Additionally, active duty includes those members of the referenced branches in training or education under U. S. supervision preliminary to induction into the military service. The term "active duty" also includes the period during which a person in military service is absent from duty because of sickness, wounds, leave, or other lawful cause.

B Applicable Loans

CCC MAL's, warehouse and farm-stored, secured with personal or real property and entered into **before** the borrower entered active military service, affected by the Soldiers' and Sailors' Civil Relief Act of 1940 are for:

***--25 CCC-770 LDP/eLDP's and CCC-770 MAL's**

A Using CCC-770 LDP/eLDP's and CCC-770 MAL's

The Improper Payments Information Act of 2002 required each agency to:

- identify programs and activities susceptible to significant improper payments
- estimate the annual amount of improper payments and report that estimate to Congress
- report actions taken to reduce improper payments, including possible causes and a description of the steps in place to ensure accountability for reducing improper payments.

As a result of this mandate, it has been determined that CCC-770 LDP/eLDP's and CCC-770 MAL's will be used as tools to help minimize the number of improper payments.

It is not the intent that CCC-770 LDP/eLDP's and CCC-770 MAL's supersede or replace procedure. County Offices should use CCC-770 LDP/eLDP's and CCC-770 MAL's as reminders of the most frequent "erred" determinations/certifications when recording LDP's and MAL's in APSS or eLDP system.--*

25 CCC-770 LDP/eLDP's and CCC-770 MAL's (Continued)

- obtain CCC-770 LDP/eLDP or CCC-770 MAL (see Exhibits 6 and 13) at **<http://165.221.16.90/dam/ffasforms/currentforms.asp>**
- maintain a copy of CCC-770 LDP/eLDP or CCC-770 MAL in the producer's LDP or MAL folder.

The signature of the preparer certifies that each item necessary was completed. All employees that are directly involved with issuing each LDP or disbursing each MAL shall certify and date CCC-770 LDP/eLDP's or CCC-770 MAL's, as applicable.

A minor may be an eligible producer if **any** of the requirements in 1-CM are met.

100 Eligible Producer (Continued)**E Heirs of Deceased Producer**

An eligible producer may be an heir of a deceased producer, whether succession of interest occurs before or after harvest, when **all** of the following apply:

- succeeds to the beneficial interest of the deceased in the commodity, including purchase from other heirs

- produced the commodity
- evolved from the same individuals who produced the commodity.

***--G Hybrid Seed Contract Producer Eligibility**

When determining if a producer under a hybrid seed contract is eligible for MAL or LDP, the County Offices shall not take into consideration the existence of the hybrid seed contract when determining beneficial interest eligibility. However, all other MAL and LDP program requirements are applicable.

Note: The contract must specify that it is a hybrid seed contract and it must be for an eligible loan commodity.--*

101 Ineligible Producer

A Ineligibility

Ineligible producers are producers who:

- have **not** reported acreage on FSA-578 for the current crop year, according to 2-CP
Note: Acreage reports must be obtained before benefits are received.
- violate WC and HELC provisions, according to 6-CP
- have **not** complied with applicable program requirements
- are convicted under Federal or State law of a controlled substance violation, according to 1-CM
- have a delinquent non-tax debt to the Federal Government
- violate FCIC provisions as determined by FCIC.

B Delinquent Federal Nontax Debtors

DCIA of 1996 mandated a new eligibility requirement for persons seeking Federal financial assistance. DCIA provides that a person owing a delinquent Federal nontax debt to the Federal Government is ineligible for Federal financial assistance, including direct loans (other than disaster loans) or loan insurance or guarantees.

This table provides action that County Offices shall take when a producer is a delinquent Federal nontax debtor.

IF the...	THEN...
delinquent Federal nontax debt has been resolved before the final loan availability date	use the rate in effect on the day the original MAL or LDP request was made.
producer certifies that he or she has an unresolved delinquent Federal nontax debt	hold the request until the final loan availability date and if the producer does not resolve the delinquent Federal nontax debt before the final loan availability date, immediately notify the producer that he or she is ineligible and the request is disapproved.

Notes: See 58-FI for alternate methods for resolving delinquent Federal nontax debts.

--See Exhibit 8 for additional information and questions and answers about DCIA.--

For purposes of barring delinquent debtors from obtaining Federal financial assistance, a debt is not in delinquent status if the debtor is the subject of, or has been discharged in a bankruptcy proceeding. Producers with an unresolved delinquent Federal nontax debt **are** considered eligible to receive MAL or LDP if the unresolved delinquent Federal nontax debt is the subject of a bankruptcy proceeding.

101 Ineligible Producer (Continued)**C MAL's or LDP's Issued Before a Delinquent Federal Nontax Debt Is Discovered**

If the producer received MAL or LDP and later it is discovered that the producer after MAL or LDP was issued has a delinquent Federal nontax debt, the County Office shall:

- notify the producer that the delinquent Federal nontax debt must be resolved before the final loan availability date
- discuss with the producer alternatives to resolve the delinquent Federal nontax debt
- inform the producer that if MAL was obtained and the delinquent Federal nontax debt is not resolved before the final loan availability date MAL must be immediately called and must be repaid at principal plus interest
- inform the producer that if LDP was received and the delinquent Federal nontax debt is not resolved before the final loan availability date, LDP must be repaid with interest.

D Producer Incorrectly Certifies to the DCIA Question

If it is discovered that a producer incorrectly certified to the DCIA question, the County Office must:

- immediately notify the producer that the loan is called and must be repaid at principal and interest
- follow procedures in Part 6 for MAL or LDP violations.

--If the producer has resolved the delinquent debt and COC makes a good faith determination, then MAL or LDP may be disbursed.--

E Delinquency Resolution

For DCIA purposes, a producer's delinquent debt is resolved only if the producer does 1 of the following:

- pays or otherwise satisfies the delinquent debt in full
- pays the delinquent debt in part if the creditor agency accepts such payment as a compromise in lieu of payment in full
- cures the delinquency under terms acceptable to the creditor agency in that the person pays any overdue payments, plus all interest, penalties, late charges, and administrative charges assessed by the creditor agency as a result of the delinquency
- enters into a written repayment agreement with the creditor agency to pay the debt, in whole or in part, under terms and conditions acceptable to the creditor agency.

101 Ineligible Producer (Continued)

***--E Delinquency Resolution (Continued)**

Note: If a portion of a debt has been written off or compromised in lieu of payment in full, after the person has paid the debt in part through an approved payment agreement, the debt would be considered "resolved".

Follow 58-FI, Part 9 for working out debts by installments.--*

102 Eligible Foreign Person

A Foreign Person Eligibility

See 1-PL, Part 3 to determine eligibility requirements for foreign persons.

B Handling Disbursements Involving an Ineligible Foreign Person

If a County Office determines that an ineligible foreign person has received a loan or LDP disbursement, the County Office shall follow this table.

IF a County Office determines that a loan or LDP has been disbursed to...	THEN...
an ineligible foreign person	handle according to paragraph 135.
a cooperative for a commodity delivered to the cooperative by an ineligible foreign person	contact the State Office for instructions.

103 Eligible CMA

A Approved CMA's

[7 CFR 1425] CMA's approved to participate in loan and LDP programs may obtain loans and LDP's for their eligible producer members.

An approved CMA is considered an eligible producer. See 1-CMA for approved CMA's and commodities.

B Determining Producer Eligibility

If program year requirements, according to paragraph 300, are in effect for the crop year, *--producer eligibility will be determined according to 1-CMA, Part 7.--*

104 Market Loan Gain and LDP Payment Limitation**A Applicability**

105 Monitoring Payment Limitation**A Basic Producer Information**

The following producer information is needed for each individual or entity requesting LDP or market loan gain:

- “person” determination
- “actively engaged in farming” status
- permitted entity share
- multiple-county status
- previously received benefits subject to limitation
- payment limitation balance
- market loan gain amount

The “person” determination is made according to 1-PL, including the combined entity status. Determine combinations by printing the combined entity report according to 1-PL.

C “Actively Engaged in Farming” Status and Percent of Cropland Factor

Determine the “actively engaged in farming” status and applicable percent of cropland factor for each farming operation from which the commodity was produced according to 1-PL.

D Permitted Entity Share

Determine the permitted entity share according to 1-PL.

E Benefits Previously Received

APSS controls payment limitation automatically. Four market gain reports are available, according to subparagraph L, that will assist in monitoring benefits received by producers who are subject to payment limitation.

105 Monitoring Payment Limitation (Continued)

F Market Gain - Market Loan Gain Amounts

The market loan gain applicable to the payment limitation is equal to the difference between the loan principal amount and the loan repayment amount.

G Market Gain - LDP Amounts

The gross LDP is subject to payment limitation.

H Remaining Payment Limitation Balance

The remaining payment limitation balance shall be the difference between:

- the payment limitation assigned to the producer in the county where benefits are being received
- the sum of the following:
 - LDP amounts previously received in the applicable county

 - LDP and market loan gain amounts denied in the applicable county because of percent of cropland factor or permitted entity shares are less than 1.0000.

I Control County Office

Control payment limitations for multiple-county producers according to 1-PL. Do not establish a control County Office that is different from the control County Office established for other program purposes for LDP's and market loan gains.

105 Monitoring Payment Limitation (Continued)

J Monitor Payment Limitation

Monitor payment limitation by using the market gain reports in subparagraph L.

K When Payment Limitation Is Reached

When the payment limitation is reached, notify applicable producers that LDP's can no longer be made, and loans repaid with cash must be at the **lesser** of the following:

- loan principal plus interest
- **higher** of the following:
 - loan principal
 - CCC-determined repayment rate.

Loans may be delivered or forfeited to CCC.

105 Monitoring Payment Limitation (Continued)

Total Market Gain	Total market gain for each producer ID with market gain for the selected crop year.
Market Gain by Loan or LDP	Each market gain transaction for each producer on the selected loan or LDP.
Market Gain by Producer	Each market gain transaction for the selected producer for the selected crop year.

***--M AGI**

If an individual or an entity has an average AGI that exceeds \$2.5 million and less than 75 percent of the average AGI is derived from farming, ranching, or forestry operations, producers:

- **can:**

*--B Substituted Commodities

Substituted commodities are ineligible for MAL's and LDP's.

Producers who acquired commodities through an exchange of an existing harvested commodity, purchases, gift, or any other method other than the producer actually producing and harvesting the applicable commodity is considered to be in control of a substituted commodity. Substituted commodities cannot be pledged as collateral for the purposes of MAL's. MAL's are available to producers who produce and harvest loan commodities on a farm.--*

128 Annual Program Requirements

A Annual Requirements

Loans and LDP's are available to producers who have:

- reported acreage of all cropland on the farm according to 2-CP for which a loan or LDP is requested
- comply with all other program provisions, as applicable.

129 **Beneficial Interest**

A Applicability

[7 CFR 1421.6] To be eligible for a loan or LDP, **both** of the following shall apply:

- eligible producers, heirs of the producer, or another producer who succeeds in interest to the farming unit, according to paragraph 100, must:
 - have beneficial interest in the commodity
 - be in compliance with HELC and WC provisions
- commodity must have been produced by an eligible producer on a farm that is in compliance with the annual program requirements according to paragraph 128.

*--For LDP's only, if the producer has filed CCC-633 EZ, page 1, before loss of beneficial interest the:

- the commodity would be eligible for LDP
- LDP rate would be based on the rate in effect on the day beneficial interest was lost, if before final loan availability date and both of the following are true:
 - payment is requested on CCC-633 EZ, page 2, 3, or 4
 - required documentation is presented.

B Definitions of Conditions for Beneficial Interest

A producer is considered to have beneficial interest in the commodity if the producer has **both** control of the commodity and title to the commodity.

Note: CCC has determined that if a producer has control of the commodity, it is assumed that the producer has risk of loss of the commodity; therefore, the risk of loss component is removed when determining whether a producer has beneficial interest in the commodity.

This table defines beneficial interest but is **not** limited to the following.

Condition	Definition
Control of the commodity	A producer has <u>control of the commodity</u> if the producer retains: <ul style="list-style-type: none"> • the ability to make all decisions affecting the commodity • all risk of loss associated with producing and maintaining the quality and quantity of the commodity.
Title to the commodity	A producer may be considered to have <u>title to the commodity</u> if the producer has not sold or delivered the commodity, including the delivery of warehouse receipts.

--*

129 Beneficial Interest (Continued)**C Definition of Option to Purchase**

An option to purchase is an agreement allowing the buyer, at the buyer's option, to enter into a contract at a later date to buy a commodity. The option does not give the buyer any interest in the commodity and expires at a specified time.

D Sales Contract

A sales contract, including advance sales contracts, contracts to sell, price later contracts and contracts for future delivery, gives the buyer an interest in the commodity at a time specified in the contract or at a time implied by law.

*--In many cases, deferred price, forward, or price later contracts allow producers to select the sales price of the commodity at the time the contract is entered into or at a later date.

Producers under a deferred price, forward, or price later contract will be considered to have:

- beneficial interest in the commodity, if there are **no** restrictive or contradictory clauses within the contract that may cause the producer to lose beneficial interest in the commodity until the earlier of the following:
 - date payment is received
 - date commodity is applied in fulfillment of the contract
- lost beneficial interest if the contract states that ownership or title in the commodity transfers at any of the following specific times:
 - commodity is priced
 - date of contract signing
 - date the commodity is delivered.--*

129 Beneficial Interest (Continued)

E Option to Purchase Language

If a producer has entered into an option to purchase, the producer may receive a payment from the buyer and retain beneficial interest if the option to purchase contains a provision exactly as follows:

--“Notwithstanding any other provision of this option to purchase, title and control of the commodity, and beneficial interest in the commodity, as specified in 7 CFR Part 1421 shall remain with the producer until the buyer exercises this option to purchase the commodity. This option to purchase shall expire, notwithstanding any action or inaction by either the producer or the buyer, at the earlier of: (1) the maturity of any Commodity Credit Corporation loan which is secured by such commodity; (2) the date the Commodity Credit Corporation claims title to such commodity; or (3) such other date as provided in this option.”--

Inserting this language into a sales contract does not mean that the producer retains beneficial interest when a payment from the buyer is made under the contract.

If a producer has or will receive a payment from the buyer in return for a sales contract, beneficial interest is lost when the payment is made.

F Retaining Beneficial Interest

For a producer to retain eligibility to obtain a loan or LDP, **any** contract signed by a producer must conform to **all** provisions for beneficial interest.

Beneficial interest must be retained by a producer from harvest continuously through:

- for LDP, the date LDP is requested
- for loan, the earlier of the following date:
 - the loan is repaid
 - CCC takes title to the commodity.

129 Beneficial Interest (Continued)

G Losing Beneficial Interest

If a producer sells the equity in the commodity, the commodity is immediately ineligible for a loan or LDP. If the commodity has been pledged as collateral for a loan or LDP has been made, immediate repayment of the loan principal and charges, plus interest, or LDP amount plus interest, as applicable, is required.

When beneficial interest in the commodity is lost by the producer, the commodity remains ineligible for loan or LDP even if the producer regains any of the following:

- control of the commodity
- title to the commodity.

The producer loses beneficial interest upon signing any contract that contains, but is not limited to, the following provisions:

- buyer has the option to require the producer to obtain loan or LDP
- requires producer to obtain permission from buyer to request a loan or LDP
- requires that casualty losses be paid to the buyer's account.

See 2-LP Peanuts for additional information on peanuts.

H Transferring or Assigning Interest

Interest in a commodity or the right to redeem a commodity under loan may **not** be transferred or assigned except according to paragraphs 1401 and 1402, or by executing FSA-211.

I Integrated Entity

The fact that a buyer may also be the storing warehouse operator, lender, or other business shall **not** be considered a reason to cause beneficial interest to be transferred.

Note: If the contract between the buyer and the producer restricts the producer's ability to take possession of the commodity or warehouse receipts, the producer would be considered to have lost control when the commodity or warehouse receipts are delivered to the integrated entity.

J Commodity Rejected and Returned

If the commodity is delivered to a buyer, processor, or mill that rejects the commodity because minimum standards are not met, beneficial interest shall **not** be considered lost by the producer if the commodity is returned to the producer.

*--The commodity is **not** considered rejected if the producer receives a reduced contract price for the commodity.--*

129 Beneficial Interest (Continued)**K Payments for Services**

Payments by buyers to producers for services, such as transportation and storage, shall **not** cause beneficial interest to be transferred unless the payment is conditional on the eventual sale of the commodity.

L Feedlot, Feedyard, or Wool Pool Delivery

If the commodity is delivered to a feedlot, feedyard, dairy, pit, poultry facility, or wool pool, beneficial interest in the commodity is considered to be lost at the time of delivery, unless other events cause beneficial interest to be lost before delivery according to subparagraph 131 D.

Delivery of the commodity by a producer to the feedlot, feedyard, dairy, pit, poultry facility, or wool pool removes the producer's ability to make all decisions affecting the delivered commodity. Therefore, control of the commodity does not remain with the producer.

***--M Beneficial Interest and Open Storage Policy**

Producers who deliver commodities to a CCC-approved, Federally- or State-licensed warehouse and the commodity is placed in open storage **must** be able to receive from the warehouse a negotiable warehouse receipt or other form of acceptable production evidence, if requested. Refer to 8-LP, subparagraphs 535 C and D for acceptable types and requirements for production evidence.

For State-licensed facilities, each State FSA Office shall contact their State Department of Agriculture to obtain a copy of the State warehousing license to determine the existing State law as it relates to producers delivering commodities to open storage. The specific State law, if applicable, may dictate the time-frame of when title and ownership transfers or when a warehouse receipt can be written for commodities delivered and placed in open storage. For State FSA Offices that do **not** have a specific State law governing open storage, refer to 8-LP, paragraphs 129 through 131 for events that will cause producers to lose beneficial interest in the commodity.

Example: A producer delivers a commodity to a CCC-approved, Federally- or State-licensed warehouse. The State law specifies that after 30 calendar days of open storage the producer must decide to either:

- apply the commodity to a contract
- place the commodity into warehouse inventory that would enable the producer to obtain a warehouse receipt indicating title and control remains with the producer.--*

130 Guidelines for Submitting Contracts**A Submission Guidelines**

For **each** contract submitted for review to the State Office or PSD:

- provide a preliminary determination with respect to when producers would be considered to have lost beneficial interest in the commodity under the terms and conditions of the contract
- ensure that the:
 - general terms, exhibit, addendum, etc., referenced in the contract are also submitted with the contract
 - copies are legible
- by FAX, do not submit a hard copy by mail unless requested to do so
- by mail, do not submit a FAX copy unless requested to do so
- and for which a previous determination was received, do **not** submit a subsequent identical contract for review
- number each page in the proper order and provide the total number of pages for each contract.

State or County Offices, as applicable, will be requested to submit this information, if these documents are not submitted with the contract.

A determination will not be rendered until **all** documents pertinent to the contract have been received.

131 Reviewing Contracts

A Documents for Review

[7 CFR 1421.6] County Offices shall review contracts or leases, as applicable, **only** when there is reason to believe the producer may have lost beneficial interest in the commodity.

When requested by the County Office, producers shall provide the following, as applicable:

- copy of the combination lease agreement
- copy of all options to purchase and all sales contracts
- certification of no contract according to subparagraph B.

Producers who provide the certification according to subparagraph B shall be advised that, for loans only, if a contract is negotiated at a later date, the following, as applicable, must be provided to the County Office:

- copies of written contracts
- terms and conditions of verbal contracts.

For loans repaid by buyers under CCC-685, County Offices shall contact producers who certified to no contract to verify whether a contract has been negotiated subsequent to the certification. This verification is **not** required for repayments using CCC-681-1.

*--If a commodity contract is received in the County Office, and it is known that the company has filed for bankruptcy protection, State and County Offices must:

- review the contract
- make a beneficial interest determination based on the submitted contract.

Regional OGC Attorneys may need to be consulted before the beneficial interest determination can be made.

Producers with a commodity contract from a company that has filed for bankruptcy protection are eligible to request MAL or LDP.

Important: The contract status is **not** affected by the bankruptcy. FSA does **not** intend to intervene with legal matters concerning commodity contracts.

State and County Offices shall **not** provide recommendations or suggestions to producers regarding legal matters about contracts.

Producers must seek their own counsel to determine and establish any legal rights and/or claims about their contract.--*

131 Reviewing Contracts (Continued)

B Certification of No Contract

The following certification must be provided if the producer does not have a written contract and there is reason to believe the producer may have lost beneficial interest in the commodity.

REPRODUCE LOCALLY

OPTION TO PURCHASE AND SALES CONTRACT CERTIFICATION

LDP Number _____ Loan Number _____

The undersigned producer(s) ("Producer") has requested a loan or loan deficiency payment (LDP) from the Commodity Credit Corporation (CCC). With respect to the commodity which will be the subject of such loan or LDP, the Producer certifies that; (1) the Producer has had beneficial interest in the commodity and has not lost such interest before filing for the LDP application or loan application; (2) the Producer did not enter into any written option to purchase or any written contract for sale, with respect to the commodity to sell, deliver, or market the commodity, before such loan or LDP was requested; (3) the Producer did not enter into a verbal option to purchase or verbal contract for sale, except as noted below; (4) no payment with regard to such commodity was received before such loan or LDP was requested. The Producer understands that this certification is subject to review by CCC to determine that no option to purchase, contract for sale, or payment was applicable to the commodity. If any option to purchase, contract for sale, or payment is later negotiated while the commodity is pledged for collateral for a loan, the producer agrees to notify the County FSA Office of such event and to provide a copy of such option or contract to the County FSA Office for review. Upon such notification, CCC shall review such option to purchase and contract for sale for a determination of the date beneficial interest would be considered to have been lost. By signing this certification, the Producer warrants and agrees that the making of any fraudulent representation may render the Producer subject to criminal prosecution under Federal law and will result in the refund by the producer of any amounts paid as the result of the fraudulent representation, plus interest.

Terms and Conditions of Verbal Contract:

Signature of Producer Date Signature of Producer Date

This program or activity will be conducted on a nondiscriminatory basis without regard to race, color, religion, national origin, age, sex, marital status, or disability.

131 Reviewing Contracts (Continued)**C County Office Review**

When a contract or lease review is necessary, County Offices, before approving a loan or LDP for commodities subject to market loan provisions, shall:

- determine whether the requirements of beneficial interest or succession of interest are complied with
- review all options to purchase and sales contracts provided according to subparagraph A
- determine the date the producer would be considered to have lost beneficial interest
- determine whether the producer has retained beneficial interest in the commodity according to subparagraph 129 F.

For any option to purchase or sales contract on which a determination **cannot** be made, send a copy of the option to purchase or sales contract to the State Office for a determination according to paragraph 130.

D Events Causing Loss of Beneficial Interest

Producers shall be considered to have lost beneficial interest in a commodity the earlier of any 1 of the following events:

- receipt of a payment (without option to purchase)
- date of invoice
- F.O.B. bin, when the commodity is loaded for shipment from farm storage bins or other storage to the buyer
- F.O.B. warehouse, when the commodity is loaded for shipment from the warehouse to the buyer
- delivery of warehouse receipts to the buyer or agent

131 Reviewing Contracts (Continued)

D Events Causing Loss of Beneficial Interest (Continued)

- the time of signing a contract with clauses restricting the producer's decision to obtain a loan or LDP from CCC, such as:
 - buyer may require the producer to obtain a loan or LDP
 - producer may obtain a loan or LDP only with prior approval of the buyer
 - producer may obtain a loan if the producer executes certain documents designating the buyer as agent
- when the commodity enters the warehouse, if contract contains a casualty clause that provides that after commencement of insured warehouse cover, insurance settlement shall be for the buyer's account
- when the commodity is redeemed from CCC loan
- when the commodity is delivered to a feedlot, feedyard, or wool pool.

E Written Opinions

County Offices may give an opinion with respect to an option to purchase or a sales contract when **both** of the following apply:

- if the producer is **not** applying for benefits
- the producer requests an opinion.

County Offices shall:

- provide the opinion to the producer in writing
- send a copy of the option to purchase or sales contract to the State Office with a copy of the opinion provided to the producer for review according to subparagraph H.

Note: Opinions given for options to purchase and sales contracts are **not** appealable unless the producer has been denied benefits.

131 Reviewing Contracts (Continued)

F Verbal Contract

If the producer certifies to a verbal contract, the producer must enter the terms and conditions of the verbal contract in the space provided on the certification, according to subparagraph B.

G Hybrid Seed Contract Review

If a producer submits a hybrid seed contract for review, County Offices shall maintain a copy for file purposes only and are not required to review for a beneficial interest determination for producer eligibility.

Producers under hybrid seed contracts will be considered to have lost beneficial interest in the seed, the earlier of the date of:

- delivery to the hybrid seed company
- receipt for any payment of the seed.

For producers under a hybrid seed contract and an advance payment is received before harvest of the commodity, the producer:

- *--must file CCC-633 EZ, page 1 before harvest of the hybrid seed--*
- will receive LDP based on the LDP rate in effect on the date of the advance payment for the hybrid seed
- must provide production evidence for the hybrid seed advance payment.

LDP shall not be issued until the hybrid seed is harvested.

H Addendum

An addendum to an option to purchase or sales contract to amend any contract provision, including removing any restrictive clause, must be agreed to by all parties.

For CCC to consider the addendum valid, it must be executed **before** the earlier of the following:

- harvest of the commodity
- date beneficial interest is considered to have been lost.

131 Reviewing Contracts (Continued)**I Canceling Contract**

An option to purchase or a sales contract entered into may be canceled at any time **before** harvest of the commodity if beneficial interest has not been lost.

If the option to purchase or sales contract to be canceled was previously provided to the County Office, a copy of the following must be provided to the County Office:

- the canceled option to purchase or sales contract, as applicable, with the signatures of all parties canceling the contract
- any subsequent option to purchase or sales contract.

J State Office Action

State Offices shall:

- review options to purchase and sales contracts submitted by County Offices, including those submitted for which the County Office gave the producer a written opinion

Note: If the written opinion provided to the producer by the County Office is inaccurate, **immediately** notify the County Office.

- determine whether the producer retains beneficial interest and the date the producer would be considered to have lost beneficial interest
- for any option to purchase or sales contract on which PSD's concurrence with the State Office's preliminary determination is requested, FAX a copy of the contract for PSD review
- advise the County Office of PSD's determination when notified by PSD of the date beneficial interest would be considered to have been lost
- send to all County Offices and applicable States the following:
 - a copy of the option to purchase or sales contract, as applicable
 - a copy of the decision for reference.

131 Reviewing Contracts (Continued)

J Action After Contract Review

A loan or LDP shall **not** be approved when both of the following apply:

- the contract is reviewed after harvest
- it is determined that the producer has lost beneficial interest in the commodity.

Exception: LDP's may be approved, based on the LDP rate in effect on the date of delivery, when * * * the producer maintained beneficial interest until the date of delivery.

If an application for loan or LDP is:

- approved, attach a copy of the option to purchase or sales contract, as applicable, to the applicable loan or LDP document signed by the producer
- **not** approved because of loss of beneficial interest:
 - send a letter of the determination to the producer and attach the letter to the option to purchase or sales contract, as applicable
 - do not provide the producer appeal rights, the beneficial interest requirement is not appealable.

***--Notes:** Use example letter in Exhibit 5, subparagraph K.--*

See 1-APP for determining issues that are not appealable.

Note: Producers may appeal the beneficial interest determination, but not the denial of benefits if beneficial interest was lost. Beneficial interest is a statutory requirement.

When notified by the State Office of the determination of the date beneficial interest would be considered to have been lost, COC shall approve or disapprove loan or LDP.

132 Eligible Quantity**A Determining Eligible Quantity**

[7 CFR 1421.8] All of the applicable commodity produced on eligible acreage by an eligible producer and mechanically harvested is considered eligible for loan or LDP.

B Using Crop Appraisals

If a producer has applied for crop insurance indemnity or NAP on the acreage related to the disaster, the crop appraisal on file **must** be used when determining the maximum eligible quantity for commodities harvested as other than grain for loans or LDP's.

C Exception for Using Crop Appraisals

COC's may determine maximum eligible quantity determinations according to subparagraph 536 D by using other methods when a crop appraisal is on file only if either of the following apply:

- the appraisal has been completed on units that differ from the FSA farm that the marketing assistance loan or LDP has been requested
- 1 appraisal has been completed on multiple farms and the documentation does not differentiate between farms.

Before COC can make a determination, the producer must provide applicable documentation to COC to support that the LDP production is not from the crop-appraised acreage.

Note: Producers are responsible for providing documentation, as applicable.

132 Eligible Quantity (Continued)

*--D Determining Eligible Dry Pea Quantity for Loan or LDP

For 2003 and subsequent crop years, MAL's and LDP's for dry peas will be based on net weight excluding non-pea material. Non-pea material consists of "other material" and "foreign material".

Producers must submit production evidence that indicates net weight has been reduced for foreign and other material.

Example: Producer requested LDP on 7,000 cwt. of marrowfat peas at \$2.68 (LDP rate). The settlement sheet includes:

- the statement, "Sample contains 97.5 percent of whole broken or pieces of peas."
- dockage breakdown: small peas, 2.0 percent; splits, 1.8 percent; other material, 1 percent
- defects and foreign material breakdown: foreign material, 1.5 percent; bleached, 86.2 percent.

The quantity will be reduced by 2.5 percent (foreign and other material only). The producer would receive LDP for \$18,291 based on 6,825 cwt. (97.5 percent of 7,000 cwt) x \$2.68 (LDP rate).--*

E Establishing Estimates of Yield

COC shall:

- annually determine reasonable estimates of yield for each commodity based on crop and weather conditions in the county
- document determination in COC minutes
- review questionable applications.

F Using Price Support Queries

Counties shall use the automated Price Support queries according to 12-PS, Part 14, Section 6. Instructions for entering yields established by COC are in 12-PS, subparagraph 1488 C. Price Support queries are useful in determining a producer's reasonable production. The queries also provide for a running account total by the producer for remaining MAL and LDP eligible quantities.

132 Eligible Quantity (Continued)**G STC Review**

STC or designee shall:

- annually review 25 percent of estimate yields established according to this paragraph
- concur with COC that yields are reasonable based on documentation used.

When reviewing COC-established yields for County Offices that border County Offices in a different State, STC's or the designee should request from the bordering County Office through the applicable State Office, a copy of the applicable COC-established yields. STC's use this information when concurring with COC's that the yields are reasonable.

Note: A 5-year average of NASS yields may be used as a guide when establishing yields.

H Questionable or Commingled Production

If the quantity pledged as collateral for loan or requested for LDP is greater than **110** percent of the COC maximum established quantity (COC-established yield times the reported acreage), do not approve the loan or LDP.

If the producer is not satisfied with the maximum quantity determined by COC, give the producer appeal rights to COC.

During the appeal process, COC may approve loan and LDP quantities exceeding the COC maximum established quantity if:

- the producer provides actual production evidence according to paragraph 535 for the crop year and other documentation to support the yield, such as fertilizer
- COC determines the quantity reasonable for the crop year based on the producer's farming practices, production evidence, and other documentation provided.

*--COC shall **not** delegate authority to approve quantities exceeding 110 percent of the--*
COC-established yield.

132 Eligible Quantity (Continued)

I Determining Ineligible Quantity

A quantity of a commodity is **not** eligible for loan if:

- it was previously placed under loan and redeemed with cash at the CCC-determined value
- LDP benefits have been requested or made on the quantity.

Note: LDP quantities requested on CCC-633 EZ, Page 2 are ineligible to be pledged for loan.

J Denied LDP Because of Payment Limitation

Commodities are eligible for nonrecourse loan **if** LDP's were requested and denied because of payment limitation only.

133 Poisonous Substances and Contamination

A Contaminated Commodities

[7 CFR 1421.5(c)] A producer is personally liable for any damages resulting from tendering to CCC as loan collateral if a commodity contains:

- mercurial compounds
- toxin producing molds, such as aflatoxin
- other substances poisonous to humans or animals.

Illegally contaminated and nonmarketable commodities that test positive are not eligible for loan or LDP.

All contaminated commodities must be merchantable to be eligible.

B Acceptable Levels for Aflatoxin and Vomitoxin

The following table provides the acceptable levels for toxins.

Contaminant	Acceptable Level
Aflatoxin in corn or peanuts	20 part per billion or less
Vomitoxin	5 or less parts per million

See Part 4 for applicable county loan rates.

133 **Poisonous Substances and Contamination (Continued)**

C Monitoring Corn Containing Aflatoxin

In areas of the State where it is determined that the corn may contain aflatoxin, STC shall:

- designate affected areas each crop year, as applicable
- monitor the aflatoxin situation
- notify DAFP when the first area in the State is designated.

Producers who request farm-stored or warehouse-stored corn loans in the designated areas shall, **before** disbursement of the loan:

- have the corn tested for aflatoxin at the producer’s expense
- provide the County Office with the results of the aflatoxin test.

If the test results indicate the aflatoxin level is:

- 20 parts per billion or less, the loan may be disbursed as nonrecourse, according to Part 4, as applicable, if the corn is otherwise eligible for a nonrecourse loan
- more than 20 parts per billion, a loan may be disbursed as nonrecourse using the applicable adjusted county loan rate, according to paragraph 422.

D Commodities Containing Vomitoxin

The following table provides policies and procedures for commodities containing vomitoxin.

IF...	AND contains vomitoxin of...	THEN County Offices shall...
producers indicate a commodity was tested	5 or less parts per million	disburse loans as nonrecourse, according to Part 5 or 7, as applicable, if the commodity is otherwise eligible.
	more than 5 parts per million	disburse loans as nonrecourse using the applicable adjusted county loan rate, according to paragraph 422.
nonrecourse loan is delivered to CCC	5 or less parts per million	base the settlement rate on the quality of the commodity as shown on the warehouse receipt.
	more than 5 parts per million	use a settlement rate of zero.

134 Repledging Commodities

A Basic Provisions

Before the final loan availability date, producers may re-offer as security or repledge as collateral for a loan any commodity that has been previously mortgaged or pledged, except for those situations described in subparagraph B.

B Ineligible for Repledge

The following table provides situations when a commodity is ineligible to be repledged.

IF the commodity represents...	THEN...
a loan that was called because of a violation of provisions for: <ul style="list-style-type: none"> • loans or LDP's • HELC or WC, according to 6-CP 	the commodity shall not be repledged for loan.
1 or more of the following conditions: <ul style="list-style-type: none"> • loans called at CCC's option • commodities redeemed with cash at a rate less than the principal plus interest •*-commodities for which loss of beneficial interest has occurred and CCC-633 EZ, page 1 is not on file--* • commodities that were previously collateral for recourse loans, except distress loans • loan commodities were acquired using commodity certificates • commodities for which LDP was made 	
a loan disbursed under distress loan provisions	

134 Repledging Commodities (Continued)

C Maturity of Repledged Loan

The maturity date shall be the same as the original loan maturity date.

In APSS, enter the approval date of the original loan to establish the proper maturity date for the repledged loan.

--The repledged loan interest rate shall be the applicable rate on the day the repledged loan is disbursed.--

D Applicability of State Assessments

State commodity assessments, when applicable, shall **not** be deducted on the repledged loan quantity.

135 Loans Ineligible for Delivery or Forfeiture

A Ineligible for Delivery or Forfeiture

The following are ineligible for delivery to CCC if the collateral is for:

- a recourse loan

Note: See Part 4, Section 4.

- a nonrecourse loan and the:
 - producer is determined ineligible
 - commodity is determined ineligible.

B COC Notification to Producer

--Send the producer the notification letter in Exhibit 5, subparagraph M if COC determines:--

- an ineligible commodity was placed under loan
- the producer is ineligible for loan.

135 Loans Ineligible for Delivery or Forfeiture (Continued)

C Action for Nonpayment

If the loan is **not** repaid by 31st calendar day after notification and CCC must acquire the commodity, the County Office shall take action according to the following table.

IF the loan...	THEN...
<p>is recourse farm-stored or warehouse- stored</p>	<ul style="list-style-type: none"> • begin foreclosure proceedings according to paragraph 1043 and Part 10, Section 4 for provisions for: <ul style="list-style-type: none"> • selling warehouse receipts • completing a local sale • use the sales price as the value of the commodity • record the local sale settlement according to 12-PS, Part 9. <p>Note: The warehouse-stored loan must be transferred to a farm-stored loan to process the settlement by local sale.</p>
<p>is nonrecourse warehouse- stored</p>	<ul style="list-style-type: none"> • transfer the loan to a farm-stored loan, according to 12-PS, Part 5 <p>Note: See Part 10 for provisions for:</p> <ul style="list-style-type: none"> • selling warehouse receipts • completing a local sale. <ul style="list-style-type: none"> • determine the value of the commodity according to the schedules of premiums and discounts according to the applicable 2-LP • record the local sale settlement according to 12-PS, Part 9.

135 Loans Ineligible for Delivery or Forfeiture (Continued)

D Insufficient Value or Excess Sales Price

If the settlement value was insufficient to clear the amount due on the loan, send the
--producer the notification letter in Exhibit 5, subparagraph F.--

If the sales price exceeds the amount needed to repay principal and charges plus interest on the loan, the excess shall be:

- for recourse loans, refunded to the producer
- for nonrecourse loans, retained by CCC.

136 Eligibility Review

A Review

A second party review of eligibility requirements for loan and LDP application shall be performed before disbursement. Reviewer must initial loan (CCC-677 or CCC-633WM, as applicable, for farm-stored loan or CCC-678 for warehouse-stored loan) or LDP application when review is completed. Before a loan or LDP is issued, CCC-770 MAL or CCC-770 LDP/eLDP must be completed according to paragraph 25.

***--Note:** If the program technician accepts the MAL or eLDP/LDP request, then he/she will **not** initial as the second party reviewer.--*

* * *

Note: It is recommended that CED's in 2-person County Offices:

- initial as second party reviewer
- sign as approving official, as designated by COC.

Part 3 Loan Deficiency Payments

Section 1 General Provisions

300 Basic Provisions

A Definition of LDP's

[7 CFR 1421.200] LDP's are payments made to producers who, although eligible to obtain a CCC loan, agree to forgo the loan in return for a payment on the eligible commodity.

B General Provisions

LDP's:

- *--will be processed through APSS or through eLDP web site by the County Office or producer--*
- will be made in cash subject to assignment according to 63-FI
- will be issued by EFT or check, as applicable

- *--shall be subject to payment limitation and AGI requirements--*
- must be approved when all eligibility requirements are met
- cannot be canceled or repledged once a request has been made or disapproved

Note: LDP requests disapproved because the requested quantity exceeded the maximum eligible commodity, according to subparagraph 132 G and the decision was appealed, may be approved if the producer provides acceptable production evidence during the appeal process, according to subparagraph 132 G.

- cannot be repaid to request a subsequent loan or LDP on the same quantity
- are not subject to State commodity assessments
- are subject to spot check according to Part 5
- will be paid when approved.

Lien searches and lien waivers are not required.

300 Basic Provisions (Continued)

C Producer and CMA Eligibility Requirements

Producers and approved CMA's for their members, applying for LDP, must:

- meet eligibility requirements in Part 2, as applicable
- agree to forgo obtaining a loan for the quantity on which LDP is requested.

D No Storage Requirements

[7 CFR 1421.200] Approved storage requirements are waived for LDP's.

***--E LDP Numbers**

LDP numbers will be assigned by both APSS and the Web. The number assigned by:

- APSS, will be sequential with loan numbers for each crop year
- eLDP will be provided from an external site for eLDP's processed by both County Offices and producers.--*

F Filing LDP's

LDP's shall be maintained in 1 of the following:

- a separate LDP file for each request received
- 1 LDP file for each producer
- 1 LDP file for each producer by commodity.

300 Basic Provisions (Continued)**G LDP Amount Reported to IRS**

The amount of LDP is reported to IRS.

LDP's made to CMA's are not reported to IRS.

H Denied LDP Amounts

Part or all of a producer's calculated LDP amount shall be denied if any of the following apply:

- payment limitation is reached
- percent of cropland factor is less than 1.0000
- permitted entity share is less than 100 percent.

--301 Requests for LDP's – CCC-633 EZ*A General Information**

LDP requests are complete when a County Office receives a completed and signed CCC-633 EZ, page 1 **and** page 2, 3, or 4, as applicable.

Note: For 2006 and subsequent crop years, CCC-633 EZ is the only form approved for requesting LDP's.

CCC-633 EZ's allow producers to enter into an agreement with CCC to indicate intention to receive LDP benefits for all eligible commodities for the applicable crop year. CCC-633 EZ's:

- incorporate all types of LDP requests into a single 2-part application that consists of the page 1 LDP agreement and pages 2, 3, and 4 LDP benefit requests.
- ensure LDP benefits for eligible producers on all eligible commodities when page 1 is filed before loss of beneficial interest and pages 2, 3, and/or 4 are received before the final loan/LDP availability date
- cover production sold before CCC-633 EZ, page 2 or 4 is submitted as long as the producer filed a CCC-633 EZ, page 1 before loss of beneficial interest
- cover "over-run bushels" delivered for sale, not to exceed the reasonable quantity for that commodity--*

301 Requests for LDP's – CCC-633 EZ

A General Information (Continued)

- can be used to request LDP's for all eligible loan commodities listed in subparagraph 127 C including hay, silage, and green peanuts
- cover all quantities the producer has beneficial interest in on the date page 1 is completed and received in the applicable County Office
- page 1 only needs to be filed in 1 County Office for all counties in which the producer or entity has an interest in an eligible commodity
- do not negate the producer's ability to obtain an MAL

Note: If the producer submits CCC-633 EZ, page 2 or 4 requesting payment of LDP benefits, then the specific quantity in which the LDP benefit was requested becomes ineligible for MAL.

- apply to CMA's who apply to service County Offices for LDP's according to 1-CMA.

By completing and agreeing to the terms and conditions provided on CCC-633 EZ, page 1 before losing beneficial interest, producers may be eligible to receive LDP benefits based on the earlier of:

- date beneficial interest is lost in the eligible commodity, according to acceptable production evidence
- the date of request for payment, if beneficial interest is retained
- *--date of delivery, if beneficial interest is retained.--*

Producers **must** submit CCC-633 EZ, page 1 and page 2, 3, or 4 **before** the applicable final availability date for the respective commodities to be eligible for the LDP benefit. See subparagraph 127 C for a listing of the final loan availability date for specific commodities.

301 Requests for LDP's – CCC-633 EZ (Continued)

B Submitting CCC-633 EZ's

While CCC-633 EZ, page 1 can be submitted to any County Office in which the producer has an interest, CCC-633 EZ, pages 2, 3, or 4 **must** be requested at the County Office where the farm records are kept for the farm on which the commodity was produced. Requests **must** be submitted:

- in person
- by mail
- by FAX
- through eForms.

Following submission and approval of CCC-633 EZ, page 1, eLDP requests can be submitted by eligible producers who have:

- a customer profile
- level 2 eAuthentication account access.

C Multi-County Producers

If the producer farms in more than 1 county, the County Office 1st contacted shall:

- accept the LDP request on page 2, 3, or 4
- contact the other County Offices when either of the following applies:
 - the request covers eligible production from more than 1 farm and the farm program records are kept in more than 1 County Office
 - LDP's were received from more than 1 County Office
- FAX LDP requests to the applicable administrative County Office for completion.

If a single CCC-633 EZ, page 2, 3, or 4 includes production from multiple farms that are located in a different county, the County Office that accepts the LDP request **must** indicate *--in item 87 that "multiple LDP's will be issued to cover the requested quantity according to--* this LDP request".

Note: The applicable administrative County Office must:

- verify the COC-established maximum yield for the eligible production in the applicable county
- *--document in item 87 where the verification of information was obtained.--*

301 Requests for LDP's – CCC-633 EZ (Continued)**D Commingled Commodities**

For LDP requests on commingled commodities, producers may request individual or joint LDP's. For joint LDP's, all producers whose share of the commodity is included **must** sign CCC-633 EZ, page 2, 3, or 4.

E Approvals and Payments

LDP requests must be:

- approved when all eligibility requirements are met
- date-stamped when CCC-633 EZ, pages 1, 2, 3, 4, and 5, if applicable, are received in the County Office to indicate the intention and the request date.

Note: If the FAX machine preprints the correct date time, when any of the CCC-633 EZ pages are received in the County Office or if the date is printed on an eForms submission, then the date stamp is not required.

Issue payments when:

- CCC-633 EZ, page 1 has been filed and pages 2, 3, or 4 have been approved
- all required production evidence, such as delivery documentation, has been received for LDP's on which beneficial interest has been lost
- CCC-770 LDP/eLDP has been completed and signed.--***

F Prompt Payment

See paragraph 16 for prompt payment due date.

G Canceling LDP Requests

LDP's requested CCC-633 EZ, page 2, 3, or 4 **cannot** be canceled at any time. Once producers sign CCC-633 EZ, page 2, 3, or 4, LDP is obligated to be paid by CCC to the producer.

H Deferred Payments

Payments **cannot** be deferred or delayed at any time. All payments **must** be made as soon as possible after the date of request.

301.5 CCC-633 EZ

A Page 1

The purpose of the CCC-633 EZ, page 1 is to:

- allow producers to indicate their intention to receive LDP benefits
- be completed 1 time per crop year to include all eligible commodities in which the producer maintains beneficial interest on the date page 1 is received in the applicable County Office
- cover all counties in which the producer or entity does business.

CCC-633 EZ, page 1:

- **must** be received in the County Office on or **before** subsequent CCC-633 EZ pages are submitted for payment

Note: DMA's and LSA's will obtain CCC-633 EZ from their customers.

- is crop year specific and does **not** apply for subsequent crop years
- *--may be submitted by the producer for the upcoming crop year, beginning **October 1** of the preceding crop year, through the final loan availability date for the applicable commodity, as long as the producer still has beneficial interest in the commodity.

Example: The producer visits the FSA County Office for DCP signup on December 24, 2008, the FSA County Office may also accept a 2009 crop CCC-633 EZ, page 1 from the producer.--*

County Offices shall encourage producers to submit CCC-633 EZ, page 1 each crop year whether or **not** the producer plans to subsequently request a loan or LDP.

Because CCC-633 EZ, page 1 serves as the producer's **intention** to request and receive LDP benefits, the producer still maintains the ability to pledge the eligible commodity for MAL. The eligible commodity becomes ineligible for MAL, when page 2 or 4 has been submitted for payment of LDP benefits.

301.5 CCC-633 EZ (Continued)**A Page 1 (Continued)**

The County Office receiving the initial filing of CCC-633 EZ, page 1, will:

- complete Part D
- FAX or mail a copy to all County Offices, identified in item 5, in which the producer or entity has a farming interest.

Note: If there are additional counties that the producer neglected to include in item 5, LDP benefits are **not** denied because that County Office did **not** receive *--CCC-633 EZ, page 1; FAX or mail those omitted County Offices a copy of CCC-633 EZ, page 1 when identified.--*

B Page 2

CCC-633 EZ, page 2 is for all harvested commodities, **except** cotton.

For commodities harvested as other than grain, fed, or used for seed, CCC-633 EW **must** be completed **before** LDP can be issued according to paragraph 536.

Producers may submit:

- multiple requests using the applicable CCC-633 EZ, page 2, 3, or 4 to cover all eligible quantities
- one CCC-633 EZ, page 2 to cover multiple commodities if the quantities are request on the same day, **except** cotton.

Example: Producer can submit CCC-633 EZ, page 2 on January 21, 2006, requesting LDP on corn and soybeans. Only one CCC-633 EZ, page 2 is necessary.

Note: Once CCC-633 EZ, page 2, 3, or 4 is submitted and approved for payment, **no** other changes can be made to the original request.

301.5 CCC-633 EZ (Continued)

F Completing CCC-633 EZ, Page 2

To receive LDP benefits, producers **must** complete and submit to DMA or County Office where the farm records are maintained for the farm on whose production the LDP is requested, CCC-633 EZ, page 2 or 4, as applicable. Producers who request an LDP benefit:

- and retain beneficial interest in the requested quantity, will receive LDP based on the LDP rate in effect in the county where the commodity is stored on the date a completed page 2 or 4, as applicable, is received in that DMA or County Office.
- after beneficial interest is lost in the requested quantity, will receive LDP based on the LDP rate in effect in the county where beneficial interest was lost

Note: CCC has the sole discretion for determining when beneficial interest is lost in the commodity as provided in subparagraph 129 G. Acceptable production evidence **must** be provided with page 2 or 4, as applicable, if the producer no longer retains beneficial interest in the requested quantity.

- based on the date of delivery, will receive LDP based on the LDP rate in effect in the county where the commodity was physically delivered on the date of delivery.

When production evidence is provided with page 2, LDP will not be subject to spot check.

IF the source of the LDP quantity (item 21) is...	THEN...
certified	subject to random spot check and producers are required to submit acceptable production evidence according to subparagraph 535 C.
measurement service	the County Office would initiate measurement service with FSA-409. The quantity indicated on CCC-633 EZ, page 2, would receive the LDP rate in effect on the date of LDP request, but would not be paid until verified by measurement service. The applicant must enter a specific quantity or “All” in CCC-633 EZ, page 2, item 20 for the payment request to be complete. This prevents the producer from leaving CCC-633 EZ, page 2, item 20 blank and then altering the request after the measurement service is completed because of a change in the LDP rate. * * *
production evidence	producers are required to submit acceptable production evidence according to subparagraph 535 C with their LDP request.

302 FAXed LDP Applications

***--A Acceptable FAXed CCC-633 EZ's**

FAXed CCC-633 EZ's are considered complete when both of the following are met:

- County Office has received CCC-633 EZ, page 1
- producer correctly completes CCC-633 EZ, page 2, 3, or 4 including all producer signatures.--*

B Unacceptable FAXed LDP Applications

Unacceptable FAXed LDP applications are:

- *--applications submitted on any form other than CCC-633 EZ
- CCC-633 EZ's missing information that is absolutely necessary to determine LDP.--*

Provide the producer with written notification that:

- the request did not contain adequate information to process the request
- a new LDP rate will be established based on the date a new acceptable *--CCC-633 EZ, page 2, 3, or 4 is received in the County Office.--*

* * *

302 FAXed LDP Applications (Continued)

C Signatures

* * * Follow-up original copies and signatures are not required for FAXed CCC-633 EZ.

D Applications Requested But Not Received

If a producer inquires about a FAXed LDP application that was not received, County Offices shall:

- require producer to submit documentation to verify the date and time of the FAXed transmission of CCC-633 EZ * * *
- accept producer's completed LDP application
- document the date the LDP application was FAXed and the reason the FAX was not received
- use the LDP rate in effect on the date printed by the FAX machine on the original LDP request transmittal
- **not** accept or approve producer's LDP application unless the producer can provide verification of the actual FAXed date.

Note: Incomplete transmissions are not considered to be a valid LDP requests.

303 LDP Rates**A Effective LDP Rate**

The LDP rate is the rate in effect on the date:

- of request, if beneficial interest is maintained on date of request
- beneficial interest is lost according to acceptable production evidence
- of delivery, if the producer requests the date of delivery option on the applicable CCC-633 EZ, page 2 before delivering the requested quantity.

The date beneficial interest is lost is the date the producer loses control of the commodity through sale, feeding to livestock, or delivery to an unapproved warehouse, livestock feeder, processor, ethanol or bio diesel plant, or wool pool.

--For commodities immediately fed during harvest, see subparagraph F.--

B LDP Rate

The LDP rate is determined by the amount the applicable commodity loan rate exceeds the CCC-determined value for where:

- the commodity is stored for LDP in which the producer maintains beneficial interest
- beneficial interest is lost in the requested commodity.

Use the rate in effect until the next rate change.

Example: Use the rate announced on Friday for commodities delivered on a nonworkday.

For eligible commodities stored out of the United States, determine the LDP rate based on the County where LDP is requested.

See Part 9, Section 7 for determining the CCC-determined value.

303 LDP Rates (Continued)**C LDP Rate for Multiple Deliveries**

The LDP rate for multiple deliveries of production covered under CCC-633 EZ is based on the first consecutive quantity delivered, unless otherwise designated on CCC-633 EZ.

Selecting a specific delivery date to obtain an LDP rate for all quantity delivered is not permitted.

If multiple deliveries occur for production delivered under CCC-633 EZ and:

- multiple LDP's will be made, the LDP rate is based on the date of delivery for the quantity being paid under LDP, as applicable
- a single LDP will be made, the weighted average LDP rate for the total quantity will be determined based on the eligible LDP rate for the dates eligible quantity was delivered.

D Determining LDP Amounts

LDP amounts are calculated by multiplying the LDP rate times the LDP quantity requested.

E LDP Rate for FAXed CCC-633 EZ, Page 2, 3, or 4

For CCC-633 EZ, page 2's, 3's, or 4's FAXed, the LDP rate is the rate in effect when CCC-633 EZ, page 2, 3, or 4 is received in the County Office, if the LDP request is *--completed according to paragraph 307.5.--*

Example: If the rate is announced at 7 a.m. e.t. and the FAXed CCC-633 EZ is received at 5 a.m. e.t., the LDP rate is the rate in effect on the previous workday.

F Fed or Processed Commodities

Commodities stored on the farm that were harvested as feed or later processed may be requested on CCC-633 EZ, page 2 after harvest ends. For commodities fed during harvest, *--LDP's shall be requested on CCC-633 EZ, page 2. If feeding dates are within reason, LDP rate is based on the date the producer certifies that the commodity was fed.--*

304 Eligible Quantity**A Commodity Eligibility Requirements**

To be eligible for LDP, the quantity of commodity must:

- *--meet eligibility requirements in Part 2, including beneficial interest requirements--*
- have been produced by an eligible producer
- not have been previously pledged as collateral for a loan and repaid with cash at a rate less than the principal, plus interest
- not have been previously requested or paid for LDP.

The following are eligible for LDP:

- a quantity of a commodity eligible to be repledged for a nonrecourse loan
- silage and hay derived from an eligible loan commodity.

Note: Silage and hay are **not** eligible for a marketing assistance loan.

For LDP's on:

- commodities harvested as other than grain, see Section 2
- low quality commodities, see Section 3
- contaminated commodities, see Section 4
- HM or ATHM commodities, see Section 5.

304 Eligible Quantity (Continued)**B Quantity Requested**

Eligible producers may request LDP quantities by:

- certifying the quantity
- requesting measurement service
- certifying date of delivery for field direct LDP's
- providing delivery evidence.

* * *

If moisture levels are in excess of the maximum eligible moisture level applicable to the commodity, producers may want to certify the moisture percent, or adjust the certified quantity, to avoid possible refunds if LDP is selected for spot check.

C Certified Quantity

Producers may request LDP by certifying the quantity. A reasonableness check using yields established by COC, according to paragraph 132, must be completed to ensure that the commodity was produced by the producer. All certified LDP's are subject to spot check according to Part 5.

COC set yield does not ensure that the commodity was produced; however, it establishes a guide for reasonableness of production.

If producers later request a measurement service and indicate on CCC-677-1 to use the quantity determined for production evidence:

- place CCC-677-1 in the producer's file
- use the measurement if LDP is later selected for spot check
- no further action is necessary.

304 Eligible Quantity (Continued)

D Measured Quantity

Eligible producers may request measurement service to obtain LDP.

If measurement service is requested on FSA-409:

- complete CCC-677-1 in addition to CCC-633 EZ, page 2 or 4 * * *
- reduce the measured quantity to the maximum eligible moisture level if the commodity contains moisture exceeding the level for the commodity according to the applicable 2-LP.

LDP's requested by measurement service are not subject to spot check.

E Quantity Supported by Production Evidence

If producers do not wish to certify to the quantity or date delivered, requests can be completed by providing production evidence according to Part 5, Section 3.

If production evidence is provided at time of payment request, LDP will not be subject to spot check.

305 (Withdrawn--Amend. 13)

306 Types of LDP's

A Types of LDP's

LDP's are requested for any stored quantity the producer maintains beneficial interest in on date of request and can be either:

- farm-stored quantities
- warehouse-stored quantities.

LDP Type	LDP Rate
Beneficial interest maintained	Rate on date of request
Beneficial interest lost	Rate in effect on date sold according to acceptable sales evidence
Delivery date	Rate in effect on date delivered from the field
<p>Note: Beneficial interest maintained, but before delivery the producer requests to use rate in effect on date of delivery.</p>

LOAN DEFICIENCY PAYMENT (LDP) AGREEMENT AND REQUEST				2. Telephone/Cell Number (Include Area Code):	
All eligible producers entering into this agreement MUST meet marketing assistance loan eligibility and have beneficial interest in the quantities covered by this agreement for the applicable crop year when signing this form. A producer is considered to have beneficial interest in the specified quantities if the producer has ALL of the following:				3. ID Number (Last 4 Digits):	
• title to the commodity _____				4. Crop Year:	
• control of the commodity _____				5. State(s) and County(s)	
<small>File this form BEFORE loss of beneficial interest (title and control) to indicate your intentions to receive Loan Deficiency Payment (LDP) benefits for this crop year for all counties and all eligible harvested, sheared, or slaughtered commodities for the individual, joint operation, or entity identified in Item 1. The CCC-633 EZ - LDP Request (Page 2), Cotton LDP Request (Page 3), or Request for Wool, Mohair, or Unshorn Pet LDP (Page 4) must be completed BEFORE the final loan/LDP availability date to receive LDP benefits.</small>					
PART A - TERMS AND CONDITIONS					
<ul style="list-style-type: none"> The LDP rate will be based on the earlier of: a) the date beneficial interest is lost as applicable to specific commodity provisions; or b) the LDP request date as submitted on the CCC-633 EZ (Page 2) Part E, or CCC-633 EZ (Page 4) for wool, mohair, and unshorn pelts. For cotton LDP's requested on CCC-633 EZ Cotton (Page 3), the LDP rate will be based on the information provided on Page 3. Quantities covered by this agreement were produced by the producer and not purchased or acquired directly or indirectly from any other source or committed under a marketing agreement to a Cooperative Marketing Association (CMA). As a condition of receiving an LDP, a producer (or members of a CMA) must first resolve delinquent federal non-tax debt(s). The debt(s) must be resolved before the final loan/LDP availability date. CCC may request copies of contracts and supplemental documentation to determine eligible quantity and when beneficial interest was lost. If a Marketing Assistance Loan (MAL) is disbursed for a quantity covered by this agreement and the MAL is repaid at a price less than principal and interest, this agreement becomes null and void for that specific quantity. All producers with an interest in the quantity covered by this agreement must sign a CCC-633 EZ Part C, to obtain LDP benefits. 					
PART B - METHODS OF PAYMENT REQUEST (Request must be submitted by final loan/LDP availability date.)					
<ul style="list-style-type: none"> For quantities represented by verifiable production evidence under this agreement, submission of evidence in combination with Part E, Part N, or Part O of this form as applicable shall be considered a request for payment. Evidence must include sufficient data to determine producer and commodity eligibility and LDP rate. For quantities for which verifiable evidence is unavailable (i.e., certified quantities, fed quantities, quantities used for seed, silage, etc.), the request for payment shall be initiated by recording a certification of quantity on Part E, Part N, or Part O of this form as applicable. Additional information may be requested by CCC to determine producer and commodity eligibility and LDP rate. Submission of an eLDP shall be a request for payment. The CCC-633 EZ Part E is not required for that specific quantity. For Cotton Producers Only: Producer agrees: a) any request for a module lock-in or post-ginning LDP is irrevocable and cannot be cancelled or revised unless the LDP is denied due to payment limitation; b) any request for a gin-direct LDP is irrevocable on or after the date of ginning; c) entry of information on Page 3 of this application constitutes an irrevocable application for the Adjusted World Price (AWP) to be locked in on the date an accurately completed application is submitted for an LDP based on gin-provided documentation identifying the bales produced from the module/storage unit for which the AWP lock-in applies. 					
PART C - PRODUCER SIGNATURE AND CERTIFICATION (For additional signatures, complete CCC-633 EZ Continuation Part C)					
<small>I/we certify all information entered on this form is true and correct. By certifying to the terms and conditions in Part A, the producer(s) hereby enters into this agreement with CCC for all eligible commodities. The producer(s) agrees: 1) any false claim or false statement may lead to civil liability or criminal prosecution; 2) LDP's may be selected for spot-check and the producer will be required to provide supplemental documents to determine program eligibility; 3) to forgo a commodity loan on the quantity requested for LDP unless a quantity is denied LDP due to payment limitation; 4) not to refund any LDP amount in order to obtain a commodity loan; 5) this agreement and subsequent payment request is subject to CCC determination of producer and commodity eligibility subject to 7 CFR Parts 1421, 1425, 1427 and 1434; 6) that CCC shall require refund of LDP, plus interest, from the date of payment if producer(s) and/or commodity is later determined ineligible by CCC; 7) CCC shall assess administrative penalties and/or liquidated damages in accordance with 7 CFR Parts 1421, 1425, 1427 or 1434, as applicable, if producer(s) misrepresented the eligible quantity and/or commodity covered by this agreement; 8) the maximum eligible quantity and yield determinations must equal the quantity and yield determinations for disaster or crop insurance indemnity payments, when and if applicable; and 9) to submit the applicable CCC-633 EZ, Page 2, Page 3, Page 4 or an eLDP online request before obtaining LDP amounts.</small>

 - appeal rights according to 1-APP.

Note: Rewrite the letter to reflect the reason for LDP denial, as applicable.

If LDP benefits are denied because of payment limitation or AGI, producers are afforded the opportunity to request a nonrecourse loan by the final availability date if all eligibility requirements are met. It is the producer's responsibility to keep track of requested benefits that are applicable to payment limitation.

Section 2 Commodities Harvested as Other Than Grain

320 Eligibility for LDP

A Commodity Definitions

Eligible commodities include wheat, corn, grain sorghum, barley, oats, rice, soybeans, sunflower seed, sesame seed, rapeseed, canola, safflower, flaxseed, mustard seed, crambe, dry peas, small chickpeas, or lentils meeting the definitions included in Official U.S. Standards for Grain.

B Eligible Commodities

Eligible commodities harvested as other than grain are any loan commodities produced on a farm that is:

- harvested as:
 - *--hay

 - ground corn
 - cracked, rolled, or crimped
 - silage--*
- roasted
- processed immediately upon harvest or later processed, as applicable
- mutilated, mixed, or ground with other parts of the plant that produced the commodity
- stored in an unmeasurable structure.

*--Note: Hay and silage are **not** eligible for MAL.--*

Commodities must be mechanically harvested. Grazing is not considered harvested and is not eligible for LDP.

320 Eligibility (Continued)

C Requests

LDP's must be requested on CCC-633 EZ * * *.

D Maximum Eligible Quantities

To process LDP on commodities harvested as other than grain, determine the maximum eligible production according to paragraph 536.

LDP requests may be certified to establish the LDP rate and should be certified in tons or acres, as applicable.

When the bushel or cwt. is determined, according to paragraph 536, the LDP request can be approved and payment made.

321-332 (Reserved)

Section 3 Low Quality Commodities**333 Eligibility for LDP****A Commodity Definitions**

Commodities with quality factors falling to the additional schedule of discounts in the applicable 2-LP handbook are considered “low quality” and are eligible for LDP.

B LDP Request

Request LDP’s on CCC-633 EZ.

C LDP Rate

Use the LDP rate applicable to the date of:

- request for basic LDP’s
- delivery for field direct LDP’s
- *--feeding for commodities fed during harvest.--*

D Production Evidence

Production evidence is required according to Part 5, Section 3, when producers are selected for spot check.

334-344 (Reserved)

Section 4 Contaminated Commodities**345 Eligibility for LDP****A Commodity Definitions**

Contaminated commodities are commodities that contain any of the following:

- mercurial compounds
- toxin producing molds, such as aflatoxin
- other substances poisonous to humans or animals
- contamination in food commodities.

Illegally contaminated and nonmarketable commodities that test positive for a contaminant are not eligible for loan or LDP.

B Eligible Commodities

Contaminated commodities are eligible for nonrecourse loans according to Part 4, Section 2. Any contaminated commodity must be merchantable to be eligible. Any commodity eligible for nonrecourse loan is eligible for LDP under this section.

Contaminant testing is not required for LDP.

C LDP Request

--Request LDP's on CCC-633 EZ, Page 1, and Page 2, 3, or 4, as applicable.--

345 Eligibility for LDP (Continued)

D LDP Rate

Use the LDP rate applicable to the date of:

- request for basic LDP's
- delivery for field direct LDP's
- harvest for commodities immediately fed during harvest.

E Production Evidence

Production evidence is required according to Part 5, Section 3, when producers are selected for spot check.

346-356 (Reserved)

Section 5 High Moisture and Excess Moisture Commodities

357 HM, EM, or ATHM Commodities for LDP

A Availability

LDP's are available to eligible producers who harvest:

- HM corn or grain sorghum
- ATHM commodities
- EM commodities, according to paragraph 126.

LDP's are **not** available for EM quantities exceeding the set moisture level determined by STC.

***--Note:** Moisture levels shall be reviewed by STC on an annual basis.--*

B Requesting HM or EM Commodities for LDP's

LDP's may be requested on HM or EM commodities:

- in farm storage
- ~~*--delivered immediately at harvest--*~~
- harvested as commodities and immediately fed during harvest.

Requests for farm-stored HM or EM commodities:

- must be physically in existence at the time of the LDP request
- that will be used for feed shall be supported by acceptable production evidence determined as maximum eligible quantity when selected for spot check.

357 HM, EM, or ATHM Commodities for LDP (Continued)

C Determining Quantity

The quantity shall be 100 percent of:

- certified quantity adjusted for moisture
- adjusted measured quantity, if stored in a structure that can be measured
- adjusted net quantity, if LDP is requested with production evidence that has not been adjusted for moisture
- quantity determined according to paragraph 536, for quantity stored in unmeasurable structures.

D Setting Moisture Levels

STC's shall set moisture levels according to paragraph 126.

357 HM, EM, or ATHM Commodities for LDP (Continued)**E Moisture Adjustment**

Moisture adjustments are required when the:

- LDP is:
 - certified and the producer certified to a high moisture level
 - based on measured quantities
 - certified and the producer provides production evidence showing moisture levels and the net quantity have not been adjusted for moisture
- moisture level is:
 - greater than the maximum eligible level for the commodity
 - equal to or less than the moisture set by STC, but higher than the standard moisture levels, according to 2-LP Grains and Oilseeds.

F Adjusting Quantity for Moisture

The quantity determined by:

- certification shall be adjusted for moisture:
 - by using the average factor when moisture percent is not available according to subparagraph G
 - to the maximum eligible level for the commodity when moisture percent is available according to Exhibit 4
- measurement shall be adjusted for moisture:
 - determined at time of measurement
 - according to Exhibit 4
 - to the maximum eligible level for the commodity
- production evidence shall be adjusted for moisture if:
 - moisture levels are indicated
 - the net quantity has not been adjusted, as applicable.

357 HM, EM, or ATHM Commodities for LDP (Continued)**G Using Average Factor When Moisture Percent Is Not Available**

The certified quantity must be adjusted for moisture using an average factor, applicable to the HM, EM, or ATHM commodity, when a moisture percent is not available.

The average factor is determined using 27.0 percent as the average moisture for the HM, EM, or ATHM commodity.

Example: The average factor for corn is determined by subtracting the corn moisture of 15.5 percent from 27.0 percent and multiplying the difference times 1.3 percent. This calculates to an average factor for corn of 15.0 percent.

Calculate the shrink reduction to determine the adjusted LDP quantity as follows:

Quantity certified for LDP is 9,586 bushels of corn.

- Multiply 15.0 percent times 9,586 bushels to equal 1,438 bushels.
- Subtract 1,438 from 9,586 to equal 8,148 bushels.
- The quantity eligible for loan or LDP is 8,148 bushels.

H Production Evidence

Producers are required to submit production evidence only if LDP's are selected for spot check.

Adjustment to moisture should be completed **only** when net quantities have not been adjusted for moisture or production evidence is a measurement.

See Part 5, Section 3 for additional information for production evidence.

358-370 (Reserved)

Section 6 GRAZE-OUT Payments**371 Basic Provisions****A Definition of GRAZE-OUT Payments**

[7 CFR 1421.300] GRAZE-OUT payments are payments made to eligible producers who, although eligible to obtain a CCC loan:

- elect to use acreage planted to wheat, barley, oats, or triticale, for the grazing by livestock
- agree to forgo any other harvesting of the commodity on this acreage during the applicable crop year.

B Definition of Triticale

Triticale is grain that consists of 50 percent or more of whole triticale (*X Triticosecale* Wittmack) and not more than 10 percent of other grains for which standards have been established under the United States Grain Standard Act.

C Prohibiting Crop Insurance Indemnity or NAP

Producers who elect to graze the 2002 through 2007 crop wheat, barley, oat, or triticale will not be eligible for an indemnity for the same acres under the Federal Crop Insurance Act or NAP.

372 General Information**A Eligibility Requirements**

GRAZE-OUT payments are subject to the same basic eligibility requirements as commodity loans and LDP's including, but are not limited to the following:

- payment limitation
- person determinations
- beneficial interest
- misaction or misinformation
- offsets
- death, incompetency, disappearance, or dissolution of a producer.

B Application Period

The application period for GRAZE-OUT:

- begins on the first day of mechanical harvest as determined by COC
- ends on March 31 of the calendar year following the year the crop is normally harvested.

Producers may file an application for GRAZE-OUT anytime during this application period.

Reminder: Applications may **not** be cancelled or withdrawn once requested.

COC shall determine and document in the COC minutes the beginning harvest date in the county for wheat, barley, oats, and triticale. This will be the earlier of the first date of normal harvest for wheat, barley, oats, and triticale harvested as other than grain or wheat, barley, oats, and triticale harvested as grain.

373 Specific GRAZE-OUT Eligibility Requirements

A Eligible Producer

An eligible producer for GRAZE-OUT purposes must meet the producer eligibility requirements according to paragraph 100 and all of the following:

- requests GRAZE-OUT payments on CCC-633 GRAZING before March 31 of the calendar year following the year the crop is normally harvested
- agrees to forgo any other harvesting of the commodity on the acreage
- retains beneficial interest through the date the crop is grazed out.

B Eligible Acres

Eligible acreage for GRAZE-OUT purposes is any acreage of wheat, barley, oats, or triticale that is not harvested by any means other than grazing.

The eligible acreage must be reported on FSA-578 and the intended use must be for “grazing”.

The requested crop acreage is not eligible for:

- any other marketing assistance loans or LDP’s
- a crop insurance indemnity
- NAP or CDP.

Note: Acreage intended for grazing is ineligible for CDP.

*--For double-cropping acreage, COC’s shall determine if it is normal for the producer to harvest a subsequent crop after the initial crop is grazed or mechanically harvested. If it is determined to be normal planting practices for the producer and the producer did not double-crop for the sole purposes to take advantage of the GRAZE-OUT program, the crop acreage is eligible.

Note: The subsequent crop cannot be the same crop as the initial crop, such as spring wheat following winter wheat or spring barley following winter barley.--*

373 Specific GRAZE-OUT Eligibility Requirements (Continued)**C Grazing Leases and Eligibility**

Producers who lease cropland to a second party for grazing on the gain or on a per head per month basis are:

- not considered to have lost beneficial interest
- eligible for GRAZE-OUT payments on the eligible commodity if all other eligibility requirements are met.

Producers are **not** eligible for GRAZE-OUT payments regardless of when beneficial interest is lost if **any** of the following occur:

- grazing occurred on nurse crops that would not have met the definition of the crop if harvested as grain
- beneficial interest is lost and later regained
- the crop is leased to a third party for grazing on a flat per acre rate
- no grazing occurred
- mechanical harvest occurred.

Owners who lease such land are not eligible for GRAZE-OUT payments.

374 Filing Applications**A Filing CCC-633 GRAZING**

Producers must request GRAZE-OUT payments by FSN on CCC-633 GRAZING.

Any producer or producers who share in the grazing of the acreage can request benefits on CCC-633 GRAZING.

If multiple producers share in the acreage:

- all signatures must be obtained on CCC-633 GRAZING before the request is considered complete
- the shares must equal 100 percent.

See paragraph 376 for instructions on completing CCC-633 GRAZING.
CCC-633 GRAZING is available in PDF format at the following websites:

- the PSD website at **<http://www.fsa.usda.gov/dafp/psd/>**
- the FFAS Intranet website at **<http://165.221.16.90/dam/ffasforms/forms.html>**.

County Offices shall locally reproduce CCC-633 GRAZING.

Eligible producers can obtain CCC-633 GRAZING from the FSA Administrative County Office for the farm as follows:

- in person
- by mail, telephone, or FAX.

Producers may download applications from the PSD website at **<http://www.fsa.usda.gov/dafp/psd/>**.

374 Filing Applications (Continued)**A Filing CCC-633 GRAZING (Continued)**

All applications, including applications requested by mail, telephone, FAX, or downloaded from the Internet, must be completed correctly, signed, and returned to the FSA Administrative County Office on or before March 31 of the calendar year following the year the crop is normally harvested.

Eligible producers must request CCC-633 GRAZING:

- after the date COC determines barley, oats, triticale, or wheat is normally mechanically harvested for the crop year
- no later than March 31 of the calendar year following the year the crop is normally harvested.

B Producer Certification

Eligible producers must file CCC-633 GRAZING for acres grazed or to be grazed. In addition, acreage and intended use must be certified as “grazing” on FSA-578.

If the intended use was reported as grain, but was actual grazed, County Offices shall note the actual use in the “Remarks” section of FSA-578.

Example: A producer who reports wheat on FSA-578 with the intended use of grain, later elects to graze the wheat. To get the graze out payment, FSA-578, “Remarks” section **must** indicate that the wheat was grazed.--*

375 Payment Rate and Calculations

A GRAZE-OUT Payment Rate

The GRAZE-OUT payment rate is determined by the amount the applicable commodity loan rate exceeds the CCC-determined value of the commodity for the county where the farm is located.

County Offices shall refer to 8-LP, Part 9, Section 7 for calculating the CCC-determined value.

The GRAZE-OUT payment rate is the rate in effect on the day a completed CCC-633 GRAZING is received in the FSA Administrative County Office.

CCC-633 GRAZING is complete when all applicable:

- entries have been completed by the producer according to this paragraph
- all applicable producer signatures have been obtained.

For triticale, the payment rate is calculated based on the predominant class of wheat yield in that county associated with the producers farm.

375 Payment Rate and Calculations (Continued)**B Applicable Yield**

For GRAZE-OUT, the yields are defined as follows:

- for 2002 through 2007 crop years, the payment yield shall be the yield in effect for
--calculating the direct payment yield under DCP according to 7 CFR Part 1421--

* * *

- *--in case of a farm for which a direct payment yield under DCP is not available for a covered commodity, establish an appropriate payment yield for the covered commodity on the farm taking into consideration the direct payment yield under DCP applicable to the commodity using 3 similar farms--*

* * *

- for triticale, the payment yield shall be the predominant class of wheat yield in that county associated with the producer's farm.

C Payment

Calculate the GRAZE-OUT payment by multiplying the actual grazed acreage requested for grazing times the applicable yield times the payment rate.

Part 4 Loanmaking Provisions

Section 1 Basic Loanmaking

400 Obtaining Loans

A Availability of Loans

[7 CFR 1421.100] Eligible producers may obtain loans by placing the eligible commodity in:

- approved farm storage structure and obtaining a loan, on the quantity determined according to paragraph 430, using either of the following options:
 - *--CCC-666 for a certified farm-stored loan request
 - CCC-666 and FSA-409 for a measured farm-stored loan request.--*
- CCC-approved warehouse storage and obtaining a loan on 100 percent of the net quantity shown on the warehouse receipt
- unlicensed facilities, if the loan is repaid on the same day as the loan disbursement with a commodity certificate, according to Part 9, Section 8.

Eligible producers may obtain LDP's instead of a loan. See Part 3 for LDP provisions.

B Producers in Bankruptcy

For producers involved in bankruptcy proceedings, obtain the regional attorney's advice:

- through the State Office
- according to 58-FI.

400 Obtaining Loans (Continued)**C CMA's Obtaining Loans or LDP's**

CMA's may:

- obtain farm-stored loans on commodities that are stored on the member's farm in approved storage structures, if other eligibility requirements are met, such as beneficial interest
- obtain warehouse-stored loans on commodities stored in approved warehouses
- request separate loans for commodities determined eligible for nonrecourse or recourse loans
- **not** obtain loans on quantities on which members:
 - obtain individual LDP's
 - place under individual loans and eventually deliver to CMA, unless the producer repays the loan at principal and charges plus interest **before** delivery to CMA.

401 Requesting Loans

A Where Producers Request Loans

[7 CFR 1421.104] Producers shall request loans through the County Office that maintains the farm program records.

If the producer farms in more than 1 county, the County Office **first** contacted shall:

- accept requests and process loans
- contact other County Offices when either of the following applies:
 - the request covers eligible production from more than 1 farm and the farm program records are kept in more than 1 County Office
 - loans were received from more than 1 County Office
- send a copy of the loan documents to the applicable County Office.
- *--complete CCC-770 MAL before approving the loan disbursement.--*

B Where CMA's Request Loans

CMA's shall request loans at a CMA service County Office identified in 1-CMA, Exhibit 7.

401 Requesting Loans (Continued)

C When to Request Loans

Requests for loans:

•*--may be received by mail, filed in person, or by FAX--*

- shall be requested no later than the final loan availability date, according to subparagraph 127 C

Note: When the final loan availability date falls on a nonworkday, the final date shall be extended to the next workday.

- shall be processed and disbursed through APSS as soon as possible, according to the applicable commodity handbook
- shall be handled according to the Prompt Payment Act requirements in paragraph 16 and 61-FI

Note: County Offices shall **not** honor requests from producers to delay disbursements on completed applications.

- shall be requested **before** beneficial interest is considered lost; see paragraph 129
- can be canceled or revised **before** the loan is disbursed.

Farm-stored loan requests can be electronically transmitted to the County Office where the farm records are maintained, if the applicable producer received electronic access credentials through eAuthentication. Electronically transmitted loan requests are processed in the APSS in the normal manner.

D Joint Loans

Loans may be disbursed jointly if the commodity is either of the following:

- jointly owned
- stored in the same storage structure.

402 Denial Notification of Loan Benefits

A Notifying Producer

When the producer is denied loan benefits, County Offices shall:

- immediately notify the producer in writing
- *--use the letter in Exhibit 5, subparagraph L and include the following:--*
 - reasons for denial of the loan
 - right to appeal COC's decision
 - availability of warehouse-stored loan or recourse loan, as applicable.

* * *

403 Lien Searches**A General Information**

[7 CFR 1421.104] A lien search shall be performed in the appropriate recording official's office according to State law for:

- **all** loan requests that meet the criteria in subparagraph B, except for loans made to:
 - CMA's according to subparagraph D
 - a producer who will immediately exchange the commodity certificate for loan collateral according to Part 9, Section 8
- warehouse-stored collateral transferred to farm storage.

For multi-county producers, the loanmaking County Office shall conduct or obtain the lien search at the appropriate location according to State law.

Contact the regional attorney, through the State Office:

- when assistance or advice is needed
- for assistance when any of the following conditions apply:
 - producer has farming operations in more than 1 State
 - commodity is stored in another State
 - commodity is moved to another State during the loan period.

403 Lien Searches (Continued)

--B Criteria for Conducting Lien Searches and Filing UCC-1--

County Offices shall conduct lien searches and file UCC-1 documents according to the following.

Loan Amount / Loan Type	Conduct Lien Search		UCC-1 or applicable financing statement	
	Yes	No	Yes	No
<\$25,000				
Farm-Stored		X	X	
Warehouse-Stored		X		X
>\$25,000				
Farm-Stored	X		X	
Warehouse-Stored	X			X
Note: If conducting lien searches is a free service provided through the State, lien searches may be conducted on all loans regardless of the dollar amount.				

County Offices shall perform lien searches and perfect the security interest, regardless of the loan amount, **if** 1 of the following applies:

- producer is, at the time of the loan request, either of the following:
 - involved in a bankruptcy
 - under investigation by OIG
- producer committed a MAL/LDP violation in the current or preceding crop year
- CCC is notified by the producer, lending institution, or lien holder that a lien exists on the commodity
- aggregate loan principal for the crop year will exceed \$25,000.

Note: County Offices shall file applicable UCC-1’s required by State law, to protect CCC’s security interest according to paragraph 423, regardless of MAL principal.

C Recording UCC-1 for Chattel Mortgage Filing Date in APSS

APSS was enhanced to **not** require filing dates of UCC-1 for loans less than \$25,000. County Offices are instructed to enter the date UCC-1 was filed in the “UCC-1 or Chattel Mortgage Filing Date” field on Screen PLA13005 for **all** loans.

403 Lien Searches (Continued)**D When to Perform Lien Searches**

The lien search shall be performed:

- **after** the loan request is filed and **before** the loan is approved
- when collateral for a warehouse-stored loan is transferred to farm storage according to paragraph 818
- when loan collateral will not be immediately exchanged for the entire loan quantity on the date of loan disbursement.

Do **not** perform the lien search **before** the request is filed.

Advise the producer that the loan cannot be disbursed until the lien search is completed and necessary lien waivers are obtained according to paragraph 404.

E Action After Lien Search Performed

When a lien search is completed, the County Office shall:

- file the results of the search in the applicable loan folder
- require the producer to provide CCC-679, according to paragraph 404, for each lienholder discovered on the lien search.

F CMA's Responsibility

Make administrative offsets from loan or LDP amounts due producers, if appropriate, according to 58-FI:

- after the notification letter has been mailed to the producer, including the notification when a loan is transferred to claims with collateral remaining on the farm
- by issuing CCC-184's according to 1-FI.

When applicable, deposit CCC-184 according to 3-FI.

B Joint Disbursement of Loan Proceeds

The balance of the loan proceeds may be disbursed jointly to the producer and lienholder **after** applicable administrative offsets to CCC, FSA, or other creditor agencies, as applicable, according to 58-FI, have been made when the lienholder requests joint disbursement on CCC-679 for:

- recorded lien
- unrecorded lien, if **actual** notice of lien is given to the County Office.

For other creditor agency claims received in the County Office:

- **before** the filing date of any recorded lien or notification of an unrecorded lien, the lienholder must agree to the creditor agency debt offset **before** disbursement of loan proceeds jointly to the producer and lienholder by checking CCC-679, item 8, block (3)

410 Offsets (Continued)

C Authorizing Offsets

Offsets may be made for amounts contained on a separate statement of unpaid charges, or for a separate bill for unpaid charges, if **both** of the following apply:

- the charges on the statement or bill are associated with the handling of the commodity represented by the warehouse receipt
- the charges have been approved by DAFP.

These charges are **not** considered a lien, but **must** be included on CCC-679, item 8, block (3), if an offset will be made for the charges. See paragraph 404.

If an offset applies, do **not** disburse the loan unless the lienholder agrees to the offset on CCC-679 by checking item 8, block (1) or (3). If any lienholder checks item 8, block (2), the loan shall **not** be approved.

Offsets shall **not** be made for unpaid charges on a warehouse receipt, such as drying or hauling. These charges are considered a lien on the commodity and shall be handled according to subparagraph 451 B.

Exception: For peanuts only, County Offices are authorized to offset charges associated with the cleaning and drying of peanuts from the producer's loan proceeds. These charges must be included on CCC-679, item 8, block (3) if an offset will be made for these charges.

Section 2 Farm-Stored Loans

422 Nonrecourse Loan Request and Loan Rates

A Requesting Farm-Stored Loans

[7 CFR 1421.105] When requesting farm-stored loans, producers shall:

- for certified loans, certify the quantity in farm storage on CCC-666 according to paragraph 426
- for measured loans:
 - complete CCC-666 according to paragraph 426
 - request measurement service according to paragraph 427 and Exhibit 7.

B Loan Rates Adjusted for Test Weight and Sample Grade Commodities

Use the loan rate for the county where the commodity is stored to calculate the loan amount
*--for certified or measured farm-stored loans. When the test weight discount is on the:

- crop year specific schedule of premiums and discounts, adjust the loan rate for the--*
higher of the discount, as applicable, for test weight or grade based on test weight

Note: See 2-LP Grains and Oilseeds for test weight and grade discounts.

- *--additional schedule of discounts, adjust the loan rate to 20 percent.--*

Note: Do not apply any additional discounts.

Sample grade commodities and low quality commodities as defined in subparagraph 126 F that do not meet warehouse-stored loan standards are eligible for nonrecourse loans. The loan rate shall be 20 percent of the loan rate for the county where the commodity is stored to calculate the loan amount.

422 Nonrecourse Loan Request and Loan Rates (Continued)

C Loan Rate for Commodities Harvested as Other Than Grain

The loan rate shall be 30 percent of the loan rate for the county where the commodity is stored to calculate the loan amount for certified or measured farm-stored loans on commodities harvested as other than grain.

D Contaminated Commodities

The loan rate shall be 10 percent of the loan rate for the county where the commodity is stored to calculate the loan amount for certified or measured farm-stored loans on contaminated commodities exceeding acceptable levels according to paragraph 133.

423 Filing UCC's**A Revision to Article 9 of UCC**

All States have adopted the revision to Article 9 of UCC. One of the key changes included centralizing the electronic filing of most security interests for States without a pre-existing centralized filing system. However, as States transition to a centralized, electronic UCC filing and recording system, the means by which UCC's are filed and paid for may vary from State to State. State Offices shall:

- continue to follow the advice of the regional attorney
- request, from PSD, isolated exceptions to policy in this paragraph based on the following:
 - written direction or recommendations from the regional attorney
 - PSD concurrence.

Example: The regional attorney advises that filing UCC-1 without a loan applicant's signature negates the double jeopardy protection afforded secured lenders by certain State laws according to Pub. L. 99-198, Section 1324. In this case, upon PSD concurrence, the State Office may direct County Offices to continue requiring that a loan applicant must sign UCC-1, as advised by the regional attorney.

B Applicability

County Offices shall file applicable UCC-1's required by State law to protect CCC's security interest:

- for all farm-stored loans except for loans made to a producer who will immediately exchange the commodity certificate for all loan collateral according to Part 9, Section 8
- for warehouse-stored loan collateral transferred to farm storage
- immediately after the lien search and before loan disbursement so there can be no intervening interests.

423 Filing UCC's (Continued)

C When to Disburse Loans

County Offices shall:

- disburse loan proceeds after:
 - appropriate documents have been filed
 - written verification of the UCC-1 filing date and time are received
- not allow requests for lock-in of the repayment rate until the loan has been disbursed
- not delay loan disbursements until the applicable form has been **recorded** by the proper official.

D Where to File UCC's

Generally, UCC's are filed in the State where, in the case of an:

- individual, the individual resides
- organization or entity, the organization or entity was registered.

Note: See paragraph 414 to determine the UCC filing location based on CCC-10 data.

The UCC-1 filing location no longer depends on the location of the commodity, as shown in the following table.

IF...	THEN...
<ul style="list-style-type: none"> • commodity is stored in multiple counties within the same State • commodity is stored in a State different from the producer's principle residence 	file UCC in the State having jurisdiction according to the current CCC-10, unless otherwise advised by the regional attorney.
farm-stored loan collateral is moved to another State for storage after perfection of the lien	no additional UCC-1 is filed because the lien is still perfected, unless otherwise advised by the regional attorney.

423 Filing UCC's (Continued)

E Describing Collateral on UCC's and Other Situations

Describe collateral on UCC's according to the following.

IF...	THEN...
additional quantity is placed under loan	file another UCC-1 describing the collateral, if the quantity is not covered by a previously recorded UCC.
existing UCC-1 for that commodity covers all the current year production	it is not necessary to file additional UCC-1's.
producer requests a specific quantity	only that quantity needs to be described on UCC-1 before the loan is disbursed.
producer agrees to lien on quantity greater than the loan quantity requested that may also apply to more than 1 crop year or may be effective until UCC-1 expires	describe the collateral on UCC-1 as advised by OGC.

F Paying Filing Expenses

County Offices shall pay filing fees according to the following.

IF the...	THEN...
filing cost is for a financing statement, such as UCC-1	issue CCC-184 according to 1-FI.
producer requests termination of CCC's security interest	prepare and file applicable UCC, at producer's expense, according to paragraph 903.
termination fee is included in the filing fees	pay the termination fee with CCC-184 issued for filing fees.

Note: Do not include any of these fees in the service fee for the loan.

424 Eligible Storage Structures**A Approved Farm Storage**

[7 CFR 1421.103] Approved farm storage shall consist of a storage structure:

- located on or off the farm, excluding public warehouses as defined in Exhibit 2, that provides safe storage for the commodity through the maturity date for the loan
- designed so that the commodity can be:
 - measured, safely inspected, and sampled, if necessary
 - safely stored in oxygen-limiting structures, as applicable.

Commodities stored in all types of bags may be eligible for loan if **all** of the following apply:

- COC determines CCC's interests are not at risk and that the bags provide safe storage
- this method of storage and the size of bags are normal for the commodity **and** in that county

Note: COC, with STC concurrence, may waive this requirement on a case-by-case basis.

- the commodity shall **not** be accepted in bags for delivery to CCC.

B Approved Warehouse Storage

Warehouse-stored loans are available only on commodities actually stored in warehouses operating under an approved UGRSA at the time either of the following occurs:

- warehouse-stored loan is requested
- farm-stored loan collateral is transferred to warehouse storage.

425 Producer Certification for Loan**A Applicable Form**

Producers shall certify to the quantity and quality of a commodity and the eligibility for a certified farm-stored loan. County Offices shall accept the producer's certification on CCC-666.

Remind producers of the administrative actions applicable for incorrect certification.

COC shall **not** require that all loans based on the producer's certification be spot-checked or measured before or after disbursement.

B Producer Certification

The producer shall sign CCC-666 certifying:

- to having beneficial interest in the commodity
- the quantity in the structures and how the determination was made
- the quantity on which to base the loan
- the storability of the commodity
- the location of the commodity and, if applicable, additional designated storage structures
- that CCC-683 * * * will be posted on the structures containing loan collateral as instructed when the loan is disbursed
- whether there are lienholders having an interest in the commodity that will secure the loan
- the class applicable to the commodity
- that the identity of the commodity securing the farm-stored loan will remain unchanged
- the commodity securing the farm-stored loan will not be moved or commingled with any other commodity without prior written approval of the County Office.

If producers designate additional storage structures according to paragraph 428, loan collateral may be moved without prior County Office approval.

Before signing CCC-666, the producer must ENTER "yes" or "no" to the question, "Are you or any co-applicant delinquent on any Federal non-tax debt?" If the producer answers "yes", see subparagraph 101 B.

425 Producer Certification for Loan (Continued)

C Distributing CCC-666

File original in the producer's loan folder and provide a copy to the producer.

427 Measurement Service for Loan or LDP**A Requesting Measurement Service**

The producer may request and receive measurement service for a loan application or LDP for all commodities.

***--Note:** If the producer is **not** requesting either a measured loan or LDP at the time of the measurement service request, a new service shall be performed, at the producer's expense, when the loan or LDP request is made.

County Offices shall:

- complete CCC-666--*
- file request on FSA-409 and complete according to 2-CP
- initially prepare CCC-677-1 for use by the commodity loan inspector. See Exhibit 7.

See Part 3 when measurement service is needed to determine quantity for an LDP request.

County Offices shall **not** provide measurement services for commodities stored in:

- approved or unapproved warehouses
- structures that cannot be safely accessed
- sealed structures, such as oxygen-limiting structures.

427 Measurement Service for Loan or LDP (Continued)

B Measurement Service Fees

Establish measurement service fees according to 2-CP.

Fees may be:

- collected when the producer requests the service or upon completing the service
- deducted from the loan proceeds as a payee to CCC.

C Producer Responsibilities

[7 CFR 1421.105] The producer must provide access to the commodity during inspection. If safe access to the structure and commodity is **not** available, the commodity inspector shall:

- not complete the measurement service request
- record the conditions on CCC-677-1 and report the findings to the County Office.

To ensure accurate measurements, the producer should:

- leave excess space on top of commodity in structure
- level the commodity, if possible
- square ends and sides of commodity piles by using bulkheads if commodity is stored in a flat structure.

427 Measurement Service for Loan or LDP (Continued)

D Commodity Inspector Responsibilities

Commodity inspectors shall follow the steps in this table when measurement service has been requested.

Step	Action
1	<p>Measure commodity stored in all structures that may be safely accessed that will be included in the disbursement.</p> <p>To ensure accurate measurements, if the commodity is not level:</p> <ul style="list-style-type: none"> • record depth of commodity from several places in the storage structure • use the average measurements for entries on CCC-677-1. <p>Commodity inspectors shall not measure any commodity stored in a structure that is not safe to measure.</p>
2	<p>Check the commodity and structures, as applicable, for any of the following conditions:</p> <ul style="list-style-type: none"> • insect infestation • heating because of excess moisture • rodent or other animal or bird damages • structural damage. <p>Record on CCC-677-1, remarks section, any factors that could affect storability or quality of the commodity.</p>
3	<p>Draw a representative sample, using the method according to 5-LP, with a standard grain probe from varying depths of the commodity throughout all storage structures that will be included in the disbursement.</p> <p>Note: Do not obtain sample solely from the surface of the stored commodity.</p>

F Applying Certain Factors to Loan and LDP Quantities

Apply, to loan and LDP quantities, test weight factor, combined test weight and pack factors, and moisture shrinkage factor, as applicable. Use the following:

- combined test weight and pack factors to determine the measured quantity of barley, corn, oats, grain sorghum, soybeans, and wheat
- test weight and pack factors to determine the measured quantity for oilseeds, except soybeans
- *--as applicable, moisture shrinkage factors, according to Exhibit 4, when determining--* the measured quantity for:
 - oilseeds, except soybeans
 - all other commodities, including soybeans and ear corn.

Do not apply the combined factors to any of the following:

- grain **not** stored in a structure
- HM and ATHM corn and grain sorghum
- cracked, rolled, or crimped shelled or ear corn.

For soybeans, the net weight and net bushels shall be the gross weight minus the weight of the foreign material exceeding 1 percent.

Exhibit 45 provides the combined test weight and pack factor tables for commodities. The factors in columns 2 through 4 of the tables match the combined test weight and pack factors used in APSS when calculating quantity. For larger structures, the last 3 columns have been developed but are not equal to the combined test weight and pack factors used in APSS. When determining quantity using the combined test weight and pack factors in Exhibit 45, County Offices shall:

- enter the determined test weight when entering the measurement in APSS on Screen PLB12000 in the normal manner
- manually compute the quantity using the last 3 columns of Exhibit 45 for larger structures, as applicable
- enter that manually calculated quantity on Screen PBL1200 in the field, “If a measured quantity is not used, enter the weighted quantity”
- remind producers that they must verify the measurements and are responsible for the entire loan amount.

428 Additional Storage Structure Designation for Loans**A Designating Additional Structures**

Producers shall be provided the opportunity to designate **additional** eligible storage structures to which loan collateral may be moved during the loan period.

Producers may request to designate structures:

- at time of loan application on either of the following, as applicable:
 - CCC-666 according to paragraph 426
 - CCC-677-1 according to paragraph 427 and Exhibit 7
- at loanmaking on CCC-677
- after loanmaking on CCC-687-1 according to paragraph 800.

B Designated Structures

The designated structures may be:

- any or all structures under the producer's control
- structures that contain:
 - the producer's loan collateral
 - other producer's loan collateral.

The designated structures shall meet the eligible storage requirements according to paragraph 424.

429 Completing CCC-665 for Commingled Production**A Commingled Commodities**

All producers whose commodities are stored commingled in a storage structure, when all or a portion of the commodity is or will be collateral for **separate** CCC loans, shall sign CCC-665. See subparagraph B for an example of CCC-665.

Note: If all applicable producers do **not** sign CCC-665, loans shall, as applicable:

- **not** be disbursed
- be called.

Producers whose commodities are stored commingled in the same storage structure may obtain **joint** loans in the normal manner when **all** producers sign CCC-677. CCC-665 is not required in this situation.

See Part 8, Section 1 for additional commingling provisions.

429 Completing CCC-665 for Commingled Production (Continued)

B Example of CCC-665

County Offices shall use CCC-665 when subparagraph A is applicable.

430 Quantity Determination

A Maximum Quantity

The loan quantity for certified or measured farm-stored loans shall **not** exceed 100 percent of the eligible quantity certified by the producer.

For maximum quantity limitations for:

- distress loans, see paragraph 481
- acquired commodities for HM recourse loans, see paragraph 473.

The quantity for measured loans may be based on either of the following:

- measured quantity determined according to paragraph 427
- a quantity that was previously determined by measurement for other program purposes, such as disaster determinations, when COC:
 - has no reason to believe any commodity has been removed
 - determines the commodity is in storable condition
 - documents these facts in the COC minutes.

The mortgaged quantity shall be the loan quantity.

430 Quantity Determination (Continued)

B When to Conduct Moisture Tests

Conduct moisture tests according to the following.

IF...	THEN...
there is reason to believe the moisture exceeds the standard level applicable to the commodity	field representatives shall draw samples for moisture testing when completing: <ul style="list-style-type: none"> • spot checks on farm-stored commodities • measurement service.
moisture problems are known to exist	<ul style="list-style-type: none"> • COC's may direct field representatives to draw samples for moisture testing • STC's may direct COC's to require moisture testing in 1 or more counties.
	County Offices shall determine the moisture content for: <ul style="list-style-type: none"> • certified loan and LDP requests made in designated areas • measurement service requests • all spot checks.

C Applying Shrink Factor for Excess Moisture

When moisture tests are conducted according to subparagraph B, adjust the certified or measured quantity as follows:

- for oilseeds, except soybeans, 1.1 times each percent or fraction thereof over the standard moisture percentage in 2-LP Grains and Oilseeds
- for all other commodities, including soybeans, 1.3 times each percent or fraction thereof over the standard moisture percentage in the applicable 2-LP.

--See shrink factors in Exhibit 4, as applicable. The factors in Exhibit 4, page 1, are the factors for APSS.--

431 Quality Determination

A Quality Adjustment

Quality determinations for test weight are required for farm-stored loans at the time of loanmaking for:

- certified loans in designated counties
- measurement service.

Use the test weight sample to determine eligibility for nonrecourse or recourse loans.

***--Note:** Because farm-stored MAL's are not based on official quality determinations, premiums cannot be disbursed on farm-stored loans.--*

See subparagraph 430 B for conducting moisture tests.

B Official Quality Determinations

Official quality determinations shall **not** be made for farm-stored loans.

432 Adjusting Loan Rate and Determining Quantity

A Adjusting Farm-Stored Loan Rate

Adjust the base county loan rate using the applicable discounts for farm-stored loans according to paragraph 422 for test weight discounts, commodities harvested as other than grain (except silage and hay), low quality or sample grade commodities, and contaminated commodities.

B Determining Farm-Stored Loan Quantity

Determine the farm-stored loan quantity in the normal manner, according to Part 4, Section 2.

When excess moisture is determined according to subparagraph 430 C, apply the applicable moisture shrink factor, according to Exhibit 4, to the determined loan quantity when the commodity contains moisture exceeding the acceptable eligible level for the commodity.

433 Reducing Farm-Stored Loan Rates in Designated Areas**A Requesting State Office Approval**

[7 CFR 1421.105] If COC believes CCC's interest would not be adequately protected if loans are made for the base county loan rate, COC may request State Office approval for reduced loan rate for a commodity for:

- the entire county
- designated portions of the county.

The area to be included shall be the area where the commodity is produced; not where stored.

B State Office Action

State Offices shall:

- **not** establish a blanket policy that all farm-stored loan rates be reduced for the State, particular county, or specific area of the State or county
- approve or disapprove COC requests to reduce loan rates to provide CCC with the necessary protection
- notify PSD of COC requests for approved reduction of loan rates for certified loans.

433 Reducing Farm-Stored Loan Rates in Designated Areas (Continued)

C Obtaining Test Weight and Moisture Samples

If reduced loan rates are approved for designated areas of the county according to subparagraph B, County Offices shall obtain a representative sample of the commodity produced in designated areas to determine test weight and, if applicable, moisture according to paragraph 430, for **all** of the following:

- for certified farm-stored loan requests
- when completing a measurement service
- when performing a spot check.

Do **not** submit the sample for an official grade.

D Determining Loan Rate

Adjust the reduced base county loan rate using the applicable discounts for farm-stored loans according to paragraph 422 for test weight discounts, commodities harvested as other than grain (except silage and hay), low quality or sample grade commodities, and contaminated commodities.

E Fails to Meet Nonrecourse Requirements

See recourse provisions in Section 4 for commodities that do **not** meet the minimum eligibility standards because of excess moisture.

434-442 (Reserved)

Section 3 Warehouse-Stored Loans**443 Requesting Warehouse-Stored Loans****A Warehouse Receipts**

[7 CFR 1421.106] When requesting warehouse-stored loans, producers shall present acceptable warehouse receipts from a warehouse operating under UGRSA to the County Office.

See 2-LP Grains and Oilseeds for commodity-specific warehouse receipt requirements.

B Warehouse-Stored Quantity

Warehouse-stored loans stored in an approved warehouse will be limited to 100 percent of the eligible net weight specified on the warehouse receipt or, if applicable, KC-350.

If the quantity on the receipt represents eligible and ineligible quantities, require the producer to obtain a receipt representing only the eligible quantity.

Any cost for replacement receipts shall be at the producer's expense.

Loan commodities stored in a warehouse or a facility not approved by CCC must be repaid on the same day as loan disbursement with a commodity certificate exchange, according to Part 9, Section 8.

C Commodity Loan Eligibility

To be eligible for a CCC commodity loan, the quantity and quality of grain represented by a warehouse receipt must reflect the commodity produced and delivered by the producer.

D Substitution Not Authorized

Substituted or purchased commodities are ineligible for loan.

443 Requesting Warehouse-Stored Loans (Continued)

E Loan Rates

*--Use the loan rate for the county where the commodity is stored **except** for situations covered in the following table.--*

IF the commodity is both of the following...	THEN use the loan rate...
<ul style="list-style-type: none"> • warehouse-stored • stored in a warehouse operating under a merged code agreement 	<p>for the location to which the producer delivered the commodity * * *.</p> <p>The warehouse receipt issued under merged warehouse code agreements must show the location and county to which the commodity was delivered.</p>
<ul style="list-style-type: none"> • warehouse-stored • represented by a warehouse receipt indicating the “grain covered by this receipt has been redeposited” 	<p>where the receipt is issued.</p> <p>The commodity is considered stored at the original point of delivery.</p>
<ul style="list-style-type: none"> • warehouse-stored • physically moved to the warehouse location indicated on the warehouse receipt 	<p>where the receipt is issued.</p> <p>The commodity is eligible because the commodity was physically moved to the location on the warehouse receipt.</p>

*--In any case, the loan rate shall be adjusted:

- for premiums and discounts on the applicable crop year specific schedule
- to 20 percent of the loan rate when grading factors fall to the additional schedule of discounts.--*

443 Requesting Warehouse-Stored Loans (Continued)

F Handling and Storage Charges

Do not require producers to prepay handling and storage charges. However, the producer must make arrangements for storage charges through the maturity date of the warehouse-stored loan.

Keep proof of prepaid storage in the producer's loan folder.

G Storage Not Paid Through Maturity of Loan

If the warehouse receipt does not show the storage has been paid through maturity of the loan, either of the following conditions shall be met:

- the warehouse operator shall provide either of the following:
 - an endorsement prepared and signed by the warehouse operator on the warehouse receipt or applicable KC-350
 - an attached statement cross-referenced to the warehouse receipt

Example: "Storage arrangements have been made by the depositor of the grain covered by this receipt through (date through which storage has been provided). No lien will be asserted by the warehouse operator against CCC or any subsequent holder of the warehouse receipt for the storage charges that accrued before the specified date."

- the County Office shall reduce the loan rate to reflect storage through maturity date of the loan.

If a reduction is made, the reduction is computed through APSS by multiplying the daily storage rate times the number of days. Round the result to the nearest tenth of a cent.

The number of days is determined by the later of the following dates through the maturity date:

- date the commodity was received in the warehouse
- date storage charges started
- date from which storage was provided.

444 Quality Determinations**A Basis for Quality Determinations**

The class, grade, grading factors, and all other quality factors shall be based on either of the following, as applicable:

- official United States Standards for Grain even if quality determinations are **not** made on the basis of an official inspection
- quality factors determined by CCC for commodities not listed in the official United States Standards for Grain.

The warehouse operator shall obtain official grade determinations when requested by the producer. However, CCC shall **not** pay for official grade determinations.

B Upgraded Quality Ineligible

Warehouse receipts that have been upgraded to reflect a better grain and quality than the quality that was delivered by the producer to the warehouse are ineligible for CCC loan whether or not the warehouse operator received monetary compensation.

Note: This is considered substitution and substitution is not authorized.

445 List of Approved Warehouses and List of Warehouse Offer Rates**A Approved Warehouses and Offer Rates**

A current list of UGRSA-approved warehouses and warehouse codes are available at <http://www.fsa.usda.gov/daco/kcco>.

*--County Offices can obtain the current lists and subsequent updates of UGRSA-approved warehouse offer rates at

http://intra2.fsa.usda.gov/whserates/grain/warehouse_rates.asp.*

When changes occur with UGRSA-approved warehouses, KCCO shall provide the State Office with a courtesy copy of KC-232 to the warehouse.

B Approved Rates

Approved warehouse offer rates shall be:

- posted in a prominent place in the County Office for public review
- distributed to surrounding County Offices
- updated in the APSS offer shipping rate table according to 12-PS.

C Obtaining Offer Shipping Rates

Offer shipping rates shall be obtained from

--http://intra2.fsa.usda.gov/whserates/grain/warehouse_rates.asp if the warehouse-- is either of the following:

- not listed or is outside the local area
- a major storing warehouse serving several States.

446 Storing Warehouseman Responsibilities**A Responsibilities**

[7 CFR 1421.106] If the commodity is received by rail or barge, the storing warehouseman is responsible for:

- determining the in-line routes from the storing warehouse in a manner that will provide the lowest freight rate to be used in commercial trade channels
- preparing applicable KC-350 showing the following:
 - the rate of freight paid into the storage point
 - the amount of penalty, if any, for outbound transit billing
 - any other information prescribed by CCC
- the accuracy or omission of information on applicable KC-350
- the liability, if any, as determined by CCC, after CCC receives the warehouse receipt and applicable KC-350
- any other requirements under UGRSA.

B Correcting Warehouse Receipts

Any corrections to a warehouse receipt shall be made by the warehouseman issuing the warehouse receipt.

If a warehouse receipt contains incorrect entries:

- do **not** make corrections to the warehouse receipt
- advise the warehouseman of the errors
- return the warehouse receipt to the warehouseman for reissuance or correction
- KC-350 cannot be used to correct the warehouse receipt.

447 When Warehouseman Is Producer**A Applicability**

Warehouse-stored loans may be made to a warehouseman who is operating under UGRSA and is also the producer under the following conditions:

- in States where it is valid under State law for the warehouseman to issue and pledge warehouse receipts covering the warehouseman's own commodity
- in any State when the warehouse is operating under USWA.

A warehouse operator, who is also a producer, is **not** eligible for a warehouse-stored loan if:

- there is not a State law addressing a warehouse operator issuing and pledging warehouse receipts covering the warehouse operator's **own** commodity
- the warehouse is not operating under USWA.

B Verification

Through the State Office, the County Office shall contact KCCO to examine warehouse diagram and WA-302, if applicable, to:

- identify:
 - structures that are approved under UGRSA
 - owner, partners, or officers associated with the warehouse
- verify that no duplication of loans is being made on the same commodity that may be erroneously under farm-stored loan.

Note: If there is a duplication of loans, call erroneously made farm-stored loans.

If necessary, visit the storage location to determine whether there is:

- loan duplication
- sufficient commodity in proper storage space to cover loan obligations.

448 General Warehouse Receipt Requirements

A General Requirements

[7 CFR 1421.107] All warehouse receipts shall:

- represent eligible commodity actually stored in the UGRSA warehouse
- be negotiable
- be issued to the eligible producer or CCC, as applicable, or in the case of loans made to CMA's, the receipt should be issued to CMA
- be endorsed in blank to vest title in the holder, if issued to the eligible producer or CMA
- show ownership, if commodity is owned by the warehouse operator, solely, jointly, or in common with others
- contain a statement that commodity is insured.

If the warehouse receipt is accompanied by applicable KC-350, KC-350 shall contain the insured statement if **not** stated as such on the warehouse receipt.

448 General Warehouse Receipt Requirements (Continued)**A General Requirements (Continued)**

All warehouse receipts shall show **all** of the following:

- type of commodity
- name and location of storing warehouse

- date to which storage has been paid **or** storage start date
- whether commodity was received by rail, truck, or barge
- amount per bushel or hundredweight of prepaid in or out charges
- signature of the warehouse operator or authorized agent.

Zeros shall be entered when in or out charges have **not** been prepaid.

B Merged Warehouse Receipt Requirements

Warehousemen operating under a merged warehouse code agreement shall show, on warehouse receipts, the location and county to which the producer delivered the commodity.

449 KC-350, Warehouse Operator's Supplemental Certificate**A Attaching KC-350 to Warehouse Receipt**

A warehouse receipt requiring KC-350 shall have the applicable KC-350 attached to the warehouse receipt.

Entries on KC-350 supersede entries on the warehouse receipt.

See Warehouseman's Handbook for example of KC-350.

449 KC-350, Warehouse Operator’s Supplemental Certificate (Continued)

B Receipts Showing Infested or Excess Moisture

Applicable KC-350 must show the following information when the warehouse receipt shows that the commodity is infested or contains moisture over the acceptable limit for the commodity.

449 KC-350, Warehouse Operator's Supplemental Certificate (Continued)**C Example of Quantity Entries on KC-350 (Grain) for Corn**

If a warehouse receipt shows 33,600 net pounds of corn with 17.5 percent moisture, the calculation would be as follows:

- 17.5 percent minus 15.5 percent equals 2.0 percent
- 2.0 percent times 1.3 equals 2.6 percent
- 2.6 percent of 33,600 pounds is 874 pounds.

The quantity shown on KC-350 (Grain) must **not** exceed 33,600 pounds minus 874 pounds, or 32,726 pounds.

450 Statement of Charges Attached to Warehouse Receipts**A Applicability**

[7 CFR 1421.107] A separate statement of charges or bill that is not part of the warehouse receipt, but is attached to or submitted with the warehouse receipt, that indicates charges **normally** associated with handling the commodity represented by the warehouse receipt shall:

- be considered an offset amount
- **not** be considered a lien.

To ensure that only the appropriate charges are being considered as an offset amount, each State Office must submit a list of charges that are normally associated with handling of the commodity to DAFP for concurrence.

Concurrence must be obtained from DAFP **before** any charges on a statement of charges or bill can be offset.

B Handling as an Offset

The amount of applicable charges shown on the statement of charges or bill shall be considered an offset.

County Offices shall record the applicable charges on CCC-679 by doing either of the following:

- adding the total dollar amount of the charges shown on the statement of charges or bill to any CCC, FSA, or other Government agency debt
- modifying the sentence in CCC-679, block (3) to add language that states whose charges are being offset without specifying the type or amount of the charges.

If the loan is approved, the amount of applicable charges shown on the statement of charges or bill shall be handled as an offset for an alternate payee.

See paragraph 404 for an example of CCC-679.

451 Examining Warehouse Receipts**A Examining Documents**

County Offices shall examine each warehouse receipt, KC-350, if applicable, and FGIS inspection certificate for:

- completeness
- errors
- legibility.

If any information on the warehouse receipt is incorrect or otherwise unacceptable for recording the loan in APSS, the County Office shall:

- **not** approve the loan
- require the producer to:
 - return documents to the warehouseman for correction or completion, if necessary
 - submit acceptable warehouse receipts **before** disbursing the loan.

B Liens for Charges Indicated on Warehouse Receipt

County Offices shall **not** accept, for loan purposes, a warehouse receipt that shows a lien on the commodity for specified charges, such as drying or hauling.

When a warehouse receipt is received showing a lien on the commodity, the County Office shall require the producer to provide **either** of the following:

- a replacement receipt showing no liens
- the original receipt showing the charges marked “Paid” and initialed and dated by the warehouseman.

452 Reporting Lost, Stolen, or Destroyed Warehouse Receipts

Part 5 Spot Checking and Production Evidence

Section 1 Spot Check Policy

*--500 Compliance Reviews for MAL's and LDP's

A Spot Check Process Overview

Beginning with the 2007 crop year, the new compliance review/spot check selection process will:

- help reduce the number of spot checks performed monthly
- provide a more comprehensive and meaningful compliance review by covering all program activity for the selected producer
- enhance the way spot check findings are recorded
- implement OIG recommendations included in an audit of FSA compliance activities.

B Handling Spot Check Selection Process for MAL's and LDP's

Producers will be selected based on their participation in various programs. FSA employees, STC and COC members, and other required producers are included in the national selection.

FSA employees, STC and COC members, and other required producers **are** included in the selection; therefore, County Offices shall no longer conduct separate spot checks on required producers.

Early each calendar year, the National Office will post the list of producers selected for annual spot check reviews on the Intranet at

<http://dc.ffasintranet.usda.gov/farmbill/ccc/default.htm>.

The producer selection list is broken down by State and county. Under each county, the list displays the following:

- producer first and last name and/or business name
- last 4 digits of the producer's tax ID number.

Producers will be listed for each State and county with which they are associated.

Notes: The list includes both producers selected (based on their program participation) and the representative sample of FSA employees, committee members, and other "required" spot checks.

Producers may operate as an individual and an entity. The producer selection list will identify the tax ID associated with the selected producer. County Offices shall only review MAL's and LDP's associated with the tax ID selected.--*

--500 Compliance Reviews for MAL's and LDP's (Continued)*B Handling Spot Check Selection Process for MAL's and LDP's (Continued)**

County Offices shall print and maintain the list of producers selected in their county. The National Office will **not** make another selection of producers for the year.

County Offices are:

- required to spot check all MAL and LDP activity for the selected producers
- responsible for recording spot check results of MAL's and LDP's identified for the selected producers in the newly developed national database
- required to determine when the farm visit will be completed during the loan period.

When the spot check reveals, and it is determined, that a shortage or violation occurred, County Offices shall continue to record the shortage or violation in APSS according to 12-PS and 15-PS.

C Conducting Farm Visits

On-farm visits are required if farm-stored loan collateral or LDP quantities are still stored on the farm. At the storage site, commodity inspectors shall complete the spot check according to subparagraphs 516 B and 1553 B for wool, mohair, and unshorn pelts.

Because MAL's and LDP's are disbursed throughout the applicable crop year, multiple farm visits may be necessary to complete the requirement to spot check all of the producer's MAL and LDP activity.

When multiple visits are made to the same farm, previously measured farm storage structures are **not** required to be measured again, unless the commodity inspector has reason to believe a violation has occurred or CCC security interest is at risk. Previously spot-checked loans or LDP's:

- will be treated as related loans and LDP's according to subparagraphs 516 B and 1553 B
- shall always be visually inspected for proper maintenance of storage, commodity existence, and quality.

Note: County Offices will be responsible for determining when the on-farm visits shall be completed.

Spot check results shall be recorded on and according to the following:

- CCC-677-1
- MAL and LDP questionnaires provided in 2-CP, paragraph 354.--*

***--500 Compliance Reviews for MAL's and LDP's (Continued)**

C Conducting Farm Visits (Continued)

The spot check results shall be recorded in the National Compliance Review Database at <http://www.agcounts.usda.gov>.

D Adding Producers for Spot Check

Additional producers may be added to the list of producers selected during the annual spot check reviews, when it is reported or determined that the:

- quantity of the loan collateral or the applicable LDP quantity is questionable
- storability of the loan collateral is questionable.

MAL and LDP spot check results for the additional producers selected for spot check will **not** be required to be entered in the national database. County Offices shall record the following:

- reasons why the producer was selected for spot check in the COC minutes
- results on CCC-677-1.

If a shortage or violation is determined as a result of the spot check, County Offices shall record the shortage or violation in APSS, as applicable.

E STC-Established Guidelines for Conducting Additional Spot Checks

STC's shall:

- establish guidelines for conducting additional spot checks
- determine how and when County Offices should select additional producers for spot check
- record the established guidelines in the STC minutes for auditing purposes.

C Not Subject to Spot Check

LDP's are **not** subject to spot check **if**:

- production evidence was submitted on date of request * * *
- LDP's are paid on the amount shown on production evidence
- maximum eligible quantity was determined for:
 - commodities harvested as other than grain
 - HM commodities stored in structures that cannot be measured
 - commodities immediately fed during harvest.

D Situations Requiring Spot Checks

--In addition to national selection spot checks, other situations may require a spot check to be performed for LDP's. Situations may include, but are not limited to, the LDP quantity being questionable.--

503 Loans Delivered to CCC

A Spot Check Sample

County Offices shall:

- spot check 15 percent of all loans delivered to CCC
- select the sample for review when CCC-691 and applicable warehouse receipts are submitted to the County Office
- complete the review, according to subparagraph B, for commodities delivered to CCC.

B Review of Deliveries

County Offices shall:

- determine whether deliveries were made according to program provisions
- determine that quantities delivered to CCC do not include any purchased quantities
- document the spot check results of the review in the COC minutes and file documents in the producer's folder.

C Questionable Deliveries

When there is reason to question the quantity delivered or the eligibility of the commodity delivered, County Offices shall:

- examine the warehouse operator's copy of scale tickets or weight certificates for the commodity delivered to determine whether the quantity and quality are the same quantity and quality as shown on CCC-691
- follow paragraph 1019 for provisions for splitting warehouse receipts if it is determined that an ineligible quantity was included on CCC-691.

503 Loans Delivered to CCC (Continued)

516 On-Farm Visits

A When to Complete On-Farm Visits

[7 CFR 1421.11] Complete on-farm visits if commodities are still stored on the farm for:

- outstanding loans
- outstanding loans and a market gain has been earned
- certified LDP's.

B * * * Spot Check Process

At the storage site, commodity inspector shall complete the spot check by measuring *--farm-stored quantities for all loans and LDP's selected by the national selection process--* according to the following table.

Measurements are required even if commodity was previously measured for farm-stored regular loans.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

Step	Process	Action
1	Check CCC-683.	If applicable, replace CCC-683 if missing or incorrect loan data is shown. See Exhibit 18.
2	Inspect storage structure and determine commodity storability and sanitary conditions.	Annotate any structure, storability, or sanitary problems on reverse side of CCC-677-1, remarks section.
3	Measure commodity in all applicable structures that can be safely accessed.	Complete CCC-677-1 according to Exhibit 7.
4	<ul style="list-style-type: none"> • Obtain commodity sample from all storage structures applicable for the loan or certified LDP. • Use representative sample to determine test weight, and if applicable, moisture content.

516 On-Farm Visits (Continued)

C Reducing On-Farm Visits for LDP's

For LDP's only, County Offices, **with State Office concurrence**, may elect to forgo the farm visit by sending the producer a notification letter that includes all of the following:

- *--identification of LDP to be spot-checked, as applicable--*
- options to the producer for quantities still on the farm to:
 - request measurement service within 7 calendar days at the expense of the producer and use the measurements as final production evidence
 - provide production evidence by the earlier of the following:
 - 15 calendar days after the commodity is sold
 - the last day of the ninth month after the month in which LDP was disbursed
- the following statement, "Failure to provide acceptable production evidence may result in repayment of the entire LDP amount plus applicable interest."

County Offices shall:

- consider the spot check complete when the producer:
 - does **not** respond within 7 calendar days, * * * agreeing to provide required production evidence by the deadlines
 - agrees to provide required production evidence by the deadline
 - requests and pays for measurement service, and the measurement service is complete
- * * *
- monitor all letters and determine when production evidence is due
- collect unearned LDP amounts, plus interest, according to paragraph 539.

State Offices shall:

- authorize County Offices to use the letter
- consult with DD's before authorizing the use of the letter
- provide a time limit when providing the authorization.

* * *

517 Completing Spot Checks**A Reviewing Documentation**

Once the on-farm visit is complete or production evidence is submitted, County Offices shall:

- calculate the measured quantity or quantity provided on submitted documentation, as applicable
- review the documentation submitted to ensure that all production evidence requirements are met according to Section 3.

B Determining Quantity and Quality

County Offices shall determine the quantity of the loan collateral or the applicable LDP quantity from information provided by the:

- commodity inspector on CCC-677-1
- producer on other types of production evidence.

For loans, CCC is considered secured when a sufficient quantity of the commodity is found in any individual or number of structures designated on CCC-677 or CCC-687-1.

C Verifying Loan and LDP Quantity

County Offices shall:

- verify the quantity determined in subparagraph B
- compare the determined quantity to the:
 - outstanding loan quantity
 - market gain quantity
 - LDP quantity.

D Tolerance Level

The tolerance level for loans and LDP's is 10 percent.

For spot-check shortages **within** the tolerance level, CED's have the authority to determine whether a violation occurred according to Part 6.

518 Loan Quantity Determination and Action Required

A Outstanding Loans and No Market Gain Was Earned

When a spot check reveals the **measured** quantity is less than the certified or measured outstanding farm-stored loan quantity, take applicable action according to the following.

IF the spot check reveals the...	THEN...

* * *

520 Loan Collateral Storability Questioned (Continued)

C Action When Corrective Action Is Taken

Send the producer the following letter when **both** of the following apply:

- the County Office is notified by the producer that corrective action has been taken and the commodity is ready for a followup spot check
- the followup spot check confirms the collateral appears to be in storable condition.

(Date) _____, 20__

Dear _____:

A recent inspection of the collateral for your (year)-crop (commodity type) loan (number) was completed on (month, day, year) to determine the result of corrective actions you have taken to resolve the storability problems.

The current inspection shows the following results:

Storage Structure	Condition
_____	_____
_____	_____
_____	_____
_____	_____

The collateral now appears to be in a storable condition. Thank you for your prompt action in correcting the situation. You should, however, continue periodic checks to see that the collateral remains in good condition.

Sincerely,

County Executive Director,
 _____ County FSA Office

Section 3 Production Evidence**535 Requirements****A Required Production Evidence**

[7 CFR 1421.12] Production evidence **is required** for loan quantity or LDP **selected for spot check** as follows:

- any farm-stored loan repaid at a rate less than principal, plus interest, under the marketing loan provisions and only for the quantity repaid on which the producer earned a market gain
- --certified LDP's.

B Production Evidence Not Required

Production evidence is **not** required to be submitted for any producer's loan or LDP that is --* not selected for spot check.

Outstanding loans repaid under CCC-681-1 provisions are not subject to spot check if delivery or production evidence was submitted at time of repayment.

LDP's are not subject to spot check if production evidence was submitted at time of request --* for LDP. --*

535 Requirements (Continued)

C Acceptable Types

Acceptable types of production evidence are:

- evidence of sales
- delivery evidence
- load summaries from warehouse, processor, or buyer
- warehouse receipts
- paid measurement service
- spot check measurements with paid measurement service
- cleaning tickets for seed
- scale tickets, if not issued by the producer for the producer's own production
- maximum eligible quantity determined according to paragraph 536 for commodities harvested as other than grain.

* * *

Production evidence may be handwritten, but is not acceptable for any type of production evidence submitted by the producer for the producer's own production.

D Requirements

All production evidence submitted including scale tickets, except for maximum eligible quantity determined, **must** show the following requirements:

- producer's name
- crop year may be certified or provided by the producer
- commodity
- net weight for grain sorghum, oilseeds, and peanuts except soybeans
- net bushels for barley, corn, oats, soybeans, and wheat
- class, if applicable
- segregation, if applicable

- proof of payment from buyer, if commodity was sold.

535 Requirements (Continued)

D Requirements (Continued)

Proof of payment can be settlement records or copy of the check.

Note: County Offices may convert the weighed quantity to the applicable unit of measure, with concurrence from the producer, using the unit equivalency according to 2-LP Grains and Oilseeds, as applicable.

***--E Production Evidence Requirements for Open Storage**

It is **not** mandatory at the time of LDP request that the producer deliver a negotiable warehouse receipt or acceptable production evidence to the FSA County Office for the commodities placed in open storage.

The producer must have the capability to obtain a negotiable warehouse receipt or provide another form of acceptable production evidence, if requested. Any other form of acceptable production evidence that is submitted **must** be certified by the warehouse that ownership or title of the delivered commodity remains with the producer.

If load summary sheets or delivery records are provided instead of negotiable warehouse receipts, it is the responsibility of the producer to provide production evidence that includes a certification statement from the warehouse indicating the following:

“Title and control remains with the producer and a negotiable warehouse receipt can be issued to the producer for the quantity physically delivered to the warehouse.”

The warehouseman certification statement is good for 30 calendar days. If the producer provides the certification statement 30 calendar days after the warehouseman’s signature and date, the County Office **must** call the elevator to verify the commodity is still in open storage.

Note: A certified CCC-633 EZ can be accepted if the producer is submitting a CCC-633 EZ, page 2 and is requesting the date of the LDP request as the LDP rate.

If the LDP request is based on the date beneficial interest is lost, production evidence must be submitted at the time of the CCC-633 EZ.--*

535 Requirements (Continued)**F Unacceptable Production Evidence**

Unacceptable production evidence may be documentation that:

- indicates someone other than the producer
- does **not** meet the requirements for acceptable production evidence.

If the producer submits production evidence with a different person/entity name, COC shall review the evidence thoroughly to verify whether the production is eligible. Different names on the production evidence should be reviewed to determine relationships to producer and other farming interests and to ensure that beneficial interest has been maintained.

These different person/entity names are, but not limited to, the following:

- spouse
- minor child
- church organizations
- other charitable entities
- owners.

G Production Evidence Voluntarily Submitted

County Offices shall accept production evidence when producers **voluntarily** provide production evidence and were not selected for spot check.

If the quantity supported by production evidence is less than the market gain or LDP quantity, record and collect the shortage according to paragraph 518 or 519, as applicable.

Good faith determinations are necessary for any quantity that is **not** within tolerance.

535 Requirements (Continued)

H Moisture Determination

Follow this table when moisture **is** indicated on the production evidence.

IF...	THEN...
moisture level is indicated on the production evidence and the net quantity has not been adjusted	adjust the quantity to the eligible moisture level according to paragraph 304 or 430, as applicable.
production evidence indicates the net quantity reflects the gross quantity has been adjusted for moisture	do not further reduce the quantity for moisture shrink. Note: Do not adjust the quantity upward if the evidence indicates the quantity was adjusted below the acceptable moisture level.
production evidence does both of the following: <ul style="list-style-type: none"> • shows the moisture exceeds the maximum moisture level for the applicable commodity • indicates that a quantity reduction was not made for moisture shrink Note: A monetary reduction for moisture in the form of a discounted sales price is not a quantity reduction.	reduce the quantity by applying the applicable shrink factor in Exhibit 4 to the maximum eligible moisture level.

535 Requirements (Continued)

I Measurements as Production Evidence

Quantities determined by measurement service may be used to determine whether **new** LDP's or refunds are applicable.

Use this table when measurements are used as production evidence for a requested loan or LDP.

IF the producer...	AND...	THEN...
requests and pays for measurement service for loan or LDP	the moisture content: <ul style="list-style-type: none"> • exceeds the standard moisture level for the applicable commodity • is equal to or less than the moisture level set by STC 	<ul style="list-style-type: none"> • reduce the quantity by applying the applicable shrink factor • use the test weight to determine quantity, if applicable.
requested and pays for measurement service for loan or LDP, after disbursed and before spotcheck selection	the producer agrees to use the measured quantity as production evidence	the producer must: <ul style="list-style-type: none"> • request, at the County Office, to use the measured quantity as production evidence for the requested loan • initial and date CCC-677-1.
		other forms of acceptable production evidence, according to subparagraph C, will not be accepted.

535 Requirements (Continued)

I Measurements as Production Evidence (Continued)

IF the producer...	AND...	THEN...
requests and pays for measurement service for loan	the producer does not use the measured quantity as production evidence	<p>other forms of acceptable production evidence, according to subparagraph C, shall be used.</p> <p>If the producer later requests to use the measurement service as production evidence, the producer must initial and date CCC-677-1.</p>
does not request and pay for measurement service		other forms of acceptable production evidence shall be provided according to subparagraph C if selected for spot check.
<p>will use part of the quantity measured as either of the following:</p> <ul style="list-style-type: none"> • for seed • for feed 		<p>the producer must do either of the following:</p> <ul style="list-style-type: none"> • agree to use the measured quantity as production evidence • pay for the commodity to be used for seed or feed to be measured separately from other production.
requests to use the measurements resulting from a spot check for loan or LDP	the producer agrees to use the measured quantity as production evidence	<p>the producer must do both of the following:</p> <ul style="list-style-type: none"> • pay the measurement service fee • initial and date CCC-677-1.

535 Requirements (Continued)**J Combinations of Production Evidence**

To meet time requirements for submitting production evidence or for other reasons, producers may use a combination of measurement services and other forms of acceptable production evidence for each loan or LDP spot-checked.

COC must be satisfied that documentation submitted and quantities measured do not represent the **same** quantity. If questionable, COC may require the producer to submit documentation to account for **all** of the production.

K Evidence Shows Less Quantity

If the total quantity shown on production evidence provided is less than the original loan or LDP quantity, see paragraph 538 or 539 for determining repayment of unearned market gain or LDP amount.

Deficient production evidence, without other evidence that supports a violation, does **not** mean that a violation occurred. Accordingly, when shortages appear excessive, COC's must determine whether additional research is necessary to verify whether there is a violation according to Part 6.

535 Requirements (Continued)

L Maintaining Copies of Evidence Submitted

When production evidence is submitted, County Offices shall:

- make copies of the evidence submitted
- date-stamp and write the County Office name on the original evidence, except for warehouse receipts, before copying
- place copies in the loan or LDP folder
- carefully review production evidence to determine eligibility of:
 - the loan or LDP quantity
 - spot check verification according to Section 1
- return the originals to the producer.

See Sections 1 and 2 for:

- completing spot checks
- handling discrepancies.

536 Maximum Eligible Quantity**A Actual Production**

LDP's for commodities harvested as other than grain will be made on actual production.

Maximum eligible quantity is considered production evidence for:

- commodities harvested as other than grain according to Part 3, Section 2
- silage and commodities harvested as hay
- HM commodities stored in structures that cannot be measured
- commodities immediately fed during harvest * * *
- commodities fed or seed quantities planted after LDP is disbursed or market loan repayment with no paid measurement service:
 - before feeding
 - before seeding
 - after spot check.

Note: Complete CCC-633EW according to subparagraph F, as applicable.

B Quantity

Producers may request LDP, not to exceed maximum eligible quantity, on:

- **all** commodity harvested as other than grain, silage, or commodities harvested as hay
- number of acres harvested as other than grain
- percentage of production harvested as other than grain.

C STC and COC Responsibilities

STC and COC have a major role and responsibility in determining, reviewing, and approving certain determinations that affect many producers, such as determining whole kernel grain yields for producers who harvest crops as other than grain.

536 Maximum Eligible Quantity (Continued)**C STC and COC Responsibilities (Continued)**

STC's should play an active role in providing guidance to COC's to ensure that responsible and equitable determinations are made. In turn, COC's are being given much greater responsibility to ensure that the actual production determinations fairly reflect what a producer's anticipated yield would have been had that actual crop been harvested as grain. For example, if the commodity is affected by any disaster, such as drought, hail, etc., the yield shall be adjusted to accurately reflect the actual yield if the crop was allowed to be harvested as grain. With this responsibility also comes the accountability to protect the program integrity by also ensuring that these determinations are not made in an unrealistic manner, but are well documented and can be supported when reviewed by auditors.

STC's and COC's are in the best position to know what production levels or practices are reasonable for their area. This responsibility is being entrusted to STC's and COC's to deliver the program in the most feasible, reasonable, and reliable manner possible. Adjoining County Offices that are divided by State boundaries are encouraged to work with both STC's when determining acceptable production levels and practices for those applicable counties.

STC's are required to spot check COC-determined yields in all counties per crop year to ensure accuracy of COC yield determinations. STC shall spot-check all county COC yield determinations as follows, for COC yield determinations of:

- 25 or less, STC must spot-check 1 out of every 5
- 26 or more, STC must spot-check 5 percent of the total yield determinations.

Each STC is responsible for determining the spot-check guidelines. Spot checks must be completed after the date of determination and no later than 3 months after the final loan availability date, as applicable.

STC may designate STC representative to complete spotchecks, as applicable.

536 Maximum Eligible Quantity (Continued)

D Determining Maximum Eligible Quantity

Determine the maximum eligible quantity of commodities harvested as other than grain according to the following table. All determinations must:

- be equivalent to the whole grain yield for that crop
- reflect disaster conditions, as applicable.

COC shall exercise judgment and rely on their knowledge of practices and growing conditions when:

- determining the maximum eligible quantity from any method
- adjusting the results of any method according to STC guidelines, as applicable.

Note: COC’s must provide documentation in COC minutes to support any method determined on COC’s judgment or knowledge. Except for method 1, establish a reasonable production yield from any order.

Method	Description
1	*--Crop appraisals for disaster-affected acreage according to subparagraphs L and M. Note: No other method is applicable if subparagraph L applies.--*
2	<ul style="list-style-type: none"> • The applicable crop’s comparable, actual production harvested as grain on the same farm. • Set a yield based upon applicable crop comparable, actual production on 3 similar farms.

536 Maximum Eligible Quantity (Continued)

D Determining Maximum Eligible Quantity (Continued)

Method	Description
3	<p>If actual production harvested as grain on the same farm, or comparable actual production on 3 similar farms is not available at the time of the LDP request, or no other method is applicable, COC’s may establish a yield to determine maximum eligible quantity based on COC’s judgment and knowledge of practices and growing conditions in the county.</p> <p>For this method only, STC shall be required to spot-check 5 percent of these determinations in addition to spot-check requirements provided in subparagraph C. Method	Description
5	<p>Except for method 1, if no other method is available to determine the bushels equivalent of hay per acre, the following yield is:</p> <ul style="list-style-type: none"> • 64.50 for corn • 30.25 for oats • 19.85 for wheat •*--17.38 for dry peas • 12.51 for small chickpeas.--* • 34.75 for grain sorghum • 29.15 for barley • 19.50 for soybeans • 13.55 for lentils <p>Multiply the applicable yield times the acre to determine the maximum bushel. COC's may adjust the yield based on COC's judgment and knowledge of practices and growing conditions in the County.</p>

Notes: Except for the conversion factor method, calculate maximum eligible quantity for commodities harvested as other than grain by multiplying acres harvested times the yield.

COC must approve all maximum eligible quantity determinations and document accordingly, including notifying the producer of the yield determination and providing appeal rights, as applicable.

536 Maximum Eligible Quantity (Continued)**E Using CCC-633EW**

CCC-633EW is a:

- worksheet for determining maximum eligible quantity for all producers of a specific commodity per farm
- a ledger to account for each loan or LDP quantity.

***--Note:** Producers who request a loan at the reduced loan rate or LDP on a commodity harvested as other than grain cannot request a quantity that exceeds the maximum eligible quantity, according to CCC-633EW.--*

County Offices shall complete one CCC-633EW if all of the following apply:

- there are multiple farms
- the producer is the same for all farms
- the production is commingled.

Note: Eligible acres of grain production obtained from FSA-578 must include all totals from all farms. The yield will be the same for the commodity from all farms regardless of which farm the commodity was actually produced.

536 Maximum Eligible Quantity (Continued)**J Determining Daily Delivery Quantities**

Determine the percentage of each day's production according to Exhibit 25.

K Production Evidence

Required production evidence for basic LDP's for commodities harvested as other than grain is the maximum eligible quantity determined in subparagraph F.

For commodities harvested as whole grain, processed, and requested for LDP after processing, determine production evidence or maximum eligible quantity instead of whole grain.

No other production evidence is required.

L Using Crop Appraisals

The intent of using a crop appraised yield is to have the same yield established for LDP's and crop disaster related programs. Producers are eligible to receive marketing assistance loans and LDP's for commodities harvested as other than grain **only** if the commodity harvested as other than whole grain **could have been** harvested as whole grain. Therefore, marketing assistance loans and LDP's are not given on silage, haylage, etc., as such, but as whole grain represented in that crop.

If a producer has applied for crop insurance indemnity or NAP on the acreage related to the disaster, the crop appraisal on file **must** be used when determining the maximum eligible quantity for commodities harvested as other than grain for loan or LDP's.

536 Maximum Eligible Quantity (Continued)

M Exception For Using Crop Appraisals

COC's may determine maximum eligible quantity determinations according to subparagraph D by using other methods when a crop appraisal is on file only if either of the following apply:

- the appraisal has been completed on units that differ from the FSA farm that the marketing assistance loan or LDP has been requested
- the appraisal has been completed on multiple farms and the documentation does not differentiate between farms.

Before COC can make a determination, the producer must provide applicable documentation to COC to support that the LDP production is not from the crop appraised acreage.

Note: Producers are responsible for providing documentation, as applicable.

537 Dates for Submitting Evidence**A Final Dates to Submit Evidence**

Producers must submit production evidence for:

- sold quantities within 15 calendar days from date of request
- commodities stored on the farm, the earlier of the following:
 - 15 calendar days of when the commodity has been sold
 - loan maturity date
 - the last day of the 9th calendar month after the month in which LDP was disbursed.

B Production Evidence Not Submitted

If producers have **not** submitted production evidence by the final date to submit evidence, County Offices shall notify applicable producers in writing that:

- production evidence must be submitted within 30 calendar days
- LDP's and market gains, plus interest, must be refunded to CCC if production evidence is not received in the County Office within 30 calendar days.

COC may accept production evidence **after** the deadline and rescind the demand for refund, if it is determined the delay in submitting production evidence resulted from circumstances beyond the producer's control.

538 Failure to Provide Acceptable Production Evidence

A Loan Provisions

County Offices shall follow the procedures in this table for market loan repayments when the producer receives a market gain and when:

- **no** acceptable production evidence is received in the County Office within 30 calendar days from date notified according to subparagraph 537 B
- the total loan quantity is determined ineligible.

See paragraph 536 if the producer reports the commodity was fed.

Step	Action
1	Record the entire loan quantity as a violation in APSS. An overdisbursement will be established. Liquidated damages may be waived if good faith has been determined.
2	Interest will begin to accrue: <ul style="list-style-type: none"> • at the interest rate in effect for loans for the month the loan was disbursed and subject to adjustment each January 1 • from the date the loan was disbursed to the earlier of the following: <ul style="list-style-type: none"> • date of repayment • date a claim is established.

- **no** acceptable production evidence is received in the County Office within 30 calendar days from date notified according to subparagraph 537 B
- the total LDP quantity is determined ineligible.

See paragraph 536 if the producer reports the commodity was fed.

540 Apportioning Commingled Production Evidence

A Commingled Production Evidence

If the producer provides production evidence, the production evidence is considered commingled if it represents:

- 1 or more loans, **and** different market gain rates were used for repayment
- more than one LDP, **and** different LDP rates were used
- a combination of loans and LDP's, **and** different market gain rates were used for repayment or to make LDP's.

540 Apportioning Commingled Production Evidence (Continued)

B Reviewing Production Evidence

County Offices shall follow this table to review production evidence when provided.

Step	Action
1	Determine whether the production evidence represents 1 of the following: <ul style="list-style-type: none"> • more than one LDP • more than 1 loan • a combination of LDP's and loans.
2	Determine whether: <ul style="list-style-type: none"> • more than one LDP or market gain rate applies • evidence represents a farm that does not have LDP or loan.
3	Review the production evidence submitted to determine loan eligibility based on grading factors, if shown.
4	Identify any ineligible quantity including quantities: <ul style="list-style-type: none"> • for which beneficial interest was lost before LDP or loan was approved • from ineligible acres. <p>Notes: If commingled evidence includes a farm on which LDP or loan was not obtained, require the producer to provide total production for all farms commingled in the production.</p> <p>County Offices shall apportion the submitted production evidence based on each farm's acreage multiplied times the expected yield before proceeding.</p>
5	Deduct the following from the total production evidence submitted: <ul style="list-style-type: none"> • the apportioned quantity from farms without a loan or LDP • ineligible quantity.

540 Apportioning Commingled Production Evidence (Continued)

C Apportioning Resulting Evidence to Each Loan and LDP

After the evidence is separated according to subparagraph B, the eligible evidence must be adjusted and apportioned to each LDP and loan repayment associated with the evidence.

Adjust and apportion the eligible production evidence using the following table. See Exhibit 26 for an example.

Step	Action	Result
1	Add the following for farm-stored LDP's and loans: <ul style="list-style-type: none"> • the quantity on which payment was made for each LDP • the loan quantity for each loan. <p>Exception: Do not include LDP or loan quantities for which measurement service was used as production evidence for the entire LDP or loan.</p>	The quantity that will be used to apportion the result of step 2.
2	From the total eligible production evidence determined according to subparagraph B, subtract: <ul style="list-style-type: none"> • total loan quantity for farm-stored and warehouse-stored loans • total LDP quantity for all LDP's. 	The additional quantity for payment that shall be apportioned between LDP's and loan repayments.
3	Multiply the quantity determined in step 1 times 10 percent.	The maximum quantity that can be apportioned.
4	Divide the smaller of the result in step 2 or 3 by the result in step 1, and round to 4 decimal places. <p>Note: This factor will not exceed .1000 if steps 1 through 4 are properly determined.</p>	A factor for apportioning the additional quantity.

C Apportioning Resulting Evidence to Each Loan and LDP (Continued)

Step	Action	Result
5	<p>Multiply the factor determined in step 4 by each quantity determined in step 1, and round to 2 decimal places.</p> <p>When different market gain rates were used to repay an individual loan, multiply the factor times:</p> <ul style="list-style-type: none"> • each repayment quantity to determine the additional quantity at each market gain rate for manual calculations • the total quantity repaid for automated transactions. <p>Note: APSS will automatically prorate the market gain rate for the additional quantity based on the market gain on the respective repayments.</p>	<p>The additional quantity as prorated to each LDP or loan repayment.</p>
6	<p>Add the results of step 5 to each corresponding LDP or loan repayment quantity.</p>	<p>The quantity used to recalculate the LDP or loan amount for each applicable loan repayment.</p>

541 New Loans or LDP's Based on Submitted Production Evidence

A Basic Provisions

There is no longer additional market gain payments or additional LDP's available when production evidence is submitted for 1999 and subsequent crop years. Any amount which exceeds the LDP quantity or the market gain amount must be requested on a new LDP or new loan.

B New Payments

--New LDP's and MAL's based on the quantity eligible for additional market gain may be-- requested when all of the following apply:

- when production evidence is provided
- loan and LDP is requested by the final loan availability date
- *--producer maintains beneficial interest in the commodity through the date the new LDP request is received in the County Office according to paragraph 129.--*

C Applicable Rates

For:

- LDP's, the rate is the rate in effect on the date of the new LDP request, as applicable
- loans, the loan rate is applicable to the loan according to Part 4, Section 2 or 3.

When a producer obtains a commodity loan or requests an LDP, the producer agrees to the *--terms and conditions, when signing CCC-633 EZ, CCC-666, CCC-677, or CCC-678, and--* that the producer will **not**:

- provide an incorrect certification of the quantity or make any fraudulent representation, including misrepresentation of the eligibility of a commodity, for loan or LDP
- remove or dispose of a quantity of a commodity pledged as collateral for a CCC commodity farm-stored loan without prior approval of COC.

See Exhibit 2 for definitions of violations, as applicable.

- assessment of liquidated damages and other administrative actions, and shall be liable for monetary amounts as specified in the applicable regulations and terms and conditions of the applicable forms
- criminal prosecution under Federal law.

In cases of illegal activity, such as fraud, see 9-AO.

602 Loan and LDP Violations

A List of Loan and LDP Violators

County Offices shall:

- maintain a list of producers who have been determined to have an LDP discrepancy not within tolerance and COC determines a violation occurred, or violated the terms and conditions of the applicable forms identified in subparagraph 601 A
- keep producer's name on the list for 24 months after the date the discrepancy, as applicable, or when the violation is discovered.

This list of violators is:

- not considered an administrative action
- a method of determining whether the producer has had previous violations.

B Notifying Producer

When a violation is discovered, County Office shall:

- assume good faith cannot be determined when notifying the producer of the violation and the actions to be taken
 - *--send the violation notification letter to the producer according to Exhibit 5, subparagraph N--*

- producer has responded within 30 calendar days and COC has made a determination according to paragraph 613
- producer has **not** responded within 30 calendar days.

603-612 (Reserved)

Section 2 Administrative Action**613 Assessing Administrative Actions****A Types of Administrative Actions**

The following administrative actions are possible for loan and LDP violations:

- assessing liquidated damages
- requiring repayment of the loan quantity involved in the violation
- calling the loan
- denying future farm-stored loans
- requiring repayment of the LDP quantity involved in the violation
- requiring repayment of the entire LDP quantity
- denying future certified LDP's.

Producers who remove or dispose of any commodity loan collateral without prior authorization or do not provide required production evidence:

- have violated the loan or LDP Program
- are subject to assessment of liquidated damages or other administrative actions, as applicable.

Note: For unauthorized disposition of loan collateral, see paragraph 618 before taking any
--additional administrative actions or making COC determinations.--

B COC Reminder

COC's shall review the spot check results when determining good faith on all violations.

For outstanding loans where the spot check revealed a shortage and the producer repaid the shortage before COC met to review the loan, COC shall document reasons for granting good faith, as applicable.

613 Assessing Administrative Actions (Continued)

C Good Faith Determinations

*--A producer is considered to have acted in “good faith” if 1 of the following apply:

- there is evidence to support that the producer made every effort to comply with the terms and conditions of CCC-601 and CCC’s security interest was protected
- the violation was inadvertent, accidental, or unintentional
- the actions that resulted in a violation prevented the spoilage of the commodity or was necessary to protect CCC’s security interest in the commodity.

The “good faith” determination does **not** negate the producer’s responsibility for repayment of MAL and fulfilling the MAL terms and conditions.

If a producer can show the producer acted in good faith when the loan or LDP violation--* occurred, and the producer has had 2 or less loan or LDP violations in the previous 24 months, COC shall demand:

- as applicable, repayment of:
 - the loan principal and charges plus interest applicable to the loan quantity affected by *--the violation according to Part 9

Note: For repayment of violations based on:

- incorrect certifications, see paragraph 914 A
- unauthorized disposition or removal, see paragraph 916.--*
- LDP amount and charges plus interest applicable to the LDP quantity affected by the violation
- payment of liquidated damages assessed according to paragraph 614.

See subparagraph:

- 614 B for authority to waive liquidated damages
- 615 A for additional actions if amount due is not repaid within 30 calendar days of this demand.

613 Assessing Administrative Actions (Continued)

D Good Faith Not Determined or Multiple Violations Are Applicable

If COC cannot determine the producer acted in good faith when the violation occurred or if *--the producer has more than 2 loan or LDP violations in the previous 24 months, COC--* shall:

- demand payment of liquidated damages assessed according to paragraph 614
- for loans:
 - call the applicable loan involved in the violation
 - demand repayment of any market gain previously realized on the loan, plus interest according to paragraph 613

Note: If the producer repays the previously realized market gain, interest and liquidated damages, then County Offices shall not send the demand letter.

- for LDP's, demand repayment of entire LDP amount plus interest.

613 Assessing Administrative Actions (Continued)

E Determining the Offense

The number of violations during a 24-month period is used in determining the applicable offense.

Example: To be considered as a first offense, the producer must not have had any loan or LDP violations in the 24 months previous to the current violation.

Notes: If 1 or more loan or LDP violations are determined for the same producer during the same spot-check selection, and only if production evidence is provided for all loans or LDP's spot-checked, consider only 1 offense to have occurred.

A second offense may be determined if a shortage exists for any loan or LDP spot-checked when production evidence is submitted at a later date.

--If the producer is a multi-county producer, County Offices shall include violations that occurred in other counties when determining the number of violations that occurred within the 24-month period.--

613 Assessing Administrative Actions (Continued)

F Good Faith Demand Letter

If good faith is determined and the producer has been involved in 2 or less violations in the previous 24 months, use the following demand letter.

RE: **(Enter crop year, commodity, and loan/LDP number.)**

Dear _____:

The County FSA Committee (COC) has determined that you acted in good faith concerning the violation of the **(loan agreement/LDP application)** of which COC had previously notified you. Based on this determination, and because this is your **(first/second)** violation in the previous 24 months, the following amounts are now due (enter as applicable):

- loan principal
- interest
- LDP amount
- liquidated damages
- market gain
- other charges.

Applicable interest will continue to accrue from the date of this letter until these amounts are repaid or transferred to claims. If these amounts are not repaid within 30 calendar days, the following actions will be taken **(enter as applicable)**:

- entire loan will be immediately called
- foreclosure proceedings will begin on any ineligible commodity
- a claim will be established for the following amounts due **(enter as applicable)**:
 - all market gain realized on the loan, plus interest
 - entire LDP amount
 - amount of liquidated damages
 - loan principal, plus accrued interest applicable to the ineligible commodity
 - other charges.

After the claim is established:

- the claim may be reported to other Federal Agencies for offset from any amounts that may be due you
- late payment interest, based on the rate established by the Department of the Treasury, will be applied to your debt on a daily basis from the date the claim is established until your debt is paid in full.

613 Assessing Administrative Actions (Continued)

F Good Faith Demand Letter (Continued)

An additional 3 percent will be assessed on the unpaid balance of the debt retroactively from the date the claim is established if payment in full is not made within 60 calendar days after the date the claim is established.

If this demand letter is a result of a producer's appeal and the appeal was not granted in full, this letter shall contain all the appeal options available according to 1-APP.

613 Assessing Administrative Actions (Continued)

G No Good Faith Demand Letter

If good faith **cannot** be determined **or** the producer has more than 2 violations in the previous 24 months, use this demand letter.

RE: (Enter crop year, commodity, and loan/LDP number.)

Dear _____ :

You were notified on (enter date of notification of violation) of the situation with respect to your (loan or LDP). The amount due has been recorded for offset from any FSA or CCC payment due you. You were given the opportunity to appeal this determination. (Describe the situation, including the determinations made because of an appeal, reconsideration, or failure by the producer to taken any action.)

Add paragraph in subparagraph H for nonrecourse farm-stored loans.

Add paragraph in subparagraph I for nonrecourse warehouse-stored loans.

Add paragraph in subparagraph J for recourse loans.

The following amounts are now due and payable (enter as applicable):

- loan principal (applicable to violation quantity)
- LDP amount
- interest (applicable to violation quantity)
- market gain
- other charges
- liquidated damages.

Applicable interest will continue to accrue from the date of this letter until these amounts are repaid or transferred to claims. If the above amounts are not repaid within 30 calendar days of this letter:

- a claim will be established
- foreclosure proceeding will begin on any ineligible commodity.

613 Assessing Administrative Actions (Continued)

G No Good Faith Demand Letter (Continued)

After the claim is established:

- the claim may be reported to other Federal Agencies for offset from any amounts that may be due you
- late payment interest, based on the rate established by the Department of the Treasury, will be applied to your debt on a daily basis from the date the claim is established until your debt is paid in full.

An additional 3 percent will be assessed on the unpaid balance of the debt retroactively from the date the claim is established if payment in full is not made within 60 calendar days after the date the claim is established.

If this demand letter is a result of a producer's appeal and the appeal was not granted in full, this letter shall contain all the appeal options available according to 1-APP.

H Nonrecourse Farm-Stored Loans

If the violation involves a nonrecourse farm-stored loan, use the following paragraph in the no good faith demand letter according to subparagraph G.

Based on this determination, the maturity date for your nonrecourse loan was accelerated to (**enter the 31st calendar day after the date of the notification letter**).

Because the loan has matured and the debt has not been repaid, the collateral not involved in the violation must be delivered to CCC. Follow the delivery instructions enclosed on CCC-691, Commodity Delivery Notice. If the principal and charges plus interest applicable to the quantity on CCC-691 are not repaid or delivery of the loan quantity shown on CCC-691 is not completed on or before the 30th calendar day after the date of the expiration, or extended expiration date of CCC-691, the following will apply:

- foreclosure proceeding will begin
- the amount due will be recorded for offset from any FSA or CCC payment due you
- a claim will be established.

613 Assessing Administrative Actions (Continued)**I Nonrecourse Warehouse-Stored Loans**

If the violation involves a nonrecourse warehouse-stored loan, use the following paragraph in the no good faith demand letter according to subparagraph G.

Based on this determination, the maturity date for your nonrecourse loan was accelerated to **(enter the 31st calendar day after the date of the notification letter)**.

Because the loan has matured and the debt has not been repaid, the loan collateral not involved in the violation has been forfeited to CCC.

Note: If the producer has appealed or requested reconsideration, notify the producer that if the principal and charges, plus interest applicable to the quantity not involved in the violation, is not repaid within 30 calendar days of this letter, the loan collateral will be forfeited to CCC.

J Recourse Loans

If the violation involves a recourse loan, use the following paragraph in the no good faith demand letter according to subparagraph G.

Based on this determination, the maturity date for your recourse loan was accelerated to **(enter the 31st calendar day after the date of the notification letter)**.

Because the loan has matured and the debt has not been repaid, foreclosure proceedings will begin on the loan collateral not involved in the violation. In addition, the amount of principal and charges, plus interest, is due and payable and has been recorded for offset from any FSA or CCC payment due you. If the amount due is not repaid within 30 calendar days of this letter, a claim will be established.

614 Assessing Liquidated Damages

A Calculating Liquidated Damages

*--For 2006 and subsequent crop year loan and LDP violations, calculate liquidated damages by multiplying the quantity involved in the violation times 10 percent of the loan or LDP rate.

For 2005 and prior crop year loan and LDP violations, calculate liquidated damages by multiplying the quantity involved in the violation times:

- 10 percent of the loan or LDP rate for a first offense, if COC determines that the producer acted in good faith when the violation occurred
- 25 percent of the loan or LDP rate for all other offenses.--*

B Authority to Waive Liquidated Damages

[7 CFR 1421.109] COC's may grant relief by waiving **any or all** of the liquidated damages determined according to subparagraph A if COC determines both of the following apply:

- the violation occurred inadvertently, accidentally, or unintentionally
- first or second offense and "good faith" determination was made.

STC's:

- shall establish written guidelines for determining when a violation occurred inadvertently, accidentally, or unintentionally
- shall ensure that COC's are following STC guidelines and making equitable determinations based on the merits and facts involved in the violation
- may grant relief on a case-by-case basis by waiving **any or all** of the liquidated damages determined according to subparagraph A for **any** offense.

C Canceling Liquidated Damages

Liquidated damages not waived cannot be canceled.

615 Amount Due Not Repaid Within 30 Calendar Days

A Additional Action for Good Faith First or Second Offense

If the amount due for a first offense or second offense, with a good faith determination according to subparagraph 613 C, is not paid within 30 calendar days of demand, the County Office shall:

- establish a claim, according to 58-FI, for:
 - the loan principal involved in the violation, plus accrued interest
 - entire LDP amount, plus interest
 - all market gain realized on the loan, plus interest
 - amount of liquidated damages, if applicable
 - loan amount, plus accrued interest applicable to any ineligible commodity
- for loans:
 - issue CCC-691 for outstanding nonrecourse farm-stored loan quantity, excluding any ineligible quantity or quantity involved in the violation
 - begin foreclosure or local sale proceedings on recourse loan or ineligible quantity
 - forfeit any remaining warehouse receipts on a warehouse-stored nonrecourse loan
- offset amount due from future FSA or CCC payments.

616 Other Administrative Actions

A Denial of Future Farm-Stored Loans and LDP's

[7 CFR 1421.109] COC's may, if CCC's interests are not or will not be protected, deny up to 24 months after the date the violation is discovered future:

- farm-stored loans
- LDP's requested without production evidence.

Note: Depending on the severity of the violation, COC may deny farm-stored loans and LDP's without production evidence for an additional period designated by COC.

B Calling Loans

COC's may, if CCC's interests are not or will not be protected, call any or all of the producer's farm-stored loans.

617 Waiving Administrative Actions

A COC Action

For all requests for waivers, COC shall submit copies of the complete case file to STC.

 - occurred inadvertently, accidentally, or unintentionally, or the producer acted to prevent spoilage of the commodity
 - did not result in harm or damage to the rights of any person or Government agency
- the complete case file is submitted, including the request by COC for the waiver.

618 Special Provisions for Unauthorized Disposition Cases**A COC Action**

For each violation for unauthorized disposition, COC shall:

- submit a memorandum to SED summarizing the situation that includes all of the following:
 - all actions COC has taken to date

Note: COC shall notify producer of violation according to subparagraph 602 B.

--An appeal hearing may be held, but do not determine good faith or waive liquidated damages until notified by the SED or OIG action. COC shall notify producers of demand for payment according to subparagraphs 613 F or G when notification is received from SED.--

- copies of documents about the unauthorized disposition, as appropriate, including a **complete** copy of the loan file

F Commingling Eligible and Ineligible Commodities

If eligible or ineligible commodities of the same or different crop years, including purchased commodities, are commingled **without** prior written approval, a loan may be disbursed on the **eligible** commodity if:

- the producer provided:
 - certification of the acreage for the current crop on all farms in all counties in which producer has an interest
 - acceptable production evidence, such as scale tickets or warehouse receipts, for all farms in which the producer has an interest

Note: If a purchased commodity is involved, purchase invoices or scale tickets must be provided.

- COC determines that the eligible production claimed by the producer is reasonable in relation to the crop production practices on the respective farms.

Reminder: Do **not** accept the ineligible production in settlement of the loan.

800 Commingling and Commodity Movement on Farm (Continued)

G Commingling Commodities With Other Producer's Commodity

Producers whose commodities are stored commingled in a storage structure may obtain separate CCC loans if **all** producers sign CCC-665 according to paragraph 429.

H Initiating Movement on Nonworkday

- the request meets current programs provisions.

I Commingling Additional Eligible Quantity With Mortgaged Quantity

A producer may add an additional eligible quantity to a designated structure that contains outstanding loan collateral.

If a request is made for a loan on the additional eligible quantity, the loan shall:

- be a new loan

B Determining Loan Quantity

Process the conversion in APSS according to 12-PS, Part 3, Section 5.

Determine the quantity for the measured loan according to the following.

IF...	THEN the quantity for the measured loan shall be...
<p>both of the following apply:</p> <ul style="list-style-type: none"> • the measured quantity is: <ul style="list-style-type: none"> • less than the outstanding loan quantity • within tolerance • COC determined there was no loan violation 	<p>the outstanding loan quantity.</p>

<p>the measured quantity is both of the following:</p> <ul style="list-style-type: none"> • less than the outstanding loan quantity • not within tolerance 	<p>the measured quantity.</p> <p>Note: An overdisbursement will be created in APSS during the conversion process.</p>

805 Farm-Stored Loans Brought Under New or Existing UGRSA

A Converting to Warehouse Storage

Outstanding farm-stored commodities mortgaged to CCC and stored in bins that are either brought under an existing UGRSA or issued a new UGRSA shall be handled according to the following table.

Step	Action
1	Identify all affected loans immediately after being notified that a bin containing commodities pledged as collateral for outstanding CCC farm-stored loans has been brought under an existing or new UGRSA.
2	File, in each applicable producer’s loan folder, written documentation of the date the commodities under loan identified in step 1 were brought under an existing or new UGRSA.
3	Immediately obtain warehouse receipts and transfer to warehouse-stored loan according to Section 2 and 12-PS, Part 5.
4	<p>When warehouse receipts representing the original farm-stored collateral are forfeited and submitted to KCCO, include the memorandum in subparagraph B with the warehouse receipts for each applicable forfeited loan.</p> <p>Note: KCCO shall not pay in/receiving charges, because the commodity was already in-store when the storing bin was brought under a new or existing UGRSA.</p>

815 Transferring Loans From Farm Storage to Warehouse Storage

A Authorization

County Offices may complete CCC-681 to authorize the transfer of farm-stored loan collateral to warehouse storage if **all** of the following can be accomplished by the maturity date:

- complete the movement of collateral to the warehouse
- return the warehouse receipts to the County Office
- provide all applicable signatures on new loan documents.

B Maturity Date

The loan maturity date for the warehouse-stored loan shall be the same date as the farm-stored loan maturity date.

C Warehouse Storage Charges

The producer must provide for warehouse storage charges, through the loan maturity date, according to Part 4, Section 3.

D Definition of Transferred Loan Quantity

For farm to warehouse transfers, the transferred loan quantity is the loan quantity liquidated from the farm-stored loan.

815 Transferring Loans From Farm Storage to Warehouse Storage (Continued)**E Maximum Transferred Quantity**

Warehouse-stored loan quantities, resulting from farm-to-warehouse transfers, shall **not** exceed 110 percent of the **transferred** farm-stored loan quantity.

Note: If within the loan availability period, a **new** loan or LDP may be requested on the eligible quantity exceeding 110 percent of the transferred farm-stored loan quantity.

F Transferring Entire Loan Quantity

When the **entire** farm-stored loan quantity is transferred to warehouse storage, the transferred loan quantity is the outstanding farm-stored loan quantity **before** the transfer.

The warehouse-stored loan quantity is the quantity delivered to the warehouse, not to exceed 110 percent of the outstanding farm-stored loan quantity before the transfer.

815 Transferring Loans From Farm Storage to Warehouse Storage (Continued)**G Partial Transfer of the Loan Quantity**

When **part** of the loan quantity is transferred, the transferred loan quantity is the quantity delivered to the warehouse. Accordingly:

- the farm-stored loan quantity **after** the transfer is the difference between the following:
 - the farm-stored loan quantity before the transfer
 - the quantity delivered to the warehouse

Note: The remaining farm-stored loan quantity is subject to spot check. See subparagraph 517 D for tolerance levels when shortages are discovered after partial transfers were approved according to this subparagraph.

- the warehouse-stored loan will **not** result in an additional disbursement for additional quantity.

H Completing Transfer

Complete the farm-to-warehouse transfer through APSS:

- according to 12-PS, Part 5
- for the quantity and quality shown on the warehouse receipt and, if applicable, KC-350
- deducting loan service fees according to subparagraph 408 B.

All producers who signed CCC-677 shall sign CCC-678 generated through APSS on or before the loan maturity date.

815 Transferring Loans From Farm Storage to Warehouse Storage (Continued)**I Commodity Transferred**

When the loan collateral is transferred to warehouse storage and the grading factors fall to the additional schedule of discounts, adjust the loan rate to 20 percent of the loan rate according to subparagraph 443 E.

Notify the producer that the loan can be converted to a recourse loan within 30 calendar days.

Complete the conversion to a recourse loan according to Part 4, Section 4 and the following:

- correct the nonrecourse loan according to 12-PS, Part 11
- re-record as a manual recourse farm-stored measured loan according to 12-PS, Part 3
- adjust the loan rate for **all** the quality factors recorded on the warehouse receipt using the appropriate discounts in the applicable 2-LP.

816 Remaining Farm-Stored Loan Quantity After Partial Transfer

A When Measured Quantity Is Less Than the Loan Quantity

The producer is liable for the remaining farm-stored loan quantity which is subject to spot check. When a spot check reveals the measured quantity is **less** than the remaining farm-stored loan quantity:

- do **not** require immediate repayment of the apparent quantity shortage, if the measured quantity is within 10 percent of the remaining farm-stored loan quantity

Exception: County Offices shall demand immediate repayment if COC determines a violation occurred.

- COC shall **not** consider the loan quantity to be incorrectly certified if the total quantity, which is the sum of the warehouse-stored loan quantity and the measured quantity, is within 10 percent of the farm-stored loan quantity before the transfer.

COC shall consider a violation occurred if COC determines unauthorized removal or unauthorized disposition according to Part 6.

B Example of Measured Quantity Less Than Loan Quantity

Producer obtained a certified farm-stored loan on 10,000 bushels of 2002 wheat and later transferred 8,500 bushels to a warehouse-stored loan.

The remaining farm-stored loan quantity is 1,500 bushels. A current spot check reveals a measured quantity of 1,200 bushels, resulting in a quantity shortage of 300 bushels. COC determines that unauthorized removal or unauthorized disposition did not occur.

In this example, the producer:

- must immediately repay the apparent quantity shortage of 300 bushels, because the measured quantity is not within 10 percent of the farm-stored loan quantity (1,500 x 90 percent = 1,350)
- is **not** considered to be in violation, because the total quantity of 9,700 bushels (8,500 warehouse-stored plus 1,200 measured) is within 10 percent of the farm-stored loan quantity before the transfer (10,000 x 90 percent = 9,000).

817 Additional Quantity Disbursement for Partial Transfers

A Availability of Additional Disbursement

An additional quantity disbursement may be available on partial farm to warehouse transfers if **both** of the following apply:

- the producer requests and pays for the measurement of loan quantity remaining in farm storage
- the loan quantity remaining in farm storage is equal to or greater than the difference between the transferred loan quantity and the farm-stored loan quantity before the transfer.

B Transferred Quantity Based on Remaining Farm-Stored Quantity

When a producer wants the remaining measured farm-stored quantity to remain under the farm-stored loan, the **transferred loan quantity** shall be the difference between the farm-stored loan quantity before the transfer and the remaining farm-stored quantity after the transfer.

Reminder: The warehouse-stored loan quantity is limited to 110 percent of the **transferred loan quantity**.

Example	
The producer has a 10,000 bushel farm-stored loan before the transfer. The farm-stored quantity remaining after the transfer was measured to be 6,000 bushels.	
The transferred loan quantity is 4,000 bushels.	
IF the warehouse receipt quantity is...	THEN...
greater than 4,000 bushels	the warehouse-stored loan could include an additional quantity disbursement, not to exceed 400 bushels.
equal to or less than 4,000 bushels	no quantity disbursement is applicable.

817 Additional Quantity Disbursement for Partial Transfers (Continued)

C Transferred Quantity Based on Warehouse Receipt Quantity

When the producer wants the quantity shown on the warehouse receipt to be considered the collateral for the warehouse-stored loan, the **transferred loan quantity** is determined by dividing the quantity shown on the warehouse receipt by 1.1.

Note: If the measured farm-stored quantity remaining on the farm is **less** than the difference between the farm-stored loan quantity before the transfer and the **transferred loan quantity**, then the **transferred loan quantity** must be increased by the shortage.

Example	
The producer has a 10,000 bushel farm-stored loan before the transfer and presents a warehouse receipt for 4,000 bushels.	
IF the measured farm-stored loan quantity remaining on the farm is...	THEN...
equal to or greater than 6,364 bushels	the transferred loan quantity shall be 3,636 bushels (4,000 bushels ÷ 1.1) and the warehouse loan would have an additional quantity disbursement on 364 bushels (3,636 bushels x 10 percent).
less than 6,364 bushels but greater than 6,000 bushels	the transferred loan quantity is increased by the difference between 6,364 bushels and the measured quantity. Note: Because the warehouse receipt quantity will be the warehouse loan quantity, any additional disbursement is limited to the difference between the increased transferred loan quantity and the warehouse receipt quantity.
equal to or less than 6,000 bushels	no additional disbursement is applicable.

818 Transferring Loans From Warehouse Storage to Farm Storage

A Authorization

County Offices may authorize transfer of warehouse-stored loan collateral to farm storage **only**:

 - provide all applicable signatures on the new loan document.

Complete and issue CCC-681, Part B according to paragraph 814.

B Releasing Warehouse Receipts

County Offices shall release warehouse receipts to the producer after:

- advising the warehouse of the pending transfer

 - producer will provide a copy of scale tickets from the warehouse.

818 Transferring Loans From Warehouse Storage to Farm Storage (Continued)**C Quantity Limitations**

The farm-stored loan quantity **cannot exceed** the warehouse-stored loan quantity transferred, rounded to the next higher whole unit of measure.

See subparagraph E for measurement of the farm-stored collateral.

D Maturity Date

The loan maturity date for the farm-stored loan shall be the same date as the warehouse-stored loan maturity date.

E Measurement After Transfer

After the collateral has been moved to eligible farm storage:

- perform a measurement service at the producer's expense
- obtain a representative sample of the commodity and apply, as applicable, the combined test weight and pack factor, test weight, and moisture shrink
- use the warehouse receipt quantity if COC determines the weighed quantity on the warehouse receipt more accurately reflects the quantity in farm storage.

County Offices shall:

- review entries on CCC-677-1
- note any comments entered by the commodity inspector.

818 Transferring Loans From Warehouse Storage to Farm Storage (Continued)**F Completing Transfer**

Complete the warehouse-to-farm transfer through APSS:

- if data is complete and accurate
- entering measurements or weighed quantity, as applicable
- according to 12-PS, Part 5
- deducting loan service fees according to Part 4.

All producers who signed CCC-678 shall sign CCC-677 generated through APSS.

If a storage deduction was made from the warehouse-stored loan, the transfer process will generate an additional money only disbursement for the storage deduction.

G Overdisbursement Created

An overdisbursement will be created in the transfer process when the outstanding loan amount exceeds the loan value of the measured quantity.

--Use the notification and demand letters in Exhibit 5, subparagraph F to require repayment-- of the overdisbursement and interest.

H When Measured Quantity Is Less Than Transferred Quantity

If the measured quantity is:

- 90 percent or more of the transferred warehouse-stored loan quantity, take no action unless COC determines a loan violation occurred
- less than 90 percent of the transferred warehouse-stored loan quantity, COC shall determine whether a loan violation has occurred according to Part 6.

Section 3 Reconcentrating Warehouse-Stored Loans**827 Reconcentrating Loan Collateral****A Requesting Reconcentration**

B General Provisions

The following provisions apply to reconcentrating loan collateral.

- CCC shall not increase loan rates to reflect transportation and handling charges.
- County Offices shall **not** approve reconcentration requests when any of the following apply:
 - the movement is determined not to be in the best interest of CCC and the producer
 - movement is **not** "in-line"
 - requests are submitted within 30 calendar days of the loan maturity date.
- If producers have an approved CCC-697 locking in a repayment rate for the loan commodity, the same lock-in rate is applicable only to quantity reconcentrated within the county where the farm- or warehouse-stored commodity was stored.

CCC-699 (Reverse) (04-13-98)

TERMS AND CONDITIONS

1. CCC agrees, upon execution by the warehouse operator of Part B on the front of this document, to surrender the warehouse receipt(s) listed in Part B and authorizes the shipping warehouse operator to move the commodity from the warehouse listed on the front of this document to the subsequent warehouse identified in Part B. The producer and the shipping warehouse operator request that such receipt(s) be released by CCC to the shipping warehouse operator to be held in trust for CCC. The shipping warehouse operator agrees that the commodity represented by such receipt(s) shall be held in trust for and subject to the security interest of CCC in such commodity and that the shipping warehouse operator's possession is solely for the purpose of prompt transportation of the commodity from the warehouse in which it is stored to the warehouse to which it is to be delivered.
2. The shipping warehouse operator agrees to obtain warehouse receipt(s) from the subsequent warehouse representing the same quantity and quality of the commodity and indicating storage has been paid or provided for to the same date as shown on the original receipt(s) or supplemental documents, issued to the order of the producer or CCC and agrees to furnish such warehouse receipt(s) to CCC within 30 days after the date of the approval of the trust agreement by CCC, (or such extension of time as may be granted in writing by CCC) unless the producer has redeemed the commodity. The producer must endorse such receipt(s) if they are not issued to the order of CCC.
3. The producer and the shipping warehouse operator agree that they will be liable to CCC as an insurer for any loss in quantity or quality (including protein content of wheat) of the commodity from the time it is loaded out of the present warehouse until it is deposited in the subsequent warehouse. Liability for any loss in quality or quantity will be resolved between the shipping warehouse operator and the producer. The shipping warehouse operator is responsible for filing claims against carriers for losses in transit.
4. The commodity may be redeemed by the producer by paying principal and charges, plus interest or, if applicable, at a CCC-determined rate with cash, to CCC before the time the new warehouse receipt(s) are furnished to CCC.
5. The shipping warehouse operator agrees that the commodity will be insured in the name of CCC or on its behalf, against the hazards for which insurance is required under the Uniform Grain and Rice Storage Agreement and for loss or damages from collision and related hazards while in transit, or obtain a bond or other security instrument which will protect the commodity against such loss or damages, from the time the commodity is loaded out of the present warehouse until it is deposited in the subsequent warehouse.
6. The movement and transportation of any commodity pledged as collateral for CCC commodity loans must be without cost to CCC.
7. CCC will issue and the producer agrees to execute any new loan documents which CCC may require. Applicable loan service fees will be charged to the producer. New loan values will be computed as follows.
 - A. The loan rate established by CCC for the commodity for the county where the commodity is stored.
 - B. The premiums and discounts for the quality shown on the new warehouse receipt(s) issued by the storing warehouse.
8. The producer and the shipping warehouse operator warrant and agree to keep the commodity free from adverse liens while in transit.

Section 2 Types of Repayments

914 Principal Plus Interest Repayments

A Applicability of Repayment at Principal Plus Interest

Producers are required to repay loans at principal plus interest for the following reasons:

- after 15th calendar day after expiration of CCC-681-1 for the quantity delivered
- loans disbursed as recourse loans

Note: Producers who have reached the payment limitation may repay the loan at a level that is the **lesser** of the following:

- the higher of the following:
 - loan principal
 - CCC-determined value.
- incorrect certification determination
- loan has been called
- for any quantity delivered on CCC-681-1 after maturity
- *--matured loans.

Note: Producers may repay matured loans according to subparagraph 900 F.--*

Refer to paragraph 916 for the repayment of quantities removed or disposed of without prior written authorization.

915 Marketing Loan Repayments

A Cash Marketing Loan Repayments

Market loan repayments with cash are at the **lesser** of the following:

- principal plus interest
- CCC-determined value.

The CCC-determined value, in some cases, may be higher than the loan rate, but less than the loan principal plus interest.

B Determining CCC-Determined Value

The CCC-determined value for the day the repayment is received in the County Office that disbursed the loan shall be used in determining the repayment rate.

Follow Section 7 to calculate the CCC-determined value using the terminal market prices posted on the “Daily Market Rates” for commodities that are downloaded from KCCO.

See paragraph 952 for locking-in repayment rates on CCC-697.

C Market Repayments on Loans With Storage Deduction

If a loan repayment for a warehouse-stored loan with a storage deduction is made using the CCC-determined value, process an additional disbursement for “**previously deducted storage**” according to 12-PS, Part 3, Section 5:

- **before** applying the market loan repayment
- by entering the loan maturity date as the storage paid through date for each warehouse receipt that will be included in the repayment.

D Payment Limitation

See paragraphs 104 and 105 for applicable payment limitation rules.

915 Marketing Loan Repayments (Continued)**E Production Evidence Required**

For loans that are repaid under the marketing loan provisions **and** are selected for spot check, require the producer to submit production evidence to the County Office. See:

- Part 5 for:
 - determining acceptable production evidence
 - submitting production evidence
- paragraph 541 and 12-PS, Part 7, Section 4 for recording production evidence.

F Market Gain Reported to IRS

The market gain is the difference between the loan principal that is liquidated and the amount needed for the marketing loan repayment, when the marketing loan repayment amount is less than the loan principal amount that is liquidated.

The amount of market gain is reported to IRS.

G Denied Market Gains

Part or all of a producer's calculated market gain shall be denied if **any** of the following apply:

- payment limitation is reached
- percent of cropland factor is less than 1.0000
- permitted entity share is less than 100 percent.

Note: See paragraphs 104 and 105 for denied market gains.

916 Repayment Rate Applicable to Loan Quantities Involved in a Violation

A Determining Applicable Repayment Rate

Determine the repayment rate according to the following table for quantities involved in unauthorized:

- removal
- disposition.

COC determines...		THEN the repayment rate is...
good faith according to paragraph 613 C	and the producer has 2 or less violations	the lesser of: <ul style="list-style-type: none"> • principal and charges plus interest • the CCC determined value on *--the date the violation occurred as determined by CCC plus 15 percent of--* the loan rate.
good faith not determined according to paragraph 613 D	or the producer has more than 2 violations	principal and charges plus interest.

Note: For producers who repay a marketing assistance loan before being notified of a shortage or violation, County Offices shall manually insert the following statement in the remarks section of CCC-500:

“This repayment does not release the borrower from any administrative actions”.

917 Lump-Sum Repayments**A When to Manually Calculate Lump-Sum Repayments**

County Offices shall manually calculate lump-sum repayments only when the following situations apply:

- computer is not working
- to explain to producers how lump-sum repayments are calculated by APSS and attributed to applicable bins under loan.

Note: Lump-sum repayments are not applicable to warehouse-stored loans.

B Applying Lump-Sum Repayment Amounts

Instructions in the following table provide how repayment amounts are determined and applied by bin, for **each** bin included on a loan for which a lump-sum repayment is made.

Determine the following amounts, as applicable:

- principal
- interest
- quantity redeemed when a lump-sum repayment is used to repay a partial bin.

Note: Repay receivables and overdisbursements first. Apply any remaining amount as a lump-sum repayment.

917 Lump-Sum Repayments (Continued)

B Applying Lump-Sum Repayment Amounts (Continued)

Step	Action		
1	Determine the number of days applicable at each interest rate for the bin being repaid.		
2	*--Multiply the number of days at each interest rate times the interest rate times the outstanding principal amount for the selected bin divided by 365 calendar days.--*		
3	Add outstanding principal and calculated interest amounts for the selected bin to determine the payoff amount for the selected bin.		
4	IF the lump-sum amount received is...	AND any remaining amount will be...	THEN...
	equal to or greater than the amount determined in step 3	refunded to the producer or buyer, as applicable	<ul style="list-style-type: none"> • complete the repayment using the amount determined in step 3 • prepare a refund CCC-184 according to 3-FI.
		applied to another bin	note the calculated bin repayment amount and go back to step 1 for the next selected bin.
			calculate a liquidation factor according to step 5.
5	*--To determine a liquidation factor for the final selected bin, divide the balance of the lump-sum amount received by the amount determined in step 3. Round this factor to 9 decimal places.		
6	Multiply the liquidation factor determined in step 5 by the outstanding quantity for the selected bin. Round any partial unit up to the next whole unit.		
7	Multiply the quantity determined in step 6 by the loan rate for the selected bin to determine the principal amount to be repaid.		
8	Subtract the amount determined in step 7 from the balance of the lump-sum amount--* received. The difference is the interest amount for the lump-sum repayment.		
9	Complete the repayment and prepare a manual CCC-500 using the total repayment amounts calculated for all bins selected for the lump-sum repayment. See subparagraph C for an example.		

917 Lump-Sum Repayments (Continued)

C Example of Manual Calculations

The producer in this example has a farm-stored loan on 3,000 bushels of 20xx-crop wheat. The outstanding loan principal is \$6,000. The repayment date is February 14, 20xx.

The lump-sum amount received from the producer is \$4,500. The interest rate changed to 8.875 percent on January 1, 20xx.

Bin No.	Disbursement Date	Quantity	Principal (Dollars)	Interest Rate (Percent)
1	9-17-xx	1,000	2,000	8.000
2	9-17-xx	1,000	2,000	8.000
3	9-17-xx	500	1,000	8.000

917 Lump-Sum Repayments (Continued)

C Example of Manual Calculations (Continued)

In this example, a lump-sum repayment of \$4,500 was made on February 14, 20xx. Compute the repayment according to the following table.

Step	Instructions	Bin No.	Action	Result
1	Calculate interest.	1	$9-17-9x - 1-1-9x = 106 \text{ days} \times 8.0\% \times \$2,000 \div 365 =$ $1-1-9x - 2-14-9x = 44 \text{ days} \times 8.875\% \times \$2,000 \div 365 =$ Total accrued interest =	\$46.46575 <u>\$21.39726</u> \$67.86
		2	$9-17-9x - 1-1-9x = 106 \text{ days} \times 8.0\% \times \$2,000 \div 365 =$ $1-1-9x - 2-14-9x = 44 \text{ days} \times 8.875\% \times \$2,000 \div 365 =$ Total accrued interest =	\$46.46575 <u>\$21.39726</u> \$67.86
		3	$9-17-9x - 1-1-9x = 106 \text{ days} \times 8.0\% \times \$1,000 \div 365 =$ $1-1-9x - 2-14-9x = 44 \text{ days} \times 8.875\% \times \$1,000 \div 365 =$ Total accrued interest =	\$23.23287 <u>\$10.69863</u> \$33.93
2	Calculate the amount required to repay each bin under loan.	1	Principal = \$2,000.00 Accrued interest = <u>67.86</u> Total due = Quantity =	\$2,067.86 1,000 bushels
		2	Principal = \$2,000.00 Accrued interest = <u>67.86</u> Total due = Quantity =	\$2,067.86 1,000 bushels
		3	Principal = \$1,000.00 Accrued interest = <u>33.93</u> Total due = Quantity =	\$1,033.93 500 bushels

917 Lump-Sum Repayments (Continued)

C Example of Manual Calculations (Continued)

Step	Instructions	Bin No.	Action	Result
3	Use the lump-sum repayment to repay entire loan quantity in a bin.	3	In this example, bin 3 was selected for repayment first. $\$4,500 - \$1,033.93 =$	Amount remaining \$3,466.07
		2	Bin 2 was selected for repayment $\$3,466.07 - \$2,067.86 =$	Amount remaining \$1,398.21
		1	The remaining lump-sum amount is insufficient to repay bin 1.	See step 4.
4	Divide the amount remaining by the amount needed to repay the last bin to determine a liquidation factor. Round the factor to 9 decimal places.	1	$\$1,398.21 \div \$2,067.86 =$.676162796 (liquidation factor)
5	Multiply the liquidation factor determined in step 4 by the outstanding bin quantity to determine the quantity to be repaid. If the calculation results in a partial unit, round up to the next whole unit.	1	Multiply the calculated quantity to be repaid by the loan rate to determine the principal to be liquidated. Interest is the difference between the principal liquidated and the amount remaining to be applied. Quantity to repay rounded to next whole unit: $1,000 \times .676162796 = 676.162796$ Principal to be repaid = $677 \times \$2.00 =$ Interest = $\$1,398.21 - \$1,354.00 =$ Total repayment =	677 bushels \$1,354.00 <u>44.21</u> \$1,398.21

***--918 Wire Transfer Repayments**

A Background

Wire transfer repayments are only available through the APSS application. Producers or buyers may wire transfer repayments directly to CCC’s account at the U.S. Department of Treasury.

Note: Producers may not transfer repayments to the local CBS office.

B Processing Wire Transfer Repayments

Process loan redemptions made by CCC-258 according to the following table. The producer will take CCC-258 to his or her bank to initiate the wire transfer.

County Offices shall use their manual log of wire transfer numbers maintained according to 3-FI to enter the loan number(s) to which the wire transfer will apply.

Step	Action
1	Upon request by a producer for a loan redemption by wire transfer, provide (by FAX if requested) CCC-258.
2	Complete CCC-258 according to 3-FI, paragraph 39.
3	Advise the producer that the completed CCC-258 is to be: <ul style="list-style-type: none"> • transmitted to the bank providing the wire transfer • FAXed by the bank or merchant to the County Office on the date of the wire transfer with the bank’s receipt of the wire transfer.
4	Accept the wire transfer receipt from the bank as confirmation of receipt of funds and record the repayment through APSS. The system will generate CCC-500 as a receipt for the wire transfer. The date the wire transfer is received in the County Office is the date of repayment.

***--Note:** When calculating interest, the repayment date is **not** included. See subparagraph 928 A.--*

See 50-FI for applicable interest rates.

The monthly interest rate announced for 1996 and subsequent crop years includes the additional 1 percent applicable to loans as authorized by the Farm Security and Rural Investment Act of 2002. This additional 1 percent is **not** applicable to LDP's.

A loan deficiency resulting from the processing of a settlement becomes a **receivable** and will be handled according to subparagraph B.

927 Applicable Interest Rates (Continued)

B Interest Applicable to Receivable, Overpayment, and Over-disbursement Amounts

For receivable, overpayment, and overdisbursement amounts, follow this table to determine the following:

- applicable interest rate
- time period for interest assessment.

928 Manual Interest Calculations

A Manually Calculating Interest

For regular loan repayments for loans:

- disbursed by CCC-184, interest is computed on a daily basis from the date of disbursement to, but not including, the date of repayment
- disbursed by EFT, interest is computed on a daily basis from the date of disbursement to, but not including, the second day before the date of repayment
- when different interest rates apply, interest is computed from:
 - date of disbursement to, but not including, the effective date interest changed
 - date of interest change to, but not including, date of repayment, or another rate change occurs.

Note: If the interest period includes February 29, include February 29 in the number of days computed, **but** divide the total number of days by **365** when computing the interest.

B Total Aggregate Amount of \$500,000 or More

Producers repaying a loan that has a total aggregate principal amount of **\$500,000 or more**, by:

- other than a wire transfer, shall be assessed interest beginning on the loan disbursement date **through the day after** the date of repayment
- *--wire transfer, shall only be assessed interest beginning on the loan disbursement date up to the **second day before** the date of repayment, even if the loan was disbursed by EFT.--*

928 Manual Interest Calculations (Continued)**C Transferred Loans**

For loans transferred according to Part 8, Section 2 and 12-PS, Part 5, and for which a repayment is to be made, compute interest on the:

- transferred loan quantity principal amount from the date of original loan disbursement to, but not including, the date of disbursement of the new loan, minus repayments made
- new loan principal amount from the date of disbursement to the date of repayment.

Note: If the new loan is insufficient to liquidate the original loan or part being transferred:

- interest is computed, according to subparagraph 927 B, on the overdisbursement and receivable created through the transfer process
- request repayment from the producer at the time the transfer is processed in APSS.

D Farm-Stored Nonrecourse Loan Deficiencies

For farm-stored nonrecourse loan deficiencies on settlements, determine applicable interest rate and time period for interest assessment as follows.

- Interest is assessed on the deficient principal amount:
 - at the interest rate applicable to the loan
 - for the period from the date of disbursement, subject to January 1 adjustment, up to the date the settlement is completed in APSS.

928 Manual Interest Calculations (Continued)

E Farm-Stored Recourse Loan Deficiencies

For farm-stored recourse loan deficiencies on local sale settlements, interest is assessed on the outstanding loan principal amount:

- at the interest rate applicable to the loan

(09-17-99) Commodity Credit Corporation

AUTHORIZATION FOR DELIVERY OF LOAN COLLATERAL FOR SALE

(Privacy Act and Public Burden Statement on Page 2)

NOTIFICATION OF CCC'S SECURITY INTEREST

This notification is made pursuant to Section 1324 of the Food Security Act of 1985. Commodity Credit Corporation (CCC) has a perfected security interest in the entire quantity of the commodity specified in Part A, which has been pledged as collateral for the CCC loan number identified in Item 5. A copy of this loan agreement may be obtained at the address identified in Item 9. CCC's security interest has not lapsed and will not lapse until the earlier of the date specified in the financing statement executed by the producer or until written notification is given to the buyer by CCC that such interest has lapsed. CCC will waive its security interest with respect to the buyer identified in Item 10 only if such buyer remits payment payable to the "Commodity Credit Corporation" at the address indicated in Item 9 by the final date to repay a shown in Item 12. The amount of such payment is calculated by multiplying the repayment rate per unit by the quantity of commodity purchased not to exceed the quantity identified in Item 4. The repayment rate must be obtained from the County FSA Office indicated in Item 9. Any amount in excess of the amount required to repay the quantity of commodity actually purchased or in excess of the quantity shown in Item 4 will be refunded to buyer if Item 11 has been completed by the producer.

CCC has previously obtained lien waivers from all prior lienholders who claim an interest in the commodity identified in Part A which were superior to CCC. In the event that CCC has failed to obtain a lien waiver from a superior lienholder and the buyer is obligated to make a payment to such lienholder for the purchase of the commodity, CCC agrees to be subject to the actual dollar value of such lien if: 1) payment was made solely to CCC because Item 11 is initialed and dated by one of the debtors; 2) the lien is established to be legally superior to CCC's interest; 3) the buyer fully cooperates with CCC's investigation of such other lien by supplying CCC with all requested information; and 4) the buyer lacks any affirmative defenses with respect to such lien, CCC will pay the actual dollar value of the lien, but not any collateral costs incurred by the buyer including, but not limited to, legal fees, court fees, interest, or penalties, unless otherwise authorized by law.

Note: Inform the producer that the cost of issuing replacement warehouse receipts and, if applicable, KC-350's is the producer's responsibility.

B Repayment Required Before Splitting Receipts

Require the producer to remit a check to CCC for the amount eligible to be repaid, using the market repayment rate as of the date of the repayment request, according to subparagraph A.

Section 7 Calculating CCC-Determined Values**983 General Information****A CCC-Determined Value**

The CCC-determined value is the amount used to determine:

- LDP rates
- market loan repayment rates.

B LDP Rate

The LDP rate is determined by the amount the applicable commodity loan rate exceeds the CCC-determined value where the:

- commodity is stored for basic LDP's
- farm records are maintained for field direct LDP's.

See Part 3 for LDP's.

C Market Loan Repayment Rate

Market loan repayment rates are at the lesser of the following:

- principal plus interest
- the CCC-determined value.

Complete market loan repayments according to paragraph 915 and Section 5.

984 Terminal Market Rates and County Differentials

A Terminal Market Rates

County Offices are assigned 1 or 2 terminal markets for each commodity by KCCO. The terminal market rates are used to determine the CCC-determined value.

B Rate Announcement

The terminal market rates are announced:

- daily at 7 a.m. e.t. for wheat, feed grains, and soybeans
- Friday at 7 a.m. e.t. for oilseeds except soybeans.

All terminal market rates are in effect until the next rate change is announced.

Example: The rate announced on Friday for wheat will be used for all nonworkdays until the next announcement of the rates on the first workday, as applicable.

C “Daily Market Rates”

The terminal market rates are downloaded from KCCO and are posted to the “Daily Market Rates”:

- **daily** for wheat, feed grains, and soybeans
- **weekly** for oilseeds, peanuts, and pulse crops.

Note: Pulse crops include lentils, dry peas, and small chickpeas.

--KCCO maintains and archives market prices for public use. Archived market prices can be accessed electronically at <http://www.fsa.usda.gov/daco/reports.htm>.--

These printouts show all of the following:

- date for which the listed terminal market prices apply
- individual terminal market prices
- commodity
- daily terminal market prices for each terminal
- footnotes for adjusting terminal market prices for certain commodities.

See Exhibit 38 for an example of the “Daily Market Rates”.

984 Terminal Market Rates and County Differentials (Continued)

D County Average Location Differentials

KCCO shall:

- provide a terminal market price to State Offices showing:
 - terminal markets assigned to each county for each commodity
 - county average location differential for each terminal market per commodity
- determine the terminal market price for each commodity at each terminal market
- maintain the daily market rates to make terminal market prices available to State and County Offices
- by telephone, immediately advise State Offices of terminal or differential changes and the effective date as they occur.

See Exhibit 39 for abbreviations for commodity, class, and terminal markets.

State Offices shall:

- inform County Offices of:
 - the assigned terminal markets for each commodity
 - the county average location differential for each commodity
 - any changes KCCO makes to assigned terminals or differentials
- contact KCCO:
 - for requests to changes in differentials
 - questions about the “Daily Market Rates” downloaded each day.

985 Calculating CCC-Determined Value**A PCP**

PCP is the price used to determine the CCC-determined value for all commodities except oilseeds.

PCP is:

- adjusted for premiums and discounts when determining the market repayment rate
- **not** adjusted for premiums and discounts when determining the LDP rate
- **not** adjusted when loan rates are discounted to a set percentage for nonrecourse loans on:
 - commodities harvested as other than grain
 - contaminated commodities
 - low quality commodities
 - seg 2 and seg 3 peanuts
- calculated for each terminal assigned to the County Office for the commodity, as applicable
- calculated by class for wheat only.

Note: To determine PCP for Hard White Wheat or Hard Winter Wheat, use the loan rate and differential applicable to Hard Red Winter Wheat.

985 Calculating CCC-Determined Value (Continued)**B RCP**

RCP is the price used to determine the CCC-determined value for oilseeds only.

RCP is:

- adjusted for premiums and discounts when determining the market repayment rate
- **not** adjusted for premiums and discounts when determining the LDP rate
- **not** adjusted when loan rates are discounted to a set percentage for nonrecourse loans on:
 - commodities harvested as other than grain
 - contaminated commodities
 - low quality commodities
- calculated for each terminal assigned to the County Office for the commodity, as applicable.

***--Note:** For sunflower seed oil and non-oil types, use the sunflower seed oil terminal market price to calculate the CCC-determined value.--*

C Calculating the CCC-Determined Value

Calculate the CCC-determined value:

- daily for wheat, feed grains, and soybeans
- every Friday for oilseeds except soybeans
- every Friday for lentils, dry peas, and small chickpeas
- every Tuesday for mohair, peanuts, and wool
- using the terminal markets assigned for each commodity, as applicable.

Use the highest CCC-determined value to calculate LDP and market loan repayment rates.

985 Calculating CCC-Determined Value (Continued)**C Calculating the CCC-Determined Value (Continued)**

Determine the:

- LDP rate by subtracting the highest CCC-determined value from the county loan rate, as applicable
- market gain by adding or subtracting the adjusted CCC-determined value to or from the adjusted county loan rate, as applicable.

If the highest CCC-determined value is higher than the applicable county loan rate, there is no:

- LDP in effect for that day and requests are not applicable
- market gain earned but producer may obtain forgiven interest, as applicable.

For loans, always use the county loan rate, terminal markets, and location differentials applicable to the county used to disburse the loan when determining the CCC-determined value.

D Grade Discounts for Durum Wheat

To determine the CCC-determined value for durum 2003 and subsequent crop year wheat loans or LDP's, subtract from the applicable terminal price the discount for Durum as shown on the "Daily Market Rates".

If the CCC-determined value is determined on quality using the schedule of premiums and discounts:

- disregard the subclass discount
- apply the grade discount.

Note: Do not apply this subparagraph to 2002 crop.

985 Calculating CCC-Determined Value (Continued)**E Using CCC-694-1**

Use CCC-694-1, or other available methods according to subparagraph F, for calculating the CCC-determined value. For loan repayments, apply premiums and discounts that applied to the loan disbursement to PCP or RCP to compute the CCC-determined value for each market applicable to the county.

County Offices shall:

- *--complete CCC-694-1 daily or weekly if no other method is available to determine the CCC-determined value--*
- file CCC-694-1 or other available method used to determine the CCC-determined value in the loan folder, as applicable, for market loan repayments.

F Other Available Methods

County Offices, with State Office concurrence, may use other available methods instead of CCC-694-1 for calculating the CCC-determined value when determining the LDP rates.

All filing requirements according to subparagraph E are applicable.

Spread-sheet calculators, intranet printouts, or other printouts are acceptable as other available methods as long as all CCC-694-1 requirements are met.

Note: PCP must be adjusted for premiums or discounts when determining the CCC-adjusted determined value for market loan repayments.

985 Calculating CCC-Determined Value (Continued)

G Completing CCC-694-1

Complete CCC-694-1 for each market loan repayment or LDP according to the following.

Item	Instructions
1-13	These items are self-explanatory. Complete items: <ul style="list-style-type: none"> • 6 through 9, as applicable, for market loan repayments • 10 through 13, as applicable, for LDP's not filed in the master file.

18	Enter any premiums for quality that were added to the loan rate when the loan was disbursed. Leave blank for LDP's.
19	Enter any discounts for quality that were subtracted from the loan rate when the loan was disbursed. Leave blank for LDP's.
20	Enter the CCC-determined value. This is determined by adding or subtracting, as applicable, item 18 or 19 from item 17. Use the highest CCC-determined value for determining the market loan repayment rate and LDP rate, as applicable.

In the remarks section, complete the calculation to determine the LDP rate and market loan repayment rate, as applicable.

Section 8 Commodity Certificate for Commodity Exchanges

990 General Information

A Availability

The commodity certificate exchange provision for loan collateral is applicable to outstanding loans.

B Process

The following table describes the process to exchange commodity certificates for loan collateral.

Step	Function
1	Producer or producer’s agent requests to acquire loan collateral using commodity certificates.
2	County Office identifies loan and loan quantity, and determines exchange value using CCC-694-1 (Reverse).
3	Producer purchases commodity certificate for the exact dollar value needed to acquire the loan collateral from the County Office.
4	Producer signs for the commodity certificate and uses it to acquire the loan collateral.
5	County Offices release the loan collateral.

C Eligible Producer

Eligible producers must:

- have an outstanding commodity loan, not past maturity, to purchase commodity certificates
- immediately exchange commodity certificates for loan collateral.

990 General Information (Continued)

D Eligible Commodities

See paragraph 126 for eligible commodities.

E Exchange Rate

The commodity certificate exchange rate is the CCC-determined value calculated according to Section 7.

If the CCC-determined value is equal to or greater than the applicable county loan rate, there will be no commodity certificate exchange available on that day.

F Not Applicable to Commodity Certificate Exchanges

The following table explains the specific topics that are not applicable to commodity certificate exchanges.

Topic	Explanation
Lock-in repayment rates	*--A commodity certificate exchange shall not be applied to designated outstanding loan quantity covered under the CCC-697 lock-in repayment provision.--*
Payment limitation	Commodity certificate exchanges are not applicable to payment limitation.
IRS reporting	Market gain earned from commodity certificate exchanges for loan collateral will not be reported by FSA to IRS on CCC-1099, as applicable. However, producers should be reminded that any market gain earned is income and must be reported as required by IRS.
FAXed signatures	FAX forms or signatures are not authorized for purchasing commodity certificates or exchanging the certificate for a commodity.
Repledged commodities	Loan collateral exchanged with a commodity certificate is not eligible to be repledged.
Purchasing CCC-owned inventories	Commodity certificates may not be exchanged for CCC-owned inventory. Commodity certificates may only be exchanged for CCC immediately acquired loan collateral.

991 Determining Commodity Certificate Exchange Value**A CCC-694-1 (Reverse) Objective**

Use CCC-694-1, or other attached methods described in Section 7, to calculate the:

- certificate exchange rate using commodity certificates
- dollar value needed to purchase commodity certificates.

Because the exchange rate is the CCC-determined value, determine the CCC-determined value according to Section 7.

Use the reverse side of CCC-694-1 to calculate the dollar value needed to purchase commodity certificates.

B Manually Assigning Transaction ID Number

Each commodity certificate transaction shall be identified by a unique transaction number. Example: 00-00210-0001.

Note: When the commodity certificate exchange is recorded in APSS, the system will generate a commodity certificate exchange number and will print that number on CCC-500.

MAL request date **must** be the date (or the later of multiple dates) that is entered in CCC-694-2, item 8.

Lien searches and filings are waived for immediate commodity certificate exchanges; however, if the producer discloses that there is a lien on the commodity, the producer **must** file CCC-679 at the time of the MAL request.

The mileage for which credit is earned shall:

- be the additional distance to the delivery point from the customary delivery point

C Additional County Office Action

Follow this table when additional action is necessary to obtain corrected documents.

IF the producer...	THEN the County Office shall...
fails to obtain the warehouse receipt and CCC-691 from the County Office for correction	<ul style="list-style-type: none"> • obtain corrected warehouse receipts • consider the cost for splitting warehouse receipts as a cost incurred by CCC • enter the cost on CCC-691, item 26 • complete the settlement process.

returns the corrected documents after the claim has been established	follow paragraph 1044 and 12-PS, Part 9 for processing settlement of the loan in claim status.

Note: If the loan collateral is sold by local sale, process settlement in APSS according to 12-PS, Part 9.

1020 Determining Loan Settlement Values

A Base Loan Rates

If the commodity is delivered to CCC from farm storage, settlement shall be made by CCC on the basis of the base loan rate:

- applicable to the crop year for the commodity
- for the county where the producer's customary delivery point is located
- adjusted for applicable premiums and discounts.

B Determining Settlement Values

The settlement of farm-stored loans is based on the quantity and quality of the commodity delivered to CCC.

Determine farm-stored settlement rates on eligible commodities, as determined in applicable 2-LP, using the:

- specific crop year schedule of loan premiums and discounts for the:
 - crop year of the commodity delivered
 - factors or percent of factors shown on the warehouse receipts or inspection certificates
- additional schedule of discounts in effect on the date delivery was completed by the producer.

C Weight Basis for Premiums and Discounts

See applicable 2-LP for applicable weight basis.

1020 Determining Loan Settlement Values (Continued)

D Using Appropriate Schedule

Follow this table when a discount factor is **not** included in the applicable specific crop year schedule of premiums and discounts for the applicable commodity.

IF a discount factor or percentage of a factor is not included in...	THEN...
the applicable specific crop year schedule of premiums and discounts for the commodity	apply the applicable additional schedule of discounts: <ul style="list-style-type: none"> • in effect on the date delivery is completed as shown on CCC-691 • in 2-LP applicable to the commodity. <p>Note: Schedules for previous years' delivery periods not found in 2-LP may be obtained from the State Office, if needed.</p>
the applicable additional schedule of discounts for the commodity	contact PSD, as applicable: <ul style="list-style-type: none"> • County Offices shall contact PSD through the State Office, only • State Offices shall contact PSD at 202-720-9154. <p>Note: Do not contact KCCO, KCAO, or KCFO.</p>

1020 Determining Loan Settlement Values (Continued)**E Reasons for Additional Discounts**

The schedules of CCC additional discounts are:

- provided for those qualities, factors, or percentages of factors for which no discounts have been established in the specific crop year schedule of loan premiums and discounts
- applicable for commodities delivered to CCC
- applicable to all States
- to be used to determine farm-stored loan settlement rates, if applicable.

F Applicability of Additional Discounts

Quantities of farm-stored commodities are subject to the additional discounts for loan settlements in the applicable 2-LP when the quantities are **both** of the following:

- ineligible for warehouse-stored loan
- delivered to satisfy farm-stored loan obligations.

The additional discounts:

- are for factors not shown in specific crop year schedule of premiums and discounts
- shall be used in addition to any applicable discounts in the specific crop year schedule of premiums and discounts.

Example: If the warehouse receipt or inspection certificate shows that the corn has 3.5 percent broken corn and foreign material and 15.9 percent moisture, use the discount in:

- specific crop year schedule for 3.5 percent broken corn and foreign material
- additional schedule of discounts for 15.9 percent moisture.

1020 Determining Loan Settlement Values (Continued)**G Using the Additional Schedule of Discounts**

The additional schedule of discounts are:

- cumulative discounts
- **not** to be added to any discount **if** the **same factor** is listed in the specific crop year schedule of loan premiums and discounts.

Use the discount shown in the specific crop year schedule of loan premiums and discounts to determine the settlement rate **if** a factor or percentage of a factor, applicable to the commodity, is listed in **both** of the following:

- specific crop year schedule of loan premiums and discounts for the crop year of the commodity delivered
- additional schedule discounts.

H Settlement Value of Zero or Less Than Zero

Discounts applied during a settlement may result in the commodity having a value of zero or less than zero. If this situation occurs, use zero for the settlement value of the commodity.

I Discount for Contaminated Grain

Grain found to contain substances poisonous to human or animals, such as mercurial compounds and toxin-producing molds, will receive a discount equal to the settlement value determined after applying all other premiums and discounts. See the additional discount schedule applicable to the commodity.

Exceptions: For grain delivered to CCC and the warehouse receipt indicates a vomitoxin level of:

- 5 parts per million or less, determine the settlement rate in the normal manner
- more than 5 parts per million, the grain shall have a settlement value of **zero**.

1021 Completing Settlement

A Processing Settlement

County Offices shall:

- organize their work so that settlements are processed promptly when delivery of the commodity is completed
- process settlements in APSS according to 12-PS, Part 9

Section 3 Uncommon Liquidation Situations**1042 Loans Called Before Maturity****A Calling Loans Before Maturity**

COC may authorize and call farm-stored loans accelerating the maturity date on an individual basis **before** the established maturity date, when necessary, to protect CCC's interest or in emergency situations.

Examples: Insect infestation that cannot be controlled.

Danger of flood or fire.

Damage to the structure or other condition that makes it unsafe to continue storage on the farm.

Involuntary loss of control of the storage structure.

B Notifying Producer

--Notify producers using the notification letter, according to Exhibit 5, subparagraph O,-- that:

- the loan, or part of it, if applicable, is immediately due and payable because CCC's interest is not protected
- amounts due must be paid with cash on or before the accelerated maturity date
- commodities for nonrecourse loans may be delivered to CCC
- commodities for recourse loans, if not repaid, will be sold.

1042 Loans Called Before Maturity (Continued)**C Action When Producer Does Not Repay**

If the producer fails to make the requested repayment by the accelerated maturity date, the County Office shall, **immediately** after the accelerated maturity date, for a:

- nonrecourse loan:
 - authorize delivery on CCC-691 and issue demand letter according to paragraph 1001

D Deducting Storage Charges

When a nonrecourse loan is called before maturity, make a storage deduction as a separate item instead of reducing the settlement rate.

APSS will determine storage charges:

- through the loan maturity date
- when “Y” is entered in response to “Are storage charges for early delivery applicable?”
- from the appropriate offer shipping rate table.

Exception: County Offices shall **not** make a storage deduction when deliveries of farm-stored commodities are called by CCC under general acceleration of the loan maturity date for a particular geographic area.

E Additional Action

If the loan has not been liquidated by repayment or delivered by the specified final date, County Offices shall take steps to acquire the commodity by foreclosure according to paragraph 1043.

If the producer appeals the loan call, follow paragraph 20.

1043 Foreclosure**A Nonrecourse Loans**

In cases where no repayment, delivery, or liquidation is made by the producer by the 30th calendar day after the expiration, or extended expiration, date of CCC-691, COC shall notify the producer on the 31st calendar day, using the letter in subparagraph C, that:

- CCC may, to the extent permitted by law, repossess the collateral by:
 - entering the premises
 - removing the entire loan quantity

Note: CED shall obtain a court order from regional attorney, through the State Office, if necessary.

- the producer shall bear all expenses incurred for the delivery.

When the delivery has been completed, handle CCC-691 in the normal manner, according to Section 2.

The producer's signature is **not** required.

B Recourse Loans

C Notifying Producer of Removal

Use the following letter to notify the producer, according to subparagraph A, when collateral will be removed from the farm.

Note: County Office shall notify the producer of all the applicable appeal options available as determined by the decision-making authority.

(Date) _____, 20__

Dear _____:

This concerns 20__ crop _____ loan which matured on _____. You have not liquidated this loan by repayment or delivery of the collateral as instructed in our letter to you dated _____.

Because settlement has not been completed, Commodity Credit Corporation (CCC) will start foreclosure action. CCC may, to the extent permitted by law, enter your farm premises and remove the entire loan quantity. We will arrange for trucks to haul the grain. The settlement will be based on the loan rate adjusted for premiums and discounts, not the market value of the commodity. You will be charged for all expenses associated with the taking possession of and delivery of the commodity.

If you do not settle the loan promptly, you may also be jeopardizing your right to future farm stored loans.

Please contact this office immediately for the current repayment amount.

Sincerely,

County Executive Director,
 _____ County FSA Office

1044 Delivery After Claim Is Established

A Accepting Delivery After Claim Is Established

CCC may accept delivery of nonrecourse loan collateral after a claim has been established.

The producer shall bear all expenses incurred for nonrecourse loan collateral that is delivered or acquired by CCC after a claim has been established.

When requested by the producer, issue a new CCC-691, as applicable.

B Processing Settlement

Process the settlement in APSS according to 12-PS.

C Adjusting Applicable Loan Interest

County Offices shall:

- waive interest applicable to the loan from the date of disbursement through the maturity date of the loan in proportion to the loan amount liquidated on delivery

- reduce the claim amount according to 58-FI.

--1509 Graded Wool*A Eligible Graded Wool**

To obtain a loan or LDP at the graded rate, the wool must be core tested by a CCC-approved testing facility to objectively measure the following through laboratory analysis:

- fiber diameter (micron)
- yield.

To receive a graded wool MAL or LDP, the producer must provide a copy of the core test report or core test certificate from the CCC-approved testing facility containing the results of the laboratory analysis to the FSA County Office before benefits will be disbursed. See Exhibit 64 for examples of core test reports.

Note: The core test report results shall **not** be averaged for purposes of determining a micron and yield for ungraded quantities commingled with graded quantities.

B CCC-Approved Testing Facilities

Core test reports or core test certificates will be accepted from the following CCC-approved testing facilities.

- Yocom-McColl Testing Laboratory
540 West Elk Place
Denver, Colorado 80216-1823

***--1509 Graded Wool (Continued)**

C Approving CCC Testing Facilities

Testing laboratories or facilities who want to be considered for CCC approval must:

- objectively measure through laboratory analysis the fiber diameter and yield of wool fibers
- use IWTO testing methods and procedures
- be an accredited IWTO licensed laboratory
- submit CCC-631 to the National Office according to paragraph 1510.

D Core Sampling

Sampling for the determination of micron and yield requires a core sample to be obtained from each bale in the lot. Core samples must represent the entire wool lot for the integrity of testing and the confidence of using objective measurement in the wool industry. Wool core sampling must be done according to the requirements provided by the CCC-approved testing facility.

Many testing facilities employ core testing agents or sampling officers that core sample lots of wool stored on the farm or at a stored location according to IWTO requirements on behalf of the CCC-approved testing facility. Producers must check with the CCC-approved testing facility about the availability of this service.--*

1509 Graded Wool (Continued)**E Individual Animal Reports**

Individual animal test reports will not be accepted as an acceptable core test report to obtain the graded loan or LDP rate.

F Yield Conversion to Eligible Graded Wool Quantity

Graded wool is weighed on a greasy basis and must be converted to a clean basis to determine the quantity eligible for loan or LDP. The net quantity of wool must be converted using the Schlumberger Yield obtained from the core test report to determine the eligible loan or LDP quantity for graded wool.

To process a graded wool loan or LDP, the Schlumberger Yield must be entered into APSS according to 12-PS.

G Graded Quantities

Graded quantities for multiple core test reports may be submitted on 1 loan or LDP request form. However, the graded quantities must be entered in APSS as separate loans or LDP's per core test report according to the applicable micron and yield for the graded quantity.

--Use the "Additional Information" section on the applicable LDP request form to record--
varying LDP rates and CCC-determined values.

H Micron

The micron is identified as the:

- average fiber diameter on the core test report from the Yocum-McColl Testing Laboratory
- (airflow) mean fiber diameter on the core test report from the New Zealand Wool Testing Authority.

***--Section 2 General Provisions**

1515 Basic Provisions

A Statutory Loan Rates

The national statutory loan rates provided in the Farm Security and Rural Investment Act of 2002, for mohair and wool produced during the 2002 through 2007 crop year are as follows.

Commodity	Loan Rate
Graded Wool	\$1.00 per pound
Mohair	\$4.20 per pound
Ungraded Wool	\$0.40 per pound

Note: Crop year specific loan rates will be announced each crop year by press release and an LP notice.

Loan rates for graded wool are announced by regions according to 8 micron ranges. Regional differentials also apply to nongraded wool. There will be no regional differentials for mohair. See:

- Exhibit 66 for regional categories
- Exhibit 67 for the most current crop year specific loan rates.

B Final Availability Date

The final availability date to request:

- a mohair or wool loan or LDP is **January 31** of the year following the year in which the applicable commodity is sheared
- an LDP for unshorn pelts is **January 31** of the year following the year in which the unshorn lamb is slaughtered.--*

1515 Basic Provisions (Continued)

C Announcing Posted Prices

The national posted price for mohair and the regional posted prices for ungraded (greasy) and graded (clean) wool will be announced each Tuesday at 3:00 p.m., e.t until further notice. The posted prices will become effective Wednesday at 12:01 a.m. e.t.

***--Note:** In the event the posted prices are not announced as scheduled, the last posted prices announced will remain in effect until the next rate changes are announced. Therefore, a producer will receive the rate in effect on the day of the request.--*

D Availability

Loans and LDP's are available to eligible producers in any area in the U.S. and Puerto Rico where the applicable commodity is produced.

E Requesting Loans and LDP's

Requests for loans and LDP's shall be made on or before the final availability date for requesting loans and LDP's.

F Final Disbursement Date

The disbursement date shall not be later than 30 calendar days after the final loan availability date. When the final loan availability date falls on a nonworkday, the final date shall be extended to the next workday.

State Offices may grant extensions in 15-day increments, as applicable.

G Crop Year

The crop year applicable to mohair, unshorn pelts, and wool is the calendar year beginning January 1 and ending December 31.

1516 Acreage Reports

A Producers Associated With a Farm

To be eligible for a nonrecourse MAL or LDP producers who are associated with a farm that has cropland are required to complete and submit an acreage report of all those cropland *--acres on FSA-578 on applicable farms where the eligible commodity is produced--* according to 2-CP.

B Producers Not Associated With a Farm

Eligible producers who are not associated with a farm and do not have cropland are **not** required to complete an acreage report on FSA-578.

C Disbursing Benefits

Acreage report deadlines for different commodities vary throughout the crop year. Certain commodities are produced all year long and planting intentions may not be known for the cropland at the time of the loan or LDP request. Therefore, producers are not required to file an acreage report before a loan or LDP is approved and disbursed for the following:

- mohair
- unshorn pelts
- wool.

--Producers are required to file an accurate acreage report for all their cropland acres with the appropriate County Office by the deadline dates applicable to the planted crop. Producers-- who do not accurately certify acreage according to 2-CP will be required to repay any market loan gain realized for mohair, unshorn pelts, or wool or refund any LDP received.

Note: County Offices must perform end-of-year file reviews on each producer to ensure that producers with cropland acres have filed acreage reports as required. For multi-county producers, the administrative county shall contact all other counties to ensure all applicable cropland has been reported.

***--1517 Market Loan Gain and LDP Payment Limitation**

A Applicability

Market loan gains from cash loan repayments at a rate less than the principal, plus interest and LDP's received by a producer are subject to one \$75,000 payment limitation per crop year, per person for the following commodities:

- honey
- mohair
- peanuts
- unshorn pelts
- wool.

See 1-PL, Part 2 for payment limitation procedures.

B Filing Applicable Forms

For payment limitation, the applicable CCC-502 must be filed according to 1-PL, and a determination made for:

- market loan repayments, before:
 - locking-in a repayment rate
 - repaying at a rate less than principal and charges, plus interest
- LDP's, before approving the payment.

Encourage producers who do not have an applicable CCC-502, approved according to 1-PL, to complete the appropriate forms before applying for loan or LDP to allow sufficient time for a determination to be made.

C Monitoring Payment Limitation

See paragraph 105 for procedure for monitoring payment limitation.--*

1518 Beneficial Interest**A Applicability**

General beneficial interest provisions provided in paragraphs 129 through 132 apply to the following:

- mohair
- unshorn pelts
- wool.

B Retaining Beneficial Interest

For a producer to retain eligibility to obtain a loan or LDP, any contract signed by a producer must conform to all provisions for beneficial interest according to paragraph 129.

For mohair and wool, beneficial interest must be retained by a producer from shearing continuously through:

- for LDP, the date LDP is requested
- for loan, the earlier of the following date:
 - the loan is repaid
 - CCC takes title to the commodity.

*--See subparagraph 1542 D for unshorn pelts if beneficial interest will be maintained.

C Wool Pool Delivery

Beneficial interest in a commodity delivered to a wool pool, broker, or intermediary is lost upon the earlier of the following:

- delivery to the wool pool
- delivery to an agent of the wool pool, broker, or intermediary.--*

1518 Beneficial Interest

***--D Loss Versus Loss of Beneficial Interest**

Loss of a marketing loan commodity because of fire, theft, or natural causes, such as flood or storm events, is **not** loss of beneficial interest.

Beneficial interest relates to legal ownership and control of a commodity that exists. Loss of beneficial interest may occur when the commodity is sold or control is lost, but is **not** defined by a physical loss because of fire, theft, natural disaster, or other such occurrences.

Accordingly, a commodity for which CCC-633 EZ, page 1 was filed, but that subsequently burned, would **not** be eligible if an LDP is requested because the commodity was lost. The date of the fire would **not** be construed to be the date beneficial interest was lost.--*

* * *

1519-1524 (Reserved)

--Section 3 Basic Loanmaking*1525 Loan Provisions****A Availability of Loans**

Eligible producers may obtain loans by placing the eligible commodity in approved:

- farm storage, according to paragraph 1530, and obtaining a loan on the eligible quantity
- warehouse storage, according to paragraph 1531, and obtaining a loan on 100 percent of the net quantity shown on the warehouse receipt.

Eligible producers may obtain LDP's instead of a loan. See Section 4 for mohair and wool LDP provisions.

B Obtaining Loans

Eligible producers may obtain a loan only from either of the following:

- the County Office that keeps the farm records for the farm on which the mohair or wool was produced (the administrative county)
- an approved CMA according to the following:
 - subparagraph 400 C
 - 1-CMA, Exhibit 4.

Multi-county producers shall request loans according to subparagraph 401 A.

C Loan Rates

For each crop year, County Offices shall record the loan rates for their applicable region on the loan rate table in APSS according to Exhibits 66 and 67. The applicable loan rate will be used to process loanmaking transactions for mohair and wool.--*

--1525 Loan Provisions (Continued)*D Joint Loans and LDP's**

Loans and LDP's must be disbursed jointly if the mohair or wool is either of the following:

- jointly owned
- stored/commingled in the same bag or lot.

Producers with commingled production must all agree to take either the loan or LDP.

Note: Producers with production commingled in a lot may obtain a separate loan or LDP if the mohair or wool is individually bagged and identified.

E Base Loan Rates

Base loan rates for farm-stored and warehouse-stored commodities will be:

- based on the county and region where the commodity is stored
- adjusted for premiums and discounts, according to Exhibits 61 and 70:
 - at loanmaking for warehouse-stored loans
 - at settlement for certified farm-stored loans.

F Premiums and Discounts

Loan rates will be adjusted for applicable premiums and discounts, according to the crop year specific schedule provided in Exhibits 61 and 70, at either of the following:

- settlement for farm-stored loans
- forfeiture for warehouse-stored loans.

G Commodity Ineligible for Loan

Nongraded wool in the form of unshorn pelts is **not** eligible for a nonrecourse MAL.--*

1526 Requesting Loans

A When to Request Loans

Requests for loans:

- *--may be received by letter, filed in person, by FAX, or by e-mail--*
- shall be requested no later than the final loan availability date

C Canceling LDP Requests

LDP's requested on CCC-633 EZ, page 4 **cannot** be canceled at any time. Once the producer signs CCC-633 EZ, page 4, LDP is obligated to be paid by CCC to the producer.

D Certifying Graded or Ungraded

At the time a nonrecourse MAL or LDP request is submitted to the County Office, the producer must certify that they are requesting a graded or nongraded rate. Once the producer makes this certification and submits the LDP request to the County Office, it **cannot** be changed.

Note: It is the producer's option to select graded or ungraded. However, if the producer certifies to graded wool, a copy of the core test report must be provided to the County Office before benefits will be disbursed.

--1538 LDP's for Mohair and Wool (Continued)*E Additional Disbursements**

For certified LDP's **only**, an LDP disbursement in addition to the total quantity requested on CCC-633 EZ, page 4 may be available after delivery of the mohair or wool, when beneficial interest is lost, if the producer provides acceptable documentation in the form of a net weight receipt or settlement sheet to support the additional quantity sold or delivered.

The LDP rate for additional quantity, in excess of the certified quantity, will be based on the date of the initial LDP request for the certified quantity. Producers requesting additional disbursements on quantities exceeding the total quantity requested on the initial CCC-633 EZ, page 4 **must** submit documentation before the final availability date to receive the additional disbursement.

Note: The LDP rate in effect on the date beneficial interest is lost shall **not** be used for quantities in excess of a certified quantity of wool or mohair.

Additional LDP disbursements will **not** apply to quantities over the total quantity requested when **not** requested by the producer before the final availability date.

F Requesting Additional Disbursement for Excess Quantity

To make a request to receive LDP disbursement of an additional quantity in excess of the certified quantity, the producer must:

- select quantity in excess of the certified quantity as the source of the quantity in CCC-633 EZ, page 4, item 67C--*

--1538 LDP's for Mohair and Wool (Continued)*F Requesting Additional Disbursement for Excess Quantity (Continued)**

- verify that the production evidence substantiates the certified quantity and the additional quantity in excess of the certified quantity
- attach a date-stamped photocopy of the final production evidence to the original CCC-633 EZ, page 1, and all CCC-633 EZ, page 4 requests for the certified quantity
- verify that the date entered in CCC-633 EZ, page 4, item 69 is the same date of the initial LDP request for the certified quantity
- enter the same LDP rate used for the original LDP request for the certified quantity

1540 Unshorn Pelt LDP Provisions

A General

Ungraded wool in the form of unshorn pelts that meet eligibility requirements according to subparagraph 1507 D, are only eligible for LDP.

B Unshorn Pelt Definition

An unshorn pelt is the removed skin and attached wool from a slaughtered lamb that has never been shorn.

C Requesting LDP's for Unshorn Pelts

LDP's for unshorn pelts shall be requested:

- according to paragraph 1536
- *--on CCC-633 EZ, page 1 and page 4, Part O.--*

D Unshorn Pelt Eligibility Clarification

To be eligible for LDP on unshorn pelts, the producer must either:

- sell the unshorn lambs for immediate slaughter according to subparagraph E
- slaughter the unshorn lamb for personal use according to subparagraph F
- *--retain the unshorn pelt according to subparagraph 1542 D.--*

In addition, the producer must provide acceptable production evidence to the County Office by the final availability date to be eligible for payment. The production evidence provided by the producer must indicate that the lambs are unshorn.

1540 Unshorn Pelt LDP Provisions (Continued)

E Immediate Slaughter

Immediate slaughter is considered slaughter of the lamb within a * * * 10 calendar day period after loss of beneficial interest.

F Personal Use

Personal use is considered slaughter of the unshorn lamb for use of the pelt as any of the following:

- clothing
- shelter
- pet beds
- mittens
- rugs
- automobile seat covers
- sheepskin footwear
- sheepskin coats
- other personal uses determined acceptable by COC.--*

1541 LDP Rates for Unshorn Pelts

A Unshorn Pelt LDP Rate

The LDP rate is determined by the amount the ungraded wool loan rate exceeds the CCC-determined value in the applicable region where:

- the unshorn pelts are stored, for LDP's in which producer maintains beneficial interest
- beneficial interest is lost in the requested commodity.

See Part 9, Section 7 for determining the CCC-determined value.

B Calculating LDP's for Unshorn Pelts

LDP is calculated by multiplying the LDP rate times the LDP quantity of unshorn pelts requested.

See paragraph 1537 to determine the applicable dates of effective LDP rates.

C Standard Weight

LDP's for unshorn pelts will be based on a standard weight of 6.865 pounds per pelt.

D Unshorn Pelt Computation

LDP for unshorn lamb pelts will be calculated by multiplying the effective LDP rate times the standard weight for an unshorn pelt of 6.865 pounds. The result of that computation is then multiplied by the quantity of unshorn pelts.

Example:	\$0.29	(effective LDP rate)
	<u>x 6.865</u>	(standard weight)
	\$1.99	(payment per pelt)

Payment per unshorn pelt	\$ 1.99
Quantity of unshorn pelts	<u>x 10</u>
Payment	\$19.90

E Announcing Posted Prices

The regional posted prices for nongraded (greasy) wool that are used to calculate the CCC-determined value to determine the LDP rate for unshorn pelts will be announced according to subparagraph 1515 C.

--1542 Additional Beneficial Interest Provisions for Unshorn Pelts*A Direct Sell to Lamb Slaughter Companies**

Eligible producers who sell unshorn lambs directly to a slaughter lamb company for immediate slaughter or have the unshorn lambs processed for meat, will lose beneficial interest the earlier of the following:

- delivery to the slaughter lamb company
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.

B Lamb Auction Sells

Eligible producers who sell unshorn lambs through an auction or sell to an order buyer representing a slaughter lamb company, will lose beneficial interest the earlier of the following:

- invoicing of the unshorn lambs
- delivering the unshorn lambs to the order buyer
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.

C Butcher Sells

Eligible producers who sell unshorn lambs directly to a butcher for immediate slaughter, will lose beneficial interest the earlier of the following:

- invoicing of the unshorn lambs
- delivering the unshorn lambs to the butcher
- receiving any payment for the unshorn lambs.

Note: This determination should be used as a general business rule and should not take precedence over the terms of a contract between the buyer and seller that would cause beneficial interest to be lost at an earlier time.--*

1542 Additional Beneficial Interest Provisions for Unshorn Pelts (Continued)

***--D Retained Unshorn Pelts**

Producers who retain beneficial interest in an unshorn pelt produced from a slaughtered lamb may request LDP according to paragraph 301, based on the date of request, if the unshorn pelt retained is:

- preserved
- maintained
- stored for future marketing or processing.

Note: See paragraph 1551 for spot check provisions.

E Unshorn Lambs Slaughtered for Personal Use

Eligible producers who slaughter unshorn lambs for personal use will lose beneficial interest on the date the unshorn lamb is slaughtered. Producers must have a completed CCC-633 EZ, page 1, on file in the County Office for the applicable crop year before the unshorn lamb is slaughtered for personal use.

COC must determine reasonableness based on any of the following:

- herd certification on CCC-633 EZ, page 4, Part O, item 76
- production evidence
- feeding records/receipts
- normal business practices of the producer
- general COC knowledge.

If unshorn lambs slaughtered for personal use are determined to be with reason, LDP rate is based on the date the producer certifies that the unshorn lambs were slaughtered.--*

Farm-stored loans are subject to spot check:

- during and after the loan availability period
- for up to 9 months from date of disbursement.

*--County Offices shall make onsite spot checks of outstanding farm-stored loans, if the producer is either of the following:

- selected through the national selection process
- added to the list of producers selected during the annual spot check reviews.

B On-Farm Spot Check Process for Farm-Stored Loans

Producers selected by the national selection process, and when the commodity is stored in--* approved farm storage, shall be visually inspected by a County Office commodity inspector to:

- verify the commodity is in existence and in storable condition
- verify that the storage structure will safely store and protect the commodity from natural elements
- verify the commodity is stored in approved bags according to subparagraph 1528 A
- verify the commodity is properly labeled according to subparagraph 1528 B
- verify that CCC-683 is affixed to bags as required by subparagraph 1527 D
- confirm that loan collateral is properly identified
- confirm that CCC's interest is adequately protected
- verify the quantity for reasonableness based on a maximum eligible quantity determination according to paragraph 1559.

1550 Spot-Checking Farm-Stored Loans (Continued)**B On-Farm Spot Check Process for Farm-Stored Loans (Continued)**

County Office commodity inspectors and COC may use their own discretion to determine a reasonable quantity based on various known conditions. When visual inspection indicates a significant quantity shortage or if there is reason to believe there is a quantity shortage, the County Office and COC may require the producer to provide acceptable production evidence by the earlier of the following:

- 15 calendar days after the commodity has been sold
- within 30 calendar days after notification by the County Office.

If the mohair or wool has been sold, request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of loan repayments when market gain was earned.

If production evidence has not been submitted by the due date, the producer must do either of the following:

- at the expense of the producer, have the loan collateral weighed by a CCC-approved third party that provides acceptable documentation of the net quantity of the loan collateral in pounds
- refund the market gain.

If the loan is not repaid, review the loan for violation according to Part 6.

Note: If the producer refuses to permit entry:

- contact the State Office for guidance
- *--see 2-CP, paragraph 323.--*

C Spot Check Process for Loan Collateral Stored With a Commissioned Agent

In addition to subparagraph B, if the loan collateral is stored in the facility of a commissioned agent, arrange for the producer or a representative to be present at the storage facility during the spot check. The CCC representative may spot check the mohair or wool at any reasonable time.

D Recording Spot Check Results

--The spot check results shall be recorded in the National Compliance Review Database at <http://www.agcounts.usda.gov>.--

1550 Spot-Checking Farm-Stored Loans (Continued)

E Improperly Stored Loan Collateral

If the mohair or wool is not properly labeled or stored in approved bags when a spot check is performed, give producers an opportunity to properly label the loan collateral and/or transfer the commodity into approved bags before continuing with the spot check.

Notify the producer that the loan collateral must be transferred into approved bags and properly labeled within 15 calendar days from notification and follow this table.

IF the producer...	THEN...
does not transfer the loan collateral into approved bags within 15 calendar days from notification	call the loan according to Part 6.
does not properly label the loan collateral within 15 calendar days from notification	
properly labels and/or transfers the loan collateral into approved bags within 15 calendar days from notification	continue with spot check to verify all other eligibility.

Reject severely torn or damaged bags of the mohair or wool that may affect the storability and quality of the commodity.

Advise the producer that accepting mohair or wool for loan does not alleviate the responsibility of delivering acceptable mohair or wool in approved and properly labeled bags if the mohair or wool under loan is delivered to CCC.

F Loans Delivered to CCC

County Offices shall spot check mohair or wool loans delivered to CCC according to *--paragraph 503.--*

1551 Spot-Checking Certified LDP's

A Spot Check Policy for Certified LDP's

LDP's are subject to spot check for up to 9 months from date of disbursement.

* * *

B On-Farm Spot Check Process for Certified LDP's

*-If a producer is selected through the national selection process or added by the County Office as an additional spot check, County Offices shall spot check:

- all quantities certified for LDP
- LDP's when certain situations require spot checks, according to subparagraph 502 D.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

The County Office commodity inspector must verify the:--*

- commodity is in existence, if the commodity has not been sold
- herd characteristics, (i.e., total number in herd, breed, etc.)

When visual inspection indicates a significant quantity shortage or if there is reason to believe there is a quantity shortage, the County Office and COC may require the producer to provide acceptable production evidence by the earlier of the following:

- 15 calendar days after the commodity has been sold
- 30 calendar days after notification by the County Office.

If the mohair or wool has **not** been sold and the County Office commodity inspector determines the quantity to:

- be reasonable based on the herd characteristics of quantity certified or LDP requested, then that will serve as final production evidence and no further documentation will be required
- **not** be reasonable based on the herd characteristics with the quantity certified under the LDP request, then at the expense of the producer, have the certified quantity weighed by a CCC-approved third party that provides acceptable documentation of the certified quantity in pounds.

1551 Spot-Checking Certified LDP's (Continued)

B On-Farm Spot Check Process for Certified LDP's (Continued)

If the mohair or wool has been sold, request delivery, sales, or other types of production evidence to verify the quantity and delivery dates of certified LDP's.

Require the producer to submit evidence on commodities sold within 15 calendar days from the date of request. If the production evidence has not been submitted by the due date, the producer must refund the LDP plus applicable interest.

Note: If the producer refuses to permit entry, contact the State Office for guidance.

C Spot Check Process for Certified LDP's Stored With a Commissioned Agent

If the production for a certified mohair or wool LDP is stored in the facility of a commissioned agent, require the producer to provide a scale ticket or weight certificate from the facility that verifies the quantity of the LDP request. This will serve as final production evidence and no further documentation will be required.

D Recording Spot Check Results

--The spot check results shall be recorded in the National Compliance Review Database at <http://www.agcounts.usda.gov>--

1552 Spot Check Process

- notify the contact producer by telephone or memorandum, as applicable
- inquire if the mohair or wool has:
 - been sold
 - is still at the farm-stored location.

B Initiating Loans and LDP's Selected for Spot Check

Determine how to proceed with the spot check according to the following.

IF the mohair or wool...	THEN...
<p>is still on the farm and a spot check has not been performed</p>	<p>complete a farm visit according to paragraph 1553. If the visual inspection reveals discrepancies in the certified quantity, request the producer to provide production evidence by the earlier of the following:</p> <ul style="list-style-type: none"> • 15 calendar days after the commodity has been sold • 30 calendar days after notification by the County Office. <p>If the visual inspection reveals no discrepancies in the certified quantity, no further production evidence is required.</p> <p>If production evidence has not been submitted by the due date the producer must refund the market gain or LDP amount.</p>

1552 Spot Check Process (Continued)

Require the producer to submit evidence on mohair or wool sold within 15 calendar days from date of request.

1553 On-Farm Visits

A When to Complete On-Site Visits

Complete on-site visits if the mohair or wool is still stored at the farm-storage location for:

- outstanding loans
- outstanding loans and a market gain has been earned
- certified LDP's.

Note: If the mohair or wool is stored at the facility of a commissioned agent, proceed according to subparagraph 1551 C, and no visit is necessary. Commissioned agents may also be contacted by telephone to verify quantities.

B * * * Spot Check Process

At the storage site, commodity inspectors shall complete the spot check by visually inspecting the farm-stored quantities and performing maximum eligibility determinations for *--all loans and LDP's selected by the national selection process according to the following.--*

Note: Measurement service is not available.

Once a specific LDP has been selected for a spot check, that LDP is no longer subject to additional spot checks.

Step	Process	Action

State Office representatives shall annually spot check commodity inspectors' work in each County Office according to the following.

Single and combined County Offices shall be handled in the same manner.

Step	Action
1	Check at least 1 loan and one LDP for each commodity inspector. Check more loans and LDP's for an inspector if the State Office representative believes that additional checks are warranted.
2	To determine accuracy of employee's work, for each loan or LDP spot-checked: <ul style="list-style-type: none"> • visually inspect the quality of the stored commodity • verify the quantity for reasonableness based on a maximum eligible quantity determination.
3	Complete a new CCC-677-1 to record spot check results. Do not use the same CCC-677-1 completed by the commodity inspector.
4	Compare spot check results with information recorded by the commodity inspector and resolve any differences.
5	Record the quantity determined in step 2 on CCC-677-1, item 42 F.

***--1555 Completing Spot Check**

A Reviewing Documentation

Good faith determinations are necessary for any quantity that is **not** within tolerance.

E Other Verifications

County Offices shall ensure that the quantity recorded on the documentation is consistent with crop year production levels for the animal characteristics, such as, number of animals in the herd, breed, gender, and weight of the animal shorn in the producers herd.

Note: County Offices may require certified production weights from a local CCC-approved scale, if practical.

F References

See:

- paragraph 537 for dates for submitting production evidence
- paragraph 538 for failure to provide acceptable production evidence
- paragraph 539 for insufficient production evidence

--1559 Maximum Eligible Quantity*A Determining Reasonableness**

County Offices shall verify all loan and LDP quantities for reasonableness before disbursement. Determining reasonableness shall be based on maximum eligible quantities provided in Exhibit 72. The average grease fleece weights of pounds produced used to determine maximum eligible quantities are based on the following characteristics of the animals in the herd:

- quantity
- breed
- gender type
- mature body weight
- shearing date.

Benefits will **not** be disbursed on quantities **not** determined reasonable **unless** supporting evidence is provided to substantiate the quantity.

B STC and COC Responsibilities

STC's shall play an active role in providing guidance to COC's to ensure that responsible and equitable determinations are made. COC may use their own discretion to determine a reasonable quantity based on various known conditions that may have affected the commodities production levels during the crop year. STC's and COC's are in the best position to know what production levels or practices are reasonable for their area. Any loan or LDP quantities verified by the County Office according to subparagraph A, that are determined to be unreasonable or exceed the acceptable production ranges in Exhibit 72, shall be referred to COC.

This responsibility is being entrusted to STC's and COC's to deliver the program in the most feasible, reasonable, and reliable manner possible. Therefore, COC has the authority to adjust the average production ranges of the applicable breeds provided in Exhibit 72 based on the following:

- personal knowledge of the producers operation
- mature animal body weights of the applicable breed in excess of the average.

Production levels exceeding the weight ranges in Exhibit 72 shall be documented accordingly in COC minutes. If the producer is not satisfied with the maximum quantity determination by COC, provide producer appeal rights to COC.--*

--1559 Maximum Eligible Quantity (Continued)*C Reasonable Quantities**

Reasonableness for certified farm-stored loan or LDP quantities shall be determined by multiplying the total number of head in the producers current herd or flock times the applicable average grease weight fleece pounds produced for each breed, as provided in Exhibit 72, that will determine:

- a production range applicable to the breeds certified
- maximum eligible quantity.

COC shall exercise judgement and rely on their knowledge of practices and applicable conditions when determining reasonableness for loan or LDP quantities exceeding the production ranges provided in Exhibit 72.

D Example of Determining Reasonableness

Producer has 10 dorset ewes that produce an average of 5 to 8 pounds of grease weight fleece pounds. The producer requests LDP on 60 pounds of wool. Multiplying 10 times 5 to 8 pounds of average production a maximum eligible quantity for this breed averages 50 to 80 pounds. The midpoint average pounds produced would be 50 to 65 pounds for ewes and 65 to 80 pounds for rams. The quantity of the producers LDP request is reasonable and a maximum eligible quantity has been determined by COC. The loan or LDP request may be approved if all other eligibility criteria have been met.--*

***--1559 Maximum Eligible Quantity (Continued)**

E Determining the Maximum Eligible Quantity

The maximum eligible quantity is determined by multiplying the total number of head in the producers current herd or flock times the applicable average pounds for each breed according to Exhibit 72, to determine a low to high range of average pounds produced by each applicable breed. Mature body weight and gender of the breed are also considered to determine the maximum eligible quantity. Determine the midpoint of average grease weight pounds. Ewes would have an average of the low to the midpoint, whereas, rams would range from the midpoint to the determined high. County Offices shall maintain a ledger of the maximum quantity available.

F Example of Calculating the Maximum Eligible Quantity

Producer has 100 suffolk ewes that he maintains on average in his herd at an average mature ewe body weight of 250 pounds. According to the established average grease weight this particular breed produces an average of 4 to 8 pounds. The number of head times the average grease weight fleece pounds produced equals an average low of 400 pounds to a high of 800 pounds that can be produced in a year. The average range ewes can produce in that year will be 400 to 600 pounds and for rams the average range will be 600 to 800 pounds.--*

Section 6 Repayments

1570 Principal Plus Interest Repayments

A General Repayment Provisions

See Part 9, Section 1 for general repayment provisions.

B CCC-Determined Value

The CCC-determined value for the day the repayment is received in the County Office *--that disbursed the loan shall be used in determining the repayment rate. Calculate the CCC-determined value according to subparagraph 985 C.--*

See paragraph 952 for locking-in-repayment rates on CCC-697.

C Payment Limitation

See paragraphs 105 and 1517 for applicable payment limitation rules.

1571-1574 (Reserved)

--Section 7 Basic Loan Settlements*1575 Final Settlement Procedures****A Basic Provisions**

Because there are no approved CCC warehouses for mohair or wool, all nonrecourse MAL's not repaid by the loan maturity date must be disposed through local sales at the farm storage location within a 60-calendar-day period after maturity at **no** storage expense to CCC.

County Offices shall try to have local sales completed with the 60-calendar-day period.

B Premiums and Discounts

See Exhibits 61 and 70 for the schedule of premiums and discounts applicable to mohair and wool applied in final settlement. The settlement value will be based on the following:

- for graded wool, according to applicable region:
 - micron range
 - offsorts
 - preparation (applicable to fleece wool only, not applicable to offsorts)
 - length (applicable to fleece wool only, not applicable to offsorts)
 - vegetable matter
 - damage/stain/mud/wet
 - non-merchantability
 - polypropylene contamination

- for ungraded wool, according to applicable region:
 - offsorts
 - length
 - polypropylene contamination
 - non-merchantability--*

1575 Final Settlement Procedures (Continued)**B Premiums and Discounts (Continued)**

- for mohair:
 - micron range
 - length
 - vegetable matter
 - kemp.

Note: Producers who elect to settle the mohair loan collateral to CCC in satisfaction of the loan amount due will be required, at the producer's expense, to obtain a core test report indicating the applicable micron and yield of the quantity offered for settlement.

C Mohair or Wool Inspection

Applicable premiums and discounts will be applied at loan settlement and based on the following:

- inspection of the delivered commodity by an AMS agent or other CCC-approved representative
- *--core test report from a CCC-approved testing facility for mohair and graded wool.--*

Note: Mohair delivered for settlement of an outstanding CCC loan will require a core test (Exhibit 78), at the expense of the producer, to determine quality factors.

***--1575 Final Settlement Procedures (Continued)**

D Mohair Yield Adjustment

The mohair loan rate must be adjusted for yield **after** all mohair discounts have been applied. The mohair yield must be calculated using the Schlumberger yield obtained from the core test report of a CCC-approved testing facility to determine the final loan settlement rate.

To calculate the mohair yield adjustment, apply all premiums and discounts to the loan rate to determine the adjusted loan rate. Divide the adjusted loan rate by .75 and then multiply the resulting figure times the Schlumberger yield from the core test report, moving the decimal in the Schlumberger yield 2 places to the left, to determine the final loan settlement rate per pound of mohair forfeited to CCC.

E Mohair Yield Adjustment Example

The following is an example of a yield adjustment for mohair.

Producer A received a loan of \$4,200 for 1,000 pounds of mohair that he forfeits to CCC. The core test results from the forfeited mohair indicate that the mohair was average adult with a 35 micron, 3.5 length, 1.0 percent vegetable matter, 5.62 percent medulated fibers, 0.50 percent kemp fibers, and a Schlumberger yield of 73.6 percent.

From the \$4.20 loan rate initially disbursed to Producer A, deduct the following based on the mohair discounts in this paragraph, -\$1.52 for type of mohair and micron, -\$0.54 for length, -\$0.27 for vegetable matter, -\$0.27 for medulated fibers, -\$0.27 for kemp fibers to come up with an adjusted loan rate of \$1.33.

$$\$1.33 / .75 = \$1.77$$

$$\$1.77 \times .736 = \$1.31$$

\$1.31 per pound is the final settlement rate
x 1000 pounds of forfeited mohair
 \$1,310

\$4,200 original loan disbursement
- \$1,310 adjusted settlement value
 \$2,890

The producer owes CCC \$2,890 for the forfeited mohair.--*

1575 Final Settlement Procedures (Continued)**F Additional Expenses**

Any costs incurred by CCC to obtain quantity or quality grading factors to apply associated premiums and discounts for mohair and wool delivered to CCC shall be for the account of the producer and will be deducted from the loan settlement value, in addition to applicable deductions provided in subparagraph B. The producer is responsible for any loss in quantity or quality of the loan collateral.

Note: Producers are required, at their own expense, to have all mohair and wool loan quantities weighed and provide an acceptable weight receipt for mohair and wool loan quantities that will be settled with CCC through local sale.

AMS charges a fee of \$40.87 per hour for the required inspection of the mohair and wool loan collateral that will be settled by local sale.

G Settlement Value

Calculate the settlement value from the information on CCC-691, CCC-930, and the applicable crop year loan rate premiums and discounts in subparagraph B and Exhibits 61 and 70.

Complete settlements according to 12-PS, Part 9, **after** receiving all of the following:

- CCC-691
- *--core test report for mohair and graded wool--*
- CCC-930 from AMS inspector (see Exhibit 80).

Settlement shall be made by CCC on the basis of the base loan rate:

- for the applicable region for wool only
- adjusted for applicable specific crop year premiums and discounts.

1575 Final Settlement Procedures (Continued)

Redelegations of Authority

Redelegation of authority is provided in paragraph 3.

Definitions of Terms Used in This Handbook

Acid Treated High Moisture (ATHM) Commodities

ATHM commodities are high moisture commodities that have been treated with an organic acid, commonly propionic or a mixture of propionic and acetic, that:

- prevents the growth of molds and bacteria
- stops respiration
- eliminates heating, thereby slowing down the deterioration process and enhancing the storability of high moisture commodities.

Administrative Actions

Administrative actions are punitive actions taken against a producer who incorrectly certifies a quantity or makes any fraudulent representation with respect to obtaining a loan or LDP, or removes or disposes of a farm-stored commodity pledged as collateral for a loan without authorization.

Administrative actions include:

- calling the loan
- requiring the producer to repay the outstanding loan principal and charges, plus accrued interest, with cash applicable to the loan quantity involved in the violation
- requiring repayment of LDP quantity involved in a violation
- requiring repayment of the entire LDP quantity
- assessing liquidated damages on the quantity involved in the violation
- denying the producer farm-stored loans, and LDP's without production evidence, up to *--24 months after the violation is discovered--*
- assessing interest on storage payment refunds, if applicable.

Definitions of Terms Used in This Handbook (Continued)

Approved Warehouse

An approved warehouse is a public warehouse for which CCC-25 is in effect for:

- barley
- corn
- dry peas
- grain sorghum
- lentils
- oats
- oilseeds
- rice
- small chickpeas
- wheat.

Automated Forms

Automated forms are CCC loan and LDP documents and supporting data reproduced through APSS.

Buyer

A buyer is the warehouse operator, broker, agent, or other person or entity the producer designates for issuance of CCC-681-1.

Commodity Inspector

Commodity inspector is the COC representative who does field work for the loan and LDP programs.

Control of the Commodity

A producer has control of the commodity if the producer keeps the ability to make all decisions affecting the commodity. For example:

- moving or right to sell or pass title to the commodity
- pledging the commodity for loan or requesting LDP.

Definitions of Terms Used in This Handbook (Continued)**Conversion**

Conversion is the borrower removing a commodity under loan for sale or other use, with or without authorization.

Crop Year

The crop year for a commodity is the 12-month period that:

- begins on the first day of the eleventh calendar month before the month in which the final availability date for the applicable commodity falls
- ends on the final availability date for the applicable commodity.

Customary Delivery Point

The customary delivery point is the shipping point, location, except for the producer's or neighbor's farm, or warehouse (elevator), as determined by the County Office, where the producer would normally deliver the commodities if sold on the market.

Deficiency

A deficiency is the amount due CCC when the settlement value of a farm-stored loan is less than the outstanding loan value.

***--Delinquent Debt Status**

Delinquent debt status, for the purpose of barring delinquent debtors from obtaining additional Federal loans or loan insurance or guarantees, is any of the following.

- **For farm program debts**, the debt is in delinquent status 90 calendar days after the date of the first demand letter. The notification is **not** the first demand letter.
- **For Farm Storage Facility Loans**, the debt is in delinquent status if not paid in full within 90 calendar days after the due date; however, if the installment principal balance is less than \$25, the farm storage facility loan is **not** considered delinquent.

Note: Farm Loan Managers are responsible for informing County Office personnel of any farm loan delinquent debts, as applicable.--*

Definitions of Terms Used in This Handbook (Continued)

*--Delinquent Federal Nontax Debts

DCIA provides that a person owing a delinquent Federal nontax debt to the Federal Government is ineligible for Federal financial assistance, including direct loans (other than disaster loans) or loan insurance or guarantees.

Denied Market Gain

The denied market gain is the amount of market loan repayment or LDP determined ineligible because:

- percent of cropland or permitted entity share factor is less than 1
- payment limitation will be exceeded.

Eligible Producer

An eligible producer is a person or entity that:

- has complied with annual program requirements according to paragraph 128 and including:
 - reporting acreage for applicable crops, according to 2-CP

Additional Information About Delinquent Federal Nontax Debt (Continued)

B DCIA Questions and Answers

If a producer has an unresolved delinquent Federal nontax debt, can the producer lock-in on CCC-697?

No. If the producer has an unresolved delinquent Federal nontax debt at the time of the CCC-697 request, the producer can only repay at principal plus interest.

If a partnership applies for LDP and 1 member (25 percent shareholder) of the partnership has a delinquent Federal nontax debt, is the partnership eligible to receive LDP?

Yes. The partnership will receive 75 percent of LDP and the delinquent debtor's pro-rata share (25 percent shareholder) of the partnership is offset and applied to the delinquent Federal nontax debt. See 58-FI, subparagraph 161 A.

Are delinquent producers who enter into Federal agency-approved payment agreements eligible for MAL's and LDP's if the producer is current on the payment agreement?

Yes. The producer is eligible if the producer is able to resolve the delinquent Federal nontax debt with the creditor approved payment agreement on or before the date MAL's and LDP's are issued.

If a producer forwards the MAL disbursement or payment from LDP to cover part or all of the producer's delinquent Federal nontax debt, can MAL or LDP be issued?

Yes, as long as an approved payment agreement has been completed according to 58-FI and the MAL disbursement or payment from LDP is applied to the delinquent debt under the terms of the approved payment agreement.

Notes: It is the creditor agency and the producer who develop the terms in the approved payment agreement that will resolve the delinquent Federal nontax debt. If the LDP will resolve the delinquent Federal nontax debt in full or in part, the producer may apply the LDP to the delinquent Federal nontax debt and make acceptable payment arrangements with the creditor for the remainder of the delinquent Federal nontax debt. For FLP purposes, at the time of disbursement MAL or LDP must cure the delinquency in full.

--If a portion of the debt has been written off, after the person has paid the debt in part and where the creditor agency accepts this partial payment as a compromise instead of payment in full, the entire debt would be deemed resolved.--

B DCIA Questions and Answers (Continued)

No. The producer must repay the market gain with interest since it was discovered that he/she had a delinquent Federal nontax debt at the time of MAL repayment.

***--If 2 producers sign the same CCC-633 EZ, Page 2 and Producer A is not delinquent--* debtor but Producer B has a delinquent Federal nontax debt, can FSA pay Producer A his/her share of LDP?**

Yes. Producer A is entitled to receive his/her share of LDP and **if** Producer B resolves the delinquent Federal nontax debt before the final loan availability date, he/she then will be entitled to receive his/her share of LDP.

If the producer repays the loan at a rate less than the sum of the loan principal plus charges and interest, the producer must provide to CCC evidence of production of the commodity which had been pledged as collateral for the loan. In lieu of repayment of the amount due, the producer may, in accordance with Sections 9 and 10, deliver the collateral to CCC. - (e) **Certification.** When the producer certifies to the quantity of the commodity to be pledged as collateral for a loan, the producer must provide an accurate certification of such eligible quantities. If CCC determines that the producer has filed an incorrect certification of such eligible quantity, CCC may at its discretion call the loan, assess liquidated damages, as specified in Section 7(f), and take other administrative actions, as determined by CCC, including denial of future farm-stored loans.
- (f) **Liquidated Damages.** If CCC determines that the producer has violated provisions of Sections 7(c), 7(e), or 8(a), liquidated damages may be assessed on the quantity of the commodity which is involved in the violation. For each violation, CCC will review the actions of the producer to determine if the producer acted in good faith to comply with such provisions.
 - (i) For producers determined to have violated provisions of Section 7(c) and if CCC determines that the producer acted in good faith, liquidated damages may be assessed by multiplying the quantity involved in the violation by 10 percent of the loan rate. The producer shall pay such liquidated damage penalties plus the lesser of (1) the principal amount of the loan and charges plus interest, (2) CCC determined value on the date the violation occurred plus 15 percent of the applicable loan rate with respect to the quantity involved in the violation within 30 days of notification by CCC, or CCC will call the loan involved in the violation and require full payment at principal and charges plus interest. The producer shall pay such liquidated damages plus the principal amount of the loan and charges plus interest.

8. LIABILITY OF PRODUCER.

- (a) **Fraud or Conversion.** If the producer has made a fraudulent representation in obtaining the loan or has engaged in or aided in the conversion of the collateral, the producer will be liable for the amount of the loan, for any additional amounts paid to the producer, and for all costs which CCC would not have incurred had it not been for the fraudulent representation or conversion, plus interest on such amounts. In addition, CCC may assess liquidated damages, as specified in Section 7(f), and take other administrative actions, as determined by CCC, including denial of future farm-stored loans.
- (b) **Poisonous Substances and Contamination.** The producer will be liable for any damage resulting from tendering to CCC any commodity, whether or not accepted by CCC, containing mercurial compounds, toxin producing molds or other substances poisonous to humans or animals.
- (c) **Over-disbursement or Under-collection.** If the amount disbursed under the Note exceeds the amount authorized by the applicable regulations or a repayment made by the producer is insufficient to repay the amount due, the producer will be liable for repayment of such amounts and charges, if any, plus interest.
- (d) **Claims.** If the producer fails to settle the loan within 30 calendar days from the maturity date of the loan, or such other date as CCC may agree to, a claim for the amount due will be established in accordance with applicable statutes and regulations.
- (e) **Ineligible Commodities.** If at any time CCC determines that the commodity pledged as collateral is ineligible to be pledged as collateral for the loan, the producer shall be liable for the amount of the loan or if the producer repaid the loan at a rate less than the sum of the loan principal plus charges and interest for the ineligible quantity, the producer must repay to CCC the difference between such sum and the repayment amount, plus interest on such amounts. If the producer has received credit from CCC for storage, such amount must also be repaid. Ineligible commodities may not be delivered to CCC in satisfaction of the amount due, except as may be determined by CCC. If CCC allows the producer to deliver the commodity to CCC in satisfaction of the amount due, the value of the commodity shall be determined as specified in Section 11 (g).

9. FARM-STORED NONRECOURSE LOANS.

- (a) **General.** This section is applicable to a loan which is made with respect to collateral which is stored in CCC-approved storage under the control of the producer and not in a public warehouse.

- (c) **Settlement.** (i) If the producer elects to deliver the collateral to CCC in satisfaction of the amount due in accordance with Section 4, CCC will not accept delivery of any quantity of commodity in excess of 110 percent of the eligible outstanding loan quantity, at time of settlement, as determined by CCC. If a quantity in excess of the eligible quantity is included on the warehouse receipt tendered to CCC for such delivery, the producer shall provide for the correction of such warehouse receipt and other applicable documents. If the producer does not take action to correct such warehouse receipt, CCC shall provide for such corrected documents and any charges incurred by CCC shall be for the account of the producer. The collateral shall be delivered in bulk form except as determined by CCC. If the loan collateral is delivered to CCC in satisfaction of the amount due, in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the quality of the collateral for the quantity which is delivered to CCC. (ii) Settlement of corn which is collateral will be made on a shelled corn basis. (iii) The producer is responsible for any loss in quantity or quality of the collateral. If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the amount of such deficiency and charges, plus interest on such deficiency from the date of disbursement. (iv) If the value of the collateral at settlement is greater than the amount due, such excess will be retained by CCC and CCC will have no obligation to pay such amount to any party. (v) If at any time prior to the maturity date of the loan the collateral can no longer be properly stored due to deterioration or for any other reason, the producer may authorize CCC to sell such collateral on behalf of the producer. (vi) Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4.

10. WAREHOUSE-STORED NONRECOURSE LOANS.

- (a) **General.** This section is applicable to a loan which has been made with respect to eligible commodities pledged as loan collateral which is stored in a warehouse approved by CCC.
- (b) **Rights of CCC.** At any time prior to the date CCC takes title to the collateral or the date the producer redeems such collateral, in order to protect its interest, CCC may move the collateral from one storage location to another storage location or otherwise handle the collateral including the compression of cotton. Any charges incurred by CCC as the result of such action will be paid by the party redeeming such collateral.
- (c) **Settlement.** (i) If the producer elects to forfeit the collateral in satisfaction of the amount due in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the weight, grade, and other quality factors stated on the warehouse receipt or supporting documents. (ii) The producer is responsible for any loss with respect to the quantity or quality of the collateral. CCC shall not assume any loss in quantity or quality of the loan collateral. If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the sum of the amount of such deficiency plus charges, and interest which has accrued on such deficiency from the date of disbursement. (iii) If the value of the collateral at settlement is greater than the amount due, the amount of such excess will be retained by CCC and CCC will not pay such amount to any party. (iv) Title to the collateral will vest in CCC on the day following the loan maturity date.
- (d) **Cotton Loan Redemptions and Settlement.** (i) The amount by which an upland cotton loan repayment value may be reduced for the value of storage charges during the period of the loan shall be zero for any period the cotton is stored outside and shall otherwise be calculated based on the maximum payment rate determined for the warehouse and announced by CCC. Cotton shall be considered by CCC to be stored outside if it is stored outside any time during the period of the loan exceeding the 15-day period that starts with the first day the warehouse is notified the cotton is pledged as collateral for a CCC loan. (ii) If the producer elects to forfeit either upland cotton or ELS cotton loan collateral to CCC in satisfaction of the amount due in accordance with Section 10(a), the producer shall pay to CCC: (at rates that are specified in the storage agreement between the warehouse where the cotton is stored and CCC) (i) all warehouse storage charges associated with the forfeited cotton that accrued before the cotton was pledged as collateral for the loan; and (ii) any accrued warehouse receiving charges associated with the forfeited cotton, including, if applicable, charges for new bale ties, unpaid warehouse compression, or other charges as may be levied by the storing warehouse.
- (e) **Transfer of CCC Upland or ELS Cotton or Peanut Loan Collateral.** Collateral for an upland or ELS cotton or peanut marketing assistance loan may be transferred from a CCC-approved warehouse to another CCC-approved warehouse if CCC holds as security for the loan a warehouse receipt with respect to such commodity and the following terms and conditions of this subsection are met. (i) The producer may grant authorization to transfer loan collateral only to the agent designated and authorized by the producer to redeem all or a portion of the loan collateral. Any authorization to transfer loan collateral granted by the producer may be transferred by such agent of the producer to a subsequent agent as provided by the terms of applicable CCC forms. A producer is not obligated by CCC to grant authorization to transfer loan collateral as a condition of designating and authorizing any agent to redeem from loan all or a portion of the loan commodity. (ii) CCC will settle any loan redemption for transferred cotton based on the loan terms, credits, and charges with respect to the shipping warehouse under the transfer authorization. If a producer delivers transferred cotton to CCC in satisfaction of a loan obligation, CCC will settle such collateral delivery based on the charges effective at the receiving warehouse plus any unpaid charges at the shipping warehouse.

(iii) As a condition for CCC to approve the transfer of cotton loan collateral, the requestor of a transfer, whether such requestor is the producer, or the producer's agent, must agree to pay all charges that may result from such transfer or intended transfer and be responsible for all losses of quantity or quality that result from the transfer. Despite any such agreement, the producer is responsible for any charges associated with the transfer of CCC cotton loan collateral including those that are not paid by any agent, or subsequent agent, the producer authorized to request such a transfer and who agreed to pay such charges. All such unpaid charges are for the account of the producer and shall not be charged to the outstanding balance of the loan obligation. CCC will not assume any liability for any charge associated with the transfer of any cotton loan collateral. (iv) The producer is responsible to CCC for all losses of quantity or quality associated with the transfer of CCC cotton loan collateral including unpaid losses on transfers made at the request of an agent of the producer even if the agent had agreed to pay such charges. CCC does not assume any loss in quantity or quality resulting from transfer of the loan collateral. (v) If at any time prior to the maturity date of the loan the collateral can no longer be properly stored due to deterioration or for any other reason, the producer may authorize CCC to sell such collateral on behalf of the producer. (vi) Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4.

11. RECOURSE LOANS.

- (a) **General.** CCC may make recourse loans available to eligible producers of high moisture corn, high moisture grain sorghum, seed cotton, sugar, and other commodities, as determined by CCC. If such loans are available, the producer is liable for the entire amount due and may not deliver the collateral to CCC in satisfaction of the amount due, except as may be determined by CCC.
- (b) **Availability of Nonrecourse Loans.** In limited circumstances, CCC may allow the producer to pledge as collateral for a nonrecourse loan the commodity which has been previously pledged as collateral for a recourse loan. The maturity date for such loans shall be as determined by CCC. If this option is made available by CCC, the producer must immediately repay the entire amount due under the recourse loan.
- (c) **Loss or Damage to the Commodity.** The producer is responsible for any loss in quantity or quality of the commodity pledged as collateral for a farm-stored loan. CCC shall not assume any loss in quantity or quality of the loan collateral for farm-stored loans.
- (d) **High Moisture.** Producers of corn and grain sorghum who normally harvest all or a portion of their crop in a high moisture condition may obtain recourse loans from CCC. High moisture means moisture content in excess of: (i) for corn, 15.5 percent; and (ii) for grain sorghum, 14.0 percent. Producers of such high moisture commodities who deliver such commodities to a feedlot, feed mill, or commercial or on farm high moisture storage that does not meet CCC's requirements for approved storage may acquire, in the same county, a like quantity of such commodity to replace the applicable quantity of high moisture feed grains to obtain a loan. Such producers must: (i) complete the applicable CCC forms; and (ii) provide to CCC: (A) certified scale tickets which adequately describe the commodity, the weight of the commodity and the moisture content of the commodity; or (B) if such scale tickets are not available, measurements of the high moisture feed grain made while the commodity was in the field or in storage. Such loans will be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity not to exceed the quantity determined by multiplying: (i) the acreage of the feed grain in a high moisture condition harvested on the producer's farm; by (ii) the lower of the farm program yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grains were obtained.
- (e) **Seed Cotton.** The producer may, prior to the maturity date, with the written approval of CCC move seed cotton from the location where stored to a gin in order to gin such cotton and sell the cottonseed obtained therefrom. (i) If prior to the maturity date the amount due has not been paid, the producer will pay to CCC an amount equal to the proceeds obtained from the sale of the cottonseed and the lint cotton or, if a loan or loan deficiency payment is made by CCC with respect to the lint cotton, CCC will deduct the amount due from any such proceeds which are disbursed. (ii) If prior to the maturity date the amount due has not been paid or the collateral has not been ginned, the producer must, as instructed by CCC, move the collateral to a gin at the producer's expense. If the producer fails to move the collateral as instructed by CCC, CCC may enter the premises and remove, gin, and sell the collateral. Any proceeds from the sale of the collateral will be retained by CCC and applied to the amount due. (iii) If the amount due has not been paid and warehouse receipts have been issued with respect to lint cotton obtained from the collateral, the producer will deliver the receipts to CCC or allow CCC to obtain from any person such receipts. CCC may sell such cotton, if the amount due has not been paid by the maturity date.
- (f) **Discretionary Loans.** Commodities which are pledged as collateral for a non-recourse loan as provided in Sections 9 and 10 but which are determined to be ineligible to be pledged as collateral for such a loan due to the quality of the commodity or other factors affecting value of the commodity; or the storage of the commodity is unapproved storage, may, at CCC's sole discretion, be pledged as collateral for a recourse loan.

(g) Settlement. (i) If CCC allows the producer to deliver to CCC in satisfaction of the amount due the quantity of the collateral which is described in the Note, the value of the collateral for purposes of settlement will be equal to the proceeds received from the sale of the commodity. Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4. (ii) The producer is responsible for any loss with respect to the quantity and quality of the collateral. If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the amount of such deficiency plus charges, and applicable interest with respect to such deficiency from the date of disbursement. (iii) If the proceeds received from the sale of the commodity are greater than the sum of the amount due plus any costs incurred by CCC in conducting the sale of the commodity, the amount of such excess will be paid to the producer or, if applicable, to any secured creditor of the producer.

12. ADMINISTRATIVE AND JUDICIAL REVIEW.

The producer may obtain an administrative hearing in accordance with 7 CFR Part 780 with respect to a dispute arising between CCC and the producer concerning the Note, and must exhaust such administrative remedy prior to initiating a judicial action in a court of competent jurisdiction.

STC and State Office Spot Check Requirements

A Spot Check Requirements

STC and State Office spot check requirements are as follows.

Paragraph Reference	Spot Check
132	STC, or STC designee, shall annually spot check 25 percent of COC-determined reasonable estimate of yields for each commodity.
--504--	State Offices shall annually spot check the commodity inspector's work to determine the accuracy of the employee's work.
523	<ul style="list-style-type: none"> • State Offices shall annually review: • county spot-check folder to ensure that spot checks are performed timely and that appropriate followup action is taken to correct problems • the list of loans open after maturity on a monthly basis to ensure that matured or unsettled loans are properly handled.
536	STC, or STC designee, shall annually spot check COC-determined yields established for producers harvesting commodities as other than grain.

Examples of Field Direct LDP on Commodities Harvested as Other Than Grain

Example 1: Producer A has CCC-709 in place for **all** corn harvested as other than grain. After Producer A completes grain harvest, a maximum quantity eligible is determined by multiplying 138 bushels (actual yield from whole grain production) times 125 acres harvested as other than grain, resulting in 17,250 bushels of actual production for commodities harvested as other than grain.

Producer A delivers **all** corn silage to a feedlot and submits production evidence showing the following.

Delivery Date	Net Quantity
09/12/98	400 tons
09/13/98	385 tons
09/14/98	425 tons
09/15/98	478 tons
09/17/98	398 tons
Total	2,086 tons

Calculate the field direct LDP payment according to the following.

Date	LDP Rate	Daily Delivery Percentage	Payment Quantity (% of 17,250)	Payment Amount
09/12/98	\$.28	(400/2086) 19%	3,278	917.84
09/13/98	\$.28	(385/2086) 19%	3,278	917.84

Total				\$4,614.38

Examples of Field Direct LDP on Commodities Harvested as Other Than Grain (Continued)

Example 2: Producer A has CCC-709 in place for 50 percent of corn harvested as other than grain. After Producer A completes grain harvest, a maximum quantity eligible is determined by multiplying 138 bushels (actual yield from whole grain production) times 125 acres harvested as other than grain, resulting in 17,250 bushels of actual production for commodities harvested as other than grain. The quantity for this payment shall be 8,625 (50 percent of 17,250). The remaining quantity shall be eligible for a subsequent loan or LDP.

Producer A delivers 50 percent of corn silage to a feedlot and submits production evidence showing the following.

Delivery Date	Net Quantity
09/12/98	400 tons
09/13/98	385 tons
09/14/98	225 tons
Total	1,010 tons

Calculate the field direct LDP payment according to the following.

Date	LDP Rate	Daily Delivery Percentage	Payment Quantity (% of 8,625)	Payment Amount
09/12/98	\$.28	(400/1010) 40%	3,450	966.00
09/13/98	\$.28	(385/1010) 38%	3,278	917.84

Total				\$2,358.34

Example of Apportioning Eligible Production Evidence

A Situation

A producer cash rents 5 farms. Each farm has received a corn loan, LDP, or a combination of the loan and LDP.

Loan Information.

Loan No. 1: Certified 5,400 bushels (5400-loan) from farms A and B.

3 repayments:

- 2,000 bushels market gain was \$0.50 per bushel
- 2,000 bushels market gain was \$0.00 per bushel
- 1,400 bushels market gain was \$0.30 per bushel

Loan No. 3: Warehouse-stored 10,000 bushels from farms B and C.

Loan No. 5: Warehouse-stored 12,000 bushels from farm E.

LDP Information.

LDP No. 2: Measured 10,000 bushels from farms A and C.

Note: The measurements were used as production evidence.

LDP No. 4: Certified 8,800 bushels (8,550 bushels requested LDP quantity) from farms A and D. LDP rate is \$0.35.

Production Evidence.

The producer provided, before final loan availability date, a load summary sheet from 1 warehouse with 50,300 bushels of corn delivered.

The producer stated that the production evidence includes the total production from all 5 farms cash rented and cannot be identified by farm, loan, or LDP. All production has been sold.

Example of Apportioning Eligible Production Evidence (Continued)

B Results of County Office Review of Production Evidence

The following determinations were made in the County Office review of production evidence:

- the evidence submitted was for all of the production from all of the farms represented by LDP's and loans requested
- evidence was commingled between all loans and LDP's requested
- all production was eligible at the time LDP or loan was approved.

C Apportioning Resulting Evidence

Using the following table in subparagraph 540 C, apportion the resulting evidence using the following table.

Step	Calculation	Result
1	8,550 bushels (LDP No. 4) + 5,400 bushels (loan No. 1)	13,950 bushels
2	50,300 bushels (total eligible quantity) - 10,000 bushels (loan No. 3) - 12,000 bushels (loan No. 5) - 10,000 bushels (LDP No. 2) - 13,950 bushels (result of step 1)	4,350 bushels
3	13,950 x 10 percent	1,395 bushels
4	1,395 ÷ 13,950	.1000
5	8,550 x .1000	855 bushels
	2,000 x .1000	200 bushels
	2,000 x .1000	200 bushels
	1,400 x .1000	140 bushels
6	8,550 bushels + 855 bushels	9,405 bushels
	2,000 bushels + 200 bushels	2,200 bushels
	2,000 bushels + 200 bushels	2,200 bushels
	1,400 bushels + 140 bushels	1,540 bushels

B Worksheet for Adjusting Nonrecourse Loan Amount

Use the following to adjust nonrecourse loan amounts for offset or payment credit after the claim is established.

Step	Action	Calculations
1	Determine the offset or payment amount.	$1.0000 \text{ minus } (\$ \underline{\hspace{2cm}} \div \$ \underline{\hspace{2cm}}) = \underline{\hspace{2cm}}$ <p><i>(Total payment or offset amount ÷ original outstanding loan principal plus interest accrued through loan maturity) = (adjustment factor.)</i></p>
2	Make adjustments for offset or payment credit.	$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$ <p><i>(Outstanding loan principal) x (adjustment factor) = (adjusted loan principal.)</i></p> $\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$ <p><i>(Interest accrued through loan maturity) x (adjustment factor) = (adjusted interest.)</i></p> $\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$ <p><i>(Outstanding quantity) x (adjustment factor) = (quantity for delivery.)</i></p>

C Examples

The following examples apply to the situation in subparagraph A.

Example No. 1	Situation	Action	Method	Calculations
Offset from program payment applied to claim before request to deliver.	\$700 offset applied as partial repayment on outstanding claim balance according to 58-FI.	When delivery is requested, calculate adjustment to original outstanding loan balance, through maturity, for the value of offset.	Use the worksheet in subparagraph B.	
		Make adjustments for offset credit.	See calculations.	<ul style="list-style-type: none"> • 1.000 minus (\$700 ÷ \$1,050.84) = .3339. • \$1,000.00 x .3339 = \$333.90 (adjusted loan principal). • \$50.84 x .3339 = \$16.98 (adjusted loan interest). • \$50.84 - \$16.98 = \$33.86 (loan interest through maturity, which is to be waived). • 500 bushels x .3339 = 167 bushels (quantity for delivery).
