

Planetary Protection: Policies and Practices - Nov. 14-16, 2006

WHAT IS IT

NASA has developed this course on planetary protection policies and practices to familiarize current and future practitioners with NASA and COSPAR planetary protection programs. The course provides a comprehensive review of all applicable policies, practices and procedures necessary to implement a successful planetary protection program, emphasizing integration of managerial, administrative, and laboratory aspects of planetary protection.

WHO SHOULD TAKE IT, AND WHY?

This course is designed for managers, engineers, designers, lab technicians, and others interested in learning about the theory behind and application of planetary protection principles. Participants learn how the work of personnel with diverse skills and responsibilities is coordinated to implement planetary protection programs. This course provides hands-on laboratory training in microbial sampling and data management. The course is taught by experts in the field with years of practical experience in all aspects of planetary protection.

COURSE CURRICULUM

Day 1

- ◆ *Overview of Planetary Protection*
- ◆ *Treaties, Regulations, Government Policies*
- ◆ *Biology of Microflora: Introduction to Extremophiles*
- ◆ *Laboratory Techniques and Practices: Part I*

Day 2

- ◆ *Planning for Compliance*
- ◆ *Guidelines for Hardware Design*
- ◆ *Lessons Learned – The Engineer’s Perspective*
- ◆ *Laboratory Techniques and Practices: Part II*
- ◆ *Compliance, Statistics, Data Analysis and Reporting*

Day 3

- ◆ *Review of Upcoming Missions*
- ◆ *Special Topics (TBD)*
- ◆ *Review of Laboratory Results*

COURSE LOCATION FOR FALL 2006

Dates: November 14-16, 2006

Tuition: \$600 per person

***Space Life Sciences Laboratory
Kennedy Space Center
Kennedy Space Center, FL 32899***

This course will be offered twice a year in the U.S. and once a year in Europe, at various locations. Tuition covers all course materials, lunches and an evening reception.
