

Today we thank
these outstanding organizations.

Some day your great,
great grandkids will too.

Congratulations to the 2003 ENERGY STAR® Award Winners for helping Americans prevent the greenhouse gas emissions equivalent to those of about 12 million cars and for protecting our environment for future generations. ENERGY STAR is a voluntary program administered by the U.S. Environmental Protection Agency and the U.S. Department of Energy, designed to help businesses and individuals protect the environment through superior energy efficiency.
