Dear Don,

These two documents describe where Missouri Regional Medical Program started and essentially where it stopped.

There is a good picture of the Fact Bank in the 1966-71 document. The Health Plans in Action doesn't have much to say about our computer experience. So I have included a reprint on "The Automated Physicians Assistant". I believe this was actually our most popular project but one for which we received the greatest criticism from the Central Office.

If there is anything that you would like regarding the MO RMP files we have located where they are stored in the Ellis Library and could try to find it for you.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'A. Rikli'.

Arthur E. Rikli, M.D.
Professor Emeritus

AER/sf
