<sup>a</sup> Asphalt and road oil are used only in the industrial sector.

<sup>b</sup> "Other Petroleum Products" is the subtotal of 16 petroleum products. All are used in the industrial sector with the exception of small amounts of petroleum coke that are consumed in the electric power and commercial sectors. See a full description in the "Other Petroleum Products" and "Petroleum Coke" sections of the Petroleum Technical Notes.

— = No consumption, including cases where adjustments were made. See explanation of adjustments in Section 7 of the

Price and Expenditure Technical Notes.

Where shown, (s) = Physical unit value less than 0.5, Btu value less than 0.05, or expenditure value less than 0.05.

Note: Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
