*\* Companies from other sectors are encouraged to apply. Market potential will be assessed on a case-by-case basis.*

## Dynamic markets provide a portal to the MENA region...

**Jordan** seeks to establish itself as an important regional and international trading hub, strategically located in the center of the Middle East. Since Dec. 2001, the U.S.-Jordan FTA has dramatically boosted bilateral trade. In just 5 years bilateral trade has almost tripled to over \$1 billion. As of January 1, 2005, 95% of all tariffs on U.S. exports to Jordan in all major categories have been eliminated. **Egypt**, with a population of 78.8 million, sits in the heart of the North Africa. The United States is Egypt's largest bilateral trading partner as well as the second largest investor in Egypt. Roughly two-thirds of total U.S. investment is in the oil and gas sector, but also includes significant investment in other areas.
