize these arrangements after discovering that winery proprietors were allowing unqualified outside individuals to use crushing and fermentation equipment on their premises. In the mid-1980's, ATF began approving alternate methods and procedures to allow two qualified proprietors to alternate the use of parts of a wine premises and, in 1990, ATF added §24.136 to its regulations to specify procedures for alternating proprietors.

### **Why is TTB issuing this circular?**

We are issuing this circular because we and ATF received many inquiries regarding the qualification of alternating proprietors at existing wine premises. In some cases, we or ATF denied applications to establish alternating proprietorships or approved such applications only after applicants modified their premises. Applicants and their representatives questioned these actions, which they claimed were not always consistent. This apparent inconsistency was a result of the fact that authority to approve or disapprove a premises had been delegated to local ATF Area Supervisors. As a result, it may have appeared that some ATF or TTB offices did not authorize arrangements that were acceptable in other jurisdictions.

### **What are TTB's concerns?**

As we consider applications from alternating proprietors, we have several areas of concern:

#### **Need for permit**

In some wine premises, there are numerous alternating proprietors.

Some applicants for alternating wine premises proprietorships had been "custom crush" customers of the host proprietor, meaning they provided the raw materials and possibly some instructions on the type of wine to be made to the producing winery, but did not participate in the winemaking process. The customer qualified as a wholesaler and received the finished, bottled wine to sell. In many cases, there is no change in the arrangements between the winemaker and the customer, yet the customer seeks to qualify as a tenant proprietor.

Other applicants for alternating proprietorships at an existing wine premises were wholesale customers who had even less involvement in the winemaking process.

In some of the agreements intended to establish alternating proprietorships, those seeking to become tenant proprietors agree that they will have no access to the wine premises and that all production will be done by employees of the host proprietor.

### **Eligibility of alternating proprietors for small domestic producers' wine tax credit**

This question is really separate from qualification, but some applications for alternating proprietorships appear to be efforts to split the production of one large proprietor into several smaller businesses in order to obtain the credit.

In 1990, the IRC was amended to provide a tax credit to benefit proprietors who produce less than 250,000 gallons of wine per year. The full credit of 90 cents per gallon on the first 100,000 gallons removed is available to a producer of less than 150,000 gallons of wine per year. Between 150,000 and 250,000 gallons of production, the credit is gradually phased out. The IRC gives the Secretary authority to make regulations on this credit, including rules to prevent the credit from benefiting a large producer and to assure reduction of the credit for persons who qualify as small producers but produce more than 150,000 gallons of wine per year.

Under the eligibility requirements for the tax credit, groups of producers under common control must share the credit as a single producer. TTB has the responsibility to collect all the wine excise tax that is rightfully due, and we must avoid the potential for abuse of the credit in alternating proprietorship arrangements.

### **Suitability of the premises for sharing; awareness of the importance of keeping all parties' wine separated and identified**

Our field officers have encountered difficulty in locating movable tanks assigned to alternating proprietors and have discovered instances where the host proprietor, as the designated recordkeeper of the tenant proprietor, neglects to record removals of wine on behalf of the tenant proprietor, resulting in underpayment of taxes. These and other difficulties arise from the lack of separation of physical and recordkeeping operations between the host and tenant proprietors.

### **Policy**

While we recognize the benefits of national consistency in the standards for handling applications for alternating proprietors, those standards must not compromise our mission to protect the revenue, protect the public, and promote voluntary compliance. Accordingly, we will continue to evaluate each application on its individual merits, including the physical layout of the wine premises to be shared, the compliance and business history of each applicant, and the likelihood that the alternation will take place without administrative difficulty, jeopardy to the revenue, or consumer deception. We are, however, changing our policy and procedure in a number of ways to address industry concerns about consistency and to give greater flexibility to proprietors just entering the wine business.

Previously, the ATF Area Supervisor was the deciding official on the suitability of premises under alternation agreements. Now, in TTB, the sole official authorized to approve alternating proprietor applications is the Chief, National Revenue Center (NRC). The Chief, NRC, will use the general guidelines below and apply them uniformly in evaluating applications for alternating proprietorships. These guidelines will be used collectively (and not separately) to determine whether an applicant qualifies as an alternating proprietor:

We may require a copy of the contract between the host and tenant proprietors, a business plan, or other information in support of an application for an alternating proprietorship. We will consider the tenant proprietor's business history (is the tenant proprietor a grower, a winemaker or a retail grocery chain?), plans for development of future winery assets, and level of commitment to the business as evidenced by investment in vineyards or other permanent assets. Marketing investment will not be considered for alternating proprietor qualification.

An applicant to become a tenant proprietor must qualify as a bona fide bonded wine premises proprietor. The primary contract between the tenant and the host proprietors should be for rental of space and equipment, and not for gallons of wine produced. If the contract shows the applicant is having wine custom made, for example, with no supervision or control over the operation, we will not approve the application.

The contract between a tenant proprietor and a host proprietor may include the services of the host proprietor's cellar employees. The tenant proprietor must direct and be fully responsible for those things that are usual and customary for the production, bottling and storage of wine (as applicable) and the managing of the business. If a prospective tenant proprietor contracts to hire the host proprietor's winemaker, the application will be subject to additional scrutiny. We will look to factors of authority and control to make a determination whether the tenant proprietor will run a bona fide and independent bonded wine premises operation regardless of the sharing of equipment.

The agreement between the host proprietor and the prospective tenant proprietor must allow the tenant proprietor to have reasonable access to the premises and to the wine.

The shared premises must be set up in such a way that the bonded areas of the host and tenant proprietors are clearly defined by partitions, signs, or other means while the alternating proprietors are active, and provide sufficient protection of the revenue. The Chief, NRC may require the host and tenant proprietors to take additional steps to identify or separate the areas before approving the application.

We have reexamined our previous position that there must be a part of the premises that stays under the control of each alternating proprietor at all times. In the past, we held that a core premises had to exist for each alternating proprietor, even if the

alternator anticipated no winery operations for a period of several months and had no wine to account for. This holding was based on the idea that, since the bond remained active, it should attach to a physical location. That physical location, or core premises, would form the basis of any future extension of premises covered by the bond. We have decided that the entire bonded premises may revert to the host proprietor, if the tenant proprietor transfers or removes all wine before curtailing its premises. We must, however, be able to examine the tenant proprietor's records, even during a curtailment of the tenant's premises. The tenant proprietor may obtain approval of an alternate method or procedure to maintain records at a separate and permanent business office address (other than the host proprietor's premises) where TTB may contact the proprietor and review records during business hours.

Wineries currently qualified with other arrangements will not be asked to change their arrangements unless we encounter difficulties resulting from those arrangements. The Chief, NRC, may require more identification or separation of alternating areas in any approved operation on a finding that the approved premises do not provide adequate separation and protection of the revenue. Existing alternating proprietorships will also be subject to the same level of scrutiny as newly approved arrangements, specifically relating to tax payments and accountability.

Existing alternating proprietors who change locations within one year of the date of this circular may elect to maintain their qualification under the old criteria (including the requirement for permanent premises). They may exercise this option by filing a written statement with their application for a change in location. The statement should include the date of original qualification (prior to the date of this circular). Any application for a change in location that does not include such a statement will be evaluated under the new criteria, and all applications filed more than one year after the date of this circular will also be evaluated under the new criteria. New applications and requalifications due to changes in ownership or control will be evaluated under the new criteria.

In addition to the qualification and tax issues discussed above, we wish to remind proprietors that alternating proprietorships are conducted under an approved alternation plan that describes the area to be used by each proprietor when that proprietor is active. The host proprietor must not change the portion of the premises assigned to the tenant proprietor on an approved alternation plan without notice to the tenant proprietor and the Chief, NRC. We also wish to remind alternating proprietors of the potential label effects of certain practices common in alternating proprietor arrangements: for example, if wine is transferred in bond to another proprietor, even if the wine remains in the same physical location, the producer would not be able to make an "estate bottled" claim on the label.

In the future, we may undertake rulemaking on alternating proprietors. If we do, any final rule on the subject will supersede this circular, with appropriate transition rules.

TTB recognizes that alternating proprietor arrangements may be undertaken for many reasons. For instance, a tenant proprietor may qualify as a bonded wine premises proprietor to obtain privileges under State law that are not available to wholesalers. As a result, a qualified alternating proprietor may or may not be a producer eligible for the small domestic producers' wine tax credit. This credit was intended to encourage small new businesses to enter the wine industry. We plan to continue to review alternating proprietor arrangements to ensure that proprietors who take the credit are entitled to it and that the facility where the wine is made is used by small and independent producers. We may instruct proprietors to adjust their taxes if we find the credit was taken in error.

## **TTB Wine FAQ #11: What are the Federal Requirements for “Custom Crush” Clients and Winemakers?**

<http://www.ttb.gov/wine/faq.shtml#w11>

In a typical custom crush arrangement, a grape grower or any person with winemaking materials (the “client”) enters into a contract with a bonded winery proprietor to have the grapes processed into wine. The client retains title to the grapes, and the wine is made to the client’s specifications. The finished wine is returned to the client for sale to other dealers, or the winery sometimes sells the wine on behalf of the client. TTB has received questions about the regulatory responsibilities of the custom crush client and the wine producer.

The custom crush client may be required to obtain a Federal Wholesaler’s Basic Permit from TTB. This permit allows the client to engage in the business of purchasing wine for resale at wholesale, in accordance with the Federal Alcohol Administration Act at 27 U.S.C. 203(c)(1) and 27 CFR 1.22. Although the client is specifically paying for the producer’s services, the client has purchased wine (within the broad meaning of the term) at the price set in the agreement. If the client engages in activities normally associated with wholesaling, such as setting the price for the wine, determining which dealers will be sold the wine, and controlling and paying for advertising of the product, the client must have a wholesaler’s basic permit. If, however, the client merely receives the proceeds from the sale by the winery of the resulting wine, a permit would not be required.

In addition to the basic permit requirement, the custom crush client who engages in the business of selling wine must submit the Special Occupational Tax Registration Form 5630.8R as a wholesaler if the wine is offered for sale to other dealers, or as a retailer if the wine is only offered for sale to consumers.

Bonded winery proprietors must ensure that the receipt of winemaking materials and the ensuing activities associated with the production of custom crush wine is properly recorded. TTB reminds the industry that wine produced for custom crush clients carries the same regulatory requirements for recordkeeping, reporting, labeling and taxation as wine made for the winery itself.

The bottling winery is responsible for obtaining an appropriate Certificate of Label approval, and the wine premises which releases the wine to the client is responsible for payment of federal excise tax at the rate appropriate for the producing winery. For the purposes of determining eligibility for the Small Domestic Producer’s Credit, all wine produced for clients must be included in the production and removal calculations (see 27 CFR 24.278-9).

## **TTB Wine FAQ #4: What are the Federal Guidelines for Home Winemakers' Centers?**

<http://www.ttb.gov/wine/faq.shtml#w4>

The Alcohol and Tobacco Tax and Trade Bureau (TTB) has been asked if there are any Federal requirements covering operation of a Home Winemakers' Center. Home Winemakers' Centers are places where an individual pays a fee to use space and equipment to make wine for personal or family use.

Although we refer to the individual making wine for personal or family use as a "home winemaker," the wine may be made somewhere other than the individual's residence, including a Home Winemakers' Center. We find that a Home Winemakers' Center may operate without qualifying under federal rules as a bonded wine cellar or paying federal excise tax on wine produced at the Center by individuals under the following conditions:

### **Compliance with State and local law**

The ability to produce wine for personal or family use and without payment of tax under Federal law does not authorize production of wine by individuals or operation of a Home Winemakers' Center in violation of State or local law. The operator of a Home Winemakers' Center must learn and comply with any permit, license or tax requirements of State and local law and conduct operations in compliance with State and local law.

### **Use by qualified individuals**

The customers who make wine at the center must be qualified to produce wine for personal or family use under federal, State and local rules. If State and local rules impose different requirements or limitations than the federal rules noted here, the stricter rules and limits should be applied. Under Federal law, any adult may, without payment of tax, produce wine for personal or family use under regulations in 27 CFR 24.75, which provide the following:

- The individual must follow applicable State and local laws.
- The individual must be 18 years of age or the legal age to purchase wine in the locality whichever is older.
- The individual may produce, without payment of tax, per household, up to 100 gallons of wine per calendar year if there is one adult residing in the household, or 200 gallons if there are two or more adults residing in the household.
- The individual may remove wine from the place where it is made for personal or family use, including use in contests or tasting.
- The individual may not produce wine for sale or offer wine for sale.

**Non-commercial use**

The operations must never "cross the line" to commercial production or sale of wine. Proprietors and employees of Home Winemakers' Centers:

- May furnish space, equipment, ingredients, bottling supplies and advice to customers.
- May provide certain assistance to customers including:
  - Moving containers of wine between storage areas.
  - Cleaning, maintenance, and repair of equipment.
  - Climate and temperature control.
  - Disposal of wastes.
  - Quality control (including laboratory analysis and tasting of wine for quality control purposes).
- May not provide physical assistance to, or on behalf of, customers in the production, wine, add ingredients to wine, or provide other physical assistance in producing or bottling wine.
- May not provide non-tax paid wine to customers or prospective customers for sampling or other reasons.

Operation of a Home Winemakers' Center in a manner contrary to the conditions outlined may cause the facility to be considered a commercial winery, subject to all statutory and regulatory provisions relating to winery operation, including registry requirements and possible liability for back taxes.

Under some circumstances, a TTB qualified bonded wine cellar may operate a Home Winemakers' Center. All wine produced at a Home Winemakers' Center on wine premises is taxable under Federal law and is subject to other requirements.

## TAXPAID REMOVALS

The regulations pertaining to taxpaid removals of wine products are found in the Internal Revenue Code at 26 U.S.C. 5041 and in the Wine Regulations, 27 CFR 24.270-.279 and 27 CFR 24.310:

- 24.270 Determination of tax.
- 24.271 Payment of tax by check, cash, or money order.
- 24.272 Payment of tax by electronic fund transfer.
- 24.273 Exception to filing semi-monthly tax returns.
- 24.274 Failure to timely pay tax or file a return.
- 24.275 Prepayment of tax.
- 24.276 Prepayment of tax; proprietor in default.
- 24.277 Date of mailing or delivering of returns.
- 24.278 Tax credit for certain small domestic producers.
- 24.279 Tax adjustments related to wine credit.
- 24.310 Taxpaid removals from bond record.

[http://www.ttb.gov/wine/wine\\_regs.shtml](http://www.ttb.gov/wine/wine_regs.shtml)

### **Attachment, Determination, Payment**

- The tax value of the wine is attached when the wine is produced. (26 U.S.C. 5041)
- The amount to be paid is determined when wine is removed from bonded premises for consumption or sale. (27 CFR 24.270)
- Wine excise tax is paid semi-monthly, quarterly or annually. (27 CFR 24.271, .273)

### **When is Wine “Produced?”**

In accordance with wine regulation 27 CFR 24.176(b), wine is declared produced upon completion of fermentation or removal from the fermenter. At that point the volume of wine is to be accurately determined, recorded and reported on TTB Form 5120.17, Report of Wine Premises Operations, as wine produced. An alcohol test should be conducted to accurately determine the tax class of the wine.

## Taxpaid Removals from Bond Record

27 CFR 24.310

When wine is removed from a bonded winery or bonded wine cellar for consumption or sale, a record must be kept which contains the information listed below. The Taxpaid Removals from Bond Record may be a compilation of source documents OR a summary record.

- Date of Removal
- The name and address of the person to whom removed; however, on any individual sale of less than 80 liters, the name and address of the purchaser need not be recorded
- The volume, kind (class and type), and alcohol content of the wine
- When removing taxpaid bulk wine to another wine premises, shipping record will be prepared in accordance with 27 CFR 24.281
- Volume of wine removed taxpaid will be summarized daily by tax class in wine gallons to the nearest tenth gallon

An invoice containing the information listed above is a common removal record.

Here is an example of an individual invoice that has all of the necessary information required for the Taxpaid Removal from Bond Record. The amount removed from bond is extended to five decimal places on individual invoices. The total volume removed for the day is rounded to the nearest 10<sup>th</sup> of a gallon on the daily summary.

## Current Members of the European Union

The European Union (EU), also referred to as the European Community (EC), requires that a document known as the “VI-1” (Document for the Importation of Wine, Grape Juice or Must into the European Community) be used when you export wines to the EU. If you export wine to any of the countries listed below, you must complete the VI-1 form.

Austria  
Belgium  
Bulgaria  
Cyprus  
Czech Republic  
Denmark  
Estonia  
Finland  
France  
Germany  
Greece

When wine is exported out of the United States without payment of tax, Form 5100.11 with proof of export must be submitted to TTB. Industry Circular 2004-3 gives the guidelines for requesting permission to maintain these documents at the wine premises.

	<b>Tax Period</b>	<b>Amount Due</b>	<b>Due Date</b>

\* Due date for the 2<sup>nd</sup> period in September for non-EFT taxpayers is Sept. 29<sup>th</sup> *in 2008*, in accordance with 27 CFR 24.271(c)(3).

## Payment by Electronic Fund Transfer

 27 CFR 24.272

Some companies are required to pay their wine excise taxes by electronic fund transfer (EFT) rather than by check or other forms of payment.

- EFT is required if the gross amount of wine excise tax liability was \$5 million or more during the previous calendar year.
- The gross liability includes all domestic taxable removals and the tax on imported wine, before consideration of refunds, credits or drawback.
- The gross liability of all members of a controlled group are considered, and all members of a controlled group required to EFT must make tax payments by EFT.

See Procedure 91-1, "TTB Procedure for Payment of Tax by Electronic Fund Transfer," for detailed guidance on filing taxes by EFT.

<b>Notice to Customers Making Payment by Check</b> If you send us a check, it will be converted into an electronic funds transfer (EFT). This means we will copy your check and use the account information on it to electronically debit your account for the amount of the check. The debit from your account will usually occur within 24 hours, and will be shown on your regular account statement. You will not receive your original check back. We will destroy your original check, but we will keep the copy of it. If the EFT cannot be processed for technical reasons, you authorize us to process the copy in place of your original check. If the EFT cannot be completed because of insufficient funds, we may try to make the transfer up to 2 times.

## **Small Domestic Producer Credit**

26 U.S.C. 5041(c); 27 CFR 24.278-279

### **Who is Allowed to Use the Small Domestic Producer Credit?**

Domestic producers of not more than 250,000 wine gallons during a calendar year are allowed up to 90 cents per gallon on the 1<sup>st</sup> 100,000 wine gallons of wine (other than sparkling wines) which are removed during the same year for consumption or sale. The credit on hard cider is up to 5.6 cents per gallon, rather than 90 cents per gallon.

### **What figures are used to determine how much wine was produced?**

The amount of wine produced for small domestic producer credit purposes is the total of the amount produced by fermentation plus any volume increases due to wine produced by amelioration, wine spirits addition, sweetening, production of a formula wine, sparkling wine, and wine produced by the same company outside the United States.

### **When does a wine taxpayer use less than 90 cents per gallon credit?**

If the amount of wine produced during the year exceeds 150,000 wine gallons, the credit is reduced by 1% for every 1,000 wine gallons of wine produced in excess of 150,000 wine gallons.

**How is the credit used by Controlled Groups?** The production and removal of wine by all members of a controlled group are added together when determining if the Small Domestic Producer Credit may be used.

**Can the credit be transferred to another taxpayer?** The credit may be transferred to another taxpayer as long as the transferring (sending) winery would be eligible to use the credit if it paid the tax itself, produced the wine, holds title to the wine, and provides the taxpayer with sufficient information to pay the tax correctly using the credit.

## Small Domestic Producer Credit Production Levels

 26 U.S.C. 5041(c) and 27 CFR 24.278-.279

The amount of small domestic producer credit a company may use depends upon the amount of wine produced each calendar year:

<b><u>If Production is:</u></b>	<b>=</b>	<b><u>Credit Available Per Year is:</u></b>
150,000 gallons or less	=	\$ .90 per gallon on first 100,000 gallons taxably removed per calendar year (Exception: transferred credit)
Over 150,000 to 250,000	=	\$ .89 - \$ .01 per gallon on first 100,000 gallons taxably removed per calendar year. See chart on next page for the effective tax rates. (Exception: transferred credit)
More than 250,000 gallons	=	None available (Exception: transferred credit)
No Production	=	None available (Exception: transferred credit)

- The production and removals of all members of a controlled group are added together to determine how much wine was produced and removed by the company as a whole each calendar year.
- All removals beyond 100,000 gallons each year calendar year must be tax paid at the full tax rate.
- Credit is NOT available on the taxable removal of Sparkling Wine.

If more than 150,000 gallons, but not more than 250,000 gallons, are produced, the credit is reduced by 1% for every 1,000 gallons produced:

## **What are the Rules for Transferring Small Domestic Wine Producer's Tax Credit?**

26 U.S.C. 5041(c)(6) and 27 CFR 24.278-.279

Many small wine producers with limited space at their own wineries elect to transfer wine to other bonded wine premises (often commercial bonded wine cellars, or "BWCs") for storage and distribution. Small wineries often pay the excise tax on their wine before shipping it to a BWC, in order to make use of the Small Domestic Producer's Tax Credit. Under certain conditions, small wine producers have the option of transferring the use of their credit to other bonded wine premises, to be used when their wine is removed for consumption or sale (tax paid).

### **Who is eligible for the Small Domestic Producer's Credit?**

Producers of not more than 250,000 gallons of wine per calendar year are eligible for a credit which lowers the tax due on the first 100,000 gallons of wine taxably removed each calendar year.

Non-producing wine premises and companies which produce more than 250,000 gallons per year are generally not eligible to use the Small Domestic Producer's Credit when making taxable removals from their bonded premises. The exception is when the credit is transferred by an eligible small producer to another taxpayer (a "transferee"), to be used on its behalf. A transferee is often a Bonded Wine Cellar (BWC), but it may be any bonded wine premises.

### **What wine is eligible for transfer of the Small Domestic Producer's Credit?**

Credit may be transferred on wine (other than champagne or other sparkling wine) which was produced by a winery that is eligible for the credit.

### **When may a winery transfer its credit to another taxpayer?**

There are five conditions which must be met before a transferee may use credit on behalf of an eligible small wine producer. All conditions must be met.

- The wine produced by the winery would be eligible for the small domestic producer tax credit if removed from the producer's own premises.
- Wine is removed by the transferee, who is liable for the tax.
- The producer holds title to the wine at time of taxable removal.
- The producer provides to the transferee the information that is necessary to properly determine the transferee's credit.
- The removal is within the first 100,000 gallons taxably removed during the calendar year by the small winery and/or on behalf of the small winery.

### What information should be sent to the transferee?

The transferee (receiver/taxpayer of the wine) needs enough information to properly determine how much credit to take. A written statement that includes the following would meet that need:

- The names of the producer and the transferee;
- The quantity and tax class of wines to be shipped;
- The date the wine is to be removed from bond for consumption or sale;
- Confirmation that the producer is eligible for credit and the credit rate to which the wine is entitled (e.g., in the case of a blended wine, the percentage of wine, if any, that was not produced by the producer and is thus not eligible for the credit); and
- Confirmation that the shipment is within first 100,000 gallons removed by (or on behalf of) the producer for the calendar year.
- If not 100%, the percentage eligible for the credit

### How is the Excise Tax Return Prepared?

The transferee uses that information to report and pay the taxes due. Here is an example of how to complete Schedule B of the Excise Tax Return, Form 5000.24, that shows how the tax to be paid was determined:

The names of the producers for whom credit is being taken  
 Their credit rates  
 The total credit taken on behalf of each

#### **Example of Schedule B**

SCHEDULE B - ADJUSTMENTS DECREASING AMOUNT DUE		
EXPLANATION OF INDIVIDUAL ERRORS OR TRANSACTIONS	AMOUNT OF ADJUSTMENTS	
(a)	(b) TAX	(c) INTEREST
30. ABCD Cellars 2,377.5 gallons @ \$.90 credit	\$ 2,139.75	\$
31. XYZ Vineyards, 59.4 gallons @ \$ .72 credit	\$ 42.77

34. TOTAL ADJUSTMENTS DECREASING AMOUNT DUE (Line 33, Col (b) + (c)) Enter here and on line 20.		\$ 2,182.52

### **What does the producing winery show on its Reports and Returns?**

The producing winery shows the transfer in bond to the transferee on its Report of Wine Premises Operations, Form 5120.17. It does not show the taxable removal on its tax returns or on its Report of Wine Premises Operations, Form 5120.17.

### **What does the transferee premises show on its Reports and Returns?**

The transferee shows the receipt of wine transferred in bond from the producing winery on its Report of Wine Premises Operations, Form 5120.17. When the producer asks the transferee to make the taxable removal with its credit, the transferee shows the taxable removal of the wine from its Report of Wine Premises Operations, Form 5120.17 and files a tax return, listing the removal as shown above.

### **What is the limit for making taxable removals using the Small Domestic Producer's Credit?**

The limit from all locations combined each calendar year is 100,000 wine gallons. The producer must keep track of all taxable removals being made on its behalf. After 100,000 gallons have been removed with credit from all locations, the producer's taxable removals must be made at the full rates (without credit) for the rest of the calendar year. This is why the transferee needs to receive written notice prior to each removal.

#### **If the producer blends wine into its wine that it did not produce, can credit still be taken?**

Yes and no. The credit is not transferable on wine which was not produced by the small producer. If wine was blended into the small producer's wine, the tax payment should be made at small producer's premises for full benefit of the credit.

The alternative is to notify the transferee in the written notice about the percentage of the wine which is ineligible for credit. The ineligible portion can then be taxpaid by the transferee at the full tax rate.

#### **Can the producer transfer credit on wine it produced for a custom crush customer?**

Yes, but only if the producer holds title to the wine at the time of removal from bond. If the custom crush customer holds title to the wine, the credit may not be transferred to another taxpayer. Accordingly, in order to get the benefit of the credit, the removal must be made from the producer's winery.

**How are increasing and decreasing adjustments shown on the Excise Tax Return?**

If, at the end of the calendar year, it is determined that the winery produced more wine than expected, making the credit rate which was used incorrect, all parties that have used the winery's small producer credit must make *increasing tax adjustments*.

Also, if the producer fails to produce any wine during the year, the taxpayers make an *increasing adjustment* during the last period of the calendar year.

If too much tax was paid on behalf of the producer, such as if the incorrect rate of credit was used, the transferees and any other taxpayers who used the winery's credit may file a claim on behalf of the producer. When the claim is approved by TTB, the taxpayers may make a *decreasing tax adjustment in the form of a credit, or request a refund*.

**Summary of "Who Should Do What..."**

1. Producer sends wine to transferee (i.e., BWC) with a transfer in bond record.
2. Producer shows wine has been transferred in bond on Form 5120.17.
3. Producer asks the transferee in writing to remove certain wine from bond.
4. Transferee shows taxable removal on its F. 5120.17 and pays the tax with producer's applicable credit rate.
5. Producer keeps track of how much wine has been taxably removed from any/all transferee facilities, keeping 100,000 total removals per year in mind.
6. Increasing or decreasing tax adjustments are made by the entities that taxably removed wine, and not the producer.

## Repeal of Special (Occupational) Tax on Alcohol Occupations

On August 10, 2005, President Bush signed into law the “Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users,” Public Law 109-59. Section 11125 of that act permanently repeals, **effective July 1, 2008**, the special (occupational) taxes on

- producers and marketers of alcohol beverages,
- manufactures of non-beverage products,
- users of tax-free alcohol, and
- users and dealers of specially denatured spirits.

Although the tax has been repealed, recordkeeping and registration requirements remain. Further, any tax liabilities that were incurred for periods before the law’s effective date remain and will be collected. (However, there is no liability for alcohol occupations, other than users of tax-free alcohol and users and dealers of specially denatured spirits, during the previously enacted 3-year tax suspension that runs from July 1, 2005, through June 30, 2008.)

Section 11125 of Public Law 109-59 does not affect any tobacco occupations; therefore,

- manufacturers of tobacco products,
- manufacturers of cigarette papers and tubes, and
- tobacco export warehouse proprietors

must continue to register and pay the special (occupational) tax every year. The registration and tax for these tobacco occupations is due before beginning business, and on or before July 1 of every year after that.

TTB plans to issue regulation amendments to implement the repeal before its July 1, 2008, effective date. Corresponding changes will be made throughout the TTB Website as appropriate.

## Wines Made From Out-of-State Fruit

27 CFR 4.39 and 27 CFR 24.314

Statements on labels must be truthful and supported by a complete and accurate audit trail. A wine is not entitled to have information stated on the label unless the information can be readily verified by a complete and accurate record trail from the beginning source material to removal of the wine for consumption or sale.

*Example 1:* Wine made by an Idaho winery by fermentation of juice from at least 75% Chardonnay grapes grown in Washington in 2006, could be labeled:

- 2006 Washington Chardonnay, produced/bottled by ID winery; or
- American Chardonnay, produced/bottled by ID winery

*Example 2:* Wine made by an Idaho winery by blending 25% wine produced by their own fermentation with 75% Chardonnay wine produced in Washington from 2006 grapes and shipped in bond, could be labeled:

- 2006 Washington Chardonnay, Vinted and bottled by ID winery; or
- American Chardonnay, Vinted and bottled by ID winery

*Example 3:* Wine made by an Idaho winery by fermentation of juice from less than 75% Chardonnay grapes grown in Washington in 2006 could be labeled:

- White Wine, produced and bottled by ID winery

*Example 4:* Wine made by an Idaho winery by fermentation of juice from at least 75% Chardonnay grapes grown in California in 2006, could be labeled:

- American Chardonnay, produced/bottled by ID winery

## Labeling Imported Bulk Wine

- 1) Bulk wine must be imported by the holder of a Federal Importer's Basic Permit.
- 2) For blends of American and foreign wines:
  - The percentage of foreign wine must be disclosed if any reference is made to presence of the foreign wine
  - The blend must conform to country of origin's requirements
  - If the blend is less than 75% American or Foreign, no appellation of origin, vintage or varietal designation may be shown
  - If the blend is at least 75% American
    - May be labeled with "American" and have a varietal designation
    - May be labeled with an appellation other than American, if:
      - Wine meets applicable percentage requirements (75% or 85%)
      - Wine is fully finished in labeled appellation
      - Wine conforms to laws and regulations of labeled appellation.
  - If the blend is at least 75% Foreign, the wine may be labeled with the Foreign appellation if the wine conforms to the requirements of the Foreign laws and regulations governing the composition, method of production, and designation of wines available for consumption within the country of origin
  - "Country of origin" label statement may be required on bulk wine imported and bottled in the U.S. (USCBP requirement)
- 3) For 100% Foreign Wine Bottled in the U.S.:
  - The wine may be labeled with foreign appellation of origin only if it meets appropriate percentage requirements for appellations under TTB's regulations, and it meets laws and regulations of the labeled appellation of origin.
  - If the wine is **not** labeled with an appellation, it may not be labeled with a vintage or varietal designation.
  - "Country of origin" label statement may be required on bulk wine imported and bottled in the U.S. (USCBP requirement)
- 4) Contact TTB's International Trade Division for further advice at (202) 927-8110.

## Organic Labeling

- ❖ The National Organic Program (NOP) is administered by the U.S. Dept. of Agriculture (7 CFR Part 205).  
See [www.ams.usda.gov/nop](http://www.ams.usda.gov/nop) for information on requirements.
- ❖ As of May 23, 2005, all organic labeling applicants who are certified by a USDA-accredited certifying agent (ACA) must obtain their ACA's review and approval of their organic labels prior to submission to TTB. Documented proof of ACA review must accompany the COLA when submitted to TTB.

Proof of ACA review will be accepted in the form of a letter or memorandum from the ACA, a copy of the alcohol beverage label signed and dated by the ACA, or the ACA's initials and the date may appear on the COLA itself.

This requirement supersedes the previous policy of TTB sending organic COLAs to USDA after being received from the applicant. Any such application received in TTB from a certified entity without proof of ACA review will be automatically rejected.

Industry Circular 2006-1

**Impact of the U.S./EU Wine Agreement on Certificates of Label Approval for Wine Labels with a Semi-Generic Name or Retsina**

To: Bonded Wineries, Bonded Wine Cellars, Taxpaid Wine Bottling Houses, Importers, and Others Concerned.

***Purpose***

This circular:

- Explains the intended change regarding who may use semi-generic names and Retsina on wine labels;
- Explains the expected conditions under which semi-generic names and Retsina may be used on non-EU wine labels;
- Provides guidance on how to submit applications for certificate of label approval (COLA) for wine labels that contain semi-generic names and Retsina; and
- Explains the qualification that appears on your COLA for wine labels with a semi-generic name or Retsina issued on or after March 10, 2006.

***Summary***

Following several years of negotiations, the United States and the European Union (EU) signed an agreement on trade in wine between the parties (“the Agreement”) on March 10, 2006. The Agreement addresses a wide range of issues regarding the production, labeling, and import requirements for wine that help to establish predictable conditions for bilateral wine trade. Most significantly for U.S. wine exporters, the Agreement replaces the temporary, short-term derogations the EU has been renewing since 1983 to allow the importation of U.S. wine made using practices not recognized by EU regulations. The Agreement also addresses semi-generic names of origin and the class designation Retsina when they are used on non-EU wine, that is, U.S. wine and wine from other non-EU countries that is sold in the U.S. You may view the full text of the Agreement via the [TTB Web site](#).

Note: As of the date of this circular, the EU is comprised of 25 member States. They are:

Austria	Latvia
Belgium	Lithuania
Cyprus	Luxembourg
Czech Republic	Malta
Denmark	Poland
Estonia	Portugal
Finland	Slovak Republic
France	Slovenia
Germany	Spain
Greece	Sweden
Hungary	the Netherlands
Ireland	United Kingdom
Italy	

### ***Semi-Generic Names***

The Internal Revenue Code of 1986 (IRC) at 26 U.S.C. 5388(c) defines each semi-generic name as a name of geographic significance that is also a designation of class and type for wine. The IRC further states that a semi-generic name may be used to designate wine of an origin other than that indicated by its name only if there appears, in direct conjunction with the designation, an appropriate appellation of origin disclosing the true place of origin and the wine so designated conforms to the standard of identity. The semi-generic names and the place of origin indicated by each name are:

Burgundy (France)	Malaga (Spain)
Chablis (France)	Marsala (Italy)
Champagne (France)	Moselle (France)
Chianti (Italy)	Port (Portugal)
Claret (France)	Rhine (Germany)
Haut Sauterne (France)	Sauterne (France)
Hock (Germany)	Sherry (Spain)
Madeira (Portugal)	Tokay (Hungary)

Note: Angelica is a semi-generic name for wine of U.S. origin; however, the Agreement does not affect its use, and it is not subject to any of the information in this circular.

### ***Retsina***

Retsina is a class of wine and is not a semi-generic name; however, under the terms of the Agreement, it is treated the same as the semi-generic names. Its origin is Greece.

### ***Background***

In the Agreement, the U.S. made a commitment to seek to change the legal status of the semi-generic names and of Retsina to restrict their use solely to wines originating in the applicable EU member state, with certain exceptions. Because the IRC specifically defines semi-generic names, this law must be changed in order to restrict the usage of the names to

wines originating in the EU. Assuming the law is so changed, the Agreement contains an exception to this rule. We refer to this exception as the “grandfather” provision. Under the “grandfather” provision, any person or his or her successor in interest may continue to use a semi-generic name or Retsina on a label of a wine not originating in the EU, provided the semi-generic name or Retsina is only used on labels for wine bearing the same brand name, or the brand name and the fanciful name, if any, that appear on a COLA that was issued prior to March 10, 2006.

Note: As of the publication date of this circular, the IRC has not yet been changed. The Alcohol and Tobacco Tax and Trade Bureau (TTB) will update this circular to reflect any relevant changes made to the IRC by statute.

### **Example**

In order to further your understanding of this issue we offer the following scenario. In this example it is assumed that:

- The wine conforms to the standard of identity for Sherry, and
- The law has been changed to conform to our commitment in the Agreement.

Company A produces “Smith Elegance California Cream Sherry.” On the label and corresponding COLA, the brand name is “Smith,” the fanciful name is “Elegance,” “Sherry” is the class and type designation and “California” is the labeled appellation of origin. (Sherry that is not from Spain must be labeled with an appellation of origin.)

- Under the “grandfather” provision, Company A may continue to use the semi-generic name “Sherry” on labels, provided they do not change the brand name or fanciful name as they appear on a COLA that was issued before March 10, 2006.

However:

- If Company A changes the brand name from “Smith” to “Jones,” the use of the semi-generic name “Sherry” is not “grandfathered” and is not permitted.
- If Company A continues to use the brand name “Smith” but changes the fanciful name from “Elegance” to “Robust,” the use of the semi-generic name “Sherry” is not “grandfathered” and is not permitted.
- If Company A continues to use the brand name “Smith” and the fanciful name “Elegance” and changes the appellation of origin from “California” to “Napa Valley,” the use of the semi-generic name “Sherry” is “grandfathered” and is permitted.
- If Company A continues to use the brand name “Smith” and the fanciful name “Elegance” and deletes “Cream,” the use of the semi-generic name “Sherry” is “grandfathered” and is permitted.
- If Company A sells the rights to *Smith Elegance California Cream Sherry* to Company B, all the same rights and restrictions apply to Company B or any future owner of the brand.

Note: It is sometimes difficult to identify the brand name and the fanciful name by simply viewing the label. If there is any question of eligibility for the “grandfather” provision, we will rely on the information that appears in the “Brand Name” and “Fanciful Name” fields on the COLA that was approved before March 10, 2006.

***COLAs with Semi-Generic Names or Retsina Submitted On or After March 10, 2006.***

In order to facilitate the review of COLAs for wine labels that contain semi-generic names or Retsina and for the U.S. to uphold its commitments in the Agreement, we instituted the following procedures and we ask for your cooperation. Providing the requested information assists us in processing your application in the timeliest fashion. Failure to provide the requested information may result in your application being rejected or returned for correction.

- If your COLA is for a “new” use of a semi-generic name or Retsina, that is, no COLA was issued before March 10, 2006, for this semi-generic name or Retsina that reflects the same brand name or brand name and fanciful name, if any, please attach a note to your application stating “This application is for a new use of the semi-generic name (specify name) or Retsina” (as applicable).

Note: Pending any change to the law, TTB will continue to approve “new” uses of the semi-generic names and Retsina. Please keep in mind that in order for the U.S. to meet its obligations in the Agreement, the Government must seek to change the law to limit the use of these names on non-EU wine to those brands that were in existence before March 10, 2006.

- If your COLA is for a “grandfathered” brand of semi-generic wine or Retsina, that is, there is a COLA issued before March 10, 2006, with the same semi-generic name or Retsina and the same brand name or brand name and fanciful name, if any, please include with your COLA application a copy of either the COLA that was issued before March 10, 2006, or a COLA with a qualification that confirms that it is for a “grandfathered” brand. We recognize that the COLA submitted in support of your application may not have been issued to your company. For example, if Company B purchased rights to Company A’s “grandfathered” brand name, Company B may submit a copy of Company A’s COLA to support its application.

**Qualifications on COLAs**

In order to provide you with guidance and information about your labels, we apply a qualification to COLAs with semi-generic names and Retsina issued on or after March 10, 2006. We desire to give applicants for “new” uses, that is, for brands for which no COLA was issued prior to March 10, 2006, advance notice that the U.S. Government is committed to seeking a change in the law regarding the use of these names that may affect the labels on the COLA. Qualifying COLAs for “grandfathered” brands helps to streamline the review of future COLA submissions for these brands.

- COLAs for “new” uses of the semi-generic names or Retsina are qualified:

“As per the Agreement Between the U.S. and EU on Trade in Wine, the U.S. is seeking to change 26 U.S.C. 5388(c) regarding the use of semi-generic names and Retsina to limit their use to wine solely from the applicable EU member country unless used on a COLA before March 10, 2006. If enacted, this change will result in this certificate being revoked by operation of law (27 CFR 13.51).”

- COLAs for “grandfathered” brands that use a semi-generic name or Retsina are qualified:

“Approved under the “grandfather” provision of the Agreement Between the U.S. and the EU on Trade in Wine.”

## COLAS REVOKED FOR CERTAIN SEMI-GENERIC NAMES

Washington, D.C. - On March 10, 2006, the U.S. and the European Union (EU) signed an Agreement on Trade in Wine in which the U.S. committed to seek to change the legal status of certain semi-generic names to restrict their use solely to wine originating in the applicable EU member state, except as provided for under a "grandfather" provision. These names, along with Retsina, are: Burgundy, Claret, Chablis, Champagne, Chianti, Malaga, Marsala, Madeira, Moselle, Port, Rhine Wine or Hock, Sauterne, Haut Sauterne, Sherry, and Tokay. The "grandfather" provision excepts certain non-EU wines labeled with a semi-generic name or Retsina provided the applicable label was approved on a certificate of label approval (COLA) or certificate of exemption issued before March 10, 2006. For more details, see TTB Industry Circular 2006-1 on our web site at [www.ttb.gov](http://www.ttb.gov).

A legislative proposal that will effect the change in legal status of the EU semi-generic names and Retsina was included in Tax Relief and Health Care Act of 2006 that was enacted on December 20, 2006. Enactment of this legislation means that any COLA or certificate of exemption for a non-EU wine with a semi-generic name or Retsina that was not approved under the "grandfather" provision is subject to immediate revocation by operation of law.

How can you tell if your COLA or certificate of exemption is subject to revocation? You can tell by the qualification statement that appears on the COLA or certificate of exemption. Beginning March 10, 2006, the Alcohol and Tobacco Tax and Trade Bureau (TTB) earmarked those COLAs and certificates of exemption that would be affected if the legislative change occurred by qualifying them with the statement:

"As per the Agreement Between the U.S. and EC on Trade in Wine, the U.S. is seeking to change 26 U.S.C. 5388(c) regarding the use of semi-generic names and Retsina to limit their use to wines solely from the applicable EU member country unless used on a COLA prior to 03/10/2006. If enacted, this change will result in this certificate being revoked by operation of law (27 CFR 13.51)."

As a result of the recently-enacted law further use of any COLAs or certificates of exemption bearing the above qualification by TTB must cease. However, products which have been bottled or imported before December 20, 2006, may still be removed from bond.

Questions regarding this issue should be directed to the Advertising, Labeling and Formulation Division (ALFD). ALFD can be reached at (202) 927-8140 or toll free at 1-(866) 927-2533 or by e-mail at [ALFD@TTB.gov](mailto:ALFD@TTB.gov).

## Bottled or Packed Wine Record

27 CFR 24.308

A proprietor who bottles, packs or receives bottled or packed beverage wine in bond must maintain a record by tax class. The parts of 27 CFR 24.308 that usually pertain to bonded winery operations require that the following information be recorded:

- The date of the transaction
- The tax class, kind of wine, number and size of bottle filled
- The volume of wine bottled
- The volume of bottled wine received in bond, transferred in bond, taxpaid, dumped to bulk, used for tasting and testing
- The quantity recorded as breakage
- The label used on bottles or other containers will be shown by using the "Applicant's Serial No." which appears on Item 2 of the label approval Form 5100.31 or a similar system which will allow for verification of labels used on containers
- The fill and alcohol tests required by 27 CFR 24.255 (*See next page...*)
- Records have sufficient detail to justify tax credit for Small Producers under the provisions of 26 U.S.C. 5041(c)

## Bottling or Packing Wine

### 27 CFR 24.255

(a) General. Proprietors of a bonded wine premises and a taxpaid wine bottling house premises shall be held strictly responsible for the correct determination of the quantity and alcohol content of wine removed. As required by Sec. 24.170, appropriate and accurate measures and instruments for measuring and testing the wine will be provided at each wine premises.

(b) Bottle or other container fill. Proprietors of bonded wine premises and taxpaid wine bottling house premises shall fill bottles or other containers as nearly as possible to conform to the amount shown on the label or blown in the bottle or marked on any container other than a bottle;

but in no event may the amount of wine contained in any individual bottle, due to lack of uniformity of the bottles, vary from the amount stated more than 1.0 percent for 15.0 liters and above, 1.5 percent for 1.0 liter to 14.9 liters, 2.0 percent for 750 mL, 3.0 percent for 375 mL, 4.5 percent for 187 mL and 100 mL, and 9.0 percent for 50 mL;

and in such case, there will be substantially as many bottles overfilled as there are bottles underfilled for each lot of wine bottled. Short-filled bottles or other containers of wine which are sold or otherwise disposed of by the proprietor to employees for personal consumption need not be labeled, but, if labeled, need not show an accurate statement of net contents.

(c) Tax tolerance. The net contents of bottles or other containers of untaxpaid wine in the same tax class filled during six consecutive tax return periods, as determined from the bonded wine premises proprietor's fill test records, shall not vary by more than 0.5 percent from the net contents as stated on the bottles or other containers. The bonded wine premises proprietor is liable for the tax on the entire amount of wine in the same tax class when that wine is removed from bond, without benefit of tolerance, when the fill of bottles or other containers exceeds a 0.5 percent average of a period which consists of six consecutive tax returns, or when filling is not conducted in compliance with good commercial practice.

(d) Fill tests. The proprietor shall test at representative intervals wine bottled or packed during the bottling or packing operation of each bottling or packing line to determine if the wine contained in the bottle or other container is in agreement with that stated on the label, bottle, or other container.

(e) Alcohol tests. The proprietor shall test the alcohol content by volume to determine the tax class of the wine and to ensure the alcohol content to be stated on the label is in agreement with the requirement of Sec. 24.257.

## TTB Wine FAQ #8: What are the rules for transfer of unlabeled bottled wine?

 <http://www.ttb.gov/wine/faq.shtml#w8>

TTB has received inquiries about the transfer, labeling, recordkeeping and taxpayment of unlabeled bottled wine (sometimes called “shiners”).

When unlabeled bottled wine is transferred among two or more bonded wine premises for aging or labeling, the bottler must provide a copy of the approved Application For And Certification/Exemption of Label/Bottle Approval (COLA) TTB Form 5100.31 under which the wine was bottled. The transfer in bond record which accompanies the wine must be accurate and specific, and the label information record for the wine must fully support any claims made on the label to be affixed to the wine.

The responsibility for transferring accurate label information is not that of the producer alone; it is the responsibility of all holders of the wine from the time it is produced until it is removed from bond for consumption or sale.

Here are guidelines for the various parties that may be involved when unlabeled bottled wine is transferred among bonded premises:

**What are the responsibilities of the Producer?** The producer of the wine must ensure that the transfer in bond record required by 27 CFR 24.309 contains accurate and specific label information for all bulk wine shipped in bond (or taxpaid) to another premises for bottling. This allows the bottler to apply for a COLA and ensures that the product label is correct.

**What are the responsibilities of the Bottler?** The bottler obtains a COLA which can be substantiated by the transfer record which accompanied the wine from the producer. Unless the wine will be bottled at a taxpaid wine bottling house, the bottler will make sure that the wine to be bottled is received and maintained on bonded (not taxpaid) premises. The bottler maintains records in accordance with 27 CFR 24.308.

If the bottler transfers unlabeled bottled wine to another bonded premises for labeling, the bottler must send the wine in bond (untaxpaid) with the COLA under which the wine was bottled. If a different product label will be affixed, the bottler must obtain a correct COLA, and forward it to the premises where the label will be affixed. The transfer in bond record that accompanies the bottled wine must contain accurate and specific information which substantiates the product label, as specified by 27 CFR 24.309. However, if unlabeled bottled wine is transferred to another bonded premises for aging only, and will be subsequently returned to the bottler for the affixing of the product label, the COLA does not have to accompany the shipments.

To reiterate, an approved label which accompanies the wine must carry the minimum label requirements, but it might not be the label eventually affixed to the product. The label used to bottle the wine is sometimes referred to as the “generic” label. The bottler may apply for another COLA for a product label with specific label claims, as long as the claims are substantiated by the label information record requirements of 27 CFR 24.314.

**What does the Labeler receive from the Bottler?** The person who will affix the product label receives the unlabeled, untaxed bottled wine, the COLA for the product label to be affixed, and the transfer in bond record (27 CFR 24.309) which contains accurate and specific information which substantiates the label claims.

Only the bottler of the wine may apply for a COLA. If the owner of unlabeled bottled wine wants to label the wine with a label other than that which accompanied the wine, the bottler must be contacted, and the bottler must work with the owner to obtain an approved product label which is fully substantiated by the label information record for that wine.

**What if the bottler is unable to provide a COLA?** If the bottler of the wine is unable to obtain label approval for the wine to be labeled, the wine may only be labeled if it is dumped to bulk and re-bottled. It may be re-bottled when an appropriate COLA is obtained by the bottler. The label may not contain any information which is not fully supported by the label information record for the wine.

**What is the responsibility of the person who removes the wine from bond?** If the labeled wine is transferred in bond to another bonded wine premises for taxable removal, it must be accompanied by the transfer in bond record (27 CFR 24.309) which contains accurate and specific information which substantiates the label claims.

The person who pays the tax on the wine is the qualified proprietor of a bonded winery or bonded wine cellar, and not a wholesaler, wine broker, agent, negotiant, retailer, consumer or, necessarily, the actual owner of the wine. Bottled wine may not be removed from bond (i.e., tax paid) without a COLA and an approved product label being affixed.

**How long must the records be kept?** All records must be retained for a period of not less than three years from the record date or the date of last entry required to be made in the record, whichever is later. However, TTB may require records to be kept for a period of not more than three additional years, if deemed necessary.

## **Wine FAQ #14: May I use a winemaking kit for commercial wine production?**

<http://www.ttb.gov/wine/faq.shtml#w14>

### **Does TTB regulate the production of home winemaking kits?**

No, we do not. Winemaking kits typically contain concentrate, yeast, juice, acids, sulfites and wood chips, and provide sufficient materials to produce about 30 bottles of wine. Since the kits contain unfermented raw materials, they do not come under our jurisdiction. When the kits are used to produce tax-exempt wine for personal or family use, we do not regulate the labeling of wine made from the kits.

### **Does TTB endorse or certify the contents of winemaking kits?**

No, TTB does not endorse or certify the contents of any winemaking kits. The users of winemaking kits are fully responsible for obtaining the necessary information about the content of the kits to support any statements made on the label.

### **What rules apply if I use a winemaking kit to produce wine for sale?**

TTB regulates the commercial production of wine under the Internal Revenue Code of 1986 (IRC) and the Federal Alcohol Administration (FAA) Act laws and regulations. These laws and regulations require that wine producers qualify their premises as a bonded wine cellar, obtain an FAA Act basic permit as a producer of wine, pay the applicable excise tax on wine between one-half of 1 percent to 24 percent of alcohol by volume, and receive a Certificate of Label Approval (COLA) for all wine that is bottled.

The IRC and FAA Act requirements apply to those who are engaged in the business of winemaking who intend to sell the wine or distribute it for commercial purposes, and apply equally to companies using kits and traditional winemaking materials. Information provided on the labels of all wine made for commercial purposes must be truthful and must adequately inform the consumer about the identity and quality of the product.

### **How should I label wine made with a kit?**

If you are selling the wine, you must comply with TTB's wine labeling regulations in 27 CFR Part 4 and the Health Warning Statement regulations found in 27 CFR Part 16, as well as any applicable State regulations.

In addition to the mandatory label statements required by Part 4, TTB must be able to verify any optional statements used on wine labels. Examples of optional label claims include the varietal content (type of grape or grapes used), the appellation of origin (the geographic origin of the winemaking materials), and the vintage date (year of harvest). Winemakers using kits who wish to show any optional claims on

the label must obtain appropriate records from the kit's producer to verify the contents, the origin of the winemaking materials, the vintage date, etc.

When winemakers make optional claims on wine, additional regulatory requirements in 27 CFR Part 4 are triggered, beyond the requirement to document the claims. For example, if 75 percent of the grapes used in a wine are from a particular State, the wine must be fully finished in that State or an adjacent State in order to be entitled to use the name of the State as an appellation of origin (27 CFR 4.25). If you buy a kit with 75 percent Washington State concentrate, but produce wine from the kit in Indiana, the wine is not entitled to a Washington State appellation of origin. With proper documentation, you could use "American" as the appellation of origin. Wine with an "American" appellation is not entitled to show a vintage date. Under 27 CFR 4.27, vintage dated wine must have an appellation of origin smaller than a country, and the records must show that 85 percent of the wine is derived from grapes harvested within the given year (95 percent for viticultural areas).

**How should I label the wine if I cannot obtain information about the origin of the concentrate or if the wine does not meet the requirements for optional claims?**

If information about the origin of the concentrate cannot be verified, the product may be labeled as "grape wine" or with a color descriptor, such as "red wine" or "white wine." If the wine has an alcohol content that is not over 14 percent alcohol by volume, it may also be designated as "table wine."

Vintage dates, varietal names and appellations may not be shown on the label, unless they can be verified and the wine meets the other requirements in 27 CFR part 4 for use of the claim.

**If I am selling the wine, may I use the wine treating materials that are often provided in winemaking kits?**

You may, if the wine treating materials included in kits are listed as authorized for use and used as shown in the TTB regulations at 27 CFR § 24.246.

## Label Information Record

27 CFR 24.314

“A proprietor who removes bottled or packed wine with information stated on the label (e.g., varietal, vintage, appellation of origin, analytical data, date of harvest) shall have complete records so that the information appearing on the label may be verified by an *[sic]* TTB audit. A wine is not entitled to have information stated on the label unless the information can be readily verified by a complete and accurate record trail from the beginning source material to removal of the wine for consumption or sale. All records necessary to verify wine label information are subject to the record retention requirements of 27 CFR 24.300(d).”

## Helpful Hints for Filing Paper COLA applications

- Paper applications must be printed on legal size paper
- Applications must be signed
- Do not make pen or ink changes, or use “white-out,” on the labels
- If submitting labels for clear, acetate, etched or painted labels, include a picture of a filled sample bottle
- Include copies of any formulas, pre-import letters or lab analysis results that may pertain to the label
- Include copies of prior approvals (prior to March 10, 2006) for domestic labels using Semi-Generic designations
- Include supporting documentation for Organic labels or labels with biodynamic / agriculture biologique claims
- Make sure labels are completely legible – if we cannot read them, we cannot approve them
- Labels must be affixed to the front of the form. If labels do not fit in the space provided, they may be reduced, but copies must be legible
- Provide translations for any foreign text on labels or on supporting documentation
- Check the list of allowable revisions to approved labels before resubmitting
- We suggest that you do not print your labels prior to receiving label approval

## Top Ten Reasons for Needing Corrections for Paper COLA Applications

1. **Government Warning Statement contains errors.** The Government Warning Statement must appear in type that is at least 1 mm for containers 237 ml or less, 2 mm for containers between 237 ml and 3 L, and at least 3 mm for containers over 3 L in size. The text in the government warning cannot exceed 40 characters per inch for 1 mm type size, 25 characters per inch for 2 mm type size, or 12 characters per inch for 3 mm type size. Separate COLA applications must be submitted for containers that are less than 237 ml, between 237 ml and 3 L, and over 3 L in size. The words “GOVERNMENT WARNING” must appear in capital letters and in bold type. Proofread the government warning for spelling and punctuation errors and missing words before submitting.
2. **Appellation of origin problems.** Many issues with the appellation of origin can come into play, such as: missing the appellation of origin altogether when it is required to be on the label; appellation not on the correct label - it must be with the class/type on the brand label; appellation is not approved; multiple appellations that do not overlap; and estate bottled wine which requires a viticultural area as the appellation.
3. **Name and address problems.** Trade names must be applied for and approved by the National Revenue Center prior to their use on labels. The company name used on a label in the bottler/importer statement must exactly match a trade name used on your permit. The address of the bottler/importer on the label must match what is on the application and permit.
4. **Mandatory information appears in an inappropriate size.** For containers larger than 187 ml, the sulfite statement, the class/type designation, the appellation of origin, the bottler/importer statement, and the net content statement must appear in text that is at least 2 mm. The alcohol content statement must appear in type between 1 and 3 mm for containers 5 L or less in size.
5. **Class/Type issues on the label.** Grape varieties appear on the brand label without percentages- If multiple grape varieties appear on the front label, they must appear with the percentages used in direct conjunction and must total 100%. A grape variety appearing in “brand label” text- If a grape variety appears in front label text, it must appear separate and apart or more conspicuous than surrounding text.. Class/type missing from the label altogether - you must at least have “red wine” or “white wine” on the brand label. Class/type conflicts appear such as the alcohol content is in the “table wine” class, but reference to the product being a dessert wine is on the label. The class/type does not appear with the appellation on the brand label, if an appellation is required. Also if the product is an “Other than standard wine” it must match with the suggested Statement of Composition.

6. **Legibility issues or changes that are not permitted.** When information on the label is not legible, no further review can be made to that label. Also labels may not contain pen/ink changes, white outs, or paste-overs. The labels submitted on your application cannot be altered.
7. **Alcohol content** Alcohol content is in the wrong format (alcohol \_\_\_% by volume) or alcohol content is the wrong size. It must appear in print at least 1 mm and no larger than 3mm. The alcohol content must also appear on either the brand or strip label.
8. **Misleading statements.** You may not make false or misleading statements on the label. You may not make statements on your label that may create the impression that the wine contains distilled spirits, is comparable to a distilled spirit or has intoxicating qualities.
9. **Items on the application are left blank/incomplete.** Application is not signed by the submitter or there is other information required on the application that is missing.
10. **Application is submitted on an old form or is the wrong size.** The new TTB form 5100.31 is available on our website at <http://www.ttb.gov/forms/pdfs/5100/f510031.pdf>. It must be printed in legal size on legal-sized paper.

## Helpful Hints for Preventing Image Problems with COLAs Online

1. Only Jpeg (.jpg) or Tiff (.tif) files may be used for label images.
2. Document files (.pdf and .doc) may ONLY be uploaded under Attachments, along with .jpg and .tif files.
3. Maximum file size the system allows is 450 kb for each file being uploaded as a label or attachment.
4. High compression of the image file causes labels to be blurry or too small to read. Set the compression ratio to MEDIUM or LOW so the file size is close to but within file size limit of 450KB. A file size of less than 100 KB is an indication that the compression may be too high.
5. If images appear as a Red X, the wrong color mode was used on image files. The system only accepts label images with the type/extensions of .jpg or .tif format utilizing the RGB color mode/space. Images in the CMYK color mode/space are unacceptable in COLAs Online.
6. If your label image bears a "color bar" or other distortion, the resolution may not be correct. We advise the resolution rate be set at 150 DPI (Dots Per Inch) or in the range of 120 DPI to 200 DPI.
7. The label file must contain only the label and must be cropped of all surrounding white space or other text.
  - All outside measurements that are not a part of the actual label must be removed before upload.
  - All printer's proof surrounding details must also be removed.
  - The dimensions entered when uploading the labels take into account the entire file, including both the label image and any surrounding white space or other text.
  - You must use the exact measurements of the printed label on the container.

When viewing images from the "view Eapp" screen, put the cursor to the right of the image but not on the image and then right click the mouse. Then click on "Select All" and this will highlight the image, including any white space around the image.

Fig. 2 - Actual size of image uploaded

Fig. 3 - Image result

### Other image issues:

- Make sure the label dimensions are entered correctly. Remember that the dimensions requested when uploading a label image pertain to the entire file.
- Each label must be uploaded separately and identified as "Brand", "Back", "Strip", "Neck" or "Other".
- A separate application must be submitted for each product.
- Make sure your images are legible - IF YOU CAN'T READ IT, WE CAN'T READ IT!

### Avoid submitting applications with image problems by verifying your images.

Click on the file name in Step 3 of the application in order to view the uploaded image.

### Resubmitting Corrected Image Files

If your application is returned for correction, make the necessary corrections to your image file. Then open the application and go to Step 3.

- Remove the original image
- Find and upload the new image
- Choose the type of label you are uploading
- Enter the dimensions of the label
- Click on "Attach file"

## Top Ten Submitter Errors for COLAs Online

- High compression - the images that were submitted are not legible
- Image was distorted during upload (incorrect resolution)
- Dimensions provided generate a skewed or distorted image on the Printable COLA
- Labels must be saved and uploaded as separate image files
- Image appears as a Red X – wrong color mode used
- Problems with the Government Warning (Health Warning Statement)
- Terms are placed in incorrect fields... i.e. “zinfandel” in the fanciful name field
- Alcohol content and vintage date on labels do not match application
- Trade name used in the bottler’s statement on labels does not match application
- Brand name on e-app does not match labels

*These are examples of reasons why we would return an application with the status of “Needs Correction.”*

*“Needs Correction” offers the benefit of receiving immediate notice of the corrections that are needed. In addition the application receives priority upon resubmission.*

## Production Issues

### **Chaptalization (Brix Adjustment), 27 CFR 24.177**

The addition of sugar or concentrated juice of the same type of fruit to juice to adjust Brix before or during fermentation to develop alcohol by fermentation. Addition may not raise Brix above 25°. If ameliorating after chaptalization the quantity of dry sugar used is included as ameliorating material for grape wines; for fruit wines, the dry sugar does not count as ameliorating material, but the volume of water in liquid sugar or syrup does.

### **Amelioration, 27 CFR 4.21 and 27 CFR 24.178**

The addition to juice or natural wine before, during or after fermentation, of either water or pure dry sugar or a combination, to adjust the acid level. Fixed acids may be not be reduced to below 5 grams/liter. For grapes and low acid fruit, the volume of the ameliorating material may not exceed 35% of the total volume; for high acid fruit or berries, the volume of the ameliorating material may not exceed 60% of the total. The maximum alcohol allowed for ameliorated wine is 13% for grape and agricultural wines and 14% for citrus and fruit wines. The maximum solids level is 22 grams/100 ml.

### **Sweetening, 27 CFR 24.179**

The addition of juice, concentrated juice of the same type of fruit or sugar to wine after fermentation and before taxpayment. For grape wines that have not more than 14% alcohol, the finished wine may not exceed 17% solids; wines over 14% alcohol may not exceed 21% solids. For fruit wines, the finished wine may not exceed 21% solids or 14% alcohol. Specially sweetened wines may contain 17-35% solids but may not exceed 14% alcohol.

### **Concentrate/Juice, 27 CFR 24.180**

Concentrate may be reduced before fermentation to anywhere between the original Brix and 22°. Juice that has been concentrated over 80° Brix may not be used. Unconcentrated fruit juice may be reduced to not less than 22° Brix.

### **Acids, 27 CFR 24.182**

The acid level may be increased before, during or after fermentation. The type of acid used depends on the type of fruit and when it is added. The fixed acid level may not be increased over 9.0 grams/liter in the finished wine unless the solids are over 8 grams/100 ml, then the fixed acid can be increased to 11 grams/liter.

### **Materials, 27 CFR 24.246**

Only the materials listed in 27 CFR 24.246 may be used in the production of wine, within the limitations listed, unless a formula is approved. Note that this list contains individual materials. Commercially prepared blends may only be used if all of the ingredients are on this list.

### **Processes 27 CFR 24.248**

Only the processes listed in 27 CFR 24.248 may be used in the production of wine. Note that many of the processes may only be done at a distilled spirits plant. The procedure for applying to experiment with a new material or process is given in 27 CFR 24.249, and the procedure for applying to add a new material or process is given in 27 CFR 24.250.

## Bulk Still Wine Record

27 CFR 24.301

A proprietor who produces or receives still wine in bond must maintain a record of transactions for bulk still wine. A record is to be maintained for each tax class of still wine and must include date of transaction. The parts of 27 CFR 24.301 that usually pertain to Bonded Winery operations require the following information be recorded:

- The volume produced by fermentation in wine gallons, determined by actual measurement;
- The volume received, shipped taxpaid, removed (e.g., taxpaid, in bond, export, family use, samples) and used in sparkling wine production; if a tax credit under 26 U.S.C. 5041(c) may be claimed, the record will be maintained in sufficient detail to insure that such as tax credit is properly claimed;
- The specific type of production method used, e.g., natural fermentation, amelioration, sweetening, addition of spirits, blending;
- The volume of wine used and produced by amelioration, addition of spirits or sweetening, as determined by measurements of the wine before and after production;
- The volume of wine used for and produced by blending, if wines of different tax classes are blended together;
- The volume of wine used to produce formula wine, vinegar stock and distilling material;
- The volume of wine removed to fermenters for refermentation or removed directly to the production facilities of a distilled spirits plant or vinegar plant;
- Where a process authorized under 27 CFR 24.248 is employed, records will be maintained to allow for verification of any limitation specified for the process employed and to ensure that the use of the process is consistent with good commercial practice;
- Where a treating material is dissolved or dispersed in water as authorized in this part, the volume of water added to the wine; and
- An explanation of any unusual transactions.

## Inventory Record

27 CFR 24.313

All bonded wineries and bonded wine cellars are required to take a complete physical inventory of all wine and spirits in storage on June 30. If a proprietor wishes to take the annual inventory on different date, TTB must be notified. Proprietors who file the Report Form 5120.17 annually must take the complete physical inventory at the end of the calendar year. The inventory record must include the following information:

- Description of wine (name, vintage, varietal, appellation) and spirits; volume; tank number (bulk wine); summary of barrels and puncheons (bulk wine)
- Inventory Summary: volume of bulk wine and spirits and bottled wine totaled separately by tax class and reported on Form 5120.17
- Inventory Record: All pages will be numbered consecutively; the last page will be dated and signed, the last page will include the "Penalty of Perjury" statement: *"Under penalties of perjury, I declare that I have examined this inventory record and to the best of my knowledge and belief, it is a true, correct and complete record of all wine and spirits required to be inventoried."*

## Inventory Losses

27 CFR 24.266

If the complete annual inventory of bulk wine reveals losses in production or storage which exceed the allowances listed below, a claim for allowance of loss must be filed on TTB Form 5620.8:

- Any losses due to theft, OR
- More than 3% of wine on hand at beginning of annual period and volume of wine received in bond, OR
- More than 6% of still wine produced by fermentation, OR
- More than 6% of sparkling wine produced in bottles, OR
- More than 3% of special natural wine (27 CFR 24.195), OR
- More than 3% of other wine (27 CFR 24.218), OR
- More than 3% of artificially carbonated wine, OR
- More than 3% of bulk processed sparkling wine

Normal bulk inventory losses due to racking, evaporation and topping are to be reported on the Report of Wine Premises Operations in Section A, Line 30.

Bottled wine losses must be taxpaid: If the proprietor has conducted a complete physical inventory, the tax on any unexplained losses of untaxpaid bottled or packed wine must be paid.

**Note:** Documented casualty losses are NOT "inventory losses." They are reported to TTB as they occur.

**INSTRUCTIONS**

- The reporting period for this form shall be monthly, except that proprietors who qualify under the exception stated in 27 CFR 24.300 (g)(2) may file this form on a calendar year basis unless required to file monthly by the Alcohol and Tobacco Tax and Trade Bureau (TTB). A proprietor who files monthly reports but does not expect any reportable operations in a subsequent month or months may indicate in Part X that no monthly reports will be filed until a reportable operation occurs. (§24.300 (g)(1))
- Prepare this form in duplicate and file it by the fifteenth day after the end of the report period (month or year). Keep the copy on your bonded wine premises for inspection by TTB officers. Send the original to TTB at this address:  
  
Director, National Revenue Center  
Alcohol and Tobacco Tax and Trade Bureau  
550 Main St. Ste 8002

- Explain any unusual operations in Part X.
- The quantities "on hand end" will ordinarily be "book inventory" figures, that is the quantity required to balance each summary. Use the "on hand end" from your report for the previous period as the "on hand beginning" of the current report. On reports for any period when you take a physical inventory, report the difference as losses for bulk wine and shortages for bottled wine, or as gains, as the case may be.
- If the quantity of wine previously reported on TTB F 5120.17 is affected by adjustments made on a tax return, TTB F 5000.24, adjust the current TTB F 5120.17 in Section A (and Section B, if bottled wine is involved). Explain the entries in Part X.

## Explanation of Entries on Sample “Report of Wine Premises Operations”

### Section A – Bulk Wine

#### Line:

1) These figures were carried forward from Line 31 of previous report.

2) Winemaker moved 22,600 total gallons grape wine from primary fermentation, racked, treated with bentonite, and placed in storage tanks, and 1,200 gallons of hard cider. This wine is declared “Produced.”

(Note reverse, Part VII: 18,700 gallons (estimate) is still in fermentation at the end of October. Part IV shows 200 gallons apple concentrate received and used in production.)

4) 325 gallons 14-21% alcohol port produced by wine spirits addition. The amount shown as “produced” in Column (b) Line 4 is equal to the amount “used” for wine spirits addition in Column (a) Line 19 and Part III, Column (a) Line 5 on the reverse of the report (35 gallons of 140 proof wine spirits = 25 wine gallons).

5) This winery produced 230 gallons of Angelica by blending 115 gallons of dry white wine with 115 gallons of higher alcohol wine. For purposes of the report, “blending” means blending of tax classes. Notice the components equal the whole.

7) Winery received a shipment of 600 gallons of wine in bond from another winery, without payment of tax.

8) Winemaker discovered that some bottled wine is undergoing secondary fermentation. Some of this wine was returned from the trade as unmerchantable (25 cases) and the balance never left the winery (95 cases). He dumped the entire 120 cases back to bulk. These entries are necessary because the volume of bulk wine is increased, and the volume of cased goods is decreased. (120 cases X 2.37753 = 285.3 gallons)

12) This figure is the total of lines 1 through 11, the total quantity to be accounted for in bulk, and it agrees with the figure on line 32.

13) Winery bottled 1,000 cases of 750 ml during the period. Entry is the same for Section B, Line 2.

20) This winery produced 230 gallons of Angelica by blending 115 gallons of dry white wine with 115 gallons of higher alcohol wine. For purposes of the report, “blending” means blending of tax classes. Notice the components equal the whole.

31) Book figure, obtained by subtracting total of lines 13 through 30 from line 12.

32) This figure is the total of lines 13 through 31, the total quantity accounted for, and it agrees with the figure on line 12.

**Section B - Bottled Wines**

Line:

1) These figures were carried forward from Section B, Line 20 of the previous report.

4) Winery returned 25 cases of wine to bond after it was returned from a wholesaler as unmerchantable because of instability.

7) This figure is the total of lines 1 through 6, the total quantity to be accounted for in bottled wine, and it agrees with the figure on line 21.

8) Winery taxably removed 500 cases of dry wine for sale; 450 cases went to a wholesaler and 50 cases went to the taxpaid area at the winery. They also taxpaid 2 cases of Port.

11) Represents 3 cases of wine consumed in the tasting room. This wine is not taxable because it was used for tasting on the bonded premises.

12) Winery exported 50 cases of wine. Figure agrees with Forms 5100.11 for the period.

20) Book figure obtained by subtracting total of lines 8 through 19.

21) This figure is the total of lines 8 through 20, the total bottled wine accounted for, and agrees with the figure on line 7.

**Part IV – Summary of Materials Received and Used**

Winery received 250 tons of grapes during the month and used them all for production of wine. Line 2 shows receipt of 500,000 pounds, and line 5 shows its use in wine production. Note also that 4 and line 10 agree.

Winery received 200 gallons of apple concentrate which was used for the production of hard cider.

**Part VII – In Fermenters End of Period**

An estimated 18,700 gallons of materials remain in fermenters at the end of the period.

### **What is the purpose of this industry circular?**

This circular announces that the Alcohol and Tobacco Tax and Trade Bureau (TTB) is implementing new guidelines for the submission of operational reports by regulated industry members. TTB is taking this action to ensure the consistency of the format of the data reported. TTB also is rescinding all existing approved alternate versions of these reports and is providing guidelines describing the requirements for new alternate versions submitted for its consideration. In addition, this circular announces new requirements for filing amended operational reports with TTB in any format.

**Why are these new guidelines being implemented?**

TTB is now using a new computer system, the Integrated Revenue Information System (IRIS), which requires that periodic operational report forms comply with the guidelines listed below. Federal regulations provide for TTB to approve alternate methods or procedures where an industry member demonstrates that the alternate provides equivalent protection to the revenue and is not contrary to law. In the past, numerous industry members have requested endorsement of alternate methods for preparing periodic operational reports. These approved alternative versions of the operational report forms often included deleted or added lines and columns or other significant changes to the format of the reports. Many of these changes have created data entry problems, the need for many manual corrections of errors, and explanation of vague entries. As TTB works to minimize data entry problems, greater format consistency for the data provided by industry members is required.

**Previously, I obtained TTB's approval to use an alternate version of an operational report form. May I continue to use my alternate version of the report form?**

No; we are rescinding all earlier approvals of alternate method requests to use modified operational report forms since many of the modified forms are not compatible with the new IRIS computer system and have created an administrative burden for our agency.

**May I obtain TTB's approval to use a new alternate version of an operational report form, or approval to continue using the alternate version I use now?**

Yes; you may obtain our approval of an alternate method that allows for the use of a modified operational report form. However, for consistency and accuracy of data transcription, any modified report form you submit must present the required information exactly as shown on the official form (i.e. columns and rows must be arranged exactly as they are on the official form). Most of the requests we receive to use a modified form are for approval to generate reports from an automated database or spreadsheet program. Such printouts also must match the official TTB forms or we will not approve the request.

**What TTB guidelines for the preparation of periodic operational report forms does this circular announce?**

- (1) You must use the actual TTB operational report forms or a modified form approved by TTB that matches the format of the actual TTB form. You may not change any of the column headings or row titles on the official TTB forms, and you cannot insert additional lines or columns. If you have something different to report, you must use the appropriate "other" lines on the form.
- (2) All reports must contain the reporting period month and year, registry number, name, and address of your premises exactly as they appear on your approved permit/notice. Also, please enter your Employer Identification Number (EIN) on the report.
- (3) If you need to file an amended report, you must complete all lines on the amended operational report form. You must fill in each applicable line on the new, amended form even if you are not amending that particular line from the original report.

- (4) You must complete all "Total" lines.
- (5) You may not use negative figures in any block.
- (6) All "on hand beginning of period" figures must match the prior reporting period's "on hand end of period" figures.
- (7) The individual signing the report must have signing authority or a Power of Attorney on file with TTB's National Revenue Center.

**Is there another method available to me for filing operational reports?**

Yes; TTB has recently implemented the TTB Pay.gov Program (<http://www.ttb.gov/epayment/epayment.shtml>), which provides for online electronic submission of operational reports, tax returns, and payments. This method eliminates the need for paper submissions and allows for a more accurate, timely, and cost efficient submission by industry members and processing of the data by TTB

**Who can answer my questions about filing operational reports?**

If you have questions about filing your operational report forms, you may contact us via e-mail at [ttbquestions@ttb.gov](mailto:ttbquestions@ttb.gov), or by telephone at 1-877-882-3277. You may also write to the National Revenue Center at 550 Main Street, Suite 8002, Cincinnati, OH 45202.

## Using Pay.gov To Submit Alcohol and Tobacco Excise Tax Returns, Tax Payments, and Operational Reports

To: Distilled Spirits Plants, Breweries, Wineries, Tobacco Manufacturers, and Others in the Alcohol and Tobacco Production and Storage Industries.

### ***What is the purpose of this circular?***

In this circular, the Alcohol and Tobacco Tax and Trade Bureau (TTB) announces that alcohol and tobacco industry members may now electronically file Federal excise tax returns and payments through the Financial Management Service's (FMS) "Pay.gov" system. Industry members may also file certain industry operational reports through the Pay.gov system using electronic forms and signatures as described in Title 27 CFR, Part 73, Electronic Signatures; Electronic Submission of Forms.

### ***What forms can you file through the Pay.gov system?***

Through Pay.gov you can electronically create and submit the following forms:

TTB F 5000.24, Excise Tax Return (Alcohol and Tobacco) and payments;  
TTB F 5210.5, Report—Manufacturer of Tobacco Products or Cigarette Papers and Tubes;  
TTB F 5130.9, Brewer's Report of Operations;  
TTB F 5130.26, Brewpub Report of Operations;  
TTB F 5120.17, Report of Wine Premises Operations; and  
TTB F 5110.11, Monthly Report of Storage Operations.

In the future, we will make operational reports for other regulated industries available through the Pay.gov system.

### ***How will the Pay.gov system accept payments?***

Pay.gov users will submit payments electronically to the Federal Reserve Bank via the automated clearinghouse (ACH) and the Federal Reserve's Fedwire funds transfer system (Fedwire).

ACH is an electronic payments network that enables the processing of debit and credit payments between financial institutions. Users input transactions into the Pay.gov system using account number and routing number information.

Fedwire is a high-speed, real-time electronic funds transfer payment mechanism that links commercial banks with the Federal Reserve Bank. With Fedwire, you ask your bank to send the payment (it is sent by a data transfer) to the appropriate Federal Reserve Bank.

For more information, please see the Federal Reserve Payment Systems Web site at <http://www.federalreserve.gov/paymentsys.htm> and TTB Procedure 91-1, Payment of Tax by Electronic Fund Transfer, at <http://www.ttb.gov/procedures/91-1.shtm>

***How can I be assured that my Pay.gov excise tax payment is received to avoid penalties and interest for late filing and payment?***

Your Pay.gov payment must be received by the established due date outlined in the following Alcohol and Tobacco Due Dates chart:

**Semi-monthly Tax Return & Payment Due Dates for 2004:**

**NOTE: SEE CURRENT YEAR'S EXCISE TAX CALENDAR ON [www.ttb.gov](http://www.ttb.gov)**

Please Note: The above chart takes all Federal holidays into account. Under the law, State legal holidays in the State where we require you to send your excise tax payments may affect the above due dates. State legal holidays in the State where your business is headquartered DO NOT change the above due dates.

1. *For Non-EFT payers:* In the event that the due date indicated in this schedule falls on a legal State holiday in the State where we require you to make your excise tax payments, the due date is the immediately preceding date that is not a Saturday, Sunday, or legal holiday.
2. *For EFT payers:* New York State legal holidays do not advance the due date of EFT tax returns and payments as long as the Federal Reserve Bank of New York City remains open and accepts electronic fund transfer payments. If the Federal Reserve Bank of New York City is closed in observance of a New York State holiday, your EFT tax return and payment are due the preceding day the Federal Reserve Bank of New York City is open.

\* Tax return periods listed for the last half of September are the result of the Uruguay Round Agreements Act, which was effective January 1, 1995. The law changed the tax return due dates for both electronic fund transfer taxpayers (EFT) and those who pay by check or money order (Non-EFT) for the month of September. Please refer to Industry Circular No. 95-4, dated July 21, 1995, for additional information.

You must submit your return and payment through Pay.gov no later than 4:00 p.m. Eastern Time one business day prior to the due date. Payment is considered received the date funds are withdrawn from your bank account, not from the date of your Pay.gov submission.

For additional information please refer to page 9 of the Pay.gov User Guide located at: [http://www.ttb.gov/epayment/excise\\_tax\\_guide.pdf](http://www.ttb.gov/epayment/excise_tax_guide.pdf).

***How do I begin using the Pay.gov system?***

You will need to obtain a User ID and password by filling out the Pay.gov User Agreement at [http://www.ttb.gov/epayment/user\\_agreement.pdf](http://www.ttb.gov/epayment/user_agreement.pdf). Print out the completed form and mail it to:

DEPARTMENT OF THE TREASURY  
ALCOHOL AND TOBACCO TAX AND TRADE BUREAU (TTB)

EFFECTIVE DATE

**Pay.gov User Agreement**

The following constitutes the full understanding and agreement between the Alcohol and Tobacco Tax and Trade Bureau (TTB) and \_\_\_\_\_ (a person from a User Company that deals with the Alcohol and Tobacco Tax and Trade Bureau) with regard to the Pay.gov system. This system is subject to the following conditions.

1. **User Account(s) and Access:** Upon receipt of an approved agreement, the system administrator will provide a unique username to the user via email. The system administrator also will contact the user via telephone with a password that the user will be required to reset upon his/her first access of the system. With respect to the username, the following conditions apply:
  - a. The user is solely responsible for the security and proper use of his/her username and password and must take all necessary steps to ensure the password is kept confidential and secure, is used properly, and is not disclosed to anyone.
  - b. The user and the stated User Company agree to indemnify and hold harmless and hereby waive all potential claims for damages against the Department of Treasury and its constituent units arising from any conduct by the user, the stated User Company, and its employees or agents that results in or constitutes a breach of password security or unauthorized use of the Pay.gov system.
  - c. The user and the user company agree to request revocation of the Pay.gov user ID when the user no longer has Signature Authority or Power of Attorney for the User Company.
  - d. If the user or system administrator identifies that the password security has potentially been breached, they will inform each other and the system administrator will reset the password for that account and provide the new password to the user via telephone before the next tax payment due date.
  - e. The user agrees he/she will use the system solely for submitting information for the stated User Company.
  - f. Regardless of whether the user and the User Company have actual control over the acts of third parties, they agree that they have the last clear chance to avoid breach of password security for the username and agree to indemnify and hold TTB harmless for any such breach.
2. **Network Connection(s):** The user agrees that he/she will be responsible for providing, maintaining, and supporting a connection to the Pay.gov system via the Internet. The system administrator will be responsible for providing, maintaining, and supporting the Pay.gov system and its connection to the Internet.
3. **System Monitoring:** The user and the User Company acknowledge that the Pay.gov system is a government computer system and consents to monitoring of the system for security, system maintenance, tax administration, law enforcement, and any other purpose authorized by law.
4. **System Outage:** In the event that the user cannot access the Pay.gov system, he/she will immediately notify the system administrator to report the problem. The user and the User Company also acknowledge they still are expected to submit payments when due even if the Pay.gov system is not available.
5. **Electronic payment of taxes due:** The user and the User Company consent to the use of Automated Electronic Payments from the bank account(s) specified in the Pay.gov system for the amount(s) calculated by Pay.gov from the data entered.
6. **Confidentiality of returns and return information:** Section 6103, Title 26, United States Code prohibits the disclosure of tax return(s) or return information (as defined in Section 6103) except in specifically proscribed circumstances and provides civil and criminal penalties for the unlawful disclosure of such information. However, Section 6103 (c) permits the disclosure of return information to a designee of the taxpayer upon the taxpayer's request. The user and the User Company consent that this Agreement constitutes a request for disclosure to the User Company's designee(s) under Section 6103 (c). Further, the User Company agrees that accessing the Pay.gov system by means of the assigned username constitutes an affirmative waiver of all claims under Section 6103, Title 26 United States Code with respect to any return information transmitted during the online access session.
7. **Penalties and interest:** TTB agrees to waive penalties assessed due to failure to timely pay taxes due, where a system failure or downtime caused the delay in submission and the delay or failure to pay is not caused by error or negligence of the User Company. This limited waiver applies only to penalties for failure to pay (Section 6651 (a) (2), Title 26 United States Code), or failure to deposit (Section 6656, Title 26 United States Code), when it has been reasonably demonstrated by the User Company, to the satisfaction of TTB, that the failure to pay was caused by the downtime or failure of the Pay.gov system and not by actions of the User Company. Notwithstanding the above, the User Company understands and acknowledges that TTB lacks any legal authority to waive or compromise interest due on late or insufficient tax payments.
8. **Termination of Agreement:** TTB, the user, and the User Company agree that this User Agreement applies only to the Pay.gov system. Periodic enhancements, improvements, and changes to the Pay.gov system will not impact this agreement. Further, the user, the User Company, and TTB agree that this agreement may be terminated at any time for any reason upon written notice.
9. **Separation of conditions:** If any provision of this Agreement is held to be invalid or unenforceable for any reason whatsoever, the remaining provisions will remain valid and unimpaired, and will continue in full force and effect.
10. **Agreement:** This agreement supersedes any and all other agreements, whether oral or written, between TTB, the user, and the User Company with respect to the matters stated herein, and this agreement contains all of the covenants and agreements between the parties with respect thereto. This agreement may be amended or modified only in writing and will be effective only after affixation of the signatures of both parties' representatives.
