

# Private Foundations and Charitable Trusts, 1992

## Data Release

**F**or 1992, private foundations and charitable trusts reported \$23.9 billion in total revenues and \$11.5 billion in contributions, gifts, and grants paid out. Private foundations are generally larger in terms of asset size and more numerous than charitable trusts. The 42,428 private foundations accounted for 98 percent of the combined total of \$195.3 billion in assets (based on fair market value), while the 2,932 charitable trusts accounted for the remaining 2 percent.

A private foundation is a nonprofit, tax-exempt charitable organization that is narrowly supported and controlled, usually by an individual, family, or corporation. A charitable trust filing under Internal Revenue Code section 4947(a)(1) is also nonprofit, but is not tax-exempt and is typically supported and controlled by an individual or family. Both private foundations and charitable trusts are required to file and make public an annual information return, Form 990-PF, *Return of Private Foundation* (or *Section 4947(a)(1) Charitable Trust Treated as a Private Foundation*). The statistics contained in this data release are based on the data from these forms.

### Private Foundations

Total private foundation revenues fell by 4 percent from \$24.8 billion for 1991 to \$23.6 billion for 1992 [1]. This decrease was largely due to one organization's sale of some of its assets in 1991 [2]. If this organization was excluded, total revenue for 1991 and 1992 would equal \$20.6 billion and \$23.0 billion, respectively. This would have represented a nearly 12-percent increase, instead of the actual 4-percent drop, from 1991 to 1992.

Because of the effect of this one organization's activities, one of the major sources of foundation revenue -- net gains (less losses) from sales of assets -- dropped 21 percent, from \$8.5 billion to \$6.7 billion. By excluding this organization from the data for 1991 and 1992, net gains (less losses) from sales of assets would have increased by 36 percent from \$4.8 billion to \$6.5 billion. This same foundation also accounted for net gains (less losses) from sales of assets more than doubling from 1990 to 1991 [3].

Total assets (based on fair market value) grew by 1 percent to \$192.2 billion for 1992 compared to the previous year. The largest component of total assets, investments in securities, increased by nearly 4 percent to \$144.4 billion. Nearly 66 percent of these investments were in corporate stock, which continued to dominate total

investments in securities. The remaining 34 percent of investments in securities was in Government obligations and corporate bonds. Investments in Government obligations, alone, fell by 2 percent to \$30.5 billion for 1992, while investments in corporate bonds increased by 7 percent to \$18.7 billion. (Tables 1 and 3 present both fair market and book values for these asset accounts.)

### Section 4947(a)(1) Charitable Trusts

Charitable trusts, as defined under Internal Revenue Code section 4947(a)(1), reported slightly more than \$3.1 billion in total assets (fair market value) for 1992, an increase of 5 percent from 1991. Investments in securities, nearly 70 percent of total assets, grew from \$2.0 billion to \$2.2 billion. This increase was due to a 7-percent growth in corporate stock (fair market value), which increased to \$1.4 billion. Charitable contributions, gifts, and grants paid, fell by 2 percent to \$155 million (as reported on a cash basis in Table 2).

Total revenues grew significantly for 1992, to \$346.8 million, nearly 24 percent. The largest increase was for net gains (less losses) from sales of assets, up by over 70 percent, to \$126.1 million. Unlike private foundations, net gains (less losses) from sales of assets was the primary source of revenue for charitable trusts. Dividends and interest from securities accounted for \$120.1 million of revenues for 1992, followed by contributions, gifts, and grants of \$63.3 million (an increase of over 60 percent from the previous year).

### Data Sources and Limitations

Tables 1 and 3 provide information for Reporting Year 1992 for private foundations, while Tables 2 and 4 provide similar data for charitable trusts. The statistics are based on a sample of Reporting Year 1992 Forms 990-PF that were filed with the Internal Revenue Service (IRS). These returns were filed by organizations with accounting periods beginning in 1992 (and therefore ending between December 1992 and November 1993). Some part-year returns were included in the sample for organizations that changed their accounting periods, or filed initial or final returns. Approximately 62 percent of the foundations and 57 percent of charitable trusts had full-year accounting periods covering Calendar Year 1992, or part-year accounting periods that ended in December 1992. Additionally, 60 percent of total foundation assets and 55 percent of total trust assets were for the calendar-year accounting period. Therefore, the majority of the financial activities reflected in the statistics can be associated with Calendar Year 1992.

The 1992 sample was stratified based on both the size of book value of total assets and the type of organization

*This data release was written by Paul Arnsberger and Susan Eastep, economists with the Special Projects Section, Special Studies and Publications Branch, under the direction of Michael Alexander.*

## Private Foundations and Charitable Trusts, 1992

(either a private foundation or a charitable trust). Foundation returns were selected at rates that ranged from approximately 5 percent (for the more numerous but very small asset-size returns) to 100 percent (for the relatively few returns with large amounts of assets). Charitable trust returns were selected at rates that ranged from 31 to 100 percent. The 5,761 returns in the 1992 sample (4,929 foundations and 832 trusts) were drawn from the estimated population totals shown in Tables 1 through 4. The magnitude of sampling error, measured by the coefficient of variation, for selected financial data is shown in Figure A.

**Figure A**

### Coefficients of Variation for Selected Items, by Type of Organization, Reporting Year 1992

Item	Private foundations	Charitable trusts
Total assets (fair market value).....	0.39	0.57
Total revenue.....	1.87	1.24
Total expenses.....	2.06	2.06
Contributions, gifts, and grants paid.....	2.25	2.61

The population from which this sample was drawn consisted of 1992 Form 990-PF records posted to the IRS Business Master File during 1992 and 1993. Some of the records designated were for organizations deemed inactive or terminated. Inactive and terminated organizations are not reflected in the estimates. For the small number of active, large foundations and trusts whose returns for the 1992 Reporting Year were not yet filed or were otherwise unavailable for the statistics, data were estimated using prior-year returns.

The data presented were obtained from returns as originally filed. The data were subjected to comprehensive testing and correction procedures in order to ensure statistical reliability and validity. In most cases, changes made to the original return as a result of administrative processing, audit procedures, or a taxpayer amendment were not incorporated into the data base.

### Explanation of Selected Terms

**Charitable Trust** -- This type of organization, also referred to as a "nonexempt" charitable trust, is defined in Internal Revenue Code section 4947(a)(1) as an organization (1) that is not considered tax-exempt under section 501(a); (2) that has exclusively charitable interests; and (3) for which donors are allowed to claim a tax deduction for charitable contributions. Nonexempt charitable trusts that are not

publicly supported are subject to the same excise tax provisions that apply to private foundations and are required to file the same Form 990-PF. ("Publicly supported" nonexempt charitable trusts are required to file Form 990, *Return of Organization Exempt From Income Tax*, and are, therefore, not included in the statistics [4].) Nonexempt charitable trusts must pay an annual tax on income (usually from investments) that is not distributed for charitable purposes, and they must report such income and tax on Form 1041, *U.S. Income Tax Return for Estates and Trusts*.

**Distributable Amount** -- This was the minimum payout amount that was required to be distributed by the end of the year following the year for which the return was filed. Failure to distribute income within this time period resulted in a 15-percent excise tax on the undistributed portion. The distributable amount was computed as 5 percent of "net investment assets," called the "minimum investment return," minus taxes on both "net investment income" and "unrelated business income," plus or minus other adjustments, either allowed or required.

**Excess Distributions Carryover** -- The excess carryover equaled the excess of "qualifying distributions" for 1992 over the "distributable amount." "Excess" amounts from the current year could be carried forward to be applied to the distributable amount for the following 5 years.

**Minimum Investment Return** -- This was the aggregate fair market value of assets not used for charitable purposes, less both the indebtedness incurred to acquire them and cash held for charitable activities, multiplied by 5 percent. The minimum investment return was used as the base for calculating the "distributable amount."

**Nonoperating Foundations (and Section 4947(a)(1) Charitable Trusts)** -- Nonoperating foundations and trusts generally carried on their charitable activities in an indirect manner by making grants to other organizations directly engaged in charitable activities, in contrast to those (operating) foundations and trusts which engaged in charitable activities, themselves. However, some nonoperating foundations and trusts were actively involved in charitable programs of their own, in addition to making grants to other organizations. Nonoperating foundations and trusts were subject to an excise tax (and possible additional penalties) for failure to distribute an annual minimum amount for charitable purposes within a required time period.

**Operating Foundations (and Section 4947(a)(1) Charitable Trusts)** -- These organizations generally expended their income for direct, active involvement in a tax-exempt activity, such as operating a library or museum, or conducting scientific research. Operating foundations and

trusts were excepted from the income distribution requirement and related excise taxes that were applicable to their nonoperating counterparts. To qualify as an operating foundation or trust for a particular taxable year, the private foundation or trust had to meet both an "income test" and one of three other tests: an "assets test," an "endowment test," or a "support test." (The tests are described below with reference to private foundations, but apply in the same manner to charitable trusts.)

To meet the income test, a private foundation had to spend at least 85 percent of the lesser of its "adjusted net income" or "minimum investment return" on the direct, active conduct of tax-exempt, charitable activities (as opposed to the payout of grants in support of such programs). The assets test was met if 65 percent or more of the foundation's assets were directly used for the active conduct of charitable activities. The endowment test was met if the foundation normally made distributions for the active conduct of charitable activities in an amount not less than two-thirds of its "minimum investment return." The support test was met if the foundation normally received substantially all of its support (other than from "gross investment income") from the public or from five or more qualifying exempt organizations, and (a) no more than 25 percent of its support (other than from "gross investment income") was normally received from any one such qualifying exempt organization; and (b) no more than 50 percent of its support was normally received from gross investment income.

*Private Foundation* -- This type of organization is defined in Internal Revenue Code section 501(c)(3) as a nonprofit corporation, association, or trust with a narrow source of funds that operated or supported social, educational, scientific, charitable, religious, or other programs dedicated to improving the general welfare of society. A private foundation is *not*: (1) a church, school, hospital, or medical research organization; (2) an organization with broad public support in the form of contributions or income from tax-exempt activities; (3) an organization that was operated by, or in connection with, any of the above described organizations; and (4) an organization that conducts tests for public safety. The primary difference between a private foundation and a public charity is

the sources of each type of organization's funding. A foundation usually receives its funds from an individual, a family, or a corporation, while a public charity receives its funds primarily from a large number of sources within the general public.

*Qualifying Distributions* -- Qualifying distributions include disbursements for charitable purposes; amounts paid to acquire assets used directly to accomplish tax-exempt functions; charitable program-related investments; and amounts set aside for future charitable projects. Qualifying distributions could be credited against the foundation's or trust's obligation to pay out its "distributable amount."

*Undistributed Income* -- Undistributed income was the portion of the required "distributable amount" still undistributed after applying against it the sum of current-year qualifying distributions and any excess distributions carried over from prior years.

### Notes and References

- [1] For more information on private foundations and charitable trusts for 1991, see "Private Foundations and Charitable Trusts, 1991," *Statistics of Income Bulletin*, Winter 1994-95, Volume 14, Number 3.
- [2] This organization, the Wellcome Foundation, is a private foundation funded by a British pharmaceutical company. For 1991, the foundation began the year with \$10.6 billion in total assets (fair market value) and later sold \$3.6 billion of its stock holdings. For 1992, its assets dropped to \$5.0 billion and its total revenue dropped to \$574 million.

N/A - not applicable.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

<sup>1</sup> The data shown in columns 18 and 19 are based on the amount of contributions, gifts, and grants that foundations actually disbursed for charitable purposes for 1992 using the cash receipts and disbursements method of accounting. These amounts differ somewhat from those reported as contributions, gifts, and grants paid shown in the income statement (Table 3) because foundations may use either the cash receipts and disbursements or the accrual method of accounting.

<sup>2</sup> Less than \$500.

NOTE: Detail may not add to totals because of rounding.

N/A - not applicable.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

<sup>1</sup> Less than \$500.

<sup>2</sup> The data shown in columns 18 and 19 are based on the amount of contributions, gifts, and grants that foundations actually disbursed for charitable purposes for 1992 using the cash receipts and disbursements method of accounting. These amounts differ somewhat from those reported as contributions, gifts, and grants paid shown in the income statement (Table 4) because foundations may use either the cash receipts and disbursements or the accrual method of accounting.

NOTE: Detail may not add to totals because of rounding.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

† The data in this row are based on the amount of contributions, gifts, and grants paid as reported on the income statement portion of the return. These amounts differ somewhat from the contributions, gifts, and grants paid in columns 18 and 19 of Table 1, which are calculated using the cash receipts and disbursements method of accounting.

NOTE: Detail may not add to totals because of rounding.
