Memorandum

Date March 8, 1991  
From Associate Director, LO  
Subject Regional Medical Programs Conference  
To Director, NLM

Dr. John Parascandola described the plans for a one-day conference remembering the Regional Medical Program. I think that is an excellent idea and fully support it. As a former head of a Regional Medical Program information program I hope that you will invite at least one librarian to review some of the accomplishments of the information programs funded by the RMP. It would actually be interesting to see what has happened to them.

I hope you plan to have a RMP luncheon - chicken. For those of us who were after lunch or dinner speakers promoting RMP programs, this will bring back memories!

please tell us exactly how many, when,  
and what they should really do.  
an important aspect we don't want to  
miss.  
I will welcome your advice, or  
participation to whatever extent  
you wish.
