SERVICE LINE FIELD DEFINITIONS

SERVICE-REVENUE-CODE: The provider-assigned revenue code for each cost center for which a separate charge is billed. A cost center is a division or unit within a hospital (e.g., radiology, emergency room, pathology). Revenue center code "0001" is used to identify the claim "totals" line.

EXCEPTION: Revenue center code 0001 represents the total of all revenue centers included on the claim.

SERVICE-HCPCS: Healthcare Common Procedure Coding System (HCPCS) code for an item or service, is a collection of codes that represent procedures.

SERVICE-DATE-OFFSET: the number of days from the actual claim date of service. The actual claim date of service is not provided except in quarter/year format, and can be found in the "FROM-DATE" field. This "SERVICE-DATE-OFFSET" field can be used to determine when line items were provided in comparison to other line items on the claim. The value "-999" will be used to indicate that the original line date of service was missing from the data.

SERVICE-UNIT-COUNT: The number of units of the item or service delivered.

SERVICE-TOTAL-CHARGES: The total charges (covered and non-covered) for all accommodations and services (related to the revenue code) for a billing period before reduction for the deductible and coinsurance amounts and before an adjustment for the cost of services provided.

SERVICE-COST: The charges adjusted to cost using the hospital's specific cost center cost-to-charge ratio.
