

Early Career
Award
for scientific
accomplishment

Lætitia H. Delmau, Chemical Sciences

For exceptional research, initiative, leadership, and outstanding contributions to chemical separations science and technology

Brian R. D'Urso, Engineering Science and Technology

For exceptional leadership and innovation in the discovery of materials and surface features that exhibit super hydrophobic properties

A portrait of Lianhong Gu, a man with dark hair and glasses, wearing a dark suit, white shirt, and red patterned tie. He is looking directly at the camera against a blue textured background.

Lianhong Gu, Environmental Sciences

For groundbreaking work on the role of aerosols in the global carbon cycle processes and pioneering application of data assimilation methods in the development of improved terrestrial ecosystem carbon cycle models

A portrait of Maria Varela, a woman with dark, wavy hair, smiling and wearing a white top and gold jewelry. The background is a textured blue.

Maria Varela, Condensed Matter Sciences

For exemplary application of aberration-corrected Z-contrast STEM to materials physics
