^a Due to consumption weighting, the U.S. average residential price is \$18.59 per million Btu and the U.S. average commercial price is \$18.73 per million Btu.
 — = No consumption.

(s) = Physical unit value less than 0.5, Btu value less than 0.05, or expenditure value less than 0.05.
 Note: Totals may not equal sum of components due to independent rounding.
 Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
