

APPENDIX D

CLOSED GROUPS OF PENDING APPLICATIONS

This Appendix identifies mutually exclusive groups of applications for reserved channel noncommercial educational broadcast stations that are not subject to competition from additional applicants. Applications have been studied only to determine mutual exclusivity with applications of the same type, and the appearance of an application on this list does not necessarily mean that it is grantable. Full service FM applications were studied based on technical rules in place at the time of filing. The staff did not consider changes in the protection ratios adopted in Streamlining of Radio Technical Rules, MM Docket No. 98-93 (November 1, 2000), untimely amendments, or post April 21, 2000 amendments. The Appendix is organized by service, with full service television applicants listed first, FM translator applicants second, and full service FM applicants third. Television applicants are listed alphabetically by city. Full service FM applicants are listed by the filing date of the lead applicant. Similarly, FM translator applicants are organized chronologically.

1. TELEVISION CLOSED GROUPS

City, State	Ch.	Applicants	File Nos.
Ames, Iowa	34*	Community Television Educators	BPET-960930KE
