

FIRST SCORECARD - TOP BEST PRACTICES IN FY2008

Demonstrated no unjustified bundling has taken place during the period.

Treasury has developed a bundling verification report that other agencies may use to demonstrate no unjustified bundling is occurring. Treasury has established, documented, and enacted systematic action plans to ensure no unjustified bundling has taken place. At the end of each quarter and fiscal year end, the OSDDBU requests bundling information from their bureaus. If bundling is reported, the responding bureau must submit an action plan to mitigate the bundling.
