

Appendix A: List of NPIAS Airports with 5-Year Forecast Activity and Development Cost

EXPLANATION OF TERMS AND ABBREVIATIONS USED IN THE APPENDIX A

<i>City</i>	The city generally associated with the airport.
<i>Airport</i>	The official name of the airport or designated abbreviation.
<i>LOCID</i>	The unique airport location identifier for an airport.
<i>Role</i>	One of four basic airport service levels which describe the type of service that the airport currently provides to the community and is anticipated to provide the community at the end of the five-year planning period. The service levels also represent funding categories for the distribution of Federal aid. New airports opening beyond the five-year period are not shown in Appendix A; however, any five-year costs associated with the development of these airports are included in Table 6. PR Commercial Service – Primary CM Commercial Service – Non-Primary RL Reliever Airport GA General Aviation Airport
<i>Enpl</i>	The number of revenue passengers expected to be boarded at the airport during the fifth year of the five-year planning period.
<i>Based Acft</i>	The number of locally owned aircraft expected to be hangared or based at the airport at the end of the five-year planning period.
<i>Cost</i>	The estimated five-year costs for airport improvements that are eligible for Federal development grants under the Airport Improvement Program. The costs identified are for development only; approximately \$177 million in planning costs are excluded from the development estimates.

Note: The data presented in these tables were compiled as of November 2003. Current data for specific airports can be obtained from the appropriate FAA regional airports office, as listed in Appendix C.
