

## **CDBS Changes: am\_towers**

Prematurely, a revision to the CDBS am\_towers.dat file was released a few weeks ago which added a new field at the end of each record (after the last\_change\_date). On the release for Thursday, 12/14/2006, we will restore the am\_towers.dat to the prior version (24 fields, with last\_change\_date as the last field). We will announce later when the new field will properly appear in the file.

For more information on CDBS, see: <http://www.fcc.gov/mb/databases/cdbs/>.
