Subcommittee on Oversight and Investigations

The Honorable Bart Stupak

1. Was the Los Alamos National Security, LLC (LANS) contract amended to include DOE Order 205.1A and the Department of Energy (DOE) Manual for National Security Systems? On what date were these modifications made?
2. What is the cost estimate for LANL to comply with the requirements of the cyber security manual?
3. Please itemize all DOE Orders or directives for which LANS has sought a waiver or variance. Please provide the date of the variance or waiver request, status of the waiver request (i.e., approved, denied, pending), and the justification for the waiver request.
4. How is LANS implementing the pilot project for reduced Federal oversight at LANL?
5. Is LANS using any third parties to verify compliance as recommended in the memo from Linton Brooks to Ed Wilmot from 2006? Please provide a list of the third party verifiers and the areas where they are providing verification services. What is the annual cost for third party verification?
6. If the LANL pilot project for reduced Federal oversight was eliminated and a conventional oversight model reinstated, would LANS retain its existing Contractor Assurance System?
7. Please provide a list of LANS Board members and their organizational affiliations.
8. Please provide a description of the specific ownership shares of LANS amongst its teaming partners.
9. Is part of the reason Los Alamos has had a history of repeated security problems due to the footprint for classified operations being simply too large and the facilities too far flung to manage classified information effectively?
10. Should LANS, as an institution, be held accountable for the recent breakdowns in cyber security at Los Alamos?
11. Please provide the amount of the total annual compensation package—base plus bonus plus fringe—for the director and associate directors at LANL.
