Please note: ODU Trousers waists are adjustable over an approximate four-inch range. Consider factors such as potential shrinkage during laundering, and the need for adequate room for hip, seat, and thigh fit when selecting the waist size range. Members with larger hips or seat may need to increase pant waist size. The hip measurements provided are an approximate range and should be used as a secondary form of measurement/fit only.

Preparing to Take Measurements

Item	Illustration	Description
Using Tape and Ruler		Use adhesive tape to attach the 0" end of a tape measure to the broad edge of a ruler.
Center Back at Neck Base		Have the individual put his head down. With the head facing forward locate the prominent bony bump at the base of the neck, midway between the shoulders at the top of the spine. Hold your finger on this bone and have the individual put his head back up. With head facing forward, mark this bone with dot, tape or marker. Leave the mark in place for the measuring process.
Shoulder Points		Locate one prominent bony shoulder tip, where the arm joins the body. Mark the top of the shoulder at the outermost edge of the bone with dots, tape or marker. Repeat for the other shoulder. Leave the marks in place for the measuring process.
Waist		Secure a length of elastic in a comfortable position around the midsection of the individual at the top of the hipbones. Leave the elastic in place to indicate the waistline during the measuring process.

Neck

	<p>Wrap the tape around the base of the individual's neck, back to the starting point.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

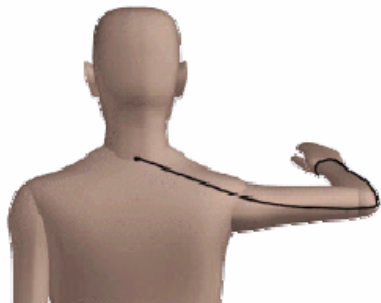

Chest

	<p>Wrap the tape around the individual's body at the largest part of the chest, back to the starting point.</p> <p>Keep the tape parallel to the floor.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	---

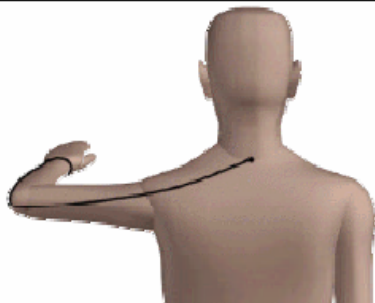

Waist

	<p>Wrap the tape around the individual's body following the waist elastic, back to the starting point.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

Right Sleeve Length

	<p>Have the individual stand with the right arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

Left Sleeve Length

	<p>Have the individual stand with the left arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	---

Leg Outseam

Have the individual stand without shoes.

Hold the end of the tape measure in place at the side waistline.

Let the tape hang downward, over the hipbone, and extend to the floor.

Measure from the top of the waist elastic to the floor.

Record the measurement to the nearest quarter (0.25) inch.

Leg Inseam

Have the individual, standing without shoes, hold the broad edge of the ruler against the inner thigh, comfortably up and in the crotch.

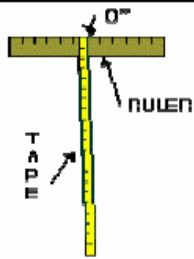

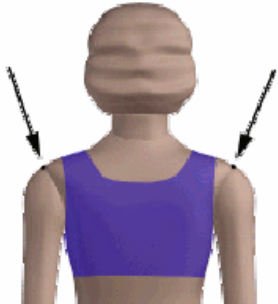

The tape is hanging downward against the leg, from the middle of the crotch to the floor.

Keep the ruler parallel to the floor.

Measure from the crotch to the floor.

Record the measurement to the nearest quarter (0.25) inch.

Preparing to Take Measurements

Item	Illustration	Description
Using Tape and Ruler		<p>Use adhesive tape to attach the 0" end of a tape measure to the broad edge of a ruler.</p>
Center Back at Neck Base		<p>Have the individual put her head down. With the head facing forward locate the prominent bony bump at the base of the neck, midway between the shoulders at the top of the spine. Hold your finger on this bone and have the individual put her head back up. With head facing forward, mark this bone with dot, tape or marker. Leave the mark in place for the measuring process.</p>
Shoulder Points		<p>Locate one prominent bony shoulder tip, where the arm joins the body. Mark the top of the shoulder at the outermost edge of the bone with dots, tape or marker. Repeat for the other shoulder. Leave the marks in place for the measuring process.</p>
Waist		<p>Secure a length of elastic in a comfortable position around the midsection of the individual. Locate the waist by having the individual bend to both sides, to the front, and to the back. Where the body bends is the waist, which is just above the hipbones and below the rib cage. Leave the elastic in place for the measuring process to indicate the waistline location.</p>

Neck

	<p>Wrap the tape around the base of the individual's neck, back to the starting point.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

Upper Chest

	<p>Wrap the tape around the individual's body as high as the tape will go, under the armpits and above the breasts, back to the starting point.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	---

Bust

	<p>Wrap the tape around the individual's body at the fullest part of the bust, back to the starting point.</p> <p>Keep the tape parallel to the floor.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
--	--

Waist

	<p>Wrap the tape around the individual's body following the waist elastic, back to the starting point.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

Hips

 A 3D model of a person's lower body in a purple leotard. A black horizontal line is drawn across the widest part of the hips, representing a measurement tape.	<p>Wrap the tape around the individual's body at the fullest part of the hips/buttocks, back to the starting point.</p> <p>Keep the tape parallel to the floor.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
--	---

Right Sleeve Length

 A 3D model of a person's upper body in a purple leotard. The right arm is extended away from the body and bent at the elbow to form a right angle. A black line indicates the measurement path from the neck base, over the shoulder, and to the wrist.	<p>Have the individual stand with the right arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	--

Left Sleeve Length

 A 3D model of a person's upper body in a purple leotard. The left arm is extended away from the body and bent at the elbow to form a right angle. A black line indicates the measurement path from the neck base, over the shoulder, and to the wrist.	<p>Have the individual stand with the left arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
--	---

Leg Outseam

	<p>Have the individual stand without shoes.</p> <p>Hold the end of the tape measure in place at the side waistline.</p> <p>Let the tape hang downward, over the hipbone, and extend to the floor.</p> <p>Measure from the bottom of the waist elastic to the floor.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
---	---

Leg Inseam

	<p>Have the individual, standing without shoes, hold the broad edge of the ruler against the inner thigh, comfortably up and in the crotch.</p> <p>The tape is hanging downward against the leg, from the middle of the crotch to the floor.</p> <p>Keep the ruler parallel to the floor.</p> <p>Measure from the crotch to the floor.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
