

# **2005 Cottonseed Payment Program**

## **Overview**

Launched in October 2006, USDA's Farm Service Agency (FSA) 2005 Cottonseed Payment Program (CPP) provides up to \$15 million for assistance to producers and first-handlers of the 2005 cottonseed crop in counties declared natural disaster areas by President George W. Bush as a result of damage from 2005 hurricanes Katrina, Ophelia, Rita and Wilma. Counties contiguous to those named by the president are also eligible for CCP assistance.

The Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery of 2006 authorizes the program. FSA administers 2005 CPP payments on behalf of USDA's Commodity Credit Corporation (CCC).

## **Payment Rate**

CCC will calculate the payment rate by dividing the total available program funds by the total eligible payment quantity of cottonseed. Eligible applicants may not receive more than the national average price of 2005-crop cottonseed as determined by CCC, or \$98 per ton, multiplied by the applicant's total eligible payment quantity (ton-basis).

These payments will be base-distributed using 2003 cottonseed production data.

## **Eligibility Requirements**

To be eligible, applicants must be producers or first-handlers of 2005-crop cottonseed. Cottonseed refers to any variety of upland cottonseed and extra long staple (ELS) cottonseed produced and ginned in the United States.

Eligible cotton must have been grown in counties designated a disaster area resulting from the 2005 hurricanes Katrina, Ophelia, Rita, Wilma, or a related condition, and counties contiguous thereto, meaning counties directly adjoining primary disaster counties. All eligible counties are listed at the end of this fact sheet.

An eligible applicant must be a first-handler of cottonseed or a gin that has an eligible payment quantity (see Applicant Payment Quantity). If the 2005 gin is no longer in business and cannot apply for payment and distribute funds on behalf of producers, the producer's current gin becomes the applicant.

Signatories to the application or those receiving payment must share any payment with the cotton producer equal to the amount of 2005-crop cottonseed lost by the producer.

## **Eligible Cottonseed**

To be eligible for payments, cottonseed must:

- Have been produced from cotton grown in a hurricane-affected county during the 2005-crop production period;
- Have been the result of ginning 2005-crop cotton by the applicant; and
- Not have been destroyed or damaged at the gin by fire, flood or other events such that its loss or damage was compensated by other local, state or federal government or private or public insurance or disaster relief payments.

## **Total Payment Quantity**

The total quantity of 2005-crop cottonseed eligible will be based on the total payment quantity of cottonseed for which applications are filed.

The total payment quantity of cottonseed (ton-basis) will be: (1) the average weight of cotton lint (ton-basis) for which payment is requested by all applicants; (2) multiplied by the Olympic average of estimated pounds of cottonseed per pound of ginned cotton lint, as determined by CCC for the five years preceding the 2005 crop.

### **Applicant Payment Quantity**

The applicant's payment quantity of cottonseed will be calculated by the applicant and submitted on the Cottonseed Payment Application and Certification form for approval by CCC. The application will be evaluated using the following criteria:

- An applicant must be an eligible gin to which a producer delivered 2005 cotton. The applicant's payment eligibility will be based on the total amount of 2003 crop lint deliveries by cotton producers in eligible counties.
- The 2003 crop lint delivery determination will be made by the applicant for each eligible county producer-by-producer, based on producer certification, ginning records or other relevant information as applicable. If the producer delivered 2003-crop cotton to a gin(s) different from the gin that received 2005-crop deliveries, the 2005 gin must contact the 2003 gin(s) for production information or obtain other proof of the eligible quantity from the cotton producer so as to calculate or verify the claim.
- If the producer delivered cotton to more than one 2005 gin, each gin will be an applicant. If the producer did not deliver cotton to the same gins in 2003, the applicants will divide the total 2003 production equally between each applicant gin.
- If the producer did not grow any 2005-crop cotton in an eligible county, the applicant will not apply for payment to the producer.

- If the producer grew 2005-crop cotton but did not produce 2003-crop cotton, the producer will be considered a new producer. In this case the applicant will calculate an assumed 2003 lint delivery amount by: (1) multiplying the 2003 USDA National Agricultural Statistics Service (NASS) county average yield for the applicable county by; (2) the producer's 2005 cotton acreage in the eligible county. Proof of cotton acreage may be obtained by the applicant from FSA producer-certified county office acreage reports or crop insurance records. If the NASS county average yield is not computed for the applicable county, the applicant must use the NASS county average yield for the nearest cotton producing county with the highest NASS county average yield.

The applicant's lint eligibility will be calculated individually for all eligible producers. A gin's eligibilities will then be added together to determine the total lint amount.

### **Enrollment**

CPP enrollment began Oct. 31, 2006. The sign-up deadline for CPP is Dec. 29, 2006, received by 11:59 p.m. Applications are available at local FSA offices and online at: <http://www.sc.egov.usda.gov>.

To participate, cotton gins must complete an application form including: (1) applicant name, address, phone and contact person; (2) bank account information for payees electing to have payments

made by EFT direct deposit; (3) the gin 5-digit identification code; and (4) the weight (in pounds) of cotton lint for which payment is requested. FSA must receive the application within the announced application period.

Applications must be filed by overnight mail or facsimile with FSA's Price Support Division in Washington, D.C. The address is:

USDA/FSA/PSD  
Attention: Chris Kyer  
1400 Independence Ave., S.W.  
Stop 0512 – Room 4089  
Washington, D.C. 20250-0512

The fax number is (202) 690-1536.

For more information contact Mr. Chris Kyer by phone at (202) 720-7935 or by e-mail at [kyer@wdc.usda.gov](mailto:kyer@wdc.usda.gov).

### **For More Information**

For more information about FSA and its programs, visit your local USDA Service Center or online at: <http://www.fsa.usda.gov>.
