

Multistate Research Projects Terminating on September 30, 2004

Project Number and Title		Project Status
NC094	Impact of Climate and Soils on Crop Selection and Management	Terminating 2004
NC125	Biological Control of Soil-and Residue-Borne Plant Pathogens	Terminating 2004
NC215	Persistence of <i>Heterodera glycines</i> and Other Regionally Important Nematodes	Terminating 2004
NC222	Impact of Technology on Rural Consumer Access to Food and Fiber Products	Terminating 2004
NC225	Improved Grazing Systems for Beef Cattle Production	Terminating 2004
NC226	Development of Pest Management Strategies for Forage Alfalfa Persistence	Terminating 2004
NC227	Ergot: A New Disease of U.S. Grain Sorghum	Terminating 2004
NC228	Avian Respiratory Diseases: Pathogenesis, Surveillance, Diagnosis and Control	Terminating 2004
NC229	Porcine Reproductive And Respiratory Syndrome (PRRS): Mechanisms Of Disease And Methods For The Detection, Protection And Elimination of the PRRS Virus	Terminating 2004
NC230	Integrating Biophysical Functions of Riparian Systems with Management Practices and Policies	Terminating 2004
NC503	Host Plant Control Resistance to and Best Management Practices for Karnal Bunt of Wheat	Terminating 2004
NC504	Soybean Rust: A New Pest of Soybean Production	Terminating 2004
NE127	Biophysical Models for Poultry Production Systems	Terminating 2004
NE171	Biologically Based IPM Systems for Management of Plant-Parasitic Nematodes	Terminating 2004
NE172	Nutritional Risk and Antioxidant Status in the Elderly	Terminating 2004
NE186	Genetic Maps of Aquaculture Species	Terminating 2004
S289	Factors Associated with Genetic and Phenotypic Variation in Poultry: Molecular to Populational	Terminating 2004
S293	Improved Pecan Insect and Mite Pest Management Systems	Terminating 2004
W102	Integrated Methods of Parasite Control for Improved Livestock Production	Terminating 2004
W128	Micro-Irrigation: Management Practices to Sustain Water Quality and Agricultural Productivity	Terminating 2004
W170	Chemistry and Bioavailability of Waste Constituents in Soils	Terminating 2004
W171	Germ Cell and Embryo Development and Manipulation for the Improvement of Livestock	Terminating 2004

W181	Modifying Milk Fat Composition for Improved Manufacturing Qualities and Consumer Acceptability	Terminating 2004
W187	Interactions Among Bark Beetles, Pathogens, and Conifers in North American Forests	Terminating 2004
W188	Characterization of Flow and Transport Processes in Soils at Different Scales	Terminating 2004
W189	Biorational Methods for Insect Pest Management (IPM): Bioorganic and Molecular Approaches	Terminating 2004
W190	Water Conservation, Competition and Quality in Western Irrigated Agriculture	Terminating 2004
W194	Community Economic Development by Merchandising, Producing, and Distributing Textiles and Sewn Products	Terminating 2004
