THIRTY-MILE FIRE BOARD OF REVIEW

The Board of Review assigned to the Thirty Mile Fire is responsible for reviewing the accident investigation factual and management reports. There are seven voting members of the team and an additional group of advisors and technical experts who are available to assist the review board.

Once the Board accepts the report they are then responsible for accomplishing an action plan that addresses the findings and recommendations of the report with the intent of improving wildland firefighter safety.

The review board constitutes a highly experienced level of public land management expertise. Many of the members have served on Accident Investigation Teams and Boards of Review for other Incidents. Five of the voting members have more than 25 years of agency experience.
