(b) Members of the Commission will serve for terms of 2 years and may continue to serve after the expiration of their term until a successor is appointed. A member appointed to fill an unexpired term will be appointed to the remainder of such term.

(c) The President shall designate a Chairperson from among the members of the NBAC.

SEC. 5. *Functions*. (a) NBAC shall provide advice and make recommendations to the National Science and Technology Council and to other appropriate government entities regarding the following matters:

(1) the appropriateness of departmental, agency, or other governmental programs, policies, assignments, missions, guidelines, and regulations as they relate to bioethical issues arising from research on human biology and behavior; and

(2) applications, including the clinical applications, of that research.

(b) NBAC shall identify broad principles to govern the ethical conduct of research, citing specific projects only as illustrations for such principles.

(c) NBAC shall not be responsible for the review and approval of specific projects.

(d) In addition to responding to requests for advice and recommendations from the National Science and Technology Council, NBAC also may accept suggestions of issues for consideration from both the Congress and the public. NBAC also may identify other bioethical issues for the purpose of providing advice and recommendations, subject to the approval of the National Science and Technology Council.

SEC. 6. *Priorities*. (a) As a first priority, NBAC shall direct its attention to consideration of: protection of the rights and welfare of human research subjects; and issues in the management and use of genetic information, including but not limited to, human gene patenting.

(b) NBAC shall consider four criteria in establishing the other priorities for its activities:

(1) the public health or public policy urgency of the bioethical issue;

(2) the relation of the bioethical issue to the goals for Federal investment in science and technology;

(3) the absence of another entity able to deliberate appropriately on the bioethical issue; and

(4) the extent of interest in the issue within the Federal Government.

SEC. 7. *Administration*. (a) The heads of executive departments and agencies shall, to the extent permitted by law, provide NBAC with such information as it may require for purposes of carrying out its functions.

(b) NBAC may conduct inquiries, hold hearings, and establish subcommittees, as necessary. The Assistant to the President for Science and Technology and the Secretary of Health and Human Services shall be notified upon establishment of each subcommittee, and shall be provided information on the name, membership (including chair), function, estimated duration, and estimated frequency of meetings of the subcommittee.

(c) NBAC is authorized to conduct analyses and develop reports or other materials. In order to augment the expertise present on NBAC, the Secretary of Health and Human Services may contract for the services of nongovernmental consultants who may conduct analyses, prepare reports and background papers, or prepare other materials for consideration by NBAC, as appropriate.

(d) Members of NBAC shall be compensated in accordance with Federal law. Members of NBAC may be allowed travel expenses, including per diem in lieu of subsistence, to the extent permitted by law for persons serving intermittently in the government service (5 U.S.C. 5701–5707).

(e) To the extent permitted by law, and subject to the availability of appropriations, the Department of Health and Human Services shall provide NBAC with such funds as may be necessary for the performance of its functions. The Secretary of Health and Human Services shall provide management and support services to NBAC.

SEC. 8. *General Provisions*. (a) Notwithstanding the provisions of any other Executive order, the functions of the President under the Federal Advisory Committee Act that are applicable to NBAC, except that of reporting annually to the Congress, shall be performed by the Secretary of Health and Human Services, in accordance with the guidelines and procedures established by the Administrator of General Services.

(b) NBAC shall terminate on October 3, 2001, unless extended by the President prior to that date.

(c) This order is intended only to improve the internal management of the executive branch and it is not intended to create any right, benefit, trust, or responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any person.

WILLIAM J. CLINTON.

EX. ORD. NO. 13226. PRESIDENT'S COUNCIL OF ADVISORS ON SCIENCE AND TECHNOLOGY

Ex. Ord. No. 13226, Sept. 30, 2001, 66 F.R. 50523, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Federal Advisory Committee Act, as amended (5 U.S.C. App.), and in order to establish an advisory committee on science and technology, it is hereby ordered as follows:

SECTION 1. *Establishment*. There is established the President's Council of Advisors on Science and Technology (PCAST). The PCAST shall be composed of not more than 25 members, one of whom shall be a Federal Government official designated by the President (the ''Official''), and 24 of whom shall be nonfederal members appointed by the President and have diverse perspectives and expertise in science, technology, and the impact of science and technology on the Nation. The Official shall co-chair PCAST with a nonfederal member designated by the President.

SEC. 2. *Functions*. (a) The PCAST shall advise the President, through the Official, on matters involving science and technology policy.

(b) In performance of its advisory duties, the PCAST shall assist the National Science and Technology Coun-

cil (NSTC) in securing private sector involvement in its activities.

SEC. 3. *Administration*. (a) The heads of the executive departments and agencies shall, to the extent permitted by law, provide the PCAST with information concerning scientific and technological matters when requested by the PCAST co-chairs.

(b) In consultation with the Official, the PCAST is authorized to convene ad hoc working groups to provide preliminary nonbinding information and advice directly to the PCAST.

(c) Members shall serve without compensation for their work on the PCAST. However, members may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the government service (5 U.S.C. 5701–5707).

(d) Any expenses of the PCAST shall be paid from the funds available for the expenses of the Office of Science and Technology Policy.

(e) The Office of Science and Technology Policy shall provide such administrative services as the PCAST may require, with the approval of the Official.

SEC. 4. *General*. (a) Notwithstanding any other Executive Order, the functions of the President with respect to the PCAST under the Federal Advisory Committee Act, as amended, except that of reporting to the Congress, shall be performed by the Office of Science and Technology Policy in accordance with the guidelines and procedures established by the Administrator of General Services.

(b) The PCAST shall terminate 2 years from the date of this order unless extended by the President prior to that date.

(c) Executive Order 12882 of November 23, 1993; Executive Order 12907 of April 14, 1994; and section 1(h) of Executive Order 13138 of September 30, 1999 [formerly set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees], are hereby revoked.

GEORGE W. BUSH.

EX. ORD. NO. 13237. CREATION OF THE PRESIDENT'S COUNCIL ON BIOETHICS

Ex. Ord. No. 13237, Nov. 28, 2001, 66 F.R. 59851, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Establishment*. There is established the President's Council on Bioethics (the ''Council'').

SEC. 2. *Mission*.

(a) The Council shall advise the President on bioethical issues that may emerge as a consequence of advances in biomedical science and technology. In connection with its advisory role, the mission of the Council includes the following functions:

(1) to undertake fundamental inquiry into the human and moral significance of developments in biomedical and behavioral science and technology;

(2) to explore specific ethical and policy questions related to these developments;

(3) to provide a forum for a national discussion of bioethical issues;

(4) to facilitate a greater understanding of bioethical issues; and

(5) to explore possibilities for useful international collaboration on bioethical issues.

(b) In support of its mission, the Council may study ethical issues connected with specific technological activities, such as embryo and stem cell research, assisted reproduction, cloning, uses of knowledge and techniques derived from human genetics or the neurosciences, and end of life issues. The Council may also study broader ethical and social issues not tied to a specific technology, such as questions regarding the protection of human subjects in research, the appropriate uses of biomedical technologies, the moral implications of biomedical technologies, and the consequences of limiting scientific research.

(c) The Council shall strive to develop a deep and comprehensive understanding of the issues that it considers. In pursuit of this goal, the Council shall be guided by the need to articulate fully the complex and often competing moral positions on any given issue, rather than by an overriding concern to find consensus. The Council may therefore choose to proceed by offering a variety of views on a particular issue, rather than attempt to reach a single consensus position.

(d) The Council shall not be responsible for the review and approval of specific projects or for devising and overseeing regulations for specific government agencies.

(e) In support of its mission, the Council may accept suggestions of issues for consideration from the heads of other Government agencies and other sources, as it deems appropriate.

(f) In establishing priorities for its activities, the Council shall consider the urgency and gravity of the particular issue; the need for policy guidance and public education on the particular issue; the connection of the bioethical issue to the goal of Federal advancement of science and technology; and the existence of another entity available to deliberate appropriately on the bioethical issue.

SEC. 3. *Membership*.

(a) The Council shall be composed of not more than 18 members appointed by the President from among individuals who are not officers or employees of the Federal Government. The Council shall include members drawn from the fields of science and medicine, law and government, philosophy and theology, and other areas of the humanities and social sciences.

(b) The President shall designate a member of the Council to serve as Chairperson.

(c) The term of office of a member shall be 2 years, and members shall be eligible for reappointment. Members may continue to serve after the expiration of their terms until the President appoints a successor. A member appointed to fill a vacancy shall serve only for the unexpired term of such vacancy.

SEC. 4. *Administration*.

(a) Upon the request of the Chairperson, the heads of executive departments and agencies shall, to the extent permitted by law, provide the Council with information it needs for purposes of carrying out its functions.

(b) The Council may conduct inquiries, hold hearings, and establish subcommittees, as necessary.

(c) The Council is authorized to conduct analyses and develop reports or other materials.

(d) Members of the Council may be compensated to the extent permitted by Federal law for their work on the Council. Members may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in Government service (5 U.S.C. 5701–5707), to the extent funds are available.

(e) To the extent permitted by law, and subject to the availability of appropriations, the Department of Health and Human Services shall provide the Council with administrative support and with such funds as may be necessary for the performance of the Council's functions.

(f) The Council shall have a staff headed by an Executive Director, who shall be appointed by the Secretary of Health and Human Services in consultation with the Chairperson. To the extent permitted by law, office space, analytical support, and additional staff support for the Council shall be provided by the Department of Health and Human Services or other executive branch departments and agencies as directed by the President.

SEC. 5. *General Provisions*.

(a) Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.), may apply to the Council, any functions of the President under that Act, except that of reporting to the Congress, shall be performed by the Secretary of Health and Human Services in accordance with the guidelines that have been issued by the Administrator of General Services.

(b) The Council shall terminate 2 years from the date of this order unless extended by the President prior to that date.

(c) This order is intended only to improve the internal management of the executive branch and it is not intended to create any right, benefit, trust, or responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any person.

GEORGE W. BUSH.

STRENGTHENED PROTECTIONS FOR HUMAN SUBJECTS OF CLASSIFIED RESEARCH

Memorandum of President of the United States, Mar. 27, 1997, 62 F.R. 26369, provided:

Memorandum for the Secretary of Defense, the Attorney General, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Secretary of Health and Human Services, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Secretary of Energy, the Secretary of Education, the Secretary of Veterans Affairs, the Director of Central Intelligence, the Administrator of the Environmental Protection Agency, the Administrator of the Agency for International Development, the Administrator of the National Aeronautics and Space Administration, the Director of the National Science Foundation, the Chair of the Nuclear Regulatory Commission, the Director of the Office of Science and Technology Policy, [and] the Chair of the Consumer Product Safety Commission

I have worked hard to restore trust and ensure openness in government. This memorandum will further our progress toward these goals by strengthening the Federal Government's protections for human subjects of classified research.

In January 1994, I established the Advisory Committee on Human Radiation Experiments (the ''Advisory Committee'') to examine reports that the government had funded and conducted unethical human radiation experiments during the Cold War [see Ex. Ord. No. 12891, set out as a note under section 2210 of this title]. I directed the Advisory Committee to uncover the truth, recommend steps to right past wrongs, and propose ways to prevent unethical human subjects research from occurring in the future. In its October 1995 final report, the Advisory Committee recommended, among other things, that the government modify its policy governing classified research on human subjects (''Recommendations for Balancing National Security Interests and the Rights of the Public,'' Recommendation 15, Final Report, Advisory Committee on Human Radiation Experiments). This memorandum sets forth policy changes in response to those recommendations.

The Advisory Committee acknowledged that it is in the Nation's interest to continue to allow the government to conduct classified research involving human subjects where such research serves important national security interests. The Advisory Committee found, however, that classified human subjects research should be a ''rare event'' and that the ''subjects of such research, as well as the interests of the public in openness in science and in government, deserve special protections.'' The Advisory Committee was concerned about ''exceptions to informed consent requirements and the absence of any special review and approval process for human research that is to be classified.'' The Advisory Committee recommended that in all classified research projects the agency conducting or sponsoring the research meet the following requirements:

—obtain informed consent from all human subjects;

—inform subjects of the identity of the sponsoring agency;

—inform subjects that the project involves classified research;

—obtain approval by an ''independent panel of nongovernmental experts and citizen representatives, all with the necessary security clearances'' that reviews scientific merit, risk-benefit tradeoffs, and ensures subjects have enough information to make informed decisions to give valid consent; and

—maintain permanent records of the panel's deliberations and consent procedures.

This memorandum implements these recommendations with some modifications. For classified research, it prohibits waiver of informed consent and requires researchers to disclose that the project is classified. For all but minimal risk studies, it requires researchers to inform subjects of the sponsoring agency. It also requires permanent recordkeeping.

The memorandum also responds to the Advisory Committee's call for a special review process for classified human subjects research. It requires that institutional review boards for secret projects include a nongovernmental member, and establishes an appeals process so that any member of a review board who believes a project should not go forward can appeal the boards' decision to approve it.

Finally, this memorandum sets forth additional steps to ensure that classified human research is rare. It requires the heads of Federal agencies to disclose annually the number of secret human research projects undertaken by their agency. It also prohibits any agency from conducting secret human research without first promulgating a final rule applying the Federal Policy for the Protection of Human Subjects, as modified in this memorandum, to the agency.

These steps, set forth in detail below, will preserve the government's ability to conduct any necessary classified research involving human subjects while ensuring adequate protection of research participants.

1. *Modifications to the Federal Policy for the Protection of Human Subjects as it Affects Classified Research.* All agencies that may conduct or support classified research that is subject to the 1991 Federal Policy for the Protection of Human Subjects (''Common Rule'') (56 Fed. Reg. 28010–28018) shall promptly jointly publish in the Federal Register the following proposed revisions to the Common Rule as it affects classified research. The Office for Protection from Research Risks in the Department of Health and Human Services shall be the lead agency and, in consultation with the Office of Management and Budget, shall coordinate the joint rulemaking.

(a) The agencies shall jointly propose to prohibit waiver of informed consent for classified research.

(b) The agencies shall jointly propose to prohibit the use of expedited review procedures under the Common Rule for classified research.

(c) The joint proposal should request comment on whether all research exemptions under the Common Rule should be maintained for classified research.

(d) The agencies shall jointly propose to require that in classified research involving human subjects, two additional elements of information be provided to potential subjects when consent is sought from subjects:

(i) the identity of the sponsoring Federal agency. Exceptions are allowed if the head of the sponsoring agency determines that providing this information could compromise intelligence sources or methods and that the research involves no more than minimal risk to subjects. The determination about sources and methods is to be made in consultation with the Director of Central Intelligence and the Assistant to the President for National Security Affairs. The determination about risk is to be made in consultation with the Director of the White House Office of Science and Technology Policy.

(ii) a statement that the project is ''classified'' and an explanation of what classified means.

(e) The agencies shall jointly propose to modify the institutional review board (''IRB'') approval process for classified human subjects research as follows:

(i) The Common Rule currently requires that each IRB ''include at least one member who is not otherwise affiliated with the institution and who is not part of the immediate family of a person who is affiliated with the institution.'' For classified research, the agencies shall define ''not otherwise affiliated with the institution,'' as a nongovernmental member with the appropriate security clearance.

(ii) Under the Common Rule, research projects are approved by the IRB if a ''majority of those (IRB) mem-

bers present at a meeting'' approved the project. For classified research, the agencies shall propose to permit any member of the IRB who does not believe a specific project should be approved by the IRB to appeal a majority decision to approve the project to the head of the sponsoring agency. If the agency head affirms the IRB's decision to approve the project, the dissenting IRB member may appeal the IRB's decisions to the Director of OSTP. The Director of OSTP shall review the IRB's decision and approve or disapprove the project, or, at the Director's discretion, convene an IRB made up of nongovernmental officials, each with the appropriate security clearances, to approve or disapprove the project.

(iii) IRBs for classified research shall determine whether potential subjects need access to classified information to make a valid informed consent decision.

2. *Final Rules*. Agencies shall, within 1 year, after considering any comments, promulgate final rules on the protection of human subjects of classified research.

3. *Agency Head Approval of Classified Research Projects*. Agencies may not conduct any classified human research project subject to the Common Rule unless the agency head has personally approved the specific project.

4. *Annual Public Disclosure of the Number of Classified Research Projects*. Each agency head shall inform the Director of OSTP by September 30 of each year of the number of classified research projects involving human subjects underway on that date, the number completed in the previous 12-month period, and the number of human subjects in each project. The Director of OSTP shall report the total number of classified research projects and participating subjects to the President and shall then report to the congressional armed services and intelligence committees and further shall publish the numbers in the Federal Register.

5. *Definitions*. For purposes of this memorandum, the terms ''research'' and ''human subject'' shall have the meaning set forth in the Common Rule. ''Classified human research'' means research involving ''classified information'' as defined in Executive Order 12958 [50 U.S.C. 435 note].

6. *No Classified Human Research Without Common Rule*. Beginning one year after the date of this memorandum, no agency shall conduct or support classified human research without having proposed and promulgated the Common Rule, including the changes set forth in this memorandum and any subsequent amendments.

7. *Judicial Review*. This memorandum is not intended to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any other persons.

8. The Secretary of Health and Human Services shall publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6614 of this title.

§ 6602. Congressional declaration of policy

(a) Principles

In view of the foregoing, the Congress declares that the United States shall adhere to a national policy for science and technology which includes the following principles:

(1) The continuing development and implementation of strategies for determining and achieving the appropriate scope, level, direction, and extent of scientific and technological efforts based upon a continuous appraisal of the role of science and technology in achieving goals and formulating policies of the United States, and reflecting the views of State and local governments and representative public groups.

(2) The enlistment of science and technology to foster a healthy economy in which the directions of growth and innovation are compatible with the prudent and frugal use of resources and with the preservation of a benign environment.

(3) The conduct of science and technology operations so as to serve domestic needs while promoting foreign policy objectives.

(4) The recruitment, education, training, retraining, and beneficial use of adequate numbers of scientists, engineers, and technologists, and the promotion by the Federal Government of the effective and efficient utilization in the national interest of the Nation's human resources in science, engineering, and technology.

(5) The development and maintenance of a solid base for science and technology in the United States, including: (A) strong participation of and cooperative relationships with State and local governments and the private sector; (B) the maintenance and strengthening of diversified scientific and technological capabilities in government, industry, and the universities, and the encouragement of independent initiatives based on such capabilities, together with elimination of needless barriers to scientific and technological innovation; (C) effective management and dissemination of scientific and technological information; (D) establishment of essential scientific, technical and industrial standards and measurement and test methods; and (E) promotion of increased public understanding of science and technology.

(6) The recognition that, as changing circumstances require periodic revision and adaptation of this subchapter, the Federal Government is responsible for identifying and interpreting the changes in those circumstances as they occur, and for effecting subsequent changes in this subchapter as appropriate.

(b) Implementation

To implement the policy enunciated in subsection (a) of this section, the Congress declares that:

(1) The Federal Government should maintain central policy planning elements in the executive branch which assist Federal agencies in (A) identifying public problems and objectives, (B) mobilizing scientific and technological resources for essential national programs, (C) securing appropriate funding for programs so identified, (D) anticipating future concerns to which science and technology can contribute and devising strategies for the conduct of science and technology for such purposes, (E) reviewing systematically Federal science policy and programs and recommending legislative amendment thereof when needed. Such elements should include an advisory mechanism within the Executive Office of the President so that the Chief Executive may have available independent, expert judgment and assistance on policy matters which require accurate assessments of the complex scientific and technological features involved.

(2) It is a responsibility of the Federal Government to promote prompt, effective, reli-

able, and systematic transfer of scientific and technological information by such appropriate methods as programs conducted by nongovernmental organizations, including industrial groups and technical societies. In particular, it is recognized as a responsibility of the Federal Government not only to coordinate and unify its own science and technology information systems, but to facilitate the close coupling of institutional scientific research with commercial application of the useful findings of science.

(3) It is further an appropriate Federal function to support scientific and technological efforts which are expected to provide results beneficial to the public but which the private sector may be unwilling or unable to support.

(4) Scientific and technological activities which may be properly supported exclusively by the Federal Government should be distinguished from those in which interests are shared with State and local governments and the private sector. Among these entities, cooperative relationships should be established which encourage the appropriate sharing of science and technology decisionmaking, funding support, and program planning and execution.

(5) The Federal Government should support and utilize engineering and its various disciplines and make maximum use of the engineering community, whenever appropriate, as an essential element in the Federal policymaking process.

(6) Comprehensive legislative support for the national science and technology effort requires that the Congress be regularly informed of the condition, health and vitality, and funding requirements of science and technology, the relation of science and technology to changing national goals, and the need for legislative modification of the Federal endeavor and structure at all levels as it relates to science and technology.

(c) Procedures

The Congress declares that, in order to expedite and facilitate the implementation of the policy enunciated in subsection (a) of this section, the following coordinate procedures are of paramount importance:

(1) Federal procurement policy should encourage the use of science and technology to foster frugal use of materials, energy, and appropriated funds; to assure quality environment; and to enhance product performance.

(2) Explicit criteria, including cost-benefit principles where practicable, should be developed to identify the kinds of applied research and technology programs that are appropriate for Federal funding support and to determine the extent of such support. Particular attention should be given to scientific and technological problems and opportunities offering promise of social advantage that are so long range, geographically widespread, or economically diffused that the Federal Government constitutes the appropriate source for undertaking their support.

(3) Federal promotion of science and technology should emphasize quality of research, recognize the singular importance of stability in scientific and technological institutions, and for urgent tasks, seek to assure timeliness of results. With particular reference to Federal support for basic research, funds should be allocated to encourage education in needed disciplines, to provide a base of scientific knowledge from which future essential technological development can be launched, and to add to the cultural heritage of the Nation.

(4) Federal patent policies should be developed, based on uniform principles, which have as their objective the preservation of incentives for technological innovation and the application of procedures which will continue to assure the full use of beneficial technology to serve the public.

(5) Closer relationships should be encouraged among practitioners of different scientific and technological disciplines, including the physical, social, and biomedical fields.

(6) Federal departments, agencies, and instrumentalities should assure efficient management of laboratory facilities and equipment in their custody, including acquisition of effective equipment, disposal of inferior and obsolete properties, and cross-servicing to maximize the productivity of costly property of all kinds. Disposal policies should include attention to possibilities for further productive use.

(7) The full use of the contributions of science and technology to support State and local government goals should be encouraged.

(8) Formal recognition should be accorded those persons whose scientific and technological achievements have contributed significantly to the national welfare.

(9) The Federal Government should support applied scientific research, when appropriate, in proportion to the probability of its usefulness, insofar as this probability can be determined; but while maximizing the beneficial consequences of technology, the Government should act to minimize foreseeable injurious consequences.

(10) Federal departments, agencies, and instrumentalities should establish procedures to insure among them the systematic interchange of scientific data and technological findings developed under their programs.

(Pub. L. 94–282, title I, § 102, May 11, 1976, 90 Stat. 460.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6614 of this title.

SUBCHAPTER II—OFFICE OF SCIENCE AND TECHNOLOGY POLICY

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6632, 6671 of this title.

§ 6611. Establishment of Office

There is established in the Executive Office of the President an Office of Science and Technology Policy (hereinafter referred to in this subchapter as the ''Office'').

(Pub. L. 94–282, title II, § 202, May 11, 1976, 90 Stat. 463.)

SHORT TITLE

For short title of this subchapter as the ''Presidential Science and Technology Advisory Organization Act of 1976'', see section 201 of Pub. L. 94–282, set out as a Short Title note under section 6601 of this title.

HIGH-RESOLUTION INFORMATION SYSTEM ADVISORY BOARD

Pub. L. 102–245, title V, § 501, Feb. 14, 1992, 106 Stat. 22, authorized the Director of the Office of Science and Technology Policy to establish within that office a High-Resolution Information Systems Advisory Board to monitor and, as appropriate, foster the development and competitiveness of United States-based high-resolution information systems industries, further provided that ''high-resolution information systems'' means equipment and techniques required to create, store, recover, and play back high-resolution images and accompanying sound, further provided for functions of the Board, including provision of guidance and advice relating to establishment of such industries as well as transfer of Federal technologies to the private sector, further provided for membership and procedures of the Board, including submission of annual report of its activities to the President and Congress, and further provided for limitation on functions of Board and appropriations through fiscal year 1993.

§ 6612. Director; Associate Directors

There shall be at the head of the Office a Director who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level II of the Executive Schedule in section 5313 of title 5. The President is authorized to appoint not more than four Associate Directors, by and with the advice and consent of the Senate, who shall be compensated at a rate not to exceed that provided for level III of the Executive Schedule in section 5314 of such title. Associate Directors shall perform such functions as the Director may prescribe.

(Pub. L. 94–282, title II, § 203, May 11, 1976, 90 Stat. 463.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6632 of this title.

§ 6613. Functions of the Director

(a) The primary function of the Director is to provide, within the Executive Office of the President, advice on the scientific, engineering, and technological aspects of issues that require attention at the highest levels of Government.

(b) In addition to such other functions and activities as the President may assign, the Director shall—

(1) advise the President of scientific and technological considerations involved in areas of national concern including, but not limited to, the economy, national security, homeland security, health, foreign relations, the environment, and the technological recovery and use of resources;

(2) evaluate the scale, quality, and effectiveness of the Federal effort in science and technology and advise on appropriate actions;

(3) advise the President on scientific and technological considerations with regard to Federal budgets, assist the Office of Management and Budget with an annual review and analysis of funding proposed for research and development in budgets of all Federal agencies, and aid the Office of Management and Budget and the agencies throughout the budget development process; and

(4) assist the President in providing general leadership and coordination of the research and development programs of the Federal Government.

(Pub. L. 94–282, title II, § 204, May 11, 1976, 90 Stat. 463; Pub. L. 107–296, title XVII, § 1712(1), Nov. 25, 2002, 116 Stat. 2320.)

AMENDMENTS

2002—Subsec. (b)(1). Pub. L. 107–296 inserted ''homeland security,'' after ''national security,''.

EFFECTIVE DATE OF 2002 AMENDMENT

Amendment by Pub. L. 107–296 effective 60 days after Nov. 25, 2002, see section 4 of Pub. L. 107–296, set out as an Effective Date note under section 101 of Title 6, Domestic Security.

§ 6614. Policy planning; analysis; advice; establishment of advisory panel

(a) The Office shall serve as a source of scientific and technological analysis and judgment for the President with respect to major policies, plans, and programs of the Federal Government. In carrying out the provisions of this section, the Director shall—

(1) seek to define coherent approaches for applying science and technology to critical and emerging national and international problems and for promoting coordination of the scientific and technological responsibilities and programs of the Federal departments and agencies in the resolution of such problems;

(2) assist and advise the President in the preparation of the Science and Technology Report, in accordance with section 6618[1] of this title;

(3) gather timely and authoritative information concerning significant developments and trends in science, technology, and in national priorities, both current and prospective, to analyze and interpret such information for the purpose of determining whether such developments and trends are likely to affect achievement of the priority goals of the Nation as set forth in section 6601(b) of this title;

(4) encourage the development and maintenance of an adequate data base for human resources in science, engineering, and technology, including the development of appropriate models to forecast future manpower requirements, and assess the impact of major governmental and public programs on human resources and their utilization;

(5) initiate studies and analyses, including systems analyses and technology assessments, of alternatives available for the resolution of critical and emerging national and international problems amendable to the contributions of science and technology and, insofar as possible, determine and compare probable costs, benefits, and impacts of such alternatives;

(6) advise the President on the extent to which the various scientific and technological

[1] See References in Text note below.

programs, policies, and activities of the Federal Government are likely to affect the achievement of the priority goals of the Nation as set forth in section 6601(b) of this title;

(7) provide the President with periodic reviews of Federal statutes and administrative regulations of the various departments and agencies which affect research and development activities, both internally and in relation to the private sector, or which may interfere with desirable technological innovation, together with recommendations for their elimination, reform, or updating as appropriate;

(8) develop, review, revise, and recommend criteria for determining scientific and technological activities warranting Federal support, and recommend Federal policies designed to advance (A) the development and maintenance of broadly based scientific and technological capabilities, including human resources, at all levels of government, academia, and industry, and (B) the effective application of such capabilities to national needs;

(9) assess and advise on policies for international cooperation in science and technology which will advance the national and international objectives of the United States;

(10) identify and assess emerging and future areas in which science and technology can be used effectively in addressing national and international problems;

(11) report at least once each year to the President and the Congress on the overall activities and accomplishments of the Office, pursuant to section 6615 of this title;

(12) periodically survey the nature and needs of national science and technology policy and make recommendations to the President, for review and transmission to the Congress, for the timely and appropriate revision of such policy in accordance with section 6602(a)(6) of this title; and

(13) perform such other duties and functions and make and furnish such studies and reports thereon, and recommendations with respect to matters of policy and legislation as the President may request.

(b)(1) The Director shall establish an Intergovernmental Science, Engineering, and Technology Advisory Panel (hereinafter referred to as the ''Panel''), whose purpose shall be to (A) identify and define civilian problems at State, regional, and local levels which science, engineering, and technology may assist in resolving or ameliorating; (B) recommend priorities for addressing such problems; and (C) advise and assist the Director in identifying and fostering policies to facilitate the transfer and utilization of research and development results so as to maximize their application to civilian needs.

(2) The Panel shall be composed of (A) the Director of the Office, or his representative; (B) at least ten members representing the interests of the States, appointed by the Director of the Office after consultation with State officials; and (C) the Director of the National Science Foundation, or his representative.

(3)(A) The Director of the Office, or his representative, shall serve as Chairman of the Panel.

(B) The Panel shall perform such functions as the Chairman may prescribe, and shall meet at the call of the Chairman.

(4) Each member of the Panel shall, while serving on business of the Panel, be entitled to receive compensation at a rate not to exceed the daily rate prescribed for GS–18 of the General Schedule under section 5332 of title 5, including traveltime, and, while so serving away from his home or regular place of business, he may be allowed travel expenses, including per diem in lieu of subsistence in the same manner as the expenses authorized by section 5703(b)[2] of title 5 for persons in government service employed intermittently.

(Pub. L. 94–282, title II, §205, May 11, 1976, 90 Stat. 464; Pub. L. 97–375, title II, §215(2), (4), Dec. 21, 1982, 96 Stat. 1826, 1827.)

REFERENCES IN TEXT

Section 6618 of this title, referred to in subsec. (a)(2), was repealed by Pub. L. 97–375, title II, §215(1), Dec. 21, 1982, 96 Stat. 1826. See section 6615 of this title.

Section 5703 of title 5, referred to in subsec. (b)(4), was amended generally by Pub. L. 94–22, §4, May 19, 1975, 89 Stat. 85, and, as so amended, does not contain a subsec. (b).

AMENDMENTS

1982—Subsec. (a)(11). Pub. L. 97–375, §215(2), (4), inserted ''and the Congress'' after ''President'', and substituted ''section 6615'' for ''section 6618''.

TRANSFER OF FUNCTIONS

Functions vested in Office of Science and Technology Policy and Director thereof pursuant to subsec. (a)(2) of this section and sections 6615 and 6618 of this title transferred to Director of National Science Foundation by section 5A of Reorg. Plan No. 1 of 1977, set out in the Appendix to Title 5, Government Organization and Employees, effective Feb. 26, 1978, as provided by section 1(a) of Ex. Ord. No. 12039, Feb. 24, 1978, 43 F.R. 8095, set out under section 6601 of this title.

ABOLITION OF INTERGOVERNMENTAL SCIENCE, ENGINEERING, AND TECHNOLOGY ADVISORY PANEL; TRANSFER OF FUNCTIONS

The Intergovernmental Science, Engineering, and Technology Advisory Panel, established pursuant to this section, was abolished and its functions transferred to the President by Reorg. Plan No. 1 of 1977, §5A, 42 F.R. 56101, 91 Stat. 1634, set out in the Appendix to Title 5, effective Feb. 26, 1978, as provided by section 1(b) of Ex. Ord. No. 12039, Feb. 24, 1978, 43 F.R. 8095, set out under section 6601 of this title.

REFERENCES IN OTHER LAWS TO GS–16, 17, OR 18 PAY RATES

References in laws to the rates of pay for GS–16, 17, or 18, or to maximum rates of pay under the General Schedule, to be considered references to rates payable under specified sections of Title 5, Government Organization and Employees, see section 529 [title I, §101(c)(1)] of Pub. L. 101–509, set out in a note under section 5376 of Title 5.

COMPREHENSIVE ACCOUNTABILITY STUDY FOR FEDERALLY-FUNDED RESEARCH

Pub. L. 105–276, title IV, §430, Oct. 21, 1998, 112 Stat. 2512, provided that:

''(a) STUDY.—The Director of the Office of Science and Technology Policy, in consultation with the Director of the Office of Management and Budget, may enter

[2] See References in Text note below.

into an agreement with the National Academy of Sciences for the Academy to conduct a comprehensive study to develop methods for evaluating federally-funded research and development programs. This study shall—

''(1) recommend processes to determine an acceptable level of success for federally-funded research and development programs by—

''(A) describing the research process in the various scientific and engineering disciplines;

''(B) describing in the different sciences what measures and what criteria each community uses to evaluate the success or failure of a program, and on what time scales these measures are considered reliable—both for exploratory long-range work and for short-range goals; and

''(C) recommending how these measures may be adapted for use by the Federal Government to evaluate federally-funded research and development programs;

''(2) assess the extent to which agencies incorporate independent merit-based evaluation into the formulation of the strategic plans of funding agencies and if the quantity or quality of this type of input is unsatisfactory;

''(3) recommend mechanisms for identifying federally-funded research and development programs which are unsuccessful or unproductive;

''(4) evaluate the extent to which independent, merit-based evaluation of federally-funded research and development programs and projects achieves the goal of eliminating unsuccessful or unproductive programs and projects; and

''(5) investigate and report on the validity of using quantitative performance goals for aspects of programs which relate to administrative management of the program and for which such goals would be appropriate, including aspects related to—

''(A) administrative burden on contractors and recipients of financial assistance awards;

''(B) administrative burdens on external participants in independent, merit-based evaluations;

''(C) cost and schedule control for construction projects funded by the program;

''(D) the ratio of overhead costs of the program relative to the amounts expended through the program for equipment and direct funding of research; and

''(E) the timeliness of program responses to requests for funding, participation, or equipment use.

''(b) INDEPENDENT MERIT-BASED EVALUATION DEFINED.—The term 'independent merit-based evaluation' means review of the scientific or technical quality of research or development, conducted by experts who are chosen for their knowledge of scientific and technical fields relevant to the evaluation and who—

''(1) in the case of the review of a program activity, do not derive long-term support from the program activity; or

''(2) in the case of the review of a project proposal, are not seeking funds in competition with the proposal.''

COMPUTER NETWORK STUDY

Pub. L. 99–383, §10, Aug. 21, 1986, 100 Stat. 816, provided that:

''(a) The Office of Science and Technology Policy (hereinafter referred to as the 'Office') shall undertake a study of critical problems and current and future options regarding communications networks for research computers, including supercomputers, at universities and Federal research facilities in the United States. The study shall include an analysis of—

''(1) the networking needs of the Nation's academic and Federal research computer programs, including supercomputer programs, over the period which is fifteen years after the date of enactment of this Act [Aug. 21, 1986], including requirements in terms of volume of data, reliability of transmission, software compatibility, graphics capability, and transmission security;

''(2) the benefits and opportunities that an improved computer network would offer for electronic mail, file transfer, and remote access and communications for universities and Federal research facilities in the United States; and

''(3) the networking options available for linking academic and other federally supported research computers, including supercomputers, with a particular emphasis on the advantages and disadvantages, if any, of fiber optic systems.

''(b) The Office shall submit to the Congress—

''(1) within one year after the date of enactment of this Act [Aug. 21, 1986], a report on findings from the study undertaken pursuant to subsection (a) with respect to needs and options regarding communications networks for university and Federal research supercomputers within the United States; and

''(2) within two years after the date of enactment of this Act [Aug. 21, 1986], a report on findings from the study undertaken pursuant to subsection (a) with respect to needs and options regarding communications networks for all research computers at universities and Federal research facilities in the United States.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6617 of this title.

§ 6615. Science and technology report and outlook

(a) Contents of report

Notwithstanding the provisions of Reorganization Plan Number 1 of 1977, the Director shall render to the President for submission to the Congress no later than January 15 of each odd numbered year, a science and technology report and outlook (hereinafter referred to as the ''report'') which shall be prepared under the guidance of the Office and with the cooperation of the Director of the National Science Foundation, with appropriate assistance from other Federal departments and agencies as the Office or the Director of the National Science Foundation deems necessary. The report shall include—

(1) a statement of the President's current policy for the maintenance of the Nation's leadership in science and technology;

(2) a review of developments of national significance in science and technology;

(3) a description of major Federal decisions and actions related to science and technology that have occurred since the previous such report;

(4) a discussion of currently important national issues in which scientific or technical considerations are of major significance;

(5) a forecast of emerging issues of national significance resulting from, or identified through, scientific research or in which scientific or technical considerations are of major importance; and

(6) a discussion of opportunities for, and constraints on, the use of new and existing scientific and technological information, capabilities, and resources, including manpower resources, to make significant contributions to the achievement of Federal program objectives and national goals.

(b) Printing; availability to public

The Office shall insure that the report, in the form approved by the President, is printed and made available as a public document.

(Pub. L. 94–282, title II, §206, May 11, 1976, 90 Stat. 466; Pub. L. 97–375, title II, §215(3), Dec. 21, 1982, 96 Stat. 1826.)

REFERENCES IN TEXT

Reorganization Plan Number 1 of 1977, referred to in subsec. (a), is Reorg. Plan No. 1 of 1977, 42 F.R. 56101, 91 Stat. 1633, which is set out in the Appendix to Title 5, Government Organization and Employees.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 6618 of this title, Pub. L. 94–282, title II, § 209, May 11, 1976, 90 Stat. 468, prior to repeal by Pub. L. 97–375, title II, § 215(1), Dec. 21, 1982, 96 Stat. 1826.

AMENDMENTS

1982—Pub. L. 97–375 substituted provisions requiring the President to submit to Congress in odd numbered years a science and technology report and outlook for provisions which required the Office of Science and Technology Policy to create a five-year science and technology outlook, dealing with current and emerging problems and with opportunities for and constraints on new and existing capabilities, to be revised annually, composed with the consultation of officials of departments and agencies having related programs and responsibilities, and with officials of the Office of Management and Budget and other appropriate elements of the Executive Office of the President.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (a) of this section relating to submission of biennial report to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 16th item on page 42 of House Document No. 103–7.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6615 of this title.

§ 6616. Additional functions of Director

(a) Service as Chairman of Federal Coordinating Council for Science, Engineering, and Technology and as member of Domestic Council

The Director shall, in addition to the other duties and functions set forth in this subchapter—

(1) serve as Chairman of the Federal Coordinating Council for Science, Engineering, and Technology established under subchapter IV of this chapter; and

(2) serve as a member of the Domestic Council.

(b) Advice to National Security Council

For the purpose of assuring the optimum contribution of science and technology to the national security, the Director, at the request of the National Security Council, shall advise the National Security Council in such matters concerning science and technology as relate to national security.

(c) Officers and employees; services; contracts; payments

In carrying out his functions under this chapter, the Director is authorized to—

(1) appoint such officers and employees as he may deem necessary to perform the functions now or hereafter vested in him and to prescribe their duties;

(2) obtain services as authorized by section 3109 of title 5 at rates not to exceed the rate prescribed for grade GS–18 of the General Schedule by section 5332 of title 5; and

(3) enter into contracts and other arrangements for studies, analyses, and other services with public agencies and with private persons, organizations, or institutions, and make such payments as he deems necessary to carry out the provisions of this chapter without legal consideration, without performance bonds, and without regard to section 5 of title 41.

(Pub. L. 94–282, title II, § 207, May 11, 1976, 90 Stat. 466.)

ABOLITION OF THE FEDERAL COORDINATING COUNCIL FOR SCIENCE, ENGINEERING, AND TECHNOLOGY; TRANSFER OF FUNCTIONS

See note set out under section 6651 of this title.

REFERENCES IN OTHER LAWS TO GS–16, 17, OR 18 PAY RATES

References in laws to the rates of pay for GS–16, 17, or 18, or to maximum rates of pay under the General Schedule, to be considered references to rates payable under specified sections of Title 5, Government Organization and Employees, see section 529 [title I, § 101(c)(1)] of Pub. L. 101–509, set out in a note under section 5376 of Title 5.

§ 6617. Coordination with other organizations

(a) Consultation and cooperation with Federal departments and agencies; utilization of consultants; establishment of advisory panels; consultation with State and local agencies, professional groups, and representatives of industry, etc.; hearings; utilization of services, personnel, equipment, etc., of public and private agencies and organizations, and individuals

In exercising his functions under this chapter, the Director shall—

(1) work in close consultation and cooperation with the Domestic Council, the National Security Council, the Office of Homeland Security, the Council on Environmental Quality, the Council of Economic Advisers, the Office of Management and Budget, the National Science Board, and the Federal departments and agencies;

(2) utilize the services of consultants, establish such advisory panels, and, to the extent practicable, consult with State and local governmental agencies, with appropriate professional groups, and with such representatives of industry, the universities, agriculture, labor, consumers, conservation organizations, and such other public interest groups, organizations, and individuals as he deems advisable;

(3) hold such hearings in various parts of the Nation as he deems necessary, to determine the views of the agencies, groups, and organizations referred to in paragraph (2) of this subsection and of the general public, concerning national needs and trends in science and technology; and

(4) utilize with their consent to the fullest extent possible the services, personnel, equipment, facilities, and information (including statistical information) of public and private agencies and organizations, and individuals, in order to avoid duplication of effort and expense, and may transfer funds made available pursuant to this chapter to other Federal agencies as reimbursement for the utilization of such personnel, services, facilities, equipment, and information.

(b) Information from Executive departments, agencies, and instrumentalities

Each department, agency, and instrumentality of the Executive Branch of the Government, including any independent agency, is authorized to furnish the Director such information as the Director deems necessary to carry out his functions under this chapter.

(c) Assistance from Administrator of National Aeronautics and Space Administration

Upon request, the Administrator of the National Aeronautics and Space Administration is authorized to assist the Director with respect to carrying out his activities conducted under paragraph (5) of section 6614(a) of this title.

(Pub. L. 94–282, title II, § 208, May 11, 1976, 90 Stat. 467; Pub. L. 107–296, title XVII, § 1712(2), Nov. 25, 2002, 116 Stat. 2320.)

AMENDMENTS

2002—Subsec. (a)(1). Pub. L. 107–296 inserted ''the Office of Homeland Security,'' after ''the National Security Council,''.

EFFECTIVE DATE OF 2002 AMENDMENT

Amendment by Pub. L. 107–296 effective 60 days after Nov. 25, 2002, see section 4 of Pub. L. 107–296, set out as an Effective Date note under section 101 of Title 6, Domestic Security.

§ 6618. Major science and technology proposals

The Director shall identify and provide an annual report to Congress on each major multinational science and technology project, in which the United States is not a participant, which has a total estimated cost greater than $1,000,000,000.

(Pub. L. 94–282, title II, § 209, as added Pub. L. 102–245, title V, § 502, Feb. 14, 1992, 106 Stat. 24.)

PRIOR PROVISIONS

A prior section 6618, Pub. L. 94–282, title II, § 209, May 11, 1976, 90 Stat. 468, directed President to transmit annually to Congress a report on science and technology to be prepared by Office of Science and Technology Policy, and directed Director of Office to make the report available as a public document, prior to repeal by Pub. L. 97–375, title II, § 215(1), Dec. 21, 1982, 96 Stat. 1826. See section 6615 of this title.

SUBCHAPTER III—PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 6671 of this title.

§ 6631. Establishment of Committee

The President shall establish within the Executive Office of the President a President's Committee on Science and Technology (hereinafter referred to as the ''Committee'').

(Pub. L. 94–282, title III, § 301, May 11, 1976, 90 Stat. 468.)

ABOLITION OF PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY; TRANSFER OF FUNCTIONS

The President's Committee on Science and Technology, established pursuant to this subchapter, was abolished and its functions transferred to the President, by Reorg. Plan No. 1 of 1977, § 5A, 42 F.R. 56101, 91 Stat. 1634, set out in the Appendix to Title 5, Government Organization and Employees, effective Feb. 26, 1978, as provided by section 1(b) of Ex. Ord. No. 12039, Feb. 24, 1978, 43 F.R. 8095, set out under section 6601 of this title.

§ 6632. Membership of Committee

(a) Composition; appointment

The Committee shall consist of—

(1) the Director of the Office of Science and Technology Policy established under subchapter II of this chapter; and

(2) not less than eight nor more than fourteen other members appointed by the President not more than sixty days after the Director has assumed office (as provided in section 6612 of this title).

(b) Qualifications

Members of the Committee appointed by the President pursuant to subsection (a)(2) of this section shall—

(1) be qualified and distinguished in one or more of the following areas: science, engineering, technology, information dissemination, education, management, labor, or public affairs;

(2) be capable of critically assessing the policies, priorities, programs, and activities of the Nation, with respect to the findings, policies, and purposes set forth in subchapter I of this chapter; and

(3) shall collectively constitute a balanced composition with respect to (A) fields of science and engineering, (B) academic, industrial, and government experience, and (C) business, labor, consumer, and public interest points of view.

(c) Chairman; Vice Chairman

The President shall appoint one member of the Committee to serve as Chairman and another member to serve as Vice Chairman for such periods as the President may determine.

(d) Compensation

Each member of the Committee who is not an officer of the Federal Government shall, while serving on business of the Committee, be entitled to receive compensation at a rate not to exceed the daily rate prescribed for GS–18 of the General Schedule under section 5332 of title 5, including traveltime, and while so serving away from his home or regular place of business he may be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as the expenses authorized by section 5703(b)[1] of title 5 for persons in Government service employed intermittently.

(Pub. L. 94–282, title III, § 302, May 11, 1976, 90 Stat. 468.)

REFERENCES IN TEXT

Section 5703 of title 5, referred to in subsec. (d), was amended generally by Pub. L. 94–22, § 4, May 19, 1975, 89 Stat. 95, and, as so amended, does not contain a subsec. (b).

ABOLITION OF PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY; TRANSFER OF FUNCTIONS

See note set out under section 6631 of this title.

[1] See References in Text note below.

REFERENCES IN OTHER LAWS TO GS–16, 17, OR 18 PAY RATES

References in laws to the rates of pay for GS–16, 17, or 18, or to maximum rates of pay under the General Schedule, to be considered references to rates payable under specified sections of Title 5, Government Organization and Employees, see section 529 [title I, § 101(c)(1)] of Pub. L. 101–509, set out in a note under section 5376 of Title 5.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6633 of this title.

§ 6633. Federal science, engineering, and technology survey; reports

(a) The Committee shall survey, examine, and analyze the overall context of the Federal science, engineering, and technology effort including missions, goals, personnel, funding, organization, facilities, and activities in general, taking adequate account of the interests of individuals and groups that may be affected by Federal scientific, engineering, and technical programs, including, as appropriate, consultation with such individuals and groups. In carrying out its functions under this section, the Committee shall, among other things, consider needs for—

(1) organizational reform, including institutional realinement designed to place Federal agencies whose missions are primarily or solely devoted to scientific and technological research and development, and those agencies primarily or solely concerned with fuels, energy, and materials, within a single cabinet-level department;

(2) improvements in existing systems for handling scientific and technical information on a Government-wide basis, including consideration of the appropriate role to be played by the private sector in the dissemination of such information;

(3) improved technology assessment in the executive branch of the Federal Government;

(4) improved methods for effecting technology innovation, transfer, and use;

(5) stimulating more effective Federal-State and Federal-industry liaison and cooperation in science and technology, including the formation of Federal-State mechanisms for the mutual pursuit of this goal;

(6) reduction and simplification of Federal regulations and administrative practices and procedures which may have the effect of retarding technological innovation or opportunities for its utilization;

(7) a broader base for support of basic research;

(8) ways of strengthening the Nation's academic institutions' capabilities for research and education in science and technology;

(9) ways and means of effectively integrating scientific and technological factors into our national and international policies;

(10) technology designed to meet community and individual needs;

(11) maintenance of adequate scientific and technological manpower with regard to both quality and quantity;

(12) improved systems for planning and analysis of the Federal science and technology programs; and

(13) long-range study, analysis, and planning in regard to the application of science and technology to major national problems or concerns.

(b)(1) Within twelve months from the time the Committee is activated in accordance with section 6632(a) of this title, the Committee shall issue an interim report of its activities and operations to date. Not more than twenty-four months from the time the Committee is activated, the Committee shall submit a final report of its activities, findings, conclusions, and recommendations, including such supporting data and material as may be necessary, to the President.

(2) The President, within sixty days of receipt thereof, shall transmit each such report to each House of Congress together with such comments, observations, and recommendations thereon as he deems appropriate.

(Pub. L. 94–282, title III, § 303, May 11, 1976, 90 Stat. 469.)

ABOLITION OF PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY; TRANSFER OF FUNCTIONS

See note set out under section 6631 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6634, 6635 of this title.

§ 6634. Continuation of Committee

(a) Ninety days after submission of the final report prepared under section 6633 of this title, the Committee shall cease to exist, unless the President, before the expiration of the ninety-day period, makes a determination that it is advantageous for the Committee to continue in being.

(b) If the President determines that it is advantageous for the Committee to continue in being, (1) the Committee shall exercise such functions as are prescribed by the President; and (2) the members of the Committee shall serve at the pleasure of the President.

(Pub. L. 94–282, title III, § 304, May 11, 1976, 90 Stat. 470.)

ABOLITION OF PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY; TRANSFER OF FUNCTIONS

See note set out under section 6631 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6635 of this title.

§ 6635. Staff and consultant support

(a) In the performance of its functions under sections 6633 and 6634 of this title, the Committee is authorized—

(1) to select, appoint, employ, and fix the compensation of such specialists and other experts as may be necessary for the carrying out of its duties and functions, and to select, appoint, and employ, subject to the civil service laws, such other officers and employees as may be necessary for carrying out its duties and functions; and

(2) to provide for participation of such civilian and military personnel as may be detailed to the Committee pursuant to subsection (b)

of this section for carrying out the functions of the Committee.

(b) Upon request of the Committee, the head of any Federal department, agency, or instrumentality is authorized (1) to furnish to the Committee such information as may be necessary for carrying out its functions and as may be available to or procurable by such department, agency, or instrumentality, and (2) to detail to temporary duty with the Committee on a reimbursable basis such personnel within his administrative jurisdiction as it may need or believe to be useful for carrying out its functions. Each such detail shall be without loss of seniority, pay, or other employee status, to civilian employees so detailed, and without loss of status, rank, office, or grade, or of any emolument, perquisite, right, privilege, or benefit incident thereto to military personnel so detailed. Each such detail shall be made pursuant to an agreement between the Chairman and the head of the relevant department, agency, or instrumentality, and shall be in accordance with the provisions of subchapter III of chapter 33, title 5.

(Pub. L. 94–282, title III, §305, May 11, 1976, 90 Stat. 470.)

REFERENCES IN TEXT

The civil service laws, referred to in subsec. (a)(1), are set out in Title 5, Government Organization and Employees. See, particularly, section 3301 et seq. of Title 5.

ABOLITION OF PRESIDENT'S COMMITTEE ON SCIENCE AND TECHNOLOGY; TRANSFER OF FUNCTIONS

See note set out under section 6631 of this title.

SUBCHAPTER IV—FEDERAL COORDINATING COUNCIL FOR SCIENCE, ENGINEERING, AND TECHNOLOGY

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 6616 of this title.

§ 6651. Establishment, membership, and functions of Council

(a) Designation

There is established the Federal Coordinating Council for Science, Engineering, and Technology (hereinafter referred to as the ''Council'').

(b) Composition

The Council shall be composed of the Director of the Office of Science and Technology Policy and one representative of each of the following Federal agencies: Department of Agriculture, Department of Commerce, Department of Defense, Department of Health and Human Services, Department of Housing and Urban Development, Department of the Interior, Department of State, Department of Transportation, Department of Veterans Affairs, National Aeronautics and Space Administration, National Science Foundation, Environmental Protection Agency, and Department of Energy. Each such representative shall be an official of policy rank designated by the head of the Federal agency concerned.

(c) Chairman

The Director of the Office of Science and Technology Policy shall serve as Chairman of the Council. The Chairman may designate another member of the Council to act temporarily in the Chairman's absence as Chairman.

(d) Participation of unnamed Federal agencies in meetings; invitations to attend meetings

The Chairman may (1) request the head of any Federal agency not named in subsection (b) of this section to designate a representative to participate in meetings or parts of meetings of the Council concerned with matters of substantial interest to such agency, and (2) invite other persons to attend meetings of the Council.

(e) Consideration of problems and developments affecting more than one Federal agency; recommendations

The Council shall consider problems and developments in the fields of science, engineering, and technology and related activities affecting more than one Federal agency, and shall recommend policies and other measures designed to—

(1) provide more effective planning and administration of Federal scientific, engineering, and technological programs,

(2) identify research needs including areas requiring additional emphasis,

(3) achieve more effective utilization of the scientific, engineering, and technological resources and facilities of Federal agencies, including the elimination of unwarranted duplication, and

(4) further international cooperation in science, engineering, and technology.

(f) Other advisory duties

The Council shall perform such other related advisory duties as shall be assigned by the President or by the Chairman.

(g) Assistance to Council by agency represented thereon

For the purpose of carrying out the provisions of this section, each Federal agency represented on the Council shall furnish necessary assistance to the Council. Such assistance may include—

(1) detailing employees to the Council to perform such functions, consistent with the purposes of this section, as the Chairman may assign to them, and

(2) undertaking, upon request of the Chairman, such special studies for the Council as come within the functions herein assigned.

(h) Establishment of subcommittees and panels

For the purpose of conducting studies and making reports as directed by the Chairman, standing subcommittees and panels of the Council may be established.

(Pub. L. 94–282, title IV, §401, May 11, 1976, 90 Stat. 471; Pub. L. 95–91, title III, §301(a), title VII, §§703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607; Pub. L. 95–113, title XIV, §1406, Sept. 29, 1977, 91 Stat. 986; Pub. L. 97–98, title XIV, §1406(a), (b), Dec. 22, 1981, 95 Stat. 1298; Pub. L. 102–54, §13(q)(11), June 13, 1991, 105 Stat. 281; Pub. L. 104–127, title VIII, §851, Apr. 4, 1996, 110 Stat. 1171.)

AMENDMENTS

1996—Subsec. (h). Pub. L. 104–127 struck out after first sentence ''Among such standing subcommittees and

panels of the Council shall be the Subcommittee on Food, Agricultural, and Forestry Research. This subcommittee shall review Federal research and development programs relevant to domestic and world food and fiber production and distribution, promote planning and coordination of this research in the Federal Government, and recommend policies and other measures concerning the food and agricultural sciences for the consideration of the Council. The subcommittee shall include, but not be limited to, representatives of each of the following departments or agencies; the Department of Agriculture, the Department of State, the Department of Defense, the Department of the Interior, the Department of Health and Human Services, the National Oceanic and Atmospheric Administration, the Department of Energy, the National Science Foundation, the Environmental Protection Agency, and the Tennessee Valley Authority. The principal representatives of the Department of Agriculture shall serve as the chairman of the subcommittee.''

1991—Subsec. (b). Pub. L. 102–54 substituted ''Department of Veterans Affairs'' for ''Veterans' Administration''.

1981—Subsec. (h). Pub. L. 97–98 substituted ''Subcommittee on Food, Agricultural, and Forestry Research'' for ''Subcommittee on Food and Renewable Resources'', ''Department of Health and Human Services'' for ''Department of Health, Education, and Welfare'', and ''Department of Energy'' for ''Energy Research and Development Administration''.

1977—Subsec. (h). Pub. L. 95–113 inserted provisions relating to Subcommittee on Food and Renewable Resources.

EFFECTIVE DATE OF 1981 AMENDMENT

Amendment by Pub. L. 97–98 effective Dec. 22, 1981, see section 1801 of Pub. L. 97–98, set out as an Effective Date note under section 4301 of Title 7, Agriculture.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–113 effective Oct. 1, 1977, see section 1901 of Pub. L. 95–113, set out as a note under section 1307 of Title 7, Agriculture.

TRANSFER OF FUNCTIONS

''Department of Energy'' substituted for ''Energy Research and Development Administration'' in subsec. (b) pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Energy Research and Development Administration and transferred its functions (with certain exceptions) to Secretary of Energy.

ABOLITION OF FEDERAL COORDINATING COUNCIL FOR SCIENCE, ENGINEERING, AND TECHNOLOGY; TRANSFER OF FUNCTIONS

The Federal Coordinating Council for Science, Engineering, and Technology, established pursuant to this section, was abolished and its functions transferred to the President by Reorg. Plan No. 1 of 1977, §5A, 42 F.R. 56101, 91 Stat. 1634, set out in the Appendix to Title 5, Government Organization and Employees, effective Feb. 26, 1978, as provided by section 1(b) of Ex. Ord. No. 12039, Feb. 24, 1978, 43 F.R. 8095, set out under section 6601 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 15 section 2932.

SUBCHAPTER V—GENERAL PROVISIONS

§ 6671. Authorization of appropriations

(a) For the purpose of carrying out subchapter II of this chapter, there are authorized to be appropriated—

(1) $750,000 for the fiscal year ending June 30, 1976;

(2) $500,000 for the period beginning July 1, 1976, and ending September 30, 1976;

(3) $3,000,000 for the fiscal year ending September 30, 1977; and

(4) such sums as may be necessary for each of the succeeding fiscal years.

(b) For the purpose of carrying out subchapter III of this chapter, there are authorized to be appropriated—

(1) $750,000 for the fiscal year ending June 30, 1976;

(2) $500,000 for the period beginning July 1, 1976, and ending September 30, 1976;

(3) $1,000,000 for the fiscal year ending September 30, 1977; and

(4) such sums as may be necessary for each of the succeeding fiscal years.

(Pub. L. 94–282, title V, §501, May 11, 1976, 90 Stat. 472.)

SUBCHAPTER VI—NATIONAL CRITICAL TECHNOLOGIES PANEL

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in title 50 App. section 2170.

§§ 6681 to 6685. Omitted

CODIFICATION

Sections 6681 to 6685 were omitted pursuant to section 6685 which provided that sections 6681 to 6685 ceased to be effective Dec. 31, 2000, and that the National Critical Technologies Panel established by this subchapter terminated on that date.

Section 6681, Pub. L. 94–282, title VI, §601, as added Pub. L. 101–189, div. A, title VIII, §841(a)(1), Nov. 29, 1989, 103 Stat. 1511, established a National Critical Technologies Panel.

Section 6682, Pub. L. 94–282, title VI, §602, as added Pub. L. 101–189, div. A, title VIII, §841(a)(1), Nov. 29, 1989, 103 Stat. 1511, related to membership of the Panel.

Section 6683, Pub. L. 94–282, title VI, §603, as added Pub. L. 101–189, div. A, title VIII, §841(a)(1), Nov. 29, 1989, 103 Stat. 1511; amended Pub. L. 102–245, title V, §503, Feb. 14, 1992, 106 Stat. 24, required the Panel to submit to the President a biennial report on national critical technologies.

Section 6684, Pub. L. 94–282, title VI, §604, as added Pub. L. 101–189, div. A, title VIII, §841(a)(1), Nov. 29, 1989, 103 Stat. 1512, related to administration and funding of Panel.

Section 6685, Pub. L. 94–282, title VI, §605, as added Pub. L. 101–189, div. A, title VIII, §841(a)(1), Nov. 29, 1989, 103 Stat. 1512, provided that sections 6681 to 6685 ceased to be effective Dec. 31, 2000, and that the Panel terminated on that date.

§ 6686. Science and Technology Policy Institute

(a) Establishment

There shall be established a federally funded research and development center to be known as the ''Science and Technology Policy Institute'' (hereinafter in this section referred to as the ''Institute'').

(b) Incorporation

The Institute shall be—

(1) administered as a separate entity by an organization currently managing another federally funded research and development center; or

(2) incorporated as a nonprofit membership corporation.

(c) Duties

The duties of the Institute shall include the following:

(1) The assembly of timely and authoritative information regarding significant developments and trends in science and technology research and development in the United States and abroad, including information relating to the technologies identified in the most recent biennial report submitted to Congress by the President pursuant to section 6683(d)[1] of this title and developing and maintaining relevant informational and analytical tools.

(2) Analysis and interpretation of the information referred to in paragraph (1) with particular attention to the scope and content of the Federal science and technology research and development portfolio as it affects interagency and national issues.

(3) Initiation of studies and analysis of alternatives available for ensuring the long-term strength of the United States in the development and application of science and technology, including appropriate roles for the Federal Government, State governments, private industry, and institutions of higher education in the development and application of science and technology.

(4) Provision, upon the request of the Director of the Office of Science and Technology Policy, of technical support and assistance—

(A) to the committees and panels of the President's Council of Advisers on Science and Technology that provide advice to the Executive branch on science and technology policy; and

(B) to the interagency committees and panels of the Federal Government concerned with science and technology.

(d) Consultation on Institute activities

In carrying out the duties referred to in subsection (c) of this section, personnel of the Institute shall—

(1) consult widely with representatives from private industry, institutions of higher education, and nonprofit institutions; and

(2) to the maximum extent practicable, incorporate information and perspectives derived from such consultations in carrying out such duties.

(e) Annual reports

The Institute shall submit to the President an annual report on the activities of the Institute under this section. Each report shall be in accordance with requirements prescribed by the President.

(f) Sponsorship

(1) The Director of the National Science Foundation shall be the sponsor of the Institute.

(2) The Director of the National Science Foundation, in consultation with the Director of Office of Science and Technology Policy, shall enter into a sponsoring agreement with respect to the Institute. The sponsoring agreement shall require that the Institute carry out such functions as the Director of Office of Science and Technology Policy may specify consistent with the duties referred to in subsection (c) of this section. The sponsoring agreement shall be consistent with the general requirements prescribed for such a sponsoring agreement by the Administrator for Federal Procurement Policy.

(Pub. L. 101–510, div. A, title VIII, § 822, Nov. 5, 1990, 104 Stat. 1598; Pub. L. 102–25, title VII, § 704(a)(5), Apr. 6, 1991, 105 Stat. 118; Pub. L. 102–190, div. A, title VIII, § 822(c)(1), Dec. 5, 1991, 105 Stat. 1433; Pub. L. 103–160, div. A, title VIII, § 803, Nov. 30, 1993, 107 Stat. 1701; Pub. L. 104–201, div. A, title X, § 1073(e)(1)(C), Sept. 23, 1996, 110 Stat. 2658; Pub. L. 105–207, title II, § 208(a), July 29, 1998, 112 Stat. 877.)

REFERENCES IN TEXT

Section 6683 of this title, referred to in subsec. (c)(1), was omitted from the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1991, and not as part of the National Science and Technology Policy, Organization, and Priorities Act of 1976 which comprises this chapter.

AMENDMENTS

1998—Pub. L. 105–207, § 208(a)(1), substituted ''Science and Technology Policy Institute'' for ''Critical Technologies Institute'' in section catchline.

Subsec. (a). Pub. L. 105–207, § 208(a)(1), substituted ''Science and Technology Policy Institute'' for ''Critical Technologies Institute''.

Subsec. (b). Pub. L. 105–207, § 208(a)(2), substituted ''The'' for ''As determined by the chairman of the committee referred to in subsection (c) of this section, the''.

Subsec. (c). Pub. L. 105–207, § 208(a)(3), redesignated subsec. (d) as (c) and struck out heading and text of former subsec. (c). Text read as follows:

''(1) The Institute shall have an Operating Committee composed of six members as follows:

''(A) The Director of the Office of Science and Technology Policy, who shall chair the committee.

''(B) The Director of the National Institutes of Health.

''(C) The Under Secretary of Commerce for Technology.

''(D) The Director of the Defense Advanced Research Projects Agency.

''(E) The Director of the National Science Foundation.

''(F) The Under Secretary of Energy having responsibility for science and technology matters.

''(2) The Operating Committee shall meet not less than four times each year.''

Subsec. (c)(1). Pub. L. 105–207, § 208(a)(4)(A)–(C), inserted ''science and'' after ''developments and trends in'', substituted ''including'' for ''with particular emphasis on'', and inserted before period at end ''and developing and maintaining relevant informational and analytical tools''.

Subsec. (c)(2). Pub. L. 105–207, § 208(a)(4)(D), substituted ''with particular attention to the scope and content of the Federal science and technology research and development portfolio as it affects interagency and national issues'' for ''to determine whether such developments and trends are likely to affect United States technology policies''.

Subsec. (c)(3). Pub. L. 105–207, § 208(a)(4)(E), amended par. (3) generally. Prior to amendment, par. (3) read as follows: ''Initiation of studies and analyses (including systems analyses and technology assessments) of alternatives available for ensuring long-term leadership by the United States in the development and application of the technologies referred to in paragraph (1), including appropriate roles for the Federal Government,

[1] See References in Text note below.

State governments, private industry, and institutions of higher education in the development and application of such technologies.''

Subsec. (c)(4). Pub. L. 105–207, §208(a)(4)(F), (G), inserted ''science and'' after ''Executive branch on'' in subpar. (A) and amended subpar. (B) generally. Prior to amendment, subpar. (B) read as follows: ''to the committees and panels of the Federal Coordinating Council for Science, Engineering, and Technology that are responsible for planning and coordinating activities of the Federal Government to advance the development of critical technologies and sustain and strengthen the technology base of the United States.''

Subsec. (d). Pub. L. 105–207, §208(a)(3), (5), redesignated subsec. (e) as (d) and substituted ''subsection (c)'' for ''subsection (d)'' in introductory provisions. Former subsec. (d) redesignated (c).

Subsec. (e). Pub. L. 105–207, §208(a)(6), which directed the substitution of ''Institute'' for ''Committee'' each place appearing, was executed by making the substitution for ''committee'' in two places to reflect the probable intent of Congress.

Pub. L. 105–207, §208(a)(3), redesignated subsec. (f) as (e). Former subsec. (e) redesignated (d).

Subsec. (f). Pub. L. 105–207, §208(a)(3), redesignated subsec. (g) as (f). Former subsec. (f) redesignated (e).

Subsec. (f)(2). Pub. L. 105–207, §208(a)(8), which directed the substitution of ''Director of Office of Science and Technology Policy'' for ''Chairman of Committee'' each place appearing, was executed by making the substitution for ''chairman of the committee'' in two places to reflect the probable intent of Congress.

Pub. L. 105–207, §208(a)(7), substituted ''subsection (c)'' for ''subsection (d)''.

Subsec. (g). Pub. L. 105–207, §208(a)(3), redesignated subsec. (g) as (f).

1996—Subsec. (c)(1)(D). Pub. L. 104–201 inserted ''Defense'' before ''Advanced Research Projects Agency''.

1993—Subsec. (c). Pub. L. 103–160 amended heading and text of subsec. (c) generally. Prior to amendment, text consisted of pars. (1) to (4) relating to the composition, designation of chairman, terms of service, and meetings of the Operating Committee.

1991—Pub. L. 102–190 amended section generally, substituting present provisions for provisions establishing ''Critical Technologies Institute'' and providing for incorporation, Board of Trustees, duties of Institute, sponsorship of Institute, deadline for certain actions, and funding.

Subsec. (g)(1). Pub. L. 102–25, §704(a)(5)(A), substituted ''appropriated pursuant to this Act'' for ''available for the Department of Defense'' and struck out ''in the first fiscal year in which the Institute begins operations'' after ''activities of the Institute''.

Subsec. (g)(2). Pub. L. 102–25, §704(a)(5)(B), struck out ''for each fiscal year after the fiscal year referred to in paragraph (1)'' after ''for the Institute''.

EFFECTIVE DATE OF 1991 AMENDMENTS

Section 822(c)(2), (3) of Pub. L. 102–190 provided that:

''(2) The amendment made by paragraph (1) [amending this section] shall take effect as of November 5, 1990.

''(3) The sponsoring agreement required by subsection (g) of section 822 of Public Law 101–510 [subsec. (g) of this section], as amended by paragraph (1), shall be entered into not later than February 15, 1992.''

Amendment by Pub. L. 102–25 applicable as if included in enactment of Pub. L. 101–510, see section 704(e) of Pub. L. 102–25, set out as a note under section 12321 of Title 10, Armed Forces.

AUTHORIZATION OF APPROPRIATIONS

Section 822(d)(2) of Pub. L. 102–190 provided that: ''There is authorized to be appropriated for each fiscal year after fiscal year 1991 for the Institute such sums as may be necessary for the operation of the Institute.''

REFERENCES TO CRITICAL TECHNOLOGIES INSTITUTE

Pub. L. 105–207, title II, §208(b), July 29, 1998, 112 Stat. 878, provided that: ''All references in Federal law or regulations to the Critical Technologies Institute shall be considered to be references to the Science and Technology Policy Institute.''

§ 6687. Critical technology strategies

(a) Requirement for critical technology strategies

(1) The President shall develop and revise as needed a multiyear strategy for federally supported research and development for each critical technology designated by the President. In designating critical technologies for the purpose of this section, the President shall begin with the national critical technologies listed in a biennial report on national critical technologies submitted to Congress by the President pursuant to section 6683(d)[1] of this title. A critical technology strategy may cover more than one critical technology.

(2) The President shall assign responsibilities and develop procedures for conducting executive branch activities to carry out this section.

(3) During the development of a critical technology strategy, the President shall provide for the following:

(A) The development of goals and objectives for the appropriate Federal role in the development of the critical technology or technologies that the President expects to be covered by the strategy.

(B) Close consultation with appropriate representatives of United States industries, members of industry associations, representatives of labor organizations in the United States, members of professional and technical societies in the United States and other persons who are qualified to provide advice and assistance in the development of such critical technology or technologies.

(C) The development of an organizational structure within the Federal Government that is appropriate for coordinating, managing, and reviewing the Federal Government's role in the implementation of the strategy, including allocating roles among Federal departments and agencies.

(D) The development of policies and procedures for synergistic government, industrial, and university participation in the implementation of the strategy.

(E) The development of Federal budget estimates for research and development regarding the critical technology or technologies covered by the strategy for the first five fiscal years covered by that strategy.

(b) Report

Not later than February 15 of each year, beginning in 1993, the President shall submit to Congress an annual report describing the implementation of subsection (a) of this section. The annual report shall include the following:

(1) For each critical technology designated by the President for the purpose of subsection (a) of this section, a description of the progress made in implementing subsection (a) of this section during the fiscal year preceding the fiscal year in which the report is submitted.

[1] See References in Text note below.

(2) A description of each proposed program, if any, for further implementing subsection (a) of this section with respect to a critical technology through the date for the submission of the next annual report.

(3) A copy of each strategy, if any, completed or revised pursuant to subsection (a) of this section during the fiscal year covered by the report.

(Pub. L. 102–190, div. A, title VIII, § 822(a), (b), Dec. 5, 1991, 105 Stat. 1432, 1433.)

REFERENCES IN TEXT

Section 6683 of this title, referred to in subsec. (a)(1), was omitted from the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the National Science and Technology Policy, Organization, and Priorities Act of 1976 which comprises this chapter.

CHAPTER 80—PUBLIC WORKS EMPLOYMENT

SUBCHAPTER I—LOCAL PUBLIC WORKS

SUBCHAPTER I—LOCAL PUBLIC WORKS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 3211 of this title.

§ 6701. Definitions

As used in this subchapter, the term—

(1) ''Secretary'' means the Secretary of Commerce, acting through the Economic Development Administration.

(2) ''State'' includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(3) ''local government'' means any city, county, town, parish, or other political subdivision of a State, and any Indian tribe.

(4) ''public works project'' includes a project for the transportation and provision of water to a drought-stricken area.

(Pub. L. 94–369, title I, § 102, July 22, 1976, 90 Stat. 999; Pub. L. 95–28, title I, § 102, May 13, 1977, 91 Stat. 116.)

AMENDMENTS

1977—Par. (2). Pub. L. 95–28, § 102(a), inserted reference to Trust Territory of the Pacific Islands.

Par. (4). Pub. L. 95–28, § 102(b), added par. (4).

SHORT TITLE OF 1977 AMENDMENTS

Pub. L. 95–30, title VI, § 601, May 23, 1977, 91 Stat. 164, provided that: ''This title [enacting section 6736 of this title, amending sections 6722 to 6724, 6727, and 6735 of this title, and repealing section 6726 of this title] may be cited as the 'Intergovernmental Antirecession Assistance Act of 1977'.''

Section 101 of title I of Pub. L. 95–28 provided that: ''This title [amending sections 6701, 6705 to 6708, and 6710 of this title and enacting provisions set out as notes under sections 6701 and 6710 of this title] may be cited as the 'Public Works Employment Act of 1977'.''

SHORT TITLE

Section 1 of Pub. L. 94–369 provided: ''That this Act [enacting this chapter and provision set out as a note under section 1287 of Title 33, Navigation and Navigable Waters] may be cited as the 'Public Works Employment Act of 1976'.''

Section 101 of title I of Pub. L. 94–369 provided that: ''This title [enacting this subchapter] may be cited as the 'Local Public Works Capital Development and Investment Act of 1976'.''

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

PUBLIC WORKS INVESTMENT STUDY; PRELIMINARY REPORT; FINAL REPORT WITHIN 18 MONTHS AFTER MAY 13, 1977

Section 110 of Pub. L. 95–28 directed Secretary of Commerce to study public works investment in United States and implications for future of recent trends in such investment and submit a report with respect to its findings and recommendations no later than 18 months after May 13, 1977.

§ 6702. Direct grants; Federal share

(a) The Secretary is authorized to make grants to any State or local government for construction (including demolition and other site preparation activities), renovation, repair, or other improvement of local public works projects including but not limited to those public works projects of State and local governments for which Federal financial assistance is authorized under provisions of law other than this chapter. In addition the Secretary is authorized to make grants to any State or local government for the completion of plans, specifications, and estimates for local public works projects where either architectural design or preliminary engineering or related planning has already been undertaken and where additional architectural and engineering work or related planning is required to permit construction of the project under this chapter.

(b) The Federal share of any project for which a grant is made under this section shall be 100 per centum of the cost of the project.

(Pub. L. 94–369, title I, § 103, July 22, 1976, 90 Stat. 999.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6705 of this title.

§ 6703. Grants supplementing Federal contributions under other Federal laws; Federal share

In addition to the grants otherwise authorized by this chapter, the Secretary is authorized to make a grant for the purpose of increasing the Federal contribution to a public works project for which Federal financial assistance is authorized under provisions of law other than this chapter. Any grant made for a public works project under this section shall be in such amount as may be necessary to make the Federal share of the cost of such project 100 per centum. No grant shall be made for a project under this section unless the Federal financial assistance for such project authorized under provisions of law other than this chapter is immediately available for such project and construction of such project has not yet been initiated because of lack of funding for the non-Federal share.

(Pub. L. 94–369, title I, § 104, July 22, 1976, 90 Stat. 999.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6705 of this title.

§ 6704. Grants providing State or local contributions required under State or local law

In addition to the grants otherwise authorized by this chapter, the Secretary is authorized to make a grant for the purpose of providing all or any portion of the required State or local share of the cost of any public works project for which financial assistance is authorized under any provision of State or local law requiring such contribution. Any grant made for a public works project under this section shall be made in such amount as may be necessary to provide the requested State or local share of the cost of such project. A grant shall be made under this section for either the State or local share of the cost of the project, but not both shares. No grant shall be made for a project under this section unless the share of the financial assistance for such project (other than the share with respect to which a grant is requested under this section) is immediately available for such project and construction of such project has not yet been initiated.

(Pub. L. 94–369, title I, § 105, July 22, 1976, 90 Stat. 999.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6705 of this title.

§ 6705. Limitations on use of grants

(a) Projects relating to natural watercourse or canals

No grant shall be made under section 6702, 6703, or 6704 of this title for any project having as its principal purpose the channelization, damming, diversion, or dredging of any natural watercourse, or the construction or enlargement of any canal (other than a canal or raceway designated for maintenance as an historic site) and

having as its permanent effect the channelization, damming, diversion, or dredging of such watercourse or construction or enlargement of any canal (other than a canal or raceway designated for maintenance as an historic site).

(b) Acquisition of interest in real property

No part of any grant made under section 6702, 6703, or 6704 of this title shall be used for the acquisition of any interest in real property.

(c) Maintenance costs

Nothing in this chapter shall be construed to authorize the payment of maintenance costs in connection with any projects constructed (in whole or in part) with Federal financial assistance under this chapter.

(d) Commencement of on-site labor within 90 days of project approval as prerequisite

Grants made by the Secretary under this chapter shall be made only for projects for which the applicant gives satisfactory assurances, in such manner and form as may be required by the Secretary and in accordance with such terms and conditions as the Secretary may prescribe, that, if funds are available, on-site labor can begin within ninety days of project approval.

(e) Performance of projects by State or local governments prohibited; competitive bidding; illegal aliens

(1) No part of the construction (including demolition and other site preparation activities), renovation, repair, or other improvement of any public works project for which a grant is made under this chapter after May 13, 1977, shall be performed directly by any department, agency, or instrumentality of any State or local government. Construction of each such project shall be performed by contract awarded by competitive bidding, unless the Secretary shall affirmatively find that, under the circumstances relating to such project, some other method is in the public interest. Contracts for the construction of each project shall be awarded only on the basis of the lowest responsive bid submitted by a bidder meeting established criteria of responsibility. No requirement or obligation shall be imposed as a condition precedent to the award of a contract to such bidder for a project, or to the Secretary's concurrence in the award of a contract to such bidder, unless such requirement or obligation is otherwise lawful and is specifically set forth in the advertised specifications.

(2) No grant shall be made under this chapter for any local public works project unless the State or local government applying for such grant submits with its application a certification acceptable to the Secretary that no contract will be awarded in connection with such project to any bidder who will employ on such project any alien in the United States in violation of the Immigration and Nationality Act [8 U.S.C. 1101 et seq.] or any other law, convention, or treaty of the United States relating to the immigration, exclusion, deportation, or expulsion of aliens.

(f) Use of products made in United States; minority business enterprises

(1)(A) Notwithstanding any other provision of law, no grant shall be made under this chapter for any local public works project unless only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, and supplies mined, produced, or manufactured, as the case may be, in the United States, will be used in such project.

(B) Subparagraph (A) of this paragraph shall not apply in any case where the Secretary determines it to be inconsistent with the public interest, or the cost to be unreasonable, or if articles, materials, or supplies of the class or kind to be used or the articles, materials, or supplies from which they are manufactured are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(2) Except to the extent that the Secretary determines otherwise, no grant shall be made under this chapter for any local public works project unless the applicant gives satisfactory assurance to the Secretary that at least 10 per centum of the amount of each grant shall be expended for minority business enterprises. For purposes of this paragraph, the term ''minority business enterprise'' means a business at least 50 per centum of which is owned by minority group members or, in case of a publicly owned business, at least 51 per centum of the stock of which is owned by minority group members. For the purposes of the preceding sentence, minority group members are citizens of the United States who are Negroes, Spanish-speaking, Orientals, Indians, Eskimos, and Aleuts.

(g) Accessibility standards for handicapped and elderly

No grant shall be made under this chapter for any project for which the applicant does not give assurances satisfactory to the Secretary that the project will be designed and constructed in accordance with the standards for accessibility for public buildings and facilities to the handicapped and elderly under the Act entitled ''An Act to insure that certain buildings financed with Federal funds are so designed and constructed as to be accessible to the physically handicapped'', approved August 12, 1968 (42 U.S.C. 4151 et seq.). The Architectural and Transportation Barriers Compliance Board established by the Rehabilitation Act of 1973 (P.L. 93–112) [29 U.S.C. 701 et seq.] is authorized to insure that any construction and renovation done pursuant to any grant made under this chapter complies with the accessibility standards for public bunldings[1] and facilities issued under the Act of August 12, 1968.

(Pub. L. 94–369, title I, § 106, July 22, 1976, 90 Stat. 1000; Pub. L. 95–28, title I, § 103, May 13, 1977, 91 Stat. 116.)

AMENDMENTS

1977—Subsecs. (e) to (g). Pub. L. 95–28 added subsecs. (e) to (g).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6707 of this title.

§ 6706. Implementing rules, regulations, and procedures; criteria; employment of disabled and Vietnam-era veterans; determination of applications for grants

The Secretary shall, not later than thirty days after July 22, 1976, prescribe those rules, regulations, and procedures (including application forms) necessary to carry out this chapter. Such rules, regulations, and procedures shall assure that adequate consideration is given to the relative needs of various sections of the country. The Secretary shall consider among other factors (1) the severity and duration of unemployment in proposed project areas, (2) the income levels and extent of underemployment in proposed project area, and (3) the extent to which proposed projects will contribute to the reduction of unemployment. The Secretary, in consultation with the Secretary of Labor, and consistent with existing applicable collective bargaining agreements and practices, shall promulgate regulations to assure special consideration to the employment in projects under this chapter of qualified disabled veterans (as defined in section 4211(1) of title 38) and qualified Vietnam-era veterans (as defined in section 4211(2) of such title 38). The Secretary shall make a final determination with respect to each application for a grant submitted to him under this chapter not later than the sixtieth day after the date he receives such application. Failure to make such final determination within such period shall be deemed to be an approval by the Secretary of the grant requested. For purposes of this section, in considering the extent of unemployment or underemployment, the Secretary shall consider the amount of unemployment or underemployment in the construction and construction-related industries.

(Pub. L. 94–369, title I, § 107, July 22, 1976, 90 Stat. 1000; Pub. L. 95–28, title I, § 104, May 13, 1977, 91 Stat. 117; Pub. L. 102–83, § 5(c)(2), Aug. 6, 1991, 105 Stat. 406; Pub. L. 103–446, title XII, § 1203(c)(3), Nov. 2, 1994, 108 Stat. 4690.)

AMENDMENTS

1994—Pub. L. 103–446, which directed substitution of ''section 4211(2)'' for ''section 4211(2)(A)'' and ''section 4211(1)'' for ''section 2011(1)'', was executed by substituting ''section 4211(2)'' for ''section 4211(2)(A)''. Previously, ''section 4211(1)'' was substituted for ''section 2011(1)'' by Pub. L. 103–83. See 1991 Amendment note below.

1991—Pub. L. 102–83 substituted references to section 4211 of title 38 for references to section 2011 of title 38 in two places.

1977—Pub. L. 95–28 inserted provision directing Secretary to promulgate regulations to assure special consideration to employment in projects of qualified disabled veterans and qualified Vietnam-era veterans.

§ 6707. Priority and amounts of projects

(a) Allocation of appropriated funds; Indian tribes and Alaska Native villages; prior applications; unemployment ratio; limits on grants for any one State; territories

The Secretary shall allocate funds appropriated after May 13, 1977, under section 6710 of this title as follows:

(1) 2½ per centum of such funds shall be set aside and shall be expended only for grants for public works projects under this chapter to Indian tribes and Alaska Native villages. None of the remainder of such funds shall be expended for such grants to such tribes and villages.

(2) After the set aside required by paragraph (1) of this subsection, $70,000,000 shall be set aside and expended only for grants for any public works project the application for a grant for which was made under this chapter after July 22, 1976, and before December 24, 1976, and which application was not received, was not considered, or was rejected solely because of an error by an officer or employee of the United States. Any allocation made to an applicant pursuant to regulation shall be reduced by the amount of any grant made to such applicant under this paragraph.

(3) After the set asides required by paragraphs (1) and (2) of this subsection, 65 per centum of such funds shall be allocated among the States on the basis of the ratio that the number of unemployed persons in each State bears to the total number of unemployed persons in all the States and 35 per centum of such funds shall be allocated among those States with an average unemployment rate for the preceding twelve-month period in excess of 6.5 per centum on the basis of the relative severity of unemployment in each such State, except that (A) no State shall be allocated less than three-quarters of one per centum or more than 12½ per centum of such funds for local public works projects within such State, except that in the case of Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, not less than one-half of one per centum in the aggregate shall be granted for such projects in all four of these jurisdictions, and (B) no State whose unemployment data was converted for the first time in 1976 to the benchmark data of the current population survey annual average compiled by the Bureau of Labor Statistics shall receive a percentage of such funds less than the percentage of funds allocated to such State under this

chapter from funds appropriated to carry out this chapter prior to May 13, 1977.

(b) Local government projects; energy conservation; endorsement of project by general purpose local government; projects requested by school districts

(1) In making grants under this chapter, the Secretary shall give priority and preference to public works projects of local governments.

(2) In making grants for projects for construction, renovation, repair, or other improvement of buildings, the Secretary shall also give consideration as between such building projects to those projects which will result in conserving energy, including, but not limited to, projects to redesign and retrofit existing public facilities for energy conservation purposes, and projects using alternative energy systems.

(3) In making grants under this chapter, the Secretary shall also give priority and preference to any public works project requested by a State or by a special purpose unit of local government which is endorsed by a general purpose local government within such State.

(4) A project requested by a school district shall be accorded the full priority and preference to public works projects of local governments provided in paragraph (1).

(c) Unemployment rates; priority; States receiving minimum allocations

In making grants under this chapter, if for the twelve most recent consecutive months, the national unemployment rate is equal to or exceeds 6½ per centum, the Secretary shall (1) expedite and give priority to applications submitted by States or local governments having unemployment rates for the twelve most recent consecutive months in excess of the national unemployment rate and (2) shall give priority thereafter to applications submitted by States or local governments having unemployment rates for the twelve most recent consecutive months in excess of 6½ per centum, but less than the national unemployment rate. Information regarding unemployment rates may be furnished either by the Federal Government, or by States or local governments, provided the Secretary determines that the unemployment rates furnished by States or local governments are accurate, and shall provide assistance to States or local governments in the calculation of such rates to insure validity and standardization. The Secretary may waive the application of the first sentence of this subsection to any State which receives a minimum allocation pursuant to paragraph (3) of subsection (a) of this section.

(d) Priorities for projects in State or localities with two or more projects

Whenever a State or local government submits applications for grants under this chapter for two or more projects, such State or local government shall submit as part of such applications its priority for each such project.

(e) Community or neighborhood basis of unemployment rates

The unemployment rate of a local government shall, for the purposes of this chapter, and upon request of the applicant, be based upon the unemployment rate of any community or neighborhood (defined without regard to political or other subdivisions or boundaries) within the jurisdiction of such local government, except that any grant made to a local government based upon the unemployment rate of a community or neighborhood within its jurisdiction must be for a project to be constructed in such community or neighborhood.

(f) Repealed. Pub. L. 95–28, title I, § 107(e), May 13, 1977, 91 Stat. 119

(g) Criteria for requests

States and local governments making application under this chapter should (1) relate their specific requests to existing approved plans and programs of a local community development or regional development nature so as to avoid harmful or costly inconsistencies or contradictions; and (2) where feasible, make requests which, although capable of early initiation, will promote or advance longer range plans and programs.

(h) Applications not submitted on or before December 23, 1976; grants prohibited; exceptions

(1) Except as provided in paragraph (2) of this subsection, the Secretary shall not consider or approve or make a grant for any project for which any application was not submitted for a grant under this chapter on or before December 23, 1976.

(2) The Secretary may receive applications for grants for projects under this chapter—

(A) from the Trust Territory of the Pacific Islands;

(B) from Indian tribes and Alaska Native villages;

(C) from any applicant to use any allocation which may be made pursuant to regulation, to the extent necessary to expend such allocation, if a sufficient number of applications were not submitted on or before December 23, 1976, to use such allocation.

(i) Substitution of projects to alleviate drought or other emergency or disaster-related conditions or damage

The Secretary may allow any applicant which has received a grant for a project under this chapter to substitute one or more projects for such project if in the judgment of the Secretary (1) the Federal cost in the aggregate of such substituted project or projects does not exceed such grant, (2) such substituted project or projects comply with section 6705(d) of this title, and (3) such substituted project or projects will in fact aid in alleviating drought or other emergency or disaster-related conditions or damage. Section 6705(a) of this title shall not apply to projects substituted under this subsection.

(j) Private nonprofit health care or rehabilitation facilities

Notwithstanding subsection (h)(1) of this section, grants may be made from appropriations made under section 6710 of this title after September 30, 1977, to States or local governments for projects for the construction, renovation, repair, or other improvements of health care or rehabilitation facilities owned and operated by private nonprofit entities.

(Pub. L. 94–369, title I, § 108, July 22, 1976, 90 Stat. 1000; Pub. L. 95–28, title I, §§ 105–107, May 13, 1977, 91 Stat. 117, 118.)

AMENDMENTS

1977—Subsec. (a). Pub. L. 95–28, § 105, added par. (1) and introductory provisions preceding par. (1), par. (2), and, in par. (3), introductory provisions preceding cl. (A) and cl. (B), designated existing provisions as cl. (A) of par. (3) and, in such cl. (A) as so designated, inserted reference to Trust Territory of the Pacific Islands and substituted ''three-quarters of one percentum'' for ''one-half of one percentum'' and ''of such funds'' for ''of all amounts appropriated to carry out this subchapter''.

Subsec. (b). Pub. L. 95–28, § 106, designated existing provisions as par. (1) and added pars. (2) to (4).

Subsec. (c). Pub. L. 95–28, § 107(a), (b), substituted ''twelve most recent consecutive months'' for ''three most recent consecutive months'' and authorized the Secretary to waive the application of the first sentence of the subsection to any State which receives a minimum allocation pursuant to subsec. (a)(3) of this section.

Subsec. (d). Pub. L. 95–28, § 107(c), substituted provisions directing State or local governments that submit two or more projects to submit as part of their applications the priorities assigned to each project for provisions directing that seventy percentum of all amounts appropriated to carry out this chapter be granted for public works projects submitted by State or local governments given priority under clause (1) of the first sentence of subsec. (c) of this section, with the remaining thirty percentum available for public works projects submitted by State or local governments in other classifications of priority.

Subsec. (e). Pub. L. 95–28, § 107(d), substituted ''to be constructed in such community or neighborhood'' for ''of direct benefit to, or provide employment for, unemployed persons who are residents of that community or neighborhood''.

Subsec. (f). Pub. L. 95–28, § 107(e), struck out subsec. (f) which directed that, in determining the unemployment rate of a local government for purposes of this section, the unemployment in those adjoining areas from which the labor force for such project might be drawn were to be taken into consideration.

Subsecs. (h) to (j). Pub. L. 95–28, § 107(f), added subsecs. (h) to (j).

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§ 6708. Wage standards for laborers and mechanics; enforcement

All laborers and mechanics employed on projects assisted by the Secretary under this chapter shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40. The Secretary shall not extend any financial assistance under this chapter for such project without first obtaining adequate assurance that these labor standards will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this provision, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267), and section 3145 of title 40.

(Pub. L. 94–369, title I, § 109, July 22, 1976, 90 Stat. 1001; Pub. L. 95–28, title I, § 108, May 13, 1977, 91 Stat. 119.)

REFERENCES IN TEXT

Reorganization Plan Numbered 14 of 1950, referred to in text, is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

In text, ''sections 3141–3144, 3146, and 3147 of title 40'' substituted for ''the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a–5)'' and ''section 3145 of title 40'' substituted for ''section 2 of the Act of June 13, 1964, as amended (40 U.S.C. 276c)'', meaning section 2 of the Act of June 13, 1934, on authority of Pub. L. 107–217, § 5(c), Aug. 21, 2002, 116 Stat. 1303, the first section of which enacted Title 40, Public Buildings, Property, and Works.

AMENDMENTS

1977—Pub. L. 95–28 substituted ''All laborers and mechanics employed'' for ''All laborers and mechanics employed by contractors or subcontractors''.

§ 6709. Sex discrimination; prohibition; enforcement

No person shall on the ground of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any project receiving Federal grant assistance under this chapter, including any supplemental grant made under this chapter. This provision will be enforced through agency provisions and rules similar to those already established, with respect to racial and other discrimination under title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.]. However, this remedy is not exclusive and will not prejudice or cut off any other legal remedies available to a discriminatee.

(Pub. L. 94–369, title I, § 110, July 22, 1976, 90 Stat. 1002.)

REFERENCES IN TEXT

The Civil Rights Act of 1964, referred to in text, is Pub. L. 88–352, July 2, 1964, 78 Stat. 241, as amended. Title VI of the Civil Rights Act of 1964 is classified generally to subchapter V (§ 2000d et seq.) of chapter 21 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2000a of this title and Tables.

§ 6710. Authorization of appropriations

There is authorized to be appropriated not to exceed $6,000,000,000 for the period ending December 31, 1978, to carry out this chapter.

(Pub. L. 94–369, title I, § 111, July 22, 1976, 90 Stat. 1002; Pub. L. 95–28, title I, § 109, May 13, 1977, 91 Stat. 119.)

AMENDMENTS

1977—Pub. L. 95–28 substituted ''$6,000,000,000 for the period ending December 31, 1978'' for ''$2,000,000,000 for the period ending September 30, 1977''.

IMMEDIATE INITIATION OF CONSTRUCTION ON CERTAIN PROJECTS

Section 111 of Pub. L. 95–28 directed Secretary of Agriculture and Secretary of the Interior to immediately initiate construction of those Federal public works projects which are responsibility of their respective departments, which have been authorized, and which can be commenced within 60 days of May 13, 1977, and completed no later than 180th day after commencement of construction, with no funds authorized by this section used to carry out such works.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6707 of this title.

SUBCHAPTER II—ANTIRECESSION PROVISIONS

§ 6721. Congressional findings of fact and declaration of policy

The Congress finds—

(1) that State and local governments represent a significant segment of the national economy whose economic health is essential to national economic prosperity;

(2) that present national economic problems have imposed considerable hardships on State and local government budgets;

(3) that those governments, because of their own fiscal difficulties, are being forced to take budget-related actions which tend to undermine Federal Government efforts to stimulate the economy;

(4) that efforts to stimulate the economy through reductions in Federal Government tax obligations are weakened when State and local governments are forced to increase taxes;

(5) that the net effect of Federal Government efforts to reduce unemployment through public service jobs is substantially limited if State and local governments use federally financed public service employees to replace regular employees that they have been forced to lay off;

(6) that efforts to stimulate the construction industry and reduce unemployment are substantially undermined when State and local governments are forced to cancel or delay the construction of essential capital projects; and

(7) that efforts by the Federal Government to stimulate the economic recovery will be substantially enhanced by a program of emergency Federal Government assistance to State and local governments to help prevent those governments from taking budget-related actions which undermine the Federal Government efforts to stimulate economic recovery.

(Pub. L. 94–369, title II, § 201, July 22, 1976, 90 Stat. 1002.)

§ 6722. Financial assistance

(a) Payments to State and local governments

The Secretary of the Treasury (hereafter in this subchapter referred to as the ''Secretary'') shall, in accordance with the provisions of this subchapter, make payments to States and to local governments to coordinate budget-related actions by such governments with Federal Government efforts to stimulate economic recovery.

(b) Authorization of appropriations

Subject to the provisions of subsections (c) and (d) of this section, there are authorized to be appropriated for each of the five succeeding calendar quarters (beginning with the calendar quarter which begins on July 1, 1977) for the purpose of payments under this subchapter—

(1) $125,000,000, plus

(2) $30,000,000 multiplied by the number of whole one-tenth percentage points by which the rate of seasonally adjusted national unemployment for the most recent calendar quarter which ended three months before the beginning of such quarter exceeded 6 per centum.

(c) Aggregate authorization

In no case shall the aggregate amount authorized to be appropriated under the provisions of subsection (b) of this section for the five successive calendar quarters beginning with the calendar quarter which begins July 1, 1977, exceed $2,250,000,000.

(d) Termination

No amount is authorized to be appropriated under the provisions of subsection (b) of this section for any calendar quarter if—

(1) the average rate of national unemployment during the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed 6 percent, or

(2) the rate of national unemployment for the last month of the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed 6 percent.

(Pub. L. 94–369, title II, § 202, July 22, 1976, 90 Stat. 1002; Pub. L. 94–447, title II, § 201(1), Oct. 1, 1976, 90 Stat. 1498; Pub. L. 95–30, title VI, § 602, May 23, 1977, 91 Stat. 164.)

AMENDMENTS

1977—Subsec. (b). Pub. L. 95–30, § 602(a), substituted ''July 1, 1977'' for ''July 1, 1976'' in introductory provisions preceding par. (1) and in par. (2) substituted ''$30,000,000 multiplied by the number of whole one-tenth'' for ''$62,500,000 multiplied by the number of one-half'' and ''such quarter exceeded 6 per centum'' for ''such calendar quarter exceeded 6 percent''.

Subsec. (c). Pub. L. 95–30, § 602(b), substituted ''five successive calendar quarters beginning with the calendar quarter which begins July 1, 1977, exceed $2,250,000,000'' for ''five calendar quarters beginning with the calendar quarter which begins July 1, 1976, exceed $1,250,000,000''.

1976—Subsec. (d)(1). Pub. L. 94–447 substituted ''6 percent, or'' for ''6 percent, and''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6723, 6736 of this title.

§ 6723. Allocation of amounts

(a) Reservations for eligible States and units of local government

(1) The Secretary shall reserve one-third of the amounts appropriated pursuant to authorization under section 6722 of this title for each calendar quarter for the purpose of making payments to eligible State governments under subsection (b) of this section.

(2) The Secretary shall reserve two-thirds of such amounts for the purpose of making payments to eligible units of local government under subsection (c) of this section.

(b) State allocation; percentage; definitions

(1) The Secretary shall allocate from amounts reserved under subsection (a)(1) of this section an amount for the purpose of making payments to each State equal to the total amount reserved under subsection (a)(1) of this section for the calendar quarter multiplied by the applicable State percentage.

(2) For purposes of this subsection, the applicable State percentage is equal to the quotient resulting from the division of the product of—

(A) the State excess unemployment percentage, multiplied by

(B) the State revenue sharing amount by the sum of such products for all the States.

(3) For the purposes of this section—

(A) the term ''State'' means each State of the United States;

(B) the State excess unemployment percentage is equal to the difference resulting from the subtraction of 4.5 percentage points from the State unemployment rate for that State but shall not be less than zero;

(C) the State unemployment rate is equal to the rate of unemployment in the State during the appropriate calendar quarter, as determined by the Secretary of Labor and reported to the Secretary; and

(D) the State revenue sharing amount is the amount determined under sections 6705–6707(a) of title 31[1] for the most recently completed entitlement period, as defined under section 6701(a)(1) of title 31.

(c) Local government allocation; percentage; definitions; special limitation

(1) The Secretary shall allocate from amounts reserved under subsection (a)(2) of this section an amount for the purpose of making payments to each local government, subject to the provisions of paragraph (4), equal to the total amount reserved under such subsection for calendar quarter multiplied by the local government percentage.

(2) For purposes of this subsection, the local government percentage is equal to the quotient resulting from the division of the product of—

(A) the local excess unemployment percentage, multiplied by

(B) the local revenue sharing amount, by the sum of such products for all local governments.

(3) For purposes of this subsection—

(A) the local excess unemployment percentage is equal to the difference resulting from the subtraction of 4.5 percentage points from the local unemployment rate, but shall not be less than zero;

(B) the local unemployment rate is equal to the rate of unemployment in the jurisdiction of the local government during the appropriated calendar quarter, as determined or assigned by the Secretary of Labor and reported to the Secretary (in the case of a local government for which the Secretary of Labor cannot determine a local unemployment rate, he shall assign such local government the local unemployment rate of the smallest unit or subunit of local government for which he has determined a local unemployment rate and within the jurisdiction of which such local government is located, unless—

(i) the Governor of the State in which such local government is located has provided the Secretary of Labor with a local unemployment rate for such local government, and

(ii) the Secretary of Labor finds that such local unemployment rate provided by the Governor has been determined in a manner consistent with the procedures and methodologies used by the Secretary of Labor in determining local unemployment rates,

in which case the Secretary of Labor shall assign such local government the local unemployment rate provided by such Governor);

(C) the local revenue sharing amount is the amount determined under sections 6701(a)(5), (7), (b)–(d), and 6708–6712 of title 31[1] for the most recently completed entitlement period, as defined under section 6701(a)(1) of title 31;[1]

(D) the term ''local government'' means the government of a county, municipality, township, or other unit of government below the State which—

(i) is a unit of general government (determined on the basis of the same principles as are used by the Bureau of the Census for general statistical purposes), and

(ii) performs substantial governmental functions. Such term includes the District of Columbia and also includes the recognized governing body of an Indian tribe or Alaskan Native village which performs substantial governmental functions. Such term does not include the government of a township area unless such government performs substantial governmental functions.

(4) If the amount which would be allocated to any unit of local government under this subsection is less than $100, then no amount shall be allocated for such unit of local government under this subsection.

(Pub. L. 94–369, title II, §203, July 22, 1976, 90 Stat. 1003; Pub. L. 94–447, title II, §201(2), (3), Oct. 1, 1976, 90 Stat. 1498; Pub. L. 95–30, title VI, §603(a)–(h), May 23, 1977, 91 Stat. 165, 166.)

REFERENCES IN TEXT

Chapter 67 of title 31, including sections 6701 and 6705 to 6712, referred to in subsecs. (b)(3)(D) and (c)(3)(C), was repealed by Pub. L. 99–272, title XIV, §14001(a)(1), Apr. 7, 1986, 100 Stat. 327. See, also, Codification note below.

CODIFICATION

In subsecs. (b)(3)(D) and (c)(3)(C), ''sections 6705–6707(a) of title 31'' substituted for ''section 107 of the State and Local Fiscal Assistance Act of 1972 [31 U.S.C. 1226]'', ''sections 6701(a)(5), (7), (b)–(d), and 6708–6712 of title 31'' substituted for ''section 108 of the State and Local Fiscal Assistance Act of 1972 [31 U.S.C. 1227], and ''section 6701(a)(1) of title 31'' substituted for ''section 141(b) of such Act [31 U.S.C. 1261(b)]'', respectively, on authority of Pub. L. 97–258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance. See, also, References in Text note above.

AMENDMENTS

1977—Subsec. (b)(3)(D). Pub. L. 95–30, §603(a), substituted ''for the most recently completed entitlement period, as defined under section 1261(b) of title 31'' for ''for the one-year period beginning on July 1, 1975''.

Subsec. (c)(1). Pub. L. 95–30, §603(b), substituted ''paragraph (4)'' for ''paragraphs (3) and (5)''.

Subsec. (c)(3). Pub. L. 95–30, §603(c)–(h), struck out par. (3) which set out special rules for local governments other than identifiable local governments, redesignated par. (4) as (3), substituted ''determined or assigned'' for ''determined'' in subpar. (B), substituted provisions covering local governments for which the Secretary of Labor cannot determine a local unemployment rate for provisions covering local governments treated as one local government in subpar. (B), substituted ''for the most recently completed entitlement period, as defined under section 1261(b) of title 31'' for

[1] See References in Text note below.

''for the one–year period beginning July 1, 1975'' in subpar. (C), struck out parenthetical provisions covering local governments treated as one local government in subpar. (C), struck out subpar. (D) which had defined ''identifiable local government'', redesignated former subpar. (E) as (D), substituted ''Bureau of the Census'' for ''Social and Economic Statistics Administration'' in cl. (i) of subpar. (D) as so redesignated, and struck out provisions which had directed the Secretary of Labor to make determinations with respect to rates of unemployment for the purposes of title VI of the Comprehensive Employment and Training Act of 1973.

Subsec. (c)(4), (5). Pub. L. 95–30, § 603(c), redesignated pars. (4) and (5) as (3) and (4), respectively.

1976—Subsec. (c)(3)(C)(ii). Pub. L. 94–447, § 201(2), substituted ''90 days'' for ''thirty days''.

Subsec. (c)(4)(E)(ii). Pub. L. 94–447, § 201(3), substituted ''or Alaskan Native village'' for ''of Alaskan Native village''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6730, 6736 of this title.

§ 6724. Uses of payments

Each State and local government shall use payments made under this subchapter for the maintenance of basic services customarily provided to persons in that State or in the area under the jurisdiction of that local government, as the case may be. State and local governments may not use emergency support payments made under this subchapter for the acquisition of supplies and materials or for construction, except for normal supplies or repairs necessary to maintain basic services.

(Pub. L. 94–369, title II, § 204, July 22, 1976, 90 Stat. 1006; Pub. L. 94–447, title II, § 201(4), Oct. 1, 1976, 90 Stat. 1498; Pub. L. 95–30, title VI, § 604, May 23, 1977, 91 Stat. 166.)

AMENDMENTS

1977—Pub. L. 95–30 substituted ''or for construction, except for normal supplies or repairs necessary to maintain basic services'' for ''and for construction, unless such supplies and materials or construction are to maintain basic services''.

1976—Pub. L. 94–447 substituted ''support payments'' for ''support grants''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6725, 6736 of this title.

§ 6725. Statement of assurances as prerequisite for payments; rules governing time and manner of filing; contents of statement

Each State and unit of local government may receive payments under this subchapter only upon filing with the Secretary, at such time and in such manner as the Secretary prescribes by rule, a statement of assurances. Such rules shall be prescribed by the Secretary not later than ninety days after July 22, 1976. The Secretary may not require any State or local government to file more than one such statement during each fiscal year. Each such statement shall contain—

(1) an assurance that payments made under this subchapter to the State or local government will be used for the maintenance, to the extent practical, of levels of public employment and of basic services customarily provided to persons in that State or in the area under the jurisdiction of that unit of local government which is consistent with the provisions of section 6724 of this title;

(2) an assurance that the State or unit of local government will—

(A) use fiscal, accounting, and audit procedures which conform to guidelines established therefor by the Secretary (after consultation with the Comptroller General of the United States), and

(B) provide to the Secretary (and to the Comptroller General of the United States), on reasonable notice, access to, and the right to examine, such books, documents, papers, or records as the Secretary may reasonably require for purposes of reviewing compliance with this subchapter;

(3) an assurance that reasonable reports will be furnished to the Secretary in such form and containing such information as the Secretary may reasonably require to carry out the purposes of this subchapter and that such report shall be published in a newspaper of general circulation in the jurisdiction of such government unless the cost of such publication is excessive in relation to the amount of the payments received by such government under this subchapter or other means of publicizing such report is more appropriate, in which case such report shall be publicized pursuant to rules prescribed by the Secretary;

(4) an assurance that the requirements of section 6727 of this title will be complied with;

(5) an assurance that the requirements of section 6728 of this title will be complied with;

(6) an assurance that the requirements of section 6729 of this title will be complied with;

(7) an assurance that the State or unit of local government will spend any payment it receives under this subchapter before the end of the six-calendar-month period which begins on the day after the date on which such State or local government receives such payment; and

(8) an assurance that the State or unit of local government will spend amounts received under this subchapter only in accordance with the laws and procedures applicable to the expenditure of its own revenues.

(Pub. L. 94–369, title II, § 205, July 22, 1976, 90 Stat. 1006.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6730, 6732, 6736 of this title.

§ 6726. Repealed. Pub. L. 95–30, title VI, § 603(i), May 23, 1977, 91 Stat 166

Section, Pub. L. 94–369, title II, § 206, July 22, 1976, 90 Stat. 1007, provided for the filing of optional State allocation plans.

§ 6727. Nondiscrimination

(a)(1) No person in the United States shall, on the ground of race, color, national origin, or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity of a State government or unit of local government, which gov-

ernment or unit receives funds made available under this subchapter. Any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975 [42 U.S.C. 6101 et seq.] or with respect to an otherwise qualified handicapped individual as provided in section 794 of title 29 shall also apply to any such program or activity. Any prohibition against discrimination on the basis of religion, or any exemption, from such prohibition, as provided in the Civil Rights Act of 1964 [42 U.S.C. 2000a et seq.] or title VIII of the Act of April 11, 1968, commonly referred to as Civil Rights Act of 1968 [42 U.S.C. 3601 et seq.], shall also apply to any such program or activity.

(2)(A) The provisions of paragraph (1) of this subsection shall not apply where any State government or unit of local government demonstrates, by clear and convincing evidence, that the program or activity with respect to which the allegation of discrimination has been made is not funded in whole or in part with funds made available under this subchapter.

(B) The provisions of paragraph (1), relating to discrimination on the basis of handicapped status, shall not apply with respect to construction projects commenced prior to January 1, 1977.

(b) The provisions of subsection (a) of this section shall be enforced by the Secretary in the same manner and in accordance with the same procedures as are required by sections 6701(a)(2), (3), 6716–6720, 6721, and 6723(f) of title 31[1] to enforce compliance with section 6716(a)–(c) of title 31.[1] The Attorney General shall have the same authority, functions, and duties with respect to funds made available under this subchapter as the Attorney General has under sections 6716(d), 6720, and 6721(d) of title 31[1] with respect to funds made available under chapter 67 of title 31.[1] Any person aggrieved by a violation of subsection (a) of this section shall have the same rights and remedies as a person aggrieved by a violation of section 6716(a)–(c) of title 31,[1] including the rights provided under section 6721(d) of title 31.[1]

(Pub. L. 94–369, title II, §207, July 22, 1976, 90 Stat. 1007; Pub. L. 95–30, title VI, §605, May 23, 1977, 91 Stat. 166.)

REFERENCES IN TEXT

The Age Discrimination Act of 1975, referred to in subsec. (a)(1), is title III of Pub. L. 94–135, Nov. 28, 1975, 89 Stat. 728, as amended, which is classified generally to chapter 76 (§6101 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6101 of this title and Tables.

The Civil Rights Act of 1964, referred to in subsec. (a)(1), is Pub. L. 88–352, July 2, 1964, 78 Stat. 241, as amended, which is classified principally to subchapters II to IX (§2000a et seq.) of chapter 21 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2000a of this title and Tables.

Act of April 11, 1968, referred to in subsec. (a)(1), is Pub. L. 90–284, Apr. 11, 1968, 82 Stat. 73, as amended, known as the Civil Rights Act of 1968. Title VIII of Pub. L. 90–284, known as the Fair Housing Act, is classified principally to subchapter I (§3601 et seq.) of chapter 45 of this title.

Chapter 67 of title 31, including sections 6701, 6716–6720, 6721, and 6723, referred to in subsec. (b), was repealed by Pub. L. 99–272, title XIV, §14001(a)(1), Apr. 7, 1986, 100 Stat. 327. See, also, Codification note below.

[1] See References in Text note below.

CODIFICATION

In subsec. (b), ''sections 6701(a)(2), (3), 6716–6720, 6721, and 6723(f) of title 31'' substituted for ''sections 122, 124, and 125 of the State and Local Fiscal Assistance Act of 1972 [31 U.S.C. 1242, 1244, 1245]'', ''section 6716(a)–(c) of title 31'' substituted for ''section 122(a) of such Act'' and also for ''subsection (a) of section 122 of such Act'' [31 U.S.C. 1242(a)], ''sections 6716(d), 6720, and 6721(d) of title 31'' substituted for ''sections 122(g) and (h) and 124(c) of such Act [31 U.S.C. 1242(g), (h), 1244(c)]'', and ''chapter 67 of title 31'' substituted for ''that Act [31 U.S.C. 1221 et seq.]'', respectively, on authority of Pub. L. 97–258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance. See, also, References in Text note above.

AMENDMENTS

1977—Pub. L. 95–30 amended section generally, inserting reference to discriminatory practices prohibited by the Age Discrimination Act of 1975 and the Rehabilitation Act of 1973 and generally restructuring the enforcement and remedies provisions to incorporate the procedures of the Secretary and of the Attorney General under the State and Local Fiscal Assistance Act of 1972.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6725, 6736 of this title.

§ 6728. Wage standards for laborers and mechanics; enforcement

All laborers and mechanics employed by contractors on all construction projects funded in whole or in part by payments under this subchapter shall be paid wages at rates not less than those prevailing on similar projects in the locality as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40. The Secretary of Labor shall have, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 and section 3145 of title 40.

(Pub. L. 94–369, title II, §208, July 22, 1976, 90 Stat. 1008.)

REFERENCES IN TEXT

Reorganization Plan Numbered 14 of 1950, referred to in text, is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

In text, ''sections 3141–3144, 3146, and 3147 of title 40'' substituted for ''the Davis-Bacon Act (40 U.S.C. 276a to 276a–5)'' and ''section 3145 of title 40'' substituted for ''section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c)'', on authority of Pub. L. 107–217, §5(c), Aug. 21, 2002, 116 Stat. 1303, the first section of which enacted Title 40, Public Buildings, Property, and Works.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6725, 6736 of this title.

§ 6729. Reports to Secretary by States and local governments; contents

Each State and unit of local government which receives a payment under the provisions of this subchapter shall report to the Secretary any increase or decrease in any tax which it imposes and any substantial reduction in the number of individuals it employs or in services

which such State or local government provides. Each State which receives a payment under the provisions of this subchapter shall report to the Secretary any decrease in the amount of financial assistance which the State provides to the units of local governments during the twelve-month period which ends on the last day of the calendar quarter immediately preceding July 22, 1976, together with an explanation of the reasons for such decrease. Such reports shall be made as soon as it is practical and, in any case, not more than six months after the date on which the decision to impose such tax increase or decrease, such reductions in employment or services, or such decrease in State financial assistance is made public.

(Pub. L. 94–369, title II, § 209, July 22, 1976, 90 Stat. 1008.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6725, 6736 of this title.

§ 6730. Payments

(a) Time and amount

From the amount allocated for State and local governments under section 6723 of this title, the Secretary shall pay not later than five days after the beginning of each quarter to each State and to each local government which has filed a statement of assurances under section 6725 of this title, an amount equal to the amount allocated to such State or local government under section 6723 of this title.

(b) Adjustments

Payments under this subchapter may be made with necessary adjustments on account of overpayments or underpayments.

(c) Termination

No amount shall be paid to any State or local government under the provisions of this section for any calendar quarter if—

(1) the average rate of unemployment within the jurisdiction of such State or local government during the most recent calendar quarter which ended three months before the beginning of such calendar quarter was less than 4.5 percent, or

(2) the rate of unemployment within the jurisdiction of such government for the last month of the most recent calendar quarter which ended three months before the beginning of such calendar quarter did not exceed 4.5 percent.

(Pub. L. 94–369, title II, § 210, July 22, 1976, 90 Stat. 1009; Pub. L. 94–447, title II, § 201 (5), Oct. 1, 1976, 90 Stat. 1498.)

AMENDMENTS

1976—Subsec. (c)(1). Pub. L. 94–447 substituted ''4.5 percent, or'' for ''4.5 percent, and''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6736 of this title.

§ 6731. Economization by State and local governments; statement of assurances, etc., required

Each State or unit of local government which receives payments under this subchapter shall provide assurances in writing to the Secretary, at such time and in such manner and form as the Secretary may prescribe by rule, that it has made substantial economies in its operations and that payments under this subchapter are necessary to maintain essential services without weakening Federal Government efforts to stimulate the economy through reductions in Federal tax obligations.

(Pub. L. 94–369, title II, § 211, July 22, 1976, 90 Stat. 1009.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6736 of this title.

§ 6732. Withholding of payments for failure to comply with statement of assurances; procedures applicable

Whenever the Secretary, after affording reasonable notice and an opportunity for a hearing to any State or unit of local government, finds that there has been a failure to comply substantially with any assurance set forth in the statement of assurances of that State or units of local government filed under section 6725 of this title, the Secretary shall notify that State or unit of local government that further payments will not be made under this subchapter until he is satisfied that there is no longer any such failure to comply. Until he is so satisfied, no further payments shall be made under this subchapter.

(Pub. L. 94–369, title II, § 212, July 22, 1976, 90 Stat. 1009.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6736 of this title.

§ 6733. Repealed. Pub. L. 104–66, title I, § 1131(b), Dec. 21, 1995, 109 Stat. 725

Section, Pub. L. 94–369, title II, § 213, July 22, 1976, 90 Stat. 1009, related to reports to Congress by Secretary of the Treasury.

§ 6734. Administration; rules; authorization of appropriations

(a) The Secretary is authorized to prescribe, after consultation with the Secretary of Labor, such rules as may be necessary for the purpose of carrying out his functions under this subchapter. Such rules should be prescribed by the Secretary not later than ninety days of July 22, 1976.

(b) There are authorized to be appropriated such sums as may be necessary for the administration of this subchapter.

(Pub. L. 94–369, title II, § 214, July 22, 1976, 90 Stat. 1010.)

§ 6735. Program studies and recommendations; evaluation; countercyclical study

(a) The Comptroller General of the United States shall conduct an investigation of the impact which emergency support grants have on the operations of State and local governments and on the national economy. Before and during the course of such investigation the Comptroller General shall consult with and coordinate his activities with the Congressional Budget Office

and the Advisory Commission on Intergovernmental Relations. The Comptroller General shall report the results of such investigation to the Congress within one year after July 22, 1976, together with an evaluation of the macroeconomic effect of the program established under this subchapter and any recommendations for improving the effectiveness of similar programs. All officers and employees of the United States shall make available all information, reports, data, and any other material necessary to carry out the provisions of this subsection to the Comptroller General upon a reasonable request.

(b) The Congressional Budget Office and the Advisory Commission on Intergovernmental Relations shall conduct a study to determine the most effective means by which the Federal Government can stabilize the national economy during periods of rapid economic growth and high inflation through programs directed toward State and local governments. Such study shall include a comparison of the effectiveness of alternative factors for triggering and measuring the extent of the fiscal coordination problem addressed by this program, and the effect of the recession on State and local expenditures. Before and during the course of such study, the Congressional Budget Office and the Advisory Commission shall consult with and coordinate their activities with the Comptroller General of the United States. The Congressional Budget Office and the Advisory Commission shall report the results of such study to Congress within two years after July 22, 1976. Such study shall include the opinions of the Comptroller General with respect to such study.

(c) The Secretary shall, in consultation with the Secretary of Commerce, conduct an investigation of—

(1) the extent to which allocations of funds provided under this chapter might be more precisely related to true economic conditions by the use of data on aggregate declines in private real wages and salaries;

(2) the extent to which other factors, such as relative tax effort, should also be made part of the allocation system provided by this chapter; and

(3) the availability and reliability of data concerning Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, and the extent to which such territories may properly be made part of the regular allocation system applicable to the several States.

The results of such investigation shall be submitted to the Congress not later than March 1, 1978, in order that such results may be available during congressional consideration of any extension of this chapter beyond the fiscal year ending September 30, 1978.

(Pub. L. 94–369, title II, § 215, July 22, 1976, 90 Stat. 1010; Pub. L. 95–30, title VI, § 606, May 23, 1977, 91 Stat. 167.)

AMENDMENTS

1977—Subsec. (c). Pub. L. 95–30 added subsec. (c).

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§ 6736. Authorization of appropriations for Puerto Rico, Guam, American Samoa, and Virgin Islands

(a) Authorizations for five calendar quarters beginning July 1, 1977

There is hereby authorized to be appropriated for each of the five succeeding calendar quarters (beginning with the calendar quarter which begins on July 1, 1977) for the purpose of making payments under this subchapter to Puerto Rico, Guam, American Samoa, and the Virgin Islands, an amount equal to 1 percent of the amount authorized for each such quarter under section 6722(b) of this title.

(b) Allocations

(1) The Secretary shall allocate from the amount authorized under subsection (a) of this section an amount for the purpose of making payments to such governments equal to the total authorized for the calendar quarter multiplied by the applicable territorial percentage.

(2) For the purposes of this subsection, the applicable territorial percentage is equal to the quotient resulting from the division of the territorial population by the sum of the territorial population for all territories.

(3) For purposes of this section—

(A) The term ''territory'' means Puerto Rico, Guam, American Samoa, and the Virgin Islands.

(B) The term ''territorial population'' means the most recent population for each territory as determined by the Bureau of Census.

(C) The provisions of sections 6723(c)(4), 6724, 6725, 6726,[1] 6727, 6728, 6729, 6730, 6731, 6732, and 6733[1] of this title shall apply to the funds authorized under this section.

(c) Payments to local governments

The governments of the territories are authorized to make payments to local governments within their jurisdiction from sums received under this section as they deem appropriate.

(Pub. L. 94–369, title II, § 216, as added Pub. L. 95–30, title VI, § 607, May 23, 1977, 91 Stat. 167.)

REFERENCES IN TEXT

Section 6726 of this title, referred to in subsec. (b)(3)(C), was repealed by Pub. L. 95–30, title VI, § 603(i), May 23, 1977, 91 Stat. 166.

Section 6733 of this title, referred to in subsec. (b)(3)(C), was repealed by Pub. L. 104–66, title I, § 1131(b), Dec. 21, 1995, 109 Stat. 725.

CHAPTER 81—ENERGY CONSERVATION AND RESOURCE RENEWAL

SUBCHAPTER I—ELECTRIC UTILITY RATE DESIGN INITIATIVES

[1] See References in Text note below.

Sec.

SUBCHAPTER I—ELECTRIC UTILITY RATE DESIGN INITIATIVES

§ 6801. Congressional findings and purpose

(a) The Congress finds that improvement in electric utility rate design has great potential for reducing the cost of electric utility services to consumers and current and projected shortages of capital, and for encouraging energy conservation and better use of existing electrical generating facilities.

(b) It is the purpose of this subchapter to require the Secretary to develop proposals for improvement of electric utility rate design and transmit such proposals to Congress; to fund electric utility rate demonstration projects; to intervene or participate, upon request, in the proceedings of utility regulatory commissions; and to provide financial assistance to State offices of consumer services to facilitate presentation of consumer interests before such commissions.

(Pub. L. 94–385, title II, § 201, Aug. 14, 1976, 90 Stat. 1142; Pub. L. 95–91, title III, § 301(a), title VII, §§ 703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607.)

SHORT TITLE

Section 1 of Pub. L. 94–385 provided: ''That this Act [enacting this chapter, section 6327 of this title, section 1701z–8 of Title 12, Banks and Banking, sections 787 and 790 to 790h of Title 15, Commerce and Trade, amending sections 5818, 6211, 6295, 6323, 6325, and 6326 of this title and sections 757, 764, 766, 772, 774, 777 and 784 of Title 15, and enacting provisions set out as notes under sections 6801, 6831, and 6851 of this title, and sections 753, 757, 761, and 790 of Title 15] may be cited as the 'Energy Conservation and Production Act'.''

Section 301 of title III of Pub. L. 94–385 provided that: ''This title [enacting subchapter II of this chapter] may be cited as the 'Energy Conservation Standards for New Buildings Act of 1976'.''

Section 401 of title IV of Pub. L. 94–385 provided that: ''This title [enacting subchapter III of this chapter, section 6327 of this title, and section 1701z–8 of Title 12, Banks and Banking, and amending sections 6323, 6325, and 6326 of this title] may be cited as the 'Energy Conservation in Existing Buildings Act of 1976'.''

TRANSFER OF FUNCTIONS

''Secretary'', meaning Secretary of Energy, substituted for ''Federal Energy Administration'' in subsec. (b) pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions (with certain exceptions) to Secretary of Energy.

§ 6802. Definitions

As used in this subchapter:

(1) The term ''Secretary'' means the Secretary of Energy.

(2) The term ''electric utility'' means any person, State agency, or Federal agency which sells electric energy.

(3) The term ''Federal agency'' means any agency or instrumentality of the United States.

(4) The term ''State agency'' means a State, political subdivision thereof, or any agency or instrumentality of either.

(5) The term ''State utility regulatory commission'' means (A) any utility regulatory commission which is a State agency or (B) the Tennessee Valley Authority.

(6) The term ''State'' means any State, the District of Columbia, Puerto Rico, and any territory or possession of the United States.

(7) The term ''utility regulatory commission'' means any State agency or Federal agency which has authority to fix, modify, approve, or disapprove rates for the sale of electric energy by any electric utility (other than by such agency).

(Pub. L. 94–385, title II, § 202, Aug. 14, 1976, 90 Stat. 1142; Pub. L. 95–617, title I, § 143, Nov. 9, 1978, 92 Stat. 3134; Pub. L. 105–388, § 5(b)(2), Nov. 13, 1998, 112 Stat. 3479.)

AMENDMENTS

1998—Par. (1). Pub. L. 105–388 made technical amendment by striking heading and designation which had been inserted by Pub. L. 95–617.

1978—Par. (1). Pub. L. 95–617 substituted ''The term 'Secretary' means the Secretary of Energy'' for ''The term 'Administrator' means the Administrator of the Federal Energy Administration; except that after such Administration ceases to exist, such term means any officer of the United States designated by the President for purposes of this subchapter''.

§ 6803. Development of electric utility rate design proposals by Secretary; contents; submission to Congress; supporting analysis

(a) The Secretary shall develop proposals to improve electric utility rate design. Such proposals shall be designed to encourage energy conservation, minimize the need for new electrical generating capacity, and minimize costs of electric energy to consumers, and shall include (but not be limited to) proposals which provide for the development and implementation of—

(1) load management techniques which are cost effective;

(2) rates which reflect marginal cost of service, or time of use of service, or both;

(3) ratemaking policies which discourage inefficient use of fuel and encourage economical purchases of fuel; and

(4) rates (or other regulatory policies) which encourage electric utility system reliability and reliability of major items of electric utility equipment.

(b) The proposals prepared under subsection (a) of this section shall be transmitted to each House of Congress not later than 6 months after August 14, 1976, for review and for such further action as the Congress may direct by law. Such proposals shall be accompanied by an analysis of—

(1) the projected savings (if any) in consumption of petroleum products, natural gas, electric energy, and other energy resources,

(2) the reduction (if any) in the need for new electrical generating capacity, and of the demand for capital by the electric utility industry, and

(3) changes (if any) in the cost of electric energy to consumers,

which are likely to result from the implementation nationally of each of the proposals transmitted under this subsection.

(Pub. L. 94–385, title II, § 203, Aug. 14, 1976, 90 Stat. 1143; Pub. L. 95–617, title I, § 143, Nov. 9, 1978, 92 Stat. 3134.)

AMENDMENTS

1978—Subsec. (a). Pub. L. 95–617 substituted ''Secretary'' for ''Administrator'', meaning Administrator of the Federal Energy Administration.

§ 6804. Funding, administrative, and judicial authorities of Secretary

The Secretary may—

(1) fund (A) demonstration projects to improve electric utility load management procedures and (B) regulatory rate reform initiatives,

(2) on request of a State, a utility regulatory commission, or of any participant in any proceeding before a State utility regulatory commission which relates to electric utility rates or rate design, intervene and participate in such proceeding, and

(3) on request of any State, utility regulatory commission, or party to any action to obtain judicial review of an administrative proceeding in which the Secretary intervened or participated under paragraph (2), intervene and participate in such action.

(Pub. L. 94–385, title II, § 204, Aug. 14, 1976, 90 Stat. 1143; Pub. L. 95–617, title I, § 143, Nov. 9, 1978, 92 Stat. 3134.)

AMENDMENTS

1978—Pub. L. 95–617 substituted ''Secretary'' for ''Administrator'', meaning Administrator of the Federal Energy Administration in two places.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6808 of this title; title 16 section 2633.

§ 6805. Grants for State consumer protection offices by Secretary

(a) Establishment, operation, and purpose; qualifications for funds

The Secretary may make grants to States, or otherwise as provided in subsection (c) of this section, under this section to provide for the establishment and operation of offices of consumer services to assist consumers in their presentations before utility regulatory commissions. Any assistance provided under this section shall be provided only for an office of consumer services which is operated independently of any such utility regulatory commission and which is empowered to—

(1) make general factual assessments of the impact of proposed rate changes and other proposed regulatory actions upon all affected consumers;

(2) assist consumers in the presentation of their positions before utility regulatory commissions; and

(3) advocate, on its own behalf, a position which it determines represents the position most advantageous to consumers, taking into account developments in rate design reform.

(b) Grants subject to State assurances on funds

Grants pursuant to subsection (a) of this section shall be made only to States which furnish such assurances as the Secretary may require that funds made available under such section will be in addition to, and not in substitution for, funds made available to offices of consumer services from other sources.

(c) Offices established by Tennessee Valley Authority

Assistance may be provided under this section to an office of consumer services established by the Tennessee Valley Authority, if such office is operated independently of the Tennessee Valley Authority.

(Pub. L. 94–385, title II, § 205, Aug. 14, 1976, 90 Stat. 1144; Pub. L. 95–617, title I, § 143, Nov. 9, 1978, 92 Stat. 3134.)

AMENDMENTS

1978—Subsecs. (a), (b). Pub. L. 95–617 substituted ''Secretary'' for ''Administrator'', meaning Administrator of the Federal Energy Administration.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6808 of this title.

§ 6806. Statement in annual report

The Secretary shall include in each annual report submitted under section 7267 of this title a statement with respect to activities conducted under this subchapter and recommendations as to the need for and types of further Federal legislation.

(Pub. L. 94–385, title II, § 206, Aug. 14, 1976, 90 Stat. 1144; Pub. L. 95–617, title I, § 143, Nov. 9, 1978, 92 Stat. 3134; Pub. L. 96–470, title II, § 203(g), Oct. 19, 1980, 94 Stat. 2243.)

AMENDMENTS

1980—Pub. L. 96–470 substituted ''The Secretary shall include in each annual report submitted under section 7267 of this title a statement'' for ''Not later than the last day in December in each year, the Secretary shall transmit to the Congress a report''.

1978—Pub. L. 95–617 substituted ''Secretary'' for ''Administrator'', meaning Administrator of the Federal Energy Administration.

§ 6807. State utility regulatory assistance

(a) Grants to State utility regulatory commissions and nonregulated electric utilities

The Secretary may make grants to State utility regulatory commissions and nonregulated electric utilities (as defined in the Public Utility Regulatory Policies Act of 1978 [16 U.S.C. 2602]) to carry out duties and responsibilities under titles I [16 U.S.C. 2601 et seq.] and III [15 U.S.C. 3201 et seq.], and section 210 [16 U.S.C. 824a–3], of the Public Utility Regulatory Policies Act of 1978. No grant may be made under this section to any Federal agency.

(b) Unnecessary requirements prohibited

Any requirements established by the Secretary with respect to grants under this section may be only such requirements as are necessary to assure that such grants are expended solely to carry out duties and responsibilities referred to in subsection (a) of this section or such as are otherwise required by law.

(c) Application for grant

No grant may be made under this section unless an application for such grant is submitted to the Secretary in such form and manner as the Secretary may require. The Secretary may not approve an application of a State utility regulatory commission or nonregulated electric utility unless such commission or nonregulated electric utility assures the Secretary that funds made available under this section will be in addition to, and not in substitution for, funds made available to such commission or nonregulated electric utility from other governmental sources.

(d) Apportionment of funds

The funds appropriated for purposes of this section shall be apportioned among the States in such manner that grants made under this section in each State shall not exceed the lesser of—

(1) the amount determined by dividing equally among all States the total amount available under this section for such grants, or

(2) the amount which the Secretary is authorized to provide pursuant to subsections (b) and (c) of this section for such State.

(Pub. L. 94–385, title II, §207, Aug. 14, 1976, 90 Stat. 1144; Pub. L. 95–617, title I, §141, Nov. 9, 1978, 92 Stat. 3133.)

REFERENCES IN TEXT

The Public Utility Regulatory Policies Act of 1978, referred to in subsec. (a), is Pub. L. 95–617, Nov. 9, 1978, 92 Stat. 3117, as amended. Title I of such Act is classified principally to chapter 46 (§2601 et seq.) of Title 16, Conservation, and title III of such Act is classified generally to chapter 59 (§3201 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16 and Tables.

AMENDMENTS

1978—Pub. L. 95–617 substituted provisions relating to grants to State utility regulatory commissions and nonregulated electric utilities for provisions authorizing appropriations to carry out this subchapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6808 of this title.

§ 6807a. Energy efficiency grants to State regulatory authorities

(a) Energy efficiency grants

The Secretary is authorized in accordance with the provisions of this section to provide grants to State regulatory authorities in an amount not to exceed $250,000 per authority, for purposes of encouraging demand-side management including energy conservation, energy efficiency and load management techniques and for meeting the requirements of paragraphs (7), (8), and (9) of section 2621(d) of title 16 and as a means of meeting gas supply needs and to meet the requirements of paragraphs (3) and (4) of section 3203(b) of title 15. Such grants may be utilized by a State regulatory authority to provide financial assistance to nonprofit subgrantees of the Department of Energy's Weatherization Assistance Program in order to facilitate participation by such subgrantees in proceedings of such regulatory authority to examine energy conservation, energy efficiency, or other demand-side management programs.

(b) Plan

A State regulatory authority wishing to receive a grant under this section shall submit a plan to the Secretary that specifies the actions such authority proposes to take that would achieve the purposes of this section.

(c) Secretarial action

(1) In determining whether, and in what amount, to provide a grant to a State regulatory authority under this section the Secretary shall consider, in addition to other appropriate factors, the actions proposed by the State regulatory authority to achieve the purposes of this section and to consider implementation of the ratemaking standards established in—

(A) paragraphs (7), (8) and (9) of section 2621(d) of title 16; or

(B) paragraphs (3) and (4) of section 3203(b) of title 15.

(2) Such actions—

(A) shall include procedures to facilitate the participation of grantees and nonprofit subgrantees of the Department of Energy's Weatherization Assistance Program in proceedings of such regulatory authorities examining demand-side management programs; and

(B) shall provide for coverage of the cost of such grantee and subgrantees' participation in such proceedings.

(d) Recordkeeping

Each State regulatory authority that receives a grant under this section shall keep such records as the Secretary shall require.

(e) "State regulatory authority" defined

For purposes of this section, the term ''State regulatory authority'' shall have the same meaning as provided by section 2602 of title 16 in the case of electric utilities, and such term shall have the same meaning as provided by section 3202 of title 15 in the case of gas utilities, except that in the case of any State without a statewide ratemaking authority, such term shall mean the State energy office.

(f) Authorization

There are authorized to be appropriated $5,000,000 for each of the fiscal years 1994, 1995

and 1996 to carry out the purposes of this section.

(Pub. L. 102–486, title I, § 112, Oct. 24, 1992, 106 Stat. 2797.)

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the Energy Conservation and Production Act which comprises this chapter.

§ 6808. Authorization of appropriations

There are authorized to be appropriated—

(1) not to exceed $40,000,000 for each of the fiscal years 1979 and 1980 to carry out section 6807 of this title (relating to State utility regulatory assistance);

(2) not to exceed $10,000,000 for each of the fiscal years 1979 and 1980 to carry out section 6805 of this title (relating to State offices of consumer services); and

(3) not to exceed $8,000,000 for the fiscal year 1979, and $10,000,000 for the fiscal year 1980 to carry out section 6804(1)(B) of this title (relating to innovative rate structures).

(Pub. L. 94–385, title II, § 208, as added Pub. L. 95–617, title II, § 142, Nov. 9, 1978, 92 Stat. 3134.)

SUBCHAPTER II—ENERGY CONSERVATION STANDARDS FOR NEW BUILDINGS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 7154 of this title.

§ 6831. Congressional findings and purpose

(a) The Congress finds that—

(1) large amounts of fuel and energy are consumed unnecessarily each year in heating, cooling, ventilating, and providing domestic hot water for newly constructed residential and commercial buildings because such buildings lack adequate energy conservation features;

(2) Federal voluntary performance standards for newly constructed buildings can prevent such waste of energy, which the Nation can no longer afford in view of its current and anticipated energy shortage;

(3) the failure to provide adequate energy conservation measures in newly constructed buildings increases long-term operating costs that may affect adversely the repayment of, and security for, loans made, insured, or guaranteed by Federal agencies or made by federally insured or regulated instrumentalities; and

(4) State and local building codes or similar controls can provide an existing means by which to assure, in coordination with other building requirements and with a minimum of Federal interference in State and local transactions, that newly constructed buildings contain adequate energy conservation features.

(b) The purposes of this subchapter, therefore, are to—

(1) redirect Federal policies and practices to assure that reasonable energy conservation features will be incorporated into new commercial and residential buildings receiving Federal financial assistance;

(2) provide for the development and implementation, as soon as practicable, of voluntary performance standards for new residential and commercial buildings which are designed to achieve the maximum practicable improvements in energy efficiency and increases in the use of nondepletable sources of energy; and

(3) encourage States and local governments to adopt and enforce such standards through their existing building codes and other construction control mechanisms, or to apply them through a special approval process.

(Pub. L. 94–385, title III, § 302, Aug. 14, 1976, 90 Stat. 1144; Pub. L. 97–35, title X, § 1041(a), Aug. 13, 1981, 95 Stat. 621.)

AMENDMENTS

1981—Subsecs. (a)(2), (b)(2). Pub. L. 97–35 inserted ''voluntary'' before ''performance standards''.

EFFECTIVE DATE OF 1981 AMENDMENT

Amendment by Pub. L. 97–35 effective Aug. 13, 1981, see section 1038 of Pub. L. 97–35, set out as a note under section 6240 of this title.

SHORT TITLE

For short title of this subchapter as the ''Energy Conservation Standards for New Buildings Act of 1976'', see section 301 of Pub. L. 94–385, set out as a note under section 6801 of this title.

§ 6832. Definitions

As used in this subchapter:

(1) Omitted

(2) The term ''building'' means any structure to be constructed which includes provision for a heating or cooling system, or both, or for a hot water system.

(3) The term ''building code'' means a legal instrument which is in effect in a State or unit of general purpose local government, the provisions of which must be adhered to if a building is to be considered to be in conformance with law and suitable for occupancy and use.

(4) The term ''commercial building'' means any building other than a residential building, including any building developed for industrial or public purposes.

(5) The term ''Federal agency'' means any department, agency, corporation, or other entity or instrumentality of the executive branch of the Federal Government, including the United States Postal Service, the Federal National Mortgage Association, and the Federal Home Loan Mortgage Corporation.

(6) The term ''Federal building'' means any building to be constructed by, or for the use of, any Federal agency which is not legally subject to State or local building codes or similar requirements.

(7) The term ''Federal financial assistance'' means (A) any form of loan, grant, guarantee, insurance, payment, rebate, subsidy, or any other form of direct or indirect Federal assistance (other than general or special revenue sharing or formula grants made to States) approved by any Federal officer or agency; or (B) any loan made or purchased by any bank, savings and loan association, or similar institu-

tion subject to regulation by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Comptroller of the Currency, the Federal Home Loan Bank Board, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration.

(8) The term ''National Institute of Building Sciences'' means the institute established by section 1701j–2 of title 12.

(9) The term ''residential building'' means any structure which is constructed and developed for residential occupancy.

(10) The term ''Secretary'' means the Secretary of Energy.

(11) The term ''State'' includes each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory and possession of the United States.

(12) The term ''unit of general purpose local government'' means any city, county, town, municipality, or other political subdivision of a State (or any combination thereof), which has a building code or similar authority over a particular geographic area.

(13) The term ''Federal building energy standards'' means energy consumption objectives to be met without specification of the methods, materials, or equipment to be employed in achieving those objectives, but including statements of the requirements, criteria, and evaluation methods to be used, and any necessary commentary.

(14) The term ''voluntary building energy code'' means a building energy code developed and updated through a consensus process among interested persons, such as that used by the Council of American Building Officials; the American Society of Heating, Refrigerating, and Air-Conditioning Engineers; or other appropriate organizations.

(15) The term ''CABO'' means the Council of American Building Officials.

(16) The term ''ASHRAE'' means the American Society of Heating, Refrigerating, and Air-Conditioning Engineers.

(Pub. L. 94–385, title III, §303, Aug. 14, 1976, 90 Stat. 1145; Pub. L. 95–91, title III, §301(a), title VII, §§703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607; Pub. L. 97–35, title X, §1041(a), Aug. 13, 1981, 95 Stat. 621; Pub. L. 100–242, title V, §570(c), Feb. 5, 1988, 101 Stat. 1950; Pub. L. 102–486, title I, §101(a)(1), Oct. 24, 1992, 106 Stat. 2782.)

CODIFICATION

Par. (1) of this section which read ''The term 'Administrator' means the Administrator of the Federal Energy Administration; except that after such Administration ceases to exist, such term means any officer of the United States designated by the President for purposes of this subchapter'' has been omitted in view of the termination of the Federal Energy Administration and the transfer of its functions and the functions of the Administrator thereof (with certain exceptions) to the Secretary of Energy pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and the fact that the term ''Secretary'' is defined for the purposes of this subchapter by par. (10) of this section. In this subchapter, ''Secretary of Energy'' has been substituted for ''Administrator'' wherever appearing.

AMENDMENTS

1992—Pars. (9) to (16). Pub. L. 102–486 redesignated pars. (10) to (13) as (9) to (12), respectively, added pars. (13) to (16), and struck out former par. (9) which read as follows: ''The term 'voluntary performance standards' means an energy consumption goal or goals to be met without specification of the methods, materials, and processes to be employed in achieving that goal or goals, but including statements of the requirements, criteria and evaluation methods to be used, and any necessary commentary.''

1988—Par. (11). Pub. L. 100–242 substituted ''Secretary of Energy'' for ''Secretary of Housing and Urban Development''.

1981—Par. (9). Pub. L. 97–35 inserted ''voluntary'' before ''performance standards''.

EFFECTIVE DATE OF 1981 AMENDMENT

Amendment by Pub. L. 97–35 effective Aug. 13, 1981, see section 1038 of Pub. L. 97–35, set out as a note under section 6240 of this title.

TRANSFER OF FUNCTIONS

Federal Savings and Loan Insurance Corporation and Federal Home Loan Bank Board abolished and functions transferred, see sections 401 to 406 of Pub. L. 101–73, set out as a note under section 1437 of Title 12, Banks and Banking.

§ 6833. Updating State building energy efficiency codes

(a) Consideration and determination respecting residential building energy codes

(1) Not later than 2 years after October 24, 1992, each State shall certify to the Secretary that it has reviewed the provisions of its residential building code regarding energy efficiency and made a determination as to whether it is appropriate for such State to revise such residential building code provisions to meet or exceed CABO Model Energy Code, 1992.

(2) The determination referred to in paragraph (1) shall be—

(A) made after public notice and hearing;

(B) in writing;

(C) based upon findings included in such determination and upon the evidence presented at the hearing; and

(D) available to the public.

(3) Each State may, to the extent consistent with otherwise applicable State law, revise the provisions of its residential building code regarding energy efficiency to meet or exceed CABO Model Energy Code, 1992, or may decline to make such revisions.

(4) If a State makes a determination under paragraph (1) that it is not appropriate for such State to revise its residential building code, such State shall submit to the Secretary, in writing, the reasons for such determination, and such statement shall be available to the public.

(5)(A) Whenever CABO Model Energy Code, 1992,[1] (or any successor of such code) is revised, the Secretary shall, not later than 12 months after such revision, determine whether such revision would improve energy efficiency in residential buildings. The Secretary shall publish notice of such determination in the Federal Register.

(B) If the Secretary makes an affirmative determination under subparagraph (A), each State

[1] So in original. The comma probably should not appear.

shall, not later than 2 years after the date of the publication of such determination, certify that it has reviewed the provisions of its residential building code regarding energy efficiency and made a determination as to whether it is appropriate for such State to revise such residential building code provisions to meet or exceed the revised code for which the Secretary made such determination.

(C) Paragraphs (2), (3), and (4) shall apply to any determination made under subparagraph (B).

(b) Certification of commercial building energy code updates

(1) Not later than 2 years after October 24, 1992, each State shall certify to the Secretary that it has reviewed and updated the provisions of its commercial building code regarding energy efficiency. Such certification shall include a demonstration that such State's code provisions meet or exceed the requirements of ASHRAE Standard 90.1–1989.

(2)(A) Whenever the provisions of ASHRAE Standard 90.1–1989 (or any successor standard) regarding energy efficiency in commercial buildings are revised, the Secretary shall, not later than 12 months after the date of such revision, determine whether such revision will improve energy efficiency in commercial buildings. The Secretary shall publish a notice of such determination in the Federal Register.

(B)(i) If the Secretary makes an affirmative determination under subparagraph (A), each State shall, not later than 2 years after the date of the publication of such determination, certify that it has reviewed and updated the provisions of its commercial building code regarding energy efficiency in accordance with the revised standard for which such determination was made. Such certification shall include a demonstration that the provisions of such State's commercial building code regarding energy efficiency meet or exceed such revised standard.

(ii) If the Secretary makes a determination under subparagraph (A) that such revised standard will not improve energy efficiency in commercial buildings, State commercial building code provisions regarding energy efficiency shall meet or exceed ASHRAE Standard 90.1–1989, or if such standard has been revised, the last revised standard for which the Secretary has made an affirmative determination under subparagraph (A).

(c) Extensions

The Secretary shall permit extensions of the deadlines for the certification requirements under subsections (a) and (b) of this section if a State can demonstrate that it has made a good faith effort to comply with such requirements and that it has made significant progress in doing so.

(d) Technical assistance

The Secretary shall provide technical assistance to States to implement the requirements of this section, and to improve and implement State residential and commercial building energy efficiency codes or to otherwise promote the design and construction of energy efficient buildings.

(e) Availability of incentive funding

(1) The Secretary shall provide incentive funding to States to implement the requirements of this section, and to improve and implement State residential and commercial building energy efficiency codes. In determining whether, and in what amount, to provide incentive funding under this subsection, the Secretary shall consider the actions proposed by the State to implement the requirements of this section, to improve and implement residential and commercial building energy efficiency codes, and to promote building energy efficiency through the use of such codes.

(2) There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(Pub. L. 94–385, title III, § 304, as added Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2783.)

PRIOR PROVISIONS

A prior section 6833, Pub. L. 94–385, title III, § 304, Aug. 14, 1976, 90 Stat. 1146; Pub. L. 95–91, title III, §§ 301(a), 304(a), title VII, §§ 703, 707, 709(e)(1), Aug. 4, 1977, 91 Stat. 577, 580, 606, 608; Pub. L. 96–399, title III, § 326(a)–(c), Oct. 8, 1980, 94 Stat. 1649; Pub. L. 97–35, title X, § 1041(a), (c), Aug. 13, 1981, 95 Stat. 621; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433, related to development and promulgation of energy conservation voluntary performance standards for new commercial and residential buildings, prior to repeal by Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2783.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7154, 8235 of this title.

§ 6834. Federal building energy efficiency standards

(a) In general

(1) Not later than 2 years after October 24, 1992, the Secretary, after consulting with appropriate Federal agencies, CABO, ASHRAE, the National Association of Home Builders, the Illuminating Engineering Society, the American Institute of Architects, the National Conference of the States on Building Codes and Standards, and other appropriate persons, shall establish, by rule, Federal building energy standards that require in new Federal buildings those energy efficiency measures that are technologically feasible and economically justified. Such standards shall become effective no later than 1 year after such rule is issued.

(2) The standards established under paragraph (1) shall—

(A) contain energy saving and renewable energy specifications that meet or exceed the energy saving and renewable energy specifications of CABO Model Energy Code, 1992 (in the case of residential buildings) or ASHRAE Standard 90.1–1989 (in the case of commercial buildings);

(B) to the extent practicable, use the same format as the appropriate voluntary building energy code; and

(C) consider, in consultation with the Environmental Protection Agency and other Federal agencies, and where appropriate contain,

measures with regard to radon and other indoor air pollutants.

(b) Omitted

(c) Periodic review

The Secretary shall periodically, but not less than once every 5 years, review the Federal building energy standards established under this section and shall, if significant energy savings would result, upgrade such standards to include all new energy efficiency and renewable energy measures that are technologically feasible and economically justified.

(d) Interim standards

Interim energy performance standards for new Federal buildings issued by the Secretary under this subchapter as it existed before October 24, 1992, shall remain in effect until the standards established under subsection (a) of this section become effective.

(Pub. L. 94–385, title III, § 305, as added Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2784.)

CODIFICATION

Subsec. (b) of this section, which required the Secretary to identify and describe, in the annual report required under section 6837 of this title, the basis for any substantive difference between the Federal building energy standards established under this section and the appropriate voluntary building energy code, was omitted because of termination of the annual report. See Codification note set out under section 6837 of this title.

PRIOR PROVISIONS

A prior section 6834, Pub. L. 94–385, title III, § 305, Aug. 14, 1976, 90 Stat. 1147, related to availability or approval of Federal financial assistance for new construction, prior to repeal by Pub. L. 97–35, title X, § 1041(b), Aug. 13, 1981, 95 Stat. 621.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6835 of this title.

§ 6835. Federal compliance

(a) Procedures

(1) The head of each Federal agency shall adopt procedures necessary to assure that new Federal buildings meet or exceed the Federal building energy standards established under section 6834 of this title.

(2) The Federal building energy standards established under section 6834 of this title shall apply to new buildings under the jurisdiction of the Architect of the Capitol. The Architect shall adopt procedures necessary to assure that such buildings meet or exceed such standards.

(b) Construction of new buildings

The head of a Federal agency may expend Federal funds for the construction of a new Federal building only if the building meets or exceeds the appropriate Federal building energy standards established under section 6834 of this title.

(Pub. L. 94–385, title III, § 306, as added Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2785.)

PRIOR PROVISIONS

A prior section 6835, Pub. L. 94–385, title III, § 306, Aug. 14, 1976, 90 Stat. 1148; Pub. L. 96–399, title III, § 326(d), Oct. 8, 1980, 94 Stat. 1650; Pub. L. 97–35, title X, § 1041(d), Aug. 13, 1981, 95 Stat. 621, related to compliance with final performance standards by Federal agencies, prior to repeal by Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2783.

§ 6836. Support for voluntary building energy codes

(a) In general

Not later than 1 year after October 24, 1992, the Secretary, after consulting with the Secretary of Housing and Urban Development, the Secretary of Veterans Affairs, other appropriate Federal agencies, CABO, ASHRAE, the National Conference of States on Building Codes and Standards, and any other appropriate building codes and standards organization, shall support the upgrading of voluntary building energy codes for new residential and commercial buildings. Such support shall include—

(1) a compilation of data and other information regarding building energy efficiency standards and codes in the possession of the Federal Government, State and local governments, and industry organizations;

(2) assistance in improving the technical basis for such standards and codes;

(3) assistance in determining the cost-effectiveness and the technical feasibility of the energy efficiency measures included in such standards and codes; and

(4) assistance in identifying appropriate measures with regard to radon and other indoor air pollutants.

(b) Review

The Secretary shall periodically review the technical and economic basis of voluntary building energy codes and, based upon ongoing research activities—

(1) recommend amendments to such codes including measures with regard to radon and other indoor air pollutants;

(2) seek adoption of all technologically feasible and economically justified energy efficiency measures; and

(3) otherwise participate in any industry process for review and modification of such codes.

(Pub. L. 94–385, title III, § 307, as added Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2785.)

PRIOR PROVISIONS

A prior section 6836, Pub. L. 94–385, title III, § 307, Aug. 14, 1976, 90 Stat. 1149; Pub. L. 95–619, title II, § 255, Nov. 9, 1978, 92 Stat. 3238, set forth provisions respecting grants to States for adoption and implementation of performance standards, prior to repeal by Pub. L. 97–35, title X, § 1041(b), Aug. 13, 1981, 95 Stat. 621.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6837 of this title.

§ 6837. Omitted

CODIFICATION

Section, Pub. L. 94–385, title III, § 308, as added Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2786, which required the Secretary to report annually to Congress on activities conducted pursuant to this subchapter, terminated, effective May 15, 2000, pursuant to

section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 4th item on page 88 of House Document No. 103–7.

A prior section 6837, Pub. L. 94–385, title III, § 308, Aug. 14, 1976, 90 Stat. 1149; Pub. L. 97–35, title X, § 1041(e), Aug. 13, 1981, 95 Stat. 621, related to technical assistance to States, etc., prior to repeal by Pub. L. 102–486, § 101(a)(2).

§§ 6838 to 6840. Repealed. Pub. L. 102–486, title I, § 101(a)(2), Oct. 24, 1992, 106 Stat. 2783

L. 97–35, title X, § 1041(a), Aug. 13, 1981, 95 Stat. 621, related to consultations by Secretary with interested and affected groups in developing and promulgating voluntary performance standards and establishment of advisory committees.

Section 6839, Pub. L. 94–385, title III, § 310, Aug. 14, 1976, 90 Stat. 1149; Pub. L. 95–91, title III, §§ 301(a), 304(a), title VII, §§ 703, 707, 709(e)(2), Aug. 4, 1977, 91 Stat. 577, 580, 606, 607, 608; Pub. L. 97–35, title X, § 1041(a), Aug. 13, 1981, 95 Stat. 621; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433, related to support activities necessary or appropriate to develop and implement voluntary performance standards.

Section 6840, Pub. L. 94–385, title III, § 311, Aug. 14, 1976, 90 Stat. 1149; Pub. L. 97–375, title II, § 207(b), Dec. 21, 1982, 96 Stat. 1824, related to monitoring of State and local adoption and implementation of standards and reports to Congress on implementation and effectiveness of standards.

SUBCHAPTER III—ENERGY CONSERVATION AND RENEWABLE-RESOURCE ASSISTANCE FOR EXISTING BUILDINGS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 8624 of this title.

§ 6851. Congressional findings and purpose

(a) The Congress finds that—

(1) the fastest, most cost-effective, and most environmentally sound way to prevent future energy shortages in the United States, while reducing the Nation's dependence on imported energy supplies, is to encourage and facilitate, through major programs, the implementation of energy conservation and renewable-resource energy measures with respect to dwelling units, nonresidential buildings, and industrial plants;

(2) current efforts to encourage and facilitate such measures are inadequate as a consequence of—

(A) a lack of adequate and available financing for such measures, particularly with respect to individual consumers and owners of small businesses;

(B) a shortage of reliable and impartial information and advisory services pertaining to practicable energy conservation measures and renewable-resource energy measures and the cost savings that are likely if they are implemented in such units, buildings, and plants; and

(C) the absence of organized programs which, if they existed, would enable consumers, especially individuals and owners of small businesses, to undertake such measures easily and with confidence in their economic value;

(3) major programs of financial incentives and assistance for energy conservation measures and renewable-resource energy measures in dwelling units, nonresidential buildings, and industrial plants would—

(A) significantly reduce the Nation's demand for energy and the need for petroleum imports;

(B) cushion the adverse impact of the high price of energy supplies on consumers, particularly elderly and handicapped low-income persons who cannot afford to make the modifications necessary to reduce their residential energy use; and

(C) increase, directly and indirectly, job opportunities and national economic output;

(4) the primary responsibility for the implementation of such major programs should be lodged with the governments of the States; the diversity of conditions among the various States and regions of the Nation is sufficiently great that a wholly federally administered program would not be as effective as one which is tailored to meet local requirements and to respond to local opportunities; the State should be allowed flexibility within which to fashion such programs, subject to general Federal guidelines and monitoring sufficient to protect the financial investments of consumers and the financial interest of the United States and to insure that the measures undertaken in fact result in significant energy and cost savings which would probably not otherwise occur;

(5) to the extent that direct Federal administration is more economical and efficient, direct Federal financial incentives and assistance should be extended through existing and proven Federal programs rather than through new programs that would necessitate new and separate administrative bureaucracies; and

(6) such programs should be designed and administered to supplement, and not to supplant or in any other way conflict with, State energy conservation programs under part C of title III of the Energy Policy and Conservation Act [42 U.S.C. 6321 et seq.]; the emergency energy conservation program carried out by community action agencies pursuant to section 2809(a)(12)[1] of this title; and other forms of assistance and encouragement for energy conservation.

(b) It is, therefore, the purpose of this subchapter to encourage and facilitate the implementation of energy conservation measures and renewable-resource energy measures in dwelling units, nonresidential buildings, and industrial plants, through—

(1) supplemental State energy conservation plans; and

(2) Federal financial incentives and assistance.

(Pub. L. 94–385, title IV, § 402, Aug. 14, 1976, 90 Stat. 1150.)

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (a)(5), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended. Part C of title III of the Energy Policy and Conservation Act is classified generally to part B

[1] See References in Text note below.

(§ 6321 et seq.) of subchapter III of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

Section 2809(a)(12) of this title, referred to in subsec. (a)(6), which was redesignated as section 2809(a)(5) by Pub. L. 95–568, § 5(a)(2)(E), Nov. 2, 1978, 92 Stat. 2426, was subsequently repealed by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519.

This subchapter, referred to in subsec. (b), was in the original ''this title,'' meaning title IV of Pub. L. 94–385, known as the Energy Conservation in Existing Buildings Act of 1976, which enacted this subchapter, section 6327 of this title, and section 1701z–8 of Title 12, Banks and Banking, amended sections 6323, 6325, and 6326 of this title, and enacted provisions set out as a note under section 6801 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6801 of this title and Tables.

SHORT TITLE

For short title of title IV of Pub. L. 94–385, which is classified principally to this subchapter, as the ''Energy Conservation in Existing Buildings Act of 1976'', see section 401 of Pub. L. 94–385, set out as a note under section 6801 of this title.

PART A—WEATHERIZATION ASSISTANCE FOR LOW-INCOME PERSONS

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 1474, 3013, 6325, 6873, 8626b, 12807 of this title; title 15 section 4507; title 31 section 3803.

§ 6861. Congressional findings and purpose

(a) The Congress finds that—

(1) a fast, cost-effective, and environmentally sound way to prevent future energy shortages in the United States while reducing the Nation's dependence on imported energy supplies, is to encourage and facilitate, through major programs, the implementation of energy conservation and renewable-resource energy measures with respect to dwelling units;

(2) existing efforts to encourage and facilitate such measures are inadequate because—

(A) many dwellings owned or occupied by low-income persons are energy inefficient;

(B) low-income persons can least afford to make the modifications necessary to provide for efficient energy equipment in such dwellings and otherwise to improve the energy efficiency of such dwellings;

(3) weatherization of such dwellings would lower shelter costs in dwellings owned or occupied by low-income persons as well as save energy and reduce future energy capacity requirements; and

(4) States, through Community Action Agencies established under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] and units of general purpose local government, should be encouraged, with Federal financial and technical assistance, to develop and support coordinated weatherization programs designed to alleviate the adverse effects of energy costs on such low-income persons, to supplement other Federal programs serving such low-income persons, and to increase energy efficiency.

(b) It is, therefore, the purpose of this part to develop and implement a weatherization assistance program to increase the energy efficiency of dwellings owned or occupied by low-income persons, reduce their total residential energy expenditures, and improve their health and safety, especially low-income persons who are particularly vulnerable such as the elderly, the handicapped, and children.

(Pub. L. 94–385, title IV, § 411, Aug. 14, 1976, 90 Stat. 1151; Pub. L. 101–440, § 7(j), Oct. 18, 1990, 104 Stat. 1015.)

REFERENCES IN TEXT

The Economic Opportunity Act of 1964, referred to in subsec. (a)(4), is Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended, which was classified generally to chapter 34 (§ 2701 et seq.) of this title prior to repeal, except for titles VIII and X, by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519. Titles VIII and X of the Act are classified generally to subchapters VIII (§ 2991 et seq.) and X (§ 2996 et seq.) of chapter 34 of this title. For complete classification of this Act to the Code, see Tables.

AMENDMENTS

1990—Pub. L. 101–440 amended section generally. Prior to amendment, section read as follows:

''(a) The Congress finds that—

''(1) dwellings owned or occupied by low-income persons frequently are inadequately insulated;

''(2) low-income persons, particularly elderly and handicapped low-income persons, can least afford to make the modifications necessary to provide for adequate insulation in such dwellings and to otherwise reduce residential energy use;

''(3) weatherization of such dwellings would lower utility expenses for such low-income owners or occupants as well as save thousands of barrels per day of needed fuel; and

''(4) States, through community action agencies established under the Economic Opportunity Act of 1964 and units of general purpose local government, should be encouraged, with Federal financial and technical assistance, to develop and support coordinated weatherization programs designed to ameliorate the adverse effects of high energy costs on such low-income persons, to supplement other Federal programs serving such persons, and to conserve energy.

''(b) It is, therefore, the purpose of this part to develop and implement a supplementary weatherization assistance program to assist in achieving a prescribed level of insulation in the dwellings of low-income persons, particularly elderly and handicapped low-income persons, in order both to aid those persons least able to afford higher utility costs and to conserve needed energy.''

§ 6862. Definitions

As used in this part:

(1) The term ''Secretary'' means the Secretary of Energy.

(2) The term ''Director'' means the Director of the Community Services Administration.

(3) The term ''elderly'' means any individual who is 60 years of age or older.

(4) The term ''Governor'' means the chief executive officer of a State (including the Mayor of the District of Columbia).

(5) The term ''handicapped person'' means any individual (A) who is an individual with a disability, as defined in section 705 of title 29, (B) who is under a disability as defined in section 1614(a)(3)(A) or 233(d)(1) of the Social Security Act [42 U.S.C. 1382c(a)(3)(A), 423(d)(1)] or in section 102(7)[1] of the Developmental Dis-

[1] See References in Text note below.

abilities Services and Facilities Construction Act [42 U.S.C. 6001(7)], or (C) who is receiving benefits under chapter 11 or 15 of title 38.

(6) The terms ''Indian'', ''Indian tribe'', and ''tribal organization'' have the meanings prescribed for such terms by paragraphs (4), (5), and (6), respectively, of section 102[1] of the Older Americans Act of 1965 [42 U.S.C. 3002].

(7) The term ''low-income'' means that income in relation to family size which (A) is at or below 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget, except that the Secretary may establish a higher level if the Secretary, after consulting with the Secretary of Agriculture and the Director of the Community Services Administration, determines that such a higher level is necessary to carry out the purposes of this part and is consistent with the eligibility criteria established for the weatherization program under section 2809(a)(12) of this title, (B) is the basis on which cash assistance payments have been paid during the preceding 12-month period under titles IV and XVI of the Social Security Act [42 U.S.C. 601 et seq., 1381 et seq.] or applicable State or local law, or (C) if a State elects, is the basis for eligibility for assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621), provided that such basis is at least 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.

(8) The term ''State'' means each of the States and the District of Columbia.

(9) The term ''weatherization materials'' means—

(A) caulking and weatherstripping of doors and windows;

(B) furnace efficiency modifications, including, but not limited to—

(i) replacement burners, furnaces, or boilers or any combination thereof;

(ii) devices for minimizing energy loss through heating system, chimney, or venting devices; and

(iii) electrical or mechanical furnace ignition systems which replace standing gas pilot lights;

(C) clock thermostats;

(D) ceiling, attic, wall, floor, and duct insulation;

(E) water heater insulation;

(F) storm windows and doors, multiglazed windows and doors, heat-absorbing or heat-reflective window and door materials;

(G) cooling efficiency modifications, including, but not limited to, replacement air-conditioners, ventilation equipment, screening, window films, and shading devices;

(H) solar thermal water heaters;

(I) wood-heating appliances; and

(J) such other insulating or energy conserving devices or technologies as the Secretary may determine, after consulting with the Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Director, of the Community Services Administration.

(Pub. L. 94–385, title IV, § 412, Aug. 14, 1976, 90 Stat. 1152; Pub. L. 95–602, title I, § 122(e), Nov. 6, 1978, 92 Stat. 2987; Pub. L. 95–619, title II, § 231(a)(1), (b)(2), Nov. 9, 1978, 92 Stat. 3224, 3225; Pub. L. 96–294, title V, § 577(1), (2), June 30, 1980, 94 Stat. 760; Pub. L. 98–558, title IV, §§ 401, 402, Oct. 30, 1984, 98 Stat. 2887; Pub. L. 100–242, title V, § 570(d), Feb. 5, 1988, 101 Stat. 1950; Pub. L. 101–440, § 7(a), Oct. 18, 1990, 104 Stat. 1012; Pub. L. 102–486, title I, § 142(b), Oct. 24, 1992, 106 Stat. 2843; Pub. L. 105–220, title IV, § 414(f), Aug. 7, 1998, 112 Stat. 1242.)

REFERENCES IN TEXT

Section 102(7) of the Developmental Disabilities Services and Facilities Construction Act [42 U.S.C. 6001(7)], referred to in par. (5), was repealed by Pub. L. 106–402, title IV, § 401(a), Oct. 30, 2000, 114 Stat. 1737.

Paragraphs (4), (5), and (6) of section 102 of the Older Americans Act of 1965, referred to in par. (6), were redesignated pars. (5), (6), and (7), respectively, of section 102 of the Act by Pub. L. 95–478, title V, § 503(a)(2), Oct. 18, 1978, 92 Stat. 1559, and are classified to pars. (5), (6), and (7), respectively, of section 3002 of this title.

Section 2809(a)(12) of this title, referred to in par. (7), which was redesignated as section 2809(a)(5) by Pub. L. 95–568, § 5(a)(2)(E), Nov. 2, 1978, 92 Stat. 2426, was subsequently repealed by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519.

The Social Security Act, referred to in par. (7), is act Aug. 14, 1935, ch. 531, 49 Stat. 620, as amended. Titles IV and XVI of the Social Security Act are classified generally to subchapters IV (§ 601 et seq.) and XVI (§ 1381 et seq.) of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

The Low-Income Home Energy Assistance Act of 1981, referred to in par. (7), is title XXVI of Pub. L. 97–35, Aug. 13, 1981, 95 Stat. 893, as amended, which is classified generally to subchapter II (§ 8621 et seq.) of chapter 94 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 8621 of this title and Tables.

AMENDMENTS

1998—Par. (5)(A). Pub. L. 105–220 substituted ''an individual with a disability, as defined in section 705 of title 29'' for ''a handicapped individual as defined in section 7(7) of the Rehabilitation Act of 1973''.

1992—Par. (9)(G) to (J). Pub. L. 102–486 realigned margin of subpar. (G), added subpars. (H) and (I), and redesignated former subpar. (H) as (J).

1990—Par. (9)(G), (H). Pub. L. 101–440 added subpar. (G) and redesignated former subpar. (G) as (H).

1988—Par. (9)(G). Pub. L. 100–242 substituted a single comma for two consecutive commas after ''determine''.

1984—Par. (7)(C). Pub. L. 98–558, § 401, added cl. (C).

Par. (9)(B). Pub. L. 98–558, § 402(1), in amending subpar. (B) generally, substituted '', including, but not limited to'' for ''limited to'' in provisions preceding cl. (i), '', furnaces, or boilers or any combination thereof'' for ''designed to substantially increase the energy efficiency of the heating system,'' in cl. (i), and ''minimizing energy loss through heating system, chimney, or venting devices'' for ''modifying flue openings which will increase the energy efficiency of the heating system,'' in cl. (ii).

Par. (9)(C). Pub. L. 98–558, § 402(2), struck out ''by rule'' after ''may determine,''.

1980—Par. (1). Pub. L. 96–294, § 577(1), substituted provisions defining ''Secretary'' for provisions defining ''Administrator''.

Pars. (7), (9)(G). Pub. L. 96–294, § 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing.

1978—Par. (5). Pub. L. 95–602 substituted ''section 7(7) of the Rehabilitation Act of 1973'' for ''section 7(6) of the Rehabilitation Act of 1973''.

Par. (7)(A). Pub. L. 95–619, § 231(a)(1), inserted ''125 percent of'' after ''at or below'' and inserted provision authorizing the Administrator to establish a higher

level for low-income computations after determining such higher level to be necessary to carry out the purposes of this part.

Par. (9). Pub. L. 95–619, § 231(b)(2), substituted a specific listing of items to be considered weatherization materials for purposes of this part for a general statement of the sort of materials that could be considered as such.

COMMUNITY SERVICES ADMINISTRATION

Community Services Administration, which was established by section 601 of Economic Opportunity Act of 1964, as amended (42 U.S.C. 2941), terminated when Economic Opportunity Act of 1964, Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended, was repealed, except for titles VIII and X, effective Oct. 1, 1981, by section 683(a) of Pub. L. 97–35, title VI, Aug. 13, 1981, 95 Stat. 519, which is classified to 42 U.S.C. 9912(a). An Office of Community Services, headed by a Director, was established in Department of Health and Human Services by section 676 of Pub. L. 97–35, which is classified to 42 U.S.C. 9905.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1474, 6372 of this title; title 12 section 1703.

§ 6863. Weatherization program

(a) Development and conduct of program by Secretary; grants to States and Indian tribal organizations

The Secretary shall develop and conduct, in accordance with the purpose and provisions of this part, a weatherization program. In developing and conducting such program, the Secretary may, in accordance with this part and regulations promulgated under this part, make grants (1) to States, and (2) in accordance with the provisions of subsection (d) of this section, to Indian tribal organizations to serve Native Americans. Such grants shall be made for the purpose of providing financial assistance with regard to projects designed to provide for the weatherization of dwelling units, particularly those where elderly or handicapped low-income persons reside, occupied by low-income families.

(b) Consultation by Secretary with other Federal departments and agencies on development and publication in Federal Register of proposed regulations; required regulatory provisions; standards and procedures; rental units

(1) The Secretary, after consultation with the Director, the Secretary of Housing and Urban Development, the Secretary of Health and Human Services, the Secretary of Labor, and the heads of such other Federal departments and agencies as the Secretary deems appropriate, shall develop and publish in the Federal Register for public comment, not later than 60 days after August 14, 1976, proposed regulations to carry out the provisions of this part. The Secretary shall take into consideration comments submitted regarding such proposed regulations and shall promulgate and publish final regulations for such purpose not later than 90 days after August 14, 1976. The development of regulations under this part shall be fully coordinated with the Director.

(2) The regulations promulgated pursuant to this section shall include provisions—

(A) prescribing, in coordination with the Secretary of Housing and Urban Development, the Secretary of Health and Human Services, and the Director of the National Institute of Standards and Technology in the Department of Commerce, for use in various climatic, structural, and human need settings, standards for weatherization materials, energy conservation techniques, and balance combinations thereof, which are designed to achieve a balance of a healthful dwelling environment and maximum practicable energy conservation;

(B) that provide guidance to the States in the implementation of this part, including guidance designed to ensure that a State establishes (i) procedures that provide protection under paragraph (5) to tenants paying for energy as a portion of their rent, and (ii) a process for monitoring compliance with its obligations pursuant to this part; and

(C) that secure the Federal investment made under this part and address the issues of eviction from and sale of property receiving weatherization materials under this part.

(3) The Secretary, in coordination with the Secretaries and Director described in paragraph (2)(A) and with the Director of the Community Services Administration and the Secretary of Agriculture, shall develop and publish in the Federal Register for public comment, not later than 60 days after November 9, 1978, proposed amendments to the regulations prescribed under paragraph (1). Such amendments shall provide that the standards described in paragraph (2)(A) shall include a set of procedures to be applied to each dwelling unit to determine the optimum set of cost-effective measures, within the cost guidelines set for the program, to be installed in such dwelling unit. Such standards shall, in order to achieve such optimum savings of energy, take into consideration the following factors—

(A) the cost of the weatherization material;

(B) variation in climate; and

(C) the value of energy saved by the application of the weatherization material.

Such standards shall be utilized by the Secretary in carrying out this part, the Secretary of Agriculture in carrying out the weatherization program under section 1474(c) of this title, and the Director of the Community Services Administration in carrying out weatherization programs under section 222(a)(12) of the Economic Opportunity Act of 1964 [42 U.S.C. 2809(a)(12)]. The Secretary shall take into consideration comments submitted regarding such proposed amendment and shall promulgate and publish final amended regulations not later than 120 days after November 9, 1978.

(4) In carrying out paragraphs (2)(A) and (3), the Secretary shall establish the standards and procedures described in such paragraphs so that weatherization efforts being carried out under this part and under programs described in the fourth sentence of paragraph (3) will accomplish uniform results among the States in any area with a similar climatic condition.

(5) In any case in which a dwelling consists of a rental unit or rental units, the State, in the implementation of this part, shall ensure that—

(A) the benefits of weatherization assistance in connection with such rental units, includ-

ing units where the tenants pay for their energy through their rent, will accrue primarily to the low-income tenants residing in such units;

(B) for a reasonable period of time after weatherization work has been completed on a dwelling containing a unit occupied by an eligible household, the tenants in that unit (including households paying for their energy through their rent) will not be subjected to rent increases unless those increases are demonstrably related to matters other than the weatherization work performed;

(C) the enforcement of subparagraph (B) is provided through procedures established by the State by which tenants may file complaints and owners, in response to such complaints, shall demonstrate that the rent increase concerned is related to matters other than the weatherization work performed; and

(D) no undue or excessive enhancement will occur to the value of such dwelling units.

(6) As a condition of having assistance provided under this part with respect to multifamily buildings, a State may require financial participation from the owners of such buildings.

(c) Failure of State to submit application; alternate application by any unit of general purpose local government or community action agency; submission of amended application by State

If a State does not, within 90 days after the date on which final regulations are promulgated under this section, submit an application to the Secretary which meets the requirements set forth in section 6864 of this title, any unit of general purpose local government of sufficient size (as determined by the Secretary), or a community action agency carrying out programs under title II of the Economic Opportunity Act of 1964 [42 U.S.C. 2781 et seq.], may, in lieu of such State, submit an application (meeting such requirements and subject to all other provisions of this part) for carrying out projects under this part within the geographical area which is subject to the jurisdiction of such government or is served by such agency. A State may, in accordance with regulations promulgated under this part, submit an amended application.

(d) Direct grants to low-income members of Indian tribal organizations or alternate service organizations; application for funds

(1) Notwithstanding any other provision of this part, in any State in which the Secretary determines (after having taken into account the amount of funds made available to the State to carry out the purposes of this part) that the low-income members of an Indian tribe are not receiving benefits under this part that are equivalent to the assistance provided to other low-income persons in such State under this part, and if he further determines that the members of such tribe would be better served by means of a grant made directly to provide such assistance, he shall reserve from sums that would otherwise be allocated to such State under this part not less than 100 percent, nor more than 150 percent, of an amount which bears the same ratio to the State's allocation for the fiscal year involved as the population of all low-income Indians for whom a determination under this subsection has been made bears to the population of all low-income persons in such State.

(2) The sums reserved by the Secretary on the basis of his determination under this subsection shall be granted to the tribal organization serving the individuals for whom such a determination has been made, or, where there is no tribal organization, to such other entity as he determines has the capacity to provide services pursuant to this part.

(3) In order for a tribal organization or other entity to be eligible for a grant for a fiscal year under this subsection, it shall submit to the Secretary an application meeting the requirements set forth in section 6864 of this title.

(e) Transfer of funds

Notwithstanding any other provision of law, the Secretary may transfer to the Director sums appropriated under this part to be utilized in order to carry out programs, under section 222(a)(12) of the Economic Opportunity Act of 1964 [42 U.S.C. 2809(a)(12)], which further the purpose of this part.

(Pub. L. 94–385, title IV, § 413, Aug. 14, 1976, 90 Stat. 1152; Pub. L. 95–619, title II, § 231(a)(2), (b)(1), Nov. 9, 1978, 92 Stat. 3224; Pub. L. 96–294, title V, §§ 573(b), 574, 577(2), June 30, 1980, 94 Stat. 759, 760; Pub. L. 98–479, title II, § 201(h), Oct. 17, 1984, 98 Stat. 2228; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433; Pub. L. 101–440, § 7(b), Oct. 18, 1990, 104 Stat. 1012; Pub. L. 103–82, title IV, § 405(*l*), Sept. 21, 1993, 107 Stat. 922.)

REFERENCES IN TEXT

The Economic Opportunity Act of 1964, referred to in subsecs. (b)(3), (c), and (e), is Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended. Title II of the Economic Opportunity Act of 1964 was classified generally to subchapter II (§ 2781 et seq.) of chapter 34 of this title prior to repeal by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519. Prior to that repeal, section 222(a)(12) of that Act [42 U.S.C. 2809(a)(12)] was redesignated as section 222(a)(5) [42 U.S.C. 2809(a)(5)] by Pub. L. 95–568, § 5(a)(2)(E), Nov. 2, 1978, 94 Stat. 2426. For complete classification of this Act to the Code, see Tables.

AMENDMENTS

1993—Subsec. (b)(1). Pub. L. 103–82 struck out ''the Director of the ACTION Agency,'' after ''Labor,''.

1990—Subsec. (b)(2)(B), (C). Pub. L. 101–440, § 7(b)(1), added subpars. (B) and (C) and struck out former subpar. (B) which read as follows: ''designed to insure that (i) the benefits of weatherization assistance in connection with leased dwelling units will accrue primarily to low-income tenants; (ii) the rents on such dwelling units will not be raised because of any increase in the value thereof due solely to weatherization assistance provided under this part; and (iii) no undue or excessive enhancement will occur to the value of such dwelling units.''

Subsec. (b)(5), (6). Pub. L. 101–440, § 7(b)(2), added pars. (5) and (6).

1988—Subsec. (b)(2)(A). Pub. L. 100–418 substituted ''National Institute of Standards and Technology'' for ''National Bureau of Standards''.

1984—Subsec. (b)(1), (2)(A). Pub. L. 98–479 substituted ''Health and Human Services'' for ''Health, Education, and Welfare''.

1980—Subsecs. (a), (b)(1), (3). Pub. L. 96–294, § 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing.

Subsec. (b)(4). Pub. L. 96–294, § 574, added par. (4).

Subsec. (c). Pub. L. 96–294, §§ 573(b), 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing, and struck out provisions relating to determinations respecting inapplicability of allocation requirement and priority for an applicable community action agency.

Subsec. (d), (e). Pub. L. 96–294, § 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing.

1978—Subsec. (a). Pub. L. 95–619, § 231(a)(2), substituted ''occupied by low-income families'' for ''in which the head of the household is a low-income person''.

Subsec. (b)(3). Pub. L. 95–619, § 231(b)(1), added par. (3).

EFFECTIVE DATE OF 1993 AMENDMENT

Amendment by Pub. L. 103–82 effective Apr. 4, 1994, see section 406(b) of Pub. L. 103–82, set out as a note under section 8332 of Title 5, Government Organization and Employees.

WEATHERIZATION ASSISTANCE GRANTS COST SHARING

Pub. L. 106–291, title II, Oct. 11, 2000, 114 Stat. 976, provided in part: ''That, hereafter, Indian tribal direct grantees of weatherization assistance shall not be required to provide matching funds.''

Provisions of Pub. L. 106–113, div. B, § 1000(a)(3) [title II], Nov. 29, 1999, 113 Stat. 1535, 1501A–180, which provided that sums appropriated for weatherization assistance grants were to be contingent on a cost share of 25 percent by each participating State or other qualified participant, were repealed by Pub. L. 106–469, title VI, § 601(a), Nov. 9, 2000, 114 Stat. 2040.

COMMUNITY SERVICES ADMINISTRATION

Community Services Administration, which was established by section 601 of Economic Opportunity Act of 1964, as amended (42 U.S.C. 2941), terminated when Economic Opportunity Act of 1964, Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended, was repealed, except for titles VIII and X, effective Oct. 1, 1981, by section 683(a) of Pub. L. 97–35, title VI, Aug. 13, 1981, 95 Stat. 519, which is classified to 42 U.S.C. 9912(a). An Office of Community Services, headed by a Director, was established in Department of Health and Human Services by section 676 of Pub. L. 97–35, which is classified to 42 U.S.C. 9905.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1474, 6864, 6864a, 6864b, 6868 of this title.

§ 6864. Financial assistance

(a) Annual application; contents; allocation to States

The Secretary shall provide financial assistance, from sums appropriated for any fiscal year under this part, only upon annual application. Each such application shall describe the estimated number and characteristics of the low-income persons and the number of dwelling units to be assisted and the criteria and methods to be used by the applicant in providing weatherization assistance to such persons. The application shall also contain such other information (including information needed for evaluation purposes) and assurances as may be required (1) in the regulations promulgated pursuant to section 6863 of this title and (2) to carry out this section. The Secretary shall allocate financial assistance to each State on the basis of the relative need for weatherization assistance among low-income persons throughout the States, taking into account the following factors:

(A) The number of dwelling units to be weatherized.

(B) The climatic conditions in the State respecting energy conservation, which may include consideration of annual degree days.

(C) The type of weatherization work to be done in the various settings.

(D) Such other factors as the Secretary may determine necessary, such as the cost of heating and cooling, in order to carry out the purpose and provisions of this part.

(b) Requirements for assistance

The Secretary shall not provide financial assistance under this part unless the applicant has provided reasonable assurances that it has—

(1) established a policy advisory council which (A) has special qualifications and sensitivity with respect to solving the problems of low-income persons (including the weatherization and energy-conservation problems of such persons), (B) is broadly representative of organizations and agencies which are providing services to such persons in the State or geographical area in question, and (C) is responsible for advising the responsible official or agency administering the allocation of financial assistance in such State or area with respect to the development and implementation of such weatherization assistance program;

(2) established priorities to govern the provision of weatherization assistance to low-income persons, including methods to provide priority to elderly and handicapped low-income persons, and such priority as the applicant determines is appropriate for single-family or other high-energy-consuming dwelling units;

(3) established policies and procedures designed to assure that financial assistance provided under this part will be used to supplement, and not to supplant, State or local funds, and, to the extent practicable, to increase the amounts of such funds that would be made available in the absence of Federal funds for carrying out the purpose of this part, including plans and procedures (A) for securing, to the maximum extent practicable, the services of volunteers and training participants and public service employment workers, pursuant to title I of the Workforce Investment Act of 1998 [29 U.S.C. 2801 et seq.], to work under the supervision of qualified supervisors and foremen, (B) for using Federal financial assistance under this part to increase the portion of low-income weatherization assistance that the State obtains from non-Federal sources, including private sources, and (C) for complying with the limitations set forth in section 6865 of this title; and

(4) selected on the basis of public comment received during a public hearing conducted pursuant to section 6865(b)(1) of this title, and other appropriate findings, community action agencies or other public or nonprofit entities to undertake the weatherization activities authorized by this subchapter: *Provided*, Such selection shall be based on the agency's experience and performance in weatherization or housing renovation activities, experience in assisting low-income persons in the area to be served, and the capacity to undertake a timely and effective weatherization program: *Provided*

further, That in making such selection preference shall be given to any community action agency or other public or nonprofit entity which has, or is currently administering, an effective program under this subchapter or under title II of the Economic Opportunity Act of 1964 [42 U.S.C. 2781 et seq.].

(c) Annual update of data used in allocating funds

Effective with fiscal year 1991, and annually thereafter, the Secretary shall update the population, eligible households, climatic, residential energy use, and all other data used in allocating the funds under this part among the States pursuant to subsection (a) of this section.

(Pub. L. 94–385, title IV, § 414, Aug. 14, 1976, 90 Stat. 1154; Pub. L. 96–294, title V, §§ 573(c), 577(2), June 30, 1980, 94 Stat. 759, 760; Pub. L. 101–440, § 7(c), (g), Oct. 18, 1990, 104 Stat. 1012, 1014; Pub. L. 105–277, div. A, § 101(f) [title VIII, § 405(d)(38), (f)(29)], Oct. 21, 1998, 112 Stat. 2681–337, 2681–427, 2681–434.)

REFERENCES IN TEXT

The Workforce Investment Act of 1998, referred to in subsec. (b)(3), is Pub. L. 105–220, Aug. 7, 1998, 112 Stat. 936, as amended. Title I of the Act is classified principally to chapter 30 (§ 2801 et seq.) of Title 29, Labor. For complete classification of this Act to the Code, see Short Title note set out under section 9201 of Title 20, Education, and Tables.

The Economic Opportunity Act of 1964, referred to in subsec. (b)(4), is Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended. Title II of the Economic Opportunity Act of 1964 was classified generally to subchapter II (§ 2781 et seq.) of chapter 34 of this title prior to repeal by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519. For complete classification of this Act to the Code, see Tables.

AMENDMENTS

1998—Subsec. (b)(3). Pub. L. 105–277, § 101(f) [title VIII, § 405(f)(29)], struck out ''the Job Training Partnership Act or'' after ''pursuant to''.

Pub. L. 105–277, § 101(f) [title VIII, § 405(d)(38)], substituted ''the Job Training Partnership Act or title I of the Workforce Investment Act of 1998'' for ''the Comprehensive Employment and Training Act of 1973''.

1990—Subsec. (a)(D). Pub. L. 101–440, § 7(c)(1), inserted '', such as the cost of heating and cooling,'' after ''necessary''.

Subsec. (b)(3). Pub. L. 101–440, § 7(g), added cl. (B) and redesignated former cl. (B) as (C).

Subsec. (c). Pub. L. 101–440, § 7(c)(2), added subsec. (c).

1980—Subsec. (a). Pub. L. 96–294, § 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing.

Subsec. (b). Pub. L. 96–294, §§ 573(c), 577(2), substituted ''Secretary'' for ''Administrator'' and added par. (4).

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by section 101(f) [title VIII, § 405(d)(38)] of Pub. L. 105–277 effective Oct. 21, 1998, and amendment by section 101(f) [title VIII, § 405(f)(29)] of Pub. L. 105–277 effective July 1, 2000, see section 101(f) [title VIII, § 405(g)(1), (2)(B)] of Pub. L. 105–277, set out as a note under section 3502 of Title 5, Government Organization and Employees.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6863, 6864a, 6864b, 6869 of this title.

§ 6864a. Private sector investments

(a) In general

The Secretary shall, to the extent funds are made available for such purpose, provide financial assistance to entities receiving funding from the Federal Government or from a State through a weatherization assistance program under section 6863 or section 6864 of this title for the development and initial implementation of partnerships, agreements, or other arrangements with utilities, private sector interests, or other institutions, under which non-Federal financial assistance would be made available to support programs which install energy efficiency improvements in low-income housing.

(b) Use of funds

Financial assistance provided under this section may be used for—

(1) the negotiation of such partnerships, agreements and other arrangements;

(2) the presentation of arguments before State or local agencies;

(3) expert advice on the development of such partnerships, agreements, and other arrangements; or

(4) other activities reasonably associated with the development and initial implementation of such arrangements.

(c) Conditions

(1) Financial assistance provided under this section to entities other than States shall, to the extent practicable, coincide with the timing of financial assistance provided to such entities under section 6863 or section 6864 of this title.

(2) Not less than 80 percent of amounts provided under this section shall be provided to entities other than States.

(3) A recipient of financial assistance under this section shall have up to three years to complete projects undertaken with such assistance.

(Pub. L. 94–385, title IV, § 414A, as added Pub. L. 102–486, title I, § 142(a), Oct. 24, 1992, 106 Stat. 2842.)

§ 6864b. Technical transfer grants

(a) In general

The Secretary may, to the extent funds are made available, provide financial assistance to entities receiving funding from the Federal Government or from a State through a weatherization assistance program under section 6863 or section 6864 of this title for—

(1) evaluating technical and management measures which increase program and/or private entity performance in weatherizing low-income housing;

(2) producing technical information for use by persons involved in weatherizing low-income housing;

(3) exchanging information; and

(4) conducting training programs for persons involved in weatherizing low-income housing.

(b) Conditions

(1) Not less than 50 percent of amounts provided under this section shall be awarded to entities other than States.

(2) A recipient of financial assistance under this section may contract with nonprofit entities to carry out all or part of the activities for which such financial assistance is provided.

(Pub. L. 94–385, title IV, § 414B, as added Pub. L. 102–486, title I, § 142(a), Oct. 24, 1992, 106 Stat. 2842.)

§ 6865. Limitations on financial assistance

(a) Purchase of materials and administration of projects

(1) Not more than an amount equal to 10 percent of any grant made by the Secretary under this part may be used for administrative purposes in carrying out duties under this part, except that not more than one-half of such amount may be used by any State for such purposes, and a State may provide in the plan adopted pursuant to subsection (b) of this section for recipients of grants of less than $350,000 to use up to an additional 5 percent of such grant for administration if the State has determined that such recipient requires such additional amount to implement effectively the administrative requirements established by the Secretary pursuant to this part.

(2) The Secretary shall establish energy audit procedures and techniques which (i) meet standards established by the Secretary after consultation with the State Energy Advisory Board established under section 6325(g) of this title, (ii) establish priorities for selection of weatherization measures based on their cost and contribution to energy efficiency, (iii) measure the energy requirement of individual dwellings and the rate of return of the total conservation investment in a dwelling, and (iv) account for interaction among energy efficiency measures.

(b) Allocation, termination or discontinuance by Secretary

The Secretary shall insure that financial assistance provided under this part will—

(1) be allocated within the State or area in accordance with a published State or area plan, which is adopted by such State after notice and a public hearing, describing the proposed funding distributions and recipients;

(2) be allocated, pursuant to such State or area plan, to community action agencies carrying out programs under title II of the Economic Opportunity Act of 1964 [42 U.S.C. 2781 et seq.] or to other appropriate and qualified public or nonprofit entities in such State or area so that—

(A) funds will be allocated on the basis of the relative need for weatherization assistance among the low-income persons within such State or area, taking into account appropriate climatic and energy conservation factors; and

(B) due consideration will be given to the results of periodic evaluations of the projects carried out under this part in light of available information regarding the current and anticipated energy and weatherization needs of low-income persons within the State; and

(3) be terminated or discontinued during the application period only in accordance with policies and procedures consistent with the policies and procedures set forth in section 6868 of this title.

(c) Limitations on expenditures; exceptions; annual adjustments

(1) Except as provided in paragraph (3), the expenditure of financial assistance provided under this part for labor, weatherization materials, and related matters shall not exceed an average of $2,500 per dwelling unit weatherized in that State. Labor, weatherization materials, and related matter includes, but is not limited to—

(A) the appropriate portion of the cost of tools and equipment used to install weatherization materials for a dwelling unit;

(B) the cost of transporting labor, tools, and materials to a dwelling unit;

(C) the cost of having onsite supervisory personnel;

(D) the cost of making incidental repairs to a dwelling unit if such repairs are necessary to make the installation of weatherization materials effective, and

(E) the cost of making heating and cooling modifications, including replacement[1]

(2) Dwelling units partially weatherized under this part or under other Federal programs during the period September 30, 1975, through September 30, 1979, may receive further financial assistance for weatherization under this part.

(3) Beginning with fiscal year 2000, the $2,500 per dwelling unit average provided in paragraph (1) shall be adjusted annually by increasing the average amount by an amount equal to—

(A) the average amount for the previous fiscal year, multiplied by

(B) the lesser of (i) the percentage increase in the Consumer Price Index (all items, United States city average) for the most recent calendar year completed before the beginning of the fiscal year for which the determination is being made, or (ii) three percent.

(d) Supplementary financial assistance to States

Beginning with fiscal year 1992, the Secretary may allocate funds appropriated pursuant to section 6872(b)[2] of this title to provide supplementary financial assistance to those States which the Secretary determines have achieved the best performance during the previous fiscal year in achieving the purposes of this part. In making this determination, the Secretary shall—

(1) consult with the State Energy Advisory Board established under section 6325(g) of this title; and

(2) give priority to those States which, during such previous fiscal year, obtained a significant portion of income from non-Federal sources for their weatherization programs or increased significantly the portion of low-income weatherization assistance that the State obtained from non-Federal sources.

(e) Supplementary financial assistance to grant recipients

(1)(A) Beginning with fiscal year 1992, the Secretary may allocate, from funds appropriated pursuant to section 6872(b)[2] of this title, among the States an equal amount for each State not to exceed $100,000 per State. Each State shall make available amounts received under this subsection to provide supplementary financial assistance to recipients of grants under this part that have achieved the best performance during

[1] So in original. Probably should be followed by a period.

[2] See References in Text note below.

the previous fiscal year in advancing the purposes of this part.

(B) None of the funds made available under this subsection may be used by any State for administrative purposes.

(2) The Secretary shall, after consulting with the State Energy Advisory Board referred to in subsection (d)(1) of this section, prescribe guidelines to be used by each State in making available supplementary financial assistance under this subsection, with a priority being given to subgrantees that, by law or through administrative or other executive action, provided non-Federal resources (including private resources) to supplement Federal financial assistance under this part during the previous fiscal year.

(Pub. L. 94–385, title IV, § 415, Aug. 14, 1976, 90 Stat. 1155; Pub. L. 95–619, title II, § 231(c), Nov. 9, 1978, 92 Stat. 3225; Pub. L. 96–294, title V, §§ 571, 572, 573(a), 575, 577(2), June 30, 1980, 94 Stat. 759, 760; Pub. L. 98–558, title IV, §§ 403, 404, Oct. 30, 1984, 98 Stat. 2887, 2888; Pub. L. 101–440, § 7(d)–(f), (i), Oct. 18, 1990, 104 Stat. 1013, 1014; Pub. L. 106–469, title VI, § 601(b), Nov. 9, 2000, 114 Stat. 2040.)

REFERENCES IN TEXT

The Economic Opportunity Act of 1964, referred to in subsec. (b)(2), is Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended. Title II of the Economic Opportunity Act of 1964 was classified generally to subchapter II (§ 2781 et seq.) of chapter 34 of this title prior to repeal by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519. For complete classification of this Act to the Code, see Tables.

Section 6872 of this title, referred to in subsecs. (d) and (e)(1)(A), was amended by Pub. L. 105–388, § 3, Nov. 13, 1998, 112 Stat. 3477, and, as so amended, no longer contains a subsec. (b).

AMENDMENTS

2000—Subsec. (a)(1). Pub. L. 106–469, § 601(b)(1), struck out first sentence which read as follows: ''Except as provided in paragraph (2), an average of at least forty percent of the funds provided in a State under this part for weatherization materials, labor, and related matters described in subsection (c) of this section shall be spent for weatherization materials.''

Subsec. (a)(2). Pub. L. 106–469, § 601(b)(2)(C), struck out subpar. (B) which read as follows: ''The Secretary shall make information on energy audit procedures and techniques available to States applying for a waiver under subparagraph (A) and shall provide training for State and local agencies in the implementation of such procedures and techniques.''

Pub. L. 106–469, § 601(b)(2)(B), which directed amendment of par. (2) by substituting ''establish'' for ''approve a State's application to waive the 40 percent requirement established in paragraph (1) if the State includes in its plan'', was executed by making the substitution for ''approve a State's application to waive the 40-percent requirement established in paragraph (1) if the State includes in its plan'', to reflect the probable intent of Congress.

Pub. L. 106–469, § 601(b)(2)(A), struck out ''(A)'' before ''The Secretary shall approve''.

Subsec. (c)(1). Pub. L. 106–469, § 601(b)(3)(A), (B), in introductory provisions, substituted ''paragraph (3)'' for ''paragraphs (3) and (4)'' and ''$2,500'' for ''$1,600''.

Subsec. (c)(1)(E). Pub. L. 106–469, § 601(b)(3)(C)–(E), added subpar. (E).

Subsec. (c)(3). Pub. L. 106–469, § 601(b)(4), in introductory provisions, substituted ''2000, the $2,500 per dwelling unit average'' for ''1991, the $1,600 per dwelling unit limitation'' and ''average amount'' for ''limitation amount'', in subpar. (A), substituted ''average'' for ''limitation'', and, in subpar. (B), inserted ''the'' after ''beginning of''.

Subsec. (c)(4). Pub. L. 106–469, § 601(b)(5), struck out par. (4), which required the Secretary, upon State application, to establish a separate average per dwelling unit limitation for dwelling units in the State.

1990—Subsec. (a). Pub. L. 101–440, § 7(d), substituted ''(1) Except as provided in paragraph (2), an average'' for ''An average'', inserted before period at end '', and a State may provide in the plan adopted pursuant to subsection (b) of this section for recipients of grants of less than $350,000 to use up to an additional 5 percent of such grant for administration if the State has determined that such recipient requires such additional amount to implement effectively the administrative requirements established by the Secretary pursuant to this part'', and added par. (2).

Subsec. (c)(1). Pub. L. 101–440, § 7(e)(1), substituted ''Except as provided in paragraphs (3) and (4), the expenditure'' for ''The expenditure''.

Subsec. (c)(3), (4). Pub. L. 101–440, § 7(e)(2), added pars. (3) and (4).

Subsec. (d). Pub. L. 101–440, § 7(i), added subsec. (d).

Pub. L. 101–440, § 7(f), struck out subsec. (d) which established a performance fund to provide financial assistance to those States the Secretary determined to have demonstrated the best performance during the previous fiscal year in providing weatherization assistance.

Subsec. (e). Pub. L. 101–440, § 7(i), added subsec. (e).

1984—Subsec. (a). Pub. L. 98–558, § 403(1), substituted provisions that an average of at least forty percent of the funds provided shall be spent for weatherization for former provisions which directed the Secretary to use funds to the maximum extent practicable.

Subsec. (c). Pub. L. 98–558, § 403(2), in amending subsec. (c) generally, substituted provisions that expenditures shall not exceed an average of $1,600 per dwelling unit for former provisions which provided for an $800 per dwelling unit limit in par. (1), struck out ''(not to exceed $150)'' after ''the cost'' in par. (1)(D), substituted provisions that dwelling units partially weatherized between certain dates could receive further financial assistance under this part for former provisions that $800 limit would not apply if the State policy advisory council requested greater amounts from the Secretary and the Secretary gave approval in par. (2), and deleted former par. (3) which provided that in areas where the Secretary, after consultation with the Secretary of Labor, determined that there was an insufficient number of volunteers and training participants and public service employment workers, assisted pursuant to the Comprehensive Employment and Training Act of 1973, available to work on weatherization projects under the supervision of qualified supervisors and foremen, the Secretary could increase the limitation of $800 to not more than $1,600 to cover the costs of paying persons who would install the weatherization materials and, to the maximum extent practicable, who would otherwise be able to participate as training participants and public service employment workers pursuant to the Comprehensive Employment and Training Act of 1973.

Subsec. (d). Pub. L. 98–558, § 404, added subsec. (d).

1980—Subsec. (a). Pub. L. 96–294, §§ 571, 577(2), substituted ''Secretary'' for ''Administrator'' and provisions limiting amounts used for administrative purposes in any grant made by the Secretary under this part for provisions limiting amounts used for administrative purposes in any grant made pursuant to section 6863(a) of this title and any allocations under this section.

Subsec. (b). Pub. L. 96–294, §§ 573(a), 577(2), substituted in provision preceding par. (1) ''Secretary'' for ''Administrator'', redesignated former par. (2)(C) as (B), and struck out former par. (2)(B), which related to funds allocated for carrying out weatherization projects under this part in the geographical area served by the emergency program.

Subsec. (c)(1). Pub. L. 96–294, §§ 572(1), 575, inserted in provision preceding subpar. (A) reference to par. (3) and in subpar. (D) substituted ''$150'' for ''$100''.

Subsec. (c)(2). Pub. L. 96–294, § 577(2), substituted ''Secretary'' for ''Administrator'' wherever appearing.

Subsec. (c)(3). Pub. L. 96–294, § 572(2), added par. (3).

1978—Subsec. (a). Pub. L. 95–619, § 231(c)(1), authorized expenditure of allocations under this part for costs related to weatherization of a dwelling unit as provided in subsec. (c) of this section and substituted an administrative expenses limitation of five percent of any allocation under this section for a similar limitation of ten percent of any such allocation.

Subsec. (c). Pub. L. 95–619, § 231(c)(2), included expenditure of financial assistance provided under this section for costs related to procurement and installation of weatherization materials in dwelling units in the maximum amount available per dwelling unit and increased such maximum amount to $800 per unit.

PERFORMANCE FUND; RESTRICTION ON USE

Pub. L. 99–190, § 101(d) [title II, § 201], Dec. 19, 1985, 99 Stat. 1224, 1253, provided: ''That section 404 of Public Law 98–558 [enacting subsec. (d) of this section] shall not be effective in any fiscal year in which the amount made available for low income weatherization assistance from appropriations under this head is less than 5 per centum above the amount made available in fiscal year 1985.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1474, 6864, 6872 of this title.

§ 6866. Monitoring and evaluation of funded projects; technical assistance; limitation on assistance

The Secretary, in coordination with the Director, shall monitor and evaluate the operation of projects receiving financial assistance under this part through methods provided for in section 6867(a) of this title, through onsite inspections, or through other means, in order to assure the effective provision of weatherization assistance for the dwelling units of low-income persons. The Secretary shall also carry out periodic evaluations of the program authorized by this part and projects receiving financial assistance under this part. The Secretary may provide technical assistance to any such project, directly and through persons and entities with a demonstrated capacity in developing and implementing appropriate technology for enhancing the effectiveness of the provision of weatherization assistance to the dwelling units of low-income persons, utilizing in any fiscal year not to exceed 10 percent of the sums appropriated for such year under this part.

(Pub. L. 94–385, title IV, § 416, Aug. 14, 1976, 90 Stat. 1156; Pub. L. 96–294, title V, § 577(2), June 30, 1980, 94 Stat. 760.)

AMENDMENTS

1980—Pub. L. 96–294 substituted ''Secretary'' for ''Administrator'' wherever appearing.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6871 of this title.

§ 6867. Administration of projects receiving financial assistance

(a) Reporting requirements

The Secretary, in consultation with the Director, by general or special orders, may require any recipient of financial assistance under this part to provide, in such form as he may prescribe, such reports or answers in writing to specific questions, surveys, or questionnaires as may be necessary to enable the Secretary and the Director to carry out their functions under this part.

(b) Maintenance of records

Each person responsible for the administration of a weatherization assistance project receiving financial assistance under this part shall keep such records as the Secretary may prescribe in order to assure an effective financial audit and performance evaluation of such project.

(c) Audit and examination of books, etc.

The Secretary, the Director (with respect to community action agencies), and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, information, and records of any project receiving financial assistance under this part that are pertinent to the financial assistance received under this part.

(d) Method of payments

Payments under this part may be made in installments and in advance, or by way of reimbursement, with necessary adjustments on account of overpayments or underpayments.

(Pub. L. 94–385, title IV, § 417, Aug. 14, 1976, 90 Stat. 1156; Pub. L. 96–294, title V, § 577(2), June 30, 1980, 94 Stat. 760.)

AMENDMENTS

1980—Subsecs. (a) to (c). Pub. L. 96–294 substituted ''Secretary'' for ''Administrator'' wherever appearing.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6866 of this title.

§ 6868. Approval of application or amendment for financial assistance; administrative procedures applicable

(a) The Secretary shall not finally disapprove any application submitted under this part, or any amendment thereto, without first affording the State (or unit of general purpose local government or community action agency under section 6863(c) of this title, as appropriate) in question, as well as other interested parties, reasonable notice and an opportunity for a public hearing. The Secretary may consolidate into a single hearing the consideration of more than one such application for a particular fiscal year to carry out projects within a particular State. Whenever the Secretary, after reasonable notice and an opportunity for a public hearing, finds that there is a failure to comply substantially with the provisions of this part or regulations promulgated under this part, he shall notify the agency or institution involved and other interested parties that such State (or unit of general purpose local government or agency, as appropriate) will no longer be eligible to participate in the program under this part until the Secretary is satisfied that there is no longer any such failure to comply.

(b) Reasonable notice under this section shall include a written notice of intention to act adversely (including a statement of the reasons

therefor) and a reasonable period of time within which to submit corrective amendments to the application, or to propose corrective action.

(Pub. L. 94–385, title IV, § 418, Aug. 14, 1976, 90 Stat. 1157; Pub. L. 96–294, title V, § 577(2), June 30, 1980, 94 Stat. 760.)

AMENDMENTS

1980—Subsec. (a). Pub. L. 96–294 substituted ''Secretary'' for ''Administrator'' wherever appearing.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6865, 6869 of this title.

§ 6869. Judicial review of final action by Secretary on application

(a) Time for appeal; jurisdiction; filing of administrative record by Secretary

If any applicant is dissatisfied with the Secretary's final action with respect to the application submitted by it under section 6864 of this title, or with a final action under section 6868 of this title, such applicant may, within 60 days after notice of such action, file with the United States court of appeals for the circuit in which the State involved is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28.

(b) Conclusiveness of findings of Secretary; remand; modified findings by Secretary; certification of record

The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive. The court may, for good cause shown, remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify his previous action. The Secretary shall certify to the court the record of any such further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(c) Power of court to affirm or set aside action of Secretary; appeal to Supreme Court

The court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification, as provided in section 1254 of title 28.

(Pub. L. 94–385, title IV, § 419, Aug. 14, 1976, 90 Stat. 1157; Pub. L. 96–294, title V, § 577(2), (3), June 30, 1980, 94 Stat. 760.)

AMENDMENTS

1980—Subsecs. (a) to (c). Pub. L. 96–294 substituted ''Secretary'' for ''Administrator'' wherever appearing, and ''Secretary's'' for ''Administrator's''.

§ 6870. Prohibition against discrimination; notification to funded project of violation; penalties for failure to comply

(a) No person in the United States shall, on the ground of race, color, national origin, or sex, or on the ground of any other factor specified in any Federal law prohibiting discrimination, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program, project, or activity supported in whole or in part with financial assistance under this part.

(b) Whenever the Secretary determines that a recipient of financial assistance under this part has failed to comply with subsection (a) of this section or any applicable regulation, he shall notify the recipient thereof in order to secure compliance. If, within a reasonable period of time thereafter, such recipient fails to comply, the Secretary shall—

(1) refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted;

(2) exercise the power and functions provided by title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.] and any other applicable Federal nondiscrimination law; or

(3) take such other action as may be authorized by law.

(Pub. L. 94–385, title IV, § 420, Aug. 14, 1976, 90 Stat. 1158; Pub. L. 96–294, title V, § 577(2), June 30, 1980, 94 Stat. 760.)

REFERENCES IN TEXT

The Civil Rights Act of 1964, referred to in subsec. (b)(2), is Pub. L. 88–352, July 2, 1964, 78 Stat. 241, as amended. Title VI of the Civil Rights Act of 1964 is classified generally to subchapter V (§ 2000d et seq.) of chapter 21 of this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 2000a of this title and Tables.

AMENDMENTS

1980—Subsec. (b). Pub. L. 96–294 substituted ''Secretary'' for ''Administrator'' wherever appearing.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6871 of this title.

§ 6871. Annual report by Secretary and Director to President and Congress on weatherization program

The Secretary and (with respect to the operation and effectiveness of activities carried out through community action agencies) the Director shall each submit, on or before March 31, 1977, and annually thereafter, a report to the Congress and the President describing the weatherization assistance program carried out under this part or any other provision of law, including the results of the periodic evaluations and monitoring activities required by section 6866 of this title. Such report shall include information and data furnished by each State on the average costs incurred in weatherization of individual dwelling units, the average size of the dwellings being weatherized, and the average income of households receiving assistance under this part.

(Pub. L. 94–385, title IV, § 421, Aug. 14, 1976, 90 Stat. 1158; Pub. L. 96–294, title V, § 577(2), June 30, 1980, 94 Stat. 760; Pub. L. 101–440, § 7(h), Oct. 18, 1990, 104 Stat. 1014.)

AMENDMENTS

1990—Pub. L. 101–440 struck out ''through 1979'' after ''and annually thereafter'' and inserted at end ''Such

report shall include information and data furnished by each State on the average costs incurred in weatherization of individual dwelling units, the average size of the dwellings being weatherized, and the average income of households receiving assistance under this part.''

1980—Pub. L. 96–294 substituted ''Secretary'' for ''Administrator''.

§ 6872. Authorization of appropriations

For the purpose of carrying out the weatherization program under this part, there are authorized to be appropriated for fiscal years 1999 through 2003 such sums as may be necessary.

(Pub. L. 94–385, title IV, § 422, Aug. 14, 1976, 90 Stat. 1158; Pub. L. 95–619, title II, § 231(d), Nov. 9, 1978, 92 Stat. 3226; Pub. L. 96–294, title V, § 576, June 30, 1980, 94 Stat. 760; Pub. L. 98–181, title IV, § 464, Nov. 30, 1983, 97 Stat. 1235; Pub. L. 101–440, § 8(c), Oct. 18, 1990, 104 Stat. 1016; Pub. L. 105–388, § 3, Nov. 13, 1998, 112 Stat. 3477.)

AMENDMENTS

1998—Pub. L. 105–388 reenacted section catchline without change and amended text generally. Prior to amendment, text read as follows:

''(a) There are authorized to be appropriated for purposes of carrying out the weatherization program under this part, other than under subsections (d) and (e) of section 6865 of this title, not to exceed $200,000,000 for fiscal year 1991 and such sums as may be necessary for fiscal years 1992, 1993, and 1994.

''(b) There are authorized to be appropriated for purposes of carrying out the weatherization program under subsections (d) and (e) of section 6865 of this title, not to exceed $20,000,000 for fiscal year 1992 and such sums as may be necessary for fiscal years 1993 and 1994.''

1990—Pub. L. 101–440 amended section generally. Prior to amendment, section read as follows: ''Of the funds authorized by section 1005(1) of the Omnibus Budget Reconciliation Act of 1981 for energy conservation for fiscal year 1984, not less than $190,000,000 is authorized to be appropriated to carry out the weatherization program under this part. There is authorized to be appropriated such sums as may be necessary for fiscal year 1985 to carry out such weatherization program. Any amount appropriated under this section shall remain available until expended.''

1983—Pub. L. 98–181 amended section generally, providing that, of the funds authorized by section 1005(1) of the Omnibus Budget Reconciliation Act of 1981 for energy conservation for fiscal year 1984, not less than $190,000,000 was authorized to be appropriated to carry out the weatherization program under this part, and substituted provisions authorizing the appropriation of such sums as may be necessary for fiscal year 1985 to carry out the weatherization program for provisions that had authorized the appropriations of $55,000,000 for the fiscal year ending on Sept. 30, 1977, $130,000,000 for the fiscal year ending on Sept. 30, 1978, $200,000,000 for the fiscal year ending on Sept. 30, 1979, $200,000,000 for the fiscal year ending on Sept. 30, 1980, and $200,000,000 for the fiscal year ending on Sept. 30, 1981.

1980—Pub. L. 96–294 inserted provisions authorizing to be appropriated $200,000,000 for fiscal year ending on Sept. 30, 1981, such sums to remain available until expended, substituted ''the sum of'' for ''not to exceed'' wherever appearing.

1978—Pub. L. 95–619 substituted an appropriations authorization of not to exceed $130,000,000 for fiscal year ending Sept. 30, 1978, for an authorization of not to exceed $65,000,000 for such fiscal year, substituted an authorization of not to exceed $200,000,000 for fiscal year ending Sept. 30, 1979, for an authorization of $80,000,000 for such fiscal year, and added an authorization of not to exceed $200,000,000 for fiscal year ending Sept. 30, 1980.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6865 of this title.

§ 6873. Availability of labor

The following actions shall be taken in order to assure that there is a sufficient number of volunteers and training participants and public service employment workers, assisted pursuant to title I of the Workforce Investment Act of 1998 [29 U.S.C. 2801 et seq.] and the Older American Community Service Employment Act [42 U.S.C. 3056 et seq.], available to work in support of weatherization programs conducted under part A of the Energy Conservation in Existing Buildings Act of 1976 [42 U.S.C. 6861 et seq.], section 222(a)(12)[1] of the Economic Opportunity Act of 1964 [42 U.S.C. 2809(a)(12)], and section 504 of the Housing Act of 1949 [42 U.S.C. 1474]:

(1) First, the Secretary of Energy (in consultation with the Director of the Community Services Administration, the Secretary of Agriculture, and the Secretary of Labor) shall determine the number of individuals needed to supply sufficient labor to carry out such weatherization programs in the various areas of the country.

(2) After the determination in paragraph (1) is made, the Secretary of Labor shall identify the areas of the country in which there is an insufficient number of such volunteers and training participants and public service employment workers.

(3) After such areas are identified, the Secretary of Labor shall take steps to assure that such weatherization programs are supported to the maximum extent practicable in such areas by such volunteers and training participants and public service employment workers.

(Pub. L. 95–619, title II, § 233, Nov. 9, 1978, 92 Stat. 3227; Pub. L. 105–277, div. A, § 101(f) [title VIII, § 405(d)(39), (f)(30)], Oct. 21, 1998, 112 Stat. 2681–337, 2681–427, 2681–434.)

REFERENCES IN TEXT

The Workforce Investment Act of 1998, referred to in text, is Pub. L. 105–220, Aug. 7, 1998, 112 Stat. 936, as amended. Title I of the Act is classified principally to chapter 30 (§ 2801 et seq.) of Title 29, Labor. For complete classification of this Act to the Code, see Short Title note set out under section 9201 of Title 20, Education, and Tables.

The Older American Community Service Employment Act, referred to in text, is title V of Pub. L. 89–73, as added Pub. L. 94–135, title I, § 113(a), Nov. 28, 1975, 89 Stat. 720, and amended. Title V of Pub. L. 89–73 was amended generally by Pub. L. 106–501, title V, § 501, Nov. 13, 2000, 114 Stat. 2267, and is classified generally to subchapter IX (§ 3056 et seq.) of chapter 35 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3001 of this title and Tables.

The Energy Conservation in Existing Buildings Act of 1976, referred to in text, is title IV of Pub. L. 94–385, Aug. 14, 1976, 90 Stat. 1150, as amended. Part A of the Energy Conservation in Existing Buildings Act of 1976 is classified generally to part A (§ 6861 et seq.) of subchapter III of this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 6801 of this title and Tables.

Section 222(a)(12) of the Economic Opportunity Act of 1964 [42 U.S.C. 2809(a)(12)], referred to in text, which was redesignated as section 222(a)(5) [42 U.S.C. 2809(a)(5)] by Pub. L. 95–568, § 5(a)(2)(E), Nov. 2, 1978, 92 Stat. 2426, was subsequently repealed by Pub. L. 97–35, title VI, § 683(a), Aug. 13, 1981, 95 Stat. 519.

[1] See References in Text note below.

CODIFICATION

Section was enacted as a part of the National Energy Conservation Policy Act, and not as a part of the Energy Conservation and Production Act which comprises this chapter.

AMENDMENTS

1998—Pub. L. 105–277, § 101(f) [title VIII, § 405(f)(30)], struck out ''the Job Training Partnership Act or'' after ''assisted pursuant to''.

Pub. L. 105–277, § 101(f) [title VIII, § 405(d)(39)], which directed the substitution of ''the Job Training Partnership Act or title I of the Workforce Investment Act of 1998'' for ''the Comprehensive Employment and Training Act of 1973'' in introductory provisions, was executed by making the substitution for ''the Comprehensive Employment Training Act of 1973'' to reflect the probable intent of Congress.

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by section 101(f) [title VIII, § 405(d)(39)] of Pub. L. 105–277 effective Oct. 21, 1998, and amendment by section 101(f) [title VIII, § 405(f)(30)] of Pub. L. 105–277 effective July 1, 2000, see section 101(f) [title VIII, § 405(g)(1), (2)(B)] of Pub. L. 105–277, set out as a note under section 3502 of Title 5, Government Organization and Employees.

COMMUNITY SERVICES ADMINISTRATION

Community Services Administration, which was established by section 601 of Economic Opportunity Act of 1964, as amended (42 U.S.C. 2941), terminated when Economic Opportunity Act of 1964, Pub. L. 88–452, Aug. 20, 1964, 78 Stat. 508, as amended, was repealed, except for titles VIII and X, effective Oct. 1, 1981, by section 683(a) of Pub. L. 97–35, title VI, Aug. 13, 1981, 95 Stat. 519, which is classified to 42 U.S.C. 9912(a). An Office of Community Services, headed by a Director, was established in Department of Health and Human Services by section 676 of Pub. L. 97–35, which is classified to 42 U.S.C. 9905.

PART B—ENERGY CONSERVATION AND RENEWABLE-RESOURCE OBLIGATION GUARANTEES

CODIFICATION

This part was, in the original, designated part D and has been redesignated part B for purposes of codification.

§ 6881. Energy resource and renewable-resource obligation guarantee program

(a) Authorization; requirements for guarantees and commitments to guarantee; procedures

(1) The Secretary may, in accordance with this section and such rules as he shall prescribe after consultation with the Secretary of the Treasury, guarantee and issue commitments to guarantee the payment of the outstanding principal amount of any loan, note, bond, or other obligation evidencing indebtedness, if—

(A) such obligation is entered into or issued by any person or by any State, political subdivision of a State, or agency and instrumentality of either a State or political subdivision thereof; and

(B) the purpose of entering into or issuing such obligation is the financing of any energy conservation measure or renewable-resource energy measure which is to be installed or otherwise implemented in any building or industrial plant owned or operated by the person or State, political subdivision of a State, or agency or instrumentality of either a State or political subdivision thereof, (i) which enters into or issues such obligation, or (ii) to which such measure is leased.

(2) No guarantee or commitment to guarantee may be issued under this subsection with respect to any obligation—

(A) which is a general obligation of a State; or

(B) which is entered into or issued for the purpose of financing any energy conservation measure or renewable-resource energy measure which is to be installed or otherwise implemented in a residential building containing 2 or fewer dwelling units.

(3) Before prescribing rules pursuant to this subsection, the Secretary shall consult with the Administrator of the Small Business Administration in order to formulate procedures which would assist small business concerns in obtaining guarantees and commitments to guarantee under this section.

(b) Preconditions for issuance of guarantees and commitments to guarantee

No obligation may be guaranteed, and no commitment to guarantee an obligation may be issued, under subsection (a) of this section, unless the Secretary finds that the measure which is to be financed by such obligation—

(1) has been identified by an energy audit to be an energy conservation measure or a renewable-resource energy measure; or

(2) is included on a list of energy conservation measures and renewable-resource energy measures which the Secretary publishes under section 6325(e)(1) of this title.

Before issuing a guarantee under subsection (a) of this section, the Secretary may require that an energy audit be conducted with respect to an energy conservation measure or a renewable-resource energy measure which is on a list described in paragraph (2) and which is to be financed by the obligation to be guaranteed under this section. The amount of any obligation which may be guaranteed under subsection (a) of this section may include the cost of an energy audit.

(c) Limitations on availability of guarantees; term of guarantees; aggregate outstanding principal amount of obligations of one borrower

(1) The Secretary shall limit the availability of a guarantee otherwise authorized by subsection (a) of this section to obligations entered into by or issued by borrowers who can demonstrate that financing is not otherwise available on reasonable terms and conditions to allow the measure to be financed.

(2) No obligation may be guaranteed by the Secretary under subsection (a) of this section unless the Secretary finds—

(A) there is a reasonable prospect for the repayment of such obligation; and

(B) in the case of an obligation issued by a person, such obligation constitutes a general obligation of such person for such guarantee.

(3) The term of any guarantee issued under subsection (a) of this section may not exceed 25 years.

(4) The aggregate outstanding principal amount which may be guaranteed under subsection (a) of this section at any one time with respect to obligations entered into or issued by any borrower may not exceed $5,000,000.

(d) Limitations on original principal amount guaranteed; revocation of guarantees and commitments to guarantee; conclusiveness of guarantee

The original principal amount guaranteed under subsection (a) may not exceed 90 percent of the cost of the energy conservation measure or the renewable-resource energy measure financed by the obligation guaranteed under such subsection; except that such amount may not exceed 25 percent of the fair market value of the building or industrial plant being modified by such energy conservation measure or renewable-resource energy measure. No guarantee issued, and no commitment to guarantee, which is issued under subsection (a) of this section shall be terminated, canceled, or otherwise revoked except in accordance with reasonable terms and conditions prescribed by the Secretary, after consultation with the Secretary of the Treasury, and contained in the written guarantee or commitment to guarantee. The full faith and credit of the United States is pledged to the payment of all guarantees made under subsection (a) of this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the obligation involved for such guarantee, and the validity of any guarantee so made shall be incontestable in the hands of a holder of the guaranteed obligation except for fraud or material misrepresentation on the part of such holder.

(e) Information and assurances required prior to guarantees and commitments to guarantee; maintenance and availability of records; fees to borrowers; exceptions

(1) No guarantee and no commitment to guarantee may be issued under subsection (a) of this section unless the Secretary obtains any information reasonably requested and such assurances as are in his judgment (after consultation with the Secretary of the Treasury) reasonable to protect the interests of the United States and to assure that such guarantee or commitment to guarantee is consistent with and will further the purpose of this subchapter. The Secretary shall require that records be kept and made available to the Secretary or the Comptroller General, or any of their duly authorized representatives, in such detail and form as are determined necessary to facilitate (A) an effective financial audit of the energy conservation measure or renewable-resource energy measure investment involved, and (B) an adequate evaluation of the effectiveness of this section. The Secretary and the Comptroller General, or any of their duly authorized representatives, shall have access to pertinent books, documents, papers, and records of any recipient of Federal assistance under this section.

(2) The Secretary may collect a fee from any borrower with respect to whose obligation a guarantee or commitment to guarantee is issued under subsection (a) of this section; except that the Secretary may waive any such fee with respect to any such borrower or class of borrowers. Fees shall be designed to recover the estimated administrative expenses incurred under this part; except that the total of the fees charged any such borrower may not exceed (A) one percent of the amount of the guarantee, or (B) one-half percent of the amount of the commitment to guarantee, whichever is greater. Any amount collected under this paragraph shall be deposited in the miscellaneous receipts of the Treasury.

(f) Default in payment of principal due under guaranteed obligation; procedures applicable

(1) If there is a default by the obligor in any payment of principal due under an obligation guaranteed under subsection (a) of this section, and if such default continues for 30 days, the holder of such obligation or his agent has the right to demand payment by the Secretary of the unpaid principal of such obligation, consistent with the terms of the guarantee of such obligation. Such payment may be demanded within such period as may be specified in the guarantee or related agreements, which period shall expire not later than 90 days from the date of such default. If demand occurs within such specified period, then not later than 60 days from the date of such demand, the Secretary shall pay to such holder the unpaid principal of such obligation, consistent with the terms of the guarantee of such obligation; except that (A) the Secretary shall not be required to make any such payment if he finds, prior to the expiration of the 60-day period beginning on the date on which the demand is made, that there was no default by the obligor in the payment of principal or that such default has been remedied, and (B) no such holder shall receive payment or be entitled to retain payment in a total amount which together with any other recovery (including any recovery based upon any security interest) exceeds the actual loss of principal by such holder.

(2) If the Secretary makes payment to a holder under paragraph (1), the Secretary shall thereupon—

(A) have all of the rights granted to him by law or agreement with the obligor; and

(B) be subrogated to all of the rights which were granted such holder, by law, assignment, or security agreement applicable to the guaranteed obligation.

(3) The Secretary may, in his discretion, take possession of, complete, recondition, reconstruct, renovate, repair, maintain, operate, remove, charter, rent, sell, or otherwise dispose of any property or other interests obtained by him pursuant to this subsection. The terms of any such sale or other disposition shall be as approved by the Secretary.

(4) If there is a default by the obligor in any payment due under an obligation guaranteed under subsection (a) of this section, the Secretary shall take such action against such obligor or any other person as is, in his discretion, necessary or appropriate to protect the interests of the United States. Such an action may be brought in the name of the United States or in the name of the holder of such obligation. Such holder shall make available to the Secretary all records and evidence necessary to prosecute any

such suit. The Secretary may, in his discretion, accept a conveyance of property in full or partial satisfaction of any sums owed to him. If the Secretary receives, through the sale of property, an amount greater than his cost and the amount paid to the holder under paragraph (1), he shall pay such excess to the obligor.

(g) Limitation on aggregate outstanding principal amount of obligations guaranteed; time limitation on guarantees and commitments to guarantee; authorization of appropriations

(1) The aggregate outstanding principal amount of obligations which may be guaranteed under this section may not at any one time exceed $2,000,000,000. No guarantee or commitment to guarantee may be issued under subsection (a) of this section after September 30, 1979.

(2) There is authorized to be appropriated for the payment of amounts to be paid under subsection (f) of this section, not to exceed $60,000,000. Any amount appropriated pursuant to this paragraph shall remain available until expended.

(3) There is authorized to be appropriated to carry out the provisions of this part, including administrative costs, but not for the payment of amounts to be paid under subsection (f) of this section—

(A) for the fiscal year ending September 30, 1977, not to exceed $1,836,000; and

(B) for the fiscal year ending September 30, 1978, not to exceed $4,950,000.

(h) Wages paid laborers and mechanics; labor standards

All laborers and mechanics employed in construction, alteration, or repair which is financed by an obligation guaranteed under subsection (a) of this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40. The Secretary shall not guarantee any obligations under subsection (a) of this section without first obtaining adequate assurance that these labor standards will be maintained during such construction, alteration, or repair. The Secretary of Labor shall, with respect to the labor standards in this subsection, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 and section 3145 of title 40.

(i) Definitions

As used in this part:

(1) The term ''Secretary'' means the Secretary of Energy.

(2) The term ''Comptroller General'' means the Comptroller General of the United States.

(3) The terms ''energy audit'', ''energy conservation measure'', ''renewable-resource energy measure'', ''building'', and ''industrial plant'' have the meanings prescribed for such terms in section 6326 of this title.

(Pub. L. 94–385, title IV, § 451, Aug. 14, 1976, 90 Stat. 1165; Pub. L. 95–70, § 5, July 21, 1977, 91 Stat. 277; Pub. L. 95–91, title III, § 301(a), title VII, §§ 703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607; Pub. L. 104–316, title I, § 122(q), Oct. 19, 1996, 110 Stat. 3838.)

REFERENCES IN TEXT

This subchapter, referred to in subsec. (e)(1), was in the original ''this title'', meaning title IV of Pub. L. 94–385, known as the Energy Conservation in Existing Buildings Act of 1976, which enacted this subchapter, section 6327 of this title, and section 1701z–8 of Title 12, Banks and Banking, amended sections 6323, 6325, and 6326 of this title, and enacted provisions set out as a note under section 6801 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6801 of this title and Tables.

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (h), is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

In subsec. (h), ''sections 3141–3144, 3146, and 3147 of title 40'' substituted for ''the Davis-Bacon Act'' and ''section 3145 of title 40'' substituted for ''section 276c of title 40, United States Code'', on authority of Pub. L. 107–217, § 5(c), Aug. 21, 2002, 116 Stat. 1303, the first section of which enacted Title 40, Public Buildings, Property, and Works.

In subsec. (i)(1), ''The term 'Secretary' means the Secretary of Energy'' substituted for ''The term 'Administrator' means the Administrator of the Federal Energy Administration; except that after such Administration ceases to exist, such term means any officer of the United States designated by the President for purposes of this part'' in view of termination of Federal Energy Administration and transfer of its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title.

AMENDMENTS

1996—Subsecs. (d), (e)(1). Pub. L. 104–316 struck out ''and the Comptroller General'' after ''Secretary of the Treasury''.

1977—Subsec. (g)(3). Pub. L. 95–70 added par. (3).

TRANSFER OF FUNCTIONS

''Secretary'', meaning Secretary of Energy, substituted for ''Administrator'', meaning Administrator of Federal Energy Administration, in subsecs. (a) to (f) and (h) pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6325 of this title.

PART C—MISCELLANEOUS PROVISIONS

CODIFICATION

This part was, in the original, designated Part E and has been redesignated Part C for purposes of codification.

§ 6891. Exchange of energy information among the States

The Secretary of Energy shall (through conferences, publications, and other appropriate means) encourage and facilitate the exchange of information among the States with respect to energy conservation and increased use of nondepletable energy sources.

(Pub. L. 94–385, title IV, § 461, Aug. 14, 1976, 90 Stat. 1168; Pub. L. 95–91, title III, § 301(a), title VII, § 703, Aug. 4, 1977, 91 Stat. 577, 606.)

TRANSFER OF FUNCTIONS

''Secretary of Energy'' substituted in text for ''Administrator'', meaning Administrator of Federal En-

ergy Administration, pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy.

§ 6892. Annual report to Congress by Comptroller General

(a) Requirements; access to information

For each fiscal year ending before October 1, 1979, the Comptroller General shall report to the Congress on the activities of the Secretary of Energy and the Secretary under this subchapter and any amendments to other statutes made by this subchapter. The provisions of section 771 of title 15 (relating to access by the Comptroller General to books, documents, papers, statistics, data, records, and information in the possession of the Secretary of Energy or of recipients of Federal funds) shall apply to data which relate to such activities.

(b) Contents of report

Each report submitted by the Comptroller General under subsection (a) of this section shall include—

(1) an accounting, by State, of expenditures of Federal funds under each program authorized by this subchapter or by amendments made by this subchapter;

(2) an estimate of the energy savings which have resulted thereby;

(3) a thorough evaluation of the effectiveness of the programs authorized by this subchapter or by amendments made by this title in achieving the energy conservation or renewable resource potential available in the sectors and regions affected by such programs;

(4) a review of the extent and effectiveness of compliance monitoring of programs established by this subchapter or by amendments made by this title and any evidence as to the occurrence of fraud with respect to such programs; and

(5) the recommendations of the Comptroller General with respect to (A) improvements in the administration of programs authorized by this subchapter or by amendments made by this subchapter, and (B) additional legislation, if any, which is needed to achieve the purposes of this subchapter.

(c) Definitions

As used in this part:

(1) Omitted

(2) The term ''Comptroller General'' means the Comptroller General of the United States.

(3) The term ''Secretary'' means the Secretary of Housing and Urban Development.

(Pub. L. 94–385, title IV, § 462, Aug. 14, 1976, 90 Stat. 1168; Pub. L. 95–91, title III, § 301(a), title VII, §§ 703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607.)

REFERENCES IN TEXT

This subchapter, referred to in subsecs. (a), and (b)(1), (3), (4), (5), was in the original ''this title'', meaning title IV of Pub. L. 94–385 which enacted this subchapter, section 6327 of this title, and section 1701z–8 of Title 12, Banks and Banking, amended sections 6323, 6325, and 6326 of this title, and enacted provisions set out as a note under section 6801 of this title.

CODIFICATION

Subsec. (c)(1) of this section which read ''The term 'Administrator' means the Administrator of the Federal Energy Administration; except that after such Administration ceases to exist, such term means any officer of the United States designated by the President for purposes of this part'' has been omitted in view of termination of Federal Energy Administration and transfer of its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and the fact that the term ''Secretary'' is defined for the purposes of this subchapter by par. (3) of this section. In this part, ''Secretary of Energy'' has been substituted for ''Administrator'' wherever it appears.

TRANSFER OF FUNCTIONS

''Secretary of Energy'' substituted for ''Administrator'', meaning Administrator of Federal Energy Administration, in subsec. (a) pursuant to sections 301(a), 703, and 707 of Pub. L. 95–91, which are classified to sections 7151(a), 7293, and 7297 of this title and which terminated Federal Energy Administration and transferred its functions and functions of Administrator thereof (with certain exceptions) to Secretary of Energy.

CHAPTER 82—SOLID WASTE DISPOSAL

SUBCHAPTER I—GENERAL PROVISIONS

SUBCHAPTER II—OFFICE OF SOLID WASTE; AUTHORITIES OF THE ADMINISTRATOR

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 300h–6, 300h–7, 2022, 2114, 4365, 4368b, 5919, 7412, 7429, 8302, 9601, 9604, 9613, 9614, 9619, 6920, 9621, 9627, 9628, 9659, 9660, 14323 of this title; title 7 section 136q; title 10 sections 2708, 7311; title 16 section 460*lll*; title 18 section 1956; title 25 section 3908; title 26 section 468; title 30 section 1292; title 33 sections 1319, 2602, 2622, 2718; title 49 section 14901.

SUBCHAPTER I—GENERAL PROVISIONS

§ 6901. Congressional findings

(a) Solid waste

The Congress finds with respect to solid waste—

(1) that the continuing technological progress and improvement in methods of manufacture, packaging, and marketing of consumer products has resulted in an ever-mounting increase, and in a change in the characteristics, of the mass material discarded by the purchaser of such products;

(2) that the economic and population growth of our Nation, and the improvements in the standard of living enjoyed by our population, have required increased industrial production to meet our needs, and have made necessary the demolition of old buildings, the construction of new buildings, and the provision of highways and other avenues of transportation, which, together with related industrial, commercial, and agricultural operations, have resulted in a rising tide of scrap, discarded, and waste materials;

(3) that the continuing concentration of our population in expanding metropolitan and other urban areas has presented these communities with serious financial, management, intergovernmental, and technical problems in the disposal of solid wastes resulting from the industrial, commercial, domestic, and other activities carried on in such areas;

(4) that while the collection and disposal of solid wastes should continue to be primarily the function of State, regional, and local agencies, the problems of waste disposal as set forth above have become a matter national in scope and in concern and necessitate Federal action through financial and technical assistance and leadership in the development, demonstration, and application of new and improved methods and processes to reduce the amount of waste and unsalvageable materials and to provide for proper and economical solid waste disposal practices.

(b) Environment and health

The Congress finds with respect to the environment and health, that—

(1) although land is too valuable a national resource to be needlessly polluted by discarded materials, most solid waste is disposed of on land in open dumps and sanitary landfills;

(2) disposal of solid waste and hazardous waste in or on the land without careful planning and management can present a danger to human health and the environment;

(3) as a result of the Clean Air Act [42 U.S.C. 7401 et seq.], the Water Pollution Control Act [33 U.S.C. 1251 et seq.], and other Federal and State laws respecting public health and the environment, greater amounts of solid waste (in the form of sludge and other pollution treatment residues) have been created. Similarly, inadequate and environmentally unsound practices for the disposal or use of solid waste have created greater amounts of air and water pollution and other problems for the environment and for health;

(4) open dumping is particularly harmful to health, contaminates drinking water from underground and surface supplies, and pollutes the air and the land;

(5) the placement of inadequate controls on hazardous waste management will result in substantial risks to human health and the environment;

(6) if hazardous waste management is improperly performed in the first instance, corrective action is likely to be expensive, complex, and time consuming;

(7) certain classes of land disposal facilities are not capable of assuring long-term containment of certain hazardous wastes, and to avoid substantial risk to human health and the environment, reliance on land disposal should be minimized or eliminated, and land disposal, particularly landfill and surface impoundment, should be the least favored method for managing hazardous wastes; and

(8) alternatives to existing methods of land disposal must be developed since many of the cities in the United States will be running out of suitable solid waste disposal sites within five years unless immediate action is taken.

(c) Materials

The Congress finds with respect to materials, that—

(1) millions of tons of recoverable material which could be used are needlessly buried each year;

(2) methods are available to separate usable materials from solid waste; and

(3) the recovery and conservation of such materials can reduce the dependence of the United States on foreign resources and reduce the deficit in its balance of payments.

(d) Energy

The Congress finds with respect to energy, that—

(1) solid waste represents a potential source of solid fuel, oil, or gas that can be converted into energy;

(2) the need exists to develop alternative energy sources for public and private consumption in order to reduce our dependence on such sources as petroleum products, natural gas, nuclear and hydroelectric generation; and

(3) technology exists to produce usable energy from solid waste.

(Pub. L. 89–272, title II, §1002, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2796; amended Pub. L. 95–609, §7(a), Nov. 8, 1978, 92 Stat. 3081; Pub. L. 98–616, title I, §101(a), Nov. 8, 1984, 98 Stat. 3224.)

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (b)(3), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The Water Pollution Control Act, referred to in subsec. (b)(3), is act June 30, 1948, ch. 758, as amended generally by Pub. L. 92–500, §2, Oct. 18, 1972, 86 Stat. 816, which is classified generally to chapter 26 (§1251 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1251 of Title 33 and Tables.

CODIFICATION

The statutory system governing the disposal of solid wastes set out in this chapter is found in Pub. L. 89–272, title II, as amended in its entirety and completely revised by section 2 of Pub. L. 94–580, Oct. 21, 1976, 90 Stat. 2795. See Short Title of 1976 Amendment note below.

The act, as set out in this chapter, carries a statutory credit showing the sections as having been added by Pub. L. 94–580, without reference to amendments to the act between its original enactment in 1965 and its complete revision in 1976. The act, as originally enacted in 1965, was classified to section 3251 et seq. of this title. For a recapitulation of the provisions of the act as originally enacted, see notes in chapter 39 (§3251 et seq.) of this title where the act was originally set out.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3251 of this title prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1984—Subsec. (b)(5) to (8). Pub. L. 98–616 added pars. (5) to (7), struck out former par. (5) providing that ''hazardous waste presents, in addition to the problems associated with non-hazardous solid waste, special dangers to health and requires a greater degree of regulation than does non-hazardous solid waste; and'', redesignated former par. (6) as (8), and substituted a period for the semicolon at end.

1978—Subsec. (a)(4). Pub. L. 95–609 substituted ''solid waste'' for ''solid-waste''.

SHORT TITLE OF 1996 AMENDMENT

Pub. L. 104–119, §1, Mar. 26, 1996, 110 Stat. 830, provided that: ''This Act [amending sections 6921, 6924, 6925, 6947, and 6949a of this title and enacting provisions set out as a note under section 6949a of this title] may be cited as the 'Land Disposal Program Flexibility Act of 1996'.''

SHORT TITLE OF 1992 AMENDMENT

Pub. L. 102–386, title I, §101, Oct. 6, 1992, 106 Stat. 1505, provided that: ''This title [enacting sections 6908, 6939c to 6939e, and 6965 of this title, amending sections 6903, 6924, 6927, and 6961 of this title, and enacting provisions set out as notes under sections 6939c and 6961 of this title] may be cited as the 'Federal Facility Compliance Act of 1992'.''

SHORT TITLE OF 1988 AMENDMENT

Pub. L. 100–582, §1, Nov. 1, 1988, 102 Stat. 2950, provided that: ''This Act [enacting sections 6992 to 6992k of this title and section 3063 of Title 18, Crimes and Criminal Procedure, and amending section 6903 of this title] may be cited as the 'Medical Waste Tracking Act of 1988'.''

SHORT TITLE OF 1984 AMENDMENT

Section 1 of Pub. L. 98–616 provided that: ''This Act [enacting sections 6917, 6936 to 6939a, 6949a, 6979a, 6979b, and 6991 to 6991i of this title, amending this section and sections 6902, 6905, 6912, 6915, 6916, 6921 to 6933, 6935, 6941 to 6945, 6948, 6956, 6962, 6972, 6973, 6976, 6982 and 6984 of this title and enacting provisions set out as notes under sections 6905, 6921 and 6926 of this title] may be cited as 'The Hazardous and Solid Waste Amendments of 1984'.''

SHORT TITLE OF 1980 AMENDMENTS

Pub. L. 96–482, §1, Oct. 21, 1980, 94 Stat. 2334, provided: ''This Act [enacting sections 6933, 6934, 6941a, 6955, and 6956 of this title, amending sections 6903, 6905, 6911, 6912, 6916, 6921, 6922, 6924, 6925, 6927 to 6931, 6941 to 6943, 6945, 6946, 6948, 6949, 6952, 6953, 6962, 6963, 6964, 6971, 6973, 6974, 6976, 6979, and 6982 of this title; and enacting and repealing provisions set out as a note under section 6981 of this title] may be cited as the 'Solid Waste Disposal Act Amendments of 1980'.''

Pub. L. 96–463, §1, Oct. 15, 1980, 94 Stat. 2055, provided: ''This Act [enacting sections 6901a, 6914a and 6932 of this title, amending sections 6903, 6943 and 6948 of this title, and enacting provisions set out as notes under sections 6363 and 6932 of this title] may be cited as the 'Used Oil Recycling Act of 1980'.''

SHORT TITLE OF 1976 AMENDMENT

Section 1 of Pub. L. 94–580 provided that: ''This Act [enacting this chapter and provisions set out as notes under this section and section 6981 of this title] may be cited as the 'Resource Conservation and Recovery Act of 1976'.''

SHORT TITLE

Section 1001 of Pub. L. 89–272, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2795, provided in part that title II of Pub. L. 89–272 [enacting this chapter] may be cited as the ''Solid Waste Disposal Act''.

FEDERAL COMPLIANCE WITH POLLUTION CONTROL STANDARDS

For provisions relating to the responsibility of the head of each Executive agency for compliance with applicable pollution control standards, see Ex. Ord. No. 12088, Oct. 13, 1978, 43 F.R. 47707, set out as a note under section 4321 of this title.

NATIONAL COMMISSION ON MATERIALS POLICY

Pub. L. 91–512, title II, §§201–206, Oct. 26, 1970, 84 Stat. 1234, known as the ''National Materials Policy Act of

1970'', provided for the establishment of the National Commission on Materials Policy to make a full investigation and study for the purpose of developing a national materials policy to utilize present resources and technology more efficiently and to anticipate the future materials requirements of the Nation and the world, the Commission to submit to the President and Congress a report on its findings and recommendations no later than June 30, 1973, ninety days after the submission of which it should cease to exist.

§ 6901a. Congressional findings: used oil recycling

The Congress finds and declares that—

(1) used oil is a valuable source of increasingly scarce energy and materials;

(2) technology exists to re-refine, reprocess, reclaim, and otherwise recycle used oil;

(3) used oil constitutes a threat to public health and the environment when reused or disposed of improperly; and

that, therefore, it is in the national interest to recycle used oil in a manner which does not constitute a threat to public health and the environment and which conserves energy and materials.

(Pub. L. 96–463, § 2, Oct. 15, 1980, 94 Stat. 2055.)

CODIFICATION

Section was enacted as part of the Used Oil Recycling Act of 1980, and not as part of the Solid Waste Disposal Act which comprises this chapter.

§ 6902. Objectives and national policy

(a) Objectives

The objectives of this chapter are to promote the protection of health and the environment and to conserve valuable material and energy resources by—

(1) providing technical and financial assistance to State and local governments and interstate agencies for the development of solid waste management plans (including resource recovery and resource conservation systems) which will promote improved solid waste management techniques (including more effective organizational arrangements), new and improved methods of collection, separation, and recovery of solid waste, and the environmentally safe disposal of nonrecoverable residues;

(2) providing training grants in occupations involving the design, operation, and maintenance of solid waste disposal systems;

(3) prohibiting future open dumping on the land and requiring the conversion of existing open dumps to facilities which do not pose a danger to the environment or to health;

(4) assuring that hazardous waste management practices are conducted in a manner which protects human health and the environment;

(5) requiring that hazardous waste be properly managed in the first instance thereby reducing the need for corrective action at a future date;

(6) minimizing the generation of hazardous waste and the land disposal of hazardous waste by encouraging process substitution, materials recovery, properly conducted recycling and reuse, and treatment;

(7) establishing a viable Federal-State partnership to carry out the purposes of this chapter and insuring that the Administrator will, in carrying out the provisions of subchapter III of this chapter, give a high priority to assisting and cooperating with States in obtaining full authorization of State programs under subchapter III of this chapter;

(8) providing for the promulgation of guidelines for solid waste collection, transport, separation, recovery, and disposal practices and systems;

(9) promoting a national research and development program for improved solid waste management and resource conservation techniques, more effective organizational arrangements, and new and improved methods of collection, separation, and recovery, and recycling of solid wastes and environmentally safe disposal of nonrecoverable residues;

(10) promoting the demonstration, construction, and application of solid waste management, resource recovery, and resource conservation systems which preserve and enhance the quality of air, water, and land resources; and

(11) establishing a cooperative effort among the Federal, State, and local governments and private enterprise in order to recover valuable materials and energy from solid waste.

(b) National policy

The Congress hereby declares it to be the national policy of the United States that, wherever feasible, the generation of hazardous waste is to be reduced or eliminated as expeditiously as possible. Waste that is nevertheless generated should be treated, stored, or disposed of so as to minimize the present and future threat to human health and the environment.

(Pub. L. 89–272, title II, § 1003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2798; amended Pub. L. 98–616, title I, § 101(b), Nov. 8, 1984, 98 Stat. 3224.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3251 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, § 101(b)(1), designated existing provisions as subsec. (a).

Subsec. (a)(4) to (11). Pub. L. 98–616, § 101(b)(2), struck out par. (4) which provided for regulating the treatment, storage, transportation, and disposal of hazardous wastes which have adverse effects on health and the environment, added pars. (4) to (7), and redesignated former pars. (5) to (8) as (8) to (11), respectively.

Subsec. (b). Pub. L. 98–616, § 101(b)(1), added subsec. (b).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6982 of this title.

§ 6903. Definitions

As used in this chapter:

(1) The term ''Administrator'' means the Administrator of the Environmental Protection Agency.

(2) The term ''construction,'' with respect to any project of construction under this chapter,

means (A) the erection or building of new structures and acquisition of lands or interests therein, or the acquisition, replacement, expansion, remodeling, alteration, modernization, or extension of existing structures, and (B) the acquisition and installation of initial equipment of, or required in connection with, new or newly acquired structures or the expanded, remodeled, altered, modernized or extended part of existing structures (including trucks and other motor vehicles, and tractors, cranes, and other machinery) necessary for the proper utilization and operation of the facility after completion of the project; and includes preliminary planning to determine the economic and engineering feasibility and the public health and safety aspects of the project, the engineering, architectural, legal, fiscal, and economic investigations and studies, and any surveys, designs, plans, working drawings, specifications, and other action necessary for the carrying out of the project, and (C) the inspection and supervision of the process of carrying out the project to completion.

(2A) The term ''demonstration'' means the initial exhibition of a new technology process or practice or a significantly new combination or use of technologies, processes or practices, subsequent to the development stage, for the purpose of proving technological feasibility and cost effectiveness.

(3) The term ''disposal'' means the discharge, deposit, injection, dumping, spilling, leaking, or placing of any solid waste or hazardous waste into or on any land or water so that such solid waste or hazardous waste or any constituent thereof may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

(4) The term ''Federal agency'' means any department, agency, or other instrumentality of the Federal Government, any independent agency or establishment of the Federal Government including any Government corporation, and the Government Printing Office.

(5) The term ''hazardous waste'' means a solid waste, or combination of solid wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may—

(A) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or

(B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

(6) The term ''hazardous waste generation'' means the act or process of producing hazardous waste.

(7) The term ''hazardous waste management'' means the systematic control of the collection, source separation, storage, transportation, processing, treatment, recovery, and disposal of hazardous wastes.

(8) For purposes of Federal financial assistance (other than rural communities assistance), the term ''implementation'' does not include the acquisition, leasing, construction, or modification of facilities or equipment or the acquisition, leasing, or improvement of land.

(9) The term ''intermunicipal agency'' means an agency established by two or more municipalities with responsibility for planning or administration of solid waste.

(10) The term ''interstate agency'' means an agency of two or more municipalities in different States, or an agency established by two or more States, with authority to provide for the management of solid wastes and serving two or more municipalities located in different States.

(11) The term ''long-term contract'' means, when used in relation to solid waste supply, a contract of sufficient duration to assure the viability of a resource recovery facility (to the extent that such viability depends upon solid waste supply).

(12) The term ''manifest'' means the form used for identifying the quantity, composition, and the origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment, or storage.

(13) The term ''municipality'' (A) means a city, town, borough, county, parish, district, or other public body created by or pursuant to State law, with responsibility for the planning or administration of solid waste management, or an Indian tribe or authorized tribal organization or Alaska Native village or organization, and (B) includes any rural community or unincorporated town or village or any other public entity for which an application for assistance is made by a State or political subdivision thereof.

(14) The term ''open dump'' means any facility or site where solid waste is disposed of which is not a sanitary landfill which meets the criteria promulgated under section 6944 of this title and which is not a facility for disposal of hazardous waste.

(15) The term ''person'' means an individual, trust, firm, joint stock company, corporation (including a government corporation), partnership, association, State, municipality, commission, political subdivision of a State, or any interstate body and shall include each department, agency, and instrumentality of the United States.

(16) The term ''procurement item'' means any device, good, substance, material, product, or other item whether real or personal property which is the subject of any purchase, barter, or other exchange made to procure such item.

(17) The term ''procuring agency'' means any Federal agency, or any State agency or agency of a political subdivision of a State which is using appropriated Federal funds for such procurement, or any person contracting with any such agency with respect to work performed under such contract.

(18) The term ''recoverable'' refers to the capability and likelihood of being recovered from solid waste for a commercial or industrial use.

(19) The term ''recovered material'' means waste material and byproducts which have been recovered or diverted from solid waste, but such term does not include those materials and byproducts generated from, and commonly reused within, an original manufacturing process.

(20) The term ''recovered resources'' means material or energy recovered from solid waste.

(21) The term ''resource conservation'' means reduction of the amounts of solid waste that are generated, reduction of overall resource consumption, and utilization of recovered resources.

(22) The term ''resource recovery'' means the recovery of material or energy from solid waste.

(23) The term ''resource recovery system'' means a solid waste management system which provides for collection, separation, recycling, and recovery of solid wastes, including disposal of nonrecoverable waste residues.

(24) The term ''resource recovery facility'' means any facility at which solid waste is processed for the purpose of extracting, converting to energy, or otherwise separating and preparing solid waste for reuse.

(25) The term ''regional authority'' means the authority established or designated under section 6946 of this title.

(26) The term ''sanitary landfill'' means a facility for the disposal of solid waste which meets the criteria published under section 6944 of this title.

(26A) The term ''sludge'' means any solid, semisolid or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility or any other such waste having similar characteristics and effects.

(27) The term ''solid waste'' means any garbage, refuse, sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities, but does not include solid or dissolved material in domestic sewage, or solid or dissolved materials in irrigation return flows or industrial discharges which are point sources subject to permits under section 1342 of title 33, or source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954, as amended (68 Stat. 923) [42 U.S.C. 2011 et seq.].

(28) The term ''solid waste management'' means the systematic administration of activities which provide for the collection, source separation, storage, transportation, transfer, processing, treatment, and disposal of solid waste.

(29) The term ''solid waste management facility'' includes—

(A) any resource recovery system or component thereof,

(B) any system, program, or facility for resource conservation, and

(C) any facility for the collection, source separation, storage, transportation, transfer, processing, treatment or disposal of solid wastes, including hazardous wastes, whether such facility is associated with facilities generating such wastes or otherwise.

(30) The terms ''solid waste planning'', ''solid waste management'', and ''comprehensive planning'' include planning or management respecting resource recovery and resource conservation.

(31) The term ''State'' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(32) The term ''State authority'' means the agency established or designated under section 6947 of this title.

(33) The term ''storage'', when used in connection with hazardous waste, means the containment of hazardous waste, either on a temporary basis or for a period of years, in such a manner as not to constitute disposal of such hazardous waste.

(34) The term ''treatment'', when used in connection with hazardous waste, means any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological character or composition of any hazardous waste so as to neutralize such waste or so as to render such waste nonhazardous, safer for transport, amenable for recovery, amenable for storage, or reduced in volume. Such term includes any activity or processing designed to change the physical form or chemical composition of hazardous waste so as to render it nonhazardous.

(35) The term ''virgin material'' means a raw material, including previously unused copper, aluminum, lead, zinc, iron, or other metal or metal ore, any undeveloped resource that is, or with new technology will become, a source of raw materials.

(36) The term ''used oil'' means any oil which has been—

(A) refined from crude oil,

(B) used, and

(C) as a result of such use, contaminated by physical or chemical impurities.

(37) The term ''recycled oil'' means any used oil which is reused, following its original use, for any purpose (including the purpose for which the oil was originally used). Such term includes oil which is re-refined, reclaimed, burned, or reprocessed.

(38) The term ''lubricating oil'' means the fraction of crude oil which is sold for purposes of reducing friction in any industrial or mechanical device. Such term includes re-refined oil.

(39) The term ''re-refined oil'' means used oil from which the physical and chemical contaminants acquired through previous use have been removed through a refining process.

(40) Except as otherwise provided in this paragraph, the term ''medical waste'' means any solid waste which is generated in the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production or testing of biologicals. Such term does not include any hazardous waste identified or listed under subchapter III of this chapter or any household waste as defined in regulations under subchapter III of this chapter.

(41) The term ''mixed waste'' means waste that contains both hazardous waste and source, special nuclear, or by-product material subject to the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.).

(Pub. L. 89–272, title II, §1004, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2798; amended Pub. L. 95–609, §7(b), Nov. 8, 1978, 92 Stat. 3081; Pub. L. 96–463, §3, Oct. 15, 1980, 94 Stat. 2055; Pub.

L. 96–482, §2, Oct. 21, 1980, 94 Stat. 2334; Pub. L. 100–582, §3, Nov. 1, 1988, 102 Stat. 2958; Pub. L. 102–386, title I, §§103, 105(b), Oct. 6, 1992, 106 Stat. 1507, 1512.)

REFERENCES IN TEXT

The Atomic Energy Act of 1954, referred to in pars. (27) and (41), is act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 921, and amended, which is classified generally to chapter 23 (§2011 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3252 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1992—Par. (15). Pub. L. 102–386, §103, inserted before period at end ''and shall include each department, agency, and instrumentality of the United States''.

Par. (41). Pub. L. 102–386, §105(b), added par. (41).

1988—Par. (40). Pub. L. 100–582 added par. (40).

1980—Par. (14). Pub. L. 96–482, §2(a), defined ''open dump'' to include a facility, substituted requirement that disposal facility or site not be a sanitary landfill meeting section 6944 of this title criteria for prior requirement that disposal site not be a sanitary landfill within meaning of section 6944 of this title, and required that the disposal facility or site not be a facility for disposal of hazardous waste.

Par. (19). Pub. L. 96–482, §2(b), defined ''recovered material'' to cover byproducts, substituted provision for recovery or diversion of waste material and byproducts from solid waste for prior provision for collection or recovery of material from solid waste, and excluded materials and byproducts generated from and commonly reused within an original manufacturing process.

Pars. (36) to (39). Pub. L. 96–463, §3, added pars. (36) to (39).

1978—Par. (8). Pub. L. 95–609, §7(b)(1), struck out provision stating that employees' salaries due pursuant to subchapter IV of this chapter would not be included after Dec. 31, 1979.

Par. (10). Pub. L. 95–609, §7(b)(2), substituted ''management'' for ''disposal''.

Par. (29)(C). Pub. L. 95–609, §7(b)(3), substituted ''the collection, source separation, storage, transportation, transfer, processing, treatment or disposal'' for ''the treatment''.

TRANSFER OF FUNCTIONS

Enforcement functions of Administrator or other official of Environmental Protection Agency related to compliance with resource conservation and recovery permits used under this chapter with respect to preconstruction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas transferred to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, until first anniversary of date of initial operation of Alaska Natural Gas Transportation System, see Reorg. Plan No. 1 of 1979, eff. July 1, 1979, §§102(a), 203(a), 44 F.R. 33663, 33666, 93 Stat. 1373, 1376, set out in the Appendix to Title 5, Government Organization and Employees. Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. L. 102–486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5919, 6921, 6939e, 6991, 9601, 9614 of this title; title 10 section 2708; title 25 section 3902; title 26 section 4662; title 33 section 2601; title 46 App. section 883; title 49 sections 5702, 60128.

§ 6904. Governmental cooperation

(a) Interstate cooperation

The provisions of this chapter to be carried out by States may be carried out by interstate agencies and provisions applicable to States may apply to interstate regions where such agencies and regions have been established by the respective States and approved by the Administrator. In any such case, action required to be taken by the Governor of a State, respecting regional designation shall be required to be taken by the Governor of each of the respective States with respect to so much of the interstate region as is within the jurisdiction of that State.

(b) Consent of Congress to compacts

The consent of the Congress is hereby given to two or more States to negotiate and enter into agreements or compacts, not in conflict with any law or treaty of the United States, for—

(1) cooperative effort and mutual assistance for the management of solid waste or hazardous waste (or both) and the enforcement of their respective laws relating thereto, and

(2) the establishment of such agencies, joint or otherwise, as they may deem desirable for making effective such agreements or compacts.

No such agreement or compact shall be binding or obligatory upon any State a party thereto unless it is agreed upon by all parties to the agreement and until it has been approved by the Administrator and the Congress.

(Pub. L. 89–272, title II, §1005, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2801.)

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6905. Application of chapter and integration with other Acts

(a) Application of chapter

Nothing in this chapter shall be construed to apply to (or to authorize any State, interstate, or local authority to regulate) any activity or substance which is subject to the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.], the Safe Drinking Water Act [42 U.S.C. 300f et seq.], the Marine Protection, Research and Sanctuaries Act of 1972 [16 U.S.C. 1431 et seq., 1447 et seq., 33 U.S.C. 1401 et seq., 2801 et seq.], or the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] except to the extent that such application (or regulation) is not inconsistent with the requirements of such Acts.

(b) Integration with other Acts

(1) The Administrator shall integrate all provisions of this chapter for purposes of administration and enforcement and shall avoid duplica-

tion, to the maximum extent practicable, with the appropriate provisions of the Clean Air Act [42 U.S.C. 7401 et seq.], the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.], the Federal Insecticide, Fungicide, and Rodenticide Act [7 U.S.C. 136 et seq.], the Safe Drinking Water Act [42 U.S.C. 300f et seq.], the Marine Protection, Research and Sanctuaries Act of 1972 [16 U.S.C. 1431 et seq., 1447 et seq., 33 U.S.C. 1401 et seq., 2801 et seq.], and such other Acts of Congress as grant regulatory authority to the Administrator. Such integration shall be effected only to the extent that it can be done in a manner consistent with the goals and policies expressed in this chapter and in the other acts referred to in this subsection.

(2)(A) As promptly as practicable after November 8, 1984, the Administrator shall submit a report describing—

(i) the current data and information available on emissions of polychlorinated dibenzo-p-dioxins from resource recovery facilities burning municipal solid waste;

(ii) any significant risks to human health posed by these emissions; and

(iii) operating practices appropriate for controlling these emissions.

(B) Based on the report under subparagraph (A) and on any future information on such emissions, the Administrator may publish advisories or guidelines regarding the control of dioxin emissions from such facilities. Nothing in this paragraph shall be construed to preempt or otherwise affect the authority of the Administrator to promulgate any regulations under the Clean Air Act [42 U.S.C. 7401 et seq.] regarding emissions of polychlorinated dibenzo-p-dioxins.

(3) Notwithstanding any other provisions of law, in developing solid waste plans, it is the intention of this chapter that in determining the size of a waste-to-energy facility, adequate provisions shall be given to the present and reasonably anticipated future needs, including those needs created by thorough implementation of section 6962(h) of this title, of the recycling and resource recovery interests within the area encompassed by the solid waste plan.

(c) Integration with the Surface Mining Control and Reclamation Act of 1977

(1) No later than 90 days after October 21, 1980, the Administrator shall review any regulations applicable to the treatment, storage, or disposal of any coal mining wastes or overburden promulgated by the Secretary of the Interior under the Surface Mining and Reclamation Act of 1977 [30 U.S.C. 1201 et seq.]. If the Administrator determines that any requirement of final regulations promulgated under any section of subchapter III of this chapter relating to mining wastes or overburden is not adequately addressed in such regulations promulgated by the Secretary, the Administrator shall promptly transmit such determination, together with suggested revisions and supporting documentation, to the Secretary.

(2) The Secretary of the Interior shall have exclusive responsibility for carrying out any requirement of subchapter III of this chapter with respect to coal mining wastes or overburden for which a surface coal mining and reclamation permit is issued or approved under the Surface Mining Control and Reclamation Act of 1977 [30 U.S.C. 1201 et seq.]. The Secretary shall, with the concurrence of the Administrator, promulgate such regulations as may be necessary to carry out the purposes of this subsection and shall integrate such regulations with regulations promulgated under the Surface Mining Control and Reclamation Act of 1977.

(Pub. L. 89–272, title II, §1006, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2802; amended Pub. L. 96–482, §3, Oct. 21, 1980, 94 Stat. 2334; Pub. L. 98–616, title I, §102, title V, §501(f)(2), Nov. 8, 1984, 98 Stat. 3225, 3276.)

REFERENCES IN TEXT

The Federal Water Pollution Control Act, referred to in subsecs. (a) and (b), is act June 30, 1948, ch. 758, as amended generally by Pub. L. 92–500, §2, Oct. 18, 1972, 86 Stat. 816, which is classified generally to chapter 26 (§1251 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1251 of Title 33 and Tables.

The Atomic Energy Act of 1954, as amended, referred to in subsec. (a), is act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 921, and amended, which is classified generally to chapter 23 (§2011 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

The Marine Protection, Research and Sanctuaries Act of 1972, referred to in subsecs. (a) and (b), is Pub. L. 92–532, Oct. 23, 1972, 86 Stat. 1052, as amended, which enacted chapters 32 (§1431 et seq.) and 32A (§1447 et seq.) of Title 16, Conservation, and chapters 27 (§1401 et seq.) and 41 (§2801 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1401 of Title 33 and Tables.

The Safe Drinking Water Act, referred to in subsecs. (a) and (b), is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, §2(a), 88 Stat. 1660, as amended, which is classified generally to subchapter XII (§300f et seq.) of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

The Clean Air Act, referred to in subsec. (b)(1), (2)(B), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The Federal Insecticide, Fungicide, and Rodenticide Act, referred to in subsec. (b), is act June 25, 1947, ch. 125, as amended generally by Pub. L. 92–516, Oct. 21, 1972, 86 Stat. 973, which is classified generally to subchapter II (§136 et seq.) of chapter 6 of Title 7, Agriculture. For complete classification of this Act to the Code, see Short Title note set out under section 136 of Title 7 and Tables.

The Surface Mining Control and Reclamation Act of 1977, referred to in subsec. (c), is Pub. L. 95–87, Aug. 3, 1977, 91 Stat. 445, as amended, which is classified generally to chapter 25 (§1201 et seq.) of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 1201 of Title 30 and Tables.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3257 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1984—Subsec. (b)(1), (2). Pub. L. 98–616, §102, designated existing provisions as par. (1) and added par. (2).

Subsec. (b)(3). Pub. L. 98–616, § 501(f)(2), added par. (3). 1980—Subsec. (c). Pub. L. 96–482 added subsec. (c).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

URANIUM MILL TAILINGS

Section 703 of Pub. L. 98–616 provided that: ''Nothing in the Hazardous and Solid Waste Amendments of 1984 [see Short Title of 1984 Amendment note set out under section 6901 of this title] shall be construed to affect, modify, or amend the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7901 et seq.]''.

§ 6906. Financial disclosure

(a) Statement

Each officer or employee of the Administrator who—

(1) performs any function or duty under this chapter; and

(2) has any known financial interest in any person who applies for or receives financial assistance under this chapter

shall, beginning on February 1, 1977, annually file with the Administrator a written statement concerning all such interests held by such officer or employee during the preceding calendar year. Such statement shall be available to the public.

(b) Action by Administrator

The Administrator shall—

(1) act within ninety days after October 21, 1976—

(A) to define the term ''known financial interest'' for purposes of subsection (a) of this section; and

(B) to establish the methods by which the requirement to file written statements specified in subsection (a) of this section will be monitored and enforced, including appropriate provision for the filing by such officers and employees of such statements and the review by the Administrator of such statements; and

(2) report to the Congress on June 1, 1978, and of each succeeding calendar year with respect to such disclosures and the actions taken in regard thereto during the preceding calendar year.

(c) Exemption

In the rules prescribed under subsection (b) of this section, the Administrator may identify specific positions within the Environmental Protection Agency which are of a nonpolicy-making nature and provide that officers or employees occupying such positions shall be exempt from the requirements of this section.

(d) Penalty

Any officer or employee who is subject to, and knowingly violates, this section shall be fined not more than $2,500 or imprisoned not more than one year, or both.

(Pub. L. 89–272, title II, § 1007, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2802.)

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of reporting provisions in subsec. (b)(2) of this section, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 14th item on page 164 of House Document No. 103–7.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6907. Solid waste management information and guidelines

(a) Guidelines

Within one year of October 21, 1976, and from time to time thereafter, the Administrator shall, in cooperation with appropriate Federal, State, municipal, and intermunicipal agencies, and in consultation with other interested persons, and after public hearings, develop and publish suggested guidelines for solid waste management. Such suggested guidelines shall—

(1) provide a technical and economic description of the level of performance that can be attained by various available solid waste management practices (including operating practices) which provide for the protection of public health and the environment;

(2) not later than two years after October 21, 1976, describe levels of performance, including appropriate methods and degrees of control, that provide at a minimum for (A) protection of public health and welfare; (B) protection of the quality of ground waters and surface waters from leachates; (C) protection of the quality of surface waters from runoff through compliance with effluent limitations under the Federal Water Pollution Control Act, as amended [33 U.S.C. 1251 et seq.]; (D) protection of ambient air quality through compliance with new source performance standards or requirements of air quality implementation plans under the Clean Air Act, as amended [42 U.S.C. 7401 et seq.]; (E) disease and vector control; (F) safety; and (G) esthetics; and

(3) provide minimum criteria to be used by the States to define those solid waste management practices which constitute the open dumping of solid waste or hazardous waste and are to be prohibited under subchapter IV of this chapter.

Where appropriate, such suggested guidelines also shall include minimum information for use in deciding the adequate location, design, and construction of facilities associated with solid waste management practices, including the consideration of regional, geographic, demographic, and climatic factors.

(b) Notice

The Administrator shall notify the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a reasonable time before publishing any suggested guidelines or proposed regulations under this chapter of the

content of such proposed suggested guidelines or proposed regulations under this chapter.

(Pub. L. 89–272, title II, §1008, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2803; amended Pub. L. 95–609, §7(c), (d), Nov. 8, 1978, 92 Stat. 3081; Pub. L. 103–437, §15(r), Nov. 2, 1994, 108 Stat. 4594.)

REFERENCES IN TEXT

The Federal Water Pollution Control Act, referred to in subsec. (a)(2), is act June 30, 1948, ch. 758, as amended generally by Pub. L. 92–500, §2, Oct. 18, 1972, 86 Stat. 816, which is classified generally to chapter 26 (§1251 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1251 of Title 33 and Tables.

The Clean Air Act, as amended, referred to in subsec. (a)(2), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3254c of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1994—Subsec. (b). Pub. L. 103–437 substituted ''Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House'' for ''Committee on Public Works of the Senate and the Committee on Interstate and Foreign Commerce of the House''.

1978—Subsec. (a)(3). Pub. L. 95–609, §7(c), substituted ''subchapter IV of this chapter'' for ''title IV of this Act''.

Subsec. (b). Pub. L. 95–609, §7(d), struck out ''pursuant to this section'' after ''any suggested guidelines'' and inserted ''or proposed regulations under this chapter'' after ''suggested guidelines'' in two places.

CHANGE OF NAME

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5919, 5920, 6945, 6948, 6949a, 6964, 6981, 6984, 6986 of this title.

§ 6908. Small town environmental planning

(a) Establishment

The Administrator of the Environmental Protection Agency (hereafter referred to as the ''Administrator'') shall establish a program to assist small communities in planning and financing environmental facilities. The program shall be known as the ''Small Town Environmental Planning Program''.

(b) Small Town Environmental Planning Task Force

(1) The Administrator shall establish a Small Town Environmental Planning Task Force which shall be composed of representatives of small towns from different areas of the United States, Federal and State governmental agencies, and public interest groups. The Administrator shall terminate the Task Force not later than 2 years after the establishment of the Task Force.

(2) The Task Force shall—

(A) identify regulations developed pursuant to Federal environmental laws which pose significant compliance problems for small towns;

(B) identify means to improve the working relationship between the Environmental Protection Agency (hereafter referred to as the Agency) and small towns;

(C) review proposed regulations for the protection of the environmental and public health and suggest revisions that could improve the ability of small towns to comply with such regulations;

(D) identify means to promote regionalization of environmental treatment systems and infrastructure serving small towns to improve the economic condition of such systems and infrastructure; and

(E) provide such other assistance to the Administrator as the Administrator deems appropriate.

(c) Identification of environmental requirements

(1) Not later than 6 months after October 6, 1992, the Administrator shall publish a list of requirements under Federal environmental and public health statutes (and the regulations developed pursuant to such statutes) applicable to small towns. Not less than annually, the Administrator shall make such additions and deletions to and from the list as the Administrator deems appropriate.

(2) The Administrator shall, as part of the Small Town Environmental Planning Program under this section, implement a program to notify small communities of the regulations identified under paragraph (1) and of future regulations and requirements through methods that the Administrator determines to be effective to provide information to the greatest number of small communities, including any of the following:

(A) Newspapers and other periodicals.

(B) Other news media.

(C) Trade, municipal, and other associations that the Administrator determines to be appropriate.

(D) Direct mail.

(d) Small Town Ombudsman

The Administrator shall establish and staff an Office of the Small Town Ombudsman. The Office shall provide assistance to small towns in connection with the Small Town Environmental Planning Program and other business with the

Agency. Each regional office shall identify a small town contact. The Small Town Ombudsman and the regional contacts also may assist larger communities, but only if first priority is given to providing assistance to small towns.

(e) Multi-media permits

(1) The Administrator shall conduct a study of establishing a multi-media permitting program for small towns. Such evaluation shall include an analysis of—

(A) environmental benefits and liabilities of a multi-media permitting program;

(B) the potential of using such a program to coordinate a small town's environmental and public health activities; and

(C) the legal barriers, if any, to the establishment of such a program.

(2) Within 3 years after October 6, 1992, the Administrator shall report to Congress on the results of the evaluation performed in accordance with paragraph (1). Included in this report shall be a description of the activities conducted pursuant to subsections (a) through (d) of this section.

(f) "Small town" defined

For purposes of this section, the term ''small town'' means an incorporated or unincorporated community (as defined by the Administrator) with a population of less than 2,500 individuals.

(g) Authorization

There is authorized to be appropriated the sum of $500,000 to implement this section.

(Pub. L. 102–386, title I, § 109, Oct. 6, 1992, 106 Stat. 1515.)

CODIFICATION

Section was enacted as part of the Federal Facility Compliance Act of 1992, and not as part of the Solid Waste Disposal Act which comprises this chapter.

§ 6908a. Agreements with Indian tribes

On and after October 21, 1998, the Administrator is authorized to enter into assistance agreements with Federally[1] recognized Indian tribes on such terms and conditions as the Administrator deems appropriate for the development and implementation of programs to manage hazardous waste, and underground storage tanks.

(Pub. L. 105–276, title III, Oct. 21, 1998, 112 Stat. 2499.)

CODIFICATION

Section was enacted as part of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999, and not as part of the Solid Waste Disposal Act which comprises this chapter.

SUBCHAPTER II—OFFICE OF SOLID WASTE; AUTHORITIES OF THE ADMINISTRATOR

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 6948 of this title.

[1] So in original. Probably should not be capitalized.

§ 6911. Office of Solid Waste and Interagency Coordinating Committee

(a) Office of Solid Waste

The Administrator shall establish within the Environmental Protection Agency an Office of Solid Waste (hereinafter referred to as the ''Office'') to be headed by an Assistant Administrator of the Environmental Protection Agency. The duties and responsibilities (other than duties and responsibilities relating to research and development) of the Administrator under this chapter (as modified by applicable reorganization plans) shall be carried out through the Office.

(b) Interagency Coordinating Committee

(1) There is hereby established an Interagency Coordinating Committee on Federal Resource Conservation and Recovery Activities which shall have the responsibility for coordinating all activities dealing with resource conservation and recovery from solid waste carried out by the Environmental Protection Agency, the Department of Energy, the Department of Commerce, and all other Federal agencies which conduct such activities pursuant to this chapter or any other Act. For purposes of this subsection, the term ''resource conservation and recovery activities'' shall include, but not be limited to, all research, development and demonstration projects on resource conservation or energy, or material, recovery from solid waste, and all technical or financial assistance for State or local planning for, or implementation of, projects related to resource conservation or energy or material, recovery from solid waste. The Committee shall be chaired by the Administrator of the Environmental Protection Agency or such person as the Administrator may designate. Members of the Committee shall include representatives of the Department of Energy, the Department of Commerce, the Department of the Treasury, and each other Federal agency which the Administrator determines to have programs or responsibilities affecting resource conservation or recovery.

(2) The Interagency Coordinating Committee shall include oversight of the implementation of

(A) the May 1979 Memorandum of Understanding on Energy Recovery from Municipal Solid Waste between the Environmental Protection Agency and the Department of Energy;

(B) the May 30, 1978, Interagency Agreement between the Department of Commerce and the Environmental Protection Agency on the Implementation of the Resource Conservation and Recovery Act [42 U.S.C. 6901 et seq.]; and

(C) any subsequent agreements between these agencies or other Federal agencies which address Federal resource recovery or conservation activities.

(Pub. L. 89–272, title II, § 2001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2804; amended Pub. L. 96–482, § 4(c), Oct. 21, 1980, 94 Stat. 2335; Pub. L. 96–510, title III, § 307(a), Dec. 11, 1980, 94 Stat. 2810.)

REFERENCES IN TEXT

The Resource Conservation and Recovery Act, referred to in subsec. (b)(2)(B), is Pub. L. 94–580, Oct. 21,

1976, 90 Stat. 2796, which is classified generally to this chapter (§ 6901 et seq.). For complete classification of this Act to the Code, see Short Title note set out under section 6901 of this title and Tables.

CODIFICATION

Subsection (b)(3) of this section, which required the Interagency Coordinating Committee to submit to Congress on March 1 of each year, a five-year action plan for Federal resource conservation or recovery activities, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 2nd item on page 175 of House Document No. 103–7.

AMENDMENTS

1980—Subsec. (a). Pub. L. 96–510 substituted reference to Assistant Administrator for reference to Deputy Assistant Administrator.

Pub. L. 96–482 designated existing provisions as subsec. (a) and added subsec. (b).

EFFECTIVE DATE OF 1980 AMENDMENT

Section 307(c) of Pub. L. 96–510 provided that: ''The amendment made by subsection (a) [amending this section] shall become effective ninety days after the date of the enactment of this Act [Dec. 11, 1980].''

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6911a. Assistant Administrator of Environmental Protection Agency; appointment, etc.

The Assistant Administrator of the Environmental Protection Agency appointed to head the Office of Solid Waste shall be in addition to the five Assistant Administrators of the Environmental Protection Agency provided for in section 1(d) of Reorganization Plan Numbered 3 of 1970 and the additional Assistant Administrator provided by the Toxic Substances Control Act [15 U.S.C. 2601 et seq.], shall be appointed by the President by and with the advice and consent of the Senate.

(Pub. L. 96–510, title III, § 307(b), Dec. 11, 1980, 94 Stat. 2810; Pub. L. 98–80, § 2(c)(2)(B), Aug. 23, 1983, 97 Stat. 485.)

REFERENCES IN TEXT

Reorganization Plan Numbered 3 of 1970, referred to in text, is set out in the Appendix to Title 5, Government Organization and Employees.

The Toxic Substances Control Act, referred to in text, is Pub. L. 94–469, Oct. 11, 1976, 90 Stat. 2003, as amended, which is classified generally to chapter 53 (§ 2601 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 15 and Tables.

CODIFICATION

Section was enacted as part of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and not as part of the Solid Waste Disposal Act which comprises this chapter.

AMENDMENTS

1983—Pub. L. 98–80 struck out '', and shall be compensated at the rate provided for Level IV of the Executive Schedule pay rates under section 5315 of title 5'' after ''advice and consent of the Senate''.

EFFECTIVE DATE

Section effective Dec. 11, 1980, see section 9652 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 4370a of this title.

§ 6912. Authorities of Administrator

(a) Authorities

In carrying out this chapter, the Administrator is authorized to—

(1) prescribe, in consultation with Federal, State, and regional authorities, such regulations as are necessary to carry out his functions under this chapter;

(2) consult with or exchange information with other Federal agencies undertaking research, development, demonstration projects, studies, or investigations relating to solid waste;

(3) provide technical and financial assistance to States or regional agencies in the development and implementation of solid waste plans and hazardous waste management programs;

(4) consult with representatives of science, industry, agriculture, labor, environmental protection and consumer organizations, and other groups, as he deems advisable;

(5) utilize the information, facilities, personnel and other resources of Federal agencies, including the National Institute of Standards and Technology and the National Bureau of the Census, on a reimbursable basis, to perform research and analyses and conduct studies and investigations related to resource recovery and conservation and to otherwise carry out the Administrator's functions under this chapter; and

(6) to delegate to the Secretary of Transportation the performance of any inspection or enforcement function under this chapter relating to the transportation of hazardous waste where such delegation would avoid unnecessary duplication of activity and would carry out the objectives of this chapter and of chapter 51 of title 49.

(b) Revision of regulations

Each regulation promulgated under this chapter shall be reviewed and, where necessary, revised not less frequently than every three years.

(c) Criminal investigations

In carrying out the provisions of this chapter, the Administrator, and duly-designated agents and employees of the Environmental Protection Agency, are authorized to initiate and conduct investigations under the criminal provisions of this chapter, and to refer the results of these investigations to the Attorney General for prosecution in appropriate cases.

(Pub. L. 89–272, title II, § 2002, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2804; amended Pub. L. 96–482, § 5, Oct. 21, 1980, 94 Stat. 2335; Pub. L. 98–616, title IV, § 403(d)(4), Nov. 8, 1984, 98 Stat. 3272; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433.)

CODIFICATION

In subsec. (a)(6), ''chapter 51 of title 49'' substituted for ''the Hazardous Materials Transportation Act [49 App. U.S.C. 1801 et seq.]'' on authority of Pub. L. 103–272, § 6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

AMENDMENTS

1988—Subsec. (a)(5). Pub. L. 100–418 substituted ''National Institute of Standards and Technology'' for ''National Bureau of Standards''.

1984—Subsec. (c). Pub. L. 98–616 added subsec. (c).

1980—Subsec. (a)(6). Pub. L. 96–482 added par. (6).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6921 of this title.

§ 6913. Resource Recovery and Conservation Panels

The Administrator shall provide teams of personnel, including Federal, State, and local employees or contractors (hereinafter referred to as ''Resource Conservation and Recovery Panels'') to provide Federal agencies, States and local governments upon request with technical assistance on solid waste management, resource recovery, and resource conservation. Such teams shall include technical, marketing, financial, and institutional specialists, and the services of such teams shall be provided without charge to States or local governments.

(Pub. L. 89–272, title II, § 2003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2804; amended Pub. L. 95–609, § 7(e), Nov. 8, 1978, 92 Stat. 3081.)

AMENDMENTS

1978—Pub. L. 95–609 inserted ''Federal agencies,'' after ''to provide''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6916 of this title.

§ 6914. Grants for discarded tire disposal

(a) Grants

The Administrator shall make available grants equal to 5 percent of the purchase price of tire shredders (including portable shredders attached to tire collection trucks) to those eligible applicants best meeting criteria promulgated under this section. An eligible applicant may be any private purchaser, public body, or public-private joint venture. Criteria for receiving grants shall be promulgated under this section and shall include the policy to offer any private purchaser the first option to receive a grant, the policy to develop widespread geographic distribution of tire shredding facilities, the need for such facilities within a geographic area, and the projected risk and viability of any such venture. In the case of an application under this section from a public body, the Administrator shall first make a determination that there are no private purchasers interested in making an application before approving a grant to a public body.

(b) Authorization of appropriations

There is authorized to be appropriated $750,000 for each of the fiscal years 1978 and 1979 to carry out this section.

(Pub. L. 89–272, title II, § 2004, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2805.)

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6914a. Labeling of lubricating oil

For purposes of any provision of law which requires the labeling of commodities, lubricating oil shall be treated as lawfully labeled only if it bears the following statement, prominently displayed:

''DON'T POLLUTE—CONSERVE RESOURCES; RETURN USED OIL TO COLLECTION CENTERS''.

(Pub. L. 89–272, title II, § 2005, as added Pub. L. 96–463, § 4(a), Oct. 15, 1980, 94 Stat. 2056.)

PRIOR PROVISIONS

A prior section 2005 of Pub. L. 89–272 was renumbered section 2006 and is classified to section 6915 of this title.

§ 6914b. Degradable plastic ring carriers; definitions

As used in this title—

(1) the term ''regulated item'' means any plastic ring carrier device that contains at least one hole greater than 1¾ inches in diameter which is made, used, or designed for the purpose of packaging, transporting, or carrying multipackaged cans or bottles, and which is of a size, shape, design, or type capable, when discarded, of becoming entangled with fish or wildlife; and

(2) the term ''naturally degradable material'' means a material which, when discarded, will be reduced to environmentally benign subunits under the action of normal environmental forces, such as, among others, biological decomposition, photodegradation, or hydrolysis.

(Pub. L. 100–556, title I, § 102, Oct. 28, 1988, 102 Stat. 2779.)

REFERENCES IN TEXT

This title, referred to in text, is title I of Pub. L. 100–556, Oct. 28, 1988, 102 Stat. 2779, which enacted sec-

tions 6914b and 6914b–1 of this title, and provisions set out as a note under section 6914b of this title. For complete classification of this title to the Code, see Tables.

CODIFICATION

Section was not enacted as part of the Solid Waste Disposal Act which comprises this chapter.

CONGRESSIONAL FINDINGS

Section 101 of Pub. L. 100–556 provided that: ''The Congress finds that—

''(1) plastic ring carrier devices have been found in large quantities in the marine environment;

''(2) fish and wildlife have been known to have become entangled in plastic ring carriers;

''(3) nondegradable plastic ring carrier devices can remain intact in the marine environment for decades, posing a threat to fish and wildlife; and

''(4) 16 States have enacted laws requiring that plastic ring carrier devices be made from degradable material in order to reduce litter and to protect fish and wildlife.''

§ 6914b–1. Regulation of plastic ring carriers

Not later than 24 months after October 28, 1988 (unless the Administrator of the Environmental Protection Agency determines that it is not feasible or that the byproducts of degradable regulated items present a greater threat to the environment than nondegradable regulated items), the Administrator of the Environmental Protection Agency shall require, by regulation, that any regulated item intended for use in the United States shall be made of naturally degradable material which, when discarded, decomposes within a period established by such regulation. The period within which decomposition must occur after being discarded shall be the shortest period of time consistent with the intended use of the item and the physical integrity required for such use. Such regulation shall allow a reasonable time for affected parties to come into compliance, including the use of existing inventories.

(Pub. L. 100–556, title I, § 103, Oct. 28, 1988, 102 Stat. 2779.)

CODIFICATION

Section was not enacted as part of the Solid Waste Disposal Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6914b of this title.

§ 6915. Annual report

The Administrator shall transmit to the Congress and the President, not later than ninety days after the end of each fiscal year, a comprehensive and detailed report on all activities of the Office during the preceding fiscal year. Each such report shall include—

(1) a statement of specific and detailed objectives for the activities and programs conducted and assisted under this chapter;

(2) statements of the Administrator's conclusions as to the effectiveness of such activities and programs in meeting the stated objectives and the purposes of this chapter, measured through the end of such fiscal year;

(3) a summary of outstanding solid waste problems confronting the Administrator, in order of priority;

(4) recommendations with respect to such legislation which the Administrator deems necessary or desirable to assist in solving problems respecting solid waste;

(5) all other information required to be submitted to the Congress pursuant to any other provision of this chapter; and

(6) the Administrator's plans for activities and programs respecting solid waste during the next fiscal year.

(Pub. L. 89–272, title II, § 2006, formerly § 2005, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2805, and renumbered Pub. L. 96–463, § 4(a), Oct. 15, 1980, 94 Stat. 2056; amended Pub. L. 98–616, title V, § 502(b), Nov. 8, 1984, 98 Stat. 3276.)

PRIOR PROVISIONS

A prior section 2006 of Pub. L. 89–272 was renumbered section 2007 and is classified to section 6916 of this title.

AMENDMENTS

1984—Par. (1). Pub. L. 98–616 substituted ''detailed'' for ''detail''.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of this section relating to transmittal of annual report to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 19th item on page 164 of House Document No. 103–7.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6916. General authorization

(a) General administration

There are authorized to be appropriated to the Administrator for the purpose of carrying out the provisions of this chapter, $35,000,000 for the fiscal year ending September 30, 1977, $38,000,000 for the fiscal year ending September 30, 1978, $42,000,000 for the fiscal year ending September 30, 1979, $70,000,000 for the fiscal year ending September 30, 1980, $80,000,000 for the fiscal year ending September 30, 1981, $80,000,000 for the fiscal year ending September 30, 1982, $70,000,000 for the fiscal year ending September 30, 1985, $80,000,000 for the fiscal year ending September 30, 1986, $80,000,000 for the fiscal year ending September 30, 1987, and $80,000,000 for the fiscal year 1988.

(b) Resource Recovery and Conservation Panels

Not less than 20 percent of the amount appropriated under subsection (a) of this section, or $5,000,000 per fiscal year, whichever is less, shall be used only for purposes of Resource Recovery and Conservation Panels established under section 6913 of this title (including travel expenses incurred by such panels in carrying out their functions under this chapter).

(c) Hazardous waste

Not less than 30 percent of the amount appropriated under subsection (a) of this section shall

be used only for purposes of carrying out subchapter III of this chapter (relating to hazardous waste) other than section 6931 of this title.

(d) State and local support

Not less than 25 per centum of the total amount appropriated under this chapter, up to the amount authorized in section 6948(a)(1) of this title, shall be used only for purposes of support to State, regional, local, and interstate agencies in accordance with subchapter IV of this chapter other than section 6948(a)(2) or 6949 of this title.

(e) Criminal investigators

There is authorized to be appropriated to the Administrator $3,246,000 for the fiscal year 1985, $2,408,300 for the fiscal year 1986, $2,529,000 for the fiscal year 1987, and $2,529,000 for the fiscal year 1988 to be used—

(1) for additional officers or employees of the Environmental Protection Agency authorized by the Administrator to conduct criminal investigations (to investigate, or supervise the investigation of, any activity for which a criminal penalty is provided) under this chapter; and

(2) for support costs for such additional officers or employees.

(f) Underground storage tanks

(1) There are authorized to be appropriated to the Administrator for the purpose of carrying out the provisions of subchapter IX of this chapter (relating to regulation of underground storage tanks), $10,000,000 for each of the fiscal years 1985 through 1988.

(2) There is authorized to be appropriated $25,000,000 for each of the fiscal years 1985 through 1988 to be used to make grants to the States for purposes of assisting the States in the development and implementation of approved State underground storage tank release detection, prevention, and correction programs under subchapter IX of this chapter.

(Pub. L. 89–272, title II, § 2007, formerly § 2006, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2805, renumbered Pub. L. 96–463, § 4(a), Oct. 15, 1980, 94 Stat. 2055; amended Pub. L. 96–482, §§ 6, 31(a), Oct. 21, 1980, 94 Stat. 2336, 2352; Pub. L. 98–616, § 2(a), (i), Nov. 8, 1984, 98 Stat. 3222, 3223.)

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, § 2(a), substituted ''$80,000,000 for the fiscal year ending September 30, 1982, $70,000,000 for the fiscal year ending September 30, 1985, $80,000,000 for the fiscal year ending September 30, 1986, $80,000,000 for the fiscal year ending September 30, 1987, and $80,000,000 for the fiscal year 1988'' for ''and $80,000,000 for the fiscal year ending September 30, 1982''.

Subsecs. (e), (f). Pub. L. 98–616, § 2(i), added subsecs. (e) and (f).

1980—Subsec. (a). Pub. L. 96–482, § 31(a), authorized appropriation of $70,000,000, $80,000,000, and $80,000,000 for fiscal years ending Sept. 30, 1980, through 1982, respectively.

Subsec. (b). Pub. L. 96–482, § 6(a), inserted '', or $5,000,000 per fiscal year, whichever is less,'' after ''subsection (a) of this section''.

Subsec. (d). Pub. L. 96–482, § 6(b), added subsec. (d).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6991h, 6991i of this title.

§ 6917. Office of Ombudsman

(a) Establishment; functions

The Administrator shall establish an Office of Ombudsman, to be directed by an Ombudsman. It shall be the function of the Office of Ombudsman to receive individual complaints, grievances, requests for information submitted by any person with respect to any program or requirement under this chapter.

(b) Authority to render assistance

The Ombudsman shall render assistance with respect to the complaints, grievances, and requests submitted to the Office of Ombudsman, and shall make appropriate recommendations to the Administrator.

(c) Effect on procedures for grievances, appeals, or administrative matters

The establishment of the Office of Ombudsman shall not affect any procedures for grievances, appeals, or administrative matters in any other provision of this chapter, any other provision of law, or any Federal regulation.

(d) Termination

The Office of the Ombudsman shall cease to exist 4 years after November 8, 1984.

(Pub. L. 89–272, title II, § 2008, as added Pub. L. 98–616, title I, § 103(a), Nov. 8, 1984, 98 Stat. 3225.)

SUBCHAPTER III—HAZARDOUS WASTE MANAGEMENT

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 2022, 6902, 6903, 6905, 6916, 6948, 6949a, 6972, 6991, 6992i, 7412, 7511b, 9601, 9603, 9604, 9607, 9608, 9614, 9621, 9651, 14336 of this title; title 10 section 7311; title 26 section 142; title 33 section 1345.

§ 6921. Identification and listing of hazardous waste

(a) Criteria for identification or listing

Not later than eighteen months after October 21, 1976, the Administrator shall, after notice and opportunity for public hearing, and after consultation with appropriate Federal and State agencies, develop and promulgate criteria for identifying the characteristics of hazardous waste, and for listing hazardous waste, which should be subject to the provisions of this subchapter, taking into account toxicity, persistence, and degradability in nature, potential for accumulation in tissue, and other related factors such as flammability, corrosiveness, and other hazardous characteristics. Such criteria shall be revised from time to time as may be appropriate.

(b) Identification and listing

(1) Not later than eighteen months after October 21, 1976, and after notice and opportunity for

public hearing, the Administrator shall promulgate regulations identifying the characteristics of hazardous waste, and listing particular hazardous wastes (within the meaning of section 6903(5) of this title), which shall be subject to the provisions of this subchapter. Such regulations shall be based on the criteria promulgated under subsection (a) of this section and shall be revised from time to time thereafter as may be appropriate. The Administrator, in cooperation with the Agency for Toxic Substances and Disease Registry and the National Toxicology Program, shall also identify or list those hazardous wastes which shall be subject to the provisions of this subchapter solely because of the presence in such wastes of certain constituents (such as identified carcinogens, mutagens, or teratagens)[1] at levels in excess of levels which endanger human health.

(2)(A) Notwithstanding the provisions of paragraph (1) of this subsection, drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil or natural gas or geothermal energy shall be subject only to existing State or Federal regulatory programs in lieu of this subchapter until at least 24 months after October 21, 1980, and after promulgation of the regulations in accordance with subparagraphs (B) and (C) of this paragraph. It is the sense of the Congress that such State or Federal programs should include, for waste disposal sites which are to be closed, provisions requiring at least the following:

(i) The identification through surveying, platting, or other measures, together with recordation of such information on the public record, so as to assure that the location where such wastes are disposed of can be located in the future; except however, that no such surveying, platting, or other measure identifying the location of a disposal site for drilling fluids and associated wastes shall be required if the distance from the disposal site to the surveyed or platted location to the associated well is less than two hundred lineal feet; and

(ii) A chemical and physical analysis of a produced water and a composition of a drilling fluid suspected to contain a hazardous material, with such information to be acquired prior to closure and to be placed on the public record.

(B) Not later than six months after completion and submission of the study required by section 6982(m) of this title, the Administrator shall, after public hearings and opportunity for comment, determine either to promulgate regulations under this subchapter for drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil or natural gas or geothermal energy or that such regulations are unwarranted. The Administrator shall publish his decision in the Federal Register accompanied by an explanation and justification of the reasons for it. In making the decision under this paragraph, the Administrator shall utilize the information developed or accumulated pursuant to the study required under section 6982(m) of this title.

(C) The Administrator shall transmit his decision, along with any regulations, if necessary, to both Houses of Congress. Such regulations shall take effect only when authorized by Act of Congress.

(3)(A) Notwithstanding the provisions of paragraph (1) of this subsection, each waste listed below shall, except as provided in subparagraph (B) of this paragraph, be subject only to regulation under other applicable provisions of Federal or State law in lieu of this subchapter until at least six months after the date of submission of the applicable study required to be conducted under subsection (f), (n), (*o*), or (p) of section 6982 of this title and after promulgation of regulations in accordance with subparagraph (C) of this paragraph:

(i) Fly ash waste, bottom ash waste, slag waste, and flue gas emission control waste generated primarily from the combustion of coal or other fossil fuels.

(ii) Solid waste from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and overburden from the mining of uranium ore.

(iii) Cement kiln dust waste.

(B)(i) Owners and operators of disposal sites for wastes listed in subparagraph (A) may be required by the Administrator, through regulations prescribed under authority of section 6912 of this title—

(I) as to disposal sites for such wastes which are to be closed, to identify the locations of such sites through surveying, platting, or other measures, together with recordation of such information on the public record, to assure that the locations where such wastes are disposed of are known and can be located in the future, and

(II) to provide chemical and physical analysis and composition of such wastes, based on available information, to be placed on the public record.

(ii)(I) In conducting any study under subsection (f), (n), (*o*), or (p), of section 6982 of this title, any officer, employee, or authorized representative of the Environmental Protection Agency, duly designated by the Administrator, is authorized, at reasonable times and as reasonably necessary for the purposes of such study, to enter any establishment where any waste subject to such study is generated, stored, treated, disposed of, or transported from; to inspect, take samples, and conduct monitoring and testing; and to have access to and copy records relating to such waste. Each such inspection shall be commenced and completed with reasonable promptness. If the officer, employee, or authorized representative obtains any samples prior to leaving the premises, he shall give to the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each such sample equal in volume or weight to the portion retained. If any analysis is made of such samples, or monitoring and testing performed, a copy of the results shall be furnished promptly to the owner, operator, or agent in charge.

[1] So in original. Probably should be ''teratogens)''.

(II) Any records, reports, or information obtained from any person under subclause (I) shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that records, reports, or information, or particular part thereof, to which the Administrator has access under this subparagraph is made public, would divulge information entitled to protection under section 1905 of title 18, the Administrator shall consider such information or particular portion thereof confidential in accordance with the purposes of that section, except that such record, report, document, or information may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter. Any person not subject to the provisions of section 1905 of title 18 who knowingly and willfully divulges or discloses any information entitled to protection under this subparagraph shall, upon conviction, be subject to a fine of not more than $5,000 or to imprisonment not to exceed one year, or both.

(iii) The Administrator may prescribe regulations, under the authority of this chapter, to prevent radiation exposure which presents an unreasonable risk to human health from the use in construction or land reclamation (with or without revegetation) of (I) solid waste from the extraction, beneficiation, and processing of phosphate rock or (II) overburden from the mining of uranium ore.

(iv) Whenever on the basis of any information the Administrator determines that any person is in violation of any requirement of this subparagraph, the Administrator shall give notice to the violator of his failure to comply with such requirement. If such violation extends beyond the thirtieth day after the Administrator's notification, the Administrator may issue an order requiring compliance within a specified time period or the Administrator may commence a civil action in the United States district court in the district in which the violation occurred for appropriate relief, including a temporary or permanent injunction.

(C) Not later than six months after the date of submission of the applicable study required to be conducted under subsection (f), (n), (*o*), or (p), of section 6982 of this title, the Administrator shall, after public hearings and opportunity for comment, either determine to promulgate regulations under this subchapter for each waste listed in subparagraph (A) of this paragraph or determine that such regulations are unwarranted. The Administrator shall publish his determination, which shall be based on information developed or accumulated pursuant to such study, public hearings, and comment, in the Federal Register accompanied by an explanation and justification of the reasons for it.

(c) Petition by State Governor

At any time after the date eighteen months after October 21, 1976, the Governor of any State may petition the Administrator to identify or list a material as a hazardous waste. The Administrator shall act upon such petition within ninety days following his receipt thereof and shall notify the Governor of such action. If the Administrator denies such petition because of financial considerations, in providing such notice to the Governor he shall include a statement concerning such considerations.

(d) Small quantity generator waste

(1) By March 31, 1986, the Administrator shall promulgate standards under sections 6922, 6923, and 6924 of this title for hazardous waste generated by a generator in a total quantity of hazardous waste greater than one hundred kilograms but less than one thousand kilograms during a calendar month.

(2) The standards referred to in paragraph (1), including standards applicable to the legitimate use, reuse, recycling, and reclamation of such wastes, may vary from the standards applicable to hazardous waste generated by larger quantity generators, but such standards shall be sufficient to protect human health and the environment.

(3) Not later than two hundred and seventy days after November 8, 1984, any hazardous waste which is part of a total quantity generated by a generator generating greater than one hundred kilograms but less than one thousand kilograms during one calendar month and which is shipped off the premises on which such waste is generated shall be accompanied by a copy of the Environmental Protection Agency Uniform Hazardous Waste Manifest form signed by the generator. This form shall contain the following information:

(A) the name and address of the generator of the waste;

(B) the United States Department of Transportation description of the waste, including the proper shipping name, hazard class, and identification number (UN/NA), if applicable;

(C) the number and type of containers;

(D) the quantity of waste being transported; and

(E) the name and address of the facility designated to receive the waste.

If subparagraph (B) is not applicable, in lieu of the description referred to in such subparagraph (B), the form shall contain the Environmental Protection Agency identification number, or a generic description of the waste, or a description of the waste by hazardous waste characteristic. Additional requirements related to the manifest form shall apply only if determined necessary by the Administrator to protect human health and the environment.

(4) The Administrator's responsibility under this subchapter to protect human health and the environment may require the promulgation of standards under this subchapter for hazardous wastes which are generated by any generator who does not generate more than one hundred kilograms of hazardous waste in a calendar month.

(5) Until the effective date of standards required to be promulgated under paragraph (1), any hazardous waste identified or listed under this section generated by any generator during any calendar month in a total quantity greater than one hundred kilograms but less than one thousand kilograms, which is not treated, stored, or disposed of at a hazardous waste treatment, storage, or disposal facility with a permit under section 6925 of this title, shall be

disposed of only in a facility which is permitted, licensed, or registered by a State to manage municipal or industrial solid waste.

(6) Standards promulgated as provided in paragraph (1) shall, at a minimum, require that all treatment, storage, or disposal of hazardous wastes generated by generators referred to in paragraph (1) shall occur at a facility with interim status or a permit under this subchapter, except that onsite storage of hazardous waste generated by a generator generating a total quantity of hazardous waste greater than one hundred kilograms, but less than one thousand kilograms during a calendar month, may occur without the requirement of a permit for up to one hundred and eighty days. Such onsite storage may occur without the requirement of a permit for not more than six thousand kilograms for up to two hundred and seventy days if such generator must ship or haul such waste over two hundred miles.

(7)(A) Nothing in this subsection shall be construed to affect or impair the validity of regulations promulgated by the Secretary of Transportation pursuant to chapter 51 of title 49.

(B) Nothing in this subsection shall be construed to affect, modify, or render invalid any requirements in regulations promulgated prior to January 1, 1983 applicable to any acutely hazardous waste identified or listed under this section which is generated by any generator during any calendar month in a total quantity less than one thousand kilograms.

(8) Effective March 31, 1986, unless the Administrator promulgates standards as provided in paragraph (1) of this subsection prior to such date, hazardous waste generated by any generator in a total quantity greater than one hundred kilograms but less than one thousand kilograms during a calendar month shall be subject to the following requirements until the standards referred to in paragraph (1) of this subsection have become effective:

(A) the notice requirements of paragraph (3) of this subsection shall apply and in addition, the information provided in the form shall include the name of the waste transporters and the name and address of the facility designated to receive the waste;

(B) except in the case of the onsite storage referred to in paragraph (6) of this subsection, the treatment, storage, or disposal of such waste shall occur at a facility with interim status or a permit under this subchapter;

(C) generators of such waste shall file manifest exception reports as required of generators producing greater amounts of hazardous waste per month except that such reports shall be filed by January 31, for any waste shipment occurring in the last half of the preceding calendar year, and by July 31, for any waste shipment occurring in the first half of the calendar year; and

(D) generators of such waste shall retain for three years a copy of the manifest signed by the designated facility that has received the waste.

Nothing in this paragraph shall be construed as a determination of the standards appropriate under paragraph (1).

(9) The last sentence of section 6930(b) of this title shall not apply to regulations promulgated under this subsection.

(e) Specified wastes

(1) Not later than 6 months after November 8, 1984, the Administrator shall, where appropriate, list under subsection (b)(1) of this section, additional wastes containing chlorinated dioxins or chlorinated-dibenzofurans. Not later than one year after November 8, 1984, the Administrator shall, where appropriate, list under subsection (b)(1) of this section wastes containing remaining halogenated dioxins and halogenated-dibenzofurans.

(2) Not later than fifteen months after November 8, 1984, the Administrator shall make a determination of whether or not to list under subsection (b)(1) of this section the following wastes: Chlorinated Aliphatics, Dioxin, Dimethyl Hydrazine, TDI (toluene diisocyanate), Carbamates, Bromacil, Linuron, Organo-bromines, solvents, refining wastes, chlorinated aromatics, dyes and pigments, inorganic chemical industry wastes, lithium batteries, coke by-products, paint production wastes, and coal slurry pipeline effluent.

(f) Delisting procedures

(1) When evaluating a petition to exclude a waste generated at a particular facility from listing under this section, the Administrator shall consider factors (including additional constituents) other than those for which the waste was listed if the Administrator has a reasonable basis to believe that such additional factors could cause the waste to be a hazardous waste. The Administrator shall provide notice and opportunity for comment on these additional factors before granting or denying such petition.

(2)(A) To the maximum extent practicable the Administrator shall publish in the Federal Register a proposal to grant or deny a petition referred to in paragraph (1) within twelve months after receiving a complete application to exclude a waste generated at a particular facility from being regulated as a hazardous waste and shall grant or deny such a petition within twenty-four months after receiving a complete application.

(B) The temporary granting of such a petition prior to November 8, 1984, without the opportunity for public comment and the full consideration of such comments shall not continue for more than twenty-four months after November 8, 1984. If a final decision to grant or deny such a petition has not been promulgated after notice and opportunity for public comment within the time limit prescribed by the preceding sentence, any such temporary granting of such petition shall cease to be in effect.

(g) EP toxicity

Not later than twenty-eight months after November 8, 1984, the Administrator shall examine the deficiencies of the extraction procedure toxicity characteristic as a predictor of the leaching potential of wastes and make changes in the extraction procedure toxicity characteristic, including changes in the leaching media, as are necessary to insure that it accurately predicts the leaching potential of wastes which pose a

threat to human health and the environment when mismanaged.

(h) Additional characteristics

Not later than two years after November 8, 1984, the Administrator shall promulgate regulations under this section identifying additional characteristics of hazardous waste, including measures or indicators of toxicity.

(i) Clarification of household waste exclusion

A resource recovery facility recovering energy from the mass burning of municipal solid waste shall not be deemed to be treating, storing, disposing of, or otherwise managing hazardous wastes for the purposes of regulation under this subchapter, if—

(1) such facility—

(A) receives and burns only—

(i) household waste (from single and multiple dwellings, hotels, motels, and other residential sources), and

(ii) solid waste from commercial or industrial sources that does not contain hazardous waste identified or listed under this section, and

(B) does not accept hazardous wastes identified or listed under this section, and

(2) the owner or operator of such facility has established contractual requirements or other appropriate notification or inspection procedures to assure that hazardous wastes are not received at or burned in such facility.

(Pub. L. 89–272, title II, § 3001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2806; amended Pub. L. 96–482, § 7, Oct. 21, 1980, 94 Stat. 2336; Pub. L. 98–616, title II, §§ 221(a), 222, 223(a), Nov. 8, 1984, 98 Stat. 3248, 3251, 3252; Pub. L. 104–119, § 4(1), Mar. 26, 1996, 110 Stat. 833.)

CODIFICATION

In subsec. (d)(7)(A), ''chapter 51 of title 49'' substituted for ''the Hazardous Materials Transportation Act [49 App. U.S.C. 1801 et seq.]'' on authority of Pub. L. 103–272, § 6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

AMENDMENTS

1996—Subsec. (d)(5). Pub. L. 104–119 made technical amendment to reference in original act which appears in text as reference to this section.

1984—Subsec. (b)(1). Pub. L. 98–616, § 222(b), inserted at end ''The Administrator, in cooperation with the Agency for Toxic Substances and Disease Registry and the National Toxicology Program, shall also identify or list those hazardous wastes which shall be subject to the provisions of this subchapter solely because of the presence in such wastes of certain constituents (such as identified carcinogens, mutagens, or teratagens) [sic] at levels in excess of levels which endanger human health.''

Subsec. (d). Pub. L. 98–616, § 221(a), added subsec. (d).

Subsecs. (e) to (h). Pub. L. 98–616, § 222(a), added subsecs. (e) to (h).

Subsec. (i). Pub. L. 98–616, § 223(a), added subsec. (i).

1980—Subsec. (b). Pub. L. 96–482 designated existing provisions as par. (1) and added pars. (2) and (3).

REGULATION

Pub. L. 99–499, title I, § 124(b), Oct. 17, 1986, 100 Stat. 1689, provided that: ''Unless the Administrator of the Environmental Protection Agency promulgates regulations under subtitle C of the Solid Waste Disposal Act [42 U.S.C. 6921 et seq.] addressing the extraction of wastes from landfills as part of the process of recovering methane from such landfills, the owner and operator of equipment used to recover methane from a landfill shall not be deemed to be managing, generating, transporting, treating, storing, or disposing of hazardous or liquid wastes within the meaning of that subtitle. If the aqueous or hydrocarbon phase of the condensate or any other waste material removed from the gas recovered from the landfill meets any of the characteristics identified under section 3001 of subtitle C of the Solid Waste Disposal Act [42 U.S.C. 6921], the preceding sentence shall not apply and such condensate phase or other waste material shall be deemed a hazardous waste under that subtitle, and shall be regulated accordingly.''

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

ASH MANAGEMENT AND DISPOSAL

Pub. L. 101–549, title III, § 306, Nov. 15, 1990, 104 Stat. 2584, provided that: ''For a period of 2 years after the date of enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], ash from solid waste incineration units burning municipal waste shall not be regulated by the Administrator of the Environmental Protection Agency pursuant to section 3001 of the Solid Waste Disposal Act [42 U.S.C. 6921]. Such reference and limitation shall not be construed to prejudice, endorse or otherwise affect any activity by the Administrator following the 2-year period from the date of enactment of the Clean Air Act Amendments of 1990.''

SMALL QUANTITY GENERATOR WASTE; INFORM AND EDUCATE; WASTE GENERATORS

Section 221(b) of Pub. L. 98–616 directed Administrator of Environmental Protection Agency to undertake activities to inform and educate waste generators of their responsibilities under subsec. (d) of this section during the period within thirty months after Nov. 8, 1984, to help assure compliance.

STUDY OF EXISTING MANIFEST SYSTEM FOR HAZARDOUS WASTES AS APPLICABLE TO SMALL QUANTITY GENERATORS; SUBMITTAL TO CONGRESS

Section 221(d) of Pub. L. 98–616 directed Administrator of Environmental Protection Agency to cause to be studied the existing manifest system for hazardous wastes as it applies to small quantity generators and recommend whether the current system should be retained or whether a new system should be introduced, such study to include an analysis of the cost versus the benefits of the system studied as well as an analysis of the ease of retrieving and collating information and identifying a given substance, with any new proposal to include a list of those standards that are necessary to protect human health and the environment, and with such study to be submitted to Congress not later than Apr. 1, 1987.

ADMINISTRATIVE BURDENS; SMALL QUANTITY GENERATORS; RETENTION OF CURRENT SYSTEM; REPORT TO CONGRESS

Section 221(e) of Pub. L. 98–616 directed Administrator of Environmental Protection Agency, in conjunction with Secretary of Transportation, to prepare and submit to Congress, not later than Apr. 1, 1987, a report on the feasibility of easing the administrative burden on small quantity generators, increasing compliance with statutory and regulatory requirements, and simplifying enforcement efforts through a program

of licensing hazardous waste transporters to assume the responsibilities of small quantity generators relating to preparation of manifests and associated recordkeeping and reporting requirements, such report to examine the appropriate licensing requirements under such a program including the need for financial assurances by licensed transporters and to make recommendations on provisions and requirements for such a program including the appropriate division of responsibilities between Department of Transportation and Environmental Protection Administration.

EDUCATIONAL INSTITUTIONS; ACCUMULATION, STORAGE AND DISPOSAL OF HAZARDOUS WASTES; STUDY

Section 221(f) of Pub. L. 98–616, as amended by Pub. L. 107–110, title X, §1076(aa), Jan. 8, 2002, 115 Stat. 2093, directed Administrator of Environmental Protection Agency, in consultation with Secretary of Education, the States, and appropriate educational associations, to conduct a comprehensive study of problems associated with accumulation, storage, and disposal of hazardous wastes from educational institutions, such study to include an investigation of feasibility and availability of environmentally sound methods for treatment, storage, or disposal of hazardous waste from such institutions, taking into account the types and quantities of such waste which are generated by these institutions, and the nonprofit nature of these institutions, and directed Administrator to submit a report to Congress containing the findings of the study not later than Apr. 1, 1987.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6923, 6924, 6925, 6930, 6935, 6938, 6939, 6945, 6949a, 9605, 9625 of this title; title 33 sections 1319, 2601; title 49 section 14901.

§ 6922. Standards applicable to generators of hazardous waste

(a) In general

Not later than eighteen months after October 21, 1976, and after notice and opportunity for public hearings and after consultation with appropriate Federal and State agencies, the Administrator shall promulgate regulations establishing such standards, applicable to generators of hazardous waste identified or listed under this subchapter, as may be necessary to protect human health and the environment. Such standards shall establish requirements respecting—

(1) recordkeeping practices that accurately identify the quantities of such hazardous waste generated, the constituents thereof which are significant in quantity or in potential harm to human health or the environment, and the disposition of such wastes;

(2) labeling practices for any containers used for the storage, transport, or disposal of such hazardous waste such as will identify accurately such waste;

(3) use of appropriate containers for such hazardous waste;

(4) furnishing of information on the general chemical composition of such hazardous waste to persons transporting, treating, storing, or disposing of such wastes;

(5) use of a manifest system and any other reasonable means necessary to assure that all such hazardous waste generated is designated for treatment, storage, or disposal in, and arrives at, treatment, storage, or disposal facilities (other than facilities on the premises where the waste is generated) for which a permit has been issued as provided in this subchapter, or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.]; and

(6) submission of reports to the Administrator (or the State agency in any case in which such agency carries out a permit program pursuant to this subchapter) at least once every two years, setting out—

(A) the quantities and nature of hazardous waste identified or listed under this subchapter that he has generated during the year;

(B) the disposition of all hazardous waste reported under subparagraph (A);

(C) the efforts undertaken during the year to reduce the volume and toxicity of waste generated; and

(D) the changes in volume and toxicity of waste actually achieved during the year in question in comparison with previous years, to the extent such information is available for years prior to November 8, 1984.

(b) Waste minimization

Effective September 1, 1985, the manifest required by subsection (a)(5) of this section shall contain a certification by the generator that—

(1) the generator of the hazardous waste has a program in place to reduce the volume or quantity and toxicity of such waste to the degree determined by the generator to be economically practicable; and

(2) the proposed method of treatment, storage, or disposal is that practicable method currently available to the generator which minimizes the present and future threat to human health and the environment.

(Pub. L. 89–272, title II, §3002, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2806; amended Pub. L. 95–609, §7(f), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 96–482, §8, Oct. 21, 1980, 94 Stat. 2338; Pub. L. 98–616, title II, §224(a), Nov. 8, 1984, 98 Stat. 3252.)

REFERENCES IN TEXT

The Marine Protection, Research, and Sanctuaries Act, referred to in subsec. (a)(5), probably means the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92–532, Oct. 23, 1972, 86 Stat. 1052, as amended. Title I of the Marine Protection, Research, and Sanctuaries Act of 1972 is classified generally to subchapter I (§1411 et seq.) of chapter 27 of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1401 of Title 33 and Tables.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, §224(a)(1), designated existing provisions as subsec. (a).

Subsec. (a)(6). Pub. L. 98–616, §224(a)(2), amended par. (6) generally. Prior to amendment, par. (6) read as follows: ''submission of reports to the Administrator (or the State agency in any case in which such agency carries out an authorized permit program pursuant to this subchapter) at such times as the Administrator (or the State agency if appropriate) deems necessary, setting out—

''(A) the quantities of hazardous waste identified or listed under this subchapter that he has generated during a particular time period; and

''(B) the disposition of all hazardous waste reported under subparagraph (A).''

Subsec. (b). Pub. L. 98–616, §224(a)(2), added subsec. (b).

1980—Par. (5). Pub. L. 96–482 inserted ''and any other reasonable means necessary'' and '', and arrives at,'' after ''use of a manifest system'' and ''disposal in'', respectively.

1978—Par. (5). Pub. L. 95–609, § 7(f)(1), inserted provision relating to title I of the Marine Protection, Research, and Sanctuaries Act.

Par. (6). Pub. L. 95–609, § 7(f)(2), closed the parenthetical after ''to this subchapter''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6923, 6924, 6926, 6935, 6938, 6971 of this title.

§ 6923. Standards applicable to transporters of hazardous waste

(a) Standards

Not later than eighteen months after October 21, 1976, and after opportunity for public hearings, the Administrator, after consultation with the Secretary of Transportation and the States, shall promulgate regulations establishing such standards, applicable to transporters of hazardous waste identified or listed under this subchapter, as may be necessary to protect human health and the environment. Such standards shall include but need not be limited to requirements respecting—

(1) recordkeeping concerning such hazardous waste transported, and their source and delivery points;

(2) transportation of such waste only if properly labeled;

(3) compliance with the manifest system referred to in section 6922(5)[1] of this title; and

(4) transportation of all such hazardous waste only to the hazardous waste treatment, storage, or disposal facilities which the shipper designates on the manifest form to be a facility holding a permit issued under this subchapter, or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.].

(b) Coordination with regulations of Secretary of Transportation

In case of any hazardous waste identified or listed under this subchapter which is subject to chapter 51 of title 49, the regulations promulgated by the Administrator under this section shall be consistent with the requirements of such Act and the regulations thereunder. The Administrator is authorized to make recommendations to the Secretary of Transportation respecting the regulations of such hazardous waste under the Hazardous Materials Transportation Act and for addition of materials to be covered by such Act.

(c) Fuel from hazardous waste

Not later than two years after November 8, 1984, and after opportunity for public hearing, the Administrator shall promulgate regulations establishing standards, applicable to transporters of fuel produced (1) from any hazardous waste identified or listed under section 6921 of this title, or (2) from any hazardous waste identified or listed under section 6921 of this title and any other material, as may be necessary to protect human health and the environment. Such standards may include any of the requirements set forth in paragraphs (1) through (4) of subsection (a) of this section as may be appropriate.

(Pub. L. 89–272, title II, § 3003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2807; amended Pub. L. 95–609, § 7(g), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 98–616, title II, § 204(b)(2), Nov. 8, 1984, 98 Stat. 3238.)

REFERENCES IN TEXT

Section 6922(5) of this title, referred to in subsec. (a)(3), was redesignated section 6922(a)(5) of this title, by Pub. L. 98–616, title II, § 224(a)(1), Nov. 8, 1984, 98 Stat. 3253.

The Marine Protection, Research, and Sanctuaries Act, referred to in subsec. (a)(4), probably means the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92–532, Oct. 23, 1972, 86 Stat. 1052, as amended. Title I of the Marine Protection, Research, and Sanctuaries Act of 1972 is classified generally to subchapter I (§ 1411 et seq.) of chapter 27 of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1401 of Title 33 and Tables.

CODIFICATION

In subsec. (b), ''chapter 51 of title 49'' substituted for ''the Hazardous Materials Transportation Act (88 Stat. 2156) [49 App. U.S.C. 1801 et seq.]'' on authority of Pub. L. 103–272, § 6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

AMENDMENTS

1984—Subsec. (c). Pub. L. 98–616 added subsec. (c).

1978—Subsec. (a)(4). Pub. L. 95–609, § 7(g)(1), inserted provision relating to title I of the Marine Protection, Research, and Sanctuaries Act.

Subsec. (b). Pub. L. 95–609, § 7(g)(2), substituted ''Administrator under this section'' for ''Administrator under this subchapter''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6926, 6935, 6938, 6971 of this title.

§ 6924. Standards applicable to owners and operators of hazardous waste treatment, storage, and disposal facilities

(a) In general

Not later than eighteen months after October 21, 1976, and after opportunity for public hearings and after consultation with appropriate Federal and State agencies, the Administrator shall promulgate regulations establishing such performance standards, applicable to owners and

[1] See References in Text note below.

operators of facilities for the treatment, storage, or disposal of hazardous waste identified or listed under this subchapter, as may be necessary to protect human health and the environment. In establishing such standards the Administrator shall, where appropriate, distinguish in such standards between requirements appropriate for new facilities and for facilities in existence on the date of promulgation of such regulations. Such standards shall include, but need not be limited to, requirements respecting—

(1) maintaining records of all hazardous wastes identified or listed under this chapter which is treated, stored, or disposed of, as the case may be, and the manner in which such wastes were treated, stored, or disposed of;

(2) satisfactory reporting, monitoring, and inspection and compliance with the manifest system referred to in section 6922(5)[1] of this title;

(3) treatment, storage, or disposal of all such waste received by the facility pursuant to such operating methods, techniques, and practices as may be satisfactory to the Administrator;

(4) the location, design, and construction of such hazardous waste treatment, disposal, or storage facilities;

(5) contingency plans for effective action to minimize unanticipated damage from any treatment, storage, or disposal of any such hazardous waste;

(6) the maintenance of operation of such facilities and requiring such additional qualifications as to ownership, continuity of operation, training for personnel, and financial responsibility (including financial responsibility for corrective action) as may be necessary or desirable; and

(7) compliance with the requirements of section 6925 of this title respecting permits for treatment, storage, or disposal.

No private entity shall be precluded by reason of criteria established under paragraph (6) from the ownership or operation of facilities providing hazardous waste treatment, storage, or disposal services where such entity can provide assurances of financial responsibility and continuity of operation consistent with the degree and duration of risks associated with the treatment, storage, or disposal of specified hazardous waste.

(b) Salt dome formations, salt bed formations, underground mines and caves

(1) Effective on November 8, 1984, the placement of any noncontainerized or bulk liquid hazardous waste in any salt dome formation, salt bed formation, underground mine, or cave is prohibited until such time as—

(A) the Administrator has determined, after notice and opportunity for hearings on the record in the affected areas, that such placement is protective of human health and the environment;

(B) the Administrator has promulgated performance and permitting standards for such facilities under this subchapter, and;

(C) a permit has been issued under section 6925(c) of this title for the facility concerned.

(2) Effective on November 8, 1984, the placement of any hazardous waste other than a hazardous waste referred to in paragraph (1) in a salt dome formation, salt bed formation, underground mine, or cave is prohibited until such time as a permit has been issued under section 6925(c) of this title for the facility concerned.

(3) No determination made by the Administrator under subsection (d), (e), or (g) of this section regarding any hazardous waste to which such subsection (d), (e), or (g) of this section applies shall affect the prohibition contained in paragraph (1) or (2) of this subsection.

(4) Nothing in this subsection shall apply to the Department of Energy Waste Isolation Pilot Project in New Mexico.

(c) Liquids in landfills

(1) Effective 6 months after November 8, 1984, the placement of bulk or noncontainerized liquid hazardous waste or free liquids contained in hazardous waste (whether or not absorbents have been added) in any landfill is prohibited. Prior to such date the requirements (as in effect on April 30, 1983) promulgated under this section by the Administrator regarding liquid hazardous waste shall remain in force and effect to the extent such requirements are applicable to the placement of bulk or noncontainerized liquid hazardous waste, or free liquids contained in hazardous waste, in landfills.

(2) Not later than fifteen months after November 8, 1984, the Administrator shall promulgate final regulations which—

(A) minimize the disposal of containerized liquid hazardous waste in landfills, and

(B) minimize the presence of free liquids in containerized hazardous waste to be disposed of in landfills.

Such regulations shall also prohibit the disposal in landfills of liquids that have been absorbed in materials that biodegrade or that release liquids when compressed as might occur during routine landfill operations. Prior to the date on which such final regulations take effect, the requirements (as in effect on April 30, 1983) promulgated under this section by the Administrator shall remain in force and effect to the extent such requirements are applicable to the disposal of containerized liquid hazardous waste, or free liquids contained in hazardous waste, in landfills.

(3) Effective twelve months after November 8, 1984, the placement of any liquid which is not a hazardous waste in a landfill for which a permit is required under section 6925(c) of this title or which is operating pursuant to interim status granted under section 6925(e) of this title is prohibited unless the owner or operator of such landfill demonstrates to the Administrator, or the Administrator determines, that—

(A) the only reasonably available alternative to the placement in such landfill is placement in a landfill or unlined surface impoundment, whether or not permitted under section 6925(c) of this title or operating pursuant to interim status under section 6925(e) of this title, which contains, or may reasonably be anticipated to contain, hazardous waste; and

(B) placement in such owner or operator's landfill will not present a risk of contamination of any underground source of drinking water.

[1] See References in Text note below.

As used in subparagraph (B), the term ''underground source of drinking water'' has the same meaning as provided in regulations under the Safe Drinking Water Act (title XIV of the Public Health Service Act) [42 U.S.C. 300f et seq.].

(4) No determination made by the Administrator under subsection (d), (e), or (g) of this section regarding any hazardous waste to which such subsection (d), (e), or (g) of this section applies shall affect the prohibition contained in paragraph (1) of this subsection.

(d) Prohibitions on land disposal of specified wastes

(1) Effective 32 months after November 8, 1984 (except as provided in subsection (f) of this section with respect to underground injection into deep injection wells), the land disposal of the hazardous wastes referred to in paragraph (2) is prohibited unless the Administrator determines the prohibition on one or more methods of land disposal of such waste is not required in order to protect human health and the environment for as long as the waste remains hazardous, taking into account—

(A) the long-term uncertainties associated with land disposal,

(B) the goal of managing hazardous waste in an appropriate manner in the first instance, and

(C) the persistence, toxicity, mobility, and propensity to bioaccumulate of such hazardous wastes and their hazardous constituents.

For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment for a hazardous waste referred to in paragraph (2) (other than a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section), unless, upon application by an interested person, it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(2) Paragraph (1) applies to the following hazardous wastes listed or identified under section 6921 of this title:

(A) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing free cyanides at concentrations greater than or equal to 1,000 mg/l.

(B) Liquid hazardous wastes, including free liquids associated with any solid or sludge, containing the following metals (or elements) or compounds of these metals (or elements) at concentrations greater than or equal to those specified below:

(i) arsenic and/or compounds (as As) 500 mg/l;

(ii) cadmium and/or compounds (as Cd) 100 mg/l;

(iii) chromium (VI and/or compounds (as Cr VI)) 500 mg/l;

(iv) lead and/or compounds (as Pb) 500 mg/l;

(v) mercury and/or compounds (as Hg) 20 mg/l;

(vi) nickel and/or compounds (as Ni) 134 mg/l;

(vii) selenium and/or compounds (as Se) 100 mg/l; and

(viii) thallium and/or compounds (as Th) 130 mg/l.

(C) Liquid hazardous waste having a pH less than or equal to two (2.0).

(D) Liquid hazardous wastes containing polychlorinated biphenyls at concentrations greater than or equal to 50 ppm.

(E) Hazardous wastes containing halogenated organic compounds in total concentration greater than or equal to 1,000 mg/kg.

When necessary to protect human health and the environment, the Administrator shall substitute more stringent concentration levels than the levels specified in subparagraphs (A) through (E).

(3) During the period ending forty-eight months after November 8, 1984, this subsection shall not apply to any disposal of contaminated soil or debris resulting from a response action taken under section 9604 or 9606 of this title or a corrective action required under this subchapter.

(e) Solvents and dioxins

(1) Effective twenty-four months after November 8, 1984 (except as provided in subsection (f) of this section with respect to underground injection into deep injection wells), the land disposal of the hazardous wastes referred to in paragraph (2) is prohibited unless the Administrator determines the prohibition of one or more methods of land disposal of such waste is not required in order to protect human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraph (A) through (C) of subsection (d)(1) of this section. For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment for a hazardous waste referred to in paragraph (2) (other than a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section), unless upon application by an interested person it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(2) The hazardous wastes to which the prohibition under paragraph (1) applies are as follows—

(A) dioxin-containing hazardous wastes numbered F020, F021, F022, and F023 (as referred to in the proposed rule published by the Administrator in the Federal Register for April 4, 1983), and

(B) those hazardous wastes numbered F001, F002, F003, F004, and F005 in regulations promulgated by the Administrator under section 6921 of this title (40 C.F.R. 261.31 (July 1, 1983)), as those regulations are in effect on July 1, 1983.

(3) During the period ending forty-eight months after November 8, 1984, this subsection shall not apply to any disposal of contaminated soil or debris resulting from a response action

taken under section 9604 or 9606 of this title or a corrective action required under this subchapter.

(f) Disposal into deep injection wells; specified subsection (d) wastes; solvents and dioxins

(1) Not later than forty-five months after November 8, 1984, the Administrator shall complete a review of the disposal of all hazardous wastes referred to in paragraph (2) of subsection (d) of this section and in paragraph (2) of subsection (e) of this section by underground injection into deep injection wells.

(2) Within forty-five months after November 8, 1984, the Administrator shall make a determination regarding the disposal by underground injection into deep injection wells of the hazardous wastes referred to in paragraph (2) of subsection (d) of this section and the hazardous wastes referred to in paragraph (2) of subsection (e) of this section. The Administrator shall promulgate final regulations prohibiting the disposal of such wastes into such wells if it may reasonably be determined that such disposal may not be protective of human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraphs (A) through (C) of subsection (d)(1) of this section. In promulgating such regulations, the Administrator shall consider each hazardous waste referred to in paragraph (2) of subsection (d) of this section or in paragraph (2) of subsection (e) of this section which is prohibited from disposal into such wells by any State.

(3) If the Administrator fails to make a determination under paragraph (2) for any hazardous waste referred to in paragraph (2) of subsection (d) of this section or in paragraph (2) of subsection (e) of this section within forty-five months after November 8, 1984, such hazardous waste shall be prohibited from disposal into any deep injection well.

(4) As used in this subsection, the term ''deep injection well'' means a well used for the underground injection of hazardous waste other than a well to which section 6979a(a)[2] of this title applies.

(g) Additional land disposal prohibition determinations

(1) Not later than twenty-four months after November 8, 1984, the Administrator shall submit a schedule to Congress for—

(A) reviewing all hazardous wastes listed (as of November 8, 1984) under section 6921 of this title other than those wastes which are referred to in subsection (d) or (e) of this section; and

(B) taking action under paragraph (5) of this subsection with respect to each such hazardous waste.

(2) The Administrator shall base the schedule on a ranking of such listed wastes considering their intrinsic hazard and their volume such that decisions regarding the land disposal of high volume hazardous wastes with high intrinsic hazard shall, to the maximum extent possible, be made by the date forty-five months after November 8, 1984. Decisions regarding low volume hazardous wastes with lower intrinsic hazard shall be made by the date sixty-six months after November 8, 1984.

(3) The preparation and submission of the schedule under this subsection shall not be subject to the Paperwork Reduction Act of 1980.[2] No hearing on the record shall be required for purposes of preparation or submission of the schedule. The schedule shall not be subject to judicial review.

(4) The schedule under this subsection shall require that the Administrator shall promulgate regulations in accordance with paragraph (5) or make a determination under paragraph (5)—

(A) for at least one-third of all hazardous wastes referred to in paragraph (1) by the date forty-five months after November 8, 1984;

(B) for at least two-thirds of all such listed wastes by the date fifty-five months after November 8, 1984; and

(C) for all such listed wastes and for all hazardous wastes identified under section 6921 of this title by the date sixty-six months after November 8, 1984.

In the case of any hazardous waste identified or listed under section 6921 of this title after November 8, 1984, the Administrator shall determine whether such waste shall be prohibited from one or more methods of land disposal in accordance with paragraph (5) within six months after the date of such identification or listing.

(5) Not later than the date specified in the schedule published under this subsection, the Administrator shall promulgate final regulations prohibiting one or more methods of land disposal of the hazardous wastes listed on such schedule except for methods of land disposal which the Administrator determines will be protective of human health and the environment for as long as the waste remains hazardous, taking into account the factors referred to in subparagraphs (A) through (C) of subsection (d)(1) of this section. For the purposes of this paragraph, a method of land disposal may not be determined to be protective of human health and the environment (except with respect to a hazardous waste which has complied with the pretreatment regulations promulgated under subsection (m) of this section) unless, upon application by an interested person, it has been demonstrated to the Administrator, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the disposal unit or injection zone for as long as the wastes remain hazardous.

(6)(A) If the Administrator fails (by the date forty-five months after November 8, 1984) to promulgate regulations or make a determination under paragraph (5) for any hazardous waste which is included in the first one-third of the schedule published under this subsection, such hazardous waste may be disposed of in a landfill or surface impoundment only if—

(i) such facility is in compliance with the requirements of subsection (*o*) of this section which are applicable to new facilities (relating to minimum technological requirements); and

(ii) prior to such disposal, the generator has certified to the Administrator that such generator has investigated the availability of

[2] See References in Text note below.

treatment capacity and has determined that the use of such landfill or surface impoundment is the only practical alternative to treatment currently available to the generator.

The prohibition contained in this subparagraph shall continue to apply until the Administrator promulgates regulations or makes a determination under paragraph (5) for the waste concerned.

(B) If the Administrator fails (by the date 55 months after November 8, 1984) to promulgate regulations or make a determination under paragraph (5) for any hazardous waste which is included in the first two-thirds of the schedule published under this subsection, such hazardous waste may be disposed of in a landfill or surface impoundment only if—

(i) such facility is in compliance with the requirements of subsection (*o*) of this section which are applicable to new facilities (relating to minimum technological requirements); and

(ii) prior to such disposal, the generator has certified to the Administrator that such generator has investigated the availability of treatment capacity and has determined that the use of such landfill or surface impoundment is the only practical alternative to treatment currently available to the generator.

The prohibition contained in this subparagraph shall continue to apply until the Administrator promulgates regulations or makes a determination under paragraph (5) for the waste concerned.

(C) If the Administrator fails to promulgate regulations, or make a determination under paragraph (5) for any hazardous waste referred to in paragraph (1) within 66 months after November 8, 1984, such hazardous waste shall be prohibited from land disposal.

(7) Solid waste identified as hazardous based solely on one or more characteristics shall not be subject to this subsection, any prohibitions under subsection (d), (e), or (f) of this section, or any requirement promulgated under subsection (m) of this section (other than any applicable specific methods of treatment, as provided in paragraph (8)) if the waste—

(A) is treated in a treatment system that subsequently discharges to waters of the United States pursuant to a permit issued under section 1342 of title 33, treated for the purposes of the pretreatment requirements of section 1317 of title 33, or treated in a zero discharge system that, prior to any permanent land disposal, engages in treatment that is equivalent to treatment required under section 1342 of title 33 for discharges to waters of the United States, as determined by the Administrator; and

(B) no longer exhibits a hazardous characteristic prior to management in any land-based solid waste management unit.

(8) Solid waste that otherwise qualifies under paragraph (7) shall nevertheless be required to meet any applicable specific methods of treatment specified for such waste by the Administrator under subsection (m) of this section, including those specified in the rule promulgated by the Administrator June 1, 1990, prior to management in a land-based unit as part of a treatment system specified in paragraph (7)(A). No solid waste may qualify under paragraph (7) that would generate toxic gases, vapors, or fumes due to the presence of cyanide when exposed to pH conditions between 2.0 and 12.5.

(9) Solid waste identified as hazardous based on one or more characteristics alone shall not be subject to this subsection, any prohibitions under subsection (d), (e), or (f) of this section, or any requirement promulgated under subsection (m) of this section if the waste no longer exhibits a hazardous characteristic at the point of injection in any Class I injection well permitted under section 300h–1 of this title.

(10) Not later than five years after March 26, 1996, the Administrator shall complete a study of hazardous waste managed pursuant to paragraph (7) or (9) to characterize the risks to human health or the environment associated with such management. In conducting this study, the Administrator shall evaluate the extent to which risks are adequately addressed under existing State or Federal programs and whether unaddressed risks could be better addressed under such laws or programs. Upon receipt of additional information or upon completion of such study and as necessary to protect human health and the environment, the Administrator may impose additional requirements under existing Federal laws, including subsection (m)(1) of this section, or rely on other State or Federal programs or authorities to address such risks. In promulgating any treatment standards pursuant to subsection (m)(1) of this section under the previous sentence, the Administrator shall take into account the extent to which treatment is occurring in land-based units as part of a treatment system specified in paragraph (7)(A).

(11) Nothing in paragraph (7) or (9) shall be interpreted or applied to restrict any inspection or enforcement authority under the provisions of this chapter.

(h) Variance from land disposal prohibitions

(1) A prohibition in regulations under subsection (d), (e), (f), or (g) of this section shall be effective immediately upon promulgation.

(2) The Administrator may establish an effective date different from the effective date which would otherwise apply under subsection (d), (e), (f), or (g) of this section with respect to a specific hazardous waste which is subject to a prohibition under subsection (d), (e), (f), or (g) of this section or under regulations under subsection (d), (e), (f), or (g) of this section. Any such other effective date shall be established on the basis of the earliest date on which adequate alternative treatment, recovery, or disposal capacity which protects human health and the environment will be available. Any such other effective date shall in no event be later than 2 years after the effective date of the prohibition which would otherwise apply under subsection (d), (e), (f), or (g) of this section.

(3) The Administrator, after notice and opportunity for comment and after consultation with appropriate State agencies in all affected States, may on a case-by-case basis grant an ex-

tension of the effective date which would otherwise apply under subsection (d), (e), (f), or (g) of this section or under paragraph (2) for up to one year, where the applicant demonstrates that there is a binding contractual commitment to construct or otherwise provide such alternative capacity but due to circumstances beyond the control of such applicant such alternative capacity cannot reasonably be made available by such effective date. Such extension shall be renewable once for no more than one additional year.

(4) Whenever another effective date (hereinafter referred to as a ''variance'') is established under paragraph (2), or an extension is granted under paragraph (3), with respect to any hazardous waste, during the period for which such variance or extension is in effect, such hazardous waste may be disposed of in a landfill or surface impoundment only if such facility is in compliance with the requirements of subsection (*o*) of this section.

(i) Publication of determination

If the Administrator determines that a method of land disposal will be protective of human health and the environment, he shall promptly publish in the Federal Register notice of such determination, together with an explanation of the basis for such determination.

(j) Storage of hazardous waste prohibited from land disposal

In the case of any hazardous waste which is prohibited from one or more methods of land disposal under this section (or under regulations promulgated by the Administrator under any provision of this section) the storage of such hazardous waste is prohibited unless such storage is solely for the purpose of the accumulation of such quantities of hazardous waste as are necessary to facilitate proper recovery, treatment or disposal.

(k) "Land disposal" defined

For the purposes of this section, the term ''land disposal'', when used with respect to a specified hazardous waste, shall be deemed to include, but not be limited to, any placement of such hazardous waste in a landfill, surface impoundment, waste pile, injection well, land treatment facility, salt dome formation, salt bed formation, or underground mine or cave.

(*l*) Ban on dust suppression

The use of waste or used oil or other material, which is contaminated or mixed with dioxin or any other hazardous waste identified or listed under section 6921 of this title (other than a waste identified solely on the basis of ignitability), for dust suppression or road treatment is prohibited.

(m) Treatment standards for wastes subject to land disposal prohibition

(1) Simultaneously with the promulgation of regulations under subsection (d), (e), (f), or (g) of this section prohibiting one or more methods of land disposal of a particular hazardous waste, and as appropriate thereafter, the Administrator shall, after notice and an opportunity for hearings and after consultation with appropriate Federal and State agencies, promulgate regulations specifying those levels or methods of treatment, if any, which substantially diminish the toxicity of the waste or substantially reduce the likelihood of migration of hazardous constituents from the waste so that short-term and long-term threats to human health and the environment are minimized.

(2) If such hazardous waste has been treated to the level or by a method specified in regulations promulgated under this subsection, such waste or residue thereof shall not be subject to any prohibition promulgated under subsection (d), (e), (f), or (g) of this section and may be disposed of in a land disposal facility which meets the requirements of this subchapter. Any regulation promulgated under this subsection for a particular hazardous waste shall become effective on the same date as any applicable prohibition promulgated under subsection (d), (e), (f), or (g) of this section.

(n) Air emissions

Not later than thirty months after November 8, 1984, the Administrator shall promulgate such regulations for the monitoring and control of air emissions at hazardous waste treatment, storage, and disposal facilities, including but not limited to open tanks, surface impoundments, and landfills, as may be necessary to protect human health and the environment.

(*o*) Minimum technological requirements

(1) The regulations under subsection (a) of this section shall be revised from time to time to take into account improvements in the technology of control and measurement. At a minimum, such regulations shall require, and a permit issued pursuant to section 6925(c) of this title after November 8, 1984, by the Administrator or a State shall require—

(A) for each new landfill or surface impoundment, each new landfill or surface impoundment unit at an existing facility, each replacement of an existing landfill or surface impoundment unit, and each lateral expansion of an existing landfill or surface impoundment unit, for which an application for a final determination regarding issuance of a permit under section 6925(c) of this title is received after November 8, 1984—

(i) the installation of two or more liners and a leachate collection system above (in the case of a landfill) and between such liners; and

(ii) ground water monitoring; and

(B) for each incinerator which receives a permit under section 6925(c) of this title after November 8, 1984, the attainment of the minimum destruction and removal efficiency required by regulations in effect on June 24, 1982.

The requirements of this paragraph shall apply with respect to all waste received after the issuance of the permit.

(2) Paragraph (1)(A)(i) shall not apply if the owner or operator demonstrates to the Administrator, and the Administrator finds for such landfill or surface impoundment, that alternative design and operating practices, together with location characteristics, will prevent the migration of any hazardous constituents into the ground water or surface water at least as ef-

fectively as such liners and leachate collection systems.

(3) The double-liner requirement set forth in paragraph (1)(A)(i) may be waived by the Administrator for any monofill, if—

(A) such monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand,

(B) such wastes do not contain constituents which would render the wastes hazardous for reasons other than the Extraction Procedure (''EP'') toxicity characteristics set forth in regulations under this subchapter, and

(C) such monofill meets the same requirements as are applicable in the case of a waiver under section 6925(j)(2) or (4) of this title.

(4)(A) Not later than thirty months after November 8, 1984, the Administrator shall promulgate standards requiring that new landfill units, surface impoundment units, waste piles, underground tanks and land treatment units for the storage, treatment, or disposal of hazardous waste identified or listed under section 6921 of this title shall be required to utilize approved leak detection systems.

(B) For the purposes of subparagraph (A)—

(i) the term ''approved leak detection system'' means a system or technology which the Administrator determines to be capable of detecting leaks of hazardous constituents at the earliest practicable time; and

(ii) the term ''new units'' means units on which construction commences after the date of promulgation of regulations under this paragraph.

(5)(A) The Administrator shall promulgate regulations or issue guidance documents implementing the requirements of paragraph (1)(A) within two years after November 8, 1984.

(B) Until the effective date of such regulations or guidance documents, the requirement for the installation of two or more liners may be satisfied by the installation of a top liner designed, operated, and constructed of materials to prevent the migration of any constituent into such liner during the period such facility remains in operation (including any post-closure monitoring period), and a lower liner designed, operated[3] and constructed to prevent the migration of any constituent through such liner during such period. For the purpose of the preceding sentence, a lower liner shall be deemed to satisfy such requirement if it is constructed of at least a 3-foot thick layer of recompacted clay or other natural material with a permeability of no more than 1×10^{-7} centimeter per second.

(6) Any permit under section 6925 of this title which is issued for a landfill located within the State of Alabama shall require the installation of two or more liners and a leachate collection system above and between such liners, notwithstanding any other provision of this chapter.

(7) In addition to the requirements set forth in this subsection, the regulations referred to in paragraph (1) shall specify criteria for the acceptable location of new and existing treatment, storage, or disposal facilities as necessary to protect human health and the environment. Within 18 months after November 8, 1984, the Administrator shall publish guidance criteria identifying areas of vulnerable hydrogeology.

(p) Ground water monitoring

The standards under this section concerning ground water monitoring which are applicable to surface impoundments, waste piles, land treatment units, and landfills shall apply to such a facility whether or not—

(1) the facility is located above the seasonal high water table;

(2) two liners and a leachate collection system have been installed at the facility; or

(3) the owner or operator inspects the liner (or liners) which has been installed at the facility.

This subsection shall not be construed to affect other exemptions or waivers from such standards provided in regulations in effect on November 8, 1984, or as may be provided in revisions to those regulations, to the extent consistent with this subsection. The Administrator is authorized on a case-by-case basis to exempt from ground water monitoring requirements under this section (including subsection (*o*) of this section) any engineered structure which the Administrator finds does not receive or contain liquid waste (nor waste containing free liquids), is designed and operated to exclude liquid from precipitation or other runoff, utilizes multiple leak detection systems within the outer layer of containment, and provides for continuing operation and maintenance of these leak detection systems during the operating period, closure, and the period required for post-closure monitoring and for which the Administrator concludes on the basis of such findings that there is a reasonable certainty hazardous constituents will not migrate beyond the outer layer of containment prior to the end of the period required for post-closure monitoring.

(q) Hazardous waste used as fuel

(1) Not later than two years after November 8, 1984, and after notice and opportunity for public hearing, the Administrator shall promulgate regulations establishing such—

(A) standards applicable to the owners and operators of facilities which produce a fuel—

(i) from any hazardous waste identified or listed under section 6921 of this title, or

(ii) from any hazardous waste identified or listed under section 6921 of this title and any other material;

(B) standards applicable to the owners and operators of facilities which burn, for purposes of energy recovery, any fuel produced as provided in subparagraph (A) or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title; and

(C) standards applicable to any person who distributes or markets any fuel which is produced as provided in subparagraph (A) or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title;

as may be necessary to protect human health and the environment. Such standards may in-

[3] So in original. Probably should be followed by a comma.

clude any of the requirements set forth in paragraphs (1) through (7) of subsection (a) of this section as may be appropriate. Nothing in this subsection shall be construed to affect or impair the provisions of section 6921(b)(3) of this title. For purposes of this subsection, the term ''hazardous waste listed under section 6921 of this title'' includes any commercial chemical product which is listed under section 6921 of this title and which, in lieu of its original intended use, is (i) produced for use as (or as a component of) a fuel, (ii) distributed for use as a fuel, or (iii) burned as a fuel.

(2)(A) This subsection, subsection (r) of this section, and subsection (s) of this section shall not apply to petroleum refinery wastes containing oil which are converted into petroleum coke at the same facility at which such wastes were generated, unless the resulting coke product would exceed one or more characteristics by which a substance would be identified as a hazardous waste under section 6921 of this title.

(B) The Administrator may exempt from the requirements of this subsection, subsection (r) of this section, or subsection (s) of this section facilities which burn de minimis quantities of hazardous waste as fuel, as defined by the Administrator, if the wastes are burned at the same facility at which such wastes are generated; the waste is burned to recover useful energy, as determined by the Administrator on the basis of the design and operating characteristics of the facility and the heating value and other characteristics of the waste; and the waste is burned in a type of device determined by the Administrator to be designed and operated at a destruction and removal efficiency sufficient such that protection of human health and environment is assured.

(C)(i) After November 8, 1984, and until standards are promulgated and in effect under paragraph (2) of this subsection, no fuel which contains any hazardous waste may be burned in any cement kiln which is located within the boundaries of any incorporated municipality with a population greater than five hundred thousand (based on the most recent census statistics) unless such kiln fully complies with regulations (as in effect on November 8, 1984) under this subchapter which are applicable to incinerators.

(ii) Any person who knowingly violates the prohibition contained in clause (i) shall be deemed to have violated section 6928(d)(2) of this title.

(r) Labeling

(1) Notwithstanding any other provision of law, until such time as the Administrator promulgates standards under subsection (q) of this section specifically superceding this requirement, it shall be unlawful for any person who is required to file a notification in accordance with paragraph (1) or (3) of section 6930 of this title to distribute or market any fuel which is produced from any hazardous waste identified or listed under section 6921 of this title, or any fuel which otherwise contains any hazardous waste identified or listed under section 6921 of this title if the invoice or the bill of sale fails—

(A) to bear the following statement: ''WARNING: THIS FUEL CONTAINS HAZARDOUS WASTES'', and

(B) to list the hazardous wastes contained therein.

Beginning ninety days after November 8, 1984, such statement shall be located in a conspicuous place on every such invoice or bill of sale and shall appear in conspicuous and legible type in contrast by typography, layouts, or color with other printed matter on the invoice or bill of sale.

(2) Unless the Administrator determines otherwise as may be necessary to protect human health and the environment, this subsection shall not apply to fuels produced from petroleum refining waste containing oil if—

(A) such materials are generated and reinserted onsite into the refining process;

(B) contaminants are removed; and

(C) such refining waste containing oil is converted along with normal process streams into petroleum-derived fuel products at a facility at which crude oil is refined into petroleum products and which is classified as a number SIC 2911 facility under the Office of Management and Budget Standard Industrial Classification Manual.

(3) Unless the Administrator determines otherwise as may be necessary to protect human health and the environment, this subsection shall not apply to fuels produced from oily materials, resulting from normal petroleum refining, production and transportation practices, if (A) contaminants are removed; and (B) such oily materials are converted along with normal process streams into petroleum-derived fuel products at a facility at which crude oil is refined into petroleum products and which is classified as a number SIC 2911 facility under the Office of Management and Budget Standard Industrial Classification Manual.

(s) Recordkeeping

Not later than fifteen months after November 8, 1984, the Administrator shall promulgate regulations requiring that any person who is required to file a notification in accordance with subparagraph (1), (2), or (3), of section 6930(a) of this title shall maintain such records regarding fuel blending, distribution, or use as may be necessary to protect human health and the environment.

(t) Financial responsibility provisions

(1) Financial responsibility required by subsection (a) of this section may be established in accordance with regulations promulgated by the Administrator by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In promulgating requirements under this section, the Administrator is authorized to specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing such evidence of financial responsibility in order to effectuate the purposes of this chapter.

(2) In any case where the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the Federal Bankruptcy Code or where (with reasonable diligence) jurisdiction in any State court or any Federal Court cannot be obtained over an owner or operator likely to be

solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this section may be asserted directly against the guarantor providing such evidence of financial responsibility. In the case of any action pursuant to this subsection, such guarantor shall be entitled to invoke all rights and defenses which would have been available to the owner or operator if any action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

(3) The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this chapter. Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed to diminish the liability of any person under section 9607 or 9611 of this title or other applicable law.

(4) For the purpose of this subsection, the term ''guarantor'' means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this section.

(u) Continuing releases at permitted facilities

Standards promulgated under this section shall require, and a permit issued after November 8, 1984, by the Administrator or a State shall require, corrective action for all releases of hazardous waste or constituents from any solid waste management unit at a treatment, storage, or disposal facility seeking a permit under this subchapter, regardless of the time at which waste was placed in such unit. Permits issued under section 6925 of this title shall contain schedules of compliance for such corrective action (where such corrective action cannot be completed prior to issuance of the permit) and assurances of financial responsibility for completing such corrective action.

(v) Corrective action beyond facility boundary

As promptly as practicable after November 8, 1984, the Administrator shall amend the standards under this section regarding corrective action required at facilities for the treatment, storage, or disposal, of hazardous waste listed or identified under section 6921 of this title to require that corrective action be taken beyond the facility boundary where necessary to protect human health and the environment unless the owner or operator of the facility concerned demonstrates to the satisfaction of the Administrator that, despite the owner or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake such action. Such regulations shall take effect immediately upon promulgation, notwithstanding section 6930(b) of this title, and shall apply to—

(1) all facilities operating under permits issued under subsection (c) of this section, and

(2) all landfills, surface impoundments, and waste pile units (including any new units, replacements of existing units, or lateral expansions of existing units) which receive hazardous waste after July 26, 1982.

Pending promulgation of such regulations, the Administrator shall issue corrective action orders for facilities referred to in paragraphs (1) and (2), on a case-by-case basis, consistent with the purposes of this subsection.

(w) Underground tanks

Not later than March 1, 1985, the Administrator shall promulgate final permitting standards under this section for underground tanks that cannot be entered for inspection. Within forty-eight months after November 8, 1984, such standards shall be modified, if necessary, to cover at a minimum all requirements and standards described in section 6991b of this title.

(x) Mining and other special wastes

If (1) solid waste from the extraction, beneficiation or processing of ores and minerals, including phosphate rock and overburden from the mining of uranium, (2) fly ash waste, bottom ash waste, slag waste, and flue gas emission control waste generated primarily from the combustion of coal or other fossil fuels, or (3) cement kiln dust waste, is subject to regulation under this subchapter, the Administrator is authorized to modify the requirements of subsections (c), (d), (e), (f), (g), (*o*), and (u) of this section and section 6925(j) of this title, in the case of landfills or surface impoundments receiving such solid waste, to take into account the special characteristics of such wastes, the practical difficulties associated with implementation of such requirements, and site-specific characteristics, including but not limited to the climate, geology, hydrology and soil chemistry at the site, so long as such modified requirements assure protection of human health and the environment.

(y) Munitions

(1) Not later than 6 months after October 6, 1992, the Administrator shall propose, after consulting with the Secretary of Defense and appropriate State officials, regulations identifying when military munitions become hazardous waste for purposes of this subchapter and providing for the safe transportation and storage of such waste. Not later than 24 months after October 6, 1992, and after notice and opportunity for comment, the Administrator shall promulgate such regulations. Any such regulations shall assure protection of human health and the environment.

(2) For purposes of this subsection, the term ''military munitions'' includes chemical and conventional munitions.

(Pub. L. 89–272, title II, §3004, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2807; amended Pub. L. 96–482, §9, Oct. 21, 1980, 94 Stat. 2338; Pub. L. 98–616, title II, §§201(a), 202(a), 203, 204(b)(1), 205–209, Nov. 8, 1984, 98 Stat. 3226, 3233, 3234, 3236, 3238–3240; Pub. L. 102–386, title I, §107, Oct. 6, 1992, 106 Stat. 1513; Pub. L. 104–119, §§2, 4(2)–(5), Mar. 26, 1996, 110 Stat. 830, 833.)

REFERENCES IN TEXT

Section 6922(5) of this title, referred to in subsec. (a)(2), was redesignated section 6922(a)(5) of this title, by Pub. L. 98–616, title II, §224(a)(1), Nov. 8, 1984, 98 Stat. 3253.

The Safe Drinking Water Act, referred to in subsec. (c)(3), is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, §2(a), 88 Stat. 1660, as amended, which is classified generally to subchapter XII (§300f et seq.) of chapter 6A of this title. For complete classification of this Act to the Code see Short Title note set out under section 201 of this title and Tables.

Section 6979a of this title, referred to in subsec. (f)(4), was in the original a reference to section 7010 of Pub. L. 89–272, which was renumbered section 3020 of Pub. L. 89–272 by Pub. L. 99–339, title II, §201(c), June 19, 1986, 100 Stat. 654, and transferred to section 6939b of this title.

The Paperwork Reduction Act of 1980, referred to in subsec. (g)(3), is Pub. L. 96–511, Dec. 11, 1980, 94 Stat. 2812, as amended, which was classified principally to chapter 35 (§3501 et seq.) of Title 44, Public Printing and Documents, prior to the general amendment of that chapter by Pub. L. 104–13, §2, May 22, 1995, 109 Stat. 163. For complete classification of this Act to the Code, see Short Title of 1980 Amendment note set out under section 101 of Title 44 and Tables.

The Federal Bankruptcy Code, referred to in subsec. (t)(2), probably means a reference to Title 11, Bankruptcy.

AMENDMENTS

1996—Subsec. (g)(5). Pub. L. 104–119, §4(3), substituted ''subparagraphs (A) through (C)'' for ''subparagraph (A) through (C)''.

Subsec. (g)(7) to (11). Pub. L. 104–119, §2, added pars. (7) to (11).

Subsec. (q)(1)(C). Pub. L. 104–119, §4(2), inserted a semicolon at end of subpar. (C).

Subsec. (r)(2)(C). Pub. L. 104–119, §4(4), substituted ''petroleum-derived'' for ''pertroleum-derived''.

Subsec. (r)(3). Pub. L. 104–119, §4(5), inserted ''Industrial'' after ''Standard''.

1992—Subsec. (y). Pub. L. 102–386 added subsec. (y).

1984—Subsec. (a). Pub. L. 98–616, §201(a), designated existing provisions as subsec. (a).

Subsec. (a)(6). Pub. L. 98–616, §208, inserted ''(including financial responsibility for corrective action)''.

Subsecs. (b) to (n). Pub. L. 98–616, §201(a), added subsecs. (b) to (n).

Subsec. (*o*). Pub. L. 98–616, §202(a), added subsec. (*o*).

Subsec. (p). Pub. L. 98–616, §203, added subsec. (p).

Subsecs. (q) to (s). Pub. L. 98–616, §204(b)(1), added subsecs. (q) to (s).

Subsec. (t). Pub. L. 98–616, §205, added subsec. (t).

Subsec. (u). Pub. L. 98–616, §206, added subsec. (u).

Subsecs. (v), (w). Pub. L. 98–616, §207, added subsecs. (v) and (w).

Subsec. (x). Pub. L. 98–616, §209, added subsec. (x).

1980—Pub. L. 96–482 required standards regulations to reflect distinction in requirements appropriate for new facilities and for facilities in existence on date of promulgation of the regulations.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6925, 6926, 6935, 6936, 6939c, 6939e, 6971, 9601, 9621, 9622 of this title; title 10 section 2708; title 26 section 4662.

§6925. Permits for treatment, storage, or disposal of hazardous waste

(a) Permit requirements

Not later than eighteen months after October 21, 1976, the Administrator shall promulgate regulations requiring each person owning or operating an existing facility or planning to construct a new facility for the treatment, storage, or disposal of hazardous waste identified or listed under this subchapter to have a permit issued pursuant to this section. Such regulations shall take effect on the date provided in section 6930 of this title and upon and after such date the treatment, storage, or disposal of any such hazardous waste and the construction of any new facility for the treatment, storage, or disposal of any such hazardous waste is prohibited except in accordance with such a permit. No permit shall be required under this section in order to construct a facility if such facility is constructed pursuant to an approval issued by the Administrator under section 2605(e) of title 15 for the incineration of polychlorinated biphenyls and any person owning or operating such a facility may, at any time after operation or construction of such facility has begun, file an application for a permit pursuant to this section authorizing such facility to incinerate hazardous waste identified or listed under this subchapter.

(b) Requirements of permit application

Each application for a permit under this section shall contain such information as may be required under regulations promulgated by the Administrator, including information respecting—

(1) estimates with respect to the composition, quantities, and concentrations of any hazardous waste identified or listed under this subchapter, or combinations of any such hazardous waste and any other solid waste, proposed to be disposed of, treated, transported, or stored, and the time, frequency, or rate of which such waste is proposed to be disposed of, treated, transported, or stored; and

(2) the site at which such hazardous waste or the products of treatment of such hazardous waste will be disposed of, treated, transported to, or stored.

(c) Permit issuance

(1) Upon a determination by the Administrator (or a State, if applicable), of compliance by a facility for which a permit is applied for under this section with the requirements of this section and section 6924 of this title, the Administrator (or the State) shall issue a permit for such facilities. In the event permit applicants propose modification of their facilities, or in the event the Administrator (or the State) determines that modifications are necessary to conform to the requirements under this section and section 6924 of this title, the permit shall specify the time allowed to complete the modifications.

(2)(A)(i) Not later than the date four years after November 8, 1984, in the case of each application under this subsection for a permit for a land disposal facility which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(ii) Not later than the date five years after November 8, 1984, in the case of each application for a permit under this subsection for an incinerator facility which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(B) Not later than the date eight years after November 8, 1984, in the case of each application for a permit under this subsection for any facility (other than a facility referred to in subparagraph (A)) which was submitted before such date, the Administrator shall issue a final permit pursuant to such application or issue a final denial of such application.

(C) The time periods specified in this paragraph shall also apply in the case of any State which is administering an authorized hazardous waste program under section 6926 of this title. Interim status under subsection (e) of this section shall terminate for each facility referred to in subparagraph (A)(ii) or (B) on the expiration of the five- or eight-year period referred to in subparagraph (A) or (B), whichever is applicable, unless the owner or operator of the facility applies for a final determination regarding the issuance of a permit under this subsection within—

(i) two years after November 8, 1984 (in the case of a facility referred to in subparagraph (A)(ii)), or

(ii) four years after November 8, 1984 (in the case of a facility referred to in subparagraph (B)).

(3) Any permit under this section shall be for a fixed term, not to exceed 10 years in the case of any land disposal facility, storage facility, or incinerator or other treatment facility. Each permit for a land disposal facility shall be reviewed five years after date of issuance or reissuance and shall be modified as necessary to assure that the facility continues to comply with the currently applicable requirements of this section and section 6924 of this title. Nothing in this subsection shall preclude the Administrator from reviewing and modifying a permit at any time during its term. Review of any application for a permit renewal shall consider improvements in the state of control and measurement technology as well as changes in applicable regulations. Each permit issued under this section shall contain such terms and conditions as the Administrator (or the State) determines necessary to protect human health and the environment.

(d) Permit revocation

Upon a determination by the Administrator (or by a State, in the case of a State having an authorized hazardous waste program under section 6926 of this title) of noncompliance by a facility having a permit under this chapter with the requirements of this section or section 6924 of this title, the Administrator (or State, in the case of a State having an authorized hazardous waste program under section 6926 of this title) shall revoke such permit.

(e) Interim status

(1) Any person who—

(A) owns or operates a facility required to have a permit under this section which facility—

(i) was in existence on November 19, 1980, or

(ii) is in existence on the effective date of statutory or regulatory changes under this chapter that render the facility subject to the requirement to have a permit under this section,

(B) has complied with the requirements of section 6930(a) of this title, and

(C) has made an application for a permit under this section,

shall be treated as having been issued such permit until such time as final administrative disposition of such application is made, unless the Administrator or other plaintiff proves that final administrative disposition of such application has not been made because of the failure of the applicant to furnish information reasonably required or requested in order to process the application. This paragraph shall not apply to any facility which has been previously denied a permit under this section or if authority to operate the facility under this section has been previously terminated.

(2) In the case of each land disposal facility which has been granted interim status under this subsection before November 8, 1984, interim status shall terminate on the date twelve months after November 8, 1984, unless the owner or operator of such facility—

(A) applies for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility before the date twelve months after November 8, 1984; and

(B) certifies that such facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(3) In the case of each land disposal facility which is in existence on the effective date of statutory or regulatory changes under this chapter that render the facility subject to the requirement to have a permit under this section and which is granted interim status under this subsection, interim status shall terminate on the date twelve months after the date on which the facility first becomes subject to such permit requirement unless the owner or operator of such facility—

(A) applies for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility before the date twelve months after the date on which the facility first becomes subject to such permit requirement; and

(B) certifies that such facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(f) Coal mining wastes and reclamation permits

Notwithstanding subsection (a) through (e) of this section, any surface coal mining and reclamation permit covering any coal mining wastes or overburden which has been issued or approved under the Surface Mining Control and Reclamation Act of 1977 [30 U.S.C. 1201 et seq.] shall be deemed to be a permit issued pursuant to this section with respect to the treatment,

storage, or disposal of such wastes or overburden. Regulations promulgated by the Administrator under this subchapter shall not be applicable to treatment, storage, or disposal of coal mining wastes and overburden which are covered by such a permit.

(g) Research, development, and demonstration permits

(1) The Administrator may issue a research, development, and demonstration permit for any hazardous waste treatment facility which proposes to utilize an innovative and experimental hazardous waste treatment technology or process for which permit standards for such experimental activity have not been promulgated under this subchapter. Any such permit shall include such terms and conditions as will assure protection of human health and the environment. Such permits—

(A) shall provide for the construction of such facilities, as necessary, and for operation of the facility for not longer than one year (unless renewed as provided in paragraph (4)), and

(B) shall provide for the receipt and treatment by the facility of only those types and quantities of hazardous waste which the Administrator deems necessary for purposes of determining the efficacy and performance capabilities of the technology or process and the effects of such technology or process on human health and the environment, and

(C) shall include such requirements as the Administrator deems necessary to protect human health and the environment (including, but not limited to, requirements regarding monitoring, operation, insurance or bonding, financial reponsibility,[1] closure, and remedial action), and such requirements as the Administrator deems necessary regarding testing and providing of information to the Administrator with respect to the operation of the facility.

The Administrator may apply the criteria set forth in this paragraph in establishing the conditions of each permit without separate establishment of regulations implementing such criteria.

(2) For the purpose of expediting review and issuance of permits under this subsection, the Administrator may, consistent with the protection of human health and the environment, modify or waive permit application and permit issuance requirements established in the Administrator's general permit regulations except that there may be no modification or waiver of regulations regarding financial responsibility (including insurance) or of procedures established under section 6974(b)(2) of this title regarding public participation.

(3) The Administrator may order an immediate termination of all operations at the facility at any time he determines that termination is necessary to protect human health and the environment.

(4) Any permit issued under this subsection may be renewed not more than three times. Each such renewal shall be for a period of not more than 1 year.

[1] So in original. Probably should be ''responsibility''.

(h) Waste minimization

Effective September 1, 1985, it shall be a condition of any permit issued under this section for the treatment, storage, or disposal of hazardous waste on the premises where such waste was generated that the permittee certify, no less often than annually, that—

(1) the generator of the hazardous waste has a program in place to reduce the volume or quantity and toxicity of such waste to the degree determined by the generator to be economically practicable; and

(2) the proposed method of treatment, storage, or disposal is that practicable method currently available to the generator which minimizes the present and future threat to human health and the environment.

(i) Interim status facilities receiving wastes after July 26, 1982

The standards concerning ground water monitoring, unsaturated zone monitoring, and corrective action, which are applicable under section 6924 of this title to new landfills, surface impoundments, land treatment units, and waste-pile units required to be permitted under subsection (c) of this section shall also apply to any landfill, surface impoundment, land treatment unit, or waste-pile unit qualifying for the authorization to operate under subsection (e) of this section which receives hazardous waste after July 26, 1982.

(j) Interim status surface impoundments

(1) Except as provided in paragraph (2), (3), or (4), each surface impoundment in existence on November 8, 1984, and qualifying for the authorization to operate under subsection (e) of this section shall not receive, store, or treat hazardous waste after the date four years after November 8, 1984, unless such surface impoundment is in compliance with the requirements of section 6924(*o*)(1)(A) of this title which would apply to such impoundment if it were new.

(2) Paragraph (1) of this subsection shall not apply to any surface impoundment which (A) has at least one liner, for which there is no evidence that such liner is leaking; (B) is located more than one-quarter mile from an underground source of drinking water; and (C) is in compliance with generally applicable ground water monitoring requirements for facilities with permits under subsection (c) of this section.

(3) Paragraph (1) of this subsection shall not apply to any surface impoundment which (A) contains treated waste water during the secondary or subsequent phases of an aggressive biological treatment facility subject to a permit issued under section 1342 of title 33 (or which holds such treated waste water after treatment and prior to discharge); (B) is in compliance with generally applicable ground water monitoring requirements for facilities with permits under subsection (c) of this section; and (C)(i) is part of a facility in compliance with section 1311(b)(2) of title 33, or (ii) in the case of a facility for which no effluent guidelines required under section 1314(b)(2) of title 33 are in effect and no permit under section 1342(a)(1) of title 33 implementing section 1311(b)(2) of title 33 has

been issued, is part of a facility in compliance with a permit under section 1342 of title 33, which is achieving significant degradation of toxic pollutants and hazardous constituents contained in the untreated waste stream and which has identified those toxic pollutants and hazardous constituents in the untreated waste stream to the appropriate permitting authority.

(4) The Administrator (or the State, in the case of a State with an authorized program), after notice and opportunity for comment, may modify the requirements of paragraph (1) for any surface impoundment if the owner or operator demonstrates that such surface impoundment is located, designed and operated so as to assure that there will be no migration of any hazardous constitutent[2] into ground water or surface water at any future time. The Administrator or the State shall take into account locational criteria established under section 6924(*o*)(7) of this title.

(5) The owner or operator of any surface impoundment potentially subject to paragraph (1) who has reason to believe that on the basis of paragraph (2), (3), or (4) such surface impoundment is not required to comply with the requirements of paragraph (1), shall apply to the Administrator (or the State, in the case of a State with an authorized program) not later than twenty-four months after November 8, 1984, for a determination of the applicability of paragraph (1) (in the case of paragraph (2) or (3)) or for a modification of the requirements of paragraph (1) (in the case of paragraph (4)), with respect to such surface impoundment. Such owner or operator shall provide, with such application, evidence pertinent to such decision, including:

(A) an application for a final determination regarding the issuance of a permit under subsection (c) of this section for such facility, if not previously submitted;

(B) evidence as to compliance with all applicable ground water monitoring requirements and the information and analysis from such monitoring;

(C) all reasonably ascertainable evidence as to whether such surface impoundment is leaking; and

(D) in the case of applications under paragraph (2) or (3), a certification by a registered professional engineer with academic training and experience in ground water hydrology that—

(i) under paragraph (2), the liner of such surface impoundment is designed, constructed, and operated in accordance with applicable requirements, such surface impoundment is more than one-quarter mile from an underground source of drinking water and there is no evidence such liner is leaking; or

(ii) under paragraph (3), based on analysis of those toxic pollutants and hazardous constituents that are likely to be present in the untreated waste stream, such impoundment satisfies the conditions of paragraph (3).

In the case of any surface impoundment for which the owner or operator fails to apply under this paragraph within the time provided by this paragraph or paragraph (6), such surface impoundment shall comply with paragraph (1) notwithstanding paragraph (2), (3), or (4). Within twelve months after receipt of such application and evidence and not later than thirty-six months after November 8, 1984, and after notice and opportunity to comment, the Administrator (or, if appropriate, the State) shall advise such owner or operator on the applicability of paragraph (1) to such surface impoundment or as to whether and how the requirements of paragraph (1) shall be modified and applied to such surface impoundment.

(6)(A) In any case in which a surface impoundment becomes subject to paragraph (1) after November 8, 1984, due to the promulgation of additional listings or characteristics for the identification of hazardous waste under section 6921 of this title, the period for compliance in paragraph (1) shall be four years after the date of such promulgation, the period for demonstrations under paragraph (4) and for submission of evidence under paragraph (5) shall be not later than twenty-four months after the date of such promulgation, and the period for the Administrator (or if appropriate, the State) to advise such owners or operators under paragraph (5) shall be not later than thirty-six months after the date of promulgation.

(B) In any case in which a surface impoundment is initially determined to be excluded from the requirements of paragraph (1) but due to a change in condition (including the existence of a leak) no longer satisfies the provisions of paragraph (2), (3), or (4) and therefore becomes subject to paragraph (1), the period for compliance in paragraph (1) shall be two years after the date of discovery of such change of condition, or in the case of a surface impoundment excluded under paragraph (3) three years after such date of discovery.

(7)(A) The Administrator shall study and report to the Congress on the number, range of size, construction, likelihood of hazardous constituents migrating into ground water, and potential threat to human health and the environment of existing surface impoundments excluded by paragraph (3) from the requirements of paragraph (1). Such report shall address the need, feasibility, and estimated costs of subjecting such existing surface impoundments to the requirements of paragraph (1).

(B) In the case of any existing surface impoundment or class of surface impoundments from which the Administrator (or the State, in the case of a State with an authorized program) determines hazardous constituents are likely to migrate into ground water, the Administrator (or if appropriate, the State) is authorized to impose such requirements as may be necessary to protect human health and the environment, including the requirements of section 6924(*o*) of this title which would apply to such impoundments if they were new.

(C) In the case of any surface impoundment excluded by paragraph (3) from the requirements of paragraph (1) which is subsequently determined to be leaking, the Administrator (or, if appropriate, the State) shall require compliance with paragraph (1), unless the Administrator (or,

[2] So in original. Probably should be ''constituent''.

if appropriate, the State) determines that such compliance is not necessary to protect human health and the environment.

(8) In the case of any surface impoundment in which the liners and leak detection system have been installed pursuant to the requirements of paragraph (1) and in good faith compliance with section 6924(*o*) of this title and the Administrator's regulations and guidance documents governing liners and leak detection systems, no liner or leak detection system which is different from that which was so installed pursuant to paragraph (1) shall be required for such unit by the Administrator when issuing the first permit under this section to such facility. Nothing in this paragraph shall preclude the Administrator from requiring installation of a new liner when the Administrator has reason to believe that any liner installed pursuant to the requirements of this subsection is leaking.

(9) In the case of any surface impoundment which has been excluded by paragraph (2) on the basis of a liner meeting the definition under paragraph (12)(A)(ii), at the closure of such impoundment the Administrator shall require the owner or operator of such impoundment to remove or decontaminate all waste residues, all contaminated liner material, and contaminated soil to the extent practicable. If all contaminated soil is not removed or decontaminated, the owner or operator of such impoundment shall be required to comply with appropriate post-closure requirements, including but not limited to ground water monitoring and corrective action.

(10) Any incremental cost attributable to the requirements of this subsection or section 6924(*o*) of this title shall not be considered by the Administrator (or the State, in the case of a State with an authorized program under section 1342 of title 33)—

(A) in establishing effluent limitations and standards under section 1311, 1314, 1316, 1317, or 1342 of title 33 based on effluent limitations guidelines and standards promulgated any time before twelve months after November 8, 1984; or

(B) in establishing any other effluent limitations to carry out the provisions of section 1311, 1317, or 1342 of title 33 on or before October 1, 1986.

(11)(A) If the Administrator allows a hazardous waste which is prohibited from one or more methods of land disposal under subsection (d), (e), or (g) of section 6924 of this title (or under regulations promulgated by the Administrator under such subsections) to be placed in a surface impoundment (which is operating pursuant to interim status) for storage or treatment, such impoundment shall meet the requirements that are applicable to new surface impoundments under section 6924(*o*)(1) of this title, unless such impoundment meets the requirements of paragraph (2) or (4).

(B) In the case of any hazardous waste which is prohibited from one or more methods of land disposal under subsection (d), (e), or (g) of section 6924 of this title (or under regulations promulgated by the Administrator under such subsection) the placement or maintenance of such hazardous waste in a surface impoundment for treatment is prohibited as of the effective date of such prohibition unless the treatment residues which are hazardous are, at a minimum, removed for subsequent management within one year of the entry of the waste into the surface impoundment.

(12)(A) For the purposes of paragraph (2)(A) of this subsection, the term ''liner'' means—

(i) a liner designed, constructed, installed, and operated to prevent hazardous waste from passing into the liner at any time during the active life of the facility; or

(ii) a liner designed, constructed, installed, and operated to prevent hazardous waste from migrating beyond the liner to adjacent subsurface soil, ground water, or surface water at any time during the active life of the facility.

(B) For the purposes of this subsection, the term ''aggressive biological treatment facility'' means a system of surface impoundments in which the initial impoundment of the secondary treatment segment of the facility utilizes intense mechanical aeration to enhance biological activity to degrade waste water pollutants and

(i) the hydraulic retention time in such initial impoundment is no longer than 5 days under normal operating conditions, on an annual average basis;

(ii) the hydraulic retention time in such initial impoundment is no longer than thirty days under normal operating conditions, on an annual average basis: *Provided*, That the sludge in such impoundment does not constitute a hazardous waste as identified by the extraction procedure toxicity characteristic in effect on November 8, 1984; or

(iii) such system utilizes activated sludge treatment in the first portion of secondary treatment.

(C) For the purposes of this subsection, the term ''underground source or[3] drinking water'' has the same meaning as provided in regulations under the Safe Drinking Water Act (title XIV of the Public Health Service Act [42 U.S.C. 300f et seq.]).

(13) The Administrator may modify the requirements of paragraph (1) in the case of a surface impoundment for which the owner or operator, prior to October 1, 1984, has entered into, and is in compliance with, a consent order, decree, or agreement with the Administrator or a State with an authorized program mandating corrective action with respect to such surface impoundment that provides a degree of protection of human health and the environment which is at a minimum equivalent to that provided by paragraph (1).

AMENDMENTS

1996—Subsec. (a). Pub. L. 104–119, § 4(6), substituted ''polychlorinated'' for ''polycholorinated''.

Subsec. (e)(1)(C). Pub. L. 104–119, § 4(7), inserted comma at end of subpar. (C).

1984—Subsec. (a). Pub. L. 98–616, § 211, substituted ''an existing facility or planning to construct a new'' for ''a'', inserted ''and the construction of any new facility for the treatment, storage, or disposal of any such hazardous waste'', and inserted at end ''No permit shall be required under this section in order to construct a facility if such facility is constructed pursuant to an approval issued by the Administrator under section 2605(e) of title 15 for the incineration of polycholorinated [sic] biphenyls and any person owning or operating such a facility may, at any time after operation or construction of such facility has begun, file an application for a permit pursuant to this section authorizing such facility to incinerate hazardous waste identified or listed under this subchapter.''

Subsec. (c)(1), (2). Pub. L. 98–616, § 213(c), designated existing provisions as par. (1) and added par. (2).

Subsec. (c)(3). Pub. L. 98–616, § 212, added par. (3).

Subsec. (e). Pub. L. 98–616, § 213(a), designated existing provisions as par. (1), redesignated former pars. (1), (2), and (3) thereof as subpars. (A), (B), and (C), respectively, designated existing provisions of previously redesignated subpar. (A) as cl. (i) and added cl. (ii), inserted ''This paragraph shall not apply to any facility which has been previously denied a permit under this section or if authority to operate the facility under this section has been previously terminated.'' to closing provisions of par. (1), and added pars. (2) and (3).

Subsec. (g). Pub. L. 98–616, § 214(a), added subsec. (g).

Subsec. (h). Pub. L. 98–616, § 224(b), added subsec. (h).

Subsec. (i). Pub. L. 98–616, § 243(c), added subsec. (i).

Subsec. (j). Pub. L. 98–616, § 215, added subsec. (j).

1980—Subsec. (e)(1). Pub. L. 96–482, § 10, substituted ''November 19, 1980'' for ''October 21, 1976''.

Subsec. (f). Pub. L. 96–482, § 11, added subsec. (f).

1978—Subsec (a). Pub. L. 95–609 inserted ''treatment, storage, or'' after ''and after such date the''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6924, 6926, 6927, 6928, 6933, 6935, 6936, 6937, 6939a, 6945, 6974, 6976, 7429, 9601, 9607, 9620, 9621, 9622 of this title; title 10 section 2702; title 26 sections 4662, 9507.

§ 6926. Authorized State hazardous waste programs

(a) Federal guidelines

Not later than eighteen months after October 21, 1976, the Administrator, after consultation with State authorities, shall promulgate guidelines to assist States in the Development of State hazardous waste programs.

(b) Authorization of State program

Any State which seeks to administer and enforce a hazardous waste program pursuant to this subchapter may develop and, after notice and opportunity for public hearing, submit to the Administrator an application, in such form as he shall require, for authorization of such program. Within ninety days following submission of an application under this subsection, the Administrator shall issue a notice as to whether or not he expects such program to be authorized, and within ninety days following such notice (and after opportunity for public hearing) he shall publish his findings as to whether or not the conditions listed in items (1), (2), and (3) below have been met. Such State is authorized to carry out such program in lieu of the Federal program under this subchapter in such State and to issue and enforce permits for the storage, treatment, or disposal of hazardous waste (and to enforce permits deemed to have been issued under section 6935(d)(1)[1] of this title) unless, within ninety days following submission of the application the Administrator notifies such State that such program may not be authorized and, within ninety days following such notice and after opportunity for public hearing, he finds that (1) such State program is not equivalent to the Federal program under this subchapter, (2) such program is not consistent with the Federal or State programs applicable in other States, or (3) such program does not provide adequate enforcement of compliance with the requirements of this subchapter. In authorizing a State program, the Administrator may base his findings on the Federal program in effect one year prior to submission of a State's application or in effect on January 26, 1983, whichever is later.

(c) Interim authorization

(1) Any State which has in existence a hazardous waste program pursuant to State law before the date ninety days after the date of promulgation of regulations under sections 6922, 6923, 6924, and 6925 of this title, may submit to the Administrator evidence of such existing program and may request a temporary authorization to carry out such program under this subchapter. The Administrator shall, if the evidence submitted shows the existing State program to be substantially equivalent to the Federal program under this subchapter, grant an interim authorization to the State to carry out such program in lieu of the Federal program pursuant to this subchapter for a period ending no later than January 31, 1986.

(2) The Administrator shall, by rule, establish a date for the expiration of interim authorization under this subsection.

(3) Pending interim or final authorization of a State program for any State which reflects the amendments made by the Hazardous and Solid Waste Amendments of 1984, the State may enter into an agreement with the Administrator under which the State may assist in the administration of the requirements and prohibitions which take effect pursuant to such Amendments.

[1] See References in Text note below.

(4) In the case of a State permit program for any State which is authorized under subsection (b) of this section or under this subsection, until such program is amended to reflect the amendments made by the Hazardous and Solid Waste Amendments of 1984 and such program amendments receive interim or final authorization, the Administrator shall have the authority in such State to issue or deny permits or those portions of permits affected by the requirements and prohibitions established by the Hazardous and Solid Waste Amendments of 1984. The Administrator shall coordinate with States the procedures for issuing such permits.

(d) Effect of State permit

Any action taken by a State under a hazardous waste program authorized under this section shall have the same force and effect as action taken by the Administrator under this subchapter.

(e) Withdrawal of authorization

Whenever the Administrator determines after public hearing that a State is not administering and enforcing a program authorized under this section in accordance with requirements of this section, he shall so notify the State and, if appropriate corrective action is not taken within a reasonable time, not to exceed ninety days, the Administrator shall withdraw authorization of such program and establish a Federal program pursuant to this subchapter. The Administrator shall not withdraw authorization of any such program unless he shall first have notified the State, and made public, in writing, the reasons for such withdrawal.

(f) Availability of information

No State program may be authorized by the Administrator under this section unless—

(1) such program provides for the public availability of information obtained by the State regarding facilities and sites for the treatment, storage, and disposal of hazardous waste; and

(2) such information is available to the public in substantially the same manner, and to the same degree, as would be the case if the Administrator was carrying out the provisions of this subchapter in such State.

(g) Amendments made by 1984 act

(1) Any requirement or prohibition which is applicable to the generation, transportation, treatment, storage, or disposal of hazardous waste and which is imposed under this subchapter pursuant to the amendments made by the Hazardous and Solid Waste Amendments of 1984 shall take effect in each State having an interim or finally authorized State program on the same date as such requirement takes effect in other States. The Administrator shall carry out such requirement directly in each such State unless the State program is finally authorized (or is granted interim authorization as provided in paragraph (2)) with respect to such requirement.

(2) Any State which, before November 8, 1984, has an existing hazardous waste program which has been granted interim or final authorization under this section may submit to the Administrator evidence that such existing program contains (or has been amended to include) any requirement which is substantially equivalent to a requirement referred to in paragraph (1) and may request interim authorization to carry out that requirement under this subchapter. The Administrator shall, if the evidence submitted shows the State requirement to be substantially equivalent to the requirement referred to in paragraph (1), grant an interim authorization to the State to carry out such requirement in lieu of direct administration in the State by the Administrator of such requirement.

(h) State programs for used oil

In the case of used oil which is not listed or identified under this subchapter as a hazardous waste but which is regulated under section 6935 of this title, the provisions of this section regarding State programs shall apply in the same manner and to the same extent as such provisions apply to hazardous waste identified or listed under this subchapter.

(Pub. L. 89–272, title II, §3006, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2809; amended Pub. L. 95–609, §7(i), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 98–616, title II, §§225, 226(a), 227, 228, 241(b)(2), Nov. 8, 1984, 98 Stat. 3254, 3255, 3260; Pub. L. 99–499, title II, §205(j), Oct. 17, 1986, 100 Stat. 1703.)

REFERENCES IN TEXT

Section 6935(d)(1) of this title, referred to in subsec. (b), was in the original a reference to section 3012(d)(1) of Pub. L. 89–272, which was renumbered section 3014(d)(1) of Pub. L. 89–272 by Pub. L. 98–616 and is classified to section 6935(d)(1) of this title.

The Hazardous and Solid Waste Amendments of 1984, referred to in subsecs. (c)(3), (4), and (g), is Pub. L. 98–616, Nov. 8, 1984, 98 Stat. 3221, which amended this chapter. For complete classification of this Act to the Code, see Short Title of 1984 Amendment note set out under section 6901 of this title and Tables.

AMENDMENTS

1986—Subsec. (h). Pub. L. 99–499 added subsec. (h).

1984—Subsec. (b). Pub. L. 98–616, §§225, 241(b)(2), inserted ''(and to enforce permits deemed to have been issued under section 6935(d)(1) of this title)'', and inserted provision at end that in authorizing a State program, the Administrator may base his findings on the Federal program in effect one year prior to submission of a State's application or in effect on January 26, 1983, whichever is later.

Subsec. (c)(1). Pub. L. 98–616, §227(1), (2), designated existing provisions as par. (1) and substituted ''period ending no later than January 31, 1986'' for ''twenty-four month period beginning on the date six months after the date of promulgation of regulations under sections 6922 through 6925 of this title''.

Subsec. (c)(2) to (4). Pub. L. 98–616, §227(3), added pars. (2) to (4).

Subsec. (f). Pub. L. 98–616, §226(a), added subsec. (f).

Subsec. (g). Pub. L. 98–616, §228, added subsec. (g).

1978—Subsec. (c). Pub. L. 95–609 substituted ''of'' for ''required for'' wherever appearing and ''may submit'' for ''submit''.

EFFECTIVE DATE OF 1984 AMENDMENT

Section 226(b) of Pub. L. 98–616 provided that: ''The amendment made by subsection (a) [enacting subsec. (f) of this section] shall apply with respect to State programs authorized under section 3006 [this section] before, on, or after the date of enactment of the Hazardous and Solid Waste Amendments of 1984 [Nov. 8, 1984].''

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6925, 6928, 6930, 6939c, 6974, 6976, 9607 of this title.

§ 6927. Inspections

(a) Access entry

For purposes of developing or assisting in the development of any regulation or enforcing the provisions of this chapter, any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled hazardous wastes shall, upon request of any officer, employee or representative of the Environmental Protection Agency, duly designated by the Administrator, or upon request of any duly designated officer, employee or representative of a State having an authorized hazardous waste program, furnish information relating to such wastes and permit such person at all reasonable times to have access to, and to copy all records relating to such wastes. For the purposes of developing or assisting in the development of any regulation or enforcing the provisions of this chapter, such officers, employees or representatives are authorized—

(1) to enter at reasonable times any establishment or other place where hazardous wastes are or have been generated, stored, treated, disposed of, or transported from;

(2) to inspect and obtain samples from any person of any such wastes and samples of any containers or labeling for such wastes.

Each such inspection shall be commenced and completed with reasonable promptness. If the officer, employee or representative obtains any samples, prior to leaving the premises, he shall give to the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each such sample equal in volume or weight to the portion retained. If any analysis is made of such samples, a copy of the results of such analysis shall be furnished promptly to the owner, operator, or agent in charge.

(b) Availability to public

(1) Any records, reports, or information (including records, reports, or information obtained by representatives of the Environmental Protection Agency) obtained from any person under this section shall be available to the public, except that upon a showing satisfactory to the Administrator (or the State, as the case may be) by any person that records, reports, or information, or particular part thereof, to which the Administrator (or the State, as the case may be) or any officer, employee or representative thereof has access under this section if made public, would divulge information entitled to protection under section 1905 of title 18, such information or particular portion thereof shall be considered confidential in accordance with the purposes of that section, except that such record, report, document, or information may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

(2) Any person not subject to the provisions of section 1905 of title 18 who knowingly and willfully divulges or discloses any information entitled to protection under this subsection shall, upon conviction, be subject to a fine of not more than $5,000 or to imprisonment not to exceed one year, or both.

(3) In submitting data under this chapter, a person required to provide such data may—

(A) designate the data which such person believes is entitled to protection under this subsection, and

(B) submit such designated data separately from other data submitted under this chapter.

A designation under this paragraph shall be made in writing and in such manner as the Administrator may prescribe.

(4) Notwithstanding any limitation contained in this section or any other provision of law, all information reported to, or otherwise obtained by, the Administrator (or any representative of the Administrator) under this chapter shall be made available, upon written request of any duly authorized committee of the Congress, to such committee.

(c) Federal facility inspections

The Administrator shall undertake on an annual basis a thorough inspection of each facility for the treatment, storage, or disposal of hazardous waste which is owned or operated by a department, agency, or instrumentality of the United States to enforce its compliance with this subchapter and the regulations promulgated thereunder. Any State with an authorized hazardous waste program also may conduct an inspection of any such facility for purposes of enforcing the facility's compliance with the State hazardous waste program. The records of such inspections shall be available to the public as provided in subsection (b) of this section. The department, agency, or instrumentality owning or operating each such facility shall reimburse the Environmental Protection Agency for the costs of the inspection of the facility. With respect to the first inspection of each such facility occurring after October 6, 1992, the Administrator shall conduct a comprehensive ground water monitoring evaluation at the facility, unless such an evaluation was conducted during the 12-month period preceding October 6, 1992.

(d) State-operated facilities

The Administrator shall annually undertake a thorough inspection of every facility for the treatment, storage, or disposal of hazardous waste which is operated by a State or local government for which a permit is required under section 6925 of this title. The records of such inspection shall be available to the public as provided in subsection (b) of this section.

(e) Mandatory inspections

(1) The Administrator (or the State in the case of a State having an authorized hazardous waste program under this subchapter) shall commence

a program to thoroughly inspect every facility for the treatment, storage, or disposal of hazardous waste for which a permit is required under section 6925 of this title no less often than every two years as to its compliance with this subchapter (and the regulations promulgated under this subchapter). Such inspections shall commence not later than twelve months after November 8, 1984. The Administrator shall, after notice and opportunity for public comment, promulgate regulations governing the minimum frequency and manner of such inspections, including the manner in which records of such inspections shall be maintained and the manner in which reports of such inspections shall be filed. The Administrator may distinguish between classes and categories of facilities commensurate with the risks posed by each class or category.

(2) Not later than six months after November 8, 1984, the Administrator shall submit to the Congress a report on the potential for inspections of hazardous waste treatment, storage, or disposal facilities by nongovernmental inspectors as a supplement to inspections conducted by officers, employees, or representatives of the Environmental Protection Agency or States having authorized hazardous waste programs or operating under a cooperative agreement with the Administrator. Such report shall be prepared in cooperation with the States, insurance companies offering environmental impairment insurance, independent companies providing inspection services, and other such groups as appropriate. Such report shall contain recommendations on provisions and requirements for a program of private inspections to supplement governmental inspections.

(Pub. L. 89–272, title II, §3007, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2810; amended Pub. L. 95–609, §7(j), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 96–482, §12, Oct. 21, 1980, 94 Stat. 2339; Pub. L. 98–616, title II, §§229–231, title V, §502(a), Nov. 8, 1984, 98 Stat. 3255, 3256, 3276; Pub. L. 102–386, title I, §104, Oct. 6, 1992, 106 Stat. 1507.)

AMENDMENTS

1992—Subsec. (c). Pub. L. 102–386 in first sentence substituted ''The Administrator shall undertake'' for ''Beginning twelve months after November 8, 1984, the Administrator shall, or in the case of a State with an authorized hazardous waste program the State may, undertake'' and ''department, agency, or instrumentality of the United States'' for ''Federal agency'', inserted after first sentence ''Any State with an authorized hazardous waste program also may conduct an inspection of any such facility for purposes of enforcing the facility's compliance with the State hazardous waste program.'', and inserted at end ''The department, agency, or instrumentality owning or operating each such facility shall reimburse the Environmental Protection Agency for the costs of the inspection of the facility. With respect to the first inspection of each such facility occurring after October 6, 1992, the Administrator shall conduct a comprehensive ground water monitoring evaluation at the facility, unless such an evaluation was conducted during the 12-month period preceding October 6, 1992.''

1984—Subsec. (b)(1). Pub. L. 98–616, §502(a), modified directory language for amendment by sec. 12(b)(4) of Pub. L. 96–482.

Subsec. (c). Pub. L. 98–616, §229, added subsec. (c).

Subsec. (d). Pub. L. 98–616, §230, added subsec. (d).

Subsec. (e). Pub. L. 98–616, §231, added subsec. (e).

1980—Subsec. (a). Pub. L. 96–482, §12(a), substituted ''chapter'' for ''subchapter'', ''any officer, employee or representative'' for ''any officer or employee'', ''duly designated officer, employee or representative'' for ''duly designated officer employee'', ''such officers, employees or representatives'' for ''such officers or employees'', ''furnish information relating to such wastes and permit'' for ''furnish or permit'', and ''officer, employee or representative obtains'' for ''officer or employee obtains'', struck out ''maintained by any person'' after ''establishment or other place'', substituted ''officer, employee or representative obtains'' for ''officer or employee obtains'', and inserted ''or has handled'' after ''otherwise handles'' and ''or have been'' after ''where hazardous wastes are''.

Subsec. (b)(1). Pub. L. 96–482, §12(b)(1)–(3), designated existing provisions as par. (1), inserted ''or any officer, employee or representative thereof'' before ''has access under this section'' and substituted ''such information or particular portion thereof shall be considered'' for ''the Administrator (or the State, as the case may be) shall consider such information or portion thereof''.

Pub. L. 96–482, §12(b)(4), as modified by Pub. L. 98–616, §502(a), inserted ''(including records, reports, or information obtained by representatives of the Environmental Protection Agency)'' after ''information''.

Subsec. (b)(2) to (4). Pub. L. 96–482, §12(b)(3), added pars. (2) to (4).

1978—Subsec. (a)(1). Pub. L. 95–609 substituted ''disposed of, or transported from'' for ''or disposed of''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6933, 6934, 6937, 6939, 6945, 6992c, 7412, 9606 of this title.

§6928. Federal enforcement

(a) Compliance orders

(1) Except as provided in paragraph (2), whenever on the basis of any information the Administrator determines that any person has violated or is in violation of any requirement of this subchapter, the Administrator may issue an order assessing a civil penalty for any past or current violation, requiring compliance immediately or within a specified time period, or both, or the Administrator may commence a civil action in the United States district court in the district in which the violation occurred for appropriate relief, including a temporary or permanent injunction.

(2) In the case of a violation of any requirement of this subchapter where such violation occurs in a State which is authorized to carry out a hazardous waste program under section 6926 of this title, the Administrator shall give notice to the State in which such violation has occurred prior to issuing an order or commencing a civil action under this section.

(3) Any order issued pursuant to this subsection may include a suspension or revocation of any permit issued by the Administrator or a State under this subchapter and shall state with reasonable specificity the nature of the violation. Any penalty assessed in the order shall not exceed $25,000 per day of noncompliance for each

violation of a requirement of this subchapter. In assessing such a penalty, the Administrator shall take into account the seriousness of the violation and any good faith efforts to comply with applicable requirements.

(b) Public hearing

Any order issued under this section shall become final unless, no later than thirty days after the order is served, the person or persons named therein request a public hearing. Upon such request the Administrator shall promptly conduct a public hearing. In connection with any proceeding under this section the Administrator may issue subpenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may promulgate rules for discovery procedures.

(c) Violation of compliance orders

If a violator fails to take corrective action within the time specified in a compliance order, the Administrator may assess a civil penalty of not more than $25,000 for each day of continued noncompliance with the order and the Administrator may suspend or revoke any permit issued to the violator (whether issued by the Administrator or the State).

(d) Criminal penalties

Any person who—

(1) knowingly transports or causes to be transported any hazardous waste identified or listed under this subchapter to a facility which does not have a permit under this subchapter, or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.],

(2) knowingly treats, stores, or disposes of any hazardous waste identified or listed under this subchapter—

(A) without a permit under this subchapter or pursuant to title I of the Marine Protection, Research, and Sanctuaries Act (86 Stat. 1052) [33 U.S.C. 1411 et seq.]; or

(B) in knowing violation of any material condition or requirement of such permit; or

(C) in knowing violation of any material condition or requirement of any applicable interim status regulations or standards;

(3) knowingly omits material information or makes any false material statement or representation in any application, label, manifest, record, report, permit, or other document filed, maintained, or used for purposes of compliance with regulations promulgated by the Administrator (or by a State in the case of an authorized State program) under this subchapter;

(4) knowingly generates, stores, treats, transports, disposes of, exports, or otherwise handles any hazardous waste or any used oil not identified or listed as a hazardous waste under this subchapter (whether such activity took place before or takes place after November 8, 1984) and who knowingly destroys, alters, conceals, or fails to file any record, application, manifest, report, or other document required to be maintained or filed for purposes of compliance with regulations promulgated by the Administrator (or by a State in the case of an authorized State program) under this subchapter;

(5) knowingly transports without a manifest, or causes to be transported without a manifest, any hazardous waste or any used oil not identified or listed as a hazardous waste under this subchapter required by regulations promulgated under this subchapter (or by a State in the case of a State program authorized under this subchapter) to be accompanied by a manifest;

(6) knowingly exports a hazardous waste identified or listed under this subchapter (A) without the consent of the receiving country or, (B) where there exists an international agreement between the United States and the government of the receiving country establishing notice, export, and enforcement procedures for the transportation, treatment, storage, and disposal of hazardous wastes, in a manner which is not in conformance with such agreement; or

(7) knowingly stores, treats, transports, or causes to be transported, disposes of, or otherwise handles any used oil not identified or listed as a hazardous waste under this subchapter—

(A) in knowing violation of any material condition or requirement of a permit under this subchapter; or

(B) in knowing violation of any material condition or requirement of any applicable regulations or standards under this chapter;

shall, upon conviction, be subject to a fine of not more than $50,000 for each day of violation, or imprisonment not to exceed two years (five years in the case of a violation of paragraph (1) or (2)), or both. If the conviction is for a violation committed after a first conviction of such person under this paragraph, the maximum punishment under the respective paragraph shall be doubled with respect to both fine and imprisonment.

(e) Knowing endangerment

Any person who knowingly transports, treats, stores, disposes of, or exports any hazardous waste identified or listed under this subchapter or used oil not identified or listed as a hazardous waste under this subchapter in violation of paragraph (1), (2), (3), (4), (5), (6), or (7) of subsection (d) of this section who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury, shall, upon conviction, be subject to a fine of not more than $250,000 or imprisonment for not more than fifteen years, or both. A defendant that is an organization shall, upon conviction of violating this subsection, be subject to a fine of not more than $1,000,000.

(f) Special rules

For the purposes of subsection (e) of this section—

(1) A person's state of mind is knowing with respect to—

(A) his conduct, if he is aware of the nature of his conduct;

(B) an existing circumstance, if he is aware or believes that the circumstance exists; or

(C) a result of his conduct, if he is aware or believes that his conduct is substantially

certain to cause danger of death or serious bodily injury.

(2) In determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury—

(A) the person is responsible only for actual awareness or actual belief that he possessed; and

(B) knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant;

Provided, That in proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information.

(3) It is an affirmative defense to a prosecution that the conduct charged was consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of—

(A) an occupation, a business, or a profession; or

(B) medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent.

The defendant may establish an affirmative defense under this subsection by a preponderance of the evidence.

(4) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other Federal criminal offenses may apply under subsection (e) of this section and shall be determined by the courts of the United States according to the principles of common law as they may be interpreted in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience.

(5) The term ''organization'' means a legal entity, other than a government, established, or organized for any purpose, and such term includes a corporation, company, association, firm, partnership, joint stock company, foundation, institution, trust, society, union, or any other association of persons.

(6) The term ''serious bodily injury'' means—

(A) bodily injury which involves a substantial risk of death;

(B) unconsciousness;

(C) extreme physical pain;

(D) protracted and obvious disfigurement; or

(E) protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

(g) Civil penalty

Any person who violates any requirement of this subchapter shall be liable to the United States for a civil penalty in an amount not to exceed $25,000 for each such violation. Each day of such violation shall, for purposes of this subsection, constitute a separate violation.

(h) Interim status corrective action orders

(1) Whenever on the basis of any information the Administrator determines that there is or has been a release of hazardous waste into the environment from a facility authorized to operate under section 6925(e) of this title, the Administrator may issue an order requiring corrective action or such other response measure as he deems necessary to protect human health or the environment or the Administrator may commence a civil action in the United States district court in the district in which the facility is located for appropriate relief, including a temporary or permanent injunction.

(2) Any order issued under this subsection may include a suspension or revocation of authorization to operate under section 6925(e) of this title, shall state with reasonable specificity the nature of the required corrective action or other response measure, and shall specify a time for compliance. If any person named in an order fails to comply with the order, the Administrator may assess, and such person shall be liable to the United States for, a civil penalty in an amount not to exceed $25,000 for each day of noncompliance with the order.

(Pub. L. 89–272, title II, §3008, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2811; amended Pub. L. 95–609, §7(k), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 96–482, §13, Oct. 21, 1980, 94 Stat. 2339; Pub. L. 98–616, title II, §§232, 233, 245(c), title IV, §403(d)(1)–(3), Nov. 8, 1984, 98 Stat. 3256, 3257, 3264, 3272; Pub. L. 99–499, title II, §205(i), Oct. 17, 1986, 100 Stat. 1703.)

REFERENCES IN TEXT

The Marine Protection, Research, and Sanctuaries Act, referred to in subsec. (d)(1), (2)(A), probably means the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92–532, Oct. 23, 1972, 86 Stat. 1052, as amended. Title I of the Marine Protection, Research, and Sanctuaries Act of 1972 is classified generally to subchapter I (§1411 et seq.) of chapter 27 of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1401 of Title 33 and Tables.

AMENDMENTS

1986—Subsec. (d)(4). Pub. L. 99–499, §205(i)(1), inserted ''or any used oil not identified or listed as a hazardous waste under this subchapter''.

Subsec. (d)(5). Pub. L. 99–499, §205(i)(1), (2), inserted ''or any used oil not identified or listed as a hazardous waste under this subchapter'' and struck out ''; or'' after ''accompanied by a manifest;''.

Subsec. (d)(6). Pub. L. 99–499, §205(i)(3), inserted at end ''; or''.

Subsec. (d)(7). Pub. L. 99–499, §205(i)(4), added par. (7).

Subsec. (e). Pub. L. 99–499, §205(i)(5), inserted ''or used oil not identified or listed as a hazardous waste under this subchapter'' and substituted ''(5), (6), or (7)'' for ''(5), or (6)''.

1984—Subsec. (a)(1). Pub. L. 98–616, §403(d)(1), in amending par. (1) generally, expanded authority of Administrator by empowering him to determine that a person ''has violated'' a requirement of this subchapter, and to assess a civil penalty for a past or current violation.

Subsec. (a)(3). Pub. L. 98–616, §403(d)(2), in amending par. (3) generally, substituted provision that any order issued pursuant to this subsection may include a suspension or revocation of any permit issued by the Administrator or a State under this subchapter and shall state with reasonable specificity the nature of the vio-

lation, and provision that any penalty assessed in the order shall not exceed $25,000 per day of noncompliance for each violation of a requirement of this subchapter, and that in assessing such a penalty, the Administrator take into account the seriousness of the violation and any good faith efforts to comply with applicable requirements, for provision that if such violator fails to take corrective action within the time specified in the order, he shall be liable for a civil penalty of not more than $25,000 for each day of continued noncompliance and the Administrator may suspend or revoke any permit issued to the violator, whether issued by the Administrator or the State.

Subsec. (b). Pub. L. 98–616, §233(b), inserted ''issued under this section''.

Subsec. (c). Pub. L. 98–616, §403(d)(3), substituted provisions relating to penalties for violation of compliance orders for former provisions which set forth requirements for compliance orders.

Subsec. (d). Pub. L. 98–616, §232(a)(3), amended closing provisions generally. Prior to amendment, closing provisions read as follows: ''shall, upon conviction, be subject to a fine of not more than $25,000 ($50,000 in the case of a violation of paragraph (1) or (2)) for each day of violation, or to imprisonment not to exceed one year (two years in the case of a violation of paragraph (1) or (2)), or both. If the conviction is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than $50,000 per day of violation, or by imprisonment for not more than two years, or by both.''

Subsec. (d)(1). Pub. L. 98–616, §232(a)(1), inserted ''or causes to be transported'' and substituted ''this subchapter'' for ''section 6925 of this title (or section 6926 of this title in case of a State program)''.

Subsec. (d)(2). Pub. L. 98–616, §232(a)(2)(A), struck out ''either'' after ''subchapter'' in provision preceding subpar. (A).

Subsec. (d)(2)(A). Pub. L. 98–616, §232(a)(2)(B), (c), substituted ''this subchapter'' for ''section 6925 of this title (or section 6926 of this title in the case of a State program)'' and struck out ''having obtained'' before ''a permit under''.

Subsec. (d)(2)(C). Pub. L. 98–616, §232(a)(2)(C), added subpar. (C).

Subsec. (d)(3) to (5). Pub. L. 98–616, §232(a)(3), in amending pars. (3) and (4) generally, expanded par. (3) by providing criminal penalties for one who knowingly omits material information from documents required to be filed, maintained or used under this subchapter, expanded par. (4) by providing criminal penalties for one who knowingly fails to file required material under this subchapter, and added par. (5).

Subsec. (d)(6). Pub. L. 98–616, §245(c), added par. (6).

Subsec. (e). Pub. L. 98–616, §232(b), in amending subsec. (e) generally, struck out provisions referring to violations of interim status standards and omission of material information from permit applications, struck out provision requiring proof of ''unjustifiable and inexcusable disregard for human life'' or ''extreme indifference to human life'' for conviction under this subsection, and inserted provision increasing maximum prison sentence to fifteen years for violation of subsec. (d)(1) through (6) of this section by one who knowingly places another person in imminent danger of death or serious bodily injury, replacing former provision calling for maximum imprisonment of two years, or five years in cases evidencing extreme indifference to human life.

Subsec. (h). Pub. L. 98–616, §233(a), added subsec. (h).

1980—Subsec. (a)(1). Pub. L. 96–482, §13(1), (2), struck out ''the Administrator shall give notice to the violator of his failure to comply with such requirement. If such violation extends beyond the thirtieth day after the Administrator's notification'' before ''the Administrator may issue'' and substituted ''compliance immediately or within a specified time period'' for ''compliance within a specified time period''.

Subsec. (a)(2). Pub. L. 96–482, §13(2), struck out ''thirty days'' after ''violation has occurred''.

Subsec. (b). Pub. L. 96–482, §13(3), substituted ''order shall become final unless, no later than thirty days after the order is served'' for ''order or any suspension or revocation of a permit shall become final unless, no later than thirty days after the order or notice of the suspension or revocation is served''.

Subsec. (c). Pub. L. 96–482, §13(4), authorized orders for suspension or revocation of permits.

Subsec. (d). Pub. L. 96–482, §13(5), in par. (2), designated existing provisions as subpar. (A) and added subpar. (B), in par. (3), inserted provision requiring the statement or representation to be material, added par. (4), and in provisions following par. (4), inserted provision authorizing a fine of $50,000 and a two year imprisonment for violation of par. (1) or (2).

Subsecs. (e) to (g). Pub. L. 96–482, §13(5), added subsecs. (e) to (g).

1978—Subsec. (d)(1). Pub. L. 95–609, §7(k)(1), inserted provision relating to title I of the Marine Protection, Research, and Sanctuaries Act.

Subsec. (d)(2). Pub. L. 95–609, §7(k)(2), inserted provisions relating to treatment or storage of hazardous wastes and relating to title I of the Marine Protection, Research, and Sanctuaries Act.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6924, 6939c, 6945, 6972, 6992d, 7412, 9601, 9606 of this title; title 26 section 4662.

§ 6929. Retention of State authority

Upon the effective date of regulations under this subchapter no State or political subdivision may impose any requirements less stringent than those authorized under this subchapter respecting the same matter as governed by such regulations, except that if application of a regulation with respect to any matter under this subchapter is postponed or enjoined by the action of any court, no State or political subdivision shall be prohibited from acting with respect to the same aspect of such matter until such time as such regulation takes effect. Nothing in this chapter shall be construed to prohibit any State or political subdivision thereof from imposing any requirements, including those for site selection, which are more stringent than those imposed by such regulations. Nothing in this chapter (or in any regulation adopted under this chapter) shall be construed to prohibit any State from requiring that the State be provided with a copy of each manifest used in connection with hazardous waste which is generated within that State or transported to a treatment, storage, or disposal facility within that State.

(Pub. L. 89–272, title II, §3009, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2812; amended Pub. L. 96–482, §14, Oct. 21, 1980, 94 Stat. 2342; Pub. L. 98–616, title II, §213(b), Nov. 8, 1984, 98 Stat. 3242.)

AMENDMENTS

1984—Pub. L. 98–616 inserted ''Nothing in this chapter (or in any regulation adopted under this chapter) shall be construed to prohibit any State from requiring that

the State be provided with a copy of each manifest used in connection with hazardous waste which is generated within that State or transported to a treatment, storage, or disposal facility within that State.''

1980—Pub. L. 96–482 prohibited construction of this chapter as barring a State from imposing more stringent requirements than provided in Federal regulations.

§ 6930. Effective date

(a) Preliminary notification

Not later than ninety days after promulgation of regulations under section 6921 of this title identifying by its characteristics or listing any substance as hazardous waste subject to this subchapter, any person generating or transporting such substance or owning or operating a facility for treatment, storage, or disposal of such substance shall file with the Administrator (or with States having authorized hazardous waste permit programs under section 6926 of this title) a notification stating the location and general description of such activity and the identified or listed hazardous wastes handled by such person. Not later than fifteen months after November 8, 1984—

(1) the owner or operator of any facility which produces a fuel (A) from any hazardous waste identified or listed under section 6921 of this title, (B) from such hazardous waste identified or listed under section 6921 of this title and any other material, (C) from used oil, or (D) from used oil and any other material;

(2) the owner or operator of any facility (other than a single- or two-family residence) which burns for purposes of energy recovery any fuel produced as provided in paragraph (1) or any fuel which otherwise contains used oil or any hazardous waste identified or listed under section 6921 of this title; and

(3) any person who distributes or markets any fuel which is produced as provided in paragraph (1) or any fuel which otherwise contains used oil or any hazardous waste identified or listed under section 6921 of this title [1]

shall file with the Administrator (and with the State in the case of a State with an authorized hazardous waste program) a notification stating the location and general description of the facility, together with a description of the identified or listed hazardous waste involved and, in the case of a facility referred to in paragraph (1) or (2), a description of the production or energy recovery activity carried out at the facility and such other information as the Administrator deems necessary. For purposes of the preceding provisions, the term ''hazardous waste listed under section 6921 of this title'' also includes any commercial chemical product which is listed under section 6921 of this title and which, in lieu of its original intended use, is (i) produced for use as (or as a component of) a fuel, (ii) distributed for use as a fuel, or (iii) burned as a fuel. Notification shall not be required under the second sentence of this subsection in the case of facilities (such as residential boilers) where the Administrator determines that such notification is not necessary in order for the Administrator to obtain sufficient information respecting current practices of facilities using hazardous waste for energy recovery. Nothing in this subsection shall be construed to affect or impair the provisions of section 6921(b)(3) of this title. Nothing in this subsection shall affect regulatory determinations under section 6935 of this title. In revising any regulation under section 6921 of this title identifying additional characteristics of hazardous waste or listing any additional substance as hazardous waste subject to this subchapter, the Administrator may require any person referred to in the preceding provisions to file with the Administrator (or with States having authorized hazardous waste permit programs under section 6926 of this title) the notification described in the preceding provisions. Not more than one such notification shall be required to be filed with respect to the same substance. No identified or listed hazardous waste subject to this subchapter may be transported, treated, stored, or disposed of unless notification has been given as required under this subsection.

(b) Effective date of regulation

The regulations under this subchapter respecting requirements applicable to the generation, transportation, treatment, storage, or disposal of hazardous waste (including requirements respecting permits for such treatment, storage, or disposal) shall take effect on the date six months after the date of promulgation thereof (or six months after the date of revision in the case of any regulation which is revised after the date required for promulgation thereof). At the time a regulation is promulgated, the Administrator may provide for a shorter period prior to the effective date, or an immediate effective date for:

(1) a regulation with which the Administrator finds the regulated community does not need six months to come into compliance;

(2) a regulation which responds to an emergency situation; or

(3) other good cause found and published with the regulation.

(Pub. L. 89–272, title II, § 3010, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2812; amended Pub. L. 96–482, § 15, Oct. 21, 1980, 94 Stat. 2342; Pub. L. 98–616, title II, §§ 204(a), 234, Nov. 8, 1984, 98 Stat. 3235, 3258.)

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, § 204(a), inserted provisions after first sentence relating to burning and blending of hazardous wastes and substituted ''the preceding provisions'' for ''the preceding sentence'' in three places.

Subsec. (b). Pub. L. 98–616, § 234, inserted provision that at the time a regulation is promulgated, the Administrator may provide for a shorter period prior to the effective date, or an immediate effective date for a regulation with which the Administrator finds the regulated community does not need six months to come into compliance, a regulation which responds to an emergency situation, or other good cause found and published with the regulation.

1980—Subsec. (a). Pub. L. 96–482 struck out ''or revision'' after ''after promulgation or revision of regulations'' and inserted provision for filing of notification when revising any regulation identifying additional characteristics of hazardous waste or listing any additional substance as hazardous waste subject to this subchapter.

[1] So in original. Probably should be followed by a semicolon.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6924, 6925, 6937, 6939, 6971, 9620 of this title.

§ 6931. Authorization of assistance to States

(a) Authorization of appropriations

There is authorized to be appropriated $25,000,000 for each of the fiscal years 1978 and 1979[1] $20,000,000 for fiscal year 1980, $35,000,000 for fiscal year 1981, $40,000,000 for the fiscal year 1982, $55,000,000 for the fiscal year 1985, $60,000,000 for the fiscal year 1986, $60,000,000 for the fiscal year 1987, and $60,000,000 for the fiscal year 1988 to be used to make grants to the States for purposes of assisting the States in the development and implementation of authorized State hazardous waste programs.

(b) Allocation

Amounts authorized to be appropriated under subsection (a) of this section shall be allocated among the States on the basis of regulations promulgated by the Administrator, after consultation with the States, which take into account, the extent to which hazardous waste is generated, transported, treated, stored, and disposed of within such State, the extent of exposure of human beings and the environment within such State to such waste, and such other factors as the Administrator deems appropriate.

(c) Activities included

State hazardous waste programs for which grants may be made under subsection (a) of this section may include (but shall not be limited to) planning for hazardous waste treatment, storage and disposal facilities, and the development and execution of programs to protect health and the environment from inactive facilities which may contain hazardous waste.

(Pub. L. 89–272, title II, §3011, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2812; amended Pub. L. 96–482, §§16, 31(b), Oct. 21, 1980, 94 Stat. 2342, 2352; Pub. L. 98–616, §2(b), Nov. 8, 1984, 98 Stat. 3222.)

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616 substituted ''$40,000,000 for fiscal year 1982, $55,000,000 for fiscal year 1985, $60,000,000 for fiscal year 1986, $60,000,000 for fiscal year 1987, and $60,000,000 for fiscal year 1988'' for ''and $40,000,000 for fiscal year 1982''.

1980—Subsec. (a). Pub. L. 96–482, §31(b), authorized appropriation of $20,000,000, $35,000,000, and $40,000,000 for fiscal years 1980, 1981, and 1982, respectively.

Subsec. (c). Pub. L. 96–482, §16, added subsec. (c).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6916 of this title.

§ 6932. Transferred

CODIFICATION

Section, Pub. L. 89–272, title II, §3012, as added Pub. L. 96–463, §7(a), Oct. 15, 1980, 94 Stat. 2057, was redesignated section 3014 of Pub. L. 89–272 by Pub. L. 98–616, title V, §502(g)(1), Nov. 8, 1984, 98 Stat. 3277, and was transferred to section 6935 of this title.

§ 6933. Hazardous waste site inventory

(a) State inventory programs

Each State shall, as expeditiously as practicable, undertake a continuing program to compile, publish, and submit to the Administrator an inventory describing the location of each site within such State at which hazardous waste has at any time been stored or disposed of. Such inventory shall contain—

(1) a description of the location of the sites at which any such storage or disposal has taken place before the date on which permits are required under section 6925 of this title for such storage or disposal;

(2) such information relating to the amount, nature, and toxicity of the hazardous waste at each such site as may be practicable to obtain and as may be necessary to determine the extent of any health hazard which may be associated with such site;

(3) the name and address, or corporate headquarters of, the owner of each such site, determined as of the date of preparation of the inventory;

(4) an identification of the types or techniques of waste treatment or disposal which have been used at each such site; and

(5) information concerning the current status of the site, including information respecting whether or not hazardous waste is currently being treated or disposed of at such site (and if not, the date on which such activity ceased) and information respecting the nature of any other activity currently carried out at such site.

For purposes of assisting the States in compiling information under this section, the Administrator shall make available to each State undertaking a program under this section such information as is available to him concerning the items specified in paragraphs (1) through (5) with respect to the sites within such State, including such information as the Administrator is able to obtain from other agencies or departments of the United States and from surveys and studies carried out by any committee or subcommittee of the Congress. Any State may exercise the authority of section 6927 of this title for purposes of this section in the same manner and to the same extent as provided in such section in the case of States having an authorized hazardous waste program, and any State may by order require any person to submit such information as may be necessary to

[1] So in original. Probably should be followed by a comma.

compile the data referred to in paragraphs (1) through (5).

(b) Environmental Protection Agency program

If the Administrator determines that any State program under subsection (a) of this section is not adequately providing information respecting the sites in such State referred to in subsection (a) of this section, the Administrator shall notify the State. If within ninety days following such notification, the State program has not been revised or amended in such manner as will adequately provide such information, the Administrator shall carry out the inventory program in such State. In any such case—

(1) the Administrator shall have the authorities provided with respect to State programs under subsection (a) of this section;

(2) the funds allocated under subsection (c) of this section for grants to States under this section may be used by the Administrator for carrying out such program in such State; and

(3) no further expenditure may be made for grants to such State under this section until such time as the Administrator determines that such State is carrying out, or will carry out, an inventory program which meets the requirements of this section.

(c) Grants

(1) Upon receipt of an application submitted by any State to carry out a program under this section, the Administrator may make grants to the States for purposes of carrying out such a program. Grants under this section shall be allocated among the several States by the Administrator based upon such regulations as he prescribes to carry out the purposes of this section. The Administrator may make grants to any State which has conducted an inventory program which effectively carried out the purposes of this section before October 21, 1980, to reimburse such State for all, or any portion of, the costs incurred by such State in conducting such program.

(2) There are authorized to be appropriated to carry out this section $25,000,000 for each of the fiscal years 1985 through 1988.

(d) No impediment to immediate remedial action

Nothing in this section shall be construed to provide that the Administrator or any State should, pending completion of the inventory required under this section, postpone undertaking any enforcement or remedial action with respect to any site at which hazardous waste has been treated, stored, or disposed of.

(Pub. L. 89–272, title II, §3012, as added Pub. L. 96–482, §17(a), Oct. 21, 1980, 94 Stat. 2342; amended Pub. L. 98–616, §2(c), Nov. 8, 1984, 98 Stat. 3222.)

CODIFICATION

Another section 3012 of Pub. L. 89–272 as added by Pub. L. 96–463, §7(a), Oct. 15, 1980, 94 Stat. 2057, was redesignated section 3014 of Pub. L. 89–272, and is classified to section 6935 of this title.

AMENDMENTS

1984—Subsec. (c)(2). Pub. L. 98–616 substituted ''$25,000,000 for each of the fiscal years 1985 through 1988'' for ''$20,000,000''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6934. Monitoring, analysis, and testing

(a) Authority of Administrator

If the Administrator determines, upon receipt of any information, that—

(1) the presence of any hazardous waste at a facility or site at which hazardous waste is, or has been, stored, treated, or disposed of, or

(2) the release of any such waste from such facility or site

may present a substantial hazard to human health or the environment, he may issue an order requiring the owner or operator of such facility or site to conduct such monitoring, testing, analysis, and reporting with respect to such facility or site as the Administrator deems reasonable to ascertain the nature and extent of such hazard.

(b) Previous owners and operators

In the case of any facility or site not in operation at the time a determination is made under subsection (a) of this section with respect to the facility or site, if the Administrator finds that the owner of such facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste at such facility or site and of its potential for release, he may issue an order requiring the most recent previous owner or operator of such facility or site who could reasonably be expected to have such actual knowledge to carry out the actions referred to in subsection (a) of this section.

(c) Proposal

An order under subsection (a) or (b) of this section shall require the person to whom such order is issued to submit to the Administrator within 30 days from the issuance of such order a proposal for carrying out the required monitoring, testing, analysis, and reporting. The Administrator may, after providing such person with an opportunity to confer with the Administrator respecting such proposal, require such person to carry out such monitoring, testing, analysis, and reporting in accordance with such proposal, and such modifications in such proposal as the Administrator deems reasonable to ascertain the nature and extent of the hazard.

(d) Monitoring, etc., carried out by Administrator

(1) If the Administrator determines that no owner or operator referred to in subsection (a) or (b) of this section is able to conduct monitoring, testing, analysis, or reporting satisfactory to the Administrator, if the Administrator deems any such action carried out by an owner or operator to be unsatisfactory, or if the Administrator cannot initially determine that there is an owner or operator referred to in subsection (a) or (b) of this section who is able to conduct such monitoring, testing, analysis, or reporting, he may—

(A) conduct monitoring, testing, or analysis (or any combination thereof) which he deems

reasonable to ascertain the nature and extent of the hazard associated with the site concerned, or

(B) authorize a State or local authority or other person to carry out any such action,

and require, by order, the owner or operator referred to in subsection (a) or (b) of this section to reimburse the Administrator or other authority or person for the costs of such activity.

(2) No order may be issued under this subsection requiring reimbursement of the costs of any action carried out by the Administrator which confirms the results of an order issued under subsection (a) or (b) of this section.

(3) For purposes of carrying out this subsection, the Administrator or any authority or other person authorized under paragraph (1), may exercise the authorities set forth in section 6927 of this title.

(e) Enforcement

The Administrator may commence a civil action against any person who fails or refuses to comply with any order issued under this section. Such action shall be brought in the United States district court in which the defendant is located, resides, or is doing business. Such court shall have jurisdiction to require compliance with such order and to assess a civil penalty of not to exceed $5,000 for each day during which such failure or refusal occurs.

(Pub. L. 89–272, title II, § 3013, as added Pub. L. 96–482, § 17(a), Oct. 21, 1980, 94 Stat. 2344.)

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6939, 7412, 9606 of this title.

§ 6935. Restrictions on recycled oil

(a) In general

Not later than one year after October 15, 1980, the Administrator shall promulgate regulations establishing such performance standards and other requirements as may be necessary to protect the public health and the environment from hazards associated with recycled oil. In developing such regulations, the Administrator shall conduct an analysis of the economic impact of the regulations on the oil recycling industry. The Administrator shall ensure that such regulations do not discourage the recovery or recycling of used oil, consistent with the protection of human health and the environment.

(b) Identification or listing of used oil as hazardous waste

Not later than twelve months after November 8, 1984, the Administrator shall propose whether to list or identify used automobile and truck crankcase oil as hazardous waste under section 6921 of this title. Not later than twenty-four months after November 8, 1984, the Administrator shall make a final determination whether to list or identify used automobile and truck crankcase oil and other used oil as hazardous wastes under section 6921 of this title.

(c) Used oil which is recycled

(1) With respect to generators and transporters of used oil identified or listed as a hazardous waste under section 6921 of this title, the standards promulgated under section [1] 6921(d), 6922, and 6923 of this title shall not apply to such used oil if such used oil is recycled.

(2)(A) In the case of used oil which is exempt under paragraph (1), not later than twenty-four months after November 8, 1984, the Administrator shall promulgate such standards under this subsection regarding the generation and transportation of used oil which is recycled as may be necessary to protect human health and the environment. In promulgating such regulations with respect to generators, the Administrator shall take into account the effect of such regulations on environmentally acceptable types of used oil recycling and the effect of such regulations on small quantity generators and generators which are small businesses (as defined by the Administrator).

(B) The regulations promulgated under this subsection shall provide that no generator of used oil which is exempt under paragraph (1) from the standards promulgated under section [1] 6921(d), 6922, and 6923 of this title shall be subject to any manifest requirement or any associated recordkeeping and reporting requirement with respect to such used oil if such generator—

(i) either—

(I) enters into an agreement or other arrangement (including an agreement or arrangement with an independent transporter or with an agent of the recycler) for delivery of such used oil to a recycling facility which has a permit under section 6925(c) of this title (or for which a valid permit is deemed to be in effect under subsection (d) of this section), or

(II) recycles such used oil at one or more facilities of the generator which has such a permit under section 6925 of this title (or for which a valid permit is deemed to have been issued under subsection (d) of this section);

(ii) such used oil is not mixed by the generator with other types of hazardous wastes; and

(iii) the generator maintains such records relating to such used oil, including records of agreements or other arrangements for delivery of such used oil to any recycling facility referred to in clause (i)(I), as the Administrator deems necessary to protect human health and the environment.

(3) The regulations under this subsection regarding the transportation of used oil which is exempt from the standards promulgated under section [1] 6921(d), 6922, and 6923 of this title under paragraph (1) shall require the transporters of such used oil to deliver such used oil to a facility which has a valid permit under section 6925 of this title or which is deemed to have a valid permit under subsection (d) of this section. The

[1] So in original. Probably should be ''sections''.

Administrator shall also establish other standards for such transporters as may be necessary to protect human health and the environment.

(d) Permits

(1) The owner or operator of a facility which recycles used oil which is exempt under subsection (c)(1) of this section, shall be deemed to have a permit under this subsection for all such treatment or recycling (and any associated tank or container storage) if such owner and operator comply with standards promulgated by the Administrator under section 6924 of this title; except that the Administrator may require such owners and operators to obtain an individual permit under section 6925(c) of this title if he determines that an individual permit is necessary to protect human health and the environment.

(2) Notwithstanding any other provision of law, any generator who recycles used oil which is exempt under subsection (c)(1) of this section shall not be required to obtain a permit under section 6925(c) of this title with respect to such used oil until the Administrator has promulgated standards under section 6924 of this title regarding the recycling of such used oil.

(Pub. L. 89–272, title II, § 3014, formerly § 3012, as added Pub. L. 96–463, § 7(a), Oct. 15, 1980, 94 Stat. 2057, and renumbered and amended Pub. L. 98–616, title II, §§ 241(a), 242, title V, § 502(g)(1), Nov. 8, 1984, 98 Stat. 3258, 3260, 3277.)

CODIFICATION

Section was formerly classified to section 6932 of this title.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, §§ 241(a), 242, designated existing provisions as subsec. (a) and inserted '', consistent with the protection of human health and the environment'' at end.

Subsecs. (b) to (d). Pub. L. 98–616, § 241(a), added subsecs. (b) to (d).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6926, 6930, 6976, 9614 of this title.

§ 6936. Expansion during interim status

(a) Waste piles

The owner or operator of a waste pile qualifying for the authorization to operate under section 6925(e) of this title shall be subject to the same requirements for liners and leachate collection systems or equivalent protection provided in regulations promulgated by the Administrator under section 6924 of this title before October 1, 1982, or revised under section 6924(*o*) of this title (relating to minimum technological requirements), for new facilities receiving individual permits under subsection (c) of section 6925 of this title, with respect to each new unit, replacement of an existing unit, or lateral expansion of an existing unit that is within the waste management area identified in the permit application submitted under section 6925 of this title, and with respect to waste received beginning six months after November 8, 1984.

(b) Landfills and surface impoundments

(1) The owner or operator of a landfill or surface impoundment qualifying for the authorization to operate under section 6925(e) of this title shall be subject to the requirements of section 6924(*o*) of this title (relating to minimum technological requirements), with respect to each new unit, replacement of an existing unit, or lateral expansion of an existing unit that is within the waste management area identified in the permit application submitted under this section, and with respect to waste received beginning 6 months after November 8, 1984.

(2) The owner or operator of each unit referred to in paragraph (1) shall notify the Administrator (or the State, if appropriate) at least sixty days prior to receiving waste. The Administrator (or the State) shall require the filing, within six months of receipt of such notice, of an application for a final determination regarding the issuance of a permit for each facility submitting such notice.

(3) In the case of any unit in which the liner and leachate collection system has been installed pursuant to the requirements of this section and in good faith compliance with the Administrator's regulations and guidance documents governing liners and leachate collection systems, no liner or leachate collection system which is different from that which was so installed pursuant to this section shall be required for such unit by the Administrator when issuing the first permit under section 6925 of this title to such facility, except that the Administrator shall not be precluded from requiring installation of a new liner when the Administrator has reason to believe that any liner installed pursuant to the requirements of this section is leaking. The Administrator may, under section 6924 of this title, amend the requirements for liners and leachate collection systems required under this section as may be necessary to provide additional protection for human health and the environment.

(Pub. L. 89–272, title II, § 3015, as added Pub. L. 98–616, title II, § 243(a), Nov. 8, 1984, 98 Stat. 3260.)

§ 6937. Inventory of Federal agency hazardous waste facilities

(a) Program requirement; submission; availability; contents

Each Federal agency shall undertake a continuing program to compile, publish, and submit to the Administrator (and to the State in the case of sites in States having an authorized hazardous waste program) an inventory of each site which the Federal agency owns or operates or has owned or operated at which hazardous waste is stored, treated, or disposed of or has been disposed of at any time. The inventory shall be submitted every two years beginning January 31, 1986. Such inventory shall be available to the public as provided in section 6927(b) of this title. Information previously submitted by a Federal

agency under section 9603 of this title, or under section 6925 or 6930 of this title, or under this section need not be resubmitted except that the agency shall update any previous submission to reflect the latest available data and information. The inventory shall include each of the following:

(1) A description of the location of each site at which any such treatment, storage, or disposal has taken place before the date on which permits are required under section 6925 of this title for such storage, treatment, or disposal, and where hazardous waste has been disposed, a description of hydrogeology of the site and the location of withdrawal wells and surface water within one mile of the site.

(2) Such information relating to the amount, nature, and toxicity of the hazardous waste in each site as may be necessary to determine the extent of any health hazard which may be associated with any site.

(3) Information on the known nature and extent of environmental contamination at each site, including a description of the monitoring data obtained.

(4) Information concerning the current status of the site, including information respecting whether or not hazardous waste is currently being treated, stored, or disposed of at such site (and if not, the date on which such activity ceased) and information respecting the nature of any other activity currently carried out at such site.

(5) A list of sites at which hazardous waste has been disposed and environmental monitoring data has not been obtained, and the reasons for the lack of monitoring data at each site.

(6) A description of response actions undertaken or contemplated at contaminated sites.

(7) An identification of the types of techniques of waste treatment, storage, or disposal which have been used at each site.

(8) The name and address and responsible Federal agency for each site, determined as of the date of preparation of the inventory.

(b) Environmental Protection Agency program

If the Administrator determines that any Federal agency under subsection (a) of this section is not adequately providing information respecting the sites referred to in subsection (a) of this section, the Administrator shall notify the chief official of such agency. If within ninety days following such notification, the Federal agency has not undertaken a program to adequately provide such information, the Administrator shall carry out the inventory program for such agency.

(Pub. L. 89–272, title II, § 3016, as added Pub. L. 98–616, title II, § 244, Nov. 8, 1984, 98 Stat. 3261.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 9620 of this title.

§ 6938. Export of hazardous wastes

(a) In general

Beginning twenty-four months after November 8, 1984, no person shall export any hazardous waste identified or listed under this subchapter unless [1]

(1)(A) such person has provided the notification required in subsection (c) of this section,

(B) the government of the receiving country has consented to accept such hazardous waste,

(C) a copy of the receiving country's written consent is attached to the manifest accompanying each waste shipment, and

(D) the shipment conforms with the terms of the consent of the government of the receiving country required pursuant to subsection (e) of this section, or

(2) the United States and the government of the receiving country have entered into an agreement as provided for in subsection (f) of this section and the shipment conforms with the terms of such agreement.

(b) Regulations

Not later than twelve months after November 8, 1984, the Administrator shall promulgate the regulations necessary to implement this section. Such regulations shall become effective one hundred and eighty days after promulgation.

(c) Notification

Any person who intends to export a hazardous waste identified or listed under this subchapter beginning twelve months after November 8, 1984, shall, before such hazardous waste is scheduled to leave the United States, provide notification to the Administrator. Such notification shall contain the following information:

(1) the name and address of the exporter;

(2) the types and estimated quantities of hazardous waste to be exported;

(3) the estimated frequency or rate at which such waste is to be exported; and the period of time over which such waste is to be exported;

(4) the ports of entry;

(5) a description of the manner in which such hazardous waste will be transported to and treated, stored, or disposed in the receiving country; and

(6) the name and address of the ultimate treatment, storage or disposal facility.

(d) Procedures for requesting consent of receiving country

Within thirty days of the Administrator's receipt of a complete notification under this section, the Secretary of State, acting on behalf of the Administrator, shall—

(1) forward a copy of the notification to the government of the receiving country;

(2) advise the government that United States law prohibits the export of hazardous waste unless the receiving country consents to accept the hazardous waste;

(3) request the government to provide the Secretary with a written consent or objection to the terms of the notification; and

(4) forward to the government of the receiving country a description of the Federal regulations which would apply to the treatment, storage, and disposal of the hazardous waste in the United States.

(e) Conveyance of written consent to exporter

Within thirty days of receipt by the Secretary of State of the receiving country's written consent or objection (or any subsequent communication withdrawing a prior consent or objec-

[1] So in original. Probably should be followed by a dash.

tion), the Administrator shall forward such a consent, objection, or other communication to the exporter.

(f) International agreements

Where there exists an international agreement between the United States and the government of the receiving country establishing notice, export, and enforcement procedures for the transportation, treatment, storage, and disposal of hazardous wastes, only the requirements of subsections (a)(2) and (g) of this section shall apply.

(g) Reports

After November 8, 1984, any person who exports any hazardous waste identified or listed under section 6921 of this title shall file with the Administrator no later than March 1 of each year, a report summarizing the types, quantities, frequency, and ultimate destination of all such hazardous waste exported during the previous calendar year.

(h) Other standards

Nothing in this section shall preclude the Administrator from establishing other standards for the export of hazardous wastes under section 6922 of this title or section 6923 of this title.

(Pub. L. 89–272, title II, §3017, as added Pub. L. 98–616, title II, §245(a), Nov. 8, 1984, 98 Stat. 3262.)

§6939. Domestic sewage

(a) Report

The Administrator shall, not later than 15 months after November 8, 1984, submit a report to the Congress concerning those substances identified or listed under section 6921 of this title which are not regulated under this subchapter by reason of the exclusion for mixtures of domestic sewage and other wastes that pass through a sewer system to a publicly owned treatment works. Such report shall include the types, size and number of generators which dispose of such substances in this manner, the types and quantities disposed of in this manner, and the identification of significant generators, wastes, and waste constituents not regulated under existing Federal law or regulated in a manner sufficient to protect human health and the environment.

(b) Revisions of regulations

Within eighteen months after submitting the report specified in subsection (a) of this section, the Administrator shall revise existing regulations and promulgate such additional regulations pursuant to this subchapter (or any other authority of the Administrator, including section 1317 of title 33) as are necessary to assure that substances identified or listed under section 6921 of this title which pass through a sewer system to a publicly owned treatment works are adequately controlled to protect human health and the environment.

(c) Report on wastewater lagoons

The Administrator shall, within thirty-six months after November 8, 1984, submit a report to Congress concerning wastewater lagoons at publicly owned treatment works and their effect on groundwater quality. Such report shall include—

(1) the number and size of such lagoons;

(2) the types and quantities of waste contained in such lagoons;

(3) the extent to which such waste has been or may be released from such lagoons and contaminate ground water; and

(4) available alternatives for preventing or controlling such releases.

The Administrator may utilize the authority of sections 6927 and 6934 of this title for the purpose of completing such report.

(d) Application of sections 6927 and 6930

The provisions of sections 6927 and 6930 of this title shall apply to solid or dissolved materials in domestic sewage to the same extent and in the same manner as such provisions apply to hazardous waste.

(Pub. L. 89–272, title II, §3018, as added Pub. L. 98–616, title II, §246(a), Nov. 8, 1984, 98 Stat. 3264.)

§6939a. Exposure information and health assessments

(a) Exposure information

Beginning on the date nine months after November 8, 1984, each application for a final determination regarding a permit under section 6925(c) of this title for a landfill or surface impoundment shall be accompanied by information reasonably ascertainable by the owner or operator on the potential for the public to be exposed to hazardous wastes or hazardous constituents through releases related to the unit. At a minimum, such information must address:

(1) reasonably foreseeable potential releases from both normal operations and accidents at the unit, including releases associated with transportation to or from the unit;

(2) the potential pathways of human exposure to hazardous wastes or constituents resulting from the releases described under paragraph (1); and

(3) the potential magnitude and nature of the human exposure resulting from such releases.

The owner or operator of a landfill or surface impoundment for which an application for such a final determination under section 6925(c) of this title has been submitted prior to November 8, 1984, shall submit the information required by this subsection to the Administrator (or the State, in the case of a State with an authorized program) no later than the date nine months after November 8, 1984.

(b) Health assessments

(1) The Administrator (or the State, in the case of a State with an authorized program) shall make the information required by subsection (a) of this section, together with other relevant information, available to the Agency for Toxic Substances and Disease Registry established by section 9604(i) of this title.

(2) Whenever in the judgment of the Administrator, or the State (in the case of a State with an authorized program), a landfill or a surface impoundment poses a substantial potential risk to human health, due to the existence of releases of hazardous constituents, the magnitude of contamination with hazardous constituents

which may be the result of a release, or the magnitude of the population exposed to such release or contamination, the Administrator or the State (with the concurrence of the Administrator) may request the Administrator of the Agency for Toxic Substances and Disease Registry to conduct a health assessment in connection with such facility and take other appropriate action with respect to such risks as authorized by section 9604(b) and (i) of this title. If funds are provided in connection with such request the Administrator of such Agency shall conduct such health assessment.

(c) Members of the public

Any member of the public may submit evidence of releases of or exposure to hazardous constituents from such a facility, or as to the risks or health effects associated with such releases or exposure, to the Administrator of the Agency for Toxic Substances and Disease Registry, the Administrator, or the State (in the case of a State with an authorized program).

(d) Priority

In determining the order in which to conduct health assessments under this subsection, the Administrator of the Agency for Toxic Substances and Disease Registry shall give priority to those facilities or sites at which there is documented evidence of release of hazardous constituents, at which the potential risk to human health appears highest, and for which in the judgment of the Administrator of such Agency existing health assessment data is inadequate to assess the potential risk to human health as provided in subsection (f) of this section.

(e) Periodic reports

The Administrator of such Agency shall issue periodic reports which include the results of all the assessments carried out under this section. Such assessments or other activities shall be reported after appropriate peer review.

(f) "Health assessments" defined

For the purposes of this section, the term ''health assessments'' shall include preliminary assessments of the potential risk to human health posed by individual sites and facilities subject to this section, based on such factors as the nature and extent of contamination, the existence of potential for pathways of human exposure (including ground or surface water contamination, air emissions, and food chain contamination), the size and potential susceptibility of the community within the likely pathways of exposure, the comparison of expected human exposure levels to the short-term and long-term health effects associated with identified contaminants and any available recommended exposure or tolerance limits for such contaminants, and the comparison of existing morbidity and mortality data on diseases that may be associated with the observed levels of exposure. The assessment shall include an evaluation of the risks to the potentially affected population from all sources of such contaminants, including known point or nonpoint sources other than the site or facility in question. A purpose of such preliminary assessments shall be to help determine whether full-scale health or epidemiological studies and medical evaluations of exposed populations shall be undertaken.

(g) Cost recovery

In any case in which a health assessment performed under this section discloses the exposure of a population to the release of a hazardous substance, the costs of such health assessment may be recovered as a cost of response under section 9607 of this title from persons causing or contributing to such release of such hazardous substance or, in the case of multiple releases contributing to such exposure, to all such release.

(Pub. L. 89–272, title II, § 3019, as added Pub. L. 98–616, title II, § 247(a), Nov. 8, 1984, 98 Stat. 3265.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 9604 of this title.

§ 6939b. Interim control of hazardous waste injection

(a) Underground source of drinking water

No hazardous waste may be disposed of by underground injection—

(1) into a formation which contains (within one-quarter mile of the well used for such underground injection) an underground source of drinking water; or

(2) above such a formation.

The prohibitions established under this section shall take effect 6 months after November 8, 1984, except in the case of any State in which identical or more stringent prohibitions are in effect before such date under the Safe Drinking Water Act [42 U.S.C. 300f et seq.].

(b) Actions under Comprehensive Environmental Response, Compensation, and Liability Act

Subsection (a) of this section shall not apply to the injection of contaminated ground water into the aquifer from which it was withdrawn, if—

(1) such injection is—

(A) a response action taken under section 9604 or 9606 of this title, or

(B) part of corrective action required under this chapter[1]

intended to clean up such contamination;

(2) such contaminated ground water is treated to substantially reduce hazardous constituents prior to such injection; and

(3) such response action or corrective action will, upon completion, be sufficient to protect human health and the environment.

(c) Enforcement

In addition to enforcement under the provisions of this chapter, the prohibitions established under paragraphs (1) and (2) of subsection (a) of this section shall be enforceable under the Safe Drinking Water Act [42 U.S.C. 300f et seq.] in any State—

(1) which has adopted identical or more stringent prohibitions under part C of the Safe Drinking Water Act [42 U.S.C. 300h et seq.] and which has assumed primary enforcement re-

[1] So in original. Probably should be followed by a comma.

sponsibility under that Act for enforcement of such prohibitions; or

(2) in which the Administrator has adopted identical or more stringent prohibitions under the Safe Drinking Water Act [42 U.S.C. 300f et seq.] and is exercising primary enforcement responsibility under that Act for enforcement of such prohibitions.

(d) Definitions

The terms ''primary enforcement responsibility'', ''underground source of drinking water'', ''formation'' and ''well'' have the same meanings as provided in regulations of the Administrator under the Safe Drinking Water Act [42 U.S.C. 300f et seq.]. The term ''Safe Drinking Water Act'' means title XIV of the Public Health Service Act.

(Pub. L. 89–272, title II, § 3020, formerly § 7010, as added Pub. L. 98–616, title IV, § 405(a), Nov. 8, 1984, 98 Stat. 3273; renumbered § 3020, and amended Pub. L. 99–339, title II, § 201(c), June 19, 1986, 100 Stat. 654.)

REFERENCES IN TEXT

Title XIV of the Public Health Service Act, referred to in subsec. (d), is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, § 2(a), 88 Stat. 1660, as amended, known as the Safe Drinking Water Act, which is classified generally to subchapter XII (§ 300f et seq.) of chapter 6A of this title. Part C of the Act is classified generally to part C (§ 300h et seq.) of subchapter XII of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

CODIFICATION

Section was formerly classified to section 6979a of this title, prior to renumbering by Pub. L. 99–339.

AMENDMENTS

1986—Subsec. (c). Pub. L. 99–339, § 201(c)(1), substituted ''enforcement under the provisions of this chapter'' for ''enforcement under sections 6972 and 6973 of this title''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6924 of this title.

§ 6939c. Mixed waste inventory reports and plan

(a) Mixed waste inventory reports

(1) Requirement

Not later than 180 days after October 6, 1992, the Secretary of Energy shall submit to the Administrator and to the Governor of each State in which the Department of Energy stores or generates mixed wastes the following reports:

(A) A report containing a national inventory of all such mixed wastes, regardless of the time they were generated, on a State-by-State basis.

(B) A report containing a national inventory of mixed waste treatment capacities and technologies.

(2) Inventory of wastes

The report required by paragraph (1)(A) shall include the following:

(A) A description of each type of mixed waste at each Department of Energy facility in each State, including, at a minimum, the name of the waste stream.

(B) The amount of each type of mixed waste currently stored at each Department of Energy facility in each State, set forth separately by mixed waste that is subject to the land disposal prohibition requirements of section 6924 of this title and mixed waste that is not subject to such prohibition requirements.

(C) An estimate of the amount of each type of mixed waste the Department expects to generate in the next 5 years at each Department of Energy facility in each State.

(D) A description of any waste minimization actions the Department has implemented at each Department of Energy facility in each State for each mixed waste stream.

(E) The EPA hazardous waste code for each type of mixed waste containing waste that has been characterized at each Department of Energy facility in each State.

(F) An inventory of each type of waste that has not been characterized by sampling and analysis at each Department of Energy facility in each State.

(G) The basis for the Department's determination of the applicable hazardous waste code for each type of mixed waste at each Department of Energy facility and a description of whether the determination is based on sampling and analysis conducted on the waste or on the basis of process knowledge.

(H) A description of the source of each type of mixed waste at each Department of Energy facility in each State.

(I) The land disposal prohibition treatment technology or technologies specified for the hazardous waste component of each type of mixed waste at each Department of Energy facility in each State.

(J) A statement of whether and how the radionuclide content of the waste alters or affects use of the technologies described in subparagraph (I).

(3) Inventory of treatment capacities and technologies

The report required by paragraph (1)(B) shall include the following:

(A) An estimate of the available treatment capacity for each waste described in the report required by paragraph (1)(A) for which treatment technologies exist.

(B) A description, including the capacity, number and location, of each treatment unit considered in calculating the estimate under subparagraph (A).

(C) A description, including the capacity, number and location, of any existing treatment unit that was not considered in calculating the estimate under subparagraph (A) but that could, alone or in conjunction with other treatment units, be used to treat any of the wastes described in the report required by paragraph (1)(A) to meet the requirements of regulations promulgated pursuant to section 6924(m) of this title.

(D) For each unit listed in subparagraph (C), a statement of the reasons why the unit was not included in calculating the estimate under subparagraph (A).

(E) A description, including the capacity, number, location, and estimated date of availability, of each treatment unit currently proposed to increase the treatment capacities estimated under subparagraph (A).

(F) For each waste described in the report required by paragraph (1)(A) for which the Department has determined no treatment technology exists, information sufficient to support such determination and a description of the technological approaches the Department anticipates will need to be developed to treat the waste.

(4) Comments and revisions

Not later than 90 days after the date of the submission of the reports by the Secretary of Energy under paragraph (1), the Administrator and each State which received the reports shall submit any comments they may have concerning the reports to the Department of Energy. The Secretary of Energy shall consider and publish the comments prior to publication of the final report.

(5) Requests for additional information

Nothing in this subsection limits or restricts the authority of States or the Administrator to request additional information from the Secretary of Energy.

(b) Plan for development of treatment capacities and technologies

(1) Plan requirement

(A)(i) For each facility at which the Department of Energy generates or stores mixed wastes, except any facility subject to a permit, agreement, or order described in clause (ii), the Secretary of Energy shall develop and submit, as provided in paragraph (2), a plan for developing treatment capacities and technologies to treat all of the facility's mixed wastes, regardless of the time they were generated, to the standards promulgated pursuant to section 6924(m) of this title.

(ii) Clause (i) shall not apply with respect to any facility subject to any permit establishing a schedule for treatment of such wastes, or any existing agreement or administrative or judicial order governing the treatment of such wastes, to which the State is a party.

(B) Each plan shall contain the following:

(i) For mixed wastes for which treatment technologies exist, a schedule for submitting all applicable permit applications, entering into contracts, initiating construction, conducting systems testing, commencing operations, and processing backlogged and currently generated mixed wastes.

(ii) For mixed wastes for which no treatment technologies exist, a schedule for identifying and developing such technologies, identifying the funding requirements for the identification and development of such technologies, submitting treatability study exemptions, and submitting research and development permit applications.

(iii) For all cases where the Department proposes radionuclide separation of mixed wastes, or materials derived from mixed wastes, it shall provide an estimate of the volume of waste generated by each case of radionuclide separation, the volume of waste that would exist or be generated without radionuclide separation, the estimated costs of waste treatment and disposal if radionuclide separation is used compared to the estimated costs if it is not used, and the assumptions underlying such waste volume and cost estimates.

(C) A plan required under this subsection may provide for centralized, regional, or onsite treatment of mixed wastes, or any combination thereof.

(2) Review and approval of plan

(A) For each facility that is located in a State (i) with authority under State law to prohibit land disposal of mixed waste until the waste has been treated and (ii) with both authority under State law to regulate the hazardous components of mixed waste and authorization from the Environmental Protection Agency under section 6926 of this title to regulate the hazardous components of mixed waste, the Secretary of Energy shall submit the plan required under paragraph (1) to the appropriate State regulatory officials for their review and approval, modification, or disapproval. In reviewing the plan, the State shall consider the need for regional treatment facilities. The State shall consult with the Administrator and any other State in which a facility affected by the plan is located and consider public comments in making its determination on the plan. The State shall approve, approve with modifications, or disapprove the plan within 6 months after receipt of the plan.

(B) For each facility located in a State that does not have the authority described in subparagraph (A), the Secretary shall submit the plan required under paragraph (1) to the Administrator of the Environmental Protection Agency for review and approval, modification, or disapproval. A copy of the plan also shall be provided by the Secretary to the State in which such facility is located. In reviewing the plan, the Administrator shall consider the need for regional treatment facilities. The Administrator shall consult with the State or States in which any facility affected by the plan is located and consider public comments in making a determination on the plan. The Administrator shall approve, approve with modifications, or disapprove the plan within 6 months after receipt of the plan.

(C) Upon the approval of a plan under this paragraph by the Administrator or a State, the Administrator shall issue an order under section 6928(a) of this title, or the State shall issue an order under appropriate State authority, requiring compliance with the approved plan.

(3) Public participation

Upon submission of a plan by the Secretary of Energy to the Administrator or a State, and before approval of the plan by the Administrator or a State, the Administrator or State shall publish a notice of the availability of the submitted plan and make such submitted plan available to the public on request.

(4) Revisions of plan

If any revisions of an approved plan are proposed by the Secretary of Energy or required by the Administrator or a State, the provisions of paragraphs (2) and (3) shall apply to the revisions in the same manner as they apply to the original plan.

(5) Waiver of plan requirement

(A) A State may waive the requirement for the Secretary of Energy to develop and submit a plan under this subsection for a facility located in the State if the State (i) enters into an agreement with the Secretary of Energy that addresses compliance at that facility with section 6924(j) of this title with respect to mixed waste, and (ii) issues an order requiring compliance with such agreement and which is in effect.

(B) Any violation of an agreement or order referred to in subparagraph (A) is subject to the waiver of sovereign immunity contained in section 6961(a) of this title.

(c) Schedule and progress reports

(1) Schedule

Not later than 6 months after October 6, 1992, the Secretary of Energy shall publish in the Federal Register a schedule for submitting the plans required under subsection (b) of this section.

(2) Progress reports

(A) Not later than the deadlines specified in subparagraph (B), the Secretary of Energy shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a progress report containing the following:

(i) An identification, by facility, of the plans that have been submitted to States or the Administrator of the Environmental Protection Agency pursuant to subsection (b) of this section.

(ii) The status of State and Environmental Protection Agency review and approval of each such plan.

(iii) The number of orders requiring compliance with such plans that are in effect.

(iv) For the first 2 reports required under this paragraph, an identification of the plans required under such subsection (b) of this section that the Secretary expects to submit in the 12-month period following submission of the report.

(B) The Secretary of Energy shall submit a report under subparagraph (A) not later than 12 months after October 6, 1992, 24 months after October 6, 1992, and 36 months after October 6, 1992.

(Pub. L. 89–272, title II, §3021, as added Pub. L. 102–386, title I, §105(a)(1), Oct. 6, 1992, 106 Stat. 1508.)

CHANGE OF NAME

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

GAO REPORT

Section 105(c) of Pub. L. 102–386 provided that:

''(1) REQUIREMENT.—Not later than 18 months after the date of the enactment of this Act [Oct. 6, 1992], the Comptroller General shall submit to Congress a report on the Department of Energy's progress in complying with section 3021(b) of the Solid Waste Disposal Act [42 U.S.C. 6939c(b)].

''(2) MATTERS TO BE INCLUDED.—The report required under paragraph (1) shall contain, at a minimum, the following:

''(A) The Department of Energy's progress in submitting to the States or the Administrator of the Environmental Protection Agency a plan for each facility for which a plan is required under section 3021(b) of the Solid Waste Disposal Act and the status of State or Environmental Protection Agency review and approval of each such plan.

''(B) The Department of Energy's progress in entering into orders requiring compliance with any such plans that have been approved.

''(C) An evaluation of the completeness and adequacy of each such plan as of the date of submission of the report required under paragraph (1).

''(D) An identification of any recurring problems among the Department of Energy's submitted plans.

''(E) A description of treatment technologies and capacity that have been developed by the Department of Energy since the date of the enactment of this Act and a list of the wastes that are expected to be treated by such technologies and the facilities at which the wastes are generated or stored.

''(F) The progress made by the Department of Energy in characterizing its mixed waste streams at each such facility by sampling and analysis.

''(G) An identification and analysis of additional actions that the Department of Energy must take to—

''(i) complete submission of all plans required under such section 3021(b) for all such facilities;

''(ii) obtain the adoption of orders requiring compliance with all such plans; and

''(iii) develop mixed waste treatment capacity and technologies.''

§ 6939d. Public vessels

(a) Waste generated on public vessels

Any hazardous waste generated on a public vessel shall not be subject to the storage, manifest, inspection, or recordkeeping requirements of this chapter until such waste is transferred to a shore facility, unless—

(1) the waste is stored on the public vessel for more than 90 days after the public vessel is placed in reserve or is otherwise no longer in service; or

(2) the waste is transferred to another public vessel within the territorial waters of the United States and is stored on such vessel or another public vessel for more than 90 days after the date of transfer.

(b) Computation of storage period

For purposes of subsection (a) of this section, the 90-day period begins on the earlier of—

(1) the date on which the public vessel on which the waste was generated is placed in reserve or is otherwise no longer in service; or

(2) the date on which the waste is transferred from the public vessel on which the waste was generated to another public vessel within the territorial waters of the United States;

and continues, without interruption, as long as the waste is stored on the original public vessel (if in reserve or not in service) or another public vessel.

(c) Definitions

For purposes of this section:

(1) The term ''public vessel'' means a vessel owned or bareboat chartered and operated by the United States, or by a foreign nation, except when the vessel is engaged in commerce.

(2) The terms ''in reserve'' and ''in service'' have the meanings applicable to those terms under section 7293 and sections 7304 through 7308 of title 10 and regulations prescribed under those sections.

(d) Relationship to other law

Nothing in this section shall be construed as altering or otherwise affecting the provisions of section 7311 of title 10.

(Pub. L. 89–272, title II, § 3022, as added Pub. L. 102–386, title I, § 106(a), Oct. 6, 1992, 106 Stat. 1513.)

§ 6939e. Federally owned treatment works

(a) In general

For purposes of section 6903(27) of this title, the phrase ''but does not include solid or dissolved material in domestic sewage'' shall apply to any solid or dissolved material introduced by a source into a federally owned treatment works if—

(1) such solid or dissolved material is subject to a pretreatment standard under section 1317 of title 33, and the source is in compliance with such standard;

(2) for a solid or dissolved material for which a pretreatment standard has not been promulgated pursuant to section 1317 of title 33, the Administrator has promulgated a schedule for establishing such a pretreatment standard which would be applicable to such solid or dissolved material not later than 7 years after October 6, 1992, such standard is promulgated on or before the date established in the schedule, and after the effective date of such standard the source is in compliance with such standard;

(3) such solid or dissolved material is not covered by paragraph (1) or (2) and is not prohibited from land disposal under subsections[1] (d), (e), (f), or (g) of section 6924 of this title because such material has been treated in accordance with section 6924(m) of this title; or

(4) notwithstanding paragraphs[1] (1), (2), or (3), such solid or dissolved material is generated by a household or person which generates less than 100 kilograms of hazardous waste per month unless such solid or dissolved material would otherwise be an acutely hazardous waste and subject to standards, regulations, or other requirements under this chapter notwithstanding the quantity generated.

[1] So in original. Probably should be singular.

(b) Prohibition

It is unlawful to introduce into a federally owned treatment works any pollutant that is a hazardous waste.

(c) Enforcement

(1) Actions taken to enforce this section shall not require closure of a treatment works if the hazardous waste is removed or decontaminated and such removal or decontamination is adequate, in the discretion of the Administrator or, in the case of an authorized State, of the State, to protect human health and the environment.

(2) Nothing in this subsection shall be construed to prevent the Administrator or an authorized State from ordering the closure of a treatment works if the Administrator or State determines such closure is necessary for protection of human health and the environment.

(3) Nothing in this subsection shall be construed to affect any other enforcement authorities available to the Administrator or a State under this subchapter.

(d) "Federally owned treatment works" defined

For purposes of this section, the term ''federally owned treatment works'' means a facility that is owned and operated by a department, agency, or instrumentality of the Federal Government treating wastewater, a majority of which is domestic sewage, prior to discharge in accordance with a permit issued under section 1342 of title 33.

(e) Savings clause

Nothing in this section shall be construed as affecting any agreement, permit, or administrative or judicial order, or any condition or requirement contained in such an agreement, permit, or order, that is in existence on October 6, 1992, and that requires corrective action or closure at a federally owned treatment works or solid waste management unit or facility related to such a treatment works.

(Pub. L. 89–272, title II, § 3023, as added Pub. L. 102–386, title I, § 108(a), Oct. 6, 1992, 106 Stat. 1514.)

SUBCHAPTER IV—STATE OR REGIONAL SOLID WASTE PLANS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6903, 6907, 6916, 6986 of this title; title 25 section 3902.

§ 6941. Objectives of subchapter

The objectives of this subchapter are to assist in developing and encouraging methods for the disposal of solid waste which are environmentally sound and which maximize the utilization of valuable resources including energy and materials which are recoverable from solid waste and to encourage resource conservation. Such objectives are to be accomplished through Federal technical and financial assistance to States or regional authorities for comprehensive planning pursuant to Federal guidelines designed to foster cooperation among Federal, State, and local governments and private industry. In developing such comprehensive plans, it is the intention of this chapter that in deter-

mining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs, including those needs created by thorough implementation of section 6962(h) of this title, of the recycling and resource recovery interest within the area encompassed by the planning process.

(Pub. L. 89–272, title II, § 4001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2813; amended Pub. L. 96–482, § 32(b), Oct. 21, 1980, 94 Stat. 2353; Pub. L. 98–616, title III, § 301(a), title V, § 501(f)(1), Nov. 8, 1984, 98 Stat. 3267, 3276.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3254 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1984—Pub. L. 98–616, § 501(f)(1), inserted '', including those needs created by thorough implementation of section 6962(h) of this title,''.

Pub. L. 98–616, § 301(a), inserted at end ''In developing such comprehensive plans, it is the intention of this chapter that in determining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs of the recycling and resource recovery interest within the area encompassed by the planning process.''

1980—Pub. L. 96–482 included as an objective in the disposal of solid waste the utilization of energy and materials recoverable from solid waste.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6942 of this title.

§ 6941a. Energy and materials conservation and recovery; Congressional findings

The Congress finds that—

(1) significant savings could be realized by conserving materials in order to reduce the volume or quantity of material which ultimately becomes waste;

(2) solid waste contains valuable energy and material resources which can be recovered and used thereby conserving increasingly scarce and expensive fossil fuels and virgin materials;

(3) the recovery of energy and materials from municipal waste, and the conservation of energy and materials contributing to such waste streams, can have the effect of reducing the volume of the municipal waste stream and the burden of disposing of increasing volumes of solid waste;

(4) the technology to conserve resources exists and is commercially feasible to apply;

(5) the technology to recover energy and materials from solid waste is of demonstrated commercial feasibility; and

(6) various communities throughout the nation have different needs and different potentials for conserving resources and for utilizing techniques for the recovery of energy and materials from waste, and Federal assistance in planning and implementing such energy and materials conservation and recovery programs should be available to all such communities on an equitable basis in relation to their needs and potential.

(Pub. L. 96–482, § 32(a), Oct. 21, 1980, 94 Stat. 2353.)

CODIFICATION

Section was enacted as part of the Solid Waste Disposal Act Amendments of 1980, and not as part of the Solid Waste Disposal Act which comprises this chapter.

§ 6942. Federal guidelines for plans

(a) Guidelines for identification of regions

For purposes of encouraging and facilitating the development of regional planning for solid waste management, the Administrator, within one hundred and eighty days after October 21, 1976, and after consultation with appropriate Federal, State, and local authorities, shall by regulation publish guidelines for the identification of those areas which have common solid waste management problems and are appropriate units for planning regional solid waste management services. Such guidelines shall consider—

(1) the size and location of areas which should be included,

(2) the volume of solid waste which should be included, and

(3) the available means of coordinating regional planning with other related regional planning and for coordination of such regional planning into the State plan.

(b) Guidelines for State plans

Not later than eighteen months after October 21, 1976, and after notice and hearing, the Administrator shall, after consultation with appropriate Federal, State, and local authorities, promulgate regulations containing guidelines to assist in the development and implementation of State solid waste management plans (hereinafter in this chapter referred to as ''State plans''). The guidelines shall contain methods for achieving the objectives specified in section 6941 of this title. Such guidelines shall be reviewed from time to time, but not less frequently than every three years, and revised as may be appropriate.

(c) Considerations for State plan guidelines

The guidelines promulgated under subsection (b) of this section shall consider—

(1) the varying regional, geologic, hydrologic, climatic, and other circumstances under which different solid waste practices are required in order to insure the reasonable protection of the quality of the ground and surface waters from leachate contamination, the reasonable protection of the quality of the surface waters from surface runoff contamination, and the reasonable protection of ambient air quality;

(2) characteristics and conditions of collection, storage, processing, and disposal operating methods, techniques and practices, and location of facilities where such operating methods, techniques, and practices are conducted, taking into account the nature of the material to be disposed;

(3) methods for closing or upgrading open dumps for purposes of eliminating potential health hazards;

(4) population density, distribution, and projected growth;

(5) geographic, geologic, climatic, and hydrologic characteristics;

(6) the type and location of transportation;

(7) the profile of industries;

(8) the constituents and generation rates of waste;

(9) the political, economic, organizational, financial, and management problems affecting comprehensive solid waste management;

(10) types of resource recovery facilities and resource conservation systems which are appropriate; and

(11) available new and additional markets for recovered material and energy and energy resources recovered from solid waste as well as methods for conserving such materials and energy.

(Pub. L. 89–272, title II, § 4002, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2813; amended Pub. L. 96–482, § 32(c), Oct. 21, 1980, 94 Stat. 2353.)

AMENDMENTS

1980—Subsec. (c)(11). Pub. L. 96–482 required State plan guidelines to consider energy and energy resources recovered from solid waste as well as methods for conserving such materials and energy.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6946 of this title.

§ 6943. Requirements for approval of plans

(a) Minimum requirements

In order to be approved under section 6947 of this title, each State plan must comply with the following minimum requirements—

(1) The plan shall identify (in accordance with section 6946(b) of this title) (A) the responsibilities of State, local, and regional authorities in the implementation of the State plan, (B) the distribution of Federal funds to the authorities responsible for development and implementation of the State plan, and (C) the means for coordinating regional planning and implementation under the State plan.

(2) The plan shall, in accordance with sections 6944(b) and 6945(a) of this title, prohibit the establishment of new open dumps within the State, and contain requirements that all solid waste (including solid waste originating in other States, but not including hazardous waste) shall be (A) utilized for resource recovery or (B) disposed of in sanitary landfills (within the meaning of section 6944(a) of this title) or otherwise disposed of in an environmentally sound manner.

(3) The plan shall provide for the closing or upgrading of all existing open dumps within the State pursuant to the requirements of section 6945 of this title.

(4) The plan shall provide for the establishment of such State regulatory powers as may be necessary to implement the plan.

(5) The plan shall provide that no State or local government within the State shall be prohibited under State or local law from negotiating and entering into long-term contracts for the supply of solid waste to resource recovery facilities, from entering into long-term contracts for the operation of such facilities, or from securing long-term markets for material and energy recovered from such facilities or for conserving materials or energy by reducing the volume of waste.

(6) The plan shall provide for such resource conservation or recovery and for the disposal of solid waste in sanitary landfills or any combination of practices so as may be necessary to use or dispose of such waste in a manner that is environmentally sound.

(b) Discretionary plan provisions relating to recycled oil

Any State plan submitted under this subchapter may include, at the option of the State, provisions to carry out each of the following:

(1) Encouragement, to the maximum extent feasible and consistent with the protection of the public health and the environment, of the use of recycled oil in all appropriate areas of State and local government.

(2) Encouragement of persons contracting with the State to use recycled oil to the maximum extent feasible, consistent with protection of the public health and the environment.

(3) Informing the public of the uses of recycled oil.

(4) Establishment and implementation of a program (including any necessary licensing of persons and including the use, where appropriate, of manifests) to assure that used oil is collected, transported, treated, stored, reused, and disposed of, in a manner which does not present a hazard to the public health or the environment.

Any plan submitted under this chapter before October 15, 1980, may be amended, at the option of the State, at any time after such date to include any provision referred to in this subsection.

(c) Energy and materials conservation and recovery feasibility planning and assistance

(1) A State which has a plan approved under this subchapter or which has submitted a plan for such approval shall be eligible for assistance under section 6948(a)(3) of this title if the Administrator determines that under such plan the State will—

(A) analyze and determine the economic and technical feasibility of facilities and programs to conserve resources which contribute to the waste stream or to recover energy and materials from municipal waste;

(B) analyze the legal, institutional, and economic impediments to the development of systems and facilities for conservation of energy or materials which contribute to the waste stream or for the recovery of energy and materials from municipal waste and make recommendations to appropriate governmental authorities for overcoming such impediments;

(C) assist municipalities within the State in developing plans, programs, and projects to conserve resources or recover energy and materials from municipal waste; and

(D) coordinate the resource conservation and recovery planning under subparagraph (C).

(2) The analysis referred to in paragraph (1)(A) shall include—

(A) the evaluation of, and establishment of priorities among, market opportunities for industrial and commercial users of all types (including public utilities and industrial parks) to utilize energy and materials recovered from municipal waste;

(B) comparisons of the relative costs of energy recovered from municipal waste in relation to the costs of energy derived from fossil fuels and other sources;

(C) studies of the transportation and storage problems and other problems associated with the development of energy and materials recovery technology, including curbside source separation;

(D) the evaluation and establishment of priorities among ways of conserving energy or materials which contribute to the waste stream;

(E) comparison of the relative total costs between conserving resources and disposing of or recovering such waste; and

(F) studies of impediments to resource conservation or recovery, including business practices, transportation requirements, or storage difficulties.

Such studies and analyses shall also include studies of other sources of solid waste from which energy and materials may be recovered or minimized.

(d) Size of waste-to-energy facilities

Notwithstanding any of the above requirements, it is the intention of this chapter and the planning process developed pursuant to this chapter that in determining the size of the waste-to-energy facility, adequate provision shall be given to the present and reasonably anticipated future needs of the recycling and resource recovery interest within the area encompassed by the planning process.

(Pub. L. 89–272, title II, §4003, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2814; amended Pub. L. 96–463, §5(b), Oct. 15, 1980, 94 Stat. 2056; Pub. L. 96–482, §§18, 32(d), Oct. 21, 1980, 94 Stat. 2345, 2353; Pub. L. 98–616, title III, §301(b), title V, §502(h), Nov. 8, 1984, 98 Stat. 3267, 3277.)

CODIFICATION

Another section 5(b) of Pub. L. 96–463 amended section 6948 of this title.

AMENDMENTS

1984—Subsecs. (b), (c). Pub. L. 98–616, §502(h), redesignated the subsec. (b) entitled energy and materials conservation and recovery feasibility planning and assistance, as subsec. (c).

Subsec. (d). Pub. L. 98–616, §301(b), added subsec. (d).

1980—Subsec. (a). Pub. L. 96–463, §5(b), and Pub. L. 96–482, §32(d)(2), designated existing provisions as subsec. (a).

Subsec. (a)(2). Pub. L. 96–482, §18(a), substituted reference to sections 6944(b) and 6945(a) of this title for reference to section 6945(c) of this title.

Subsec. (a)(5). Pub. L. 96–482, §§18(b), 32(d)(1), substituted ''State or local government'' for ''local government'' and required State plan recognition of right to enter into long-term contracts for operation of resource recovery facilities and to secure long-term markets for material and energy recovered from such facilities, and required State plan recognition of right to negotiate long-term contracts and to negotiate and enter into such contracts for conserving materials or energy by reducing the volume of waste.

Subsec. (b). Pub. L. 96–463, §5(b), added subsec. (b) relating to discretionary plan provisions for recycled oil.

Pub. L. 96–482, §32(d)(2), added subsec. (b) relating to energy and materials conservation and recovery feasibility planning and assistance.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6944, 6945, 6946, 6947, 6948 of this title.

§6944. Criteria for sanitary landfills; sanitary landfills required for all disposal

(a) Criteria for sanitary landfills

Not later than one year after October 21, 1976, after consultation with the States, and after notice and public hearings, the Administrator shall promulgate regulations containing criteria for determining which facilities shall be classified as sanitary landfills and which shall be classified as open dumps within the meaning of this chapter. At a minimum, such criteria shall provide that a facility may be classified as a sanitary landfill and not an open dump only if there is no reasonable probability of adverse effects on health or the environment from disposal of solid waste at such facility. Such regulations may provide for the classification of the types of sanitary landfills.

(b) Disposal required to be in sanitary landfills, etc.

For purposes of complying with section 6943(2)[1] of this title each State plan shall prohibit the establishment of open dumps and contain a requirement that disposal of all solid waste within the State shall be in compliance with such section 6943(2)[1] of this title.

(c) Effective date

The prohibition contained in subsection (b) of this section shall take effect on the date six months after the date of promulgation of regulations under subsection (a) of this section.

(Pub. L. 89–272, title II, §4004, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2815; amended Pub. L. 98–616, title III, §302(b), Nov. 8, 1984, 98 Stat. 3268.)

REFERENCES IN TEXT

Section 6943(2) of this title, referred to in subsec. (b), was redesignated section 6943(a)(2) of this title by Pub. L. 96–463, §5(b), Oct. 15, 1980, 94 Stat. 2056, and Pub. L. 96–482, §32(d)(2), Oct. 21, 1980, 94 Stat. 2353.

AMENDMENTS

1984—Subsec. (c). Pub. L. 98–616 struck out ''or on the date of approval of the State plan, whichever is later'' at end.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to

[1] See References in Text note below.

Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6903, 6943, 6945, 6948, 6949a of this title; title 25 section 3902.

§ 6945. Upgrading of open dumps

(a) Closing or upgrading of existing open dumps

Upon promulgation of criteria under section 6907(a)(3) of this title, any solid waste management practice or disposal of solid waste or hazardous waste which constitutes the open dumping of solid waste or hazardous waste is prohibited, except in the case of any practice or disposal of solid waste under a timetable or schedule for compliance established under this section. The prohibition contained in the preceding sentence shall be enforceable under section 6972 of this title against persons engaged in the act of open dumping. For purposes of complying with section 6943(a)(2) and 6943(a)(3) of this title, each State plan shall contain a requirement that all existing disposal facilities or sites for solid waste in such State which are open dumps listed in the inventory under subsection (b) of this section shall comply with such measures as may be promulgated by the Administrator to eliminate health hazards and minimize potential health hazards. Each such plan shall establish, for any entity which demonstrates that it has considered other public or private alternatives for solid waste management to comply with the prohibition on open dumping and is unable to utilize such alternatives to so comply, a timetable or schedule for compliance for such practice or disposal of solid waste which specifies a schedule of remedial measures, including an enforceable sequence of actions or operations, leading to compliance with the prohibition on open dumping of solid waste within a reasonable time (not to exceed 5 years from the date of publication of criteria under section 6907(a)(3) of this title).

(b) Inventory

To assist the States in complying with section 6943(a)(3) of this title, not later than one year after promulgation of regulations under section 6944 of this title, the Administrator, with the cooperation of the Bureau of the Census shall publish an inventory of all disposal facilities or sites in the United States which are open dumps within the meaning of this chapter.

(c) Control of hazardous disposal

(1)(A) Not later than 36 months after November 8, 1984, each State shall adopt and implement a permit program or other system of prior approval and conditions to assure that each solid waste management facility within such State which may receive hazardous household waste or hazardous waste due to the provision of section 6921(d) of this title for small quantity generators (otherwise not subject to the requirement for a permit under section 6925 of this title) will comply with the applicable criteria promulgated under section 6944(a) and 6907(a)(3) of this title.

(B) Not later than eighteen months after the promulgation of revised criteria under subsection[1] 6944(a) of this title (as required by section 6949a(c) of this title), each State shall adopt and implement a permit program or other system or[2] prior approval and conditions, to assure that each solid waste management facility within such State which may receive hazardous household waste or hazardous waste due to the provision of section 6921(d) of this title for small quantity generators (otherwise not subject to the requirement for a permit under section 6925 of this title) will comply with the criteria revised under section 6944(a) of this title.

(C) The Administrator shall determine whether each State has developed an adequate program under this paragraph. The Administrator may make such a determination in conjunction with approval, disapproval or partial approval of a State plan under section 6947 of this title.

(2)(A) In any State that the Administrator determines has not adopted an adequate program for such facilities under paragraph (1)(B) by the date provided in such paragraph, the Administrator may use the authorities available under sections 6927 and 6928 of this title to enforce the prohibition contained in subsection (a) of this section with respect to such facilities.

(B) For purposes of this paragraph, the term ''requirement of this subchapter'' in section 6928 of this title shall be deemed to include criteria promulgated by the Administrator under sections 6907(a)(3) and 6944(a) of this title, and the term ''hazardous wastes'' in section 6927 of this title shall be deemed to include solid waste at facilities that may handle hazardous household wastes or hazardous wastes from small quantity generators.

(Pub. L. 89–272, title II, § 4005, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2815; amended Pub. L. 96–482, § 19(a), (b), Oct. 21, 1980, 94 Stat. 2345; Pub. L. 98–616, title III, § 302(c), title IV, § 403(c), title V, § 502(c), Nov. 8, 1984, 98 Stat. 3268, 3272, 3276.)

CODIFICATION

Another section 19(b) of Pub. L. 96–482 amended section 6946 of this title.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, § 403(c), inserted after first sentence ''The prohibition contained in the preceding sentence shall be enforceable under section 6972 of this title against persons engaged in the act of open dumping.''

Pub. L. 98–616, § 502(c), inserted a closing parenthesis before the period at end.

Subsec. (c). Pub. L. 98–616, § 302(c), added subsec. (c).

1980—Subsec. (a). Pub. L. 96–482, § 19(a), (b)(1), struck out subsec. (a) which defined ''open dump'', which is covered in section 6903(14) of this title, redesignated subsec. (c) as (a) and substituted ''Upon promulgation of criteria under section 6907(a)(3) of this title, any'' for ''Any'', ''section 6943(a)(2) and 6943(a)(3) of this title'' for ''section 6943(2) of this title'', and ''criteria under section 6907(a)(3) of this title'' for ''the inventory under subsection (b) of this section''.

Amendment by section 19(b)(1) of Pub. L. 96–482, directing that following reference to ''4003(2)'', which had been editorially translated as section 6943(2) of this title, the phrase ''and 4003(3)'' be inserted, was executed by translating ''4003(2) and 4003(3)'' as section 6943(a)(2)

[1] So in original. Probably should be ''section''.

[2] So in original. Probably should be ''of''.

and 6943(a)(3) of this title, in view of the designation of the existing provisions of section 6943 of this title as subsec. (a) of section 6943 of this title by section 5(b) of Pub. L. 96–463 and also by section 32(d)(2) of Pub. L. 96–482.

Subsec. (b). Pub. L. 96–482, §19(b)(2), inserted introductory phrase ''To assist the States in complying with section 6943(a)(3) of this title''. Amendment referring to section ''4003(3)'' was executed by translating ''4003(3)'' as section 6943(a)(3) of this title, in view of the designation of the existing provisions of section 6943 of this title as subsec. (a) of section 6943 of this title by section 5(b) of Pub. L. 96–463 and also by section 32(d)(2) of Pub. L. 96–482.

Subsec. (c). Pub. L. 96–482, §19(a), redesignated subsec. (c) as (a).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6943, 6946, 6948, 6949 of this title.

§ 6946. Procedure for development and implementation of State plan

(a) Identification of regions

Within one hundred and eighty days after publication of guidelines under section 6942(a) of this title (relating to identification of regions), the Governor of each State, after consultation with local elected officials, shall promulgate regulations based on such guidelines identifying the boundaries of each area within the State which, as a result of urban concentrations, geographic conditions, markets, and other factors, is appropriate for carrying out regional solid waste management. Such regulations may be modified from time to time (identifying additional or different regions) pursuant to such guidelines.

(b) Identification of State and local agencies and responsibilities

(1) Within one hundred and eighty days after the Governor promulgates regulations under subsection (a) of this section, for purposes of facilitating the development and implementation of a State plan which will meet the minimum requirements of section 6943 of this title, the State, together with appropriate elected officials of general purpose units of local government, shall jointly (A) identify an agency to develop the State plan and identify one or more agencies to implement such plan, and (B) identify which solid waste management activities will, under such State plan, be planned for and carried out by the State and which such management activities will, under such State plan, be planned for and carried out by a regional or local authority or a combination of regional or local and State authorities. If a multi-functional regional agency authorized by State law to conduct solid waste planning and management (the members of which are appointed by the Governor) is in existence on October 21, 1976, the Governor shall identify such authority for purposes of carrying out within such region clause (A) of this paragraph. Where feasible, designation of the agency for the affected area designated under section 1288 of title 33 shall be considered. A State agency identified under this paragraph shall be established or designated by the Governor of such State. Local or regional agencies identified under this paragraph shall be composed of individuals at least a majority of whom are elected local officials.

(2) If planning and implementation agencies are not identified and designated or established as required under paragraph (1) for any affected area, the governor shall, before the date two hundred and seventy days after promulgation of regulations under subsection (a) of this section, establish or designate a State agency to develop and implement the State plan for such area.

(c) Interstate regions

(1) In the case of any region which, pursuant to the guidelines published by the Administrator under section 6942(a) of this title (relating to identification of regions), would be located in two or more States, the Governors of the respective States, after consultation with local elected officials, shall consult, cooperate, and enter into agreements identifying the boundaries of such region pursuant to subsection (a) of this section.

(2) Within one hundred and eighty days after an interstate region is identified by agreement under paragraph (1), appropriate elected officials of general purpose units of local government within such region shall jointly establish or designate an agency to develop a plan for such region. If no such agency is established or designated within such period by such officials, the Governors of the respective States may, by agreement, establish or designate for such purpose a single representative organization including elected officials of general purpose units of local government within such region.

(3) Implementation of interstate regional solid waste management plans shall be conducted by units of local government for any portion of a region within their jurisdiction, or by multijurisdictional agencies or authorities designated in accordance with State law, including those designated by agreement by such units of local government for such purpose. If no such unit, agency, or authority is so designated, the respective Governors shall designate or establish a single interstate agency to implement such plan.

(4) For purposes of this subchapter, so much of an interstate regional plan as is carried out within a particular State shall be deemed part of the State plan for such State.

(Pub. L. 89–272, title II, §4006, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2816; amended Pub. L. 96–482, §19(b), Oct. 21, 1980, 94 Stat. 2345.)

CODIFICATION

Another section 19(b) of Pub. L. 96–482 amended section 6945 of this title.

AMENDMENTS

1980—Subsec. (b)(1)(B). Pub. L. 96–482 substituted ''management activities'' for ''functions'' in two places.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protec-

tion Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6903, 6943, 6944, 6947, 6948 of this title.

§ 6947. Approval of State plan; Federal assistance

(a) Plan approval

The Administrator shall, within six months after a State plan has been submitted for approval, approve or disapprove the plan. The Administrator shall approve a plan if he determines that—

(1) it meets the requirements of paragraphs (1), (2), (3), and (5) of section 6943(a) of this title; and

(2) it contains provision for revision of such plan, after notice and public hearing, whenever the Administrator, by regulation, determines—

(A) that revised regulations respecting minimum requirements have been promulgated under paragraphs (1), (2), (3), and (5) of section 6943(a) of this title with which the State plan is not in compliance;

(B) that information has become available which demonstrates the inadequacy of the plan to effectuate the purposes of this subchapter; or

(C) that such revision is otherwise necessary.

The Administrator shall review approved plans from time to time and if he determines that revision or corrections are necessary to bring such plan into compliance with the minimum requirements promulgated under section 6943 of this title (including new or revised requirements), he shall, after notice and opportunity for public hearing, withdraw his approval of such plan. Such withdrawal of approval shall cease to be effective upon the Administrator's determination that such complies with such minimum requirements.

(b) Eligibility of States for Federal financial assistance

(1) The Administrator shall approve a State application for financial assistance under this subchapter, and make grants to such State, if such State and local and regional authorities within such State have complied with the requirements of section 6946 of this title within the period required under such section and if such State has a State plan which has been approved by the Administrator under this subchapter.

(2) The Administrator shall approve a State application for financial assistance under this subchapter, and make grants to such State, for fiscal years 1978 and 1979 if the Administrator determines that the State plan continues to be eligible for approval under subsection (a) of this section and is being implemented by the State.

(3) Upon withdrawal of approval of a State plan under subsection (a) of this section, the Administrator shall withhold Federal financial and technical assistance under this subchapter (other than such technical assistance as may be necessary to assist in obtaining the reinstatement of approval) until such time as such approval is reinstated.

(c) Existing activities

Nothing in this subchapter shall be construed to prevent or affect any activities respecting solid waste planning or management which are carried out by State, regional, or local authorities unless such activities are inconsistent with a State plan approved by the Administrator under this subchapter.

(Pub. L. 89–272, title II, § 4007, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2817; amended Pub. L. 95–609, § 7(*l*), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 104–119, § 4(8), Mar. 26, 1996, 110 Stat. 833.)

AMENDMENTS

1996—Subsec. (a)(1), (2)(A). Pub. L. 104–119 substituted ''section 6943(a) of this title'' for ''section 6943 of this title''.

1978—Subsec. (c). Pub. L. 95–609 substituted ''(c)'' for ''(C)'' in subsection designation.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6903, 6943, 6945, 6948 of this title.

§ 6948. Federal assistance

(a) Authorization of Federal financial assistance

(1) There are authorized to be appropriated $30,000,000 for fiscal year 1978, $40,000,000 for fiscal year 1979, $20,000,000 for fiscal year 1980, $15,000,000 for fiscal year 1981, $20,000,000 for the fiscal year 1982, and $10,000,000 for each of the fiscal years 1985 through 1988 for purposes of financial assistance to States and local, regional, and interstate authorities for the development and implementation of plans approved by the Administrator under this subchapter (other than the provisions of such plans referred to in section 6943(b)[1] of this title, relating to feasibility planning for municipal waste energy and materials conservation and recovery).

(2)(A) The Administrator is authorized to provide financial assistance to States, counties, municipalities, and intermunicipal agencies and State and local public solid waste management authorities for implementation of programs to provide solid waste management, resource recovery, and resource conservation services and hazardous waste management. Such assistance shall include assistance for facility planning and feasibility studies; expert consultation; surveys and analyses of market needs; marketing of recovered resources; technology assessments; legal expenses; construction feasibility studies; source separation projects; and fiscal or economic investigations or studies; but such assistance shall not include any other element of con-

[1] See References in Text note below.

struction, or any acquisition of land or interest in land, or any subsidy for the price of recovered resources. Agencies assisted under this subsection shall consider existing solid waste management and hazardous waste management services and facilities as well as facilities proposed for construction.

(B) An applicant for financial assistance under this paragraph must agree to comply with respect to the project or program assisted with the applicable requirements of section 6945 of this title and subchapter III of this chapter and apply applicable solid waste management practices, methods, and levels of control consistent with any guidelines published pursuant to section 6907 of this title. Assistance under this paragraph shall be available only for programs certified by the State to be consistent with any applicable State or areawide solid waste management plan or program. Applicants for technical and financial assistance under this section shall not preclude or foreclose consideration of programs for the recovery of recyclable materials through source separation or other resource recovery techniques.

(C) There are authorized to be appropriated $15,000,000 for each of the fiscal years 1978 and 1979 for purposes of this section. There are authorized to be appropriated $10,000,000 for fiscal year 1980, $10,000,000 for fiscal year 1981, $10,000,000 for fiscal year 1982, and $10,000,000 for each of the fiscal years 1985 through 1988 for purposes of this paragraph.

(D) There are authorized—

(i) to be made available $15,000,000 out of funds appropriated for fiscal year 1985, and

(ii) to be appropriated for each of the fiscal years 1986 though[2] 1988, $20,000,000[3]

for grants to States (and where appropriate to regional, local, and interstate agencies) to implement programs requiring compliance by solid waste management facilities with the criteria promulgated under section 6944(a) of this title and section 6907(a)(3) of this title and with the provisions of section 6945 of this title. To the extent practicable, such programs shall require such compliance not later than thirty-six months after November 8, 1984.

(3)(A) There is authorized to be appropriated for the fiscal year beginning October 1, 1981, and for each fiscal year thereafter before October 1, 1986, $4,000,000 for purposes of making grants to States to carry out section 6943(b)[4] of this title. No amount may be appropriated for such purposes for the fiscal year beginning on October 1, 1986, or for any fiscal year thereafter.

(B) Assistance provided by the Administrator under this paragraph shall be used only for the purposes specified in section 6943(b)[4] of this title. Such assistance may not be used for purposes of land acquisition, final facility design, equipment purchase, construction, startup or operation activities.

(C) Where appropriate, any State receiving assistance under this paragraph may make all or any part of such assistance available to municipalities within the State to carry out the activities specified in section 6943(b)(1)(A) and (B)[4] of this title.

(b) State allotment

The sums appropriated in any fiscal year under subsection (a)(1) of this section shall be allotted by the Administrator among all States, in the ratio that the population in each State bears to the population in all of the States, except that no State shall receive less than one-half of 1 per centum of the sums so allotted in any fiscal year. No State shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for other than non-recurrent expenditures for solid waste management control programs will be less than its expenditures were for such programs during fiscal year 1975, except that such funds may be reduced by an amount equal to their proportionate share of any general reduction of State spending ordered by the Governor or legislature of such State. No State shall receive any grant for solid waste management programs unless the Administrator is satisfied that such grant will be so used as to supplement and, to the extent practicable, increase the level of State, local, regional, or other non-Federal funds that would in the absence of such grant be made available for the maintenance of such programs.

(c) Distribution of Federal financial assistance within the State

The Federal assistance allotted to the States under subsection (b) of this section shall be allocated by the State receiving such funds to State, local, regional, and interstate authorities carrying out planning and implementation of the State plan. Such allocation shall be based upon the responsibilities of the respective parties as determined pursuant to section 6946(b) of this title.

(d) Technical assistance

(1) The Administrator may provide technical assistance to State and local governments for purposes of developing and implementing State plans. Technical assistance respecting resource recovery and conservation may be provided through resource recovery and conservation panels, established in the Environmental Protection Agency under subchapter II of this chapter, to assist the State and local governments with respect to particular resource recovery and conservation projects under consideration and to evaluate their effect on the State plan.

(2) In carrying out this subsection, the Administrator may, upon request, provide technical assistance to States to assist in the removal or modification of legal, institutional, economic, and other impediments to the recycling of used oil. Such impediments may include laws, regulations, and policies, including State procurement policies, which are not favorable to the recycling of used oil.

(3) In carrying out this subsection, the Administrator is authorized to provide technical assistance to States, municipalities, regional authorities, and intermunicipal agencies upon request, to assist in the removal or modification of legal, institutional, and economic impediments which have the effect of impeding the development of systems and facilities to recovery

[2] So in original. Probably should be ''through''.

[3] So in original. Probably should be followed by a comma.

[4] See References in Text note below.

energy and materials from municipal waste or to conserve energy or materials which contribute to the waste stream. Such impediments may include—

(A) laws, regulations, and policies, including State and local procurement policies, which are not favorable to resource conservation and recovery policies, systems, and facilities;

(B) impediments to the financing of facilities to conserve or recover energy and materials from municipal waste through the exercise of State and local authority to issue revenue bonds and the use of State and local credit assistance; and

(C) impediments to institutional arrangements necessary to undertake projects for the conservation or recovery of energy and materials from municipal waste, including the creation of special districts, authorities, or corporations where necessary having the power to secure the supply of waste of a project, to conserve resources, to implement the project, and to undertake related activities.

(e) Special communities

(1) The Administrator, in cooperation with State and local officials, shall identify local governments within the United States (A) having a solid waste disposal facility (i) which is owned by the unit of local government, (ii) for which an order has been issued by the State to cease receiving solid waste for treatment, storage, or disposal, and (iii) which is subject to a State-approved end-use recreation plan, and (B) which are located over an aquifer which is the source of drinking water for any person or public water system and which has serious environmental problems resulting from the disposal of such solid waste, including possible methane migration.

(2) There is authorized to be appropriated to the Administrator $2,500,000 for the fiscal year 1980 and $1,500,000 for each of the fiscal years 1981 and 1982 to make grants to be used for containment and stabilization of solid waste located at the disposal sites referred to in paragraph (1). Not more than one community in any State shall be eligible for grants under this paragraph and not more than one project in any State shall be eligible for such grants. No unit of local government shall be eligible for grants under this paragraph with respect to any site which exceeds 65 acres in size.

(f) Assistance to States for discretionary program for recycled oil

(1) The Administrator may make grants to States, which have a State plan approved under section 6947 of this title, or which have submitted a State plan for approval under such section, if such plan includes the discretionary provisions described in section 6943(b) of this title. Grants under this subsection shall be for purposes of assisting the State in carrying out such discretionary provisions. No grant under this subsection may be used for construction or for the acquisition of land or equipment.

(2) Grants under this subsection shall be allotted among the States in the same manner as provided in the first sentence of subsection (b) of this section.

(3) No grant may be made under this subsection unless an application therefor is submitted to, and approved by, the Administrator. The application shall be in such form, be submitted in such manner, and contain such information as the Administrator may require.

(4) For purposes of making grants under this subsection, there are authorized to be appropriated $5,000,000 for fiscal year 1982, $5,000,000 for fiscal year 1983, and $5,000,000 for each of the fiscal years 1985 through 1988.

(g) Assistance to municipalities for energy and materials conservation and recovery planning activities

(1) The Administrator is authorized to make grants to municipalities, regional authorities, and intermunicipal agencies to carry out activities described in subparagraphs (A) and (B) of section 6943(b)(1)[5] of this title. Such grants may be made only pursuant to an application submitted to the Administrator by the municipality which application has been approved by the State and determined by the State to be consistent with any State plan approved or submitted under this subchapter or any other appropriate planning carried out by the State.

(2) There is authorized to be appropriated for the fiscal year beginning October 1, 1981, and for each fiscal year thereafter before October 1, 1986, $8,000,000 for purposes of making grants to municipalities under this subsection. No amount may be appropriated for such purposes for the fiscal year beginning on October 1, 1986, or for any fiscal year thereafter.

(3) Assistance provided by the Administrator under this subsection shall be used only for the purposes specified in paragraph (1). Such assistance may not be used for purposes of land acquisition, final facility design, equipment purchase, construction, startup or operation activities.

(Pub. L. 89–272, title II, § 4008, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2818; amended Pub. L. 96–463, §§ 5(b), 6, Oct. 15, 1980, 94 Stat. 2057; Pub. L. 96–482, §§ 20, 31(c), (d), 32(e), (f), Oct. 21, 1980, 94 Stat. 2345, 2352, 2354, 2355; Pub. L. 98–616, § 2(d)–(g), (k), title V, § 502(d), (e), Nov. 8, 1984, 98 Stat. 3222, 3223, 3276.)

REFERENCES IN TEXT

Section 6943(b) of this title, referred to in subsecs. (a)(1), (3) and (g)(1), was redesignated section 6943(c) of this title by Pub. L. 98–616, title V, § 502(h), Nov. 8, 1984, 98 Stat. 3277.

CODIFICATION

Section 2(d)–(g) of Pub. L. 98–616, cited as a credit to this section, appears to contain typographical error in that the text of subsec. (f)(1) of section 2007 of the Solid Waste Disposal Act (as added by section 2(i) of Pub. L. 98–616) is also shown as the text of subsec. ''(f)(1)'' of such section 2. Subsec. (f) of section 2, as set out in the Conference Report (H. Rept. 98–1133) to accompany H.R. 2867 (which became Pub. L. 98–616) read:

''(f) Section 4008(e)(2) of the Solid Waste Disposal Act (relating to special communities) is amended by striking out 'and $1,500,000 for each of the fiscal years 1981 and 1982' and substituting ', $1,500,000 for each of the fiscal years 1981 and 1982, and $500,000 for each of the fiscal years 1985 through 1988'.''

Another section 5(b) of Pub. L. 96–463 amended section 6943 of this title.

[5] See References in Text note below.

AMENDMENTS

1984—Subsec. (a)(1). Pub. L. 98–616, §2(d), authorized appropriation of $10,000,000 for each of fiscal years 1985 through 1988.

Subsec. (a)(2)(C). Pub. L. 98–616, §2(e), authorized appropriation of $10,000,000 for each of fiscal years 1985 through 1988.

Subsec. (a)(2)(D). Pub. L. 98–616, §2(k), added subpar. (D).

Subsec. (d)(2), (3). Pub. L. 98–616, §502(d), redesignated second par. (2), relating to recovery of energy and materials from municipal waste, as par. (3).

Subsec. (f). Pub. L. 98–616, §502(e), redesignated second subsec. (f), relating to assistance to municipalities for energy and materials conservation and recovery planning activities, as subsec. (g).

Subsec. (f)(4). Pub. L. 98–616, §2(g), authorized appropriation of $5,000,000 for each of fiscal years 1985 through 1988.

Subsec. (g). Pub. L. 98–616, §502(e), redesignated second subsec. (f), relating to assistance to municipalities for energy and materials conservation and recovery planning activities, as subsec. (g).

1980—Subsec. (a)(1). Pub. L. 96–482, §31(c), authorized appropriations of $20,000,000, $15,000,000, and $20,000,000 for fiscal years, 1980, 1981, and 1982, respectively, and substituted provision making appropriation available for financial assistance to States, and local, regional, and interstate authorities for development and implementation of plans approved by the Administrator, except plans referred to in section 6943(b) of this title, relating to feasibility planning for municipal waste energy and materials conservation and recovery for provision making appropriations available to State for development and implementation of State plans.

Subsec. (a)(2)(B). Pub. L. 96–482, §32(e)(1), provided that applicants for technical and financial assistance shall not preclude or foreclose consideration of programs for recovery of recyclable materials through source separation or other resource recovery techniques.

Subsec. (a)(2)(C). Pub. L. 96–482, §31(d), authorized appropriation of $10,000,000 for each fiscal year 1980, 1981, and 1982.

Subsec. (a)(3). Pub. L. 96–482, §32(e)(2), added par. (3).

Subsec. (d). Pub. L. 96–463, §6, and Pub. L. 96–482, §32(f), designated existing provisions as par. (1).

Subsec. (d)(2). Pub. L. 96–463, §6, added par. (2) authorizing the Administrator to provide technical assistance to States to assist in the removal or modification of legal, institutional, economic, and other impediments to the recycling of used oil.

Pub. L. 96–482, §32(f), added par. (2) authorizing the Administrator to provide technical assistance to States, municipalities, regional authorities, and intermunicipal agencies to assist in the removal or modification of legal, institutional, and economic impediments which have the effect of impeding the development of systems and facilities to recover energy and materials from municipal waste.

Subsec. (e)(1). Pub. L. 96–482, §20(1)–(5), substituted in provision preceding cl. (A) ''identify local governments'' for ''identify communities'', struck out cl. (A), which required the Administrator to identify populations of less than twenty-five thousand persons, redesignated cls. (B) and (C) as (A) and (B), respectively, in cl. (A) as so redesignated, substituted ''a solid waste disposal facility (i) which is owned by the unit of local government, (ii) for which an order has been issued by the State to cease receiving solid waste for treatment, storage, or disposal, and (iii) which is subject to a State-approved end-use recreation plan'' for ''solid waste disposal facilities in which more than 75 per centum of the solid waste of is from areas outside the jurisdiction of the communities'' in cl. (B) as so redesignated, substituted ''which are located over an aquifer which is the source of drinking water for any person or public water system and which has'' for ''which have'' and inserted '', including possible methane migration'' after ''such solid waste''.

Subsec. (e)(2). Pub. L. 96–482, §20(6)–(8), substituted appropriations authorization of $2,500,000; $1,500,000; and $1,500,000 for fiscal years 1980, 1981, and 1982, for prior authorization of $2,500,000 for fiscal years 1978 and 1979, substituted provision for grants for ''containment and stabilization of solid waste located at the disposal sites referred to in paragraph (1)'' for such grants for ''the conversion, improvement, or consolidation of existing solid waste disposal facilities, or for the construction of new solid waste disposal facilities, or for both, within communities identified under paragraph (1)'', and prohibited grants to units of local government when site exceeds 65 acres in size.

Subsec. (e)(3). Pub. L. 96–482, §20(9), struck out par. (3) which required that grants to States be made only when the projects are consistent with applicable and approved State plan and will assist in carrying out such plan.

Subsec. (f). Pub. L. 96–463, §5(b), added subsec. (f) relating to assistance to States for discretionary program for recycled oil.

Pub. L. 96–482, §32(e)(3), added subsec. (f) relating to assistance to municipalities for energy and materials conservation and recovery planning activities.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6916, 6943 of this title.

§ 6949. Rural communities assistance

(a) In general

The Administrator shall make grants to States to provide assistance to municipalities with a population of five thousand or less, or counties with a population of ten thousand or less or less than twenty persons per square mile and not within a metropolitan area, for solid waste management facilities (including equipment) necessary to meet the requirements of section 6945 of this title or restrictions on open burning or other requirements arising under the Clean Air Act [42 U.S.C. 7401 et seq.] or the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.]. Such assistance shall only be available—

(1) to any municipality or county which could not feasibly be included in a solid waste management system or facility serving an urbanized, multijurisdictional area because of its distance from such systems;

(2) where existing or planned solid waste management services or facilities are unavailable or insufficient to comply with the requirements of section 6945 of this title; and

(3) for systems which are certified by the State to be consistent with any plans or programs established under any State or areawide planning process.

(b) Allotment

The Administrator shall allot the sums appropriated to carry out this section in any fiscal year among the States in accordance with regulations promulgated by him on the basis of the average of the ratio which the population of

rural areas of each State bears to the total population of rural areas of all the States, the ratio which the population of counties in each State having less than twenty persons per square mile bears to the total population of such counties in all the States, and the ratio which the population of such low-density counties in each State having 33 per centum or more of all families with incomes not in excess of 125 per centum of the poverty level bears to the total population of such counties in all the States.

(c) Limit

The amount of any grant under this section shall not exceed 75 per centum of the costs of the project. No assistance under this section shall be available for the acquisition of land or interests in land.

(d) Authorization of appropriations

There are authorized to be appropriated $25,000,000 for each of the fiscal years 1978 and 1979 to carry out this section. There are authorized to be appropriated $10,000,000 for the fiscal year 1980 and $15,000,000 for each of the fiscal years 1981 and 1982 to carry out this section.

(Pub. L. 89–272, title II, § 4009, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2819; amended Pub. L. 96–482, § 31(e), Oct. 21, 1980, 94 Stat. 2353.)

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (a), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§ 7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The Federal Water Pollution Control Act, referred to in subsec. (a), is act June 30, 1948, ch. 758, as amended generally by Pub. L. 92–500, § 2, Oct. 18, 1972, 86 Stat. 816, which is classified generally to chapter 26 (§ 1251 et seq.) of title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short title note set out under section 1251 of title 33 and Tables.

AMENDMENTS

1980—Subsec. (d). Pub. L. 96–482 authorized appropriation of $10,000,000, $15,000,000, and $15,000,000 for fiscal years 1980, 1981, 1982, respectively.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6916 of this title.

§ 6949a. Adequacy of certain guidelines and criteria

(a) Study

The Administrator shall conduct a study of the extent to which the guidelines and criteria under this chapter (other than guidelines and criteria for facilities to which subchapter III of this chapter applies) which are applicable to solid waste management and disposal facilities, including, but not limited to landfills and surface impoundments, are adequate to protect human health and the environment from ground water contamination. Such study shall include a detailed assessment of the degree to which the criteria under section 6907(a) of this title and the criteria under section 6944 of this title regarding monitoring, prevention of contamination, and remedial action are adequate to protect ground water and shall also include recommendation with respect to any additional enforcement authorities which the Administrator, in consultation with the Attorney General, deems necessary for such purposes.

(b) Report

Not later than thirty-six months after November 8, 1984, the Administrator shall submit a report to the Congress setting forth the results of the study required under this section, together with any recommendations made by the Administrator on the basis of such study.

(c) Revisions of guidelines and criteria

(1) In general

Not later than March 31, 1988, the Administrator shall promulgate revisions of the criteria promulgated under paragraph (1) of section 6944(a) of this title and under section 6907(a)(3) of this title for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators under section 6921(d) of this title. The criteria shall be those necessary to protect human health and the environment and may take into account the practicable capability of such facilities. At a minimum such revisions for facilities potentially receiving such wastes should require ground water monitoring as necessary to detect contamination, establish criteria for the acceptable location of new or existing facilities, and provide for corrective action as appropriate.

(2) Additional revisions

Subject to paragraph (3), the requirements of the criteria described in paragraph (1) relating to ground water monitoring shall not apply to an owner or operator of a new municipal solid waste landfill unit, an existing municipal solid waste landfill unit, or a lateral expansion of a municipal solid waste landfill unit, that disposes of less than 20 tons of municipal solid waste daily, based on an annual average, if—

(A) there is no evidence of ground water contamination from the municipal solid waste landfill unit or expansion; and

(B) the municipal solid waste landfill unit or expansion serves—

(i) a community that experiences an annual interruption of at least 3 consecutive months of surface transportation that prevents access to a regional waste management facility; or

(ii) a community that has no practicable waste management alternative and the landfill unit is located in an area that annually receives less than or equal to 25 inches of precipitation.

(3) Protection of ground water resources

(A) Monitoring requirement

A State may require ground water monitoring of a solid waste landfill unit that

would otherwise be exempt under paragraph (2) if necessary to protect ground water resources and ensure compliance with a State ground water protection plan, where applicable.

(B) Methods

If a State requires ground water monitoring of a solid waste landfill unit under subparagraph (A), the State may allow the use of a method other than the use of ground water monitoring wells to detect a release of contamination from the unit.

(C) Corrective action

If a State finds a release from a solid waste landfill unit, the State shall require corrective action as appropriate.

(4) No-migration exemption

(A) In general

Ground water monitoring requirements may be suspended by the Director of an approved State for a landfill operator if the operator demonstrates that there is no potential for migration of hazardous constituents from the unit to the uppermost aquifer during the active life of the unit and the post-closure care period.

(B) Certification

A demonstration under subparagraph (A) shall be certified by a qualified ground-water scientist and approved by the Director of an approved State.

(C) Guidance

Not later than 6 months after March 26, 1996, the Administrator shall issue a guidance document to facilitate small community use of the no migration[1] exemption under this paragraph.

(5) Alaska Native villages

Upon certification by the Governor of the State of Alaska that application of the requirements described in paragraph (1) to a solid waste landfill unit of a Native village (as defined in section 1602 of title 43) or unit that is located in or near a small, remote Alaska village would be infeasible, or would not be cost-effective, or is otherwise inappropriate because of the remote location of the unit, the State may exempt the unit from some or all of those requirements. This paragraph shall apply only to solid waste landfill units that dispose of less than 20 tons of municipal solid waste daily, based on an annual average.

(6) Further revisions of guidelines and criteria

Recognizing the unique circumstances of small communities, the Administrator shall, not later than two years after March 26, 1996, promulgate revisions to the guidelines and criteria promulgated under this subchapter to provide additional flexibility to approved States to allow landfills that receive 20 tons or less of municipal solid waste per day, based on an annual average, to use alternative frequencies of daily cover application, frequencies of methane gas monitoring, infiltration layers for final cover, and means for demonstrating financial assurance: *Provided*, That such alternative requirements take into account climatic and hydrogeologic conditions and are protective of human health and environment.

(Pub. L. 89–272, title II, § 4010, as added Pub. L. 98–616, title III, § 302(a)(1), Nov. 8, 1984, 98 Stat. 3267; amended Pub. L. 104–119, § 3(a), Mar. 26, 1996, 110 Stat. 831.)

AMENDMENTS

1996—Subsec. (c). Pub. L. 104–119 designated existing provisions as par. (1), inserted heading, and added pars. (2) to (6).

REINSTATEMENT OF REGULATORY EXEMPTION

Section 3(b) of Pub. L. 104–119 provided that: ''It is the intent of section 4010(c)(2) of the Solid Waste Disposal Act [42 U.S.C. 6949a(c)(2)], as added by subsection (a), to immediately reinstate subpart E of part 258 of title 40, Code of Federal Regulations, as added by the final rule published at 56 Federal Register 50798 on October 9, 1991.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6945 of this title.

SUBCHAPTER V—DUTIES OF SECRETARY OF COMMERCE IN RESOURCE AND RECOVERY

§ 6951. Functions

The Secretary of Commerce shall encourage greater commercialization of proven resource recovery technology by providing—

(1) accurate specifications for recovered materials;

(2) stimulation of development of markets for recovered materials;

(3) promotion of proven technology; and

(4) a forum for the exchange of technical and economic data relating to resource recovery facilities.

(Pub. L. 89–272, title II, § 5001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2820.)

§ 6952. Development of specifications for secondary materials

The Secretary of Commerce, acting through the National Institute of Standards and Technology, and in conjunction with national standards-setting organizations in resource recovery, shall, after public hearings, and not later than two years after September 1, 1979, publish guidelines for the development of specifications for the classification of materials recovered from waste which were destined for disposal. The specifications shall pertain to the physical and chemical properties and characteristics of such materials with regard to their use in replacing virgin materials in various industrial, commercial, and governmental uses. In establishing such guidelines the Secretary shall also, to the extent feasible, provide such information as may be necessary to assist Federal agencies with procurement of items containing recovered materials. The Secretary shall continue to cooperate with national standards-setting organizations, as may be necessary, to encourage the publication, promulgation and updating of standards

[1] So in original. Probably should be ''no-migration''.

for recovered materials and for the use of recovered materials in various industrial, commercial, and governmental uses.

(Pub. L. 89–272, title II, § 5002, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2820; amended Pub. L. 96–482, § 21(a), Oct. 21, 1980, 94 Stat. 2346; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433.)

AMENDMENTS

1988—Pub. L. 100–418 substituted ''National Institute of Standards and Technology'' for ''National Bureau of Standards''.

1980—Pub. L. 96–482 substituted ''September 1, 1979'' for ''October 21, 1976''.

§ 6953. Development of markets for recovered materials

The Secretary of Commerce shall within two years after September 1, 1979, take such actions as may be necessary to—

(1) identify the geographical location of existing or potential markets for recovered materials;

(2) identify the economic and technical barriers to the use of recovered materials; and

(3) encourage the development of new uses for recovered materials.

(Pub. L. 89–272, title II, § 5003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2821; amended Pub. L. 96–482, § 21(b), Oct. 21, 1980, 94 Stat. 2346.)

AMENDMENTS

1980—Pub. L. 96–482 substituted ''September 1, 1979'' for ''October 21, 1976''.

§ 6954. Technology promotion

The Secretary of Commerce is authorized to evaluate the commercial feasibility of resource recovery facilities and to publish the results of such evaluation, and to develop a data base for purposes of assisting persons in choosing such a system.

(Pub. L. 89–272, title II, § 5004, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2821.)

§ 6955. Marketing policies, establishment; nondiscrimination requirement

In establishing any policies which may affect the development of new markets for recovered materials and in making any determination concerning whether or not to impose monitoring or other controls on any marketing or transfer of recovered materials, the Secretary of Commerce may consider whether to establish the same or similar policies or impose the same or similar monitoring or other controls on virgin materials.

(Pub. L. 89–272, title II, § 5005, as added Pub. L. 96–482, § 21(c)(1), Oct. 21, 1980, 94 Stat. 2346.)

§ 6956. Authorization of appropriations

There are authorized to be appropriated to the Secretary of Commerce $5,000,000 for each of fiscal years 1980, 1981, and 1982 and $1,500,000 for each of the fiscal years 1985 through 1988 to carry out the purposes of this subchapter.

(Pub. L. 89–272, title II, § 5006, as added Pub. L. 96–482, § 31(f)(1), Oct. 21, 1980, 94 Stat. 2353; amended Pub. L. 98–616, § 2(h), Nov. 8, 1984, 98 Stat. 3223.)

AMENDMENTS

1984—Pub. L. 98–616 authorized appropriation of $1,500,000 for each of fiscal years 1985 through 1988.

SUBCHAPTER VI—FEDERAL RESPONSIBILITIES

§ 6961. Application of Federal, State, and local law to Federal facilities

(a) In general

Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any solid waste management facility or disposal site, or (2) engaged in any activity resulting, or which may result, in the disposal or management of solid waste or hazardous waste shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting control and abatement of solid waste or hazardous waste disposal and management in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. The Federal, State, interstate, and local substantive and procedural requirements referred to in this subsection include, but are not limited to, all administrative orders and all civil and administrative penalties and fines, regardless of whether such penalties or fines are punitive or coercive in nature or are imposed for isolated, intermittent, or continuing violations. The United States hereby expressly waives any immunity otherwise applicable to the United States with respect to any such substantive or procedural requirement (including, but not limited to, any injunctive relief, administrative order or civil or administrative penalty or fine referred to in the preceding sentence, or reasonable service charge). The reasonable service charges referred to in this subsection include, but are not limited to, fees or charges assessed in connection with the processing and issuance of permits, renewal of permits, amendments to permits, review of plans, studies, and other documents, and inspection and monitoring of facilities, as well as any other nondiscriminatory charges that are assessed in connection with a Federal, State, interstate, or local solid waste or hazardous waste regulatory program. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal Court with respect to the enforcement of any such injunctive relief. No agent, employee, or officer of the United States shall be personally liable for any civil penalty under any Federal, State, interstate, or local solid or hazardous waste law with respect to any act or omission within the scope of the official duties of the agent, employee, or officer. An agent, employee, or officer of the United States shall be subject to any criminal sanction (including, but not limited to, any fine or impris-

onment) under any Federal or State solid or hazardous waste law, but no department, agency, or instrumentality of the executive, legislative, or judicial branch of the Federal Government shall be subject to any such sanction. The President may exempt any solid waste management facility of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

(b) Administrative enforcement actions

(1) The Administrator may commence an administrative enforcement action against any department, agency, or instrumentality of the executive, legislative, or judicial branch of the Federal Government pursuant to the enforcement authorities contained in this chapter. The Administrator shall initiate an administrative enforcement action against such a department, agency, or instrumentality in the same manner and under the same circumstances as an action would be initiated against another person. Any voluntary resolution or settlement of such an action shall be set forth in a consent order.

(2) No administrative order issued to such a department, agency, or instrumentality shall become final until such department, agency, or instrumentality has had the opportunity to confer with the Administrator.

(c) Limitation on State use of funds collected from Federal Government

Unless a State law in effect on October 6, 1992, or a State constitution requires the funds to be used in a different manner, all funds collected by a State from the Federal Government from penalties and fines imposed for violation of any substantive or procedural requirement referred to in subsection (a) of this section shall be used by the State only for projects designed to improve or protect the environment or to defray the costs of environmental protection or enforcement.

(Pub. L. 89–272, title II, §6001, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2821; amended Pub. L. 95–609, §7(m), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 102–386, title I, §102(a), (b), Oct. 6, 1992, 106 Stat. 1505, 1506.)

AMENDMENTS

1992—Pub. L. 102–386 designated existing provisions as subsec. (a), inserted heading, inserted in first sentence ''and management'' before ''in the same manner'', inserted second to fourth, sixth, and seventh sentences specifying Federal, State, interstate, and local substantive and procedural requirements, waiving sovereign immunity, determining reasonable service charges, and providing no agent, employee, or officer of the United States be personally liable for a civil penalty for an act or omission within the scope of official duties but be subject to criminal sanction, with no department, agency, or instrumentality of the executive, legislative, or judicial branch subject to such sanction, and added subsecs. (b) and (c).

1978—Pub. L. 95–609 inserted ''or management'' after ''disposal'' in cl. (2).

EFFECTIVE DATE OF 1992 AMENDMENT

Section 102(c) of Pub. L. 102–386 provided that:

''(1) IN GENERAL.—Except as otherwise provided in paragraphs (2) and (3), the amendments made by subsection (a) [amending this section] shall take effect upon the date of the enactment of this Act [Oct. 6, 1992].

''(2) DELAYED EFFECTIVE DATE FOR CERTAIN MIXED WASTE.—Until the date that is 3 years after the date of the enactment of this Act, the waiver of sovereign immunity contained in section 6001(a) of the Solid Waste Disposal Act [subsec. (a) of this section] with respect to civil, criminal, and administrative penalties and fines (as added by the amendments made by subsection (a)) shall not apply to departments, agencies, and instrumentalities of the executive branch of the Federal Government for violations of section 3004(j) of the Solid Waste Disposal Act [42 U.S.C. 6924(j)] involving storage of mixed waste that is not subject to an existing agreement, permit, or administrative or judicial order, so long as such waste is managed in compliance with all other applicable requirements.

''(3) EFFECTIVE DATE FOR CERTAIN MIXED WASTE.—(A) Except as provided in subparagraph (B), after the date that is 3 years after the date of the enactment of this Act, the waiver of sovereign immunity contained in section 6001(a) of the Solid Waste Disposal Act with respect to civil, criminal, and administrative penalties and fines (as added by the amendments made by subsection (a)) shall apply to departments, agencies, and instrumentalities of the executive branch of the Federal Government for violations of section 3004(j) of the Solid Waste Disposal Act involving storage of mixed waste.

''(B) With respect to the Department of Energy, the waiver of sovereign immunity referred to in subparagraph (A) shall not apply after the date that is 3 years after the date of the enactment of this Act for violations of section 3004(j) of such Act involving storage of mixed waste, so long as the Department of Energy is in compliance with both—

''(i) a plan that has been submitted and approved pursuant to section 3021(b) of the Solid Waste Disposal Act [42 U.S.C. 6939c(b)] and which is in effect; and

''(ii) an order requiring compliance with such plan which has been issued pursuant to such section 3021(b) and which is in effect.

''(4) APPLICATION OF WAIVER TO AGREEMENTS AND ORDERS.—The waiver of sovereign immunity contained in section 6001(a) of the Solid Waste Disposal Act (as added by the amendments made by subsection (a)) shall take effect on the date of the enactment of this Act with respect to any agreement, permit, or administrative or judicial order existing on such date of enactment (and any subsequent modifications to such an agreement, permit, or order), including, without limitation, any provision of an agreement, permit, or order that addresses compliance with section 3004(j) of such Act with respect to mixed waste.

''(5) AGREEMENT OR ORDER.—Except as provided in paragraph (4), nothing in this Act [see Short Title of 1992 Amendment note set out under section 6901 of this title] shall be construed to alter, modify, or change in any manner any agreement, permit, or administrative or judicial order, including, without limitation, any provision of an agreement, permit, or order—

''(i) that addresses compliance with section 3004(j) of the Solid Waste Disposal Act with respect to mixed waste;

''(ii) that is in effect on the date of enactment of this Act; and

''(iii) to which a department, agency, or instrumentality of the executive branch of the Federal Government is a party.''

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (a) of this section requiring the President to report annually to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 8th item on page 20 of House Document No. 103–7.

EXECUTIVE ORDER NO. 12780

Ex. Ord. No. 12780, Oct. 31, 1991, 56 F.R. 56289, which required Federal agencies to promote cost-effective waste reduction and recycling of reusable materials and established a Council on Federal Recycling and Procurement Policy, was revoked by Ex. Ord. No. 12873, § 901, Oct. 20, 1993, 58 F.R. 54911, formerly set out below.

EXECUTIVE ORDER NO. 12873

Ex. Ord. No. 12873, Oct. 20, 1993, 58 F.R. 54911, as amended by Ex. Ord. No. 12995, Mar. 25, 1996, 61 F.R. 13645, which directed Executive agencies to incorporate waste prevention and recycling in daily operations and work and to acquire and use environmentally preferable products and services and which created a Federal Environmental Executive and established high-level Environmental Executive positions within each agency, was revoked by Ex. Ord. No. 13101, § 901, Sept. 14, 1998, 63 F.R. 49651, set out below.

EX. ORD. NO. 13101. GREENING THE GOVERNMENT THROUGH WASTE PREVENTION, RECYCLING, AND FEDERAL ACQUISITION

Ex. Ord. No. 13101, Sept. 14, 1998, 63 F.R. 49643, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Solid Waste Disposal Act, Public Law 89–272, 79 Stat. 997, as amended by the Resource Conservation and Recovery Act (RCRA), Public Law 94–580, 90 Stat. 2795, as amended (42 U.S.C. 6901–6907), section 301 of title 3, United States Code, and in order to improve the Federal Government's use of recycled products and environmentally preferable products and services, it is hereby ordered as follows:

PART 1—PREAMBLE

SECTION 101. Consistent with the demands of efficiency and cost effectiveness, the head of each executive agency shall incorporate waste prevention and recycling in the agency's daily operations and work to increase and expand markets for recovered materials through greater Federal Government preference and demand for such products. It is the national policy to prefer pollution prevention, whenever feasible. Pollution that cannot be prevented should be recycled; pollution that cannot be prevented or recycled should be treated in an environmentally safe manner. Disposal should be employed only as a last resort.

SEC. 102. Consistent with policies established by the Office of Federal Procurement Policy (OFPP) Policy Letter 92–4, agencies shall comply with executive branch policies for the acquisition and use of environmentally preferable products and services and implement cost-effective procurement preference programs favoring the purchase of these products and services.

SEC. 103. This order creates a Steering Committee, a Federal Environmental Executive (FEE), and a Task Force, and establishes Agency Environmental Executive (AEE) positions within each agency, to be responsible for ensuring the implementation of this order. The FEE, AEEs, and members of the Steering Committee and Task Force shall be full-time Federal Government employees.

PART 2—DEFINITIONS

For purposes of this order:

SEC. 201. ''Environmentally preferable'' means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

SEC. 202. ''Executive agency'' or ''agency'' means an executive agency as defined in 5 U.S.C. 105. For the purpose of this order, military departments, as defined in 5 U.S.C. 102, are covered under the auspices of the Department of Defense.

SEC. 203. ''Postconsumer material'' means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. ''Postconsumer material'' is a part of the broader category of ''recovered material.''

SEC. 204. ''Acquisition'' means the acquiring by contract with appropriated funds for supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

SEC. 205. ''Recovered materials'' means waste materials and by-products that have been recovered or diverted from solid waste, but such term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process (42 U.S.C. 6903(19)).

SEC. 206. ''Recyclability'' means the ability of a product or material to be recovered from, or otherwise diverted from, the solid waste stream for the purpose of recycling.

SEC. 207. ''Recycling'' means the series of activities, including collection, separation, and processing, by which products or other materials are recovered from the solid waste stream for use in the form of raw materials in the manufacture of new products other than fuel for producing heat or power by combustion.

SEC. 208. ''Waste prevention'' means any change in the design, manufacturing, purchase, or use of materials or products (including packaging) to reduce their amount or toxicity before they are discarded. Waste prevention also refers to the reuse of products or materials.

SEC. 209. ''Waste reduction'' means preventing or decreasing the amount of waste being generated through waste prevention, recycling, or purchasing recycled and environmentally preferable products.

SEC. 210. ''Life cycle cost'' means the amortized annual cost of a product, including capital costs, installation costs, operating costs, maintenance costs, and disposal costs discounted over the lifetime of the product.

SEC. 211. ''Life cycle assessment'' means the comprehensive examination of a product's environmental and economic aspects and potential impacts throughout its lifetime, including raw material extraction, transportation, manufacturing, use, and disposal.

SEC. 212. ''Pollution prevention'' means ''source reduction'' as defined in the Pollution Prevention Act of 1990 (42 U.S.C. 13102), and other practices that reduce or eliminate the creation of pollutants through: (a) increased efficiency in the use of raw materials, energy, water, or other resources; or (b) protection of natural resources by conservation.

SEC. 213. ''Biobased product'' means a commercial or industrial product (other than food or feed) that utilizes biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.

SEC. 214. ''Major procuring agencies'' shall include any executive agency that procures over $50 million per year of goods and services.

PART 3—THE ROLES AND DUTIES OF THE STEERING COMMITTEE, FEDERAL ENVIRONMENTAL EXECUTIVE, TASK FORCE, AND AGENCY ENVIRONMENTAL EXECUTIVES

SEC. 301. Committees, Executives, and Task Force. (a) Steering Committee. There is hereby established a Steering Committee on Greening the Government through Waste Prevention and Recycling (''Steering Committee''). The Steering Committee shall be composed of the Chair of the Council on Environmental Quality (CEQ), the Federal Environmental Executive (FEE), and the Administrator for Federal Procurement Policy (OFPP). The Steering Committee, which shall be chaired by the Chair of the CEQ, is directed to charter a Task Force to facilitate implementation of this order, and shall provide the Task Force with policy direction in such implementation.

(b) Federal Environmental Executive. A Federal Environmental Executive, Environmental Protection Agency, shall be designated by the President. The FEE shall chair the Task Force described in subsection (c), take all actions necessary to ensure that the agencies comply with the requirements of this order, and generate a biennial report to the President.

(c) Task Force. The Steering Committee shall charter a Task Force on Greening the Government through Waste Prevention and Recycling (''Task Force''), which shall be chaired by the FEE and composed of staff from the major procuring agencies. The Steering Committee, in consultation with the agencies, shall determine the necessary staffing and resources for the Task Force. The major procuring agencies shall provide, to the extent practicable and permitted by law, resources and support to the Task Force and the FEE, upon request from the Steering Committee. The Task Force shall have the duty of assisting the FEE and the agencies in implementing this order, subject to policy direction provided by the Steering Committee. The Task Force shall report through the FEE to the Chair of the Steering Committee.

(d) Agency Environmental Executives (AEEs). Within 90 days after the date of this order, the head of each major procuring agency shall designate an AEE from among his or her staff, who serves at a level no lower than the Assistant Secretary level or equivalent, and shall notify the Chair of CEQ and the FEE of such designation.

SEC. 302. Duties. (a) The Federal Environmental Executive. The FEE, working through the Task Force, and in consultation with the AEEs, shall:

(1) Develop a Government-wide Waste Prevention and Recycling Strategic Plan (''Strategic Plan'') to further implement this order. The Strategic Plan should be initially developed within 180 days of the date of this order and revised as necessary thereafter. The Strategic Plan should include, but is not limited to, the following elements:

(a) direction and initiatives for acquisition of recycled and recyclable products and environmentally preferable products and services;

(b) development of affirmative procurement programs;

(c) review and revision of standards and product specifications;

(d) assessment and evaluation of compliance;

(e) reporting requirements;

(f) outreach programs to promote adoption of practices endorsed in this order; and

(g) development and implementation of new technologies that are of environmental significance.

(2) Prepare a biennial report to the President on the actions taken by the agencies to comply with this order. The report also may incorporate information from existing agency reports regarding Government-wide progress in implementing the following Executive Orders: 12843, Procurement Requirements and Policies for Federal Agencies for Ozone Depleting Substances [former 42 U.S.C. 7671*l* note]; 13031, Federal Alternative Fueled Vehicle Leadership [former 42 U.S.C. 13212 note]; 12845, Requiring Agencies to Purchase Energy Efficient Computer Equipment [42 U.S.C. 8262g note]; 12856, Federal Compliance with Right-to-Know Laws and Pollution Prevention Requirements [former 42 U.S.C. 11001 note]; 12902, Energy Efficiency and Water Conservation at Federal Facilities [42 U.S.C. 6201 note]; and 12969, Federal Acquisition and Community Right-to-Know [former 41 U.S.C. 401 note].

(3) In coordination with the Office of Federal Procurement Policy, the Environmental Protection Agency (EPA), the General Services Administration (GSA), and the Department of Agriculture (USDA), convene a group of acquisition/procurement managers and environmental State, and local government managers to work with State and local governments to improve the Federal, State, and local governments' use of recycled products and environmentally preferable products and services.

(4) Coordinate appropriate Government-wide education and training programs for agencies.

(5) Establish committees and work groups, as needed, to identify, assess, and recommend actions to be taken to fulfill the goals, responsibilities, and initiatives of the FEE. As these committees and work groups are created, agencies are requested to designate appropriate personnel in the areas of procurement and acquisition, standards and specifications, electronic commerce, facilities management, pollution prevention, waste prevention, recycling, and others as needed to staff and work on these initiatives. An initial group shall be established to develop recommendations for tracking and reporting requirements, taking into account the costs and benefits of such tracking and reporting. The Steering Committee shall consult with the AEEs before approving these recommendations.

(b) Agency Environmental Executives. The AEEs shall:

(1) translate the Government-wide Strategic Plan into specific agency and service plans;

(2) implement the specific agency and service plans;

(3) report to the FEE on the progress of plan implementation;

(4) work with the FEE and the Task Force in furthering implementation of this order; and

(5) track agencies' purchases of EPA-designated guideline items and report agencies' purchases of such guideline items to the FEE per the recommendations developed in subsection 302(a)(5) of this order. Agency acquisition and procurement personnel shall justify in writing to the file and to the AEE the rationale for not purchasing such items, above the micropurchase threshold (as set out in the Office of Federal Procurement Policy Act at 41 U.S.C. 428), and submit a plan and timetable for increasing agency purchases of the designated item(s).

(6) one year after a product is placed on the USDA Biobased Products List, estimate agencies' purchases of products on the list and report agencies' estimated purchases of such products to the Secretary of Agriculture.

PART 4—ACQUISITION PLANNING, AFFIRMATIVE PROCUREMENT PROGRAMS, AND FEDERAL FACILITY COMPLIANCE

SEC. 401. Acquisition Planning. In developing plans, drawings, work statements, specifications, or other product descriptions, agencies shall consider, as appropriate, a broad range of factors including: elimination of virgin material requirements; use of biobased products; use of recovered materials; reuse of product; life cycle cost; recyclability; use of environmentally preferable products; waste prevention (including toxicity reduction or elimination); and ultimate disposal. These factors should be considered in acquisition planning for all procurement and in the evaluation and award of contracts, as appropriate. Program and acquisition managers should take an active role in these activities.

SEC. 402. Affirmative Procurement Programs. (a) The head of each executive agency shall develop and implement affirmative procurement programs in accordance

with section 6002 of RCRA (42 U.S.C. 6962) and this order and consider use of the procurement tools and methods described in [former] 7 U.S.C. 5909. Agencies shall ensure that responsibilities for preparation, implementation, and monitoring of affirmative procurement programs are shared between the program personnel and acquisition and procurement personnel. For the purposes of all purchases made pursuant to this order, EPA, in consultation with such other executive agencies as appropriate, shall endeavor to maximize environmental benefits, consistent with price, performance, and availability considerations, and constraints imposed by law, and shall adjust solicitation guidelines as necessary in order to accomplish this goal.

(b) Agencies shall establish affirmative procurement programs for all EPA-designated guideline items purchased by their agency. For newly designated items, agencies shall revise their internal programs within 1 year from the date the EPA designated the new items.

(c) Exclusive of the biobased products described in section 504, for the EPA-designated guideline items, which are contained in 40 CFR part 247, and for all future designated guideline items, agencies shall ensure that their affirmative procurement programs require 100 percent of their purchases of products to meet or exceed the EPA guideline unless written justification is provided that a product is not available competitively within a reasonable time frame, does not meet appropriate performance standards, or is only available at an unreasonable price. Written justification is not required for purchases below the micropurchase threshold. For micropurchases, agencies shall provide guidance regarding purchase of EPA-designated guideline items. This guidance should encourage consideration of aggregating purchases when this method would promote economy and efficiency.

(d) Within 90 days after the date of this order, the head of each executive agency that has not implemented an affirmative procurement program shall ensure that the affirmative procurement program has been established and is being implemented to the maximum extent practicable.

SEC. 403. Federal Facility Compliance. (a) Within 6 months of the date of this order, the Administrator of the EPA shall, in consultation with the Federal Environmental Executive, prepare guidance for use in determining Federal facility compliance with section 6002 of RCRA [42 U.S.C. 6962] and the related requirements of this order.

(b) EPA inspections of Federal facilities conducted pursuant to RCRA and the Federal Facility Compliance Act [of 1992] [see Short Title of 1992 Amendment note set out under section 6901 of this title] and EPA ''multi-media'' inspections carried out at Federal facilities will include, where appropriate, evaluation of facility compliance with section 6002 of RCRA and any implementing guidance.

(c) Where inspections of Federal facilities are carried out by authorized States pursuant to RCRA and the Federal Facility Compliance Act, the Administrator of the EPA will encourage those States to include evaluation of facility compliance with section 6002 of RCRA in light of EPA guidance prepared pursuant to subsection (a), where appropriate, similar to inspections performed by the EPA. The EPA may provide information and technical assistance to the States to enable them to include such considerations in their inspection.

(d) The EPA shall report annually to the Federal Environmental Executive on the results of inspections performed by the EPA to determine Federal facility compliance with section 6002 of RCRA not later than February 1st for those inspections conducted during the previous fiscal year.

PART 5—STANDARDS, SPECIFICATIONS, AND DESIGNATION OF ITEMS

SEC. 501. Specifications, Product Descriptions, and Standards. When developing, reviewing, or revising Federal and military specifications, product descriptions (including commercial item descriptions), and standards, executive agencies shall consider recovered materials and any environmentally preferable purchasing criteria developed by the EPA, and ensure the criteria are complied with in developing or revising standards. Agencies shall report annually to the FEE on their compliance with this section for incorporation into the biennial report to the President referred to in section 302(a)(2) of this order. (a) If an inconsistency with section 6002 of RCRA [42 U.S.C. 6962] or this order is identified in a specification, standard, or product description, the FEE shall request that the Environmental Executive of the pertinent agency advise the FEE as to why the specification cannot be revised or submit a plan for revising it within 60 days.

(b) If an agency is able to revise an inconsistent specification but cannot do so within 60 days, it is the responsibility of that AEE to monitor and implement the plan for revising it.

SEC. 502. Designation of Items that Contain Recovered Materials. In order to expedite the process of designating items that are or can be made with recovered materials, the EPA shall use the following process for designating these items in accordance with section 6002(e) of RCRA. (a) The EPA shall designate items that are or can be made with recovered material, by promulgating amendments to the Comprehensive Procurement Guideline (CPG). The CPG shall be updated every 2 years or as appropriate after an opportunity for public comment.

(b) Concurrent with the issuance of the CPG, the EPA shall publish for comment in the Federal Register Recovered Materials Advisory Notices that present the range of recovered materials content levels within which the designated items are currently available. These levels shall be updated periodically, after opportunity for public comment, to reflect changes in market conditions.

(c) Once items containing recovered materials have been designated by the EPA in the CPG, agencies shall modify their affirmative procurement programs to require that, to the maximum extent practicable, their purchases of products meet or exceed the EPA guidelines unless written justification is provided that a product is not available competitively, not available within a reasonable time frame, does not meet appropriate performance standards, or is only available at an unreasonable price.

SEC. 503. Guidance on Acquisition of Environmentally Preferable Products and Services. (a) The EPA shall develop guidance within 90 days from the date of this order to address environmentally preferable purchasing. The guidance may be based on the EPA's September 1995 Proposed Guidance on the Acquisition of Environmentally Preferable Products and Services and comments received thereon. The guidance should be designed for Government-wide use and targeted towards products and services that have the most effect. The guidance may also address the issues of use of the technical expertise of nongovernmental entities and tools such as life cycle assessment in decisions on environmentally preferable purchasing. The EPA shall update this guidance every 2 years, or as appropriate.

(b) Agencies are encouraged to immediately test and evaluate the principles and concepts contained in the EPA's Guidance on the Acquisition of Environmentally Preferable Products and Services through pilot projects to provide practical information to the EPA for further updating of the guidance. Specifically:

(1) These pilot projects shall be focused around those product and service categories, including printing, that have wide use within the Federal Government. Priorities regarding which product and service categories to pilot shall be developed by the individual agencies and the EPA, in consultation with the OFPP, the FEE, and the appropriate agency procurement executives. Any policy disagreements shall be resolved by the Steering Committee.

(2) Agencies are encouraged to use all of the options available to them to determine the environmentally preferable attributes of products and services in their

pilot and demonstration projects, including the use of technical expertise of nongovernmental entities such as labeling, certification, or standards-developing organizations, as well as using the expertise of the National Institute of Standards and Technology.

(3) Upon request and to the extent practicable, the EPA shall assist executive agencies in designing, implementing, and documenting the results of these pilot and demonstration projects.

(4) The EPA, in coordination with other executive agencies, shall develop a database of information about these projects, including, but not limited to, the number and status of pilot projects, examples of agencies' policy directives, revisions to specifications, solicitation procedures, and grant/contract policies that facilitate adoption of environmentally preferable purchasing practices, to be integrated on a commonly available electronic medium (e.g., Internet Web site). These data are to be reported to the FEE.

(c) Executive agencies shall use the principles and concepts in the EPA Guidance on Acquisition of Environmentally Preferable Products and Services, in addition to the lessons from the pilot and demonstration projects, to the maximum extent practicable, in identifying and purchasing environmentally preferable products and services and shall modify their procurement programs as appropriate.

SEC. 504. Designation of Biobased Items by the USDA. The USDA Biobased Products Coordination Council shall, in consultation with the FEE, issue a Biobased Products List. (a) The Biobased Products List shall be published in the Federal Register by the USDA within 180 days after the date of this order and shall be updated biannually after publication to include additional items.

(b) Once the Biobased Products List has been published, agencies are encouraged to modify their affirmative procurement program to give consideration to those products.

SEC. 505. Minimum Content Standard for Printing and Writing Paper. Executive agency heads shall ensure that their agencies meet or exceed the following minimum materials content standards when purchasing or causing the purchase of printing and writing paper: (a) For high speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, file folders, white wove envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock, the minimum content standard shall be no less than 30 percent postconsumer materials beginning December 31, 1998. If paper containing 30 percent postconsumer material is not reasonably available, does not meet reasonable performance requirements, or is only available at an unreasonable price, then the agency shall purchase paper containing no less than 20 percent postconsumer material. The Steering Committee, in consultation with the AEEs, may revise these levels if necessary.

(b) As an alternative to meeting the standards in sections [sic] 505(a), for all printing and writing papers, the minimum content standard shall be no less than 50 percent recovered materials that are a waste material byproduct of a finished product other than a paper or textile product that would otherwise be disposed of in a landfill, as determined by the State in which the facility is located.

(c) Effective January 1, 1999, no executive branch agency shall purchase, sell, or arrange for the purchase of, printing and writing paper that fails to meet the minimum requirements of this section.

SEC. 506. Revision of Brightness Specifications and Standards. The GSA and other executive agencies are directed to identify, evaluate, and revise or eliminate any standards or specifications unrelated to performance that present barriers to the purchase of paper or paper products made by production processes that minimize emissions of harmful byproducts. This evaluation shall include a review of unnecessary brightness and stock clause provisions, such as lignin content and chemical pulp requirements. The GSA shall complete the review and revision of such specifications within 6 months after the date of this order, and shall consult closely with the Joint Committee on Printing during such process. The GSA shall also compile any information or market studies that may be necessary to accomplish the objectives of this provision.

SEC. 507. Procurement of Re-refined Lubricating Oil and Retread Tires. (a) Agencies shall implement the EPA procurement guidelines for re-refined lubricating oil and retread tires. Fleet and commodity managers shall take immediate steps, as appropriate, to procure these items in accordance with section 6002 of RCRA [42 U.S.C. 6962]. This provision does not preclude the acquisition of biobased (e.g., vegetable) oils.

(b) The FEE shall work to educate executive agencies about the new Department of Defense Cooperative Tire Qualification Program, including the Cooperative Approval Tire List and Cooperative Plant Qualification Program, as they apply to retread tires.

PART 6—AGENCY GOALS AND REPORTING REQUIREMENTS

SEC. 601. Agency Goals. (a)(1) Each agency shall establish either a goal for solid waste prevention and a goal for recycling or a goal for solid waste diversion to be achieved by January 1, 2000. Each agency shall further ensure that the established goals include long-range goals to be achieved by the years 2005 and 2010. These goals shall be submitted to the FEE within 180 days after the date of this order. (2) In addition to white paper, mixed paper/cardboard, aluminum, plastic, and glass, agencies should incorporate into their recycling programs efforts to recycle, reuse, or refurbish pallets and collect toner cartridges for remanufacturing. Agencies should also include programs to reduce or recycle, as appropriate, batteries, scrap metal, and fluorescent lamps and ballasts.

(b) Agencies shall set goals to increase the procurement of products that are made with recovered materials, in order to maximize the number of recycled products purchased, relative to non-recycled alternatives.

(c) Each agency shall set a goal for increasing the use of environmentally preferable products and services for those products and services for which the agency has completed a pilot program.

(d) Agencies are encouraged to incorporate into their Government Performance [and] Results Act [of 1993] [see Short Title of 1993 Amendment note set out under section 1101 of Title 31, Money and Finance] annual performance plans the goals listed in subsections (a), (b), and (c) above, starting with the submittal to the Office of Management and Budget of the plan accompanying the FY 2001 budget.

(e) Progress on attaining these goals should be reported by the agencies to the FEE for the biennial report specified in section 302(a)(2) of this order.

PART 7—APPLICABILITY AND OTHER REQUIREMENTS

SEC. 701. Contractor Applicability. Contracts that provide for contractor operation of a Government-owned or -leased facility and/or contracts that provide for contractor or other support services at Government-owned or -operated facilities awarded by executive agencies after the date of this order, shall include provisions that obligate the contractor to comply with the requirements of this order within the scope of its operations.

SEC. 702. Real Property Acquisition and Management. Within 90 days after the date of this order, and to the extent permitted by law and where economically feasible, executive agencies shall ensure compliance with the provisions of this order in the acquisition and management of Federally owned and leased space. The GSA and other executive agencies shall also include environmental and recycling provisions in the acquisition and management of all leased space and in the construction of new Federal buildings.

SEC. 703. Retention of Funds. (a) The Administrator of General Services shall continue with the program

that retains for the agencies the proceeds from the sale of materials recovered through recycling or waste prevention programs and specifying the eligibility requirements for the materials being recycled.

(b) Agencies in non-GSA managed facilities, to the extent permitted by law, should develop a plan to retain the proceeds from the sale of materials recovered through recycling or waste prevention programs.

SEC. 704. Model Facility Programs. Each executive agency shall establish a model demonstration program incorporating some or all of the following elements as appropriate. Agencies are encouraged to demonstrate and test new and innovative approaches such as incorporating environmentally preferable and bio-based products; increasing the quantity and types of products containing recovered materials; expanding collection programs; implementing source reduction programs; composting organic materials when feasible; and exploring public/private partnerships to develop markets for recovered materials.

SEC. 705. Recycling Programs. (a)(1) Each executive agency that has not already done so shall initiate a program to promote cost-effective waste prevention and recycling of reusable materials in all of its facilities. The recycling programs implemented pursuant to this section must be compatible with applicable State and local recycling requirements.

(2) Agencies shall designate a recycling coordinator for each facility or installation. The recycling coordinator shall implement or maintain waste prevention and recycling programs in the agencies' action plans.

(b) Executive agencies shall also consider cooperative ventures with State and local governments to promote recycling and waste reduction in the community.

SEC. 706. Review of Implementation. The President's Council on Integrity and Efficiency shall request that the Inspectors General periodically review agencies' implementation of this order.

PART 8—AWARENESS

SEC. 801. Training. (a) Within 180 days of the date of this order, the FEE and OFPP should evaluate the training courses provided by the Federal Acquisition Institute and the Defense Acquisition University and recommend any appropriate curriculum changes to ensure that procurement officials are aware of the requirements of this order.

(b) Executive agencies shall provide training to program management and requesting activities as needed to ensure awareness of the requirements of this order.

SEC. 802. Internal Agency Awards Programs. Each agency shall develop an internal agency-wide awards program, as appropriate, to reward its most innovative environmental programs. Among others, winners of agency-wide awards will be eligible for the White House Awards Program.

SEC. 803. White House Awards Program. A Government-wide award will be presented annually by the White House to the best, most innovative programs implementing the objectives of this order to give greater visibility to these efforts so that they can be incorporated Government-wide. The White House Awards Program will be administered jointly by the FEE and the CEQ.

PART 9—REVOCATION, LIMITATION, AND IMPLEMENTATION

SEC. 901. Executive Order 12873 of October 20, 1993, is hereby revoked.

SEC. 902. This order is intended only to improve the internal management of the executive branch and is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any other person.

SEC. 903. The policies and direction expressed in the EPA guidance to be developed pursuant to section 503 of this order shall be implemented and incorporated in the Federal Acquisition Regulation within 180 days after issuance of the guidance.

WILLIAM J. CLINTON.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6939c of this title.

§ 6962. Federal procurement

(a) Application of section

Except as provided in subsection (b) of this section, a procuring agency shall comply with the requirements set forth in this section and any regulations issued under this section, with respect to any purchase or acquisition of a procurement item where the purchase price of the item exceeds $10,000 or where the quantity of such items or of functionally equivalent items purchased or acquired in the course of the preceding fiscal year was $10,000 or more.

(b) Procurement subject to other law

Any procurement, by any procuring agency, which is subject to regulations of the Administrator under section 6964 of this title (as promulgated before October 21, 1976, under comparable provisions of prior law) shall not be subject to the requirements of this section to the extent that such requirements are inconsistent with such regulations.

(c) Requirements

(1) After the date specified in applicable guidelines prepared pursuant to subsection (e) of this section, each procuring agency which procures any items designated in such guidelines shall procure such items composed of the highest percentage of recovered materials practicable (and in the case of paper, the highest percentage of the postconsumer recovered materials referred to in subsection (h)(1) of this section practicable), consistent with maintaining a satisfactory level of competition, considering such guidelines. The decision not to procure such items shall be based on a determination that such procurement items—

(A) are not reasonably available within a reasonable period of time;

(B) fail to meet the performance standards set forth in the applicable specifications or fail to meet the reasonable performance standards of the procuring agencies; or

(C) are only available at an unreasonable price. Any determination under subparagraph (B) shall be made on the basis of the guidelines of the National Institute of Standards and Technology in any case in which such material is covered by such guidelines.

(2) Agencies that generate heat, mechanical, or electrical energy from fossil fuel in systems that have the technical capability of using energy or fuels derived from solid waste as a primary or supplementary fuel shall use such capability to the maximum extent practicable.

(3)(A) After the date specified in any applicable guidelines prepared pursuant to subsection (e) of this section, contracting officers shall require that vendors:

(i) certify that the percentage of recovered materials to be used in the performance of the contract will be at least the amount required by applicable specifications or other contractual requirements and

(ii) estimate the percentage of the total material utilized for the performance of the contract which is recovered materials.

(B) Clause (ii) of subparagraph (A) applies only to a contract in an amount greater than $100,000.

(d) Specifications

All Federal agencies that have the responsibility for drafting or reviewing specifications for procurement items procured by Federal agencies shall—

(1) as expeditiously as possible but in any event no later than eighteen months after November 8, 1984, eliminate from such specifications—

(A) any exclusion of recovered materials and

(B) any requirement that items be manufactured from virgin materials; and

(2) within one year after the date of publication of applicable guidelines under subsection (e) of this section, or as otherwise specified in such guidelines, assure that such specifications require the use of recovered materials to the maximum extent possible without jeopardizing the intended end use of the item.

(e) Guidelines

The Administrator, after consultation with the Administrator of General Services, the Secretary of Commerce (acting through the National Institute of Standards and Technology), and the Public Printer, shall prepare, and from time to time revise, guidelines for the use of procuring agencies in complying with the requirements of this section. Such guidelines shall—

(1) designate those items which are or can be produced with recovered materials and whose procurement by procuring agencies will carry out the objectives of this section, and in the case of paper, provide for maximizing the use of post consumer recovered materials referred to in subsection (h)(1) of this section; and

(2) set forth recommended practices with respect to the procurement of recovered materials and items containing such materials and with respect to certification by vendors of the percentage of recovered materials used,

and shall provide information as to the availability, relative price, and performance of such materials and items and where appropriate shall recommend the level of recovered material to be contained in the procured product. The Administrator shall prepare final guidelines for paper within one hundred and eighty days after November 8, 1984, and for three additional product categories (including tires) by October 1, 1985. In making the designation under paragraph (1), the Administrator shall consider, but is not limited in his considerations, to—

(A) the availability of such items;

(B) the impact of the procurement of such items by procuring agencies on the volume of solid waste which must be treated, stored or disposed of;

(C) the economic and technological feasibility of producing and using such items; and

(D) other uses for such recovered materials.

(f) Procurement of services

A procuring agency shall, to the maximum extent practicable, manage or arrange for the procurement of solid waste management services in a manner which maximizes energy and resource recovery.

(g) Executive Office

The Office of Procurement Policy in the Executive Office of the President, in cooperation with the Administrator, shall implement the requirements of this section. It shall be the responsibility of the Office of Procurement Policy to coordinate this policy with other policies for Federal procurement, in such a way as to maximize the use of recovered resources, and to, every two years beginning in 1984, report to the Congress on actions taken by Federal agencies and the progress made in the implementation of this section, including agency compliance with subsection (d) of this section.

(h) "Recovered materials" defined

As used in this section, in the case of paper products, the term ''recovered materials'' includes—

(1) postconsumer materials such as—

(A) paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; and

(B) all paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste, and

(2) manufacturing, forest residues, and other wastes such as—

(A) dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste, resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and

(B) finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others;

(C) fibrous byproducts of harvesting, manufacturing, extractive, or wood-cutting processes, flax, straw, linters, bagasse, slash, and other forest residues;

(D) wastes generated by the conversion of goods made from fibrous material (that is, waste rope from cordage manufacture, textile mill waste, and cuttings); and

(E) fibers recovered from waste water which otherwise would enter the waste stream.

(i) Procurement program

(1) Within one year after the date of publication of applicable guidelines under subsection (e) of this section, each procuring agency shall develop an affirmative procurement program which will assure that items composed of recovered materials will be purchased to the maximum extent practicable and which is consistent with applicable provisions of Federal procurement law.

(2) Each affirmative procurement program required under this subsection shall, at a minimum, contain—

(A) a recovered materials preference program;

(B) an agency promotion program to promote the preference program adopted under subparagraph (A);

(C) a program for requiring estimates of the total percentage of recovered material utilized in the performance of a contract; certification of minimum recovered material content actually utilized, where appropriate; and reasonable verification procedures for estimates and certifications; and

(D) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

In the case of paper, the recovered materials preference program required under subparagraph (A) shall provide for the maximum use of the post consumer recovered materials referred to in subsection (h)(1) of this section.

(3) In developing the preference program, the following options shall be considered for adoption:

(A) Case-by-Case Policy Development: Subject to the limitations of subsection (c)(1)(A) through (C) of this section, a policy of awarding contracts to the vendor offering an item composed of the highest percentage of recovered materials practicable (and in the case of paper, the highest percentage of the post consumer recovered materials referred to in subsection (h)(1) of this section). Subject to such limitations, agencies may make an award to a vendor offering items with less than the maximum recovered materials content.

(B) Minimum Content Standards: Minimum recovered materials content specifications which are set in such a way as to assure that the recovered materials content (and in the case of paper, the content of post consumer materials referred to in subsection (h)(1) of this section) required is the maximum available without jeopardizing the intended end use of the item, or violating the limitations of subsection (c)(1)(A) through (C) of this section.

Procuring agencies shall adopt one of the options set forth in subparagraphs (A) and (B) or a substantially equivalent alternative, for inclusion in the affirmative procurement program.

(Pub. L. 89–272, title II, § 6002, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2822; amended Pub. L. 95–609, § 7(n), Nov. 8, 1978, 92 Stat. 3082; Pub. L. 96–482, § 22, Oct. 21, 1980, 94 Stat. 2346; Pub. L. 97–375, title I, § 102, Dec. 21, 1982, 96 Stat. 1819; Pub. L. 98–616, title V, § 501(a)–(e), Nov. 8, 1984, 98 Stat. 3274–3276; Pub. L. 100–418, title V, § 5115(c), Aug. 23, 1988, 102 Stat. 1433; Pub. L. 102–393, title VI, § 630, Oct. 6, 1992, 106 Stat. 1773; Pub. L. 103–355, title I, § 1554(1), title IV, § 4104(e), Oct. 13, 1994, 108 Stat. 3300, 3342.)

CODIFICATION

Pub. L. 102–393, title VI, § 630, Oct. 6, 1990, 106 Stat. 1773, which directed that this title be amended by adding a new section 6962j, relating to a preference for recycled toner cartridges, and which had been executed by adding the provisions of purported new section as subsec. (j) of this section, to reflect the probable intent of Congress, was repealed by Pub. L. 103–355, title I, § 1554(1), Oct. 13, 1994, 108 Stat. 3300. Similar provisions were contained in Pub. L. 103–123, title IV, § 401, Oct. 28, 1993, 107 Stat. 1238, prior to repeal by Pub. L. 103–355, title I, § 1554(2), Oct. 13, 1994, 108 Stat. 3300.

AMENDMENTS

1994—Subsec. (c)(3). Pub. L. 103–355, § 4104(e), designated existing provisions as subpar. (A), redesignated subpars. (A) and (B) as cls. (i) and (ii), respectively, and added subpar. (B).

Subsec. (j). Pub. L. 103–355, § 1554(1), struck out subsec. (j). See Codification note above.

1992—Subsec. (j). Pub. L. 102–393 added subsec. (j). See Codification note above.

1988—Subsecs. (c)(1)(C), (e). Pub. L. 100–418 substituted ''National Institute of Standards and Technology'' for ''Bureau of Standards''.

1984—Subsec. (c)(1). Pub. L. 98–616, § 501(c), inserted ''(and in the case of paper, the highest percentage of the postconsumer recovered materials referred to in subsection (h)(1) of this section practicable)''.

Subsec. (d)(1). Pub. L. 98–616, § 501(e), substituted ''eighteen months after November 8, 1984'' for ''five years after October 21, 1976''.

Subsec. (e). Pub. L. 98–616, § 501(b)(2), substituted ''for paper within one hundred and eighty days after November 8, 1984, and for three additional product categories (including tires) by October 1, 1985'' for ''for at least three product categories, including paper, by May 1, 1981, and for two additional product categories, including construction materials, by September 30, 1982.'' in provisions following par. (2).

Subsec. (e)(1). Pub. L. 98–616, § 501(b)(1), inserted '', and in the case of paper, provide for maximizing the use of post consumer recovered materials referred to in subsection (h)(1) of this section''.

Subsec. (g). Pub. L. 98–616, § 501(d), substituted ''the requirements of'' for ''the policy expressed in'' and inserted '', and to, every two years beginning in 1984, report to the Congress on actions taken by Federal agencies and the progress made in the implementation of this section, including agency compliance with subsection (d) of this section''.

Subsecs. (h), (i). Pub. L. 98–616, § 501(a), added subsecs. (h) and (i).

1982—Subsec. (g). Pub. L. 97–375 struck out provision requiring the Office of Procurement Policy to report annually to Congress on actions taken by Federal agencies and the progress made in the implementation of the policy expressed in this section.

1980—Subsec. (c)(1). Pub. L. 96–482, § 22(1), (2), in provision preceding subpar. (A), substituted ''After the date specified in applicable guidelines prepared pursuant to subsection (e) of this section, each procuring agency which procures any item designated in such guidelines shall procure such'' for ''After two years after October 21, 1976, each procuring agency shall procure'', and in subpar. (C), ''subparagraph (B)'' for ''clause (B)''.

Subsec. (c)(2). Pub. L. 96–482, § 22(3), substituted ''energy or fuels derived from solid waste'' for ''recovered material and recovered-material-derived fuel''.

Subsec. (c)(3). Pub. L. 96–482, § 22(4), substituted subpars. (A) and (B) for provision requiring certification of the percentage of the total material utilized for the performance of the contract which is recovered materials.

Subsec. (d). Pub. L. 96–482, § 22(5), in par. (1), substituted provision requiring Federal agencies to eliminate from specifications as expeditiously as possible, but in no event later than 5 years after Oct. 21, 1976, any exclusion of recovered materials and any requirement that items be manufactured from virgin materials for provision that Federal agencies in reviewing specifications, ascertain whether those specifications violate prohibitions in par. (2)(A) to (C), with such review undertaken not later than 18 months after Oct. 21, 1976, and in par. (2), substituted provision that Federal agencies act within 1 year from publication of applica-

ble guidelines under subsec. (e) of this section for provision that in drafting or revising specifications after Oct. 21, 1976, any exclusion of recovered materials be eliminated and specifications not require the item to be manufactured from virgin materials.

Subsec. (e). Pub. L. 96–482, §22(6), designated provision relating to requirements of guidelines as cl. (2) and subpars. (A) and (C), added cl. (1), subpars. (B) and (C), and provision preceding subpar. (A), and struck out provision requiring information on source of supply.

1978—Subsec. (c). Pub. L. 95–609, §7(n)(1), (2), redesignated subpar. (1)(A) as par. (1), subpars. (1)(B) and (C) as pars. (2) and (3), respectively, and cls. (i) to (iii) of former subpar. (1)(A) as subpars. (A) to (C), respectively, of par. (1), and in par. (3), as so redesignated, inserted ''After the date specified in any applicable guidelines prepared pursuant to subsection (e) of this section,'' before ''contracting''.

Subsec. (e). Pub. L. 95–609, §7(n)(3), inserted provision dealing with certification by vendors of the materials used.

EFFECTIVE DATE OF 1994 AMENDMENT

For effective date and applicability of amendment by Pub. L. 103–355, see section 10001 of Pub. L. 103–355, set out as a note under section 251 of Title 41, Public Contracts.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

GREENING THE GOVERNMENT THROUGH WASTE PREVENTION

Executive agency heads to develop and implement affirmative procurement programs in accordance with this section and Ex. Ord. No. 13101, and specifications, standards, and product descriptions inconsistent with this section or Ex. Ord. No. 13101 to be revised, and guidance for use in determining Federal facility compliance with this section and Ex. Ord. No. 13101 to be prepared with evaluations to be based on this implementing guidance, see Ex. Ord. No. 13101, §§402, 403, 501(a), Sept. 14, 1998, 63 F.R. 49646, 49647, set out as a note under section 6961 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6905, 6941, 8102 of this title.

§ 6963. Cooperation with Environmental Protection Agency

(a) General rule

All Federal agencies shall assist the Administrator in carrying out his functions under this chapter and shall promptly make available all requested information concerning past or present Agency waste management practices and past or present Agency owned, leased, or operated solid or hazardous waste facilities. This information shall be provided in such format as may be determined by the Administrator.

(b) Information relating to energy and materials conservation and recovery

The Administrator shall collect, maintain, and disseminate information concerning the market potential of energy and materials recovered from solid waste, including materials obtained through source separation, and information concerning the savings potential of conserving resources contributing to the waste stream. The Administrator shall identify the regions in which the increased substitution of such energy for energy derived from fossil fuels and other sources is most likely to be feasible, and provide information on the technical and economic aspects of developing integrated resource conservation or recovery systems which provide for the recovery of source-separated materials to be recycled or the conservation of resources. The Administrator shall utilize the authorities of subsection (a) of this section in carrying out this subsection.

(Pub. L. 89–272, title II, §6003, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2823; amended Pub. L. 96–482, §32(g), Oct. 21, 1980, 94 Stat. 2355.)

AMENDMENTS

1980—Pub. L. 96–482 designated existing provision as subsec. (a), substituted provision that information be provided in a format determined by the Administrator for provision that information be furnished on a reimbursable basis, and added subsec. (b).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6964. Applicability of solid waste disposal guidelines to Executive agencies

(a) Compliance

(1) If—

(A) an Executive agency (as defined in section 105 of title 5) or any unit of the legislative branch of the Federal Government has jurisdiction over any real property or facility the operation or administration of which involves such agency in solid waste management activities, or

(B) such an agency enters into a contract with any person for the operation by such person of any Federal property or facility, and the performance of such contract involves such person in solid waste management activities,

then such agency shall insure compliance with the guidelines recommended under section 6907 of this title and the purposes of this chapter in the operation or administration of such property or facility, or the performance of such contract, as the case may be.

(2) Each Executive agency or any unit of the legislative branch of the Federal Government which conducts any activity—

(A) which generates solid waste, and

(B) which, if conducted by a person other than such agency, would require a permit or license from such agency in order to dispose of such solid waste,

shall insure compliance with such guidelines and the purposes of this chapter in conducting such activity.

(3) Each Executive agency which permits the use of Federal property for purposes of disposal of solid waste shall insure compliance with such

guidelines and the purposes of this chapter in the disposal of such waste.

(4) The President or the Committee on House Oversight of the House of Representatives and the Committee on Rules and Administration of the Senate with regard to any unit of the legislative branch of the Federal Government shall prescribe regulations to carry out this subsection.

(b) Licenses and permits

Each Executive agency which issues any license or permit for disposal of solid waste shall, prior to the issuance of such license or permit, consult with the Administrator to insure compliance with guidelines recommended under section 6907 of this title and the purposes of this chapter.

(Pub. L. 89–272, title II, § 6004, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2823; amended Pub. L. 95–609, § 7(*o*), Nov. 8, 1978, 92 Stat. 3083; Pub. L. 96–482, § 23, Oct. 21, 1980, 94 Stat. 2347; Pub. L. 104–186, title II, § 222(2), Aug. 20, 1996, 110 Stat. 1751.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3254e of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1996—Subsec. (a)(4). Pub. L. 104–186 substituted ''House Oversight'' for ''House Administration''.

1980—Subsec. (a)(1)(A). Pub. L. 96–482, § 23(1), inserted reference to any unit of the legislative branch of the Federal Government.

Subsec. (a)(2). Pub. L. 96–482, § 23(2), required any unit of the legislative branch of the Federal Government to insure compliance with solid waste disposal guidelines.

Subsec. (a)(4). Pub. L. 96–482, § 23(3), required House Committee on House Administration and Senate Committee on Rules and Administration with regard to any unit of the legislative branch of the Federal Government to prescribe implementing regulations.

1978—Subsec. (a)(1). Pub. L. 95–609, § 7(*o*)(1), (2), substituted ''management'' for ''disposal'' in two places.

Subsec. (b). Pub. L. 95–609, § 7(*o*)(3), substituted ''Administrator'' for ''Secretary''.

CHANGE OF NAME

Committee on House Oversight of House of Representatives changed to Committee on House Administration of House of Representatives by House Resolution No. 5, One Hundred Sixth Congress, Jan. 6, 1999.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6962 of this title.

§ 6965. Chief Financial Officer report

The Chief Financial Officer of each affected agency shall submit to Congress an annual report containing, to the extent practicable, a detailed description of the compliance activities undertaken by the agency for mixed waste streams, and an accounting of the fines and penalties imposed on the agency for violations involving mixed waste.

(Pub. L. 102–386, title I, § 110, Oct. 6, 1992, 106 Stat. 1516.)

CODIFICATION

Section was enacted as part of the Federal Facility Compliance Act of 1992, and not as part of the Solid Waste Disposal Act which comprises this chapter.

SUBCHAPTER VII—MISCELLANEOUS PROVISIONS

§ 6971. Employee protection

(a) General

No person shall fire, or in any other way discriminate against, or cause to be fired or discriminated against, any employee or any authorized representative of employees by reason of the fact that such employee or representative has filed, instituted, or caused to be filed or instituted any proceeding under this chapter or under any applicable implementation plan, or has testified or is about to testify in any proceeding resulting from the administration or enforcement of the provisions of this chapter or of any applicable implementation plan.

(b) Remedy

Any employee or a representative of employees who believes that he has been fired or otherwise discriminated against by any person in violation of subsection (a) of this section may, within thirty days after such alleged violation occurs, apply to the Secretary of Labor for a review of such firing or alleged discrimination. A copy of the application shall be sent to such person who shall be the respondent. Upon receipt of such application, the Secretary of Labor shall cause such investigation to be made as he deems appropriate. Such investigation shall provide an opportunity for a public hearing at the request of any party to such review to enable the parties to present information relating to such alleged violation. The parties shall be given written notice of the time and place of the hearing at least five days prior to the hearing. Any such hearing shall be of record and shall be subject to section 554 of title 5. Upon receiving the report of such investigation, the Secretary of Labor shall make findings of fact. If he finds that such violation did occur, he shall issue a decision, incorporating an order therein and his findings, requiring the party committing such violation to take such affirmative action to abate the violation as the Secretary of Labor deems appropriate, including, but not limited to, the rehiring or reinstatement of the employee or representative of employees to his former position with compensation. If he finds that there was no such violation, he shall issue an order denying the application. Such order issued by the Secretary of Labor under this subparagraph shall be subject to judicial review in the same manner as orders and decisions of the Administrator or subject to judicial review under this chapter.

(c) Costs

Whenever an order is issued under this section to abate such violation, at the request of the ap-

plicant, a sum equal to the aggregate amount of all costs and expenses (including the attorney's fees) as determined by the Secretary of Labor, to have been reasonably incurred by the applicant for, or in connection with, the institution and prosecution of such proceedings, shall be assessed against the person committing such violation.

(d) Exception

This section shall have no application to any employee who, acting without direction from his employer (or his agent) deliberately violates any requirement of this chapter.

(e) Employment shifts and loss

The Administrator shall conduct continuing evaluations of potential loss or shifts of employment which may result from the administration or enforcement of the provisions of this chapter and applicable implementation plans, including, where appropriate, investigating threatened plant closures or reductions in employment allegedly resulting from such administration or enforcement. Any employee who is discharged, or laid off, threatened with discharge or layoff, or otherwise discriminated against by any person because of the alleged results of such administration or enforcement, or any representative of such employee, may request the Administrator to conduct a full investigation of the matter. The Administrator shall thereupon investigate the matter and, at the request of any party, shall hold public hearings on not less than five days' notice, and shall at such hearings require the parties, including the employer involved, to present information relating to the actual or potential effect of such administration or enforcement on employment and on any alleged discharge, layoff, or other discrimination and the detailed reasons or justification therefor. Any such hearing shall be of record and shall be subject to section 554 of title 5. Upon receiving the report of such investigation, the Administrator shall make findings of fact as to the effect of such administration or enforcement on employment and on the alleged discharge, layoff, or discrimination and shall make such recommendations as he deems appropriate. Such report, findings, and recommendations shall be available to the public. Nothing in this subsection shall be construed to require or authorize the Administrator or any State to modify or withdraw any standard, limitation, or any other requirement of this chapter or any applicable implementation plan.

(f) Occupational safety and health

In order to assist the Secretary of Labor and the Director of the National Institute for Occupational Safety and Health in carrying out their duties under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.], the Administrator shall—

(1) provide the following information, as such information becomes available, to the Secretary and the Director:

(A) the identity of any hazardous waste generation, treatment, storage, disposal facility or site where cleanup is planned or underway;

(B) information identifying the hazards to which persons working at a hazardous waste generation, treatment, storage, disposal facility or site or otherwise handling hazardous waste may be exposed, the nature and extent of the exposure, and methods to protect workers from such hazards; and

(C) incidents of worker injury or harm at a hazardous waste generation, treatment, storage or disposal facility or site; and

(2) notify the Secretary and the Director of the Administrator's receipt of notifications under section 6930 or reports under sections 6922, 6923, and 6924 of this title and make such notifications and reports available to the Secretary and the Director.

(Pub. L. 89–272, title II, § 7001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2824; amended Pub. L. 96–482, § 24, Oct. 21, 1980, 94 Stat. 2347.)

REFERENCES IN TEXT

The Occupational Safety and Health Act of 1970, referred to in subsec. (f), is Pub. L. 91–596, Dec. 29, 1970, 84 Stat. 1590, as amended, which is classified principally to chapter 15 (§ 651 et seq.) of Title 29, Labor. For complete classification of this Act to the Code, see Short Title note set out under section 651 of Title 29 and Tables.

AMENDMENTS

1980—Subsec. (f). Pub. L. 96–482 added subsec. (f).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6972. Citizen suits

(a) In general

Except as provided in subsection (b) or (c) of this section, any person may commence a civil action on his own behalf—

(1)(A) against any person (including (a) the United States, and (b) any other governmental instrumentality or agency, to the extent permitted by the eleventh amendment to the Constitution) who is alleged to be in violation of any permit, standard, regulation, condition, requirement, prohibition, or order which has become effective pursuant to this chapter; or

(B) against any person, including the United States and any other governmental instrumentality or agency, to the extent permitted by the eleventh amendment to the Constitution, and including any past or present generator, past or present transporter, or past or present owner or operator of a treatment, storage, or disposal facility, who has contributed or who is contributing to the past or present handling, storage, treatment, transportation, or disposal of any solid or hazardous waste which may present an imminent and substantial endangerment to health or the environment; or

(2) against the Administrator where there is alleged a failure of the Administrator to perform any act or duty under this chapter which is not discretionary with the Administrator.

Any action under paragraph (a)(1) of this subsection shall be brought in the district court for

the district in which the alleged violation occurred or the alleged endangerment may occur. Any action brought under paragraph (a)(2) of this subsection may be brought in the district court for the district in which the alleged violation occurred or in the District Court of the District of Columbia. The district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce the permit, standard, regulation, condition, requirement, prohibition, or order, referred to in paragraph (1)(A), to restrain any person who has contributed or who is contributing to the past or present handling, storage, treatment, transportation, or disposal of any solid or hazardous waste referred to in paragraph (1)(B), to order such person to take such other action as may be necessary, or both, or to order the Administrator to perform the act or duty referred to in paragraph (2), as the case may be, and to apply any appropriate civil penalties under section 6928(a) and (g) of this title.

(b) Actions prohibited

(1) No action may be commenced under subsection (a)(1)(A) of this section—

(A) prior to 60 days after the plaintiff has given notice of the violation to—

(i) the Administrator;

(ii) the State in which the alleged violation occurs; and

(iii) to any alleged violator of such permit, standard, regulation, condition, requirement, prohibition, or order,

except that such action may be brought immediately after such notification in the case of an action under this section respecting a violation of subchapter III of this chapter; or

(B) if the Administrator or State has commenced and is diligently prosecuting a civil or criminal action in a court of the United States or a State to require compliance with such permit, standard, regulation, condition, requirement, prohibition, or order.

In any action under subsection (a)(1)(A) of this section in a court of the United States, any person may intervene as a matter of right.

(2)(A) No action may be commenced under subsection (a)(1)(B) of this section prior to ninety days after the plaintiff has given notice of the endangerment to—

(i) the Administrator;

(ii) the State in which the alleged endangerment may occur;

(iii) any person alleged to have contributed or to be contributing to the past or present handling, storage, treatment, transportation, or disposal of any solid or hazardous waste referred to in subsection (a)(1)(B) of this section,

except that such action may be brought immediately after such notification in the case of an action under this section respecting a violation of subchapter III of this chapter.

(B) No action may be commenced under subsection (a)(1)(B) of this section if the Administrator, in order to restrain or abate acts or conditions which may have contributed or are contributing to the activities which may present the alleged endangerment—

(i) has commenced and is diligently prosecuting an action under section 6973 of this title or under section 106 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 U.S.C. 9606],[1]

(ii) is actually engaging in a removal action under section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 U.S.C. 9604];

(iii) has incurred costs to initiate a Remedial Investigation and Feasibility Study under section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 U.S.C. 9604] and is diligently proceeding with a remedial action under that Act [42 U.S.C. 9601 et seq.]; or

(iv) has obtained a court order (including a consent decree) or issued an administrative order under section 106 of the Comprehensive Environmental Response, Compensation and Liability Act of 980[2] [42 U.S.C. 9606] or section 6973 of this title pursuant to which a responsible party is diligently conducting a removal action, Remedial Investigation and Feasibility Study (RIFS), or proceeding with a remedial action.

In the case of an administrative order referred to in clause (iv), actions under subsection (a)(1)(B) of this section are prohibited only as to the scope and duration of the administrative order referred to in clause (iv).

(C) No action may be commenced under subsection (a)(1)(B) of this section if the State, in order to restrain or abate acts or conditions which may have contributed or are contributing to the activities which may present the alleged endangerment—

(i) has commenced and is diligently prosecuting an action under subsection (a)(1)(B) of this section;

(ii) is actually engaging in a removal action under section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 U.S.C. 9604]; or

(iii) has incurred costs to initiate a Remedial Investigation and Feasibility Study under section 104 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 [42 U.S.C. 9604] and is diligently proceeding with a remedial action under that Act [42 U.S.C. 9601 et seq.].

(D) No action may be commenced under subsection (a)(1)(B) of this section by any person (other than a State or local government) with respect to the siting of a hazardous waste treatment, storage, or a disposal facility, nor to restrain or enjoin the issuance of a permit for such facility.

(E) In any action under subsection (a)(1)(B) of this section in a court of the United States, any person may intervene as a matter of right when the applicant claims an interest relating to the subject of the action and he is so situated that the disposition of the action may, as a practical matter, impair or impede his ability to protect that interest, unless the Administrator or the State shows that the applicant's interest is adequately represented by existing parties.

(F) Whenever any action is brought under subsection (a)(1)(B) of this section in a court of the

[1] So in original. The comma probably should be a semicolon.

[2] So in original. Probably should be ''1980''.

United States, the plaintiff shall serve a copy of the complaint on the Attorney General of the United States and with the Administrator.

(c) Notice

No action may be commenced under paragraph (a)(2) of this section prior to sixty days after the plaintiff has given notice to the Administrator that he will commence such action, except that such action may be brought immediately after such notification in the case of an action under this section respecting a violation of subchapter III of this chapter. Notice under this subsection shall be given in such manner as the Administrator shall prescribe by regulation. Any action respecting a violation under this chapter may be brought under this section only in the judicial district in which such alleged violation occurs.

(d) Intervention

In any action under this section the Administrator, if not a party, may intervene as a matter of right.

(e) Costs

The court, in issuing any final order in any action brought pursuant to this section or section 6976 of this title, may award costs of litigation (including reasonable attorney and expert witness fees) to the prevailing or substantially prevailing party, whenever the court determines such an award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the Federal Rules of Civil Procedure.

(f) Other rights preserved

Nothing in this section shall restrict any right which any person (or class of persons) may have under any statute or common law to seek enforcement of any standard or requirement relating to the management of solid waste or hazardous waste, or to seek any other relief (including relief against the Administrator or a State agency).

(g) Transporters

A transporter shall not be deemed to have contributed or to be contributing to the handling, storage, treatment, or disposal, referred to in subsection (a)(1)(B) of this section taking place after such solid waste or hazardous waste has left the possession or control of such transporter, if the transportation of such waste was under a sole contractual arrangement arising from a published tariff and acceptance for carriage by common carrier by rail and such transporter has exercised due care in the past or present handling, storage, treatment, transportation and disposal of such waste.

(Pub. L. 89–272, title II, §7002, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2825; amended Pub. L. 95–609, §7(p), Nov. 8, 1978, 92 Stat. 3083; Pub. L. 98–616, title IV, §401, Nov. 8, 1984, 98 Stat. 3268.)

REFERENCES IN TEXT

That Act, referred to in subsec. (b)(2)(B)(iii), (C)(iii), means Pub. L. 96–510, Dec. 11, 1980, 94 Stat. 2767, as amended, known as the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, which is classified principally to chapter 103 (§9601 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 9601 of this title and Tables.

The Federal Rules of Civil Procedure, referred to in subsec. (e), are set out in the Appendix to Title 28, Judiciary and Judicial Procedure.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, §401(a), (b), designated existing provisions of subsec. (a)(1) as subpar. (A) thereof, inserted ''prohibition,'' after ''requirement,'', added subpar. (B), and in provisions following par. (2) inserted ''or the alleged endangerment may occur'' in first sentence and substituted ''to enforce the permit, standard, regulation, condition, requirement, prohibition, or order, referred to in paragraph (1)(A), to restrain any person who has contributed or who is contributing to the past or present handling, storage, treatment, transportation, or disposal of any solid or hazardous waste referred to in paragraph (1)(B), to order such person to take such other action as may be necessary, or both, or to order the Administrator to perform the act or duty referred to in paragraph (2), as the case may be, and to apply any appropriate civil penalties under section 6928(a) and (g) of this title'' for ''to enforce such regulation or order, or to order the Administrator to perform such act or duty as the case may be''.

Subsec. (b). Pub. L. 98–616, §401(d), amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: ''No action may be commenced under paragraph (a)(1) of this section—

''(1) prior to sixty days after the plaintiff has given notice of the violation (A) to the Administrator; (B) to the State in which the alleged violation occurs; and (C) to any alleged violator of such permit, standard, regulation, condition, requirement, or order; or

''(2) if the Administrator or State has commenced and is diligently prosecuting a civil or criminal action in a court of the United States or a State to require compliance with such permit, standard, regulation, condition, requirement, or order: *Provided, however*, That in any such action in a court of the United States, any person may intervene as a matter of right.''

Subsec. (e). Pub. L. 98–616, §401(e), substituted ''to the prevailing or substantially prevailing party'' for ''to any party'' and inserted ''or section 6976 of this title''.

Subsec. (g). Pub. L. 98–616, §401(c), added subsec. (g).

1978—Subsec. (c). Pub. L. 95–609, §7(p)(1), substituted ''subchapter III of this chapter'' for ''section 212 of this Act.''

Subsec. (e). Pub. L. 95–609, §7(p)(2), substituted ''require'' for ''requiring''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6945 of this title.

§6973. Imminent hazard

(a) Authority of Administrator

Notwithstanding any other provision of this chapter, upon receipt of evidence that the past or present handling, storage, treatment, transportation or disposal of any solid waste or hazardous waste may present an imminent and substantial endangerment to health or the environment, the Administrator may bring suit on behalf of the United States in the appropriate dis-

trict court against any person (including any past or present generator, past or present transporter, or past or present owner or operator of a treatment, storage, or disposal facility) who has contributed or who is contributing to such handling, storage, treatment, transportation or disposal to restrain such person from such handling, storage, treatment, transportation, or disposal, to order such person to take such other action as may be necessary, or both. A transporter shall not be deemed to have contributed or to be contributing to such handling, storage, treatment, or disposal taking place after such solid waste or hazardous waste has left the possession or control of such transporter if the transportation of such waste was under a sole contractural[1] arrangement arising from a published tariff and acceptance for carriage by common carrier by rail and such transporter has exercised due care in the past or present handling, storage, treatment, transportation and disposal of such waste. The Administrator shall provide notice to the affected State of any such suit. The Administrator may also, after notice to the affected State, take other action under this section including, but not limited to, issuing such orders as may be necessary to protect public health and the environment.

(b) Violations

Any person who willfully violates, or fails or refuses to comply with, any order of the Administrator under subsection (a) of this section may, in an action brought in the appropriate United States district court to enforce such order, be fined not more than $5,000 for each day in which such violation occurs or such failure to comply continues.

(c) Immediate notice

Upon receipt of information that there is hazardous waste at any site which has presented an imminent and substantial endangerment to human health or the environment, the Administrator shall provide immediate notice to the appropriate local government agencies. In addition, the Administrator shall require notice of such endangerment to be promptly posted at the site where the waste is located.

(d) Public participation in settlements

Whenever the United States or the Administrator proposes to covenant not to sue or to forbear from suit or to settle any claim arising under this section, notice, and opportunity for a public meeting in the affected area, and a reasonable opportunity to comment on the proposed settlement prior to its final entry shall be afforded to the public. The decision of the United States or the Administrator to enter into or not to enter into such Consent Decree, covenant or agreement shall not constitute a final agency action subject to judicial review under this chapter or chapter 7 of title 5.

(Pub. L. 89–272, title II, § 7003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2826; amended Pub. L. 95–609, § 7(q), Nov. 8, 1978, 92 Stat. 3083; Pub. L. 96–482, § 25, Oct. 21, 1980, 94 Stat. 2348; Pub. L. 98–616, title IV, §§ 402, 403(a), 404, Nov. 8, 1984, 98 Stat. 3271, 3273.)

[1] So in original. Probably should be ''contractual''.

CODIFICATION

In subsec. (d), ''chapter 7 of title 5'' substituted for ''the Administrative Procedure Act'' on authority of Pub. L. 89–554, § 7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

AMENDMENTS

1984—Subsec. (a). Pub. L. 98–616, § 402, inserted ''past or present'' after ''evidence that the'', substituted ''against any person (including any past or present generator, past or present transporter, or past or present owner or operator of a treatment, storage, or disposal facility) who has contributed or, who is'' for ''to immediately restrain any person'', substituted ''to restrain such person from'' for ''to stop'', substituted '', to order such person to take such other action as may be necessary, or both'' for ''or to take such other action as may be necessary'', and inserted ''A transporter shall not be deemed to have contributed or to be contributing to such handling, storage, treatment, or disposal, taking place after such solid waste or hazardous waste has left the possession or control of such transporter, if the transportation of such waste was under a sole contractural [sic] arrangement arising from a published tariff and acceptance for carriage by common carrier by rail and such transporter has exercised due care in the past or present handling, storage, treatment, transportation and disposal of such waste.''

Subsec. (c). Pub. L. 98–616, § 403(a), added subsec. (c).

Subsec. (d). Pub. L. 98–616, § 404, added subsec. (d).

1980—Pub. L. 96–482, § 25, designated existing provisions as subsec. (a), substituted ''may present'' for ''is presenting'' and ''such handling, storage, treatment, transportation or disposal'' for ''the alleged disposal'' and authorized other action to be taken by the Administrator after notice including issuance of protective orders relating to public health and the environment, and added subsec. (b).

1978—Pub. L. 95–609 struck out ''for'' after ''restrain any person''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6972, 7412, 9604, 9606 of this title.

§ 6974. Petition for regulations; public participation

(a) Petition

Any person may petition the Administrator for the promulgation, amendment, or repeal of any regulation under this chapter. Within a reasonable time following receipt of such petition, the Administrator shall take action with respect to such petition and shall publish notice of such action in the Federal Register, together with the reasons therefor.

(b) Public participation

(1) Public participation in the development, revision, implementation, and enforcement of any regulation, guideline, information, or program under this chapter shall be provided for, encouraged, and assisted by the Administrator and the States. The Administrator, in cooperation with the States, shall develop and publish minimum guidelines for public participation in such processes.

(2) Before the issuing of a permit to any person with any respect to any facility for the treatment, storage, or disposal of hazardous wastes under section 6925 of this title, the Administrator shall—

(A) cause to be published in major local newspapers of general circulation and broadcast over local radio stations notice of the agency's intention to issue such permit, and

(B) transmit in writing notice of the agency's intention to issue such permit to each unit of local government having jurisdiction over the area in which such facility is proposed to be located and to each State agency having any authority under State law with respect to the construction or operation of such facility.

If within 45 days the Administrator receives written notice of opposition to the agency's intention to issue such permit and a request for a hearing, or if the Administrator determines on his own initiative, he shall hold an informal public hearing (including an opportunity for presentation of written and oral views) on whether he should issue a permit for the proposed facility. Whenever possible the Administrator shall schedule such hearing at a location convenient to the nearest population center to such proposed facility and give notice in the aforementioned manner of the date, time, and subject matter of such hearing. No State program which provides for the issuance of permits referred to in this paragraph may be authorized by the Administrator under section 6926 of this title unless such program provides for the notice and hearing required by the paragraph.

(Pub. L. 89–272, title II, §7004, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2826; amended Pub. L. 96–482, §26, Oct. 21, 1980, 94 Stat. 2348.)

AMENDMENTS

1980—Subsec. (b). Pub. L. 96–482 designated existing provisions as par. (1) and added par. (2).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6925 of this title.

§ 6975. Separability

If any provision of this chapter, or the application of any provision of this chapter to any person or circumstance, is held invalid, the application of such provision to other persons or circumstances, and the remainder of this chapter, shall not be affected thereby.

(Pub. L. 89–272, title II, §7005, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2827.)

§ 6976. Judicial review

(a) Review of final regulations and certain petitions

Any judicial review of final regulations promulgated pursuant to this chapter and the Administrator's denial of any petition for the promulgation, amendment, or repeal of any regulation under this chapter shall be in accordance with sections 701 through 706 of title 5, except that—

(1) a petition for review of action of the Administrator in promulgating any regulation, or requirement under this chapter or denying any petition for the promulgation, amendment or repeal of any regulation under this chapter may be filed only in the United States Court of Appeals for the District of Columbia, and such petition shall be filed within ninety days from the date of such promulgation or denial, or after such date if such petition for review is based solely on grounds arising after such ninetieth day; action of the Administrator with respect to which review could have been obtained under this subsection shall not be subject to judicial review in civil or criminal proceedings for enforcement; and

(2) in any judicial proceeding brought under this section in which review is sought of a determination under this chapter required to be made on the record after notice and opportunity for hearing, if a party seeking review under this chapter applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the information is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Administrator, the court may order such additional evidence (and evidence in rebuttal thereof) to be taken before the Administrator, and to be adduced upon the hearing in such manner and upon such terms and conditions as the court may deem proper; the Administrator may modify his findings as to the facts, or make new findings, by reason of the additional evidence so taken, and he shall file with the court such modified or new findings and his recommendation, if any, for the modification or setting aside of his original order, with the return of such additional evidence.

(b) Review of certain actions under sections 6925 and 6926 of this title

Review of the Administrator's action (1) in issuing, denying, modifying, or revoking any permit under section 6925 of this title (or in modifying or revoking any permit which is deemed to have been issued under section 6935(d)(1)[1] of this title), or (2) in granting, denying, or withdrawing authorization or interim authorization under section 6926 of this title, may be had by any interested person in the Circuit Court of Appeals of the United States for the Federal judicial district in which such person resides or transacts such business upon application by such person. Any such application shall be made within ninety days from the date of such issuance, denial, modification, revocation, grant, or withdrawal, or after such date only if such application is based solely on grounds which arose after such ninetieth day. Action of the Administrator with respect to which review could have been obtained under this subsection shall not be subject to judicial review in civil or

[1] See References in Text note below.

criminal proceedings for enforcement. Such review shall be in accordance with sections 701 through 706 of title 5.

(Pub. L. 89–272, title II, § 7006, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2827; amended Pub. L. 96–482, § 27, Oct. 21, 1980, 94 Stat. 2349; Pub. L. 98–616, title II, § 241(b)(1), title IV, § 403(d)(5), Nov. 8, 1984, 98 Stat. 3259, 3273.)

REFERENCES IN TEXT

Section 6935(d)(1) of this title, referred to in subsec. (b), was in the original a reference to section 3012(d)(1) of Pub. L. 89–272, which was renumbered section 3014(d)(1) of Pub. L. 89–272 by Pub. L. 98–616 and is classified to section 6935(d)(1) of this title.

AMENDMENTS

1984—Pub. L. 98–616 inserted ''(or in modifying or revoking any permit which is deemed to have been issued under section 6935(d)(1) of this title)'' and inserted ''Action of the Administrator with respect to which review could have been obtained under this subsection shall not be subject to judicial review in civil or criminal proceedings for enforcement.''

1980—Pub. L. 96–482, § 27(a), designated existing provisions as subsec. (a), in provision preceding par. (1), included judicial review of Administrator's denial of any petition for promulgation, amendment, or repeal of any regulation in par. (1), included review of Administrator's denial of any petition for promulgation, amendment, or repeal of any regulation, and substituted ''District of Columbia, and'' for ''District of Columbia. Any'', ''date of such promulgation or denial'' for ''date of such promulgation'', ''petition for review is based'' for ''petition is based'', and ''; action'' for ''. Action'', and in par. (2), substituted ''proper; the'' for ''proper. The'', and added subsec. (b).

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6972 of this title.

§ 6977. Grants or contracts for training projects

(a) General authority

The Administrator is authorized to make grants to, and contracts with any eligible organization. For purposes of this section the term ''eligible organization'' means a State or interstate agency, a municipality, educational institution, and any other organization which is capable of effectively carrying out a project which may be funded by grant under subsection (b) of this section.

(b) Purposes

(1) Subject to the provisions of paragraph (2), grants or contracts may be made to pay all or a part of the costs, as may be determined by the Administrator, of any project operated or to be operated by an eligible organization, which is designed—

(A) to develop, expand, or carry out a program (which may combine training, education, and employment) for training persons for occupations involving the management, supervision, design, operation, or maintenance of solid waste management and resource recovery equipment and facilities; or

(B) to train instructors and supervisory personnel to train or supervise persons in occupations involving the design, operation, and maintenance of solid waste management and resource recovery equipment and facilities.

(2) A grant or contract authorized by paragraph (1) of this subsection may be made only upon application to the Administrator at such time or times and containing such information as he may prescribe, except that no such application shall be approved unless it provides for the same procedures and reports (and access to such reports and to other records) as required by section 3254a(b)(4) and (5)[1] of this title (as in effect before October 21, 1976) with respect to applications made under such section (as in effect before October 21, 1976).

(Pub. L. 89–272, title II, § 7007, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2827; amended Pub. L. 95–609, § 7(r), Nov. 8, 1978, 92 Stat. 3083; Pub. L. 105–362, title V, § 501(f), Nov. 10, 1998, 112 Stat. 3284.)

REFERENCES IN TEXT

Section 3254a(b)(4) and (5) of this title, referred to in subsec. (b)(2), was in the original ''section 207(b)(4) and (5)'', meaning section 207(b)(4) and (5) of the Solid Waste Disposal Act, which was omitted in the general revision of the Solid Waste Disposal Act by Pub. L. 94–580 on Oct. 21, 1976.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3254d of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1998—Subsec. (c). Pub. L. 105–362 struck out heading and text of subsec. (c) which related to Administrator's study and report on State and local training needs and obstacles to employment and occupational advancement in solid waste management and resource recovery field.

1978—Subsec. (b)(1). Pub. L. 95–609, § 7(r)(1), (2), substituted ''management'' for ''disposal'' in two places, and ''resource'' for ''resources''.

Subsec. (c)(3). Pub. L. 95–609, § 7(r)(3), substituted ''management'' for ''disposal''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6978. Payments

(a) General rule

Payments of grants under this chapter may be made (after necessary adjustment on account of previously made underpayments or overpayments) in advance or by way of reimbursement, and in such installments and on such conditions as the Administrator may determine.

(b) Prohibition

No grant may be made under this chapter to any private profitmaking organization.

[1] See References in Text note below.

(Pub. L. 89–272, title II, § 7008, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2828.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3258 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6979. Labor standards

No grant for a project of construction under this chapter shall be made unless the Administrator finds that the application contains or is supported by reasonable assurance that all laborers and mechanics employed by contractors or subcontractors on projects of the type covered by sections 3141–3144, 3146, and 3147 of title 40, will be paid wages at rates not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with those sections; and the Secretary of Labor shall have with respect to the labor standards specified in this section the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176) and section 3145 of title 40.

(Pub. L. 89–272, title II, § 7009, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2828; amended Pub. L. 96–482, § 28, Oct. 21, 1980, 94 Stat. 2349.)

REFERENCES IN TEXT

Reorganization Plan Numbered 14 of 1950, referred to in text, is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

In text, ''sections 3141–3144, 3146, and 3147 of title 40'' substituted for ''the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a–5)'', ''those sections'' substituted for ''that Act'', and ''section 3145 of title 40'' substituted for ''section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c)'', on authority of Pub. L. 107–217, § 5(c), Aug. 21, 2002, 116 Stat. 1303, the first section of which enacted Title 40, Public Buildings, Property, and Works.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3256 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1980—Pub. L. 96–482 substituted ''Administrator'' for ''Secretary''.

§ 6979a. Transferred

CODIFICATION

Section, Pub. L. 89–272, title II, § 7010, as added Pub. L. 98–616, title IV, § 405(a), Nov. 8, 1984, 98 Stat. 3273; Pub. L. 99–339, title II, § 201(c)(1), June 19, 1986, 100 Stat. 654, relating to interim control of hazardous waste injection, was renumbered section 3020 of Pub. L. 89–272 by Pub. L. 99–339, title II, § 201(c)(2), June 19, 1986, 100 Stat. 654, and transferred to section 6939b of this title.

§ 6979b. Law enforcement authority

The Attorney General of the United States shall, at the request of the Administrator and on the basis of a showing of need, deputize qualified employees of the Environmental Protection Agency to serve as special deputy United States marshals in criminal investigations with respect to violations of the criminal provisions of this chapter.

(Pub. L. 89–272, title II, § 7010, formerly § 7012, as added Pub. L. 98–616, title IV, § 403(b)(1), Nov. 8, 1984, 98 Stat. 3272; renumbered § 7010, Pub. L. 99–339, title II, § 201(c)(2), June 19, 1986, 100 Stat. 654.)

PRIOR PROVISIONS

A prior section 7010 of Pub. L. 89–272, which was classified to section 6979a of this title, was renumbered section 3020 and transferred to section 6939b of this title.

SUBCHAPTER VIII—RESEARCH, DEVELOPMENT, DEMONSTRATION, AND INFORMATION

§ 6981. Research, demonstration, training, and other activities

(a) General authority

The Administrator, alone or after consultation with the Secretary of Energy, shall conduct, and encourage, cooperate with, and render financial and other assistance to appropriate public (whether Federal, State, interstate, or local) authorities, agencies, and institutions, private agencies and institutions, and individuals in the conduct of, and promote the coordination of, research, investigations, experiments, training, demonstrations, surveys, public education programs, and studies relating to—

(1) any adverse health and welfare effects of the release into the environment of material present in solid waste, and methods to eliminate such effects;

(2) the operation and financing of solid waste management programs;

(3) the planning, implementation, and operation of resource recovery and resource conservation systems and hazardous waste management systems, including the marketing of recovered resources;

(4) the production of usable forms of recovered resources, including fuel, from solid waste;

(5) the reduction of the amount of such waste and unsalvageable waste materials;

(6) the development and application of new and improved methods of collecting and disposing of solid waste and processing and recovering materials and energy from solid wastes;

(7) the identification of solid waste components and potential materials and energy recoverable from such waste components;

(8) small scale and low technology solid waste management systems, including but not limited to, resource recovery source separation systems;

(9) methods to improve the performance characteristics of resources recovered from solid waste and the relationship of such performance characteristics to available and potentially available markets for such resources;

(10) improvements in land disposal practices for solid waste (including sludge) which may reduce the adverse environmental effects of such disposal and other aspects of solid waste disposal on land, including means for reducing the harmful environmental effects of earlier and existing landfills, means for restoring areas damaged by such earlier or existing landfills, means for rendering landfills safe for purposes of construction and other uses, and techniques of recovering materials and energy from landfills;

(11) methods for the sound disposal of, or recovery of resources, including energy, from, sludge (including sludge from pollution control and treatment facilities, coal slurry pipelines, and other sources);

(12) methods of hazardous waste management, including methods of rendering such waste environmentally safe; and

(13) any adverse effects on air quality (particularly with regard to the emission of heavy metals) which result from solid waste which is burned (either alone or in conjunction with other substances) for purposes of treatment, disposal or energy recovery.

(b) Management program

(1)(A) In carrying out his functions pursuant to this chapter, and any other Federal legislation respecting solid waste or discarded material research, development, and demonstrations, the Administrator shall establish a management program or system to insure the coordination of all such activities and to facilitate and accelerate the process of development of sound new technology (or other discoveries) from the research phase, through development, and into the demonstration phase.

(B) The Administrator shall (i) assist, on the basis of any research projects which are developed with assistance under this chapter or without Federal assistance, the construction of pilot plant facilities for the purpose of investigating or testing the technological feasibility of any promising new fuel, energy, or resource recovery or resource conservation method or technology; and (ii) demonstrate each such method and technology that appears justified by an evaluation at such pilot plant stage or at a pilot plant stage developed without Federal assistance. Each such demonstration shall incorporate new or innovative technical advances or shall apply such advances to different circumstances and conditions, for the purpose of evaluating design concepts or to test the performance, efficiency, and economic feasibility of a particular method or technology under actual operating conditions. Each such demonstration shall be so planned and designed that, if successful, it can be expanded or utilized directly as a full-scale operational fuel, energy, or resource recovery or resource conservation facility.

(2) Any energy-related research, development, or demonstration project for the conversion including bioconversion, of solid waste carried out by the Environmental Protection Agency or by the Secretary of Energy pursuant to this chapter or any other Act shall be administered in accordance with the May 7, 1976, Interagency Agreement between the Environmental Protection Agency and the Energy Research and Development Administration on the Development of Energy from Solid Wastes and specifically, that in accordance with this agreement, (A) for those energy-related projects of mutual interest, planning will be conducted jointly by the Environmental Protection Agency and the Secretary of Energy, following which project responsibility will be assigned to one agency; (B) energy-related portions of projects for recovery of synthetic fuels or other forms of energy from solid waste shall be the responsibility of the Secretary of Energy; (C) the Environmental Protection Agency shall retain responsibility for the environmental, economic, and institutional aspects of solid waste projects and for assurance that such projects are consistent with any applicable suggested guidelines published pursuant to section 6907 of this title, and any applicable State or regional solid waste management plan; and (D) any activities undertaken under provisions of sections 6982 and 6983 of this title as related to energy; as related to energy or synthetic fuels recovery from waste; or as related to energy conservation shall be accomplished through coordination and consultation with the Secretary of Energy.

(c) Authorities

(1) In carrying out subsection (a) of this section respecting solid waste research, studies, development, and demonstration, except as otherwise specifically provided in section 6984(d) of this title, the Administrator may make grants to or enter into contracts (including contracts for construction) with, public agencies and authorities or private persons.

(2) Contracts for research, development, or demonstrations or for both (including contracts for construction) shall be made in accordance with and subject to the limitations provided with respect to research contracts of the military departments in section 2353 of title 10, except that the determination, approval, and certification required thereby shall be made by the Administrator.

(3) Any invention made or conceived in the course of, or under, any contract under this chapter shall be subject to section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 [42 U.S.C. 5908] to the same extent and in the same manner as inventions made or conceived in the course of contracts under such Act [42 U.S.C. 5901 et seq.], except that in applying such section, the Environmental Protection Agency shall be substituted for the Secretary of Energy and the words ''solid waste'' shall be substituted for the word ''energy'' where appropriate.

(4) For carrying out the purpose of this chapter the Administrator may detail personnel of the Environmental Protection Agency to agencies eligible for assistance under this section.

(Pub. L. 89–272, title II, § 8001, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2829; amended Pub. L. 95–91, title III, § 301, title VII, §§ 703, 707, Aug. 4, 1977, 91 Stat. 577, 606, 607; Pub. L. 95–609, § 7(s), Nov. 8, 1978, 92 Stat. 3083.)

REFERENCES IN TEXT

Such Act, referred to in subsec. (c)(3), means the Federal Nonnuclear Energy Research and Development Act

of 1974, Pub. L. 93–577, Dec. 31, 1974, 88 Stat. 1878, as amended, which is classified generally to chapter 74 (§ 5901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 5901 of this title and Tables.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3253 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

AMENDMENTS

1978—Subsec. (a)(2). Pub. L. 95–609, § 7(s)(1), substituted ''management'' for ''disposal''.

Subsec. (a)(13). Pub. L. 95–609, § 7(s)(2), inserted ''treatment,'' after ''for purpose of''.

TRANSFER OF FUNCTIONS

''Secretary of Energy'' was substituted for ''Administrator of the Federal Energy Administration, the Administrator of the Energy Research and Development Administration, or the Chairman of the Federal Power Commission'' in subsec. (a), and for ''Energy Research and Development Administration'' in subsecs. (b)(2) and (c)(3), in view of the termination of the Federal Energy Administration, the Energy Research and Development Administration, and the Federal Power Commission and the transfer of their functions and the functions of the Administrators and Chairman thereof (with certain exceptions) to the Secretary of Energy pursuant to sections 301, 703, and 707 of Pub. L. 95–91, which are classified to sections 7151, 7293, and 7297 of this title.

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

EPA STUDY OF METHODS TO REDUCE PLASTIC POLLUTION

Pub. L. 100–220, title II, § 2202, Dec. 29, 1987, 101 Stat. 1465, directed Administrator of Environmental Protection Agency, in consultation with Secretary of Commerce, to conduct a study of the adverse effects of improper disposal of plastic articles on environment and on waste disposal, and various methods to reduce or eliminate such adverse effects, and directed Administrator, within 18 months after Dec. 29, 1987, to report results of this study to Congress.

NATIONAL ADVISORY COMMISSION ON RESOURCE CONSERVATION AND RECOVERY

Pub. L. 96–482, § 33, Oct. 21, 1980, 94 Stat. 2356, as amended by Pub. L. 105–362, title V, § 501(g), Nov. 10, 1998, 112 Stat. 3284, provided for establishment, membership, functions, etc., of a National Advisory Commission on Resource Conservation and Recovery, directed Commission, upon expiration of the two-year period beginning on the date when all initial members of the Commission have been appointed or the date initial funds become available, whichever is later, to transmit a final report to President and Congress containing a detailed statement of the findings and conclusions of the Commission, and terminated the Commission 30 days after submission of its final report.

SOLID WASTE CLEANUP ON FEDERAL LANDS IN ALASKA; STUDY AND REPORT TO CONGRESSIONAL COMMITTEES

Section 3 of Pub. L. 94–580 provided for a study of procedures for removal of solid waste from Federal lands in Alaska and submission of a Presidential Report to the Senate Committee on Public Lands and House Committee on Interstate and Foreign Commerce no later than one year after Oct. 21, 1976, and implementing recommendations to such committees within six months thereafter, prior to repeal by Pub. L. 96–482, § 30, Oct. 21, 1980, 94 Stat. 2352.

LEACHATE CONTROL RESEARCH PROGRAM IN DELAWARE

Section 4 of Pub. L. 94–580 directed Administrator of Environmental Protection Agency, in order to demonstrate effective means of dealing with contamination of public water supplies by leachate from abandoned or other landfills, to provide technical and financial assistance for a research program, designed by New Castle County areawide waste treatment management program, to control leachate from Llangollen Landfill in New Castle County, Delaware, and provided up to $250,000 in each of the fiscal years 1978 and 1979 for the operating costs of a counter-pumping program to contain the leachate from the Llangollen Landfill during the period of this study.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6984, 6985 of this title; title 35 section 210.

§ 6982. Special studies; plans for research, development, and demonstrations

(a) Glass and plastic

The Administrator shall undertake a study and publish a report on resource recovery from glass and plastic waste, including a scientific, technological, and economic investigation of potential solutions to implement such recovery.

(b) Composition of waste stream

The Administrator shall undertake a systematic study of the composition of the solid waste stream and of anticipated future changes in the composition of such stream and shall publish a report containing the results of such study and quantitatively evaluating the potential utility of such components.

(c) Priorities study

For purposes of determining priorities for research on recovery of materials and energy from solid waste and developing materials and energy recovery research, development, and demonstration strategies, the Administrator shall review, and make a study of, the various existing and promising techniques of energy recovery from solid waste (including, but not limited to, waterwall furnace incinerators, dry shredded fuel systems, pyrolysis, densified refuse-derived fuel systems, anerobic digestion, and fuel and feedstock preparation systems). In carrying out such study the Administrator shall investigate with respect to each such technique—

(1) the degree of public need for the potential results of such research, development, or demonstration,

(2) the potential for research, development, and demonstration without Federal action, including the degree of restraint on such potential posed by the risks involved, and

(3) the magnitude of effort and period of time necessary to develop the technology to the point where Federal assistance can be ended.

(d) Small-scale and low technology study

The Administrator shall undertake a comprehensive study and analysis of, and publish a report on, systems of small-scale and low technology solid waste management, including

household resource recovery and resource recovery systems which have special application to multiple dwelling units and high density housing and office complexes. Such study and analysis shall include an investigation of the degree to which such systems could contribute to energy conservation.

(e) Front-end source separation

The Administrator shall undertake research and studies concerning the compatibility of front-end source separation systems with high technology resource recovery systems and shall publish a report containing the results of such research and studies.

(f) Mining waste

The Administrator, in consultation with the Secretary of the Interior, shall conduct a detailed and comprehensive study on the adverse effects of solid wastes from active and abandoned surface and underground mines on the environment, including, but not limited to, the effects of such wastes on humans, water, air, health, welfare, and natural resources, and on the adequacy of means and measures currently employed by the mining industry, Government agencies, and others to dispose of and utilize such solid wastes and to prevent or substantially mitigate such adverse effects. Such study shall include an analysis of—

(1) the sources and volume of discarded material generated per year from mining;

(2) present disposal practices;

(3) potential dangers to human health and the environment from surface runoff of leachate and air pollution by dust;

(4) alternatives to current disposal methods;

(5) the cost of those alternatives in terms of the impact on mine product costs; and

(6) potential for use of discarded material as a secondary source of the mine product.

In furtherance of this study, the Administrator shall, as he deems appropriate, review studies and other actions of other Federal agencies concerning such wastes with a view toward avoiding duplication of effort and the need to expedite such study. Not later than thirty-six months after October 21, 1980, the Administrator shall publish a report of such study and shall include appropriate findings and recommendations for Federal and non-Federal actions concerning such effects. Such report shall be submitted to the Committee on Environment and Public Works of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives.

(g) Sludge

The Administrator shall undertake a comprehensive study and publish a report on sludge. Such study shall include an analysis of—

(1) what types of solid waste (including but not limited to sewage and pollution treatment residues and other residues from industrial operations such as extraction of oil from shale, liquefaction and gasification of coal and coal slurry pipeline operations) shall be classified as sludge;

(2) the effects of air and water pollution legislation on the creation of large volumes of sludge;

(3) the amounts of sludge originating in each State and in each industry producing sludge;

(4) methods of disposal of such sludge, including the cost, efficiency, and effectiveness of such methods;

(5) alternative methods for the use of sludge, including agricultural applications of sludge and energy recovery from sludge; and

(6) methods to reclaim areas which have been used for the disposal of sludge or which have been damaged by sludge.

(h) Tires

The Administrator shall undertake a study and publish a report respecting discarded motor vehicle tires which shall include an analysis of the problems involved in the collection, recovery of resources including energy, and use of such tires.

(i) Resource recovery facilities

The Administrator shall conduct research and report on the economics of, and impediments, to the effective functioning of resource recovery facilities.

(j) Resource Conservation Committee

(1) The Administrator shall serve as Chairman of a Committee composed of himself, the Secretary of Commerce, the Secretary of Labor, the Chairman of the Council on Environmental Quality, the Secretary of Treasury, the Secretary of the Interior, the Secretary of Energy, the Chairman of the Council of Economic Advisors, and a representative of the Office of Management and Budget, which shall conduct a full and complete investigation and study of all aspects of the economic, social, and environmental consequences of resource conservation with respect to—

(A) the appropriateness of recommended incentives and disincentives to foster resource conservation;

(B) the effect of existing public policies (including subsidies and economic incentives and disincentives, percentage depletion allowances, capital gains treatment and other tax incentives and disincentives) upon resource conservation, and the likely effect of the modification or elimination of such incentives and disincentives upon resource conservation;

(C) the appropriateness and feasibility of restricting the manufacture or use of categories of consumer products as a resource conservation strategy;

(D) the appropriateness and feasibility of employing as a resource conservation strategy the imposition of solid waste management charges on consumer products, which charges would reflect the costs of solid waste management services, litter pickup, the value of recoverable components of such product, final disposal, and any social value associated with the nonrecycling or uncontrolled disposal of such product; and

(E) the need for further research, development, and demonstration in the area of resource conservation.

(2) The study required in paragraph (1)(D) may include pilot scale projects, and shall consider and evaluate alternative strategies with respect to—

(A) the product categories on which such charges would be imposed;

(B) the appropriate state in the production of such consumer product at which to levy such charge;

(C) appropriate criteria for establishing such charges for each consumer product category;

(D) methods for the adjustment of such charges to reflect actions such as recycling which would reduce the overall quantities of solid waste requiring disposal; and

(E) procedures for amending, modifying, or revising such charges to reflect changing conditions.

(3) The design for the study required in paragraph (1) of this subsection shall include timetables for the completion of the study. A preliminary report putting forth the study design shall be sent to the President and the Congress within six months following October 21, 1976, and followup reports shall be sent six months thereafter. Each recommendation resulting from the study shall include at least two alternatives to the proposed recommendation.

(4) The results of such investigation and study, including recommendations, shall be reported to the President and the Congress not later than two years after October 21, 1976.

(5) There are authorized to be appropriated not to exceed $2,000,000 to carry out this subsection.

(k) Airport landfills

The Administrator shall undertake a comprehensive study and analysis of and publish a report on systems to alleviate the hazards to aviation from birds congregating and feeding on landfills in the vicinity of airports.

(*l*) Completion of research and studies

The Administrator shall complete the research and studies, and submit the reports, required under subsections (b), (c), (d), (e), (f), (g), and (k) of this section not later than October 1, 1978. The Administrator shall complete the research and studies, and submit the reports, required under subsections (a), (h), and (i) of this section not later than October 1, 1979. Upon completion, each study specified in subsections (a) through (k) of this section, the Administrator shall prepare a plan for research, development, and demonstration respecting the findings of the study and shall submit any legislative recommendations resulting from such study to appropriate committees of Congress.

(m) Drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil or natural gas or geothermal energy

(1) The Administrator shall conduct a detailed and comprehensive study and submit a report on the adverse effects, if any, of drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil or natural gas or geothermal energy on human health and the environment, including, but not limited to, the effects of such wastes on humans, water, air, health, welfare, and natural resources and on the adequacy of means and measures currently employed by the oil and gas and geothermal drilling and production industry, Government agencies, and others to dispose of and utilize such wastes and to prevent or substantially mitigate such adverse effects. Such study shall include an analysis of—

(A) the sources and volume of discarded material generated per year from such wastes;

(B) present disposal practices;

(C) potential danger to human health and the environment from the surface runoff or leachate;

(D) documented cases which prove or have caused danger to human health and the environment from surface runoff or leachate;

(E) alternatives to current disposal methods;

(F) the cost of such alternatives; and

(G) the impact of those alternatives on the exploration for, and development and production of, crude oil and natural gas or geothermal energy.

In furtherance of this study, the Administrator shall, as he deems appropriate, review studies and other actions of other Federal agencies concerning such wastes with a view toward avoiding duplication of effort and the need to expedite such study. The Administrator shall publish a report of such study and shall include appropriate findings and recommendations for Federal and non-Federal actions concerning such effects.

(2) The Administrator shall complete the research and study and submit the report required under paragraph (1) not later than twenty-four months from October 21, 1980. Upon completion of the study, the Administrator shall prepare a summary of the findings of the study, a plan for research, development, and demonstration respecting the findings of the study, and shall submit the findings and the study, along with any recommendations resulting from such study, to the Committee on Environment and Public Works of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives.

(3) There are authorized to be appropriated not to exceed $1,000,000 to carry out the provisions of this subsection.

(n) Materials generated from the combustion of coal and other fossil fuels

The Administrator shall conduct a detailed and comprehensive study and submit a report on the adverse effects on human health and the environment, if any, of the disposal and utilization of fly ash waste, bottom ash waste, slag waste, flue gas emission control waste, and other byproduct materials generated primarily from the combustion of coal or other fossil fuels. Such study shall include an analysis of—

(1) the source and volumes of such material generated per year;

(2) present disposal and utilization practices;

(3) potential danger, if any, to human health and the environment from the disposal and reuse of such materials;

(4) documented cases in which danger to human health or the environment from surface runoff or leachate has been proved;

(5) alternatives to current disposal methods;

(6) the costs of such alternatives;

(7) the impact of those alternatives on the use of coal and other natural resources; and

(8) the current and potential utilization of such materials.

In furtherance of this study, the Administrator shall, as he deems appropriate, review studies and other actions of other Federal and State agencies concerning such material and invite participation by other concerned parties, including industry and other Federal and State agencies, with a view toward avoiding duplication of effort. The Administrator shall publish a report on such study, which shall include appropriate findings, not later than twenty-four months after October 21, 1980. Such study and findings shall be submitted to the Committee on Environment and Public Works of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives.

(*o*) Cement kiln dust waste

The Administrator shall conduct a detailed and comprehensive study of the adverse effects on human health and the environment, if any, of the disposal of cement kiln dust waste. Such study shall include an analysis of—

(1) the source and volumes of such materials generated per year;

(2) present disposal practices;

(3) potential danger, if any, to human health and the environment from the disposal of such materials;

(4) documented cases in which danger to human health or the environment has been proved;

(5) alternatives to current disposal methods;

(6) the costs of such alternatives;

(7) the impact of those alternatives on the use of natural resources; and

(8) the current and potential utilization of such materials.

In furtherance of this study, the Administrator shall, as he deems appropriate, review studies and other actions of other Federal and State agencies concerning such waste or materials and invite participation by other concerned parties, including industry and other Federal and State agencies, with a view toward avoiding duplication of effort. The Administrator shall publish a report of such study, which shall include appropriate findings, not later than thirty-six months after October 21, 1980. Such report shall be submitted to the Committee on Environment and Public Works of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives.

(p) Materials generated from extraction, beneficiation, and processing of ores and minerals, including phosphate rock and overburden from uranium mining

The Administrator shall conduct a detailed and comprehensive study on the adverse effects on human health and the environment, if any, of the disposal and utilization of solid waste from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and overburden from uranium mining. Such study shall be conducted in conjunction with the study of mining wastes required by subsection (f) of this section and shall include an analysis of—

(1) the source and volumes of such materials generated per year;

(2) present disposal and utilization practices;

(3) potential danger, if any, to human health and the environment from the disposal and reuse of such materials;

(4) documented cases in which danger to human health or the environment has been proved;

(5) alternatives to current disposal methods;

(6) the costs of such alternatives;

(7) the impact of those alternatives on the use of phosphate rock and uranium ore, and other natural resources; and

(8) the current and potential utilization of such materials.

In furtherance of this study, the Administrator shall, as he deems appropriate, review studies and other actions of other Federal and State agencies concerning such waste or materials and invite participation by other concerned parties, including industry and other Federal and State agencies, with a view toward avoiding duplication of effort. The Administrator shall publish a report of such study, which shall include appropriate findings, in conjunction with the publication of the report of the study of mining wastes required to be conducted under subsection (f) of this section. Such report and findings shall be submitted to the Committee on Environment and Public Works of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives.

(q) Authorization of appropriations

There are authorized to be appropriated not to exceed $8,000,000 for the fiscal years 1978 and 1979 to carry out this section other than subsection (j) of this section.

(r) Minimization of hazardous waste

The Administrator shall compile, and not later than October 1, 1986, submit to the Congress, a report on the feasibility and desirability of establishing standards of performance or of taking other additional actions under this chapter to require the generators of hazardous waste to reduce the volume or quantity and toxicity of the hazardous waste they generate, and of establishing with respect to hazardous wastes required management practices or other requirements to assure such wastes are managed in ways that minimize present and future risks to human health and the environment. Such report shall include any recommendations for legislative changes which the Administrator determines are feasible and desirable to implement the national policy established by section 6902 of this title.

(s) Extending landfill life and reusing landfilled areas

The Administrator shall conduct detailed, comprehensive studies of methods to extend the useful life of sanitary landfills and to better use sites in which filled or closed landfills are located. Such studies shall address—

(1) methods to reduce the volume of materials before placement in landfills;

(2) more efficient systems for depositing waste in landfills;

(3) methods to enhance the rate of decomposition of solid waste in landfills, in a safe and environmentally acceptable manner;

(4) methane production from closed landfill units;

(5) innovative uses of closed landfill sites, including use for energy production such as solar or wind energy and use for metals recovery;

(6) potential for use of sewage treatment sludge in reclaiming landfilled areas; and

(7) methods to coordinate use of a landfill owned by one municipality by nearby municipalities, and to establish equitable rates for such use, taking into account the need to provide future landfill capacity to replace that so used.

The Administrator is authorized to conduct demonstrations in the areas of study provided in this subsection. The Administrator shall periodically report on the results of such studies, with the first such report not later than October 1, 1986. In carrying out this subsection, the Administrator need not duplicate other studies which have been completed and may rely upon information which has previously been compiled.

(Pub. L. 89–272, title II, §8002, as added Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2831; amended Pub. L. 95–609, §7(t), Nov. 8, 1978, 92 Stat. 3083; H. Res. 549, Mar. 25, 1980; Pub. L. 96–482, §29, Oct. 21, 1980, 94 Stat. 2349; Pub. L. 98–616, title II, §224(c), title VII, §702, Nov. 8, 1984, 98 Stat. 3253, 3289.)

AMENDMENTS

1984—Subsec. (r). Pub. L. 98–616, §224(c), added subsec. (r).

Subsec. (s). Pub. L. 98–616, §702, added subsec. (s).

1980—Subsec. (f). Pub. L. 96–482, §29(1), required publication of report no later than thirty-six months after Oct. 21, 1980, and its submission to Senate Committee on Environment and Public Works and House Committee on Energy and Commerce.

Subsecs. (m) to (q). Pub. L. 96–482, §29(2), added subsecs. (m) to (p) and redesignated former subsec. (m) as (q).

1978—Subsec. (g)(1). Pub. L. 95–609, §7(t)(1), substituted ''shale, liquefaction'' for ''shale liquefaction''.

Subsec. (j)(1). Pub. L. 95–609, §7(t)(2), enacted a provision adding the Secretary of Energy and the Chairman of the Council of Economic Advisors to the Committee.

Subsec. (j)(2). Pub. L. 95–609, §7(t)(3), substituted ''paragraph (1)(D)'' for ''paragraph (2)(D)''.

Subsec. (j)(3). Pub. L. 95–609, §7(t)(4), substituted ''paragraph (1)'' for ''paragraph (2)(D)''.

Subsec. (*l*). Pub. L. 95–609, §7(t)(5), struck out requirement of submission of reports under subsec. (j) of this section.

CHANGE OF NAME

Committee on Interstate and Foreign Commerce of the House of Representatives changed to Committee on Energy and Commerce immediately prior to noon on Jan. 3, 1981, by House Resolution No. 549, Ninety-sixth Congress, Mar. 25, 1980. Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6921, 6981, 6987, 7412 of this title.

§ 6983. Coordination, collection, and dissemination of information

(a) Information

The Administrator shall develop, collect, evaluate, and coordinate information on—

(1) methods and costs of the collection of solid waste;

(2) solid waste management practices, including data on the different management methods and the cost, operation, and maintenance of such methods;

(3) the amounts and percentages of resources (including energy) that can be recovered from solid waste by use of various solid waste management practices and various technologies;

(4) methods available to reduce the amount of solid waste that is generated;

(5) existing and developing technologies for the recovery of energy or materials from solid waste and the costs, reliability, and risks associated with such technologies;

(6) hazardous solid waste, including incidents of damage resulting from the disposal of hazardous solid wastes; inherently and potentially hazardous solid wastes; methods of neutralizing or properly disposing of hazardous solid wastes; facilities that properly dispose of hazardous wastes;

(7) methods of financing resource recovery facilities or, sanitary landfills, or hazardous solid waste treatment facilities, whichever is appropriate for the entity developing such facility or landfill (taking into account the amount of solid waste reasonably expected to be available to such entity);

(8) the availability of markets for the purchase of resources, either materials or energy, recovered from solid waste; and

(9) research and development projects respecting solid waste management.

(b) Library

(1) The Administrator shall establish and maintain a central reference library for (A) the materials collected pursuant to subsection (a) of this section and (B) the actual performance and cost effectiveness records and other data and information with respect to—

(i) the various methods of energy and resource recovery from solid waste,

(ii) the various systems and means of resource conservation,

(iii) the various systems and technologies for collection, transport, storage, treatment, and final disposition of solid waste, and

(iv) other aspects of solid waste and hazardous solid waste management.

Such central reference library shall also contain, but not be limited to, the model codes and model accounting systems developed under this section, the information collected under sub-

section (d) of this section, and, subject to any applicable requirements of confidentiality, information respecting any aspect of solid waste provided by officers and employees of the Environmental Protection Agency which has been acquired by them in the conduct of their functions under this chapter and which may be of value to Federal, State, and local authorities and other persons.

(2) Information in the central reference library shall, to the extent practicable, be collated, analyzed, verified, and published and shall be made available to State and local governments and other persons at reasonable times and subject to such reasonable charges as may be necessary to defray expenses of making such information available.

(c) Model accounting system

In order to assist State and local governments in determining the cost and revenues associated with the collection and disposal of solid waste and with resource recovery operations, the Administrator shall develop and publish a recommended model cost and revenue accounting system applicable to the solid waste management functions of State and local governments. Such system shall be in accordance with generally accepted accounting principles. The Administrator shall periodically, but not less frequently than once every five years, review such accounting system and revise it as necessary.

(d) Model codes

The Administrator is authorized, in cooperation with appropriate State and local agencies, to recommend model codes, ordinances, and statutes, providing for sound solid waste management.

(e) Information programs

(1) The Administrator shall implement a program for the rapid dissemination of information on solid waste management, hazardous waste management, resource conservation, and methods of resource recovery from solid waste, including the results of any relevant research, investigations, experiments, surveys, studies, or other information which may be useful in the implementation of new or improved solid waste management practices and methods and information on any other technical, managerial, financial, or market aspect of resource conservation and recovery facilities.

(2) The Administrator shall develop and implement educational programs to promote citizen understanding of the need for environmentally sound solid waste management practices.

(f) Coordination

In collecting and disseminating information under this section, the Administrator shall coordinate his actions and cooperate to the maximum extent possible with State and local authorities.

(g) Special restriction

Upon request, the full range of alternative technologies, programs or processes deemed feasible to meet the resource recovery or resource conservation needs of a jurisdiction shall be described in such a manner as to provide a sufficient evaluative basis from which the jurisdiction can make its decisions, but no officer or employee of the Environmental Protection Agency shall, in an official capacity, lobby for or otherwise represent an agency position in favor of resource recovery or resource conservation, as a policy alternative for adoption into ordinances, codes, regulations, or law by any State or political subdivision thereof.

(Pub. L. 89–272, title II, § 8003, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2834; amended Pub. L. 95–609, § 7(u), Nov. 8, 1978, 92 Stat. 3083.)

AMENDMENTS

1978—Subsec. (a)(3). Pub. L. 95–609 substituted ''solid waste'' for ''discarded materials''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6981 of this title.

§ 6984. Full-scale demonstration facilities

(a) Authority

The Administrator may enter into contracts with public agencies or authorities or private persons for the construction and operation of a full-scale demonstration facility under this chapter, or provide financial assistance in the form of grants to a full-scale demonstration facility under this chapter only if the Administrator finds that—

(1) such facility or proposed facility will demonstrate at full scale a new or significantly improved technology or process, a practical and significant improvement in solid waste management practice, or the technological feasibility and cost effectiveness of an existing, but unproven technology, process, or practice, and will not duplicate any other Federal, State, local, or commercial facility which has been constructed or with respect to which construction has begun (determined as of the date action is taken by the Administrator under this chapter),

(2) such contract or assistance meets the requirements of section 6981 of this title and meets other applicable requirements of this chapter,

(3) such facility will be able to comply with the guidelines published under section 6907 of this title and with other laws and regulations for the protection of health and the environment,

(4) in the case of a contract for construction or operation, such facility is not likely to be constructed or operated by State, local, or private persons or in the case of an application for financial assistance, such facility is not likely to receive adequate financial assistance from other sources, and

(5) any Federal interest in, or assistance to, such facility will be disposed of or terminated, with appropriate compensation, within such period of time as may be necessary to carry out the basic objectives of this chapter.

(b) Time limitation

No obligation may be made by the Administrator for financial assistance under this subchapter for any full-scale demonstration facility after the date ten years after October 21, 1976. No expenditure of funds for any such full-scale demonstration facility under this subchapter may be made by the Administrator after the date fourteen years after October 21, 1976.

(c) Cost sharing

(1) Wherever practicable, in constructing, operating, or providing financial assistance under this subchapter to a full-scale demonstration facility, the Administrator shall endeavor to enter into agreements and make other arrangements for maximum practicable cost sharing with other Federal, State, and local agencies, private persons, or any combination thereof.

(2) The Administrator shall enter into arrangements, wherever practicable and desirable, to provide monitoring of full-scale solid waste facilities (whether or not constructed or operated under this chapter) for purposes of obtaining information concerning the performance, and other aspects, of such facilities. Where the Administrator provides only monitoring and evaluation instruments or personnel (or both) or funds for such instruments or personnel and provides no other financial assistance to a facility, notwithstanding section 6981(c)(3) of this title, title to any invention made or conceived of in the course of developing, constructing, or operating such facility shall not be required to vest in the United States and patents respecting such invention shall not be required to be issued to the United States.

(d) Prohibition

After October 21, 1976, the Administrator shall not construct or operate any full-scale facility (except by contract with public agencies or authorities or private persons).

(Pub. L. 89–272, title II, § 8004, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2836; amended Pub. L. 95–609, § 7(v), Nov. 8, 1978, 92 Stat. 3084; Pub. L. 98–616, title V, § 502(f), Nov. 8, 1984, 98 Stat. 3276.)

AMENDMENTS

1984—Subsec. (c)(1). Pub. L. 98–616 inserted ''(1)'' before ''Wherever''.

1978—Subsec. (a)(1). Pub. L. 95–609 substituted ''solid waste'' for ''discarded material''.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5920, 6981 of this title.

§ 6985. Special study and demonstration projects on recovery of useful energy and materials

(a) Studies

The Administrator shall conduct studies and develop recommendations for administrative or legislative action on—

(1) means of recovering materials and energy from solid waste, recommended uses of such materials and energy for national or international welfare, including identification of potential markets for such recovered resources, the impact of distribution of such resources on existing markets, and potentials for energy conservation through resource conservation and resource recovery;

(2) actions to reduce waste generation which have been taken voluntarily or in response to governmental action, and those which practically could be taken in the future, and the economic, social, and environmental consequences of such actions;

(3) methods of collection, separation, and containerization which will encourage efficient utilization of facilities and contribute to more effective programs of reduction, reuse, or disposal of wastes;

(4) the use of Federal procurement to develop market demand for recovered resources;

(5) recommended incentives (including Federal grants, loans, and other assistance) and disincentives to accelerate the reclamation or recycling of materials from solid wastes, with special emphasis on motor vehicle hulks;

(6) the effect of existing public policies, including subsidies and economic incentives and disincentives, percentage depletion allowances, capital gains treatment and other tax incentives and disincentives, upon the recycling and reuse of materials, and the likely effect of the modification or elimination of such incentives and disincentives upon the reuse, recycling and conservation of such materials;

(7) the necessity and method of imposing disposal or other charges on packaging, containers, vehicles, and other manufactured goods, which charges would reflect the cost of final disposal, the value of recoverable components of the item, and any social costs associated with nonrecycling or uncontrolled disposal of such items; and

(8) the legal constraints and institutional barriers to the acquisition of land needed for solid waste management, including land for facilities and disposal sites;

(9) in consultation with the Secretary of Agriculture, agricultural waste management problems and practices, the extent of reuse and recovery of resources in such wastes, the prospects for improvement, Federal, State, and local regulations governing such practices, and the economic, social, and environmental consequences of such practices; and

(10) in consultation with the Secretary of the Interior, mining waste management problems, and practices, including an assessment of existing authorities, technologies, and economics, and the environmental and public health consequences of such practices.

(b) Demonstration

The Administrator is also authorized to carry out demonstration projects to test and demonstrate methods and techniques developed pursuant to subsection (a) of this section.

(c) Application of other sections

Section 6981(b) and (c) of this title shall be applicable to investigations, studies, and projects carried out under this section.

(Pub. L. 89–272, title II, § 8005, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2837.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3253a of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6986. Grants for resource recovery systems and improved solid waste disposal facilities

(a) Authority

The Administrator is authorized to make grants pursuant to this section to any State, municipal, or interstate or intermunicipal agency for the demonstration of resource recovery systems or for the construction of new or improved solid waste disposal facilities.

(b) Conditions

(1) Any grant under this section for the demonstration of a resource recovery system may be made only if it (A) is consistent with any plans which meet the requirements of subchapter IV of this chapter; (B) is consistent with the guidelines recommended pursuant to section 6907 of this title; (C) is designed to provide area-wide resource recovery systems consistent with the purposes of this chapter, as determined by the Administrator, pursuant to regulations promulgated under subsection (d) of this section; and (D) provides an equitable system for distributing the costs associated with construction, operation, and maintenance of any resource recovery system among the users of such system.

(2) The Federal share for any project to which paragraph (1) applies shall not be more than 75 percent.

(c) Limitations

(1) A grant under this section for the construction of a new or improved solid waste disposal facility may be made only if—

(A) a State or interstate plan for solid waste disposal has been adopted which applies to the area involved, and the facility to be constructed (i) is consistent with such plan, (ii) is included in a comprehensive plan for the area involved which is satisfactory to the Administrator for the purposes of this chapter, and (iii) is consistent with the guidelines recommended under section 6907 of this title, and

(B) the project advances the state of the art by applying new and improved techniques in reducing the environmental impact of solid waste disposal, in achieving recovery of energy or resources, or in recycling useful materials.

(2) The Federal share for any project to which paragraph (1) applies shall be not more than 50 percent in the case of a project serving an area which includes only one municipality, and not more than 75 percent in any other case.

(d) Regulations

(1) The Administrator shall promulgate regulations establishing a procedure for awarding grants under this section which—

(A) provides that projects will be carried out in communities of varying sizes, under such conditions as will assist in solving the community waste problems of urban-industrial centers, metropolitan regions, and rural areas, under representative geographic and environmental conditions; and

(B) provides deadlines for submission of, and action on, grant requests.

(2) In taking action on applications for grants under this section, consideration shall be given by the Administrator (A) to the public benefits to be derived by the construction and the propriety of Federal aid in making such grant; (B) to the extent applicable, to the economic and commercial viability of the project (including contractual arrangements with the private sector to market any resources recovered); (C) to the potential of such project for general application to community solid waste disposal problems; and (D) to the use by the applicant of comprehensive regional or metropolitan area planning.

(e) Additional limitations

A grant under this section—

(1) may be made only in the amount of the Federal share of (A) the estimated total design and construction costs, plus (B) in the case of a grant to which subsection (b)(1) of this section applies, the first-year operation and maintenance costs;

(2) may not be provided for land acquisition or (except as otherwise provided in paragraph (1)(B)) for operating or maintenance costs;

(3) may not be made until the applicant has made provision satisfactory to the Administrator for proper and efficient operation and maintenance of the project (subject to paragraph (1)(B)); and

(4) may be made subject to such conditions and requirements, in addition to those provided in this section, as the Administrator may require to properly carry out his functions pursuant to this chapter.

For purposes of paragraph (1), the non-Federal share may be in any form, including, but not limited to, lands or interests therein needed for the project or personal property or services, the value of which shall be determined by the Administrator.

(f) Single State

(1) Not more than 15 percent of the total of funds authorized to be appropriated for any fiscal year to carry out this section shall be granted under this section for projects in any one State.

(2) The Administrator shall prescribe by regulation the manner in which this subsection shall apply to a grant under this section for a project in an area which includes all or part of more than one State.

(Pub. L. 89–272, title II, § 8006, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2838.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3254b of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Administrator or other official of Environmental Protection Agency under this chapter to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, see note set out under section 6903 of this title.

§ 6987. Authorization of appropriations

There are authorized to be appropriated not to exceed $35,000,000 for the fiscal year 1978 to carry out the purposes of this subchapter (except for section 6982 of this title).

(Pub. L. 89–272, title II, § 8007, as added Pub. L. 94–580, § 2, Oct. 21, 1976, 90 Stat. 2839.)

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 3259 of this title, prior to the general amendment of the Solid Waste Disposal Act by Pub. L. 94–580.

SUBCHAPTER IX—REGULATION OF UNDERGROUND STORAGE TANKS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6916, 7589, 9601, 9607, 9614 of this title.

§ 6991. Definitions and exemptions

For the purposes of this subchapter—

(1) The term ''underground storage tank'' means any one or combination of tanks (including underground pipes connected thereto) which is used to contain an accumulation of regulated substances, and the volume of which (including the volume of the underground pipes connected thereto) is 10 per centum or more beneath the surface of the ground. Such term does not include any—

(A) farm or residential tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes,

(B) tank used for storing heating oil for consumptive use on the premises where stored,

(C) septic tank,

(D) pipeline facility (including gathering lines)—

(i) which is regulated under chapter 601 of title 49, or

(ii) which is an intrastate pipeline facility regulated under State laws as provided in chapter 601 of title 49,

and which is determined by the Secretary to be connected to a pipeline or to be operated or intended to be capable of operating at pipeline pressure or as an integral part of a pipeline,

(E) surface impoundment, pit, pond, or lagoon,

(F) storm water or waste water collection system,

(G) flow-through process tank,

(H) liquid trap or associated gathering lines directly related to oil or gas production and gathering operations, or

(I) storage tank situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

The term ''underground storage tank'' shall not include any pipes connected to any tank which is described in subparagraphs (A) through (I).

(2) The term ''regulated substance'' means—

(A) any substance defined in section 9601(14) of this title (but not including any substance regulated as a hazardous waste under subchapter III of this chapter), and

(B) petroleum.

(3) The term ''owner'' means—

(A) in the case of an underground storage tank in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank used for the storage, use, or dispensing of regulated sustances,[1] and

(B) in the case of any underground storage tank in use before November 8, 1984, but no longer in use on November 8, 1984, any person who owned such tank immediately before the discontinuation of its use.

(4) The term ''operator'' means any person in control of, or having responsibility for, the daily operation of the underground storage tank.

(5) The term ''release'' means any spilling, leaking, emitting, discharging, escaping, leaching, or disposing from an underground storage tank into ground water, surface water or subsurface soils.

(6) The term ''person'' has the same meaning as provided in section 6903(15) of this title, except that such term includes a consortium, a joint venture, and a commercial entity, and the United States Government.

(7) The term ''nonoperational storage tank'' means any underground storage tank in which regulated substances will not be deposited or from which regulated substances will not be dispensed after November 8, 1984.

(8) The term ''petroleum'' means petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

(Pub. L. 89–272, title II, § 9001, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3277; amended Pub. L. 99–499, title II, § 205(a), Oct. 17, 1986, 100 Stat. 1696; Pub. L. 102–508, title III, § 302, Oct. 24, 1992, 106 Stat. 3307; Pub. L. 103–429, § 7(d), Oct. 31, 1994, 108 Stat. 4389.)

AMENDMENTS

1994—Par. (1)(D). Pub. L. 103–429 amended subpar. (D) generally. Prior to amendment, subpar. (D) read as follows: ''pipeline facility (including gathering lines)—

''(i) which is regulated under the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1671 et seq.),

''(ii) which is regulated under the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2001 et seq.), or

[1] So in original. Probably should be ''substances,''.

''(iii) which is an intrastate pipeline facility regulated under State laws as provided in the provisions of law referred to in clause (i) or (ii) of this subparagraph,

and which is determined by the Secretary to be connected to a pipeline or to be operated or intended to be capable of operating at pipeline pressure or as an integral part of a pipeline,''.

1992—Par. (1)(D). Pub. L. 102–508 amended subpar. (D) generally. Prior to amendment, subpar. (D) read as follows: ''pipeline facility (including gathering lines) regulated under—

''(i) the Natural Gas Pipeline Safety Act of 1968,

''(ii) the Hazardous Liquid Pipeline Safety Act of 1979, or

''(iii) which is an intrastate pipeline facility regulated under State laws comparable to the provisions of law referred to in clause (i) or (ii) of this subparagraph,''.

1986—Par. (2)(B). Pub. L. 99–499 struck out '', including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute)''. See par. (8).

Par. (8). Pub. L. 99–499 added par. (8).

ABOVEGROUND STORAGE TANK GRANT PROGRAM

Pub. L. 106–554, §1(a)(4) [div. B, title XII, §1201], Dec. 21, 2000, 114 Stat. 2763, 2763A–313, provided that:

''(a) DEFINITIONS.—In this provision:

''(1) ABOVEGROUND STORAGE TANK.—The term 'aboveground storage tank' means any tank or combination of tanks (including any connected pipe)—

''(A) that is used to contain an accumulation of regulated substances; and

''(B) the volume of which (including the volume of any connected pipe) is located wholly above the surface of the ground.

''(2) ADMINISTRATOR.—The term 'Administrator' means the Administrator of the Environmental Protection Agency.

''(3) DENALI COMMISSION.—The term 'Denali Commission' means the commission established by section 303(a) of the Denali Commission Act of 1998 [Pub. L. 105–277, div. C, title III] (42 U.S.C. 3121 note).

''(4) FEDERAL ENVIRONMENTAL LAW.—The term 'Federal environmental law' means—

''(A) the Oil Pollution Control Act of 1990 (33 U.S.C. 2701 et seq.);

''(B) the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.);

''(C) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);

''(D) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.); or

''(E) any other Federal law that is applicable to the release into the environment of a regulated substance, as determined by the Administrator.

''(5) NATIVE VILLAGE.—The term 'Native village' has the meaning given the term in section 11(b) in Public Law 92–203 (85 Stat. 688) [43 U.S.C. 1610(b)].

''(6) PROGRAM.—The term 'program' means the Aboveground Storage Tank Grant Program established by subsection (b)(1).

''(7) REGULATED SUBSTANCE.—The term 'regulated substance' has the meaning given the term in section 9001 of the Solid Waste Disposal Act (42 U.S.C. 6991).

''(8) STATE.—The term 'State' means the State of Alaska.

''(b) ESTABLISHMENT.—

''(1) IN GENERAL.—There is established a grant program to be known as the 'Aboveground Storage Tank Grant Program'

''(2) GRANTS.—Under the program, the Administrator shall award a grant to—

''(A) the State, on behalf of a Native village; or

''(B) the Denali Commission.

''(c) USE OF GRANTS.—The State or the Denali Commission shall use the funds of a grant under subsection (b) to repair, upgrade, or replace one or more aboveground storage tanks that—

''(1) leaks or poses an imminent threat of leaking, as certified by the Administrator, the Commandant of the Coast Guard, or any other appropriate Federal or State agency (as determined by the Administrator); and

''(2) is located in a Native village—

''(A) the median household income of which is less than 80 percent of the median household income in the State;

''(B) that is located—

''(i) within the boundaries of—

''(I) a unit of the National Park System;

''(II) a unit of the National Wildlife Refuge System; or

''(III) a National Forest; or

''(ii) on public land under the administrative jurisdiction of the Bureau of Land Management; or

''(C) that receives payments from the Federal Government under chapter 69 of title 31, United States Code (commonly known as 'payments in lieu of taxes').

''(d) REPORTS.—Not later than 1 year after the date on which the State or the Denali Commission receives a grant under subsection (c), and annually thereafter, the State or the Denali Commission, as the case may be, shall submit a report describing each project completed with grant funds and any projects planned for the following year, to—

''(1) the Administrator;

''(2) the Committee on Resources of the House of Representatives;

''(3) the Committee on Environment and Public Works of the Senate;

''(4) the Committee on Appropriations of the House of Representatives; and

''(5) the Committee on Appropriations of the Senate.

''(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this Act [probably means this section], to remain available until expended—

''(1) $20,000,000 for fiscal year 2001; and

''(2) such sums as are necessary for each fiscal year thereafter.''

[For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.]

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6991b, 6991c, 6991h of this title.

§ 6991a. Notification

(a) Underground storage tanks

(1) Within 18 months after November 8, 1984, each owner of an underground storage tank shall notify the State or local agency or department designated pursuant to subsection (b)(1) of this section of the existence of such tank, specifying the age, size, type, location, and uses of such tank.

(2)(A) For each underground storage tank taken out of operation after January 1, 1974, the owner of such tank shall, within eighteen months after November 8, 1984, notify the State or local agency, or department designated pursuant to subsection (b)(1) of this section of the existence of such tanks (unless the owner knows the tank subsequently was removed from the

ground). The owner of a tank taken out of operation on or before January 1, 1974, shall not be required to notify the State or local agency under this subsection.

(B) Notice under subparagraph (A) shall specify, to the extent known to the owner—

(i) the date the tank was taken out of operation,

(ii) the age of the tank on the date taken out of operation,

(iii) the size, type and location of the tank, and

(iv) the type and quantity of substances left stored in such tank on the date taken out of operation.

(3) Any owner which brings into use an underground storage tank after the initial notification period specified under paragraph (1), shall notify the designated State or local agency or department within thirty days of the existence of such tank, specifying the age, size, type, location and uses of such tank.

(4) Paragraphs (1) through (3) of this subsection shall not apply to tanks for which notice was given pursuant to section 9603(c) of this title.

(5) Beginning thirty days after the Administrator prescribes the form of notice pursuant to subsection (b)(2) of this section and for eighteen months thereafter, any person who deposits regulated substances in an underground storage tank shall reasonably notify the owner or operator of such tank of the owner's notification requirements pursuant to this subsection.

(6) Beginning thirty days after the Administrator issues new tank performance standards pursuant to section 6991b(c) of this title, any person who sells a tank intended to be used as an underground storage tank shall notify the purchaser of such tank of the owner's notification requirements pursuant to this subsection.

(b) Agency designation

(1) Within one hundred and eighty days after November 8, 1984, the Governors of each State shall designate the appropriate State agency or department or local agencies or departments to receive the notifications under subsection (a)(1), (2), or (3) of this section.

(2) Within twelve months after November 8, 1984, the Administrator, in consultation with State and local officials designated pursuant to subsection (b)(1) of this section, and after notice and opportunity for public comment, shall prescribe the form of the notice and the information to be included in the notifications under subsection (a)(1), (2), or (3) of this section. In prescribing the form of such notice, the Administrator shall take into account the effect on small businesses and other owners and operators.

(c) State inventories

Each State shall make 2 separate inventories of all underground storage tanks in such State containing regulated substances. One inventory shall be made with respect to petroleum and one with respect to other regulated substances. In making such inventories, the State shall utilize and aggregate the data in the notification forms submitted pursuant to subsections (a) and (b) of this section. Each State shall submit such aggregated data to the Administrator not later than 270 days after October 17, 1986.

(Pub. L. 89–272, title II, § 9002, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3278; amended Pub. L. 99–499, title II, § 205(b), Oct. 17, 1986, 100 Stat. 1696.)

AMENDMENTS

1986—Subsec. (c). Pub. L. 99–499 added subsec. (c).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6991c, 6991e of this title.

§ 6991b. Release detection, prevention, and correction regulations

(a) Regulations

The Administrator, after notice and opportunity for public comment, and at least three months before the effective dates specified in subsection (f) of this section, shall promulgate release detection, prevention, and correction regulations applicable to all owners and operators of underground storage tanks, as may be necessary to protect human health and the environment.

(b) Distinctions in regulations

In promulgating regulations under this section, the Administrator may distinguish between types, classes, and ages of underground storage tanks. In making such distinctions, the Administrator may take into consideration factors, including, but not limited to: location of the tanks, soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the technical capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the tank is fabricated.

(c) Requirements

The regulations promulgated pursuant to this section shall include, but need not be limited to, the following requirements respecting all underground storage tanks—

(1) requirements for maintaining a leak detection system, an inventory control system together with tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment;

(2) requirements for maintaining records of any monitoring or leak detection system or inventory control system or tank testing or comparable system;

(3) requirements for reporting of releases and corrective action taken in response to a release from an underground storage tank;

(4) requirements for taking corrective action in response to a release from an underground storage tank;

(5) requirements for the closure of tanks to prevent future releases of regulated substances into the environment; and

(6) requirements for maintaining evidence of financial responsibility for taking corrective

action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank.

(d) Financial responsibility

(1) Financial responsibility required by this subsection may be established in accordance with regulations promulgated by the Administrator by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, qualification as a self-insurer or any other method satisfactory to the Administrator. In promulgating requirements under this subsection, the Administrator is authorized to specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing such evidence of financial responsibility in order to effectuate the purposes of this subchapter.

(2) In any case where the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the Federal Bankruptcy Code or where with reasonable diligence jurisdiction in any State court of the Federal courts cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing such evidence of financial responsibility. In the case of any action pursuant to this paragraph such guarantor shall be entitled to invoke all rights and defenses which would have been available to the owner or operator if any action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

(3) The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this section. Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed to diminish the liability of any person under section 9607 or 9611 of this title or other applicable law.

(4) For the purpose of this subsection, the term ''guarantor'' means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

(5)(A) The Administrator, in promulgating financial responsibility regulations under this section, may establish an amount of coverage for particular classes or categories of underground storage tanks containing petroleum which shall satisfy such regulations and which shall not be less than $1,000,000 for each occurrence with an appropriate aggregate requirement.

(B) The Administrator may set amounts lower than the amounts required by subparagraph (A) of this paragraph for underground storage tanks containing petroleum which are at facilities not engaged in petroleum production, refining, or marketing and which are not used to handle substantial quantities of petroleum.

(C) In establishing classes and categories for purposes of this paragraph, the Administrator may consider the following factors:

(i) The size, type, location, storage, and handling capacity of underground storage tanks in the class or category and the volume of petroleum handled by such tanks.

(ii) The likelihood of release and the potential extent of damage from any release from underground storage tanks in the class or category.

(iii) The economic impact of the limits on the owners and operators of each such class or category, particularly relating to the small business segment of the petroleum marketing industry.

(iv) The availability of methods of financial responsibility in amounts greater than the amount established by this paragraph.

(v) Such other factors as the Administrator deems pertinent.

(D) The Administrator may suspend enforcement of the financial responsibility requirements for a particular class or category of underground storage tanks or in a particular State, if the Administrator makes a determination that methods of financial responsibility satisfying the requirements of this subsection are not generally available for underground storage tanks in that class or category, and—

(i) steps are being taken to form a risk retention group for such class of tanks; or

(ii) such State is taking steps to establish a fund pursuant to section 6991c(c)(1) of this title to be submitted as evidence of financial responsibility.

A suspension by the Administrator pursuant to this paragraph shall extend for a period not to exceed 180 days. A determination to suspend may be made with respect to the same class or category or for the same State at the end of such period, but only if substantial progress has been made in establishing a risk retention group, or the owners or operators in the class or category demonstrate, and the Administrator finds, that the formation of such a group is not possible and that the State is unable or unwilling to establish such a fund pursuant to clause (ii).

(e) New tank performance standards

The Administrator shall, not later than three months prior to the effective date specified in subsection (f) of this section, issue performance standards for underground storage tanks brought into use on or after the effective date of such standards. The performance standards for new underground storage tanks shall include, but need not be limited to, design, construction, installation, release detection, and compatibility standards.

(f) Effective dates

(1) Regulations issued pursuant to subsection [1] (c) and (d) of this section, and standards issued

[1] So in original. Probably should be ''subsections''.

pursuant to subsection (e) of this section, for underground storage tanks containing regulated substances defined in section 6991(2)(B) of this title (petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure) shall be effective not later than thirty months after November 8, 1984.

(2) Standards issued pursuant to subsection (e) of this section (entitled ''New Tank Performance Standards'') for underground storage tanks containing regulated substances defined in section 6991(2)(A) of this title shall be effective not later than thirty-six months after November 8, 1984.

(3) Regulations issued pursuant to subsection (c) of this section (entitled ''Requirements'') and standards issued pursuant to subsection (d) of this section (entitled ''Financial Responsibility'') for underground storage tanks containing regulated substances defined in section 6991(2)(A) of this title shall be effective not later than forty-eight months after November 8, 1984.

(g) Interim prohibition

(1) Until the effective date of the standards promulgated by the Administrator under subsection (e) of this section and after one hundred and eighty days after November 8, 1984, no person may install an underground storage tank for the purpose of storing regulated substances unless such tank (whether of single or double wall construction)—

(A) will prevent releases due to corrosion or structural failure for the operational life of the tank;

(B) is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance; and

(C) the material used in the construction or lining of the tank is compatible with the substance to be stored.

(2) Notwithstanding paragraph (1), if soil tests conducted in accordance with ASTM Standard G57–78, or another standard approved by the Administrator, show that soil resistivity in an installation location is 12,000 ohm/cm or more (unless a more stringent standard is prescribed by the Administrator by rule), a storage tank without corrosion protection may be installed in that location during the period referred to in paragraph (1).

(h) EPA response program for petroleum

(1) Before regulations

Before the effective date of regulations under subsection (c) of this section, the Administrator (or a State pursuant to paragraph (7)) is authorized to—

(A) require the owner or operator of an underground storage tank to undertake corrective action with respect to any release of petroleum when the Administrator (or the State) determines that such corrective action will be done properly and promptly by the owner or operator of the underground storage tank from which the release occurs; or

(B) undertake corrective action with respect to any release of petroleum into the environment from an underground storage tank if such action is necessary, in the judgment of the Administrator (or the State), to protect human health and the environment.

The corrective action undertaken or required under this paragraph shall be such as may be necessary to protect human health and the environment. The Administrator shall use funds in the Leaking Underground Storage Tank Trust Fund for payment of costs incurred for corrective action under subparagraph (B), enforcement action under subparagraph (A), and cost recovery under paragraph (6) of this subsection. Subject to the priority requirements of paragraph (3), the Administrator (or the State) shall give priority in undertaking such actions under subparagraph (B) to cases where the Administrator (or the State) cannot identify a solvent owner or operator of the tank who will undertake action properly.

(2) After regulations

Following the effective date of regulations under subsection (c) of this section, all actions or orders of the Administrator (or a State pursuant to paragraph (7)) described in paragraph (1) of this subsection shall be in conformity with such regulations. Following such effective date, the Administrator (or the State) may undertake corrective action with respect to any release of petroleum into the environment from an underground storage tank only if such action is necessary, in the judgment of the Administrator (or the State), to protect human health and the environment and one or more of the following situations exists:

(A) No person can be found, within 90 days or such shorter period as may be necessary to protect human health and the environment, who is—

(i) an owner or operator of the tank concerned,

(ii) subject to such corrective action regulations, and

(iii) capable of carrying out such corrective action properly.

(B) A situation exists which requires prompt action by the Administrator (or the State) under this paragraph to protect human health and the environment.

(C) Corrective action costs at a facility exceed the amount of coverage required by the Administrator pursuant to the provisions of subsections (c) and (d)(5) of this section and, considering the class or category of underground storage tank from which the release occurred, expenditures from the Leaking Underground Storage Tank Trust Fund are necessary to assure an effective corrective action.

(D) The owner or operator of the tank has failed or refused to comply with an order of the Administrator under this subsection or section 6991e of this title or with the order of a State under this subsection to comply with the corrective action regulations.

(3) Priority of corrective actions

The Administrator (or a State pursuant to paragraph (7)) shall give priority in under-

taking corrective actions under this subsection, and in issuing orders requiring owners or operators to undertake such actions, to releases of petroleum from underground storage tanks which pose the greatest threat to human health and the environment.

(4) Corrective action orders

The Administrator is authorized to issue orders to the owner or operator of an underground storage tank to carry out subparagraph (A) of paragraph (1) or to carry out regulations issued under subsection (c)(4) of this section. A State acting pursuant to paragraph (7) of this subsection is authorized to carry out subparagraph (A) of paragraph (1) only until the State's program is approved by the Administrator under section 6991c of this title. Such orders shall be issued and enforced in the same manner and subject to the same requirements as orders under section 6991e of this title.

(5) Allowable corrective actions

The corrective actions undertaken by the Administrator (or a State pursuant to paragraph (7)) under paragraph (1) or (2) may include temporary or permanent relocation of residents and alternative household water supplies. In connection with the performance of any corrective action under paragraph (1) or (2), the Administrator may undertake an exposure assessment as defined in paragraph (10) of this subsection or provide for such an assessment in a cooperative agreement with a State pursuant to paragraph (7) of this subsection. The costs of any such assessment may be treated as corrective action for purposes of paragraph (6), relating to cost recovery.

(6) Recovery of costs

(A) In general

Whenever costs have been incurred by the Administrator, or by a State pursuant to paragraph (7), for undertaking corrective action or enforcement action with respect to the release of petroleum from an underground storage tank, the owner or operator of such tank shall be liable to the Administrator or the State for such costs. The liability under this paragraph shall be construed to be the standard of liability which obtains under section 1321 of title 33.

(B) Recovery

In determining the equities for seeking the recovery of costs under subparagraph (A), the Administrator (or a State pursuant to paragraph (7) of this subsection) may consider the amount of financial responsibility required to be maintained under subsections (c) and (d)(5) of this section and the factors considered in establishing such amount under subsection (d)(5) of this section.

(C) Effect on liability

(i) No transfers of liability

No indemnification, hold harmless, or similar agreement or conveyance shall be effective to transfer from the owner or operator of any underground storage tank or from any person who may be liable for a release or threat of release under this subsection, to any other person the liability imposed under this subsection. Nothing in this subsection shall bar any agreement to insure, hold harmless, or indemnify a party to such agreement for any liability under this section.

(ii) No bar to cause of action

Nothing in this subsection, including the provisions of clause (i) of this subparagraph, shall bar a cause of action that an owner or operator or any other person subject to liability under this section, or a guarantor, has or would have, by reason of subrogation or otherwise against any person.

(D) Facility

For purposes of this paragraph, the term ''facility'' means, with respect to any owner or operator, all underground storage tanks used for the storage of petroleum which are owned or operated by such owner or operator and located on a single parcel of property (or on any contiguous or adjacent property).

(7) State authorities

(A) General

A State may exercise the authorities in paragraphs (1) and (2) of this subsection, subject to the terms and conditions of paragraphs (3), (5), (9), (10), and (11), and including the authorities of paragraphs (4), (6), and (8) of this subsection if—

(i) the Administrator determines that the State has the capabilities to carry out effective corrective actions and enforcement activities; and

(ii) the Administrator enters into a cooperative agreement with the State setting out the actions to be undertaken by the State.

The Administrator may provide funds from the Leaking Underground Storage Tank Trust Fund for the reasonable costs of the State's actions under the cooperative agreement.

(B) Cost share

Following the effective date of the regulations under subsection (c) of this section, the State shall pay 10 per centum of the cost of corrective actions undertaken either by the Administrator or by the State under a cooperative agreement, except that the Administrator may take corrective action at a facility where immediate action is necessary to respond to an imminent and substantial endangerment to human health or the environment if the State fails to pay the cost share.

(8) Emergency procurement powers

Notwithstanding any other provision of law, the Administrator may authorize the use of such emergency procurement powers as he deems necessary.

(9) Definition of owner or operator

(A) In general

As used in this subchapter, the terms ''owner'' and ''operator'' do not include a

person that, without participating in the management of an underground storage tank and otherwise not engaged in petroleum production, refining, or marketing, holds indicia of ownership primarily to protect the person's security interest.

(B) Security interest holders

The provisions regarding holders of security interests in subparagraphs (E) through (G) of section 9601(20) of this title and the provisions regarding fiduciaries at section 9607(n) of this title shall apply in determining a person's liability as an owner or operator of an underground storage tank for the purposes of this subchapter.

(C) Effect on rule

Nothing in subparagraph (B) shall be construed as modifying or affecting the final rule issued by the Administrator on September 7, 1995 (60 Fed. Reg. 46,692), or as limiting the authority of the Administrator to amend the final rule, in accordance with applicable law. The final rule in effect on September 30, 1996, shall prevail over any inconsistent provision regarding holders of security interests in subparagraphs (E) through (G) of section 9601(20) of this title or any inconsistent provision regarding fiduciaries in section 9607(n) of this title. Any amendment to the final rule shall be consistent with the provisions regarding holders of security interests in subparagraphs (E) through (G) of section 9601(20) of this title and the provisions regarding fiduciaries in section 9607(n) of this title. This subparagraph does not preclude judicial review of any amendment of the final rule made after September 30, 1996.

(10) Definition of exposure assessment

As used in this subsection, the term ''exposure assessment'' means an assessment to determine the extent of exposure of, or potential for exposure of, individuals to petroleum from a release from an underground storage tank based on such factors as the nature and extent of contamination and the existence of or potential for pathways of human exposure (including ground or surface water contamination, air emissions, and food chain contamination), the size of the community within the likely pathways of exposure, and the comparison of expected human exposure levels to the short-term and long-term health effects associated with identified contaminants and any available recommended exposure or tolerance limits for such contaminants. Such assessment shall not delay corrective action to abate immediate hazards or reduce exposure.

(11) Facilities without financial responsibility

At any facility where the owner or operator has failed to maintain evidence of financial responsibility in amounts at least equal to the amounts established by subsection (d)(5)(A) of this section (or a lesser amount if such amount is applicable to such facility as a result of subsection (d)(5)(B) of this section) for whatever reason the Administrator shall expend no monies from the Leaking Underground Storage Tank Trust Fund to clean up releases at such facility pursuant to the provisions of paragraph (1) or (2) of this subsection. At such facilities the Administrator shall use the authorities provided in subparagraph (A) of paragraph (1) and paragraph (4) of this subsection and section 6991e of this title to order corrective action to clean up such releases. States acting pursuant to paragraph (7) of this subsection shall use the authorities provided in subparagraph (A) of paragraph (1) and paragraph (4) of this subsection to order corrective action to clean up such releases. Notwithstanding the provisions of this paragraph, the Administrator may use monies from the fund to take the corrective actions authorized by paragraph (5) of this subsection to protect human health at such facilities and shall seek full recovery of the costs of all such actions pursuant to the provisions of paragraph (6)(A) of this subsection and without consideration of the factors in paragraph (6)(B) of this subsection. Nothing in this paragraph shall prevent the Administrator (or a State pursuant to paragraph (7) of this subsection) from taking corrective action at a facility where there is no solvent owner or operator or where immediate action is necessary to respond to an imminent and substantial endangerment of human health or the environment.

(Pub. L. 89–272, title II, §9003, as added Pub. L. 98–616, title VI, §601(a), Nov. 8, 1984, 98 Stat. 3279; amended Pub. L. 99–499, title II, §205(c), (d), Oct. 17, 1986, 100 Stat. 1697, 1698; Pub. L. 104–208, div. A, title II, §2503, Sept. 30, 1996, 110 Stat. 3009–468.)

REFERENCES IN TEXT

The Federal Bankruptcy Code, referred to in subsec. (d)(2), probably means a reference to Title 11, Bankruptcy.

AMENDMENTS

1996—Subsec. (h)(9). Pub. L. 104–208 added par. (9) and struck out heading and text of former par. (9). Text read as follows: ''As used in this subsection, the term 'owner' does not include any person who, without participating in the management of an underground storage tank and otherwise not engaged in petroleum production, refining, and marketing, holds indicia of ownership primarily to protect the owner's security interest in the tank.''

1986—Subsec. (c)(6). Pub. L. 99–499, §205(c)(1), added par. (6).

Subsec. (d)(1). Pub. L. 99–499, §205(c)(3), which directed that par. (1) be amended by ''striking out 'or' after 'credit,' and by striking out the period at the end thereof and inserting in lieu thereof the following: 'or any other method satisfactory to the Administrator.' '', was executed by striking the period and making insertion at end of first sentence, rather than at end of par. (1), as the probable intent of Congress, because an earlier version of the amending legislation had provided that such amendment be made to first sentence.

Pub. L. 99–499, §205(c)(2), redesignated par. (2) as (1) and struck out former par. (1) which read as follows: ''As he deems necessary or desirable, the Administrator shall promulgate regulations containing requirements for maintaining evidence of financial responsibility as he deems necessary and desirable for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank.''

Subsec. (d)(2) to (5). Pub. L. 99–499, §205(c)(2), (4), added par. (5) and redesignated pars. (3) to (5) as (2) to (4), respectively. Former par. (2) redesignated (1).

Subsec. (h). Pub. L. 99–499, § 205(d), added subsec. (h).

EFFECTIVE DATE OF 1996 AMENDMENT

Section 2505 of div. A of Pub. L. 104–208 provided that: ''The amendments made by this subtitle [subtitle E (§§ 2501–2505) of title II of div. A of Pub. L. 104–208, amending this section and sections 9601 and 9607 of this title] shall be applicable with respect to any claim that has not been finally adjudicated as of the date of enactment of this Act [Sept. 30, 1996].''

ASSISTANCE AGREEMENTS WITH INDIAN TRIBES

Pub. L. 105–276, title III, Oct. 21, 1998, 112 Stat. 2497, provided in part: ''That hereafter, the Administrator is authorized to enter into assistance agreements with Federally recognized Indian tribes on such terms and conditions as the Administrator deems appropriate for the same purposes as are set forth in section 9003(h)(7) of the Resource Conservation and Recovery Act [probably means section 9003(h)(7) of Pub. L. 89–272, 42 U.S.C. 6991b(h)(7)].''

POLLUTION LIABILITY INSURANCE

Section 205(h) of Pub. L. 99–499 provided that:

''(1) STUDY.—The Comptroller General shall conduct a study of the availability of pollution liability insurance, leak insurance, and contamination insurance for owners and operators of petroleum storage and distribution facilities. The study shall assess the current and projected extent to which private insurance can contribute to the financial responsibility of owners and operators of underground storage tanks and the ability of owners and operators of underground storage tanks to maintain financial responsibility through other methods. The study shall consider the experience of owners and operators of marine vessels in getting insurance for their liabilities under the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.] and the operation of the Water Quality Insurance Syndicate.

''(2) REPORT.—The Comptroller General shall report the findings under this subsection to the Congress within 15 months after the enactment of this subsection [Oct. 17, 1986]. Such report shall include recommendations for legislative or administrative changes that will enable owners and operators of underground storage tanks to maintain financial responsibility sufficient to provide all clean-up costs and damages that may result from reasonably foreseeable releases and events.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6924, 6991a, 6991c, 6991d, 6991e, 9601 of this title; title 26 section 9508.

§ 6991c. Approval of State programs

(a) Elements of State program

Beginning 30 months after November 8, 1984, any State may, submit an underground storage tank release detection, prevention, and correction program for review and approval by the Administrator. The program may cover tanks used to store regulated substances referred to in[1] 6991(2)(A) or (B) or both of this title. A State program may be approved by the Administrator under this section only if the State demonstrates that the State program includes the following requirements and standards and provides for adequate enforcement of compliance with such requirements and standards—

(1) requirements for maintaining a leak detection system, an inventory control system together with tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment;

(2) requirements for maintaining records of any monitoring or leak detection system or inventory control system or tank testing system;

(3) requirements for reporting of any releases and corrective action taken in response to a release from an underground storage tank;

(4) requirements for taking corrective action in response to a release from an underground storage tank;

(5) requirements for the closure of tanks to prevent future releases of regulated substances into the environment;

(6) requirements for maintaining evidence of financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank;

(7) standards of performance for new underground storage tanks; and

(8) requirements—

(A) for notifying the appropriate State agency or department (or local agency or department) designated according to section 6991a(b)(1) of this title of the existence of any operational or non-operational underground storage tank; and

(B) for providing the information required on the form issued pursuant to section 6991a(b)(2) of this title.

(b) Federal standards

(1) A State program submitted under this section may be approved only if the requirements under paragraphs (1) through (7) of subsection (a) of this section are no less stringent than the corresponding requirements standards promulgated by the Administrator pursuant to section 6991b(a) of this title.

(2)(A) A State program may be approved without regard to whether or not the requirements referred to in paragraphs (1), (2), (3), and (5) of subsection (a) of this section are less stringent than the corresponding standards under section 6991b(a) of this title during the one-year period commencing on the date of promulgation of regulations under section 6991b(a) of this title if State regulatory action but no State legislative action is required in order to adopt a State program.

(B) If such State legislative action is required, the State program may be approved without regard to whether or not the requirements referred to in paragraphs (1), (2), (3), and (5) of subsection (a) of this section are less stringent than the corresponding standards under section 6991b(a) of this title during the two-year period commencing on the date of promulgation of regulations under section 6991b(a) of this title (and during an additional one-year period after such legislative action if regulations are required to be promulgated by the State pursuant to such legislative action).

(c) Financial responsibility

(1) Corrective action and compensation programs administered by State or local agencies or departments may be submitted for approval

[1] So in original. Probably should be ''in section''.

under subsection (a)(6) of this section as evidence of financial responsibility.

(2) Financial responsibility required by this subsection may be established in accordance with regulations promulgated by the Administrator by any one, or any combination, of the following: insurance, guarantee, surety bond, letter of credit, qualification as a self-insurer or any other method satisfactory to the Administrator. In promulgating requirements under this subsection, the Administrator is authorized to specify policy or other contractual terms including the amount of coverage required for various classes and categories of underground storage tanks pursuant to section 6991b(d)(5) of this title, conditions, or defenses which are necessary or are unacceptable in establishing such evidence of financial responsibility in order to effectuate the purposes of this subchapter.

(3) In any case where the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the Federal Bankruptcy Code or where with reasonable diligence jurisdiction in any State court of the Federal courts cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing such evidence of financial responsibility. In the case of any action pursuant to this paragraph such guarantor shall be entitled to invoke all rights and defenses which would have been available to the owner or operator if any action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

(4) The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this section. Nothing in this subsection shall be construed to limit any other State or Federal statutory, contractual or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subsection shall be construed to diminish the liability of any person under section 9607 or 9611 of this title or other applicable law.

(5) For the purpose of this subsection, the term ''guarantor'' means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

(d) EPA determination

(1) Within one hundred and eighty days of the date of receipt of a proposed State program, the Administrator shall, after notice and opportunity for public comment, make a determination whether the State's program complies with the provisions of this section and provides for adequate enforcement of compliance with the requirements and standards adopted pursuant to this section.

(2) If the Administrator determines that a State program complies with the provisions of this section and provides for adequate enforcement of compliance with the requirements and standards adopted pursuant to this section, he shall approve the State program in lieu of the Federal program and the State shall have primary enforcement responsibility with respect to requirements of its program.

(e) Withdrawal of authorization

Whenever the Administrator determines after public hearing that a State is not administering and enforcing a program authorized under this subchapter in accordance with the provisions of this section, he shall so notify the State. If appropriate action is not taken within a reasonable time, not to exceed one hundred and twenty days after such notification, the Administrator shall withdraw approval of such program and reestablish the Federal program pursuant to this subchapter.

(Pub. L. 89–272, title II, §9004, as added Pub. L. 98–616, title VI, §601(a), Nov. 8, 1984, 98 Stat. 3282; amended Pub. L. 99–499, title II, §205(e), Oct. 17, 1986, 100 Stat. 1702.)

REFERENCES IN TEXT

The Federal Bankruptcy Code, referred to in subsec. (c)(3), probably means a reference to Title 11, Bankruptcy.

AMENDMENTS

1986—Subsec. (c)(1). Pub. L. 99–499, §205(e)(1), struck out ''financed by fees on tank owners and operators and'' after ''compensation programs''.

Subsec. (c)(2). Pub. L. 99–499, §205(e)(2), struck out ''or'' after ''letter of credit,'' and inserted ''or any other method satisfactory to the Administrator'' and ''including the amount of coverage required for various classes and categories of underground storage tanks pursuant to section 6991b(d)(5) of this title''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6991b, 6991e of this title.

§ 6991d. Inspections, monitoring, testing, and corrective action

(a) Furnishing information

For the purposes of developing or assisting in the development of any regulation, conducting any study[1] taking any corrective action, or enforcing the provisions of this subchapter, any owner or operator of an underground storage tank (or any tank subject to study under section 6991h of this title that is used for storing regulated substances) shall, upon request of any officer, employee or representative of the Environmental Protection Agency, duly designated by the Administrator, or upon request of any duly designated officer, employee, or representative of a State acting pursuant to subsection (h)(7) of section 6991b of this title or with an approved program, furnish information relating to such tanks, their associated equipment, their contents, conduct monitoring or testing, permit such officer at all reasonable times to have access to, and to copy all records relating to such tanks and permit such officer to have access for corrective action. For the purposes of developing or assisting in the development of any

[1] So in original. Probably should be followed by a comma.

regulation, conducting any study, taking corrective action, or enforcing the provisions of this subchapter, such officers, employees, or representatives are authorized—

(1) to enter at reasonable times any establishment or other place where an underground storage tank is located;

(2) to inspect and obtain samples from any person of any regulated substances contained in such tank;

(3) to conduct monitoring or testing of the tanks, associated equipment, contents, or surrounding soils, air, surface water or ground water; and

(4) to take corrective action.

Each such inspection shall be commenced and completed with reasonable promptness.

(b) Confidentiality

(1) Any records, reports, or information obtained from any persons under this section shall be available to the public, except that upon a showing satisfactory to the Administrator (or the State, as the case may be) by any person that records, reports, or information, or a particular part thereof, to which the Administrator (or the State, as the case may be) or any officer, employee, or representative thereof has access under this section if made public, would divulge information entitled to protection under section 1905 of title 18, such information or particular portion thereof shall be considered confidential in accordance with the purposes of that section, except that such record, report, document, or information may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter, or when relevent[2] in any proceeding under this chapter.

(2) Any person not subject to the provisions of section 1905 of title 18 who knowingly and willfully divulges or discloses any information entitled to protection under this subsection shall, upon conviction, be subject to a fine of not more than $5,000 or to imprisonment not to exceed one year, or both.

(3) In submitting data under this subchapter, a person required to provide such data may—

(A) designate the data which such person believes is entitled to protection under this subsection, and

(B) submit such designated data separately from other data submitted under this subchapter.

A designation under this paragraph shall be made in writing and in such manner as the Administrator may prescribe.

(4) Notwithstanding any limitation contained in this section or any other provision of law, all information reported to, or otherwise obtained, by the Administrator (or any representative of the Administrator) under this chapter shall be made available, upon written request of any duly authorized committee of the Congress, to such committee (including records, reports, or information obtained by representatives of the Evironmental[3] Protection Agency).

(Pub. L. 89–272, title II, § 9005, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3284; amended Pub. L. 99–499, title II, § 205(f), Oct. 17, 1986, 100 Stat. 1702.)

AMENDMENTS

1986—Pub. L. 99–499, § 205(f)(3), inserted reference to corrective action in section catchline.

Subsec. (a). Pub. L. 99–499, § 205(f)(1), in first sentence, inserted ''taking any corrective action'' after ''conducting any study'', inserted ''acting pursuant to subsection (h)(7) of section 6991b of this title or'', struck out ''and'' before ''permit such officer'', and inserted ''and permit such officer to have access for corrective action'', and in second sentence, inserted ''taking corrective action,'' after ''study,''. The amendment directing insertion of ''taking any corrective action'' after ''study'' in first sentence was executed by inserting that language after ''conducting any study'' rather than after ''subject to study'', as the probable intent of Congress.

Subsec. (a)(4). Pub. L. 99–499, § 205(f)(2), added par. (4).

§ 6991e. Federal enforcement

(a) Compliance orders

(1) Except as provided in paragraph (2), whenever on the basis of any information, the Administrator determines that any person is in violation of any requirement of this subchapter, the Administrator may issue an order requiring compliance within a reasonable specified time period or the Administrator may commence a civil action in the United States district court in which the violation occurred for appropriate relief, including a temporary or permanent injunction.

(2) In the case of a violation of any requirement of this subchapter where such violation occurs in a State with a program approved under section 6991c of this title, the Administrator shall give notice to the State in which such violation has occurred prior to issuing an order or commencing a civil action under this section.

(3) If a violator fails to comply with an order under this subsection within the time specified in the order, he shall be liable for a civil penalty of not more than $25,000 for each day of continued noncompliance.

(b) Procedure

Any order issued under this section shall become final unless, no later than thirty days after the order is served, the person or persons named therein request a public hearing. Upon such request the Administrator shall promptly conduct a public hearing. In connection with any proceeding under this section the Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may promulgate rules for discovery procedures.

(c) Contents of order

Any order issued under this section shall state with reasonable specificity the nature of the violation, specify a reasonable time for compliance, and assess a penalty, if any, which the Administrator determines is reasonable taking into account the seriousness of the violation and any good faith efforts to comply with the applicable requirements.

(d) Civil penalties

(1) Any owner who knowingly fails to notify or submits false information pursuant to section

[2] So in original. Probably should be ''relevant''.

[3] So in original. Probably should be ''Environmental''.

6991a(a) of this title shall be subject to a civil penalty not to exceed $10,000 for each tank for which notification is not given or false information is submitted.

(2) Any owner or operator of an underground storage tank who fails to comply with—

(A) any requirement or standard promulgated by the Administrator under section 6991b of this title;

(B) any requirement or standard of a State program approved pursuant to section 6991c of this title; or

(C) the provisions of section 6991b(g) of this title (entitled ''Interim Prohibition'')

shall be subject to a civil penalty not to exceed $10,000 for each tank for each day of violation.

(Pub. L. 89–272, title II, § 9006, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3285.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6991b of this title.

§ 6991f. Federal facilities

(a) Application of subchapter

Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government having jurisdiction over any underground storage tank shall be subject to and comply with all Federal, State, interstate, and local requirements, applicable to such tank, both substantive and procedural, in the same manner, and to the same extent, as any other person is subject to such requirements, including payment of reasonable service charges. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal court with respect to the enforcement of any such injunctive relief.

(b) Presidential exemption

The President may exempt any underground storage tanks of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriations. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

(Pub. L. 89–272, title II, § 9007, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3286.)

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section requiring the President to report annually to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 9th item on page 20 of House Document No. 103–7.

§ 6991g. State authority

Nothing in this subchapter shall preclude or deny any right of any State or political subdivision thereof to adopt or enforce any regulation, requirement, or standard of performance respecting underground storage tanks that is more stringent than a regulation, requirement, or standard of performance in effect under this subchapter or to impose any additional liability with respect to the release of regulated substances within such State or political subdivision.

(Pub. L. 89–272, title II, § 9008, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3286; amended Pub. L. 99–499, title II, § 205(g), Oct. 17, 1986, 100 Stat. 1702.)

AMENDMENTS

1986—Pub. L. 99–499 amended section generally. Prior to amendment, section read as follows: ''Nothing in this subchapter shall preclude or deny any right of any State or political subdivision thereof to adopt or enforce any regulation, requirement or standard of performance respecting underground storage tanks that is more stringent than a regulation, requirement, or standard of performance in effect under this subchapter.''

§ 6991h. Study of underground storage tanks

(a) Petroleum tanks

Not later than twelve months after November 8, 1984, the Administrator shall complete a study of underground storage tanks used for the storage of regulated substances defined in section 6991(2)(B) of this title.

(b) Other tanks

Not later than thirty-six months after November 8, 1984, the Administrator shall complete a study of all other underground storage tanks.

(c) Elements of studies

The studies under subsections (a) and (b) of this section shall include an assessment of the ages, types (including methods of manufacture, coatings, protection systems, the compatibility of the construction materials and the installation methods) and locations (including the climate of the locations) of such tanks; soil conditions, water tables, and the hydrogeology of tank locations; the relationship between the foregoing factors and the likelihood of releases from underground storage tanks; the effectiveness and costs of inventory systems, tank testing, and leak detection systems; and such other factors as the Administrator deems appropriate.

(d) Farm and heating oil tanks

Not later than thirty-six months after November 8, 1984, the Administrator shall conduct a study regarding the tanks referred to in section 6991(1)(A) and (B) of this title. Such study shall include estimates of the number and location of such tanks and an analysis of the extent to which there may be releases or threatened releases from such tanks into the environment.

(e) Reports

Upon completion of the studies authorized by this section, the Administrator shall submit re-

ports to the President and to the Congress containing the results of the studies and recommendations respecting whether or not such tanks should be subject to the preceding provisions of this subchapter.

(f) Reimbursement

(1) If any owner or operator (excepting an agency, department, or instrumentality of the United States Government, a State or a political subdivision thereof) shall incur costs, including the loss of business opportunity, due to the closure or interruption of operation of an underground storage tank solely for the purpose of conducting studies authorized by this section, the Administrator shall provide such person fair and equitable reimbursement for such costs.

(2) All claims for reimbursement shall be filed with the Administrator not later than ninety days after the closure or interruption which gives rise to the claim.

(3) Reimbursements made under this section shall be from funds appropriated by the Congress pursuant to the authorization contained in section 6916(g)[1] of this title.

(4) For purposes of judicial review, a determination by the Administrator under this subsection shall be considered final agency action.

(Pub. L. 89–272, title II, § 9009, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3287.)

REFERENCES IN TEXT

Section 6916(g) of this title, referred to in subsec. (f)(3), probably means section 6916(f) of this title which authorizes appropriations for this subchapter. There is no subsec. (g) of section 6916.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6991d of this title.

§ 6991i. Authorization of appropriations

For authorization of appropriations to carry out this subchapter, see section 6916(g)[1] of this title.

(Pub. L. 89–272, title II, § 9010, as added Pub. L. 98–616, title VI, § 601(a), Nov. 8, 1984, 98 Stat. 3287.)

REFERENCES IN TEXT

Section 6916(g) of this title, referred to in text, probably means section 6916(f) of this title which authorizes appropriations for this subchapter. There is no subsec. (g) of section 6916.

SUBCHAPTER X—DEMONSTRATION MEDICAL WASTE TRACKING PROGRAM

§ 6992. Scope of demonstration program for medical waste

(a) Covered States

The States within the demonstration program established under this subchapter for tracking medical wastes shall be New York, New Jersey, Connecticut, the States contiguous to the Great Lakes and any State included in the program through the petition procedure described in subsection (c) of this section, except for any of such States in which the Governor notifies the Administrator under subsection (b) of this section that such State shall not be covered by the program.

(b) Opt out

(1) If the Governor of any State covered under subsection (a) of this section which is not contiguous to the Atlantic Ocean notifies the Administrator that such State elects not to participate in the demonstration program, the Administrator shall remove such State from the program.

(2) If the Governor of any other State covered under subsection (a) of this section notifies the Administrator that such State has implemented a medical waste tracking program that is no less stringent than the demonstration program under this subchapter and that such State elects not to participate in the demonstration program, the Administrator shall, if the Administrator determines that such State program is no less stringent than the demonstration program under this subchapter, remove such State from the demonstration program.

(3) Notifications under paragraphs (1) or (2) shall be submitted to the Administrator no later than 30 days after the promulgation of regulations implementing the demonstration program under this subchapter.

(c) Petition in

The Governor of any State may petition the Administrator to be included in the demonstration program and the Administrator may, in his discretion, include any such State. Such petition may not be made later than 30 days after promulgation of regulations establishing the demonstration program under this subchapter, and the Administrator shall determine whether to include the State within 30 days after receipt of the State's petition.

(d) Expiration of demonstration program

The demonstration program shall expire on the date 24 months after the effective date of the regulations under this subchapter.

(Pub. L. 89–272, title II, § 11001, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2950.)

§ 6992a. Listing of medical wastes

(a) List

Not later than 6 months after November 1, 1988, the Administrator shall promulgate regulations listing the types of medical waste to be tracked under the demonstration program. Except as provided in subsection (b) of this section, such list shall include, but need not be limited to, each of the following types of solid waste:

(1) Cultures and stocks of infectious agents and associated biologicals, including cultures from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, and mix cultures.

(2) Pathological wastes, including tissues, organs, and body parts that are removed during surgery or autopsy.

[1] See References in Text note below.

[1] See References in Text note below.

(3) Waste human blood and products of blood, including serum, plasma, and other blood components.

(4) Sharps that have been used in patient care or in medical, research, or industrial laboratories, including hypodermic needles, syringes, pasteur pipettes, broken glass, and scalpel blades.

(5) Contaminated animal carcasses, body parts, and bedding of animals that were exposed to infectious agents during research, production of biologicals, or testing of pharmaceuticals.

(6) Wastes from surgery or autopsy that were in contact with infectious agents, including soiled dressings, sponges, drapes, lavage tubes, drainage sets, underpads, and surgical gloves.

(7) Laboratory wastes from medical, pathological, pharmaceutical, or other research, commercial, or industrial laboratories that were in contact with infectious agents, including slides and cover slips, disposable gloves, laboratory coats, and aprons.

(8) Dialysis wastes that were in contact with the blood of patients undergoing hemodialysis, including contaminated disposable equipment and supplies such as tubing, filters, disposable sheets, towels, gloves, aprons, and laboratory coats.

(9) Discarded medical equipment and parts that were in contact with infectious agents.

(10) Biological waste and discarded materials contaminated with blood, excretion, excudates[1] or secretion from human beings or animals who are isolated to protect others from communicable diseases.

(11) Such other waste material that results from the administration of medical care to a patient by a health care provider and is found by the Administrator to pose a threat to human health or the environment.

(b) Exclusions from list

The Administrator may exclude from the list under this section any categories or items described in paragraphs (6) through (10) of subsection (a) of this section which he determines do not pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

(Pub. L. 89–272, title II, §11002, as added Pub. L. 100–582, §2(a), Nov. 1, 1988, 102 Stat. 2951.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6992b, 6992i of this title.

§ 6992b. Tracking of medical waste

(a) Demonstration program

Not later than 6 months after November 1, 1988, the Administrator shall promulgate regulations establishing a program for the tracking of the medical waste listed in section 6992a of this title which is generated in a State subject to the demonstration program. The program shall (1) provide for tracking of the transportation of the waste from the generator to the disposal facility, except that waste that is incinerated need not be tracked after incineration, (2) include a system for providing the generator of the waste with assurance that the waste is received by the disposal facility, (3) use a uniform form for tracking in each of the demonstration States, and (4) include the following requirements:

(A) A requirement for segregation of the waste at the point of generation where practicable.

(B) A requirement for placement of the waste in containers that will protect waste handlers and the public from exposure.

(C) A requirement for appropriate labeling of containers of the waste.

(b) Small quantities

In the program under subsection (a) of this section, the Administrator may establish an exemption for generators of small quantities of medical waste listed under section 6992a of this title, except that the Administrator may not exempt from the program any person who, or facility that, generates 50 pounds or more of such waste in any calendar month.

(c) On-site incinerators

Concurrently with the promulgation of regulations under subsection (a) of this section, the Administrator shall promulgate a recordkeeping and reporting requirement for any generator in a demonstration State of medical waste listed in section 6992a of this title that (1) incinerates medical waste listed in section 6992a of this title on site and (2) does not track such waste under the regulations promulgated under subsection (a) of this section. Such requirement shall require the generator to report to the Administrator on the volume and types of medical waste listed in section 6992a of this title that the generator incinerated on site during the 6 months following the effective date of the requirements of this subsection.

(d) Type of medical waste and types of generators

For each of the requirements of this section, the regulations may vary for different types of medical waste and for different types of medical waste generators.

(Pub. L. 89–272, title II, §11003, as added Pub. L. 100–582, §2(a), Nov. 1, 1988, 102 Stat. 2952.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6992c, 6992f of this title.

§ 6992c. Inspections

(a) Requirements for access

For purposes of developing or assisting in the development of any regulation or report under this subchapter or enforcing any provision of this subchapter, any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled medical waste shall, upon request of any officer, employee, or representative of the Environmental Protection Agency duly designated by the Administrator, furnish information relating to such waste, including any tracking forms required to be maintained under section 6992b of this title, conduct

[1] So in original. Probably should be ''exudates''.

monitoring or testing, and permit such person at all reasonable times to have access to, and to copy, all records relating to such waste. For such purposes, such officers, employees, or representatives are authorized to—

(1) enter at reasonable times any establishment or other place where medical wastes are or have been generated, stored, treated, disposed of, or transported from;

(2) conduct monitoring or testing; and

(3) inspect and obtain samples from any person of any such wastes and samples of any containers or labeling for such wastes.

(b) Procedures

Each inspection under this section shall be commenced and completed with reasonable promptness. If the officer, employee, or representative obtains any samples, prior to leaving the premises he shall give to the owner, operator, or agent in charge a receipt describing the sample obtained and, if requested, a portion of each such sample equal in volume or weight to the portion retained if giving such an equal portion is feasible. If any analysis is made of such samples, a copy of the results of such analysis shall be furnished promptly to the owner, operator, or agent in charge of the premises concerned.

(c) Availability to public

The provisions of section 6927(b) of this title shall apply to records, reports, and information obtained under this section in the same manner and to the same extent as such provisions apply to records, reports, and information obtained under section 6927 of this title.

(Pub. L. 89–272, title II, § 11004, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2952.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6992f of this title.

§ 6992d. Enforcement

(a) Compliance orders

(1) Violations

Whenever on the basis of any information the Administrator determines that any person has violated, or is in violation of, any requirement or prohibition in effect under this subchapter (including any requirement or prohibition in effect under regulations under this subchapter) (A) the Administrator may issue an order (i) assessing a civil penalty for any past or current violation, (ii) requiring compliance immediately or within a specified time period, or (iii) both, or (B) the Administrator may commence a civil action in the United States district court in the district in which the violation occurred for appropriate relief, including a temporary or permanent injunction. Any order issued pursuant to this subsection shall state with reasonable specificity the nature of the violation.

(2) Orders assessing penalties

Any penalty assessed in an order under this subsection shall not exceed $25,000 per day of noncompliance for each violation of a requirement or prohibition in effect under this subchapter. In assessing such a penalty, the Administrator shall take into account the seriousness of the violation and any good faith efforts to comply with applicable requirements.

(3) Public hearing

Any order issued under this subsection shall become final unless, not later than 30 days after issuance of the order, the persons named therein request a public hearing. Upon such request, the Administrator shall promptly conduct a public hearing. In connection with any proceeding under this section, the Administrator may issue subpoenas for the production of relevant papers, books, and documents, and may promulgate rules for discovery procedures.

(4) Violation of compliance orders

In the case of an order under this subsection requiring compliance with any requirement of or regulation under this subchapter, if a violator fails to take corrective action within the time specified in an order, the Administrator may assess a civil penalty of not more than $25,000 for each day of continued noncompliance with the order.

(b) Criminal penalties

Any person who—

(1) knowingly violates the requirements of or regulations under this subchapter;

(2) knowingly omits material information or makes any false material statement or representation in any label, record, report, or other document filed, maintained, or used for purposes of compliance with this subchapter or regulations thereunder; or

(3) knowingly generates, stores, treats, transports, disposes of, or otherwise handles any medical waste (whether such activity took place before or takes place after November 1, 1988) and who knowingly destroys, alters, conceals, or fails to file any record, report, or other document required to be maintained or filed for purposes of compliance with this subchapter or regulations thereunder

shall, upon conviction, be subject to a fine of not more than $50,000 for each day of violation, or imprisonment not to exceed 2 years (5 years in the case of a violation of paragraph (1)). If the conviction is for a violation committed after a first conviction of such person under this paragraph, the maximum punishment under the respective paragraph shall be doubled with respect to both fine and imprisonment.

(c) Knowing endangerment

Any person who knowingly violates any provision of subsection (b) of this section who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury, shall upon conviction be subject to a fine of not more than $250,000 or imprisonment for not more than 15 years, or both. A defendant that is an organization shall, upon conviction under this subsection, be subject to a fine of not more than $1,000,000. The terms of this paragraph shall be interpreted in accordance with the rules provided under section 6928(f) of this title.

(d) Civil penalties

Any person who violates any requirement of or regulation under this subchapter shall be liable to the United States for a civil penalty in an amount not to exceed $25,000 for each such violation. Each day of such violation shall, for purposes of this section, constitute a separate violation.

(e) Civil penalty policy

Civil penalties assessed by the United States or by the States under this subchapter shall be assessed in accordance with the Administrator's ''RCRA Civil Penalty Policy'', as such policy may be amended from time to time.

(Pub. L. 89–272, title II, §11005, as added Pub. L. 100–582, §2(a), Nov. 1, 1988, 102 Stat. 2953.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 6992f of this title.

§ 6992e. Federal facilities

(a) In general

Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government in a demonstration State (1) having jurisdiction over any solid waste management facility or disposal site at which medical waste is disposed of or otherwise handled, or (2) engaged in any activity resulting, or which may result, in the disposal, management, or handling of medical waste shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting control and abatement of medical waste disposal and management in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. The Federal, State, interstate, and local substantive and procedural requirements referred to in this subsection include, but are not limited to, all administrative orders, civil, criminal, and administrative penalties, and other sanctions, including injunctive relief, fines, and imprisonment. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal court with respect to the enforcement of any such order, penalty, or other sanction. For purposes of enforcing any such substantive or procedural requirement (including, but not limited to, any injunctive relief, administrative order, or civil, criminal, administrative penalty, or other sanction), against any such department, agency, or instrumentality, the United States hereby expressly waives any immunity otherwise applicable to the United States. The President may exempt any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

(b) "Person" defined

For purposes of this chapter, the term ''person'' shall be treated as including each department, agency, and instrumentality of the United States.

(Pub. L. 89–272, title II, §11006, as added Pub. L. 100–582, §2(a), Nov. 1, 1988, 102 Stat. 2954.)

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (a) of this section requiring the President to report annually to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 10th item on page 20 of House Document No. 103–7.

§ 6992f. Relationship to State law

(a) State inspections and enforcement

A State may conduct inspections under[1] 6992c of this title and take enforcement actions under section 6992d of this title against any person, including any person who has imported medical waste into a State in violation of the requirements of, or regulations under, this subchapter, to the same extent as the Administrator. At the time a State initiates an enforcement action under section 6992d of this title against any person, the State shall notify the Administrator in writing.

(b) Retention of State authority

Nothing in this subchapter shall—

(1) preempt any State or local law; or

(2) except as provided in subsection (c) of this section, otherwise affect any State or local law or the authority of any State or local government to adopt or enforce any State or local law.

(c) State forms

Any State or local law which requires submission of a tracking form from any person subject to this subchapter shall require that the form be identical in content and format to the form required under section 6992b of this title, except that a State may require the submission of other tracking information which is supplemental to the information required on the form required under section 6992b of this title through additional sheets or such other means as the State deems appropriate.

(Pub. L. 89–272, title II, §11007, as added Pub. L. 100–582, §2(a), Nov. 1, 1988, 102 Stat. 2955.)

[1] So in original. Probably should be ''under section''.

§ 6992g. Repealed. Pub. L. 105–362, title V, § 501(h)(1)(A), Nov. 10, 1998, 112 Stat. 3284

Section, Pub. L. 89–272, title II, § 11008, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2956, related to Administrator's report to Congress concerning demonstration medical waste tracking program.

§ 6992h. Health impacts report

Within 24 months after November 1, 1988, the Administrator of the Agency for Toxic Substances and Disease Registry shall prepare for Congress a report on the health effects of medical waste, including each of the following—

(1) A description of the potential for infection or injury from the segregation, handling, storage, treatment, or disposal of medical wastes.

(2) An estimate of the number of people injured or infected annually by sharps, and the nature and seriousness of those injuries or infections.

(3) An estimate of the number of people infected annually by other means related to waste segregation, handling, storage, treatment, or disposal, and the nature and seriousness of those infections.

(4) For diseases possibly spread by medical waste, including Acquired Immune Deficiency Syndrome and hepatitis B, an estimate of what percentage of the total number of cases nationally may be traceable to medical wastes.

(Pub. L. 89–272, title II, § 11008, formerly § 11009, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2957; renumbered § 11008, Pub. L. 105–362, title V, § 501(h)(1)(B), Nov. 10, 1998, 112 Stat. 3284.)

PRIOR PROVISIONS

A prior section 11008 of Pub. L. 89–272 was classified to section 6992g of this title prior to repeal by Pub. L. 105–362, § 501(h)(1)(A).

§ 6992i. General provisions

(a) Consultation

(1) In promulgating regulations under this subchapter, the Administrator shall consult with the affected States and may consult with other interested parties.

(2) The Administrator shall also consult with the International Joint Commission to determine how to monitor the disposal of medical waste emanating from Canada.

(b) Public comment

In the case of the regulations required by this subchapter to be promulgated within 9 months after November 1, 1988, the Administrator may promulgate such regulations in interim final form without prior opportunity for public comment, but the Administrator shall provide an opportunity for public comment on the interim final rule. The promulgation of such regulations shall not be subject to the Paperwork Reduction Act of 1980.[1]

(c) Relationship to subchapter III

Nothing in this subchapter shall affect the authority of the Administrator to regulate medical waste, including medical waste listed under section 6992a of this title, under subchapter III of this chapter.

(Pub. L. 89–272, title II, § 11009, formerly § 11010, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2957; renumbered § 11009, Pub. L. 105–362, title V, § 501(h)(1)(B), Nov. 10, 1998, 112 Stat. 3284.)

REFERENCES IN TEXT

The Paperwork Reduction Act of 1980, referred to in subsec. (b), is Pub. L. 96–511, Dec. 11, 1980, 94 Stat. 2812, as amended, which was classified principally to chapter 35 (§ 3501 et seq.) of Title 44, Public Printing and Documents, prior to the general amendment of that chapter by Pub. L. 104–13, § 2, May 22, 1995, 109 Stat. 163. For complete classification of this Act to the Code, see Short Title of 1980 Amendment note set out under section 101 of Title 44 and Tables.

PRIOR PROVISIONS

A prior section 11009 of Pub. L. 89–272 was renumbered section 11008 and is classified to section 6992h of this title.

§ 6992j. Effective date

The regulations promulgated under this subchapter shall take effect within 90 days after promulgation, except that, at the time of promulgation, the Administrator may provide for a shorter period prior to the effective date if he finds the regulated community does not need 90 days to come into compliance.

(Pub. L. 89–272, title II, § 11010, formerly § 11011, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2958; renumbered § 11010, Pub. L. 105–362, title V, § 501(h)(1)(B), Nov. 10, 1998, 112 Stat. 3284.)

PRIOR PROVISIONS

A prior section 11010 of Pub. L. 89–272 was renumbered section 11009 and is classified to section 6992i of this title.

§ 6992k. Authorization of appropriations

There are authorized to be appropriated to the Administrator such sums as may be necessary for each of the fiscal years 1989 through 1991 for purposes of carrying out activities under this subchapter.

(Pub. L. 89–272, title II, § 11011, formerly § 11012, as added Pub. L. 100–582, § 2(a), Nov. 1, 1988, 102 Stat. 2958; renumbered § 11011, Pub. L. 105–362, title V, § 501(h)(1)(B), Nov. 10, 1998, 112 Stat. 3284.)

PRIOR PROVISIONS

A prior section 11011 of Pub. L. 89–272 was renumbered section 11010 and is classified to section 6992j of this title.

CHAPTER 83—ENERGY EXTENSION SERVICE

§§ 7001 to 7011. Repealed. Pub. L. 102–486, title I, § 143(a), Oct. 24, 1992, 106 Stat. 2843

Section 7001, Pub. L. 95–39, title V, § 502, June 3, 1977, 91 Stat. 191, related to congressional declaration and statement of purposes.

Section 7002, Pub. L. 95–39, title V, § 503, June 3, 1977, 91 Stat. 192, provided for establishment of Energy Extension Service.

[1] See References in Text note below.

Section 7003, Pub. L. 95–39, title V, §504, June 3, 1977, 91 Stat. 192, provided for development and implementation of comprehensive program.

Section 7004, Pub. L. 95–39, title V, §505, June 3, 1977, 91 Stat. 193, provided for initial implementation of State energy extension service plans.

Section 7005, Pub. L. 95–39, title V, §506, June 3, 1977, 91 Stat. 195, provided for national implementation of State energy extension service plans.

Section 7006, Pub. L. 95–39, title V, §507, June 3, 1977, 91 Stat. 198, related to administration of Energy Extension Service.

Section 7007, Pub. L. 95–39, title V, §508, June 3, 1977, 91 Stat. 199, related to energy education, extension, and information.

Section 7008, Pub. L. 95–39, title V, §509, June 3, 1977, 91 Stat. 199, provided for establishment of National Energy Extension Service Advisory Board.

Section 7009, Pub. L. 95–39, title V, §511, June 3, 1977, 91 Stat. 201, related to records.

Section 7010, Pub. L. 95–39, title V, §512, June 3, 1977, 91 Stat. 201, related to authorization of appropriations.

Section 7011, Pub. L. 95–39, title V, §513, June 3, 1977, 91 Stat. 202, set out definitions.

SHORT TITLE

Section 501 of title V of Pub. L. 95–39, which provided that this title, which enacted this chapter and amended sections 5813 and 5818 of this title, could be cited as the ''National Energy Extension Service Act'', was repealed by Pub. L. 102–486, title I, §143(a), Oct. 24, 1992, 106 Stat. 2843.

CHAPTER 84—DEPARTMENT OF ENERGY

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in section 5905 of this title; title 15 section 3393; title 16 section 824a–1; title 30 section 1303; title 43 section 1331, 1866.

§ 7101. Definitions

(a) As used in this chapter, unless otherwise provided or indicated by the context, the term

the ''Department'' means the Department of Energy or any component thereof, including the Federal Energy Regulatory Commission.

(b) As used in this chapter (1) reference to ''function'' includes reference to any duty, obligation, power, authority, responsibility, right, privilege, and activity, or the plural thereof, as the case may be; and (2) reference to ''perform'', when used in relation to functions, includes the undertaking, fulfillment, or execution of any duty or obligation; and the exercise of power, authority, rights, and privileges.

(c) As used in this chapter, ''Federal lease'' means an agreement which, for any consideration, including but not limited to, bonuses, rents, or royalties conferred and covenants to be observed, authorizes a person to explore for, or develop, or produce (or to do any or all of these) oil and gas, coal, oil shale, tar sands, and geothermal resources on lands or interests in lands under Federal jurisdiction.

(Pub. L. 95–91, § 2, Aug. 4, 1977, 91 Stat. 567.)

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a), (b), and (c), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

SHORT TITLE OF 1997 AMENDMENT

Pub. L. 105–28, § 1, July 18, 1997, 111 Stat. 245, provided that: ''This Act [amending sections 7191 and 7234 of this title and repealing section 776 of Title 15, Commerce and Trade] may be cited as the 'Department of Energy Standardization Act of 1997'.''

SHORT TITLE OF 1990 AMENDMENT

Pub. L. 101–271, § 1, Apr. 11, 1990, 104 Stat. 135, provided that: ''This Act [amending section 7171 of this title and enacting provisions set out as a note under section 7171 of this title] may be cited as the 'Federal Energy Regulatory Commission Member Term Act of 1990'.''

SHORT TITLE

Section 1 of Pub. L. 95–91 provided: ''That this Act [enacting this chapter and section 916 of Title 7, Agriculture, amending sections 6833 and 6839 of this title, section 19 of Title 3, The President, sections 101, 5108, and 5312 to 5316 of Title 5, Government Organization and Employees, section 1701z–8 of Title 12, Banks and Banking, and sections 766, 790a, 790d, and 2002 of Title 15, Commerce and Trade, repealing sections 2036 and 5818 of this title and sections 763, 768, and 786 of Title 15, enacting provisions set out as a note under section 2201 of this title, and repealing provisions set out as a note under section 761 of Title 15] may be cited as the 'Department of Energy Organization Act'.''

For short title of part E of title XXXI of div. C of Pub. L. 101–510, which enacted subchapter XIII of this chapter, as the ''Department of Energy Science Education Enhancement Act'', see section 3161 of Pub. L. 101–510, set out as a note under section 7381 of this title.

For short title of part A of title V of Pub. L. 103–382, which enacted subchapter XIV of this chapter, as the ''Albert Einstein Distinguished Educator Fellowship Act of 1994'', see section 511 of Pub. L. 103–382, set out as a note under section 7382 of this title.

For short title of subtitle D of title XXXI of div. C of Pub. L. 106–65, which enacted subchapter XV of this chapter, as the ''Department of Energy Facilities Safeguards, Security, and Counterintelligence Enhancement Act of 1999'', see section 3141 of Pub. L. 106–65, set out as a note under section 7383 of this title.

For short title of section 1 [div. C, title XXXVI] of Pub. L. 106–398, which enacted subchapter XVI of this chapter, as the ''Energy Employees Occupational Illness Compensation Program Act of 2000'', see section 1 [div. C, title XXXVI, § 3601] of Pub. L. 106–398, set out as a note under section 7384 of this title.

Pub. L. 107–314, div. C, title XXXVI, § 3601, Dec. 2, 2002, 116 Stat. 2756, provided that: ''This title [enacting subchapter XVII of this chapter] may be cited as the 'Atomic Energy Defense Act'.''

EXECUTIVE ORDER NO. 12083

Ex. Ord. No. 12083, Sept. 27, 1978, 43 F.R. 44813, as amended by Ex. Ord. No. 12121, Feb. 26, 1979, 44 F.R. 11195; Ex. Ord. No. 12148, July 20, 1979, 44 F.R. 43239, which established the Energy Coordinating Committee and provided for its membership, functions, etc., was revoked by Ex. Ord. No. 12379, § 20, Aug. 17, 1982, 47 F.R. 36100, set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees.

SUBCHAPTER I—DECLARATION OF FINDINGS AND PURPOSES

§ 7111. Congressional findings

The Congress of the United States finds that—

(1) the United States faces an increasing shortage of nonrenewable energy resources;

(2) this energy shortage and our increasing dependence on foreign energy supplies present a serious threat to the national security of the United States and to the health, safety and welfare of its citizens;

(3) a strong national energy program is needed to meet the present and future energy needs of the Nation consistent with overall national economic, environmental and social goals;

(4) responsibility for energy policy, regulation, and research, development and demonstration is fragmented in many departments and agencies and thus does not allow for the comprehensive, centralized focus necessary for effective coordination of energy supply and conservation programs; and

(5) formulation and implementation of a national energy program require the integration of major Federal energy functions into a single department in the executive branch.

(Pub. L. 95–91, title I, § 101, Aug. 4, 1977, 91 Stat. 567.)

§ 7112. Congressional declaration of purpose

The Congress therefore declares that the establishment of a Department of Energy is in the public interest and will promote the general welfare by assuring coordinated and effective administration of Federal energy policy and programs. It is the purpose of this chapter:

(1) To establish a Department of Energy in the executive branch.

(2) To achieve, through the Department, effective management of energy functions of the Federal Government, including consultation with the heads of other Federal departments and agencies in order to encourage them to establish and observe policies consistent with a coordinated energy policy, and to promote maximum possible energy conservation measures in connection with the activities within their respective jurisdictions.

(3) To provide for a mechanism through which a coordinated national energy policy

can be formulated and implemented to deal with the short-, mid- and long-term energy problems of the Nation; and to develop plans and programs for dealing with domestic energy production and import shortages.

(4) To create and implement a comprehensive energy conservation strategy that will receive the highest priority in the national energy program.

(5) To carry out the planning, coordination, support, and management of a balanced and comprehensive energy research and development program, including—

(A) assessing the requirements for energy research and development;

(B) developing priorities necessary to meet those requirements;

(C) undertaking programs for the optimal development of the various forms of energy production and conservation; and

(D) disseminating information resulting from such programs, including disseminating information on the commercial feasibility and use of energy from fossil, nuclear, solar, geothermal, and other energy technologies.

(6) To place major emphasis on the development and commercial use of solar, geothermal, recycling and other technologies utilizing renewable energy resources.

(7) To continue and improve the effectiveness and objectivity of a central energy data collection and analysis program within the Department.

(8) To facilitate establishment of an effective strategy for distributing and allocating fuels in periods of short supply and to provide for the administration of a national energy supply reserve.

(9) To promote the interests of consumers through the provision of an adequate and reliable supply of energy at the lowest reasonable cost.

(10) To establish and implement through the Department, in coordination with the Secretaries of State, Treasury, and Defense, policies regarding international energy issues that have a direct impact on research, development, utilization, supply, and conservation of energy in the United States and to undertake activities involving the integration of domestic and foreign policy relating to energy, including provision of independent technical advice to the President on international negotiations involving energy resources, energy technologies, or nuclear weapons issues, except that the Secretary of State shall continue to exercise primary authority for the conduct of foreign policy relating to energy and nuclear nonproliferation, pursuant to policy guidelines established by the President.

(11) To provide for the cooperation of Federal, State, and local governments in the development and implementation of national energy policies and programs.

(12) To foster and assure competition among parties engaged in the supply of energy and fuels.

(13) To assure incorporation of national environmental protection goals in the formulation and implementation of energy programs, and to advance the goals of restoring, protecting, and enhancing environmental quality, and assuring public health and safety.

(14) To assure, to the maximum extent practicable, that the productive capacity of private enterprise shall be utilized in the development and achievement of the policies and purposes of this chapter.

(15) To provide for, encourage, and assist public participation in the development and enforcement of national energy programs.

(16) To create an awareness of, and responsibility for, the fuel and energy needs of rural and urban residents as such needs pertain to home heating and cooling, transportation, agricultural production, electrical generation, conservation, and research and development.

(17) To foster insofar as possible the continued good health of the Nation's small business firms, public utility districts, municipal utilities, and private cooperatives involved in energy production, transportation, research, development, demonstration, marketing, and merchandising.

(18) To provide for the administration of the functions of the Energy Research and Development Administration related to nuclear weapons and national security which are transferred to the Department by this chapter.

(19) To ensure that the Department can continue current support of mathematics, science, and engineering education programs by using the personnel, facilities, equipment, and resources of its laboratories and by working with State and local education agencies, institutions of higher education, and business and industry. The Department's involvement in mathematics, science, and engineering education should be consistent with its main mission and should be coordinated with all Federal efforts in mathematics, science, and engineering education, especially with the Department of Education and the National Science Foundation (which have the primary Federal responsibility for mathematics, science, and engineering education).

(Pub. L. 95–91, title I, §102, Aug. 4, 1977, 91 Stat. 567; Pub. L. 101–510, div. C, title XXXI, §3163, Nov. 5, 1990, 104 Stat. 1841.)

AMENDMENTS

1990—Pub. L. 101–510 substituted ''chapter:'' for ''chapter—'' in introductory provisions, capitalized the first letter of the first word in each of pars. (1) to (18), substituted a period for last semicolon in each of pars. (1) to (17), struck out ''and'' at end of par. (17), and added par. (19).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7133 of this title.

§ 7113. Relationship with States

Whenever any proposed action by the Department conflicts with the energy plan of any State, the Department shall give due consideration to the needs of such State, and where practicable, shall attempt to resolve such conflict through consultations with appropriate State officials. Nothing in this chapter shall affect the authority of any State over matters exclusively within its jurisdiction.

(Pub. L. 95–91, title I, § 103, Aug. 4, 1977, 91 Stat. 569.)

SUBCHAPTER II—ESTABLISHMENT OF DEPARTMENT

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 7232, 7341 of this title.

§ 7131. Establishment

There is established at the seat of government an executive department to be known as the Department of Energy. There shall be at the head of the Department a Secretary of Energy (hereinafter in this chapter referred to as the ''Secretary''), who shall be appointed by the President by and with the advice and consent of the Senate. The Department shall be administered, in accordance with the provisions of this chapter, under the supervision and direction of the Secretary.

(Pub. L. 95–91, title II, § 201, Aug. 4, 1977, 91 Stat. 569.)

REFERENCES IN TEXT

This chapter, referred to in text, was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the Department of Energy, including the functions of the Secretary of Energy relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see sections 121(g)(4), 183(1), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 7132. Principal officers

(a) Deputy Secretary

There shall be in the Department a Deputy Secretary, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level II of the Executive Schedule under section 5313 of title 5. The Deputy Secretary shall act for and exercise the functions of the Secretary during the absence or disability of the Secretary or in the event the office of Secretary becomes vacant. The Secretary shall designate the order in which the Under Secretary and other officials shall act for and perform the functions of the Secretary during the absence or disability of both the Secretary and Deputy Secretary or in the event of vacancies in both of those offices.

(b) Under Secretary; General Counsel

There shall be in the Department an Under Secretary and a General Counsel, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall perform such functions and duties as the Secretary shall prescribe. The Under Secretary shall bear primary responsibility for energy conservation. The Under Secretary shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5, and the General Counsel shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5.

(c) Under Secretary for Nuclear Security

(1) There shall be in the Department an Under Secretary for Nuclear Security, who shall be appointed by the President, by and with the advice and consent of the Senate. The Under Secretary shall be compensated at the rate provided for at level III of the Executive Schedule under section 5314 of title 5.

(2) The Under Secretary for Nuclear Security shall be appointed from among persons who—

(A) have extensive background in national security, organizational management, and appropriate technical fields; and

(B) are well qualified to manage the nuclear weapons, nonproliferation, and materials disposition programs of the National Nuclear Security Administration in a manner that advances and protects the national security of the United States.

(3) The Under Secretary for Nuclear Security shall serve as the Administrator for Nuclear Security under section 2402 of title 50. In carrying out the functions of the Administrator, the Under Secretary shall be subject to the authority, direction, and control of the Secretary. Such authority, direction, and control may be delegated only to the Deputy Secretary of Energy, without redelegation.

(Pub. L. 95–91, title II, § 202, Aug. 4, 1977, 91 Stat. 569; Pub. L. 106–65, div. C, title XXXII, § 3202, Oct. 5, 1999, 113 Stat. 954.)

AMENDMENTS

1999—Subsec. (c). Pub. L. 106–65 added subsec. (c).

TERM OF OFFICE OF PERSON FIRST APPOINTED AS UNDER SECRETARY FOR NUCLEAR SECURITY OF THE DEPARTMENT OF ENERGY

Pub. L. 106–398, § 1 [div. C, title XXXI, § 3151], Oct. 30, 2000, 114 Stat. 1654, 1654A–464, provided that:

''(a) LENGTH OF TERM.—The term of office as Under Secretary for Nuclear Security of the Department of Energy of the person first appointed to that position shall be three years.

''(b) EXCLUSIVE REASONS FOR REMOVAL.—The exclusive reasons for removal from office as Under Secretary for Nuclear Security of the person described in subsection (a) shall be inefficiency, neglect of duty, or malfeasance in office.

''(c) POSITION DESCRIBED.—The position of Under Secretary for Nuclear Security of the Department of Energy referred to in this section is the position established by subsection (c) of section 202 of the Department of Energy Organization Act (42 U.S.C. 7132), as added by section 3202 of the National Nuclear Security Administration Act (title XXXII of Public Law 106–65; 113 Stat. 954).''

Substantially identical provisions were contained in Pub. L. 106–377, § 1(a)(2) [title III, § 313], Oct. 27, 2000, 114 Stat. 1441, 1441A–81.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 50 sections 2402, 2410.

§ 7133. Assistant Secretaries; appointment and confirmation; identification of responsibilities

(a) There shall be in the Department six Assistant Secretaries, each of whom shall be appointed by the President, by and with the advice and consent of the Senate; who shall be compensated at the rate provided for at level IV of the Executive Schedule under section 5315 of title 5; and who shall perform, in accordance with applicable law, such of the functions transferred or delegated to, or vested in, the Secretary as he shall prescribe in accordance with the provisions of this chapter. The functions which the Secretary shall assign to the Assistant Secretaries include, but are not limited to, the following:

(1) Energy resource applications, including functions dealing with management of all forms of energy production and utilization, including fuel supply, electric power supply, enriched uranium production, energy technology programs, and the management of energy resource leasing procedures on Federal lands.

(2) Energy research and development functions, including the responsibility for policy and management of research and development for all aspects of—

(A) solar energy resources;

(B) geothermal energy resources;

(C) recycling energy resources;

(D) the fuel cycle for fossil energy resources; and

(E) the fuel cycle for nuclear energy resources.

(3) Environmental responsibilities and functions, including advising the Secretary with respect to the conformance of the Department's activities to environmental protection laws and principles, and conducting a comprehensive program of research and development on the environmental effects of energy technologies and programs.

(4) International programs and international policy functions, including those functions which assist in carrying out the international energy purposes described in section 7112 of this title.

(5) Repealed. Pub. L. 106–65, div. C, title XXXII, § 3294(b), Oct. 5, 1999, 113 Stat. 970.

(6) Intergovernmental policies and relations, including responsibilities for assuring that national energy policies are reflective of and responsible to the needs of State and local governments, and for assuring that other components of the Department coordinate their activities with State and local governments, where appropriate, and develop intergovernmental communications with State and local governments.

(7) Competition and consumer affairs, including responsibilities for the promotion of competition in the energy industry and for the protection of the consuming public in the energy policymaking processes, and assisting the Secretary in the formulation and analysis of policies, rules, and regulations relating to competition and consumer affairs.

(8) Nuclear waste management responsibilities, including—

(A) the establishment of control over existing Government facilities for the treatment and storage of nuclear wastes, including all containers, casks, buildings, vehicles, equipment, and all other materials associated with such facilities;

(B) the establishment of control over all existing nuclear waste in the possession or control of the Government and all commercial nuclear waste presently stored on other than the site of a licensed nuclear power electric generating facility, except that nothing in this paragraph shall alter or effect title to such waste;

(C) the establishment of temporary and permanent facilities for storage, management, and ultimate disposal of nuclear wastes;

(D) the establishment of facilities for the treatment of nuclear wastes;

(E) the establishment of programs for the treatment, management, storage, and disposal of nuclear wastes;

(F) the establishment of fees or user charges for nuclear waste treatment or storage facilities, including fees to be charged Government agencies; and

(G) the promulgation of such rules and regulations to implement the authority described in this paragraph,

except that nothing in this section shall be construed as granting to the Department regulatory functions presently within the Nuclear Regulatory Commission, or any additional functions than those already conferred by law.

(9) Energy conservation functions, including the development of comprehensive energy conservation strategies for the Nation, the planning and implementation of major research and demonstration programs for the development of technologies and processes to reduce total energy consumption, the administration of voluntary and mandatory energy conservation programs, and the dissemination to the public of all available information on energy conservation programs and measures.

(10) Power marketing functions, including responsibility for marketing and transmission of Federal power.

(11) Public and congressional relations functions, including responsibilities for providing a continuing liaison between the Department and the Congress and the Department and the public.

(b) At the time the name of any individual is submitted for confirmation to the position of Assistant Secretary, the President shall identify with particularity the function or functions described in subsection (a) of this section (or any portion thereof) for which such individual will be responsible.

(Pub. L. 95–91, title II, § 203, Aug. 4, 1977, 91 Stat. 570; Pub. L. 106–65, div. C, title XXXII, § 3294(a)(2), (b), Oct. 5, 1999, 113 Stat. 970.)

AMENDMENTS

1999—Subsec. (a). Pub. L. 106–65, § 3294(a)(2), substituted ''six'' for ''eight'' in introductory provisions.

Subsec. (a)(5). Pub. L. 106–65, § 3294(b), struck out par. (5) which read as follows: ''National security functions,

including those transferred to the Department from the Energy Research and Development Administration which relate to management and implementation of the nuclear weapons program and other national security functions involving nuclear weapons research and development.''

EFFECTIVE DATE OF 1999 AMENDMENT

Amendment by Pub. L. 106–65 effective Mar. 1, 2000, see section 3299 of Pub. L. 106–65, set out as an Effective Date note under section 2401 of Title 50, War and National Defense.

FEDERAL POWER MARKETING ADMINISTRATION EMPLOYMENT LEVELS

Pub. L. 101–514, title V, § 510, Nov. 5, 1990, 104 Stat. 2098, provided that no funds appropriated or made available were to be used by the executive branch to change employment levels determined by Administrators of the Federal Power Marketing Administrations to be necessary to carry out their responsibilities under this chapter and related laws, or to change employment levels of other Department of Energy programs to compensate for employment levels of the Federal Power Marketing Administrations, prior to repeal by Pub. L. 104–46, title V, § 501, Nov. 13, 1995, 109 Stat. 419.

MARKETING AND EXCHANGE OF SURPLUS ELECTRICITY FROM NAVAJO GENERATING STATION

Pub. L. 98–381, title I, § 107, Aug. 17, 1984, 98 Stat. 1339, provided that:

''(a) Subject to the provisions of any existing layoff contracts, electrical capacity and energy associated with the United States' interest in the Navajo generating station which is in excess of the pumping requirements of the Central Arizona project and any such needs for desalting and protective pumping facilities as may be required under section 101(b)(2)(B) of the Colorado River Basin Salinity Control Act of 1974, as amended [43 U.S.C. 1571(b)(2)(B)] (hereinafter in this Act referred to as 'Navajo surplus') shall be marketed and exchanged by the Secretary of Energy pursuant to this section.

''(b) Navajo surplus shall be marketed by the Secretary of Energy pursuant to the plan adopted under subsection (c) of this section, directly to, with or through the Arizona Power Authority and/or other entities having the status of preference entities under the reclamation law in accordance with the preference provisions of section 9(c) of the Reclamation Project Act of 1939 [43 U.S.C. 485h(c)] and as provided in part IV, section A of the Criteria.

''(c) In the marketing and exchanging of Navajo surplus, the Secretary of the Interior shall adopt the plan deemed most acceptable, after consultation with the Secretary of Energy, the Governor of Arizona, and the Central Arizona Water Conservation District (or its successor in interest to the repayment obligation for the Central Arizona project), for the purposes of optimizing the availability of Navajo surplus and providing financial assistance in the timely construction and repayment of construction costs of authorized features of the Central Arizona project. The Secretary of the Interior, in concert with the Secretary of Energy, in accordance with section 14 of the Reclamation Project Act of 1939 [43 U.S.C. 389], shall grant electrical power and energy exchange rights with Arizona entities as necessary to implement the adopted plan: *Provided, however*, That if exchange rights with Arizona entities are not required to implement the adopted plan, exchange rights may be offered to other entities.

''(d) For the purposes provided in subsection (c) of this section, the Secretary of Energy, or the marketing entity or entities under the adopted plan, are authorized to establish and collect or cause to be established and collected, rate components, in addition to those currently authorized, and to deposit the revenues received in the Lower Colorado River Basin Development Fund to be available for such purposes and if required under the adopted plan, to credit, utilize, pay over directly or assign revenues from such additional rate components to make repayment and establish reserves for repayment of funds, including interest incurred, to entities which have advanced funds for the purposes of subsection (c) of this section: *Provided, however*, That rates shall not exceed levels that allow for an appropriate saving for the contractor.

''(e) To the extent that this section may be in conflict with any other provision of law relating to the marketing and exchange of Navajo surplus, or to the disposition of any revenues therefrom, this section shall control.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7139 of this title.

§ 7134. Federal Energy Regulatory Commission; compensation of Chairman and members

There shall be within the Department, a Federal Energy Regulatory Commission established by subchapter IV of this chapter (hereinafter referred to in this chapter as the ''Commission''). The Chairman shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5. The other members of the Commission shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5. The Chairman and members of the Commission shall be individuals who, by demonstrated ability, background, training, or experience, are specially qualified to assess fairly the needs and concerns of all interests affected by Federal energy policy.

(Pub. L. 95–91, title II, § 204, Aug. 4, 1977, 91 Stat. 571.)

§ 7135. Energy Information Administration

(a) Establishment; appointment of Administrator; compensation; qualifications; duties

(1) There shall be within the Department an Energy Information Administration to be headed by an Administrator who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for in level IV of the Executive Schedule under section 5315 of title 5. The Administrator shall be a person who, by reason of professional background and experience, is specially qualified to manage an energy information system.

(2) The Administrator shall be responsible for carrying out a central, comprehensive, and unified energy data and information program which will collect, evaluate, assemble, analyze, and disseminate data and information which is relevant to energy resource reserves, energy production, demand, and technology, and related economic and statistical information, or which is relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

(b) Delegation of functions

The Secretary shall delegate to the Administrator (which delegation may be on a nonexclusive basis as the Secretary may determine may be necessary to assure the faithful execution of his authorities and responsibilities under law) the functions vested in him by law relating to

gathering, analysis, and dissemination of energy information (as defined in section 796 of title 15) and the Administrator may act in the name of the Secretary for the purpose of obtaining enforcement of such delegated functions.

(c) Functions of Director of Office of Energy Information and Analysis

In addition to, and not in limitation of the functions delegated to the Administrator pursuant to other subsections of this section, there shall be vested in the Administrator, and he shall perform, the functions assigned to the Director of the Office of Energy Information and Analysis under part B of the Federal Energy Administration Act of 1974 [15 U.S.C. 790 et seq.], and the provisions of sections 53(d) and 59 thereof [15 U.S.C. 790b(d), 790h] shall be applicable to the Administrator in the performance of any function under this chapter.

(d) Collection or analysis of information and preparation of reports without approval

The Administrator shall not be required to obtain the approval of any other officer or employee of the Department in connection with the collection or analysis of any information; nor shall the Administrator be required, prior to publication, to obtain the approval of any other officer or employee of the United States with respect to the substance of any statistical or forecasting technical reports which he has prepared in accordance with law.

(e) Annual audit

The Energy Information Administration shall be subject to an annual professional audit review of performance as described in section 55[1] of part B of the Federal Energy Administration Act of 1974.

(f) Furnishing information or analysis to any other administration, commission, or office within Department

The Administrator shall, upon request, promptly provide any information or analysis in his possession pursuant to this section to any other administration, commission, or office within the Department which such administration, commission, or office determines relates to the functions of such administration, commission, or office.

(g) Availability of information to public

Information collected by the Energy Information Administration shall be cataloged and, upon request, any such information shall be promptly made available to the public in a form and manner easily adaptable for public use, except that this subsection shall not require disclosure of matters exempted from mandatory disclosure by section 552(b) of title 5. The provisions of section 796(d) of title 15, and section 5916 of this title, shall continue to apply to any information obtained by the Administrator under such provisions.

[1] See References in Text note below.

(h) Identification and designation of "major energy producing companies"; format for financial report; accounting practices; filing of financial report; annual report of Department; definitions; confidentiality

(1)(A) In addition to the acquisition, collection, analysis, and dissemination of energy information pursuant to this section, the Administrator shall identify and designate ''major energy-producing companies'' which alone or with their affiliates are involved in one or more lines of commerce in the energy industry so that the energy information collected from such major energy-producing companies shall provide a statistically accurate profile of each line of commerce in the energy industry in the United States.

(B) In fulfilling the requirements of this subsection the Administrator shall—

(i) utilize, to the maximum extent practicable, consistent with the faithful execution of his responsibilities under this chapter, reliable statistical sampling techniques; and

(ii) otherwise give priority to the minimization of the reporting of energy information by small business.

(2) The Administrator shall develop and make effective for use during the second full calendar year following August 4, 1977, the format for an energy-producing company financial report. Such report shall be designed to allow comparison on a uniform and standardized basis among energy-producing companies and shall permit for the energy-related activities of such companies—

(A) an evaluation of company revenues, profits, cash flow, and investments in total, for the energy-related lines of commerce in which such company is engaged and for all significant energy-related functions within such company;

(B) an analysis of the competitive structure of sectors and functional groupings within the energy industry;

(C) the segregation of energy information, including financial information, describing company operations by energy source and geographic area;

(D) the determination of costs associated with exploration, development, production, processing, transportation, and marketing and other significant energy-related functions within such company; and

(E) such other analyses or evaluations as the Administrator finds is necessary to achieve the purposes of this chapter.

(3) The Administrator shall consult with the Chairman of the Securities and Exchange Commission with respect to the development of accounting practices required by the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.] to be followed by persons engaged in whole or in part in the production of crude oil and natural gas and shall endeavor to assure that the energy-producing company financial report described in paragraph (2) of this subsection, to the extent practicable and consistent with the purposes and provisions of this chapter, is consistent with such accounting practices where applicable.

(4) The Administrator shall require each major energy-producing company to file with the Administrator an energy-producing company financial report on at least an annual basis and may request energy information described in such report on a quarterly basis if he determines that such quarterly report of information will substantially assist in achieving the purposes of this chapter.

(5) A summary of information gathered pursuant to this section, accompanied by such analysis as the Administrator deems appropriate, shall be included in the annual report of the Department required by subsection (a)[2] of section 7267 of this title.

(6) As used in this subsection the term—

(A) ''energy-producing company'' means a person engaged in:

(i) ownership or control of mineral fuel resources or nonmineral energy resources;

(ii) exploration for, or development of, mineral fuel resources;

(iii) extraction of mineral fuel or nonmineral energy resources;

(iv) refining, milling, or otherwise processing mineral fuels or nonmineral energy resources;

(v) storage of mineral fuels or nonmineral energy resources;

(vi) the generation, transmission, or storage of electrical energy;

(vii) transportation of mineral fuels or nonmineral energy resources by any means whatever; or

(viii) wholesale or retail distribution of mineral fuels, nonmineral energy resources or electrical energy;

(B) ''energy industry'' means all energy-producing companies; and

(C) ''person'' has the meaning as set forth in section 796 of title 15.

(7) The provisions of section 1905 of title 18 shall apply in accordance with its terms to any information obtained by the Administration pursuant to this subsection.

(i) Manufacturers energy consumption survey

(1) The Administrator shall conduct and publish the results of a survey of energy consumption in the manufacturing industries in the United States at least once every two years and in a manner designed to protect the confidentiality of individual responses. In conducting the survey, the Administrator shall collect information, including—

(A) quantity of fuels consumed;

(B) energy expenditures;

(C) fuel switching capabilities; and

(D) use of nonpurchased sources of energy, such as solar, wind, biomass, geothermal, waste by-products, and cogeneration.

(2) This subsection does not affect the authority of the Administrator to collect data under section 52 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a).

(j) Collection and publication of survey results

(1) The Administrator shall annually collect and publish the results of a survey of electricity production from domestic renewable energy resources, including production in kilowatt hours, total installed capacity, capacity factor, and any other measure of production efficiency. Such results shall distinguish between various renewable energy resources.

(2) In carrying out this subsection, the Administrator shall—

(A) utilize, to the maximum extent practicable and consistent with the faithful execution of his responsibilities under this chapter, reliable statistical sampling techniques; and

(B) otherwise take into account the reporting burdens of energy information by small businesses.

(3) As used in this subsection, the term ''renewable energy resources'' includes energy derived from solar thermal, geothermal, biomass, wind, and photovoltaic resources.

(k) Survey procedure

Pursuant to section 52(a) of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a(a)), the Administrator shall—

(1) conduct surveys of residential and commercial energy use at least once every 3 years, and make such information available to the public;

(2) when surveying electric utilities, collect information on demand-side management programs conducted by such utilities, including information regarding the types of demand-side management programs being operated, the quantity of measures installed, expenditures on demand-side management programs, estimates of energy savings resulting from such programs, and whether the savings estimates were verified; and

(3) in carrying out this subsection, take into account reporting burdens and the protection of proprietary information as required by law.

***(l)* Data collection**

In order to improve the ability to evaluate the effectiveness of the Nation's energy efficiency policies and programs, the Administrator shall, in carrying out the data collection provisions of subsections (i) and (k) of this section, consider—

(1) expanding the survey instruments to include questions regarding participation in Government and utility conservation programs;

(2) expanding fuel-use surveys in order to provide greater detail on energy use by user subgroups; and

(3) expanding the scope of data collection on energy efficiency and load-management programs, including the effects of building construction practices such as those designed to obtain peak load shifting.

L. 93–438, Oct. 11, 1974, 88 Stat. 1233, as amended, which is classified principally to chapter 73 (§5801 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 5801 of this title and Tables.

CODIFICATION

Section was enacted as part of the Department of Energy Act of 1978—Civilian Applications, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7136. Economic Regulatory Administration; appointment of Administrator; compensation; qualifications; functions

(a) There shall be within the Department an Economic Regulatory Administration to be headed by an Administrator, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at a rate provided for level IV of the Executive Schedule under section 5315 of title 5. Such Administrator shall be, by demonstrated ability, background, training, or experience, an individual who is specially qualified to assess fairly the needs and concerns of all interests affected by Federal energy policy. The

Secretary shall by rule provide for a separation of regulatory and enforcement functions assigned to, or vested in, the Administration.

(b) Consistent with the provisions of subchapter IV of this chapter, the Secretary shall utilize the Economic Regulatory Administration to administer such functions as he may consider appropriate.

(Pub. L. 95–91, title II, § 206, Aug. 4, 1977, 91 Stat. 574.)

§ 7137. Functions of Comptroller General

The functions of the Comptroller General of the United States under section 771 of title 15 shall apply with respect to the monitoring and evaluation of all functions and activities of the Department under this chapter or any other Act administered by the Department.

(Pub. L. 95–91, title II, § 207, Aug. 4, 1977, 91 Stat. 574.)

§ 7138. Repealed. Pub. L. 100–504, title I, § 102(e)(1)(A), Oct. 18, 1988, 102 Stat. 2517

Section, Pub. L. 95–91, title II, § 208, Aug. 4, 1977, 91 Stat. 575; Pub. L. 96–226, title II, § 202, Apr. 3, 1980, 94 Stat. 315; Pub. L. 97–375, title II, § 205, Dec. 21, 1982, 96 Stat. 1823, related to the Office of Inspector General in the Department of Energy, providing for (a) appointment and confirmation of Inspector General and Deputy Inspector General, removal, assistants, and compensation; (b) duties and responsibilities of Inspector General; (c) semiannual reports to Secretary and Congress; (d) report on problems, abuses, or deficiencies relating to administration of Department programs and operations; (e) additional investigations and reports; (f) transmittal of reports, information, or documents without clearance or approval; (g) additional authority of Inspector General; (h) auditing requirements; (i) avoidance of duplication and coordination and cooperation with activities of Comptroller General; and (j) report of violations of Federal criminal law to Attorney General. See section 9 of Pub. L. 95–452, Inspector General Act of 1978, as amended, set out in the Appendix to Title 5, Government Organization and Employees.

EFFECTIVE DATE OF REPEAL

Repeal effective 180 days after Oct. 18, 1988, see section 113 of Pub. L. 100–504, set out as an Effective Date of 1988 Amendment note under section 5 of Pub. L. 95–452 [Inspector General Act of 1978] in the Appendix to Title 5, Government Organization and Employees.

§ 7139. Office of Science; establishment; appointment of Director; compensation; duties

(a) There shall be within the Department an Office of Science to be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5.

(b) It shall be the duty and responsibility of the Director—

(1) to advise the Secretary with respect to the physical research program transferred to the Department from the Energy Research and Development Administration;

(2) to monitor the Department's energy research and development programs in order to advise the Secretary with respect to any undesirable duplication or gaps in such programs;

(3) to advise the Secretary with respect to the well-being and management of the multipurpose laboratories under the jurisdiction of the Department, excluding laboratories that constitute part of the nuclear weapons complex;

(4) to advise the Secretary with respect to education and training activities required for effective short- and long-term basic and applied research activities of the Department;

(5) to advise the Secretary with respect to grants and other forms of financial assistance required for effective short- and long-term basic and applied research activities of the Department; and

(6) to carry out such additional duties assigned to the Office by the Secretary relating to basic and applied research, including but not limited to supervision or support of research activities carried out by any of the Assistant Secretaries designated by section 7133 of this title, as the Secretary considers advantageous.

(Pub. L. 95–91, title II, § 209, Aug. 4, 1977, 91 Stat. 577; Pub. L. 105–245, title III, § 309(a), Oct. 7, 1998, 112 Stat. 1853.)

AMENDMENTS

1998—Pub. L. 105–245 substituted ''Office of Science'' for ''Office of Energy Research'' in section catchline and in subsec. (a).

§ 7140. Leasing Liaison Committee; establishment; composition

There is established a Leasing Liaison Committee which shall be composed of an equal number of members appointed by the Secretary and the Secretary of the Interior.

(Pub. L. 95–91, title II, § 210, Aug. 4, 1977, 91 Stat. 577.)

§ 7141. Office of Minority Economic Impact

(a) Establishment; appointment of Director; compensation

There shall be established within the Department an Office of Minority Economic Impact. The Office shall be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate. The Director shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5.

(b) Advice to Secretary on effect of energy policies, regulations, and other actions of Department respecting minority participation in energy programs

The Director shall have the duty and responsibility to advise the Secretary on the effect of energy policies, regulations, and other actions of the Department and its components on minorities and minority business enterprises and on ways to insure that minorities are afforded an opportunity to participate fully in the energy programs of the Department.

(c) Research programs respecting effects of national energy programs, policies, and regulations of Department on minorities

The Director shall conduct an ongoing research program, with the assistance of the Administrator of the Energy Information Adminis-

tration, and such other Federal agencies as the Director determines appropriate, to determine the effects (including the socio-economic and environmental effects) of national energy programs, policies, and regulations of the Department on minorities. In conducting such program, the Director shall, from time to time, develop and recommend to the Secretary policies to assist, where appropriate, such minorities and minority business enterprises concerning such effects. In addition, the Director shall, to the greatest extent practicable—

(1) determine the average energy consumption and use patterns of minorities relative to other population categories;

(2) evaluate the percentage of disposable income spent on energy by minorities relative to other population categories; and

(3) determines how programs, policies, and actions of the Department and its components affect such consumption and use patterns and such income.

(d) Management and technical assistance to minority educational institutions and business enterprises to foster participation in research, development, demonstration, and contract activities of Department

The Director may provide the management any[1] technical assistance he considers appropriate to minority educational institutions and minority business enterprises to enable these enterprises and institutions to participate in the research, development, demonstration, and contract activities of the Department. In carrying out his functions under this section, the Director may enter into contracts, in accordance with section 7256 of this title and other applicable provisions of law, with any person, including minority educational institutions, minority business enterprises, and organizations the primary purpose of which is to assist the development of minority communities. The management and technical assistance may include—

(1) a national information clearinghouse which will develop and disseminate information on the aspects of energy programs to minority business enterprises, minority educational institutions and other appropriate minority organizations;

(2) market research, planning economic and business analysis, and feasibility studies to identify and define economic opportunities for minorities in energy research, production, conservation, and development;

(3) technical assistance programs to encourage, promote, and assist minority business enterprises in establishing and expanding energy-related business opportunities which are located in minority communities and that can provide jobs to workers in such communities; and

(4) programs to assist minority business enterprises in the commercial application of energy-related technologies.

(e) Loans to minority business enterprises; restriction on use of funds; interest; deposits into Treasury

(1) The Secretary, acting through the Office, may provide financial assistance in the form of loans to any minority business enterprise under such rules as he shall prescribe to assist such enterprises in participating fully in research, development, demonstration, and contract activities of the Department to the extent he considers appropriate. He shall limit the use of financial assistance to providing funds necessary for such enterprises to bid for and obtain contracts or other agreements, and shall limit the amount of the financial assistance to any recipient to not more than 75 percent of such costs.

(2) The Secretary shall determine the rate of interest on loans under this section in consultation with the Secretary of the Treasury.

(3) The Secretary shall deposit into the Treasury as miscellaneous receipts amounts received in connection with the repayment and satisfaction of such loans.

(f) Definitions

As used in this section, the term—

(1) ''minority'' means any individual who is a citizen of the United States and who is a Negro, Puerto Rican, American Indian, Eskimo, Oriental, or Aleut or is a Spanish speaking individual of Spanish descent;

(2) ''minority business enterprise'' means a firm, corporation, association, or partnership which is at least 50 percent owned or controlled by a minority or group of minorities; and

(3) ''minority educational institution'' means an educational institution with an enrollment in which a substantial proportion (as determined by the Secretary) of the students are minorities.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the functions of the Office not to exceed $3,000,000 for fiscal year 1979, not to exceed $5,000,000 for fiscal year 1980, and not to exceed $6,000,000 for fiscal year 1981. Of the amounts so appropriated each fiscal year, not less than 50 percent shall be available for purposes of financial assistance under subsection (e) of this section.

(Pub. L. 95–91, title II, § 211, as added Pub. L. 95–619, title VI, § 641, Nov. 9, 1978, 92 Stat. 3284.)

§ 7142. National Atomic Museum

(a) Recognition and status

The museum operated by the Department of Energy and currently located at Building 20358 on Wyoming Avenue South near the corner of M street within the confines of the Kirtland Air Force Base (East), Albuquerque, New Mexico—

(1) is recognized as the official atomic museum of the United States;

(2) shall be known as the ''National Atomic Museum''; and

(3) shall have the sole right throughout the United States and its possessions to have and use the name ''National Atomic Museum''.

(b) Volunteers

(1) In operating the National Atomic Museum, the Secretary of Energy may—

(A) recruit, train, and accept the services of individuals without compensation as volunteers for, or in aid of, interpretive functions or

[1] So in original. Probably should be ''and''.

other services or activities of and related to the museum; and

(B) provide to volunteers incidental expenses, such as nominal awards, uniforms, and transportation.

(2) Except as provided in paragraphs (3) and (4), a volunteer who is not otherwise employed by the Federal Government is not subject to laws relating to Federal employment, including those relating to hours of work, rates of compensation, leave, unemployment compensation, and Federal employee benefits, because of service as a volunteer under this subsection.

(3) For purposes of chapter 171 of title 28 (relating to tort claims), a volunteer under this subsection is considered a Federal employee.

(4) For the purposes of subchapter I of chapter 81 of title 5 (relating to compensation for work-related injuries), a volunteer under this subsection is considered an employee of the United States.

(c) Authority

(1) In operating the National Atomic Museum, the Secretary of Energy may—

(A) accept and use donations of money or gifts pursuant to section 7262[1] of this title, if such gifts or money are designated in a written document signed by the donor as intended for the museum, and such donations or gifts are determined by the Secretary to be suitable and beneficial for use by the museum;

(B) operate a retail outlet on the premises of the museum for the purpose of selling or distributing mementos, replicas of memorabilia, literature, materials, and other items of an informative, educational, and tasteful nature relevant to the contents of the museum; and

(C) exhibit, perform, display, and publish information and materials concerning museum mementos, items, memorabilia, and replicas thereof in any media or place anywhere in the world, at reasonable fees or charges where feasible and appropriate, to substantially cover costs.

(2) The net proceeds of activities authorized under subparagraphs (B) and (C) of paragraph (1) may be used by the National Atomic Museum for activities of the museum.

(Pub. L. 102–190, div. C, title XXXI, § 3137, Dec. 5, 1991, 105 Stat. 1578; Pub. L. 103–35, title II, § 203(b)(4), May 31, 1993, 107 Stat. 102.)

REFERENCES IN TEXT

Section 7262 of this title, referred to in subsec. (c)(1)(A), was repealed by Pub. L. 104–206, title V, § 502, Sept. 30, 1996, 110 Stat. 3002.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1993—Subsec. (c)(1). Pub. L. 103–35 struck out comma after ''Secretary of Energy'' in introductory provisions.

[1] See References in Text note below.

§ 7142a. Designation of American Museum of Science and Energy

(a) In general

The Museum—

(1) is designated as the ''American Museum of Science and Energy''; and

(2) shall be the official museum of science and energy of the United States.

(b) References

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Museum is deemed to be a reference to the ''American Museum of Science and Energy''.

(c) Property of the United States

(1) In general

The name ''American Museum of Science and Energy'' is declared the property of the United States.

(2) Use

The Museum shall have the sole right throughout the United States and its possessions to have and use the name ''American Museum of Science and Energy''.

(3) Effect on other rights

This subsection shall not be construed to conflict or interfere with established or vested rights.

(Pub. L. 106–554, § 1(a)(4) [div. B, title IV, § 401], Dec. 21, 2000, 114 Stat. 2763, 2763A–266.)

CODIFICATION

Section was enacted as part of the Miscellaneous Appropriations Act, 2001, and also as part of the Consolidated Appropriations Act, 2001, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7142d of this title.

§ 7142b. Authority

To carry out the activities of the Museum, the Secretary may—

(1) accept and dispose of any gift, devise, or bequest of services or property, real or personal, that is—

(A) designated in a written document by the person making the gift, devise, or bequest as intended for the Museum; and

(B) determined by the Secretary to be suitable and beneficial for use by the Museum;

(2) operate a retail outlet on the premises of the Museum for the purpose of selling or distributing items (including mementos, food, educational materials, replicas, and literature) that are—

(A) relevant to the contents of the Museum; and

(B) informative, educational, and tasteful;

(3) collect reasonable fees where feasible and appropriate;

(4) exhibit, perform, display, and publish materials and information of or relating to the Museum in any media or place;

(5) consistent with guidelines approved by the Secretary, lease space on the premises of the Museum at reasonable rates and for uses consistent with such guidelines; and

(6) use the proceeds of activities authorized under this section to pay the costs of the Museum.

(Pub. L. 106–554, § 1(a)(4) [div. B, title IV, § 402], Dec. 21, 2000, 114 Stat. 2763, 2763A–267.)

CODIFICATION

Section was enacted as part of the Miscellaneous Appropriations Act, 2001, and also as part of the Consolidated Appropriations Act, 2001, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7142d of this title.

§ 7142c. Museum volunteers

(a) Authority to use volunteers

The Secretary may recruit, train, and accept the services of individuals or entities as volunteers for services or activities related to the Museum.

(b) Status of volunteers

(1) In general

Except as provided in paragraph (2), service by a volunteer under subsection (a) of this section shall not be considered Federal employment.

(2) Exceptions

(A) Federal Tort Claims Act

For purposes of chapter 171 of title 28, a volunteer under subsection (a) of this section shall be treated as an employee of the Government (as defined in section 2671 of that title).

(B) Compensation for work injuries

For purposes of subchapter I of chapter 81 of title 5, a volunteer described in subsection (a) of this section shall be treated as an employee (as defined in section 8101 of title 5).

(c) Compensation

A volunteer under subsection (a) of this section shall serve without pay, but may receive nominal awards and reimbursement for incidental expenses, including expenses for a uniform or transportation in furtherance of Museum activities.

(Pub. L. 106–554, § 1(a)(4) [div. B, title IV, § 403], Dec. 21, 2000, 114 Stat. 2763, 2763A–267.)

CODIFICATION

Section was enacted as part of the Miscellaneous Appropriations Act, 2001, and also as part of the Consolidated Appropriations Act, 2001, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7142d of this title.

§ 7142d. Definitions

For purposes of sections 7142a to 7142d of this title:

(1) Museum

The term ''Museum'' means the museum operated by the Secretary of Energy and located at 300 South Tulane Avenue in Oak Ridge, Tennessee.

(2) Secretary

The term ''Secretary'' means the Secretary of Energy or a designated representative of the Secretary.

(Pub. L. 106–554, § 1(a)(4) [div. B, title IV, § 404], Dec. 21, 2000, 114 Stat. 2763, 2763A–268.)

REFERENCES IN TEXT

Sections 7142a to 7142d of this title, referred to in text, was in the original ''this Act'', and was translated as reading ''this title'', meaning § 1(a)(4) [div. B, title IV] of Pub. L. 106–554, which enacted sections 7142a to 7142d of this title, to reflect the probable intent of Congress.

CODIFICATION

Section was enacted as part of the Miscellaneous Appropriations Act, 2001, and also as part of the Consolidated Appropriations Act, 2001, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7143. Repealed. Pub. L. 106–65, div. C, title XXXII, § 3294(d)(1), Oct. 5, 1999, 113 Stat. 970

Section, Pub. L. 95–91, title II, § 212, as added Pub. L. 103–337, div. C, title XXXI, § 3158(a), Oct. 5, 1994, 108 Stat. 3093, established the Office of Fissile Materials Disposition.

EFFECTIVE DATE OF REPEAL

Repeal effective Mar. 1, 2000, see section 3299 of Pub. L. 106–65, set out as an Effective Date note under section 2401 of Title 50, War and National Defense.

§ 7144. Establishment of policy for National Nuclear Security Administration

(a) Responsibility for establishing policy

The Secretary shall be responsible for establishing policy for the National Nuclear Security Administration.

(b) Review of programs and activities

The Secretary may direct officials of the Department who are not within the National Nuclear Security Administration to review the programs and activities of the Administration and to make recommendations to the Secretary regarding administration of those programs and activities, including consistency with other similar programs and activities of the Department.

(c) Staff

The Secretary shall have adequate staff to support the Secretary in carrying out the Secretary's responsibilities under this section.

(Pub. L. 95–91, title II, § 213, as added Pub. L. 106–65, div. C, title XXXII, § 3203(a), Oct. 5, 1999, 113 Stat. 954.)

EFFECTIVE DATE

Section effective Mar. 1, 2000, see section 3299 of Pub. L. 106–65, set out as a note under section 2401 of Title 50, War and National Defense.

§ 7144a. Establishment of security, counterintelligence, and intelligence policies

The Secretary shall be responsible for developing and promulgating the security, counter-

intelligence, and intelligence policies of the Department. The Secretary may use the immediate staff of the Secretary to assist in developing and promulgating those policies.

(Pub. L. 95–91, title II, § 214, as added Pub. L. 106–65, div. C, title XXXII, § 3204(a), Oct. 5, 1999, 113 Stat. 955.)

EFFECTIVE DATE

Section effective Oct. 5, 1999, see section 3299 of Pub. L. 106–65, set out as a note under section 2401 of Title 50, War and National Defense.

§ 7144b. Office of Counterintelligence

(a) Establishment

There is within the Department an Office of Counterintelligence.

(b) Director

(1) The head of the Office shall be the Director of the Office of Counterintelligence, which shall be a position in the Senior Executive Service. The Director of the Office shall report directly to the Secretary.

(2) The Secretary shall select the Director of the Office from among individuals who have substantial expertise in matters relating to counterintelligence.

(3) The Director of the Federal Bureau of Investigation may detail, on a reimbursable basis, any employee of the Bureau to the Department for service as Director of the Office. The service of an employee of the Bureau as Director of the Office shall not result in any loss of status, right, or privilege by the employee within the Bureau.

(c) Duties

(1) The Director of the Office shall be responsible for establishing policy for counterintelligence programs and activities at Department facilities in order to reduce the threat of disclosure or loss of classified and other sensitive information at such facilities.

(2) The Director of the Office shall be responsible for establishing policy for the personnel assurance programs of the Department.

(3) The Director shall inform the Secretary, the Director of Central Intelligence, and the Director of the Federal Bureau of Investigation on a regular basis, and upon specific request by any such official, regarding the status and effectiveness of the counterintelligence programs and activities at Department facilities.

(d) Annual reports

(1) Not later than March 1 each year, the Director of the Office shall submit a report on the status and effectiveness of the counterintelligence programs and activities at each Department facility during the preceding year. Each such report shall be submitted to the following:

(A) The Secretary.

(B) The Director of Central Intelligence.

(C) The Director of the Federal Bureau of Investigation.

(D) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

(E) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) Each such report shall include for the year covered by the report the following:

(A) A description of the status and effectiveness of the counterintelligence programs and activities at Department facilities.

(B) A description of any violation of law or other requirement relating to intelligence, counterintelligence, or security at such facilities, including—

(i) the number of violations that were investigated; and

(ii) the number of violations that remain unresolved.

(C) A description of the number of foreign visitors to Department facilities, including the locations of the visits of such visitors.

(D) The adequacy of the Department's procedures and policies for protecting national security information, making such recommendations to Congress as may be appropriate.

(E) A determination of whether each Department of Energy national laboratory is in full compliance with all departmental security requirements and, in the case of any such laboratory that is not, what measures are being taken to bring that laboratory into compliance.

(3) Not less than 30 days before the date that the report required by paragraph (1) is submitted, the director of each Department of Energy national laboratory shall certify in writing to the Director of the Office whether that laboratory is in full compliance with all departmental security requirements and, if not, what measures are being taken to bring that laboratory into compliance and a schedule for implementing those measures.

(4) Each report under this subsection as submitted to the committees referred to in subparagraphs (D) and (E) of paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(Pub. L. 95–91, title II, § 215, as added Pub. L. 106–65, div. C, title XXXII, § 3204(a), Oct. 5, 1999, 113 Stat. 955.)

EFFECTIVE DATE

Section effective Oct. 5, 1999, see section 3299 of Pub. L. 106–65, set out as a note under section 2401 of Title 50, War and National Defense.

§ 7144c. Office of Intelligence

(a) Establishment

There is within the Department an Office of Intelligence.

(b) Director

(1) The head of the Office shall be the Director of the Office of Intelligence, which shall be a position in the Senior Executive Service. The Director of the Office shall report directly to the Secretary.

(2) The Secretary shall select the Director of the Office from among individuals who have substantial expertise in matters relating to foreign intelligence.

(c) Duties

Subject to the authority, direction, and control of the Secretary, the Director of the Office

shall perform such duties and exercise such powers as the Secretary may prescribe.

(Pub. L. 95–91, title II, §216, as added Pub. L. 106–65, div. C, title XXXII, §3204(a), Oct. 5, 1999, 113 Stat. 956.)

EFFECTIVE DATE

Section effective Oct. 5, 1999, see section 3299 of Pub. L. 106–65, set out as a note under section 2401 of Title 50, War and National Defense.

§ 7144d. Office of Arctic Energy

(a) Establishment

The Secretary of Energy may establish within the Department of Energy an Office of Arctic Energy.

(b) Purposes

The purposes of such office shall be as follows:

(1) To promote research, development, and deployment of electric power technology that is cost-effective and especially well suited to meet the needs of rural and remote regions of the United States, especially where permafrost is present or located nearby.

(2) To promote research, development, and deployment in such regions of—

(A) enhanced oil recovery technology, including heavy oil recovery, reinjection of carbon, and extended reach drilling technologies;

(B) gas-to-liquids technology and liquified natural gas (including associated transportation systems);

(C) small hydroelectric facilities, river turbines, and tidal power;

(D) natural gas hydrates, coal bed methane, and shallow bed natural gas; and

(E) alternative energy, including wind, geothermal, and fuel cells.

(c) Location

The Secretary shall locate such office at a university with expertise and experience in the matters specified in subsection (b) of this section.

(Pub. L. 106–398, §1 [div. C, title XXXI, §3197], Oct. 30, 2000, 114 Stat. 1654, 1654A–482.)

CODIFICATION

Section was enacted as part of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, and not as part of the Department of Energy Organization Act which comprises this chapter.

SUBCHAPTER III—TRANSFERS OF FUNCTIONS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 7301 of this title.

§ 7151. General transfers

(a) Except as otherwise provided in this chapter, there are transferred to, and vested in, the Secretary all of the functions vested by law in the Administrator of the Federal Energy Administration or the Federal Energy Administration, the Administrator of the Energy Research and Development Administration or the Energy Research and Development Administration; and the functions vested by law in the officers and components of either such Administration.

(b) Except as provided in subchapter IV of this chapter, there are transferred to, and vested in, the Secretary the function of the Federal Power Commission, or of the members, officers, or components thereof. The Secretary may exercise any power described in section 7172(a)(2) of this title to the extent the Secretary determines such power to be necessary to the exercise of any function within his jurisdiction pursuant to the preceding sentence.

(Pub. L. 95–91, title III, §301, Aug. 4, 1977, 91 Stat. 577.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

EMERGENCY PREPAREDNESS FUNCTIONS

For assignment of certain emergency preparedness functions to the Secretary of Energy, see Parts 1, 2, and 7 of Ex. Ord. No. 12656, Nov. 18, 1988, 53 F.R. 47491, set out as a note under section 5195 of this title.

EX. ORD. NO. 12038. TRANSFER OF CERTAIN FUNCTIONS TO SECRETARY OF ENERGY

Ex. Ord. No. 12038, Feb. 3, 1978, 43 F.R. 4957, as amended by Ex. Ord. No. 12156, Sept. 10, 1979, 44 F.R. 53073, provided:

By virtue of the authority vested in me as President of the United States of America, in order to reflect the responsibilities of the Secretary of Energy for the performance of certain functions previously vested in other officers of the United States by direction of the President and subsequently transferred to the Secretary of Energy pursuant to the Department of Energy Organization Act (91 Stat. 565; 42 U.S.C. 7101 et seq.) it is hereby ordered as follows:

SECTION 1. *Functions of the Federal Energy Administration.* In accordance with the transfer of all functions vested by law in the Federal Energy Administration, or the Administrator thereof, to the Secretary of Energy pursuant to Section 301(a) of the Department of Energy Organization Act [subsec. (a) of this section], hereinafter referred to as the Act, the Executive Orders and Proclamations referred to in this Section, which conferred authority or responsibility upon the Administrator of the Federal Energy Administration, are amended as follows:

(a) Executive Order No. 11647, as amended [formerly set out as a note under 31 U.S.C. 501], relating to Federal Regional Councils, is further amended by deleting ''The Federal Energy Administration'' in Section 1(a)(10) and substituting ''The Department of Energy'', and by deleting ''The Deputy Administrator of the Federal Energy Administration'' in Section 3(a)(10) and substituting ''The Deputy Secretary of Energy''.

(b) Executive Order No. 11790 of June 25, 1974 [set out as a note under 15 U.S.C. 761], relating to the Federal Energy Administration Act of 1974, is amended by deleting ''Administrator of the Federal Energy Administration'' and ''Administrator'' wherever they appear in Sections 1 through 6 and substituting ''Secretary of Energy'' and ''Secretary'', respectively, and by deleting Section 7 through 10.

(c) Executive Order No. 11912, as amended [set out as a note under 42 U.S.C. 6201], relating to energy policy and conservation, and Proclamation No. 3279, as amended [set out as a note under 19 U.S.C. 1862], relating to imports of petroleum and petroleum products, are further amended by deleting ''Administrator of the

Federal Energy Administration'', ''Federal Energy Administration'', and ''Administrator'' (when used in reference to the Federal Energy Administration) wherever those terms appear and by substituting ''Secretary of Energy'', ''Department of Energy'', and ''Secretary'', respectively, and by deleting ''the Administrator of Energy Research and Development'' in Section 10(a)(1) of Executive Order No. 11912, as amended.

SEC. 2. *Functions of the Federal Power Commission*. In accordance with the transfer of functions vested in the Federal Power Commission to the Secretary of Energy pursuant to Section 301(b) of the Act [subsec. (b) of this section], the Executive Orders referred to in this Section, which conferred authority or responsibility upon the Federal Power Commission, or Chairman thereof, are amended or modified as follows:

(a) Executive Order No. 10485 of September 3, 1953, [set out as a note under 15 U.S.C. 717b], relating to certain facilities at the borders of the United States is amended by deleting Section 2 thereof, and by deleting ''Federal Power Commission'' and ''Commission'' wherever those terms appear in Sections 1, 3 and 4 of such Order and substituting for each ''Secretary of Energy''.

(b) Executive Order No. 11969 of February 2, 1977 [formerly set out as a note under 15 U.S.C. 717], relating to the administration of the Emergency Natural Gas Act of 1977 [formerly set out as a note under 15 U.S.C. 717], is hereby amended by deleting the second sentence in Section 1, by deleting ''the Secretary of the Interior, the Administrator of the Federal Energy Administration, other members of the Federal Power Commission and in Section 2, and by deleting ''Chairman of the Federal Power Commission'' and ''Chairman'' wherever those terms appear and substituting therefor ''Secretary of Energy'' and ''Secretary'', respectively.

(c) Paragraph (2) of Section 3 of Executive Order No. 11331, as amended [formerly set out as a note under 42 U.S.C. 1962b], relating to the Pacific Northwest River Basins Commission, is hereby amended by deleting ''from each of the following Federal departments and agencies'' and substituting therefor ''to be appointed by the head of each of the following Executive agencies'', by deleting ''Federal Power Commission'' and substituting therefor ''Department of Energy'', and by deleting ''such member to be appointed by the head of each department or independent agency he represents,''.

SEC. 3. *Functions of the Secretary of the Interior*. In accordance with the transfer of certain functions vested in the Secretary of the Interior to the Secretary of Energy pursuant to Section 302 of the Act [42 U.S.C. 7152], the Executive Orders referred to in this Section, which conferred authority or responsibility on the Secretary of the Interior, are amended or modified as follows:

(a) Sections 1 and 4 of Executive Order No. 8526 of August 27, 1940, relating to functions of the Bonneville Power Administration, are hereby amended by substituting ''Secretary of Energy'' for ''Secretary of the Interior'', by adding ''of the Interior'' after ''Secretary'' in Sections 2 and 3, and by adding ''and the Secretary of Energy,'' after ''the Secretary of the Interior'' wherever the latter term appears in Section 5.

(b) Executive Order No. 11177 of September 16, 1964, relating to the Columbia River Treaty, is amended by deleting ''Secretary of the Interior'' and ''Department of the Interior'' wherever those terms appear and substituting therefor ''Secretary of Energy'' and ''Department of Energy'', respectively.

SEC. 4. *Functions of the Atomic Energy Commission and the Energy Research and Development Administration*.

(a) In accordance with the transfer of all functions vested by law in the Administrator of Energy Research and Development to the Secretary of Energy pursuant to Section 301(a) of the Act [subsec. (a) of this section] the Executive Orders referred to in this Section are amended or modified as follows:

(1) All current Executive Orders which refer to functions of the Atomic Energy Commission, including Executive Order No. 10127, as amended; Executive Order No. 10865, as amended [set out as a note under 50 U.S.C. 435]; Executive Order No. 10899 of December 9, 1960 [set out as a note under 42 U.S.C. 2162]; Executive Order No. 11057 of December 18, 1962 [set out as a note under 42 U.S.C. 2162]; Executive Order No. 11477 of August 7, 1969 [set out as a note under 42 U.S.C. 2187]; Executive Order No. 11752 of December 17, 1973 [formerly set out as a note under 42 U.S.C. 4331]; and Executive Order No. 11761 of January 17, 1974 [formerly set out as a note under 20 U.S.C. 1221]; are modified to provide that all such functions shall be exercised by (1) the Secretary of Energy to the extent consistent with the functions of the Atomic Energy Commission that were transferred to the Administrator of Energy Research and Development pursuant to the Energy Organization Act of 1974 (Public Law 93–438; 88 Stat. 1233) [42 U.S.C. 5801 et seq.], and (2) the Nuclear Regulatory Commission to the extent consistent with the functions of the Atomic Energy Commission that were transferred to the Commission by the Energy Reorganization Act of 1974 [42 U.S.C. 5801 et seq.].

(2) Executive Order No. 11652, as amended [formerly set out as a note under 50 U.S.C. 435], relating to the classification of national security matters, is further amended by substituting ''Department of Energy'' for ''Energy Research and Development Administration'' in Sections 2(A), 7(A) and 8 and by deleting ''Federal Power Commission'' in Section 2(B)(3).

(3) Executive Order No. 11902 of February 2, 1976 [formerly set out as a note under 42 U.S.C. 5841], relating to export licensing policy for nuclear materials and equipment, is amended by substituting ''the Secretary of Energy'' for ''the Administrator of the United States Energy Research and Development Administration, hereinafter referred to as the Administrator'' in Section 1(b) and for the ''Administrator'' in Sections 2 and 3.

(4) Executive Order No. 11905, as amended, [formerly set out as a note under 50 U.S.C. 401], relating to foreign intelligence activities, is further amended by deleting ''Energy Research and Development Administration'', ''Administrator or the Energy Research and Development Administration'', and ''ERDA'' wherever those terms appear and substituting ''Department of Energy'', ''Secretary of Energy'', and ''DOE'' respectively.

(5) Section 3(2) of each of the following Executive Orders is amended by substituting ''Department of Energy'' for ''Energy Research and Development Administration'':

(i) Executive Order No. 11345, as amended [formerly set out as a note under 42 U.S.C. 1962b], establishing the Great Lakes River Basin Commission.

(ii) Executive Order No. 11371, as amended [formerly set out as a note under 42 U.S.C. 1962b], establishing the New England River Basin Commission.

(iii) Executive Order No. 11578, as amended [formerly set out as a note under 42 U.S.C. 1962b], establishing the Ohio River Basin Commission.

(iv) Executive Order No. 11658, as amended [formerly set out as a note under 42 U.S.C. 1962b], establishing the Missouri River Basin Commission.

(v) Executive Order No. 11659, as amended [formerly set out as a note under 42 U.S.C. 1962b], establishing the Mississippi River Basin Commission.

SEC. 5. *Special Provisions Relating to Emergency Preparedness and Mobilization Functions*.

(a) Executive Order No. 10480, as amended [formerly set out as a note under 50 App. U.S.C. 2153], is further amended by adding thereto the following new Sections:

''Sec. 609. Effective October 1, 1977, the Secretary of Energy shall exercise all authority and discharge all responsibility herein delegated to or conferred upon (a) the Atomic Energy Commission, and (b) with respect to petroleum, gas, solid fuels and electric power, upon the Secretary of the Interior.

''Sec. 610. Whenever the Administrator of General Services believes that the functions of an Executive agency have been modified pursuant to law in such manner as to require the amendment of any Executive order which relates to the assignment of emergency

preparedness functions or the administration of mobilization programs, he shall promptly submit any proposals for the amendment of such Executive orders to the Director of the Office of Management and Budget in accordance with the provisions of Executive Order No. 11030, as amended [set out as a note under 44 U.S.C. 1505].

(b) Executive Order No. 11490, as amended [formerly set out as a note under 50 App. U.S.C. 2251], is further amended by adding thereto the following new section:

''Sec. 3016. Effective October 1, 1977, the Secretary of Energy shall exercise all authority and discharge all responsibility herein delegated to or conferred upon (a) the Federal Power Commission, (b) the Energy Research and Development Administration, and (c) with respect to electric power, petroleum, gas and solid fuels, upon the Department of the Interior.''.

SEC. 6. This Order shall be effective as of October 1, 1977, the effective date of the Department of Energy Organization Act [this chapter] pursuant to the provisions of section 901 [42 U.S.C. 7341] thereof and Executive Order No. 12009 of September 13, 1977 [formerly set out as a note under 42 U.S.C. 7341], and all actions taken by the Secretary of Energy on or after October 1, 1977, which are consistent with the foregoing provisions are entitled to full force and effect.

JIMMY CARTER.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7159, 7174 of this title; title 15 section 3418; title 16 section 824a–4.

§ 7151a. Jurisdiction over matters transferred from Energy Research and Development Administration

Notwithstanding any other provision of law, jurisdiction over matters transferred to the Department of Energy from the Energy Research and Development Administration which on the effective date of such transfer were required by law, regulation, or administrative order to be made on the record after an opportunity for an agency hearing may be assigned to the Federal Energy Regulatory Commission or retained by the Secretary at his discretion.

(Pub. L. 95–238, title I, §104(a), Feb. 25, 1978, 92 Stat. 53.)

CODIFICATION

Section was enacted as part of the Department of Energy Act of 1978—Civilian Applications, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7152. Transfers from Department of the Interior

(a) Functions relating to electric power

(1) There are transferred to, and vested in, the Secretary all functions of the Secretary of the Interior under section 825s of title 16, and all other functions of the Secretary of the Interior, and officers and components of the Department of the Interior, with respect to—

(A) the Southeastern Power Administration;

(B) the Southwestern Power Administration;

(C) the Bonneville Power Administration including but not limited to the authority contained in the Bonneville Project Act of 1937 [16 U.S.C. 832 et seq.] and the Federal Columbia River Transmission System Act [16 U.S.C. 838 et seq.];

(D) the power marketing functions of the Bureau of Reclamation, including the construction, operation, and maintenance of transmission lines and attendant facilities; and

(E) the transmission and disposition of the electric power and energy generated at Falcon Dam and Amistad Dam, international storage reservoir projects on the Rio Grande, pursuant to the Act of June 18, 1954, as amended by the Act of December 23, 1963.

(2) The Southeastern Power Administration, the Southwestern Power Administration, and the Bonneville Power Administration,[1] shall be preserved as separate and distinct organizational entities within the Department. Each such entity shall be headed by an Administrator appointed by the Secretary. The functions transferred to the Secretary in paragraphs (1)(A), (1)(B), (1)(C), and (1)(D) shall be exercised by the Secretary, acting by and through such Administrators. Each such Administrator shall maintain his principal office at a place located in the region served by his respective Federal power marketing entity.

(3) The functions transferred in paragraphs (1)(E) and (1)(F)[2] of this subsection shall be exercised by the Secretary, acting by and through a separate and distinct Administration within the Department which shall be headed by an Administrator appointed by the Secretary. The Administrator shall establish and shall maintain such regional offices as necessary to facilitate the performance of such functions. Neither the transfer of functions effected by paragraph (1)(E) of this subsection nor any changes in cost allocation or project evaluation standards shall be deemed to authorize the reallocation of joint costs of multipurpose facilities theretofore allocated unless and to the extent that such change is hereafter approved by Congress.

(b), (c) Repealed. Pub. L. 97–100, title II, § 201, Dec. 23, 1981, 95 Stat. 1407

(d) Functions of Bureau of Mines

There are transferred to, and vested in, the Secretary those functions of the Secretary of the Interior, the Department of the Interior, and officers and components of that Department under the Act of May 15, 1910, and other authorities, exercised by the Bureau of Mines, but limited to—

(1) fuel supply and demand analysis and data gathering;

(2) research and development relating to increased efficiency of production technology of solid fuel minerals, other than research relating to mine health and safety and research relating to the environmental and leasing consequences of solid fuel mining (which shall remain in the Department of the Interior); and

(3) coal preparation and analysis.

(Pub. L. 95–91, title III, §302, Aug. 4, 1977, 91 Stat. 578; Pub. L. 97–100, title II, §201, Dec. 23, 1981, 95 Stat. 1407; Pub. L. 104–58, title I, §104(h), Nov. 28, 1995, 109 Stat. 560.)

Act of June 18, 1954, as amended by the Act of December 23, 1963, referred to in subsec. (a)(1)(E), is act June 18, 1954, ch. 310, 68 Stat. 255, which was not classified to the Code.

Paragraphs (1)(E) and (1)(F) of this subsection, referred to in subsec. (a)(3), were redesignated as pars. (1)(D) and (1)(E) of this subsection, respectively, by Pub. L. 104–58, title I, § 104(h)(1)(B), Nov. 28, 1995, 109 Stat. 560.

Act of May 15, 1910, referred to in subsec. (d), as amended, probably means act May 16, 1910, ch. 240, 36 Stat. 369, which is classified to sections 1, 3, and 5 to 7 of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Tables.

AMENDMENTS

1995—Subsec. (a)(1)(C) to (F). Pub. L. 104–58, § 104(h)(1), redesignated subpars. (D) to (F) as (C) to (E), respectively, and struck out former subpar. (C) which read as follows: ''the Alaska Power Administration;''.

Subsec. (a)(2). Pub. L. 104–58, § 104(h)(2), inserted ''and'' after ''Southwestern Power Administration,'' and struck out ''and the Alaska Power Administration'' after ''Bonneville Power Administration,''.

1981—Subsecs. (b), (c). Pub. L. 97–100 struck out subsecs. (b) and (c) which related, respectively, to the functions of the Secretary of Energy to promulgate regulations under certain provisions of the Outer Continental Shelf Lands Act, the Mineral Lands Leasing Act, the Mineral Leasing Act for Acquired Lands, the Geothermal Steam Act of 1970, and the Energy Policy and Conservation Act and to the functions of establishing production rates for all Federal leases.

CHANGE OF NAME

Bureau of Mines redesignated United States Bureau of Mines by section 10(b) of Pub. L. 102–285, set out as a note under section 1 of Title 30, Mineral Lands and Mining.

EFFECTIVE DATE OF 1995 AMENDMENT

For effective date of amendment by Pub. L. 104–58, see section 104(h) of Pub. L. 104–58, set out below.

ALASKA POWER ADMINISTRATION ASSET SALE AND TERMINATION

Title I of Pub. L. 104–58 provided that:

''SEC. 101. SHORT TITLE.

''This title may be cited as the 'Alaska Power Administration Asset Sale and Termination Act'.

''SEC. 102. DEFINITIONS.

''For purposes of this title:

''(1) The term 'Eklutna' means the Eklutna Hydroelectric Project and related assets as described in section 4 and Exhibit A of the Eklutna Purchase Agreement.

''(2) The term 'Eklutna Purchase Agreement' means the August 2, 1989, Eklutna Purchase Agreement between the Alaska Power Administration of the Department of Energy and the Eklutna Purchasers, together with any amendments thereto adopted before the enactment of this section [Nov. 28, 1995].

''(3) The term 'Eklutna Purchasers' means the Municipality of Anchorage doing business as Municipal Light and Power, the Chugach Electric Association, Inc. and the Matanuska Electric Association, Inc.

''(4) The term 'Snettisham' means the Snettisham Hydroelectric Project and related assets as described in section 4 and Exhibit A of the Snettisham Purchase Agreement.

''(5) The term 'Snettisham Purchase Agreement' means the February 10, 1989, Snettisham Purchase Agreement between the Alaska Power Administration of the Department of Energy and the Alaska Power Authority and its successors in interest, together with any amendments thereto adopted before the enactment of this section.

''(6) The term 'Snettisham Purchaser' means the Alaska Industrial Development and Export Authority or a successor State agency or authority.

''SEC. 103. SALE OF EKLUTNA AND SNETTISHAM HYDROELECTRIC PROJECTS.

''(a) SALE OF EKLUTNA.—The Secretary of Energy is authorized and directed to sell Eklutna to the Eklutna Purchasers in accordance with the terms of this Act and the Eklutna Purchase Agreement.

''(b) SALE OF SNETTISHAM.—The Secretary of Energy is authorized and directed to sell Snettisham to the Snettisham Purchaser in accordance with the terms of this Act and the Snettisham Purchase Agreement.

''(c) COOPERATION OF OTHER AGENCIES.—The heads of other Federal departments, agencies, and instrumentalities of the United States shall assist the Secretary of Energy in implementing the sales and conveyances authorized and directed by this title.

''(d) PROCEEDS.—Proceeds from the sales required by this title shall be deposited in the Treasury of the United States to the credit of miscellaneous receipts.

''(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to prepare, survey, and acquire Eklutna and Snettisham for sale and conveyance. Such preparations and acquisitions shall provide sufficient title to ensure the beneficial use, enjoyment, and occupancy by the purchasers.

''(f) CONTRIBUTED FUNDS.—Notwithstanding any other provision of law, the Alaska Power Administration is authorized to receive, administer, and expend such contributed funds as may be provided by the Eklutna Purchasers or customers or the Snettisham Purchaser or customers for the purposes of upgrading, improving, maintaining, or administering Eklutna or Snettisham. Upon the termination of the Alaska Power Administration under section 104(f), the Secretary of Energy shall administer and expend any remaining balances of such contributed funds for the purposes intended by the contributors.

''SEC. 104. EXEMPTION AND OTHER PROVISIONS.

''(a) FEDERAL POWER ACT.—(1) After the sales authorized by this Act occur, Eklutna and Snettisham, including future modifications, shall continue to be exempt from the requirements of Part I of the Federal Power Act (16 U.S.C. 791a et seq.), except as provided in subsection (b).

''(2) The exemption provided by paragraph (1) shall not affect the Memorandum of Agreement entered into among the State of Alaska, the Eklutna Purchasers, the Alaska Energy Authority, and Federal fish and wildlife agencies regarding the protection, mitigation of, damages to, and enhancement of fish and wildlife, dated August 7, 1991, which remains in full force and effect.

''(3) Nothing in this title or the Federal Power Act preempts the State of Alaska from carrying out the responsibilities and authorities of the Memorandum of Agreement.

''(b) SUBSEQUENT TRANSFERS.—Except for subsequent assignment of interest in Eklutna by the Eklutna Purchasers to the Alaska Electric Generation and Transmission Cooperative Inc. pursuant to section 19 of the Eklutna Purchase Agreement, upon any subsequent sale or transfer of any portion of Eklutna or Snettisham from the Eklutna Purchasers or the Snettisham Purchaser to any other person, the exemption set forth in paragraph (1) of subsection (a) of this section shall cease to apply to such portion.

''(c) REVIEW.—(1) The United States District Court for the District of Alaska shall have jurisdiction to review

decisions made under the Memorandum of Agreement and to enforce the provisions of the Memorandum of Agreement, including the remedy of specific performance.

''(2) An action seeking review of a Fish and Wildlife Program ('Program') of the Governor of Alaska under the Memorandum of Agreement or challenging actions of any of the parties to the Memorandum of Agreement prior to the adoption of the Program shall be brought not later than 90 days after the date on which the Program is adopted by the Governor of Alaska, or be barred.

''(3) An action seeking review of implementation of the Program shall be brought not later than 90 days after the challenged act implementing the Program, or be barred.

''(d) EKLUTNA LANDS.—With respect to Eklutna lands described in Exhibit A of the Eklutna Purchase Agreement:

''(1) The Secretary of the Interior shall issue rights-of-way to the Alaska Power Administration for subsequent reassignment to the Eklutna Purchasers—

''(A) at no cost to the Eklutna Purchasers;

''(B) to remain effective for a period equal to the life of Eklutna as extended by improvements, repairs, renewals, or replacements; and

''(C) sufficient for the operation of, maintenance of, repair to, and replacement of, and access to, Eklutna facilities located on military lands and lands managed by the Bureau of Land Management, including lands selected by the State of Alaska.

''(2) Fee title to lands at Anchorage Substation shall be transferred to Eklutna Purchasers at no additional cost if the Secretary of the Interior determines that pending claims to, and selections of, those lands are invalid or relinquished.

''(3) With respect to the Eklutna lands identified in paragraph 1 of Exhibit A of the Eklutna Purchase Agreement, the State of Alaska may select, and the Secretary of the Interior shall convey to the State, improved lands under the selection entitlements in section 6 of the Act of July 7, 1958 (commonly referred to as the Alaska Statehood Act, Public Law 85–508; 72 Stat. 339) [set out as a note preceding section 21 of Title 48, Territories and Insular Possessions], and the North Anchorage Land Agreement dated January 31, 1983. This conveyance shall be subject to the rights-of-way provided to the Eklutna Purchasers under paragraph (1).

''(e) SNETTISHAM LANDS.—With respect to the Snettisham lands identified in paragraph 1 of Exhibit A of the Snettisham Purchase Agreement and Public Land Order No. 5108, the State of Alaska may select, and the Secretary of the Interior shall convey to the State of Alaska, improved lands under the selection entitlements in section 6 of the Act of July 7, 1958 (commonly referred to as the Alaska Statehood Act, Public Law 85–508; 72 Stat. 339).

''(f) TERMINATION OF ALASKA POWER ADMINISTRATION.—Not later than one year after both of the sales authorized in section 103 have occurred, as measured by the Transaction Dates stipulated in the Purchase Agreements, the Secretary of Energy shall—

''(1) complete the business of, and close out, the Alaska Power Administration;

''(2) submit to Congress a report documenting the sales; and

''(3) return unobligated balances of funds appropriated for the Alaska Power Administration to the Treasury of the United States.

''(g) REPEALS.—(1) The Act of July 31, 1950 (64 Stat. 382) [enacting sections 312 to 312d of Title 48, Territories and Insular Possessions, and provisions formerly set out as a note under section 312 of Title 48] is repealed effective on the date that Eklutna is conveyed to the Eklutna Purchasers [ownership of Eklutna project transferred Oct. 2, 1997].

''(2) Section 204 of the Flood Control Act of 1962 (76 Stat. 1193) is repealed effective on the date that Snettisham is conveyed to the Snettisham Purchaser [purchase of Snettisham project completed Aug. 19, 1998].

''(3) The Act of August 9, 1955 [enacting sections 1962d–12 to 1962d–14 of this title], concerning water resources investigation in Alaska (69 Stat. 618), is repealed.

''(h) DOE ORGANIZATION ACT.—As of the later of the two dates determined in paragraphs (1) and (2) of subsection (g), section 302(a) of the Department of Energy Organization Act (42 U.S.C. 7152(a)) is amended—

''(1) in paragraph (1)—

''(A) by striking subparagraph (C); and

''(B) by redesignating subparagraphs (D), (E), and (F) as subparagraphs (C), (D), and (E) respectively; and

''(2) in paragraph (2) by striking out 'and the Alaska Power Administration' and by inserting 'and' after 'Southwestern Power Administration,'.

''(i) DISPOSAL.—The sales of Eklutna and Snettisham under this title are not considered disposal of Federal surplus property under the Federal Property and Administrative Services Act of 1949 [now chapters 1 to 11 of Title 40, Public Buildings, Property, and Works, and title III of the Act of June 30, 1949 (41 U.S.C. 251 et seq.)] (40 U.S.C. 484) [now 40 U.S.C. 541–555] or the Act of October 3, 1944, popularly referred to as the 'Surplus Property Act of 1944' (50 U.S.C. App. 1622).

''SEC. 105. OTHER FEDERAL HYDROELECTRIC PROJECTS.

''The provisions of this title regarding the sale of the Alaska Power Administration's hydroelectric projects under section 103 and the exemption of these projects from Part I of the Federal Power Act [16 U.S.C. 791a et seq.] under section 104 do not apply to other Federal hydroelectric projects.''

USE OF FUNDS TO STUDY NONCOST-BASED METHODS OF PRICING HYDROELECTRIC POWER

Pub. L. 102–377, title V, §505, Oct. 2, 1992, 106 Stat. 1343, provided that: ''Notwithstanding any other provision of this Act, subsequent Energy and Water Development Appropriations Acts or any other provision of law hereafter, none of the funds made available under this Act, subsequent Energy and Water Development Appropriations Acts or any other law hereafter shall be used for the purposes of conducting any studies relating or leading to the possibility of changing from the currently required 'at cost' to a 'market rate' or any other noncost-based method for the pricing of hydroelectric power by the six Federal public power authorities, or other agencies or authorities of the Federal Government, except as may be specifically authorized by Act of Congress hereafter enacted.''

TRANSFERS TO SECRETARY OF THE INTERIOR OF CERTAIN FOSSIL ENERGY RESEARCH AND DEVELOPMENT AUTHORITIES

Pub. L. 97–257, title I, §100, Sept. 10, 1982, 96 Stat. 841, provided: ''That there are transferred to, and vested in, the Secretary of the Interior all functions vested in, or delegated to, the Secretary of Energy and the Department of Energy under or with respect to (1) the Act of May 16, 1910 [30 U.S.C. 1, 3, 5–7], and other authorities formerly exercised by the Bureau of Mines [now United States Bureau of Mines], but limited to research and development relating to increased efficiency of production technology of solid fuel minerals; (2) section 908 of the Surface Mining Control and Reclamation Act of 1977, relating to research and development concerning alternative coal mining technologies (30 U.S.C. 1328); (3) sections 5(g)(2), 8(a)(4), 8(a)(9), 27(b)(2)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(g)(2) and 1337(a)(4) and 1337(a)(9) [and 1353(b)(2) and (3)]); and (4) section 105 of the Energy Policy and Conservation Act (42 U.S.C. 6213): *Provided further*, That the personnel employed, personnel positions, equipment, facilities, and unexpended balances of the aforementioned transferred programs shall be merged with the 'Mines and minerals' account of the Bureau of Mines.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7153 of this title; title 16 section 839f; title 33 section 2213.

§ 7153. Administration of leasing transfers

(a) Authority retained by Secretary of the Interior

The Secretary of the Interior shall retain any authorities not transferred under section 7152(b)[1] of this title and shall be solely responsible for the issuance and supervision of Federal leases and the enforcement of all regulations applicable to the leasing of mineral resources, including but not limited to lease terms and conditions and production rates. No regulation promulgated by the Secretary shall restrict or limit any authority retained by the Secretary of the Interior under section 7152(b)[1] of this title with respect to the issuance or supervision of Federal leases. Nothing in section 7152(b)[1] of this title shall be construed to affect Indian lands and resources or to transfer any functions of the Secretary of the Interior concerning such lands and resources.

(b) Consultation with Secretary of the Interior with respect to promulgation of regulations

In exercising the authority under section 7152(b)[1] of this title to promulgate regulations, the Secretary shall consult with the Secretary of the Interior during the preparation of such regulations and shall afford the Secretary of the Interior not less than thirty days, prior to the date on which the Department first publishes or otherwise prescribes regulations, to comment on the content and effect of such regulations.

(c) Repealed. Pub. L. 97–100, title II, § 201, Dec. 23, 1981, 95 Stat. 1407

(d) Preparation of environmental impact statement

The Department of the Interior shall be the lead agency for the purpose of preparation of an environmental impact statement required by section 4332(2)(C) of this title for any action with respect to the Federal leases taken under the authority of this section, unless the action involves only matters within the exclusive authority of the Secretary.

(Pub. L. 95–91, title III, § 303, Aug. 4, 1977, 91 Stat. 579; Pub. L. 97–100, title II, § 201, Dec. 23, 1981, 95 Stat. 1407.)

REFERENCES IN TEXT

Section 7152(b) of this title, referred to in subsecs. (a) and (b), was repealed by Pub. L. 97–100, title II, § 201, Dec. 23, 1981, 95 Stat. 1407.

AMENDMENTS

1981—Subsec. (c). Pub. L. 97–100 struck out subsec. (c) which afforded the Secretary of Energy the opportunity to disapprove any terms and conditions on which the Secretary of the Interior proposed to issue a Federal lease.

§ 7154. Transfers from Department of Housing and Urban Development

(a) There is transferred to, and vested in, the Secretary the functions vested in the Secretary of Housing and Urban Development pursuant to section 304 of the Energy Conservation Standards for New Buildings Act of 1976 [42 U.S.C. 6833], to develop and promulgate energy conservation standards for new buildings. The Secretary of Housing and Urban Development shall provide the Secretary with any necessary technical assistance in the development of such standards. All other responsibilities, pursuant to title III of the Energy Conservation and Production Act [42 U.S.C. 6831 et seq.], shall remain with the Secretary of Housing and Urban Development, except that the Secretary shall be kept fully and currently informed of the implementation of the promulgated standards.

(b) There is hereby transferred to, and vested in, the Secretary the functions vested in the Secretary of Housing and Urban Development pursuant to section 1701z–8 of title 12.

(Pub. L. 95–91, title III, § 304, Aug. 4, 1977, 91 Stat. 580.)

REFERENCES IN TEXT

The Energy Conservation and Production Act, referred to in subsec. (a), is Pub. L. 94–385, Aug. 14, 1976, 90 Stat. 1125, as amended. Title III of the Energy Conservation and Production Act, known as the Energy Conservation Standards for New Buildings Act of 1976, is classified generally to subchapter II (§ 6831 et seq.) of chapter 81 of this title. For complete classification of the Energy Conservation and Production Act and the Energy Standards for New Buildings Act of 1976 to the Code, see Short Title note set out under section 6801 of this title and Tables.

§ 7155. Repealed. Pub. L. 103–272, § 7(b), July 5, 1994, 108 Stat. 1379

Section, Pub. L. 95–91, title III, § 306, Aug. 4, 1977, 91 Stat. 581, transferred to Secretary the functions set forth in Interstate Commerce Act and vested by law in Interstate Commerce Commission or Chairman and members thereof as related to transportation of oil by pipeline. See section 60501 of Title 49, Transportation.

§ 7156. Transfers from Department of the Navy

There are transferred to and vested in the Secretary all functions vested by chapter 641 of title 10, in the Secretary of the Navy as they relate to the administration of and jurisdiction over—

(1) Naval Petroleum Reserve Numbered 1 (Elk Hills), located in Kern County, California, established by Executive order of the President, dated September 2, 1912;

(2) Naval Petroleum Reserve Numbered 2 (Buena Vista), located in Kern County, California, established by Executive order of the President, dated December 13, 1912;

(3) Naval Petroleum Reserve Numbered 3 (Teapot Dome), located in Wyoming, established by Executive order of the President, dated April 30, 1915;

(4) Oil Shale Reserve Numbered 1, located in Colorado, established by Executive order of the President, dated December 6, 1916, as amended by Executive order dated June 12, 1919;

(5) Oil Shale Reserve Numbered 2, located in Utah, established by Executive order of the President, dated December 6, 1916; and

(6) Oil Shale Reserve Numbered 3, located in Colorado, established by Executive order of the President, dated September 27, 1924.

[1] See References in Text note below.

In the administration of any of the functions transferred to, and vested in, the Secretary by this section the Secretary shall take into consideration the requirements of national security.

(Pub. L. 95–91, title III, § 307, Aug. 4, 1977, 91 Stat. 581.)

§ 7156a. Repealed. Pub. L. 105–85, div. C, title XXXIV, § 3403, Nov. 18, 1997, 111 Stat. 2059

Section, Pub. L. 96–137, § 2, Dec. 12, 1979, 93 Stat. 1061, related to assignment of naval officers to key management positions within Office of Naval Petroleum and Oil Shale Reserves in Department of Energy and to position of Director.

§ 7157. Transfers from Department of Commerce

There are transferred to, and vested in, the Secretary all functions of the Secretary of Commerce, the Department of Commerce, and officers and components of that Department, as relate to or are utilized by the Office of Energy Programs, but limited to industrial energy conservation programs.

(Pub. L. 95–91, title III, § 308, Aug. 4, 1977, 91 Stat. 581.)

§ 7158. Naval reactor and military application programs

The Division of Naval Reactors established pursuant to section 2035 of this title, and responsible for research, design, development, health, and safety matters pertaining to naval nuclear propulsion plants and assigned civilian power reactor programs is transferred to the Department under the Under Secretary for Nuclear Security, and such organizational unit shall be deemed to be an organizational unit established by this chapter.

(Pub. L. 95–91, title III, § 309, Aug. 4, 1977, 91 Stat. 581; Pub. L. 106–65, div. C, title XXXII, § 3294(c), Oct. 5, 1999, 113 Stat. 970.)

References in Text

This chapter, referred to in text, was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

Amendments

1999—Pub. L. 106–65 struck out subsec. (a) designation before ''The Division of Naval Reactors'', substituted ''Under Secretary for Nuclear Security'' for ''Assistant Secretary to whom the Secretary has assigned the function listed in section 7133(a)(2)(E) of this title'', and struck out subsec. (b) which read as follows: ''The Division of Military Application, established by section 2035 of this title, and the functions of the Energy Research and Development Administration with respect to the Military Liaison Committee, established by section 2037 of this title, are transferred to the Department under the Assistant Secretary to whom the Secretary has assigned those functions listed in section 7133(a)(5) of this title, and such organizational units shall be deemed to be organizational units established by this chapter.''

Effective Date of 1999 Amendment

Amendment by Pub. L. 106–65 effective Mar. 1, 2000, see section 3299 of Pub. L. 106–65, set out as an Effective Date note under section 2401 of Title 50, War and National Defense.

Transfer of Functions

All national security functions and activities performed immediately before Oct. 5, 1999, by the Office of Naval Reactors transferred to the Administrator for Nuclear Security of the National Nuclear Security Administration of the Department of Energy, and the Deputy Administrator for Naval Reactors of the Administration to be assigned the responsibilities, authorities, and accountability for all functions of the Office of Naval Reactors under Executive Order No. 12344, set out below, see sections 2406 and 2481 of Title 50, War and National Defense.

Executive Order No. 12344 To Remain in Force

Except as otherwise specified in section 2406 of Title 50, War and National Defense, and notwithstanding any other provision of title XXXII of Pub. L. 106–65 (see Short Title note set out under section 2401 of Title 50), the provisions of Executive Order No. 12344 (set out below) to remain in full force and effect until changed by law, see section 2406 of Title 50.

Pub. L. 98–525, title XVI, § 1634, Oct. 19, 1984, 98 Stat. 2649, provided that: ''The provisions of Executive Order Numbered 12344, dated February 1, 1982 [set out below], pertaining to the Naval Nuclear Propulsion Program, shall remain in force until changed by law.''

Ex. Ord. No. 12344. Naval Nuclear Propulsion Program

Ex. Ord. No. 12344, Feb. 1, 1982, 47 F.R. 4979, provided:

By the authority vested in me as President and as Commander in Chief of the Armed Forces of the United States of America, with recognition of the crucial importance to national security of the Naval Nuclear Propulsion Program, and for the purpose of preserving the basic structure, policies, and practices developed for this Program in the past and assuring that the Program will continue to function with excellence, it is hereby ordered as follows:

Section 1. The Naval Nuclear Propulsion Program is an integrated program carried out by two organizational units, one in the Department of Energy and the other in the Department of the Navy.

Sec. 2. Both organizational units shall be headed by the same individual so that the activities of each may continue in practice under common management. This individual shall direct the Naval Nuclear Propulsion Program in both departments. The director shall be qualified by reason of technical background and experience in naval nuclear propulsion. The director may be either a civilian or an officer of the United States Navy, active or retired.

Sec. 3. The Secretary of the Navy (through the Secretary of Defense) and the Secretary of Energy shall obtain the approval of the President to appoint the director of the Naval Nuclear Propulsion Program for their respective Departments. The director shall be appointed to serve a term of eight years, except that the Secretary of Energy and the Secretary of the Navy may, with mutual concurrence, terminate or extend the term of the respective appointments.

Sec. 4. An officer of the United States Navy appointed as director shall be nominated for the grade of Admiral. A civilian serving as director shall be compensated at a rate to be specified at the time of appointment.

Sec. 5. Within the Department of Energy, the Secretary of Energy shall assign to the director the responsibility of performing the functions of the Division of Naval Reactors transferred to the Department of Energy by Section 309(a) of the Department of Energy Organization Act (42 U.S.C. 7158), including assigned civilian power reactor programs, and any naval nuclear propulsion functions of the Department of Energy, including:

(a) direct supervision over the Bettis and Knolls Atomic Power Laboratories, the Expended Core Facility and naval reactor prototype plants;

(b) research, development, design, acquisition, specification, construction, inspection, installation, certification, testing, overhaul, refueling, operating practices and procedures, maintenance, supply support, and ultimate disposition, of naval nuclear propulsion plants, including components thereof, and any special maintenance and service facilities related thereto;

(c) the safety of reactors and associated navel [naval] nuclear propulsion plants, and control of radiation and radioactivity associated with naval nuclear propulsion activities, including prescribing and enforcing standards and regulations for these areas as they affect the environment and the safety and health of workers, operators, and the general public;

(d) training, including training conducted at the naval prototype reactors of the Department of Energy, and assistance and concurrence in the selection, training, qualification, and assignment of personnel reporting to the director and of personnel who supervise, operate, or maintain naval nuclear propulsion plants; and

(e) administration of the Naval Nuclear Propulsion Program, including oversight of program support in areas such as security, nuclear safeguards and transportation, public information, procurement, logistics and fiscal management.

SEC. 6. Within the Department of Energy, the director shall report to the Secretary of Energy, through the Assistant Secretary assigned nuclear energy functions and shall serve as a Deputy Assistant Secretary. The director shall have direct access to the Secretary of Energy and other senior officials in the Department of Energy concerning naval nuclear propulsion matters, and to all other personnel who supervise, operate or maintain naval nuclear propulsion plants and support facilities for the Department of Energy.

SEC. 7. Within the Department of the Navy, the Secretary of the Navy shall assign to the director responsibility to supervise all technical aspects of the Navy's nuclear propulsion work, including:

(a) research, development, design, procurement, specification, construction, inspection, installation, certification, testing, overhaul, refueling, operating practices and procedures, maintenance, supply support, and ultimate disposition, of naval nuclear propulsion plants, including components thereof, and any special maintenance and service facilities related thereto; and

(b) training programs, including Nuclear Power Schools of the Navy, and assistance and concurrence in the selection, training, qualification, and assignment of personnel reporting to the director and of Government personnel who supervise, operate, or maintain naval nuclear propulsion plants.

SEC. 8. Within the Department of the Navy, the Secretary of the Navy shall assign to the director responsibility within the Navy for:

(a) the safety of reactors and associated naval nuclear propulsion plants, and control of radiation and radioactivity associated with naval nuclear propulsion activities, including prescribing and enforcing standards and regulations for these areas as they affect the environment and the safety and health of workers, operators, and the general public.

(b) administration of the Naval Nuclear Propulsion Program, including oversight of program support in areas such as security, nuclear safeguards and transportation, public information, procurement, logistics, and fiscal management.

SEC. 9. In addition to any other organizational assignments within the Department of the Navy, the director shall report directly to the Chief of Naval Operations. The director shall have direct access to the Secretary of the Navy and other senior officials in the Department of the Navy concerning naval nuclear propulsion matters, and to all other Government personnel who supervise, operate, or maintain naval nuclear propulsion plants and support facilities.

SEC. 10. This Order is effective on February 1, 1982.

RONALD REAGAN.

§ 7159. Transfer to Department of Transportation

Notwithstanding section 7151(a) of this title, there are transferred to, and vested in, the Secretary of Transportation all of the functions vested in the Administrator of the Federal Energy Administration by section 6361(b)(1)(B) of this title.

(Pub. L. 95–91, title III, § 310, Aug. 4, 1977, 91 Stat. 582.)

SUBCHAPTER IV—FEDERAL ENERGY REGULATORY COMMISSION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 7134, 7136, 7151, 7298, 7301, 7341 of this title.

§ 7171. Appointment and administration

(a) Federal Energy Regulatory Commission; establishment

There is established within the Department an independent regulatory commission to be known as the Federal Energy Regulatory Commission.

(b) Composition; term of office; conflict of interest; expiration of terms

(1) The Commission shall be composed of five members appointed by the President, by and with the advice and consent of the Senate. One of the members shall be designated by the President as Chairman. Members shall hold office for a term of 5 years and may be removed by the President only for inefficiency, neglect of duty, or malfeasance in office. Not more than three members of the Commission shall be members of the same political party. Any Commissioner appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed only for the remainder of such term. A Commissioner may continue to serve after the expiration of his term until his successor is appointed and has been confirmed and taken the oath of Office, except that such Commissioner shall not serve beyond the end of the session of the Congress in which such term expires. Members of the Commission shall not engage in any other business, vocation, or employment while serving on the Commission.

(2) Notwithstanding the third sentence of paragraph (1), the terms of members first taking office after April 11, 1990, shall expire as follows:

(A) In the case of members appointed to succeed members whose terms expire in 1991, one such member's term shall expire on June 30, 1994, and one such member's term shall expire on June 30, 1995, as designated by the President at the time of appointment.

(B) In the case of members appointed to succeed members whose terms expire in 1992, one such member's term shall expire on June 30, 1996, and one such member's term shall expire on June 30, 1997, as designated by the President at the time of appointment.

(C) In the case of the member appointed to succeed the member whose term expires in 1993, such member's term shall expire on June 30, 1998.

(c) Duties and responsibilities of Chairman

The Chairman shall be responsible on behalf of the Commission for the executive and adminis-

trative operation of the Commission, including functions of the Commission with respect to (1) the appointment and employment of hearing examiners in accordance with the provisions of title 5, (2) the selection, appointment, and fixing of the compensation of such personnel as he deems necessary, including an executive director, (3) the supervision of personnel employed by or assigned to the Commission, except that each member of the Commission may select and supervise personnel for his personal staff, (4) the distribution of business among personnel and among administrative units of the Commission, and (5) the procurement of services of experts and consultants in accordance with section 3109 of title 5. The Secretary shall provide to the Commission such support and facilities as the Commission determines it needs to carry out its functions.

(d) Supervision and direction of members, employees, or other personnel of Commission

In the performance of their functions, the members, employees, or other personnel of the Commission shall not be responsible to or subject to the supervision or direction of any officer, employee, or agent of any other part of the Department.

(e) Designation of Acting Chairman; quorum; seal

The Chairman of the Commission may designate any other member of the Commission as Acting Chairman to act in the place and stead of the Chairman during his absence. The Chairman (or the Acting Chairman in the absence of the Chairman) shall preside at all sessions of the Commission and a quorum for the transaction of business shall consist of at least three members present. Each member of the Commission, including the Chairman, shall have one vote. Actions of the Commission shall be determined by a majority vote of the members present. The Commission shall have an official seal which shall be judicially noticed.

(f) Rules

The Commission is authorized to establish such procedural and administrative rules as are necessary to the exercise of its functions. Until changed by the Commission, any procedural and administrative rules applicable to particular functions over which the Commission has jurisdiction shall continue in effect with respect to such particular functions.

(g) Powers of Commission

In carrying out any of its functions, the Commission shall have the powers authorized by the law under which such function is exercised to hold hearings, sign and issue subpenas, administer oaths, examine witnesses, and receive evidence at any place in the United States it may designate. The Commission may, by one or more of its members or by such agents as it may designate, conduct any hearing or other inquiry necessary or appropriate to its functions, except that nothing in this subsection shall be deemed to supersede the provisions of section 556 of title 5 relating to hearing examiners.

(h) Principal office of Commission

The principal office of the Commission shall be in or near the District of Columbia, where its general sessions shall be held, but the Commission may sit anywhere in the United States.

(i) Commission deemed agency; attorney for Commission

For the purpose of section 552b of title 5, the Commission shall be deemed to be an agency. Except as provided in section 518 of title 28, relating to litigation before the Supreme Court, attorneys designated by the Chairman of the Commission may appear for, and represent the Commission in, any civil action brought in connection with any function carried out by the Commission pursuant to this chapter or as otherwise authorized by law.

(j) Annual authorization and appropriation request

In each annual authorization and appropriation request under this chapter, the Secretary shall identify the portion thereof intended for the support of the Commission and include a statement by the Commission (1) showing the amount requested by the Commission in its budgetary presentation to the Secretary and the Office of Management and Budget and (2) an assessment of the budgetary needs of the Commission. Whenever the Commission submits to the Secretary, the President, or the Office of Management and Budget, any legislative recommendation or testimony, or comments on legislation, prepared for submission to Congress, the Commission shall concurrently transmit a copy thereof to the appropriate committees of Congress.

(Pub. L. 95–91, title IV, § 401, Aug. 4, 1977, 91 Stat. 582; Pub. L. 101–271, § 2(a), (b), Apr. 11, 1990, 104 Stat. 135.)

REFERENCES IN TEXT

This chapter, referred to in subsecs. (i) and (j), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

AMENDMENTS

1990—Subsec. (b). Pub. L. 101–271 designated existing provisions as par. (1), substituted ''5 years'' for ''four years'', struck out after third sentence ''The terms of the members first taking office shall expire (as designated by the President at the time of appointment), two at the end of two years, two at the end of three years, and one at the end of four years.'', substituted ''A Commissioner may continue to serve after the expiration of his term until his successor is appointed and has been confirmed and taken the oath of Office, except that such Commissioner shall not serve beyond the end of the session of the Congress in which such term expires.'' for ''A Commissioner may continue to serve after the expiration of his term until his successor has taken office, except that he may not so continue to serve for more than one year after the date on which his term would otherwise expire under this subsection.'', and added par. (2).

EFFECTIVE DATE OF 1990 AMENDMENT

Section 2(c) of Pub. L. 101–271 provided that: ''The amendments made by this section [amending this section] apply only to persons appointed or reappointed as members of the Federal Energy Regulatory Commission after the date of enactment of this Act [Apr. 11, 1990].''

RENEWABLE ENERGY AND ENERGY CONSERVATION INCENTIVES

Pub. L. 101–549, title VIII, §808, Nov. 15, 1990, 104 Stat. 2690, provided that:

''(a) DEFINITION.—For purposes of this section, 'renewable energy' means energy from photovoltaic, solar thermal, wind, geothermal, and biomass energy production technologies.

''(b) RATE INCENTIVES STUDY.—Within 18 months after enactment [Nov. 15, 1990], the Federal Energy Regulatory Commission, in consultation with the Environmental Protection Agency, shall complete a study which calculates the net environmental benefits of renewable energy, compared to nonrenewable energy, and assigns numerical values to them. The study shall include, but not be limited to, environmental impacts on air, water, land use, water use, human health, and waste disposal.

''(c) MODEL REGULATIONS.—In conjunction with the study in subsection (b), the Commission shall propose one or more models for incorporating the net environmental benefits into the regulatory treatment of renewable energy in order to provide economic compensation for those benefits.

''(d) REPORT.—The Commission shall transmit the study and the model regulations to Congress, along with any recommendations on the best ways to reward renewable energy technologies for their environmental benefits, in a report no later than 24 months after enactment [Nov. 15, 1990].''

RETENTION AND USE OF REVENUES FROM LICENSING FEES, INSPECTION SERVICES, AND OTHER SERVICES AND COLLECTIONS; REDUCTION TO ACHIEVE FINAL FISCAL YEAR APPROPRIATION

Pub. L. 107–66, title III, Nov. 12, 2001, 115 Stat. 508, provided in part: ''That notwithstanding any other provision of law, not to exceed $184,155,000 of revenues from fees and annual charges, and other services and collections in fiscal year 2002 shall be retained and used for necessary expenses in this account, and shall remain available until expended: *Provided further*, That the sum herein appropriated from the General Fund shall be reduced as revenues are received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation from the General Fund estimated at not more than $0''.

Similar provisions were contained in the following prior appropriation acts:

Pub. L. 106–377, §1(a)(2) [title III], Oct. 27, 2000, 114 Stat. 1441, 1441A–78.

Pub. L. 106–60, title III, Sept. 29, 1999, 113 Stat. 494.

Pub. L. 105–245, title III, Oct. 7, 1998, 112 Stat. 1851.

Pub. L. 105–62, title III, Oct. 13, 1997, 111 Stat. 1334.

Pub. L. 104–206, title III, Sept. 30, 1996, 110 Stat. 2998.

Pub. L. 99–500, §101(e) [title III], Oct. 18, 1986, 100 Stat. 1783–194, 1783–208, and Pub. L. 99–591, §101(e) [title III], Oct. 30, 1986, 100 Stat. 3341–194, 3341–208.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7192 of this title.

§ 7172. Jurisdiction of Commission

(a) Transfer of functions from Federal Power Commission

(1) There are transferred to, and vested in, the Commission the following functions of the Federal Power Commission or of any member of the Commission or any officer or component of the Commission:

(A) the investigation, issuance, transfer, renewal, revocation, and enforcement of licenses and permits for the construction, operation, and maintenance of dams, water conduits, reservoirs, powerhouses, transmission lines, or other works for the development and improvement of navigation and for the development and utilization of power across, along, from, or in navigable waters under part I of the Federal Power Act [16 U.S.C. 791a et seq.];

(B) the establishment, review, and enforcement of rates and charges for the transmission or sale of electric energy, including determinations on construction work in progress, under part II of the Federal Power Act [16 U.S.C. 824 et seq.], and the interconnection, under section 202(b), of such Act [16 U.S.C. 824a(b)], of facilities for the generation, transmission, and sale of electric energy (other than emergency interconnection);

(C) the establishment, review, and enforcement of rates and charges for the transportation and sale of natural gas by a producer or gatherer or by a natural gas pipeline or natural gas company under sections 1, 4, 5, and 6 of the Natural Gas Act [15 U.S.C. 717, 717c to 717e];

(D) the issuance of a certificate of public convenience and necessity, including abandonment of facilities or services, and the establishment of physical connections under section 7 of the Natural Gas Act [15 U.S.C. 717f];

(E) the establishment, review, and enforcement of curtailments, other than the establishment and review of priorities for such curtailments, under the Natural Gas Act [15 U.S.C. 717 et seq.]; and

(F) the regulation of mergers and securities acquisition under the Federal Power Act [16 U.S.C. 791a et seq.] and Natural Gas Act [15 U.S.C. 717 et seq.].

(2) The Commission may exercise any power under the following sections to the extent the Commission determines such power to be necessary to the exercise of any function within the jurisdiction of the Commission:

(A) sections 4, 301, 302, 306 through 309, and 312 through 316 of the Federal Power Act [16 U.S.C. 797, 825, 825a, 825e to 825h, 825k to 825*o*]; and

(B) sections 8, 9, 13 through 17, 20, and 21 of the Natural Gas Act [15 U.S.C. 717g, 717h, 717*l* to 717p, 717s, 717t].

(b) Repealed. Pub. L. 103–272, § 7(b), July 5, 1994, 108 Stat. 1379

(c) Consideration of proposals made by Secretary to amend regulations issued under section 753 of title 15; exception

(1) Pursuant to the procedures specified in section 7174 of this title and except as provided in paragraph (2), the Commission shall have jurisdiction to consider any proposal by the Secretary to amend the regulation required to be issued under section 753(a)[1] of title 15 which is

[1] See References in Text note below.

required by section 757 or 760a[1] of title 15 to be transmitted by the President to, and reviewed by, each House of Congress, under section 6421 of this title.

(2) In the event that the President determines that an emergency situation of overriding national importance exists and requires the expeditious promulgation of a rule described in paragraph (1), the President may direct the Secretary to assume sole jurisdiction over the promulgation of such rule, and such rule shall be transmitted by the President to, and reviewed by, each House of Congress under section 757 or 760a[1] of title 15, and section 6421 of this title.

(d) Matters involving agency determinations to be made on record after agency hearing

The Commission shall have jurisdiction to hear and determine any other matter arising under any other function of the Secretary—

(1) involving any agency determination required by law to be made on the record after an opportunity for an agency hearing; or

(2) involving any other agency determination which the Secretary determines shall be made on the record after an opportunity for an agency hearing,

except that nothing in this subsection shall require that functions under sections 6213 and 6214[1] of this title shall be within the jurisdiction of the Commission unless the Secretary assigns such a function to the Commission.

(e) Matters assigned by Secretary after public notice and matters referred under section 7174 of this title

In addition to the other provisions of this section, the Commission shall have jurisdiction over any other matter which the Secretary may assign to the Commission after public notice, or which are required to be referred to the Commission pursuant to section 7174 of this title.

(f) Limitation

No function described in this section which regulates the exports or imports of natural gas or electricity shall be within the jurisdiction of the Commission unless the Secretary assigns such a function to the Commission.

(g) Final agency action

The decision of the Commission involving any function within its jurisdiction, other than action by it on a matter referred to it pursuant to section 7174 of this title, shall be final agency action within the meaning of section 704 of title 5 and shall not be subject to further review by the Secretary or any officer or employee of the Department.

(h) Rules, regulations, and statements of policy

The Commission is authorized to prescribe rules, regulations, and statements of policy of general applicability with respect to any function under the jurisdiction of the Commission pursuant to this section.

(Pub. L. 95–91, title IV, § 402, Aug. 4, 1977, 91 Stat. 583; Pub. L. 103–272, § 7(b), July 5, 1994, 108 Stat. 1379.)

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (a)(1)(A), (B), and (F), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§ 791a et seq.) of Title 16, Conservation. Parts I and II of the Federal Power Act are classified generally to subchapters I (§ 791a et seq.) and II (§ 824 et seq.), respectively, of chapter 12 of Title 16. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

The Natural Gas Act, referred to in subsec. (a)(1)(E), (F), is act June 21, 1938, ch. 556, 52 Stat. 821, as amended, which is classified generally to chapter 15B (§ 717 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 717w of Title 15 and Tables.

Sections 753, 757, and 760a of title 15, referred to in subsec. (c), were omitted from the Code pursuant to section 760g of Title 15, which provided for the expiration of the President's authority under those sections on Sept. 30, 1981.

Section 6214 of this title, referred to in subsec. (d), was repealed by Pub. L. 106–469, title I, § 103(3), Nov. 9, 2000, 114 Stat. 2029.

AMENDMENTS

1994—Subsec. (b). Pub. L. 103–272 struck out subsec. (b) which read as follows: ''There are transferred to, and vested in, the Commission all functions and authority of the Interstate Commerce Commission or any officer or component of such Commission where the regulatory function establishes rates or charges for the transportation of oil by pipeline or establishes the valuation of any such pipeline.'' See section 60502 of Title 49, Transportation.

OIL PIPELINE REGULATORY REFORM

Pub. L. 102–486, title XVIII, Oct. 24, 1992, 106 Stat. 3010, provided that:

''SEC. 1801. OIL PIPELINE RATEMAKING METHODOLOGY.

''(a) ESTABLISHMENT.—Not later than 1 year after the date of the enactment of this Act [Oct. 24, 1992], the Federal Energy Regulatory Commission shall issue a final rule which establishes a simplified and generally applicable ratemaking methodology for oil pipelines in accordance with section 1(5) of part I of the Interstate Commerce Act [former 49 U.S.C. 1(5)].

''(b) EFFECTIVE DATE.—The final rule to be issued under subsection (a) may not take effect before the 365th day following the date of the issuance of the rule.

''SEC. 1802. STREAMLINING OF COMMISSION PROCEDURES.

''(a) RULEMAKING.—Not later than 18 months after the date of the enactment of this Act [Oct. 24, 1992], the Commission shall issue a final rule to streamline procedures of the Commission relating to oil pipeline rates in order to avoid unnecessary regulatory costs and delays.

''(b) SCOPE OF RULEMAKING.—Issues to be considered in the rulemaking proceeding to be conducted under subsection (a) shall include the following:

''(1) Identification of information to be filed with an oil pipeline tariff and the availability to the public of any analysis of such tariff filing performed by the Commission or its staff.

''(2) Qualification for standing (including definitions of economic interest) of parties who protest oil pipeline tariff filings or file complaints thereto.

''(3) The level of specificity required for a protest or complaint and guidelines for Commission action on the portion of the tariff or rate filing subject to protest or complaint.

''(4) An opportunity for the oil pipeline to file a response for the record to an initial protest or complaint.

''(5) Identification of specific circumstances under which Commission staff may initiate a protest.

''(c) ADDITIONAL PROCEDURAL CHANGES.—In conducting the rulemaking proceeding to carry out subsection (a), the Commission shall identify and transmit

to Congress any other procedural changes relating to oil pipeline rates which the Commission determines are necessary to avoid unnecessary regulatory costs and delays and for which additional legislative authority may be necessary.

''(d) WITHDRAWAL OF TARIFFS AND COMPLAINTS.—

''(1) WITHDRAWAL OF TARIFFS.—If an oil pipeline tariff which is filed under part I of the Interstate Commerce Act [former 49 U.S.C. 1 et seq.] and which is subject to investigation is withdrawn—

''(A) any proceeding with respect to such tariff shall be terminated;

''(B) the previous tariff rate shall be reinstated; and

''(C) any amounts collected under the withdrawn tariff rate which are in excess of the previous tariff rate shall be refunded.

''(2) WITHDRAWAL OF COMPLAINTS.—If a complaint which is filed under section 13 of the Interstate Commerce Act [former 49 U.S.C. 13] with respect to an oil pipeline tariff is withdrawn, any proceeding with respect to such complaint shall be terminated.

''(e) ALTERNATIVE DISPUTE RESOLUTION.—To the maximum extent practicable, the Commission shall establish appropriate alternative dispute resolution procedures, including required negotiations and voluntary arbitration, early in an oil pipeline rate proceeding as a method preferable to adjudication in resolving disputes relating to the rate. Any proposed rates derived from implementation of such procedures shall be considered by the Commission on an expedited basis for approval.

''SEC. 1803. PROTECTION OF CERTAIN EXISTING RATES.

''(a) RATES DEEMED JUST AND REASONABLE.—Except as provided in subsection (b)—

''(1) any rate in effect for the 365-day period ending on the date of the enactment of this Act [Oct. 24, 1992] shall be deemed to be just and reasonable (within the meaning of section 1(5) of the Interstate Commerce Act [former 49 U.S.C. 1(5)]); and

''(2) any rate in effect on the 365th day preceding the date of such enactment shall be deemed to be just and reasonable (within the meaning of such section 1(5)) regardless of whether or not, with respect to such rate, a new rate has been filed with the Commission during such 365-day period;

if the rate in effect, as described in paragraph (1) or (2), has not been subject to protest, investigation, or complaint during such 365-day period.

''(b) CHANGED CIRCUMSTANCES.—No person may file a complaint under section 13 of the Interstate Commerce Act [former 49 U.S.C. 13] against a rate deemed to be just and reasonable under subsection (a) unless—

''(1) evidence is presented to the Commission which establishes that a substantial change has occurred after the date of the enactment of this Act [Oct. 24, 1992]—

''(A) in the economic circumstances of the oil pipeline which were a basis for the rate; or

''(B) in the nature of the services provided which were a basis for the rate; or

''(2) the person filing the complaint was under a contractual prohibition against the filing of a complaint which was in effect on the date of enactment of this Act and had been in effect prior to January 1, 1991, provided that a complaint by a party bound by such prohibition is brought within 30 days after the expiration of such prohibition.

If the Commission determines pursuant to a proceeding instituted as a result of a complaint under section 13 of the Interstate Commerce Act that the rate is not just and reasonable, the rate shall not be deemed to be just and reasonable. Any tariff reduction or refunds that may result as an outcome of such a complaint shall be prospective from the date of the filing of the complaint.

''(c) LIMITATION REGARDING UNDULY DISCRIMINATORY OR PREFERENTIAL TARIFFS.—Nothing in this section shall prohibit any aggrieved person from filing a complaint under section 13 or section 15(1) of the Interstate Commerce Act [former 49 U.S.C. 13, 15(1)] challenging any tariff provision as unduly discriminatory or unduly preferential.

''SEC. 1804. DEFINITIONS.

''For the purposes of this title, the following definitions apply:

''(1) COMMISSION.—The term 'Commission' means the Federal Energy Regulatory Commission and, unless the context requires otherwise, includes the Oil Pipeline Board and any other office or component of the Commission to which the functions and authority vested in the Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)) are delegated.

''(2) OIL PIPELINE.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), the term 'oil pipeline' means any common carrier (within the meaning of the Interstate Commerce Act [former 49 U.S.C. 1 et seq.]) which transports oil by pipeline subject to the functions and authority vested in the Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)).

''(B) EXCEPTION.—The term 'oil pipeline' does not include the Trans-Alaska Pipeline authorized by the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651 et seq.) or any pipeline delivering oil directly or indirectly to the Trans-Alaska Pipeline.

''(3) OIL.—The term 'oil' has the same meaning as is given such term for purposes of the transfer of functions from the Interstate Commerce Commission to the Federal Energy Regulatory Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)).

''(4) RATE.—The term 'rate' means all charges that an oil pipeline requires shippers to pay for transportation services.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2077, 2160, 6303, 7151, 7173, 7174, 7191, 7920, 8433 of this title.

§ 7173. Initiation of rulemaking procedures before Commission

(a) Proposal of rules, regulations, and statements of policy of general applicability by Secretary and Commission

The Secretary and the Commission are authorized to propose rules, regulations, and statements of policy of general applicability with respect to any function within the jurisdiction of the Commission under section 7172 of this title.

(b) Consideration and final action on proposals of Secretary

The Commission shall have exclusive jurisdiction with respect to any proposal made under subsection (a) of this section, and shall consider and take final action on any proposal made by the Secretary under such subsection in an expeditious manner in accordance with such reasonable time limits as may be set by the Secretary for the completion of action by the Commission on any such proposal.

(c) Utilization of rulemaking procedures for establishment of rates and charges under Federal Power Act and Natural Gas Act

Any function described in section 7172 of this title which relates to the establishment of rates and charges under the Federal Power Act [16 U.S.C. 791a et seq.] or the Natural Gas Act [15 U.S.C. 717 et seq.], may be conducted by rule-

making procedures. Except as provided in subsection (d) of this section, the procedures in such a rulemaking proceeding shall assure full consideration of the issues and an opportunity for interested persons to present their views.

(d) Submission of written questions by interested persons

With respect to any rule or regulation promulgated by the Commission to establish rates and charges for the first sale of natural gas by a producer or gatherer to a natural gas pipeline under the Natural Gas Act [15 U.S.C. 717 et seq.], the Commission may afford any interested person a reasonable opportunity to submit written questions with respect to disputed issues of fact to other interested persons participating in the rulemaking proceedings. The Commission may establish a reasonable time for both the submission of questions and responses thereto.

(Pub. L. 95–91, title IV, § 403, Aug. 4, 1977, 91 Stat. 585.)

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (c), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§ 791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

The Natural Gas Act, referred to in subsecs. (c) and (d), is act June 21, 1938, ch. 556, 52 Stat. 821, as amended, which is classified generally to chapter 15B (§ 717 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 717w of Title 15 and Tables.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7174 of this title.

§ 7174. Referral of other rulemaking proceedings to Commission

(a) Notification of Commission of proposed action; public comment

Except as provided in section 7173 of this title, whenever the Secretary proposes to prescribe rules, regulations, and statements of policy of general applicability in the exercise of any function which is transferred to the Secretary under section 7151 of this title or section 60501 of title 49, he shall notify the Commission of the proposed action. If the Commission, in its discretion, determines within such period as the Secretary may prescribe, that the proposed action may significantly affect any function within the jurisdiction of the Commission pursuant to section 7172(a)(1) and (c)(1) of this title and section 60502 of title 49, the Secretary shall immediately refer the matter to the Commission, which shall provide an opportunity for public comment.

(b) Recommendations of Commission; publication

Following such opportunity for public comment the Commission, after consultation with the Secretary, shall either—

(1) concur in adoption of the rule or statement as proposed by the Secretary;

(2) concur in adoption of the rule or statement only with such changes as it may recommend; or

(3) recommend that the rule or statement not be adopted.

The Commission shall promptly publish its recommendations, adopted under this subsection, along with an explanation of the reason for its actions and an analysis of the major comments, criticisms, and alternatives offered during the comment period.

(c) Options of Secretary; final agency action

Following publication of the Commission's recommendations the Secretary shall have the option of—

(1) issuing a final rule or statement in the form initially proposed by the Secretary if the Commission has concurred in such rule pursuant to subsection (b)(1) of this section;

(2) issuing a final rule or statement in amended form so that the rule conforms in all respects with the changes proposed by the Commission if the Commission has concurred in such rule or statement pursuant to subsection (b)(2) of this section; or

(3) ordering that the rule shall not be issued.

The action taken by the Secretary pursuant to this subsection shall constitute a final agency action for purposes of section 704 of title 5.

(Pub. L. 95–91, title IV, § 404, Aug. 4, 1977, 91 Stat. 586.)

CODIFICATION

In subsec. (a), ''section 60501 of title 49'' substituted for reference to section 306 of this Act, meaning section 306 of Pub. L. 95–91 [42 U.S.C. 7155], and ''section 60502 of title 49'' substituted for reference to section 402(b), meaning section 402(b) of Pub. L. 95–91 [42 U.S.C. 7172(b)] on authority of Pub. L. 103–272, § 6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7172 of this title.

§ 7175. Right of Secretary to intervene in Commission proceedings

The Secretary may as a matter of right intervene or otherwise participate in any proceeding before the Commission. The Secretary shall comply with rules of procedure of general applicability governing the timing of intervention or participation in such proceeding or activity and, upon intervening or participating therein, shall comply with rules of procedure of general applicability governing the conduct thereof. The intervention or participation of the Secretary in any proceeding or activity shall not affect the obligation of the Commission to assure procedure fairness to all participants.

(Pub. L. 95–91, title IV, § 405, Aug. 4, 1977, 91 Stat. 586.)

§ 7176. Reorganization

For the purposes of chapter 9 of title 5 the Commission shall be deemed to be an independent regulatory agency.

(Pub. L. 95–91, title IV, § 406, Aug. 4, 1977, 91 Stat. 586.)

§ 7177. Access to information

(a) The Secretary, each officer of the Department, and each Federal agency shall provide to the Commission, upon request, such existing in-

formation in the possession of the Department or other Federal agency as the Commission determines is necessary to carry out its responsibilities under this chapter.

(b) The Secretary, in formulating the information to be requested in the reports or investigations under section 825c and section 825j of title 16 and section 717i and section 717j of title 15 shall include in such reports and investigations such specific information as requested by the Federal Energy Regulatory Commission and copies of all reports, information, results of investigations and data under said sections shall be furnished by the Secretary to the Federal Energy Regulatory Commission.

(Pub. L. 95–91, title IV, § 407, Aug. 4, 1977, 91 Stat. 587.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

§ 7178. Federal Energy Regulatory Commission fees and annual charges

(a) In general

(1) Except as provided in paragraph (2) and beginning in fiscal year 1987 and in each fiscal year thereafter, the Federal Energy Regulatory Commission shall, using the provisions of this section and authority provided by other laws, assess and collect fees and annual charges in any fiscal year in amounts equal to all of the costs incurred by the Commission in that fiscal year.

(2) The provisions of this section shall not affect the authority, requirements, exceptions, or limitations in sections 803(e) and 823a(e) of title 16.

(b) Basis for assessments

The fees or annual charges assessed shall be computed on the basis of methods that the Commission determines, by rule, to be fair and equitable.

(c) Estimates

The Commission may assess fees and charges under this section by making estimates based on data available to the Commission at the time of assessment.

(d) Time of payment

The Commission shall provide that the fees and charges assessed under this section shall be paid by the end of the fiscal year for which they were assessed.

(e) Adjustments

The Commission shall, after the completion of a fiscal year, make such adjustments in the assessments for such fiscal year as may be necessary to eliminate any overrecovery or underrecovery of its total costs, and any overcharging or undercharging of any person.

(f) Use of funds

All moneys received under this section shall be credited to the general fund of the Treasury.

(g) Waiver

The Commission may waive all or part of any fee or annual charge assessed under this section for good cause shown.

(Pub. L. 99–509, title III, § 3401, Oct. 21, 1986, 100 Stat. 1890.)

CODIFICATION

Section was enacted as part of the Omnibus Budget Reconciliation Act of 1986, and not as part of the Department of Energy Organization Act which comprises this chapter.

SUBCHAPTER V—ADMINISTRATIVE PROCEDURES AND JUDICIAL REVIEW

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 7919, 8411 of this title.

§ 7191. Procedures for issuance of rules, regulations, or orders

(a) Applicability of subchapter II of chapter 5 of title 5

(1) Subject to the other requirements of this subchapter, the provisions of subchapter II of chapter 5 of title 5 shall apply in accordance with its terms to any rule or regulation, or any order having the applicability and effect of a rule (as defined in section 551(4) of title 5), issued pursuant to authority vested by law in, or transferred or delegated to, the Secretary, or required by this chapter or any other Act to be carried out by any other officer, employee, or component of the Department, other than the Commission, including any such rule, regulation, or order of a State, or local government agency or officer thereof, issued pursuant to authority delegated by the Secretary in accordance with this subchapter. If any provision of any Act, the functions of which are transferred, vested, or delegated pursuant to this chapter, provides administrative procedure requirements in addition to the requirements provided in this subchapter, such additional requirements shall also apply to actions under that provision.

(2) Notwithstanding paragraph (1), this subchapter shall apply to the Commission to the same extent this subchapter applies to the Secretary in the exercise of any of the Commission's functions under section 7172(c)(1) of this title or which the Secretary has assigned under section 7172(e) of this title.

(b) Substantial issue of fact or law or likelihood of substantial impact on Nation's economy, etc.; oral presentation

(1) If the Secretary determines, on his own initiative or in response to any showing made pursuant to paragraph (2) (with respect to a proposed rule, regulation, or order described in subsection (a) of this section) that no substantial issue of fact or law exists and that such rule, regulation, or order is unlikely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses, such proposed rule, regulation, or order may be promulgated in accordance with section 553 of title 5. If the Secretary determines that a substantial issue of fact or law exists or that such rule, regulation, or order is likely to have a substantial

impact on the Nation's economy or large numbers of individuals or businesses, an opportunity for oral presentation of views, data, and arguments shall be provided.

(2) Any person, who would be adversely affected by the implementation of any proposed rule, regulation, or order who desires an opportunity for oral presentation of views, data, and arguments, may submit material supporting the existence of such substantial issues or such impact.

(3) A transcript shall be kept of any oral presentation with respect to a rule, regulation, or order described in subsection (a) of this section.

(c) Waiver of requirements

The requirements of subsection (b) of this section may be waived where strict compliance is found by the Secretary to be likely to cause serious harm or injury to the public health, safety, or welfare, and such finding is set out in detail in such rule, regulation, or order. In the event the requirements of this section are waived, the requirements shall be satisfied within a reasonable period of time subsequent to the promulgation of such rule, regulation, or order.

(d) Effects confined to single unit of local government, geographic area within State, or State; hearing or oral presentation

(1) With respect to any rule, regulation, or order described in subsection (a) of this section, the effects of which, except for indirect effects of an inconsequential nature, are confined to—

(A) a single unit of local government or the residents thereof;

(B) a single geographic area within a State or the residents thereof; or

(C) a single State or the residents thereof;

the Secretary shall, in any case where appropriate, afford an opportunity for a hearing or the oral presentation of views, and provide procedures for the holding of such hearing or oral presentation within the boundaries of the unit of local government, geographic area, or State described in paragraphs (A) through (C) of this paragraph as the case may be.

(2) For the purposes of this subsection—

(A) the term ''unit of local government'' means a county, municipality, town, township, village, or other unit of general government below the State level; and

(B) the term ''geographic area within a State'' means a special purpose district or other region recognized for governmental purposes within such State which is not a unit of local government.

(3) Nothing in this subsection shall be construed as requiring a hearing or an oral presentation of views where none is required by this section or other provision of law.

(e) Prescription of procedures for State and local government agencies

Where authorized by any law vested, transferred, or delegated pursuant to this chapter, the Secretary may, by rule, prescribe procedures for State or local government agencies authorized by the Secretary to carry out such functions as may be permitted under applicable law. Such procedures shall apply to such agencies in lieu of this section, and shall require that prior to taking any action, such agencies shall take steps reasonably calculated to provide notice to persons who may be affected by the action, and shall afford an opportunity for presentation of views (including oral presentation of views where practicable) within a reasonable time before taking the action.

(Pub. L. 95–91, title V, § 501, Aug. 4, 1977, 91 Stat. 587; Pub. L. 105–28, § 2(a), July 18, 1997, 111 Stat. 245.)

AMENDMENTS

1997—Subsec. (b). Pub. L. 105–28, § 2(a)(1), (2), redesignated subsec. (c) as (b) and struck out former subsec. (b) which read as follows:

''(1) In addition to the requirements of subsection (a) of this section, notice of any proposed rule, regulation, or order described in subsection (a) of this section shall be given by publication of such proposed rule, regulation, or order in the Federal Register. Such publication shall be accompanied by a statement of the research, analysis, and other available information in support of, the need for, and the probable effect of, any such proposed rule, regulation, or order. Other effective means of publicity shall be utilized as may be reasonably calculated to notify concerned or affected persons of the nature and probable effect of any such proposed rule, regulation, or order. In each case, a minimum of thirty days following such publication shall be provided for an opportunity to comment prior to promulgation of any such rule, regulation, or order.

''(2) Public notice of all rules, regulations, or orders described in subsection (a) of this section which are promulgated by officers of a State or local government agency pursuant to a delegation under this chapter shall be provided by publication of such proposed rules, regulations, or orders in at least two newspapers of statewide circulation. If such publication is not practicable, notice of any such rule, regulation, or order shall be given by such other means as the officer promulgating such rule, regulation, or order determines will reasonably assure wide public notice.

''(3) For the purposes of this subchapter, the exception from the requirements of section 553 of title 5 provided by subsection (a)(2) of such section with respect to public property, loans, grants, or contracts shall not be available.''

Subsec. (c). Pub. L. 105–28, § 2(a)(2), (3), redesignated subsec. (e) as (c) and substituted ''subsection (b)'' for ''subsections (b), (c), and (d)''. Former subsec. (c) redesignated (b).

Subsec. (d). Pub. L. 105–28, § 2(a)(1), (2), redesignated subsec. (f) as (d) and struck out former subsec. (d) which read as follows: ''Following the notice and comment period, including any oral presentation required by this subsection, the Secretary may promulgate a rule if the rule is accompanied by an explanation responding to the major comments, criticisms, and alternatives offered during the comment period.''

Subsecs. (e) to (g). Pub. L. 105–28, § 2(a)(2), redesignated subsecs. (e) to (g) as (c) to (e), respectively.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6239, 6250d, 7193, 7194, 8513, 9204 of this title.

§ 7192. Judicial review

(a) Agency action

Judicial review of agency action taken under any law the functions of which are vested by law in, or transferred or delegated to the Secretary, the Commission or any officer, employee, or component of the Department shall, notwithstanding such vesting, transfer, or delegation, be made in the manner specified in or for such law.

(b) Review by district court of United States; removal

Notwithstanding the amount in controversy, the district courts of the United States shall have exclusive original jurisdiction of all other cases or controversies arising exclusively under this chapter, or under rules, regulations, or orders issued exclusively thereunder, other than any actions taken to implement or enforce any rule, regulation, or order by any officer of a State or local government agency under this chapter, except that nothing in this section affects the power of any court of competent jurisdiction to consider, hear, and determine in any proceeding before it any issue raised by way of defense (other than a defense based on the unconstitutionality of this chapter or the validity of action taken by any agency under this chapter). If in any such proceeding an issue by way of defense is raised based on the unconstitutionality of this chapter or the validity of agency action under this chapter, the case shall be subject to removal by either party to a district court of the United States in accordance with the applicable provisions of chapter 89 of title 28. Cases or controversies arising under any rule, regulation, or order of any officer of a State or local government agency may be heard in either (A) any appropriate State court, or (B) without regard to the amount in controversy, the district courts of the United States.

(c) Litigation supervision by Attorney General

Subject to the provisions of section 7171(i) of this title and notwithstanding any other law, the litigation of the Department shall be subject to the supervision of the Attorney General pursuant to chapter 31 of title 28. The Attorney General may authorize any attorney of the Department to conduct any civil litigation of the Department in any Federal court except the Supreme Court.

(Pub. L. 95–91, title V, § 502, Aug. 4, 1977, 91 Stat. 589.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6303, 8412, 8433, 8434 of this title.

§ 7193. Remedial orders

(a) Violations of rules, regulations, or orders promulgated pursuant to Emergency Petroleum Allocation Act of 1973

If upon investigation the Secretary or his authorized representative believes that a person has violated any regulation, rule, or order described in section 7191(a) of this title promulgated pursuant to the Emergency Petroleum Allocation Act of 1973[1] [15 U.S.C. 751 et seq.], he may issue a remedial order to the person. Each remedial order shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of such rule, regulation, or order alleged to have been violated. For purposes of this section ''person'' includes any individual, association, company, corporation, partnership, or other entity however organized.

(b) Notice of intent to contest; final order not subject to review

If within thirty days after the receipt of the remedial order issued by the Secretary, the person fails to notify the Secretary that he intends to contest the remedial order, the remedial order shall become effective and shall be deemed a final order of the Secretary and not subject to review by any court or agency.

(c) Notice of contestation to Commission; stay; hearing; cross examination; final order; enforcement and review

If within thirty days after the receipt of the remedial order issued by the Secretary, the person notifies the Secretary that he intends to contest a remedial order issued under subsection (a) of this section, the Secretary shall immediately advise the Commission of such notification. Upon such notice, the Commission shall stay the effect of the remedial order, unless the Commission finds the public interest requires immediate compliance with such remedial order. The Commission shall, upon request, afford an opportunity for a hearing, including, at a minimum, the submission of briefs, oral or documentary evidence, and oral arguments. To the extent that the Commission in its discretion determines that such is required for a full and true disclosure of the facts, the Commission shall afford the right of cross examination. The Commission shall thereafter issue an order, based on findings of fact, affirming, modifying, or vacating the Secretary's remedial order, or directing other appropriate relief, and such order shall, for the purpose of judicial review, constitute a final agency action, except that enforcement and other judicial review of such action shall be the responsibility of the Secretary.

(d) Time limits

The Secretary may set reasonable time limits for the Commission to complete action on a proceeding referred to it pursuant to this section.

(e) Effect on procedural action taken by Secretary prior to issuance of initial remedial order

Nothing in preceding provisions of this section shall be construed to affect any procedural action taken by the Secretary prior to or incident to initial issuance of a remedial order which is the subject of the hearing provided in preceding provisions of this section, but such procedures shall be reviewable in the hearing.

(f) Savings provision

The provisions of preceding provisions of this section shall be applicable only with respect to proceedings initiated by a notice of probable violation issued after October 1, 1977.

(g) Retroactive application; marketing of petroleum products

With respect to any person whose sole petroleum industry operation relates to the marketing of petroleum products, the Secretary or any person acting on his behalf may not exercise discretion to maintain a civil action (other than an action for injunctive relief) or issue a reme-

[1] See References in Text note below.

dial order against such person for any violation of any rule or regulation if—

(1) such civil action or order is based on a retroactive application of such rule or regulation or is based upon a retroactive interpretation of such rule or regulation; and

(2) such person relied in good faith upon rules, regulations, or ruling in effect on the date of the violation interpreting such rules or regulations.

(Pub. L. 95–91, title V, § 503, Aug. 4, 1977, 91 Stat. 590; Pub. L. 95–620, title VIII, § 805, Nov. 9, 1978, 92 Stat. 3348.)

REFERENCES IN TEXT

The Emergency Petroleum Allocation Act of 1973, referred to in subsec. (a), is Pub. L. 93–159, Nov. 27, 1973, 87 Stat. 628, as amended, which was classified generally to chapter 16A (§ 751 et seq.) of Title 15, Commerce and Trade, and was omitted from the Code pursuant to section 760g of Title 15, which provided for the expiration of the President's authority under that chapter on Sept. 30, 1981.

AMENDMENTS

1978—Subsecs. (e), (f). Pub. L. 95–620, § 805(b), inserted ''preceding provisions of'' before ''this section''.

Subsec. (g). Pub. L. 95–620, § 805(a), added subsec. (g).

EFFECTIVE DATE OF 1978 AMENDMENT

Amendment by Pub. L. 95–620 effective 180 days after Nov. 9, 1978, see section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 15 section 4504.

§ 7194. Requests for adjustments

(a) The Secretary or any officer designated by him shall provide for the making of such adjustments to any rule, regulation or order described in section 7191(a) of this title issued under the Federal Energy Administration Act [15 U.S.C. 761 et seq.], the Emergency Petroleum Allocation Act of 1973[1] [15 U.S.C. 751 et seq.], the Energy Supply and Environmental Coordination Act of 1974 [15 U.S.C. 791 et seq.], or the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.], consistent with the other purposes of the relevant Act, as may be necessary to prevent special hardship, inequity, or unfair distribution of burdens, and shall by rule, establish procedures which are available to any person for the purpose of seeking an interpretation, modification, or recission[2] of, exception to, or exemption from, such rule, regulation or order. The Secretary or any such officer shall additionally insure that each decision on any application or petition requesting an adjustment shall specify the standards of hardship, inequity, or unfair distribution of burden by which any disposition was made, and the specific application of such standards to the facts contained in any such application or petition.

(b)(1) If any person is aggrieved or adversely affected by a denial of a request for adjustment under subsection (a) of this section such person may request a review of such denial by the Commission and may obtain judicial review in accordance with this subchapter when such a denial becomes final.

(2) The Commission shall, by rule, establish appropriate procedures, including a hearing when requested, for review of a denial. Action by the Commission under this section shall be considered final agency action within the meaning of section 704 of title 5 and shall not be subject to further review by the Secretary or any officer or employee of the Department. Litigation involving judicial review of such action shall be the responsibility of the Secretary.

EFFECTIVE DATE OF REPEAL

For effective date and applicability of repeal, see section 4401 of Pub. L. 104–106, set out as an Effective Date of 1996 Amendment note under section 251 of Title 41, Public Contracts.

PART B—PERSONNEL PROVISIONS

§ 7231. Officers and employees

(a) Authority of Secretary to appoint and fix compensation

In the performance of his functions the Secretary is authorized to appoint and fix the compensation of such officers and employees, including attorneys, as may be necessary to carry out such functions. Except as otherwise provided in this section, such officers and employees shall be appointed in accordance with the civil service laws and their compensation fixed in accordance with title 5.

(b) Appointment of scientific, engineering, etc., personnel without regard to civil service laws; compensation; termination of authority

(1) Subject to the limitations provided in paragraph (2) and to the extent the Secretary deems such action necessary to the discharge of his functions, he may appoint not more than three hundred eleven of the scientific, engineering, professional, and administrative personnel of the department without regard to the civil service laws, and may fix the compensation of such personnel not in excess of the maximum rate payable for GS–18 of the General Schedule under section 5332 of title 5.

(2) The Secretary's authority under this subsection to appoint an individual to such a position without regard to the civil service laws shall cease—

(A) when a person appointed, within four years after October 1, 1977, to fill such position under paragraph (1) leaves such position, or

(B) on the day which is four years after such date,

whichever is later.

(c) Placement of GS–16, GS–17, and GS–18 positions without regard to section 3324 of title 5; termination of authority

(1) Subject to the provisions of chapter 51 of title 5 but notwithstanding the last two sentences of section 5108(a)[1] of such title, the Secretary may place at GS–16, GS–17, and GS–18, not to exceed one hundred seventy-eight positions of the positions subject to the limitation of the first sentence of section 5108(a)[1] of such title.

(2) Appointments under this subsection may be made without regard to the provisions of sections 3324 of title 5, relating to the approval by the Director of the Office of Personnel Management of appointments under GS–16, GS–17, and GS–18 if the individual placed in such position is an individual who is transferred in connection with a transfer of functions under this chapter and who, immediately before October 1, 1977, held a position and duties comparable to those of such position.

(3) The Secretary's authority under this subsection with respect to any position shall cease when the person first appointed to fill such position leaves such position.

(d) Appointment of additional scientific, engineering, etc., personnel without regard to civil service laws; compensation

In addition to the number of positions which may be placed at GS–16, GS–17, and GS–18 under section 5108 of title 5, under existing law, or under this chapter, and to the extent the Secretary deems such action necessary to the discharge of his functions, he may appoint not more than two hundred of the scientific, engineering, professional, and administrative personnel without regard to the civil service laws and may fix the compensation of such personnel not in excess of the maximum rate payable for GS–18 of the General Schedule under section 5332 of title 5.

(e) Determination of maximum aggregate number of positions

For the purposes of determining the maximum aggregate number of positions which may be placed at GS–16, GS–17, or GS–18 under section 5108(a) of title 5, 63 percent of the positions established under subsections (b) and (c) of this

[1] See References in Text note below.

section shall be deemed GS–16 positions, 25 percent of such positions shall be deemed GS–17 positions, and 12 percent of such positions shall be deemed GS–18.

(f) Intelligence and intelligence-related positions exempt from competitive service

All positions in the Department which the Secretary determines are devoted to intelligence and intelligence-related activities of the United States Government are excepted from the competitive service, and the individuals who occupy such positions as of August 14, 1991, shall, while employed in such positions, be exempt from the competitive service.

(Pub. L. 95–91, title VI, § 621, Aug. 4, 1977, 91 Stat. 596; 1978 Reorg. Plan No. 2, § 102, eff. Jan. 1, 1979, 43 F.R. 36037, 92 Stat. 3784; Pub. L. 102–88, title IV, § 403, Aug. 14, 1991, 105 Stat. 434.)

REFERENCES IN TEXT

The civil service laws, referred to in subsecs. (a), (b)(1), (2), and (d), are set out in Title 5, Government Organization and Employees. See, particularly, section 3301 et seq. of Title 5.

Section 5108(a) of title 5, referred to in subsec. (c)(1), was amended generally by Pub. L. 101–509, title V, § 529 [title I, § 102(b)(2)], Nov. 5, 1990, 104 Stat. 1427, 1443, and, as so amended, contains only one sentence.

This chapter, referred to in subsecs. (c)(2) and (d), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

CODIFICATION

August 14, 1991, referred to in subsec. (f), was in the original ''the date of enactment of this Act'', which was translated as meaning the date of enactment of Pub. L. 102–88, which enacted subsec. (f) of this section, to reflect the probable intent of Congress.

AMENDMENTS

1991—Subsec. (f). Pub. L. 102–88 added subsec. (f).

TRANSFER OF FUNCTIONS

''Director of the Office of Personnel Management'' substituted for ''Civil Service Commission'' in subsec. (c)(2), pursuant to Reorg. Plan No. 2 of 1978, § 102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred all functions vested by statute in United States Civil Service Commission to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1–102 of Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

REFERENCES IN OTHER LAWS TO GS–16, 17, OR 18 PAY RATES

References in laws to the rates of pay for GS–16, 17, or 18, or to maximum rates of pay under the General Schedule, to be considered references to rates payable under specified sections of Title 5, Government Organization and Employees, see section 529 [title I, § 101(c)(1)] of Pub. L. 101–509, set out in a note under section 5376 of Title 5.

AUTHORITY FOR APPOINTMENT OF CERTAIN SCIENTIFIC, ENGINEERING, AND TECHNICAL PERSONNEL

Pub. L. 103–337, div. C, title XXXI, § 3161, Oct. 5, 1994, 108 Stat. 3095, as amended by Pub. L. 105–85, div. C, title XXXI, § 3139, Nov. 18, 1997, 111 Stat. 2040; Pub. L. 105–261, div. C, title XXXI, §§ 3152, 3155, Oct. 17, 1998, 112 Stat. 2253, 2257; Pub. L. 106–398, § 1 [div. C, title XXXI, § 3191], Oct. 30, 2000, 114 Stat. 1654, 1654A–480; Pub. L. 107–314, div. C, title XXXI, § 3174, Dec. 2, 2002, 116 Stat. 2745, provided that:

''(a) AUTHORITY.—(1) Notwithstanding any provision of title 5, United States Code, governing appointments in the competitive service and General Schedule classification and pay rates, the Secretary of Energy may—

''(A) establish and set the rates of pay for not more than 200 positions in the Department of Energy for scientific, engineering, and technical personnel whose duties will relate to safety at defense nuclear facilities of the Department; and

''(B) appoint persons to such positions.

''(2) The rate of pay for a position established under paragraph (1) may not exceed the rate of pay payable for level III of the Executive Schedule under section 5314 of title 5, United States Code.

''(3) To the maximum extent practicable, the Secretary shall appoint persons under paragraph (1)(B) to the positions established under paragraph (1)(A) in accordance with the merit system principles set forth in section 2301 of such title.

''(4) The Secretary may not appoint more than 100 persons during fiscal year 1995 under the authority provided in this subsection.

''(b) OPM REVIEW.—(1) The Secretary shall enter into an agreement with the Director of the Office of Personnel Management under which agreement the Director shall periodically evaluate the use of the authority set forth in subsection (a)(1). The Secretary shall reimburse the Director for evaluations conducted by the Director pursuant to the agreement. Any such reimbursement shall be credited to the revolving fund referred to in section 1304(e) of title 5, United States Code.

''(2) If the Director determines as a result of such evaluation that the Secretary of Energy is not appointing persons to positions under such authority in a manner consistent with the merit system principles set forth in section 2301 of title 5, United States Code, or is setting rates of pay at levels that are not appropriate for the qualifications and experience of the persons appointed and the duties of the positions involved, the Director shall notify the Secretary and Congress of that determination.

''(3) Upon receipt of a notification under paragraph (2), the Secretary shall—

''(A) take appropriate actions to appoint persons to positions under such authority in a manner consistent with such principles or to set rates of pay at levels that are appropriate for the qualifications and experience of the persons appointed and the duties of the positions involved; or

''(B) cease appointment of persons under such authority.

''(c) TERMINATION.—(1) The authority provided under subsection (a)(1) shall terminate on September 30, 2004.

''(2) An employee may not be separated from employment with the Department of Energy or receive a reduction in pay by reason of the termination of authority under paragraph (1).''

§ 7232. Senior positions

In addition to those positions created by subchapter II of this chapter, there shall be within the Department fourteen additional officers in positions authorized by section 5316 of title 5 who shall be appointed by the Secretary and who shall perform such functions as the Secretary shall prescribe from time to time.

(Pub. L. 95–91, title VI, § 622, Aug. 4, 1977, 91 Stat. 597.)

§ 7233. Experts and consultants

The Secretary may obtain services as authorized by section 3109 of title 5, at rates not to exceed the daily rate prescribed for grade GS–18 of

the General Schedule under section 5332 of title 5 for persons in Government service employed intermittently.

(Pub. L. 95–91, title VI, § 623, Aug. 4, 1977, 91 Stat. 598.)

REFERENCES IN OTHER LAWS TO GS–16, 17, OR 18 PAY RATES

References in laws to the rates of pay for GS–16, 17, or 18, or to maximum rates of pay under the General Schedule, to be considered references to rates payable under specified sections of Title 5, Government Organization and Employees, see section 529 [title I, § 101(c)(1)] of Pub. L. 101–509, set out in a note under section 5376 of Title 5.

§ 7234. Advisory committees

The Secretary is authorized to establish in accordance with the Federal Advisory Committee Act such advisory committees as he may deem appropriate to assist in the performance of his functions. Members of such advisory committees, other than full-time employees of the Federal Government, while attending meetings of such committees or while otherwise serving at the request of the Secretary while serving away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for individuals in the Government serving without pay.

(Pub. L. 95–91, title VI, § 624, Aug. 4, 1977, 91 Stat. 598; Pub. L. 105–28, § 2(b)(1), July 18, 1997, 111 Stat. 245.)

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in text, is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

1997—Pub. L. 105–28 struck out subsec. (a) designation and struck out subsec. (b) which read as follows: ''Section 776 of title 15 shall be applicable to advisory committees chartered by the Secretary, or transferred to the Secretary or the Department under this chapter, except that where an advisory committee advises the Secretary on matters pertaining to research and development, the Secretary may determine that such meeting shall be closed because it involves research and development matters and comes within the exemption of section 552b(c)(4) of title 5.''

TERMINATION OF ADVISORY COMMITTEES

Advisory committees established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided for by law. See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 5, Government Organization and Employees.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5588 of this title.

§ 7235. Armed services personnel

(a) The Secretary is authorized to provide for participation of Armed Forces personnel in carrying out functions authorized to be performed, on August 4, 1977, in the Energy Research and Development Administration and under chapter 641 of title 10. Members of the Armed Forces may be detailed for service in the Department by the Secretary concerned (as such term is defined in section 101 of such title) pursuant to cooperative agreements with the Secretary.

(b) The detail of any personnel to the Department under this section shall in no way affect status, office, rank, or grade which officers or enlisted men may occupy or hold or any emolument, perquisite, right, privilege, or benefit incident to, or arising out of, such status, office, rank, or grade. A member so detailed shall not be subject to direction or control by his armed force, or any officer thereof, directly or indirectly, with respect to the responsibilities exercised in the position to which detailed.

(Pub. L. 95–91, title VI, § 625, Aug. 4, 1977, 91 Stat. 598; Pub. L. 95–509, title II, § 210, Oct. 24, 1978, 92 Stat. 1779.)

AMENDMENTS

1978—Subsec. (b). Pub. L. 95–509 struck out requirement that a detailed member be charged to the limitations applicable to the Department and prohibition of such member from being charged to any statutory or other limitation or strengths applicable to the Armed Forces.

§ 7236. Executive management training in Department of Energy

(a) Establishment of training program

The Secretary of Energy shall establish and implement a management training program for personnel of the Department of Energy involved in the management of atomic energy defense activities.

(b) Training provisions

The training program shall at a minimum include instruction in the following areas:

(1) Department of Energy policy and procedures for management and operation of atomic energy defense facilities.

(2) Methods of evaluating technical performance.

(3) Federal and State environmental laws and requirements for compliance with such environmental laws, including timely compliance with reporting requirements in such laws.

(4) The establishment of program milestones and methods to evaluate success in meeting such milestones.

(5) Methods for conducting long-range technical and budget planning.

(6) Procedures for reviewing and applying innovative technology to environmental restoration and defense waste management.

(Pub. L. 101–189, div. C, title XXXI, § 3142, Nov. 29, 1989, 103 Stat. 1680.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1990 and 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7237. Priority placement, job placement, retraining, and counseling programs for United States Department of Energy employees affected by reduction in force

(a) Definitions

(1) For the purposes of this section, the term ''agency'' means the United States Department of Energy.

(2) For the purposes of this section, the term ''eligible employee'' means any employee of the agency who—

(A) is scheduled to be separated from service due to a reduction in force under—

(i) regulations prescribed under section 3502 of title 5; or

(ii) procedures established under section 3595 of title 5; or

(B) is separated from service due to such a reduction in force, but does not include—

(i) an employee separated from service for cause on charges of misconduct or delinquency; or

(ii) an employee who, at the time of separation, meets the age and service requirements for an immediate annuity under subchapter III of chapter 83 or chapter 84 of title 5.

(b) Priority placement and retraining program

Not later than 30 days after September 30, 1996, the United States Department of Energy shall establish an agency-wide priority placement and retraining program for eligible employees.

(c) Filling vacancy from outside agency

The priority placement program established under subsection (b) of this section shall include provisions under which a vacant position shall not be filled by the appointment or transfer of any individual from outside of the agency if—

(1) there is then available any eligible employee who applies for the position within 30 days of the agency issuing a job announcement and is qualified (or can be trained or retrained to become qualified within 90 days of assuming the position) for the position; and

(2) the position is within the same commuting area as the eligible employee's last-held position or residence.

(d) Job placement and counseling services

The head of the agency may establish a program to provide job placement and counseling services to eligible employees. A program established under subsection (d) of this section may include, but is not limited to, such services as—

(1) career and personal counseling;

(2) training and job search skills; and

(3) job placement assistance, including assistance provided through cooperative arrangements with State and local employment services offices.

(Pub. L. 104–206, title III, § 301, Sept. 30, 1996, 110 Stat. 2999.)

CODIFICATION

Section was enacted as part of the Energy and Water Development Appropriations Act, 1997, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7238. Temporary appointments for scientific and technical experts in Department of Energy research and development programs

(a) The Secretary, utilizing authority under other applicable law and the authority of this section, may appoint for a limited term, or on a temporary basis, scientists, engineers, and other technical and professional personnel on leave of absence from academic, industrial, or research institutions to work for the Department.

(b) The Department may pay, to the extent authorized for certain other Federal employees by section 5723 of title 5, travel expenses for any individual appointed for a limited term or on a temporary basis and transportation expenses of his or her immediate family and his or her household goods and personal effects from that individual's residence at the time of selection or assignment to his or her duty station. The Department may pay such travel expenses to the same extent for such an individual's return to the former place of residence from his or her duty station, upon separation from the Federal service following an agreed period of service. The Department may also pay a per diem allowance at a rate not to exceed the daily amounts prescribed under section 5702 of title 5 to such an individual, in lieu of transportation expenses of the immediate family and household goods and personal effects, for the period of his or her employment with the Department. Notwithstanding any other provision of law, the employer's contribution to any retirement, life insurance, or health benefit plan for an individual appointed for a term of one year or less, which could be extended for no more than one additional year, may be made or reimbursed from appropriations available to the Department.

(Pub. L. 104–271, title III, § 301, Oct. 9, 1996, 110 Stat. 3307.)

CODIFICATION

Section was enacted as part of the Hydrogen Future Act of 1996, and not as part of the Department of Energy Organization Act which comprises this chapter.

DEFINITIONS

Section 2 of Pub. L. 104–271 provided that: ''For purposes of titles II and III [enacting this section and provisions set out as a note under section 12403 of this title]—

''(1) the term 'Department' means the Department of Energy; and

''(2) the term 'Secretary' means the Secretary of Energy.''

§ 7239. Whistleblower protection program

(a) Program required

The Secretary of Energy shall establish a program to ensure that covered individuals may not be discharged, demoted, or otherwise discriminated against as a reprisal for making protected disclosures.

(b) Covered individuals

For purposes of this section, a covered individual is an individual who is an employee of the Department of Energy, or of a contractor of the Department, who is engaged in the defense activities of the Department.

(c) Protected disclosures

For purposes of this section, a protected disclosure is a disclosure—

(1) made by a covered individual who takes appropriate steps to protect the security of the information in accordance with guidance provided under this section;

(2) made to a person or entity specified in subsection (d) of this section; and

(3) of classified or other information that the covered individual reasonably believes to provide direct and specific evidence of any of the following:

(A) A violation of law or Federal regulation.

(B) Gross mismanagement, a gross waste of funds, or abuse of authority.

(C) A false statement to Congress on an issue of material fact.

(d) Persons and entities to which disclosures may be made

A person or entity specified in this subsection is any of the following:

(1) A member of a committee of Congress having primary responsibility for oversight of the department, agency, or element of the Government to which the disclosed information relates.

(2) An employee of Congress who is a staff member of such a committee and has an appropriate security clearance for access to information of the type disclosed.

(3) The Inspector General of the Department of Energy.

(4) The Federal Bureau of Investigation.

(5) Any other element of the Government designated by the Secretary as authorized to receive information of the type disclosed.

(e) Official capacity of persons to whom information is disclosed

A member of, or an employee of Congress who is a staff member of, a committee of Congress specified in subsection (d) of this section who receives a protected disclosure under this section does so in that member or employee's official capacity as such a member or employee.

(f) Assistance and guidance

The Secretary, acting through the Inspector General of the Department of Energy, shall provide assistance and guidance to each covered individual who seeks to make a protected disclosure under this section. Such assistance and guidance shall include the following:

(1) Identifying the persons or entities under subsection (d) of this section to which that disclosure may be made.

(2) Advising that individual regarding the steps to be taken to protect the security of the information to be disclosed.

(3) Taking appropriate actions to protect the identity of that individual throughout that disclosure.

(4) Taking appropriate actions to coordinate that disclosure with any other Federal agency or agencies that originated the information.

(g) Regulations

The Secretary shall prescribe regulations to ensure the security of any information disclosed under this section.

(h) Notification to covered individuals

The Secretary shall notify each covered individual of the following:

(1) The rights of that individual under this section.

(2) The assistance and guidance provided under this section.

(3) That the individual has a responsibility to obtain that assistance and guidance before seeking to make a protected disclosure.

(i) Complaint by covered individuals

If a covered individual believes that that individual has been discharged, demoted, or otherwise discriminated against as a reprisal for making a protected disclosure under this section, the individual may submit a complaint relating to such matter to the Director of the Office of Hearings and Appeals of the Department of Energy.

(j) Investigation by Office of Hearings and Appeals

(1) For each complaint submitted under subsection (i) of this section, the Director of the Office of Hearings and Appeals shall—

(A) determine whether or not the complaint is frivolous; and

(B) if the Director determines the complaint is not frivolous, conduct an investigation of the complaint.

(2) The Director shall submit a report on each investigation undertaken under paragraph (1)(B) to—

(A) the individual who submitted the complaint on which the investigation is based;

(B) the contractor concerned, if any; and

(C) the Secretary of Energy.

(k) Remedial action

(1) Whenever the Secretary determines that a covered individual has been discharged, demoted, or otherwise discriminated against as a reprisal for making a protected disclosure under this section, the Secretary shall—

(A) in the case of a Department employee, take appropriate actions to abate the action; or

(B) in the case of a contractor employee, order the contractor concerned to take appropriate actions to abate the action.

(2)(A) If a contractor fails to comply with an order issued under paragraph (1)(B), the Secretary may file an action for enforcement of the order in the appropriate United States district court.

(B) In any action brought under subparagraph (A), the court may grant appropriate relief, including injunctive relief and compensatory and exemplary damages.

***(l)* Relationship to other laws**

The protections provided by this section are independent of, and not subject to any limitations that may be provided in, the Whistleblower Protection Act of 1989 (Public Law 101–512)[1] or any other law that may provide protection for disclosures of information by em-

[1] See References in Text note below.

ployees of the Department of Energy or of a contractor of the Department.

(m) Annual report

(1) Not later than 30 days after the commencement of each fiscal year, the Director shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the investigations undertaken under subsection (j)(1)(B) of this section during the preceding fiscal year, including a summary of the results of each such investigation.

(2) A report under paragraph (1) may not identify or otherwise provide any information about an individual submitting a complaint under this section without the consent of the individual.

(n) Implementation report

Not later than 60 days after October 5, 1999, the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report describing the implementation of the program required by this section.

(Pub. L. 106–65, div. C, title XXXI, §3164, Oct. 5, 1999, 113 Stat. 946.)

REFERENCES IN TEXT

The Whistleblower Protection Act of 1989, referred to in subsec. (*l*), is Pub. L. 101–12, Apr. 10, 1989, 103 Stat. 16, as amended, which enacted subchapters II (§1211 et seq.) and III (§1221 et seq.) of chapter 12 and section 3352 of Title 5, Government Organization and Employees, amended sections 1201 to 1206, 1209, 1211, 2302, 2303, 3393, 7502, 7512, 7521, 7542, 7701, and 7703 of Title 5 and section 4139 of Title 22, Foreign Relations and Intercourse, repealed sections 1207 and 1208 of Title 5, and enacted provisions set out as notes under sections 1201, 1211, and 5509 of Title 5. For complete classification of this Act to the Code, see Short Title of 1989 Amendment note set out under section 1201 of Title 5 and Tables.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 2000, and not as part of the Department of Energy Organization Act which comprises this chapter.

PART C—GENERAL ADMINISTRATIVE PROVISIONS

§ 7251. General authority

To the extent necessary or appropriate to perform any function transferred by this chapter, the Secretary or any officer or employee of the Department may exercise, in carrying out the function so transferred, any authority or part thereof available by law, including appropriation Acts, to the official or agency from which such function was transferred.

(Pub. L. 95–91, title VI, §641, Aug. 4, 1977, 91 Stat. 598.)

DEPARTMENT OF ENERGY SECURITY MANAGEMENT BOARD

Pub. L. 105–85, div. C, title XXXI, §3161, Nov. 18, 1997, 111 Stat. 2048, required the Secretary of Energy to establish the Department of Energy Security Management Board, and provided for its duties which related to the security functions of the Department, and its membership, appointments, personnel, compensation, expenses, and termination on Oct. 31, 2000, prior to repeal by Pub. L. 106–65, div. C, title XXXI, §3142(h)(1), Oct. 5, 1999, 113 Stat. 933.

§ 7252. Delegation

Except as otherwise expressly prohibited by law, and except as otherwise provided in this chapter, the Secretary may delegate any of his functions to such officers and employees of the Department as he may designate, and may authorize such successive redelegations of such functions within the Department as he may deem to be necessary or appropriate.

(Pub. L. 95–91, title VI, §642, Aug. 4, 1977, 91 Stat. 599.)

REORGANIZATION OF FIELD ACTIVITIES AND MANAGEMENT OF NATIONAL SECURITY FUNCTIONS

Pub. L. 104–206, title III, §302, Sept. 30, 1996, 110 Stat. 2999, provided that: ''None of the funds appropriated by this or any other Act may be used to implement section 3140 of H.R. 3230 as reported by the Committee of Conference on July 30, 1996 [Pub. L. 104–201, set out below]. The Secretary of Energy shall develop a plan to reorganize the field activities and management of the national security functions of the Department of Energy and shall submit such plan to the Congress not later than 120 days after the date of enactment of this Act [Sept. 30, 1996]. The plan will specifically identify all significant functions performed by the Department's national security operations and area offices and make recommendations as to where those functions should be performed.''

Pub. L. 104–201, div. C, title XXXI, §3140, Sept. 23, 1996, 110 Stat. 2833, provided that:

''(a) LIMITATION ON DELEGATION OF AUTHORITY.—(1) The Secretary of Energy, in carrying out national security programs, may delegate specific management and planning authority over matters relating to site operation of the facilities and laboratories covered by this section only to the Assistant Secretary of Energy for Defense Programs. Such Assistant Secretary may redelegate such authority only to managers of area offices of the Department of Energy located at such facilities and laboratories.

''(2) Nothing in this section may be construed as affecting the delegation by the Secretary of Energy of authority relating to reporting, management, and oversight of matters relating to the Department of Energy generally, or safety, environment, and health at such facilities and laboratories.

''(b) REQUIREMENT TO CONSULT WITH AREA OFFICES.—The Assistant Secretary of Energy for Defense Programs, in exercising any delegated authority to oversee management of matters relating to site operation of a facility or laboratory, shall exercise such authority only after direct consultation with the manager of the area office of the Department of Energy located at the facility or laboratory.

''(c) REQUIREMENT FOR DIRECT COMMUNICATION FROM AREA OFFICES.—The Secretary of Energy, acting through the Assistant Secretary of Energy for Defense Programs, shall require the head of each area office of the Department of Energy located at each facility and laboratory covered by this section to report on matters relating to site operation other than those matters set forth in subsection (a)(2) directly to the Assistant Secretary of Energy for Defense Programs, without obtaining the approval or concurrence of any other official within the Department of Energy.

''(d) DEFENSE PROGRAMS REORGANIZATION PLAN AND REPORT.—(1) The Secretary of Energy shall develop a plan to reorganize the field activities and management of the national security functions of the Department of Energy.

''(2) Not later than 120 days after the date of the enactment of this Act [Sept. 23, 1996], the Secretary shall submit to Congress a report on the plan developed under paragraph (1). The report shall specifically identify all significant functions performed by the operations offices relating to any of the facilities and lab-

oratories covered by this section and which of those functions could be performed—

''(A) by the area offices of the Department of Energy located at the facilities and laboratories covered by this section; or

''(B) by the Assistant Secretary of Energy for Defense Programs.

''(3) The report also shall address and make recommendations with respect to other internal streamlining and reorganization initiatives that the Department could pursue with respect to military or national security programs.

''(e) DEFENSE PROGRAMS MANAGEMENT COUNCIL.—The Secretary of Energy shall establish a council to be known as the 'Defense Programs Management Council'. The Council shall advise the Secretary on policy matters, operational concerns, strategic planning, and development of priorities relating to the national security functions of the Department of Energy. The Council shall be composed of the directors of the facilities and laboratories covered by this section and shall report directly to the Assistant Secretary of Energy for Defense Programs.

''(f) COVERED SITE OPERATIONS.—For purposes of this section, matters relating to site operation of a facility or laboratory include matters relating to personnel, budget, and procurement in national security programs.

''(g) COVERED FACILITIES AND LABORATORIES.—This section applies to the following facilities and laboratories of the Department of Energy:

''(1) The Kansas City Plant, Kansas City, Missouri.

''(2) The Pantex Plant, Amarillo, Texas.

''(3) The Y–12 Plant, Oak Ridge, Tennessee.

''(4) The Savannah River Site, Aiken, South Carolina.

''(5) Los Alamos National Laboratory, Los Alamos, New Mexico.

''(6) Sandia National Laboratories, Albuquerque, New Mexico.

''(7) Lawrence Livermore National Laboratory, Livermore, California.

''(8) The Nevada Test Site, Nevada.''

[All national security functions and activities performed immediately before Oct. 5, 1999 by covered facilities listed in section 3140(g) of Pub. L. 104–201, set out above, transferred to the Administrator for Nuclear Security of the National Nuclear Security Administration of the Department of Energy, see section 2481 of Title 50, War and National Defense.]

§ 7253. Reorganization

(a) Subject to subsection (b) of this section, the Secretary is authorized to establish, alter, consolidate or discontinue such organizational units or components within the Department as he may deem to be necessary or appropriate. Such authority shall not extend to the abolition of organizational units or components established by this chapter, or to the transfer of functions vested by this chapter in any organizational unit or component.

(b)[1] The authority of the Secretary to establish, abolish, alter, consolidate, or discontinue any organizational unit or component of the National Nuclear Security Administration is governed by the provisions of section 2409 of title 50.

(b)[1] The authority of the Secretary under subsection (a) of this section does not apply to the National Nuclear Security Administration. The corresponding authority that applies to the Administration is set forth in section 2402(e)[2] of title 50.

[1] So in original. Two subsecs. (b) have been enacted.

[2] See References in Text note below.

(Pub. L. 95–91, title VI, § 643, Aug. 4, 1977, 91 Stat. 599; Pub. L. 106–377, § 1(a)(2) [title III, § 314(b)], Oct. 27, 2000, 114 Stat. 1441, 1441A–81; Pub. L. 106–398, § 1 [div. C, title XXXI, § 3159(b)], Oct. 30, 2000, 114 Stat. 1654, 1654A–470.)

REFERENCES IN TEXT

Section 2402(e) of title 50, referred to in subsec. (b) set out second, probably means the subsec. (e) of section 2402 which relates to reorganization authority and was added by Pub. L. 106–398, § 1 [div. C, title XXXI, § 3159(a)] Oct. 30, 2000, 114 Stat. 1654, 1654A–469 and redesignated section 2402(f) of title 50 by Pub. L. 107–107, div. A, title X, § 1048(i)(12), Dec. 28, 2001, 115 Stat. 1230.

AMENDMENTS

2000—Subsec. (a). Pub. L. 106–398, § 1 [div. C, title XXXI, § 3159(b)(1)], which directed amendment of section by substituting ''(a) Except as provided in subsection (b) of this section, the Secretary'' for ''The Secretary'', could not be executed because the words ''The Secretary'' did not appear after execution of the amendment by Pub. L. 106–377, § 1(a)(2) [title III, § 314(b)(1)]. See below.

Pub. L. 106–377, § 1(a)(2) [title III, § 314(b)(1)], designated existing provisions as subsec. (a) and substituted ''Subject to subsection (b) of this section, the Secretary'' for ''The Secretary''.

Subsec. (b). Pub. L. 106–398, § 1 [div. C, title XXXI, § 3159(b)(2)], added subsec. (b) relating to nonapplicability of authority of Secretary under subsec. (a) of this section to National Nuclear Security Administration.

Pub. L. 106–377, § 1(a)(2) [title III, § 314(b)(2)], added subsec. (b) relating to authority of Secretary as to National Nuclear Security Administration.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 50 section 2409.

§ 7254. Rules and regulations

The Secretary is authorized to prescribe such procedural and administrative rules and regulations as he may deem necessary or appropriate to administer and manage the functions now or hereafter vested in him.

(Pub. L. 95–91, title VI, § 644, Aug. 4, 1977, 91 Stat. 599.)

§ 7255. Subpoena

For the purpose of carrying out the provisions of this chapter, the Secretary, or his duly authorized agent or agents, shall have the same powers and authorities as the Federal Trade Commission under section 49 of title 15 with respect to all functions vested in, or transferred or delegated to, the Secretary or such agents by this chapter. For purposes of carrying out its responsibilities under the Natural Gas Policy Act of 1978 [15 U.S.C. 3301 et seq.], the Commission shall have the same powers and authority as the Secretary has under this section.

(Pub. L. 95–91, title VI, § 645, Aug. 4, 1977, 91 Stat. 599; Pub. L. 95–621, title V, § 508(a), Nov. 9, 1978, 92 Stat. 3408.)

REFERENCES IN TEXT

The Natural Gas Policy Act of 1978, referred to in text, is Pub. L. 95–621, Nov. 9, 1978, 92 Stat. 3350, which is classified generally to chapter 60 (§ 3301 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3301 of Title 15 and Tables.

AMENDMENTS

1978—Pub. L. 95–621 inserted provision giving the Commission the same powers and authority as the Sec-

retary under this section for purposes of carrying out its responsibilities under the Natural Gas Policy Act of 1978.

§ 7256. Contracts, leases, etc., with public agencies and private organizations and persons

(a) General authority

The Secretary is authorized to enter into and perform such contracts, leases, cooperative agreements, or other similar transactions with public agencies and private organizations and persons, and to make such payments (in lump sum or installments, and by way of advance or reimbursement) as he may deem to be necessary or appropriate to carry out functions now or hereafter vested in the Secretary.

(b) Limitation on authority; appropriations

Notwithstanding any other provision of this subchapter, no authority to enter into contracts or to make payments under this subchapter shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

(c) Leasing of excess Department of Energy property

The Secretary may lease, upon terms and conditions the Secretary considers appropriate to promote national security or the public interest, acquired real property and related personal property that—

(1) is located at a facility of the Department of Energy to be closed or reconfigured;

(2) at the time the lease is entered into, is not needed by the Department of Energy; and

(3) is under the control of the Department of Energy.

(d) Terms of lease

(1) A lease entered into under subsection (c) of this section may not be for a term of more than 10 years, except that the Secretary may enter into a lease that includes an option to renew for a term of more than 10 years if the Secretary determines that entering into such a lease will promote the national security or be in the public interest.

(2) A lease entered into under subsection (c) of this section may provide for the payment (in cash or in kind) by the lessee of consideration in an amount that is less than the fair market rental value of the leasehold interest. Services relating to the protection and maintenance of the leased property may constitute all or part of such consideration.

(e) Environmental concerns

(1) Before entering into a lease under subsection (c) of this section, the Secretary shall consult with the Administrator of the Environmental Protection Agency (with respect to property located on a site on the National Priorities List) or the appropriate State official (with respect to property located on a site that is not listed on the National Priorities List) to determine whether the environmental conditions of the property are such that leasing the property, and the terms and conditions of the lease agreement, are consistent with safety and the protection of public health and the environment.

(2) Before entering into a lease under subsection (c) of this section, the Secretary shall obtain the concurrence of the Administrator of the Environmental Protection Agency or the appropriate State official, as the case may be, in the determination required under paragraph (1). The Secretary may enter into a lease under subsection (c) of this section without obtaining such concurrence if, within 60 days after the Secretary requests the concurrence, the Administrator or appropriate State official, as the case may be, fails to submit to the Secretary a notice of such individual's concurrence with, or rejection of, the determination.

(f) Retention and use of rentals; report

To the extent provided in advance in appropriations Acts, the Secretary may retain and use money rentals received by the Secretary directly from a lease entered into under subsection (c) of this section in any amount the Secretary considers necessary to cover the administrative expenses of the lease, the maintenance and repair of the leased property, or environmental restoration activities at the facility where the leased property is located. Amounts retained under this subsection shall be retained in a separate fund established in the Treasury for such purpose. The Secretary shall annually submit to the Congress a report on amounts retained and amounts used under this subsection.

(Pub. L. 95–91, title VI, § 646, Aug. 4, 1977, 91 Stat. 599; Pub. L. 103–160, div. C, title XXXI, § 3154, Nov. 30, 1993, 107 Stat. 1952.)

AMENDMENTS

1993—Subsecs. (c) to (f). Pub. L. 103–160 added subsecs. (c) to (f).

PILOT PROGRAM RELATING TO USE OF PROCEEDS OF DISPOSAL OR UTILIZATION OF CERTAIN DEPARTMENT OF ENERGY ASSETS

Pub. L. 105–85, div. C, title XXXI, § 3138, Nov. 18, 1997, 111 Stat. 2039, provided that:

''(a) PURPOSE.—The purpose of this section is to encourage the Secretary of Energy to dispose of or otherwise utilize certain assets of the Department of Energy by making available to the Secretary the proceeds of such disposal or utilization for purposes of defraying the costs of such disposal or utilization.

''(b) USE OF PROCEEDS TO DEFRAY COSTS.—(1) Notwithstanding section 3302 of title 31, United States Code, the Secretary may retain from the proceeds of the sale, lease, or disposal of an asset under subsection (c) an amount equal to the cost of the sale, lease, or disposal of the asset. The Secretary shall utilize amounts retained under this paragraph to defray the cost of the sale, lease, or disposal.

''(2) For purposes of paragraph (1), the cost of a sale, lease, or disposal shall include—

''(A) the cost of administering the sale, lease, or disposal;

''(B) the cost of recovering or preparing the asset concerned for the sale, lease, or disposal; and

''(C) any other cost associated with the sale, lease, or disposal.

''(c) COVERED TRANSACTIONS.—Subsection (b) applies to the following transactions:

''(1) The sale of heavy water at the Savannah River Site, South Carolina, that is under the jurisdiction of the Defense Environmental Management Program.

''(2) The sale of precious metals that are under the jurisdiction of the Defense Environmental Management Program.

''(3) The lease of buildings and other facilities located at the Hanford Reservation, Washington, that are under the jurisdiction of the Defense Environmental Management Program.

''(4) The lease of buildings and other facilities located at the Savannah River Site that are under the jurisdiction of the Defense Environmental Management Program.

''(5) The disposal of equipment and other personal property located at the Rocky Flats Defense Environmental Technology Site, Colorado, that is under the jurisdiction of the Defense Environmental Management Program.

''(6) The disposal of materials at the National Electronics Recycling Center, Oak Ridge, Tennessee that are under the jurisdiction of the Defense Environmental Management Program.

''(d) APPLICABILITY OF DISPOSAL AUTHORITY.—Nothing in this section shall be construed to limit the application of sections 202 and 203(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 483 and 484(j)) [now 40 U.S.C. 521–527, 529, 549(a)–(e)] to the disposal of equipment and other personal property covered by this section.

''(e) REPORT.—Not later than January 31, 1999, the Secretary shall submit to the congressional defense committees [Committees on Armed Services and Appropriations of Senate and House of Representatives] a report on amounts retained by the Secretary under subsection (b) during fiscal year 1998.''

CONTRACT GOAL FOR SMALL DISADVANTAGED BUSINESSES AND CERTAIN INSTITUTIONS OF HIGHER EDUCATION

Section 3159 of Pub. L. 103–160, as amended by Pub. L. 103–337, div. A, title X, § 1070(b)(16), Oct. 5, 1994, 108 Stat. 2857, provided that:

''(a) GOAL.—Except as provided in subsection (c), a goal of 5 percent of the amount described in subsection (b) shall be the objective of the Department of Energy in carrying out national security programs of the Department in each of fiscal years 1994 through 2000 for the total combined amount obligated for contracts and subcontracts entered into with—

''(1) small business concerns, including mass media and advertising firms, owned and controlled by socially and economically disadvantaged individuals (as such term is used in section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and regulations issued under that section), the majority of the earnings of which directly accrue to such individuals;

''(2) historically Black colleges and universities, including any nonprofit research institution that was an integral part of such a college or university before November 14, 1986; and

''(3) minority institutions (as defined in section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3))), which, for the purposes of this section, shall include Hispanic-serving institutions (as defined in section 316(b)(1) of such Act (20 U.S.C. 1059c(b)(1))).

''(b) AMOUNT.—(1) Except as provided in paragraph (2), the requirements of subsection (a) for any fiscal year apply to the combined total of the funds obligated for contracts entered into by the Department of Energy pursuant to competitive procedures for such fiscal year for purposes of carrying out national security programs of the Department.

''(2) In computing the combined total of funds under paragraph (1) for a fiscal year, funds obligated for such fiscal year for contracts for naval reactor programs shall not be included.

''(c) APPLICABILITY.—Subsection (a) does not apply—

''(1) to the extent to which the Secretary of Energy determines that compelling national security considerations require otherwise; and

''(2) if the Secretary notifies the Congress of such a determination and the reasons for the determination.''

SMALL BUSINESS CONCERNS PARTICIPATION IN PROGRAMS FUNDED BY DEPARTMENT OF ENERGY ACT OF 1978—CIVILIAN APPLICATIONS; REPORT TO CONGRESSIONAL COMMITTEES

Pub. L. 95–238, title II, § 204, Feb. 25, 1978, 92 Stat. 59, as amended by Pub. L. 96–470, title II, § 203(f), Oct. 19, 1980, 94 Stat. 2243, provided that:

''(a) In carrying out the programs for which funds are authorized by this Act [see Tables for classification], the Secretary of Energy shall provide a realistic and adequate opportunity for small business concerns to participate in such programs to the optimum extent feasible consistent with the size and nature of the projects and activities involved.

''(b) The Secretary of Energy shall submit annually to the appropriate committees of the House of Representatives and the Senate a full report on the actions taken in carrying out subsection (a) during the preceding year, including the extent to which small business concerns are participating in the programs involved and in projects and activities of various types and sizes within each such program, and indicating the steps currently taken to assure such participation in the future. Such report shall also contain such information as may be required by section 308 of the Act of December 31, 1975 (42 U.S.C. 5878a; 89 Stat. 1074).''

[For termination, effective May 15, 2000, of reporting provisions in section 204(b) of Pub. L. 95–238, set out above, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 21st item on page 89 of House Document No. 103–7.]

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7141 of this title.

§ 7256a. Costs not allowed under covered contracts

(a) In general

The following costs are not allowable under a covered contract:

(1) Costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

(2) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress or a State legislature.

(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of false certification).

(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, State, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations of the Secretary of Energy.

(5) Costs of membership in any social, dining, or country club or organization.

(6) Costs of alcoholic beverages.

(7) Contributions or donations, regardless of the recipient.

(8) Costs of advertising designed to promote the contractor or its products.

(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

(10) Costs for travel by commercial aircraft or by travel by other than common carrier that is not necessary for the performance of

the contract and the cost of which exceeds the amount of the standard commercial fare.

(b) Regulations; costs of information provided to Congress or State legislatures and related costs

(1) Not later than 150 days after November 8, 1985, the Secretary of Energy shall prescribe regulations to implement this section. Such regulations may establish appropriate definitions, exclusions, limitations, and qualifications. Such regulations shall be published in accordance with section 418b of title 41.

(2) In any regulations implementing subsection (a)(2) of this section, the Secretary may not treat as not allowable (by reason of such subsection) the following costs of a contractor:

(A) Costs of providing to Congress or a State legislature, in response to a request from Congress or a State legislature, information of a factual, technical, or scientific nature, or advice of experts, with respect to topics directly related to the performance of the contract.

(B) Costs for transportation, lodging, or meals incurred for the purpose of providing such information or advice.

(c) "Covered contract" defined

In this section, ''covered contract'' means a contract for an amount more than $100,000 entered into by the Secretary of Energy obligating funds appropriated for national security programs of the Department of Energy.

(d) Effective date

Subsection (a) of this section shall apply with respect to costs incurred under a covered contract on or after 30 days after the regulations required by subsection (b) of this section are issued.

(Pub. L. 99–145, title XV, §1534, Nov. 8, 1985, 99 Stat. 774; Pub. L. 100–180, div. C, title III, §3131(a), Dec. 4, 1987, 101 Stat. 1238.)

CODIFICATION

Section was enacted as part of the Department of Defense Authorization Act, 1986, and also as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1986, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1987—Subsec. (b). Pub. L. 100–180 designated existing provisions as par. (1) and added par. (2).

REGULATIONS

Section 3131(b) of Pub. L. 100–180 provided that: ''Regulations to implement paragraph (2) of section 1534(b) of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1986 (as added by subsection (a)) [42 U.S.C. 7256a(b)(2)] shall be prescribed not later than 90 days after the date of the enactment of this Act [Dec. 4, 1987]. Such regulations shall apply as if included in the original regulations prescribed under such section.''

§ 7256b. Prohibition and report on bonuses to contractors operating defense nuclear facilities

(a) Prohibition

The Secretary of Energy may not provide any bonuses, award fees, or other form of performance- or production-based awards to a contractor operating a Department of Energy defense nuclear facility unless, in evaluating the performance or production under the contract, the Secretary considers the contractor's compliance with all applicable environmental, safety, and health statutes, regulations, and practices for determining both the size of, and the contractor's qualification for, such bonus, award fee, or other award. The prohibition in this subsection applies with respect to contracts entered into, or contract options exercised, after November 29, 1989.

(b) Report on Rocky Flats bonuses

The Secretary of Energy shall investigate the payment, from 1981 to 1988, of production bonuses to Rockwell International, the contractor operating the Rocky Flats Plant (Golden, Colorado), for purposes of determining whether the payment of such bonuses was made under fraudulent circumstances. Not later than 6 months after November 29, 1989, the Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the results of that investigation, including the Secretary's conclusions and recommendations.

(c) "Department of Energy defense nuclear facility" defined

In this section, the term ''Department of Energy defense nuclear facility'' has the meaning given such term by section 2286g of this title.

(d) Regulations

The Secretary of Energy shall promulgate regulations to implement subsection (a) of this section not later than 90 days after November 29, 1989.

(Pub. L. 101–189, div. C, title XXXI, §3151, Nov. 29, 1989, 103 Stat. 1682.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1990 and 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7257. Acquisition, construction, etc., of laboratories, research and testing sites, etc.

The Secretary is authorized to acquire (by purchase, lease, condemnation, or otherwise), construct, improve, repair, operate, and maintain laboratories, research and testing sites and facilities, quarters and related accommodations for employees and dependents of employees of the Department, personal property (including patents), or any interest therein, as the Secretary deems necessary; and to provide by contract or otherwise for eating facilities and other necessary facilities for the health and welfare of employees of the Department at its installations and purchase and maintain equipment therefor.

(Pub. L. 95–91, title VI, §647, Aug. 4, 1977, 91 Stat. 599.)

PILOT PROGRAM FOR PROJECT MANAGEMENT OVERSIGHT REGARDING DEPARTMENT OF ENERGY CONSTRUCTION PROJECTS

Pub. L. 106–65, div. C, title XXXI, §3175, Oct. 5, 1999, 113 Stat. 950, provided that:

''(a) REQUIREMENT.—(1) The Secretary of Energy shall carry out a pilot program on use of project manage-

ment oversight services (in this section referred to as 'PMO services') for construction projects of the Department of Energy.

''(2) The purpose of the pilot program shall be to provide a basis for determining whether or not the use of competitively procured, external PMO services for those construction projects would permit the Department to control excessive costs and schedule delays associated with those construction projects that have large capital costs.

''(b) PROJECTS COVERED BY PROGRAM.—(1) Subject to paragraph (2), the Secretary shall carry out the pilot program at construction projects selected by the Secretary. The projects shall include one or more construction projects authorized pursuant to section 3101 [113 Stat. 915] and one construction project authorized pursuant to section 3102 [113 Stat. 917].

''(2) Each project selected by the Secretary shall be a project having capital construction costs anticipated to be not less than $25,000,000.

''(c) SERVICES UNDER PROGRAM.—The PMO services used under the pilot program shall include the following services:

''(1) Monitoring the overall progress of a project.

''(2) Determining whether or not a project is on schedule.

''(3) Determining whether or not a project is within budget.

''(4) Determining whether or not a project conforms with plans and specifications approved by the Department.

''(5) Determining whether or not a project is being carried out efficiently and effectively.

''(6) Any other management oversight services that the Secretary considers appropriate for purposes of the pilot program.

''(d) PROCUREMENT OF SERVICES UNDER PROGRAM.—Any PMO services procured under the pilot program shall be acquired—

''(1) on a competitive basis; and

''(2) from among commercial entities that—

''(A) do not currently manage or operate facilities at a location where the pilot program is being conducted; and

''(B) have an expertise in the management of large construction projects.

''(e) REPORT.—Not later than February 1, 2000, the Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the pilot program. The report shall include the assessment of the Secretary as to the feasibility and desirability of using PMO services for construction projects of the Department.''

LABORATORY FUNDING PLAN

Pub. L. 106–60, title III, § 310, Sept. 29, 1999, 113 Stat. 496, provided that:

''(a) None of the funds in this Act or any future Energy and Water Development Appropriations Act may be expended after December 31 of each year under a covered contract unless the funds are expended in accordance with a Laboratory Funding Plan that has been approved by the Secretary of Energy. At the beginning of each fiscal year, the Secretary shall issue directions to the laboratories for the programs, projects, and activities to be conducted in that fiscal year. The Secretary and the Laboratories shall devise a Laboratory Funding Plan that identifies the resources needed to carry out these programs, projects, and activities. Funds shall be released to the Laboratories only after the Secretary has approved the Laboratory Funding Plan. The Secretary of Energy may provide exceptions to this requirement as the Secretary considers appropriate.

''(b) For purposes of this section, 'covered contract' means a contract for the management and operation of the following laboratories: Argonne National Laboratory, Brookhaven National Laboratory, Idaho National Engineering and Environmental Laboratory, Lawrence Berkeley National Laboratory, Lawrence Livermore National Laboratory, Los Alamos National Laboratory, Oak Ridge National Laboratory, Pacific Northwest National Laboratory, and Sandia National Laboratories.''

TERMINATION OR CHANGES IN ACTIVITIES OF GOVERNMENT-OWNED AND CONTRACTOR-OPERATED FACILITIES, NATIONAL LABORATORIES, ETC.; REPORTS BY SECRETARY OF ENERGY CONCERNING PROPOSALS PRIOR TO IMPLEMENTATION; CONTENTS; SUBMISSION DATE

Pub. L. 95–238, title I, § 104(c), Feb. 25, 1978, 92 Stat. 53, provided that: ''As part of the Department of Energy's responsibility to keep the Congress fully and currently informed, the Secretary shall make the following reports:

''(i) any proposal by the Secretary of the Department of Energy to terminate or make major changes in activities of the Government-owned and contractor-operated facilities, the national laboratories, energy research centers and the operations offices managing such laboratories, shall not be implemented until the Secretary transmits the proposal, together with all pertinent data, to the Committee on Science and Technology [now Committee on Science] of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, and waits a period of thirty calendar days (not including any day on which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain) from the date on which such report is received by such committees; and

''(ii) by January 31, 1978, the Secretary shall file a full and complete report on each such proposal which he has implemented, as described in the preceding paragraph, and any major program structure change with the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.''

§ 7257a. Laboratory-directed research and development programs

(a) Authority

Government-owned, contractor-operated laboratories that are funded out of funds available to the Department of Energy for national security programs are authorized to carry out laboratory-directed research and development.

(b) Regulations

The Secretary of Energy shall prescribe regulations for the conduct of laboratory-directed research and development at such laboratories.

(c) Funding

Of the funds provided by the Department of Energy to such laboratories for national security activities, the Secretary shall provide a specific amount, not to exceed 6 percent of such funds, to be used by such laboratories for laboratory-directed research and development.

(d) "Laboratory-directed research and development" defined

For purposes of this section, the term ''laboratory-directed research and development'' means research and development work of a creative and innovative nature which, under the regulations prescribed pursuant to subsection (b) of this section, is selected by the director of a laboratory for the purpose of maintaining the vitality of the laboratory in defense-related scientific disciplines.

(Pub. L. 101–510, div. C, title XXXI, § 3132, Nov. 5, 1990, 104 Stat. 1832.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7257c of this title.

§ 7257b. Annual report on expenditures of Department of Energy Laboratory Directed Research and Development Program

(1) Not later than February 1 each year, the Secretary of Energy shall submit to the congressional defense committees a report on the funds expended during the preceding fiscal year on activities under the Department of Energy Laboratory Directed Research and Development Program. The purpose of the report is to permit an assessment of the extent to which such activities support the national security mission of the Department of Energy.

(2) Each report shall be prepared by the officials responsible for Federal oversight of the funds expended on activities under the program.

(3) Each report shall set forth the criteria utilized by the officials preparing the report in determining whether or not the activities reviewed by such officials support the national security mission of the Department.

(Pub. L. 104–201, div. C, title XXXI, § 3136(b), Sept. 23, 1996, 110 Stat. 2831; Pub. L. 105–85, div. C, title XXXI, § 3137(c), Nov. 18, 1997, 111 Stat. 2039.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1997, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1997—Par. (1). Pub. L. 105–85 substituted ''Not later than February 1 each year, the Secretary of Energy shall submit'' for ''The Secretary of Energy shall annually submit''.

''CONGRESSIONAL DEFENSE COMMITTEES'' DEFINED

Congressional defense committees means the Committees on Armed Services and Appropriations of the Senate and the House of Representatives, see section 3 of Pub. L. 104–201, 110 Stat. 2439, as amended by Pub. L. 106–65, div. A, title X, § 1067(5), Oct. 5, 1999, 113 Stat. 774.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7257c of this title.

§ 7257c. Limitations on use of funds for laboratory directed research and development purposes

(a) General limitations

(1) No funds authorized to be appropriated or otherwise made available to the Department of Energy in any fiscal year after fiscal year 1997 for weapons activities may be obligated or expended for activities under the Department of Energy Laboratory Directed Research and Development Program, or under any Department of Energy technology transfer program or cooperative research and development agreement, unless such activities support the national security mission of the Department of Energy.

(2) No funds authorized to be appropriated or otherwise made available to the Department of Energy in any fiscal year after fiscal year 1997 for environmental restoration, waste management, or nuclear materials and facilities stabilization may be obligated or expended for activities under the Department of Energy Laboratory Directed Research and Development Program, or under any Department of Energy technology transfer program or cooperative research and development agreement, unless such activities support the environmental restoration mission, waste management mission, or materials stabilization mission, as the case may be, of the Department of Energy.

(b) Limitation in fiscal year 1998 pending submittal of annual report

Not more than 30 percent of the funds authorized to be appropriated or otherwise made available to the Department of Energy in fiscal year 1998 for laboratory directed research and development may be obligated or expended for such research and development until the Secretary of Energy submits to the congressional defense committees the report required by section 7257b of this title in 1998.

(c) Omitted

(d) Assessment of funding level for laboratory directed research and development

The Secretary shall include in the report submitted under such section 7257b(1) of this title in 1998 an assessment of the funding required to carry out laboratory directed research and development, including a recommendation for the percentage of the funds provided to Government-owned, contractor-operated laboratories for national security activities that should be made available for such research and development under section 7257a(c) of this title.

(e) "Laboratory directed research and development" defined

In this section, the term ''laboratory directed research and development'' has the meaning given that term in section 7257a(d) of this title.

(Pub. L. 105–85, div. C, title XXXI, § 3137, Nov. 18, 1997, 111 Stat. 2038.)

CODIFICATION

Section is comprised of section 3137 of Pub. L. 105–85. Subsec. (c) of section 3137 of Pub. L. 105–85 amended section 7257b of this title.

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1998, and not as part of the Department of Energy Organization Act which comprises this chapter.

''CONGRESSIONAL DEFENSE COMMITTEES'' DEFINED

Congressional defense committees means the Committees on Armed Services and Appropriations of the Senate and the House of Representatives, see section 3 of Pub. L. 105–85, 111 Stat. 1645, as amended by Pub. L. 106–65, div. A, title X, § 1067(4), Oct. 5, 1999, 113 Stat. 774.

§ 7257d. Expanded research by Secretary of Energy

(a) Detection and identification research

(1) In general

In conjunction with the working group under section 247d–6(a) of this title, the Sec-

retary of Energy and the Administrator of the National Nuclear Security Administration shall expand, enhance, and intensify research relevant to the rapid detection and identification of pathogens likely to be used in a bioterrorism attack or other agents that may cause a public health emergency.

(2) Authorized activities

Activities carried out under paragraph (1) may include—

(A) the improvement of methods for detecting biological agents or toxins of potential use in a biological attack and the testing of such methods under variable conditions;

(B) the improvement or pursuit of methods for testing, verifying, and calibrating new detection and surveillance tools and techniques; and

(C) carrying out other research activities in relevant areas.

(3) Report

Not later than 180 days after June 12, 2002, the Administrator of the National Nuclear Security Administration shall submit to the Committee on Energy and Natural Resources and the Committee on Armed Services of the Senate, and the Committee on Energy and Commerce and the Committee on Armed Services of the House of Representatives, a report setting forth the programs and projects that will be funded prior to the obligation of funds appropriated under subsection (b) of this section.

(b) Authorization

For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary in each of fiscal years 2002 through 2006.

(Pub. L. 107–188, title I, § 152, June 12, 2002, 116 Stat. 630.)

CODIFICATION

Section was enacted as part of the Public Health Security and Bioterrorism Preparedness and Response Act of 2002, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7258. Facilities construction

(a) Employees and dependents stationed at remote locations

As necessary and when not otherwise available, the Secretary is authorized to provide for, construct, or maintain the following for employees and their dependents stationed at remote locations:

(1) Emergency medical services and supplies;

(2) Food and other subsistence supplies;

(3) Messing facilities;

(4) Audio-visual equipment, accessories, and supplies for recreation and training;

(5) Reimbursement for food, clothing, medicine, and other supplies furnished by such employees in emergencies for the temporary relief of distressed persons;

(6) Living and working quarters and facilities; and

(7) Transportation of schoolage dependents of employees to the nearest appropriate educational facilities.

(b) Medical treatment at reasonable prices

The furnishing of medical treatment under paragraph (1) of subsection (a) of this section and the furnishing of services and supplies under paragraphs (2) and (3) of subsection (a) of this section shall be at prices reflecting reasonable value as determined by the Secretary.

(c) Use of reimbursement proceeds

Proceeds from reimbursements under this section shall be deposited in the Treasury and may be withdrawn by the Secretary to pay directly the cost of such work or services, to repay or make advances to appropriations of funds which will initially bear all or a part of such cost, or to refund excess sums when necessary. Such payments may be credited to a working capital fund otherwise established by law, including the fund established pursuant to section 7263 of this title, and used under the law governing such fund, if the fund is available for use by the Department for performing the work or services for which payment is received.

(Pub. L. 95–91, title VI, § 648, Aug. 4, 1977, 91 Stat. 600.)

§ 7259. Use of facilities

(a) Facilities of United States and foreign governments

With their consent, the Secretary and the Federal Energy Regulatory Commission may, with or without reimbursement, use the research, equipment, and facilities of any agency or instrumentality of the United States or of any State, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States, or of any political subdivision thereof, or of any foreign government, in carrying out any function now or hereafter vested in the Secretary or the Commission.

(b) Facilities under custody of Secretary

In carrying out his functions, the Secretary, under such terms, at such rates, and for such periods not exceeding five years, as he may deem to be in the public interest, is authorized to permit the use by public and private agencies, corporations, associations, or other organizations or by individuals of any real property, or any facility, structure, or other improvement thereon, under the custody of the Secretary for Department purposes. The Secretary may require permittees under this section to recondition and maintain, at their own expense, the real property, facilities, structures, and improvements involved to a satisfactory standard. This section shall not apply to excess property as defined in section 102(3) of title 40.

(c) Use of reimbursement proceeds

Proceeds from reimbursements under this section shall be deposited in the Treasury and may be withdrawn by the Secretary or the head of the agency or instrumentality of the United States involved, as the case may be, to pay directly the costs of the equipment, or facilities provided, to repay or make advances to appropriations or funds which do or will initially bear all or a part of such costs, or to refund excess sums when necessary, except that such proceeds may be credited to a working capital fund other-

wise established by law, including the fund established pursuant to section 7263 of this title, and used under the law governing such fund, if the fund is available for use for providing the equipment or facilities involved.

(Pub. L. 95–91, title VI, § 649, Aug. 4, 1977, 91 Stat. 600.)

CODIFICATION

In subsec. (b), ''section 102(3) of title 40'' substituted for ''section 3(e) of the Federal Property and Administrative Services Act of 1949'' on authority of Pub. L. 107–217, § 5(c), Aug. 21, 2002, 116 Stat. 1303, the first section of which enacted Title 40, Public Buildings, Property, and Works.

§ 7259a. Activities of Department of Energy facilities

(a) Research and activities on behalf of non-department persons and entities

(1) The Secretary of Energy may conduct research and other activities referred to in paragraph (2) at facilities of the Department of Energy on behalf of other departments and agencies of the Government, agencies of State and local governments, and private persons and entities.

(2) The research and other activities that may be conducted under paragraph (1) are those which the Secretary is authorized to conduct by law, including research and activities authorized under the following provisions of law:

(A) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.).

(B) The Energy Reorganization Act of 1974 [42 U.S.C. 5801 et seq.].

(C) The Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.).

(b) Charges

(1) The Secretary shall impose on the department, agency, or person or entity for which research and other activities are carried out under subsection (a) of this section a charge for such research and activities in carrying out such research and activities, which shall include—

(A) the direct cost incurred in carrying out such research and activities; and

(B) the overhead cost, including site-wide indirect costs, associated with such research and activities.

(2)(A) Subject to subparagraph (B), the Secretary shall also impose on the department, agency, or person or entity concerned a Federal administrative charge (which includes any depreciation and imputed interest charges) in an amount not to exceed 3 percent of the full cost incurred in carrying out the research and activities concerned.

(B) The Secretary may waive the imposition of the Federal administrative charge required by subparagraph (A) in the case of research and other activities conducted on behalf of small business concerns, institutions of higher education, non-profit entities, and State and local governments.

(3) Not later than 2 years after October 17, 1998, the Secretary shall terminate any waiver of charges under section 33 of the Atomic Energy Act of 1954 (42 U.S.C. 2053) that were made before such date, unless the Secretary determines that such waiver should be continued.

(c) Pilot program of reduced facility overhead charges

(1) The Secretary may, with the cooperation of participating contractors of the contractor-operated facilities of the Department, carry out a pilot program under which the Secretary and such contractors reduce the facility overhead charges imposed under this section for research and other activities conducted under this section.

(2) The Secretary shall carry out the pilot program at contractor-operated facilities selected by the Secretary in consultation with the contractors concerned.

(3) The Secretary shall determine the facility overhead charges to be imposed under the pilot program at a facility based on a joint review by the Secretary and the contractor for the facility of all items included in the overhead costs of the facility in order to determine which items are appropriately incurred as facility overhead charges by the contractor in carrying out research and other activities at such facility under this section.

(4) The Secretary shall commence carrying out the pilot program under this subsection not later than October 1, 1999, and shall terminate the pilot program on September 30, 2003.

(5) Not later than January 31, 2003, the Secretary shall submit to Congress an interim report on the results of the pilot program under this subsection. The report shall include any recommendations for the extension or expansion of the pilot program, including the establishment of multiple rates of overhead charges for various categories of persons and entities seeking research and other activities in contractor-operated facilities of the Department.

(d) Applicability with respect to user fee practice

This section does not apply to the practice of the Department of Energy with respect to user fees at Department facilities.

(Pub. L. 105–261, div. C, title XXXI, § 3137, Oct. 17, 1998, 112 Stat. 2248.)

REFERENCES IN TEXT

The Atomic Energy Act of 1954, referred to in subsec. (a)(2)(A), is act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 921, and amended, which is classified generally to chapter 23 (§ 2011 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

The Energy Reorganization Act of 1974, referred to in subsec. (a)(2)(B), is Pub. L. 93–438, Oct. 11, 1974, 88 Stat. 1233, as amended, which is classified principally to chapter 73 (§ 5801 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 5801 of this title and Tables.

The Federal Nonnuclear Energy Research and Development Act of 1974, referred to in subsec. (a)(2)(C), is Pub. L. 93–577, Dec. 31, 1974, 88 Stat. 1878, as amended, which is classified generally to chapter 74 (§ 5901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 5901 of this title and Tables.

CODIFICATION

Section was enacted as part of the Strom Thurmond National Defense Authorization Act for Fiscal Year

1999, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7260. Field offices

The Secretary is authorized to establish, alter, consolidate or discontinue and to maintain such State, regional, district, local or other field offices as he may deem to be necessary to carry out functions vested in him.

(Pub. L. 95–91, title VI, § 650, Aug. 4, 1977, 91 Stat. 601.)

§ 7261. Acquisition of copyrights, patents, etc.

The Secretary is authorized to acquire any of the following described rights if the property acquired thereby is for use by or for, or useful to, the Department:

(1) copyrights, patents, and applications for patents, designs, processes, and manufacturing data;

(2) licenses under copyrights, patents, and applications for patents; and

(3) releases, before suit is brought, for past infringement of patents or copyrights.

(Pub. L. 95–91, title VI, § 651, Aug. 4, 1977, 91 Stat. 601.)

§ 7261a. Protection of sensitive technical information

(a) Property rights in inventions and discoveries; timely determination; reports to Congressional committees

(1) Whenever any contractor makes an invention or discovery to which the title vests in the Department of Energy pursuant to exercise of section 202(a)(ii) or (iv) of title 35, or pursuant to section 2182 of this title or section 5908 of this title in the course of or under any Government contract or subcontract of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy and the contractor requests waiver of any or all of the Government's property rights, the Secretary of Energy may decide to waive the Government's rights and assign the rights in such invention or discovery.

(2) Such decision shall be made within 150 days after the date on which a complete request for waiver of such rights has been submitted to the Secretary by the contractor. For purposes of this paragraph, a complete request includes such information, in such detail and form, as the Secretary by regulation prescribes as necessary to allow the Secretary to take into consideration the matters described in subsection (b) of this section in making the decision.

(3) If the Secretary fails to make the decision within such 150-day period, the Secretary shall submit to the Committees on Armed Services of the House of Representatives and the Senate, within 10 days after the end of the 150-day period, a report on the reasons for such failure. The submission of such report shall not relieve the Secretary of the requirement to make the decision under this section. The Secretary shall, at the end of each 30-day period after submission of the first report during which the Secretary continues to fail to make the decision required by this section, submit another report on the reasons for such failure to the committees listed in this paragraph.

(b) Matters to be considered

In making a decision under this section, the Secretary shall consider, in addition to the applicable policies of section 2182 of this title or subsections (c) and (d) of section 5908 of this title—

(1) whether national security will be compromised;

(2) whether sensitive technical information (whether classified or unclassified) under the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy for which dissemination is controlled under Federal statutes and regulations will be released to unauthorized persons;

(3) whether an organizational conflict of interest contemplated by Federal statutes and regulations will result; and

(4) whether failure to assert such a claim will adversely affect the operation of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy.

(Pub. L. 99–661, div. C, title I, § 3131, Nov. 14, 1986, 100 Stat. 4062; Pub. L. 100–180, div. C, title III, § 3135(a), Dec. 4, 1987, 101 Stat. 1240.)

CODIFICATION

Section was enacted as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987 and also as part of the National Defense Authorization Act for Fiscal Year 1987, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–180 designated existing provisions as par. (1), struck out at end ''Such decision shall be made within a reasonable time (which shall usually be six months from the date of the request by the contractor for assignment of such rights).'', and added pars. (2) and (3).

EFFECTIVE DATE OF 1987 AMENDMENT

Section 3135(b) of Pub. L. 100–180 provided that: ''Paragraphs (2) and (3) of section 3131(a) of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987 [subsec. (a)(2), (3) of this section] (as added by subsection (a)) shall apply with respect to waiver requests submitted by contractors under that section after March 1, 1988.''

§ 7261b. Technology transfer to small businesses

(1) The Secretary of Energy shall establish a program to facilitate and encourage the transfer of technology to small businesses and shall issue guidelines relating to the program not later than May 1, 1993.

(2) For the purposes of this section, the term ''small business'' means a business concern that meets the applicable size standards prescribed pursuant to section 632(a) of title 15.

(Pub. L. 102–484, div. C, title XXXI, § 3135(b), Oct. 23, 1992, 106 Stat. 2641.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1993, and not as part

of the Department of Energy Organization Act which comprises this chapter.

§ 7261c. Technology partnerships ombudsman

(a) Appointment of ombudsman

The Secretary of Energy shall direct the director of each national laboratory of the Department of Energy, and may direct the director of each facility under the jurisdiction of the Department of Energy, to appoint a technology partnership ombudsman to hear and help resolve complaints from outside organizations regarding the policies and actions of each such laboratory or facility with respect to technology partnerships (including cooperative research and development agreements), patents, and technology licensing.

(b) Qualifications

An ombudsman appointed under subsection (a) of this section shall be a senior official of the national laboratory or facility who is not involved in day-to-day technology partnerships, patents, or technology licensing, or, if appointed from outside the laboratory or facility, function as such a senior official.

(c) Duties

Each ombudsman appointed under subsection (a) of this section shall—

(1) serve as the focal point for assisting the public and industry in resolving complaints and disputes with the national laboratory or facility regarding technology partnerships, patents, and technology licensing;

(2) promote the use of collaborative alternative dispute resolution techniques such as mediation to facilitate the speedy and low-cost resolution of complaints and disputes, when appropriate; and

(3) report quarterly on the number and nature of complaints and disputes raised, along with the ombudsman's assessment of their resolution, consistent with the protection of confidential and sensitive information, to—

(A) the Secretary;

(B) the Administrator for Nuclear Security;

(C) the Director of the Office of Dispute Resolution of the Department of Energy; and

(D) the employees of the Department responsible for the administration of the contract for the operation of each national laboratory or facility that is a subject of the report, for consideration in the administration and review of that contract.

(Pub. L. 106–404, § 11, Nov. 1, 2000, 114 Stat. 1749.)

CODIFICATION

Section was enacted as part of the Technology Transfer Commercialization Act of 2000, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7262. Repealed. Pub. L. 104–206, title V, § 502, Sept. 30, 1996, 110 Stat. 3002

Section, Pub. L. 95–91, title VI, § 652, Aug. 4, 1977, 91 Stat. 601, authorized Secretary to accept gifts, bequests, and devises of property for purpose of aiding or facilitating work of Department.

CODIFICATION

Pub. L. 104–206, which directed the repeal of 42 U.S.C. 7262, was executed by repealing section 652 of Pub. L. 95–91, which was classified to this section, to reflect the probable intent of Congress.

§ 7263. Capital fund

The Secretary is authorized to establish a working capital fund, to be available without fiscal year limitation, for expenses necessary for the maintenance and operation of such common administrative services as he shall find to be desirable in the interests of economy and efficiency, including such services as a central supply service for stationery and other supplies and equipment for which adequate stocks may be maintained to meet in whole or in part the requirements of the Department and its agencies; central messenger, mail, telephone, and other communications services; office space, central services for document reproduction, and for graphics and visual aids; and a central library service. The capital of the fund shall consist of any appropriations made for the purpose of providing capital (which appropriations are hereby authorized) and the fair and reasonable value of such stocks of supplies, equipment, and other assets and inventories on order as the Secretary may transfer to the fund, less the related liabilities and unpaid obligations. Such funds shall be reimbursed in advance from available funds of agencies and offices in the Department, or from other sources, for supplies and services at rates which will approximate the expense of operation, including the accrual of annual leave and the depreciation of equipment. The fund shall also be credited with receipts from sale or exchange of property and receipts in payment for loss or damage to property owned by the fund. There shall be covered into the United States Treasury as miscellaneous receipts any surplus found in the fund (all assets, liabilities, and prior losses considered) above the amounts transferred or appropriated to establish and maintain said fund. There shall be transferred to the fund the stocks of supplies, equipment, other assets, liabilities, and unpaid obligations relating to the services which he determines will be performed through the fund. Appropriations to the fund, in such amounts as may be necessary to provide additional working capital, are authorized.

(Pub. L. 95–91, title VI, § 653, Aug. 4, 1977, 91 Stat. 601.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7258, 7259 of this title.

§ 7264. Seal of Department

The Secretary shall cause a seal of office to be made for the Department of such design as he shall approve and judicial notice shall be taken of such seal.

(Pub. L. 95–91, title VI, § 654, Aug. 4, 1977, 91 Stat. 602.)

§ 7265. Regional Energy Advisory Boards

(a) Establishment; membership

The Governors of the various States may establish Regional Energy Advisory Boards for their regions with such membership as they may determine.

(b) Observers

Representatives of the Secretary, the Secretary of Commerce, the Secretary of the Interior, the Chairman of the Council on Environmental Quality, the Commandant of the Coast Guard and the Administrator of the Environmental Protection Agency shall be entitled to participate as observers in the deliberations of any Board established pursuant to subsection (a) of this section. The Federal Cochairman of the Appalachian Regional Commission or any regional commission under title V of the Public Works and Economic Development Act [42 U.S.C. 3181 et seq.] shall be entitled to participate as an observer in the deliberations of any such Board which contains one or more States which are members of such Commission.

(c) Recommendations of Board

Each Board established pursuant to subsection (a) of this section may make such recommendations as it determines to be appropriate to programs of the Department having a direct effect on the region.

(d) Notice of reasons not to adopt recommendations

If any Regional Advisory Board makes specific recommendations pursuant to subsection (c) of this section, the Secretary shall, if such recommendations are not adopted in the implementation of the program, notify the Board in writing of his reasons for not adopting such recommendations.

(Pub. L. 95–91, title VI, § 655, Aug. 4, 1977, 91 Stat. 602.)

REFERENCES IN TEXT

The Public Works and Economic Development Act, referred to in subsec. (b), is Pub. L. 89–136, Aug. 26, 1965, 79 Stat. 552, as amended. Title V of the Public Works and Economic Development Act was classified generally to subchapter V (§ 3181 et seq.) of chapter 38 of this title prior to repeal by Pub. L. 97–35, title XVIII, § 1821(a)(8), Aug. 13, 1981, 95 Stat. 766. For complete classification of this Act to the Code, see Short Title note set out under section 3121 of this title and Tables.

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 7266. Designation of conservation officers

The Secretary of Defense, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Secretary of Agriculture, the Secretary of the Interior, the United States Postal Service, and the Administrator of General Services shall each designate one Assistant Secretary or Assistant Administrator, as the case may be, as the principal conservation officer of such Department or of the Administration. Such designated principal conservation officer shall be principally responsible for planning and implementation of energy conservation programs by such Department or Administration and principally responsible for coordination with the Department of Energy with respect to energy matters. Each agency, Department or Administration required to designate a principal conservation officer pursuant to this section shall periodically inform the Secretary of the identity of such conservation officer, and the Secretary shall periodically publish a list identifying such officers.

(Pub. L. 95–91, title VI, § 656, Aug. 4, 1977, 91 Stat. 602.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8257 of this title.

§ 7267. Annual report

The Secretary shall, as soon as practicable after the end of each fiscal year, commencing with the first complete fiscal year following October 1, 1977, make a report to the President for submission to the Congress on the activities of the Department during the preceding fiscal year. Such report shall include a statement of the Secretary's goals, priorities, and plans for the Department, together with an assessment of the progress made toward the attainment of those goals, the effective and efficient management of the Department and progress made in coordination of its functions with other departments and agencies of the Federal Government. In addition, such report shall include the information required by section 774 of title 15, section 6325(c) of this title, section 10224(c) of this title, section 5877 of this title, and section 5914[1] of this title, and shall include:

(1) projected energy needs of the United States to meet the requirements of the general welfare of the people of the United States and the commercial and industrial life of the Nation, including a comprehensive summary of data pertaining to all fuel and energy needs of residents of the United States residing in—

(A) areas outside standard metropolitan statistical areas; and

(B) areas within such areas which are unincorporated or are specified by the Bureau of the Census, Department of Commerce, as rural areas;

(2) an estimate of (A) the domestic and foreign energy supply on which the United States will be expected to rely to meet such needs in an economic manner with due regard for the protection of the environment, the conservation of natural resources, and the implementation of foreign policy objectives, and (B) the quantities of energy expected to be provided by different sources (including petroleum, natural and synthetic gases, coal, uranium, hydroelectric, solar, and other means) and the expected means of obtaining such quantities;

(3) current and foreseeable trends in the price, quality, management, and utilization of energy resources and the effects of those trends on the social, environmental, economic, and other requirements of the Nation;

(4) a summary of research and development efforts funded by the Federal Government to

[1] See References in Text note below.

develop new technologies, to forestall energy shortages, to reduce waste, to foster recycling, to encourage conservation practices, and to increase efficiency; and further such summary shall include a description of the activities the Department is performing in support of environmental, social, economic and institutional, biomedical, physical and safety research, development, demonstration, and monitoring activities necessary to guarantee that technological programs, funded by the Department, are undertaken in a manner consistent with and capable of maintaining or improving the quality of the environment and of mitigating any undesirable environmental and safety impacts;

(5) a review and appraisal of the adequacy and appropriateness of technologies, procedures, and practices (including competitive and regulatory practices) employed by Federal/State, and local governments and nongovernmental entities to achieve the purposes of this chapter;

(6) a summary of cooperative and voluntary efforts that have been mobilized to promote conservation and recycling, together with plans for such efforts in the succeeding fiscal year, and recommendations for changes in laws and regulations needed to encourage more conservation and recycling by all segments of the Nation's populace;

(7) a summary of substantive measures taken by the Department to stimulate and encourage the development of new manpower resources through the Nation's colleges and universities and to involve these institutions in the execution of the Department's research and development programs; and

(8) to the extent practicable, a summary of activities in the United States by companies or persons which are foreign owned or controlled and which own or control United States energy sources and supplies, including the magnitude of annual foreign direct investment in the energy sector in the United States and exports of energy resources from the United States by foreign owned or controlled business entities or persons, and such other related matters as the Secretary may deem appropriate.

(Pub. L. 95–91, title VI, § 657, Aug. 4, 1977, 91 Stat. 603; Pub. L. 104–66, title I, § 1052(g), Dec. 21, 1995, 109 Stat. 718.)

Section 5914 of this title, referred to in text, was omitted from the Code.

AMENDMENTS

1995—Pub. L. 104–66 inserted ''section 6325(c) of this title, section 10224(c) of this title,'' after ''section 774 of title 15,'' in introductory provisions.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which the 3rd item on page 88 identifies a reporting provision which, as subsequently amended, is contained in this section), see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5562, 6806, 7135, 8235g of this title; title 15 section 780; title 22 section 3142.

§ 7268. Leasing report

The Secretary of the Interior shall submit to the Congress not later than one year after August 4, 1977, a report on the organization of the leasing operations of the Federal Government, together with any recommendations for reorganizing such functions may deem necessary or appropriate.

(Pub. L. 95–91, title VI, § 658, Aug. 4, 1977, 91 Stat. 604.)

§ 7269. Transfer of funds

The Secretary, when authorized in an appropriation Act, in any fiscal year, may transfer funds from one appropriation to another within the Department, except that no appropriation shall be either increased or decreased pursuant to this section by more than 5 per centum of the appropriation for such fiscal year.

(Pub. L. 95–91, title VI, § 659, Aug. 4, 1977, 91 Stat. 604.)

§ 7269a. Transfer of funds between appropriations for Department of Energy activities

Not to exceed 5 per centum of any appropriation made available for Department of Energy activities funded in this Act or subsequent Energy and Water Development Appropriations Acts may on and after October 2, 1992, be transferred between such appropriations, but no such appropriation, except as otherwise provided, shall be increased or decreased by more than 5 per centum by any such transfers, and any such proposed transfers shall be submitted promptly to the Committees on Appropriations of the House and Senate.

(Pub. L. 102–377, title III, § 302, Oct. 2, 1992, 106 Stat. 1339.)

CODIFICATION

Section was enacted as part of the Energy and Water Development Appropriations Act, 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7269b. Transfer of unexpended appropriation balances

The unexpended balances of prior appropriations provided for activities in this Act or subsequent Energy and Water Development Appropriations Acts may on and after October 2, 1992, be transferred to appropriation accounts for such activities established pursuant to this title.[1] Balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

(Pub. L. 102–377, title III, § 303, Oct. 2, 1992, 106 Stat. 1339.)

REFERENCES IN TEXT

This title, referred to in text, is title III of Pub. L. 102–377, Oct. 2, 1992, 106 Stat. 1332. For complete classification of title III to the Code, see Tables.

CODIFICATION

Section was enacted as part of the Energy and Water Development Appropriations Act, 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7270. Authorization of appropriations

Appropriations to carry out the provisions of this chapter shall be subject to annual authorization.

(Pub. L. 95–91, title VI, § 660, Aug. 4, 1977, 91 Stat. 604.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6247, 7351, 9009, 9312 of this title.

§ 7270a. Guards for Strategic Petroleum Reserve facilities

Under guidelines prescribed by the Secretary and concurred with by the Attorney General, employees of the Department of Energy and employees of contractors and subcontractors (at any tier) of the Department of Energy, while discharging their official duties of protecting the Strategic Petroleum Reserve (established under part B of title I of the Energy Policy and Conservation Act [42 U.S.C. 6231 et seq.]) or its storage or related facilities or of protecting persons upon the Strategic Petroleum Reserve or its storage or related facilities, may—

(1) carry firearms, if designated by the Secretary and qualified for the use of firearms under the guidelines; and

(2) arrest without warrant any person for an offense against the United States—

(A) in the case of a felony, if the employee has reasonable grounds to believe that the person—

(i) has committed or is committing a felony; and

(ii) is in or is fleeing from the immediate area of the felony; and

(B) in the case of a felony or misdemeanor, if the violation is committed in the presence of the employee.

(Pub. L. 95–91, title VI, § 661, as added Pub. L. 100–531, § 1(a), Oct. 25, 1988, 102 Stat. 2652.)

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in text, is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended. Part B of title I of the Act is classified generally to part B (§ 6231 et seq.) of subchapter I of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

§ 7270b. Trespass on Strategic Petroleum Reserve facilities

(a) The Secretary may issue regulations relating to the entry upon or carrying, transporting, or otherwise introducing or causing to be introduced any dangerous weapon, explosive, or other dangerous instrument or material likely to produce substantial injury or damage to persons or property into or onto the Strategic Petroleum Reserve, its storage or related facilities, or real property subject to the jurisdiction, administration, or in the custody of the Secretary under part B of title I of the Energy Policy and Conservation Act (42 U.S.C. 6231–6247). The Secretary shall post conspicuously, on the property subject to the regulations, notification that the property is subject to the regulations.

(b) Whoever willfully violates a regulation of the Secretary issued under subsection (a) of this section shall be guilty of a misdemeanor and punished upon conviction by a fine of not more than $5,000, imprisonment for not more than one year, or both.

(Pub. L. 95–91, title VI, § 662, as added Pub. L. 100–531, § 1(a), Oct. 25, 1988, 102 Stat. 2652.)

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (a), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended. Part B of title I of the Act is classified generally to part B (§ 6231 et seq.) of subchapter I of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

§ 7270c. Annual assessment and report on vulnerability of facilities to terrorist attack

(a) The Secretary shall, on an annual basis, conduct a comprehensive assessment of the vulnerability of Department facilities to terrorist attack.

(b) Not later than January 31 each year, the Secretary shall submit to Congress a report on the assessment conducted under subsection (a) of this section during the preceding year. Each report shall include the results of the assessment covered by such report, together with such findings and recommendations as the Secretary considers appropriate.

(Pub. L. 95–91, title VI, § 663, as added Pub. L. 107–107, div. C, title XXXI, § 3154(a), Dec. 28, 2001, 115 Stat. 1377.)

§ 7271. Common defense and security program requests of single authorization of appropriations

The Secretary shall submit to the Congress for fiscal year 1980, and for each subsequent fiscal year, a single request for authorizations for appropriations for all programs of the Department of Energy involving scientific research and development in support of the armed forces, military applications of nuclear energy, strategic and critical materials necessary for the common defense, and other programs which involve the common defense and security of the United States.

(Pub. L. 95–509, title II, § 208, Oct. 24, 1978, 92 Stat. 1779.)

CODIFICATION

Section was enacted as part of Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1979, and not as part of Department of Energy Organization Act which comprises this chapter.

NUCLEAR WEAPONS CAPITAL INVESTMENT REQUIREMENTS STUDY; SUBMITTAL TO CONGRESS

Section 209 of Pub. L. 95–509 directed Secretary to conduct a study of the status of all Government-owned, contractor-operated, plant, capital equipment, facilities, and utilities which support United States nuclear weapons program and submit results of study to Congress at same time that Department of Energy authorization request for fiscal year 1980 was submitted to Congress.

§ 7271a. Repealed. Pub. L. 105–85, div. C, title XXXI, § 3152(h), Nov. 18, 1997, 111 Stat. 2042

Section, Pub. L. 101–189, div. C, title XXXI, § 3143, Nov. 29, 1989, 103 Stat. 1681, related to major Department of Energy national security programs.

§ 7271b. Repealed. Pub. L. 106–65, div. C, title XXXII, § 3294(f), Oct. 5, 1999, 113 Stat. 970

Section, Pub. L. 104–201, div. C, title XXXI, § 3155, Sept. 23, 1996, 110 Stat. 2841, related to requirement for annual five-year budget for national security programs of Department of Energy.

EFFECTIVE DATE OF REPEAL

Repeal effective Mar. 1, 2000, see section 3299 of Pub. L. 106–65, set out as an Effective Date note under section 2401 of Title 50, War and National Defense.

§ 7271c. Repealed. Pub. L. 105–85, div. C, title XXXI, § 3152(b), Nov. 18, 1997, 111 Stat. 2042

Section, Pub. L. 104–201, div. C, title XXXI, § 3156, Sept. 23, 1996, 110 Stat. 2841, related to requirements for Department of Energy weapons activities budgets for fiscal years after fiscal year 1997.

§ 7271d. Requirements for specific request for new or modified nuclear weapons

(a) Requirement for request for funds for development

(1) In any fiscal year after fiscal year 2002 in which the Secretary of Energy plans to carry out activities described in paragraph (2) relating to the development of a new nuclear weapon or modified nuclear weapon, the Secretary shall specifically request funds for such activities in the budget of the President for that fiscal year under section 1105(a) of title 31.

(2) The activities described in this paragraph are as follows:

(A) The conduct, or provision for conduct, of research and development which could lead to the production of a new nuclear weapon by the United States.

(B) The conduct, or provision for conduct, of engineering or manufacturing to carry out the production of a new nuclear weapon by the United States.

(C) The conduct, or provision for conduct, of research and development which could lead to the production of a modified nuclear weapon by the United States.

(D) The conduct, or provision for conduct, of engineering or manufacturing to carry out the production of a modified nuclear weapon by the United States.

(b) Budget request format

The Secretary shall include in a request for funds under subsection (a) of this section the following:

(1) In the case of funds for activities described in subparagraph (A) or (C) of subsection (a)(2) of this section, a single dedicated line item for all such activities for new nuclear weapons or modified nuclear weapons that are in phase 1, 2, or 2A or phase 6.1, 6.2, or 6.2A (as the case may be), or any concept work prior to phase 1 or 6.1 (as the case may be), of the nuclear weapons acquisition process.

(2) In the case of funds for activities described in subparagraph (B) or (D) of subsection (a)(2) of this section, a dedicated line item for each such activity for a new nuclear weapon or modified nuclear weapon that is in phase 3 or higher or phase 6.3 or higher (as the case may be) of the nuclear weapons acquisition process.

(c) Exception

Subsection (a) of this section shall not apply to funds for purposes of conducting, or providing for the conduct of, research and development, or manufacturing and engineering, determined by the Secretary to be necessary—

(1) for the nuclear weapons life extension program;

(2) to modify an existing nuclear weapon solely to address safety or reliability concerns; or

(3) to address proliferation concerns.

(d) Definitions

In this section:

(1) The term ''life extension program'' means the program to repair or replace non-nuclear components, or to modify the pit or canned subassembly, of nuclear weapons that are in the nuclear weapons stockpile on December 2, 2002, in order to assure that such nuclear weapons retain the ability to meet the military requirements applicable to such nuclear weapons when first placed in the nuclear weapons stockpile.

(2) The term ''modified nuclear weapon'' means a nuclear weapon that contains a pit or canned subassembly, either of which—

(A) is in the nuclear weapons stockpile as of December 2, 2002; and

(B) is being modified in order to meet a military requirement that is other than the military requirements applicable to such nuclear weapon when first placed in the nuclear weapons stockpile.

(3) The term ''new nuclear weapon'' means a nuclear weapon that contains a pit or canned subassembly, either of which is neither—

(A) in the nuclear weapons stockpile on December 2, 2002; nor

(B) in production as of December 2, 2002.

(Pub. L. 107–314, div. C, title XXXI, § 3143, Dec. 2, 2002, 116 Stat. 2733.)

CODIFICATION

Section was enacted as part of the Bob Stump National Defense Authorization Act for Fiscal Year 2003, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7272. Restriction on licensing requirement for certain defense activities and facilities

None of the funds authorized to be appropriated by this or any other Act may be used for

any purpose related to licensing of any defense activity or facility of the Department of Energy by the Nuclear Regulatory Commission.

(Pub. L. 96–540, title II, § 210, Dec. 17, 1980, 94 Stat. 3202.)

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 96–540, Dec. 17, 1980, 94 Stat. 3197, known as the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1981, which insofar as classified to the Code, enacted sections 7272 and 7273 of this title.

CODIFICATION

Section was enacted as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1981, and not as part of the Department of Energy Organization Act which comprises this chapter.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in the following appropriations act:
Pub. L. 96–164, title II, § 210, Dec. 29, 1979, 93 Stat. 1264.

TRANSFER OF FUNCTIONS

For transfer of certain functions from Nuclear Regulatory Commission to Chairman thereof, see Reorg. Plan No. 1 of 1980, 45 F.R. 40561, 94 Stat. 3585, set out as a note under section 5841 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7273 of this title.

§ 7273. Restriction on use of funds to pay penalties under Clean Air Act

None of the funds authorized to be appropriated by this or any other Act may be used to pay any penalty, fine, forfeiture, or settlement resulting from a failure to comply with the Clean Air Act (42 U.S.C. 7401 et seq.) with respect to any defense activity of the Department of Energy if (1) the Secretary finds that compliance is physically impossible within the time prescribed for compliance, or (2) the President has specifically requested appropriations for compliance and the Congress has failed to appropriate funds for such purpose.

(Pub. L. 96–540, title II, § 211, Dec. 17, 1980, 94 Stat. 3203.)

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 96–540, Dec. 17, 1980, 94 Stat. 3197, known as the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1981, which insofar as classified to the Code, enacted sections 7272 and 7273 of this title.

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§ 7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

CODIFICATION

Section was enacted as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1981, and not as part of the Department of Energy Organization Act which comprises this chapter.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in the following appropriations act:
Pub. L. 96–164, title II, § 211, Dec. 29, 1979, 93 Stat. 1264.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7272 of this title.

§ 7273a. Restriction on use of funds to pay penalties under environmental laws

(a) Restriction

Funds appropriated to the Department of Energy for the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy may not be used to pay a penalty, fine, or forfeiture in regard to a defense activity or facility of the Department of Energy due to a failure to comply with any environmental requirement.

(b) Exception

Subsection (a) of this section shall not apply with respect to an environmental requirement if—

(1) the President fails to request funds for compliance with the environmental requirement; or

(2) the Congress has appropriated funds for such purpose (and such funds have not been sequestered, deferred, or rescinded) and the Secretary of Energy fails to use the funds for such purpose.

(Pub. L. 99–661, div. C, title I, § 3132, Nov. 14, 1986, 100 Stat. 4063.)

CODIFICATION

Section was enacted as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987 and also as part of the National Defense Authorization Act for Fiscal Year 1987, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7273b. Security investigations

(1) No funds appropriated to the Department of Energy may be obligated or expended for the conduct of an investigation by the Department of Energy or any other Federal department or agency for purposes of determining whether to grant a security clearance to an individual or a facility unless the Secretary of Energy determines both of the following:

(A) That a current, complete investigation file is not available from any other department or agency of the Federal government with respect to that individual or facility.

(B) That no other department or agency of the Federal government is conducting an investigation with respect to that individual or facility that could be used as the basis for determining whether to grant the security clearance.

(2) For purposes of paragraph (1)(A), a current investigation file is a file on an investigation that has been conducted within the past five years.

(Pub. L. 101–510, div. C, title XXXI, § 3104(d), Nov. 5, 1990, 104 Stat. 1828.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1991, and not as part

of the Department of Energy Organization Act which comprises this chapter.

§ 7273c. International cooperative stockpile stewardship

(a) Funding prohibition

No funds authorized to be appropriated or otherwise available to the Department of Energy for any fiscal year may be obligated or expended to conduct any activities associated with international cooperative stockpile stewardship.

(b) Exceptions

Subsection (a) of this section does not apply to the following:

(1) Activities conducted between the United States and the United Kingdom.

(2) Activities conducted between the United States and France.

(3) Activities carried out under title XIV of this Act relating to cooperative threat reduction with states of the former Soviet Union.

(Pub. L. 105–85, div. C, title XXXI, § 3133, Nov. 18, 1997, 111 Stat. 2036; Pub. L. 105–261, div. A, title X, § 1069(b)(3), div. C, title XXXI, § 3131, Oct. 17, 1998, 112 Stat. 2136, 2246.)

REFERENCES IN TEXT

Title XIV of this Act, referred to in subsec. (b)(3), is title XIV of Pub. L. 105–85, div. A, Nov. 18, 1997, 111 Stat. 1958, which is not classified to the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1998, and not as part of the Department of Energy Organization Act which comprises this chapter.

SIMILAR PROVISIONS

Provisions similar to those in this section were contained in the following prior authorization act:

Pub. L. 104–201, div. C, title XXXI, § 3138, Sept. 23, 1996, 110 Stat. 2830.

AMENDMENTS

1998—Subsec. (a). Pub. L. 105–261, § 3131, substituted ''for any fiscal year'' for ''for fiscal year 1998''.

Subsec. (b)(3). Pub. L. 105–261, § 1069(b)(3), substituted ''XIV'' for ''III''.

EFFECTIVE DATE OF 1998 AMENDMENT

Pub. L. 105–261, div. A, title X, § 1069(b), Oct. 17, 1998, 112 Stat. 2136, provided that the amendment made by that section is effective as of Nov. 18, 1997, and as if included in the National Defense Authorization Act for Fiscal Year 1998, Pub. L. 105–85, as enacted.

§ 7274. Environmental impact statements relating to defense facilities of Department of Energy

(1) The Secretary may not proceed with the preparation of an environmental impact statement relating to the construction or operation of a defense facility of the Department of Energy if the estimated cost of preparing such statement exceeds $250,000 unless—

(A) the Secretary has notified the Committees on Armed Services of the Senate and the House of Representatives of his intent to prepare such statement and a period of thirty days has expired after the date on which such notice was received by such committees; or

(B) the Secretary has received from each such committee, before the expiration of such thirty-day period, a written notice that the committee agrees with the decision of the Secretary regarding the preparation of such statement.

(2) The provisions of paragraph (1) shall not apply in the case of any environmental impact statement on which the Secretary began preparation before December 4, 1981.

(Pub. L. 97–90, title II, § 212(b), Dec. 4, 1981, 95 Stat. 1171.)

CODIFICATION

Section was enacted as part of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1982, and not as part of the Department of Energy Organization Act which comprises this chapter.

NATIONAL ENVIRONMENTAL POLICY ACT COMPLIANCE REPORT REQUIREMENT

Pub. L. 101–510, div. C, title XXXI, § 3133, Nov. 5, 1990, 104 Stat. 1832, directed Secretary of Energy, not later than 30 days after the end of each quarter of fiscal years 1991 and 1992, to submit to Congress a brief report on Department of Energy's compliance with National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), which was to contain a brief description of each proposed action to be taken by the Department of Energy, the environmental impact of which was not clearly insignificant, and a description of the steps taken or proposed to be taken by the Department of Energy to assess the environmental impact of the proposed action, and if the Secretary found that the proposed action of the Department of Energy would have no significant impact, the Secretary was to include the rationale for that determination.

§ 7274a. Defense waste cleanup technology program

(a) Establishment of program

The Secretary of Energy shall establish and carry out a program of research for the development of technologies useful for (1) the reduction of environmental hazards and contamination resulting from defense waste, and (2) environmental restoration of inactive defense waste disposal sites.

(b) Coordination of research activities

(1) In order to ensure nonduplication of research activities by the Department of Energy regarding technologies referred to in subsection (a) of this section, the Secretary shall coordinate the research activities of the Department of Energy relating to the development of such technologies with the research activities of the Environmental Protection Agency, the Department of Defense, and other appropriate Federal agencies relating to the same matter.

(2) To the extent that funds are otherwise available for obligation, the Secretary may enter into cooperative agreements with the Environmental Protection Agency, the Department of Defense, and other appropriate Federal agencies for the conduct of research for the development of technologies referred to in subsection (a) of this section.

(c) Definitions

As used in this section:

(1) The term ''defense waste'' means waste, including radioactive waste, resulting primarily from atomic energy defense activities of the Department of Energy.

(2) The term ''inactive defense waste disposal site'' means any site (including any facility) under the control or jurisdiction of the Secretary of Energy which is used for the disposal of defense waste and is closed to the disposal of additional defense waste, including any site that is subject to decontamination and decommissioning.

(Pub. L. 101–189, div. C, title XXXI, § 3141, Nov. 29, 1989, 103 Stat. 1679; Pub. L. 105–85, div. C, title XXXI, § 3152(g), Nov. 18, 1997, 111 Stat. 2042.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1990 and 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1997—Subsecs. (c), (d). Pub. L. 105–85 redesignated subsec. (d) as (c) and struck out former subsec. (c) which required Secretary of Energy to submit to Congress not later than Apr. 1 each year a report on research activities of Department of Energy for development of technologies referred to in subsec. (a).

§ 7274b. Reports in connection with permanent closures of Department of Energy defense nuclear facilities

(a) Training and job placement services plan

Not later than 120 days before a Department of Energy defense nuclear facility (as defined in section 2286g of this title) permanently ceases all production and processing operations, the Secretary of Energy must submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing a discussion of the training and job placement services needed to enable the employees at such facility to obtain employment in the environmental remediation and cleanup activities at such facility. The discussion shall include the actions that should be taken by the contractor operating and managing such facility to provide retraining and job placement services to employees of such contractor.

(b) Closure report

Upon the permanent cessation of production operations at a Department of Energy defense nuclear facility, the Secretary of Energy shall submit to Congress a report containing—

(1) a complete survey of environmental problems at the facility;

(2) budget quality data indicating the cost of environmental restoration and other remediation and cleanup efforts at the facility; and

(3) a discussion of the proposed cleanup schedule.

(Pub. L. 101–189, div. C, title XXXI, § 3156, Nov. 29, 1989, 103 Stat. 1683.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1990 and 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7274c. Report on environmental restoration expenditures

Each year, at the same time the President submits to Congress the budget for a fiscal year (pursuant to section 1105 of title 31), the Secretary of Energy shall submit to Congress a report on how the environmental restoration and waste management funds for defense activities of the Department of Energy were expended during the fiscal year preceding the fiscal year during which the budget is submitted. The report shall include details on expenditures by operations office, installation, budget category, and activity. The report also shall include any schedule changes or modifications to planned activities for the fiscal year in which the budget is submitted.

(Pub. L. 101–510, div. C, title XXXI, § 3134, Nov. 5, 1990, 104 Stat. 1833.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1991, and not as part of the Department of Energy Organization Act which comprises this chapter.

DEPARTMENT OF ENERGY MANAGEMENT PLAN FOR ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT ACTIVITIES

Section 3135 of Pub. L. 101–510 provided that:

''(a) PLAN.—The Secretary of Energy shall develop a comprehensive five-year plan for the management of environmental restoration and waste management activities at facilities under the jurisdiction of the Department of Energy.

''(b) REPORT.—Not later than June 1, 1991, the Secretary of Energy shall submit to Congress a report on the management plan developed under subsection (a). The report shall include the following:

''(1) A description of management capabilities necessary to carry out environmental programs covered by the management plan for the next five years.

''(2) A description of current Department of Energy management capabilities and inadequacies.

''(3) A description of the technical resources, including staff and management information systems, needed to carry out the management plan.

''(4) A description of assistance from other Federal agencies and private contractors included in the management plan.

''(5) A description of the cost verification and quality control elements included in the management plan.''

§ 7274d. Worker protection at nuclear weapons facilities

(a) Training grant program

(1) The Secretary of Energy is authorized to award grants to organizations referred to in paragraph (2) in order for such organizations—

(A) to provide training and education to persons who are or may be engaged in hazardous substance response or emergency response at Department of Energy nuclear weapons facilities; and

(B) to develop curricula for such training and education.

(2)(A) Subject to subparagraph (B), the Secretary is authorized to award grants under paragraph (1) to non-profit organizations that have demonstrated (as determined by the Secretary) capabilities in—

(i) implementing and conducting effective training and education programs relating to the general health and safety of workers; and

(ii) identifying, and involving in training, groups of workers whose duties include haz-

ardous substance response or emergency response.

(B) The Secretary shall give preference in the award of grants under this section to employee organizations and joint labor-management training programs that are grant recipients under section 9660a of this title.

(3) An organization awarded a grant under paragraph (1) shall carry out training, education, or curricula development pursuant to Department of Energy orders relating to employee safety training, including orders numbered 5480.4 and 5480.11.

(b) Enforcement of employee safety standards

(1) Subject to paragraph (2), the Secretary shall assess civil penalties against any contractor of the Department of Energy who (as determined by the Secretary)—

(A) employs individuals who are engaged in hazardous substance response or emergency response at Department of Energy nuclear weapons facilities; and

(B) fails (i) to provide for the training of such individuals to carry out such hazardous substance response or emergency response, or (ii) to certify to the Department of Energy that such employees are adequately trained for such response pursuant to orders issued by the Department of Energy relating to employee safety training (including orders numbered 5480.4 and 5480.11).

(2) Civil penalties assessed under this subsection may not exceed $5,000 for each day in which a failure referred to in paragraph (1)(B) occurs.

(c) Regulations

The Secretary shall prescribe regulations to carry out this section.

(d) "Hazardous substance" defined

For the purposes of this section, the term ''hazardous substance'' includes radioactive waste and mixed radioactive and hazardous waste.

(e) Funding

Of the funds authorized to be appropriated pursuant to section 3101(9)(A), $10,000,000 may be used for the purpose of carrying out this section.

(Pub. L. 102–190, div. C, title XXXI, § 3131, Dec. 5, 1991, 105 Stat. 1571.)

REFERENCES IN TEXT

Section 3101(9)(A), referred to in subsec. (e), is section 3101(9)(A) of Pub. L. 102–190, div. C, title XXXI, Dec. 5, 1991, 105 Stat. 1564, which is not classified to the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7274e. Scholarship and fellowship program for environmental restoration and waste management

(a) Establishment

The Secretary of Energy shall conduct a scholarship and fellowship program for the purpose of enabling individuals to qualify for employment in environmental restoration and waste management positions in the Department of Energy. The scholarship and fellowship program shall be known as the ''Marilyn Lloyd Scholarship and Fellowship Program''.

(b) Eligibility

To be eligible to participate in the scholarship and fellowship program, an individual must—

(1) be accepted for enrollment or be currently enrolled as a full-time student at an institution of higher education (as defined in section 101 of the Higher Education Act of 1965 [20 U.S.C. 1001]);

(2) be pursuing a program of education that leads to an appropriate higher education degree in a qualifying field of study, as determined by the Secretary;

(3) sign an agreement described in subsection (c) of this section;

(4) be a citizen or national of the United States or be an alien lawfully admitted to the United States for permanent residence; and

(5) meet such other requirements as the Secretary prescribes.

(c) Agreement

An agreement between the Secretary and a participant in the scholarship and fellowship program established under this section shall be in writing, shall be signed by the participant, and shall include the following provisions:

(1) The Secretary's agreement to provide the participant with educational assistance for a specified number of school years (not exceeding 5) during which the participant is pursuing a program of education in a qualifying field of study. The assistance may include payment of tuition, fees, books, laboratory expenses, and a stipend.

(2) The participant's agreement (A) to accept such educational assistance, (B) to maintain enrollment and attendance in the program of education until completed, (C) while enrolled in such program, to maintain satisfactory academic progress as prescribed by the institution of higher education in which the participant is enrolled, and (D) after completion of the program of education, to serve as a full-time employee in an environmental restoration or waste management position in the Department of Energy for a period of 12 months for each school year or part thereof for which the participant is provided a scholarship or fellowship under the program established under this section.

(d) Repayment

(1) Any person participating in a scholarship or fellowship program established under this section shall agree to pay to the United States the total amount of educational assistance provided to the person under the program, plus interest at the rate prescribed by paragraph (4), if the person—

(A) does not complete the course of education as agreed to pursuant to subsection (c) of this section, or completes the course of education but declines to serve in a position in the Department of Energy as agreed to pursuant to subsection (c) of this section; or

(B) is voluntarily separated from service or involuntarily separated for cause from the Department of Energy before the end of the period for which the person has agreed to continue in the service of the Department of Energy.

(2) If an employee fails to fulfill his agreement to pay to the Government the total amount of educational assistance provided to the person under the program, plus interest at the rate prescribed by paragraph (4), a sum equal to the amount of the educational assistance (plus such interest) is recoverable by the Government from the person or his estate by—

(A) in the case of a person who is an employee, setoff against accrued pay, compensation, amount of retirement credit, or other amount due the employee from the Government; and

(B) such other method as is provided by law for the recovery of amounts owing to the Government.

(3) The Secretary may waive in whole or in part a required repayment under this subsection if the Secretary determines the recovery would be against equity and good conscience or would be contrary to the best interests of the United States.

(4) For purposes of repayment under this section, the total amount of educational assistance provided to a person under the program shall bear interest at the applicable rate of interest under section 427A(c) of the Higher Education Act of 1965 (20 U.S.C. 1077a(c)).

(e) Preference for cooperative education students

In evaluating applicants for award of scholarships and fellowships under the program, the Secretary of Energy may give a preference to an individual who is enrolled in, or accepted for enrollment in, an educational institution that has a cooperative education program with the Department of Energy.

(f) Coordination of benefits

A scholarship or fellowship awarded under this section shall be taken into account in determining the eligibility of the student for Federal student financial assistance provided under title IV of the Higher Education Act of 1965 (20 U.S.C. 1070 et seq. [and 42 U.S.C. 2751 et seq.]).

(g) Award of scholarships and fellowships

(1) Subject to paragraph (2), the Secretary shall award at least 20 scholarships (for undergraduate students) and 20 fellowships (for graduate students) during fiscal year 1992.

(2) The requirement to award 20 scholarships and 20 fellowships under paragraph (1) applies only to the extent there is a sufficient number of applicants qualified for such awards.

(h) Report to Congress

Not later than January 1, 1993, the Secretary of Energy shall submit to Congress a report on activities undertaken under the program and recommendations for future activities under the program.

(i) Funding

Of the funds authorized to be appropriated pursuant to section 3101(9)(B), $1,000,000 may be used for the purpose of carrying out this section.

(Pub. L. 102–190, div. C, title XXXI, § 3132, Dec. 5, 1991, 105 Stat. 1572; Pub. L. 103–337, div. C, title XXXI, § 3156(b)(1), Oct. 5, 1994, 108 Stat. 3092; Pub. L. 105–244, title I, § 102(a)(13)(F), Oct. 7, 1998, 112 Stat. 1620.)

REFERENCES IN TEXT

The Higher Education Act of 1965, referred to in subsec. (f), is Pub. L. 89–329, Nov. 8, 1965, 79 Stat. 1219, as amended. Title IV of the Act is classified generally to subchapter IV (§ 1070 et seq.) of chapter 28 of Title 20, Education, and part C (§ 2751 et seq.) of subchapter I of chapter 34 of this title. Section 3101(9)(B), referred to in subsec. (i), is section 3101(9)(B) of Pub. L. 102–190, div. C, title XXXI, Dec. 5, 1991, 105 Stat. 1564, which is not classified to the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1998—Subsec. (b)(1). Pub. L. 105–244 substituted ''section 101 of the Higher Education Act of 1965'' for ''section 1201(a) of the Higher Education Act of 1965 (20 U.S.C. 1141(a))''.

1994—Subsec. (a). Pub. L. 103–337 inserted at end ''The scholarship and fellowship program shall be known as the 'Marilyn Lloyd Scholarship and Fellowship Program'.''

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by Pub. L. 105–244 effective Oct. 1, 1998, except as otherwise provided in Pub. L. 105–244, see section 3 of Pub. L. 105–244, set out as a note under section 1001 of Title 20, Education.

EFFECTIVE DATE OF 1994 AMENDMENT

Section 3156(b)(2) of Pub. L. 103–337 provided that: ''The amendment made by paragraph (1) [amending this section] shall take effect on January 3, 1995.''

§ 7274f. Defense Environmental Restoration and Waste Management Account

(a) Establishment

There is hereby established in the Treasury of the United States for the Department of Energy an account to be known as the ''Defense Environmental Restoration and Waste Management Account'' (hereafter in this section referred to as the ''Account'').

(b) Amounts in Account

All sums appropriated to the Department of Energy for environmental restoration and waste management at defense nuclear facilities shall be credited to the Account. Such appropriations shall be authorized annually by law. To the extent provided in appropriations Acts, amounts in the Account shall remain available until expended.

(Pub. L. 102–190, div. C, title XXXI, § 3134, Dec. 5, 1991, 105 Stat. 1575.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7274g. Environmental restoration and waste management five-year plan and budget reports

(a) Five-year plan

(1) Not later than September 1 of each year, the Secretary of Energy shall issue a plan for environmental restoration and waste management activities to be conducted, during the five-year period beginning on October 1 of the next calendar year, at all facilities owned or operated by the Department of Energy except defense nuclear facilities. The plan also shall contain a description of environmental restoration and waste management activities conducted during the fiscal year in which the plan is submitted and of such activities to be conducted during the fiscal year beginning on October 1 of the same calendar year. Such five-year plan shall be designed to complete environmental restoration at all such Department of Energy facilities not later than the year 2019.

(2) The Secretary shall prepare each annual five-year plan in a preliminary form at least four months before the date on which that plan is required to be issued under paragraph (1). The preliminary plan shall contain the matters referred to in paragraph (4) (other than the matters referred to in subparagraph (J) of that paragraph). The Secretary shall provide the preliminary plan to the Governors and Attorneys General of affected States, appropriate representatives of affected Indian tribes, and the public for coordination, review, and comment.

(3) At the same time the Secretary issues an annual five-year plan under paragraph (1), the Secretary shall submit the plan to the President and Congress, publish a notice of the issuance of the plan in the Federal Register, and make the plan available to the Governors and Attorneys General of affected States, appropriate representatives of affected Indian tribes, and the public.

(4) The annual five-year plan, and the actions and other matters contained in the plan, shall be in accordance with all laws, regulations, permits, orders, and agreements. The plan shall include, with respect to the Department of Energy facilities required by paragraph (1) to be covered by the plan, the following matters:

(A) A description of the actions, including identification of specific projects, necessary to maintain or achieve compliance with Federal, State, or local environmental laws, regulations, permits, orders, and agreements.

(B) A description of the actions, including identification of specific projects, to be taken at each Department of Energy facility in order to implement environmental restoration activities planned for each such facility.

(C) A description of research and development activities for the expeditious and efficient environmental restoration of such facilities.

(D) A description of the technologies and facilities necessary to carry out the environmental restoration activities.

(E) A description of the waste management activities, including identification of specific projects, necessary to continue to operate the Department of Energy facilities or to decontaminate and decommission the facilities, as the case may be.

(F) A description of research and development activities for waste management.

(G) A description of the technologies and facilities necessary to carry out the waste management activities.

(H) A description of activities and practices that the Secretary is undertaking or plans to undertake to minimize the generation of waste.

(I) The estimated costs of, and personnel required for, each project, action, or activity contained in the plan.

(J) A description of the respects in which the plan differs from the preliminary form of that plan issued pursuant to paragraph (2), together with the reasons for any differences.

(K) A discussion of the implementation of the preceding annual five-year plan.

(L) Such other matters as the Secretary finds appropriate and in the public interest.

(5) The Secretary shall consult with the Administrator of the Environmental Protection Agency, Governors and Attorneys General of affected States, and appropriate representatives of affected Indian tribes in the preparation of the plan and the preliminary form of the plan pursuant to paragraphs (1) and (2). The Secretary shall include as an appendix to the plan (A) all comments submitted on the preliminary form of the plan by the Administrator, Governors and Attorneys General of affected States, and affected Indian tribes, and (B) a summary of comments submitted by the public.

(6) The first annual five-year plan issued pursuant to this section shall be issued in 1992.

(b) Treatment of plans under section 4332

The development and adoption of any part of any plan (including any preliminary form of any such plan) under subsection (a) of this section shall not be considered a major Federal action for the purposes of subparagraph (C), (E), or (F) of section 4332(2) of this title. Nothing in this subsection shall affect the Department of Energy's ongoing preparation of a programmatic environmental impact statement on environmental restoration and waste management.

(c) Grants

The Secretary of Energy is authorized to award grants to, and enter into cooperative agreements with, affected States and affected Indian tribes to assist such States and tribes in participating in the development of the annual five-year plan (including the preliminary form of such plan).

(d) Funding

Of the funds authorized to be appropriated pursuant to section 3103, $20,000,000 may be used for the purpose of carrying out subsection (c) of this section.

(e) Budget reports

Each year, at the same time the President submits to Congress the budget for a fiscal year (pursuant to section 1105 of title 31), the President shall submit to Congress a description of proposed activities and funding levels contained in the annual five-year plan (issued, pursuant to

subsection (a)(1) of this section, in the year preceding the year in which the budget is submitted to Congress) that are not included in the budget or are included in the budget in a different form or at a different funding level, together with the reasons for such differences.

(Pub. L. 102–190, div. C, title XXXI, § 3135, Dec. 5, 1991, 105 Stat. 1575; Pub. L. 103–337, div. C, title XXXI, § 3160(a), Oct. 5, 1994, 108 Stat. 3094.)

REFERENCES IN TEXT

Section 3103, referred to in subsec. (d), is section 3103 of Pub. L. 102–190, div. C, title XXXI, Dec. 5, 1991, 105 Stat. 1566, which is not classified to the Code.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Years 1992 and 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1994—Subsec. (a)(1). Pub. L. 103–337, § 3160(a)(1), substituted ''all facilities owned or operated by the Department of Energy except defense nuclear facilities'' for ''(A) defense nuclear facilities and (B) all other facilities owned or operated by the Department of Energy'' in first sentence and inserted ''such'' after ''restoration at all'' in third sentence.

Subsec. (a)(4). Pub. L. 103–337, § 3160(a)(2), substituted ''The plan shall include, with respect to the Department of Energy facilities required by paragraph (1) to be covered by the plan, the following matters:'' for ''The plan shall contain the following matters:'' in introductory provisions.

Subsec. (a)(6), (7). Pub. L. 103–337, § 3160(a)(3), (4), redesignated par. (7) as (6) and struck out former par. (6) which read as follows: ''The Secretary shall include in the annual five-year plan issued in 1992 a discussion of the feasibility and need, if any, for the establishment of a contingency fund in the Department of Energy to provide funds necessary to meet the requirements in environmental laws, to remove an immediate threat to worker or public health and safety, to prevent or improve a condition where postponement of activity would lead to deterioration of the environment, and to undertake additional environmental restoration activities at Department of Energy defense nuclear facilities that are not provided for in the budgets for fiscal years in which it is necessary to meet such requirements or undertake such activities.''

PUBLIC PARTICIPATION IN PLANNING

Section 3160(e) of Pub. L. 103–337 provided that: ''The Secretary of Energy shall consult with the Administrator of the Environmental Protection Agency, the Attorney General, Governors and Attorneys General of affected States, appropriate representatives of affected Indian tribes, and interested members of the public in any planning conducted by the Secretary for environmental restoration and waste management at Department of Energy defense nuclear facilities.''

§ 7274h. Department of Energy defense nuclear facilities workforce restructuring plan

(a) In general

Upon determination that a change in the workforce at a defense nuclear facility is necessary, the Secretary of Energy (hereinafter in sections 7274h to 7274j of this title referred to as the ''Secretary'') shall develop a plan for restructuring the workforce for the defense nuclear facility that takes into account—

(1) the reconfiguration of the defense nuclear facility; and

(2) the plan for the nuclear weapons stockpile that is the most recently prepared plan at the time of the development of the plan referred to in this subsection.

(b) Consultation

(1) In developing a plan referred to in subsection (a) of this section and any updates of the plan under subsection (e) of this section, the Secretary shall consult with the Secretary of Labor, appropriate representatives of local and national collective-bargaining units of individuals employed at Department of Energy defense nuclear facilities, appropriate representatives of departments and agencies of State and local governments, appropriate representatives of State and local institutions of higher education, and appropriate representatives of community groups in communities affected by the restructuring plan.

(2) The Secretary shall determine appropriate representatives of the units, governments, institutions, and groups referred to in paragraph (1).

(c) Objectives

In preparing the plan required under subsection (a) of this section, the Secretary shall be guided by the following objectives:

(1) Changes in the workforce at a Department of Energy defense nuclear facility—

(A) should be accomplished so as to minimize social and economic impacts;

(B) should be made only after the provision of notice of such changes not later than 120 days before the commencement of such changes to such employees and the communities in which such facilities are located; and

(C) should be accomplished, when possible, through the use of retraining, early retirement, attrition, and other options that minimize layoffs.

(2) Employees whose employment in positions at such facilities is terminated shall, to the extent practicable, receive preference in any hiring of the Department of Energy (consistent with applicable employment seniority plans or practices of the Department of Energy and with section 3152 of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101–189; 103 Stat. 1682)).

(3) Employees shall, to the extent practicable, be retrained for work in environmental restoration and waste management activities at such facilities or other facilities of the Department of Energy.

(4) The Department of Energy should provide relocation assistance to employees who are transferred to other Department of Energy facilities as a result of the plan.

(5) The Department of Energy should assist terminated employees in obtaining appropriate retraining, education, and reemployment assistance (including employment placement assistance).

(6) The Department of Energy should provide local impact assistance to communities that are affected by the restructuring plan and coordinate the provision of such assistance with—

(A) programs carried out by the Secretary of Labor under title I of the Workforce Investment Act of 1998 [29 U.S.C. 2801 et seq.];

(B) programs carried out pursuant to the Defense Economic Adjustment, Diversification, Conversion, and Stabilization Act of 1990 (division D of Public Law 101–510; 10 U.S.C. 2391 note); and

(C) programs carried out by the Department of Commerce pursuant to title II of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3141 et seq.).

(d) Implementation

The Secretary shall, subject to the availability of appropriations for such purpose, work on an ongoing basis with representatives of the Department of Labor, workforce bargaining units, and States and local communities in carrying out a plan required under subsection (a) of this section.

(e) Plan updates

Not later than one year after issuing a plan referred to in subsection (a) of this section and on an annual basis thereafter, the Secretary shall issue an update of the plan. Each updated plan under this subsection shall—

(1) be guided by the objectives referred to in subsection (c) of this section, taking into account any changes in the function or mission of the Department of Energy defense nuclear facilities and any other changes in circumstances that the Secretary determines to be relevant;

(2) contain an evaluation by the Secretary of the implementation of the plan during the year preceding the report; and

(3) contain such other information and provide for such other matters as the Secretary determines to be relevant.

(f) Submittal to Congress

(1) The Secretary shall submit to Congress a plan referred to in subsection (a) of this section with respect to a defense nuclear facility within 90 days after the date on which a notice of changes described in subsection (c)(1)(B) of this section is provided to employees of the facility, or 90 days after October 23, 1992, whichever is later.

(2) The Secretary shall submit to Congress any updates of the plan under subsection (e) of this section immediately upon completion of any such update.

(Pub. L. 102–484, div. C, title XXXI, §3161, Oct. 23, 1992, 106 Stat. 2644; Pub. L. 103–337, div. A, title X, §1070(c)(2), Oct. 5, 1994, 108 Stat. 2857; Pub. L. 105–277, div. A, §101(f) [title VIII, §405(d)(7)(A), (f)(6)(A)], Oct. 21, 1998, 112 Stat. 2681–337, 2681–419, 2681–430; Pub. L. 107–107, div. A, title X, §1048(h)(1), Dec. 28, 2001, 115 Stat. 1229.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

2001—Subsec. (c)(6)(C). Pub. L. 107–107 substituted ''title II of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3141 et seq.)'' for ''title IX of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3241 et seq.)''.

1998—Subsec. (c)(6)(A). Pub. L. 105–277, §101(f) [title VIII, §405(f)(6)(A)], added subpar. (A) and struck out former subpar. (A) which read as follows: ''programs carried out by the Secretary of Labor under the Job Training Partnership Act or title I of the Workforce Investment Act of 1998;''.

Pub. L. 105–277, §101(f) [title VIII, §405(d)(7)(A)], added subpar. (A) and struck out former subpar. (A) which read as follows: ''programs carried out by the Department of Labor pursuant to the Job Training Partnership Act (29 U.S.C. 1501 et seq.);''.

1994—Pub. L. 103–337, §1070(c)(2)(B), substituted ''workforce'' for ''work force'' in section catchline.

Subsec. (a). Pub. L. 103–337, §1070(c)(2)(A), substituted ''workforce for'' for ''work force for'' in introductory provisions.

Subsec. (c)(1). Pub. L. 103–337, §1070(c)(2)(A), substituted ''workforce'' for ''work force'' in introductory provisions.

Subsec. (c)(6)(B). Pub. L. 103–337, §1070(c)(2)(C), substituted ''division D'' for ''Part D''.

Subsec. (d). Pub. L. 103–337, §1070(c)(2)(A), substituted ''workforce'' for ''work force''.

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by section 101(f) [title VIII, §405(d)(7)(A)] of Pub. L. 105–277 effective Oct. 21, 1998, and amendment by section 101(f) [title VIII, §405(f)(6)(A)] of Pub. L. 105–277 effective July 1, 2000, see section 101(f) [title VIII, §405(g)(1), (2)(B)] of Pub. L. 105–277, set out as a note under section 3502 of Title 5, Government Organization and Employees.

EFFECTIVE DATE OF 1994 AMENDMENT

Section 1070(c) of Pub. L. 103–337 provided that the amendment made by that section is effective as of Oct. 23, 1992, and as if included in the National Defense Authorization Act for Fiscal Year 1993, Pub. L. 102–484, as enacted.

SEMIANNUAL REPORT TO CONGRESS OF LOCAL IMPACT ASSISTANCE

Pub. L. 105–85, div. C, title XXXI, §3153(f), Nov. 18, 1997, 111 Stat. 2044, provided that: ''The Secretary of Energy shall submit to Congress every six months a report setting forth a description of, and the amount or value of, all local impact assistance provided during the preceding six months under section 3161(c)(6) of the National Defense Authorization Act of 1993 [National Defense Authorization Act for Fiscal Year 1993] (42 U.S.C. 7274h(c)(6)).''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2297h–8, 7274j of this title.

§ 7274i. Program to monitor Department of Energy workers exposed to hazardous and radioactive substances

(a) In general

The Secretary shall establish and carry out a program for the identification and on-going medical evaluation of current and former Department of Energy employees who are subject to significant health risks as a result of the exposure of such employees to hazardous or radioactive substances during such employment.

(b) Implementation of program

(1) The Secretary shall, with the concurrence of the Secretary of Health and Human Services, issue regulations under which the Secretary shall implement the program. Such regulations shall, to the extent practicable, provide for a process to—

(A) identify the hazardous substances and radioactive substances to which current and former Department of Energy employees may have been exposed as a result of such employment;

(B) identify employees referred to in subparagraph (A) who received a level of exposure identified under paragraph (2)(B);

(C) determine the appropriate number, scope, and frequency of medical evaluations and laboratory tests to be provided to employees who have received a level of exposure identified under paragraph (2)(B) to permit the Secretary to evaluate fully the extent, nature, and medical consequences of such exposure;

(D) make available the evaluations and tests referred to in subparagraph (C) to the employees referred to in such subparagraph;

(E) ensure that privacy is maintained with respect to medical information that personally identifies any such employee; and

(F) ensure that employee participation in the program is voluntary.

(2)(A) In determining the most appropriate means of carrying out the activities referred to in subparagraphs (A) through (D) of paragraph (1), the Secretary shall consult with the Secretary of Health and Human Services under the agreement referred to in subsection (c).

(B) The Secretary of Health and Human Services, with the assistance of the Director of the Centers for Disease Control and the Director of the National Institute for Occupational Safety and Health, and the Secretary of Labor shall identify the levels of exposure to the substances referred to in subparagraph (A) of paragraph (1) that present employees referred to in such subparagraph with significant health risks under Federal and State occupational, health, and safety standards;

(3) In prescribing the guidelines referred to in paragraph (1), the Secretary shall consult with representatives of the following entities:

(A) The American College of Occupational and Environmental Medicine.

(B) The National Academy of Sciences.

(C) The National Council on Radiation Protection.

(D) Any labor organization or other collective bargaining agent authorized to act on the behalf of employees of a Department of Energy defense nuclear facility.

(4) The Secretary shall provide for each employee identified under paragraph (1)(D) and provided with any medical examination or test under paragraph (1)(E) to be notified by the appropriate medical personnel of the identification and the results of any such examination or test. Each notification under this paragraph shall be provided in a form that is readily understandable by the employee.

(5) The Secretary shall collect and assemble information relating to the examinations and tests carried out under paragraph (1)(E).

(6) The Secretary shall commence carrying out the program described in this subsection not later than 1 year after October 23, 1992.

(c) Agreement with Secretary of Health and Human Services

Not later than 180 days after October 23, 1992, the Secretary shall enter into an agreement with the Secretary of Health and Human Services relating to the establishment and conduct of the program required and regulations issued under this section.

(Pub. L. 102–484, div. C, title XXXI, § 3162, Oct. 23, 1992, 106 Stat. 2646.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

CHANGE OF NAME

Centers for Disease Control changed to Centers for Disease Control and Prevention by Pub. L. 102–531, title III, § 312, Oct. 27, 1992, 106 Stat. 3504.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2297h–8, 7274h, 7274j of this title.

§ 7274j. Definitions

For purposes of sections 7274h to 7274j of this title:

(1) The term ''Department of Energy defense nuclear facility'' means—

(A) a production facility or utilization facility (as those terms are defined in section 2014 of this title) that is under the control or jurisdiction of the Secretary and that is operated for national security purposes (including the tritium loading facility at Savannah River, South Carolina, the 236 H facility at Savannah River, South Carolina; and the Mound Laboratory, Ohio), but the term does not include any facility that does not conduct atomic energy defense activities and does not include any facility or activity covered by Executive Order Number 12344, dated February 1, 1982, pertaining to the naval nuclear propulsion program;

(B) a nuclear waste storage or disposal facility that is under the control or jurisdiction of the Secretary;

(C) a testing and assembly facility that is under the control or jurisdiction of the Secretary and that is operated for national security purposes (including the Nevada Test Site, Nevada; the Pinnellas Plant, Florida; and the Pantex facility, Texas);

(D) an atomic weapons research facility that is under the control or jurisdiction of

the Secretary (including the Lawrence Livermore, Los Alamos, and Sandia National Laboratories); or

(E) any facility described in subparagraphs (A) through (D) that—

(i) is no longer in operation;

(ii) was under the control or jurisdiction of the Department of Defense, the Atomic Energy Commission, or the Energy Research and Development Administration; and

(iii) was operated for national security purposes.

(2) The term ''Department of Energy employee'' means any employee of the Department of Energy employed at a Department of Energy defense nuclear facility, including any employee of a contractor or subcontractor of the Department of Energy employed at such a facility.

(Pub. L. 102–484, div. C, title XXXI, § 3163, Oct. 23, 1992, 106 Stat. 2647; Pub. L. 104–106, div. A, title XV, § 1504(c)(2), Feb. 10, 1996, 110 Stat. 514.)

REFERENCES IN TEXT

Executive Order Number 12344, referred to in par. (1)(A), is set out as a note under section 7158 of this title.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1996—Par. (1)(E). Pub. L. 104–106 substituted ''subparagraphs (A) through (D)'' for ''paragraphs (1) through (4)''.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the advanced scientific computing research program and activities at Lawrence Livermore National Laboratory, including the functions of the Secretary of Energy relating thereto, to the Secretary of Homeland Security, see sections 183(1), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

All national security functions and activities performed immediately before Oct. 5, 1999, by Department of Energy defense nuclear facilities described in this section, transferred to the Administrator for Nuclear Security of the National Nuclear Security Administration of the Department of Energy, see section 2481 of Title 50, War and National Defense.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7274h of this title.

§ 7274k. Baseline environmental management reports

(a) Annual environmental restoration reports

(1) The Secretary of Energy shall (in the years and at the times specified in paragraph (2)) submit to the Congress a report on the activities and projects necessary to carry out the environmental restoration of all Department of Energy defense nuclear facilities.

(2) Reports under paragraph (1) shall be submitted as follows:

(A) The initial report shall be submitted not later than March 1, 1995.

(B) A report after the initial report shall be submitted in each year after 1995 during which the Secretary of Energy conducts, or plans to conduct, environmental restoration activities and projects, not later than 30 days after the date on which the President submits to the Congress the budget for the fiscal year beginning in that year.

(b) Biennial waste management reports

(1) The Secretary of Energy shall (in the years and at the times specified in paragraph (2)) submit to the Congress a report on all activities and projects for waste management, including pollution prevention and transition of operational facilities to safe shutdown status, that are necessary for Department of Energy defense nuclear facilities.

(2) Reports required under paragraph (1) shall be submitted as follows:

(A) The initial report shall be submitted not later than June 1, 1995.

(B) A report after the initial report shall be submitted in each odd-numbered year after 1997, not later than 30 days after the date on which the President submits to the Congress the budget for the fiscal year beginning in that year.

(c) Contents of reports

A report required under subsection (a) or (b) of this section shall be based on compliance with all applicable provisions of law, permits, regulations, orders, and agreements, and shall—

(1) provide the estimated total cost of, and the complete schedule for, the activities and projects covered by the report;

(2) with respect to each such activity and project, contain—

(A) a description of the activity or project;

(B) a description of the problem addressed by the activity or project;

(C) the proposed remediation of the problem, if the remediation is known or decided;

(D) the estimated cost to complete the activity or project, including, where appropriate, the cost for every five-year increment;

(E) the estimated date for completion of the activity or project, including, where appropriate, progress milestones for every five-year increment; and

(F) a description of the personnel and facilities required to complete the activity or project; and

(3) contain a description of the research and development necessary to develop the technology to conduct the activities and projects covered by the report.

(d) Biennial status and variance reports

(1)(A) The Secretary of Energy shall (in the years and at the time specified in subparagraph (B)) submit to the Congress a status and variance report on environmental restoration and waste management activities and projects at Department of Energy defense nuclear facilities.

(B) A report under subparagraph (A) shall be submitted in 1995 and in each odd-numbered year thereafter during which the Secretary of

Energy conducts environmental restoration and waste management activities, not later than 30 days after the date on which the President submits to the Congress the budget for the fiscal year beginning in that year.

(2) Each status and variance report under paragraph (1) shall contain the following:

(A) Information on each such activity and project for which funds were appropriated for the two fiscal years immediately before the fiscal year during which the report is submitted, including the following:

(i) Information on whether or not the activity or project has been completed, and information on the estimated date of completion for activities or projects that have not been completed.

(ii) The total amount of funds expended for the activity or project during such prior fiscal years, including the amount of funds expended from amounts made available as the result of supplemental appropriations or a transfer of funds, and an estimate of the total amount of funds required to complete the activity or project.

(iii) Information on whether the President requested an amount of funds for the activity or project in the budget for the fiscal year during which the report is submitted, and whether such funds were appropriated or transferred.

(iv) An explanation of the reasons for any projected cost variance between actual and estimated expenditures of more than 15 percent or $10,000,000, or any schedule delay of more than six months, for the activity or project.

(B) For the fiscal year during which the report is submitted, a disaggregation of the funds appropriated for Department of Energy defense environmental restoration and waste management into the activities and projects (including discrete parts of multiyear activities and projects) that the Secretary of Energy expects to accomplish during that fiscal year.

(C) For the fiscal year for which the budget is submitted, a disaggregation of the Department of Energy defense environmental restoration and waste management budget request into the activities and projects (including discrete parts of multiyear activities and projects) that the Secretary of Energy expects to accomplish during that fiscal year.

(e) Compliance tracking

In preparing a report under this section, the Secretary of Energy shall provide, with respect to each activity and project identified in the report, information which is sufficient to track the Department of Energy's compliance with relevant Federal and State regulatory milestones.

(f) Public participation in development of information

(1) The Secretary of Energy shall consult with the Administrator of the Environmental Protection Agency, the Attorney General, Governors and Attorneys General of affected States, appropriate representatives of affected Indian tribes, and interested members of the public in the development of information necessary to complete the reports required by subsections (a), (b), and (d) of this section.

(2) Consultation under paragraph (1) shall not interfere with the timely submission to Congress of the budget for a fiscal year.

(3) The Secretary may award grants to, and enter into cooperative agreements with, affected States and affected Indian tribes to facilitate the participation of such entities in the development of information under this subsection. The Secretary may also take appropriate action to facilitate the participation of interested members of the public in such development under this subsection.

(Pub. L. 103–160, div. C, title XXXI, §3153, Nov. 30, 1993, 107 Stat. 1950; Pub. L. 103–337, div. C, title XXXI, §3160(b)–(d), Oct. 5, 1994, 108 Stat. 3094; Pub. L. 104–201, div. C, title XXXI, §3152, Sept. 23, 1996, 110 Stat. 2839; Pub. L. 105–85, div. C, title XXXI, §3160, Nov. 18, 1997, 111 Stat. 2048.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1994, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1997—Subsec. (b)(2)(B). Pub. L. 105–85 substituted ''1997'' for ''1995''.

1996—Subsec. (b). Pub. L. 104–201, §3152(1), substituted ''Biennial'' for ''Annual'' in heading and ''each odd-numbered year after 1995'' for ''each year after 1995'' in par. (2)(B).

Subsec. (d). Pub. L. 104–201, §3152(2), substituted ''Biennial'' for ''Annual'' in heading, ''each odd-numbered year'' for ''each year'' in par. (1)(B), ''two fiscal years immediately'' for ''the fiscal year immediately'' in introductory provisions of par. (2)(A), and ''prior fiscal years'' for ''prior fiscal year'' in par. (2)(A)(ii).

1994—Subsec. (b)(1). Pub. L. 103–337, §3160(b), inserted ''including pollution prevention and'' after ''waste management,'' and struck out ''and technology research and development related to such activities and projects'' after ''shutdown status,''.

Subsec. (c)(2)(F). Pub. L. 103–337, §3160(c)(2)–(4), added subpar. (F).

Subsec. (c)(3). Pub. L. 103–337, §3160(c)(1), (5), added par. (3).

Subsec. (f). Pub. L. 103–337, §3160(d), added subsec. (f).

REQUIREMENT TO DEVELOP FUTURE USE PLANS FOR ENVIRONMENTAL MANAGEMENT PROGRAMS

Section 3153 of Pub. L. 104–201 provided that:

''(a) AUTHORITY TO DEVELOP FUTURE USE PLANS.—The Secretary of Energy may develop future use plans for any defense nuclear facility at which environmental restoration and waste management activities are occurring.

''(b) REQUIREMENT TO DEVELOP FUTURE USE PLANS.—The Secretary shall develop a future use plan for each of the following defense nuclear facilities:

''(1) Hanford Site, Richland, Washington.

''(2) Rocky Flats Plant, Golden, Colorado.

''(3) Savannah River Site, Aiken, South Carolina.

''(4) Idaho National Engineering Laboratory, Idaho.

''(c) CITIZEN ADVISORY BOARD.—(1) At each defense nuclear facility for which the Secretary of Energy intends or is required to develop a future use plan under this section and for which no citizen advisory board has been established, the Secretary shall establish a citizen advisory board.

''(2) The Secretary may authorize the manager of a defense nuclear facility for which a future use plan is developed under this section (or, if there is no such

manager, an appropriate official of the Department of Energy designated by the Secretary) to pay routine administrative expenses of a citizen advisory board established for that facility. Such payments shall be made from funds available to the Secretary for program direction in carrying out environmental restoration and waste management activities necessary for national security programs.

''(d) REQUIREMENT TO CONSULT WITH CITIZEN ADVISORY BOARD.—In developing a future use plan under this section with respect to a defense nuclear facility, the Secretary of Energy shall consult with a citizen advisory board established pursuant to subsection (c) or a similar advisory board already in existence as of the date of the enactment of this Act [Sept. 23, 1996] for such facility, affected local governments (including any local future use redevelopment authorities), and other appropriate State agencies.

''(e) 50-YEAR PLANNING PERIOD.—A future use plan developed under this section shall cover a period of at least 50 years.

''(f) DEADLINES.—For each facility listed in subsection (b), the Secretary of Energy shall develop a draft future use plan by October 1, 1997, and a final future use plan by March 15, 1998.

''(g) REPORT.—Not later than 60 days after completing development of a final plan for a site listed in subsection (b), the Secretary of Energy shall submit to Congress a report on the plan. The report shall describe the plan and contain such findings and recommendations with respect to the site as the Secretary considers appropriate.

''(h) SAVINGS PROVISIONS.—(1) Nothing in this section, or in a future use plan developed under this section with respect to a defense nuclear facility, shall be construed as requiring any modification to a future use plan with respect to a defense nuclear facility that was developed before the date of the enactment of this Act [Sept. 23, 1996].

''(2) Nothing in this section may be construed to affect statutory requirements for an environmental restoration or waste management activity or project or to modify or otherwise affect applicable statutory or regulatory environmental restoration and waste management requirements, including substantive standards intended to protect public health and the environment, nor shall anything in this section be construed to preempt or impair any local land use planning or zoning authority or State authority.''

DEFENSE NUCLEAR ENVIRONMENTAL CLEANUP AND MANAGEMENT

Subtitle E of title XXXI of div. C of Pub. L. 104–201, as amended by Pub. L. 105–85, div. C, title XXXI, § 3159, Nov. 18, 1997, 111 Stat. 2047, provided that:

''SEC. 3171. PURPOSE.

''The purpose of this subtitle is to provide for the expedited environmental restoration and waste management of defense nuclear facilities through the use of cost-effective management mechanisms and innovative technologies.

''SEC. 3172. APPLICABILITY.

''(a) IN GENERAL.—The provisions of this subtitle shall apply to the following defense nuclear facilities:

''(1) Any defense nuclear facility for which the fiscal year 1996 environmental management budget was $350,000,000 or more.

''(2) Any other defense nuclear facility if—

''(A) the chief executive officer of the State in which the facility is located submits to the Secretary a request that the facility be covered by the provisions of this subtitle; and

''(B) the Secretary approves the request.

''(b) LIMITATION.—The Secretary may not approve a request under subsection (a)(2) until 60 days after the date on which the Secretary notifies Congress of the Secretary's receipt of the request.

''SEC. 3173. SITE MANAGER.

''(a) APPOINTMENT.—(1) Subject to paragraph (2), the Secretary shall expeditiously appoint a Site Manager for each defense nuclear facility (in this subtitle referred to as the 'Site Manager').

''(2) In the case of a defense nuclear facility at which another program, in addition to environmental management operations, is carried out, and such other program is subject to management by a site manager, field office manager, or operations office manager, the Secretary shall appoint such manager to be the Site Manager for such facility for purposes of this subtitle.

''(b) AUTHORITY.—(1) Except as provided in paragraph (5), in addition to other authorities provided for in this subtitle, the Secretary may delegate to the Site Manager of a defense nuclear facility authority to oversee and direct environmental management operations at the facility, including the authority to—

''(A) enter into and modify contractual agreements to enhance environmental restoration and waste management at the facility;

''(B) request that the Department headquarters submit to Congress a reprogramming package shifting funds among accounts in order to facilitate the most efficient and timely environmental restoration and waste management of the facility, and, in the event that the Department headquarters does not act upon the request within 60 days, submit such request to the appropriate congressional committees for review;

''(C) subject to paragraph (2), negotiate amendments to environmental agreements for the Department;

''(D) manage Department personnel at the facility;

''(E) consider the costs, risk reduction benefits, and other benefits for the purposes of ensuring protection of human health and the environment or safety, with respect to any environmental remediation activity the cost of which exceeds $25,000,000; and

''(F) have assessments prepared for environmental restoration activities (in several documents or a single document, as determined by the Site Manager).

''(2) In using the authority described in paragraph (1)(C), a Site Manager may not negotiate an amendment that is expected to result in additional life cycle costs to the Department without the approval of the Secretary.

''(3) In using any authority described in paragraph (1), a Site Manager of a facility shall consult with the State where the facility is located and the advisory board for the facility.

''(4) The delegation of any authority pursuant to this subsection shall not be construed as restricting the Secretary's authority to delegate other authorities as necessary.

''(5) In the case of the Hanford Reservation, Richland, Washington, the Secretary shall delegate to the Site Manager the authority described in paragraph (1) for fiscal year 1998. The Secretary may withdraw the delegated authority if the Secretary—

''(A) determines that the Site Manager of the Hanford Reservation has misused or misapplied that authority; and

''(B) the Secretary submits to Congress a notification of the Secretary's intent to withdraw the authority.

''(c) INFORMATION TO SECRETARY.—The Site Manager of a defense nuclear facility shall regularly inform the Secretary, Congress, and the advisory board for the facility of the progress made by the Site Manager to achieve the expedited environmental restoration and waste management of the facility.

''SEC. 3174. DEPARTMENT OF ENERGY ORDERS.

''An order imposed after the date of the enactment of this Act [Sept. 23, 1996] relating to the execution of environmental restoration, waste management, or technology development activities at a defense nuclear facility under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) may be imposed by the Secretary at the defense nuclear facility only if the Secretary finds that the order is necessary for the protection of human health and the environment or safety, the fulfillment

of current legal requirements, or the conduct of critical administrative functions.

''SEC. 3175. DEPLOYMENT OF TECHNOLOGY FOR REMEDIATION OF DEFENSE NUCLEAR WASTE.

''(a) IN GENERAL.—The Site Manager of each defense nuclear facility shall promote the deployment of innovative environmental technologies for remediation of defense nuclear waste at the facility.

''(b) CRITERIA.—To carry out subsection (a), the Site Manager of a defense nuclear facility shall establish a program at the facility for the testing and deployment of innovative environmental technologies for the remediation of defense nuclear waste at the facility. In establishing such a program, the Site Manager may—

''(1) establish a simplified, standardized, and timely process for the testing, verification, certification, and deployment of environmental technologies;

''(2) solicit applications to test and deploy environmental technologies suitable for environmental restoration and waste management activities at the facility, including prevention, control, characterization, treatment, and remediation of contamination;

''(3) consult and cooperate with the heads of existing programs at the facility for the verification and certification of environmental technologies at the facility;

''(4) pay the costs of the demonstration of such technologies;

''(5) enter into contracts and other agreements with other public and private entities to deploy environmental technologies at the facility; and

''(6) include incentives, such as product performance specifications, in contracts to encourage the implementation of innovative environmental technologies.

''(c) FOLLOW-ON CONTRACTS.—(1) If the Secretary and a person demonstrating a technology under the program enter into a contract for remediation of nuclear waste at a defense nuclear facility covered by this subtitle, or at any other Department facility, as a follow-on to the demonstration of the technology, the Secretary shall ensure that the contract provides for the Secretary to recoup from the contractor the costs incurred by the Secretary pursuant to subsection (b)(6) for the demonstration.

''(2) No contract between the Department and a contractor for the demonstration of technology under subsection (b) may provide for reimbursement of the costs of the contractor on a cost plus fee basis.

''(d) SAFE HARBORS.—In the case of an environmental technology tested, verified, certified, and deployed at a defense nuclear facility under a program established under subsection (b), the Site Manager of another defense nuclear facility may request the Secretary to waive or limit contractual or Department regulatory requirements that would otherwise apply in implementing the same environmental technology at such other facility.

''SEC. 3176. PERFORMANCE-BASED CONTRACTING.

''(a) PROGRAM.—The Secretary shall develop and implement a program for performance-based contracting for contracts entered into for environmental remediation at defense nuclear facilities. The program shall ensure that, to the maximum extent practicable and appropriate, such contracts include the following:

''(1) Clearly stated and results oriented performance criteria and measures.

''(2) Appropriate incentives for contractors to meet or exceed the performance criteria effectively and efficiently.

''(3) Appropriate criteria and incentives for contractors to seek and engage subcontractors who may more effectively and efficiently perform either unique and technologically challenging tasks or routine and interchangeable services.

''(4) Specific incentives for cost savings.

''(5) Financial accountability.

''(6) When appropriate, reduction of fee for failure to meet minimum performance criteria and standards.

''(b) CRITERIA AND MEASURES.—Performance criteria and measures should take into consideration, at a minimum, the following: managerial control; elimination or reduction of risk to public health and the environment; workplace safety; financial control; goal-oriented work scope; use of innovative and alternative technologies and techniques that result in cleanups being performed less expensively, more quickly, and within quality parameters; and performing within benchmark cost estimates.

''(c) CONSULTATION.—In implementing this section, the Secretary shall consult with interested parties.

''(d) DEADLINE.—The Secretary shall implement this section not later than October 1, 1997, unless the Secretary submits to Congress before that date a report with a schedule for completion of action under this section.

''SEC. 3177. DESIGNATION OF COVERED FACILITIES AS ENVIRONMENTAL CLEANUP DEMONSTRATION AREAS.

''(a) DESIGNATION.—Each defense nuclear facility is hereby designated as an environmental cleanup demonstration area to carry out the purposes of this subtitle, including the utilization and evaluation of new technologies to be used in environmental restoration and remediation at other defense nuclear facilities.

''(b) SENSE OF CONGRESS.—It is the sense of Congress that Federal and State regulatory agencies, members of the communities surrounding any defense nuclear facility, and other affected parties with respect to the facility should continue to—

''(1) develop expedited and streamlined processes and systems for cleaning up such facility;

''(2) eliminate unnecessary administrative complexity and unnecessary duplication of regulation with respect to the cleanup of such facility;

''(3) proceed expeditiously and cost-effectively with environmental restoration and remediation activities at such facility;

''(4) consider future land use in selecting environmental cleanup remedies at such facility; and

''(5) identify and recommend to Congress changes in law needed to expedite the cleanup of such facility.

''SEC. 3178. DEFINITIONS.

''In this subtitle:

''(1) The term 'Secretary' means the Secretary of Energy.

''(2) The term 'Department' means the Department of Energy.

''(3) The term 'defense nuclear facility' has the meaning given the term 'Department of Energy defense nuclear facility' in section 318 of the Atomic Energy Act of 1954 (42 U.S.C. 2286g).

''SEC. 3179. TERMINATION.

''This subtitle is repealed effective September 30, 2001.

''SEC. 3180. REPORT.

''Not later than September 30, 2000, the Secretary shall submit to Congress a report on the effectiveness of this subtitle in expediting environmental restoration and waste management of defense nuclear facilities. The report shall include recommendations on whether this subtitle should remain in effect beyond September 30, 2001.''

ACCELERATED SCHEDULE FOR ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT ACTIVITIES

Pub. L. 104–106, div. C, title XXXI, § 3156, Feb. 10, 1996, 110 Stat. 625, provided that:

''(a) ACCELERATED CLEANUP.—The Secretary of Energy shall accelerate the schedule for environmental restoration and waste management activities and projects for a site at a Department of Energy defense nuclear facility if the Secretary determines that such an accelerated schedule will achieve meaningful, long-term cost savings to the Federal Government and could substantially accelerate the release of land for local reuse.

''(b) CONSIDERATION OF FACTORS.—In making a determination under subsection (a), the Secretary shall consider the following:

''(1) The cost savings achievable by the Federal Government.

''(2) The amount of time for completion of environmental restoration and waste management activities and projects at the site that can be reduced from the time specified for completion of such activities and projects in the baseline environmental management report required to be submitted for 1995 under section 3153 of the National Defense Authorization Act for Fiscal Year 1994 (42 U.S.C. 7274k).

''(3) The potential for reuse of the site.

''(4) The risks that the site poses to local health and safety.

''(5) The proximity of the site to populated areas.

''(c) REPORT.—Not later than May 1, 1996, the Secretary shall submit to Congress a report on each site for which the Secretary has accelerated the schedule for environmental restoration and waste management activities and projects under subsection (a). The report shall include an explanation of the basis for the determination for that site required by such subsection, including an explanation of the consideration of the factors described in subsection (b).

''(d) SAVINGS PROVISION.—Nothing in this section may be construed to affect a specific statutory requirement for a specific environmental restoration or waste management activity or project or to modify or otherwise affect applicable statutory or regulatory environmental restoration and waste management requirements, including substantive standards intended to protect public health and the environment.''

§ 7274*l*. Authority to transfer certain Department of Energy property

(a) Authority to transfer

(1) Notwithstanding any other provision of law, the Secretary of Energy may transfer, for consideration, all right, title, and interest of the United States in and to the property referred to in subsection (b) of this section to any person if the Secretary determines that such transfer will mitigate the adverse economic consequences that might otherwise arise from the closure of a Department of Energy facility.

(2) The amount of consideration received by the United States for a transfer under paragraph (1) may be less than the fair market value of the property transferred if the Secretary determines that the receipt of such lesser amount by the United States is in accordance with the purpose of such transfer under this section.

(3) The Secretary may require any additional terms and conditions with respect to a transfer of property under paragraph (1) that the Secretary determines appropriate to protect the interests of the United States.

(b) Covered property

Property referred to in subsection (a) of this section is the following property of the Department of Energy that is located at a Department of Energy facility to be closed or reconfigured:

(1) The personal property and equipment at the facility that the Secretary determines to be excess to the needs of the Department of Energy.

(2) Any personal property and equipment at the facility (other than the property and equipment referred to in paragraph (1)) the replacement cost of which does not exceed an amount equal to 110 percent of the costs of relocating the property or equipment to another facility of the Department of Energy.

(Pub. L. 103–160, div. C, title XXXI, § 3155, Nov. 30, 1993, 107 Stat. 1953.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1994, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7274m. Safety oversight and enforcement at defense nuclear facilities

(a) Safety at defense nuclear facilities

The Secretary of Energy shall take appropriate actions to ensure that—

(1) officials of the Department of Energy who are responsible for independent oversight of matters relating to nuclear safety at defense nuclear facilities and enforcement of nuclear safety standards at such facilities maintain independence from officials who are engaged in, or who are advising persons who are engaged in, management of such facilities;

(2) the independent, internal oversight functions carried out by the Department include activities relating to—

(A) the assessment of the safety of defense nuclear facilities;

(B) the assessment of the effectiveness of Department program offices in carrying out programs relating to the environment, safety, health, and security at defense nuclear facilities;

(C) the provision to the Secretary of oversight reports that—

(i) contain validated technical information; and

(ii) provide a clear analysis of the extent to which line programs governing defense nuclear facilities meet applicable goals for the environment, safety, health, and security at such facilities; and

(D) the development of clear performance standards to be used in assessing the adequacy of the programs referred to in subparagraph (C)(ii);

(3) the Department has a system for bringing issues relating to nuclear safety at defense nuclear facilities to the attention of the officials of the Department (including the Secretary of Energy) who have authority to resolve such issues in an adequate and timely manner; and

(4) an adequate number of qualified personnel of the Department are assigned to oversee matters relating to nuclear safety at defense nuclear facilities and enforce nuclear safety standards at such facilities.

(b) Report

Not later than 90 days after October 5, 1994, the Secretary shall submit to Congress a report describing the following:

(1) The actions that the Secretary has taken or will take to fulfill the requirements set forth in paragraphs (1), (2), and (3) of subsection (a) of this section.

(2) The actions in addition to the actions described under paragraph (1) that the Secretary could take in order to fulfill such requirements.

(3) The respective roles with regard to nuclear safety at defense nuclear facilities of the following officials:

(A) The Associate Deputy Secretary of Energy for Field Management.

(B) The Assistant Secretary of Energy for Defense Programs.

(C) The Assistant Secretary of Energy for Environmental Restoration and Waste Management.

(Pub. L. 103–337, div. C, title XXXI, § 3163, Oct. 5, 1994, 108 Stat. 3097.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1995, and not as part of the Department of Energy Organization Act which comprises this chapter.

REPORT AND PLAN FOR EXTERNAL OVERSIGHT OF NATIONAL LABORATORIES

Pub. L. 105–85, div. C, title XXXI, § 3154, Nov. 18, 1997, 111 Stat. 2044, directed Secretary of Energy to submit to Congress, not later than July 1, 1999, a report on the external oversight of the Lawrence Livermore National Laboratory, Livermore, California, the Los Alamos National Laboratory, Los Alamos, New Mexico, and the Sandia National Laboratories, Albuquerque, New Mexico.

SUBMITTAL OF ANNUAL REPORT ON STATUS OF SECURITY FUNCTIONS AT NUCLEAR WEAPONS FACILITIES

Pub. L. 105–85, div. C, title XXXI, § 3162, Nov. 18, 1997, 111 Stat. 2049, as amended by Pub. L. 106–65, div. C, title XXXI, § 3142(h)(2), Oct. 5, 1999, 113 Stat. 934, provided that: ''Not later than September 1 each year, the Secretary of Energy shall submit to the congressional defense committees [Committees on Armed Services and Appropriations of Senate and House of Representatives] the report entitled 'Annual Report to the President on the Status of Safeguards and Security of Domestic Nuclear Weapons Facilities', or any successor report to such report.''

§ 7274n. Projects to accelerate closure activities at defense nuclear facilities

(a) In general

The Secretary of Energy shall select and carry out closure-acceleration projects in accordance with this section.

(b) Purpose

The purpose of a closure-acceleration project shall be, within a fixed period of time, to clean up or decommission a Department of Energy defense nuclear facility or portion thereof and to make the facility safe by stabilizing, consolidating, treating, or removing nuclear materials from the facility in order to reduce significantly or eliminate future costs at the facility.

(c) Eligible projects

(1) The Secretary of Energy may establish a closure-acceleration project as eligible for selection under subsection (e) of this section by—

(A) developing a plan for the project that meets the criteria under paragraph (2); and

(B) determining that the project will achieve significant long-term cost savings to the Federal Government from the baseline cost estimate made by the Department of Energy for the project.

(2) A plan for a closure-acceleration project under this section shall—

(A) define a clear, delineated scope of work for completion of the project;

(B) demonstrate that, with respect to the site of the proposed project, there is a regulatory agreement between the Department of Energy and other appropriate authorities for the implementation of environmental remediation requirements that would allow for successful completion of the project;

(C) demonstrate, to the maximum extent possible, the support of State and local elected officials and the public for the project;

(D) contain performance-based provisions to be included in the contract for the project, including—

(i) clearly stated and results-oriented performance criteria and measures;

(ii) appropriate incentives for the contractor to meet and exceed the performance criteria effectively and efficiently;

(iii) appropriate criteria and incentives for the contractor to seek and engage subcontractors who may more effectively and efficiently perform either unique and technologically challenging tasks or routine and interchangeable services;

(iv) specific incentives for cost savings;

(v) financial accountability; and

(vi) when appropriate, reduction of fee for failure to meet minimum performance criteria and standards;

(E) demonstrate that the project will use new and innovative cleanup and waste management technology with potential for application to other locations and facilities without requiring the development of new technologies; and

(F) demonstrate that the project can be completed within 10 years from the date of its selection.

(d) Program administration

The Secretary of Energy, acting through the Assistant Secretary for Environmental Management, shall implement a program to carry out the provisions of this section.

(e) Selection of projects

(1) The Secretary of Energy shall select closure-acceleration projects to be carried out under this section from among those projects established as eligible under subsection (c) of this section that will result in the most significant long-term cost savings to the Government and the most significant reduction of imminent risk.

(2) For each project selected, the Secretary shall submit to Congress a report setting forth the reasons why the project was selected, based on the criteria under subsection (c)(2) of this section and paragraph (1) of this subsection.

(f) Multiyear contracts

Notwithstanding section 254c(d) of title 41, the Secretary of Energy may enter into multiyear contracts to carry out projects selected under this section for up to 10 program years.

(g) Funding

(1) In the budget submitted to Congress under section 1105(a) of title 31 each year, the President shall set forth funds for carrying out closure-acceleration projects under this section as

a separate item in the environmental restoration and waste management account of the Department of Energy budget.

(2) Funds appropriated for purposes of carrying out projects under this section shall remain available until expended.

(3) If a closure-acceleration project is being carried out at a defense nuclear facility with funds appropriated for such projects, the Secretary of Energy may not reduce the funds otherwise allocated to that defense nuclear facility for environmental restoration and waste management by reason of the funds being used for the project at that facility.

(4) Funds appropriated for purposes of carrying out projects under this section may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

(h) Annual report

The Secretary of Energy shall submit each year to Congress a report on the status of each closure-acceleration project being carried out under this section. The report shall include, for each such project, the following:

(1) A description of the funding already provided for the project.

(2) A description of the extent of the cleanup, decommissioning, stabilization, consolidation, treatment, or removal activities completed.

(3) A comparison of the actual results of the project to the original proposal and the actual cost of the project to the originally proposed cost.

(4) A description of the funding needed in future fiscal years for completion of the project.

(i) Duration of program

No closure-acceleration project selected under this section may be carried out after the expiration of the 15-year period beginning on September 23, 1996.

(j) Savings provision

Nothing in this section may be construed to affect statutory requirements for an environmental restoration or waste management activity or project or to modify or otherwise affect applicable statutory or regulatory environmental restoration and waste management requirements, including substantive standards intended to protect public health and the environment, nor shall anything in this section be construed to preempt or impair any local land use planning or zoning authority or State authority.

(Pub. L. 104–201, div. C, title XXXI, §3143, Sept. 23, 1996, 110 Stat. 2836.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1997, and not as part of the Department of Energy Organization Act which comprises this chapter.

EMPLOYEE INCENTIVES FOR EMPLOYEES AT CLOSURE PROJECT FACILITIES

Pub. L. 106–398, §1 [div. C, title XXXI, §3136], Oct. 30, 2000, 114 Stat. 1654, 1654A–458, provided that:

''(a) AUTHORITY TO PROVIDE INCENTIVES.—Notwithstanding any other provision of law, the Secretary of Energy may provide to any eligible employee of the Department of Energy one or more of the incentives described in subsection (d).

''(b) ELIGIBLE EMPLOYEES.—An individual is an eligible employee of the Department of Energy for purposes of this section if the individual—

''(1) has worked continuously at a closure facility for at least two years;

''(2) is an employee (as that term is defined in section 2105(a) of title 5, United States Code);

''(3) has a fully satisfactory or equivalent performance rating during the most recent performance period and is not subject to an adverse notice regarding conduct; and

''(4) meets any other requirement or condition under subsection (d) for the incentive which is provided the employee under this section.

''(c) CLOSURE FACILITY DEFINED.—For purposes of this section, the term 'closure facility' means a Department of Energy facility at which the Secretary is carrying out a closure project selected under section 3143 of the National Defense Authorization Act for Fiscal Year 1997 (42 U.S.C. 7274n).

''(d) INCENTIVES.—The incentives that the Secretary may provide under this section are the following:

''(1) The right to accumulate annual leave provided by section 6303 of title 5, United States Code, for use in succeeding years until it totals not more than 90 days, or not more than 720 hours based on a standard work week, at the beginning of the first full biweekly pay period, or corresponding period for an employee who is not paid on the basis of biweekly pay periods, occurring in a year, except that—

''(A) any annual leave that remains unused when an employee transfers to a position in a department or agency of the Federal Government shall be liquidated upon the transfer by payment to the employee of a lump sum for leave in excess of 30 days, or in excess of 240 hours based on a standard work week; and

''(B) upon separation from service, annual leave accumulated under this paragraph shall be treated as any other accumulated annual leave is treated.

''(2) The right to be paid a retention allowance in a lump sum in compliance with paragraphs (1) and (2) of section 5754(b) of title 5, United States Code, if the employee meets the requirements of section 5754(a) of that title, except that the retention allowance may exceed 25 percent, but may not be more than 30 percent, of the employee's rate of basic pay.

''(e) AGREEMENT.—An eligible employee of the Department of Energy provided an incentive under this section shall enter into an agreement with the Secretary to remain employed at the closure facility at which the employee is employed as of the date of the agreement until a specific date or for a specific period of time.

''(f) VIOLATION OF AGREEMENT.—(1) Except as provided under paragraph (3), an eligible employee of the Department of Energy who violates an agreement under subsection (e), or is dismissed for cause, shall forfeit eligibility for any incentives under this section as of the date of the violation or dismissal, as the case may be.

''(2) Except as provided under paragraph (3), an eligible employee of the Department of Energy who is paid a retention allowance under subsection (d)(2) and who violates an agreement under subsection (e), or is dismissed for cause, before the end of the period or date of employment agreed upon under such agreement shall refund to the United States an amount that bears the same ratio to the aggregate amount so paid to or received by the employee as the unserved part of such employment bears to the total period of employment agreed upon under such agreement.

''(3) The Secretary may waive the applicability of paragraph (1) or (2) to an employee otherwise covered by such paragraph if the Secretary determines that there is good and sufficient reason for the waiver.

''(g) REPORT.—The Secretary shall include in each report on a closure project under section 3143(h) of the

National Defense Authorization Act for Fiscal Year 1997 [42 U.S.C. 7274n(h)] a report on the incentives, if any, provided under this section with respect to the project for the period covered by such report.

''(h) AUTHORITY WITH RESPECT TO HEALTH COVERAGE.—[Amended section 8905a of Title 5, Government Organization and Employees.]

''(i) AUTHORITY WITH RESPECT TO VOLUNTARY SEPARATIONS.—(1) The Secretary may—

''(A) separate from service any employee at a Department of Energy facility at which the Secretary is carrying out a closure project selected under section 3143 of the National Defense Authorization Act for Fiscal Year 1997 (42 U.S.C. 7274n) who volunteers to be separated under this subparagraph even though the employee is not otherwise subject to separation due to a reduction in force; and

''(B) for each employee voluntarily separated under subparagraph (A), retain an employee in a similar position who would otherwise be separated due to a reduction in force.

''(2) The separation of an employee under paragraph (1)(A) shall be treated as an involuntary separation due to a reduction in force.

''(3) An employee with critical knowledge and skills (as defined by the Secretary) may not participate in a voluntary separation under paragraph (1)(A) if the Secretary determines that such participation would impair the performance of the mission of the Department of Energy.

''(j) TERMINATION.—The authority to provide incentives under this section terminates on March 31, 2007.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 5 section 8905a.

§ 7274*o*. Reports on critical difficulties at nuclear weapons laboratories and nuclear weapons production plants

(a) Reports by heads of laboratories and plants

In the event of a difficulty at a nuclear weapons laboratory or a nuclear weapons production plant that has a significant bearing on confidence in the safety or reliability of a nuclear weapon or nuclear weapon type, the head of the laboratory or plant, as the case may be, shall submit to the Assistant Secretary of Energy for Defense Programs a report on the difficulty. The head of the laboratory or plant shall submit the report as soon as practicable after discovery of the difficulty.

(b) Transmittal by Assistant Secretary

Not later than 10 days after receipt of a report under subsection (a) of this section, the Assistant Secretary shall transmit the report (together with the comments of the Assistant Secretary) to the congressional defense committees, to the Secretary of Energy and the Secretary of Defense, and to the President.

(c) Omitted

(d) Inclusion of reports in annual stockpile certification

Any report submitted pursuant to subsection (a) of this section shall also be included with the decision documents that accompany the annual certification of the safety and reliability of the United States nuclear weapons stockpile which is provided to the President for the year in which such report is submitted.

(e) Definitions

In this section:

(1) The term ''nuclear weapons laboratory'' means the following:

(A) Lawrence Livermore National Laboratory, California.

(B) Los Alamos National Laboratory, New Mexico.

(C) Sandia National Laboratories.

(2) The term ''nuclear weapons production plant'' means the following:

(A) The Pantex Plant, Texas.

(B) The Savannah River Site, South Carolina.

(C) The Kansas City Plant, Missouri.

(D) The Y–12 Plant, Oak Ridge, Tennessee.

(Pub. L. 104–201, div. C, title XXXI, § 3159, Sept. 23, 1996, 110 Stat. 2842; Pub. L. 105–85, div. A, title XIII, § 1305(c), (d), Nov. 18, 1997, 111 Stat. 1954; Pub. L. 106–65, div. C, title XXXI, § 3163(f), Oct. 5, 1999, 113 Stat. 946.)

CODIFICATION

Section is comprised of section 3159 of Pub. L. 104–201. Subsec. (c) of section 3159 of Pub. L. 104–201 amended section 179 of Title 10, Armed Forces.

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1997, and not as part of the Department of Energy Organization Act which comprises this chapter.

AMENDMENTS

1999—Subsecs. (d), (e). Pub. L. 106–65 added subsec. (d) and redesignated former subsec. (d) as (e).

1997—Subsec. (b). Pub. L. 105–85 substituted ''Not later than 10 days'' for ''As soon as practicable'' and ''committees,'' for ''committees and'' and inserted before period at end '', and to the President''.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the advanced scientific computing research program and activities at Lawrence Livermore National Laboratory, including the functions of the Secretary of Energy relating thereto, to the Secretary of Homeland Security, see sections 183(1), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

All national security functions and activities performed immediately before Oct. 5, 1999, by nuclear weapons laboratories and production facilities defined in this section, transferred to the Administrator for Nuclear Security of the National Nuclear Security Administration of the Department of Energy, see section 2481 of Title 50, War and National Defense.

''CONGRESSIONAL DEFENSE COMMITTEES'' DEFINED

Congressional defense committees means the Committees on Armed Services and Appropriations of the Senate and the House of Representatives, see section 3 of Pub. L. 104–201, 110 Stat. 2439, as amended by Pub. L. 106–65, div. A, title X, § 1067(5), Oct. 5, 1999, 113 Stat. 774.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7274p of this title.

§ 7274p. Advice to President and Congress regarding safety, security, and reliability of United States nuclear weapons stockpile

(a) Findings

Congress makes the following findings:

(1) Nuclear weapons are the most destructive weapons on earth. The United States and its

allies continue to rely on nuclear weapons to deter potential adversaries from using weapons of mass destruction. The safety and reliability of the nuclear weapons stockpile are essential to ensure its credibility as a deterrent.

(2) On September 24, 1996, President Clinton signed the Comprehensive Test Ban Treaty.

(3) Effective as of September 30, 1996, the United States is prohibited by section 507 of the Energy and Water Development Appropriations Act, 1993 (Public Law 102–377; 42 U.S.C. 2121 note) from conducting underground nuclear tests ''unless a foreign state conducts a nuclear test after this date, at which time the prohibition on United States nuclear testing is lifted''.

(4) Section 1436(b) of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100–456; 42 U.S.C. 2121 note) requires the Secretary of Energy to ''establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive test ban on nuclear explosive testing is negotiated and ratified.''.

(5) Section 3138(d) of the National Defense Authorization Act for Fiscal Year 1994[1] (Public Law 103–160; 42 U.S.C. 2121 note) required the President to submit an annual report to Congress which sets forth ''any concerns with respect to the safety, security, effectiveness, or reliability of existing United States nuclear weapons raised by the Stockpile Stewardship Program of the Department of Energy''.

(6) President Clinton declared in July 1993 that ''to assure that our nuclear deterrent remains unquestioned under a test ban, we will explore other means of maintaining our confidence in the safety, reliability, and the performance of our weapons''. This decision was incorporated in a Presidential Directive.

(7) Section 3138 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 42 U.S.C. 2121 note) also requires that the Secretary of Energy establish a ''stewardship program to ensure the preservation of the core intellectual and technical competencies of the United States in nuclear weapons''.

(8) The plan of the Department of Energy to maintain the safety and reliability of the United States nuclear weapons stockpile is known as the Stockpile Stewardship and Management Program. The ability of the United States to maintain and certify the safety, security, effectiveness, and reliability of the nuclear weapons stockpile without testing will require utilization of new and sophisticated computational capabilities and diagnostic technologies, methods, and procedures. Current diagnostic technologies and laboratory testing techniques are insufficient to certify the safety and reliability of the United States nuclear weapons stockpile into the future. Whereas in the past laboratory and diagnostic tools were used in conjunction with nuclear testing, in the future they will provide, under the Department of Energy's stockpile stewardship plan, the sole basis for assessing past test data and for making judgments on phenomena observed in connection with the aging of the stockpile.

(9) Section 7274*o* of this title requires that the directors of the nuclear weapons laboratories and the nuclear weapons production plants submit a report to the Assistant Secretary of Energy for Defense Programs if they identify a problem that has significant bearing on confidence in the safety or reliability of a nuclear weapon or nuclear weapon type, that the Assistant Secretary must transmit that report, along with any comments, to the congressional defense committees and to the Secretary of Energy and the Secretary of Defense, and that the Joint Nuclear Weapons Council advise Congress regarding its analysis of any such problems.

(10) On August 11, 1995, President Clinton directed ''the establishment of a new annual reporting and certification requirement [to] ensure that our nuclear weapons remain safe and reliable under a comprehensive test ban''.

(11) On the same day, the President noted that the Secretary of Defense and the Secretary of Energy have the responsibility, after being ''advised by the Nuclear Weapons Council, the Directors of DOE's nuclear weapons laboratories, and the Commander of United States Strategic Command'', to provide the President with the information regarding the certification referred to in paragraph (10).

(12) The Joint Nuclear Weapons Council established by section 179 of title 10 is responsible for providing advice to the Secretary of Energy and the Secretary of Defense regarding nuclear weapons issues, including ''considering safety, security, and control issues for existing weapons''. The Council plays a critical role in advising Congress in matters relating to nuclear weapons.

(13) It is essential that the President receive well-informed, objective, and honest opinions, including dissenting views, from his advisers and technical experts regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(b) Policy

(1) In general

It is the policy of the United States—

(A) to maintain a safe, secure, effective, and reliable nuclear weapons stockpile; and

(B) as long as other nations control or actively seek to acquire nuclear weapons, to retain a credible nuclear deterrent.

(2) Nuclear weapons stockpile

It is in the security interest of the United States to sustain the United States nuclear weapons stockpile through a program of stockpile stewardship, carried out at the nuclear weapons laboratories and nuclear weapons production plants.

(3) Sense of Congress

It is the sense of Congress that—

(A) the United States should retain a triad of strategic nuclear forces sufficient to deter

[1] See References in Text note below.

any future hostile foreign leadership with access to strategic nuclear forces from acting against the vital interests of the United States;

(B) the United States should continue to maintain nuclear forces of sufficient size and capability to implement an effective and robust deterrent strategy; and

(C) the advice of the persons required to provide the President and Congress with assurances of the safety, security, effectiveness, and reliability of the nuclear weapons force should be scientifically based, without regard for politics, and of the highest quality and integrity.

(c), (d) Omitted

(e) Advice and opinions regarding nuclear weapons stockpile

In addition to a director of a nuclear weapons laboratory or a nuclear weapons production plant (under section 7274*o* of this title), any member of the Joint Nuclear Weapons Council or the commander of the United States Strategic Command may also submit to the President, the Secretary of Defense, the Secretary of Energy, or the congressional defense committees advice or opinion regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(f) Expression of individual views

A representative of the President may not take any action against, or otherwise constrain, a director of a nuclear weapons laboratory or a nuclear weapons production plant, a member of the Joint Nuclear Weapons Council, or the Commander of United States Strategic Command for presenting individual views to the President, the National Security Council, or Congress regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(g) Definitions

In this section:

(1) The term ''representative of the President'' means the following:

(A) Any official of the Department of Defense or the Department of Energy who is appointed by the President and confirmed by the Senate.

(B) Any member of the National Security Council.

(C) Any member of the Joint Chiefs of Staff.

(D) Any official of the Office of Management and Budget.

(2) The term ''nuclear weapons laboratory'' means any of the following:

(A) Lawrence Livermore National Laboratory, California.

(B) Los Alamos National Laboratory, New Mexico.

(C) Sandia National Laboratories.

(3) The term ''nuclear weapons production plant'' means any of the following:

(A) The Pantex Plant, Texas.

(B) The Savannah River Site, South Carolina.

(C) The Kansas City Plant, Missouri.

(D) The Y–12 Plant, Oak Ridge, Tennessee.

(Pub. L. 105–85, div. A, title XIII, § 1305, Nov. 18, 1997, 111 Stat. 1952.)

REFERENCES IN TEXT

Section 3138(d) of the National Defense Authorization Act for Fiscal Year 1994, referred to in subsec. (a)(5), was repealed by Pub. L. 105–85, div. C, title XXXI, § 3152(e)(1), Nov. 18, 1997, 111 Stat. 2042.

CODIFICATION

Section is comprised of section 1305 of Pub. L. 105–85. Subsecs. (c) and (d) of section 1305 of Pub. L. 105–85 amended section 7274*o* of this title.

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1998, and not as part of the Department of Energy Organization Act which comprises this chapter.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the advanced scientific computing research program and activities at Lawrence Livermore National Laboratory, including the functions of the Secretary of Energy relating thereto, to the Secretary of Homeland Security, see sections 183(1), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

All national security functions and activities performed immediately before Oct. 5, 1999, by nuclear weapons laboratories and production plants defined in this section, transferred to the Administrator for Nuclear Security of the National Nuclear Security Administration of the Department of Energy, see section 2481 of Title 50, War and National Defense.

''CONGRESSIONAL DEFENSE COMMITTEES'' DEFINED

Congressional defense committees means the Committees on Armed Services and Appropriations of the Senate and the House of Representatives, see section 3 of Pub. L. 105–85, 111 Stat. 1645, as amended by Pub. L. 106–65, div. A, title X, § 1067(4), Oct. 5, 1999, 113 Stat. 774.

§ 7274q. Transfers of real property at certain Department of Energy facilities

(a) Transfer regulations

(1) The Secretary of Energy shall prescribe regulations for the transfer by sale or lease of real property at Department of Energy defense nuclear facilities for the purpose of permitting the economic development of the property.

(2) The Secretary of Energy may not transfer real property under the regulations prescribed under paragraph (1) until—

(A) the Secretary submits a notification of the proposed transfer to the congressional defense committees; and

(B) a period of 30 days has elapsed following the date on which the notification is submitted.

(b) Indemnification

(1) Except as provided in paragraph (3) and subject to subsection (c) of this section, in the sale or lease of real property pursuant to the regulations prescribed under subsection (a) of this section, the Secretary of Energy may hold harmless and indemnify a person or entity described in paragraph (2) against any claim for injury to person or property that results from the release or threatened release of a hazardous substance or pollutant or contaminant as a re-

sult of Department of Energy activities at the defense nuclear facility on which the real property is located. Before entering into any agreement for such a sale or lease, the Secretary shall notify the person or entity that the Secretary has authority to provide indemnification to the person or entity under this subsection. The Secretary shall include in any agreement for such a sale or lease a provision stating whether indemnification is or is not provided.

(2) Paragraph (1) applies to the following persons and entities:

(A) Any State that acquires ownership or control of real property of a defense nuclear facility.

(B) Any political subdivision of a State that acquires such ownership or control.

(C) Any other person or entity that acquires such ownership or control.

(3) To the extent the persons and entities described in paragraph (2) contributed to any such release or threatened release, paragraph (1) shall not apply.

(c) Conditions

(1) No indemnification on a claim for injury may be provided under this section unless the person or entity making a request for the indemnification—

(A) notifies the Secretary of Energy in writing within two years after such claim accrues;

(B) furnishes to the Secretary copies of pertinent papers received by the person or entity;

(C) furnishes evidence or proof of the claim;

(D) provides, upon request by the Secretary, access to the records and personnel of the person or entity for purposes of defending or settling the claim; and

(E) begins action within six months after the date of mailing, by certified or registered mail, of notice of final denial of the claim by the Secretary.

(2) For purposes of paragraph (1)(A), the date on which a claim accrues is the date on which the person asserting the claim knew (or reasonably should have known) that the injury to person or property referred to in subsection (b)(1) of this section was caused or contributed to by the release or threatened release of a hazardous substance, pollutant, or contaminant as a result of Department of Energy activities at the defense nuclear facility on which the real property is located.

(d) Authority of Secretary of Energy

(1) In any case in which the Secretary of Energy determines that the Secretary may be required to indemnify a person or entity under this section for any claim for injury to person or property referred to in subsection (b)(1) of this section, the Secretary may settle or defend the claim on behalf of that person or entity.

(2) In any case described in paragraph (1), if the person or entity that the Secretary may be required to indemnify does not allow the Secretary to settle or defend the claim, the person or entity may not be indemnified with respect to that claim under this section.

(e) Relationship to other law

Nothing in this section shall be construed as affecting or modifying in any way section 9620(h) of this title.

(f) Definitions

In this section:

(1) The term ''defense nuclear facility'' has the meaning provided by the term ''Department of Energy defense nuclear facility'' in section 2286g of this title.

(2) The terms ''hazardous substance'', ''release'', and ''pollutant or contaminant'' have the meanings provided by section 9601 of this title.

(Pub. L. 105–85, div. C, title XXXI, §3158, Nov. 18, 1997, 111 Stat. 2046.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 1998, and not as part of the Department of Energy Organization Act which comprises this chapter.

''CONGRESSIONAL DEFENSE COMMITTEES'' DEFINED

Congressional defense committees means the Committees on Armed Services and Appropriations of the Senate and the House of Representatives, see section 3 of Pub. L. 105–85, 111 Stat. 1645, as amended by Pub. L. 106–65, div. A, title X, §1067(4), Oct. 5, 1999, 113 Stat. 774.

§ 7274r. Research, development, and demonstration activities with respect to engineering and manufacturing capabilities at covered nuclear weapons production plants

The Administrator of the National Nuclear Security Administration may authorize the plant manager of a covered nuclear weapons production plant to engage in research, development, and demonstration activities with respect to the engineering and manufacturing capabilities at such plant in order to maintain and enhance such capabilities at such plant: *Provided*, That of the amount allocated to a covered nuclear weapons production plant each fiscal year from amounts available to the Department of Energy for such fiscal year for national security programs, not more than an amount equal to 2 percent of such amount may be used for these activities: *Provided further*, That for purposes of this section, the term ''covered nuclear weapons production plant'' means the following:

(1) the Kansas City Plant, Kansas City, Missouri;

(2) the Y–12 Plant, Oak Ridge, Tennessee;

(3) the Pantex Plant, Amarillo, Texas; and

(4) the Savannah River Plant, South Carolina.

(Pub. L. 107–66, title III, §309, Nov. 12, 2001, 115 Stat. 509.)

CODIFICATION

Section was enacted as part of the Energy and Water Development Appropriations Act, 2002, and not as part of the Department of Energy Organization Act which comprises this chapter.

SIMILAR PROVISIONS

Provisions similar to those in this section were contained in the following prior appropriation act:

Pub. L. 106–377, §1(a)(2) [title III, §310], Oct. 27, 2000, 114 Stat. 1441, 1441A–80.

ENGINEERING AND MANUFACTURING RESEARCH, DEVELOPMENT, AND DEMONSTRATION BY PLANT MANAGERS OF CERTAIN NUCLEAR WEAPONS PRODUCTION PLANTS

Pub. L. 106–398, §1 [div. C, title XXXI, §3156], Oct. 30, 2000, 114 Stat. 1654, 1654A–467, provided that:

''(a) AUTHORITY FOR PROGRAMS AT NUCLEAR WEAPONS PRODUCTIONS FACILITIES.—The Administrator for Nuclear Security shall authorize the head of each nuclear weapons production facility to establish an Engineering and Manufacturing Research, Development, and Demonstration Program under this section.

''(b) PROJECTS AND ACTIVITIES.—The projects and activities carried out through the program at a nuclear weapons production facility under this section shall support innovative or high-risk design and manufacturing concepts and technologies with potentially high payoff for the nuclear weapons complex. Those projects and activities may include—

''(1) replacement of obsolete or aging design and manufacturing technologies;

''(2) development of innovative agile manufacturing techniques and processes; and

''(3) training, recruitment, or retention of essential personnel in critical engineering and manufacturing disciplines.

''(c) FUNDING.—The Administrator may authorize the head of each nuclear weapons production facility to obligate up to $3,000,000 of funds within the Advanced Design and Production Technologies Campaign available for such facility during fiscal year 2001 to carry out projects and activities of the program under this section at that facility.

''(d) REPORT.—The Administrator for Nuclear Security shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives, not later than September 15, 2001, a report describing, for each nuclear weapons production facility, each project or activity for which funds were obligated under the program, the criteria used in the selection of each such project or activity, the potential benefits of each such project or activity, and the Administrator's recommendation concerning whether the program should be continued.

''(e) DEFINITION.—For purposes of this section, the term 'nuclear weapons production facility' has the meaning given that term in section 3281(2) of the National Nuclear Security Administration Act (title XXXII of Public Law 106–65; 113 Stat. 968; 50 U.S.C. 2471(2)).''

§ 7274s. Annual assessments and reports to the President and Congress regarding the condition of the United States nuclear weapons stockpile

(a) Annual assessments required

For each nuclear weapon type in the stockpile of the United States, each official specified in subsection (b) of this section on an annual basis shall, to the extent such official is directly responsible for the safety, reliability, performance, or military effectiveness of that nuclear weapon type, complete an assessment of the safety, reliability, performance, or military effectiveness (as the case may be) of that nuclear weapon type.

(b) Covered officials

The officials referred to in subsection (a) of this section are the following:

(1) The head of each national security laboratory.

(2) The commander of the United States Strategic Command.

(c) Use of teams of experts for assessments

The head of each national security laboratory shall establish and use one or more teams of experts, known as ''red teams'', to assist in the assessments required by subsection (a) of this section. Each such team shall include experts from both of the other national security laboratories. Each such team for a national security laboratory shall—

(1) review the matters covered by the assessments under subsection (a) of this section performed by the head of that laboratory;

(2) subject such matters to challenge; and

(3) submit the results of such review and challenge, together with the findings and recommendations of such team with respect to such review and challenge, to the head of that laboratory.

(d) Report on assessments

Not later than December 1 of each year, each official specified in subsection (b) of this section shall submit to the Secretary concerned, and to the Nuclear Weapons Council, a report on the assessments that such official was required by subsection (a) of this section to complete. The report shall include the following:

(1) The results of each such assessment.

(2)(A) Such official's determination as to whether or not one or more underground nuclear tests are necessary to resolve any issues identified in the assessments and, if so—

(i) an identification of the specific underground nuclear tests that are necessary to resolve such issues; and

(ii) a discussion of why options other than an underground nuclear test are not available or would not resolve such issues.

(B) An identification of the specific underground nuclear tests which, while not necessary, might have value in resolving any such issues and a discussion of the anticipated value of conducting such tests.

(C) Such official's determination as to the readiness of the United States to conduct the underground nuclear tests identified under subparagraphs (A)(i) and (B), if directed by the President to do so.

(3) In the case of a report submitted by the head of a national security laboratory—

(A) a concise statement regarding the adequacy of the science-based tools and methods being used to determine the matters covered by the assessments;

(B) a concise statement regarding the adequacy of the tools and methods employed by the manufacturing infrastructure required by section 3137 of the National Defense Authorization Act for Fiscal Year 1996 (42 U.S.C. 2121 note) to identify and fix any inadequacy with respect to the matters covered by the assessments; and

(C) a concise summary of the findings and recommendations of any teams under subsection (c) of this section that relate to the assessments, together with a discussion of those findings and recommendations.

(4) In the case of a report submitted by the Commander of the United States Strategic Command, a discussion of the relative merits of other nuclear weapon types (if any), or compensatory measures (if any) that could be taken, that could enable accomplishment of the missions of the nuclear weapon types to which the assessments relate, should such assessments identify any deficiency with respect to such nuclear weapon types.

(5) An identification and discussion of any matter having an adverse effect on the capability of the official submitting the report to accurately determine the matters covered by the assessments.

(e) Submittals to the President and Congress

(1) Not later than March 1 of each year, the Secretary of Defense and the Secretary of Energy shall submit to the President—

(A) each report, without change, submitted to either Secretary under subsection (d) of this section during the preceding year;

(B) any comments that the Secretaries individually or jointly consider appropriate with respect to each such report;

(C) the conclusions that the Secretaries individually or jointly reach as to the safety, reliability, performance, and military effectiveness of the nuclear weapons stockpile of the United States; and

(D) any other information that the Secretaries individually or jointly consider appropriate.

(2) Not later than March 15 of each year, the President shall forward to Congress the matters received by the President under paragraph (1) for that year, together with any comments the President considers appropriate.

(f) Classified form

Each submittal under subsection (e) of this section shall be in classified form only, with the classification level required for each portion of such submittal marked appropriately.

(g) Definitions

In this section:

(1) The term ''national security laboratory'' has the meaning given such term in section 2471 of title 50.

(2) The term ''Secretary concerned'' means—

(A) the Secretary of Energy, with respect to matters concerning the Department of Energy; and

(B) the Secretary of Defense, with respect to matters concerning the Department of Defense.

(h) First submissions

(1) The first submissions made under subsection (d) of this section shall be the submissions required to be made in 2003.

(2) The first submissions made under subsection (e) of this section shall be the submissions required to be made in 2004.

(Pub. L. 107–314, div. C, title XXXI, § 3141, Dec. 2, 2002, 116 Stat. 2730.)

REFERENCES IN TEXT

Section 3137 of the National Defense Authorization Act for Fiscal Year 1996, referred to in subsec. (d)(3)(B), is section 3137 of Pub. L. 104–106, which is set out as a note under section 2121 of this title.

CODIFICATION

Section was enacted as part of the Bob Stump National Defense Authorization Act for Fiscal Year 2003, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7275. Definitions

As used in sections 7275 to 7276c of this title:

(1) The term ''Administrator'' means the Administrator of the Western Area Power Administration.

(2) The term ''integrated resource planning'' means a planning process for new energy resources that evaluates the full range of alternatives, including new generating capacity, power purchases, energy conservation and efficiency, cogeneration and district heating and cooling applications, and renewable energy resources, in order to provide adequate and reliable service to its electric customers at the lowest system cost. The process shall take into account necessary features for system operation, such as diversity, reliability, dispatchability, and other factors of risk; shall take into account the ability to verify energy savings achieved through energy conservation and efficiency and the projected durability of such savings measured over time; and shall treat demand and supply resources on a consistent and integrated basis.

(3) The term ''least cost option'' means an option for providing reliable electric services to electric customers which will, to the extent practicable, minimize life-cycle system costs, including adverse environmental effects, of providing such service. To the extent practicable, energy efficiency and renewable resources may be given priority in any least-cost option.

(4) The term ''long-term firm power service contract'' means any contract for the sale by Western Area Power Administration of firm capacity, with or without energy, which is to be delivered over a period of more than one year.

(5) The terms ''customer'' or ''customers'' means any entity or entities purchasing firm capacity with or without energy, from the Western Area Power Administration under a long-term firm power service contract. Such terms include parent-type entities and their distribution or user members.

(6) For any customer, the term ''applicable integrated resource plan'' means the integrated resource plan approved by the Administrator under sections 7275 to 7276c of this title for that customer.

(Pub. L. 98–381, title II, § 201, as added Pub. L. 102–486, title I, § 114, Oct. 24, 1992, 106 Stat. 2799.)

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Department of Energy Organization Act which comprises this chapter.

PRIOR PROVISIONS

A prior section 7275, Pub. L. 98–381, title II, § 201, Aug. 17, 1984, 98 Stat. 1340, related to energy conservation program of Western Area Power Administration, prior to the general amendment of title II of Pub. L. 98–381 by section 114 of Pub. L. 102–486.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7276, 7276a, 7276b, 7276c of this title.

§ 7276. Regulations to require integrated resource planning

(a) Regulations

Within 1 year after October 24, 1992, the Administrator shall, by regulation, revise the

Final Amended Guidelines and Acceptance Criteria for Customer Conservation and Renewable Energy Programs published in the Federal Register on August 21, 1985 (50 F.R. 33892), or any subsequent amendments thereto, to require each customer purchasing electric energy under a long-term firm power service contract with the Western Area Power Administration to implement, within 3 years after October 24, 1992, integrated resource planning in accordance with the requirements of sections 7275 to 7276c of this title.

(b) Certain small customers

Notwithstanding subsection (a) of this section, for customers with total annual energy sales or usage of 25 Gigawatt Hours or less which are not members of a joint action agency or a generation and transmission cooperative with power supply responsibility, the Administrator may establish different regulations and apply such regulations to customers that the Administrator finds have limited economic, managerial, and resource capability to conduct integrated resource planning. The regulations under this subsection shall require such customers to consider all reasonable opportunities to meet their future energy service requirements using demand-side techniques, new renewable resources and other programs that will provide retail customers with electricity at the lowest possible cost, and minimize, to the extent practicable, adverse environmental effects.

(Pub. L. 98–381, title II, § 202, as added Pub. L. 102–486, title I, § 114, Oct. 24, 1992, 106 Stat. 2800.)

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Department of Energy Organization Act which comprises this chapter.

PRIOR PROVISIONS

A prior section 7276, Pub. L. 98–381, title II, § 202, Aug. 17, 1984, 98 Stat. 1341, related to regulations of Western Area Power Administration, including amendment of regulations after notice and comment, evaluation of energy conservation programs, and allowance by Western for incorporation of elements of such programs, prior to the general amendment of title II of Pub. L. 98–381 by section 114 of Pub. L. 102–486.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7275, 7276a, 7276b, 7276c of this title.

§ 7276a. Technical assistance

The Administrator may provide technical assistance to customers to, among other things, conduct integrated resource planning, implement applicable integrated resource plans, and otherwise comply with the requirements of sections 7275 to 7276c of this title. Technical assistance may include publications, workshops, conferences, one-to-one assistance, equipment loans, technology and resource assessment studies, marketing studies, and other mechanisms to transfer information on energy efficiency and renewable energy options and programs to customers. The Administrator shall give priority to providing technical assistance to customers that have limited capability to conduct integrated resource planning.

(Pub. L. 98–381, title II, § 203, as added Pub. L. 102–486, title I, § 114, Oct. 24, 1992, 106 Stat. 2800.)

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7275, 7276, 7276b, 7276c of this title.

§ 7276b. Integrated resource plans

(a) Review by Western Area Power Administration

Within 1 year after October 24, 1992, the Administrator shall, by regulation, revise the Final Amended Guidelines and Acceptance Criteria for Customer Conservation and Renewable Energy Programs published in the Federal Register on August 21, 1985 (50 F.R. 33892), or any subsequent amendments thereto, to require each customer to submit an integrated resource plan to the Administrator within 12 months after such regulations are amended. The regulation shall require a revision of such plan to be submitted every 5 years after the initial submission. The Administrator shall review the initial plan in accordance with a schedule established by the Administrator (which schedule will provide for the review of all initial plans within 24 months after such regulations are amended), and each revision thereof within 120 days after his receipt of the plan or revision and determine whether the customer has in the development of the plan or revision, complied with sections 7275 to 7276c of this title. Plan amendments may be submitted to the Administrator at any time and the Administrator shall review each such amendment within 120 days after receipt thereof to determine whether the customer in amending its plan has complied with sections 7275 to 7276c of this title. If the Administrator determines that the customer, in developing its plan, revision, or amendment, has not complied with the requirements of sections 7275 to 7276c of this title, the customer shall resubmit the plan at any time thereafter. Whenever a plan or revision or amendment is resubmitted the Administrator shall review the plan or revision or amendment within 120 days after his receipt thereof to determine whether the customer has complied with sections 7275 to 7276c of this title.

(b) Criteria for approval of integrated resource plans

The Administrator shall approve an integrated resource plan submitted as required under subsection (a) of this section if, in developing the plan, the customer has:

(1) Identified and accurately compared all practicable energy efficiency and energy supply resource options available to the customer.

(2) Included a 2-year action plan and a 5-year action plan which describe specific actions the customer will take to implement its integrated resource plan.

(3) Designated ''least-cost options'' to be utilized by the customer for the purpose of providing reliable electric service to its retail

consumers and explained the reasons why such options were selected.

(4) To the extent practicable, minimized adverse environmental effects of new resource acquisitions.

(5) In preparation and development of the plan (and each revision or amendment of the plan) has provided for full public participation, including participation by governing boards.

(6) Included load forecasting.

(7) Provided methods of validating predicted performance in order to determine whether objectives in the plan are being met.

(8) Met such other criteria as the Administrator shall require.

(c) Use of other integrated resource plans

Where a customer or group of customers are implementing integrated resource planning under a program responding to Federal, State, or other initiatives, including integrated resource planning considered and implemented pursuant to section 2621(d) of title 16, in evaluating that customer's integrated resource plan under sections 7275 to 7276c of this title, the Administrator shall accept such plan as fulfillment of the requirements of sections 7275 to 7276c of this title to the extent such plan substantially complies with the requirements of sections 7275 to 7276c of this title.

(d) Compliance with integrated resource plans

Within 1 year after October 24, 1992, the Administrator shall, by regulation, revise the Final Amended Guidelines and Acceptance Criteria for Customer Conservation and Renewable Energy Programs published in the Federal Register on August 21, 1985 (50 F.R. 33892), or any subsequent amendments thereto, to require each customer to fully comply with the applicable integrated resource plan and submit an annual report to the Administrator (in such form and containing such information as the Administrator may require) describing the customer's progress to the goals established in such plan. After the initial review under subsection (a) of this section the Administrator shall periodically conduct reviews of a representative sample of applicable integrated resource plans and the customer's implementation of the applicable integrated resource plan to determine if the customers are in compliance with their plans. If the Administrator finds a customer out-of-compliance, the Administrator shall impose a surcharge under this section on all electric energy purchased by the customer from the Western Area Power Administration or reduce such customer's power allocation by 10 percent, unless the Administrator finds that a good faith effort has been made to comply with the approved plan.

(e) Enforcement

(1) No approved plan

If an integrated resource plan for any customer is not submitted before the date 12 months after the guidelines are amended as required under this section or if the plan is disapproved by the Administrator and a revised plan is not resubmitted by the date 9 months after the date of such disapproval, the Administrator shall impose a surcharge of 10 percent of the purchase price on all power obtained by that customer from the Western Area Power Administration after such date. The surcharge shall remain in effect until an integrated resource plan is approved for that customer. If the plan is not submitted for more than one year after the required date, the surcharge shall increase to 20 percent for the second year (or any portion thereof prior to approval of the plan) and to 30 percent thereafter until the plan is submitted or the contract for the purchase of power by such customer from the Western Area Power Administration terminates.

(2) Failure to comply with approved plan

After approval by the Administrator of an applicable integrated resource plan for any customer, the Administrator shall impose a 10 percent surcharge on all power purchased by such customer from the Western Area Power Administration whenever the Administrator determines that such customer's activities are not consistent with the applicable integrated resource plan. The surcharge shall remain in effect until the Administrator determines that the customer's activities are consistent with the applicable integrated resource plan. The surcharge shall be increased to 20 percent if the customer's activities are out of compliance for more than one year and to 30 percent after more than 2 years, except that no surcharge shall be imposed if the customer demonstrates, to the satisfaction of the Administrator, that a good faith effort has been made to comply with the approved plan.

(3) Reduction in power allocation

In the case of any customer subject to a surcharge under paragraph (1) or (2), in lieu of imposing such surcharge the Administrator may reduce such customer's power allocation from the Western Area Power Administration by 10 percent. The Administrator shall provide by regulation the terms and conditions under which a power allocation terminated under this subsection may be reinstated.

(f) Integrated resource planning cooperatives

With the approval of the Administrator, customers within any State or region may form integrated resource planning cooperatives for the purposes of complying with sections 7275 to 7276c of this title, and such customers shall be allowed an additional 6 months to submit an initial integrated resource plan to the Administrator.

(g) Customers with more than 1 contract

If more than one long-term firm power service contract exists between the Administrator and a customer, only one integrated resource plan shall be required for that customer under sections 7275 to 7276c of this title.

(h) Program review

Within 1 year after January 1, 1999, and at appropriate intervals thereafter, the Administrator shall initiate a public process to review the program established by this section. The Administrator is authorized at that time to revise the criteria set forth in subsection (b) of this

section to reflect changes, if any, in technology, needs, or other developments.

(Pub. L. 98–381, title II, § 204, as added Pub. L. 102–486, title I, § 114, Oct. 24, 1992, 106 Stat. 2800.)

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7275, 7276, 7276a, 7276c of this title.

§ 7276c. Miscellaneous provisions

(a) Environmental impact statement

The provisions of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] shall apply to actions of the Administrator implementing sections 7275 to 7276c of this title in the same manner and to the same extent as such provisions apply to other major Federal actions significantly affecting the quality of the human environment.

(b) Annual reports

The Administrator shall include in the annual report submitted by the Western Area Power Administration (1) a description of the activities undertaken by the Administrator and by customers under sections 7275 to 7276c of this title and (2) an estimate of the energy savings and renewable resource benefits achieved as a result of such activities.

(c) State regulated investor-owned utilities

Any State regulated electric utility (as defined in section 2602(18) of title 16) shall be exempt from the provisions of sections 7275 to 7276c of this title.

(d) Rural Electrification Administration requirements

Nothing in sections 7275 to 7276c of this title shall require a customer to take any action inconsistent with a requirement imposed by the Rural Electrification Administration [1]

(Pub. L. 98–381, title II, § 205, as added Pub. L. 102–486, title I, § 114, Oct. 24, 1992, 106 Stat. 2803.)

REFERENCES IN TEXT

The National Environmental Policy Act of 1969, referred to in subsec. (a), is Pub. L. 91–190, Jan. 1, 1970, 83 Stat. 852, as amended, which is classified generally to chapter 55 (§ 4321 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of this title and Tables.

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7275, 7276, 7276a, 7276b of this title.

§ 7276d. Property protection program for power marketing administrations

The Administrators of the Western Area Power Administration, the Southwestern Power Administration, and the Southeastern Power Administration may each carry out programs to reduce vandalism, theft, and destruction of property that is under their jurisdiction.

(Pub. L. 107–78, § 1, Nov. 28, 2001, 115 Stat. 808.)

CODIFICATION

Section was not enacted as part of the Department of Energy Organization Act which comprises this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7276e of this title.

§ 7276e. Provision of rewards

In carrying out a program under this section and section 7276d of this title, each Administrator referred to in section 7276d of this title is authorized to provide rewards (including cash rewards) to individuals who provide information or evidence leading to the arrest and prosecution of individuals causing damage to, or loss of, Federal property under their jurisdiction. The amount of any one such reward paid to any individual may not exceed a value of $1,000.

(Pub. L. 107–78, § 2, Nov. 28, 2001, 115 Stat. 808.)

CODIFICATION

Section was not enacted as part of the Department of Energy Organization Act which comprises this chapter.

§ 7277. Report concerning review of United States coal imports

(a) In general

The Energy Information Administration shall issue a report quarterly, and provide an annual summary of the quarterly reports to the Congress, on the status of United States coal imports. Such quarterly reports may be published as a part of the Quarterly Coal Report published by the Energy Information Administration.

(b) Contents

Each report required by this section shall—

(1) include current and previous year data on the quantity, quality (including heating value, sulfur content, and ash content), and delivered price of all coals imported by domestic electric utility plants that imported more than 10,000 tons during the previous calendar year into the United States;

(2) identify the foreign nations exporting the coal, the domestic electric utility plants receiving coal from each exporting nation, the domestically produced coal supplied to such plants, and the domestic coal production, by State, displaced by the imported coal;

(3) identify (to the extent allowed under disclosure policy), at regional and State levels of aggregation, transportation modes and costs for delivery of imported coal from the exporting country port of origin to the point of consumption in the United States; and

(4) specifically highlight and analyze any significant trends of unusual variations in coal imports.

(c) Date of reports

The first report required by this section shall be submitted to Congress in March 1986. Subse-

[1] So in original. Probably should be followed by a period.

quent reports shall be submitted within 90 days after the end of each quarter.

(d) Limitation

Information and data required for the purpose of this section shall be subject to the law regarding the collection and disclosure of such data.

(Pub. L. 99–58, title II, § 202, July 2, 1985, 99 Stat. 107.)

CODIFICATION

Section was enacted as part of the Energy Policy and Conservation Amendments Act of 1985, and also as part of the National Coal Imports Reporting Act of 1985, and not as part of the Department of Energy Organization Act which comprises this chapter.

SHORT TITLE

Section 201 of title II of Pub. L. 99–58 provided that: ''This title [enacting this section and provisions set out as a note below] may be cited as the 'National Coal Imports Reporting Act of 1985'.''

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in this section requiring submittal of reports to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 14th item on page 90 of House Document No. 103–7.

ANALYSIS OF UNITED STATES COAL IMPORT MARKET; REPORT BY SECRETARY OF ENERGY TO CONGRESS

Section 203 of Pub. L. 99–58 provided that:

''(a) IN GENERAL.—The Secretary of Energy shall, through the Energy Information Administration, conduct a comprehensive analysis of the coal import market in the United States and report the findings of such analysis to the Committee on Energy and Natural Resources of the Senate and the appropriate committees of the House of Representatives, within nine months of the date of enactment of this Act [July 2, 1985].

''(b) CONTENTS.—The report required by this section shall—

''(1) contain a detailed analysis of potential domestic markets for foreign coals, by producing nation, between 1985 and 1995;

''(2) identify potential domestic consuming sectors of imported coal and evaluate the magnitude of any potential economic disruptions for each impacted State, including analysis of direct and indirect employment impact in the domestic coal industry and resulting income loss to each State;

''(3) identify domestically produced coal that potentially could be replaced by imported coal;

''(4) identify contractual commitments of domestic utilities expiring between 1985 and 1995 and describe spot buying practices of domestic utilities, fuel cost patterns, plant modification costs required to burn foreign coals, proximity of navigable waters to utilities, demand for compliance coal, availability of less expensive purchased power from Canada, and State and local considerations;

''(5) evaluate increased coal consumption by domestic electric utilities resulting from increased power sales and analyze the potential coal import market represented by this increased coal consumption, including consumption by existing coal-fired plants, new coal-fired plants projected up to the year 1995, and plants planning to convert to coal by 1995;

''(6) identify existing authorities available to the Federal Government relating to coal imports, assess the potential impact of exercising each of these authorities, and describe executive branch plans and strategies to address coal imports;

''(7) identify and characterize the coal export policies of all major coal exporting nations, including the United States, Australia, Canada, Colombia, Poland, and South Africa, with specific analysis of—

''(A) direct or indirect Government subsidies to coal exporters;

''(B) health, safety, and environmental regulations imposed on each coal producer; and

''(C) trade policies relating to coal exports;

''(8) evaluate the excess capacity of foreign producers, potential development of new export-oriented coal mines in foreign nations, operating costs of foreign coal mines, capacity of ocean vessels to transport foreign coal, and constraints on importing coal into the United States because of port and harbor availability;

''(9) identify specifically the participation of all United States corporations involved in mining and exporting coal from foreign nations; and

''(10) identify the policies governing coal imports of all coal-importing industrialized nations (including the United States, Japan, and European nations) by considering such factors as import duties or tariffs, import quotas, and other governmental restrictions or trade policies impacting coal imports.''

§ 7278. Availability of appropriations for Department of Energy for transportation, uniforms, security, and price support and loan guarantee programs; transfer of funds; acceptance of contributions

Appropriations for the Department of Energy under this title[1] in this and subsequent Energy and Water Development Appropriations Acts, on and after October 2, 1992, shall be available for hire of passenger motor vehicles; hire, maintenance and operation of aircraft; purchase, repair and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services. From these appropriations, transfers of sums may on and after October 2, 1992, be made to other agencies of the United States Government for the performance of work for which this appropriation is made. None of the funds made available to the Department of Energy under this Act or subsequent Energy and Water Development Appropriations Acts shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriation Act. The Secretary is authorized on and after October 2, 1992, to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign.

(Pub. L. 102–377, title III, § 301, Oct. 2, 1992, 106 Stat. 1338.)

REFERENCES IN TEXT

This title, referred to in text, is title III of Pub. L. 102–377, Oct. 2, 1992, 106 Stat. 1332. For complete classification of title III to Code, see Tables.

CODIFICATION

Section was enacted as part of the Energy and Water Development Appropriations Act, 1993, and not as part of the Department of Energy Organization Act which comprises this chapter.

SUBCHAPTER VII—TRANSITIONAL, SAVINGS, AND CONFORMING PROVISIONS

§ 7291. Transfer and allocations of appropriations and personnel

(a) Except as otherwise provided in this chapter, the personnel employed in connection with, and the assets, liabilities, contracts, property, records, and unexpended balance of appropriations authorizations, allocations, and other funds employed, held, used, arising from, available to or to be made available in connection with the functions transferred by this chapter, subject to section 1531 of title 31, are hereby transferred to the Secretary for appropriate allocation. Unexpended funds transferred pursuant to this subsection shall only be used for the purposes for which the funds were originally authorized and appropriated.

(b) Positions expressly specified by statute or reorganization plan to carry out function transferred by this chapter personnel occupying those positions on October 1, 1977, and personnel authorized to receive compensation in such positions at the rate prescribed for offices and positions at level I, II, III, IV, or V of the executive schedule (5 U.S.C. 5312–5316) on October 1, 1977, shall be subject to the provisions of section 7293 of this title.

(Pub. L. 95–91, title VII, § 701, Aug. 4, 1977, 91 Stat. 605.)

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

CODIFICATION

In subsec. (a), ''section 1531 of title 31'' substituted for ''section 202 of the Budget and Accounting Procedures Act of 1950 [31 U.S.C. 581c]'' on authority of Pub. L. 97–258, § 4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance.

§ 7292. Effect on personnel

(a) Full-time and part-time personnel holding permanent positions

Except as otherwise provided in this chapter, the transfer pursuant to this subchapter of full-time personnel (except special Government employees) and part-time personnel holding permanent positions pursuant to this subchapter shall not cause any such employee to be separated or reduced in grade or compensation for one year after August 4, 1977, except that full-time temporary personnel employed at the Energy Research Centers of the Energy Research and Development Administration upon the establishment of the Department who are determined by the Department to be performing continuing functions may at the employee's option be converted to permanent full-time status within one hundred and twenty days following their transfer to the Department. The employment levels of full-time permanent personnel authorized for the Department by other law or administrative action shall be increased by the number of employees who exercise the option to be so converted.

(b) Person who held position compensated in accordance with chapter 53 of title 5

Any person who, on October 1, 1977, held a position compensated in accordance with the Executive Schedule prescribed in chapter 53 of title 5, and who, without a break in service, is appointed in the Department to a position having duties comparable to those performed immediately preceding his appointment shall continue to be compensated in his new position at not less than the rate provided for his previous position, for the duration of his service in the new position.

(c) Employees holding reemployment rights acquired under section 786 of title 15

Employees transferred to the Department holding reemployment rights acquired under section 786 of title 15[1] or any other provision of law or regulation may exercise such rights only within one hundred twenty days from October 1, 1977, or within two years of acquiring such rights, whichever is later. Reemployment rights may only be exercised at the request of the employee.

(Pub. L. 95–91, title VII, § 702, Aug. 4, 1977, 91 Stat. 605.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

This subchapter, referred to in subsec. (a), was in the original ''this title'' meaning title VII of Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 605, which enacted this subchapter and section 916 of Title 7, Agriculture, amended sections 6833 and 6839 of this title, section 19 of Title 3, The President, sections 101, 5108, and 5312 to 5316 of Title 5, Government Organization and Employees, section 1701z–8 of Title 12, Banks and Banking, and sections 766, 790a, and 790d of Title 15, Commerce and Trade, repealed sections 2036 and 5818 of this title and sections 763, 768 and 786 of Title 15, enacted provisions set out as a note under 2201 of this title, and repealed provisions set out as a note under section 761 of Title 15. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

Section 786 of title 15, referred to in subsec. (c), was repealed by Pub. L. 95–91, title VII, § 709(a)(1), Aug. 4, 1977, 91 Stat. 607.

EX. ORD. NO. 12026. REINSTATEMENT RIGHTS OF CERTAIN EMPLOYEES OF DEPARTMENT OF ENERGY

Ex. Ord. No. 12026, Dec. 5, 1977, 42 F.R. 61849, provided:

By virtue of the authority vested in me by Sections 3301 and 3302 of Title 5 of the United States Code, and as President of the United States of America, the service of an employee of the Atomic Energy Commission or of the Energy Research and Development Administration pursuant to a Regular or Regular (Conditional) appointment, other than such service in an attorney position, who was transferred to the Department of Energy pursuant to the Department of Energy Organization Act (91 Stat. 565; 42 U.S.C. 7101 *et seq.*) shall be considered as Career or Career-Conditional service, respec-

[1] See References in Text note below.

tively, for purposes of eligibility for reinstatement in the competitive Civil Service.

JIMMY CARTER.

§ 7293. Agency terminations

Except as otherwise provided in this chapter, whenever all of the functions vested by law in any agency, commission, or other body, or any component thereof, have been terminated or transferred from that agency, commission, or other body, or component by this chapter, the agency, commission, or other body, or component, shall terminate. If an agency, commission, or other body, or any component thereof, terminates pursuant to the preceding sentence, each position and office therein which was expressly authorized by law, or the incumbent of which was authorized to receive compensation at the rates prescribed for an office or position at level II, III, IV, or V of the Executive Schedule (5 U.S.C. 5313–5316), shall terminate.

(Pub. L. 95–91, title VII, § 703, Aug. 4, 1977, 91 Stat. 606.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7291 of this title.

§ 7294. Incidental transfers

The Director of the Office of Management and Budget, in consultation with the Secretary and the Commission, is authorized and directed to make such determinations as may be necessary with regard to the transfer of functions which relate to or are utilized by an agency, commission or other body, or component thereof affected by this chapter, to make such additional incidental dispositions of personnel, assets, liabilities, contracts, property, records, and unexpended balances of appropriations, authorizations, allocations, and other funds held, used, arising from, available to or to be made available in connection with the functions transferred by this chapter, as he may deem necessary to accomplish the purposes of this chapter.

(Pub. L. 95–91, title VII, § 704, Aug. 4, 1977, 91 Stat. 606.)

§ 7295. Savings provisions

(a) Orders, determinations, rules, etc., in effect prior to effective date of this chapter

All orders, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges—

(1) which have been issued, made, granted, or allowed to become effective by the President, any Federal department or agency or official thereof, or by a court of competent jurisdiction, in the performance of functions which are transferred under this chapter to the Department or the Commission after August 4, 1977, and

(2) which are in effect on October 1, 1977,

shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked in accordance with law by the President, the Secretary, the Federal Energy Regulatory Commission, or other authorized officials, a court of competent jurisdiction, or by operation of law.

(b) Proceedings or applications for licenses, permits, etc., pending at effective date of this chapter; regulations

(1) The provisions of this chapter shall not affect any proceedings or any application for any license, permit, certificate, or financial assistance pending on October 1, 1977, before any department, agency, commission, or component thereof, functions of which are transferred by this chapter; but such proceedings and applications, to the extent that they relate to functions so transferred, shall be continued. Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this chapter had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or revoked by a duly authorized official, by a court of competent jurisdiction, or by operation of law. Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any such proceeding under the same terms and conditions and to the same extent that such proceeding could have been discontinued or modified if this chapter had not been enacted.

(2) The Secretary and the Commission are authorized to promulgate regulations providing for the orderly transfer of such proceedings to the Department or the Commission.

(c) Suits commenced prior to effective date of this chapter

Except as provided in subsection (e) of this section—

(1) the provisions of this chapter shall not affect suits commenced prior to October 1, 1977, and

(2) in all such suits, proceedings shall be had, appeals taken, and judgments rendered in the same manner and effect as if this chapter had not been enacted.

(d) Suits, actions, etc., commenced by or against any officer or agency or cause of action by or against any department or agency

No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of any department or agency, functions of which are transferred by this chapter, shall abate by reason of the enactment of this chapter. No cause of action by or against any department or agency, functions of which are transferred by this chapter, or by or against any officer thereof in his official capacity shall abate by reason of the enactment of this chapter.

(e) Suits with officers, departments, or agencies as parties

If, before October 1, 1977, any department or agency, or officer thereof in his official capacity, is a party to a suit, and under this chapter any function of such department, agency, or officer is transferred to the Secretary or any other official, then such suit shall be continued with the Secretary or other official, as the case may be, substituted.

(Pub. L. 95–91, title VIII, § 705, Aug. 4, 1977, 91 Stat. 606.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7341 of this title.

§ 7296. Separability

If any provision of this chapter or the application thereof to any person or circumstance is held invalid, neither the remainder of this chapter nor the application of such provision to other persons or circumstances shall be affected thereby.

(Pub. L. 95–91, title VII, § 706, Aug. 4, 1977, 91 Stat. 607.)

§ 7297. Cross references

With respect to any functions transferred by this chapter and exercised after October 1, 1977, reference in any other Federal law to any department, commission, or agency or any officer or office the functions of which are so transferred shall be deemed to refer to the Secretary, the Federal Energy Regulatory Commission, or other official or component of the Department in which this chapter vests such functions.

(Pub. L. 95–91, title VII, § 707, Aug. 4, 1977, 91 Stat. 607.)

§ 7298. Presidential authority

Except as provided in subchapter IV of this chapter, nothing contained in this chapter shall be construed to limit, curtail, abolish, or terminate any function of, or authority available to, the President which he had immediately before October 1, 1977; or to limit, curtail, abolish, or terminate his authority to delegate, redelegate, or terminate any delegation of functions.

(Pub. L. 95–91, title VII, § 708, Aug. 4, 1977, 91 Stat. 607.)

§ 7299. Transition

With the consent of the appropriate department or agency head concerned, the Secretary is authorized to utilize the services of such officers, employees, and other personnel of the departments and agencies from which functions have been transferred to the Secretary for such period of time as may reasonably be needed to facilitate the orderly transfer of functions under this chapter.

(Pub. L. 95–91, title VII, § 711, Aug. 4, 1977, 91 Stat. 609.)

§ 7300. Report to Congress; effect on personnel

The Civil Service Commission shall, as soon as practicable but not later than one year after October 1, 1977, prepare and transmit to the Congress a report on the effects on employees of the reorganization under this chapter which shall include—

(1) an identification of any position within the Department or elsewhere in the executive branch, which it considers unnecessary due to consolidation of functions under this chapter;

(2) a statement of the number of employees entitled to pay savings by reason of the reorganization under this chapter;

(3) a statement of the number of employees who are voluntarily or involuntarily separated by reason of such reorganization;

(4) an estimate of the personnel costs associated with such reorganization;

(5) the effects of such reorganization on labor management relations; and

(6) such legislative and administrative recommendations for improvements in personnel management within the Department as the Commission considers necessary.

(Pub. L. 95–91, title VII, § 712, Aug. 4, 1977, 91 Stat. 609.)

TRANSFER OF FUNCTIONS

Functions vested by statute in United States Civil Service Commission transferred to Director of Office of Personnel Management (except as otherwise specified) by Reorg. Plan No. 2 of 1978, § 102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, effective Jan. 1, 1979, as provided by section 1–102 of Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

§ 7301. Environmental impact statements

The transfer of functions under subchapters III and IV of this chapter shall not affect the validity of any draft environmental impact statement published before October 1, 1977.

(Pub. L. 95–91, title VII, § 713, Aug. 4, 1977, 91 Stat. 610.)

SUBCHAPTER VIII—ENERGY PLANNING

§ 7321. National Energy Policy Plan

(a) Preparation by President and submission to Congress; formulation and review

The President shall—

(1) prepare and submit to the Congress a proposed National Energy Policy Plan (hereinafter in this subchapter referred to as a ''proposed Plan'') as provided in subsection (b) of this section;

(2) seek the active participation by regional, State, and local agencies and instrumentalities and the private sector through public hearings in cities and rural communities and other appropriate means to insure that the views and proposals of all segments of the economy are taken into account in the formulation and review of such proposed Plan;

(3) include within the proposed Plan a comprehensive summary of data pertaining to all fuel and energy needs of persons residing in—

(A) areas outside standard metropolitan statistical areas; and

(B) areas within standard metropolitan statistical areas which are unincorporated or are specified by the Bureau of the Census, Department of Commerce, as rural areas.

(b) Biennial transmittal to Congress; contents

Not later than April 1, 1979, and biennially thereafter, the President shall transmit to the Congress the proposed Plan. Such proposed Plan shall—

(1) consider and establish energy production, utilization, and conservation objectives, for periods of five and ten years, necessary to satisfy projected energy needs of the United States to meet the requirements of the general welfare of the people of the United States and the commercial and industrial life of the Nation, paying particular attention to the needs for full employment, price stability, energy security, economic growth, environ-

mental protection, nuclear non-proliferation, special regional needs, and the efficient utilization of public and private resources;

(2) identify the strategies that should be followed and the resources that should be committed to achieve such objectives, forecasting the level of production and investment necessary in each of the significant energy supply sectors and the level of conservation and investment necessary in each consuming sector, and outlining the appropriate policies and actions of the Federal Government that will maximize the private production and investment necessary in each of the significant energy supply sectors consistent with applicable Federal, State, and local environmental laws, standards, and requirements; and

(3) recommend legislative and administrative actions necessary and desirable to achieve the objectives of such proposed Plan, including legislative recommendations with respect to taxes or tax incentives, Federal funding, regulatory actions, antitrust policy, foreign policy, and international trade.

(c) Submission of report to Congress; contents

The President shall submit to the Congress with the proposed Plan a report which shall include—

(1) whatever data and analysis are necessary to support the objectives, resource needs, and policy recommendations contained in such proposed Plan;

(2) an estimate of the domestic and foreign energy supplies on which the United States will be expected to rely to meet projected energy needs in an economic manner consistent with the need to protect the environment, conserve natural resources, and implement foreign policy objectives;

(3) an evaluation of current and foreseeable trends in the price, quality, management, and utilization of energy resources and the effects of those trends on the social, environmental, economic, and other requirements of the Nation;

(4) a summary of research and development efforts funded by the Federal Government to forestall energy shortages, to reduce waste, to foster recycling, to encourage conservation practices, and to otherwise protect environmental quality, including recommendations for developing technologies to accomplish such purposes; and

(5) a review and appraisal of the adequacy and appropriateness of technologies, procedures, and practices (including competitive and regulatory practices) employed by Federal, State, and local governments and nongovernmental entities to achieve the purposes of the Plan.

(d) Consultation with consumers, small businesses, etc.

The President shall insure that consumers, small businesses, and a wide range of other interests, including those of individual citizens who have no financial interest in the energy industry, are consulted in the development of the Plan.

(Pub. L. 95–91, title VIII, § 801, Aug. 4, 1977, 91 Stat. 610.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 12006, 13382, 13522 of this title.

§ 7322. Congressional review

(a) Each proposed Plan shall be referred to the appropriate committees in the Senate and the House of Representatives.

(b) Each such committee shall review the proposed Plan and, if it deems appropriate and necessary, report to the Senate or the House of Representatives legislation regarding such Plan which may contain such alternatives to, modifications of, or additions to the proposed Plan submitted by the President as the committee deems appropriate.

(Pub. L. 95–91, title VIII, § 802, Aug. 4, 1977, 91 Stat. 611.)

SUBCHAPTER IX—EFFECTIVE DATE AND INTERIM APPOINTMENTS

§ 7341. Effective date

The provisions of this chapter shall take effect one hundred and twenty days after the Secretary first takes office, or on such earlier date as the President may prescribe and publish in the Federal Register, except that at any time after August 4, 1977, (1) any of the officers provided for in subchapters II and IV of this chapter may be nominated and appointed, as provided in those subchapters, and (2) the Secretary and the Commission may promulgate regulations pursuant to section 7295(b)(2) of this title at any time after August 4, 1977. Funds available to any department or agency (or any official or component thereof), functions of which are transferred to the Secretary or the Commission by this chapter, may with the approval of the Director of the Office of Management and Budget, be used to pay the compensation and expenses of any officer appointed pursuant to this subsection until such time as funds for that purpose are otherwise available.

(Pub. L. 95–91, title IX, § 901, Aug. 4, 1977, 91 Stat. 612.)

REFERENCES IN TEXT

This chapter, referred to in text, was in the original ''this Act'', meaning Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, known as the Department of Energy Organization Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

EXECUTIVE ORDER NO. 12009

Ex. Ord. No. 12009, Sept. 13, 1977, 42 F.R. 46267, which prescribed Oct. 1, 1977, as the effective date of this chapter, was revoked by Ex. Ord. No. 12553, Feb. 25, 1986, 51 F.R. 7237.

§ 7342. Interim appointments

In the event that one or more officers required by this chapter to be appointed by and with the advice and consent of the Senate shall not have entered upon office on October 1, 1977, the President may designate any officer, whose appointment was required to be made, by and with the advice and consent of the Senate, and who was

such an officer immediately prior to October 1, 1977, to act in such office until the office is filled as provided in this chapter. While so acting such persons shall receive compensation at the rates provided by this chapter for the respective offices in which they act.

(Pub. L. 95–91, title IX, § 902, Aug. 4, 1977, 91 Stat. 612.)

SUBCHAPTER X—SUNSET PROVISIONS

§ 7351. Submission of comprehensive review

Not later than January 15, 1982, the President shall prepare and submit to the Congress a comprehensive review of each program of the Department. Each such review shall be made available to the committee or committees of the Senate and House of Representatives having jurisdiction with respect to the annual authorization of funds, pursuant to section 7270 of this title, for such programs for the fiscal year beginning October 1, 1982.

(Pub. L. 95–91, title X, § 1001, Aug. 4, 1977, 91 Stat. 612.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7352 of this title.

§ 7352. Contents of review

Each comprehensive review prepared for submission under section 7351 of this title shall include—

(1) the name of the component of the Department responsible for administering the program;

(2) an identification of the objectives intended for the program and the problem or need which the program was intended to address;

(3) an identification of any other programs having similar or potentially conflicting or duplicative objectives;

(4) an assessment of alternative methods of achieving the purposes of the program;

(5) a justification for the authorization of new budget authority, and an explanation of the manner in which it conforms to and integrates with other efforts;

(6) an assessment of the degree to which the original objectives of the program have been achieved, expressed in terms of the performance, impact, or accomplishments of the program and of the problem or need which it was intended to address, and employing the procedures or methods of analysis appropriate to the type or character of the program;

(7) a statement of the performance and accomplishments of the program in each of the previous four completed fiscal years and of the budgetary costs incurred in the operation of the program;

(8) a statement of the number and types of beneficiaries or persons served by the program;

(9) an assessment of the effect of the program on the national economy, including, but not limited to, the effects on competition, economic stability, employment, unemployment, productivity, and price inflation, including costs to consumers and to businesses;

(10) an assessment of the impact of the program on the Nation's health and safety;

(11) an assessment of the degree to which the overall administration of the program, as expressed in the rules, regulations, orders, standards, criteria, and decisions of the officers executing the program, are believed to meet the objectives of the Congress in establishing the program;

(12) a projection of the anticipated needs for accomplishing the objectives of the program, including an estimate if applicable of the date on which, and the conditions under which, the program may fulfill such objectives;

(13) an analysis of the services which could be provided and performance which could be achieved if the program were continued at a level less than, equal to, or greater than the existing level; and

(14) recommendations for necessary transitional requirements in the event that funding for such program is discontinued, including proposals for such executives or legislative action as may be necessary to prevent such discontinuation from being unduly disruptive.

(Pub. L. 95–91, title X, § 1002, Aug. 4, 1977, 91 Stat. 612.)

SUBCHAPTER XI—ENERGY TARGETS

§§ 7361 to 7364. Repealed. Pub. L. 102–486, title XVI, § 1606, Oct. 24, 1992, 106 Stat. 3003

Section 7361, Pub. L. 96–294, title III, § 301, June 30, 1980, 94 Stat. 712, related to preparation of energy targets.

Section 7362, Pub. L. 96–294, title III, § 302, June 30, 1980, 94 Stat. 712, related to congressional consideration.

Section 7363, Pub. L. 96–294, title III, § 303, June 30, 1980, 94 Stat. 714, set out energy target form and definitions.

Section 7364, Pub. L. 96–294, title III, § 304, June 30, 1980, 94 Stat. 715, set out general provisions regarding targets.

SUBCHAPTER XII—RENEWABLE ENERGY INITIATIVES

CODIFICATION

This subchapter was enacted as part of title IV of the Energy Security Act, which title is known as the Renewable Energy Resources Act of 1980, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7371. Statement of purpose

The purpose of this subchapter is to establish incentives for the use of renewable energy resources, to improve and coordinate the dissemination of information to the public with respect to renewable energy resources, to encourage the use of certain cost effective solar energy systems and conservation measures by the Federal Government, to establish a program for the promotion of local energy self-sufficiency, to broaden the existing program for accelerating the procurement and use of photovoltaic systems, and to provide further encouragement for the development of small hydroelectric power projects.

(Pub. L. 96–294, title IV, § 402, June 30, 1980, 94 Stat. 715.)

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original ''this title'', meaning title IV of Pub. L. 96–294, June 30, 1980, 94 Stat. 715, known as the Renewable Energy Resources Act of 1980. For complete classification of title IV to the Code, see Short Title note set out below and Tables.

SHORT TITLE

Section 401 of title IV Pub. L. 96–294 provided that: ''This title [enacting this subchapter, amending sections 8255, 8271, and 8274 to 8276 of this title and sections 2705 and 2708 of Title 16, Conservation, and enacting a provision set out as a note under section 2701 of Title 16] may be cited as the 'Renewable Energy Resources Act of 1980'.''

§ 7372. "Secretary" and "renewable energy resource" defined

For purposes of this subchapter—

(1) the term ''Secretary'' means the Secretary of Energy; and

(2) the term ''renewable energy resource'' means any energy resource which has recently originated in the sun, including direct and indirect solar radiation and intermediate solar energy forms such as wind, ocean thermal gradients, ocean currents and waves, hydropower, photovoltaic energy, products of photosynthetic processes, organic wastes, and others.

(Pub. L. 96–294, title IV, § 403, June 30, 1980, 94 Stat. 716.)

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original ''this title'', meaning title IV of Pub. L. 96–294, June 30, 1980, 94 Stat. 715, known as the Renewable Energy Resources Act of 1980, which enacted this subchapter, amended sections 8255, 8271, and 8274 to 8276 of this title and sections 2705 and 2708 of Title 16, Conservation, and enacted a provision set out as a note under section 2701 of Title 16. For complete classification of title IV to the Code, see Short Title note set out under section 7371 of this title and Tables.

§ 7373. Coordinated dissemination of information on renewable energy resources and conservation

In order to improve the effectiveness of Federal information dissemination activities in the fields of renewable energy resources and energy conservation with the objective of developing and promoting better public understanding of these resources and their potential uses, the Secretary shall—

(1) take affirmative steps to coordinate all of the activities of the Department of Energy, whether conducted by the Department itself or by other public or private entities with assistance from the Department, which are aimed at or involve the dissemination of information with respect to renewable energy resources or energy conservation, and

(2) report annually to the Congress on the status of such activities, including a description of how the information dissemination activities and services of the Department of Energy in the fields of renewable energy resources and energy conservation are being coordinated with similar or related activities and services of other Federal agencies.

(Pub. L. 96–294, title IV, § 404, June 30, 1980, 94 Stat. 716.)

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of reporting provisions in par. (2) of this section, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 18th item on page 87 of House Document No. 103–7.

§ 7374. Energy self-sufficiency initiatives

(a) Establishment of 3-year pilot program

There is hereby established under the direction of the Secretary a 3-year pilot energy self-sufficiency program to demonstrate energy self-sufficiency through the use of renewable energy resources in one or more States in the United States.

(b) Establishment of subprograms to pilot programs; scope of subprograms

As a part of the pilot program, the Secretary shall establish such subprograms as the Secretary determines are necessary to achieve the purpose of this section, including subprograms—

(1) to promote the development and utilization of synergistic combinations of different renewable energy resources in specific projects aimed at reducing fossil fuel importation;

(2) to initiate and encourage energy self-sufficiency at appropriate levels of government;

(3) to stimulate private industry participation in the realization of the objective stated in subsection (a) of this section; and

(4) to stimulate the utilization of abandoned or underutilized industrial facilities for the generation of energy from any locally available renewable resource, such as municipal solid waste, agricultural waste, or forest products waste.

(c) Implementation of subprograms; preparation of plan of program and additional Federal actions

In carrying out the provisions of this section, the Secretary is authorized to assign to an existing office in the Department of Energy the responsibility of undertaking and carrying out the subprograms established under subsection (b) of this section. In addition, the Secretary shall prepare a detailed plan within one hundred eighty days of June 30, 1980, setting forth (1) the 3-year pilot program itself, and (2) any additional Federal actions needed to encourage and promote the adoption of programs for energy self-sufficiency.

(d) Submission of plan and implementation report to Congress

The Secretary shall submit to the Congress, within one year after June 30, 1980, the plan prepared under the second sentence of subsection (c) of this section along with a report suggesting the legislative initiatives needed to fully implement such plan.

(Pub. L. 96–294, title IV, § 406, June 30, 1980, 94 Stat. 716.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7375 of this title.

§ 7375. Authorization of appropriations

(a) There is authorized to be appropriated for each of the fiscal years 1981 and 1982 not to ex-

ceed $10,000,000 for loans under section 402 of the Public Utility Regulatory Policies Act of 1978 [16 U.S.C. 2702], in addition to any amounts authorized for such loans by that Act; and the amounts appropriated pursuant to this subsection shall remain available until expended.

(b) There is authorized to be appropriated for each of the fiscal years 1981 and 1982 not to exceed $100,000,000 for loans under section 403 of the Public Utility Regulatory Policies Act of 1978 [16 U.S.C. 2703]; and the amounts appropriated pursuant to this subsection shall remain available until expended.

(c) There is authorized to be appropriated for the fiscal year 1981 not to exceed $10,000,000 to carry out section 7374 of this title (relating to energy self-sufficiency initiatives).

(Pub. L. 96–294, title IV, § 409, June 30, 1980, 94 Stat. 719.)

REFERENCES IN TEXT

That Act, referred to in subsec. (a), is Pub. L. 95–617, Nov. 9, 1978, 92 Stat. 3117, as amended, known as the Public Utility Regulatory Policies Act of 1978. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16, Conservation, and Tables.

SUBCHAPTER XIII—DEPARTMENT OF ENERGY SCIENCE EDUCATION PROGRAMS

CODIFICATION

This subchapter was enacted as part of part E (§§ 3161–3168) of title XXXI of div. C of the National Defense Authorization Act for Fiscal Year 1991, known as the Department of Energy Science Education Enhancement Act, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7381. Findings and purposes

(a) Findings

The Congress finds the following:

(1) Scientific, technical, and engineering competence is essential to the Nation's future well-being.

(2) The scientific, technical, and engineering capability at the Federal laboratories is unmatched throughout the world.

(3) Superb research, development, testing, and evaluation occur in Department of Energy research and development facilities.

(4) Department of Energy research and development facilities will play an increasing role in assuring that the United States remains competitive in world markets.

(5) Improvements in mathematics, science, and engineering education are needed desperately to provide the trained and educated citizenry essential to the future competitiveness of the United States.

(6) The future health and vitality of the economy of the United States is predicated on the availability of an adequate supply of scientists, mathematicians, and engineers to provide for growing needs and to replenish the workforce.

(7) United States college and university enrollment in science, mathematics, and engineering programs is sharply declining at undergraduate, graduate, and post-graduate levels.

(8) The Federal Government is the largest United States employer of research scientists, mathematicians, and engineers, and the Department of Energy has a growing need for scientists, mathematicians, and engineers at a time when these enrollments are declining.

(9) Women and minorities are grossly underrepresented in science and mathematics fields, and this group represents more than 80 percent of the projected increase in the national workforce through the year 2000.

(b) Purposes

The purposes of this subchapter are—

(1) to encourage the development and implementation of science, mathematics, and engineering education programs at the Department of Energy and at its research and development facilities as part of a national effort to improve science, mathematics, and engineering education; and

(2) to provide more efficient coordination among science, mathematics, and engineering education programs.

(Pub. L. 101–510, div. C, title XXXI, § 3162, Nov. 5, 1990, 104 Stat. 1840.)

REFERENCES IN TEXT

This subchapter, referred to in subsec. (b), was in the original ''this part'', meaning part E of title XXXI of div. C of Pub. L. 101–510, which is classified principally to this subchapter. For complete classification of part E to the Code, see Short Title note set out below and Tables.

SHORT TITLE

Section 3161 of Pub. L. 101–510 provided that: ''This part [part E (§§ 3161–3168) of title XXXI of div. C of Pub. L. 101–510, enacting this subchapter and amending section 7112 of this title] may be cited as the 'Department of Energy Science Education Enhancement Act'.''

UNIVERSITY-BASED RESEARCH COLLABORATION PROGRAM

Pub. L. 105–85, div. C, title XXXI, § 3155, Nov. 18, 1997, 111 Stat. 2044, provided that:

''(a) FINDINGS.—Congress makes the following findings:

''(1) The maintenance of scientific and engineering competence in the United States is vital to long-term national security and the defense and national security missions of the Department of Energy.

''(2) Engaging the universities and colleges of the Nation in research on long-range problems of vital national security interest will be critical to solving the technology challenges faced within the defense and national security programs of the Department of Energy in the next century.

''(3) Enhancing collaboration among the national laboratories, universities and colleges, and industry will contribute significantly to the performance of these Department of Energy missions.

''(b) PROGRAM.—The Secretary of Energy shall establish a university program at a location that can develop the most effective collaboration among national laboratories, universities and colleges, and industry in support of scientific and engineering advancement in key Department of Energy defense and national security program areas.

''(c) FUNDING.—Of the funds authorized to be appropriated in this title [see Tables for classification] to the Department of Energy for fiscal year 1998, the Secretary shall make $5,000,000 available for the establishment and operation of the program under subsection (b).''

§ 7381a. Science education programs

(a) Programs

The Secretary is authorized to establish programs to enhance the quality of mathematics, science, and engineering education. Any such programs shall be operated at or through the support of Department research and development facilities, shall use the scientific resources of the Department, and shall be consistent with the overall Federal plan for education and human resources in science and technology developed by the Federal Coordinating Council for Science, Engineering, and Technology.

(b) Relationship to other Department activities

The programs described in subsection (a) of this section shall supplement and be coordinated with current activities of the Department, but shall not supplant them.

(Pub. L. 101–510, div. C, title XXXI, § 3164, Nov. 5, 1990, 104 Stat. 1841.)

§ 7381b. Laboratory cooperative science centers and other authorized education activities

(a) Activities

The Secretary is authorized to:

(1) Support research appointments for college and university science and engineering students, and for faculty-student teams, at Department research and development facilities.

(2) Support research appointments for high school science teachers at Department research and development facilities.

(3) Support research apprenticeship appointments at Department research and development facilities for students underrepresented in science and technology careers.

(4) Support research experience programs at Department research and development facilities for nationally selected high school honor students.

(5) Operate mathematics and science education programs for elementary and secondary students at Department research and development facilities.

(6) Establish a museum-based science education program.

(7) Establish collaborative inner-city and rural partnership programs designed to meet the special mathematics and science education needs of students in inner-city and rural areas.

(8) Provide paid administrative leave for employees of the Department or Department research and development facilities who volunteer to interact with schools, colleges, universities, teachers, or students for the purpose of science, mathematics, and engineering education.

(9) Establish a talent pool of volunteer scientists, mathematicians, and engineers who have retired from the Department or Department research and development facilities to serve at schools and school districts for the purpose of (A) assisting teachers, with activities such as experiments, lectures, or the preparation of materials; (B) serving as counselors to students on science, mathematics, and engineering; and (C) otherwise assisting science, mathematics, and engineering classes. The Secretary, acting through Department research and development facilities, shall, wherever possible, identify and match schools and school districts with retired scientists, mathematicians, and engineers.

(10) Establish a Young Americans' Summer Science Camp Program to provide secondary school students with a hands-on science experience as well as exposure to working scientists and career counseling.

(11) Establish a program for mathematics and science teachers to provide teachers serving large numbers of disadvantaged students with new strategies for mathematics and science instruction.

(12) Support graduate students and, through university-based cooperative programs, undergraduate students for the purpose of encouraging more students to pursue scientific and technical careers, with a particular focus on the recruitment of women and minority students.

(13) Establish a prefreshman enrichment program in which middle-school students attend summer workshops on mathematics, science, and engineering conducted by universities on their campuses.

(b) Use of facilities

Any of the activities authorized by subsection (a) of this section may be conducted through Department research and development facilities. The Secretary may designate facilities conducting such education activities as ''Laboratory Cooperative Science Centers''.

(c) Funding

The Secretary is authorized to accept non-Federal funds to finance education activities described in subsection (a) of this section.

(Pub. L. 101–510, div. C, title XXXI, § 3165, Nov. 5, 1990, 104 Stat. 1841; Pub. L. 102–25, title VII, § 704(d), Apr. 6, 1991, 105 Stat. 120.)

AMENDMENTS

1991—Subsec. (a). Pub. L. 102–25, § 704(d)(1), redesignated subpars. (J) to (M) as pars. (10) to (13), respectively.

Subsec. (b). Pub. L. 102–25, § 704(d)(2), inserted ''such'' before ''education activities'' in second sentence.

EFFECTIVE DATE OF 1991 AMENDMENT

Amendment by Pub. L. 102–25 applicable as if included in enactment of Pub. L. 101–510, see section 704(e) of Pub. L. 102–25, set out as a note under section 12321 of Title 10, Armed Forces.

§ 7381c. Education partnerships

(a) Education partnerships

The Secretary may authorize each Department research and development facility, to the extent practicable and consistent with the provisions of the laboratory's management and operating contract, to enter into education partnership agreements with educational institutions in the United States (including local educational agencies, colleges, and universities) for the purpose of encouraging and enhancing study in scientific disciplines at all levels of education.

(b) Types of assistance

Under a partnership agreement entered into with an educational institution under sub-

section (a) of this section and as authorized by the Secretary, a Department research and development facility may provide assistance to the educational institution by—

(1) loaning equipment to the institution;

(2) transferring to the institution equipment determined by the director of the Department research and development facility to be surplus;

(3) making personnel of Department research and development facilities available to teach science courses or to assist in the development of science courses and materials for the institution;

(4) involving faculty and students of the institution in research programs of Department research and development facilities;

(5) cooperating with the institution in developing a program under which students may be given academic credit for work on research projects of Department research and development facilities; and

(6) providing academic and career advice and assistance to students of the institution.

(Pub. L. 101–510, div. C, title XXXI, §3166, Nov. 5, 1990, 104 Stat. 1843.)

§ 7381d. Definitions

In this subchapter:

(1) The term ''Secretary'' means the Secretary of Energy.

(2) The term ''Department'' means the Department of Energy.

(3) The term ''Department research and development facilities'' means all Department of Energy single-purpose and multipurpose National Laboratories and research and development facilities and programs, and any other facility or program operated by a contractor funded from the Office of Science of the Department of Energy.

(4) The term ''local educational agency'' has the meaning given that term by section 2891(12)[1] of title 20.

(Pub. L. 101–510, div. C, title XXXI, §3167, Nov. 5, 1990, 104 Stat. 1843; Pub. L. 105–245, title III, §309(b)(2)(D), Oct. 7, 1998, 112 Stat. 1853.)

REFERENCES IN TEXT

Section 2891(12) of title 20, referred to in par. (4), was in the original ''section 1471(12) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2891(12))'', Pub. L. 89–10, and was omitted in the general amendment of that Act by Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3519. See section 7801 of Title 20, Education.

AMENDMENTS

1998—Par. (3). Pub. L. 105–245 substituted ''Office of Science'' for ''Office of Energy Research''.

§ 7381e. Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out university research support and other science, mathematics, and engineering education programs authorized by this subchapter and administered by the Office of Science of the Department of Energy, $40,000,000 for fiscal year 1991.

[1] See References in Text note below.

(Pub. L. 101–510, div. C, title XXXI, §3168, Nov. 5, 1990, 104 Stat. 1843; Pub. L. 105–245, title III, §309(b)(2)(D), Oct. 7, 1998, 112 Stat. 1853.)

AMENDMENTS

1998—Pub. L. 105–245 substituted ''Office of Science'' for ''Office of Energy Research''.

SUBCHAPTER XIV—ALBERT EINSTEIN DISTINGUISHED EDUCATOR FELLOWSHIPS

CODIFICATION

This subchapter was enacted as part A (§§511–518) of title V of the Improving America's Schools Act of 1994, known as the Albert Einstein Distinguished Educator Fellowship Act of 1994, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7382. Findings

The Congress finds that—

(1) the Department of Energy has unique and extensive mathematics and science capabilities that contribute to mathematics and science education programs throughout the Nation;

(2) a need exists to increase understanding, communication, and cooperation between the Congress, the Department of Energy, other Federal agencies, and the mathematics and science education community;

(3) elementary and secondary school mathematics and science teachers can provide practical insight to the legislative and executive branches in establishing and operating education programs; and

(4) a pilot program that placed elementary and secondary school mathematics and science teachers in professional staff positions in the Senate and the House of Representatives has proven successful and demonstrated the value of expanding the program.

(Pub. L. 103–382, title V, §512, Oct. 20, 1994, 108 Stat. 4042.)

SHORT TITLE

Section 511 of Pub. L. 103–382 provided that: ''This part [part A (§§511–518) of title V of Pub. L. 103–382, enacting this subchapter] may be cited as the 'Albert Einstein Distinguished Educator Fellowship Act of 1994'.''

§ 7382a. Purpose; designation

(a) Purpose

The purpose of this subchapter is to establish within the Department of Energy a national fellowship program for elementary and secondary school mathematics and science teachers.

(b) Designation

A recipient of a fellowship under this subchapter shall be known as an ''Albert Einstein Fellow''.

(Pub. L. 103–382, title V, §513, Oct. 20, 1994, 108 Stat. 4042.)

§ 7382b. Definitions

As used in this subchapter—

(1) the term ''elementary school'' has the meaning provided by section 7801 of title 20;

(2) the term ''local educational agency'' has the meaning provided by section 7801 of title 20;

(3) the term ''secondary school'' has the meaning provided by section 7801 of title 20;

(4) the term ''Secretary'' means the Secretary of Energy.

(Pub. L. 103–382, title V, § 514, Oct. 20, 1994, 108 Stat. 4042; Pub. L. 107–110, title X, § 1076(bb), Jan. 8, 2002, 115 Stat. 2093.)

AMENDMENTS

2002—Pars. (1) to (3). Pub. L. 107–110 substituted ''7801'' for ''8801''.

EFFECTIVE DATE OF 2002 AMENDMENT

Amendment by Pub. L. 107–110 effective Jan. 8, 2002, except with respect to certain noncompetitive programs and competitive programs, see section 5 of Pub. L. 107–110, set out as an Effective Date note under section 6301 of Title 20, Education.

§ 7382c. Fellowship Program

(a) In general

(1) Establishment

The Secretary shall establish the Albert Einstein Distinguished Educator Fellowship Program (hereafter in this subchapter referred to as the ''Program'') to provide 12 elementary or secondary school mathematics or science teachers with fellowships in each fiscal year in accordance with this subchapter.

(2) Order of priority

The Secretary may reduce the number of fellowships awarded under this subchapter for any fiscal year in which the amount appropriated for the Program is insufficient to support 12 fellowships. If the number of fellowships awarded under this subchapter is reduced for any fiscal year, then the Secretary shall award fellowships based on the following order of priority:

(A) Three fellowships in the Department of Energy.

(B) Two fellowships in the Senate.

(C) Two fellowships in the House of Representatives.

(D) One fellowship in each of the following entities:

(i) The Department of Education.

(ii) The National Institutes of Health.

(iii) The National Science Foundation.

(iv) The National Aeronautics and Space Administration.

(v) The Office of Science and Technology Policy.

(3) Terms of fellowships

Each fellowship awarded under this subchapter shall be awarded for a period of ten months that, to the extent practicable, coincide with the academic year.

(4) Eligibility

To be eligible for a fellowship under this subchapter, an elementary or secondary school mathematics or science teacher must demonstrate—

(A) that such teacher would bring unique and valuable contributions to the Program;

(B) that such teacher is recognized for excellence in mathematics or science education; and

(C)(i) a sabbatical leave from teaching will be granted in order to participate in the Program; or

(ii) the teacher will return to a teaching position comparable to the position held prior to participating in the Program.

(b) Administration

The Secretary shall—

(1) provide for the development and administration of an application and selection process for fellowships under the Program, including a process whereby final selections of fellowship recipients are made in accordance with subsection (c) of this section;

(2) provide for the publication of information on the Program in appropriate professional publications, including an invitation for applications from teachers listed in the directories of national and State recognition programs;

(3) select from the pool of applicants 12 elementary and secondary school mathematics teachers and 12 elementary and secondary school science teachers;

(4) develop a program of orientation for fellowship recipients under this subchapter; and

(5) not later than August 31 of each year in which fellowships are awarded, prepare and submit an annual report and evaluation of the Program to the appropriate Committees of the Senate and the House of Representatives.

(c) Selection

(1) In general

The Secretary shall arrange for the 24 semifinalists to travel to Washington, D.C., to participate in interviews in accordance with the selection process described in paragraph (2).

(2) Final selection

(A) Not later than May 1 of each year preceding each year in which fellowships are to be awarded, the Secretary shall select and announce the names of the fellowship recipients.

(B) The Secretary shall provide for the development and administration of a process to select fellowship recipients from the pool of semifinalists as follows:

(i) The Secretary shall select three fellowship recipients who shall be assigned to the Department of Energy.

(ii) The Majority Leader of the Senate and the Minority Leader of the Senate, or their designees, shall each select a fellowship recipient who shall be assigned to the Senate.

(iii) The Speaker of the House of Representatives and the Minority Leader of the House of Representatives, or their designees, shall each select a fellowship recipient who shall be assigned to the House of Representatives.

(iv) Each of the following individuals, or their designees, shall select one fellowship recipient who shall be assigned within the department, office, agency, or institute such individual administers:

(I) The Secretary of Education.

(II) The Director of the National Institutes of Health.

(III) The Director of the National Science Foundation.

(IV) The Administrator of the National Aeronautics and Space Administration.

(V) The Director of the Office of Science and Technology Policy.

(Pub. L. 103–382, title V, § 515, Oct. 20, 1994, 108 Stat. 4042.)

§ 7382d. Fellowship awards

(a) Fellowship recipient compensation

Each recipient of a fellowship under this subchapter shall be paid during the fellowship period at a rate of pay that shall not exceed the minimum annual rate payable for a position under GS–13 of the General Schedule.

(b) Local educational agency

The Secretary shall seek to ensure that no local educational agency penalizes a teacher who elects to participate in the Program.

(Pub. L. 103–382, title V, § 516, Oct. 20, 1994, 108 Stat. 4044.)

REFERENCES IN TEXT

The General Schedule, referred to in subsec. (a), is set out under section 5332 of Title 5, Government Organization and Employees.

§ 7382e. Waste management education research consortium (WERC)

(a) [1] In general

The Secretary is authorized to establish a partnership of Department of Energy laboratories, academic institutions, and private sector industries to conduct environmentally-related education programs, including programs involving environmentally conscious manufacturing and waste management activities that have undergraduate and graduate educational training as a component.

(Pub. L. 103–382, title V, § 517, Oct. 20, 1994, 108 Stat. 4044.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7382f of this title.

§ 7382f. Authorization of appropriations

(a) In general

There are authorized to be appropriated for the Program $700,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years.

(b) WERC program

There are authorized to be appropriated for the WERC program under section 7382e of this title such sums as may be necessary for fiscal year 1995 and each of the four succeeding fiscal years.

(Pub. L. 103–382, title V, § 518, Oct. 20, 1994, 108 Stat. 4044.)

SUBCHAPTER XV—MATTERS RELATING TO SAFEGUARDS, SECURITY, AND COUNTERINTELLIGENCE

CODIFICATION

This subchapter was enacted as part of subtitle D (§§ 3141–3156) of title XXXI of div. C of the National Defense Authorization Act for Fiscal Year 2000, known as the Department of Energy Facilities Safeguards, Security, and Counterintelligence Enhancement Act of 1999, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7383. Commission on Safeguards, Security, and Counterintelligence at Department of Energy Facilities

(a) Establishment

There is hereby established a commission to be known as the Commission on Safeguards, Security, and Counterintelligence at Department of Energy Facilities (in this section referred to as the ''Commission'').

(b) Membership and organization

(1) The Commission shall be composed of nine members appointed from among individuals in the public and private sectors who have significant experience in matters related to the security of nuclear weapons and materials, the classification of information, or counterintelligence matters, as follows:

(A) Two shall be appointed by the chairman of the Committee on Armed Services of the Senate, in consultation with the ranking member of that Committee.

(B) One shall be appointed by the ranking member of the Committee on Armed Services of the Senate, in consultation with the chairman of that Committee.

(C) Two shall be appointed by the chairman of the Committee on Armed Services of the House of Representatives, in consultation with the ranking member of that Committee.

(D) One shall be appointed by the ranking member of the Committee on Armed Services of the House of Representatives, in consultation with the chairman of that Committee.

(E) One shall be appointed by the Secretary of Defense.

(F) One shall be appointed by the Director of the Federal Bureau of Investigation.

(G) One shall be appointed by the Director of Central Intelligence.

(2) Members of the Commission shall be appointed for four year terms, except as follows:

(A) One member initially appointed under paragraph (1)(A) shall serve a term of two years, to be designated at the time of appointment.

(B) One member initially appointed under paragraph (1)(C) shall serve a term of two years, to be designated at the time of appointment.

(C) The member initially appointed under paragraph (1)(E) shall serve a term of two years.

(3) Any vacancy in the Commission shall be filled in the same manner as the original appointment and shall not affect the powers of the Commission.

(4)(A) After five members of the Commission have been appointed under paragraph (1), the chairman of the Committee on Armed Services of the Senate, in consultation with the chairman of the Committee on Armed Services of the House of Representatives, shall designate the chairman of the Commission from among the members appointed under paragraph (1)(A).

[1] So in original. No subsec. (b) has been enacted.

(B) The chairman of the Commission may be designated once five members of the Commission have been appointed under paragraph (1).

(5) The initial members of the Commission shall be appointed not later than 60 days after October 5, 1999.

(6) The members of the Commission shall establish procedures for the activities of the Commission, including procedures for calling meetings, requirements for quorums, and the manner of taking votes.

(7) The Commission shall meet not less often than once every three months.

(8) The Commission may commence its activities under this section upon the designation of the chairman of the Commission under paragraph (4).

(c) Duties

(1) The Commission shall, in accordance with this section, review the safeguards, security, and counterintelligence activities (including activities relating to information management, computer security, and personnel security) at Department of Energy facilities to—

(A) determine the adequacy of those activities to ensure the security of sensitive information, processes, and activities under the jurisdiction of the Department against threats to the disclosure of such information, processes, and activities; and

(B) make recommendations for actions the Commission determines as being necessary to ensure that such security is achieved and maintained.

(2) The activities of the Commission under paragraph (1) shall include the following:

(A) An analysis of the sufficiency of the Design Threat Basis documents as a basis for the allocation of resources for safeguards, security, and counterintelligence activities at the Department facilities in light of applicable guidance with respect to such activities, including applicable laws, Department of Energy orders, Presidential Decision Directives, and Executive orders.

(B) Visits to Department facilities to assess the adequacy of the safeguards, security, and counterintelligence activities at such facilities.

(C) Evaluations of specific concerns set forth in Department reports regarding the status of safeguards, security, or counterintelligence activities at particular Department facilities or at facilities throughout the Department.

(D) Reviews of relevant laws, Department orders, and other requirements relating to safeguards, security, and counterintelligence activities at Department facilities.

(E) Any other activities relating to safeguards, security, and counterintelligence activities at Department facilities that the Secretary of Energy considers appropriate.

(d) Reports

(1) Not later than February 15 each year, the Commission shall submit to the Secretary of Energy and to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the activities of the Commission during the preceding year. The report shall be submitted in unclassified form, but may include a classified annex.

(2) Each report—

(A) shall describe the activities of the Commission during the year covered by the report;

(B) shall set forth proposals for any changes in safeguards, security, or counterintelligence activities at Department of Energy facilities that the Commission considers appropriate in light of such activities; and

(C) may include any other recommendations for legislation or administrative action that the Commission considers appropriate.

(e) Personnel matters

(1)(A) Each member of the Commission who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of title 5 for each day (including travel time) during which such member is engaged in the performance of the duties of the Commission.

(B) All members of the Commission who are officers or employees of the United States shall serve without compensation by reason of their service on the Commission.

(2) The members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5 while away from their homes or regular places of business in the performance of services for the Commission.

(3)(A) The Commission may, without regard to the civil service laws and regulations, appoint and terminate such personnel as may be necessary to enable the Commission to perform its duties.

(B) The Commission may fix the compensation of the personnel of the Commission without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5 relating to classification of positions and General Schedule pay rates.

(4) Any officer or employee of the United States may be detailed to the Commission without reimbursement, and such detail shall be without interruption or loss of civil service status or privilege.

(5) The members and employees of the Commission shall hold security clearances appropriate for the matters considered by the Commission in the discharge of its duties under this section.

(f) Applicability of FACA

The provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the activities of the Commission.

(g) Funding

(1) From amounts authorized to be appropriated by sections 3101 and 3103, the Secretary of Energy shall make available to the Commission not more than $1,000,000 for the activities of the Commission under this section.

(2) Amounts made available to the Commission under this subsection shall remain available until expended.

(Pub. L. 106–65, div. C, title XXXI, § 3142, Oct. 5, 1999, 113 Stat. 931.)

REFERENCES IN TEXT

The civil service laws, referred to in subsec. (e)(3)(A), are set forth in Title 5, Government Organization and Employees. See, particularly, section 3301 et seq. of Title 5.

The Federal Advisory Committee Act, referred to in subsec. (f), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

Sections 3101 and 3103, referred to in subsec. (g), are sections 3101 and 3103 of Pub. L. 106–65, div. C, title XXXI, Oct. 5, 1999, 113 Stat. 915, 919, which are not classified to the Code.

CODIFICATION

Section is comprised of section 3142 of Pub. L. 106–65. Subsec. (h)(1) of section 3142 of Pub. L. 106–65 repealed section 3161 of Pub. L. 105–85, formerly set out as a note under section 7251 of this title. Subsec. (h)(2) of section 3142 of Pub. L. 106–65 amended section 3162 of Pub. L. 105–85, set out as a note under section 7274m of this title.

SHORT TITLE

Pub. L. 106–65, div. C, title XXXI, § 3141, Oct. 5, 1999, 113 Stat. 931, provided that: ''This subtitle [subtitle D, §§ 3141–3156, of title XXXI of div. C of Pub. L. 106–65, enacting this subchapter and section 2282b of this title, amending sections 2165, 2274, 2275, 2277, and 2282a of this title, enacting provisions set out as notes under sections 2165 and 2282b of this title and section 435 of Title 50, War and National Defense, amending provisions set out as a note under section 7274m of this title, and repealing provisions set out as a note under section 7251 of this title] may be cited as the 'Department of Energy Facilities Safeguards, Security, and Counterintelligence Enhancement Act of 1999'.''

§ 7383a. Background investigations of certain personnel at Department of Energy facilities

(a) In general

The Secretary of Energy shall ensure that an investigation meeting the requirements of section 2165 of this title is made for each Department of Energy employee, or contractor employee, at a national laboratory or nuclear weapons production facility who—

(1) carries out duties or responsibilities in or around a location where Restricted Data is present; or

(2) has or may have regular access to a location where Restricted Data is present.

(b) Compliance

The Secretary shall have 15 months from October 5, 1999, to meet the requirement in subsection (a) of this section.

(Pub. L. 106–65, div. C, title XXXI, § 3143, Oct. 5, 1999, 113 Stat. 934.)

§ 7383b. Protection of classified information during laboratory-to-laboratory exchanges

(a) Provision of training

The Secretary of Energy shall ensure that all Department of Energy employees and Department of Energy contractor employees participating in laboratory-to-laboratory cooperative exchange activities are fully trained in matters relating to the protection of classified information and to potential espionage and counterintelligence threats.

(b) Countering of espionage and intelligence-gathering abroad

(1) The Secretary shall establish a pool of Department employees and Department contractor employees who are specially trained to counter threats of espionage and intelligence-gathering by foreign nationals against Department employees and Department contractor employees who travel abroad for laboratory-to-laboratory exchange activities or other cooperative exchange activities on behalf of the Department.

(2) The Director of Counterintelligence of the Department of Energy may assign at least one employee from the pool established under paragraph (1) to accompany a group of Department employees or Department contractor employees who travel to any nation designated to be a sensitive country for laboratory-to-laboratory exchange activities or other cooperative exchange activities on behalf of the Department.

(Pub. L. 106–65, div. C, title XXXI, § 3145, Oct. 5, 1999, 113 Stat. 935.)

§ 7383c. Restrictions on access to national laboratories by foreign visitors from sensitive countries

(a) Background review required

The Secretary of Energy may not admit to any facility of a national laboratory other than areas accessible to the general public any individual who is a citizen or agent of a nation that is named on the current sensitive countries list unless the Secretary first completes a background review with respect to that individual.

(b) Moratorium pending certification

(1) During the period described in paragraph (2), the Secretary may not admit to any facility of a national laboratory other than areas accessible to the general public any individual who is a citizen or agent of a nation that is named on the current sensitive countries list.

(2) The period referred to in paragraph (1) is the period beginning 30 days after October 5, 1999, and ending on the later of the following:

(A) The date that is 90 days after October 5, 1999.

(B) The date that is 45 days after the date on which the Secretary submits to Congress the certifications described in paragraph (3).

(3) The certifications referred to in paragraph (2) are one certification each by the Director of Counterintelligence of the Department of Energy, the Director of the Federal Bureau of Investigation, and the Director of Central Intelligence, of each of the following:

(A) That the foreign visitors program at that facility complies with applicable orders, regulations, and policies of the Department of Energy relating to the safeguarding and security of sensitive information and fulfills any counterintelligence requirements arising under such orders, regulations, and policies.

(B) That the foreign visitors program at that facility complies with Presidential Decision Directives and similar requirements relating to the safeguarding and security of sensitive information and fulfills any counterintelligence requirements arising under such Directives or requirements.

(C) That the foreign visitors program at that facility includes adequate protections against the inadvertent release of Restricted Data, information important to the national security of the United States, and any other sensitive information the disclosure of which might harm the interests of the United States.

(D) That the foreign visitors program at that facility does not pose an undue risk to the national security interests of the United States.

(c) Waiver of moratorium

(1) The Secretary of Energy may waive the prohibition in subsection (b) of this section on a case-by-case basis with respect to any specific individual or any specific delegation of individuals whose admission to a national laboratory is determined by the Secretary to be in the interest of the national security of the United States.

(2) Not later than the seventh day of the month following a month in which a waiver is made, the Secretary shall submit a report in writing providing notice of each waiver made in that month to the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

(3) Each such report shall be in classified form and shall contain the identity of each individual or delegation for whom such a waiver was made and, with respect to each such individual or delegation, the following information:

(A) A detailed justification for the waiver.

(B) For each individual with respect to whom a background review was conducted, whether the background review determined that negative information exists with respect to that individual.

(C) The Secretary's certification that the admission of that individual or delegation to a national laboratory is in the interest of the national security of the United States.

(4) The authority of the Secretary under paragraph (1) may be delegated only to the Director of Counterintelligence of the Department of Energy.

(d) Exception to moratorium for certain individuals

The moratorium under subsection (b) of this section shall not apply to any person who—

(1) is, on October 5, 1999, an employee or assignee of the Department of Energy, or of a contractor of the Department; and

(2) has undergone a background review in accordance with subsection (a) of this section.

(e) Exception to moratorium for certain programs

The moratorium under subsection (b) of this section shall not apply—

(1) to activities relating to cooperative threat reduction with states of the former Soviet Union; or

(2) to the materials protection control and accounting program of the Department.

(f) Sense of Congress regarding background reviews

It is the sense of Congress that the Secretary of Energy, the Director of the Federal Bureau of Investigation, and the Director of Central Intelligence should ensure that background reviews carried out under this section are completed in not more than 15 days.

(g) Definitions

For purposes of this section:

(1) The term ''background review'', commonly known as an indices check, means a review of information provided by the Director of Central Intelligence and the Director of the Federal Bureau of Investigation regarding personal background, including information relating to any history of criminal activity or to any evidence of espionage.

(2) The term ''sensitive countries list'' means the list prescribed by the Secretary of Energy known as the Department of Energy List of Sensitive Countries as in effect on January 1, 1999.

(Pub. L. 106–65, div. C, title XXXI, §3146, Oct. 5, 1999, 113 Stat. 935.)

§ 7383d. Notice to congressional committees of certain security and counterintelligence failures within nuclear energy defense programs

(a) Required notification

The Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives a notification of each significant nuclear defense intelligence loss. Any such notification shall be provided only after consultation with the Director of Central Intelligence and the Director of the Federal Bureau of Investigation, as appropriate.

(b) Significant nuclear defense intelligence losses

In this section, the term ''significant nuclear defense intelligence loss'' means any national security or counterintelligence failure or compromise of classified information at a facility of the Department of Energy or operated by a contractor of the Department that the Secretary considers likely to cause significant harm or damage to the national security interests of the United States.

(c) Manner of notification

Notification of a significant nuclear defense intelligence loss under subsection (a) of this section shall be provided, in accordance with the procedures established pursuant to subsection (d) of this section, not later than 30 days after the date on which the Department of Energy determines that the loss has taken place.

(d) Procedures

The Secretary of Energy and the Committees on Armed Services of the Senate and House of Representatives shall each establish such procedures as may be necessary to protect from unauthorized disclosure classified information, information relating to intelligence sources and methods, and sensitive law enforcement information that is submitted to those committees pursuant to this section and that are otherwise necessary to carry out the provisions of this section.

(e) Statutory construction

(1) Nothing in this section shall be construed as authority to withhold any information from

the Committees on Armed Services of the Senate and House of Representatives on the grounds that providing the information to those committees would constitute the unauthorized disclosure of classified information, information relating to intelligence sources and methods, or sensitive law enforcement information.

(2) Nothing in this section shall be construed to modify or supersede any other requirement to report information on intelligence activities to the Congress, including the requirement under section 413 of title 50 for the President to ensure that the congressional intelligence committees are kept fully informed of the intelligence activities of the United States and for those committees to notify promptly other congressional committees of any matter relating to intelligence activities requiring the attention of those committees.

(Pub. L. 106–65, div. C, title XXXI, §3150, Oct. 5, 1999, 113 Stat. 939.)

§ 7383e. Annual report by the President on espionage by the People's Republic of China

(a) Annual report required

The President shall transmit to Congress an annual report on the steps being taken by the Department of Energy, the Department of Defense, the Federal Bureau of Investigation, the Central Intelligence Agency, and all other relevant executive departments and agencies to respond to espionage and other intelligence activities by the People's Republic of China, particularly with respect to—

(1) the theft of sophisticated United States nuclear weapons design information; and

(2) the targeting by the People's Republic of China of United States nuclear weapons codes and other national security information of strategic concern.

(b) Initial report

The first report under this section shall be transmitted not later than March 1, 2000.

(Pub. L. 106–65, div. C, title XXXI, §3151, Oct. 5, 1999, 113 Stat. 939.)

§ 7383f. Report on counterintelligence and security practices at national laboratories

(a) In general

Not later than March 1 of each year, the Secretary of Energy shall submit to the Congress a report for the preceding year on counterintelligence and security practices at the facilities of the national laboratories (whether or not classified activities are carried out at the facility).

(b) Content of report

The report shall include, with respect to each national laboratory, the following:

(1) The number of employees, including full-time counterintelligence and security professionals and contractor employees.

(2) A description of the counterintelligence and security training courses conducted and, for each such course, any requirement that employees successfully complete that course.

(3) A description of each contract awarded that provides an incentive for the effective performance of counterintelligence or security activities.

(4) A description of the requirement that an employee report the travel to sensitive countries of that employee (whether or not the travel was for official business).

(5) The number of trips by individuals who traveled to sensitive countries, with identification of the sensitive countries visited.

(Pub. L. 106–65, div. C, title XXXI, §3152, Oct. 5, 1999, 113 Stat. 940.)

§ 7383g. Report on security vulnerabilities of national laboratory computers

(a) Report required

Not later than March 1 of each year, the National Counterintelligence Policy Board shall prepare a report on the security vulnerabilities of the computers of the national laboratories.

(b) Preparation of report

In preparing the report, the National Counterintelligence Policy Board shall establish a so-called ''red team'' of individuals to perform an operational evaluation of the security vulnerabilities of the computers of one or more national laboratories, including by direct experimentation. Such individuals shall be selected by the National Counterintelligence Policy Board from among employees of the Department of Defense, the National Security Agency, the Central Intelligence Agency, the Federal Bureau of Investigation, and of other agencies, and may be detailed to the National Counterintelligence Policy Board from such agencies without reimbursement and without interruption or loss of civil service status or privilege.

(c) Submission of report to Secretary of Energy and to FBI Director

Not later than March 1 of each year, the report shall be submitted in classified and unclassified form to the Secretary of Energy and the Director of the Federal Bureau of Investigation.

(d) Forwarding to congressional committees

Not later than 30 days after the report is submitted, the Secretary and the Director shall each separately forward that report, with the recommendations in classified and unclassified form of the Secretary or the Director, as applicable, in response to the findings of that report, to the following:

(1) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

(e) First report

The first report under this section shall be the report for the year 2000. That report shall cover each of the national laboratories.

(Pub. L. 106–65, div. C, title XXXI, §3153, Oct. 5, 1999, 113 Stat. 940.)

§ 7383h. Counterintelligence polygraph program

(a) Program required

The Secretary of Energy, acting through the Director of Counterintelligence, shall carry out

a counterintelligence polygraph program for the defense-related activities of the Department. The counterintelligence polygraph program shall consist of the administration of counterintelligence polygraph examinations to each covered person who has access to high-risk programs.

(b) Covered persons

(1) Subject to paragraph (2), for purposes of this section, a covered person is one of the following:

(A) An officer or employee of the Department.

(B) An expert or consultant under contract to the Department.

(C) An officer or employee of a contractor of the Department.

(D) An individual assigned or detailed to the Department.

(E) An applicant for a position in the Department.

(2) A person described in paragraph (1) is a covered person for purposes of this section only if the position of the person, or for which the person is applying, under that paragraph is a position in one of the categories of positions listed in section 709.4(a) of title 10, Code of Federal Regulations.

(c) High-risk programs

For purposes of this section, high-risk programs are the following:

(1) Programs using information known as Sensitive Compartmented Information.

(2) The programs known as Special Access Programs and Personnel Security and Assurance Programs.

(3) Any other program or position category specified in section 709.4(a) of title 10, Code of Federal Regulations.

(d) Initial testing and consent

(1) The Secretary may not permit a covered person to have initial access to any high-risk program unless that person first undergoes a counterintelligence polygraph examination and consents in a signed writing to the counterintelligence polygraph examinations required by this section.

(2) Subject to paragraph (3), the Secretary may, after consultation with appropriate security personnel, waive the applicability of paragraph (1) to a covered person—

(A) if—

(i) the Secretary determines that the waiver is important to the national security interests of the United States;

(ii) the covered person has an active security clearance; and

(iii) the covered person acknowledges in a signed writing that the capacity of the covered person to perform duties under a high-risk program after the expiration of the waiver is conditional upon meeting the requirements of paragraph (1) within the effective period of the waiver;

(B) if another Federal agency certifies to the Secretary that the covered person has completed successfully a full-scope or counterintelligence-scope polygraph examination during the 5-year period ending on the date of the certification; or

(C) if the Secretary determines, after consultation with the covered person and appropriate medical personnel, that the treatment of a medical or psychological condition of the covered person should preclude the administration of the examination.

(3)(A) The Secretary may not commence the exercise of the authority under paragraph (2) to waive the applicability of paragraph (1) to any covered persons until 15 days after the date on which the Secretary submits to the appropriate committees of Congress a report setting forth the criteria to be used by the Secretary for determining when a waiver under paragraph (2)(A) is important to the national security interests of the United States. The criteria shall not include the need to maintain the scientific vitality of the laboratory. The criteria shall include an assessment of counterintelligence risks and programmatic impacts.

(B) Any waiver under paragraph (2)(A) shall be effective for not more than 120 days, and a person who is subject to a waiver under paragraph (2)(A) may not ever be subject to another waiver under paragraph (2)(A).

(C) Any waiver under paragraph (2)(C) shall be effective for the duration of the treatment on which such waiver is based.

(4) The Secretary shall submit to the appropriate committees of Congress on a semi-annual basis a report on any determinations made under paragraph (2)(A) during the 6-month period ending on the date of such report. The report shall include a national security justification for each waiver resulting from such determinations.

(5) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

(6) It is the sense of Congress that the waiver authority in paragraph (2) not be used by the Secretary to exempt from the applicability of paragraph (1) any covered persons in the highest risk categories, such as persons who have access to the most sensitive weapons design information and other highly sensitive programs, including special access programs.

(7) The authority under paragraph (2) to waive the applicability of paragraph (1) to a covered person shall expire on September 30, 2002.

(e) Additional testing

The Secretary may not permit a covered person to have continued access to any high-risk program unless that person undergoes a counterintelligence polygraph examination within five years after that person has initial access, and thereafter—

(1) not less frequently than every five years; and

(2) at any time at the direction of the Director of Counterintelligence.

(f) Counterintelligence polygraph examination

For purposes of this section, the term ''counterintelligence polygraph examination'' means a

polygraph examination using questions reasonably calculated to obtain counterintelligence information, including questions relating to espionage, sabotage, terrorism, unauthorized disclosure of classified information, deliberate damage to or malicious misuse of a United States Government information or defense system, and unauthorized contact with foreign nationals.

(g) Regulations

The Secretary shall prescribe any regulations necessary to carry out this section. Those regulations shall include procedures, to be developed in consultation with the Federal Bureau of Investigation, for—

(1) identifying and addressing ''false positive'' results of polygraph examinations; and

(2) ensuring that adverse personnel actions not be taken against an individual solely by reason of that individual's physiological reaction to a question in a polygraph examination, unless reasonable efforts are first made to independently determine through alternative means the veracity of that individual's response to that question.

(h) Plan for extension of program

Not later than 180 days after October 5, 1999, the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a plan on extending the program required by this section. The plan shall provide for the administration of counterintelligence polygraph examinations in accordance with the program to each covered person who has access to—

(1) the programs known as Personnel Assurance Programs; and

(2) the information identified as Sensitive Compartmented Information.

(Pub. L. 106–65, div. C, title XXXI, §3154, Oct. 5, 1999, 113 Stat. 941; Pub. L. 106–398, §1 [div. C, title XXXI, §3135], Oct. 30, 2000, 114 Stat. 1654, 1654A–456.)

REPEAL OF SECTION

Pub. L. 107–107, div. C, title XXXI, §3152(c), Dec. 28, 2001, 115 Stat. 1377, provided that, effective 30 days after the Secretary submits to the Committees on Armed Services and Appropriations of Senate and House of Representatives the Secretary's certification that the final rule for the new counterintelligence polygraph program required by section 7383h–1(a) of this title has been fully implemented, this section is repealed.

AMENDMENTS

2000—Subsec. (b). Pub. L. 106–398, §1 [div. C, title XXXI, §3135(a)], amended heading and text of subsec. (b) generally. Prior to amendment, text read as follows: ''For purposes of this section, a covered person is one of the following:

''(1) An officer or employee of the Department.

''(2) An expert or consultant under contract to the Department.

''(3) An officer or employee of a contractor of the Department.''

Subsec. (c). Pub. L. 106–398, §1 [div. C, title XXXI, §3135(b)], amended heading and text of subsec. (c) generally. Prior to amendment, text read as follows: ''For purposes of this section, high-risk programs are the programs known as—

''(1) Special Access Programs; and

''(2) Personnel Security and Assurance Programs.''

Subsec. (d). Pub. L. 106–398, §1 [div. C, title XXXI, §3135(c)], designated existing provisions as par. (1) and added pars. (2) to (7).

Subsec. (f). Pub. L. 106–398, §1 [div. C, title XXXI, §3135(d)], inserted ''terrorism,'' after ''sabotage,'' and ''deliberate damage to or malicious misuse of a United States Government information or defense system,'' before ''and unauthorized''.

EFFECTIVE DATE OF REPEAL

Pub. L. 107–107, div. C, title XXXI, §3152(c), Dec. 28, 2001, 115 Stat. 1377, provided that this section is repealed effective 30 days after the Secretary of Energy submits to the Committees on Armed Services and Appropriations of Senate and House of Representatives the Secretary's certification that the final rule for the new counterintelligence polygraph program required by section 7383h–1(a) of this title has been fully implemented.

§ 7383h–1. Department of Energy counterintelligence polygraph program

(a) New counterintelligence polygraph program required

The Secretary of Energy shall carry out, under regulations prescribed under this section, a new counterintelligence polygraph program for the Department of Energy. The purpose of the new program is to minimize the potential for release or disclosure of classified data, materials, or information.

(b) Authorities and limitations

(1) The Secretary shall prescribe regulations for the new counterintelligence polygraph program required by subsection (a) of this section in accordance with the provisions of subchapter II of chapter 5 of title 5 (commonly referred to as the Administrative Procedures Act).

(2) In prescribing regulations for the new program, the Secretary shall take into account the results of the Polygraph Review.

(3) Not later than six months after obtaining the results of the Polygraph Review, the Secretary shall issue a notice of proposed rulemaking for the new program.

(c) Omitted

(d) Report on further enhancement of personnel security program

(1) Not later than January 1, 2003, the Administrator for Nuclear Security shall submit to Congress a report setting forth the recommendations of the Administrator for any legislative action that the Administrator considers appropriate in order to enhance the personnel security program of the Department of Energy.

(2) Any recommendations under paragraph (1) regarding the use of polygraphs shall take into account the results of the Polygraph Review.

(e) Polygraph Review defined

In this section, the term ''Polygraph Review'' means the review of the Committee to Review the Scientific Evidence on the Polygraph of the National Academy of Sciences.

(Pub. L. 107–107, div. C, title XXXI, §3152, Dec. 28, 2001, 115 Stat. 1376.)

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 2002, and not as part

of the Department of Energy Organization Act which comprises this chapter or as part of the Department of Energy Facilities Safeguards, Security, and Counterintelligence Enhancement Act of 1999 which comprises this subchapter.

Section is comprised of section 3152 of Pub. L. 107–107. Subsec. (c) of section 3152 of Pub. L. 107–107 repealed section 7383h of this title.

§ 7383i. Definitions of national laboratory and nuclear weapons production facility

For purposes of this subchapter:

(1) The term ''national laboratory'' means any of the following:

(A) The Lawrence Livermore National Laboratory, Livermore, California.

(B) The Los Alamos National Laboratory, Los Alamos, New Mexico.

(C) The Sandia National Laboratories, Albuquerque, New Mexico and Livermore, California.

(2) The term ''nuclear weapons production facility'' means any of the following:

(A) The Kansas City Plant, Kansas City, Missouri.

(B) The Pantex Plant, Amarillo, Texas.

(C) The Y–12 Plant, Oak Ridge, Tennessee.

(D) The tritium operations at the Savannah River Site, Aiken, South Carolina.

(E) The Nevada Test Site, Nevada.

(Pub. L. 106–65, div. C, title XXXI, § 3155, Oct. 5, 1999, 113 Stat. 942.)

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original ''this subtitle'', meaning subtitle D of title XXXI of div. C of Pub. L. 106–65, Oct. 5, 1999, 113 Stat. 931, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Short Title note set out under section 7383 of this title and Tables.

§ 7383j. Definition of Restricted Data

In this subchapter, the term ''Restricted Data'' has the meaning given that term in section 2014(y) of this title.

(Pub. L. 106–65, div. C, title XXXI, § 3156, Oct. 5, 1999, 113 Stat. 942.)

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original ''this subtitle'', meaning subtitle D of title XXXI of div. C of Pub. L. 106–65, Oct. 5, 1999, 113 Stat. 931, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Short Title note set out under section 7383 of this title and Tables.

SUBCHAPTER XVI—ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION PROGRAM

CODIFICATION

This subchapter was enacted as title XXXVI of div. C of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, known as the Energy Employees Occupational Illness Compensation Program Act of 2000, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7384. Findings; sense of Congress

(a) Findings

The Congress finds the following:

(1) Since World War II, Federal nuclear activities have been explicitly recognized under Federal law as activities that are ultra-hazardous. Nuclear weapons production and testing have involved unique dangers, including potential catastrophic nuclear accidents that private insurance carriers have not covered and recurring exposures to radioactive substances and beryllium that, even in small amounts, can cause medical harm.

(2) Since the inception of the nuclear weapons program and for several decades afterwards, a large number of nuclear weapons workers at sites of the Department of Energy and at sites of vendors who supplied the Cold War effort were put at risk without their knowledge and consent for reasons that, documents reveal, were driven by fears of adverse publicity, liability, and employee demands for hazardous duty pay.

(3) Many previously secret records have documented unmonitored exposures to radiation and beryllium and continuing problems at these sites across the Nation, at which the Department of Energy and its predecessor agencies have been, since World War II, self-regulating with respect to nuclear safety and occupational safety and health. No other hazardous Federal activity has been permitted to be carried out under such sweeping powers of self-regulation.

(4) The policy of the Department of Energy has been to litigate occupational illness claims, which has deterred workers from filing workers' compensation claims and has imposed major financial burdens for such employees who have sought compensation. Contractors of the Department have been held harmless and the employees have been denied workers' compensation coverage for occupational disease.

(5) Over the past 20 years, more than two dozen scientific findings have emerged that indicate that certain of such employees are experiencing increased risks of dying from cancer and non-malignant diseases. Several of these studies have also established a correlation between excess diseases and exposure to radiation and beryllium.

(6) While linking exposure to occupational hazards with the development of occupational disease is sometimes difficult, scientific evidence supports the conclusion that occupational exposure to dust particles or vapor of beryllium can cause beryllium sensitivity and chronic beryllium disease. Furthermore, studies indicate than 98 percent of radiation-induced cancers within the nuclear weapons complex have occurred at dose levels below existing maximum safe thresholds.

(7) Existing information indicates that State workers' compensation programs do not provide a uniform means of ensuring adequate compensation for the types of occupational illnesses and diseases that relate to the employees at those sites.

(8) To ensure fairness and equity, the civilian men and women who, over the past 50 years, have performed duties uniquely related to the nuclear weapons production and testing programs of the Department of Energy and its

predecessor agencies should have efficient, uniform, and adequate compensation for beryllium-related health conditions and radiation-related health conditions.

(9) On April 12, 2000, the Secretary of Energy announced that the Administration intended to seek compensation for individuals with a broad range of work-related illnesses throughout the Department of Energy's nuclear weapons complex.

(10) However, as of October 2, 2000, the Administration has failed to provide Congress with the necessary legislative and budget proposals to enact the promised compensation program.

(b) Sense of Congress

It is the sense of Congress that—

(1) a program should be established to provide compensation to covered employees;

(2) a fund for payment of such compensation should be established on the books of the Treasury;

(3) payments from that fund should be made only after—

(A) the identification of employees of the Department of Energy (including its predecessor agencies), and of contractors of the Department, who may be members of the group of covered employees;

(B) the establishment of a process to receive and administer claims for compensation for disability or death of covered employees;

(C) the submittal by the President of a legislative proposal for compensation of such employees that includes the estimated annual budget resources for that compensation; and

(D) consideration by the Congress of the legislative proposal submitted by the President; and

(4) payments from that fund should commence not later than fiscal year 2002.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3602], Oct. 30, 2000, 114 Stat. 1654, 1654A–495.)

SHORT TITLE

Pub. L. 106–398, §1 [div. C, title XXXVI, §3601], Oct. 30, 2000, 114 Stat. 1654, 1654A–495, provided that: ''This title [enacting this subchapter] may be cited as the 'Energy Employees Occupational Illness Compensation Program Act of 2000'.''

STUDY OF RESIDUAL CONTAMINATION OF FACILITIES

Pub. L. 107–107, div. C, title XXXI, §3151(b), Dec. 28, 2001, 115 Stat. 1375, provided that:

''(1) The National Institute for Occupational Safety and Health shall, with the cooperation of the Department of Energy and the Department of Labor, carry out a study on the following matters:

''(A) Whether or not significant contamination remained in any atomic weapons employer facility or facility of a beryllium vendor after such facility discontinued activities relating to the production of nuclear weapons.

''(B) If so, whether or not such contamination could have caused or substantially contributed to the cancer of a covered employee with cancer or a covered beryllium illness, as the case may be.

''(2)(A) The National Institute for Occupational Safety and Health shall submit to the applicable congressional committees the following reports:

''(i) Not later than 180 days after the date of the enactment of this Act [Dec. 28, 2001], a report on the progress made as of the date of the report on the study required by paragraph (1).

''(ii) Not later than one year after the date of the enactment of this Act, a final report on the study required by paragraph (1).

''(B) In this paragraph, the term 'applicable congressional committees' means—

''(i) the Committee on Armed Services, Committee on Appropriations, Committee on the Judiciary, and Committee on Health, Education, Labor, and Pensions of the Senate; and

''(ii) the Committee on Armed Services, Committee on Appropriations, Committee on the Judiciary, and Committee on Education and the Workforce of the House of Representatives.

''(3) Amounts for the study under paragraph (1) shall be derived from amounts authorized to be appropriated by section 3614(a) of the Energy Employees Occupational Illness Compensation Program Act of 2000 (114 Stat. 1654A–498) [42 U.S.C. 7384g(a)].

''(4) In this subsection:

''(A) The terms 'atomic weapons employer facility', 'beryllium vendor', 'covered employee with cancer', and 'covered beryllium illness' have the meanings given those terms in section 3621 of the Energy Employees Occupational Illness Compensation Program Act of 2000 (114 Stat. 1654A–498; 42 U.S.C. 7384*l*).

''(B) The term 'contamination' means the presence of any—

''(i) material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining and milling; or

''(ii) beryllium dust, particles, or vapor,

exposure to which could cause or substantially contribute to the cancer of a covered employee with cancer or a covered beryllium illness, as the case may be.''

EX. ORD. NO. 13179. PROVIDING COMPENSATION TO AMERICA'S NUCLEAR WEAPONS WORKERS

Ex. Ord. No. 13179, Dec. 7, 2000, 65 F.R. 77487, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including Public Law 106–398, the Energy Employees Occupational Illness Compensation Program Act of 2000 [42 U.S.C. 7384 et seq.] (Public Law 106–398, the ''Act''), and to allocate the responsibilities imposed by that legislation and to provide for further legislative efforts, it is hereby ordered as follows:

SECTION 1. *Policy*. Since World War II, hundreds of thousands of men and women have served their Nation in building its nuclear defense. In the course of their work, they overcame previously unimagined scientific and technical challenges. Thousands of these courageous Americans, however, paid a high price for their service, developing disabling or fatal illnesses as a result of exposure to beryllium, ionizing radiation, and other hazards unique to nuclear weapons production and testing. Too often, these workers were neither adequately protected from, nor informed of, the occupational hazards to which they were exposed.

Existing workers' compensation programs have failed to provide for the needs of these workers and their families. Federal workers' compensation programs have generally not included these workers. Further, because of long latency periods, the uniqueness of the hazards to which they were exposed, and inadequate exposure data, many of these individuals have been unable to obtain State workers' compensation benefits. This problem has been exacerbated by the past policy of the Department of Energy (DOE) and its predecessors of encouraging and assisting DOE contractors in opposing the claims of workers who sought those benefits. This policy has recently been reversed.

While the Nation can never fully repay these workers or their families, they deserve recognition and compensation for their sacrifices. Since the Administration's historic announcement in July of 1999 that it in-

tended to compensate DOE nuclear weapons workers who suffered occupational illnesses as a result of exposure to the unique hazards in building the Nation's nuclear defense, it has been the policy of this Administration to support fair and timely compensation for these workers and their survivors. The Federal Government should provide necessary information and otherwise help employees of the DOE or its contractors determine if their illnesses are associated with conditions of their nuclear weapons-related work; it should provide workers and their survivors with all pertinent and available information necessary for evaluating and processing claims; and it should ensure that this program minimizes the administrative burden on workers and their survivors, and respects their dignity and privacy. This order sets out agency responsibilities to accomplish these goals, building on the Administration's articulated principles and the framework set forth in the Energy Employees Occupational Illness Compensation Program Act of 2000 [42 U.S.C. 7384 et seq.]. The Departments of Labor, Health and Human Services, and Energy shall be responsible for developing and implementing actions under the Act to compensate these workers and their families in a manner that is compassionate, fair, and timely. Other Federal agencies, as appropriate, shall assist in this effort.

SEC. 2. *Designation of Responsibilities for Administering the Energy Employees' Occupational Illness Compensation Program (''Program'').*

(a) *Secretary of Labor.* The Secretary of Labor shall have primary responsibility for administering the Program. Specifically, the Secretary shall:

(i) Administer and decide all questions arising under the Act not assigned to other agencies by the Act or by this order, including determining the eligibility of individuals with covered occupational illnesses and their survivors and adjudicating claims for compensation and benefits;

(ii) No later than May 31, 2001, promulgate regulations for the administration of the Program, except for functions assigned to other agencies pursuant to the Act or this order;

(iii) No later than July 31, 2001, ensure the availability, in paper and electronic format, of forms necessary for making claims under the Program; and

(iv) Develop informational materials, in coordination with the Secretary of Energy and the Secretary of Health and Human Services, to help potential claimants understand the Program and the application process, and provide these materials to individuals upon request and to the Secretary of Energy and the Attorney General for dissemination to potentially eligible individuals.

(b) *Secretary of Health and Human Services.* The Secretary of Health and Human Services shall:

(i) No later than May 31, 2001, promulgate regulations establishing:

(A) guidelines, pursuant to section 3623(c) of the Act [42 U.S.C. 7384n(c)], to assess the likelihood that an individual with cancer sustained the cancer in the performance of duty at a Department of Energy facility or an atomic weapons employer facility, as defined by the Act; and

(B) methods, pursuant to section 3623(d) of the Act, for arriving at and providing reasonable estimates of the radiation doses received by individuals applying for assistance under this program for whom there are inadequate records of radiation exposure;

(ii) In accordance with procedures developed by the Secretary of Health and Human Services, consider and issue determinations on petitions by classes of employees to be treated as members of the Special Exposure Cohort;

(iii) With the assistance of the Secretary of Energy, apply the methods promulgated under subsection (b)(i)(B) to estimate the radiation doses received by individuals applying for assistance;

(iv) Upon request from the Secretary of Energy, appoint members for a physician panel or panels to consider individual workers' compensation claims as part of the Worker Assistance Program under the process established pursuant to subsection (c)(v); and

(v) Provide the Advisory Board established under section 4 of this order with administrative services, funds, facilities, staff, and other necessary support services and perform the administrative functions of the President under the Federal Advisory Committee Act, as amended (5 U.S.C. App.), with respect to the Advisory Board.

(c) *Secretary of Energy.* The Secretary of Energy shall:

(i) Provide the Secretary of Health and Human Services and the Advisory Board on Radiation and Worker Health access, in accordance with law, to all relevant information pertaining to worker exposures, including access to restricted data, and any other technical assistance needed to carry out their responsibilities under subsection (b)(ii) and section 4(b), respectively.

(ii) Upon request from the Secretary of Health and Human Services or the Secretary of Labor, and as permitted by law, require a DOE contractor, subcontractor, or designated beryllium vendor, pursuant to section 3631(c) of the Act [42 U.S.C. 7384v(c)], to provide information relevant to a claim under this Program;

(iii) Identify and notify potentially eligible individuals of the availability of compensation under the Program;

(iv) Designate, pursuant to sections 3621(4)(B) and 3622 of the Act [42 U.S.C. 7384*l*(4)(B), 7384m], atomic weapons employers and additions to the list of designated beryllium vendors;

(v) Pursuant to Subtitle D of the Act [42 U.S.C. 7385*o*], negotiate agreements with the chief executive officer of each State in which there is a DOE facility, and other States as appropriate, to provide assistance to a DOE contractor employee on filing a State workers' compensation system claim, and establish a Worker Assistance Program to help individuals whose illness is related to employment in the DOE's nuclear weapons complex, or the individual's survivor if the individual is deceased, in applying for State workers' compensation benefits. This assistance shall include:

(1) Submittal of reasonable claims to a physician panel, appointed by the Secretary of Health and Human Services and administered by the Secretary of Energy, under procedures established by the Secretary of Energy, for determination of whether the individual's illness or death arose out of and in the course of employment by the DOE or its contractors and exposure to a toxic substance at a DOE facility; and

(2) For cases determined by the physician panel and the Secretary of Energy under section 3661(d) and (e) of the Act [42 U.S.C. 7385*o*(d), (e)] to have arisen out of and in the course of employment by the DOE or its contractors and exposure to a toxic substance at a DOE facility, provide assistance to the individual in filing for workers' compensation benefits. The Secretary shall not contest these claims and, to the extent permitted by law, shall direct a DOE contractor who employed the applicant not to contest the claim;

(vi) Report on the Worker Assistance Program by making publicly available on at least an annual basis claims-related data, including the number of claims filed, the number of illnesses found to be related to work at a DOE facility, job location and description, and number of successful State workers' compensation claims awarded; and

(vii) No later than January 15, 2001, publish in the Federal Register a list of atomic weapons employer facilities within the meaning of section 3621(5) of the Act [42 U.S.C. 7384*l*(5)], Department of Energy employer facilities within the meaning of section 3621(12) of the Act, and a list of facilities owned and operated by a beryllium vendor, within the meaning of section 3621(6) of the Act.

(d) *Attorney General.* The Attorney General shall:

(i) Develop procedures to notify, to the extent possible, each claimant (or the survivor of that claimant if deceased) whose claim for compensation under section 5 of the Radiation Exposure Compensation Act [Pub. L. 101–426, 42 U.S.C. 2210 note] has been or is ap-

proved by the Department of Justice, of the availability of supplemental compensation and benefits under the Energy Employees Occupational Illness Compensation Program;

(ii) Identify and notify eligible covered uranium employees or their survivors of the availability of supplemental compensation under the Program; and

(iii) Upon request by the Secretary of Labor, provide information needed to adjudicate the claim of a covered uranium employee under this Program.

SEC. 3. *Establishment of Interagency Working Group.*

(a) There is hereby established an Interagency Working Group to be composed of representatives from the Office of Management and Budget, the National Economic Council, and the Departments of Labor, Energy, Health and Human Services, and Justice.

(b) The Working Group shall:

(i) By January 1, 2001, develop a legislative proposal to ensure the Program's fairness and efficiency, including provisions to assure adequate administrative resources and swift dispute resolution; and

(ii) Address any impediments to timely and coordinated Program implementation.

SEC. 4. *Establishment of Advisory Board on Radiation and Worker Health.*

(a) Pursuant to Public Law 106–398, there is hereby established an Advisory Board on Radiation and Health (Advisory Board). The Advisory Board shall consist of no more than 20 members to be appointed by the President. Members shall include affected workers and their representatives, and representatives from scientific and medical communities. The President shall designate a Chair for the Board among its members.

(b) The Advisory Board shall:

(i) Advise the Secretary of Health and Human Services on the development of guidelines under section 2(b)(i) of this order;

(ii) Advise the Secretary of Health and Human Services on the scientific validity and quality of dose reconstruction efforts performed for this Program; and

(iii) Upon request by the Secretary of Health and Human Services, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is a reasonable likelihood that such radiation dose may have endangered the health of members of the class.

SEC. 5. *Reporting Requirements.* The Secretaries of Labor, Health and Human Services, and Energy shall, as part of their annual budget submissions, report to the Office of Management and Budget (OMB) on their activities under this Program, including total expenditures related to benefits and program administration. They shall also report to the OMB, no later than March 1, 2001, on the manner in which they will carry out their respective responsibilities under the Act and this order. This report shall include, among other things, a description of the administrative structure established within their agencies to implement the Act and this order. In addition, the Secretary of Labor shall annually report on the total number and types of claims for which compensation was considered and other data pertinent to evaluating the Federal Government's performance fulfilling the requirements of the Act and this order.

SEC. 6. *Administration and Judicial Review.* (a) This Executive Order shall be carried out subject to the availability of appropriations, and to the extent permitted by law.

(b) This Executive Order does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers or employees, or any other person.

WILLIAM J. CLINTON.

PART A—ESTABLISHMENT OF COMPENSATION PROGRAM AND COMPENSATION FUND

§ 7384d. Establishment of Energy Employees Occupational Illness Compensation Program

(a) Program established

There is hereby established a program to be known as the ''Energy Employees Occupational Illness Compensation Program'' (in this subchapter referred to as the ''compensation program''). The President shall carry out the compensation program through one or more Federal agencies or officials, as designated by the President.

(b) Purpose of program

The purpose of the compensation program is to provide for timely, uniform, and adequate compensation of covered employees and, where applicable, survivors of such employees, suffering from illnesses incurred by such employees in the performance of duty for the Department of Energy and certain of its contractors and subcontractors.

(c) Eligibility for compensation

The eligibility of covered employees for compensation under the compensation program shall be determined in accordance with the provisions of part B as may be modified by a law enacted after the date of the submittal of the proposal for legislation required by section 7384f of this title.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3611], Oct. 30, 2000, 114 Stat. 1654, 1654A–497.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7384r of this title.

§ 7384e. Establishment of Energy Employees Occupational Illness Compensation Fund

(a) Establishment

There is hereby established on the books of the Treasury a fund to be known as the ''Energy Employees Occupational Illness Compensation Fund'' (in this subchapter referred to as the ''compensation fund'').

(b) Amounts in compensation fund

The compensation fund shall consist of the following amounts:

(1) Amounts appropriated to the compensation fund pursuant to the authorization of appropriations in section 7384g(b) of this title.

(2) Amounts transferred to the compensation fund under subsection (c) of this section.

(c) Financing of compensation fund

Upon the exhaustion of amounts in the compensation fund attributable to the authorization of appropriations in section 7384g(b) of this title, the Secretary of the Treasury shall transfer directly to the compensation fund from the General Fund of the Treasury, without further appropriation, such amounts as are further necessary to carry out the compensation program.

(d) Use of compensation fund

Subject to subsection (e) of this section, amounts in the compensation fund shall be used to carry out the compensation program.

(e) Administrative costs not paid from compensation fund

No cost incurred in carrying out the compensation program, or in administering the compensation fund, shall be paid from the compensation fund or set off against or otherwise deducted from any payment to any individual under the compensation program.

(f) Investment of amounts in compensation fund

Amounts in the compensation fund shall be invested in accordance with section 9702 of title 31, and any interest on, and proceeds from, any such investment shall be credited to and become a part of the compensation fund.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3612], Oct. 30, 2000, 114 Stat. 1654, 1654A–497.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384g, 7384s, 7384t, 7384u of this title.

§ 7384f. Legislative proposal

(a) Legislative proposal required

Not later than March 15, 2001, the President shall submit to Congress a proposal for legislation to implement the compensation program. The proposal for legislation shall include, at a minimum, the specific recommendations (including draft legislation) of the President for the following:

(1) The types of compensation and benefits, including lost wages, medical benefits, and any lump-sum settlement payments, to be provided under the compensation program.

(2) Any adjustments or modifications necessary to appropriately administer the compensation program under part B.

(3) Whether to expand the compensation program to include other illnesses associated with exposure to toxic substances.

(4) Whether to expand the class of individuals who are members of the Special Exposure Cohort (as defined in section 7384*l*(14) of this title).

(b) Assessment of potential covered employees and required amounts

The President shall include with the proposal for legislation under subsection (a) of this section the following:

(1) An estimate of the number of covered employees that the President determines were exposed in the performance of duty.

(2) An estimate, for each fiscal year of the compensation program, of the amounts to be required for compensation and benefits anticipated to be provided in such fiscal year under the compensation program.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3613], Oct. 30, 2000, 114 Stat. 1654, 1654A–498.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7384d of this title.

§ 7384g. Authorization of appropriations

(a) In general

Pursuant to the authorization of appropriations in section 3103(a),[1] $25,000,000 may be used for purposes of carrying out this subchapter.

(b) Compensation fund

There is hereby authorized to be appropriated $250,000,000 to the Energy Employees Occupational Illness Compensation Fund established by section 7384e of this title.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3614], Oct. 30, 2000, 114 Stat. 1654, 1654A–498.)

REFERENCES IN TEXT

Section 3103(a), referred to in subsec. (a), means section 1 [div. C, title XXXVI, §3103(a)] of Pub. L. 106–398, Oct. 30, 2000, 114 Stat. 1654, 1654A–449, which is not classified to the Code.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7384e of this title.

PART B—PROGRAM ADMINISTRATION

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 7384d, 7384f, 7385, 7385a, 7385b, 7385d, 7385e, 7385f, 7385g, 7385h, 7385i of this title.

§ 7384*l*. Definitions for program administration

In this subchapter:

(1) The term ''covered employee'' means any of the following:

(A) A covered beryllium employee.

(B) A covered employee with cancer.

(C) To the extent provided in section 7384r of this title, a covered employee with chronic silicosis (as defined in that section).

(2) The term ''atomic weapon'' has the meaning given that term in section 2014(d) of this title.

(3) The term ''atomic weapons employee'' means an individual employed by an atomic weapons employer during a period when the employer was processing or producing, for the use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining and milling.

(4) The term ''atomic weapons employer'' means an entity, other than the United States, that—

(A) processed or produced, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining and milling; and

(B) is designated by the Secretary of Energy as an atomic weapons employer for purposes of the compensation program.

(5) The term ''atomic weapons employer facility'' means a facility, owned by an atomic weapons employer, that is or was used to process or produce, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining or milling.

[1] See References in Text note below.

(6) The term ''beryllium vendor'' means any of the following:

(A) Atomics International.

(B) Brush Wellman, Incorporated, and its predecessor, Brush Beryllium Company.

(C) General Atomics.

(D) General Electric Company.

(E) NGK Metals Corporation and its predecessors, Kawecki-Berylco, Cabot Corporation, BerylCo, and Beryllium Corporation of America.

(F) Nuclear Materials and Equipment Corporation.

(G) StarMet Corporation and its predecessor, Nuclear Metals, Incorporated.

(H) Wyman Gordan, Incorporated.

(I) Any other vendor, processor, or producer of beryllium or related products designated as a beryllium vendor for purposes of the compensation program under section 7384m of this title.

(7) The term ''covered beryllium employee'' means the following, if and only if the employee is determined to have been exposed to beryllium in the performance of duty in accordance with section 7384n(a) of this title:

(A) A current or former employee (as that term is defined in section 8101(1) of title 5) who may have been exposed to beryllium at a Department of Energy facility or at a facility owned, operated, or occupied by a beryllium vendor.

(B) A current or former employee of—

(i) any entity that contracted with the Department of Energy to provide management and operation, management and integration, or environmental remediation of a Department of Energy facility; or

(ii) any contractor or subcontractor that provided services, including construction and maintenance, at such a facility.

(C) A current or former employee of a beryllium vendor, or of a contractor or subcontractor of a beryllium vendor, during a period when the vendor was engaged in activities related to the production or processing of beryllium for sale to, or use by, the Department of Energy.

(8) The term ''covered beryllium illness'' means any of the following:

(A) Beryllium sensitivity as established by an abnormal beryllium lymphocyte proliferation test performed on either blood or lung lavage cells.

(B) Established chronic beryllium disease.

(C) Any injury, illness, impairment, or disability sustained as a consequence of a covered beryllium illness referred to in subparagraph (A) or (B).

(9) The term ''covered employee with cancer'' means any of the following:

(A) An individual with a specified cancer who is a member of the Special Exposure Cohort, if and only if that individual contracted that specified cancer after beginning employment at a Department of Energy facility (in the case of a Department of Energy employee or Department of Energy contractor employee) or at an atomic weapons employer facility (in the case of an atomic weapons employee).

(B)(i) An individual with cancer specified in subclause (I), (II), or (III) of clause (ii), if and only if that individual is determined to have sustained that cancer in the performance of duty in accordance with section 7384n(b) of this title.

(ii) Clause (i) applies to any of the following:

(I) A Department of Energy employee who contracted that cancer after beginning employment at a Department of Energy facility.

(II) A Department of Energy contractor employee who contracted that cancer after beginning employment at a Department of Energy facility.

(III) An atomic weapons employee who contracted that cancer after beginning employment at an atomic weapons employer facility.

(10) The term ''Department of Energy'' includes the predecessor agencies of the Department of Energy, including the Manhattan Engineering District.

(11) The term ''Department of Energy contractor employee'' means any of the following:

(A) An individual who is or was in residence at a Department of Energy facility as a researcher for one or more periods aggregating at least 24 months.

(B) An individual who is or was employed at a Department of Energy facility by—

(i) an entity that contracted with the Department of Energy to provide management and operating, management and integration, or environmental remediation at the facility; or

(ii) a contractor or subcontractor that provided services, including construction and maintenance, at the facility.

(12) The term ''Department of Energy facility'' means any building, structure, or premise, including the grounds upon which such building, structure, or premise is located—

(A) in which operations are, or have been, conducted by, or on behalf of, the Department of Energy (except for buildings, structures, premises, grounds, or operations covered by Executive Order No. 12344, dated February 1, 1982 (42 U.S.C. 7158 note), pertaining to the Naval Nuclear Propulsion Program); and

(B) with regard to which the Department of Energy has or had—

(i) a proprietary interest; or

(ii) entered into a contract with an entity to provide management and operation, management and integration, environmental remediation services, construction, or maintenance services.

(13) The term ''established chronic beryllium disease'' means chronic beryllium disease as established by the following:

(A) For diagnoses on or after January 1, 1993, beryllium sensitivity (as established in accordance with paragraph (8)(A)), together with lung pathology consistent with chronic beryllium disease, including—

(i) a lung biopsy showing granulomas or a lymphocytic process consistent with chronic beryllium disease;

(ii) a computerized axial tomography scan showing changes consistent with chronic beryllium disease; or

(iii) pulmonary function or exercise testing showing pulmonary deficits consistent with chronic beryllium disease.

(B) For diagnoses before January 1, 1993, the presence of—

(i) occupational or environmental history, or epidemiologic evidence of beryllium exposure; and

(ii) any three of the following criteria:

(I) Characteristic chest radiographic (or computed tomography (CT)) abnormalities.

(II) Restrictive or obstructive lung physiology testing or diffusing lung capacity defect.

(III) Lung pathology consistent with chronic beryllium disease.

(IV) Clinical course consistent with a chronic respiratory disorder.

(V) Immunologic tests showing beryllium sensitivity (skin patch test or beryllium blood test preferred).

(14) The term ''member of the Special Exposure Cohort'' means a Department of Energy employee, Department of Energy contractor employee, or atomic weapons employee who meets any of the following requirements:

(A) The employee was so employed for a number of work days aggregating at least 250 work days before February 1, 1992, at a gaseous diffusion plant located in Paducah, Kentucky, Portsmouth, Ohio, or Oak Ridge, Tennessee, and, during such employment—

(i) was monitored through the use of dosimetry badges for exposure at the plant of the external parts of employee's body to radiation; or

(ii) worked in a job that had exposures comparable to a job that is or was monitored through the use of dosimetry badges.

(B) The employee was so employed before January 1, 1974, by the Department of Energy or a Department of Energy contractor or subcontractor on Amchitka Island, Alaska, and was exposed to ionizing radiation in the performance of duty related to the Long Shot, Milrow, or Cannikin underground nuclear tests.

(C)(i) Subject to clause (ii), the employee is an individual designated as a member of the Special Exposure Cohort by the President for purposes of the compensation program under section 7384q of this title.

(ii) A designation under clause (i) shall, unless Congress otherwise provides, take effect on the date that is 180 days after the date on which the President submits to Congress a report identifying the individuals covered by the designation and describing the criteria used in designating those individuals.

(15) The term ''occupational illness'' means a covered beryllium illness, cancer referred to in paragraph (9)(B), specified cancer, or chronic silicosis, as the case may be.

(16) The term ''radiation'' means ionizing radiation in the form of—

(A) alpha particles;

(B) beta particles;

(C) neutrons;

(D) gamma rays; or

(E) accelerated ions or subatomic particles from accelerator machines.

(17) The term ''specified cancer'' means any of the following:

(A) A specified disease, as that term is defined in section 4(b)(2) of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note).

(B) Bone cancer.

(C) Renal cancers.

(D) Leukemia (other than chronic lymphocytic leukemia), if initial occupational exposure occurred before 21 years of age and onset occurred more than two years after initial occupational exposure.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3621], Oct. 30, 2000, 114 Stat. 1654, 1654A–498; Pub. L. 107–20, title II, §2403(a), July 24, 2001, 115 Stat. 175; Pub. L. 107–107, div. C, title XXXI, §3151(a)(1), (4)(C), Dec. 28, 2001, 115 Stat. 1371, 1374.)

REFERENCES IN TEXT

Section 4(b)(2) of the Radiation Exposure Compensation Act, referred to in par. (17)(A), is section 4(b)(2) of Pub. L. 101–426, which is set out in a note under section 2210 of this title.

AMENDMENTS

2001—Par. (17)(C). Pub. L. 107–20 added subpar. (C).

Par. (17)(D). Pub. L. 107–107, §3151(a)(1), added subpar. (D).

Par. (18). Pub. L. 107–107, §3151(a)(4)(C), struck out par. (18) which read as follows: ''The term 'survivor' means any individual or individuals eligible to receive compensation pursuant to section 8133 of title 5.''

EFFECTIVE DATE OF 2001 AMENDMENTS

Pub. L. 107–107, div. C, title XXXI, §3151(a)(4)(D), Dec. 28, 2001, 115 Stat. 1374, provided that: ''The amendments made by this paragraph [amending this section and sections 7384s and 7384u of this title] shall take effect on July 1, 2001.''

Pub. L. 107–20, title II, §2403(b), July 24, 2001, 115 Stat. 175, provided that: ''This section [amending this section] shall be effective on October 1, 2001.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384f, 7384m, 7384n, 7384q, 7384r of this title.

§ 7384m. Expansion of list of beryllium vendors

Not later than December 31, 2002, the President may, in consultation with the Secretary of Energy, designate as a beryllium vendor for purposes of section 7384*l*(6) of this title any vendor, processor, or producer of beryllium or related products not previously listed under or designated for purposes of such section 7384*l*(6) of this title if the President finds that such vendor, processor, or producer has been engaged in activities related to the production or processing of beryllium for sale to, or use by, the Department of Energy in a manner similar to the entities listed in such section 7384*l*(6) of this title.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3622], Oct. 30, 2000, 114 Stat. 1654, 1654A–502.)

DELEGATION OF FUNCTIONS

For delegation of certain functions of the President under this section, see Ex. Ord. No. 13179, Dec. 7, 2000, 65 F.R. 77487, set out as a note under section 7384 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7384*l* of this title.

§ 7384n. Exposure in the performance of duty

(a) Beryllium

A covered beryllium employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to beryllium in the performance of duty for the purposes of the compensation program if, and only if, the covered beryllium employee was—

(1) employed at a Department of Energy facility; or

(2) present at a Department of Energy facility, or a facility owned and operated by a beryllium vendor, because of employment by the United States, a beryllium vendor, or a contractor or subcontractor of the Department of Energy,

during a period when beryllium dust, particles, or vapor may have been present at such facility.

(b) Cancer

An individual with cancer specified in subclause (I), (II), or (III) of section 7384*l*(9)(B)(ii) of this title shall be determined to have sustained that cancer in the performance of duty for purposes of the compensation program if, and only if, the cancer specified in that subclause was at least as likely as not related to employment at the facility specified in that subclause, as determined in accordance with the guidelines established under subsection (c) of this section.

(c) Guidelines

(1) For purposes of the compensation program, the President shall by regulation establish guidelines for making the determinations required by subsection (b) of this section.

(2) The President shall establish such guidelines after technical review by the Advisory Board on Radiation and Worker Health under section 7384*o* of this title.

(3) Such guidelines shall—

(A) be based on the radiation dose received by the employee (or a group of employees performing similar work) at such facility and the upper 99 percent confidence interval of the probability of causation in the radioepidemiological tables published under section 7(b) of the Orphan Drug Act (42 U.S.C. 241 note), as such tables may be updated under section 7(b)(3) of such Act from time to time;

(B) incorporate the methods established under subsection (d) of this section; and

(C) take into consideration the type of cancer, past health-related activities (such as smoking), information on the risk of developing a radiation-related cancer from workplace exposure, and other relevant factors.

(d) Methods for radiation dose reconstructions

(1) The President shall, through any Federal agency (other than the Department of Energy) or official (other than the Secretary of Energy or any other official within the Department of Energy) that the President may designate, establish by regulation methods for arriving at reasonable estimates of the radiation doses received by an individual specified in subparagraph (B) of section 7384*l*(9) of this title at a facility specified in that subparagraph by each of the following employees:

(A) An employee who was not monitored for exposure to radiation at such facility.

(B) An employee who was monitored inadequately for exposure to radiation at such facility.

(C) An employee whose records of exposure to radiation at such facility are missing or incomplete.

(2) The President shall establish an independent review process using the Advisory Board on Radiation and Worker Health to—

(A) assess the methods established under paragraph (1); and

(B) verify a reasonable sample of the doses established under paragraph (1).

(e) Information on radiation doses

(1) The Secretary of Energy shall provide, to each covered employee with cancer specified in section 7384*l*(9)(B) of this title, information specifying the estimated radiation dose of that employee during each employment specified in section 7384*l*(9)(B) of this title, whether established by a dosimetry reading, by a method established under subsection (d) of this section, or by both a dosimetry reading and such method.

(2) The Secretary of Health and Human Services and the Secretary of Energy shall each make available to researchers and the general public information on the assumptions, methodology, and data used in establishing radiation doses under subsection (d) of this section. The actions taken under this paragraph shall be consistent with the protection of private medical records.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3623], Oct. 30, 2000, 114 Stat. 1654, 1654A–502.)

REFERENCES IN TEXT

Section 7(b) of the Orphan Drug Act, referred to in subsec. (c)(3)(A), is section 7(b) of Pub. L. 97–414, which is set out in a note under section 241 of this title.

DELEGATION OF FUNCTIONS

For delegation of certain functions of the President under this section, see Ex. Ord. No. 13179, Dec. 7, 2000, 65 F.R. 77487, set out as a note under section 7384 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384*l*, 7384*o*, 7385d of this title.

§ 7384*o*. Advisory Board on Radiation and Worker Health

(a) Establishment

(1) Not later than 120 days after October 30, 2000, the President shall establish and appoint an Advisory Board on Radiation and Worker Health (in this section referred to as the ''Board'').

(2) The President shall make appointments to the Board in consultation with organizations

with expertise on worker health issues in order to ensure that the membership of the Board reflects a balance of scientific, medical, and worker perspectives.

(3) The President shall designate a Chair for the Board from among its members.

(b) Duties

The Board shall advise the President on—

(1) the development of guidelines under section 7384n(c) of this title;

(2) the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and

(3) such other matters related to radiation and worker health in Department of Energy facilities as the President considers appropriate.

(c) Staff

(1) The President shall appoint a staff to facilitate the work of the Board. The staff shall be headed by a Director who shall be appointed under subchapter VIII of chapter 33 of title 5.

(2) The President may accept as staff of the Board personnel on detail from other Federal agencies. The detail of personnel under this paragraph may be on a nonreimbursable basis.

(d) Expenses

Members of the Board, other than full-time employees of the United States, while attending meetings of the Board or while otherwise serving at the request of the President, while serving away from their homes or regular places of business, shall be allowed travel and meal expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for individuals in the Government serving without pay.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3624], Oct. 30, 2000, 114 Stat. 1654, 1654A–504.)

TERMINATION OF ADVISORY BOARDS

Advisory boards established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a board established by the President or an officer of the Federal Government, such board is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a board established by Congress, its duration is otherwise provided by law. See sections 3(2) and 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384n, 7384q of this title.

§ 7384p. Responsibilities of Secretary of Health and Human Services

The Secretary of Health and Human Services shall carry out that Secretary's responsibilities with respect to the compensation program with the assistance of the Director of the National Institute for Occupational Safety and Health.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3625], Oct. 30, 2000, 114 Stat. 1654, 1654A–504.)

§ 7384q. Designation of additional members of special exposure cohort

(a) Advice on additional members

(1) The Advisory Board on Radiation and Worker Health under section 7384*o* of this title shall advise the President whether there is a class of employees at any Department of Energy facility who likely were exposed to radiation at that facility but for whom it is not feasible to estimate with sufficient accuracy the radiation dose they received.

(2) The advice of the Advisory Board on Radiation and Worker Health under paragraph (1) shall be based on exposure assessments by radiation health professionals, information provided by the Department of Energy, and such other information as the Advisory Board considers appropriate.

(3) The President shall request advice under paragraph (1) after consideration of petitions by classes of employees described in that paragraph for such advice. The President shall consider such petitions pursuant to procedures established by the President.

(b) Designation of additional members

Subject to the provisions of section 7384*l*(14)(C) of this title, the members of a class of employees at a Department of Energy facility, or at an atomic weapons employer facility, may be treated as members of the Special Exposure Cohort for purposes of the compensation program if the President, upon recommendation of the Advisory Board on Radiation and Worker Health, determines that—

(1) it is not feasible to estimate with sufficient accuracy the radiation dose that the class received; and

(2) there is a reasonable likelihood that such radiation dose may have endangered the health of members of the class.

(c) Access to information

The Secretary of Energy shall provide, in accordance with law, the Secretary of Health and Human Services and the members and staff of the Advisory Board on Radiation and Worker Health access to relevant information on worker exposures, including access to Restricted Data (as defined in section 2014(y) of this title.[1]

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3626], Oct. 30, 2000, 114 Stat. 1654, 1654A–504; Pub. L. 107–107, div. C, title XXXI, §3151(a)(2), Dec. 28, 2001, 115 Stat. 1372.)

AMENDMENTS

2001—Subsec. (b). Pub. L. 107–107 inserted '', or at an atomic weapons employer facility,'' after ''Department of Energy facility'' in introductory provisions.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7384*l* of this title.

§ 7384r. Separate treatment of chronic silicosis

(a) Sense of Congress

Congress finds that employees who worked in Department of Energy test sites and later con-

[1] So in original. A closing parenthesis should probably follow ''title''.

tracted chronic silicosis should also be considered for inclusion in the compensation program. Recognizing that chronic silicosis resulting from exposure to silica is not a condition unique to the nuclear weapons industry, it is not the intent of Congress with this subchapter to establish a precedent on the question of chronic silicosis as a compensable occupational disease. Consequently, it is the sense of Congress that a further determination by the President is appropriate before these workers are included in the compensation program.

(b) Certification by President

A covered employee with chronic silicosis shall be treated as a covered employee (as defined in section 7384*l*(1) of this title) for the purposes of the compensation program required by section 7384d of this title unless the President submits to Congress not later than 180 days after October 30, 2000, the certification of the President that there is insufficient basis to include such employees. The President shall submit with the certification any recommendations about the compensation program with respect to covered employees with chronic silicosis as the President considers appropriate.

(c) Exposure to silica in the performance of duty

A covered employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to silica in the performance of duty for the purposes of the compensation program if, and only if, the employee was present for a number of work days aggregating at least 250 work days during the mining of tunnels at a Department of Energy facility located in Nevada or Alaska for tests or experiments related to an atomic weapon.

(d) Covered employee with chronic silicosis

For purposes of this subchapter, the term ''covered employee with chronic silicosis'' means a Department of Energy employee, or a Department of Energy contractor employee, with chronic silicosis who was exposed to silica in the performance of duty as determined under subsection (c) of this section.

(e) Chronic silicosis

For purposes of this subchapter, the term ''chronic silicosis'' means a nonmalignant lung disease if—

(1) the initial occupational exposure to silica dust preceded the onset of silicosis by at least 10 years; and

(2) a written diagnosis of silicosis is made by a medical doctor and is accompanied by—

(A) a chest radiograph, interpreted by an individual certified by the National Institute for Occupational Safety and Health as a B reader, classifying the existence of pneumoconioses of category 1/0 or higher;

(B) results from a computer assisted tomograph or other imaging technique that are consistent with silicosis; or

(C) lung biopsy findings consistent with silicosis.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3627], Oct. 30, 2000, 114 Stat. 1654, 1654A–505; Pub. L. 107–107, div. C, title XXXI, §3151(a)(3), Dec. 28, 2001, 115 Stat. 1372.)

AMENDMENTS

2001—Subsec. (e)(2)(A). Pub. L. 107–107 substituted ''category 1/0'' for ''category 1/1''.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384*l*, 7385 of this title.

§ 7384s. Compensation and benefits to be provided

(a) Compensation provided

(1) Except as provided in paragraph (2), a covered employee, or the survivor of that covered employee if the employee is deceased, shall receive compensation for the disability or death of that employee from that employee's occupational illness in the amount of $150,000.

(2) A covered employee shall, to the extent that employee's occupational illness is established beryllium sensitivity, receive beryllium sensitivity monitoring under subsection (c) of this section in lieu of compensation under paragraph (1).

(b) Medical benefits

A covered employee shall receive medical benefits under section 7384t of this title for that employee's occupational illness.

(c) Beryllium sensitivity monitoring

An individual receiving beryllium sensitivity monitoring under this subsection shall receive the following:

(1) A thorough medical examination to confirm the nature and extent of the individual's established beryllium sensitivity.

(2) Regular medical examinations thereafter to determine whether that individual has developed established chronic beryllium disease.

(d) Payment from compensation fund

The compensation provided under this section, when authorized or approved by the President, shall be paid from the compensation fund established under section 7384e of this title.

(e) Payments in the case of deceased persons

(1) In the case of a covered employee who is deceased at the time of payment of compensation under this section, whether or not the death is the result of the covered employee's occupational illness, such payment may be made only as follows:

(A) If the covered employee is survived by a spouse who is living at the time of payment, such payment shall be made to such surviving spouse.

(B) If there is no surviving spouse described in subparagraph (A), such payment shall be made in equal shares to all children of the covered employee who are living at the time of payment.

(C) If there is no surviving spouse described in subparagraph (A) and if there are no children described in subparagraph (B), such payment shall be made in equal shares to the parents of the covered employee who are living at the time of payment.

(D) If there is no surviving spouse described in subparagraph (A), and if there are no children described in subparagraph (B) or parents described in subparagraph (C), such payment

shall be made in equal shares to all grandchildren of the covered employee who are living at the time of payment.

(E) If there is no surviving spouse described in subparagraph (A), and if there are no children described in subparagraph (B), parents described in subparagraph (C), or grandchildren described in subparagraph (D), then such payment shall be made in equal shares to the grandparents of the covered employee who are living at the time of payment.

(F) Notwithstanding the other provisions of this paragraph, if there is—

(i) a surviving spouse described in subparagraph (A); and

(ii) at least one child of the covered employee who is living and a minor at the time of payment and who is not a recognized natural child or adopted child of such surviving spouse,

then half of such payment shall be made to such surviving spouse, and the other half of such payment shall be made in equal shares to each child of the covered employee who is living and a minor at the time of payment.

(2) If a covered employee eligible for payment dies before filing a claim under this subchapter, a survivor of that employee who may receive payment under paragraph (1) may file a claim for such payment.

(3) For purposes of this subsection—

(A) the ''spouse'' of an individual is a wife or husband of that individual who was married to that individual for at least one year immediately before the death of that individual;

(B) a ''child'' includes a recognized natural child, a stepchild who lived with an individual in a regular parent-child relationship, and an adopted child;

(C) a ''parent'' includes fathers and mothers through adoption;

(D) a ''grandchild'' of an individual is a child of a child of that individual; and

(E) a ''grandparent'' of an individual is a parent of a parent of that individual.

(f) Effective date

This section shall take effect on July 31, 2001, unless Congress otherwise provides in an Act enacted before that date.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3628], Oct. 30, 2000, 114 Stat. 1654, 1654A–506; Pub. L. 107–107, div. C, title XXXI, §3151(a)(4)(A), Dec. 28, 2001, 115 Stat. 1372.)

AMENDMENTS

2001—Subsec. (e). Pub. L. 107–107 amended heading and text of subsec. (e) generally. Prior to amendment, text read as follows:

''(1) Subject to the provisions of this section, if a covered employee dies before the effective date specified in subsection (f) of this section, whether or not the death is a result of that employee's occupational illness, a survivor of that employee may, on behalf of that survivor and any other survivors of that employee, receive the compensation provided for under this section.

''(2) The right to receive compensation under this section shall be afforded to survivors in the same order of precedence as that set forth in section 8109 of title 5.''

EFFECTIVE DATE OF 2001 AMENDMENT

Amendment by Pub. L. 107–107 effective July 1, 2001, see section 3151(a)(4)(D) of Pub. L. 107–107, set out as a note under section 7384*l* of this title.

§ 7384t. Medical benefits

(a) Medical benefits provided

The United States shall furnish, to an individual receiving medical benefits under this section for an illness, the services, appliances, and supplies prescribed or recommended by a qualified physician for that illness, which the President considers likely to cure, give relief, or reduce the degree or the period of that illness.

(b) Persons furnishing benefits

(1) These services, appliances, and supplies shall be furnished by or on the order of United States medical officers and hospitals, or, at the individual's option, by or on the order of physicians and hospitals designated or approved by the President.

(2) The individual may initially select a physician to provide medical services, appliances, and supplies under this section in accordance with such regulations and instructions as the President considers necessary.

(c) Transportation and expenses

The individual may be furnished necessary and reasonable transportation and expenses incident to the securing of such services, appliances, and supplies.

(d) Commencement of benefits

An individual receiving benefits under this section shall be furnished those benefits as of the date on which that individual submitted the claim for those benefits in accordance with this subchapter.

(e) Payment from compensation fund

The benefits provided under this section, when authorized or approved by the President, shall be paid from the compensation fund established under section 7384e of this title.

(f) Effective date

This section shall take effect on July 31, 2001, unless Congress otherwise provides in an Act enacted before that date.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3629], Oct. 30, 2000, 114 Stat. 1654, 1654A–507.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7384s, 7384u of this title.

§ 7384u. Separate treatment of certain uranium employees

(a) Compensation provided

An individual who receives, or has received, $100,000 under section 5 of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) for a claim made under that Act (hereafter in this section referred to as a ''covered uranium employee''), or the survivor of that covered uranium employee if the employee is deceased, shall receive compensation under this section in the amount of $50,000.

(b) Medical benefits

A covered uranium employee shall receive medical benefits under section 7384t of this title for the illness for which that employee received $100,000 under section 5 of that Act.

(c) Coordination with RECA

The compensation and benefits provided in subsections (a) and (b) of this section are separate from any compensation or benefits provided under that Act.

(d) Payment from compensation fund

The compensation provided under this section, when authorized or approved by the President, shall be paid from the compensation fund established under section 7384e of this title.

(e) Payments in the case of deceased persons

(1) In the case of a covered employee who is deceased at the time of payment of compensation under this section, whether or not the death is the result of the covered employee's occupational illness, such payment may be made only as follows:

(A) If the covered employee is survived by a spouse who is living at the time of payment, such payment shall be made to such surviving spouse.

(B) If there is no surviving spouse described in subparagraph (A), such payment shall be made in equal shares to all children of the covered employee who are living at the time of payment.

(C) If there is no surviving spouse described in subparagraph (A) and if there are no children described in subparagraph (B), such payment shall be made in equal shares to the parents of the covered employee who are living at the time of payment.

(D) If there is no surviving spouse described in subparagraph (A), and if there are no children described in subparagraph (B) or parents described in subparagraph (C), such payment shall be made in equal shares to all grandchildren of the covered employee who are living at the time of payment.

(E) If there is no surviving spouse described in subparagraph (A), and if there are no children described in subparagraph (B), parents described in subparagraph (C), or grandchildren described in subparagraph (D), then such payment shall be made in equal shares to the grandparents of the covered employee who are living at the time of payment.

(F) Notwithstanding the other provisions of this paragraph, if there is—

(i) a surviving spouse described in subparagraph (A); and

(ii) at least one child of the covered employee who is living and a minor at the time of payment and who is not a recognized natural child or adopted child of such surviving spouse,

then half of such payment shall be made to such surviving spouse, and the other half of such payment shall be made in equal shares to each child of the covered employee who is living and a minor at the time of payment.

(2) If a covered employee eligible for payment dies before filing a claim under this subchapter, a survivor of that employee who may receive payment under paragraph (1) may file a claim for such payment.

(3) For purposes of this subsection—

(A) the ''spouse'' of an individual is a wife or husband of that individual who was married to that individual for at least one year immediately before the death of that individual;

(B) a ''child'' includes a recognized natural child, a stepchild who lived with an individual in a regular parent-child relationship, and an adopted child;

(C) a ''parent'' includes fathers and mothers through adoption;

(D) a ''grandchild'' of an individual is a child of a child of that individual; and

(E) a ''grandparent'' of an individual is a parent of a parent of that individual.

(f) Procedures required

The President shall establish procedures to identify and notify each covered uranium employee, or the survivor of that covered uranium employee if that employee is deceased, of the availability of compensation and benefits under this section.

(g) Effective date

This section shall take effect on July 31, 2001, unless Congress otherwise provides in an Act enacted before that date.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3630], Oct. 30, 2000, 114 Stat. 1654, 1654A–507; Pub. L. 107–107, div. C, title XXXI, §3151(a)(4)(B), Dec. 28, 2001, 115 Stat. 1373.)

REFERENCES IN TEXT

The Radiation Exposure Compensation Act, referred to in subsecs. (a) to (c), is Pub. L. 101–426, Oct. 15, 1990, 104 Stat. 920, as amended, which is set out as a note under section 2210 of this title.

AMENDMENTS

2001—Subsec. (e). Pub. L. 107–107 amended heading and text of subsec. (e) generally. Prior to amendment, text read as follows:

''(1) Subject to the provisions of this section, if a covered uranium employee dies before the effective date specified in subsection (g) of this section, whether or not the death is a result of the illness specified in subsection (b) of this section, a survivor of that employee may, on behalf of that survivor and any other survivors of that employee, receive the compensation provided for under this section.

''(2) The right to receive compensation under this section shall be afforded to survivors in the same order of precedence as that set forth in section 8109 of title 5.''

EFFECTIVE DATE OF 2001 AMENDMENT

Amendment by Pub. L. 107–107 effective July 1, 2001, see section 3151(a)(4)(D) of Pub. L. 107–107, set out as a note under section 7384*l* of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7385, 7385j of this title.

§ 7384v. Assistance for claimants and potential claimants

(a) Assistance for claimants

The President shall, upon the receipt of a request for assistance from a claimant under the compensation program, provide assistance to the claimant in connection with the claim, including—

(1) assistance in securing medical testing and diagnostic services necessary to establish the existence of a covered beryllium illness, chronic silicosis, or cancer; and

(2) such other assistance as may be required to develop facts pertinent to the claim.

(b) Assistance for potential claimants

The President shall take appropriate actions to inform and assist covered employees who are potential claimants under the compensation program, and other potential claimants under the compensation program, of the availability of compensation under the compensation program, including actions to—

(1) ensure the ready availability, in paper and electronic format, of forms necessary for making claims;

(2) provide such covered employees and other potential claimants with information and other support necessary for making claims, including—

(A) medical protocols for medical testing and diagnosis to establish the existence of a covered beryllium illness, chronic silicosis, or cancer; and

(B) lists of vendors approved for providing laboratory services related to such medical testing and diagnosis; and

(3) provide such additional assistance to such covered employees and other potential claimants as may be required for the development of facts pertinent to a claim.

(c) Information from beryllium vendors and other contractors

As part of the assistance program provided under subsections (a) and (b) of this section, and as permitted by law, the Secretary of Energy shall, upon the request of the President, require a beryllium vendor or other Department of Energy contractor or subcontractor to provide information relevant to a claim or potential claim under the compensation program to the President.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3631], Oct. 30, 2000, 114 Stat. 1654, 1654A–508.)

DELEGATION OF FUNCTIONS

For delegation of certain functions of the President under this section, see Ex. Ord. No. 13179, Dec. 7, 2000, 65 F.R. 77487, set out as a note under section 7384 of this title.

PART C—TREATMENT, COORDINATION, AND FORFEITURE OF COMPENSATION AND BENEFITS

§ 7385. Offset for certain payments

A payment of compensation to an individual, or to a survivor of that individual, under part B shall be offset by the amount of any payment made pursuant to a final award or settlement on a claim (other than a claim for worker's compensation), against any person, that is based on injuries incurred by that individual on account of the exposure of a covered beryllium employee, covered employee with cancer, covered employee with chronic silicosis (as defined in section 7384r of this title), or covered uranium employee (as defined in section 7384u of this title), while so employed, to beryllium, radiation, silica, or radiation, respectively.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3641], Oct. 30, 2000, 114 Stat. 1654, 1654A–509.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7385a, 7385b of this title.

§ 7385a. Subrogation of the United States

Upon payment of compensation under part B, the United States is subrogated for the amount of the payment to a right or claim that the individual to whom the payment was made may have against any person on account of injuries referred to in section 7385 of this title.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3642], Oct. 30, 2000, 114 Stat. 1654, 1654A–509.)

§ 7385b. Payment in full settlement of claims

The acceptance by an individual of payment of compensation under part B with respect to a covered employee shall be in full satisfaction of all claims of or on behalf of that individual against the United States, against a Department of Energy contractor or subcontractor, beryllium vendor, or atomic weapons employer, or against any person with respect to that person's performance of a contract with the United States, that arise out of an exposure referred to in section 7385 of this title.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3643], Oct. 30, 2000, 114 Stat. 1654, 1654A–509.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7385d of this title.

§ 7385c. Exclusivity of remedy against the United States and against contractors and subcontractors

(a) In general

The liability of the United States or an instrumentality of the United States under this subchapter with respect to a cancer (including a specified cancer), chronic silicosis, covered beryllium illness, or death related thereto of a covered employee is exclusive and instead of all other liability—

(1) of—

(A) the United States;

(B) any instrumentality of the United States;

(C) a contractor that contracted with the Department of Energy to provide management and operation, management and integration, or environmental remediation of a Department of Energy facility (in its capacity as a contractor);

(D) a subcontractor that provided services, including construction, at a Department of Energy facility (in its capacity as a subcontractor); and

(E) an employee, agent, or assign of an entity specified in subparagraphs (A) through (D);

(2) to—

(A) the covered employee;

(B) the covered employee's legal representative, spouse, dependents, survivors, and next of kin; and

(C) any other person, including any third party as to whom the covered employee, or

the covered employee's legal representative, spouse, dependents, survivors, or next of kin, has a cause of action relating to the cancer (including a specified cancer), chronic silicosis, covered beryllium illness, or death, otherwise entitled to recover damages from the United States, the instrumentality, the contractor, the subcontractor, or the employee, agent, or assign of one of them,

because of the cancer (including a specified cancer), chronic silicosis, covered beryllium illness, or death in any proceeding or action including a direct judicial proceeding, a civil action, a proceeding in admiralty, or a proceeding under a tort liability statute or the common law.

(b) Applicability

This section applies to all cases filed on or after October 30, 2000.

(c) Workers' compensation

This section does not apply to an administrative or judicial proceeding under a Federal or State workers' compensation law.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3644], Oct. 30, 2000, 114 Stat. 1654, 1654A–509.)

§ 7385d. Election of remedy for beryllium employees and atomic weapons employees

(a) Effect of tort cases filed before enactment of original law

(1) Except as provided in paragraph (2), if an otherwise eligible individual filed a tort case specified in subsection (d) of this section before October 30, 2000, such individual shall be eligible for compensation and benefits under part B.

(2) If such tort case remained pending as of December 28, 2001, and such individual does not dismiss such tort case before December 31, 2003, such individual shall not be eligible for such compensation or benefits.

(b) Effect of tort cases filed between enactment of original law and enactment of 2001 amendments

(1) Except as provided in paragraph (2), if an otherwise eligible individual filed a tort case specified in subsection (d) of this section during the period beginning on October 30, 2000, and ending on December 28, 2001, such individual shall not be eligible for such compensation or benefits.

(2) If such individual dismisses such tort case on or before the last permissible date specified in paragraph (3), such individual shall be eligible for such compensation or benefits.

(3) The last permissible date referred to in paragraph (2) is the later of the following dates:

(A) April 30, 2003.

(B) The date that is 30 months after the date the individual first becomes aware that an illness covered by part B of a covered employee may be connected to the exposure of the covered employee in the performance of duty under section 7384n of this title.

(c) Effect of tort cases filed after enactment of 2001 amendments

(1) If an otherwise eligible individual files a tort case specified in subsection (d) of this section after December 28, 2001, such individual shall not be eligible for such compensation or benefits if a final court decision is entered against such individual in such tort case.

(2) If such a final court decision is not entered, such individual shall nonetheless not be eligible for such compensation or benefits, except as follows: If such individual dismisses such tort case on or before the last permissible date specified in paragraph (3), such individual shall be eligible for such compensation and benefits.

(3) The last permissible date referred to in paragraph (2) is the later of the following dates:

(A) April 30, 2003.

(B) The date that is 30 months after the date the individual first becomes aware that an illness covered by part B of a covered employee may be connected to the exposure of the covered employee in the performance of duty under section 7384n of this title.

(d) Covered tort cases

A tort case specified in this subsection is a tort case alleging a claim referred to in section 7385b of this title against a beryllium vendor or atomic weapons employer.

(e) Workers' compensation

This section does not apply to an administrative or judicial proceeding under a State or Federal workers' compensation law.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3645], Oct. 30, 2000, 114 Stat. 1654, 1654A–510; Pub. L. 107–107, div. C, title XXXI, §3151(a)(5), Dec. 28, 2001, 115 Stat. 1374.)

AMENDMENTS

2001—Subsecs. (a) to (d). Pub. L. 107–107 amended headings and text of subsecs. (a) to (d) generally, substituting present provisions for provisions relating to election to file suit in subsec. (a), applicable time limits in subsec. (b), dismissal of claims in subsec. (c), and dismissal of pending suit in subsec. (d).

§ 7385e. Certification of treatment of payments under other laws

Compensation or benefits provided to an individual under part B—

(1) shall be treated for purposes of the internal revenue laws of the United States as damages for human suffering; and

(2) shall not be included as income or resources for purposes of determining eligibility to receive benefits described in section 3803(c)(2)(C) of title 31 or the amount of such benefits.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3646], Oct. 30, 2000, 114 Stat. 1654, 1654A–510.)

§ 7385f. Claims not assignable or transferable; choice of remedies

(a) Claims not assignable or transferable

No claim cognizable under part B shall be assignable or transferable.

(b) Choice of remedies

No individual may receive more than one payment of compensation under part B.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3647], Oct. 30, 2000, 114 Stat. 1654, 1654A–511.)

§ 7385g. Attorney fees

(a) General rule

Notwithstanding any contract, the representative of an individual may not receive, for services rendered in connection with the claim of an individual for payment of lump-sum compensation under part B, more than that percentage specified in subsection (b) of this section of a payment made under part B on such claim.

(b) Applicable percentage limitations

The percentage referred to in subsection (a) of this section is—

(1) 2 percent for the filing of an initial claim for payment of lump-sum compensation; and

(2) 10 percent with respect to objections to a recommended decision denying payment of lump-sum compensation.

(c) Inapplicability to other services

This section shall not apply with respect to services rendered that are not in connection with such a claim for payment of lump-sum compensation.

(d) Penalty

Any such representative who violates this section shall be fined not more than $5,000.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3648], Oct. 30, 2000, 114 Stat. 1654, 1654A–511; Pub. L. 107–107, div. C, title XXXI, §3151(a)(6), Dec. 28, 2001, 115 Stat. 1375.)

AMENDMENTS

2001—Subsec. (a). Pub. L. 107–107, §3151(a)(6)(A), inserted ''for payment of lump-sum compensation'' after ''the claim of an individual''.

Subsec. (b)(1). Pub. L. 107–107, §3151(a)(6)(B), inserted ''for payment of lump-sum compensation'' after ''initial claim''.

Subsec. (b)(2). Pub. L. 107–107, §3151(a)(6)(C), substituted ''with respect to objections to a recommended decision denying payment of lump-sum compensation'' for ''with respect to any claim with respect to which a representative has made a contract for services before October 30, 2000''.

Subsecs. (c), (d). Pub. L. 107–107, §3151(a)(6)(D), (E), added subsec. (c) and redesignated former subsec. (c) as (d).

§ 7385h. Certain claims not affected by awards of damages

A payment under part B shall not be considered as any form of compensation or reimbursement for a loss for purposes of imposing liability on any individual receiving such payment, on the basis of such receipt, to repay any insurance carrier for insurance payments, or to repay any person on account of worker's compensation payments; and a payment under part B shall not affect any claim against an insurance carrier with respect to insurance or against any person with respect to worker's compensation.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3649], Oct. 30, 2000, 114 Stat. 1654, 1654A–511.)

§ 7385i. Forfeiture of benefits by convicted felons

(a) Forfeiture of compensation

Any individual convicted of a violation of section 1920 of title 18, or any other Federal or State criminal statute relating to fraud in the application for or receipt of any benefit under part B or under any other Federal or State workers' compensation law, shall forfeit (as of the date of such conviction) any entitlement to any compensation or benefit under part B such individual would otherwise be awarded for any injury, illness or death covered by part B for which the time of injury was on or before the date of the conviction.

(b) Information

Notwithstanding section 552a of title 5, or any other Federal or State law, an agency of the United States, a State, or a political subdivision of a State shall make available to the President, upon written request from the President and if the President requires the information to carry out this section, the names and Social Security account numbers of individuals confined, for conviction of a felony, in a jail, prison, or other penal institution or correctional facility under the jurisdiction of that agency.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3650], Oct. 30, 2000, 114 Stat. 1654, 1654A–511.)

§ 7385j. Coordination with other Federal radiation compensation laws

Except in accordance with section 7384u of this title, an individual may not receive compensation or benefits under the compensation program for cancer and also receive compensation under the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) or section 1112(c) of title 38.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3651], Oct. 30, 2000, 114 Stat. 1654, 1654A–512.)

REFERENCES IN TEXT

The Radiation Exposure Compensation Act, referred to in text, is Pub. L. 101–426, Oct. 15, 1990, 104 Stat. 920, as amended, which is set out as a note under section 2210 of this title.

PART D—ASSISTANCE IN STATE WORKERS' COMPENSATION PROCEEDINGS

§ 7385*o*. Agreements with States

(a) Agreements authorized

The Secretary of Energy (hereafter in this section referred to as the ''Secretary'') may enter into agreements with the chief executive officer of a State to provide assistance to a Department of Energy contractor employee in filing a claim under the appropriate State workers' compensation system.

(b) Procedure

Pursuant to agreements under subsection (a) of this section, the Secretary may—

(1) establish procedures under which an individual may submit an application for review and assistance under this section; and

(2) review an application submitted under this section and determine whether the applicant submitted reasonable evidence that—

(A) the application was filed by or on behalf of a Department of Energy contractor employee or employee's estate; and

(B) the illness or death of the Department of Energy contractor employee may have

been related to employment at a Department of Energy facility.

(c) Submittal of applications to panels

If provided in an agreement under subsection (a) of this section, and if the Secretary determines that the applicant submitted reasonable evidence under subsection (b)(2) of this section, the Secretary shall submit the application to a physicians panel established under subsection (d) of this section. The Secretary shall assist the employee in obtaining additional evidence within the control of the Department of Energy and relevant to the panel's deliberations.

(d) Composition and operation of panels

(1) The Secretary shall inform the Secretary of Health and Human Services of the number of physicians panels the Secretary has determined to be appropriate to administer this section, the number of physicians needed for each panel, and the area of jurisdiction of each panel. The Secretary may determine to have only one panel.

(2)(A) The Secretary of Health and Human Services shall appoint panel members with experience and competency in diagnosing occupational illnesses under section 3109 of title 5.

(B) Each member of a panel shall be paid at the rate of pay payable for level III of the Executive Schedule for each day (including travel time) the member is engaged in the work of a panel.

(3) A panel shall review an application submitted to it by the Secretary and determine, under guidelines established by the Secretary, by regulation, whether the illness or death that is the subject of the application arose out of and in the course of employment by the Department of Energy and exposure to a toxic substance at a Department of Energy facility.

(4) At the request of a panel, the Secretary and a contractor who employed a Department of Energy contractor employee shall provide additional information relevant to the panel's deliberations. A panel may consult specialists in relevant fields as it determines necessary.

(5) Once a panel has made a determination under paragraph (3), it shall report to the Secretary its determination and the basis for the determination.

(6) A panel established under this subsection shall not be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

(e) Assistance

If provided in an agreement under subsection (a) of this section—

(1) the Secretary shall review a panel's determination made under subsection (d) of this section, information the panel considered in reaching its determination, any relevant new information not reasonably available at the time of the panel's deliberations, and the basis for the panel's determination;

(2) as a result of the review under paragraph (1), the Secretary shall accept the panel's determination in the absence of significant evidence to the contrary; and

(3) if the panel has made a positive determination under subsection (d) of this section and the Secretary accepts the determination under paragraph (2), or the panel has made a negative determination under subsection (d) of this section and the Secretary finds significant evidence to the contrary—

(A) the Secretary shall assist the applicant to file a claim under the appropriate State workers' compensation system based on the health condition that was the subject of the determination;

(B) the Secretary thereafter—

(i) may not contest such claim;

(ii) may not contest an award made regarding such claim; and

(iii) may, to the extent permitted by law, direct the Department of Energy contractor who employed the applicant not to contest such claim or such award,

unless the Secretary finds significant new evidence to justify such contest; and

(C) any costs of contesting a claim or an award regarding the claim incurred by the contractor who employed the Department of Energy contractor employee who is the subject of the claim shall not be an allowable cost under a Department of Energy contract.

(f) Information

At the request of the Secretary, a contractor who employed a Department of Energy contractor employee shall make available to the Secretary and the employee information relevant to deliberations under this section.

(g) GAO report

Not later than February 1, 2002, the Comptroller General shall submit to Congress a report on the implementation by the Department of Energy of the provisions of this section and of the effectiveness of the program under this section in assisting Department of Energy contractor employees in obtaining compensation for occupational illness.

(Pub. L. 106–398, §1 [div. C, title XXXVI, §3661], Oct. 30, 2000, 114 Stat. 1654, 1654A–512.)

REFERENCES IN TEXT

Level III of the Executive Schedule, referred to in subsec. (d)(2)(B), is set out in section 5314 of Title 5, Government Organization and Employees.

The Federal Advisory Committee Act, referred to in subsec. (d)(6), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

SUBCHAPTER XVII—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS GENERAL PROVISIONS

CODIFICATION

This subchapter was enacted as subtitle B (§§3620–3631) of title XXXVI of div. C of the Bob Stump National Defense Authorization Act for Fiscal Year 2003, and not as part of the Department of Energy Organization Act which comprises this chapter.

§ 7386. Definitions

In this subchapter:

(1) The term ''DOE national security authorization'' means an authorization of appropriations for activities of the Department of Energy in carrying out programs necessary for national security.

(2) The term ''congressional defense committees'' means—

(A) the Committee on Armed Services and the Committee on Appropriations of the Senate; and

(B) the Committee on Armed Services and the Committee on Appropriations of the House of Representatives.

(3) The term ''minor construction threshold'' means $5,000,000.

(Pub. L. 107–314, div. C, title XXXVI, § 3620, Dec. 2, 2002, 116 Stat. 2756.)

SHORT TITLE

For short title of title XXXVI of div. C of Pub. L. 107–314, which enacted this subchapter, as the ''Atomic Energy Defense Act'', see section 3601 of Pub. L. 107–314, set out as a note under section 7101 of this title.

§ 7386a. Reprogramming

(a) In general

Except as provided in subsection (b) of this section and in sections 7386i and 7386j of this title, the Secretary of Energy may not use amounts appropriated pursuant to a DOE national security authorization for a program—

(1) in amounts that exceed, in a fiscal year—

(A) 115 percent of the amount authorized for that program by that authorization for that fiscal year; or

(B) $5,000,000 more than the amount authorized for that program by that authorization for that fiscal year; or

(2) which has not been presented to, or requested of, Congress.

(b) Exception where notice-and-wait given

An action described in subsection (a) of this section may be taken if—

(1) the Secretary submits to the congressional defense committees a report referred to in subsection (c) of this section with respect to such action; and

(2) a period of 30 days has elapsed after the date on which such committees receive the report.

(c) Report

The report referred to in subsection (a) of this section is a report containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of the proposed action.

(d) Computation of days

In the computation of the 30-day period under subsection (b) of this section, there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than three days to a day certain.

(e) Limitations

(1) Total amount obligated

In no event may the total amount of funds obligated pursuant to a DOE national security authorization for a fiscal year exceed the total amount authorized to be appropriated by that authorization for that fiscal year.

(2) Prohibited items

Funds appropriated pursuant to a DOE national security authorization may not be used for an item for which Congress has specifically denied funds.

(Pub. L. 107–314, div. C, title XXXVI, § 3621, Dec. 2, 2002, 116 Stat. 2757.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7386i, 7386j, 7386k of this title.

§ 7386b. Minor construction projects

(a) Authority

Using operation and maintenance funds or facilities and infrastructure funds authorized by a DOE national security authorization, the Secretary of Energy may carry out minor construction projects.

(b) Annual report

The Secretary shall submit to the congressional defense committees on an annual basis a report on each exercise of the authority in subsection (a) of this section during the preceding fiscal year. Each report shall provide a brief description of each minor construction project covered by the report.

(c) Cost variation reports to congressional committees

If, at any time during the construction of any minor construction project authorized by a DOE national security authorization, the estimated cost of the project is revised and the revised cost of the project exceeds the minor construction threshold, the Secretary shall immediately submit to the congressional defense committees a report explaining the reasons for the cost variation.

(d) Minor construction project defined

In this section, the term ''minor construction project'' means any plant project not specifically authorized by law for which the approved total estimated cost does not exceed the minor construction threshold.

(Pub. L. 107–314, div. C, title XXXVI, § 3622, Dec. 2, 2002, 116 Stat. 2757.)

§ 7386c. Limits on construction projects

(a) Construction cost ceiling

Except as provided in subsection (b) of this section, construction on a construction project which is in support of national security programs of the Department of Energy and was authorized by a DOE national security authorization may not be started, and additional obligations in connection with the project above the total estimated cost may not be incurred, whenever the current estimated cost of the construction project exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress.

(b) Exception where notice-and-wait given

An action described in subsection (a) of this section may be taken if—

(1) the Secretary of Energy has submitted to the congressional defense committees a report on the actions and the circumstances making such action necessary; and

(2) a period of 30 days has elapsed after the date on which the report is received by the committees.

(c) Computation of days

In the computation of the 30-day period under subsection (b) of this section, there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than three days to a day certain.

(d) Exception for minor projects

Subsection (a) of this section does not apply to a construction project with a current estimated cost of less than the minor construction threshold.

(Pub. L. 107–314, div. C, title XXXVI, § 3623, Dec. 2, 2002, 116 Stat. 2758.)

§ 7386d. Fund transfer authority

(a) Transfer to other Federal agencies

The Secretary of Energy may transfer funds authorized to be appropriated to the Department of Energy pursuant to a DOE national security authorization to other Federal agencies for the performance of work for which the funds were authorized. Funds so transferred may be merged with and be available for the same purposes and for the same time period as the authorizations of the Federal agency to which the amounts are transferred.

(b) Transfer within Department of Energy

(1) Transfers permitted

Subject to paragraph (2), the Secretary of Energy may transfer funds authorized to be appropriated to the Department of Energy pursuant to a DOE national security authorization to any other DOE national security authorization. Amounts of authorizations so transferred may be merged with and be available for the same purposes and for the same period as the authorization to which the amounts are transferred.

(2) Maximum amounts

Not more than 5 percent of any such authorization may be transferred to another authorization under paragraph (1). No such authorization may be increased or decreased by more than 5 percent by a transfer under such paragraph.

(c) Limitations

The authority provided by this subsection to transfer authorizations—

(1) may be used only to provide funds for items relating to activities necessary for national security programs that have a higher priority than the items from which the funds are transferred; and

(2) may not be used to provide funds for an item for which Congress has specifically denied funds.

(d) Notice to Congress

The Secretary of Energy shall promptly notify the congressional defense committees of any transfer of funds to or from any DOE national security authorization.

(Pub. L. 107–314, div. C, title XXXVI, § 3624, Dec. 2, 2002, 116 Stat. 2758.)

§ 7386e. Conceptual and construction design

(a) Conceptual design

(1) Requirement

Subject to paragraph (2) and except as provided in paragraph (3), before submitting to Congress a request for funds for a construction project that is in support of a national security program of the Department of Energy, the Secretary of Energy shall complete a conceptual design for that project.

(2) Requests for conceptual design funds

If the estimated cost of completing a conceptual design for a construction project exceeds $3,000,000, the Secretary shall submit to Congress a request for funds for the conceptual design before submitting a request for funds for the construction project.

(3) Exceptions

The requirement in paragraph (1) does not apply to a request for funds—

(A) for a construction project the total estimated cost of which is less than the minor construction threshold; or

(B) for emergency planning, design, and construction activities under section 7386f of this title.

(b) Construction design

(1) Authority

Within the amounts authorized by a DOE national security authorization, the Secretary may carry out construction design (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such design does not exceed $600,000.

(2) Limitation on availability of funds for certain projects

If the total estimated cost for construction design in connection with any construction project exceeds $600,000, funds for that design must be specifically authorized by law.

(Pub. L. 107–314, div. C, title XXXVI, § 3625, Dec. 2, 2002, 116 Stat. 2759.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7386f of this title.

§ 7386f. Authority for emergency planning, design, and construction activities

(a) Authority

The Secretary of Energy may use any funds available to the Department of Energy pursuant to a DOE national security authorization, including funds authorized to be appropriated for advance planning, engineering, and construction design, and for plant projects, to perform planning, design, and construction activities for any Department of Energy national security program construction project that, as determined by the Secretary, must proceed expeditiously in order to protect public health and safety, to meet the needs of national defense, or to protect property.

(b) Limitation

The Secretary may not exercise the authority under subsection (a) of this section in the case

of a construction project until the Secretary has submitted to the congressional defense committees a report on the activities that the Secretary intends to carry out under this section and the circumstances making those activities necessary.

(c) Specific authority

The requirement of section 7386e(b)(2) of this title does not apply to emergency planning, design, and construction activities conducted under this section.

(Pub. L. 107–314, div. C, title XXXVI, § 3626, Dec. 2, 2002, 116 Stat. 2759.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7386e of this title.

§ 7386g. Scope of authority to carry out plant projects

In carrying out programs necessary for national security, the authority of the Secretary of Energy to carry out plant projects includes authority for maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto.

(Pub. L. 107–314, div. C, title XXXVI, § 3627, Dec. 2, 2002, 116 Stat. 2760.)

§ 7386h. Availability of funds

(a) In general

Except as provided in subsection (b) of this section, amounts appropriated pursuant to a DOE national security authorization for operation and maintenance or for plant projects may, when so specified in an appropriations Act, remain available until expended.

(b) Exception for program direction funds

Amounts appropriated for program direction pursuant to a DOE national security athorization[1] for a fiscal year shall remain available to be obligated only until the end of that fiscal year.

(Pub. L. 107–314, div. C, title XXXVI, § 3628, Dec. 2, 2002, 116 Stat. 2760.)

§ 7386i. Transfer of defense environmental management funds

(a) Transfer authority for defense environmental management funds

The Secretary of Energy shall provide the manager of each field office of the Department of Energy with the authority to transfer defense environmental management funds from a program or project under the jurisdiction of that office to another such program or project.

(b) Limitations

(1) Number of transfers

Not more than one transfer may be made to or from any program or project under subsection (a) of this section in a fiscal year.

(2) Amounts transferred

The amount transferred to or from a program or project in any one transfer under subsection (a) of this section may not exceed $5,000,000.

(3) Determination required

A transfer may not be carried out by a manager of a field office under subsection (a) of this section unless the manager determines that the transfer is necessary—

(A) to address a risk to health, safety, or the environment; or

(B) to assure the most efficient use of defense environmental management funds at the field office.

(4) Impermissible uses

Funds transferred pursuant to subsection (a) of this section may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

(c) Exemption from reprogramming requirements

The requirements of section 7386a of this title shall not apply to transfers of funds pursuant to subsection (a) of this section.

(d) Notification

The Secretary, acting through the Assistant Secretary of Energy for Environmental Management, shall notify Congress of any transfer of funds pursuant to subsection (a) of this section not later than 30 days after such transfer occurs.

(e) Definitions

In this section:

(1) The term ''program or project'' means, with respect to a field office of the Department of Energy, a program or project that is for environmental restoration or waste management activities necessary for national security programs of the Department, that is being carried out by that office, and for which defense environmental management funds have been authorized and appropriated.

(2) The term ''defense environmental management funds'' means funds appropriated to the Department of Energy pursuant to an authorization for carrying out environmental restoration and waste management activities necessary for national security programs.

(Pub. L. 107–314, div. C, title XXXVI, § 3629, Dec. 2, 2002, 116 Stat. 2760.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7386a of this title.

§ 7386j. Transfer of weapons activities funds

(a) Transfer authority for weapons activities funds

The Secretary of Energy shall provide the manager of each field office of the Department of Energy with the authority to transfer weapons activities funds from a program or project under the jurisdiction of that office to another such program or project.

(b) Limitations

(1) Number of transfers

Not more than one transfer may be made to or from any program or project under subsection (a) of this section in a fiscal year.

[1] So in original. Probably should be ''authorization''.

(2) Amounts transferred

The amount transferred to or from a program or project in any one transfer under subsection (a) of this section may not exceed $5,000,000.

(3) Determination required

A transfer may not be carried out by a manager of a field office under subsection (a) of this section unless the manager determines that the transfer—

(A) is necessary to address a risk to health, safety, or the environment; or

(B) will result in cost savings and efficiencies.

(4) Limitation

A transfer may not be carried out by a manager of a field office under subsection (a) of this section to cover a cost overrun or scheduling delay for any program or project.

(5) Impermissible uses

Funds transferred pursuant to subsection (a) of this section may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

(c) Exemption from reprogramming requirements

The requirements of section 7386a of this title shall not apply to transfers of funds pursuant to subsection (a) of this section.

(d) Notification

The Secretary, acting through the Administrator for Nuclear Security, shall notify Congress of any transfer of funds pursuant to subsection (a) of this section not later than 30 days after such transfer occurs.

(e) Definitions

In this section:

(1) The term ''program or project'' means, with respect to a field office of the Department of Energy, a program or project that is for weapons activities necessary for national security programs of the Department, that is being carried out by that office, and for which weapons activities funds have been authorized and appropriated.

(2) The term ''weapons activities funds'' means funds appropriated to the Department of Energy pursuant to an authorization for carrying out weapons activities necessary for national security programs.

(Pub. L. 107–314, div. C, title XXXVI, §3630, Dec. 2, 2002, 116 Stat. 2761.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7386a of this title.

§7386k. Funds available for all national security programs of the Department of Energy

Subject to the provisions of appropriation Acts and section 7386a of this title, amounts appropriated pursuant to a DOE national security authorization for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

(Pub. L. 107–314, div. C, title XXXVI, §3631, Dec. 2, 2002, 116 Stat. 2762.)

CHAPTER 85—AIR POLLUTION PREVENTION AND CONTROL

SUBCHAPTER I—PROGRAMS AND ACTIVITIES

PART A—AIR QUALITY AND EMISSION LIMITATIONS

Sec.

CODIFICATION

Act July 14, 1955, ch. 360, 69 Stat. 322, as amended, known as the Clean Air Act, which was formerly classified to chapter 15B (§1857 et seq.) of this title, was completely revised by Pub. L. 95–95, Aug. 7, 1977, 91 Stat. 685, and was reclassified to this chapter.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 2022, 4363a, 4365, 4905, 6901, 6905, 6907, 6949, 7273, 8302, 8402, 8411, 9621, 13257, 13260, 13369 of this title; title 7 section 7719; title 10 section 2704; title 15 sections 793, 798, 2080, 2617, 2706, 3801; title 16 sections 410aaa–59, 460ii–4, 460*lll*, 1456; title 18 section 2721; title 23 sections 104, 134, 135, 149; title 26 section 169; title 30 sections 201, 1251, 1253, 1292, 1303; title 33 sections 1345, 1502, 1503; title 43 section 1334; title 49 sections 5303, 5305, 5309, 5323, 5335, 5506, 26101, 47102.

SUBCHAPTER I—PROGRAMS AND ACTIVITIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 7545, 7586, 7607, 7661a of this title.

PART A—AIR QUALITY AND EMISSION LIMITATIONS

AMENDMENTS

1977—Pub. L. 95–95, title I, §117(a), Aug. 7, 1977, 91 Stat. 712, designated sections 7401 to 7428 of this title as part A.

§ 7401. Congressional findings and declaration of purpose

(a) Findings

The Congress finds—

(1) that the predominant part of the Nation's population is located in its rapidly expanding metropolitan and other urban areas, which generally cross the boundary lines of local jurisdictions and often extend into two or more States;

(2) that the growth in the amount and complexity of air pollution brought about by urbanization, industrial development, and the increasing use of motor vehicles, has resulted in mounting dangers to the public health and welfare, including injury to agricultural crops and livestock, damage to and the deterioration of property, and hazards to air and ground transportation;

(3) that air pollution prevention (that is, the reduction or elimination, through any measures, of the amount of pollutants produced or created at the source) and air pollution control at its source is the primary responsibility of States and local governments; and

(4) that Federal financial assistance and leadership is essential for the development of cooperative Federal, State, regional, and local programs to prevent and control air pollution.

(b) Declaration

The purposes of this subchapter are—

(1) to protect and enhance the quality of the Nation's air resources so as to promote the public health and welfare and the productive capacity of its population;

(2) to initiate and accelerate a national research and development program to achieve the prevention and control of air pollution;

(3) to provide technical and financial assistance to State and local governments in connection with the development and execution of their air pollution prevention and control programs; and

(4) to encourage and assist the development and operation of regional air pollution prevention and control programs.

(c) Pollution prevention

A primary goal of this chapter is to encourage or otherwise promote reasonable Federal, State,

and local governmental actions, consistent with the provisions of this chapter, for pollution prevention.

(July 14, 1955, ch. 360, title I, §101, formerly §1, as added Pub. L. 88–206, §1, Dec. 17, 1963, 77 Stat. 392; renumbered §101 and amended Pub. L. 89–272, title I, §101(2), (3), Oct. 20, 1965, 79 Stat. 992; Pub. L. 90–148, §2, Nov. 21, 1967, 81 Stat. 485; Pub. L. 101–549, title I, §108(k), Nov. 15, 1990, 104 Stat. 2468.)

CODIFICATION

Section was formerly classified to section 1857 of this title.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in a prior section 1857 of this title, act of July 14, 1955, ch. 360, §1, 69 Stat. 322, prior to the general amendment of this chapter by Pub. L. 88–206.

AMENDMENTS

1990—Subsec. (a)(3). Pub. L. 101–549, §108(k)(1), amended par. (3) generally. Prior to amendment, par. (3) read as follows: ''that the prevention and control of air pollution at its source is the primary responsibility of States and local governments; and''.

Subsec. (b)(4). Pub. L. 101–549, §108(k)(2), inserted ''prevention and'' after ''pollution''.

Subsec. (c). Pub. L. 101–549, §108(k)(3), added subsec. (c).

1967—Subsec. (b)(1). Pub. L. 90–148 inserted ''and enhance the quality of'' after ''to protect''.

1965—Subsec. (b). Pub. L. 89–272 substituted ''this title'' for ''this Act'', which for purposes of codification has been changed to ''this subchapter''.

EFFECTIVE DATE OF 1990 AMENDMENT

Section 711(b) of Pub. L. 101–549 provided that:

''(1) Except as otherwise expressly provided, the amendments made by this Act [see Tables for classification] shall be effective on the date of enactment of this Act [Nov. 15, 1990].

''(2) The Administrator's authority to assess civil penalties under section 205(c) of the Clean Air Act [42 U.S.C. 7524(c)], as amended by this Act, shall apply to violations that occur or continue on or after the date of enactment of this Act. Civil penalties for violations that occur prior to such date and do not continue after such date shall be assessed in accordance with the provisions of the Clean Air Act [42 U.S.C. 7401 et seq.] in effect immediately prior to the date of enactment of this Act.

''(3) The civil penalties prescribed under sections 205(a) and 211(d)(1) of the Clean Air Act [42 U.S.C. 7524(a), 7545(d)(1)], as amended by this Act, shall apply to violations that occur on or after the date of enactment of this Act. Violations that occur prior to such date shall be subject to the civil penalty provisions prescribed in sections 205(a) and 211(d) of the Clean Air Act in effect immediately prior to the enactment of this Act. The injunctive authority prescribed under section 211(d)(2) of the Clean Air Act, as amended by this Act, shall apply to violations that occur or continue on or after the date of enactment of this Act.

''(4) For purposes of paragraphs (2) and (3), where the date of a violation cannot be determined it will be assumed to be the date on which the violation is discovered.''

EFFECTIVE DATE OF 1977 AMENDMENT; PENDING ACTIONS; CONTINUATION OF RULES, CONTRACTS, AUTHORIZATIONS, ETC.; IMPLEMENTATION PLANS

Section 406 of Pub. L. 95–95, as amended by Pub. L. 95–190, §14(b)(6), Nov. 16, 1977, 91 Stat. 1405, provided that:

''(a) No suit, action, or other proceeding lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under the Clean Air Act [this chapter], as in effect immediately prior to the date of enactment of this Act [Aug. 7, 1977] shall abate by reason of the taking effect of the amendments made by this Act [see Short Title of 1977 Amendment note below]. The court may, on its own motion or that of any party made at any time within twelve months after such taking effect, allow the same to be maintained by or against the Administrator or such officer or employee.

''(b) All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to the Clean Air Act [this chapter], as in effect immediately prior to the date of enactment of this Act [Aug. 7, 1977], and pertaining to any functions, powers, requirements, and duties under the Clean Air Act, as in effect immediately prior to the date of enactment of this Act, and not suspended by the Administrator or the courts, shall continue in full force and effect after the date of enactment of this Act until modified or rescinded in accordance with the Clean Air Act as amended by this Act [see Short Title of 1977 Amendment note below].

''(c) Nothing in this Act [see Short Title of 1977 Amendment note below] nor any action taken pursuant to this Act shall in any way affect any requirement of an approved implementation plan in effect under section 110 of the Clean Air Act [section 7410 of this title] or any other provision of the Act in effect under the Clean Air Act before the date of enactment of this section [Aug. 7, 1977] until modified or rescinded in accordance with the Clean Air Act [this chapter] as amended by this Act [see Short Title of 1977 Amendment note below].

''(d)(1) Except as otherwise expressly provided, the amendments made by this Act [see Short Title of 1977 Amendment note below] shall be effective on date of enactment [Aug. 7, 1977].

''(2) Except as otherwise expressly provided, each State required to revise its applicable implementation plan by reason of any amendment made by this Act [see Short Title of 1977 Amendment note below] shall adopt and submit to the Administrator of the Environmental Protection Administration such plan revision before the later of the date—

''(A) one year after the date of enactment of this Act [Aug. 7, 1977], or

''(B) nine months after the date of promulgation by the Administrator of the Environmental Protection Administration of any regulations under an amendment made by this Act which are necessary for the approval of such plan revision.''

SHORT TITLE OF 1999 AMENDMENT

Pub. L. 106–40, §1, Aug. 5, 1999, 113 Stat. 207, provided that: ''This Act [amending section 7412 of this title and enacting provisions set out as notes under section 7412 of this title] may be cited as the 'Chemical Safety Information, Site Security and Fuels Regulatory Relief Act'.''

SHORT TITLE OF 1998 AMENDMENT

Pub. L. 105–286, §1, Oct. 27, 1998, 112 Stat. 2773, provided that: ''This Act [amending section 7511b of this title and enacting provisions set out as a note under section 7511b of this title] may be cited as the 'Border Smog Reduction Act of 1998'.''

SHORT TITLE OF 1990 AMENDMENT

Pub. L. 101–549, Nov. 15, 1990, 104 Stat. 2399, is popularly known as the ''Clean Air Act Amendments of 1990''. See Tables for classification.

SHORT TITLE OF 1981 AMENDMENT

Pub. L. 97–23, §1, July 17, 1981, 95 Stat. 139, provided: ''That this Act [amending sections 7410 and 7413 of this title] may be cited as the 'Steel Industry Compliance Extension Act of 1981'.''

SHORT TITLE OF 1977 AMENDMENT

Pub. L. 95–95, §1, Aug. 7, 1977, 91 Stat. 685, provided that: ''This Act [enacting sections 4362, 7419 to 7428, 7450 to 7459, 7470 to 7479, 7491, 7501 to 7508, 7548, 7549, 7551, 7617 to 7625, and 7626 of this title, amending sections 7403, 7405, 7407 to 7415, 7417, 7418, 7521 to 7525, 7541, 7543, 7544, 7545, 7550, 7571, 7601 to 7605, 7607, 7612, 7613, and 7616 of this title, repealing section 1857c–10 of this title, and enacting provisions set out as notes under this section, sections 7403, 7422, 7470, 7479, 7502, 7521, 7548, and 7621 of this title, and section 792 of Title 15, Commerce and Trade] may be cited as the 'Clean Air Act Amendments of 1977'.''

SHORT TITLE OF 1970 AMENDMENT

Pub. L. 91–604, §1, Dec. 31, 1970, 84 Stat. 1676, provided: ''That this Act [amending this chapter generally] may be cited as the 'Clean Air Amendments of 1970'.''

SHORT TITLE OF 1967 AMENDMENT

Section 1 of Pub. L. 90–148 provided: ''That this Act [amending this chapter generally] may be cited as the 'Air Quality Act of 1967'.''

SHORT TITLE OF 1966 AMENDMENT

Pub. L. 89–675, §1, Oct. 15, 1966, 80 Stat. 954, provided: ''That this Act [amending sections 7405 and 7616 of this title and repealing section 1857f–8 of this title] may be cited as the 'Clean Air Act Amendments of 1966'.''

SHORT TITLE

Section 317, formerly section 14, of act July 14, 1955, as added by section 1 of Pub. L. 88–206, renumbered section 307 by section 101(4) of Pub. L. 89–272, renumbered section 310 by section 2 of Pub. L. 90–148, and renumbered section 317 by Pub. L. 91–604, §12(a), Dec. 31, 1970, 84 Stat. 1705, provided that: ''This Act [enacting this chapter] may be cited as the 'Clean Air Act'.''

Section 201 of title II of act July 14, 1955, as added by Pub. L. 89–272, title I, §101(8), Oct. 20, 1965, 79 Stat. 992, and amended by Pub. L. 90–148, §2, Nov. 21, 1967, 81 Stat. 499, provided that: ''This title [enacting subchapter II of this chapter] may be cited as the 'National Emission Standards Act'.'' Prior to its amendment by Pub. L. 90–148, title II of act June 14, 1955, was known as the ''Motor Vehicle Air Pollution Control Act''.

Section 401 of title IV of act July 14, 1955, as added Dec. 31, 1970, Pub. L. 91–604, §14, 84 Stat. 1709, provided that: ''This title [enacting subchapter IV of this chapter] may be cited as the 'Noise Pollution and Abatement Act of 1970'.''

SAVINGS PROVISION

Section 711(a) of Pub. L. 101–549 provided that: ''Except as otherwise expressly provided in this Act [see Tables for classification], no suit, action, or other proceeding lawfully commenced by the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under the Clean Air Act [42 U.S.C. 7401 et seq.], as in effect immediately prior to the date of enactment of this Act [Nov. 15, 1990], shall abate by reason of the taking effect of the amendments made by this Act.''

TRANSFER OF FUNCTIONS

Reorg. Plan No. 3 of 1970, §2(a)(3), eff. Dec. 2, 1970, 35 F.R. 15623, 84 Stat. 2086, transferred to Administrator of Environmental Protection Agency functions vested by law in Secretary of Health, Education, and Welfare or in Department of Health, Education, and Welfare which are administered through Environmental Health Service, including functions exercised by National Air Pollution Control Administration, and Environmental Control Administration's Bureau of Solid Waste Management, Bureau of Water Hygiene, and Bureau of Radiological Health, except insofar as functions carried out by Bureau of Radiological Health pertain to regulation of radiation from consumer products, including electronic product radiation, radiation as used in healing arts, occupational exposure to radiation, and research, technical assistance, and training related to radiation from consumer products, radiation as used in healing arts, and occupational exposure to radiation.

IMPACT ON SMALL COMMUNITIES

Section 810 of Pub. L. 101–549 provided that: ''Before implementing a provision of this Act [see Tables for classification], the Administrator of the Environmental Protection Agency shall consult with the Small Communities Coordinator of the Environmental Protection Agency to determine the impact of such provision on small communities, including the estimated cost of compliance with such provision.''

RADON ASSESSMENT AND MITIGATION

Pub. L. 99–499, title I, §118(k), Oct. 17, 1986, 100 Stat. 1659, as amended by Pub. L. 105–362, title V, §501(i), Nov. 10, 1998, 112 Stat. 3284, provided that:

''(1) NATIONAL ASSESSMENT OF RADON GAS.—No later than one year after the enactment of this Act [Oct. 17, 1986], the Administrator shall submit to the Congress a report which shall, to the extent possible—

''(A) identify the locations in the United States where radon is found in structures where people normally live or work, including educational institutions;

''(B) assess the levels of radon gas that are present in such structures;

''(C) determine the level of radon gas and radon daughters which poses a threat to human health and assess for each location identified under subparagraph (A) the extent of the threat to human health;

''(D) determine methods of reducing or eliminating the threat to human health of radon gas and radon daughters; and

''(E) include guidance and public information materials based on the findings or research of mitigating radon.

''(2) RADON MITIGATION DEMONSTRATION PROGRAM.—

''(A) DEMONSTRATION PROGRAM.—The Administrator shall conduct a demonstration program to test methods and technologies of reducing or eliminating radon gas and radon daughters where it poses a threat to human health. The Administrator shall take into consideration any demonstration program underway in the Reading Prong of Pennsylvania, New Jersey, and New York and at other sites prior to enactment. The demonstration program under this section shall be conducted in the Reading Prong, and at such other sites as the Administrator considers appropriate.

''(B) LIABILITY.—Liability, if any, for persons undertaking activities pursuant to the radon mitigation demonstration program authorized under this subsection shall be determined under principles of existing law.

''(3) CONSTRUCTION OF SECTION.—Nothing in this subsection shall be construed to authorize the Administrator to carry out any regulatory program or any activity other than research, development, and related reporting, information dissemination, and coordination activities specified in this subsection. Nothing in paragraph (1) or (2) shall be construed to limit the authority of the Administrator or of any other agency or instrumentality of the United States under any other authority of law.''

SPILL CONTROL TECHNOLOGY

Pub. L. 99–499, title I, §118(n), Oct. 17, 1986, 100 Stat. 1660, provided that:

''(1) ESTABLISHMENT OF PROGRAM.—Within 180 days of enactment of this subsection [Oct. 17, 1986], the Secretary of the United States Department of Energy is directed to carry out a program of testing and evaluation of technologies which may be utilized in responding to liquefied gaseous and other hazardous substance spills at the Liquefied Gaseous Fuels Spill Test Facility that threaten public health or the environment.

''(2) TECHNOLOGY TRANSFER.—In carrying out the program established under this subsection, the Secretary shall conduct a technology transfer program that, at a minimum—

''(A) documents and archives spill control technology;

''(B) investigates and analyzes significant hazardous spill incidents;

''(C) develops and provides generic emergency action plans;

''(D) documents and archives spill test results;

''(E) develops emergency action plans to respond to spills;

''(F) conducts training of spill response personnel; and

''(G) establishes safety standards for personnel engaged in spill response activities.

''(3) CONTRACTS AND GRANTS.—The Secretary is directed to enter into contracts and grants with a nonprofit organization in Albany County, Wyoming, that is capable of providing the necessary technical support and which is involved in environmental activities related to such hazardous substance related emergencies.

''(4) USE OF SITE.—The Secretary shall arrange for the use of the Liquefied Gaseous Fuels Spill Test Facility to carry out the provisions of this subsection.''

RADON GAS AND INDOOR AIR QUALITY RESEARCH

Pub. L. 99–499, title IV, Oct. 17, 1986, 100 Stat. 1758, provided that:

''SEC. 401. SHORT TITLE.

''This title may be cited as the 'Radon Gas and Indoor Air Quality Research Act of 1986'.

''SEC. 402. FINDINGS.

''The Congress finds that:

''(1) High levels of radon gas pose a serious health threat in structures in certain areas of the country.

''(2) Various scientific studies have suggested that exposure to radon, including exposure to naturally occurring radon and indoor air pollutants, poses a public health risk.

''(3) Existing Federal radon and indoor air pollutant research programs are fragmented and underfunded.

''(4) An adequate information base concerning exposure to radon and indoor air pollutants should be developed by the appropriate Federal agencies.

''SEC. 403. RADON GAS AND INDOOR AIR QUALITY RESEARCH PROGRAM.

''(a) DESIGN OF PROGRAM.—The Administrator of the Environmental Protection Agency shall establish a research program with respect to radon gas and indoor air quality. Such program shall be designed to—

''(1) gather data and information on all aspects of indoor air quality in order to contribute to the understanding of health problems associated with the existence of air pollutants in the indoor environment;

''(2) coordinate Federal, State, local, and private research and development efforts relating to the improvement of indoor air quality; and

''(3) assess appropriate Federal Government actions to mitigate the environmental and health risks associated with indoor air quality problems.

''(b) PROGRAM REQUIREMENTS.—The research program required under this section shall include—

''(1) research and development concerning the identification, characterization, and monitoring of the sources and levels of indoor air pollution, including radon, which includes research and development relating to—

''(A) the measurement of various pollutant concentrations and their strengths and sources,

''(B) high-risk building types, and

''(C) instruments for indoor air quality data collection;

''(2) research relating to the effects of indoor air pollution and radon on human health;

''(3) research and development relating to control technologies or other mitigation measures to prevent or abate indoor air pollution (including the development, evaluation, and testing of individual and generic control devices and systems);

''(4) demonstration of methods for reducing or eliminating indoor air pollution and radon, including sealing, venting, and other methods that the Administrator determines may be effective;

''(5) research, to be carried out in conjunction with the Secretary of Housing and Urban Development, for the purpose of developing—

''(A) methods for assessing the potential for radon contamination of new construction, including (but not limited to) consideration of the moisture content of soil, porosity of soil, and radon content of soil; and

''(B) design measures to avoid indoor air pollution; and

''(6) the dissemination of information to assure the public availability of the findings of the activities under this section.

''(c) ADVISORY COMMITTEES.—The Administrator shall establish a committee comprised of individuals representing Federal agencies concerned with various aspects of indoor air quality and an advisory group comprised of individuals representing the States, the scientific community, industry, and public interest organizations to assist him in carrying out the research program for radon gas and indoor air quality.

''(d) IMPLEMENTATION PLAN.—Not later than 90 days after the enactment of this Act [Oct. 17, 1986], the Administrator shall submit to the Congress a plan for implementation of the research program under this section. Such plan shall also be submitted to the EPA Science Advisory Board, which shall, within a reasonable period of time, submit its comments on such plan to Congress.

''(e) REPORT.—Not later than 2 years after the enactment of this Act [Oct. 17, 1986], the Administrator shall submit to Congress a report respecting his activities under this section and making such recommendations as appropriate.

''SEC. 404. CONSTRUCTION OF TITLE.

''Nothing in this title shall be construed to authorize the Administrator to carry out any regulatory program or any activity other than research, development, and related reporting, information dissemination, and coordination activities specified in this title. Nothing in this title shall be construed to limit the authority of the Administrator or of any other agency or instrumentality of the United States under any other authority of law.

''SEC. 405. AUTHORIZATIONS.

''There are authorized to be appropriated to carry out the activities under this title and under section 118(k) of the Superfund Amendments and Reauthorization Act of 1986 (relating to radon gas assessment and demonstration program) [section 118(k) of Pub. L. 99–499, set out as a note above] not to exceed $5,000,000 for each of the fiscal years 1987, 1988, and 1989. Of such sums appropriated in fiscal years 1987 and 1988, two-fifths shall be reserved for the implementation of section 118(k)(2).''

STUDY OF ODORS AND ODOROUS EMISSIONS

Pub. L. 95–95, title IV, § 403(b), Aug. 7, 1977, 91 Stat. 792, directed Administrator of Environmental Protection Agency to conduct a study and report to Congress not later than Jan. 1, 1979, on effects on public health and welfare of odors and odorous emissions, source of such emissions, technology or other measures available for control of such emissions and costs of such technology or measures, and costs and benefits of alternative measures or strategies to abate such emissions.

LIST OF CHEMICAL CONTAMINANTS FROM ENVIRONMENTAL POLLUTION FOUND IN HUMAN TISSUE

Pub. L. 95–95, title IV, § 403(c), Aug. 7, 1977, 91 Stat. 792, directed Administrator of EPA, not later than

twelve months after Aug. 7, 1977, to publish throughout the United States a list of all known chemical contaminants resulting from environmental pollution which have been found in human tissue including blood, urine, breast milk, and all other human tissue, such list to be prepared for the United States and to indicate approximate number of cases, range of levels found, and mean levels found, directed Administrator, not later than eighteen months after Aug. 7, 1977, to publish in same manner an explanation of what is known about the manner in which chemicals entered the environment and thereafter human tissue, and directed Administrator, in consultation with National Institutes of Health, the National Center for Health Statistics, and the National Center for Health Services Research and Development, to, if feasible, conduct an epidemiological study to demonstrate the relationship between levels of chemicals in the environment and in human tissue, such study to be made in appropriate regions or areas of the United States in order to determine any different results in such regions or areas, and the results of such study to be reported, as soon as practicable, to appropriate committee of Congress.

STUDY ON REGIONAL AIR QUALITY

Pub. L. 95–95, title IV, §403(d), Aug. 7, 1977, 91 Stat. 793, directed Administrator of EPA to conduct a study of air quality in various areas throughout the country including the gulf coast region, such study to include analysis of liquid and solid aerosols and other fine particulate matter and contribution of such substances to visibility and public health problems in such areas, with Administrator to use environmental health experts from the National Institutes of Health and other outside agencies and organizations.

RAILROAD EMISSION STUDY

Pub. L. 95–95, title IV, §404, Aug. 7, 1977, 91 Stat. 793, as amended by H. Res. 549, Mar. 25, 1980, directed Administrator of EPA to conduct a study and investigation of emissions of air pollutants from railroad locomotives, locomotive engines, and secondary power sources on railroad rolling stock, in order to determine extent to which such emissions affect air quality in air quality control regions throughout the United States, technological feasibility and current state of technology for controlling such emissions, and status and effect of current and proposed State and local regulations affecting such emissions, and within one hundred and eighty days after commencing such study and investigation, Administrator to submit a report of such study and investigation, together with recommendations for appropriate legislation, to Senate Committee on Environment and Public Works and House Committee on Energy and Commerce.

STUDY AND REPORT CONCERNING ECONOMIC APPROACHES TO CONTROLLING AIR POLLUTION

Pub. L. 95–95, title IV, §405, Aug. 7, 1977, 91 Stat. 794, directed Administrator, in conjunction with Council of Economic Advisors, to undertake a study and assessment of economic measures for control of air pollution which could strengthen effectiveness of existing methods of controlling air pollution, provide incentives to abate air pollution greater than that required by Clean Air Act, and serve as primary incentive for controlling air pollution problems not addressed by Clean Air Act, and directed that not later than 2 years after Aug. 7, 1977, Administrator and Council conclude study and submit a report to President and Congress.

NATIONAL INDUSTRIAL POLLUTION CONTROL COUNCIL

For provisions relating to establishment of National Industrial Pollution Control Council, see Ex. Ord. No. 11523, Apr. 9, 1970, 35 F.R. 5993, set out as a note under section 4321 of this title.

FEDERAL COMPLIANCE WITH POLLUTION CONTROL STANDARDS

For provisions relating to responsibility of head of each Executive agency for compliance with applicable pollution control standards, see Ex. Ord. No. 12088, Oct. 13, 1978, 43 F.R. 47707, set out as a note under section 4321 of this title.

EXECUTIVE ORDER NO. 10779

Ex. Ord. No. 10779, Aug. 21, 1958, 23 F.R. 6487, which related to cooperation of Federal agencies with State and local authorities, was superseded by Ex. Ord. No. 11282, May 26, 1966, 31 F.R. 7663, formerly set out under section 7418 of this title.

EXECUTIVE ORDER NO. 11507

Ex. Ord. No. 11507, Feb. 4, 1970, 35 F.R. 2573, which provided for prevention, control, and abatement of air pollution at Federal facilities, was superseded by Ex. Ord. No. 11752, Dec. 17, 1973, 38 F.R. 34793, formerly set out as a note under section 4331 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7471, 7476 of this title.

§ 7402. Cooperative activities

(a) Interstate cooperation; uniform State laws; State compacts

The Administrator shall encourage cooperative activities by the States and local governments for the prevention and control of air pollution; encourage the enactment of improved and, so far as practicable in the light of varying conditions and needs, uniform State and local laws relating to the prevention and control of air pollution; and encourage the making of agreements and compacts between States for the prevention and control of air pollution.

(b) Federal cooperation

The Administrator shall cooperate with and encourage cooperative activities by all Federal departments and agencies having functions relating to the prevention and control of air pollution, so as to assure the utilization in the Federal air pollution control program of all appropriate and available facilities and resources within the Federal Government.

(c) Consent of Congress to compacts

The consent of the Congress is hereby given to two or more States to negotiate and enter into agreements or compacts, not in conflict with any law or treaty of the United States, for (1) cooperative effort and mutual assistance for the prevention and control of air pollution and the enforcement of their respective laws relating thereto, and (2) the establishment of such agencies, joint or otherwise, as they may deem desirable for making effective such agreements or compacts. No such agreement or compact shall be binding or obligatory upon any State a party thereto unless and until it has been approved by Congress. It is the intent of Congress that no agreement or compact entered into between States after November 21, 1967, which relates to the control and abatement of air pollution in an air quality control region, shall provide for participation by a State which is not included (in whole or in part) in such air quality control region.

(July 14, 1955, ch. 360, title I, §102, formerly §2, as added Pub. L. 88–206, §1, Dec. 17, 1963, 77 Stat. 393; renumbered §102, Pub. L. 89–272, title I, §101(3), Oct. 20, 1965, 79 Stat. 992; amended Pub.

L. 90–148, § 2, Nov. 21, 1967, 81 Stat. 485; Pub. L. 91–604, § 15(c)(2), Dec. 31, 1970, 84 Stat. 1713.)

CODIFICATION

Section was formerly classified to section 1857a of this title.

PRIOR PROVISIONS

Provisions similar to those in the first clause of subsec. (a) of this section were contained in subsec. (b)(1) of a prior section 1857a, of this title, act July 14, 1955, ch. 360, § 2, 69 Stat. 322, prior to the general amendment of this chapter by Pub. L. 88–206.

AMENDMENTS

1970—Subsecs. (a), (b). Pub. L. 91–604 substituted ''Administrator'' for ''Secretary'' wherever appearing.

1967—Subsec. (c). Pub. L. 90–148 inserted declaration that it is the intent of Congress that no agreement or compact entered into between States after the date of enactment of the Air Quality Act of 1967, which for purposes of codification was changed to November 21, 1967, the date of approval of such Act, relating to the control and abatement of air pollution in an air quality control region, shall provide for participation by a State which is not included (in whole or in part) in such air quality control region.

§ 7403. Research, investigation, training, and other activities

(a) Research and development program for prevention and control of air pollution

The Administrator shall establish a national research and development program for the prevention and control of air pollution and as part of such program shall—

(1) conduct, and promote the coordination and acceleration of, research, investigations, experiments, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution;

(2) encourage, cooperate with, and render technical services and provide financial assistance to air pollution control agencies and other appropriate public or private agencies, institutions, and organizations, and individuals in the conduct of such activities;

(3) conduct investigations and research and make surveys concerning any specific problem of air pollution in cooperation with any air pollution control agency with a view to recommending a solution of such problem, if he is requested to do so by such agency or if, in his judgment, such problem may affect any community or communities in a State other than that in which the source of the matter causing or contributing to the pollution is located;

(4) establish technical advisory committees composed of recognized experts in various aspects of air pollution to assist in the examination and evaluation of research progress and proposals and to avoid duplication of research, and

(5) conduct and promote coordination and acceleration of training for individuals relating to the causes, effects, extent, prevention, and control of air pollution.

(b) Authorized activities of Administrator in establishing research and development program

In carrying out the provisions of the preceding subsection the Administrator is authorized to—

(1) collect and make available, through publications and other appropriate means, the results of and other information, including appropriate recommendations by him in connection therewith, pertaining to such research and other activities;

(2) cooperate with other Federal departments and agencies, with air pollution control agencies, with other public and private agencies, institutions, and organizations, and with any industries involved, in the preparation and conduct of such research and other activities;

(3) make grants to air pollution control agencies, to other public or nonprofit private agencies, institutions, and organizations, and to individuals, for purposes stated in subsection (a)(1) of this section;

(4) contract with public or private agencies, institutions, and organizations, and with individuals, without regard to section 3324(a) and (b) of title 31 and section 5 of title 41;

(5) establish and maintain research fellowships, in the Environmental Protection Agency and at public or nonprofit private educational institutions or research organizations;

(6) collect and disseminate, in cooperation with other Federal departments and agencies, and with other public or private agencies, institutions, and organizations having related responsibilities, basic data on chemical, physical, and biological effects of varying air quality and other information pertaining to air pollution and the prevention and control thereof;

(7) develop effective and practical processes, methods, and prototype devices for the prevention or control of air pollution; and

(8) construct facilities, provide equipment, and employ staff as necessary to carry out this chapter.

In carrying out the provisions of subsection (a) of this section, the Administrator shall provide training for, and make training grants to, personnel of air pollution control agencies and other persons with suitable qualifications and make grants to such agencies, to other public or nonprofit private agencies, institutions, and organizations for the purposes stated in subsection (a)(5) of this section. Reasonable fees may be charged for such training provided to persons other than personnel of air pollution control agencies but such training shall be provided to such personnel of air pollution control agencies without charge.

(c) Air pollutant monitoring, analysis, modeling, and inventory research

In carrying out subsection (a) of this section, the Administrator shall conduct a program of research, testing, and development of methods for sampling, measurement, monitoring, analysis, and modeling of air pollutants. Such program shall include the following elements:

(1) Consideration of individual, as well as complex mixtures of, air pollutants and their chemical transformations in the atmosphere.

(2) Establishment of a national network to monitor, collect, and compile data with quantification of certainty in the status and trends

of air emissions, deposition, air quality, surface water quality, forest condition, and visibility impairment, and to ensure the comparability of air quality data collected in different States and obtained from different nations.

(3) Development of improved methods and technologies for sampling, measurement, monitoring, analysis, and modeling to increase understanding of the sources of ozone percursors,[1] ozone formation, ozone transport, regional influences on urban ozone, regional ozone trends, and interactions of ozone with other pollutants. Emphasis shall be placed on those techniques which—

(A) improve the ability to inventory emissions of volatile organic compounds and nitrogen oxides that contribute to urban air pollution, including anthropogenic and natural sources;

(B) improve the understanding of the mechanism through which anthropogenic and biogenic volatile organic compounds react to form ozone and other oxidants; and

(C) improve the ability to identify and evaluate region-specific prevention and control options for ozone pollution.

(4) Submission of periodic reports to the Congress, not less than once every 5 years, which evaluate and assess the effectiveness of air pollution control regulations and programs using monitoring and modeling data obtained pursuant to this subsection.

(d) Environmental health effects research

(1) The Administrator, in consultation with the Secretary of Health and Human Services, shall conduct a research program on the short-term and long-term effects of air pollutants, including wood smoke, on human health. In conducting such research program the Administrator—

(A) shall conduct studies, including epidemiological, clinical, and laboratory and field studies, as necessary to identify and evaluate exposure to and effects of air pollutants on human health;

(B) may utilize, on a reimbursable basis, the facilities of existing Federal scientific laboratories and research centers; and

(C) shall consult with other Federal agencies to ensure that similar research being conducted in other agencies is coordinated to avoid duplication.

(2) In conducting the research program under this subsection, the Administrator shall develop methods and techniques necessary to identify and assess the risks to human health from both routine and accidental exposures to individual air pollutants and combinations thereof. Such research program shall include the following elements:

(A) The creation of an Interagency Task Force to coordinate such program. The Task Force shall include representatives of the National Institute for Environmental Health Sciences, the Environmental Protection Agency, the Agency for Toxic Substances and Disease Registry, the National Toxicology Program, the National Institute of Standards and Technology, the National Science Foundation, the Surgeon General, and the Department of Energy. This Interagency Task Force shall be chaired by a representative of the Environmental Protection Agency and shall convene its first meeting within 60 days after November 15, 1990.

(B) An evaluation, within 12 months after November 15, 1990, of each of the hazardous air pollutants listed under section 7412(b) of this title, to decide, on the basis of available information, their relative priority for preparation of environmental health assessments pursuant to subparagraph (C). The evaluation shall be based on reasonably anticipated toxicity to humans and exposure factors such as frequency of occurrence as an air pollutant and volume of emissions in populated areas. Such evaluation shall be reviewed by the Interagency Task Force established pursuant to subparagraph (A).

(C) Preparation of environmental health assessments for each of the hazardous air pollutants referred to in subparagraph (B), beginning 6 months after the first meeting of the Interagency Task Force and to be completed within 96 months thereafter. No fewer than 24 assessments shall be completed and published annually. The assessments shall be prepared in accordance with guidelines developed by the Administrator in consultation with the Interagency Task Force and the Science Advisory Board of the Environmental Protection Agency. Each such assessment shall include—

(i) an examination, summary, and evaluation of available toxicological and epidemiological information for the pollutant to ascertain the levels of human exposure which pose a significant threat to human health and the associated acute, subacute, and chronic adverse health effects;

(ii) a determination of gaps in available information related to human health effects and exposure levels; and

(iii) where appropriate, an identification of additional activities, including toxicological and inhalation testing, needed to identify the types or levels of exposure which may present significant risk of adverse health effects in humans.

(e) Ecosystem research

In carrying out subsection (a) of this section, the Administrator, in cooperation, where appropriate, with the Under Secretary of Commerce for Oceans and Atmosphere, the Director of the Fish and Wildlife Service, and the Secretary of Agriculture, shall conduct a research program to improve understanding of the short-term and long-term causes, effects, and trends of ecosystems damage from air pollutants on ecosystems. Such program shall include the following elements:

(1) Identification of regionally representative and critical ecosystems for research.

(2) Evaluation of risks to ecosystems exposed to air pollutants, including characterization of the causes and effects of chronic and episodic exposures to air pollutants and determination of the reversibility of those effects.

[1] So in original. Probably should be ''precursors,''.

(3) Development of improved atmospheric dispersion models and monitoring systems and networks for evaluating and quantifying exposure to and effects of multiple environmental stresses associated with air pollution.

(4) Evaluation of the effects of air pollution on water quality, including assessments of the short-term and long-term ecological effects of acid deposition and other atmospherically derived pollutants on surface water (including wetlands and estuaries) and groundwater.

(5) Evaluation of the effects of air pollution on forests, materials, crops, biological diversity, soils, and other terrestrial and aquatic systems exposed to air pollutants.

(6) Estimation of the associated economic costs of ecological damage which have occurred as a result of exposure to air pollutants.

Consistent with the purpose of this program, the Administrator may use the estuarine research reserves established pursuant to section 1461 of title 16 to carry out this research.

(f) Liquefied Gaseous Fuels Spill Test Facility

(1) The Administrator, in consultation with the Secretary of Energy and the Federal Coordinating Council for Science, Engineering, and Technology, shall oversee an experimental and analytical research effort, with the experimental research to be carried out at the Liquefied Gaseous Fuels Spill Test Facility. In consultation with the Secretary of Energy, the Administrator shall develop a list of chemicals and a schedule for field testing at the Facility. Analysis of a minimum of 10 chemicals per year shall be carried out, with the selection of a minimum of 2 chemicals for field testing each year. Highest priority shall be given to those chemicals that would present the greatest potential risk to human health as a result of an accidental release—

(A) from a fixed site; or

(B) related to the transport of such chemicals.

(2) The purpose of such research shall be to—

(A) develop improved predictive models for atmospheric dispersion which at a minimum—

(i) describe dense gas releases in complex terrain including man-made structures or obstacles with variable winds;

(ii) improve understanding of the effects of turbulence on dispersion patterns; and

(iii) consider realistic behavior of aerosols by including physicochemical reactions with water vapor, ground deposition, and removal by water spray;

(B) evaluate existing and future atmospheric dispersion models by—

(i) the development of a rigorous, standardized methodology for dense gas models; and

(ii) the application of such methodology to current dense gas dispersion models using data generated from field experiments; and

(C) evaluate the effectiveness of hazard mitigation and emergency response technology for fixed site and transportation related accidental releases of toxic chemicals.

Models pertaining to accidental release shall be evaluated and improved periodically for their utility in planning and implementing evacuation procedures and other mitigative strategies designed to minimize human exposure to hazardous air pollutants released accidentally.

(3) The Secretary of Energy shall make available to interested persons (including other Federal agencies and businesses) the use of the Liquefied Gaseous Fuels Spill Test Facility to conduct research and other activities in connection with the activities described in this subsection.

(g) Pollution prevention and emissions control

In carrying out subsection (a) of this section, the Administrator shall conduct a basic engineering research and technology program to develop, evaluate, and demonstrate nonregulatory strategies and technologies for air pollution prevention. Such strategies and technologies shall be developed with priority on those pollutants which pose a significant risk to human health and the environment, and with opportunities for participation by industry, public interest groups, scientists, and other interested persons in the development of such strategies and technologies. Such program shall include the following elements:

(1) Improvements in nonregulatory strategies and technologies for preventing or reducing multiple air pollutants, including sulfur oxides, nitrogen oxides, heavy metals, PM–10 (particulate matter), carbon monoxide, and carbon dioxide, from stationary sources, including fossil fuel power plants. Such strategies and technologies shall include improvements in the relative cost effectiveness and long-range implications of various air pollutant reduction and nonregulatory control strategies such as energy conservation, including end-use efficiency, and fuel-switching to cleaner fuels. Such strategies and technologies shall be considered for existing and new facilities.

(2) Improvements in nonregulatory strategies and technologies for reducing air emissions from area sources.

(3) Improvements in nonregulatory strategies and technologies for preventing, detecting, and correcting accidental releases of hazardous air pollutants.

(4) Improvements in nonregulatory strategies and technologies that dispose of tires in ways that avoid adverse air quality impacts.

Nothing in this subsection shall be construed to authorize the imposition on any person of air pollution control requirements. The Administrator shall consult with other appropriate Federal agencies to ensure coordination and to avoid duplication of activities authorized under this subsection.

(h) NIEHS studies

(1) The Director of the National Institute of Environmental Health Sciences may conduct a program of basic research to identify, characterize, and quantify risks to human health from air pollutants. Such research shall be conducted primarily through a combination of university and medical school-based grants, as well as through intramural studies and contracts.

(2) The Director of the National Institute of Environmental Health Sciences shall conduct a

program for the education and training of physicians in environmental health.

(3) The Director shall assure that such programs shall not conflict with research undertaken by the Administrator.

(4) There are authorized to be appropriated to the National Institute of Environmental Health Sciences such sums as may be necessary to carry out the purposes of this subsection.

(i) Coordination of research

The Administrator shall develop and implement a plan for identifying areas in which activities authorized under this section can be carried out in conjunction with other Federal ecological and air pollution research efforts. The plan, which shall be submitted to Congress within 6 months after November 15, 1990, shall include—

(1) an assessment of ambient monitoring stations and networks to determine cost effective ways to expand monitoring capabilities in both urban and rural environments;

(2) a consideration of the extent of the feasibility and scientific value of conducting the research program under subsection (e) of this section to include consideration of the effects of atmospheric processes and air pollution effects; and

(3) a methodology for evaluating and ranking pollution prevention technologies, such as those developed under subsection (g) of this section, in terms of their ability to reduce cost effectively the emissions of air pollutants and other airborne chemicals of concern.

Not later than 2 years after November 15, 1990, and every 4 years thereafter, the Administrator shall report to Congress on the progress made in implementing the plan developed under this subsection, and shall include in such report any revisions of the plan.

(j) Continuation of national acid precipitation assessment program

(1) The acid precipitation research program set forth in the Acid Precipitation Act of 1980 [42 U.S.C. 8901 et seq.] shall be continued with modifications pursuant to this subsection.

(2) The Acid Precipitation Task Force shall consist of the Administrator of the Environmental Protection Agency, the Secretary of Energy, the Secretary of the Interior, the Secretary of Agriculture, the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the National Aeronautics and Space Administration, and such additional members as the President may select. The President shall appoint a chairman for the Task Force from among its members within 30 days after November 15, 1990.

(3) The responsibilities of the Task Force shall include the following:

(A) Review of the status of research activities conducted to date under the comprehensive research plan developed pursuant to the Acid Precipitation Act of 1980 [42 U.S.C. 8901 et seq.], and development of a revised plan that identifies significant research gaps and establishes a coordinated program to address current and future research priorities. A draft of the revised plan shall be submitted by the Task Force to Congress within 6 months after November 15, 1990. The plan shall be available for public comment during the 60 day period after its submission, and a final plan shall be submitted by the President to the Congress within 45 days after the close of the comment period.

(B) Coordination with participating Federal agencies, augmenting the agencies' research and monitoring efforts and sponsoring additional research in the scientific community as necessary to ensure the availability and quality of data and methodologies needed to evaluate the status and effectiveness of the acid deposition control program. Such research and monitoring efforts shall include, but not be limited to—

(i) continuous monitoring of emissions of precursors of acid deposition;

(ii) maintenance, upgrading, and application of models, such as the Regional Acid Deposition Model, that describe the interactions of emissions with the atmosphere, and models that describe the response of ecosystems to acid deposition; and

(iii) analysis of the costs, benefits, and effectiveness of the acid deposition control program.

(C) Publication and maintenance of a National Acid Lakes Registry that tracks the condition and change over time of a statistically representative sample of lakes in regions that are known to be sensitive to surface water acidification.

(D) Submission every two years of a unified budget recommendation to the President for activities of the Federal Government in connection with the research program described in this subsection.

(E) Beginning in 1992 and biennially thereafter, submission of a report to Congress describing the results of its investigations and analyses. The reporting of technical information about acid deposition shall be provided in a format that facilitates communication with policymakers and the public. The report shall include—

(i) actual and projected emissions and acid deposition trends;

(ii) average ambient concentrations of acid deposition percursors[2] and their transformation products;

(iii) the status of ecosystems (including forests and surface waters), materials, and visibility affected by acid deposition;

(iv) the causes and effects of such deposition, including changes in surface water quality and forest and soil conditions;

(v) the occurrence and effects of episodic acidification, particularly with respect to high elevation watersheds; and

(vi) the confidence level associated with each conclusion to aid policymakers in use of the information.

(F) Beginning in 1996, and every 4 years thereafter, the report under subparagraph (E) shall include—

(i) the reduction in deposition rates that must be achieved in order to prevent adverse ecological effects; and

[2] So in original. Probably should be ''precursors''.

(ii) the costs and benefits of the acid deposition control program created by subchapter IV–A of this chapter.

(k) Air pollution conferences

If, in the judgment of the Administrator, an air pollution problem of substantial significance may result from discharge or discharges into the atmosphere, the Administrator may call a conference concerning this potential air pollution problem to be held in or near one or more of the places where such discharge or discharges are occurring or will occur. All interested persons shall be given an opportunity to be heard at such conference, either orally or in writing, and shall be permitted to appear in person or by representative in accordance with procedures prescribed by the Administrator. If the Administrator finds, on the basis of the evidence presented at such conference, that the discharge or discharges if permitted to take place or continue are likely to cause or contribute to air pollution subject to abatement under this part, the Administrator shall send such findings, together with recommendations concerning the measures which the Administrator finds reasonable and suitable to prevent such pollution, to the person or persons whose actions will result in the discharge or discharges involved; to air pollution agencies of the State or States and of the municipality or municipalities where such discharge or discharges will originate; and to the interstate air pollution control agency, if any, in the jurisdictional area of which any such municipality is located. Such findings and recommendations shall be advisory only, but shall be admitted together with the record of the conference, as part of the proceedings under subsections (b), (c), (d), (e), and (f) of section 7408 of this title.

(July 14, 1955, ch. 360, title I, §103, formerly §3, as added Pub. L. 88–206, §1, Dec. 17, 1963, 77 Stat. 394; renumbered §103 and amended Pub. L. 89–272, title I, §§101(3), 103, Oct. 20, 1965, 79 Stat. 992, 996; Pub. L. 90–148, §2, Nov. 21, 1967, 81 Stat. 486; Pub. L. 91–604, §§2(a), 4(2), 15(a)(2), (c)(2), Dec. 31, 1970, 84 Stat. 1676, 1689, 1710, 1713; Pub. L. 95–95, title I, §101(a), (b), Aug. 7, 1977, 91 Stat. 686, 687; Pub. L. 101–549, title IX, §901(a)–(c), Nov. 15, 1990, 104 Stat. 2700–2703.)

REFERENCES IN TEXT

The Acid Precipitation Act of 1980, referred to in subsec. (j)(1), (3)(A), is title VII of Pub. L. 96–294, June 30, 1980, 94 Stat. 770, which is classified generally to chapter 97 (§8901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 8901 of this title and Tables.

CODIFICATION

In subsec. (b)(4), ''section 3324(a) and (b) of title 31'' substituted for reference to section 3648 of the Revised Statutes (31 U.S.C. 529) on authority of Pub. L. 97–258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance.

Section was formerly classified to section 1857b of this title.

PRIOR PROVISIONS

Provisions similar to those in subsec. (a)(3) of this section were contained in subsec. (a) of a prior section 1857b of this title, act July 14, 1955, ch. 360, §3, 69 Stat. 322, as amended Oct. 9, 1962, Pub. L. 87–761, §2, 76 Stat. 760, prior to the general amendment of this chapter by Pub. L. 88–206.

Provisions similar to those in this section were contained in prior sections 1857a to 1857d of this title, act July 14, 1955, ch. 360, §§2 to 5, 69 Stat. 322 (section 1857b as amended Oct. 9, 1962, Pub. L. 87–761, §2, 76 Stat. 760; section 1857d as amended Sept. 22, 1959, Pub. L. 86–365, §1, 73 Stat. 646 and Oct. 9, 1962, Pub. L. 87–761, §1, 76 Stat. 760), prior to the general amendment of this chapter by Pub. L. 88–206.

AMENDMENTS

1990—Subsec. (a)(1). Pub. L. 101–549, §901(a)(1), inserted ''(including health and welfare effects)'' after ''effects''.

Subsec. (b)(8). Pub. L. 101–549, §901(a)(2), which directed amendment of subsec. (b) by adding par. (8) at end, was executed by adding par. (8) after par. (7) to reflect the probable intent of Congress.

Subsecs. (c) to (f). Pub. L. 101–549, §901(b), amended subsecs. (c) to (f) generally, substituting present provisions for provisions which related to: in subsec. (c), results of other scientific studies; in subsec. (d), construction of facilities; in subsec. (e), potential air pollution problems, conferences, and findings and recommendations of the Administrator; and, in subsec. (f), accelerated research programs.

Subsecs. (g) to (k). Pub. L. 101–549, §901(c), added subsecs. (g) to (k).

1977—Subsec. (a). Pub. L. 95–95, §101(b), struck out reference to ''training'' in par. (1) and added par. (5).

Subsec. (b). Pub. L. 95–95, §101(a), struck out par. (5) which provided for training and training grants to personnel of air pollution control agencies and other persons with suitable qualifications, redesignated pars. (6), (7), and (8) as (5), (6), and (7), respectively, and, following par. (7) as so redesignated, inserted provisions directing the Administrator, in carrying out subsec. (a), to provide training for, and make training grants to, personnel of air pollution control agencies and other persons with suitable qualifications and to make grants to such agencies, to other public or nonprofit private agencies, institutions, and organizations for the purposes stated in subsec. (a)(5) and allowing reasonable fees to be charged for such training provided to persons other than personnel of air pollution control agencies but requiring that such training be provided to such personnel of air pollution control agencies without charge.

1970—Subsec. (a). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary''.

Subsec. (b). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary'' and ''Environmental Protection Agency'' for ''Department of Health, Education, and Welfare''.

Subsec. (c). Pub. L. 91–604, §15(a)(2), (c)(2), substituted ''Administrator'' for ''Secretary'' and ''air pollutants'' for ''air pollution agents (or combinations of agents)''.

Subsec. (d). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary''.

Subsec. (e). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary'' wherever appearing, substituted ''7415'' for ''7415(a)'', and inserted references to subsecs. (b) and (c) of section 7415 of this title.

Subsec. (f). Pub. L. 91–604, §2(a), added subsec. (f).

1967—Subsec. (a). Pub. L. 90–148 substituted ''establish technical advisory committees composed of recognized experts in various aspects of air pollution to assist in the examination and evaluation of research progress and proposals and to avoid duplication of research'' for ''initiate and conduct a program of research directed toward the development of improved, low-cost techniques for extracting sulfur from fuels'' as cl. (4) and struck out cl. (5) which related to research programs relating to the control of hydrocarbon emissions from evaporation of gasoline and nitrogen and aldehyde oxide emission from gasoline and diesel powered vehicles and relating to the development of improved low-cost techniques to reduce emissions of oxides of sulfur produced by the combustion of sulfur-containing fuels.

Subsec. (c). Pub. L. 90–148 struck out provision for promulgation of criteria in the case of particular air pollution agents present in the air in certain quantities reflecting the latest scientific knowledge and allowing for availability and revision and provided for recommendation by Secretary of air quality criteria.

Subsec. (e). Pub. L. 90–148 substituted references to subsections (d), (e), and (f) of section 7415 of this title for references to subsections (c), (d), and (e) of section 7415 of this title in provision for admission of advisory findings and recommendations together with the record of the conference and made such findings and recommendations part of the proceedings of the conference, not merely part of the record of proceedings.

1965—Subsec. (a)(5). Pub. L. 89–272, §103(3), added par. (5).

Subsecs. (d), (e). Pub. L. 89–272, §103(4), added subsecs. (d) and (e).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (i) of this section requiring quadrennial reports to Congress and of reporting provisions in subsec. (j)(3)(E) and (F) of this section, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 7th and 8th items on page 163 of House Document No. 103–7.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

TERMINATION OF ADVISORY COMMITTEES

Advisory committees in existence on Jan. 5, 1973, to terminate not later than the expiration of the 2-year period following Jan. 5, 1973, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided by law. See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 5, Government Organization and Employees.

PILOT DESIGN PROGRAMS

Pub. L. 106–246, div. B, title II, §2603, July 13, 2000, 114 Stat. 558, provided that:

''(a) The Administrator of the Environmental Protection Agency shall make a grant for the purpose of carrying out the first year of a 2-year program to implement in five metropolitan areas pilot design programs developed under section 365(a)(2) of the Department of Transportation and Related Agencies Appropriations Act, 2000 [Pub. L. 106–69] (113 Stat. 1028–1029).

''(b) The Administrator shall ensure that each pilot design program is implemented in accordance with recommendations developed by the National Telecommuting and Air Quality Steering Committee, in consultation with the local design teams.

''(c) Grants received under subsection (a) may be used for—

''(1) protocol development in the five metropolitan areas;

''(2) marketing of the telecommute, emissions reduction, pollution credits strategy and recruitment of participating employers; and

''(3) data gathering on emissions reductions.

''(d) In addition to the grant under subsection (a), for the purpose of carrying out the second year of the 2-year program referred to in subsection (a), the Administrator shall—

''(1) make a grant of $750,000 to the National Environmental Policy Institute (a nonprofit private entity incorporated under the laws of and located in the District of Columbia); and

''(2) make grants totaling $1,250,000 to local agencies within the five metropolitan areas referred to in subsection (a).

''(e) Not later than 360 days from first day of the second year of the 2-year program referred to in subsection (a), the Administrator shall transmit to Congress a report on the results of the program.

''(f) The Administrator shall carry out this section in collaboration with the Secretary of Transportation.

''(g) There is appropriated to the Department of Transportation, 'Office of the Assistant Secretary for Policy', $2,000,000 to carry out this section. Such amounts shall be transferred to and administered by the Environmental Protection Agency and shall remain available until expended: *Provided*, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended [2 U.S.C. 901(b)(2)(A)]: *Provided further*, That the entire amount shall be available only to the extent an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined by such Act, is transmitted by the President to the Congress.''

NATIONAL ACID LAKES REGISTRY

Section 405 of Pub. L. 101–549 provided that: ''The Administrator of the Environmental Protection Agency shall create a National Acid Lakes Registry that shall list, to the extent practical, all lakes that are known to be acidified due to acid deposition, and shall publish such list within one year of the enactment of this Act [Nov. 15, 1990]. Lakes shall be added to the registry as they become acidic or as data becomes available to show they are acidic. Lakes shall be deleted from the registry as they become nonacidic.''

ASSESSMENT OF INTERNATIONAL AIR POLLUTION CONTROL TECHNOLOGIES

Section 901(e) of Pub. L. 101–549 directed Administrator of Environmental Protection Agency to conduct a study that compares international air pollution control technologies of selected industrialized countries to determine if there exist air pollution control technologies in countries outside the United States that may have beneficial applications to this Nation's air pollution control efforts, including, with respect to each country studied, the topics of urban air quality, motor vehicle emissions, toxic air emissions, and acid deposition, and within 2 years after Nov. 15, 1990, submit to Congress a report detailing the results of such study.

WESTERN STATES ACID DEPOSITION RESEARCH

Section 901(g) of Pub. L. 101–549 provided that:

''(1) The Administrator of the Environmental Protection Agency shall sponsor monitoring and research and submit to Congress annual and periodic assessment reports on—

''(A) the occurrence and effects of acid deposition on surface waters located in that part of the United States west of the Mississippi River;

''(B) the occurrence and effects of acid deposition on high elevation ecosystems (including forests, and surface waters); and

''(C) the occurrence and effects of episodic acidification, particularly with respect to high elevation watersheds.

''(2) The Administrator of the Environmental Protection Agency shall analyze data generated from the studies conducted under paragraph (1), data from the Western Lakes Survey, and other appropriate research and utilize predictive modeling techniques that take into account the unique geographic, climatological, and atmospheric conditions which exist in the western United States to determine the potential occurrence and effects of acid deposition due to any projected increases in the emission of sulfur dioxide and nitrogen oxides in that part of the United States located west of the Mississippi River. The Administrator shall include the results of the project conducted under this paragraph in the reports issued to Congress under paragraph (1).''

CONSULTATION WITH COMMITTEE ON SCIENCE OF HOUSE OF REPRESENTATIVES

Section 101(c) of Pub. L. 95–95 provided that: ''The Administrator of the Environmental Protection Agency shall consult with the House Committee on Science and Technology [now Committee on Science] on the environmental and atmospheric research, development, and demonstration aspects of this Act [see Short Title of 1977 Amendment note set out under section 7401 of this title]. In addition, the reports and studies required by this Act that relate to research, development, and demonstration issues shall be transmitted to the Committee on Science and Technology [now Committee on Science] at the same time they are made available to other committees of the Congress.''

STUDY OF SUBSTANCES DISCHARGED FROM EXHAUSTS OF MOTOR VEHICLES

Pub. L. 86–493, June 8, 1960, 74 Stat. 162, directed Surgeon General of Public Health Service to conduct a thorough study for purposes of determining, with respect to the various substances discharged from exhausts of motor vehicles, the amounts and kinds of such substances which, from the standpoint of human health, it is safe for motor vehicles to discharge into the atmosphere under the various conditions under which such vehicles may operate, and, not later than two years after June 8, 1960, submit to Congress a report on results of the study, together with such recommendations, if any, based upon the findings made in such study, as he deemed necessary for the protection of the public health.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 7412 of this title.

§ 7404. Research relating to fuels and vehicles

(a) Research programs; grants; contracts; pilot and demonstration plants; byproducts research

The Administrator shall give special emphasis to research and development into new and improved methods, having industry-wide application, for the prevention and control of air pollution resulting from the combustion of fuels. In furtherance of such research and development he shall—

(1) conduct and accelerate research programs directed toward development of improved, cost-effective techniques for—

(A) control of combustion byproducts of fuels,

(B) removal of potential air pollutants from fuels prior to combustion,

(C) control of emissions from the evaporation of fuels,

(D) improving the efficiency of fuels combustion so as to decrease atmospheric emissions, and

(E) producing synthetic or new fuels which, when used, result in decreased atmospheric emissions.

(2) provide for Federal grants to public or nonprofit agencies, institutions, and organizations and to individuals, and contracts with public or private agencies, institutions, or persons, for payment of (A) part of the cost of acquiring, constructing, or otherwise securing for research and development purposes, new or improved devices or methods having industry-wide application of preventing or controlling discharges into the air of various types of pollutants; (B) part of the cost of programs to develop low emission alternatives to the present internal combustion engine; (C) the cost to purchase vehicles and vehicle engines, or portions thereof, for research, development, and testing purposes; and (D) carrying out the other provisions of this section, without regard to section 3324(a) and (b) of title 31 and section 5 of title 41: *Provided*, That research or demonstration contracts awarded pursuant to this subsection (including contracts for construction) may be made in accordance with, and subject to the limitations provided with respect to research contracts of the military departments in, section 2353 of title 10, except that the determination, approval, and certification required thereby shall be made by the Administrator; *Provided further*, That no grant may be made under this paragraph in excess of $1,500,000;

(3) determine, by laboratory and pilot plant testing, the results of air pollution research and studies in order to develop new or improved processes and plant designs to the point where they can be demonstrated on a large and practical scale;

(4) construct, operate, and maintain, or assist in meeting the cost of the construction, operation, and maintenance of new or improved demonstration plants or processes which have promise of accomplishing the purposes of this chapter;

(5) study new or improved methods for the recovery and marketing of commercially valuable byproducts resulting from the removal of pollutants.

(b) Powers of Administrator in establishing research and development programs

In carrying out the provisions of this section, the Administrator may—

(1) conduct and accelerate research and development of cost-effective instrumentation techniques to facilitate determination of quantity and quality of air pollutant emissions, including, but not limited to, automotive emissions;

(2) utilize, on a reimbursable basis, the facilities of existing Federal scientific laboratories;

(3) establish and operate necessary facilities and test sites at which to carry on the research, testing, development, and programming necessary to effectuate the purposes of this section;

(4) acquire secret processes, technical data, inventions, patent applications, patents, licenses, and an interest in lands, plants, and fa-

cilities, and other property or rights by purchase, license, lease, or donation; and

(5) cause on-site inspections to be made of promising domestic and foreign projects, and cooperate and participate in their development in instances in which the purposes of the chapter will be served thereby.

(c) Clean alternative fuels

The Administrator shall conduct a research program to identify, characterize, and predict air emissions related to the production, distribution, storage, and use of clean alternative fuels to determine the risks and benefits to human health and the environment relative to those from using conventional gasoline and diesel fuels. The Administrator shall consult with other Federal agencies to ensure coordination and to avoid duplication of activities authorized under this subsection.

(July 14, 1955, ch. 360, title I, §104, as added Pub. L. 90–148, §2, Nov. 21, 1967, 81 Stat. 487; amended Pub. L. 91–137, Dec. 5, 1969, 83 Stat. 283; Pub. L. 91–604, §§2(b), (c), 13(a), 15(c)(2), Dec. 31, 1970, 84 Stat. 1676, 1677, 1709, 1713; Pub. L. 93–15, §1(a), Apr. 9, 1973, 87 Stat. 11; Pub. L. 93–319, §13(a), June 22, 1974, 88 Stat. 265; Pub. L. 101–549, title IX, §901(d), Nov. 15, 1990, 104 Stat. 2706.)

CODIFICATION

In subsec. (a)(2), ''section 3324(a) and (b) of title 31'' substituted for reference to section 3648 of the Revised Statutes (31 U.S.C. 529) on authority of Pub. L. 97–258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance.

Section was formerly classified to section 1857b–1 of this title.

PRIOR PROVISIONS

A prior section 104 of act July 14, 1955, was renumbered section 105 by Pub. L. 90–148 and is classified to section 7405 of this title.

AMENDMENTS

1990—Subsecs. (a)(1), (b)(1). Pub. L. 101–549, §901(d)(1), substituted ''cost-effective'' for ''low-cost''.

Subsec. (c). Pub. L. 101–549, §901(d)(2), amended subsec. (c) generally. Prior to amendment, subsec. (c) read as follows: ''For the purposes of this section there are authorized to be appropriated $75,000,000 for the fiscal year ending June 30, 1971, $125,000,000 for the fiscal year ending June 30, 1972, $150,000,000 for the fiscal year ending June 30, 1973, and $150,000,000 for the fiscal year ending June 30, 1974, and $150,000,000 for the fiscal year ending June 30, 1975. Amounts appropriated pursuant to this subsection shall remain available until expended.''

1974—Subsec. (c). Pub. L. 93–319 authorized appropriation of $150,000,000 for fiscal year ending June 30, 1975.

1973—Subsec. (c). Pub. L. 93–15 authorized appropriation of $150,000,000 for fiscal year ending June 30, 1974.

1970—Subsec. (a). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary''.

Subsec. (a)(1). Pub. L. 91–604, §2(b), inserted provisions authorizing research programs directed toward development of techniques for improving the efficiency of fuels combustion so as to decrease atmospheric emissions, and producing synthetic or new fuels which result in decreased atmospheric emissions.

Subsec. (a)(2). Pub. L. 91–604, §2(c), added cls. (B) and (C) and redesignated former cl. (B) as (D).

Subsec. (b). Pub. L. 91–604, §15(c)(2), substituted ''Administrator'' for ''Secretary''.

Subsec. (c). Pub. L. 91–604, §13(a), substituted provisions authorizing appropriations for fiscal years ending June 30, 1971, 1972, and 1973, for provisions authorizing appropriations for fiscal years ending June 30, 1968 and 1969.

1969—Subsec. (c). Pub. L. 91–137 authorized appropriation of $45,000,000 for fiscal year ending June 30, 1970.

HYDROGEN FUEL CELL VEHICLE STUDY AND TEST PROGRAM

Section 807 of Pub. L. 101–549 provided that: ''The Administrator of the Environmental Protection Agency, in conjunction with the National Aeronautics and Space Administration and the Department of Energy, shall conduct a study and test program on the development of a hydrogen fuel cell electric vehicle. The study and test program shall determine how best to transfer existing NASA hydrogen fuel cell technology into the form of a mass-producible, cost effective hydrogen fuel cell vehicle. Such study and test program shall include at a minimum a feasibility-design study, the construction of a prototype, and a demonstration. This study and test program should be completed and a report submitted to Congress within 3 years after the enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990]. This study and test program should be performed in the university or universities which are best exhibiting the facilities and expertise to develop such a fuel cell vehicle.''

COMBUSTION OF CONTAMINATED USED OIL IN SHIPS

Section 813 of Pub. L. 101–549 provided that: ''Within 2 years after the enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], the Administrator of the Environmental Protection Agency shall complete a study and submit a report to Congress evaluating the health and environmental impacts of the combustion of contaminated used oil in ships, the reasons for using such oil for such purposes, the alternatives to such use, the costs of such alternatives, and other relevant factors and impacts. In preparing such study, the Administrator shall obtain the view and comments of all interested persons and shall consult with the Secretary of Transportation and the Secretary of the department in which the Coast Guard is operating.''

EXTENSION TO AUG. 31, 1970 OF AUTHORIZATION PERIOD FOR FISCAL YEAR 1970

Pub. L. 91–316, July 10, 1970, 84 Stat. 416, provided in part that the authorization contained in section 104(c) of the Clean Air Act [subsec. (c) of this section] for the fiscal year ending June 30, 1970, should remain available through Aug. 31, 1970, notwithstanding any provisions of this section.

§ 7405. Grants for support of air pollution planning and control programs

(a) Amounts; limitations; assurances of plan development capability

(1)(A) The Administrator may make grants to air pollution control agencies, within the meaning of paragraph (1), (2), (3), (4), or (5) of section 7602 of this title, in an amount up to three-fifths of the cost of implementing programs for the prevention and control of air pollution or implementation of national primary and secondary ambient air quality standards. For the purpose of this section, ''implementing'' means any activity related to the planning, developing, establishing, carrying-out, improving, or maintaining of such programs.

(B) Subject to subsections (b) and (c) of this section, an air pollution control agency which receives a grant under subparagraph (A) and which contributes less than the required two-fifths minimum shall have 3 years following November 15, 1990, in which to contribute such

amount. If such an agency fails to meet and maintain this required level, the Administrator shall reduce the amount of the Federal contribution accordingly.

(C) With respect to any air quality control region or portion thereof for which there is an applicable implementation plan under section 7410 of this title, grants under subparagraph (A) may be made only to air pollution control agencies which have substantial responsibilities for carrying out such applicable implementation plan.

(2) Before approving any grant under this subsection to any air pollution control agency within the meaning of sections 7602(b)(2) and 7602(b)(4) of this title, the Administrator shall receive assurances that such agency provides for adequate representation of appropriate State, interstate, local, and (when appropriate) international, interests in the air quality control region.

(3) Before approving any planning grant under this subsection to any air pollution control agency within the meaning of sections 7602(b)(2) and 7602(b)(4) of this title, the Administrator shall receive assurances that such agency has the capability of developing a comprehensive air quality plan for the air quality control region, which plan shall include (when appropriate) a recommended system of alerts to avert and reduce the risk of situations in which there may be imminent and serious danger to the public health or welfare from air pollutants and the various aspects relevant to the establishment of air quality standards for such air quality control region, including the concentration of industries, other commercial establishments, population and naturally occurring factors which shall affect such standards.

(b) Terms and conditions; regulations; factors for consideration; State expenditure limitations

(1) From the sums available for the purposes of subsection (a) of this section for any fiscal year, the Administrator shall from time to time make grants to air pollution control agencies upon such terms and conditions as the Administrator may find necessary to carry out the purpose of this section. In establishing regulations for the granting of such funds the Administrator shall, so far as practicable, give due consideration to (A) the population, (B) the extent of the actual or potential air pollution problem, and (C) the financial need of the respective agencies.

(2) Not more than 10 per centum of the total of funds appropriated or allocated for the purposes of subsection (a) of this section shall be granted for air pollution control programs in any one State. In the case of a grant for a program in an area crossing State boundaries, the Administrator shall determine the portion of such grant that is chargeable to the percentage limitation under this subsection for each State into which such area extends. Subject to the provisions of paragraph (1) of this subsection, no State shall have made available to it for application less than one-half of 1 per centum of the annual appropriation for grants under this section for grants to agencies within such State.

(c) Maintenance of effort

(1) No agency shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for recurrent expenditures for air pollution control programs will be less than its expenditures were for such programs during the preceding fiscal year. In order for the Administrator to award grants under this section in a timely manner each fiscal year, the Administrator shall compare an agency's prospective expenditure level to that of its second preceding fiscal year. The Administrator shall revise the current regulations which define applicable nonrecurrent and recurrent expenditures, and in so doing, give due consideration to exempting an agency from the limitations of this paragraph and subsection (a) of this section due to periodic increases experienced by that agency from time to time in its annual expenditures for purposes acceptable to the Administrator for that fiscal year.

(2) The Administrator may still award a grant to an agency not meeting the requirements of paragraph (*l*)[1] of this subsection if the Administrator, after notice and opportunity for public hearing, determines that a reduction in expenditures is attributable to a non-selective reduction in the expenditures in the programs of all Executive branch agencies of the applicable unit of Government. No agency shall receive any grant under this section with respect to the maintenance of a program for the prevention and control of air pollution unless the Administrator is satisfied that such a grant will be so used to supplement and, to the extent practicable, increase the level of State, local, or other non-Federal funds. No grants shall be made under this section until the Administrator has consulted with the appropriate official as designated by the Governor or Governors of the State or States affected.

(d) Reduction of payments; availability of reduced amounts; reduced amount as deemed paid to agency for purpose of determining amount of grant

The Administrator, with the concurrence of any recipient of a grant under this section, may reduce the payments to such recipient by the amount of the pay, allowances, traveling expenses, and any other costs in connection with the detail of any officer or employee to the recipient under section 7601 of this title, when such detail is for the convenience of, and at the request of, such recipient and for the purpose of carrying out the provisions of this chapter. The amount by which such payments have been reduced shall be available for payment of such costs by the Administrator, but shall, for the purpose of determining the amount of any grant to a recipient under subsection (a) of this section, be deemed to have been paid to such agency.

(e) Notice and opportunity for hearing when affected by adverse action

No application by a State for a grant under this section may be disapproved by the Administrator without prior notice and opportunity for a public hearing in the affected State, and no commitment or obligation of any funds under any such grant may be revoked or reduced without prior notice and opportunity for a public

[1] So in original. Probably should be paragraph ''(1)''.

hearing in the affected State (or in one of the affected States if more than one State is affected).

(July 14, 1955, ch. 360, title I, § 105, formerly § 4, as added Pub. L. 88–206, § 1, Dec. 17, 1963, 77 Stat. 395; renumbered § 104 and amended Pub. CODIFICATION

Section was formerly classified to section 1857c of this title.

PRIOR PROVISIONS

A prior section 105 of act July 14, 1955, was renumbered section 108 by Pub. L. 90–148 and is classified to section 7415 of this title.

Provisions similar to those in subsecs. (a) and (b) of this section were contained in a prior section 1857d of this title, act July 14, 1955, ch. 360, § 5, 69 Stat. 322, as amended Sept. 22, 1959, Pub. L. 86–365, § 1, 73 Stat. 646; Oct. 9, 1962, Pub. L. 87–761, § 1, 76 Stat. 760, prior to the general amendment by Pub. L. 88–206.

AMENDMENTS

1990—Subsec. (a)(1)(A), (B). Pub. L. 101–549, § 802(a), amended subpars. (A) and (B) generally. Prior to amendment, subpars. (A) and (B) read as follows:

''(A) The Administrator may make grants to air pollution control agencies in an amount up to two-thirds of the cost of planning, developing, establishing, or improving, and up to one-half of the cost of maintaining, programs for the prevention and control of air pollution or implementation of national primary and secondry [sic] ambient air quality standards.

''(B) Subject to subparagraph (C), the Administrator may make grants to air pollution control agencies within the meaning of paragraph (1), (2), or (4) of section 7602(b) of this title in an amount up to three-fourths of the cost of planning, developing, establishing, or improving, and up to three-fifths of the cost of maintaining, any program for the prevention and control of air pollution or implementation of national primary and secondary ambient air quality standards in an area that includes two or more municipalities, whether in the same or different States.''

Subsec. (a)(1)(C). Pub. L. 101–549, § 802(b), substituted ''subparagraph (A)'' for ''subparagraph (B)''.

Subsec. (b)(1). Pub. L. 101–549, § 802(c), designated existing provisions of subsec. (b) as par. (1), redesignated former cls. (1) to (3) as cls. (A) to (C), respectively, and struck out at end ''No agency shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for other than non-recurrent expenditures for air pollution control programs will be less than its expenditures were for such programs during the preceding fiscal year, unless the Administrator, after notice and opportunity for public hearing, determines that a reduction in expenditures is attributable to a nonselective reduction in expenditures in the programs of all executive branch agencies of the applicable unit of Government; and no agency shall receive any grant under this section with respect to the maintenance of a program for the prevention and control of air pollution unless the Administrator is satisfied that such grant will be so used to supplement and, to the extent practicable, increase the level of State, local, or other non-Federal funds that would in the absence of such grant be made available for the maintenance of such program, and will in no event supplant such State, local, or other non-Federal funds. No grant shall be made under this section until the Administrator has consulted with the appropriate official as designated by the Governor or Governors of the State or States affected.''

Subsec. (b)(2). Pub. L. 101–549, § 802(d), redesignated subsec. (c) as subsec. (b)(2) and substituted ''Subject to the provisions of paragraph (1) of this subsection, no State shall have made available to it for application less than one-half of 1 per centum of the annual appropriation for grants under this section for grants to agencies within such State.'' for ''In fiscal year 1978 and subsequent fiscal years, subject to the provisions of subsection (b) of this section, no State shall receive less than one-half of 1 per centum of the annual appropriation for grants under this section for grants to agencies within such State.''

Subsec. (c). Pub. L. 101–549, § 802(e), added subsec. (c). Former subsec. (c) redesignated (b)(2).

1977—Subsec. (b). Pub. L. 95–95, § 102(a), inserted '', unless the Administrator, after notice and opportunity for hearing, determines that a reduction in expenditures is attributable to a nonselective reduction in expenditures in the programs of all executive branch agencies of the applicable unit of Government'' after ''will be less than its expenditures were for such programs during the preceding fiscal year''.

Subsec. (c). Pub. L. 95–95, § 102(b), provided that in fiscal year 1978 and subsequent fiscal years, subject to provisions of subsec. (b) of this section, no State shall receive less than one-half of 1 per centum of the annual appropriation for grants under this section for grants to agencies within such State.

Subsec. (e). Pub. L. 95–95, § 305(b), added subsec. (e).

1970—Subsec. (a)(1). Pub. L. 91–604, § 3(a), substituted provisions authorizing the Administrator to make grants, for provisions authorizing the Secretary to make grants, and provisions authorizing grants for programs implementing national primary and secondary ambient air quality standards, for provisions authorizing grants for programs implementing air quality standards authorized by this subchapter, and inserted the provision requiring grants to air pollution control agencies be made to agencies having substantial responsibilities for carrying out the applicable implementation plan with respect to the air quality control region or portion thereof.

Subsecs. (a)(2), (3), (b), (c). Pub. L. 91–604, § 15(c)(2), substituted ''Administrator'' for ''Secretary'' wherever appearing.

Subsec. (d). Pub. L. 91–604, § 3(b)(1), added subsec. (d).

1967—Subsec. (a). Pub. L. 90–148 designated existing provisions as par. (1), substituted ''regional air quality control program'' for ''regional air pollution control program,'' added planning to list of authorized activities, and added programs for implementation of air quality standards authorized by this chapter to list of authorized programs, and added pars. (2) and (3).

Subsec. (b). Pub. L. 90–148 made minor changes in the order of provisions.

Subsec. (c). Pub. L. 90–148 reduced percentage limitation on portion of total funds which might be granted for air pollution control programs in any one State from 12½ per centum to 10 per centum.

1966—Subsec. (a). Pub. L. 89–675, § 3(a)(1), struck out provisions limiting available funds to 20 per centum of sums appropriated annually for purpose of this subchapter, inserted provisions allowing grants to air pollution control agencies up to one-half of cost of maintaining programs for prevention and control of air pollution, and authorized Secretary to make grants of up to three-fifths of cost of maintaining regional air pollution control programs.

Subsec. (b). Pub. L. 89–675, § 3(a)(2), substituted ''for the purpose of'' for ''under'', permitted grantees to reduce annual expenditures to the extent that nonrecurrent costs are involved for purposes of application of the provision that no agency may receive grants during any fiscal year when its expenditures of non-Federal funds for air pollution control programs are less than its expenditures for such programs during the pre-

ceding year, and inserted provisions insuring that Federal funds will in no event be used to supplant State or local government funds in maintaining air pollution control programs.

Subsec. (c). Pub. L. 89–675, § 3(b), substituted ''total of funds appropriated or allocated for the purposes of subsection (a) of this section shall be granted for air pollution control programs'' for ''grant funds available under subsection (a) of this section shall be expended'' and authorized the Secretary to determine the portion of grants to interstate agencies to be charged against the twelve and one-half percent limitation of grant funds to any one State.

1965—Subsec. (a). Pub. L. 89–272 substituted ''this title'' for ''this Act'', which for purposes of codification has been changed to ''this subchapter'', and ''section 302(b)(2) and (4)'' for ''section 9(b)(2) and (4)'', which for purposes of codification has been changed to ''section 7602(b)(2) and (4) of this title''.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7509, 7601 of this title.

§ 7406. Interstate air quality agencies; program cost limitations

For the purpose of developing implementation plans for any interstate air quality control region designated pursuant to section 7407 of this title or of implementing section 7506a of this title (relating to control of interstate air pollution) or section 7511c of this title (relating to control of interstate ozone pollution), the Administrator is authorized to pay, for two years, up to 100 per centum of the air quality planning program costs of any commission established under section 7506a of this title (relating to control of interstate air pollution) or section 7511c of this title (relating to control of interstate ozone pollution) or any agency designated by the Governors of the affected States, which agency shall be capable of recommending to the Governors plans for implementation of national primary and secondary ambient air quality standards and shall include representation from the States and appropriate political subdivisions within the air quality control region. After the initial two-year period the Administrator is authorized to make grants to such agency or such commission in an amount up to three-fifths of the air quality implementation program costs of such agency or commission.

(July 14, 1955, ch. 360, title I, § 106, as added Pub. L. 90–148, § 2, Nov. 21, 1967, 81 Stat. 490; amended Pub. L. 91–604, § 3(c), Dec. 31, 1970, 84 Stat. 1677; Pub. L. 101–549, title I, § 102(f)(2), title VIII, § 802(f), Nov. 15, 1990, 104 Stat. 2420, 2688.)

CODIFICATION

Section was formerly classified to section 1857c–1 of this title.

PRIOR PROVISIONS

A prior section 106 of act July 14, 1955, was renumbered section 117 by Pub. L. 91–604 and is classified to section 7417 of this title.

AMENDMENTS

1990—Pub. L. 101–549, § 102(f)(2)(A), inserted ''or of implementing section 7506a of this title (relating to control of interstate air pollution) or section 7511c of this title (relating to control of interstate ozone pollution)'' after ''section 7407 of this title''.

Pub. L. 101–549, § 102(f)(2)(B), which directed insertion of ''any commission established under section 7506a of this title (relating to control of interstate air pollution) or section 7511c of this title (relating to control of interstate ozone pollution) or'' after ''program costs of'', was executed by making the insertion after that phrase the first place it appeared to reflect the probable intent of Congress.

Pub. L. 101–549, § 102(f)(2)(C), which directed insertion of ''or such commission'' after ''such agency'' in last sentence, was executed by making insertion after ''such agency'' the first place it appeared in the last sentence to reflect the probable intent of Congress.

Pub. L. 101–549, §§ 102(f)(2)(D), 802(f), substituted ''three-fifths of the air quality implementation program costs of such agency or commission'' for ''three-fourths of the air quality planning program costs of such agency''.

1970—Pub. L. 91–604 struck out designation ''(a)'', substituted provisions authorizing Federal grants for the purpose of developing implementation plans and provisions requiring the designated State agency to be capable of recommending plans for implementation of national primary and secondary ambient air quality standards, for provisions authorizing Federal grants for the purpose of expediting the establishment of air quality standards and provisions requiring the designated State agency to be capable of recommending standards of air quality and plans for implementation thereof, respectively, and struck out subsec. (b) which authorized establishment of air quality planning commissions.

§ 7407. Air quality control regions

(a) Responsibility of each State for air quality; submission of implementation plan

Each State shall have the primary responsibility for assuring air quality within the entire geographic area comprising such State by submitting an implementation plan for such State which will specify the manner in which national primary and secondary ambient air quality standards will be achieved and maintained within each air quality control region in such State.

(b) Designated regions

For purposes of developing and carrying out implementation plans under section 7410 of this title—

(1) an air quality control region designated under this section before December 31, 1970, or a region designated after such date under subsection (c) of this section, shall be an air quality control region; and

(2) the portion of such State which is not part of any such designated region shall be an air quality control region, but such portion

may be subdivided by the State into two or more air quality control regions with the approval of the Administrator.

(c) Authority of Administrator to designate regions; notification of Governors of affected States

The Administrator shall, within 90 days after December 31, 1970, after consultation with appropriate State and local authorities, designate as an air quality control region any interstate area or major intrastate area which he deems necessary or appropriate for the attainment and maintenance of ambient air quality standards. The Administrator shall immediately notify the Governors of the affected States of any designation made under this subsection.

(d) Designations

(1) Designations generally

(A) Submission by Governors of initial designations following promulgation of new or revised standards

By such date as the Administrator may reasonably require, but not later than 1 year after promulgation of a new or revised national ambient air quality standard for any pollutant under section 7409 of this title, the Governor of each State shall (and at any other time the Governor of a State deems appropriate the Governor may) submit to the Administrator a list of all areas (or portions thereof) in the State, designating as—

(i) nonattainment, any area that does not meet (or that contributes to ambient air quality in a nearby area that does not meet) the national primary or secondary ambient air quality standard for the pollutant,

(ii) attainment, any area (other than an area identified in clause (i)) that meets the national primary or secondary ambient air quality standard for the pollutant, or

(iii) unclassifiable, any area that cannot be classified on the basis of available information as meeting or not meeting the national primary or secondary ambient air quality standard for the pollutant.

The Administrator may not require the Governor to submit the required list sooner than 120 days after promulgating a new or revised national ambient air quality standard.

(B) Promulgation by EPA of designations

(i) Upon promulgation or revision of a national ambient air quality standard, the Administrator shall promulgate the designations of all areas (or portions thereof) submitted under subparagraph (A) as expeditiously as practicable, but in no case later than 2 years from the date of promulgation of the new or revised national ambient air quality standard. Such period may be extended for up to one year in the event the Administrator has insufficient information to promulgate the designations.

(ii) In making the promulgations required under clause (i), the Administrator may make such modifications as the Administrator deems necessary to the designations of the areas (or portions thereof) submitted under subparagraph (A) (including to the boundaries of such areas or portions thereof). Whenever the Administrator intends to make a modification, the Administrator shall notify the State and provide such State with an opportunity to demonstrate why any proposed modification is inappropriate. The Administrator shall give such notification no later than 120 days before the date the Administrator promulgates the designation, including any modification thereto. If the Governor fails to submit the list in whole or in part, as required under subparagraph (A), the Administrator shall promulgate the designation that the Administrator deems appropriate for any area (or portion thereof) not designated by the State.

(iii) If the Governor of any State, on the Governor's own motion, under subparagraph (A), submits a list of areas (or portions thereof) in the State designated as nonattainment, attainment, or unclassifiable, the Administrator shall act on such designations in accordance with the procedures under paragraph (3) (relating to redesignation).

(iv) A designation for an area (or portion thereof) made pursuant to this subsection shall remain in effect until the area (or portion thereof) is redesignated pursuant to paragraph (3) or (4).

(C) Designations by operation of law

(i) Any area designated with respect to any air pollutant under the provisions of paragraph (1)(A), (B), or (C) of this subsection (as in effect immediately before November 15, 1990) is designated, by operation of law, as a nonattainment area for such pollutant within the meaning of subparagraph (A)(i).

(ii) Any area designated with respect to any air pollutant under the provisions of paragraph (1)(E) (as in effect immediately before November 15, 1990) is designated by operation of law, as an attainment area for such pollutant within the meaning of subparagraph (A)(ii).

(iii) Any area designated with respect to any air pollutant under the provisions of paragraph (1)(D) (as in effect immediately before November 15, 1990) is designated, by operation of law, as an unclassifiable area for such pollutant within the meaning of subparagraph (A)(iii).

(2) Publication of designations and redesignations

(A) The Administrator shall publish a notice in the Federal Register promulgating any designation under paragraph (1) or (5), or announcing any designation under paragraph (4), or promulgating any redesignation under paragraph (3).

(B) Promulgation or announcement of a designation under paragraph (1), (4) or (5) shall not be subject to the provisions of sections 553 through 557 of title 5 (relating to notice and comment), except nothing herein shall be construed as precluding such public notice and comment whenever possible.

(3) Redesignation

(A) Subject to the requirements of subparagraph (E), and on the basis of air quality data,

planning and control considerations, or any other air quality-related considerations the Administrator deems appropriate, the Administrator may at any time notify the Governor of any State that available information indicates that the designation of any area or portion of an area within the State or interstate area should be revised. In issuing such notification, which shall be public, to the Governor, the Administrator shall provide such information as the Administrator may have available explaining the basis for the notice.

(B) No later than 120 days after receiving a notification under subparagraph (A), the Governor shall submit to the Administrator such redesignation, if any, of the appropriate area (or areas) or portion thereof within the State or interstate area, as the Governor considers appropriate.

(C) No later than 120 days after the date described in subparagraph (B) (or paragraph (1)(B)(iii)), the Administrator shall promulgate the redesignation, if any, of the area or portion thereof, submitted by the Governor in accordance with subparagraph (B), making such modifications as the Administrator may deem necessary, in the same manner and under the same procedure as is applicable under clause (ii) of paragraph (1)(B), except that the phrase ''60 days'' shall be substituted for the phrase ''120 days'' in that clause. If the Governor does not submit, in accordance with subparagraph (B), a redesignation for an area (or portion thereof) identified by the Administrator under subparagraph (A), the Administrator shall promulgate such redesignation, if any, that the Administrator deems appropriate.

(D) The Governor of any State may, on the Governor's own motion, submit to the Administrator a revised designation of any area or portion thereof within the State. Within 18 months of receipt of a complete State redesignation submittal, the Administrator shall approve or deny such redesignation. The submission of a redesignation by a Governor shall not affect the effectiveness or enforceability of the applicable implementation plan for the State.

(E) The Administrator may not promulgate a redesignation of a nonattainment area (or portion thereof) to attainment unless—

(i) the Administrator determines that the area has attained the national ambient air quality standard;

(ii) the Administrator has fully approved the applicable implementation plan for the area under section 7410(k) of this title;

(iii) the Administrator determines that the improvement in air quality is due to permanent and enforceable reductions in emissions resulting from implementation of the applicable implementation plan and applicable Federal air pollutant control regulations and other permanent and enforceable reductions;

(iv) the Administrator has fully approved a maintenance plan for the area as meeting the requirements of section 7505a of this title; and

(v) the State containing such area has met all requirements applicable to the area under section 7410 of this title and part D of this subchapter.

(F) The Administrator shall not promulgate any redesignation of any area (or portion thereof) from nonattainment to unclassifiable.

(4) Nonattainment designations for ozone, carbon monoxide and particulate matter (PM–10)

(A) Ozone and carbon monoxide

(i) Within 120 days after November 15, 1990, each Governor of each State shall submit to the Administrator a list that designates, affirms or reaffirms the designation of, or redesignates (as the case may be), all areas (or portions thereof) of the Governor's State as attainment, nonattainment, or unclassifiable with respect to the national ambient air quality standards for ozone and carbon monoxide.

(ii) No later than 120 days after the date the Governor is required to submit the list of areas (or portions thereof) required under clause (i) of this subparagraph, the Administrator shall promulgate such designations, making such modifications as the Administrator may deem necessary, in the same manner, and under the same procedure, as is applicable under clause (ii) of paragraph (1)(B), except that the phrase ''60 days'' shall be substituted for the phrase ''120 days'' in that clause. If the Governor does not submit, in accordance with clause (i) of this subparagraph, a designation for an area (or portion thereof), the Administrator shall promulgate the designation that the Administrator deems appropriate.

(iii) No nonattainment area may be redesignated as an attainment area under this subparagraph.

(iv) Notwithstanding paragraph (1)(C)(ii) of this subsection, if an ozone or carbon monoxide nonattainment area located within a metropolitan statistical area or consolidated metropolitan statistical area (as established by the Bureau of the Census) is classified under part D of this subchapter as a Serious, Severe, or Extreme Area, the boundaries of such area are hereby revised (on the date 45 days after such classification) by operation of law to include the entire metropolitan statistical area or consolidated metropolitan statistical area, as the case may be, unless within such 45-day period the Governor (in consultation with State and local air pollution control agencies) notifies the Administrator that additional time is necessary to evaluate the application of clause (v). Whenever a Governor has submitted such a notice to the Administrator, such boundary revision shall occur on the later of the date 8 months after such classification or 14 months after November 15, 1990, unless the Governor makes the finding referred to in clause (v), and the Administrator concurs in such finding, within such period. Except as otherwise provided in this paragraph, a boundary revision under this clause or clause (v) shall apply for purposes of any State implementation plan revision required to be submitted after November 15, 1990.

(v) Whenever the Governor of a State has submitted a notice under clause (iv), the Governor, in consultation with State and local air pollution control agencies, shall undertake a study to evaluate whether the entire metropolitan statistical area or consolidated metropolitan statistical area should be included within the nonattainment area. Whenever a Governor finds and demonstrates to the satisfaction of the Administrator, and the Administrator concurs in such finding, that with respect to a portion of a metropolitan statistical area or consolidated metropolitan statistical area, sources in the portion do not contribute significantly to violation of the national ambient air quality standard, the Administrator shall approve the Governor's request to exclude such portion from the nonattainment area. In making such finding, the Governor and the Administrator shall consider factors such as population density, traffic congestion, commercial development, industrial development, meteorological conditions, and pollution transport.

(B) PM–10 designations

By operation of law, until redesignation by the Administrator pursuant to paragraph (3)—

(i) each area identified in 52 Federal Register 29383 (Aug. 7, 1987) as a Group I area (except to the extent that such identification was modified by the Administrator before November 15, 1990) is designated nonattainment for PM–10;

(ii) any area containing a site for which air quality monitoring data show a violation of the national ambient air quality standard for PM–10 before January 1, 1989 (as determined under part 50, appendix K of title 40 of the Code of Federal Regulations) is hereby designated nonattainment for PM–10; and

(iii) each area not described in clause (i) or (ii) is hereby designated unclassifiable for PM–10.

Any designation for particulate matter (measured in terms of total suspended particulates) that the Administrator promulgated pursuant to this subsection (as in effect immediately before November 15, 1990) shall remain in effect for purposes of implementing the maximum allowable increases in concentrations of particulate matter (measured in terms of total suspended particulates) pursuant to section 7473(b) of this title, until the Administrator determines that such designation is no longer necessary for that purpose.

(5) Designations for lead

The Administrator may, in the Administrator's discretion at any time the Administrator deems appropriate, require a State to designate areas (or portions thereof) with respect to the national ambient air quality standard for lead in effect as of November 15, 1990, in accordance with the procedures under subparagraphs (A) and (B) of paragraph (1), except that in applying subparagraph (B)(i) of paragraph (1) the phrase ''2 years from the date of promulgation of the new or revised national ambient air quality standard'' shall be replaced by the phrase ''1 year from the date the Administrator notifies the State of the requirement to designate areas with respect to the standard for lead''.

(e) Redesignation of air quality control regions

(1) Except as otherwise provided in paragraph (2), the Governor of each State is authorized, with the approval of the Administrator, to redesignate from time to time the air quality control regions within such State for purposes of efficient and effective air quality management. Upon such redesignation, the list under subsection (d) of this section shall be modified accordingly.

(2) In the case of an air quality control region in a State, or part of such region, which the Administrator finds may significantly affect air pollution concentrations in another State, the Governor of the State in which such region, or part of a region, is located may redesignate from time to time the boundaries of so much of such air quality control region as is located within such State only with the approval of the Administrator and with the consent of all Governors of all States which the Administrator determines may be significantly affected.

(3) No compliance date extension granted under section 7413(d)(5)[1] of this title (relating to coal conversion) shall cease to be effective by reason of the regional limitation provided in section 7413(d)(5)[1] of this title if the violation of such limitation is due solely to a redesignation of a region under this subsection.

(July 14, 1955, ch. 360, title I, §107, as added Pub. L. 91–604, §4(a), Dec. 31, 1970, 84 Stat. 1678; amended Pub. L. 95–95, title I, §103, Aug. 7, 1977, 91 Stat. 687; Pub. L. 101–549, title I, §101(a), Nov. 15, 1990, 104 Stat. 2399.)

REFERENCES IN TEXT

Section 7413 of this title, referred to in subsec. (e)(3), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, subsec. (d) of section 7413 no longer relates to final compliance orders.

CODIFICATION

Section was formerly classified to section 1857c–2 of this title.

PRIOR PROVISIONS

A prior section 107 of act July 14, 1955, as added Nov. 21, 1967, Pub. L. 90–148, §2, 81 Stat. 490, related to air quality control regions and was classified to section 1857c–2 of this title, prior to repeal by Pub. L. 91–604.

Another prior section 107 of act July 14, 1955, as added Dec. 17, 1963, Pub. L. 88–206, §1, 77 Stat. 399, was renumbered section 111 by Pub. L. 90–148 and is classified to section 7411 of this title.

AMENDMENTS

1990—Subsec. (d). Pub. L. 101–549 amended subsec. (d) generally, substituting present provisions for provisions which required States to submit lists of regions not in compliance on Aug. 7, 1977, with certain air quality standards to be submitted to the Administrator, and which authorized States to revise and resubmit such lists from time to time.

[1] See References in Text note below.

1977—Subsecs. (d), (e). Pub. L. 95–95 added subsecs. (d) and (e).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

OZONE AND PARTICULATE MATTER STANDARDS

Pub. L. 105–178, title VI, June 9, 1998, 112 Stat. 463, provided that:

''SEC. 6101. FINDINGS AND PURPOSE.

''(a) The Congress finds that—

''(1) there is a lack of air quality monitoring data for fine particle levels, measured as $PM_{2.5}$, in the United States and the States should receive full funding for the monitoring efforts;

''(2) such data would provide a basis for designating areas as attainment or nonattainment for any $PM_{2.5}$ national ambient air quality standards pursuant to the standards promulgated in July 1997;

''(3) the President of the United States directed the Administrator of the Environmental Protection Agency (referred to in this title as the 'Administrator') in a memorandum dated July 16, 1997, to complete the next periodic review of the particulate matter national ambient air quality standards by July 2002 in order to determine 'whether to revise or maintain the standards';

''(4) the Administrator has stated that 3 years of air quality monitoring data for fine particle levels, measured as $PM_{2.5}$ and performed in accordance with any applicable Federal reference methods, is appropriate for designating areas as attainment or nonattainment pursuant to the July 1997 promulgated standards; and

''(5) the Administrator has acknowledged that in drawing boundaries for attainment and nonattainment areas for the July 1997 ozone national air quality standards, Governors would benefit from considering implementation guidance from EPA on drawing area boundaries.

''(b) The purposes of this title are—

''(1) to ensure that 3 years of air quality monitoring data regarding fine particle levels are gathered for use in the determination of area attainment or nonattainment designations respecting any $PM_{2.5}$ national ambient air quality standards;

''(2) to ensure that the Governors have adequate time to consider implementation guidance from EPA on drawing area boundaries prior to submitting area designations respecting the July 1997 ozone national ambient air quality standards;

''(3) to ensure that the schedule for implementation of the July 1997 revisions of the ambient air quality standards for particulate matter and the schedule for the Environmental Protection Agency's visibility regulations related to regional haze are consistent with the timetable for implementation of such particulate matter standards as set forth in the President's Implementation Memorandum dated July 16, 1997.

''SEC. 6102. PARTICULATE MATTER MONITORING PROGRAM.

''(a) Through grants under section 103 of the Clean Air Act [42 U.S.C. 7403] the Administrator of the Environmental Protection Agency shall use appropriated funds no later than fiscal year 2000 to fund 100 percent of the cost of the establishment, purchase, operation and maintenance of a $PM_{2.5}$ monitoring network necessary to implement the national ambient air quality standards for $PM_{2.5}$ under section 109 of the Clean Air Act [42 U.S.C. 7409]. This implementation shall not result in a diversion or reprogramming of funds from other Federal, State or local Clean Air Act activities. Any funds previously diverted or reprogrammed from section 105 Clean Air Act [42 U.S.C. 7405] grants for $PM_{2.5}$ monitors must be restored to State or local air programs in fiscal year 1999.

''(b) EPA and the States, consistent with their respective authorities under the Clean Air Act [42 U.S.C. 7401 et seq.], shall ensure that the national network (designated in subsection (a)) which consists of the $PM_{2.5}$ monitors necessary to implement the national ambient air quality standards is established by December 31, 1999.

''(c)(1) The Governors shall be required to submit designations referred to in section 107(d)(1) of the Clean Air Act [42 U.S.C. 7407(d)(1)] for each area following promulgation of the July 1997 $PM_{2.5}$ national ambient air quality standard within 1 year after receipt of 3 years of air quality monitoring data performed in accordance with any applicable Federal reference methods for the relevant areas. Only data from the monitoring network designated in subsection (a) and other Federal reference method $PM_{2.5}$ monitors shall be considered for such designations. Nothing in the previous sentence shall be construed as affecting the Governor's authority to designate an area initially as nonattainment, and the Administrator's authority to promulgate the designation of an area as nonattainment, under section 107(d)(1) of the Clean Air Act, based on its contribution to ambient air quality in a nearby nonattainment area.

''(2) For any area designated as nonattainment for the July 1997 $PM_{2.5}$ national ambient air quality standard in accordance with the schedule set forth in this section, notwithstanding the time limit prescribed in paragraph (2) of section 169B(e) of the Clean Air Act [42 U.S.C. 7492(e)(2)], the Administrator shall require State implementation plan revisions referred to in such paragraph (2) to be submitted at the same time as State implementation plan revisions referred to in section 172 of the Clean Air Act [42 U.S.C. 7502] implementing the revised national ambient air quality standard for fine particulate matter are required to be submitted. For any area designated as attainment or unclassifiable for such standard, the Administrator shall require the State implementation plan revisions referred to in such paragraph (2) to be submitted 1 year after the area has been so designated. The preceding provisions of this paragraph shall not preclude the implementation of the agreements and recommendations set forth in the Grand Canyon Visibility Transport Commission Report dated June 1996.

''(d) The Administrator shall promulgate the designations referred to in section 107(d)(1) of the Clean Air Act [42 U.S.C. 7407(d)(1)] for each area following promulgation of the July 1997 $PM_{2.5}$ national ambient air quality standard by the earlier of 1 year after the initial designations required under subsection (c)(1) are required to be submitted or December 31, 2005.

''(e) The Administrator shall conduct a field study of the ability of the $PM_{2.5}$ Federal Reference Method to differentiate those particles that are larger than 2.5 micrograms in diameter. This study shall be completed and provided to the Committee on Commerce [now Committee on Energy and Commerce] of the House of Representatives and the Committee on Environment and Public Works of the United States Senate no later than 2 years from the date of enactment of this Act [June 9, 1998].

''SEC. 6103. OZONE DESIGNATION REQUIREMENTS.

''(a) The Governors shall be required to submit the designations referred to in section 107(d)(1) of the Clean Air Act [42 U.S.C. 7407(d)(1)] within 2 years following the promulgation of the July 1997 ozone national ambient air quality standards.

''(b) The Administrator shall promulgate final designations no later than 1 year after the designations required under subsection (a) are required to be submitted.

''SEC. 6104. ADDITIONAL PROVISIONS.

''Nothing in sections 6101 through 6103 shall be construed by the Administrator of Environmental Protection Agency or any court, State, or person to affect any

pending litigation or to be a ratification of the ozone or $PM_{2.5}$ standards.''

PENDING ACTIONS AND PROCEEDINGS

Suits, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7406, 7429, 7471, 7472, 7477, 7501, 7502, 7505a, 7506, 7509, 7511, 7511e, 7512, 7513, 7513a, 7514, 7545, 7607, 7651d of this title; title 23 sections 101, 109, 149.

§ 7408. Air quality criteria and control techniques

(a) Air pollutant list; publication and revision by Administrator; issuance of air quality criteria for air pollutants

(1) For the purpose of establishing national primary and secondary ambient air quality standards, the Administrator shall within 30 days after December 31, 1970, publish, and shall from time to time thereafter revise, a list which includes each air pollutant—

(A) emissions of which, in his judgment, cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare;

(B) the presence of which in the ambient air results from numerous or diverse mobile or stationary sources; and

(C) for which air quality criteria had not been issued before December 31, 1970 but for which he plans to issue air quality criteria under this section.

(2) The Administrator shall issue air quality criteria for an air pollutant within 12 months after he has included such pollutant in a list under paragraph (1). Air quality criteria for an air pollutant shall accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of such pollutant in the ambient air, in varying quantities. The criteria for an air pollutant, to the extent practicable, shall include information on—

(A) those variable factors (including atmospheric conditions) which of themselves or in combination with other factors may alter the effects on public health or welfare of such air pollutant;

(B) the types of air pollutants which, when present in the atmosphere, may interact with such pollutant to produce an adverse effect on public health or welfare; and

(C) any known or anticipated adverse effects on welfare.

(b) Issuance by Administrator of information on air pollution control techniques; standing consulting committees for air pollutants; establishment; membership

(1) Simultaneously with the issuance of criteria under subsection (a) of this section, the Administrator shall, after consultation with appropriate advisory committees and Federal departments and agencies, issue to the States and appropriate air pollution control agencies information on air pollution control techniques, which information shall include data relating to the cost of installation and operation, energy requirements, emission reduction benefits, and environmental impact of the emission control technology. Such information shall include such data as are available on available technology and alternative methods of prevention and control of air pollution. Such information shall also include data on alternative fuels, processes, and operating methods which will result in elimination or significant reduction of emissions.

(2) In order to assist in the development of information on pollution control techniques, the Administrator may establish a standing consulting committee for each air pollutant included in a list published pursuant to subsection (a)(1) of this section, which shall be comprised of technically qualified individuals representative of State and local governments, industry, and the academic community. Each such committee shall submit, as appropriate, to the Administrator information related to that required by paragraph (1).

(c) Review, modification, and reissuance of criteria or information

The Administrator shall from time to time review, and, as appropriate, modify, and reissue any criteria or information on control techniques issued pursuant to this section. Not later than six months after August 7, 1977, the Administrator shall revise and reissue criteria relating to concentrations of NO_2 over such period (not more than three hours) as he deems appropriate. Such criteria shall include a discussion of nitric and nitrous acids, nitrites, nitrates, nitrosamines, and other carcinogenic and potentially carcinogenic derivatives of oxides of nitrogen.

(d) Publication in Federal Register; availability of copies for general public

The issuance of air quality criteria and information on air pollution control techniques shall be announced in the Federal Register and copies shall be made available to the general public.

(e) Transportation planning and guidelines

The Administrator shall, after consultation with the Secretary of Transportation, and after providing public notice and opportunity for

comment, and with State and local officials, within nine months after November 15, 1990,[1] and periodically thereafter as necessary to maintain a continuous transportation-air quality planning process, update the June 1978 Transportation-Air Quality Planning Guidelines and publish guidance on the development and implementation of transportation and other measures necessary to demonstrate and maintain attainment of national ambient air quality standards. Such guidelines shall include information on—

(1) methods to identify and evaluate alternative planning and control activities;

(2) methods of reviewing plans on a regular basis as conditions change or new information is presented;

(3) identification of funds and other resources necessary to implement the plan, including interagency agreements on providing such funds and resources;

(4) methods to assure participation by the public in all phases of the planning process; and

(5) such other methods as the Administrator determines necessary to carry out a continuous planning process.

(f) Information regarding processes, procedures, and methods to reduce or control pollutants in transportation; reduction of mobile source related pollutants; reduction of impact on public health

(1) The Administrator shall publish and make available to appropriate Federal, State, and local environmental and transportation agencies not later than one year after November 15, 1990, and from time to time thereafter—

(A) information prepared, as appropriate, in consultation with the Secretary of Transportation, and after providing public notice and opportunity for comment, regarding the formulation and emission reduction potential of transportation control measures related to criteria pollutants and their precursors, including, but not limited to—

(i) programs for improved public transit;

(ii) restriction of certain roads or lanes to, or construction of such roads or lanes for use by, passenger buses or high occupancy vehicles;

(iii) employer-based transportation management plans, including incentives;

(iv) trip-reduction ordinances;

(v) traffic flow improvement programs that achieve emission reductions;

(vi) fringe and transportation corridor parking facilities serving multiple occupancy vehicle programs or transit service;

(vii) programs to limit or restrict vehicle use in downtown areas or other areas of emission concentration particularly during periods of peak use;

(viii) programs for the provision of all forms of high-occupancy, shared-ride services;

(ix) programs to limit portions of road surfaces or certain sections of the metropolitan area to the use of non-motorized vehicles or pedestrian use, both as to time and place;

(x) programs for secure bicycle storage facilities and other facilities, including bicycle lanes, for the convenience and protection of bicyclists, in both public and private areas;

(xi) programs to control extended idling of vehicles;

(xii) programs to reduce motor vehicle emissions, consistent with subchapter II of this chapter, which are caused by extreme cold start conditions;

(xiii) employer-sponsored programs to permit flexible work schedules;

(xiv) programs and ordinances to facilitate non-automobile travel, provision and utilization of mass transit, and to generally reduce the need for single-occupant vehicle travel, as part of transportation planning and development efforts of a locality, including programs and ordinances applicable to new shopping centers, special events, and other centers of vehicle activity;

(xv) programs for new construction and major reconstructions of paths, tracks or areas solely for the use by pedestrian or other non-motorized means of transportation when economically feasible and in the public interest. For purposes of this clause, the Administrator shall also consult with the Secretary of the Interior; and

(xvi) program to encourage the voluntary removal from use and the marketplace of pre-1980 model year light duty vehicles and pre-1980 model light duty trucks.

(B) information on additional methods or strategies that will contribute to the reduction of mobile source related pollutants during periods in which any primary ambient air quality standard will be exceeded and during episodes for which an air pollution alert, warning, or emergency has been declared;

(C) information on other measures which may be employed to reduce the impact on public health or protect the health of sensitive or susceptible individuals or groups; and

(D) information on the extent to which any process, procedure, or method to reduce or control such air pollutant may cause an increase in the emissions or formation of any other pollutant.

(2) In publishing such information the Administrator shall also include an assessment of—

(A) the relative effectiveness of such processes, procedures, and methods;

(B) the potential effect of such processes, procedures, and methods on transportation systems and the provision of transportation services; and

(C) the environmental, energy, and economic impact of such processes, procedures, and methods.

(g) Assessment of risks to ecosystems

The Administrator may assess the risks to ecosystems from exposure to criteria air pollutants (as identified by the Administrator in the Administrator's sole discretion).

(h) RACT/BACT/LAER clearinghouse

The Administrator shall make information regarding emission control technology available

[1] See Codification note below.

to the States and to the general public through a central database. Such information shall include all control technology information received pursuant to State plan provisions requiring permits for sources, including operating permits for existing sources.

(July 14, 1955, ch. 360, title I, § 108, as added Pub. L. 91–604, § 4(a), Dec. 31, 1970, 84 Stat. 1678; amended Pub. L. 95–95, title I, §§ 104, 105, title IV, § 401(a), Aug. 7, 1977, 91 Stat. 689, 790; Pub. L. 101–549, title I, §§ 108(a)–(c), (*o*), 111, Nov. 15, 1990, 104 Stat. 2465, 2466, 2469, 2470; Pub. L. 105–362, title XV, § 1501(b), Nov. 10, 1998, 112 Stat. 3294.)

CODIFICATION

November 15, 1990, referred to in subsec. (e), was in the original ''enactment of the Clean Air Act Amendments of 1989'', and was translated as meaning the date of the enactment of Pub. L. 101–549, popularly known as the Clean Air Act Amendments of 1990, to reflect the probable intent of Congress.

Section was formerly classified to section 1857c–3 of this title.

PRIOR PROVISIONS

A prior section 108 of act July 14, 1955, was renumbered section 115 by Pub. L. 91–604 and is classified to section 7415 of this title.

AMENDMENTS

1998—Subsec. (f)(3), (4). Pub. L. 105–362 struck out par. (3), which required reports by the Secretary of Transportation and the Administrator to be submitted to Congress by Jan. 1, 1993, and every 3 years thereafter, reviewing and analyzing existing State and local air quality related transportation programs, evaluating achievement of goals, and recommending changes to existing programs, and par. (4), which required that in each report after the first report the Secretary of Transportation include a description of the actions taken to implement the changes recommended in the preceding report.

1990—Subsec. (e). Pub. L. 101–549, § 108(a), inserted first sentence and struck out former first sentence which read as follows: ''The Administrator shall, after consultation with the Secretary of Transportation and the Secretary of Housing and Urban Development and State and local officials and within 180 days after August 7, 1977, and from time to time thereafter, publish guidelines on the basic program elements for the planning process assisted under section 7505 of this title.''

Subsec. (f)(1). Pub. L. 101–549, § 108(b), in introductory provisions, substituted present provisions for provisions relating to Federal agencies, States, and air pollution control agencies within either 6 months or one year after Aug. 7, 1977.

Subsec. (f)(1)(A). Pub. L. 101–549, § 108(b), substituted present provisions for provisions relating to information prepared in cooperation with Secretary of Transportation, regarding processes, procedures, and methods to reduce certain pollutants.

Subsec. (f)(3), (4). Pub. L. 101–549, § 111, added pars. (3) and (4).

Subsec. (g). Pub. L. 101–549, § 108(*o*), added subsec. (g).

Subsec. (h). Pub. L. 101–549, § 108(c), added subsec. (h).

1977—Subsec. (a)(1)(A). Pub. L. 95–95, § 401(a), substituted ''emissions of which, in his judgment, cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare'' for ''which in his judgment has an adverse effect on public health or welfare''.

Subsec. (b)(1). Pub. L. 95–95, § 104(a), substituted ''cost of installation and operation, energy requirements, emission reduction benefits, and environmental impact of the emission control technology'' for ''technology and costs of emission control''.

Subsec. (c). Pub. L. 95–95, § 104(b), inserted provision directing the Administrator, not later than six months after Aug. 7, 1977, to revise and reissue criteria relating to concentrations of NO_2 over such period (not more than three hours) as he deems appropriate, with the criteria to include a discussion of nitric and nitrous acids, nitrites, nitrates, nitrosamines, and other carcinogenic and potentially carcinogenic derivatives of oxides of nitrogen.

Subsecs. (e), (f). Pub. L. 95–95, § 105, added subsecs. (e) and (f).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7403, 7409, 7411, 7412, 7417, 7422, 7504, 7508, 7511a, 7511b, 7513b, 7602 of this title; title 23 sections 133, 149.

§ 7409. National primary and secondary ambient air quality standards

(a) Promulgation

(1) The Administrator—

(A) within 30 days after December 31, 1970, shall publish proposed regulations prescribing a national primary ambient air quality standard and a national secondary ambient air quality standard for each air pollutant for which air quality criteria have been issued prior to such date; and

(B) after a reasonable time for interested persons to submit written comments thereon (but no later than 90 days after the initial publication of such proposed standards) shall by regulation promulgate such proposed national primary and secondary ambient air quality standards with such modifications as he deems appropriate.

(2) With respect to any air pollutant for which air quality criteria are issued after December 31, 1970, the Administrator shall publish, simultaneously with the issuance of such criteria and information, proposed national primary and secondary ambient air quality standards for any such pollutant. The procedure provided for in paragraph (1)(B) of this subsection shall apply to the promulgation of such standards.

(b) Protection of public health and welfare

(1) National primary ambient air quality standards, prescribed under subsection (a) of this section shall be ambient air quality standards the attainment and maintenance of which in the judgment of the Administrator, based on such criteria and allowing an adequate margin of safety, are requisite to protect the public

health. Such primary standards may be revised in the same manner as promulgated.

(2) Any national secondary ambient air quality standard prescribed under subsection (a) of this section shall specify a level of air quality the attainment and maintenance of which in the judgment of the Administrator, based on such criteria, is requisite to protect the public welfare from any known or anticipated adverse effects associated with the presence of such air pollutant in the ambient air. Such secondary standards may be revised in the same manner as promulgated.

(c) National primary ambient air quality standard for nitrogen dioxide

The Administrator shall, not later than one year after August 7, 1977, promulgate a national primary ambient air quality standard for NO_2 concentrations over a period of not more than 3 hours unless, based on the criteria issued under section 7408(c) of this title, he finds that there is no significant evidence that such a standard for such a period is requisite to protect public health.

(d) Review and revision of criteria and standards; independent scientific review committee; appointment; advisory functions

(1) Not later than December 31, 1980, and at five-year intervals thereafter, the Administrator shall complete a thorough review of the criteria published under section 7408 of this title and the national ambient air quality standards promulgated under this section and shall make such revisions in such criteria and standards and promulgate such new standards as may be appropriate in accordance with section 7408 of this title and subsection (b) of this section. The Administrator may review and revise criteria or promulgate new standards earlier or more frequently than required under this paragraph.

(2)(A) The Administrator shall appoint an independent scientific review committee composed of seven members including at least one member of the National Academy of Sciences, one physician, and one person representing State air pollution control agencies.

(B) Not later than January 1, 1980, and at five-year intervals thereafter, the committee referred to in subparagraph (A) shall complete a review of the criteria published under section 7408 of this title and the national primary and secondary ambient air quality standards promulgated under this section and shall recommend to the Administrator any new national ambient air quality standards and revisions of existing criteria and standards as may be appropriate under section 7408 of this title and subsection (b) of this section.

(C) Such committee shall also (i) advise the Administrator of areas in which additional knowledge is required to appraise the adequacy and basis of existing, new, or revised national ambient air quality standards, (ii) describe the research efforts necessary to provide the required information, (iii) advise the Administrator on the relative contribution to air pollution concentrations of natural as well as anthropogenic activity, and (iv) advise the Administrator of any adverse public health, welfare, social, economic, or energy effects which may result from various strategies for attainment and maintenance of such national ambient air quality standards.

(July 14, 1955, ch. 360, title I, §109, as added Pub. L. 91–604, §4(a), Dec. 31, 1970, 84 Stat. 1679; amended Pub. L. 95–95, title I, §106, Aug. 7, 1977, 91 Stat. 691.)

CODIFICATION

Section was formerly classified to section 1857c–4 of this title.

PRIOR PROVISIONS

A prior section 109 of act July 14, 1955, was renumbered section 116 by Pub. L. 91–604 and is classified to section 7416 of this title.

AMENDMENTS

1977—Subsec. (c). Pub. L. 95–95, §106(b), added subsec. (c).

Subsec. (d). Pub. L. 95–95, §106(a), added subsec. (d).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

TERMINATION OF ADVISORY COMMITTEES

Advisory committees established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided for by law. See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 5, Government Organization and Employees.

ROLE OF SECONDARY STANDARDS

Pub. L. 101–549, title VIII, §817, Nov. 15, 1990, 104 Stat. 2697, provided that:

''(a) REPORT.—The Administrator shall request the National Academy of Sciences to prepare a report to the Congress on the role of national secondary ambient air quality standards in protecting welfare and the environment. The report shall:

''(1) include information on the effects on welfare and the environment which are caused by ambient concentrations of pollutants listed pursuant to section 108 [42 U.S.C. 7408] and other pollutants which may be listed;

''(2) estimate welfare and environmental costs incurred as a result of such effects;

''(3) examine the role of secondary standards and the State implementation planning process in preventing such effects;

''(4) determine ambient concentrations of each such pollutant which would be adequate to protect welfare and the environment from such effects;

''(5) estimate the costs and other impacts of meeting secondary standards; and

''(6) consider other means consistent with the goals and objectives of the Clean Air Act [42 U.S.C. 7401 et seq.] which may be more effective than secondary standards in preventing or mitigating such effects.

''(b) SUBMISSION TO CONGRESS; COMMENTS; AUTHORIZATION.—(1) The report shall be transmitted to the Congress not later than 3 years after the date of enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990].

''(2) At least 90 days before issuing a report the Administrator shall provide an opportunity for public comment on the proposed report. The Administrator shall include in the final report a summary of the comments received on the proposed report.

''(3) There are authorized to be appropriated such sums as are necessary to carry out this section.''

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7407, 7410, 7415, 7607, 7612, 7651d of this title; title 10 section 2259.

§ 7410. State implementation plans for national primary and secondary ambient air quality standards

(a) Adoption of plan by State; submission to Administrator; content of plan; revision; new sources; indirect source review program; supplemental or intermittent control systems

(1) Each State shall, after reasonable notice and public hearings, adopt and submit to the Administrator, within 3 years (or such shorter period as the Administrator may prescribe) after the promulgation of a national primary ambient air quality standard (or any revision thereof) under section 7409 of this title for any air pollutant, a plan which provides for implementation, maintenance, and enforcement of such primary standard in each air quality control region (or portion thereof) within such State. In addition, such State shall adopt and submit to the Administrator (either as a part of a plan submitted under the preceding sentence or separately) within 3 years (or such shorter period as the Administrator may prescribe) after the promulgation of a national ambient air quality secondary standard (or revision thereof), a plan which provides for implementation, maintenance, and enforcement of such secondary standard in each air quality control region (or portion thereof) within such State. Unless a separate public hearing is provided, each State shall consider its plan implementing such secondary standard at the hearing required by the first sentence of this paragraph.

(2) Each implementation plan submitted by a State under this chapter shall be adopted by the State after reasonable notice and public hearing. Each such plan shall—

(A) include enforceable emission limitations and other control measures, means, or techniques (including economic incentives such as fees, marketable permits, and auctions of emissions rights), as well as schedules and timetables for compliance, as may be necessary or appropriate to meet the applicable requirements of this chapter;

(B) provide for establishment and operation of appropriate devices, methods, systems, and procedures necessary to—

(i) monitor, compile, and analyze data on ambient air quality, and

(ii) upon request, make such data available to the Administrator;

(C) include a program to provide for the enforcement of the measures described in subparagraph (A), and regulation of the modification and construction of any stationary source within the areas covered by the plan as necessary to assure that national ambient air quality standards are achieved, including a permit program as required in parts C and D of this subchapter;

(D) contain adequate provisions—

(i) prohibiting, consistent with the provisions of this subchapter, any source or other type of emissions activity within the State from emitting any air pollutant in amounts which will—

(I) contribute significantly to nonattainment in, or interfere with maintenance by, any other State with respect to any such national primary or secondary ambient air quality standard, or

(II) interfere with measures required to be included in the applicable implementation plan for any other State under part C of this subchapter to prevent significant deterioration of air quality or to protect visibility,

(ii) insuring compliance with the applicable requirements of sections 7426 and 7415 of this title (relating to interstate and international pollution abatement);

(E) provide (i) necessary assurances that the State (or, except where the Administrator deems inappropriate, the general purpose local government or governments, or a regional agency designated by the State or general purpose local governments for such purpose) will have adequate personnel, funding, and authority under State (and, as appropriate, local) law to carry out such implementation plan (and is not prohibited by any provision of Federal or State law from carrying out such implementation plan or portion thereof), (ii) requirements that the State comply with the requirements respecting State boards under section 7428 of this title, and (iii) necessary assurances that, where the State has relied on a local or regional government, agency, or instrumentality for the implementation of any plan provision, the State has responsibility for ensuring adequate implementation of such plan provision;

(F) require, as may be prescribed by the Administrator—

(i) the installation, maintenance, and replacement of equipment, and the implementation of other necessary steps, by owners or operators of stationary sources to monitor emissions from such sources,

(ii) periodic reports on the nature and amounts of emissions and emissions-related data from such sources, and

(iii) correlation of such reports by the State agency with any emission limitations or standards established pursuant to this chapter, which reports shall be available at reasonable times for public inspection;

(G) provide for authority comparable to that in section 7603 of this title and adequate contingency plans to implement such authority;

(H) provide for revision of such plan—

(i) from time to time as may be necessary to take account of revisions of such national primary or secondary ambient air quality standard or the availability of improved or more expeditious methods of attaining such standard, and

(ii) except as provided in paragraph (3)(C), whenever the Administrator finds on the basis of information available to the Administrator that the plan is substantially inadequate to attain the national ambient air quality standard which it implements or to otherwise comply with any additional requirements established under this chapter;

(I) in the case of a plan or plan revision for an area designated as a nonattainment area, meet the applicable requirements of part D of this subchapter (relating to nonattainment areas);

(J) meet the applicable requirements of section 7421 of this title (relating to consultation), section 7427 of this title (relating to public notification), and part C of this subchapter (relating to prevention of significant deterioration of air quality and visibility protection);

(K) provide for—

(i) the performance of such air quality modeling as the Administrator may prescribe for the purpose of predicting the effect on ambient air quality of any emissions of any air pollutant for which the Administrator has established a national ambient air quality standard, and

(ii) the submission, upon request, of data related to such air quality modeling to the Administrator;

(L) require the owner or operator of each major stationary source to pay to the permitting authority, as a condition of any permit required under this chapter, a fee sufficient to cover—

(i) the reasonable costs of reviewing and acting upon any application for such a permit, and

(ii) if the owner or operator receives a permit for such source, the reasonable costs of implementing and enforcing the terms and conditions of any such permit (not including any court costs or other costs associated with any enforcement action),

until such fee requirement is superseded with respect to such sources by the Administrator's approval of a fee program under subchapter V of this chapter; and

(M) provide for consultation and participation by local political subdivisions affected by the plan.

(3)(A) Repealed. Pub. L. 101–549, title I, §101(d)(1), Nov. 15, 1990, 104 Stat. 2409.

(B) As soon as practicable, the Administrator shall, consistent with the purposes of this chapter and the Energy Supply and Environmental Coordination Act of 1974 [15 U.S.C. 791 et seq.], review each State's applicable implementation plans and report to the State on whether such plans can be revised in relation to fuel burning stationary sources (or persons supplying fuel to such sources) without interfering with the attainment and maintenance of any national ambient air quality standard within the period permitted in this section. If the Administrator determines that any such plan can be revised, he shall notify the State that a plan revision may be submitted by the State. Any plan revision which is submitted by the State shall, after public notice and opportunity for public hearing, be approved by the Administrator if the revision relates only to fuel burning stationary sources (or persons supplying fuel to such sources), and the plan as revised complies with paragraph (2) of this subsection. The Administrator shall approve or disapprove any revision no later than three months after its submission.

(C) Neither the State, in the case of a plan (or portion thereof) approved under this subsection, nor the Administrator, in the case of a plan (or portion thereof) promulgated under subsection (c) of this section, shall be required to revise an applicable implementation plan because one or more exemptions under section 7418 of this title (relating to Federal facilities), enforcement orders under section 7413(d)[1] of this title, suspensions under subsection (f) or (g) of this section (relating to temporary energy or economic authority), orders under section 7419 of this title (relating to primary nonferrous smelters), or extensions of compliance in decrees entered under section 7413(e)[1] of this title (relating to iron- and steel-producing operations) have been granted, if such plan would have met the requirements of this section if no such exemptions, orders, or extensions had been granted.

(4) Repealed. Pub. L. 101–549, title I, §101(d)(2), Nov. 15, 1990, 104 Stat. 2409.

(5)(A)(i) Any State may include in a State implementation plan, but the Administrator may not require as a condition of approval of such plan under this section, any indirect source review program. The Administrator may approve and enforce, as part of an applicable implementation plan, an indirect source review program which the State chooses to adopt and submit as part of its plan.

(ii) Except as provided in subparagraph (B), no plan promulgated by the Administrator shall include any indirect source review program for any air quality control region, or portion thereof.

(iii) Any State may revise an applicable implementation plan approved under this subsection to suspend or revoke any such program included in such plan, provided that such plan meets the requirements of this section.

(B) The Administrator shall have the authority to promulgate, implement and enforce regulations under subsection (c) of this section respecting indirect source review programs which apply only to federally assisted highways, airports, and other major federally assisted indirect sources and federally owned or operated indirect sources.

(C) For purposes of this paragraph, the term ''indirect source means a facility, building, structure, installation, real property, road, or highway which attracts, or may attract, mobile sources of pollution. Such term includes parking lots, parking garages, and other facilities sub-

[1] See References in Text note below.

ject to any measure for management of parking supply (within the meaning of subsection (c)(2)(D)(ii) of this section), including regulation of existing off-street parking but such term does not include new or existing on-street parking. Direct emissions sources or facilities at, within, or associated with, any indirect source shall not be deemed indirect sources for the purpose of this paragraph.

(D) For purposes of this paragraph the term ''indirect source review program'' means the facility-by-facility review of indirect sources of air pollution, including such measures as are necessary to assure, or assist in assuring, that a new or modified indirect source will not attract mobile sources of air pollution, the emissions from which would cause or contribute to air pollution concentrations—

(i) exceeding any national primary ambient air quality standard for a mobile source-related air pollutant after the primary standard attainment date, or

(ii) preventing maintenance of any such standard after such date.

(E) For purposes of this paragraph and paragraph (2)(B), the term ''transportation control measure'' does not include any measure which is an ''indirect source review program''.

(6) No State plan shall be treated as meeting the requirements of this section unless such plan provides that in the case of any source which uses a supplemental, or intermittent control system for purposes of meeting the requirements of an order under section 7413(d)[1] of this title or section 7419 of this title (relating to primary nonferrous smelter orders), the owner or operator of such source may not temporarily reduce the pay of any employee by reason of the use of such supplemental or intermittent or other dispersion dependent control system.

(b) Extension of period for submission of plans

The Administrator may, wherever he determines necessary, extend the period for submission of any plan or portion thereof which implements a national secondary ambient air quality standard for a period not to exceed 18 months from the date otherwise required for submission of such plan.

(c) Preparation and publication by Administrator of proposed regulations setting forth implementation plan; transportation regulations study and report; parking surcharge; suspension authority; plan implementation

(1) The Administrator shall promulgate a Federal implementation plan at any time within 2 years after the Administrator—

(A) finds that a State has failed to make a required submission or finds that the plan or plan revision submitted by the State does not satisfy the minimum criteria established under subsection (k)(1)(A) of this section, or

(B) disapproves a State implementation plan submission in whole or in part,

unless the State corrects the deficiency, and the Administrator approves the plan or plan revision, before the Administrator promulgates such Federal implementation plan.

(2)(A) Repealed. Pub. L. 101–549, title I, § 101(d)(3)(A), Nov. 15, 1990, 104 Stat. 2409.

(B) No parking surcharge regulation may be required by the Administrator under paragraph (1) of this subsection as a part of an applicable implementation plan. All parking surcharge regulations previously required by the Administrator shall be void upon June 22, 1974. This subparagraph shall not prevent the Administrator from approving parking surcharges if they are adopted and submitted by a State as part of an applicable implementation plan. The Administrator may not condition approval of any implementation plan submitted by a State on such plan's including a parking surcharge regulation.

(C) Repealed. Pub. L. 101–549, title I, § 101(d)(3)(B), Nov. 15, 1990, 104 Stat. 2409.

(D) For purposes of this paragraph—

(i) The term ''parking surcharge regulation'' means a regulation imposing or requiring the imposition of any tax, surcharge, fee, or other charge on parking spaces, or any other area used for the temporary storage of motor vehicles.

(ii) The term ''management of parking supply'' shall include any requirement providing that any new facility containing a given number of parking spaces shall receive a permit or other prior approval, issuance of which is to be conditioned on air quality considerations.

(iii) The term ''preferential bus/carpool lane'' shall include any requirement for the setting aside of one or more lanes of a street or highway on a permanent or temporary basis for the exclusive use of buses or carpools, or both.

(E) No standard, plan, or requirement, relating to management of parking supply or preferential bus/carpool lanes shall be promulgated after June 22, 1974, by the Administrator pursuant to this section, unless such promulgation has been subjected to at least one public hearing which has been held in the area affected and for which reasonable notice has been given in such area. If substantial changes are made following public hearings, one or more additional hearings shall be held in such area after such notice.

(3) Upon application of the chief executive officer of any general purpose unit of local government, if the Administrator determines that such unit has adequate authority under State or local law, the Administrator may delegate to such unit the authority to implement and enforce within the jurisdiction of such unit any part of a plan promulgated under this subsection. Nothing in this paragraph shall prevent the Administrator from implementing or enforcing any applicable provision of a plan promulgated under this subsection.

(4) Repealed. Pub. L. 101–549, title I, § 101(d)(3)(C), Nov. 15, 1990, 104 Stat. 2409.

(5)(A) Any measure in an applicable implementation plan which requires a toll or other charge for the use of a bridge located entirely within one city shall be eliminated from such plan by the Administrator upon application by the Governor of the State, which application shall include a certification by the Governor that he will revise such plan in accordance with subparagraph (B).

(B) In the case of any applicable implementation plan with respect to which a measure has been eliminated under subparagraph (A), such

plan shall, not later than one year after August 7, 1977, be revised to include comprehensive measures to:

(i) establish, expand, or improve public transportation measures to meet basic transportation needs, as expeditiously as is practicable; and

(ii) implement transportation control measures necessary to attain and maintain national ambient air quality standards,

and such revised plan shall, for the purpose of implementing such comprehensive public transportation measures, include requirements to use (insofar as is necessary) Federal grants, State or local funds, or any combination of such grants and funds as may be consistent with the terms of the legislation providing such grants and funds. Such measures shall, as a substitute for the tolls or charges eliminated under subparagraph (A), provide for emissions reductions equivalent to the reductions which may reasonably be expected to be achieved through the use of the tolls or charges eliminated.

(C) Any revision of an implementation plan for purposes of meeting the requirements of subparagraph (B) shall be submitted in coordination with any plan revision required under part D of this subchapter.

(d), (e) Repealed. Pub. L. 101–549, title I, § 101(d)(4), (5), Nov. 15, 1990, 104 Stat. 2409

(f) National or regional energy emergencies; determination by President

(1) Upon application by the owner or operator of a fuel burning stationary source, and after notice and opportunity for public hearing, the Governor of the State in which such source is located may petition the President to determine that a national or regional energy emergency exists of such severity that—

(A) a temporary suspension of any part of the applicable implementation plan or of any requirement under section 7651j of this title (concerning excess emissions penalties or offsets) may be necessary, and

(B) other means of responding to the energy emergency may be inadequate.

Such determination shall not be delegable by the President to any other person. If the President determines that a national or regional energy emergency of such severity exists, a temporary emergency suspension of any part of an applicable implementation plan or of any requirement under section 7651j of this title (concerning excess emissions penalties or offsets) adopted by the State may be issued by the Governor of any State covered by the President's determination under the condition specified in paragraph (2) and may take effect immediately.

(2) A temporary emergency suspension under this subsection shall be issued to a source only if the Governor of such State finds that—

(A) there exists in the vicinity of such source a temporary energy emergency involving high levels of unemployment or loss of necessary energy supplies for residential dwellings; and

(B) such unemployment or loss can be totally or partially alleviated by such emergency suspension.

Not more than one such suspension may be issued for any source on the basis of the same set of circumstances or on the basis of the same emergency.

(3) A temporary emergency suspension issued by a Governor under this subsection shall remain in effect for a maximum of four months or such lesser period as may be specified in a disapproval order of the Administrator, if any. The Administrator may disapprove such suspension if he determines that it does not meet the requirements of paragraph (2).

(4) This subsection shall not apply in the case of a plan provision or requirement promulgated by the Administrator under subsection (c) of this section, but in any such case the President may grant a temporary emergency suspension for a four month period of any such provision or requirement if he makes the determinations and findings specified in paragraphs (1) and (2).

(5) The Governor may include in any temporary emergency suspension issued under this subsection a provision delaying for a period identical to the period of such suspension any compliance schedule (or increment of progress) to which such source is subject under section 1857c–10[2] of this title, as in effect before August 7, 1977, or section 7413(d)[2] of this title, upon a finding that such source is unable to comply with such schedule (or increment) solely because of the conditions on the basis of which a suspension was issued under this subsection.

(g) Governor's authority to issue temporary emergency suspensions

(1) In the case of any State which has adopted and submitted to the Administrator a proposed plan revision which the State determines—

(A) meets the requirements of this section, and

(B) is necessary (i) to prevent the closing for one year or more of any source of air pollution, and (ii) to prevent substantial increases in unemployment which would result from such closing, and

which the Administrator has not approved or disapproved under this section within 12 months of submission of the proposed plan revision, the Governor may issue a temporary emergency suspension of the part of the applicable implementation plan for such State which is proposed to be revised with respect to such source. The determination under subparagraph (B) may not be made with respect to a source which would close without regard to whether or not the proposed plan revision is approved.

(2) A temporary emergency suspension issued by a Governor under this subsection shall remain in effect for a maximum of four months or such lesser period as may be specified in a disapproval order of the Administrator. The Administrator may disapprove such suspension if he determines that it does not meet the requirements of this subsection.

(3) The Governor may include in any temporary emergency suspension issued under this subsection a provision delaying for a period identical to the period of such suspension any compliance schedule (or increment of progress)

[2] See References in Text note below.

to which such source is subject under section 1857c–10[2] of this title as in effect before August 7, 1977, or under section 7413(d)[2] of this title upon a finding that such source is unable to comply with such schedule (or increment) solely because of the conditions on the basis of which a suspension was issued under this subsection.

(h) Publication of comprehensive document for each State setting forth requirements of applicable implementation plan

(1) Not later than 5 years after November 15, 1990, and every 3 years thereafter, the Administrator shall assemble and publish a comprehensive document for each State setting forth all requirements of the applicable implementation plan for such State and shall publish notice in the Federal Register of the availability of such documents.

(2) The Administrator may promulgate such regulations as may be reasonably necessary to carry out the purpose of this subsection.

(i) Modification of requirements prohibited

Except for a primary nonferrous smelter order under section 7419 of this title, a suspension under subsection (f) or (g) of this section (relating to emergency suspensions), an exemption under section 7418 of this title (relating to certain Federal facilities), an order under section 7413(d)[2] of this title (relating to compliance orders), a plan promulgation under subsection (c) of this section, or a plan revision under subsection (a)(3) of this section; no order, suspension, plan revision, or other action modifying any requirement of an applicable implementation plan may be taken with respect to any stationary source by the State or by the Administrator.

(j) Technological systems of continuous emission reduction on new or modified stationary sources; compliance with performance standards

As a condition for issuance of any permit required under this subchapter, the owner or operator of each new or modified stationary source which is required to obtain such a permit must show to the satisfaction of the permitting authority that the technological system of continuous emission reduction which is to be used at such source will enable it to comply with the standards of performance which are to apply to such source and that the construction or modification and operation of such source will be in compliance with all other requirements of this chapter.

(k) Environmental Protection Agency action on plan submissions

(1) Completeness of plan submissions

(A) Completeness criteria

Within 9 months after November 15, 1990, the Administrator shall promulgate minimum criteria that any plan submission must meet before the Administrator is required to act on such submission under this subsection. The criteria shall be limited to the information necessary to enable the Administrator to determine whether the plan submission complies with the provisions of this chapter.

(B) Completeness finding

Within 60 days of the Administrator's receipt of a plan or plan revision, but no later than 6 months after the date, if any, by which a State is required to submit the plan or revision, the Administrator shall determine whether the minimum criteria established pursuant to subparagraph (A) have been met. Any plan or plan revision that a State submits to the Administrator, and that has not been determined by the Administrator (by the date 6 months after receipt of the submission) to have failed to meet the minimum criteria established pursuant to subparagraph (A), shall on that date be deemed by operation of law to meet such minimum criteria.

(C) Effect of finding of incompleteness

Where the Administrator determines that a plan submission (or part thereof) does not meet the minimum criteria established pursuant to subparagraph (A), the State shall be treated as not having made the submission (or, in the Administrator's discretion, part thereof).

(2) Deadline for action

Within 12 months of a determination by the Administrator (or a determination deemed by operation of law) under paragraph (1) that a State has submitted a plan or plan revision (or, in the Administrator's discretion, part thereof) that meets the minimum criteria established pursuant to paragraph (1), if applicable (or, if those criteria are not applicable, within 12 months of submission of the plan or revision), the Administrator shall act on the submission in accordance with paragraph (3).

(3) Full and partial approval and disapproval

In the case of any submittal on which the Administrator is required to act under paragraph (2), the Administrator shall approve such submittal as a whole if it meets all of the applicable requirements of this chapter. If a portion of the plan revision meets all the applicable requirements of this chapter, the Administrator may approve the plan revision in part and disapprove the plan revision in part. The plan revision shall not be treated as meeting the requirements of this chapter until the Administrator approves the entire plan revision as complying with the applicable requirements of this chapter.

(4) Conditional approval

The Administrator may approve a plan revision based on a commitment of the State to adopt specific enforceable measures by a date certain, but not later than 1 year after the date of approval of the plan revision. Any such conditional approval shall be treated as a disapproval if the State fails to comply with such commitment.

(5) Calls for plan revisions

Whenever the Administrator finds that the applicable implementation plan for any area is substantially inadequate to attain or maintain the relevant national ambient air quality standard, to mitigate adequately the inter-

state pollutant transport described in section 7506a of this title or section 7511c of this title, or to otherwise comply with any requirement of this chapter, the Administrator shall require the State to revise the plan as necessary to correct such inadequacies. The Administrator shall notify the State of the inadequacies, and may establish reasonable deadlines (not to exceed 18 months after the date of such notice) for the submission of such plan revisions. Such findings and notice shall be public. Any finding under this paragraph shall, to the extent the Administrator deems appropriate, subject the State to the requirements of this chapter to which the State was subject when it developed and submitted the plan for which such finding was made, except that the Administrator may adjust any dates applicable under such requirements as appropriate (except that the Administrator may not adjust any attainment date prescribed under part D of this subchapter, unless such date has elapsed).

(6) Corrections

Whenever the Administrator determines that the Administrator's action approving, disapproving, or promulgating any plan or plan revision (or part thereof), area designation, redesignation, classification, or reclassification was in error, the Administrator may in the same manner as the approval, disapproval, or promulgation revise such action as appropriate without requiring any further submission from the State. Such determination and the basis thereof shall be provided to the State and public.

(*l*) Plan revisions

Each revision to an implementation plan submitted by a State under this chapter shall be adopted by such State after reasonable notice and public hearing. The Administrator shall not approve a revision of a plan if the revision would interfere with any applicable requirement concerning attainment and reasonable further progress (as defined in section 7501 of this title), or any other applicable requirement of this chapter.

(m) Sanctions

The Administrator may apply any of the sanctions listed in section 7509(b) of this title at any time (or at any time after) the Administrator makes a finding, disapproval, or determination under paragraphs (1) through (4), respectively, of section 7509(a) of this title in relation to any plan or plan item (as that term is defined by the Administrator) required under this chapter, with respect to any portion of the State the Administrator determines reasonable and appropriate, for the purpose of ensuring that the requirements of this chapter relating to such plan or plan item are met. The Administrator shall, by rule, establish criteria for exercising his authority under the previous sentence with respect to any deficiency referred to in section 7509(a) of this title to ensure that, during the 24-month period following the finding, disapproval, or determination referred to in section 7509(a) of this title, such sanctions are not applied on a statewide basis where one or more political subdivisions covered by the applicable implementation plan are principally responsible for such deficiency.

(n) Savings clauses

(1) Existing plan provisions

Any provision of any applicable implementation plan that was approved or promulgated by the Administrator pursuant to this section as in effect before November 15, 1990, shall remain in effect as part of such applicable implementation plan, except to the extent that a revision to such provision is approved or promulgated by the Administrator pursuant to this chapter.

(2) Attainment dates

For any area not designated nonattainment, any plan or plan revision submitted or required to be submitted by a State—

(A) in response to the promulgation or revision of a national primary ambient air quality standard in effect on November 15, 1990, or

(B) in response to a finding of substantial inadequacy under subsection (a)(2) of this section (as in effect immediately before November 15, 1990),

shall provide for attainment of the national primary ambient air quality standards within 3 years of November 15, 1990, or within 5 years of issuance of such finding of substantial inadequacy, whichever is later.

(3) Retention of construction moratorium in certain areas

In the case of an area to which, immediately before November 15, 1990, the prohibition on construction or modification of major stationary sources prescribed in subsection (a)(2)(I) of this section (as in effect immediately before November 15, 1990) applied by virtue of a finding of the Administrator that the State containing such area had not submitted an implementation plan meeting the requirements of section 7502(b)(6) of this title (relating to establishment of a permit program) (as in effect immediately before November 15, 1990) or 7502(a)(1) of this title (to the extent such requirements relate to provision for attainment of the primary national ambient air quality standard for sulfur oxides by December 31, 1982) as in effect immediately before November 15, 1990, no major stationary source of the relevant air pollutant or pollutants shall be constructed or modified in such area until the Administrator finds that the plan for such area meets the applicable requirements of section 7502(c)(5) of this title (relating to permit programs) or subpart 5 of part D of this subchapter (relating to attainment of the primary national ambient air quality standard for sulfur dioxide), respectively.

(*o*) Indian tribes

If an Indian tribe submits an implementation plan to the Administrator pursuant to section 7601(d) of this title, the plan shall be reviewed in accordance with the provisions for review set forth in this section for State plans, except as otherwise provided by regulation promulgated

pursuant to section 7601(d)(2) of this title. When such plan becomes effective in accordance with the regulations promulgated under section 7601(d) of this title, the plan shall become applicable to all areas (except as expressly provided otherwise in the plan) located within the exterior boundaries of the reservation, notwithstanding the issuance of any patent and including rights-of-way running through the reservation.

(p) Reports

Any State shall submit, according to such schedule as the Administrator may prescribe, such reports as the Administrator may require relating to emission reductions, vehicle miles traveled, congestion levels, and any other information the Administrator may deem necessary to assess the development effectiveness, need for revision, or implementation of any plan or plan revision required under this chapter.

(July 14, 1955, ch. 360, title I, §110, as added Pub. L. 91–604, §4(a), Dec. 31, 1970, 84 Stat. 1680; amended Pub. L. 93–319, §4, June 22, 1974, 88 Stat. 256; Pub. L. 95–95, title I, §§107, 108, Aug. 7, 1977, 91 Stat. 691, 693; Pub. L. 95–190, §14(a)(1)–(6), Nov. 16, 1977, 91 Stat. 1399; Pub. L. 97–23, §3, July 17, 1981, 95 Stat. 142; Pub. L. 101–549, title I, §§101(b)–(d), 102(h), 107(c), 108(d), title IV, §412, Nov. 15, 1990, 104 Stat. 2404–2408, 2422, 2464, 2466, 2634.)

REFERENCES IN TEXT

The Energy Supply and Environmental Coordination Act of 1974, referred to in subsec. (a)(3)(B), is Pub. L. 93–319, June 22, 1974, 88 Stat. 246, as amended, which is classified principally to chapter 16C (§791 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 791 of Title 15 and Tables.

Section 7413 of this title, referred to in subsecs. (a)(3)(C), (6), (f)(5), (g)(3), and (i), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, subsecs. (d) and (e) of section 7413 no longer relates to final compliance orders and steel industry compliance extension, respectively.

Section 1857c–10 of this title, as in effect before August 7, 1977, referred to in subsecs. (f)(5) and (g)(3), was in the original ''section 119, as in effect before the date of the enactment of this paragraph'', meaning section 119 of act July 14, 1955, ch. 360, title I, as added June 22, 1974, Pub. L. 93–319, §3, 88 Stat. 248, (which was classified to section 1857c–10 of this title) as in effect prior to the enactment of subsecs. (f)(5) and (g)(3) of this section by Pub. L. 95–95, §107, Aug. 7, 1977, 91 Stat. 691, effective Aug. 7, 1977. Section 112(b)(1) of Pub. L. 95–95 repealed section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 93–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to section 7413(d)(5) of this title. Section 7413 of this title was subsequently amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, see note above. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, which is classified to section 7419 of this title.

CODIFICATION

Section was formerly classified to section 1857c–5 of this title.

PRIOR PROVISIONS

A prior section 110 of act July 14, 1955, was renumbered section 117 by Pub. L. 91–604 and is classified to section 7417 of this title.

AMENDMENTS

1990—Subsec. (a)(1). Pub. L. 101–549, §101(d)(8), substituted ''3 years (or such shorter period as the Administrator may prescribe)'' for ''nine months'' in two places.

Subsec. (a)(2). Pub. L. 101–549, §101(b), amended par. (2) generally, substituting present provisions for provisions setting the time within which the Administrator was to approve or disapprove a plan or portion thereof and listing the conditions under which the plan or portion thereof was to be approved after reasonable notice and hearing.

Subsec. (a)(3)(A). Pub. L. 101–549, §101(d)(1), struck out subpar. (A) which directed Administrator to approve any revision of an implementation plan if it met certain requirements and had been adopted by the State after reasonable notice and public hearings.

Subsec. (a)(3)(D). Pub. L. 101–549, §101(d)(1), struck out subpar. (D) which directed that certain implementation plans be revised to include comprehensive measures and requirements.

Subsec. (a)(4). Pub. L. 101–549, §101(d)(2), struck out par. (4) which set forth requirements for review procedure.

Subsec. (c)(1). Pub. L. 101–549, §102(h), amended par. (1) generally, substituting present provisions for provisions relating to preparation and publication of regulations setting forth an implementation plan, after opportunity for a hearing, upon failure of a State to make required submission or revision.

Subsec. (c)(2)(A). Pub. L. 101–549, §101(d)(3)(A), struck out subpar. (A) which required a study and report on necessity of parking surcharge, management of parking supply, and preferential bus/carpool lane regulations to achieve and maintain national primary ambient air quality standards.

Subsec. (c)(2)(C). Pub. L. 101–549, §101(d)(3)(B), struck out subpar. (C) which authorized suspension of certain regulations and requirements relating to management of parking supply.

Subsec. (c)(4). Pub. L. 101–549, §101(d)(3)(C), struck out par. (4) which permitted Governors to temporarily suspend measures in implementation plans relating to retrofits, gas rationing, and reduction of on-street parking.

Subsec. (c)(5)(B). Pub. L. 101–549, §101(d)(3)(D), struck out ''(including the written evidence required by part D),'' after ''include comprehensive measures''.

Subsec. (d). Pub. L. 101–549, §101(d)(4), struck out subsec. (d) which defined an applicable implementation plan for purposes of this chapter.

Subsec. (e). Pub. L. 101–549, §101(d)(5), struck out subsec. (e) which permitted an extension of time for attainment of a national primary ambient air quality standard.

Subsec. (f)(1). Pub. L. 101–549, §412, inserted ''or of any requirement under section 7651j of this title (concerning excess emissions penalties or offsets)'' in subpar. (A) and in last sentence.

Subsec. (g)(1). Pub. L. 101–549, §101(d)(6), substituted ''12 months of submission of the proposed plan revision'' for ''the required four month period'' in closing provisions.

Subsec. (h)(1). Pub. L. 101–549, §101(d)(7), substituted ''5 years after November 15, 1990, and every three years thereafter'' for ''one year after August 7, 1977, and annually thereafter'' and struck out at end ''Each such document shall be revised as frequently as practicable but not less often than annually.''

Subsecs. (k) to (n). Pub. L. 101–549, §101(c), added subsecs. (k) to (n).

Subsec. (*o*). Pub. L. 101–549, §107(c), added subsec. (*o*).

Subsec. (p). Pub. L. 101–549, §108(d), added subsec. (p).

1981—Subsec. (a)(3)(C). Pub. L. 97–23 inserted reference to extensions of compliance in decrees entered

under section 7413(e) of this title (relating to iron- and steel-producing operations).

1977—Subsec. (a)(2)(A). Pub. L. 95–95, §108(a)(1), substituted ''(A) except as may be provided in subparagraph (I)(i) in the case of a plan'' for ''(A)(i) in the case of a plan''.

Subsec. (a)(2)(B). Pub. L. 95–95, §108(a)(2), substituted ''transportation controls, air quality maintenance plans, and preconstruction review of direct sources of air pollution as provided in subparagraph (D)'' for ''land use and transportation controls''.

Subsec. (a)(2)(D). Pub. L. 95–95, §108(a)(3), substituted ''it includes a program to provide for the enforcement of emission limitations and regulation of the modification, construction, and operation of any stationary source, including a permit program as required in parts C and D and a permit or equivalent program for any major emitting facility, within such region as necessary to assure (i) that national ambient air quality standards are achieved and maintained, and (ii) a procedure'' for ''it includes a procedure''.

Subsec. (a)(2)(E). Pub. L. 95–95, §108(a)(4), substituted ''it contains adequate provisions (i) prohibiting any stationary source within the State from emitting any air pollutant in amounts which will (I) prevent attainment or maintenance by any other State of any such national primary or secondary ambient air quality standard, or (II) interfere with measures required to be included in the applicable implementation plan for any other State under part C to prevent significant deterioration of air quality or to protect visibility, and (ii) insuring compliance with the requirements of section 7426 of this title, relating to interstate pollution abatement'' for ''it contains adequate provisions for intergovernmental cooperation, including measures necessary to insure that emissions of air pollutants from sources located in any air quality control region will not interfere with the attainment or maintenance of such primary or secondary standard in any portion of such region outside of such State or in any other air quality control region''.

Subsec. (a)(2)(F). Pub. L. 95–95, §108(a)(5), added cl. (vi).

Subsec. (a)(2)(H). Pub. L. 95–190, §14(a)(1), substituted ''1977;'' for ''1977''.

Pub. L. 95–95, §108(a)(6), inserted ''except as provided in paragraph (3)(C),'' after ''or (ii)'' and ''or to otherwise comply with any additional requirements established under the Clean Air Act Amendments of 1977'' after ''to achieve the national ambient air quality primary or secondary standard which it implements''.

Subsec. (a)(2)(I). Pub. L. 95–95, §108(b), added subpar. (I).

Subsec. (a)(2)(J). Pub. L. 95–190, §14(a)(2), substituted ''; and'' for '', and''.

Pub. L. 95–95, §108(b), added subpar. (J).

Subsec. (a)(2)(K). Pub. L. 95–95, §108(b) added subpar. (K).

Subsec. (a)(3)(C). Pub. L. 95–95, §108(c), added subpar. (C).

Subsec. (a)(3)(D). Pub. L. 95–190, §14(a)(4), added subpar. (D).

Subsec. (a)(5). Pub. L. 95–95, §108(3), added par. (5).

Subsec. (a)(5)(D). Pub. L. 95–190, §14(a)(3), struck out ''preconstruction or premodification'' before ''review''.

Subsec. (a)(6). Pub. L. 95–95, §108(3), added par. (6).

Subsec. (c)(1). Pub. L. 95–95, §108(d)(1), (2), substituted ''plan which meets the requirements of this section'' for ''plan for any national ambient air quality primary or secondary standard within the time prescribed'' in subpar. (A) and, in provisions following subpar. (C), directed that any portion of a plan relating to any measure described in first sentence of 7421 of this title (relating to consultation) or the consultation process required under such section 7421 of this title not be required to be promulgated before the date eight months after such date required for submission.

Subsec. (c)(3) to (5). Pub. L. 95–95, §108(d)(3), added pars. (3) to (5).

Subsec. (d). Pub. L. 95–95, §108(f), substituted ''and which implements the requirements of this section'' for ''and which implements a national primary or secondary ambient air quality standard in a State''.

Subsec. (f). Pub. L. 95–95, §107(a), substituted provisions relating to the handling of national or regional energy emergencies for provisions relating to the postponement of compliance by stationary sources or classes of moving sources with any requirement of applicable implementation plans.

Subsec. (g). Pub. L. 95–95, §108(g), added subsec. (g) relating to publication of comprehensive document.

Pub. L. 95–95, §107(b), added subsec. (g) relating to Governor's authority to issue temporary emergency suspensions.

Subsec. (h). Pub. L. 95–190, §14(a)(5), redesignated subsec. (g), added by Pub. L. 95–95, §108(g), as (h). Former subsec. (h) redesignated (i).

Subsec. (i). Pub. L. 95–190, §14(a)(5), redesignated subsec. (h), added by Pub. L. 95–95, §108(g), as (i). Former subsec. (i) redesignated (j) and amended.

Subsec. (j). Pub. L. 95–190 §14(a)(5), (6), redesignated subsec. (i), added by Pub. L. 95–95, §108(g), as (j) and in subsec. (j) as so redesignated, substituted ''will enable such source'' for ''at such source will enable it''.

1974—Subsec. (a)(3). Pub. L. 93–319, §4(a), designated existing provisions as subpar. (A) and added subpar. (B).

Subsec. (c). Pub. L. 93–319, §4(b), designated existing provisions as par. (1) and existing pars. (1), (2), and (3) as subpars. (A), (B), and (C), respectively, of such redesignated par. (1), and added par. (2).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

PENDING ACTIONS AND PROCEEDINGS

Suits, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RESCISSION OF IMPLEMENTATION PLANS APPROVED AND IN EFFECT PRIOR TO AUG. 7, 1977

Nothing in the Clean Air Act Amendments of 1977 [Pub. L. 95–95] to affect any requirement of an approved implementation plan under this section or any other provision in effect under this chapter before Aug. 7, 1977, until modified or rescinded in accordance with this chapter as amended by the Clean Air Act Amendments of 1977, see section 406(c) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

SAVINGS PROVISION

Section 16 of Pub. L. 91–604 provided that:

''(a)(1) Any implementation plan adopted by any State and submitted to the Secretary of Health, Education, and Welfare, or to the Administrator pursuant to the Clean Air Act [this chapter] prior to enactment of this Act [Dec. 31, 1970] may be approved under section 110 of the Clean Air Act [this section] (as amended by this Act) [Pub. L. 91–604] and shall remain in effect, unless the Administrator determines that such implementation plan, or any portion thereof, is not consistent with applicable requirements of the Clean Air Act [this chapter] (as amended by this Act) and will not provide for the attainment of national primary ambient air quality standards in the time required by such Act. If the Administrator so determines, he shall, within 90 days after promulgation of any national ambient air quality standards pursuant to section 109(a) of the Clean Air Act [section 7409(a) of this title], notify the State and specify in what respects changes are needed to meet the additional requirements of such Act, including requirements to implement national secondary ambient air quality standards. If such changes are not adopted by the State after public hearings and within six months after such notification, the Administrator shall promulgate such changes pursuant to section 110(c) of such Act [subsec. (c) of this section].

''(2) The amendments made by section 4(b) [amending sections 7403 and 7415 of this title] shall not be construed as repealing or modifying the powers of the Administrator with respect to any conference convened under section 108(d) of the Clean Air Act [section 7415 of this title] before the date of enactment of this Act [Dec. 31, 1970].

''(b) Regulations or standards issued under this title II of the Clean Air Act [subchapter II of this chapter] prior to the enactment of this Act [Dec. 31, 1970] shall continue in effect until revised by the Administrator consistent with the purposes of such Act [this chapter].''

FEDERAL ENERGY ADMINISTRATOR

''Federal Energy Administrator'', for purposes of this chapter, to mean Administrator of Federal Energy Administration established by Pub. L. 93–275, May 7, 1974, 88 Stat. 97, which is classified to section 761 et seq. of Title 15, Commerce and Trade, but with the term to mean any officer of the United States designated as such by the President until Federal Energy Administrator takes office and after Federal Energy Administration ceases to exist, see section 798 of Title 15, Commerce and Trade.

Federal Energy Administration terminated and functions vested by law in Administrator thereof transferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6215, 7405, 7407, 7411, 7414, 7415, 7419, 7420, 7425, 7426, 7475, 7476, 7491, 7492, 7502, 7503, 7506, 7506a, 7509, 7511, 7511a, 7511c, 7512, 7545, 7586, 7589, 7590, 7602, 7607, 7619, 7625–1, 7651g, 7651j, 7661f, 8374, 9601 of this title.

§ 7411. Standards of performance for new stationary sources

(a) Definitions

For purposes of this section:

(1) The term ''standard of performance'' means a standard for emissions of air pollutants which reflects the degree of emission limitation achievable through the application of the best system of emission reduction which (taking into account the cost of achieving such reduction and any nonair quality health and environmental impact and energy requirements) the Administrator determines has been adequately demonstrated.

(2) The term ''new source'' means any stationary source, the construction or modification of which is commenced after the publication of regulations (or, if earlier, proposed regulations) prescribing a standard of performance under this section which will be applicable to such source.

(3) The term ''stationary source'' means any building, structure, facility, or installation which emits or may emit any air pollutant. Nothing in subchapter II of this chapter relating to nonroad engines shall be construed to apply to stationary internal combustion engines.

(4) The term ''modification'' means any physical change in, or change in the method of operation of, a stationary source which increases the amount of any air pollutant emitted by such source or which results in the emission of any air pollutant not previously emitted.

(5) The term ''owner or operator'' means any person who owns, leases, operates, controls, or supervises a stationary source.

(6) The term ''existing source'' means any stationary source other than a new source.

(7) The term ''technological system of continuous emission reduction'' means—

(A) a technological process for production or operation by any source which is inherently low-polluting or nonpolluting, or

(B) a technological system for continuous reduction of the pollution generated by a source before such pollution is emitted into the ambient air, including precombustion cleaning or treatment of fuels.

(8) A conversion to coal (A) by reason of an order under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974 [15 U.S.C. 792(a)] or any amendment thereto, or any subsequent enactment which supersedes such Act [15 U.S.C. 791 et seq.], or (B) which qualifies under section 7413(d)(5)(A)(ii)[1] of this title, shall not be deemed to be a modification for purposes of paragraphs (2) and (4) of this subsection.

(b) List of categories of stationary sources; standards of performance; information on pollution control techniques; sources owned or operated by United States; particular systems; revised standards

(1)(A) The Administrator shall, within 90 days after December 31, 1970, publish (and from time to time thereafter shall revise) a list of categories of stationary sources. He shall include a category of sources in such list if in his judgment it causes, or contributes significantly to, air pollution which may reasonably be anticipated to endanger public health or welfare.

(B) Within one year after the inclusion of a category of stationary sources in a list under subparagraph (A), the Administrator shall publish proposed regulations, establishing Federal standards of performance for new sources within such category. The Administrator shall afford interested persons an opportunity for written comment on such proposed regulations. After considering such comments, he shall promulgate, within one year after such publication, such standards with such modifications as he

[1] See References in Text note below.

deems appropriate. The Administrator shall, at least every 8 years, review and, if appropriate, revise such standards following the procedure required by this subsection for promulgation of such standards. Notwithstanding the requirements of the previous sentence, the Administrator need not review any such standard if the Administrator determines that such review is not appropriate in light of readily available information on the efficacy of such standard. Standards of performance or revisions thereof shall become effective upon promulgation. When implementation and enforcement of any requirement of this chapter indicate that emission limitations and percent reductions beyond those required by the standards promulgated under this section are achieved in practice, the Administrator shall, when revising standards promulgated under this section, consider the emission limitations and percent reductions achieved in practice.

(2) The Administrator may distinguish among classes, types, and sizes within categories of new sources for the purpose of establishing such standards.

(3) The Administrator shall, from time to time, issue information on pollution control techniques for categories of new sources and air pollutants subject to the provisions of this section.

(4) The provisions of this section shall apply to any new source owned or operated by the United States.

(5) Except as otherwise authorized under subsection (h) of this section, nothing in this section shall be construed to require, or to authorize the Administrator to require, any new or modified source to install and operate any particular technological system of continuous emission reduction to comply with any new source standard of performance.

(6) The revised standards of performance required by enactment of subsection (a)(1)(A)(i) and (ii)[1] of this section shall be promulgated not later than one year after August 7, 1977. Any new or modified fossil fuel fired stationary source which commences construction prior to the date of publication of the proposed revised standards shall not be required to comply with such revised standards.

(c) State implementation and enforcement of standards of performance

(1) Each State may develop and submit to the Administrator a procedure for implementing and enforcing standards of performance for new sources located in such State. If the Administrator finds the State procedure is adequate, he shall delegate to such State any authority he has under this chapter to implement and enforce such standards.

(2) Nothing in this subsection shall prohibit the Administrator from enforcing any applicable standard of performance under this section.

(d) Standards of performance for existing sources; remaining useful life of source

(1) The Administrator shall prescribe regulations which shall establish a procedure similar to that provided by section 7410 of this title under which each State shall submit to the Administrator a plan which (A) establishes standards of performance for any existing source for any air pollutant (i) for which air quality criteria have not been issued or which is not included on a list published under section 7408(a) of this title or emitted from a source category which is regulated under section 7412 of this title but (ii) to which a standard of performance under this section would apply if such existing source were a new source, and (B) provides for the implementation and enforcement of such standards of performance. Regulations of the Administrator under this paragraph shall permit the State in applying a standard of performance to any particular source under a plan submitted under this paragraph to take into consideration, among other factors, the remaining useful life of the existing source to which such standard applies.

(2) The Administrator shall have the same authority—

(A) to prescribe a plan for a State in cases where the State fails to submit a satisfactory plan as he would have under section 7410(c) of this title in the case of failure to submit an implementation plan, and

(B) to enforce the provisions of such plan in cases where the State fails to enforce them as he would have under sections 7413 and 7414 of this title with respect to an implementation plan.

In promulgating a standard of performance under a plan prescribed under this paragraph, the Administrator shall take into consideration, among other factors, remaining useful lives of the sources in the category of sources to which such standard applies.

(e) Prohibited acts

After the effective date of standards of performance promulgated under this section, it shall be unlawful for any owner or operator of any new source to operate such source in violation of any standard of performance applicable to such source.

(f) New source standards of performance

(1) For those categories of major stationary sources that the Administrator listed under subsection (b)(1)(A) of this section before November 15, 1990, and for which regulations had not been proposed by the Administrator by November 15, 1990, the Administrator shall—

(A) propose regulations establishing standards of performance for at least 25 percent of such categories of sources within 2 years after November 15, 1990;

(B) propose regulations establishing standards of performance for at least 50 percent of such categories of sources within 4 years after November 15, 1990; and

(C) propose regulations for the remaining categories of sources within 6 years after November 15, 1990.

(2) In determining priorities for promulgating standards for categories of major stationary sources for the purpose of paragraph (1), the Administrator shall consider—

(A) the quantity of air pollutant emissions which each such category will emit, or will be designed to emit;

(B) the extent to which each such pollutant may reasonably be anticipated to endanger public health or welfare; and

(C) the mobility and competitive nature of each such category of sources and the consequent need for nationally applicable new source standards of performance.

(3) Before promulgating any regulations under this subsection or listing any category of major stationary sources as required under this subsection, the Administrator shall consult with appropriate representatives of the Governors and of State air pollution control agencies.

(g) Revision of regulations

(1) Upon application by the Governor of a State showing that the Administrator has failed to specify in regulations under subsection (f)(1) of this section any category of major stationary sources required to be specified under such regulations, the Administrator shall revise such regulations to specify any such category.

(2) Upon application of the Governor of a State, showing that any category of stationary sources which is not included in the list under subsection (b)(1)(A) of this section contributes significantly to air pollution which may reasonably be anticipated to endanger public health or welfare (notwithstanding that such category is not a category of major stationary sources), the Administrator shall revise such regulations to specify such category of stationary sources.

(3) Upon application of the Governor of a State showing that the Administrator has failed to apply properly the criteria required to be considered under subsection (f)(2) of this section, the Administrator shall revise the list under subsection (b)(1)(A) of this section to apply properly such criteria.

(4) Upon application of the Governor of a State showing that—

(A) a new, innovative, or improved technology or process which achieves greater continuous emission reduction has been adequately demonstrated for any category of stationary sources, and

(B) as a result of such technology or process, the new source standard of performance in effect under this section for such category no longer reflects the greatest degree of emission limitation achievable through application of the best technological system of continuous emission reduction which (taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impact and energy requirements) has been adequately demonstrated,

the Administrator shall revise such standard of performance for such category accordingly.

(5) Unless later deadlines for action of the Administrator are otherwise prescribed under this section, the Administrator shall, not later than three months following the date of receipt of any application by a Governor of a State, either—

(A) find that such application does not contain the requisite showing and deny such application, or

(B) grant such application and take the action required under this subsection.

(6) Before taking any action required by subsection (f) of this section or by this subsection, the Administrator shall provide notice and opportunity for public hearing.

(h) Design, equipment, work practice, or operational standard; alternative emission limitation

(1) For purposes of this section, if in the judgment of the Administrator, it is not feasible to prescribe or enforce a standard of performance, he may instead promulgate a design, equipment, work practice, or operational standard, or combination thereof, which reflects the best technological system of continuous emission reduction which (taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impact and energy requirements) the Administrator determines has been adequately demonstrated. In the event the Administrator promulgates a design or equipment standard under this subsection, he shall include as part of such standard such requirements as will assure the proper operation and maintenance of any such element of design or equipment.

(2) For the purpose of this subsection, the phrase ''not feasible to prescribe or enforce a standard of performance'' means any situation in which the Administrator determines that (A) a pollutant or pollutants cannot be emitted through a conveyance designed and constructed to emit or capture such pollutant, or that any requirement for, or use of, such a conveyance would be inconsistent with any Federal, State, or local law, or (B) the application of measurement methodology to a particular class of sources is not practicable due to technological or economic limitations.

(3) If after notice and opportunity for public hearing, any person establishes to the satisfaction of the Administrator that an alternative means of emission limitation will achieve a reduction in emissions of any air pollutant at least equivalent to the reduction in emissions of such air pollutant achieved under the requirements of paragraph (1), the Administrator shall permit the use of such alternative by the source for purposes of compliance with this section with respect to such pollutant.

(4) Any standard promulgated under paragraph (1) shall be promulgated in terms of standard of performance whenever it becomes feasible to promulgate and enforce such standard in such terms.

(5) Any design, equipment, work practice, or operational standard, or any combination thereof, described in this subsection shall be treated as a standard of performance for purposes of the provisions of this chapter (other than the provisions of subsection (a) of this section and this subsection).

(i) Country elevators

Any regulations promulgated by the Administrator under this section applicable to grain elevators shall not apply to country elevators (as defined by the Administrator) which have a storage capacity of less than two million five hundred thousand bushels.

(j) Innovative technological systems of continuous emission reduction

(1)(A) Any person proposing to own or operate a new source may request the Administrator for one or more waivers from the requirements of

this section for such source or any portion thereof with respect to any air pollutant to encourage the use of an innovative technological system or systems of continuous emission reduction. The Administrator may, with the consent of the Governor of the State in which the source is to be located, grant a waiver under this paragraph, if the Administrator determines after notice and opportunity for public hearing, that—

(i) the proposed system or systems have not been adequately demonstrated,

(ii) the proposed system or systems will operate effectively and there is a substantial likelihood that such system or systems will achieve greater continuous emission reduction than that required to be achieved under the standards of performance which would otherwise apply, or achieve at least an equivalent reduction at lower cost in terms of energy, economic, or nonair quality environmental impact,

(iii) the owner or operator of the proposed source has demonstrated to the satisfaction of the Administrator that the proposed system will not cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation, function, or malfunction, and

(iv) the granting of such waiver is consistent with the requirements of subparagraph (C).

In making any determination under clause (ii), the Administrator shall take into account any previous failure of such system or systems to operate effectively or to meet any requirement of the new source performance standards. In determining whether an unreasonable risk exists under clause (iii), the Administrator shall consider, among other factors, whether and to what extent the use of the proposed technological system will cause, increase, reduce, or eliminate emissions of any unregulated pollutants; available methods for reducing or eliminating any risk to public health, welfare, or safety which may be associated with the use of such system; and the availability of other technological systems which may be used to conform to standards under this section without causing or contributing to such unreasonable risk. The Administrator may conduct such tests and may require the owner or operator of the proposed source to conduct such tests and provide such information as is necessary to carry out clause (iii) of this subparagraph. Such requirements shall include a requirement for prompt reporting of the emission of any unregulated pollutant from a system if such pollutant was not emitted, or was emitted in significantly lesser amounts without use of such system.

(B) A waiver under this paragraph shall be granted on such terms and conditions as the Administrator determines to be necessary to assure—

(i) emissions from the source will not prevent attainment and maintenance of any national ambient air quality standards, and

(ii) proper functioning of the technological system or systems authorized.

Any such term or condition shall be treated as a standard of performance for the purposes of subsection (e) of this section and section 7413 of this title.

(C) The number of waivers granted under this paragraph with respect to a proposed technological system of continuous emission reduction shall not exceed such number as the Administrator finds necessary to ascertain whether or not such system will achieve the conditions specified in clauses (ii) and (iii) of subparagraph (A).

(D) A waiver under this paragraph shall extend to the sooner of—

(i) the date determined by the Administrator, after consultation with the owner or operator of the source, taking into consideration the design, installation, and capital cost of the technological system or systems being used, or

(ii) the date on which the Administrator determines that such system has failed to—

(I) achieve at least an equivalent continuous emission reduction to that required to be achieved under the standards of performance which would otherwise apply, or

(II) comply with the condition specified in paragraph (1)(A)(iii),

and that such failure cannot be corrected.

(E) In carrying out subparagraph (D)(i), the Administrator shall not permit any waiver for a source or portion thereof to extend beyond the date—

(i) seven years after the date on which any waiver is granted to such source or portion thereof, or

(ii) four years after the date on which such source or portion thereof commences operation,

whichever is earlier.

(F) No waiver under this subsection shall apply to any portion of a source other than the portion on which the innovative technological system or systems of continuous emission reduction is used.

(2)(A) If a waiver under paragraph (1) is terminated under clause (ii) of paragraph (1)(D), the Administrator shall grant an extension of the requirements of this section for such source for such minimum period as may be necessary to comply with the applicable standard of performance under this section. Such period shall not extend beyond the date three years from the time such waiver is terminated.

(B) An extension granted under this paragraph shall set forth emission limits and a compliance schedule containing increments of progress which require compliance with the applicable standards of performance as expeditiously as practicable and include such measures as are necessary and practicable in the interim to minimize emissions. Such schedule shall be treated as a standard of performance for purposes of subsection (e) of this section and section 7413 of this title.

(July 14, 1955, ch. 360, title I, §111, as added Pub. L. 91–604, §4(a), Dec. 31, 1970, 84 Stat. 1683; amended Pub. L. 92–157, title III, §302(f), Nov. 18, 1971, 85 Stat. 464; Pub. L. 95–95, title I, §109(a)–(d)(1), (e), (f), title IV, §401(b), Aug. 7, 1977, 91 Stat. 697–703, 791; Pub. L. 95–190, §14(a)(7)–(9), Nov. 16, 1977, 91 Stat. 1399; Pub. REFERENCES IN TEXT

Such Act, referred to in subsec. (a)(8), means Pub. L. 93–319, June 22, 1974, 88 Stat. 246, as amended, known as the Energy Supply and Environmental Coordination Act of 1974, which is classified principally to chapter 16C (§791 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 791 of Title 15 and Tables.

Section 7413 of this title, referred to in subsec. (a)(8), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, subsec. (d) of section 7413 no longer relates to final compliance orders.

Subsection (a)(1) of this section, referred to in subsec. (b)(6), was amended generally by Pub. L. 101–549, title VII, §403(a), Nov. 15, 1990, 104 Stat. 2631, and, as so amended, no longer contains subpars.

CODIFICATION

Section was formerly classified to section 1857c–6 of this title.

PRIOR PROVISIONS

A prior section 111 of act July 14, 1955, was renumbered section 118 by Pub. L. 91–604 and is classified to section 7418 of this title.

AMENDMENTS

1990—Subsec. (a)(1). Pub. L. 101–549, §403(a), amended par. (1) generally, substituting provisions defining ''standard of performance'' with respect to any air pollutant for provisions defining such term with respect to subsec. (b) fossil fuel fired and other stationary sources and subsec. (d) particular sources.

Subsec. (a)(3). Pub. L. 101–549, §108(f), inserted at end ''Nothing in subchapter II of this chapter relating to nonroad engines shall be construed to apply to stationary internal combustion engines.''

Subsec. (b)(1)(B). Pub. L. 101–549, §108(e)(1), substituted ''Within one year'' for ''Within 120 days'', ''within one year'' for ''within 90 days'', and ''every 8 years'' for ''every four years'', inserted before last sentence ''Notwithstanding the requirements of the previous sentence, the Administrator need not review any such standard if the Administrator determines that such review is not appropriate in light of readily available information on the efficacy of such standard.'', and inserted at end ''When implementation and enforcement of any requirement of this chapter indicate that emission limitations and percent reductions beyond those required by the standards promulgated under this section are achieved in practice, the Administrator shall, when revising standards promulgated under this section, consider the emission limitations and percent reductions achieved in practice.''

Subsec. (d)(1)(A)(i). Pub. L. 101–549, §302(a), which directed the substitution of ''7412(b)'' for ''7412(b)(1)(A)'', could not be executed, because of the prior amendment by Pub. L. 101–549, §108(g), see below.

Pub. L. 101–549, §108(g), substituted ''or emitted from a source category which is regulated under section 7412 of this title'' for ''or 7412(b)(1)(A)''.

Subsec. (f)(1). Pub. L. 101–549, §108(e)(2), amended par. (1) generally, substituting present provisions for provisions requiring the Administrator to promulgate regulations listing the categories of major stationary sources not on the required list by Aug. 7, 1977, and regulations establishing standards of performance for such categories.

Subsec. (g)(5) to (8). Pub. L. 101–549, §302(b), redesignated par. (7) as (5) and struck out ''or section 7412 of this title'' after ''this section'', redesignated par. (8) as (6), and struck out former pars. (5) and (6) which read as follows:

''(5) Upon application by the Governor of a State showing that the Administrator has failed to list any air pollutant which causes, or contributes to, air pollution which may reasonably be anticipated to result in an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness as a hazardous air pollutant under section 7412 of this title the Administrator shall revise the list of hazardous air pollutants under such section to include such pollutant.

''(6) Upon application by the Governor of a State showing that any category of stationary sources of a hazardous air pollutant listed under section 7412 of this title is not subject to emission standards under such section, the Administrator shall propose and promulgate such emission standards applicable to such category of sources.''

1978—Subsecs. (d)(1)(A)(ii), (g)(4)(B). Pub. L. 95–623, §13(a)(2), substituted ''under this section'' for ''under subsection (b) of this section''.

Subsec. (h)(5). Pub. L. 95–623, §13(a)(1), added par. (5).

Subsec. (j). Pub. L. 95–623, §13(a)(3), substituted in pars. (1)(A) and (2)(A) ''standards under this section'' and ''under this section'' for ''standards under subsection (b) of this section'' and ''under subsection (b) of this section'', respectively.

1977—Subsec. (a)(1). Pub. L. 95–95, §109(c)(1)(A), added subpars. (A), (B), and (C), substituted ''For the purpose of subparagraphs (A)(i) and (ii) and (B), a standard of performance shall reflect'' for ''a standard for emissions of air pollutants which reflects'', ''and the percentage reduction achievable'' for ''achievable'', and ''technological system of continuous emission reduction which (taking into consideration the cost of achieving such emission reduction, and any nonair quality health and environment impact and energy requirements)'' for ''system of emission reduction which (taking into account the cost of achieving such reduction)'' in existing provisions, and inserted provision that, for the purpose of subparagraph (1)(A)(ii), any cleaning of the fuel or reduction in the pollution characteristics of the fuel after extraction and prior to combustion may be credited, as determined under regulations promulgated by the Administrator, to a source which burns such fuel.

Subsec. (a)(7). Pub. L. 95–95, §109(c)(1)(B), added par. (7) defining ''technological system of continuous emission reduction''.

Pub. L. 95–95, §109(f), added par. (7) directing that under certain circumstances a conversion to coal not be deemed a modification for purposes of pars. (2) and (4).

Subsec. (a)(7), (8). Pub. L. 95–190, §14(a)(7), redesignated second par. (7) as (8).

Subsec. (b)(1)(A). Pub. L. 95–95, §401(b), substituted ''such list if in his judgment it causes, or contributes significantly to, air pollution which may reasonably be anticipated to endanger'' for ''such list if he determines it may contribute significantly to air pollution which causes or contributes to the endangerment of''.

Subsec. (b)(1)(B). Pub. L. 95–95, §109(c)(2), substituted ''shall, at least every four years, review and, if appropriate,'' for ''may, from time to time,''.

Subsec. (b)(5), (6). Pub. L. 95–95, §109(c)(3), added pars. (5) and (6).

Subsec. (c)(1). Pub. L. 95–95, §109(d)(1), struck out ''(except with respect to new sources owned or operated by the United States)'' after ''implement and enforce such standards''.

Subsec. (d)(1). Pub. L. 95–95, §109(b)(1), substituted ''standards of performance'' for ''emission standards'' and inserted provisions directing that regulations of the Administrator permit the State, in applying a standard of performance to any particular source under a submitted plan, to take into consideration, among other factors, the remaining useful life of the existing source to which the standard applies.

Subsec. (d)(2). Pub. L. 95–95, §109(b)(2), provided that, in promulgating a standard of performance under a plan, the Administrator take into consideration, among other factors, the remaining useful lives of the

sources in the category of sources to which the standard applies.

Subsecs. (f) to (i). Pub. L. 95–95, §109(a), added subsecs. (f) to (i).

Subsecs. (j), (k). Pub. L. 95–190, §14(a)(8), (9), redesignated subsec. (k) as (j) and, as so redesignated, substituted ''(B)'' for ''(8)'' as designation for second subpar. in par. (2). Former subsec. (j), added by Pub. L. 95–95, §109(e), which related to compliance with applicable standards of performance, was struck out.

Pub. L. 95–95, §109(e), added subsec. (k).

1971—Subsec. (b)(1)(B). Pub. L. 92–157 substituted in first sentence ''publish proposed'' for ''propose''.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

REGULATIONS

Section 403(b), (c) of Pub. L. 101–549 provided that:

''(b) REVISED REGULATIONS.—Not later than three years after the date of enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], the Administrator shall promulgate revised regulations for standards of performance for new fossil fuel fired electric utility units commencing construction after the date on which such regulations are proposed that, at a minimum, require any source subject to such revised standards to emit sulfur dioxide at a rate not greater than would have resulted from compliance by such source with the applicable standards of performance under this section [amending sections 7411 and 7479 of this title] prior to such revision.

''(c) APPLICABILITY.—The provisions of subsections (a) [amending this section] and (b) apply only so long as the provisions of section 403(e) of the Clean Air Act [42 U.S.C. 7651b(e)] remain in effect.''

TRANSFER OF FUNCTIONS

Enforcement functions of Administrator or other official in Environmental Protection Agency related to compliance with new source performance standards under this section with respect to pre-construction, construction, and initial operation of transportation system for Canadian and Alaskan natural gas transferred to Federal Inspector, Office of Federal Inspector for the Alaska Natural Gas Transportation System, until first anniversary of date of initial operation of Alaska Natural Gas Transportation System, see Reorg. Plan No. 1 of 1979, eff. July 1, 1979, §§102(a), 203(a), 44 F.R. 33663, 33666, 93 Stat. 1373, 1376, set out in the Appendix to Title 5, Government Organization and Employees. Office of Federal Inspector for the Alaska Natural Gas Transportation System abolished and functions and authority vested in Inspector transferred to Secretary of Energy by section 3012(b) of Pub. L. 102–486, set out as an Abolition of Office of Federal Inspector note under section 719e of Title 15, Commerce and Trade.

PENDING ACTIONS AND PROCEEDINGS

Suits, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 7412, 7413, 7414, 7416, 7417, 7418, 7420, 7422, 7425, 7429, 7475, 7479, 7501, 7511a, 7511b, 7550, 7604, 7607, 7608, 7616, 7617, 7625–1, 7627, 7651a, 7651d, 7651f, 7651h, 7651n, 7661a, 9601 of this title.

§ 7412. Hazardous air pollutants

(a) Definitions

For purposes of this section, except subsection (r) of this section—

(1) Major source

The term ''major source'' means any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential to emit considering controls, in the aggregate, 10 tons per year or more of any hazardous air pollutant or 25 tons per year or more of any combination of hazardous air pollutants. The Administrator may establish a lesser quantity, or in the case of radionuclides different criteria, for a major source than that specified in the previous sentence, on the basis of the potency of the air pollutant, persistence, potential for bioaccumulation, other characteristics of the air pollutant, or other relevant factors.

(2) Area source

The term ''area source'' means any stationary source of hazardous air pollutants that is not a major source. For purposes of this section, the term ''area source'' shall not include motor vehicles or nonroad vehicles subject to regulation under subchapter II of this chapter.

(3) Stationary source

The term ''stationary source'' shall have the same meaning as such term has under section 7411(a) of this title.

(4) New source

The term ''new source'' means a stationary source the construction or reconstruction of which is commenced after the Administrator first proposes regulations under this section establishing an emission standard applicable to such source.

(5) Modification

The term ''modification'' means any physical change in, or change in the method of operation of, a major source which increases the actual emissions of any hazardous air pollutant emitted by such source by more than a de minimis amount or which results in the emission of any hazardous air pollutant not previously emitted by more than a de minimis amount.

(6) Hazardous air pollutant

The term ''hazardous air pollutant'' means any air pollutant listed pursuant to subsection (b) of this section.

(7) Adverse environmental effect

The term ''adverse environmental effect'' means any significant and widespread adverse effect, which may reasonably be anticipated, to wildlife, aquatic life, or other natural resources, including adverse impacts on populations of endangered or threatened species or significant degradation of environmental quality over broad areas.

(8) Electric utility steam generating unit

The term ''electric utility steam generating unit'' means any fossil fuel fired combustion unit of more than 25 megawatts that serves a generator that produces electricity for sale. A unit that cogenerates steam and electricity and supplies more than one-third of its potential electric output capacity and more than 25 megawatts electrical output to any utility power distribution system for sale shall be considered an electric utility steam generating unit.

(9) Owner or operator

The term ''owner or operator'' means any person who owns, leases, operates, controls, or supervises a stationary source.

(10) Existing source

The term ''existing source'' means any stationary source other than a new source.

(11) Carcinogenic effect

Unless revised, the term ''carcinogenic effect'' shall have the meaning provided by the Administrator under Guidelines for Carcinogenic Risk Assessment as of the date of enactment.[1] Any revisions in the existing Guidelines shall be subject to notice and opportunity for comment.

(b) List of pollutants

(1) Initial list

The Congress establishes for purposes of this section a list of hazardous air pollutants as follows:

CAS number	Chemical name
75070	Acetaldehyde
60355	Acetamide
75058	Acetonitrile
98862	Acetophenone
53963	2-Acetylaminofluorene
107028	Acrolein
79061	Acrylamide
79107	Acrylic acid
107131	Acrylonitrile
107051	Allyl chloride
92671	4-Aminobiphenyl
62533	Aniline
90040	o-Anisidine
1332214	Asbestos
71432	Benzene (including benzene from gasoline)
92875	Benzidine
98077	Benzotrichloride
100447	Benzyl chloride
92524	Biphenyl
117817	Bis(2-ethylhexyl)phthalate (DEHP)
542881	Bis(chloromethyl)ether
75252	Bromoform
106990	1,3-Butadiene
156627	Calcium cyanamide
105602	Caprolactam
133062	Captan
63252	Carbaryl
75150	Carbon disulfide
56235	Carbon tetrachloride
463581	Carbonyl sulfide
120809	Catechol
133904	Chloramben
57749	Chlordane
7782505	Chlorine
79118	Chloroacetic acid
532274	2-Chloroacetophenone
108907	Chlorobenzene
510156	Chlorobenzilate
67663	Chloroform
107302	Chloromethyl methyl ether
126998	Chloroprene
1319773	Cresols/Cresylic acid (isomers and mixture)
95487	o-Cresol
108394	m-Cresol
106445	p-Cresol
98828	Cumene
94757	2,4-D, salts and esters
3547044	DDE
334883	Diazomethane
132649	Dibenzofurans
96128	1,2-Dibromo-3-chloropropane
84742	Dibutylphthalate
106467	1,4-Dichlorobenzene(p)
91941	3,3-Dichlorobenzidene
111444	Dichloroethyl ether (Bis(2-chloroethyl)ether)
542756	1,3-Dichloropropene
62737	Dichlorvos
111422	Diethanolamine
121697	N,N-Diethyl aniline (N,N-Dimethylaniline)
64675	Diethyl sulfate
119904	3,3-Dimethoxybenzidine
60117	Dimethyl aminoazobenzene
119937	3,3′-Dimethyl benzidine
79447	Dimethyl carbamoyl chloride
68122	Dimethyl formamide
57147	1,1-Dimethyl hydrazine
131113	Dimethyl phthalate
77781	Dimethyl sulfate
534521	4,6-Dinitro-o-cresol, and salts
51285	2,4-Dinitrophenol
121142	2,4-Dinitrotoluene
123911	1,4-Dioxane (1,4-Diethyleneoxide)
122667	1,2-Diphenylhydrazine
106898	Epichlorohydrin (l-Chloro-2,3-epoxypropane)
106887	1,2-Epoxybutane
140885	Ethyl acrylate
100414	Ethyl benzene
51796	Ethyl carbamate (Urethane)
75003	Ethyl chloride (Chloroethane)
106934	Ethylene dibromide (Dibromoethane)
107062	Ethylene dichloride (1,2-Dichloroethane)
107211	Ethylene glycol
151564	Ethylene imine (Aziridine)
75218	Ethylene oxide
96457	Ethylene thiourea
75343	Ethylidene dichloride (1,1-Dichloroethane)
50000	Formaldehyde
76448	Heptachlor
118741	Hexachlorobenzene
87683	Hexachlorobutadiene
77474	Hexachlorocyclopentadiene
67721	Hexachloroethane
822060	Hexamethylene-1,6-diisocyanate
680319	Hexamethylphosphoramide
110543	Hexane
302012	Hydrazine
7647010	Hydrochloric acid
7664393	Hydrogen fluoride (Hydrofluoric acid)
123319	Hydroquinone
78591	Isophorone

[1] See References in Text note below.

CAS number	Chemical name
58899	Lindane (all isomers)
108316	Maleic anhydride
67561	Methanol
72435	Methoxychlor
74839	Methyl bromide (Bromomethane)
74873	Methyl chloride (Chloromethane)
71556	Methyl chloroform (1,1,1-Trichloroethane)
78933	Methyl ethyl ketone (2-Butanone)
60344	Methyl hydrazine
74884	Methyl iodide (Iodomethane)
108101	Methyl isobutyl ketone (Hexone)
624839	Methyl isocyanate
80626	Methyl methacrylate
1634044	Methyl tert butyl ether
101144	4,4-Methylene bis(2-chloroaniline)
75092	Methylene chloride (Dichloromethane)
101688	Methylene diphenyl diisocyanate (MDI)
101779	4,4′-Methylenedianiline
91203	Naphthalene
98953	Nitrobenzene
92933	4-Nitrobiphenyl
100027	4-Nitrophenol
79469	2-Nitropropane
684935	N-Nitroso-N-methylurea
62759	N-Nitrosodimethylamine
59892	N-Nitrosomorpholine
56382	Parathion
82688	Pentachloronitrobenzene (Quintobenzene)
87865	Pentachlorophenol
108952	Phenol
106503	p-Phenylenediamine
75445	Phosgene
7803512	Phosphine
7723140	Phosphorus
85449	Phthalic anhydride
1336363	Polychlorinated biphenyls (Aroclors)
1120714	1,3-Propane sultone
57578	beta-Propiolactone
123386	Propionaldehyde
114261	Propoxur (Baygon)
78875	Propylene dichloride (1,2-Dichloropropane)
75569	Propylene oxide
75558	1,2-Propylenimine (2-Methyl aziridine)
91225	Quinoline
106514	Quinone
100425	Styrene
96093	Styrene oxide
1746016	2,3,7,8-Tetrachlorodibenzo-p-dioxin
79345	1,1,2,2-Tetrachloroethane
127184	Tetrachloroethylene (Perchloroethylene)
7550450	Titanium tetrachloride
108883	Toluene
95807	2,4-Toluene diamine
584849	2,4-Toluene diisocyanate
95534	o-Toluidine
8001352	Toxaphene (chlorinated camphene)
120821	1,2,4-Trichlorobenzene
79005	1,1,2-Trichloroethane
79016	Trichloroethylene
95954	2,4,5-Trichlorophenol
88062	2,4,6-Trichlorophenol
121448	Triethylamine
1582098	Trifluralin
540841	2,2,4-Trimethylpentane
108054	Vinyl acetate
593602	Vinyl bromide
75014	Vinyl chloride
75354	Vinylidene chloride (1,1-Dichloroethylene)
1330207	Xylenes (isomers and mixture)
95476	o-Xylenes
108383	m-Xylenes
106423	p-Xylenes
0	Antimony Compounds
0	Arsenic Compounds (inorganic including arsine)
0	Beryllium Compounds
0	Cadmium Compounds
0	Chromium Compounds
0	Cobalt Compounds
0	Coke Oven Emissions
0	Cyanide Compounds[1]
0	Glycol ethers[2]
0	Lead Compounds
0	Manganese Compounds
0	Mercury Compounds
0	Fine mineral fibers[3]
0	Nickel Compounds
0	Polycylic Organic Matter[4]
0	Radionuclides (including radon)[5]
0	Selenium Compounds

NOTE: For all listings above which contain the word ''compounds'' and for glycol ethers, the following applies: Unless otherwise specified, these listings are defined as including any unique chemical substance that contains the named chemical (i.e., antimony, arsenic, etc.) as part of that chemical's infrastructure.

[1] X′CN where X = H′ or any other group where a formal dissociation may occur. For example KCN or $Ca(CN)_2$.

[2] Includes mono- and di- ethers of ethylene glycol, diethylene glycol, and triethylene glycol $R–(OCH2CH2)_n–OR′$ where

n = 1, 2, or 3

R = alkyl or aryl groups

R′ = R, H, or groups which, when removed, yield glycol ethers with the structure: $R–(OCH2CH)_n–OH$. Polymers are excluded from the glycol category.

[3] Includes mineral fiber emissions from facilities manufacturing or processing glass, rock, or slag fibers (or other mineral derived fibers) of average diameter 1 micrometer or less.

[4] Includes organic compounds with more than one benzene ring, and which have a boiling point greater than or equal to 100°C.

[5] A type of atom which spontaneously undergoes radioactive decay.

(2) Revision of the list

The Administrator shall periodically review the list established by this subsection and publish the results thereof and, where appropriate, revise such list by rule, adding pollutants which present, or may present, through inhalation or other routes of exposure, a threat of adverse human health effects (including, but not limited to, substances which are known to be, or may reasonably be anticipated to be, carcinogenic, mutagenic, teratogenic, neurotoxic, which cause reproductive dysfunction, or which are acutely or chronically toxic) or adverse environmental effects whether through ambient concentrations, bioaccumulation, deposition, or otherwise, but not including releases subject to regulation under subsection (r) of this section as a result of emissions to the air. No air pollutant which is listed under section 7408(a) of this title may be added to the list under this section, except that the prohibition of this sentence shall not apply to any pollutant which independently meets the listing criteria of this paragraph and is a precursor to a pollutant which is listed under section 7408(a) of this title or to any pollutant which is in a class of pollutants listed under such section. No substance, practice, process or activity regulated under subchapter VI of this chapter shall be subject to regulation under this section solely due to its adverse effects on the environment.

(3) Petitions to modify the list

(A) Beginning at any time after 6 months after November 15, 1990, any person may peti-

tion the Administrator to modify the list of hazardous air pollutants under this subsection by adding or deleting a substance or, in case of listed pollutants without CAS numbers (other than coke oven emissions, mineral fibers, or polycyclic organic matter) removing certain unique substances. Within 18 months after receipt of a petition, the Administrator shall either grant or deny the petition by publishing a written explanation of the reasons for the Administrator's decision. Any such petition shall include a showing by the petitioner that there is adequate data on the health or environmental defects[2] of the pollutant or other evidence adequate to support the petition. The Administrator may not deny a petition solely on the basis of inadequate resources or time for review.

(B) The Administrator shall add a substance to the list upon a showing by the petitioner or on the Administrator's own determination that the substance is an air pollutant and that emissions, ambient concentrations, bioaccumulation or deposition of the substance are known to cause or may reasonably be anticipated to cause adverse effects to human health or adverse environmental effects.

(C) The Administrator shall delete a substance from the list upon a showing by the petitioner or on the Administrator's own determination that there is adequate data on the health and environmental effects of the substance to determine that emissions, ambient concentrations, bioaccumulation or deposition of the substance may not reasonably be anticipated to cause any adverse effects to the human health or adverse environmental effects.

(D) The Administrator shall delete one or more unique chemical substances that contain a listed hazardous air pollutant not having a CAS number (other than coke oven emissions, mineral fibers, or polycyclic organic matter) upon a showing by the petitioner or on the Administrator's own determination that such unique chemical substances that contain the named chemical of such listed hazardous air pollutant meet the deletion requirements of subparagraph (C). The Administrator must grant or deny a deletion petition prior to promulgating any emission standards pursuant to subsection (d) of this section applicable to any source category or subcategory of a listed hazardous air pollutant without a CAS number listed under subsection (b) of this section for which a deletion petition has been filed within 12 months of November 15, 1990.

(4) Further information

If the Administrator determines that information on the health or environmental effects of a substance is not sufficient to make a determination required by this subsection, the Administrator may use any authority available to the Administrator to acquire such information.

(5) Test methods

The Administrator may establish, by rule, test measures and other analytic procedures for monitoring and measuring emissions, ambient concentrations, deposition, and bioaccumulation of hazardous air pollutants.

(6) Prevention of significant deterioration

The provisions of part C of this subchapter (prevention of significant deterioration) shall not apply to pollutants listed under this section.

(7) Lead

The Administrator may not list elemental lead as a hazardous air pollutant under this subsection.

(c) List of source categories

(1) In general

Not later than 12 months after November 15, 1990, the Administrator shall publish, and shall from time to time, but no less often than every 8 years, revise, if appropriate, in response to public comment or new information, a list of all categories and subcategories of major sources and area sources (listed under paragraph (3)) of the air pollutants listed pursuant to subsection (b) of this section. To the extent practicable, the categories and subcategories listed under this subsection shall be consistent with the list of source categories established pursuant to section 7411 of this title and part C of this subchapter. Nothing in the preceding sentence limits the Administrator's authority to establish subcategories under this section, as appropriate.

(2) Requirement for emissions standards

For the categories and subcategories the Administrator lists, the Administrator shall establish emissions standards under subsection (d) of this section, according to the schedule in this subsection and subsection (e) of this section.

(3) Area sources

The Administrator shall list under this subsection each category or subcategory of area sources which the Administrator finds presents a threat of adverse effects to human health or the environment (by such sources individually or in the aggregate) warranting regulation under this section. The Administrator shall, not later than 5 years after November 15, 1990, and pursuant to subsection (k)(3)(B) of this section, list, based on actual or estimated aggregate emissions of a listed pollutant or pollutants, sufficient categories or subcategories of area sources to ensure that area sources representing 90 percent of the area source emissions of the 30 hazardous air pollutants that present the greatest threat to public health in the largest number of urban areas are subject to regulation under this section. Such regulations shall be promulgated not later than 10 years after November 15, 1990.

(4) Previously regulated categories

The Administrator may, in the Administrator's discretion, list any category or subcategory of sources previously regulated under this section as in effect before November 15, 1990.

(5) Additional categories

In addition to those categories and subcategories of sources listed for regulation pursu-

[2] So in original. Probably should be ''effects''.

ant to paragraphs (1) and (3), the Administrator may at any time list additional categories and subcategories of sources of hazardous air pollutants according to the same criteria for listing applicable under such paragraphs. In the case of source categories and subcategories listed after publication of the initial list required under paragraph (1) or (3), emission standards under subsection (d) of this section for the category or subcategory shall be promulgated within 10 years after November 15, 1990, or within 2 years after the date on which such category or subcategory is listed, whichever is later.

(6) Specific pollutants

With respect to alkylated lead compounds, polycyclic organic matter, hexachlorobenzene, mercury, polychlorinated biphenyls, 2,3,7,8-tetrachlorodibenzofurans and 2,3,7,8-tetrachlorodibenzo-p-dioxin, the Administrator shall, not later than 5 years after November 15, 1990, list categories and subcategories of sources assuring that sources accounting for not less than 90 per centum of the aggregate emissions of each such pollutant are subject to standards under subsection (d)(2) or (d)(4) of this section. Such standards shall be promulgated not later than 10 years after November 15, 1990. This paragraph shall not be construed to require the Administrator to promulgate standards for such pollutants emitted by electric utility steam generating units.

(7) Research facilities

The Administrator shall establish a separate category covering research or laboratory facilities, as necessary to assure the equitable treatment of such facilities. For purposes of this section, ''research or laboratory facility'' means any stationary source whose primary purpose is to conduct research and development into new processes and products, where such source is operated under the close supervision of technically trained personnel and is not engaged in the manufacture of products for commercial sale in commerce, except in a de minimis manner.

(8) Boat manufacturing

When establishing emissions standards for styrene, the Administrator shall list boat manufacturing as a separate subcategory unless the Administrator finds that such listing would be inconsistent with the goals and requirements of this chapter.

(9) Deletions from the list

(A) Where the sole reason for the inclusion of a source category on the list required under this subsection is the emission of a unique chemical substance, the Administrator shall delete the source category from the list if it is appropriate because of action taken under either subparagraphs (C) or (D) of subsection (b)(3) of this section.

(B) The Administrator may delete any source category from the list under this subsection, on petition of any person or on the Administrator's own motion, whenever the Administrator makes the following determination or determinations, as applicable:

(i) In the case of hazardous air pollutants emitted by sources in the category that may result in cancer in humans, a determination that no source in the category (or group of sources in the case of area sources) emits such hazardous air pollutants in quantities which may cause a lifetime risk of cancer greater than one in one million to the individual in the population who is most exposed to emissions of such pollutants from the source (or group of sources in the case of area sources).

(ii) In the case of hazardous air pollutants that may result in adverse health effects in humans other than cancer or adverse environmental effects, a determination that emissions from no source in the category or subcategory concerned (or group of sources in the case of area sources) exceed a level which is adequate to protect public health with an ample margin of safety and no adverse environmental effect will result from emissions from any source (or from a group of sources in the case of area sources).

The Administrator shall grant or deny a petition under this paragraph within 1 year after the petition is filed.

(d) Emission standards

(1) In general

The Administrator shall promulgate regulations establishing emission standards for each category or subcategory of major sources and area sources of hazardous air pollutants listed for regulation pursuant to subsection (c) of this section in accordance with the schedules provided in subsections (c) and (e) of this section. The Administrator may distinguish among classes, types, and sizes of sources within a category or subcategory in establishing such standards except that, there shall be no delay in the compliance date for any standard applicable to any source under subsection (i) of this section as the result of the authority provided by this sentence.

(2) Standards and methods

Emissions standards promulgated under this subsection and applicable to new or existing sources of hazardous air pollutants shall require the maximum degree of reduction in emissions of the hazardous air pollutants subject to this section (including a prohibition on such emissions, where achievable) that the Administrator, taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impacts and energy requirements, determines is achievable for new or existing sources in the category or subcategory to which such emission standard applies, through application of measures, processes, methods, systems or techniques including, but not limited to, measures which—

(A) reduce the volume of, or eliminate emissions of, such pollutants through process changes, substitution of materials or other modifications,

(B) enclose systems or processes to eliminate emissions,

(C) collect, capture or treat such pollutants when released from a process, stack, storage or fugitive emissions point,

(D) are design, equipment, work practice, or operational standards (including requirements for operator training or certification) as provided in subsection (h) of this section, or

(E) are a combination of the above.

None of the measures described in subparagraphs (A) through (D) shall, consistent with the provisions of section 7414(c) of this title, in any way compromise any United States patent or United States trademark right, or any confidential business information, or any trade secret or any other intellectual property right.

(3) New and existing sources

The maximum degree of reduction in emissions that is deemed achievable for new sources in a category or subcategory shall not be less stringent than the emission control that is achieved in practice by the best controlled similar source, as determined by the Administrator. Emission standards promulgated under this subsection for existing sources in a category or subcategory may be less stringent than standards for new sources in the same category or subcategory but shall not be less stringent, and may be more stringent than—

(A) the average emission limitation achieved by the best performing 12 percent of the existing sources (for which the Administrator has emissions information), excluding those sources that have, within 18 months before the emission standard is proposed or within 30 months before such standard is promulgated, whichever is later, first achieved a level of emission rate or emission reduction which complies, or would comply if the source is not subject to such standard, with the lowest achievable emission rate (as defined by section 7501 of this title) applicable to the source category and prevailing at the time, in the category or subcategory for categories and subcategories with 30 or more sources, or

(B) the average emission limitation achieved by the best performing 5 sources (for which the Administrator has or could reasonably obtain emissions information) in the category or subcategory for categories or subcategories with fewer than 30 sources.

(4) Health threshold

With respect to pollutants for which a health threshold has been established, the Administrator may consider such threshold level, with an ample margin of safety, when establishing emission standards under this subsection.

(5) Alternative standard for area sources

With respect only to categories and subcategories of area sources listed pursuant to subsection (c) of this section, the Administrator may, in lieu of the authorities provided in paragraph (2) and subsection (f) of this section, elect to promulgate standards or requirements applicable to sources in such categories or subcategories which provide for the use of generally available control technologies or management practices by such sources to reduce emissions of hazardous air pollutants.

(6) Review and revision

The Administrator shall review, and revise as necessary (taking into account developments in practices, processes, and control technologies), emission standards promulgated under this section no less often than every 8 years.

(7) Other requirements preserved

No emission standard or other requirement promulgated under this section shall be interpreted, construed or applied to diminish or replace the requirements of a more stringent emission limitation or other applicable requirement established pursuant to section 7411 of this title, part C or D of this subchapter, or other authority of this chapter or a standard issued under State authority.

(8) Coke ovens

(A) Not later than December 31, 1992, the Administrator shall promulgate regulations establishing emission standards under paragraphs (2) and (3) of this subsection for coke oven batteries. In establishing such standards, the Administrator shall evaluate—

(i) the use of sodium silicate (or equivalent) luting compounds to prevent door leaks, and other operating practices and technologies for their effectiveness in reducing coke oven emissions, and their suitability for use on new and existing coke oven batteries, taking into account costs and reasonable commercial door warranties; and

(ii) as a basis for emission standards under this subsection for new coke oven batteries that begin construction after the date of proposal of such standards, the Jewell design Thompson non-recovery coke oven batteries and other non-recovery coke oven technologies, and other appropriate emission control and coke production technologies, as to their effectiveness in reducing coke oven emissions and their capability for production of steel quality coke.

Such regulations shall require at a minimum that coke oven batteries will not exceed 8 per centum leaking doors, 1 per centum leaking lids, 5 per centum leaking offtakes, and 16 seconds visible emissions per charge, with no exclusion for emissions during the period after the closing of self-sealing oven doors. Notwithstanding subsection (i) of this section, the compliance date for such emission standards for existing coke oven batteries shall be December 31, 1995.

(B) The Administrator shall promulgate work practice regulations under this subsection for coke oven batteries requiring, as appropriate—

(i) the use of sodium silicate (or equivalent) luting compounds, if the Administrator determines that use of sodium silicate is an effective means of emissions control and is achievable, taking into account costs and reasonable commercial warranties for doors and related equipment; and

(ii) door and jam cleaning practices.

Notwithstanding subsection (i) of this section, the compliance date for such work practice regulations for coke oven batteries shall be not later than the date 3 years after November 15, 1990.

(C) For coke oven batteries electing to qualify for an extension of the compliance date for standards promulgated under subsection (f) of this section in accordance with subsection (i)(8) of this section, the emission standards under this subsection for coke oven batteries shall require that coke oven batteries not exceed 8 per centum leaking doors, 1 per centum leaking lids, 5 per centum leaking offtakes, and 16 seconds visible emissions per charge, with no exclusion for emissions during the period after the closing of self-sealing doors. Notwithstanding subsection (i) of this section, the compliance date for such emission standards for existing coke oven batteries seeking an extension shall be not later than the date 3 years after November 15, 1990.

(9) Sources licensed by the Nuclear Regulatory Commission

No standard for radionuclide emissions from any category or subcategory of facilities licensed by the Nuclear Regulatory Commission (or an Agreement State) is required to be promulgated under this section if the Administrator determines, by rule, and after consultation with the Nuclear Regulatory Commission, that the regulatory program established by the Nuclear Regulatory Commission pursuant to the Atomic Energy Act [42 U.S.C. 2011 et seq.] for such category or subcategory provides an ample margin of safety to protect the public health. Nothing in this subsection shall preclude or deny the right of any State or political subdivision thereof to adopt or enforce any standard or limitation respecting emissions of radionuclides which is more stringent than the standard or limitation in effect under section 7411 of this title or this section.

(10) Effective date

Emission standards or other regulations promulgated under this subsection shall be effective upon promulgation.

(e) Schedule for standards and review

(1) In general

The Administrator shall promulgate regulations establishing emission standards for categories and subcategories of sources initially listed for regulation pursuant to subsection (c)(1) of this section as expeditiously as practicable, assuring that—

(A) emission standards for not less than 40 categories and subcategories (not counting coke oven batteries) shall be promulgated not later than 2 years after November 15, 1990;

(B) emission standards for coke oven batteries shall be promulgated not later than December 31, 1992;

(C) emission standards for 25 per centum of the listed categories and subcategories shall be promulgated not later than 4 years after November 15, 1990;

(D) emission standards for an additional 25 per centum of the listed categories and subcategories shall be promulgated not later than 7 years after November 15, 1990; and

(E) emission standards for all categories and subcategories shall be promulgated not later than 10 years after November 15, 1990.

(2) Priorities

In determining priorities for promulgating standards under subsection (d) of this section, the Administrator shall consider—

(A) the known or anticipated adverse effects of such pollutants on public health and the environment;

(B) the quantity and location of emissions or reasonably anticipated emissions of hazardous air pollutants that each category or subcategory will emit; and

(C) the efficiency of grouping categories or subcategories according to the pollutants emitted, or the processes or technologies used.

(3) Published schedule

Not later than 24 months after November 15, 1990, and after opportunity for comment, the Administrator shall publish a schedule establishing a date for the promulgation of emission standards for each category and subcategory of sources listed pursuant to subsection (c)(1) and (3) of this section which shall be consistent with the requirements of paragraphs (1) and (2). The determination of priorities for the promulgation of standards pursuant to this paragraph is not a rulemaking and shall not be subject to judicial review, except that, failure to promulgate any standard pursuant to the schedule established by this paragraph shall be subject to review under section 7604 of this title.

(4) Judicial review

Notwithstanding section 7607 of this title, no action of the Administrator adding a pollutant to the list under subsection (b) of this section or listing a source category or subcategory under subsection (c) of this section shall be a final agency action subject to judicial review, except that any such action may be reviewed under such section 7607 of this title when the Administrator issues emission standards for such pollutant or category.

(5) Publicly owned treatment works

The Administrator shall promulgate standards pursuant to subsection (d) of this section applicable to publicly owned treatment works (as defined in title II of the Federal Water Pollution Control Act [33 U.S.C. 1281 et seq.]) not later than 5 years after November 15, 1990.

(f) Standard to protect health and environment

(1) Report

Not later than 6 years after November 15, 1990, the Administrator shall investigate and report, after consultation with the Surgeon General and after opportunity for public comment, to Congress on—

(A) methods of calculating the risk to public health remaining, or likely to remain, from sources subject to regulation under

this section after the application of standards under subsection (d) of this section;

(B) the public health significance of such estimated remaining risk and the technologically and commercially available methods and costs of reducing such risks;

(C) the actual health effects with respect to persons living in the vicinity of sources, any available epidemiological or other health studies, risks presented by background concentrations of hazardous air pollutants, any uncertainties in risk assessment methodology or other health assessment technique, and any negative health or environmental consequences to the community of efforts to reduce such risks; and

(D) recommendations as to legislation regarding such remaining risk.

(2) Emission standards

(A) If Congress does not act on any recommendation submitted under paragraph (1), the Administrator shall, within 8 years after promulgation of standards for each category or subcategory of sources pursuant to subsection (d) of this section, promulgate standards for such category or subcategory if promulgation of such standards is required in order to provide an ample margin of safety to protect public health in accordance with this section (as in effect before November 15, 1990) or to prevent, taking into consideration costs, energy, safety, and other relevant factors, an adverse environmental effect. Emission standards promulgated under this subsection shall provide an ample margin of safety to protect public health in accordance with this section (as in effect before November 15, 1990), unless the Administrator determines that a more stringent standard is necessary to prevent, taking into consideration costs, energy, safety, and other relevant factors, an adverse environmental effect. If standards promulgated pursuant to subsection (d) of this section and applicable to a category or subcategory of sources emitting a pollutant (or pollutants) classified as a known, probable or possible human carcinogen do not reduce lifetime excess cancer risks to the individual most exposed to emissions from a source in the category or subcategory to less than one in one million, the Administrator shall promulgate standards under this subsection for such source category.

(B) Nothing in subparagraph (A) or in any other provision of this section shall be construed as affecting, or applying to the Administrator's interpretation of this section, as in effect before November 15, 1990, and set forth in the Federal Register of September 14, 1989 (54 Federal Register 38044).

(C) The Administrator shall determine whether or not to promulgate such standards and, if the Administrator decides to promulgate such standards, shall promulgate the standards 8 years after promulgation of the standards under subsection (d) of this section for each source category or subcategory concerned. In the case of categories or subcategories for which standards under subsection (d) of this section are required to be promulgated within 2 years after November 15, 1990, the Administrator shall have 9 years after promulgation of the standards under subsection (d) of this section to make the determination under the preceding sentence and, if required, to promulgate the standards under this paragraph.

(3) Effective date

Any emission standard established pursuant to this subsection shall become effective upon promulgation.

(4) Prohibition

No air pollutant to which a standard under this subsection applies may be emitted from any stationary source in violation of such standard, except that in the case of an existing source—

(A) such standard shall not apply until 90 days after its effective date, and

(B) the Administrator may grant a waiver permitting such source a period of up to 2 years after the effective date of a standard to comply with the standard if the Administrator finds that such period is necessary for the installation of controls and that steps will be taken during the period of the waiver to assure that the health of persons will be protected from imminent endangerment.

(5) Area sources

The Administrator shall not be required to conduct any review under this subsection or promulgate emission limitations under this subsection for any category or subcategory of area sources that is listed pursuant to subsection (c)(3) of this section and for which an emission standard is promulgated pursuant to subsection (d)(5) of this section.

(6) Unique chemical substances

In establishing standards for the control of unique chemical substances of listed pollutants without CAS numbers under this subsection, the Administrator shall establish such standards with respect to the health and environmental effects of the substances actually emitted by sources and direct transformation byproducts of such emissions in the categories and subcategories.

(g) Modifications

(1) Offsets

(A) A physical change in, or change in the method of operation of, a major source which results in a greater than de minimis increase in actual emissions of a hazardous air pollutant shall not be considered a modification, if such increase in the quantity of actual emissions of any hazardous air pollutant from such source will be offset by an equal or greater decrease in the quantity of emissions of another hazardous air pollutant (or pollutants) from such source which is deemed more hazardous, pursuant to guidance issued by the Administrator under subparagraph (B). The owner or operator of such source shall submit a showing to the Administrator (or the State) that such increase has been offset under the preceding sentence.

(B) The Administrator shall, after notice and opportunity for comment and not later

than 18 months after November 15, 1990, publish guidance with respect to implementation of this subsection. Such guidance shall include an identification, to the extent practicable, of the relative hazard to human health resulting from emissions to the ambient air of each of the pollutants listed under subsection (b) of this section sufficient to facilitate the offset showing authorized by subparagraph (A). Such guidance shall not authorize offsets between pollutants where the increased pollutant (or more than one pollutant in a stream of pollutants) causes adverse effects to human health for which no safety threshold for exposure can be determined unless there are corresponding decreases in such types of pollutant(s).

(2) Construction, reconstruction and modifications

(A) After the effective date of a permit program under subchapter V of this chapter in any State, no person may modify a major source of hazardous air pollutants in such State, unless the Administrator (or the State) determines that the maximum achievable control technology emission limitation under this section for existing sources will be met. Such determination shall be made on a case-by-case basis where no applicable emissions limitations have been established by the Administrator.

(B) After the effective date of a permit program under subchapter V of this chapter in any State, no person may construct or reconstruct any major source of hazardous air pollutants, unless the Administrator (or the State) determines that the maximum achievable control technology emission limitation under this section for new sources will be met. Such determination shall be made on a case-by-case basis where no applicable emission limitations have been established by the Administrator.

(3) Procedures for modifications

The Administrator (or the State) shall establish reasonable procedures for assuring that the requirements applying to modifications under this section are reflected in the permit.

(h) Work practice standards and other requirements

(1) In general

For purposes of this section, if it is not feasible in the judgment of the Administrator to prescribe or enforce an emission standard for control of a hazardous air pollutant or pollutants, the Administrator may, in lieu thereof, promulgate a design, equipment, work practice, or operational standard, or combination thereof, which in the Administrator's judgment is consistent with the provisions of subsection (d) or (f) of this section. In the event the Administrator promulgates a design or equipment standard under this subsection, the Administrator shall include as part of such standard such requirements as will assure the proper operation and maintenance of any such element of design or equipment.

(2) Definition

For the purpose of this subsection, the phrase ''not feasible to prescribe or enforce an emission standard'' means any situation in which the Administrator determines that—

(A) a hazardous air pollutant or pollutants cannot be emitted through a conveyance designed and constructed to emit or capture such pollutant, or that any requirement for, or use of, such a conveyance would be inconsistent with any Federal, State or local law, or

(B) the application of measurement methodology to a particular class of sources is not practicable due to technological and economic limitations.

(3) Alternative standard

If after notice and opportunity for comment, the owner or operator of any source establishes to the satisfaction of the Administrator that an alternative means of emission limitation will achieve a reduction in emissions of any air pollutant at least equivalent to the reduction in emissions of such pollutant achieved under the requirements of paragraph (1), the Administrator shall permit the use of such alternative by the source for purposes of compliance with this section with respect to such pollutant.

(4) Numerical standard required

Any standard promulgated under paragraph (1) shall be promulgated in terms of an emission standard whenever it is feasible to promulgate and enforce a standard in such terms.

(i) Schedule for compliance

(1) Preconstruction and operating requirements

After the effective date of any emission standard, limitation, or regulation under subsection (d), (f) or (h) of this section, no person may construct any new major source or reconstruct any existing major source subject to such emission standard, regulation or limitation unless the Administrator (or a State with a permit program approved under subchapter V of this chapter) determines that such source, if properly constructed, reconstructed and operated, will comply with the standard, regulation or limitation.

(2) Special rule

Notwithstanding the requirements of paragraph (1), a new source which commences construction or reconstruction after a standard, limitation or regulation applicable to such source is proposed and before such standard, limitation or regulation is promulgated shall not be required to comply with such promulgated standard until the date 3 years after the date of promulgation if—

(A) the promulgated standard, limitation or regulation is more stringent than the standard, limitation or regulation proposed; and

(B) the source complies with the standard, limitation, or regulation as proposed during the 3-year period immediately after promulgation.

(3) Compliance schedule for existing sources

(A) After the effective date of any emissions standard, limitation or regulation promul-

gated under this section and applicable to a source, no person may operate such source in violation of such standard, limitation or regulation except, in the case of an existing source, the Administrator shall establish a compliance date or dates for each category or subcategory of existing sources, which shall provide for compliance as expeditiously as practicable, but in no event later than 3 years after the effective date of such standard, except as provided in subparagraph (B) and paragraphs (4) through (8).

(B) The Administrator (or a State with a program approved under subchapter V of this chapter) may issue a permit that grants an extension permitting an existing source up to 1 additional year to comply with standards under subsection (d) of this section if such additional period is necessary for the installation of controls. An additional extension of up to 3 years may be added for mining waste operations, if the 4-year compliance time is insufficient to dry and cover mining waste in order to reduce emissions of any pollutant listed under subsection (b) of this section.

(4) Presidential exemption

The President may exempt any stationary source from compliance with any standard or limitation under this section for a period of not more than 2 years if the President determines that the technology to implement such standard is not available and that it is in the national security interests of the United States to do so. An exemption under this paragraph may be extended for 1 or more additional periods, each period not to exceed 2 years. The President shall report to Congress with respect to each exemption (or extension thereof) made under this paragraph.

(5) Early reduction

(A) The Administrator (or a State acting pursuant to a permit program approved under subchapter V of this chapter) shall issue a permit allowing an existing source, for which the owner or operator demonstrates that the source has achieved a reduction of 90 per centum or more in emissions of hazardous air pollutants (95 per centum in the case of hazardous air pollutants which are particulates) from the source, to meet an alternative emission limitation reflecting such reduction in lieu of an emission limitation promulgated under subsection (d) of this section for a period of 6 years from the compliance date for the otherwise applicable standard, provided that such reduction is achieved before the otherwise applicable standard under subsection (d) of this section is first proposed. Nothing in this paragraph shall preclude a State from requiring reductions in excess of those specified in this subparagraph as a condition of granting the extension authorized by the previous sentence.

(B) An existing source which achieves the reduction referred to in subparagraph (A) after the proposal of an applicable standard but before January 1, 1994, may qualify under subparagraph (A), if the source makes an enforceable commitment to achieve such reduction before the proposal of the standard. Such commitment shall be enforceable to the same extent as a regulation under this section.

(C) The reduction shall be determined with respect to verifiable and actual emissions in a base year not earlier than calendar year 1987, provided that, there is no evidence that emissions in the base year are artificially or substantially greater than emissions in other years prior to implementation of emissions reduction measures. The Administrator may allow a source to use a baseline year of 1985 or 1986 provided that the source can demonstrate to the satisfaction of the Administrator that emissions data for the source reflects verifiable data based on information for such source, received by the Administrator prior to November 15, 1990, pursuant to an information request issued under section 7414 of this title.

(D) For each source granted an alternative emission limitation under this paragraph there shall be established by a permit issued pursuant to subchapter V of this chapter an enforceable emission limitation for hazardous air pollutants reflecting the reduction which qualifies the source for an alternative emission limitation under this paragraph. An alternative emission limitation under this paragraph shall not be available with respect to standards or requirements promulgated pursuant to subsection (f) of this section and the Administrator shall, for the purpose of determining whether a standard under subsection (f) of this section is necessary, review emissions from sources granted an alternative emission limitation under this paragraph at the same time that other sources in the category or subcategory are reviewed.

(E) With respect to pollutants for which high risks of adverse public health effects may be associated with exposure to small quantities including, but not limited to, chlorinated dioxins and furans, the Administrator shall by regulation limit the use of offsetting reductions in emissions of other hazardous air pollutants from the source as counting toward the 90 per centum reduction in such high-risk pollutants qualifying for an alternative emissions limitation under this paragraph.

(6) Other reductions

Notwithstanding the requirements of this section, no existing source that has installed—

(A) best available control technology (as defined in section 7479(3) of this title), or

(B) technology required to meet a lowest achievable emission rate (as defined in section 7501 of this title),

prior to the promulgation of a standard under this section applicable to such source and the same pollutant (or stream of pollutants) controlled pursuant to an action described in subparagraph (A) or (B) shall be required to comply with such standard under this section until the date 5 years after the date on which such installation or reduction has been achieved, as determined by the Administrator. The Administrator may issue such rules and guidance as are necessary to implement this paragraph.

(7) Extension for new sources

A source for which construction or reconstruction is commenced after the date an

emission standard applicable to such source is proposed pursuant to subsection (d) of this section but before the date an emission standard applicable to such source is proposed pursuant to subsection (f) of this section shall not be required to comply with the emission standard under subsection (f) of this section until the date 10 years after the date construction or reconstruction is commenced.

(8) Coke ovens

(A) Any coke oven battery that complies with the emission limitations established under subsection (d)(8)(C) of this section, subparagraph (B), and subparagraph (C), and complies with the provisions of subparagraph (E), shall not be required to achieve emission limitations promulgated under subsection (f) of this section until January 1, 2020.

(B)(i) Not later than December 31, 1992, the Administrator shall promulgate emission limitations for coke oven emissions from coke oven batteries. Notwithstanding paragraph (3) of this subsection, the compliance date for such emission limitations for existing coke oven batteries shall be January 1, 1998. Such emission limitations shall reflect the lowest achievable emission rate as defined in section 7501 of this title for a coke oven battery that is rebuilt or a replacement at a coke oven plant for an existing battery. Such emission limitations shall be no less stringent than—

(I) 3 per centum leaking doors (5 per centum leaking doors for six meter batteries);

(II) 1 per centum leaking lids;

(III) 4 per centum leaking offtakes; and

(IV) 16 seconds visible emissions per charge,

with an exclusion for emissions during the period after the closing of self-sealing oven doors (or the total mass emissions equivalent). The rulemaking in which such emission limitations are promulgated shall also establish an appropriate measurement methodology for determining compliance with such emission limitations, and shall establish such emission limitations in terms of an equivalent level of mass emissions reduction from a coke oven battery, unless the Administrator finds that such a mass emissions standard would not be practicable or enforceable. Such measurement methodology, to the extent it measures leaking doors, shall take into consideration alternative test methods that reflect the best technology and practices actually applied in the affected industries, and shall assure that the final test methods are consistent with the performance of such best technology and practices.

(ii) If the Administrator fails to promulgate such emission limitations under this subparagraph prior to the effective date of such emission limitations, the emission limitations applicable to coke oven batteries under this subparagraph shall be—

(I) 3 per centum leaking doors (5 per centum leaking doors for six meter batteries);

(II) 1 per centum leaking lids;

(III) 4 per centum leaking offtakes; and

(IV) 16 seconds visible emissions per charge,

or the total mass emissions equivalent (if the total mass emissions equivalent is determined to be practicable and enforceable), with no exclusion for emissions during the period after the closing of self-sealing oven doors.

(C) Not later than January 1, 2007, the Administrator shall review the emission limitations promulgated under subparagraph (B) and revise, as necessary, such emission limitations to reflect the lowest achievable emission rate as defined in section 7501 of this title at the time for a coke oven battery that is rebuilt or a replacement at a coke oven plant for an existing battery. Such emission limitations shall be no less stringent than the emission limitation promulgated under subparagraph (B). Notwithstanding paragraph (2) of this subsection, the compliance date for such emission limitations for existing coke oven batteries shall be January 1, 2010.

(D) At any time prior to January 1, 1998, the owner or operator of any coke oven battery may elect to comply with emission limitations promulgated under subsection (f) of this section by the date such emission limitations would otherwise apply to such coke oven battery, in lieu of the emission limitations and the compliance dates provided under subparagraphs (B) and (C) of this paragraph. Any such owner or operator shall be legally bound to comply with such emission limitations promulgated under subsection (f) of this section with respect to such coke oven battery as of January 1, 2003. If no such emission limitations have been promulgated for such coke oven battery, the Administrator shall promulgate such emission limitations in accordance with subsection (f) of this section for such coke oven battery.

(E) Coke oven batteries qualifying for an extension under subparagraph (A) shall make available not later than January 1, 2000, to the surrounding communities the results of any risk assessment performed by the Administrator to determine the appropriate level of any emission standard established by the Administrator pursuant to subsection (f) of this section.

(F) Notwithstanding the provisions of this section, reconstruction of any source of coke oven emissions qualifying for an extension under this paragraph shall not subject such source to emission limitations under subsection (f) of this section more stringent than those established under subparagraphs (B) and (C) until January 1, 2020. For the purposes of this subparagraph, the term ''reconstruction'' includes the replacement of existing coke oven battery capacity with new coke oven batteries of comparable or lower capacity and lower potential emissions.

(j) Equivalent emission limitation by permit

(1) Effective date

The requirements of this subsection shall apply in each State beginning on the effective date of a permit program established pursuant to subchapter V of this chapter in such State, but not prior to the date 42 months after November 15, 1990.

(2) Failure to promulgate a standard

In the event that the Administrator fails to promulgate a standard for a category or subcategory of major sources by the date established pursuant to subsection (e)(1) and (3) of this section, and beginning 18 months after such date (but not prior to the effective date of a permit program under subchapter V of this chapter), the owner or operator of any major source in such category or subcategory shall submit a permit application under paragraph (3) and such owner or operator shall also comply with paragraphs (5) and (6).

(3) Applications

By the date established by paragraph (2), the owner or operator of a major source subject to this subsection shall file an application for a permit. If the owner or operator of a source has submitted a timely and complete application for a permit required by this subsection, any failure to have a permit shall not be a violation of paragraph (2), unless the delay in final action is due to the failure of the applicant to timely submit information required or requested to process the application. The Administrator shall not later than 18 months after November 15, 1990, and after notice and opportunity for comment, establish requirements for applications under this subsection including a standard application form and criteria for determining in a timely manner the completeness of applications.

(4) Review and approval

Permit applications submitted under this subsection shall be reviewed and approved or disapproved according to the provisions of section 7661d of this title. In the event that the Administrator (or the State) disapproves a permit application submitted under this subsection or determines that the application is incomplete, the applicant shall have up to 6 months to revise the application to meet the objections of the Administrator (or the State).

(5) Emission limitation

The permit shall be issued pursuant to subchapter V of this chapter and shall contain emission limitations for the hazardous air pollutants subject to regulation under this section and emitted by the source that the Administrator (or the State) determines, on a case-by-case basis, to be equivalent to the limitation that would apply to such source if an emission standard had been promulgated in a timely manner under subsection (d) of this section. In the alternative, if the applicable criteria are met, the permit may contain an emissions limitation established according to the provisions of subsection (i)(5) of this section. For purposes of the preceding sentence, the reduction required by subsection (i)(5)(A) of this section shall be achieved by the date on which the relevant standard should have been promulgated under subsection (d) of this section. No such pollutant may be emitted in amounts exceeding an emission limitation contained in a permit immediately for new sources and, as expeditiously as practicable, but not later than the date 3 years after the permit is issued for existing sources or such other compliance date as would apply under subsection (i) of this section.

(6) Applicability of subsequent standards

If the Administrator promulgates an emission standard that is applicable to the major source prior to the date on which a permit application is approved, the emission limitation in the permit shall reflect the promulgated standard rather than the emission limitation determined pursuant to paragraph (5), provided that the source shall have the compliance period provided under subsection (i) of this section. If the Administrator promulgates a standard under subsection (d) of this section that would be applicable to the source in lieu of the emission limitation established by permit under this subsection after the date on which the permit has been issued, the Administrator (or the State) shall revise such permit upon the next renewal to reflect the standard promulgated by the Administrator providing such source a reasonable time to comply, but no longer than 8 years after such standard is promulgated or 8 years after the date on which the source is first required to comply with the emissions limitation established by paragraph (5), whichever is earlier.

(k) Area source program

(1) Findings and purpose

The Congress finds that emissions of hazardous air pollutants from area sources may individually, or in the aggregate, present significant risks to public health in urban areas. Considering the large number of persons exposed and the risks of carcinogenic and other adverse health effects from hazardous air pollutants, ambient concentrations characteristic of large urban areas should be reduced to levels substantially below those currently experienced. It is the purpose of this subsection to achieve a substantial reduction in emissions of hazardous air pollutants from area sources and an equivalent reduction in the public health risks associated with such sources including a reduction of not less than 75 per centum in the incidence of cancer attributable to emissions from such sources.

(2) Research program

The Administrator shall, after consultation with State and local air pollution control officials, conduct a program of research with respect to sources of hazardous air pollutants in urban areas and shall include within such program—

(A) ambient monitoring for a broad range of hazardous air pollutants (including, but not limited to, volatile organic compounds, metals, pesticides and products of incomplete combustion) in a representative number of urban locations;

(B) analysis to characterize the sources of such pollution with a focus on area sources and the contribution that such sources make to public health risks from hazardous air pollutants; and

(C) consideration of atmospheric transformation and other factors which can elevate public health risks from such pollutants.

Health effects considered under this program shall include, but not be limited to, carcinogenicity, mutagenicity, teratogenicity, neurotoxicity, reproductive dysfunction and other acute and chronic effects including the role of such pollutants as precursors of ozone or acid aerosol formation. The Administrator shall report the preliminary results of such research not later than 3 years after November 15, 1990.

(3) National strategy

(A) Considering information collected pursuant to the monitoring program authorized by paragraph (2), the Administrator shall, not later than 5 years after November 15, 1990, and after notice and opportunity for public comment, prepare and transmit to the Congress a comprehensive strategy to control emissions of hazardous air pollutants from area sources in urban areas.

(B) The strategy shall—

(i) identify not less than 30 hazardous air pollutants which, as the result of emissions from area sources, present the greatest threat to public health in the largest number of urban areas and that are or will be listed pursuant to subsection (b) of this section, and

(ii) identify the source categories or subcategories emitting such pollutants that are or will be listed pursuant to subsection (c) of this section. When identifying categories and subcategories of sources under this subparagraph, the Administrator shall assure that sources accounting for 90 per centum or more of the aggregate emissions of each of the 30 identified hazardous air pollutants are subject to standards pursuant to subsection (d) of this section.

(C) The strategy shall include a schedule of specific actions to substantially reduce the public health risks posed by the release of hazardous air pollutants from area sources that will be implemented by the Administrator under the authority of this or other laws (including, but not limited to, the Toxic Substances Control Act [15 U.S.C. 2601 et seq.], the Federal Insecticide, Fungicide and Rodenticide Act [7 U.S.C. 136 et seq.] and the Resource Conservation and Recovery Act [42 U.S.C. 6901 et seq.]) or by the States. The strategy shall achieve a reduction in the incidence of cancer attributable to exposure to hazardous air pollutants emitted by stationary sources of not less than 75 per centum, considering control of emissions of hazardous air pollutants from all stationary sources and resulting from measures implemented by the Administrator or by the States under this or other laws.

(D) The strategy may also identify research needs in monitoring, analytical methodology, modeling or pollution control techniques and recommendations for changes in law that would further the goals and objectives of this subsection.

(E) Nothing in this subsection shall be interpreted to preclude or delay implementation of actions with respect to area sources of hazardous air pollutants under consideration pursuant to this or any other law and that may be promulgated before the strategy is prepared.

(F) The Administrator shall implement the strategy as expeditiously as practicable assuring that all sources are in compliance with all requirements not later than 9 years after November 15, 1990.

(G) As part of such strategy the Administrator shall provide for ambient monitoring and emissions modeling in urban areas as appropriate to demonstrate that the goals and objectives of the strategy are being met.

(4) Areawide activities

In addition to the national urban air toxics strategy authorized by paragraph (3), the Administrator shall also encourage and support areawide strategies developed by State or local air pollution control agencies that are intended to reduce risks from emissions by area sources within a particular urban area. From the funds available for grants under this section, the Administrator shall set aside not less than 10 per centum to support areawide strategies addressing hazardous air pollutants emitted by area sources and shall award such funds on a demonstration basis to those States with innovative and effective strategies. At the request of State or local air pollution control officials, the Administrator shall prepare guidelines for control technologies or management practices which may be applicable to various categories or subcategories of area sources.

(5) Report

The Administrator shall report to the Congress at intervals not later than 8 and 12 years after November 15, 1990, on actions taken under this subsection and other parts of this chapter to reduce the risk to public health posed by the release of hazardous air pollutants from area sources. The reports shall also identify specific metropolitan areas that continue to experience high risks to public health as the result of emissions from area sources.

(*l*) State programs

(1) In general

Each State may develop and submit to the Administrator for approval a program for the implementation and enforcement (including a review of enforcement delegations previously granted) of emission standards and other requirements for air pollutants subject to this section or requirements for the prevention and mitigation of accidental releases pursuant to subsection (r) of this section. A program submitted by a State under this subsection may provide for partial or complete delegation of the Administrator's authorities and responsibilities to implement and enforce emissions standards and prevention requirements but shall not include authority to set standards less stringent than those promulgated by the Administrator under this chapter.

(2) Guidance

Not later than 12 months after November 15, 1990, the Administrator shall publish guidance that would be useful to the States in developing programs for submittal under this sub-

section. The guidance shall also provide for the registration of all facilities producing, processing, handling or storing any substance listed pursuant to subsection (r) of this section in amounts greater than the threshold quantity. The Administrator shall include as an element in such guidance an optional program begun in 1986 for the review of high-risk point sources of air pollutants including, but not limited to, hazardous air pollutants listed pursuant to subsection (b) of this section.

(3) Technical assistance

The Administrator shall establish and maintain an air toxics clearinghouse and center to provide technical information and assistance to State and local agencies and, on a cost recovery basis, to others on control technology, health and ecological risk assessment, risk analysis, ambient monitoring and modeling, and emissions measurement and monitoring. The Administrator shall use the authority of section 7403 of this title to examine methods for preventing, measuring, and controlling emissions and evaluating associated health and ecological risks. Where appropriate, such activity shall be conducted with not-for-profit organizations. The Administrator may conduct research on methods for preventing, measuring and controlling emissions and evaluating associated health and environment risks. All information collected under this paragraph shall be available to the public.

(4) Grants

Upon application of a State, the Administrator may make grants, subject to such terms and conditions as the Administrator deems appropriate, to such State for the purpose of assisting the State in developing and implementing a program for submittal and approval under this subsection. Programs assisted under this paragraph may include program elements addressing air pollutants or extremely hazardous substances other than those specifically subject to this section. Grants under this paragraph may include support for high-risk point source review as provided in paragraph (2) and support for the development and implementation of areawide area source programs pursuant to subsection (k) of this section.

(5) Approval or disapproval

Not later than 180 days after receiving a program submitted by a State, and after notice and opportunity for public comment, the Administrator shall either approve or disapprove such program. The Administrator shall disapprove any program submitted by a State, if the Administrator determines that—

(A) the authorities contained in the program are not adequate to assure compliance by all sources within the State with each applicable standard, regulation or requirement established by the Administrator under this section;

(B) adequate authority does not exist, or adequate resources are not available, to implement the program;

(C) the schedule for implementing the program and assuring compliance by affected sources is not sufficiently expeditious; or

(D) the program is otherwise not in compliance with the guidance issued by the Administrator under paragraph (2) or is not likely to satisfy, in whole or in part, the objectives of this chapter.

If the Administrator disapproves a State program, the Administrator shall notify the State of any revisions or modifications necessary to obtain approval. The State may revise and resubmit the proposed program for review and approval pursuant to the provisions of this subsection.

(6) Withdrawal

Whenever the Administrator determines, after public hearing, that a State is not administering and enforcing a program approved pursuant to this subsection in accordance with the guidance published pursuant to paragraph (2) or the requirements of paragraph (5), the Administrator shall so notify the State and, if action which will assure prompt compliance is not taken within 90 days, the Administrator shall withdraw approval of the program. The Administrator shall not withdraw approval of any program unless the State shall have been notified and the reasons for withdrawal shall have been stated in writing and made public.

(7) Authority to enforce

Nothing in this subsection shall prohibit the Administrator from enforcing any applicable emission standard or requirement under this section.

(8) Local program

The Administrator may, after notice and opportunity for public comment, approve a program developed and submitted by a local air pollution control agency (after consultation with the State) pursuant to this subsection and any such agency implementing an approved program may take any action authorized to be taken by a State under this section.

(9) Permit authority

Nothing in this subsection shall affect the authorities and obligations of the Administrator or the State under subchapter V of this chapter.

(m) Atmospheric deposition to Great Lakes and coastal waters

(1) Deposition assessment

The Administrator, in cooperation with the Under Secretary of Commerce for Oceans and Atmosphere, shall conduct a program to identify and assess the extent of atmospheric deposition of hazardous air pollutants (and in the discretion of the Administrator, other air pollutants) to the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters. As part of such program, the Administrator shall—

(A) monitor the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters, including monitoring of the Great Lakes through the monitoring network established pursuant to paragraph (2) of this subsection and designing and deploying an atmospheric monitoring network for coastal waters pursuant to paragraph (4);

(B) investigate the sources and deposition rates of atmospheric deposition of air pollutants (and their atmospheric transformation precursors);

(C) conduct research to develop and improve monitoring methods and to determine the relative contribution of atmospheric pollutants to total pollution loadings to the Great Lakes, the Chesapeake Bay, Lake Champlain, and coastal waters;

(D) evaluate any adverse effects to public health or the environment caused by such deposition (including effects resulting from indirect exposure pathways) and assess the contribution of such deposition to violations of water quality standards established pursuant to the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.] and drinking water standards established pursuant to the Safe Drinking Water Act [42 U.S.C. 300f et seq.]; and

(E) sample for such pollutants in biota, fish, and wildlife of the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters and characterize the sources of such pollutants.

(2) Great Lakes monitoring network

The Administrator shall oversee, in accordance with Annex 15 of the Great Lakes Water Quality Agreement, the establishment and operation of a Great Lakes atmospheric deposition network to monitor atmospheric deposition of hazardous air pollutants (and in the Administrator's discretion, other air pollutants) to the Great Lakes.

(A) As part of the network provided for in this paragraph, and not later than December 31, 1991, the Administrator shall establish in each of the 5 Great Lakes at least 1 facility capable of monitoring the atmospheric deposition of hazardous air pollutants in both dry and wet conditions.

(B) The Administrator shall use the data provided by the network to identify and track the movement of hazardous air pollutants through the Great Lakes, to determine the portion of water pollution loadings attributable to atmospheric deposition of such pollutants, and to support development of remedial action plans and other management plans as required by the Great Lakes Water Quality Agreement.

(C) The Administrator shall assure that the data collected by the Great Lakes atmospheric deposition monitoring network is in a format compatible with databases sponsored by the International Joint Commission, Canada, and the several States of the Great Lakes region.

(3) Monitoring for the Chesapeake Bay and Lake Champlain

The Administrator shall establish at the Chesapeake Bay and Lake Champlain atmospheric deposition stations to monitor deposition of hazardous air pollutants (and in the Administrator's discretion, other air pollutants) within the Chesapeake Bay and Lake Champlain watersheds. The Administrator shall determine the role of air deposition in the pollutant loadings of the Chesapeake Bay and Lake Champlain, investigate the sources of air pollutants deposited in the watersheds, evaluate the health and environmental effects of such pollutant loadings, and shall sample such pollutants in biota, fish and wildlife within the watersheds, as necessary to characterize such effects.

(4) Monitoring for coastal waters

The Administrator shall design and deploy atmospheric deposition monitoring networks for coastal waters and their watersheds and shall make any information collected through such networks available to the public. As part of this effort, the Administrator shall conduct research to develop and improve deposition monitoring methods, and to determine the relative contribution of atmospheric pollutants to pollutant loadings. For purposes of this subsection, ''coastal waters'' shall mean estuaries selected pursuant to section 320(a)(2)(A) of the Federal Water Pollution Control Act [33 U.S.C. 1330(a)(2)(A)] or listed pursuant to section 320(a)(2)(B) of such Act [33 U.S.C. 1330(a)(2)(B)] or estuarine research reserves designated pursuant to section 1461 of title 16.

(5) Report

Within 3 years of November 15, 1990, and biennially thereafter, the Administrator, in cooperation with the Under Secretary of Commerce for Oceans and Atmosphere, shall submit to the Congress a report on the results of any monitoring, studies, and investigations conducted pursuant to this subsection. Such report shall include, at a minimum, an assessment of—

(A) the contribution of atmospheric deposition to pollution loadings in the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters;

(B) the environmental and public health effects of any pollution which is attributable to atmospheric deposition to the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters;

(C) the source or sources of any pollution to the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters which is attributable to atmospheric deposition;

(D) whether pollution loadings in the Great Lakes, the Chesapeake Bay, Lake Champlain or coastal waters cause or contribute to exceedances of drinking water standards pursuant to the Safe Drinking Water Act [42 U.S.C. 300f et seq.] or water quality standards pursuant to the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.] or, with respect to the Great Lakes, exceedances of the specific objectives of the Great Lakes Water Quality Agreement; and

(E) a description of any revisions of the requirements, standards, and limitations pursuant to this chapter and other applicable Federal laws as are necessary to assure protection of human health and the environment.

(6) Additional regulation

As part of the report to Congress, the Administrator shall determine whether the other provisions of this section are adequate to pre-

vent serious adverse effects to public health and serious or widespread environmental effects, including such effects resulting from indirect exposure pathways, associated with atmospheric deposition to the Great Lakes, the Chesapeake Bay, Lake Champlain and coastal waters of hazardous air pollutants (and their atmospheric transformation products). The Administrator shall take into consideration the tendency of such pollutants to bioaccumulate. Within 5 years after November 15, 1990, the Administrator shall, based on such report and determination, promulgate, in accordance with this section, such further emission standards or control measures as may be necessary and appropriate to prevent such effects, including effects due to bioaccumulation and indirect exposure pathways. Any requirements promulgated pursuant to this paragraph with respect to coastal waters shall only apply to the coastal waters of the States which are subject to section 7627(a) of this title.

(n) Other provisions

(1) Electric utility steam generating units

(A) The Administrator shall perform a study of the hazards to public health reasonably anticipated to occur as a result of emissions by electric utility steam generating units of pollutants listed under subsection (b) of this section after imposition of the requirements of this chapter. The Administrator shall report the results of this study to the Congress within 3 years after November 15, 1990. The Administrator shall develop and describe in the Administrator's report to Congress alternative control strategies for emissions which may warrant regulation under this section. The Administrator shall regulate electric utility steam generating units under this section, if the Administrator finds such regulation is appropriate and necessary after considering the results of the study required by this subparagraph.

(B) The Administrator shall conduct, and transmit to the Congress not later than 4 years after November 15, 1990, a study of mercury emissions from electric utility steam generating units, municipal waste combustion units, and other sources, including area sources. Such study shall consider the rate and mass of such emissions, the health and environmental effects of such emissions, technologies which are available to control such emissions, and the costs of such technologies.

(C) The National Institute of Environmental Health Sciences shall conduct, and transmit to the Congress not later than 3 years after November 15, 1990, a study to determine the threshold level of mercury exposure below which adverse human health effects are not expected to occur. Such study shall include a threshold for mercury concentrations in the tissue of fish which may be consumed (including consumption by sensitive populations) without adverse effects to public health.

(2) Coke oven production technology study

(A) The Secretary of the Department of Energy and the Administrator shall jointly undertake a 6-year study to assess coke oven production emission control technologies and to assist in the development and commercialization of technically practicable and economically viable control technologies which have the potential to significantly reduce emissions of hazardous air pollutants from coke oven production facilities. In identifying control technologies, the Secretary and the Administrator shall consider the range of existing coke oven operations and battery design and the availability of sources of materials for such coke ovens as well as alternatives to existing coke oven production design.

(B) The Secretary and the Administrator are authorized to enter into agreements with persons who propose to develop, install and operate coke production emission control technologies which have the potential for significant emissions reductions of hazardous air pollutants provided that Federal funds shall not exceed 50 per centum of the cost of any project assisted pursuant to this paragraph.

(C) On completion of the study, the Secretary shall submit to Congress a report on the results of the study and shall make recommendations to the Administrator identifying practicable and economically viable control technologies for coke oven production facilities to reduce residual risks remaining after implementation of the standard under subsection (d) of this section.

(D) There are authorized to be appropriated $5,000,000 for each of the fiscal years 1992 through 1997 to carry out the program authorized by this paragraph.

(3) Publicly owned treatment works

The Administrator may conduct, in cooperation with the owners and operators of publicly owned treatment works, studies to characterize emissions of hazardous air pollutants emitted by such facilities, to identify industrial, commercial and residential discharges that contribute to such emissions and to demonstrate control measures for such emissions. When promulgating any standard under this section applicable to publicly owned treatment works, the Administrator may provide for control measures that include pretreatment of discharges causing emissions of hazardous air pollutants and process or product substitutions or limitations that may be effective in reducing such emissions. The Administrator may prescribe uniform sampling, modeling and risk assessment methods for use in implementing this subsection.

(4) Oil and gas wells; pipeline facilities

(A) Notwithstanding the provisions of subsection (a) of this section, emissions from any oil or gas exploration or production well (with its associated equipment) and emissions from any pipeline compressor or pump station shall not be aggregated with emissions from other similar units, whether or not such units are in a contiguous area or under common control, to determine whether such units or stations are major sources, and in the case of any oil or gas exploration or production well (with its associated equipment), such emissions shall not be aggregated for any purpose under this section.

(B) The Administrator shall not list oil and gas production wells (with its associated equipment) as an area source category under subsection (c) of this section, except that the Administrator may establish an area source category for oil and gas production wells located in any metropolitan statistical area or consolidated metropolitan statistical area with a population in excess of 1 million, if the Administrator determines that emissions of hazardous air pollutants from such wells present more than a negligible risk of adverse effects to public health.

(5) Hydrogen sulfide

The Administrator is directed to assess the hazards to public health and the environment resulting from the emission of hydrogen sulfide associated with the extraction of oil and natural gas resources. To the extent practicable, the assessment shall build upon and not duplicate work conducted for an assessment pursuant to section 8002(m) of the Solid Waste Disposal Act [42 U.S.C. 6982(m)] and shall reflect consultation with the States. The assessment shall include a review of existing State and industry control standards, techniques and enforcement. The Administrator shall report to the Congress within 24 months after November 15, 1990, with the findings of such assessment, together with any recommendations, and shall, as appropriate, develop and implement a control strategy for emissions of hydrogen sulfide to protect human health and the environment, based on the findings of such assessment, using authorities under this chapter including sections[3] 7411 of this title and this section.

(6) Hydrofluoric acid

Not later than 2 years after November 15, 1990, the Administrator shall, for those regions of the country which do not have comprehensive health and safety regulations with respect to hydrofluoric acid, complete a study of the potential hazards of hydrofluoric acid and the uses of hydrofluoric acid in industrial and commercial applications to public health and the environment considering a range of events including worst-case accidental releases and shall make recommendations to the Congress for the reduction of such hazards, if appropriate.

(7) RCRA facilities

In the case of any category or subcategory of sources the air emissions of which are regulated under subtitle C of the Solid Waste Disposal Act [42 U.S.C. 6921 et seq.], the Administrator shall take into account any regulations of such emissions which are promulgated under such subtitle and shall, to the maximum extent practicable and consistent with the provisions of this section, ensure that the requirements of such subtitle and this section are consistent.

(*o*) National Academy of Sciences study

(1) Request of the Academy

Within 3 months of November 15, 1990, the Administrator shall enter into appropriate arrangements with the National Academy of Sciences to conduct a review of—

(A) risk assessment methodology used by the Environmental Protection Agency to determine the carcinogenic risk associated with exposure to hazardous air pollutants from source categories and subcategories subject to the requirements of this section; and

(B) improvements in such methodology.

(2) Elements to be studied

In conducting such review, the National Academy of Sciences should consider, but not be limited to, the following—

(A) the techniques used for estimating and describing the carcinogenic potency to humans of hazardous air pollutants; and

(B) the techniques used for estimating exposure to hazardous air pollutants (for hypothetical and actual maximally exposed individuals as well as other exposed individuals).

(3) Other health effects of concern

To the extent practicable, the Academy shall evaluate and report on the methodology for assessing the risk of adverse human health effects other than cancer for which safe thresholds of exposure may not exist, including, but not limited to, inheritable genetic mutations, birth defects, and reproductive dysfunctions.

(4) Report

A report on the results of such review shall be submitted to the Senate Committee on Environment and Public Works, the House Committee on Energy and Commerce, the Risk Assessment and Management Commission established by section 303 of the Clean Air Act Amendments of 1990 and the Administrator not later than 30 months after November 15, 1990.

(5) Assistance

The Administrator shall assist the Academy in gathering any information the Academy deems necessary to carry out this subsection. The Administrator may use any authority under this chapter to obtain information from any person, and to require any person to conduct tests, keep and produce records, and make reports respecting research or other activities conducted by such person as necessary to carry out this subsection.

(6) Authorization

Of the funds authorized to be appropriated to the Administrator by this chapter, such amounts as are required shall be available to carry out this subsection.

(7) Guidelines for carcinogenic risk assessment

The Administrator shall consider, but need not adopt, the recommendations contained in the report of the National Academy of Sciences prepared pursuant to this subsection and the views of the Science Advisory Board, with respect to such report. Prior to the promulgation of any standard under subsection (f) of this section, and after notice and opportunity for comment, the Administrator shall publish revised Guidelines for Carcinogenic

[3] So in original. Probably should be ''section''.

Risk Assessment or a detailed explanation of the reasons that any recommendations contained in the report of the National Academy of Sciences will not be implemented. The publication of such revised Guidelines shall be a final Agency action for purposes of section 7607 of this title.

(p) Mickey Leland National Urban Air Toxics Research Center

(1) Establishment

The Administrator shall oversee the establishment of a National Urban Air Toxics Research Center, to be located at a university, a hospital, or other facility capable of undertaking and maintaining similar research capabilities in the areas of epidemiology, oncology, toxicology, pulmonary medicine, pathology, and biostatistics. The center shall be known as the Mickey Leland National Urban Air Toxics Research Center. The geographic site of the National Urban Air Toxics Research Center should be further directed to Harris County, Texas, in order to take full advantage of the well developed scientific community presence on-site at the Texas Medical Center as well as the extensive data previously compiled for the comprehensive monitoring system currently in place.

(2) Board of Directors

The National Urban Air Toxics Research Center shall be governed by a Board of Directors to be comprised of 9 members, the appointment of which shall be allocated pro rata among the Speaker of the House, the Majority Leader of the Senate and the President. The members of the Board of Directors shall be selected based on their respective academic and professional backgrounds and expertise in matters relating to public health, environmental pollution and industrial hygiene. The duties of the Board of Directors shall be to determine policy and research guidelines, submit views from center sponsors and the public and issue periodic reports of center findings and activities.

(3) Scientific Advisory Panel

The Board of Directors shall be advised by a Scientific Advisory Panel, the 13 members of which shall be appointed by the Board, and to include eminent members of the scientific and medical communities. The Panel membership may include scientists with relevant experience from the National Institute of Environmental Health Sciences, the Center for Disease Control, the Environmental Protection Agency, the National Cancer Institute, and others, and the Panel shall conduct peer review and evaluate research results. The Panel shall assist the Board in developing the research agenda, reviewing proposals and applications, and advise on the awarding of research grants.

(4) Funding

The center shall be established and funded with both Federal and private source funds.

(q) Savings provision

(1) Standards previously promulgated

Any standard under this section in effect before the date of enactment of the Clean Air Act Amendments of 1990 [November 15, 1990] shall remain in force and effect after such date unless modified as provided in this section before the date of enactment of such Amendments or under such Amendments. Except as provided in paragraph (4), any standard under this section which has been promulgated, but has not taken effect, before such date shall not be affected by such Amendments unless modified as provided in this section before such date or under such Amendments. Each such standard shall be reviewed and, if appropriate, revised, to comply with the requirements of subsection (d) of this section within 10 years after the date of enactment of the Clean Air Act Amendments of 1990. If a timely petition for review of any such standard under section 7607 of this title is pending on such date of enactment, the standard shall be upheld if it complies with this section as in effect before that date. If any such standard is remanded to the Administrator, the Administrator may in the Administrator's discretion apply either the requirements of this section, or those of this section as in effect before the date of enactment of the Clean Air Act Amendments of 1990.

(2) Special rule

Notwithstanding paragraph (1), no standard shall be established under this section, as amended by the Clean Air Act Amendments of 1990, for radionuclide emissions from (A) elemental phosphorous plants, (B) grate calcination elemental phosphorous plants, (C) phosphogypsum stacks, or (D) any subcategory of the foregoing. This section, as in effect prior to the date of enactment of the Clean Air Act Amendments of 1990 [November 15, 1990], shall remain in effect for radionuclide emissions from such plants and stacks.

(3) Other categories

Notwithstanding paragraph (1), this section, as in effect prior to the date of enactment of the Clean Air Act Amendments of 1990 [November 15, 1990], shall remain in effect for radionuclide emissions from non-Department of Energy Federal facilities that are not licensed by the Nuclear Regulatory Commission, coal-fired utility and industrial boilers, underground uranium mines, surface uranium mines, and disposal of uranium mill tailings piles, unless the Administrator, in the Administrator's discretion, applies the requirements of this section as modified by the Clean Air Act Amendments of 1990 to such sources of radionuclides.

(4) Medical facilities

Notwithstanding paragraph (1), no standard promulgated under this section prior to November 15, 1990, with respect to medical research or treatment facilities shall take effect for two years following November 15, 1990, unless the Administrator makes a determination pursuant to a rulemaking under subsection (d)(9) of this section. If the Administrator determines that the regulatory program established by the Nuclear Regulatory Commission for such facilities does not provide an ample margin of safety to protect public health, the

requirements of this section shall fully apply to such facilities. If the Administrator determines that such regulatory program does provide an ample margin of safety to protect the public health, the Administrator is not required to promulgate a standard under this section for such facilities, as provided in subsection (d)(9) of this section.

(r) Prevention of accidental releases

(1) Purpose and general duty

It shall be the objective of the regulations and programs authorized under this subsection to prevent the accidental release and to minimize the consequences of any such release of any substance listed pursuant to paragraph (3) or any other extremely hazardous substance. The owners and operators of stationary sources producing, processing, handling or storing such substances have a general duty in the same manner and to the same extent as section 654 of title 29 to identify hazards which may result from such releases using appropriate hazard assessment techniques, to design and maintain a safe facility taking such steps as are necessary to prevent releases, and to minimize the consequences of accidental releases which do occur. For purposes of this paragraph, the provisions of section 7604 of this title shall not be available to any person or otherwise be construed to be applicable to this paragraph. Nothing in this section shall be interpreted, construed, implied or applied to create any liability or basis for suit for compensation for bodily injury or any other injury or property damages to any person which may result from accidental releases of such substances.

(2) Definitions

(A) The term ''accidental release'' means an unanticipated emission of a regulated substance or other extremely hazardous substance into the ambient air from a stationary source.

(B) The term ''regulated substance'' means a substance listed under paragraph (3).

(C) The term ''stationary source'' means any buildings, structures, equipment, installations or substance emitting stationary activities (i) which belong to the same industrial group, (ii) which are located on one or more contiguous properties, (iii) which are under the control of the same person (or persons under common control), and (iv) from which an accidental release may occur.

(D) The term ''retail facility'' means a stationary source at which more than one-half of the income is obtained from direct sales to end users or at which more than one-half of the fuel sold, by volume, is sold through a cylinder exchange program.

(3) List of substances

The Administrator shall promulgate not later than 24 months after November 15, 1990, an initial list of 100 substances which, in the case of an accidental release, are known to cause or may reasonably be anticipated to cause death, injury, or serious adverse effects to human health or the environment. For purposes of promulgating such list, the Administrator shall use, but is not limited to, the list of extremely hazardous substances published under the Emergency Planning and Community Right-to-Know Act of 1986 [42 U.S.C. 11001 et seq.], with such modifications as the Administrator deems appropriate. The initial list shall include chlorine, anhydrous ammonia, methyl chloride, ethylene oxide, vinyl chloride, methyl isocyanate, hydrogen cyanide, ammonia, hydrogen sulfide, toluene diisocyanate, phosgene, bromine, anhydrous hydrogen chloride, hydrogen fluoride, anhydrous sulfur dioxide, and sulfur trioxide. The initial list shall include at least 100 substances which pose the greatest risk of causing death, injury, or serious adverse effects to human health or the environment from accidental releases. Regulations establishing the list shall include an explanation of the basis for establishing the list. The list may be revised from time to time by the Administrator on the Administrator's own motion or by petition and shall be reviewed at least every 5 years. No air pollutant for which a national primary ambient air quality standard has been established shall be included on any such list. No substance, practice, process, or activity regulated under subchapter VI of this chapter shall be subject to regulations under this subsection. The Administrator shall establish procedures for the addition and deletion of substances from the list established under this paragraph consistent with those applicable to the list in subsection (b) of this section.

(4) Factors to be considered

In listing substances under paragraph (3), the Administrator—

(A) shall consider—

(i) the severity of any acute adverse health effects associated with accidental releases of the substance;

(ii) the likelihood of accidental releases of the substance; and

(iii) the potential magnitude of human exposure to accidental releases of the substance; and

(B) shall not list a flammable substance when used as a fuel or held for sale as a fuel at a retail facility under this subsection solely because of the explosive or flammable properties of the substance, unless a fire or explosion caused by the substance will result in acute adverse health effects from human exposure to the substance, including the unburned fuel or its combustion byproducts, other than those caused by the heat of the fire or impact of the explosion.

(5) Threshold quantity

At the time any substance is listed pursuant to paragraph (3), the Administrator shall establish by rule, a threshold quantity for the substance, taking into account the toxicity, reactivity, volatility, dispersibility, combustibility, or flammability of the substance and the amount of the substance which, as a result of an accidental release, is known to cause or may reasonably be anticipated to cause death, injury or serious adverse effects to human health for which the substance was listed. The Administrator is authorized to establish a

greater threshold quantity for, or to exempt entirely, any substance that is a nutrient used in agriculture when held by a farmer.

(6) Chemical Safety Board

(A) There is hereby established an independent safety board to be known as the Chemical Safety and Hazard Investigation Board.

(B) The Board shall consist of 5 members, including a Chairperson, who shall be appointed by the President, by and with the advice and consent of the Senate. Members of the Board shall be appointed on the basis of technical qualification, professional standing, and demonstrated knowledge in the fields of accident reconstruction, safety engineering, human factors, toxicology, or air pollution regulation. The terms of office of members of the Board shall be 5 years. Any member of the Board, including the Chairperson, may be removed for inefficiency, neglect of duty, or malfeasance in office. The Chairperson shall be the Chief Executive Officer of the Board and shall exercise the executive and administrative functions of the Board.

(C) The Board shall—

(i) investigate (or cause to be investigated), determine and report to the public in writing the facts, conditions, and circumstances and the cause or probable cause of any accidental release resulting in a fatality, serious injury or substantial property damages;

(ii) issue periodic reports to the Congress, Federal, State and local agencies, including the Environmental Protection Agency and the Occupational Safety and Health Administration, concerned with the safety of chemical production, processing, handling and storage, and other interested persons recommending measures to reduce the likelihood or the consequences of accidental releases and proposing corrective steps to make chemical production, processing, handling and storage as safe and free from risk of injury as is possible and may include in such reports proposed rules or orders which should be issued by the Administrator under the authority of this section or the Secretary of Labor under the Occupational Safety and Health Act [29 U.S.C. 651 et seq.] to prevent or minimize the consequences of any release of substances that may cause death, injury or other serious adverse effects on human health or substantial property damage as the result of an accidental release; and

(iii) establish by regulation requirements binding on persons for reporting accidental releases into the ambient air subject to the Board's investigatory jurisdiction. Reporting releases to the National Response Center, in lieu of the Board directly, shall satisfy such regulations. The National Response Center shall promptly notify the Board of any releases which are within the Board's jurisdiction.

(D) The Board may utilize the expertise and experience of other agencies.

(E) The Board shall coordinate its activities with investigations and studies conducted by other agencies of the United States having a responsibility to protect public health and safety. The Board shall enter into a memorandum of understanding with the National Transportation Safety Board to assure coordination of functions and to limit duplication of activities which shall designate the National Transportation Safety Board as the lead agency for the investigation of releases which are transportation related. The Board shall not be authorized to investigate marine oil spills, which the National Transportation Safety Board is authorized to investigate. The Board shall enter into a memorandum of understanding with the Occupational Safety and Health Administration so as to limit duplication of activities. In no event shall the Board forego an investigation where an accidental release causes a fatality or serious injury among the general public, or had the potential to cause substantial property damage or a number of deaths or injuries among the general public.

(F) The Board is authorized to conduct research and studies with respect to the potential for accidental releases, whether or not an accidental release has occurred, where there is evidence which indicates the presence of a potential hazard or hazards. To the extent practicable, the Board shall conduct such studies in cooperation with other Federal agencies having emergency response authorities, State and local governmental agencies and associations and organizations from the industrial, commercial, and nonprofit sectors.

(G) No part of the conclusions, findings, or recommendations of the Board relating to any accidental release or the investigation thereof shall be admitted as evidence or used in any action or suit for damages arising out of any matter mentioned in such report.

(H) Not later than 18 months after November 15, 1990, the Board shall publish a report accompanied by recommendations to the Administrator on the use of hazard assessments in preventing the occurrence and minimizing the consequences of accidental releases of extremely hazardous substances. The recommendations shall include a list of extremely hazardous substances which are not regulated substances (including threshold quantities for such substances) and categories of stationary sources for which hazard assessments would be an appropriate measure to aid in the prevention of accidental releases and to minimize the consequences of those releases that do occur. The recommendations shall also include a description of the information and analysis which would be appropriate to include in any hazard assessment. The Board shall also make recommendations with respect to the role of risk management plans as required by paragraph (8)(B)[4] in preventing accidental releases. The Board may from time to time review and revise its recommendations under this subparagraph.

(I) Whenever the Board submits a recommendation with respect to accidental releases to the Administrator, the Adminis-

[4] So in original. Probably should be paragraph ''(7)(B)''.

trator shall respond to such recommendation formally and in writing not later than 180 days after receipt thereof. The response to the Board's recommendation by the Administrator shall indicate whether the Administrator will—

(i) initiate a rulemaking or issue such orders as are necessary to implement the recommendation in full or in part, pursuant to any timetable contained in the recommendation;

(ii) decline to initiate a rulemaking or issue orders as recommended.

Any determination by the Administrator not to implement a recommendation of the Board or to implement a recommendation only in part, including any variation from the schedule contained in the recommendation, shall be accompanied by a statement from the Administrator setting forth the reasons for such determination.

(J) The Board may make recommendations with respect to accidental releases to the Secretary of Labor. Whenever the Board submits such recommendation, the Secretary shall respond to such recommendation formally and in writing not later than 180 days after receipt thereof. The response to the Board's recommendation by the Administrator shall indicate whether the Secretary will—

(i) initiate a rulemaking or issue such orders as are necessary to implement the recommendation in full or in part, pursuant to any timetable contained in the recommendation;

(ii) decline to initiate a rulemaking or issue orders as recommended.

Any determination by the Secretary not to implement a recommendation or to implement a recommendation only in part, including any variation from the schedule contained in the recommendation, shall be accompanied by a statement from the Secretary setting forth the reasons for such determination.

(K) Within 2 years after November 15, 1990, the Board shall issue a report to the Administrator of the Environmental Protection Agency and to the Administrator of the Occupational Safety and Health Administration recommending the adoption of regulations for the preparation of risk management plans and general requirements for the prevention of accidental releases of regulated substances into the ambient air (including recommendations for listing substances under paragraph (3)) and for the mitigation of the potential adverse effect on human health or the environment as a result of accidental releases which should be applicable to any stationary source handling any regulated substance in more than threshold amounts. The Board may include proposed rules or orders which should be issued by the Administrator under authority of this subsection or by the Secretary of Labor under the Occupational Safety and Health Act [29 U.S.C. 651 et seq.]. Any such recommendations shall be specific and shall identify the regulated substance or class of regulated substances (or other substances) to which the recommendations apply. The Administrator shall consider such recommendations before promulgating regulations required by paragraph (7)(B).

(L) The Board, or upon authority of the Board, any member thereof, any administrative law judge employed by or assigned to the Board, or any officer or employee duly designated by the Board, may for the purpose of carrying out duties authorized by subparagraph (C)—

(i) hold such hearings, sit and act at such times and places, administer such oaths, and require by subpoena or otherwise attendance and testimony of such witnesses and the production of evidence and may require by order that any person engaged in the production, processing, handling, or storage of extremely hazardous substances submit written reports and responses to requests and questions within such time and in such form as the Board may require; and

(ii) upon presenting appropriate credentials and a written notice of inspection authority, enter any property where an accidental release causing a fatality, serious injury or substantial property damage has occurred and do all things therein necessary for a proper investigation pursuant to subparagraph (C) and inspect at reasonable times records, files, papers, processes, controls, and facilities and take such samples as are relevant to such investigation.

Whenever the Administrator or the Board conducts an inspection of a facility pursuant to this subsection, employees and their representatives shall have the same rights to participate in such inspections as provided in the Occupational Safety and Health Act [29 U.S.C. 651 et seq.].

(M) In addition to that described in subparagraph (L), the Board may use any information gathering authority of the Administrator under this chapter, including the subpoena power provided in section 7607(a)(1) of this title.

(N) The Board is authorized to establish such procedural and administrative rules as are necessary to the exercise of its functions and duties. The Board is authorized without regard to section 5 of title 41 to enter into contracts, leases, cooperative agreements or other transactions as may be necessary in the conduct of the duties and functions of the Board with any other agency, institution, or person.

(O) After the effective date of any reporting requirement promulgated pursuant to subparagraph (C)(iii) it shall be unlawful for any person to fail to report any release of any extremely hazardous substance as required by such subparagraph. The Administrator is authorized to enforce any regulation or requirements established by the Board pursuant to subparagraph (C)(iii) using the authorities of sections 7413 and 7414 of this title. Any request for information from the owner or operator of a stationary source made by the Board or by the Administrator under this section shall be treated, for purposes of sections 7413, 7414, 7416, 7420, 7603, 7604 and 7607 of this title and any other enforcement provisions of this chapter, as a request made by the Administrator under section 7414 of this title and may be en-

forced by the Chairperson of the Board or by the Administrator as provided in such section.

(P) The Administrator shall provide to the Board such support and facilities as may be necessary for operation of the Board.

(Q) Consistent with subsection[5] (G) and section 7414(c) of this title any records, reports or information obtained by the Board shall be available to the Administrator, the Secretary of Labor, the Congress and the public, except that upon a showing satisfactory to the Board by any person that records, reports, or information, or particular part thereof (other than release or emissions data) to which the Board has access, if made public, is likely to cause substantial harm to the person's competitive position, the Board shall consider such record, report, or information or particular portion thereof confidential in accordance with section 1905 of title 18, except that such record, report, or information may be disclosed to other officers, employees, and authorized representatives of the United States concerned with carrying out this chapter or when relevant under any proceeding under this chapter. This subparagraph does not constitute authority to withhold records, reports, or information from the Congress.

(R) Whenever the Board submits or transmits any budget estimate, budget request, supplemental budget request, or other budget information, legislative recommendation, prepared testimony for congressional hearings, recommendation or study to the President, the Secretary of Labor, the Administrator, or the Director of the Office of Management and Budget, it shall concurrently transmit a copy thereof to the Congress. No report of the Board shall be subject to review by the Administrator or any Federal agency or to judicial review in any court. No officer or agency of the United States shall have authority to require the Board to submit its budget requests or estimates, legislative recommendations, prepared testimony, comments, recommendations or reports to any officer or agency of the United States for approval or review prior to the submission of such recommendations, testimony, comments or reports to the Congress. In the performance of their functions as established by this chapter, the members, officers and employees of the Board shall not be responsible to or subject to supervision or direction, in carrying out any duties under this subsection, of any officer or employee or agent of the Environmental Protection Agency, the Department of Labor or any other agency of the United States except that the President may remove any member, officer or employee of the Board for inefficiency, neglect of duty or malfeasance in office. Nothing in this section shall affect the application of title 5 to officers or employees of the Board.

(S) The Board shall submit an annual report to the President and to the Congress which shall include, but not be limited to, information on accidental releases which have been investigated by or reported to the Board during the previous year, recommendations for legislative or administrative action which the Board has made, the actions which have been taken by the Administrator or the Secretary of Labor or the heads of other agencies to implement such recommendations, an identification of priorities for study and investigation in the succeeding year, progress in the development of risk-reduction technologies and the response to and implementation of significant research findings on chemical safety in the public and private sector.

(7) Accident prevention

(A) In order to prevent accidental releases of regulated substances, the Administrator is authorized to promulgate release prevention, detection, and correction requirements which may include monitoring, record-keeping, reporting, training, vapor recovery, secondary containment, and other design, equipment, work practice, and operational requirements. Regulations promulgated under this paragraph may make distinctions between various types, classes, and kinds of facilities, devices and systems taking into consideration factors including, but not limited to, the size, location, process, process controls, quantity of substances handled, potency of substances, and response capabilities present at any stationary source. Regulations promulgated pursuant to this subparagraph shall have an effective date, as determined by the Administrator, assuring compliance as expeditiously as practicable.

(B)(i) Within 3 years after November 15, 1990, the Administrator shall promulgate reasonable regulations and appropriate guidance to provide, to the greatest extent practicable, for the prevention and detection of accidental releases of regulated substances and for response to such releases by the owners or operators of the sources of such releases. The Administrator shall utilize the expertise of the Secretaries of Transportation and Labor in promulgating such regulations. As appropriate, such regulations shall cover the use, operation, repair, replacement, and maintenance of equipment to monitor, detect, inspect, and control such releases, including training of persons in the use and maintenance of such equipment and in the conduct of periodic inspections. The regulations shall include procedures and measures for emergency response after an accidental release of a regulated substance in order to protect human health and the environment. The regulations shall cover storage, as well as operations. The regulations shall, as appropriate, recognize differences in size, operations, processes, class and categories of sources and the voluntary actions of such sources to prevent such releases and respond to such releases. The regulations shall be applicable to a stationary source 3 years after the date of promulgation, or 3 years after the date on which a regulated substance present at the source in more than threshold amounts is first listed under paragraph (3), whichever is later.

(ii) The regulations under this subparagraph shall require the owner or operator of stationary sources at which a regulated sub-

[5] So in original. Probably should be ''subparagraph''.

stance is present in more than a threshold quantity to prepare and implement a risk management plan to detect and prevent or minimize accidental releases of such substances from the stationary source, and to provide a prompt emergency response to any such releases in order to protect human health and the environment. Such plan shall provide for compliance with the requirements of this subsection and shall also include each of the following:

(I) a hazard assessment to assess the potential effects of an accidental release of any regulated substance. This assessment shall include an estimate of potential release quantities and a determination of downwind effects, including potential exposures to affected populations. Such assessment shall include a previous release history of the past 5 years, including the size, concentration, and duration of releases, and shall include an evaluation of worst case accidental releases;

(II) a program for preventing accidental releases of regulated substances, including safety precautions and maintenance, monitoring and employee training measures to be used at the source; and

(III) a response program providing for specific actions to be taken in response to an accidental release of a regulated substance so as to protect human health and the environment, including procedures for informing the public and local agencies responsible for responding to accidental releases, emergency health care, and employee training measures.

At the time regulations are promulgated under this subparagraph, the Administrator shall promulgate guidelines to assist stationary sources in the preparation of risk management plans. The guidelines shall, to the extent practicable, include model risk management plans.

(iii) The owner or operator of each stationary source covered by clause (ii) shall register a risk management plan prepared under this subparagraph with the Administrator before the effective date of regulations under clause (i) in such form and manner as the Administrator shall, by rule, require. Plans prepared pursuant to this subparagraph shall also be submitted to the Chemical Safety and Hazard Investigation Board, to the State in which the stationary source is located, and to any local agency or entity having responsibility for planning for or responding to accidental releases which may occur at such source, and shall be available to the public under section 7414(c) of this title. The Administrator shall establish, by rule, an auditing system to regularly review and, if necessary, require revision in risk management plans to assure that the plans comply with this subparagraph. Each such plan shall be updated periodically as required by the Administrator, by rule.

(C) Any regulations promulgated pursuant to this subsection shall to the maximum extent practicable, consistent with this subsection, be consistent with the recommendations and standards established by the American Society of Mechanical Engineers (ASME), the American National Standards Institute (ANSI) or the American Society of Testing Materials (ASTM). The Administrator shall take into consideration the concerns of small business in promulgating regulations under this subsection.

(D) In carrying out the authority of this paragraph, the Administrator shall consult with the Secretary of Labor and the Secretary of Transportation and shall coordinate any requirements under this paragraph with any requirements established for comparable purposes by the Occupational Safety and Health Administration or the Department of Transportation. Nothing in this subsection shall be interpreted, construed or applied to impose requirements affecting, or to grant the Administrator, the Chemical Safety and Hazard Investigation Board, or any other agency any authority to regulate (including requirements for hazard assessment), the accidental release of radionuclides arising from the construction and operation of facilities licensed by the Nuclear Regulatory Commission.

(E) After the effective date of any regulation or requirement imposed under this subsection, it shall be unlawful for any person to operate any stationary source subject to such regulation or requirement in violation of such regulation or requirement. Each regulation or requirement under this subsection shall for purposes of sections 7413, 7414, 7416, 7420, 7604, and 7607 of this title and other enforcement provisions of this chapter, be treated as a standard in effect under subsection (d) of this section.

(F) Notwithstanding the provisions of subchapter V of this chapter or this section, no stationary source shall be required to apply for, or operate pursuant to, a permit issued under such subchapter solely because such source is subject to regulations or requirements under this subsection.

(G) In exercising any authority under this subsection, the Administrator shall not, for purposes of section 653(b)(1) of title 29, be deemed to be exercising statutory authority to prescribe or enforce standards or regulations affecting occupational safety and health.

(H) PUBLIC ACCESS TO OFF-SITE CONSEQUENCE ANALYSIS INFORMATION.—

(i) DEFINITIONS.—In this subparagraph:

(I) COVERED PERSON.—The term ''covered person'' means—

(aa) an officer or employee of the United States;

(bb) an officer or employee of an agent or contractor of the Federal Government;

(cc) an officer or employee of a State or local government;

(dd) an officer or employee of an agent or contractor of a State or local government;

(ee) an individual affiliated with an entity that has been given, by a State or local government, responsibility for preventing, planning for, or responding to accidental releases;

(ff) an officer or employee or an agent or contractor of an entity described in item (ee); and

(gg) a qualified researcher under clause (vii).

(II) OFFICIAL USE.—The term ''official use'' means an action of a Federal, State, or local government agency or an entity referred to in subclause (I)(ee) intended to carry out a function relevant to preventing, planning for, or responding to accidental releases.

(III) OFF-SITE CONSEQUENCE ANALYSIS INFORMATION.—The term ''off-site consequence analysis information'' means those portions of a risk management plan, excluding the executive summary of the plan, consisting of an evaluation of 1 or more worst-case release scenarios or alternative release scenarios, and any electronic data base created by the Administrator from those portions.

(IV) RISK MANAGEMENT PLAN.—The term ''risk management plan'' means a risk management plan submitted to the Administrator by an owner or operator of a stationary source under subparagraph (B)(iii).

(ii) REGULATIONS.—Not later than 1 year after August 5, 1999, the President shall—

(I) assess—

(aa) the increased risk of terrorist and other criminal activity associated with the posting of off-site consequence analysis information on the Internet; and

(bb) the incentives created by public disclosure of off-site consequence analysis information for reduction in the risk of accidental releases; and

(II) based on the assessment under subclause (I), promulgate regulations governing the distribution of off-site consequence analysis information in a manner that, in the opinion of the President, minimizes the likelihood of accidental releases and the risk described in subclause (I)(aa) and the likelihood of harm to public health and welfare, and—

(aa) allows access by any member of the public to paper copies of off-site consequence analysis information for a limited number of stationary sources located anywhere in the United States, without any geographical restriction;

(bb) allows other public access to off-site consequence analysis information as appropriate;

(cc) allows access for official use by a covered person described in any of items (cc) through (ff) of clause (i)(I) (referred to in this subclause as a ''State or local covered person'') to off-site consequence analysis information relating to stationary sources located in the person's State;

(dd) allows a State or local covered person to provide, for official use, off-site consequence analysis information relating to stationary sources located in the person's State to a State or local covered person in a contiguous State; and

(ee) allows a State or local covered person to obtain for official use, by request to the Administrator, off-site consequence analysis information that is not available to the person under item (cc).

(iii) AVAILABILITY UNDER FREEDOM OF INFORMATION ACT.—

(I) FIRST YEAR.—Off-site consequence analysis information, and any ranking of stationary sources derived from the information, shall not be made available under section 552 of title 5 during the 1-year period beginning on August 5, 1999.

(II) AFTER FIRST YEAR.—If the regulations under clause (ii) are promulgated on or before the end of the period described in subclause (I), off-site consequence analysis information covered by the regulations, and any ranking of stationary sources derived from the information, shall not be made available under section 552 of title 5 after the end of that period.

(III) APPLICABILITY.—Subclauses (I) and (II) apply to off-site consequence analysis information submitted to the Administrator before, on, or after August 5, 1999.

(iv) AVAILABILITY OF INFORMATION DURING TRANSITION PERIOD.—The Administrator shall make off-site consequence analysis information available to covered persons for official use in a manner that meets the requirements of items (cc) through (ee) of clause (ii)(II), and to the public in a form that does not make available any information concerning the identity or location of stationary sources, during the period—

(I) beginning on August 5, 1999; and

(II) ending on the earlier of the date of promulgation of the regulations under clause (ii) or the date that is 1 year after August 5, 1999.

(v) PROHIBITION ON UNAUTHORIZED DISCLOSURE OF INFORMATION BY COVERED PERSONS.—

(I) IN GENERAL.—Beginning on August 5, 1999, a covered person shall not disclose to the public off-site consequence analysis information in any form, or any statewide or national ranking of identified stationary sources derived from such information, except as authorized by this subparagraph (including the regulations promulgated under clause (ii)). After the end of the 1-year period beginning on August 5, 1999, if regulations have not been promulgated under clause (ii), the preceding sentence shall not apply.

(II) CRIMINAL PENALTIES.—Notwithstanding section 7413 of this title, a covered person that willfully violates a restriction or prohibition established by this subparagraph (including the regulations promulgated under clause (ii)) shall, upon conviction, be fined for an infraction under section 3571 of title 18 (but shall not be subject to imprisonment) for each unauthorized disclosure of off-site consequence analysis information, except that subsection (d) of such section 3571 shall not apply to a case in which the offense results in pecuniary loss unless the defendant knew that such loss would occur. The dis-

closure of off-site consequence analysis information for each specific stationary source shall be considered a separate offense. The total of all penalties that may be imposed on a single person or organization under this item shall not exceed $1,000,000 for violations committed during any 1 calendar year.

(III) APPLICABILITY.—If the owner or operator of a stationary source makes off-site consequence analysis information relating to that stationary source available to the public without restriction—

(aa) subclauses (I) and (II) shall not apply with respect to the information; and

(bb) the owner or operator shall notify the Administrator of the public availability of the information.

(IV) LIST.—The Administrator shall maintain and make publicly available a list of all stationary sources that have provided notification under subclause (III)(bb).

(vi) NOTICE.—The Administrator shall provide notice of the definition of official use as provided in clause (i)(III) and examples of actions that would and would not meet that definition, and notice of the restrictions on further dissemination and the penalties established by this chapter to each covered person who receives off-site consequence analysis information under clause (iv) and each covered person who receives off-site consequence analysis information for an official use under the regulations promulgated under clause (ii).

(vii) QUALIFIED RESEARCHERS.—

(I) IN GENERAL.—Not later than 180 days after August 5, 1999, the Administrator, in consultation with the Attorney General, shall develop and implement a system for providing off-site consequence analysis information, including facility identification, to any qualified researcher, including a qualified researcher from industry or any public interest group.

(II) LIMITATION ON DISSEMINATION.—The system shall not allow the researcher to disseminate, or make available on the Internet, the off-site consequence analysis information, or any portion of the off-site consequence analysis information, received under this clause.

(viii) READ-ONLY INFORMATION TECHNOLOGY SYSTEM.—In consultation with the Attorney General and the heads of other appropriate Federal agencies, the Administrator shall establish an information technology system that provides for the availability to the public of off-site consequence analysis information by means of a central data base under the control of the Federal Government that contains information that users may read, but that provides no means by which an electronic or mechanical copy of the information may be made.

(ix) VOLUNTARY INDUSTRY ACCIDENT PREVENTION STANDARDS.—The Environmental Protection Agency, the Department of Justice, and other appropriate agencies may provide technical assistance to owners and operators of stationary sources and participate in the development of voluntary industry standards that will help achieve the objectives set forth in paragraph (1).

(x) EFFECT ON STATE OR LOCAL LAW.—

(I) IN GENERAL.—Subject to subclause (II), this subparagraph (including the regulations promulgated under this subparagraph) shall supersede any provision of State or local law that is inconsistent with this subparagraph (including the regulations).

(II) AVAILABILITY OF INFORMATION UNDER STATE LAW.—Nothing in this subparagraph precludes a State from making available data on the off-site consequences of chemical releases collected in accordance with State law.

(xi) REPORT.—

(I) IN GENERAL.—Not later than 3 years after August 5, 1999, the Attorney General, in consultation with appropriate State, local, and Federal Government agencies, affected industry, and the public, shall submit to Congress a report that describes the extent to which regulations promulgated under this paragraph have resulted in actions, including the design and maintenance of safe facilities, that are effective in detecting, preventing, and minimizing the consequences of releases of regulated substances that may be caused by criminal activity. As part of this report, the Attorney General, using available data to the extent possible, and a sampling of covered stationary sources selected at the discretion of the Attorney General, and in consultation with appropriate State, local, and Federal governmental agencies, affected industry, and the public, shall review the vulnerability of covered stationary sources to criminal and terrorist activity, current industry practices regarding site security, and security of transportation of regulated substances. The Attorney General shall submit this report, containing the results of the review, together with recommendations, if any, for reducing vulnerability of covered stationary sources to criminal and terrorist activity, to the Committee on Commerce of the United States House of Representatives and the Committee on Environment and Public Works of the United States Senate and other relevant committees of Congress.

(II) INTERIM REPORT.—Not later than 12 months after August 5, 1999, the Attorney General shall submit to the Committee on Commerce of the United States House of Representatives and the Committee on Environment and Public Works of the United States Senate, and other relevant committees of Congress, an interim report that includes, at a minimum—

(aa) the preliminary findings under subclause (I);

(bb) the methods used to develop the findings; and

(cc) an explanation of the activities expected to occur that could cause the findings of the report under subclause (I) to be different than the preliminary findings.

(III) AVAILABILITY OF INFORMATION.—Information that is developed by the Attorney General or requested by the Attorney General and received from a covered stationary source for the purpose of conducting the review under subclauses (I) and (II) shall be exempt from disclosure under section 552 of title 5 if such information would pose a threat to national security.

(xii) SCOPE.—This subparagraph—

(I) applies only to covered persons; and

(II) does not restrict the dissemination of off-site consequence analysis information by any covered person in any manner or form except in the form of a risk management plan or an electronic data base created by the Administrator from off-site consequence analysis information.

(xiii) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator and the Attorney General such sums as are necessary to carry out this subparagraph (including the regulations promulgated under clause (ii)), to remain available until expended.

(8) Research on hazard assessments

The Administrator may collect and publish information on accident scenarios and consequences covering a range of possible events for substances listed under paragraph (3). The Administrator shall establish a program of long-term research to develop and disseminate information on methods and techniques for hazard assessment which may be useful in improving and validating the procedures employed in the preparation of hazard assessments under this subsection.

(9) Order authority

(A) In addition to any other action taken, when the Administrator determines that there may be an imminent and substantial endangerment to the human health or welfare or the environment because of an actual or threatened accidental release of a regulated substance, the Administrator may secure such relief as may be necessary to abate such danger or threat, and the district court of the United States in the district in which the threat occurs shall have jurisdiction to grant such relief as the public interest and the equities of the case may require. The Administrator may also, after notice to the State in which the stationary source is located, take other action under this paragraph including, but not limited to, issuing such orders as may be necessary to protect human health. The Administrator shall take action under section 7603 of this title rather than this paragraph whenever the authority of such section is adequate to protect human health and the environment.

(B) Orders issued pursuant to this paragraph may be enforced in an action brought in the appropriate United States district court as if the order were issued under section 7603 of this title.

(C) Within 180 days after November 15, 1990, the Administrator shall publish guidance for using the order authorities established by this paragraph. Such guidance shall provide for the coordinated use of the authorities of this paragraph with other emergency powers authorized by section 9606 of this title, sections 311(c), 308, 309 and 504(a) of the Federal Water Pollution Control Act [33 U.S.C. 1321(c), 1318, 1319, 1364(a)], sections 3007, 3008, 3013, and 7003 of the Solid Waste Disposal Act [42 U.S.C. 6927, 6928, 6934, 6973], sections 1445 and 1431 of the Safe Drinking Water Act [42 U.S.C. 300j–4, 300i], sections 5 and 7 of the Toxic Substances Control Act [15 U.S.C. 2604, 2606], and sections 7413, 7414, and 7603 of this title.

(10) Presidential review

The President shall conduct a review of release prevention, mitigation and response authorities of the various Federal agencies and shall clarify and coordinate agency responsibilities to assure the most effective and efficient implementation of such authorities and to identify any deficiencies in authority or resources which may exist. The President may utilize the resources and solicit the recommendations of the Chemical Safety and Hazard Investigation Board in conducting such review. At the conclusion of such review, but not later than 24 months after November 15, 1990, the President shall transmit a message to the Congress on the release prevention, mitigation and response activities of the Federal Government making such recommendations for change in law as the President may deem appropriate. Nothing in this paragraph shall be interpreted, construed or applied to authorize the President to modify or reassign release prevention, mitigation or response authorities otherwise established by law.

(11) State authority

Nothing in this subsection shall preclude, deny or limit any right of a State or political subdivision thereof to adopt or enforce any regulation, requirement, limitation or standard (including any procedural requirement) that is more stringent than a regulation, requirement, limitation or standard in effect under this subsection or that applies to a substance not subject to this subsection.

(s) Periodic report

Not later than January 15, 1993 and every 3 years thereafter, the Administrator shall prepare and transmit to the Congress a comprehensive report on the measures taken by the Agency and by the States to implement the provisions of this section. The Administrator shall maintain a database on pollutants and sources subject to the provisions of this section and shall include aggregate information from the database in each annual report. The report shall include, but not be limited to—

(1) a status report on standard-setting under subsections (d) and (f) of this section;

(2) information with respect to compliance with such standards including the costs of

compliance experienced by sources in various categories and subcategories;

(3) development and implementation of the national urban air toxics program; and

(4) recommendations of the Chemical Safety and Hazard Investigation Board with respect to the prevention and mitigation of accidental releases.

(July 14, 1955, ch. 360, title I, §112, as added Pub. L. 91–604, §4(a), Dec. 31, 1970, 84 Stat. 1685; amended Pub. L. 95–95, title I, §§109(d)(2), 110, title IV, §401(c), Aug. 7, 1977, 91 Stat. 701, 703, 791; Pub. L. 95–623, §13(b), Nov. 9, 1978, 92 Stat. 3458; Pub. L. 106–40, §§2, 3(a), Aug. 5, 1999, 113 Stat. 207, 208.)

REFERENCES IN TEXT

The date of enactment, referred to in subsec. (a)(11), probably means the date of enactment of Pub. L. 101–549, which amended this section generally and was approved Nov. 15, 1990.

The Atomic Energy Act, referred to in subsec. (d)(9), probably means the Atomic Energy Act of 1954, act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 921, and amended, which is classified generally to chapter 23 (§2011 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

The Federal Water Pollution Control Act, referred to in subsecs. (e)(5) and (m)(1)(D), (5)(D), is act June 30, 1948, ch. 758, as amended generally by Pub. L. 92–500, §2, Oct. 18, 1972, 86 Stat. 816, which is classified generally to chapter 26 (§1251 et seq.) of Title 33, Navigation and Navigable Waters. Title II of the Act is classified generally to subchapter II (§1281 et seq.) of chapter 26 of Title 33. For complete classification of this Act to the Code, see Short Title note set out under section 1251 of Title 33 and Tables.

The Toxic Substances Control Act, referred to in subsec. (k)(3)(C), is Pub. L. 94–469, Oct. 11, 1976, 90 Stat. 2003, as amended, which is classified generally to chapter 53 (§2601 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 15 and Tables.

The Federal Insecticide, Fungicide and Rodenticide Act, referred to in subsec. (k)(3)(C), probably means the Federal Insecticide, Fungicide, and Rodenticide Act, act June 25, 1947, ch. 125, as amended generally by Pub. L. 92–516, Oct. 21, 1972, 86 Stat. 973, which is classified generally to subchapter II (§136 et seq.) of chapter 6 of Title 7, Agriculture. For complete classification of this Act to the Code, see Short Title note set out under section 136 of Title 7 and Tables.

The Resource Conservation and Recovery Act, referred to in subsec. (k)(3)(C), probably means the Resource Conservation and Recovery Act of 1976, Pub. L. 94–580, Oct. 21, 1976, 90 Stat. 2796, as amended, which is classified generally to chapter 82 (§6901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title of 1976 Amendment note set out under section 6901 of this title and Tables.

The Safe Drinking Water Act, referred to in subsec. (m)(1)(D), (5)(D), is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, §2(a), 88 Stat. 1660, as amended, which is classified generally to subchapter XII (§300f et seq.) of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

The Solid Waste Disposal Act, referred to in subsec. (n)(7), is title II of Pub. L. 89–272, Oct. 20, 1965, 79 Stat. 997, as amended generally by Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2795. Subtitle C of the Act is classified generally to subchapter III (§6921 et seq.) of chapter 82 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6901 of this title and Tables.

Section 303 of the Clean Air Act Amendments of 1990, referred to in subsec. (*o*)(4), probably means section 303 of Pub. L. 101–549, which is set out below.

The Clean Air Act Amendments of 1990, referred to in subsec. (q)(1)–(3), probably means Pub. L. 101–549, Nov. 15, 1990, 104 Stat. 2399. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The Emergency Planning and Community Right-to-Know Act of 1986, referred to in subsec. (r)(3), is title III of Pub. L. 99–499, Oct. 17, 1986, 100 Stat. 1728, which is classified generally to chapter 116 (§11001 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 11001 of this title and Tables.

The Occupational Safety and Health Act, referred to in subsec. (r)(6)(C)(ii), (K), (L), probably means the Occupational Safety and Health Act of 1970, Pub. L. 91–596, Dec. 29, 1970, 84 Stat. 1590, as amended, which is classified principally to chapter 15 (§651 et seq.) of Title 29, Labor. For complete classification of this Act to the Code, see Short Title note set out under section 651 of Title 29 and Tables.

CODIFICATION

Section was formerly classified to section 1857c-7 of this title.

AMENDMENTS

1999—Subsec. (r)(2)(D). Pub. L. 106–40, §2(5), added subpar. (D).

Subsec. (r)(4). Pub. L. 106–40, §2, substituted ''Administrator—

''(A) shall consider—''

for ''Administrator shall consider each of the following criteria—'' in introductory provisions, redesignated subpars. (A) to (C) as cls. (i) to (iii), respectively, of subpar. (A) and added subpar. (B).

Subsec. (r)(7)(H). Pub. L. 106–40, §3(a), added subpar. (H).

1998—Subsec. (n)(2)(C). Pub. L. 105–362 substituted ''On completion of the study, the Secretary shall submit to Congress a report on the results of the study and'' for ''The Secretary shall prepare annual reports to Congress on the status of the research program and at the completion of the study''.

1991—Subsec. (b)(1). Pub. L. 102–187 struck out ''7783064 Hydrogen sulfide'' from list of pollutants.

1990—Pub. L. 101–549 amended section generally, substituting present provisions for provisions which related to: in subsec. (a), definitions; in subsec. (b), list of hazardous air pollutants, emission standards, and pollution control techniques; in subsec. (c), prohibited acts and exemption; in subsec. (d), State implementation and enforcement; and in subsec. (e), design, equipment, work practice, and operational standards.

1978—Subsec. (e)(5). Pub. L. 95–623 added par. (5).

1977—Subsec. (a)(1). Pub. L. 95–95, §401(c), substituted ''causes, or contributes to, air pollution which may reasonably be anticipated to result in an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness'' for ''may cause, or contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness''.

Subsec. (d)(1). Pub. L. 95–95, §109(d)(2), struck out ''(except with respect to stationary sources owned or operated by the United States)'' after ''implement and enforce such standards''.

Subsec. (e). Pub. L. 95–95, §110, added subsec. (e).

CHANGE OF NAME

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on

Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which reports required under subsecs. (m)(5), (r)(6)(C)(ii), and (s) of this section are listed, respectively, as the 8th item on page 162, the 9th item on page 198, and the 9th item on page 162), see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

PENDING ACTIONS AND PROCEEDINGS

Suits, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

DELEGATION OF AUTHORITY

Memorandum of President of the United States, Aug. 19, 1993, 58 F.R. 52397, provided:

Memorandum for the Administrator of the Environmental Protection Agency

WHEREAS, the Environmental Protection Agency, the agencies and departments that are members of the National Response Team (authorized under Executive Order No. 12580, 52 Fed. Reg. 2923 (1987) [42 U.S.C. 9615 note]), and other Federal agencies and departments undertake emergency release prevention, mitigation, and response activities pursuant to various authorities;

By the authority vested in me as President by the Constitution and the laws of the United States of America, including section 112(r)(10) of the Clean Air Act (the ''Act'') (section 7412(r)(10) of title 42 of the United States Code) and section 301 of title 3 of the United States Code, and in order to provide for the delegation of certain functions under the Act [42 U.S.C. 7401 et seq.], I hereby:

(1) Authorize you, in coordination with agencies and departments that are members of the National Response Team and other appropriate agencies and departments, to conduct a review of release prevention, mitigation, and response authorities of Federal agencies in order to assure the most effective and efficient implementation of such authorities and to identify any deficiencies in authority or resources that may exist, to the extent such review is required by section 112(r)(10) of the Act; and

(2) Authorize you, in coordination with agencies and departments that are members of the National Response Team and other appropriate agencies and departments, to prepare and transmit a message to the Congress concerning the release prevention, mitigation, and response activities of the Federal Government with such recommendations for change in law as you deem appropriate, to the extent such message is required by section 112(r)(10) of the Act.

The authority delegated by this memorandum may be further redelegated within the Environmental Protection Agency.

You are hereby authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

Memorandum of President of the United States, Jan. 27, 2000, 65 F.R. 8631, provided:

Memorandum for the Attorney General[,] the Administrator of the Environmental Protection Agency[, and] the Director of the Office of Management and Budget

By the authority vested in me as President by the Constitution and laws of the United States of America, including section 112(r)(7)(H) of the Clean Air Act (''Act'') (42 U.S.C. 7412(r)(7)(H)), as added by section 3 of the Chemical Safety Information, Site Security and Fuels Regulatory Relief Act (Public Law 106–40), and section 301 of title 3, United States Code, I hereby delegate to:

(1) the Attorney General the authority vested in the President under section 112(r)(7)(H)(ii)(I)(aa) of the Act to assess the increased risk of terrorist and other criminal activity associated with the posting of off-site consequence analysis information on the Internet;

(2) the Administrator of the Environmental Protection Agency (EPA) the authority vested in the President under section 112(r)(7)(H)(ii)(I)(bb) of the Act to assess the incentives created by public disclosure of off-site consequence analysis information for reduction in the risk of accidental releases; and

(3) the Attorney General and the Administrator of EPA, jointly, the authority vested in the President under section 112(r)(7)(H)(ii)(II) of the Act to promulgate regulations, based on these assessments, governing the distribution of off-site consequence analysis information. These regulations, in proposed and final form, shall be subject to review and approval by the Director of the Office of Management and Budget.

The Administrator of EPA is authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

REPORTS

Pub. L. 106–40, § 3(b), Aug. 5, 1999, 113 Stat. 213, provided that:

''(1) DEFINITION OF ACCIDENTAL RELEASE.—In this subsection, the term 'accidental release' has the meaning given the term in section 112(r)(2) of the Clean Air Act (42 U.S.C. 7412(r)(2)).

''(2) REPORT ON STATUS OF CERTAIN AMENDMENTS.—Not later than 2 years after the date of enactment of this Act [Aug. 5, 1999], the Comptroller General of the United States shall submit to Congress a report on the status of the development of amendments to the National Fire Protection Association Code for Liquefied Petroleum Gas that will result in the provision of information to local emergency response personnel concerning the off-site effects of accidental releases of substances exempted from listing under section 112(r)(4)(B) of the Clean Air Act (as added by section 3).

''(3) REPORT ON COMPLIANCE WITH CERTAIN INFORMATION SUBMISSION REQUIREMENTS.—Not later than 3 years after the date of enactment of this Act, the Comp-

troller General of the United States shall submit to Congress a report that—

''(A) describes the level of compliance with Federal and State requirements relating to the submission to local emergency response personnel of information intended to help the local emergency response personnel respond to chemical accidents or related environmental or public health threats; and

''(B) contains an analysis of the adequacy of the information required to be submitted and the efficacy of the methods for delivering the information to local emergency response personnel.''

REEVALUATION OF REGULATIONS

Pub. L. 106–40, §3(c), Aug. 5, 1999, 113 Stat. 213, provided that: ''The President shall reevaluate the regulations promulgated under this section within 6 years after the enactment of this Act [Aug. 5, 1999]. If the President determines not to modify such regulations, the President shall publish a notice in the Federal Register stating that such reevaluation has been completed and that a determination has been made not to modify the regulations. Such notice shall include an explanation of the basis of such decision.''

PUBLIC MEETING DURING MORATORIUM PERIOD

Pub. L. 106–40, §4, Aug. 5, 1999, 113 Stat. 214, provided that:
