A program that so began operation may participate in a project under paragraph (a) of this section without regard to whether the program has been providing early intervention services for HIV disease.

(d) If the State plans to carry out 2 or more projects under paragraph (a) of this section, the State shall carry out one such project in a rural area of the State, unless the requirement is waived. The Secretary shall waive the requirement if the State certifies to the Secretary that:

(2) There are no rural areas in the State as defined in § 96.121.

(e) With respect to the provision of early intervention services for HIV disease to an individual, the State shall ensure that the entities comply with § 96.137 regarding payment and § 96.135 regarding restrictions on expenditure of grant. The State shall also ensure that such services will be undertaken voluntarily by, and with the informed consent of, the individual, and undergoing such services will not be required as a condition of receiving treatment services for substance abuse or any other services.

(f) With respect to services provided for a State for purposes of compliance with this section, the State shall maintain Statewide expenditures of non-Federal amounts for such services at a level that is not less than the average level of such expenditures maintained by the State for 2-year period preceding the first fiscal year for which the State receives such a grant. In making this determination, States shall establish a reasonable base for fiscal year 1993. The base shall be calculated using Generally Accepted Accounting Principles and the composition of the base shall be applied consistently from year to year.
