## WHY WE USE BOOSTER SEATS.

**REASON #235 TO USE BOOSTER SEATS: HER SMILE.**  
Sometimes, it's as easy to protect your children as it is to love them. When your child outgrows his or her safety seat, use a booster seat until your child is at least eight years old or is over 4-feet 9-inches tall. Seat belts alone are made for adults. A booster seat raises a child up so the seat belt fits, preventing the child from being thrown from the car in a crash.
