

**TITLE II REQUEST FOR SYAP IEE ONE-YEAR GRACE PERIOD**

**Title of SYAP Activity:**

**CS name/Country/Region:**

**Emergency or Program:**

**Funding Period:** FY\_\_\_\_\_ - FY\_\_\_\_\_

**Resource Levels:**

Commodities (dollar equivalent, incl. monetization): \_\_\_\_\_

Total metric tonnage request: \_\_\_\_\_

As noted in the P.L. 480 FY06-FY10 Program Policies and Proposal Interim Guidelines, Annex D. Environmental Review and Compliance Information, we, \_\_\_\_\_ (*CS Name*), acknowledge that for the one-year grace period granted by USAID FFP, we are not required to submit the 22 CFR 216 Initial Environmental Examination (IEE) to review the potential environmental impacts of our SYAP relief intervention pertaining to the \_\_\_\_\_ (*Emergency Name*) in \_\_\_\_\_ (*Country/Region*).

We, \_\_\_\_\_ (*CS Name*), understand that if we are funded for a follow-on SYAP for the specified emergency, we are then responsible for demonstrating that our relief interventions will not cause unintended harm to the natural resource or human health environment by submitting an IEE for clearance by USAID. We, \_\_\_\_\_ (*CS Name*), are aware of the recommendation to use the Rapid Environmental Assessment (REA) approach and the Sphere Handbook to optimize the effectiveness of the USAID investment during this first year of the relief intervention.
