**P R O G R A M   E X P L A N A T I O N S**

***INTRODUCTION***

King County government plays an important role in addressing the human service needs of King County residents. The County partners with volunteers, civic organizations, non-profit service providers, faith communities, businesses, schools, and other organizations that lend financial and other forms of assistance to residents in need, in order to help foster healthier and safer communities. Unlike public services such as roads and water, for which a given government typically has sole responsibility in a particular area, human services are not the responsibility of any one entity.

Because King County government serves both as a regional government and as the local government for unincorporated areas, it is uniquely positioned to help plan, fund, and evaluate human service systems for King County residents. However, increasingly limited funding allows the County to address only a portion of the governmental side of human service support.

In 1999, the Metropolitan King County Council passed by motion the King County Framework Policies for Human Services. The Framework Policies, developed in conjunction with community partners and County agencies, as well as Council and Executive staff, provide guidance on funding strategies and decision making for agencies and policy makers. Through this framework, King County articulates its highest level goals for participating in human services, clarifies the roles it will play, and expresses its general priorities and policies for the use of County-generated resources under its control. Human Service agencies throughout King County turned to the Framework Policies for direction in the development of the 2002 Adopted Budget.

**Prioritizing Core and Critical Services**

Faced with increasing service demands in both volume and complexity, diminishing Current Expense revenue, and the increasing cost of doing business, Health and Human Service agencies have risen to meet the challenges with their 2002 Adopted budgets. The Department of Community and Human Services (DCHS) has made difficult strategic decisions based in the Framework Policies for Human Services. Public Health-Seattle and King County relied heavily on its business plan and the Interlocal Agreement with the City of Seattle to guide programmatic funding decisions.

The Community Services Division (CSD) of the Department of Community and Human Services shifted resources to maintain programs that provide the core services, as outlined in the Human Services Framework Policies. As a result of aligning services with the Human Services Framework Policies, CSD made programmatic and administrative reductions to programs considered more discretionary. CSD also made reductions to programs unrelated to the departmental core businesses and to programs that use Current Expense (CX) dollars to fund local services in incorporated areas. Some CSD reductions include contracts with certain senior centers in cities with populations greater than 12,000.

Also in 2002, King County Cooperative Extension Program was transferred from CSD to the Department of Natural Resources and Parks (DNRP) where it matched more closely with DNRP's core business plan. All programs in Cooperative Extension are retained by DNRP except for the Family Living component.

The decision was made to revise the funding policy for the King County Child Care Program to encourage cities to begin covering subsidy costs for incorporated area residents. Subsidy services to

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

incorporated areas of King County would now require a 50/50 match from the cities. However services to unincorporated areas will continue to remain fully funded by the County though no new enrollees will be allowed into the program. Future reductions in Child Care will be re-evaluated on a year-to-year basis.

The addition of a new initiative in Developmental Disabilities (DD) called the Transition to Employment Program enables King County to provide employment, training, and alternatives to employment for adults with developmental disabilities. This non-Current Expense, fully funded program is to be launched in collaboration with the federal Social Security Administration Region X Office and the State Department of Developmental Disabilities. The program will provide support and services for those individuals in need of assistance moving from high school special education to long-term employment and is in alignment with the Framework Policies.

In developing its 2002 Executive Proposed Budget, Public Health-Seattle and King County (PH) turns to its business plan, five year plan, and the Washington Administrative Code (WAC) #246-05 to guide its decision making. The WAC provided the foundation for PH to categorize its services as either critical or enhanced. The 2002 program reductions proposed to meet the Department's Current Expense funding levels are largely made to services in the enhanced category. In some cases, the Department identified other revenue in lieu of reduction so that important safety net services could be maintained for King County residents.

Holding to its goal of reducing enhanced service areas before reducing critical service areas, Public Health is seeking to reduce the CX contribution that provides contractual support to non-profit community clinics in King County. The CX contribution to community clinics falls under the enhanced service category. The CX contribution is not the clinics sole means of support. It is anticipated that community clinics may find relief from this reduction by seeking revenue from other sources, such as private foundations, or availing themselves of additional funding via the federal Medicaid Family Planning Waivers.

In 2002, PH will change the revenue source supporting community based oral health services, or field dental, provided in King County outside of the City of Seattle. Because the program falls into the enhanced category, it is therefore targeted for reduced CX funding. Though the field dental program will see the elimination of CX from its budget in 2002, this important program will not be eliminated. Due to an influx of revenue into the Children and Family Set Aside (CFSA) fund in 2002, CX replacement funding for field dental operations will come from the Children and Family Set Aside fund in 2002 and 2003, enabling the continuation of field dental services for King County children.

The Public Health budget reflects its successful ongoing efforts to procure additional, non-CX funding for its programs and services. The agency is proposing over \$12 million in revenue backed additions to its operating budget, reflective of new and expanded grant funding as well as other changes in reimbursement activities. Public Health will increase Public Health Nursing (PHN) services to high risk parenting families in 2002. It will expand the successful Nurse Family Partnership program that targets low-income pregnant teens.

# Community & Human Services

Organizational Chart, 11 KB .pdf](#)**

*COMMUNITY & HUMAN SERVICES*

***Mission***

**Community & Human Services**

To enhance the quality of life, protect rights, and promote self-sufficiency, safety and dignity of our county's diverse individuals, families and communities.

***ISSUES AND PRIORITIES***

The 2002 Adopted Budget maintains the County's role as a regional provider of mandated services including mental health services, substance abuse, developmental disabilities, and veteran services. The Department of Community and Human Services (DCHS) endeavors to provide critical human services to those most in need.

Increased pressure on human service programs brought on by a slowing economy and a shrinking tax base made it necessary for DCHS to reach beyond administrative efficiencies and departmental restructuring to meet the serious reduction of Current Expense funding. The budget situation in 2002 required the reexamination of services provided by King County. Guided by the Council-approved King County Framework Policies for Human Services, reductions are made to those DCHS programs that do not fit within the County's role as a regional provider or its role as the primary service provider to residents of unincorporated King County.

**Community Services Division**

Reductions in Community Services Division (CSD) reflect the County's focused responsibility as both a regional provider of mandated services and as the sole governmental provider of human services to residents of unincorporated King County. Faced with declining CX revenue and increasing costs of doing core business, CSD will reduce its budget by \$1.9 million from 2001. \$422,000 of this reduction reflects the transfer the Washington State University-King County Cooperative Extension Program from CSD to DNRP. All programs in Cooperative Extension are retained in DNRP's budget except for the Family Living program.

CSD will reduce \$807,000 in the Child Care Program. Services to incorporated area residents were retained for those cities willing to fund 50% of the cost of providing child care subsidies for their citizens. However, no new participants will be allowed into the program. Childcare subsidies for current program participants in unincorporated areas will be maintained through 2002.

**Developmental Disabilities**

Developmental Disabilities (DD) is committed to providing services to individuals with developmental disabilities. A new 2002 initiative called the Transition to Employment Program will expend \$1.15 million of undesignated fund balance to provide employment, training, and alternatives to employment for adults with developmental disabilities. In collaboration with the US Social Security Administration Region X Office and the State of Washington Developmental Disabilities Division, this initiative will provide support and services for individuals needing assistance as they transition from high school special education to long-term employment.

**Youth Employment/Displaced Worker**

The Youth Employment Fund (YEF) and its Displaced Worker (DPW) subfund will continue to provide training and employment programs with no direct service reductions in 2002. Though YEF, the Work Training Program (WTP) will realize an administrative reduction that eliminates the Education Liaison contract. Coordinating youth employment programs with school districts will

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

continue. Having existing staff assume the duties of the contractor will allow the County to achieve savings of \$53,000 from the Current Expense Fund's contribution to the WTP.

An overall increase in grant funding to the Displaced Worker Program will allow it to accelerate employment training and job search services to out-of-work residents of King County. Higher unemployment levels driven by the recent economic decline are factors in the formula used to calculate the increased allocation of \$1.3 million funding from the Workforce Investment Act (WIA). Additional funding from the Governor's Rapid Response Reserve to address lay-offs associated with the failure of a number of dot.com companies in the Pacific Northwest has been awarded. These increases offset the other ending grants to the fund.

### **Housing Finance Programs: Housing Opportunity Fund and Federal Housing/Community Development Fund**

The Housing Opportunity Fund (HOF) and the Federal Housing and Community Development Fund (FHCD) continue to enable local housing providers to compete for and leverage federal, state, private, and other local funds to meet the urgent housing needs of the County's homeless, low-income families, seniors, and special needs populations. Despite the fact that HOF will see the elimination of dedicated Workforce Housing Initiative set-aside funds in 2002, HOF and FHCD will produce or preserve 400-500 units of affordable housing at a competitive per-unit cost. The HOF reduction eliminates dedicated funds for down payment assistance and education for first-time buyers with moderate incomes up to 80% of median. This direct service reduction will result in a corresponding reduction to the amount of CX transfer to the Housing Opportunity Fund (HOF).

In 2002, all housing program staff in the Department of Community and Human Services (DCHS) will be consolidated within the Federal Housing and Community Development (FHCD) Division. This is an administrative efficiency that enables positions previously housed across DCHS to be home-based in FHCD. FHCD will loan out the cost of the positions by charging time to the appropriate operating program proportionate to work performed for that program. Though there are not quantifiable savings expected from this change, it will enable a more efficient administration and tracking of housing initiatives.

King County has invested \$33 million in housing over the last decade, and the housing portfolio now consists of over 2,700 units in ninety separate projects operated by 47 individual agencies. The 2002 budget sees the creation of a 1.0 FTE housing portfolio manager position (Planner II) added to FHCD. This position, supported in equal parts by FHCD's HOME Program and HOF, will provide property inspections and contract compliance oversight for housing portfolio projects.

Most of King County's funds for affordable housing development and preservation are made available through the King County Housing Finance Program (HFP). HFP provides capital funds for acquisition, rehabilitation, site improvements, new construction, and other costs related to housing development. Projects are selected through a competitive application process. The HFP includes funds from King County's local Housing Opportunity Fund (HOF), as well as the federal HOME program and the County and Small Cities portion of the CDBG entitlement.

### **Mental Health/Chemical Abuse Dependency Services**

As a result of a change in the State's allocation formula, the Mental Health Division faces an annual loss of \$2 million in state and federal matching funds beginning in 2002. In order to mitigate diminishing revenue, the Mental Health division will adjust its risk reserve policy. Consequently, the Mental Health division financial plan reflects the reduction of the reserves for outpatient risk. In

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

addition, the 2002 Budget anticipates spending down undesignated fund balance to meet the remainder of the revenue shortfall.

The Mental Health Division will receive 13.00 FTE psychiatric evaluation specialists transferred from the Department of Adult & Juvenile Detention (DAJD). This programmatic change is fully supported by DAJD revenue.

The Substance Abuse division has received State funding to provide oversight and coordination of criminal and family court services as part of the Treatment Accountability for Safer Communities (TASC) program to improve access to drug and alcohol treatment.

The Cedar Hills Alcohol Treatment Facility (CHAT) continues to use fund balance to meet the gap between revenues and expenditures. The difference between expenditures and revenues at CHAT is projected to be \$715,580 in 2002.

There are no reductions to the CX transfer in either the Mental Health or Substance Abuse divisions in 2002.

### **Veteran's Program**

The Veterans Program maintains existing funding levels in 2002 that enable the ongoing provision of employment training, mental health, transitional housing, and financial assistance to the County's veteran population.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### ***PROGRAM HIGHLIGHTS***

#### **DCHS Administration**

##### **Significant Program Reductions**

**Office Technician II Cut - (\$ 40,925)(1.0 FTE).** This reduction eliminates an office technician II position that provides clerical support to program analysts and to the Department Director's Confidential Secretary II. It is being eliminated in an effort to absorb other costs scheduled to incur in 2002. This position is currently vacant.

##### **Technical Adjustments**

**Telecom Rate Adjustment - (\$4,078).** This technical change corrects the inadvertent double count of a central rate during PSQ.

**Central Rate Adjustments - (\$49,118).** Central rate adjustments totaling \$49,118 were taken in areas of flex benefits, CX overhead, ITS, finance, telecommunications, insurance, COLA adjustments and lease rates.

#### ***COUNCIL ADOPTED BUDGET***

*Council made no changes to the 2002 Executive Proposed Budget.*

**PROVIDED FURTHER THAT:**

It is the intent of the council that effective January 1, 2002, no portion of the \$559,795 above shall be expended or encumbered to contract with a private organization designated for an appropriation under this section until the department has received verification that the private organization is qualified for tax-exempt status under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code.

**PROVIDED FURTHER THAT:**

\$60,000 is appropriated for a contract with the Crisis Clinic – Information Line. \$34,286 is appropriated for a contract with Crisis Clinic – Teen Link. \$52,000 is appropriated for a contract with Food Lifeline. \$49,267 is appropriated for a contract with Ruth Dykeman – Project Look. \$28,714 is appropriated for a contract with Auburn Youth Resources – Rural Outreach. \$16,256 is appropriated for a contract with Friends of Youth – Snoqualmie Valley Youth Center. \$99,000 is appropriated for a contract with the Fremont Public Association – Shoreline Senior Services. \$11,589 is appropriated for a contract with Fremont Public Association – RSVP program. \$25,000 is appropriated for a contract with the Unemployment Law Project. \$45,872 is appropriated for a contract with Highline Senior Center. \$10,000 is appropriated for a contract with North Helpline/Foodbank Network. \$22,000 is appropriated for a contract with Southeast Seattle Senior Program. \$85,000 is appropriated for a contract with the State Department of Corrections for Work Crew with \$10,000 to be provided from the road operating budget and \$15,000 to be provided from the solid waste operating budget and \$60,000 to be provided from the current expense fund. \$42,000 is appropriated for a contract with Childcare Resource Caring Partnership.

**PROVIDED FURTHER THAT:**

\$450,000 shall be expended solely for new county investments in services to reduce youth involvement in the juvenile justice system.

**Community Services 0010/0934**

<b>Code/Item #</b>	<b>Description</b>	<b>0934</b>	<b>Expenditures</b>	<b>FTEs*</b>	<b>TLPs</b>
--------------------	--------------------	-------------	---------------------	--------------	-------------

**PROVIDED FURTHER THAT:**

The Juvenile Justice Operational Master Plan oversight committee shall submit a plan to the council, by February 15, 2002, for the use of the \$450,000 earmarked for youth prevention investment. The plan shall indicate how the proposed new investments will further the strategies laid out in the adopted Juvenile Justice Operational Master Plan. None of these funds shall be encumbered or expended until the council has approved the plan by motion. The plan required to be submitted by this proviso must be filed with the council clerk. The original and 15 copies must be delivered to the clerk, who will retain the original and will forward copies to each councilmember and to the lead staff of the law, justice and human services committee, or its successor.

**PROVIDED FURTHER THAT:**

It is the intent of the council that effective January 1, 2002, no portion of the \$450,000 above shall be expended or encumbered to contract with a private organization designated for an appropriation under this section until the department has received verification that the private organization is qualified for tax-exempt status under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code.

**PROVIDED FURTHER THAT:**

Of this appropriation, \$400,000 shall be used only as a 50/50 match with equal contributions from cities to provide childcare subsidies and related services for city residents.

**PROVIDED FURTHER THAT:**

It is the intent of the council that the department, in cooperation with other local government jurisdictions, transition provision of childcare subsidies and related services to those local jurisdictions over a three-year period beginning in 2002 and ending in 2004.

**PROVIDED FURTHER THAT:**

The executive shall submit to the council by June 1, 2002, a report on progress in obtaining city support for childcare with recommendations regarding the continued operation of the program and the transition of services. The report required to be submitted by this proviso must be filed with the council clerk. The original and 15 copies must be delivered to the clerk, who will retain the original and will forward copies to each councilmember and to the lead staff for the law, justice and human services committee, or its successor.

**PROVIDED FURTHER THAT:**

Of this appropriation, \$125,412 shall be expended solely to maintain 2001 levels of support for the Maple Valley Community Center's Senior Program, the Northshore Senior Center, the Federal Way – Lakeland Senior Center and the Korean Seniors Program in conformance with the revised Aging Program Funding Policy.

**PROVIDED FURTHER THAT:**

Of this appropriation, no more than \$16,693 shall be expended on a contract to help support the Shoreline Adult Day Health Program. This is a one-time expenditure to provide transitional support for the program in 2002.

**PROVIDED FURTHER THAT:**

Of this appropriation, \$10,000 shall only be expended for support of the Shoreline/Lake Forest Park Youth Council. Further, this \$10,000 shall only be expended if the \$10,000 appropriated in the 2001 budget for this purpose has been disappropriated from the 2001 community services division budget by the 2001 fourth quarter correction ordinance.

**PROVIDED FURTHER THAT:**

The program for child care subsidies and related services shall accept no new enrollees beginning in 2002.

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

### **Community Services Division**

#### **Significant Program Reductions**

**Transfer of WSU-King County Cooperative Extension to DNRP - (\$421,761)(5.0 FTE)(1.3 TLT).**

This proposal transfers to Department of Natural Resources and Parks all of the WSU-King County Cooperative Extension (KCCE) Programs, except for the Family Living Program which is eliminated. The programs to be transferred are: 4-H Youth, Agriculture & Natural Resources, and Urban Horticulture/Master Gardener. Of the 5.0 FTE positions in KCCE, 2.0 FTE positions will be transferred to Solid Waste while 3.0 FTE positions and 1.3 TLT positions will be eliminated. Six months of lease costs are retained in Community Services Division (CSD) to insure that there is adequate time to sublet the space currently occupied by Cooperative Extension.

**Reduction to Child Care Program - (\$1,207,460)(4.15 FTE)(2.0 TLT).** The proposal reduces childcare programs by \$1,207,460, 4.15 FTEs and 2.0 TLTs in 2002. Additionally, no new participants will be allowed to enroll in the program. Service to unincorporated area residents will not be reduced. Childcare subsidies for 256 incorporated area children and 5,000 hours of training and technical assistance to County-contracted childcare providers will be eliminated. Further reductions will be determined annually based on available county funds.

**Reduction of Low Priority Contracts - (\$684,757).** This proposal reduces contracts with service providers in programmatic areas that are of low priority in DCHS' business plan. CSD has selected contracts for reduction that either do not meet the Council-adopted Framework Policies for Human Services, are under performing, or are of low priority within DCHS' core business goals.

**Reduction to Aging Services - (\$100,412).** This reduction eliminates funding to three senior centers in cities with populations over 12,000. Approximately 14,000 seniors will be impacted. The department states that some senior centers may be able to raise replacement funds to cover lost revenue. However, not all affected centers may be able to raise replacement funds and may have to materially change in order to accommodate lost revenue.

If the Council adopts the Aging Services Funding Policy, which provides guidance on CX funding for aging services, funding for services in incorporated area not adjacent to unincorporated areas will be reduced by \$91,135 with services for only 10,000 seniors impacted.

**Reduction to Unincorporated Area Council (UAC) Funds for Planned Seventh UAC - (\$10,000).** This reduction eliminates funding for a planned Seventh Unincorporated Area Council that will not be formed in 2002.

**Elimination of Special Program Administration - (\$27,444)(.5 FTE).** This proposed reduction eliminates a .5 FTE Program Coordinator position responsible for contracts associated with the Council Special Programs. The Special Program Contract budget is eliminated in 2002. If the Special Program Contract is re-instated, this reduction will need to be re-evaluated.

**Fiscal Staff Reduction - (\$23,615)(2.0 FTE).** This proposed reduction eliminates a vacant 1.0 FTE Fiscal Specialist III position and a vacant Administrative Service Officer II position. These reductions reflect the decrease in fiscal work associated with the reduction in the overall CX-CSD budget.

**Reduction to H&CD CX Administration - (\$26,463).** This proposal establishes loan-in labor for a .5 FTE planner position home-based in FHCD. This position was previously established and funded in 2001 as two .25 FTE planner positions in CSD.

#### **Program Change**

**Increase in Youth & Family Services Funding - \$10,627.** Youth and Family Services agencies are funded according to a Council-approved formula based on the number of students in a school district and the proportion of students in that district who are from unincorporated areas. This change increases the budget to match the funding formula for 2002.

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

### Technical Adjustments

**Web Developer Position - .5 FTE.** This technical amendment corrects an error in a Web Developer position that was funded in 2001 as a 1.0 FTE but is listed as a .5 FTE position.

**Telecom Rate Adjustment - (\$49,525).** This technical change corrects the inadvertent double count of a central rate during PSQ.

**Central Rate Adjustments - (\$97,975).** Central rate adjustments totaling \$97,975 were taken in areas of flex benefits, CX overhead, ITS, finance, telecommunications, insurance, COLA adjustments, lease rates. CSD will not take a 1% underexpenditure in 2002.

WORKLOAD / PERFORMANCE INDICATORS			
	2000	2001	2002
	Actual	Adopted	Proposed
1. Women's Program clients served	8,670	8,000	8,000
2. Youth and Family Services clients served	13,555	13,500	13,000
3. Aging Program clients served	23,101	23,490	13,490
4. Families receiving Child Care Vouchers	374	405	149
5. Cooperative Extension Trained Volunteers	2,153	2,600	0 *

\* Cooperative Extension is transferred to the Department of Natural Resources and Parks in the 2002 Executive Proposed Budget.

### *COUNCIL ADOPTED BUDGET*

**Child Care Program - \$400,000 / 1.0 FTE.** The changes from the Executive Proposed CSD budget includes the restoration of \$400,000 and 1.0 FTE for the King County Child Care Program as a 50/50 match with equal contributions from cities to provide childcare subsidies and related services for city residents.

**Contracts & Senior Services - \$563,805.** Changes from Executive Proposed reflect Council program support for the following agencies or contracts: Friends of Youth – Snoqualmie Valley Youth Center, \$16,256; Highline Senior Center, \$12,000; SE Seattle Senior Program \$22,000; Auburn Youth Resources – Rural Outreach, \$28,714; Ruth Dykeman – Project Look, \$49,267; Food Lifeline, \$52,000; Crisis Clinic – Teen Link, \$34,286; Childcare Resources – Caring Partnership, \$42,000; Unemployment Law Project, \$25,000; North Helpline – Food Bank Network, \$10,000; Fremont Public Association – RSVP, \$11,589; Crisis Clinic – Info Line, \$60,000; Shoreline Adult Day Health, \$16,693; Work Crew Program, \$85,000; Fremont Public Association – Shoreline Senior Services, \$99,000.

**Council Special Programs - \$559,795/ .5 FTE.** Council restored \$587,239 in Council Special Programs for the 2002 Adopted budget. An additional \$27,444 was supplied to support a .5 FTE responsible for administration of Special Programs.

**Juvenile Justice Operational Master Plan - \$450,000.** Additional funding was earmarked to invest in new services to reduce youth involvement in the juvenile justice system.

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

### **Federal Housing & Community Development**

#### **Significant Program Additions**

**Home Adjustment - \$1,758,442.** This revenue backed addition provides additional funding from the Home Grant for housing projects that serve low and moderate-income households throughout the King County HOME Consortium, comprised of King County and the cities except for Seattle, Medina and Normandy Park. 70 additional housing units can be made available from this funding source at approximately \$25,000 each.

**McKinney Homelessness Assistance Grant - \$53,509.** This addition provides additional funding from the McKinney Homelessness Assistance Grant in 2002 to increase childcare for homeless families and transitional housing for homeless veterans throughout the King County HOME Consortium.

**CDBG Revenue Adjustment - \$542,871.** This addition reflects an increase in the Community Development Block grant entitlement as well as accounting for funds available from program income and recaptured funds. This increase equates to an additional five to ten public improvement or community facility projects (\$50,000 - \$100,000 each).

**THOR/A Housing Planner - \$235,099/ 0.50 TLT.** An existing .50 TLT will be increased to 1.00 TLT to accommodate the staffing/workload need associated with administering homelessness programs. The expanded amount reflects the recent, post submittal, award of additional revenues by the Washington State Department of Trade, Community and Economic Development that are available until 2004.

**Housing Finance Program Portfolio Management - \$31,260/1.00 FTE.** This program change adds a Planner II position to provide property inspections and contract compliance oversight for portfolio projects. This position is added in response to a HUD audit that found King County's inspections of completed housing projects fell short of federal HOME requirements. The addition of the Portfolio Manager position allows the project owners to avoid potential significant liability by ensuring that the critical work, such as correcting inadequate maintenance or substandard housing conditions, is identified and performed. The position will also perform early identification of potential financial shortfalls in Credit Enhancement projects, thereby reducing risk to the County. The entire 1.00 FTE Portfolio Manager position will be home based in FHCD, with half of the full salary and benefit costs supported by FHCD HOME revenues. The other half of this position is supported by the Housing Opportunity Fund.

#### **Technical Adjustments**

**Transfer of HOF Staff to FHCD - 4.50 FTE.** This technical adjustment will home base HOF staff in FHCD. Positions transferred to FHCD will have costs charged to HOF via loan out salary and benefit accounts.

**Loan Out Planner - (\$33,832).** This technical adjustment budgets loan out expenditure to FHCD.

**Staffing Adjustments - (\$19,621)/(.75) FTE.** This technical adjustment is the net result of various position adjustments.

**Central Rate Adjustments - \$ 97,465.** Central rate adjustments include CX Overhead, ITS Infrastructure, Information Resource Management, Debt Service, Long Term Leases and Lease Admin Fee, Finance, Retirement, and COLA.

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

**Housing Opportunity Fund**

**Significant Program Reductions**

**Elimination of Workforce Housing Support - (\$404,376).** This reduction eliminates dedicated Workforce Housing Initiative set-aside funds in the Housing Opportunity Fund (HOF), due to lack of surplus sites suitable for housing as well as the discontinuation of a State Housing Finance Commission program. This change eliminates down payment assistance to first-time buyers with moderate incomes of 80% of median. This direct service reduction will result in a corresponding reduction to the amount of CX transfer to the Housing Opportunity Fund (HOF).

**Reduction in Interest Earnings - (\$125,323).** This reduction reflects the lower amount of interest accruing to the Housing Opportunity Fund associated with declining rates. Interest revenues available to support new housing initiatives in 2002 decreases by \$125,323 or approximately 5 units of low-income housing, valued at \$25,000 per unit.

**Significant Program Additions**

**Risk Reduction Portfolio Management Position - \$30,254.** This program change increases expenditures for loan-in labor and benefits for a .50 FTE Planner II position which will provide property inspections and contract compliance oversight for housing portfolio projects. This position is equally supported by revenue from FHCD's HOME and by HOF; the total cost is listed at \$60,508 and split between the agencies.

**Technical Adjustments**

**Home Base HOF Staff in FHCD Fund - (4.50FTE).** This technical adjustment consolidates all Housing staff in DCHS to Fund 2460. Staff will charge time via loan-in/loan-out to HOF proportionate to work performed.

**Zero Based Contra - \$494,982.** The HOF Budget bottom line is zero based. This action enables the balancing of the fund.

**Central Rate Adjustments - \$4,463.** Central rate adjustments include ITS Infrastructure, Information Resource Management, Long Term Leases and Lease Admin Fee, Retirement, CX Underexpenditure, and COLA.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Veterans Program**

#### **Significant Program Additions**

**Transition Housing for Homeless Veterans - \$28,896.** The Veterans Transitional Housing Project will provide affordable housing for veterans earning under 30% of median income. The program will utilize fund balance to support first year start up costs. Ongoing costs are expected to approximate \$86,688 per year. First year costs will equal three months of expenditure reflecting that the program will not be fully staffed until the beginning of the fourth quarter. Annual costs, including 3% inflation, will be assumed by fund balance in 2003 and 2004. In 2005 and beyond, programs will need to be prioritized and additional funding secured.

#### **Technical Adjustments**

**Increase Security Costs - \$4,272.** This technical addition is related to a COLA increase for security guard positions not budgeted in the Veteran's Program, but loaned in from the Sheriff's Department. A manual adjustment is required in this case because the higher cost of a COLA adjustment in the Security Guard contract would not be automatically seen in the Veteran's Program.

**Increase cost of Department Overhead - \$14,878.** This technical addition reflects DCHS internal department overhead adjustment.

**Increase cost of Division Overhead - \$1,824.** This technical addition reflects DCHS internal division overhead adjustment.

**Contract Increases for Jail Trauma Mental Health Services - \$17,417.** This technical addition reflects an anticipated 2.5% inflationary cost increase for jail services subcontracts provided to veterans with mental health needs.

**Central Rate Adjustments - \$ (229,488).** Central rate adjustments include ITS Infrastructure, Information Resource Management, Telecommunications, Long Term Leases and Lease Admin Fee, Finance, Retirement, CX Underexpenditure and COLA.

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

**HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**Youth Employment (Work Training Program)**

**Significant Program Reductions**

**Eliminate Contract for Education Liaison - (\$53,000).** There is no direct service reduction associated with this administrative reduction; existing staff will absorb the function previously performed by a contractor. This administrative service reduction meets a portion of the Department's CX reduction requirement.

**Technical Adjustments**

**Combined Expenditure Adjustments to Match Revenues - (\$99,531).** This technical adjustment reflects the combined expenditures and revenue adjustments merging several actions into one single item. There is no decrease in WTP programs, only a realignment of client services and staff, with this adjustment. This action also reflects net revenue changes of \$960,833 based on various increased grant awards.

**Reduction in CFSA Transfer - (\$63,060).** The amount of transfer from the Children & Family Set Aside was adjusted to reflect lower revenue projections to the CFSA fund.

**Central Rate Adjustments - \$88,205.** Central rate adjustments include CX Overhead, ITS Infrastructure, Information Resource Management, Debt Service, Long Term Leases and Lease Admin Fee, Finance, Retirement, and COLA.

**Developmental Disabilities**

**Significant Program Additions**

**Transition to Employment Program \$1,155,000 - 3.0 TLT.** This proposal is a five-year project that expands Developmental Disability (DD) services to young adults with developmental disabilities. It will provide individualized pre-employment planning, and employment placement or alternative support to 220 high school graduates in 2002. This service is not currently provided by any agency in King County. This program is funded through a controlled spend-down of undesignated fund balance. There is estimated to be \$5.8 million in ending DD fund balance for 2001. This proposal would spend it down to \$1.3 million by 2006. In 2002, requested project funding will support direct client services through individual allocations that average \$5,000 per enrolled transition client. It will also fund 2.0 TLT Counselor Caseworker for project monitoring, coordination and evaluation and a 1.0 TLT Accountant.

**Technical Adjustments**

**Housing Technical Assistance Specialist - .75 FTE.** The proposal moves to Developmental Disabilities a .5 FTE Technical Assistance Specialist II from FHCD and increases the FTE authority by .75 FTE. This position will be funded by providing services that were previously contracted out. This position will continue to focus on housing relocation issues, but with a focus on adults with developmental disabilities. This service is currently not provided by any organization in King County

**Telecom Rate Adjustment - (\$3,642).** This technical change corrects the inadvertent double count of a central rate during PSQ.

**Central Rate Adjustments - (\$281,668).** Central rate adjustments totaling \$281,668 were taken in areas of flex benefits, CX overhead, ITS, finance, telecommunications, insurance, COLA adjustments and lease rates.

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

**HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**MHCADS – Mental Health Services Fund**

**Significant Program Changes**

**Transfer Psychiatric Evaluation Specialists from Department of Adult and Juvenile Detention - \$942,847/ 13.00 FTE.** Transfers 13.00 FTE psychiatric evaluation specialists from the Department of Adult & Juvenile Detention (DAJD) to the Mental Health Division. This function will continue to be supported by DAJD revenue.

**Technical Adjustments**

**Entity Services - \$8,384,680.** The State of Washington is phasing in a six-year reduction in funding of mental health programs. In order to mitigate the reduction, the MH division is spending down one-time mental health reserves to bridge the first full year of cuts and to prevent dramatic, sudden and unplanned reductions to outpatient services in King County. The entity services budget is increased by the same amounts that are decreased in County managed services. This action represents influx of revenue from reserve balances.

**County Managed Services - (\$1,255,730)(1.00 FTE)/1.00 TLT.** This adjustment is not a service reduction, but reflects a contracting change between the State and King County. In March of 2001, United Behavioral Health began contracting directly with community agencies for the provision of these services instead of going through the Mental Health division. In addition, 1.0 FTE mental health professional is eliminated. Two half-time administrative term-limited temporary positions being added for a total increase of 1.00 TLT.

**Administration - (\$1,998,416/ 1.00 TLT).** This item reflects expenditure adjustments to Entity Services as King County moves from an administrative contract to a risk basis contract with United Behavioral Health (UBH). The UBH budget for administration and direct services is no longer identified separately from the dollars allotted for services and administration costs for the community mental health provider agencies.

**Reverse Telecom Double Count - (\$36,111).** This technical change corrects the inadvertent double count of a central rate during PSQ.

**Central Rate Adjustments - (\$347,988).** Central rate adjustments include CX Overhead, ITS Infrastructure, Information Resource Management, Telecommunications Services, Motor Pool, Prosecuting Attorney, Debt Service, Long Term Leases & Lease Admin Fee, Finance, Retirement, and COLA.

<b>Code/Item #</b>	<b>Description</b>	<b>0960</b>	<b>Expenditures</b>	<b>FTEs*</b>	<b>TLPs</b>
--------------------	--------------------	-------------	---------------------	--------------	-------------

PROVIDED FURTHER THAT:

The executive shall submit to the council by May 1, 2002, an Adult Justice Operational Master Plan that includes recommendations for more effective use of treatment resources to reduce unnecessary jail use. The plan shall include recommendations regarding the use and continued operations of Cedar Hills Addiction Treatment Facility and North Rehabilitation Facility programs and facilities including contracting with other counties and cities for services at these facilities or alternatives to these programs and facilities which provide equal or greater prevention, intervention, treatment and training based on scope of services and client-to-staff ratio. The plan required by this proviso must be filed with the council clerk. The original and 15 copies must be delivered to the clerk, who will retain the original and will forward copies to each councilmember and to the lead staff for the law, justice and human services committee, or its successor.

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

### MHCADS – Alcoholism and Substance Abuse Services Fund

#### Significant Program Additions

**Cedar Hills Staffing Increase - \$176,032/ 4.00 FTE.** This action adds four 1.0 FTE positions at Cedar Hills: two Residential Assistants, an Administrative Specialist I, and a Chemical Dependency Counselor. These positions are added in anticipation of new beds expected via contract negotiations.

**Grant Awards - \$98,892/2.00 TLT.** This revenue backed addition combines multiple grant awards for low-income individuals in public housing and homeless individuals in need of substance abuse treatment services.

#### Program Changes

**Administration - \$ 272,835.** This change reflects the updating of the division's administrative cost allocation model. This expense is an increase of administrative expenses shifting to the Substance Abuse Fund based on time administrative staff spend working on Substance Abuse issues.

**Crisis & Commitment Monitoring & TASC Grant - \$979,224/1.00 TLT.** This program change reflects the consolidation of two formerly separate programs now integrated and sharing staff between the two programs. The Crisis & Commitment Monitoring (CCM) function includes O&M for rent and legal costs previously not attributable to the program. The TASC grant is a State supported grant which provides transition services to individuals in the felony and family courts who are assessed to have substance abuse or dependency treatment needs with the goal of better outcomes in the treatment and legal systems. The TASC item adds a 1.00 TLT position to backfill the full-time position of a permanent County employee who will be reassigned from the CCM function to the grant supported function for the duration of the grant. Formerly the State contracted directly with a community agency to provide the transition and treatment services. Under the grant terms, the County will provide a staff person who is a liaison between the TASC agency and the courts.

**Transportation & Triage, Sobering, Assessment Center - \$78,133.** This item represents a reallocation of Mental Health and Substance Abuse Division administrative costs to the O&M budgets of the Transportation and Triage/Sobering Center program and the Assessment Center.

**Contracts & Public Health Revisions - (\$1,269,456).** This item reflects a correction to expenditure levels for two ongoing grants. Expenditure levels for CSAT Methadone and the CSAT Enhancement of Treatment Services for Targeted Youth have been adjusted downward. This action also reflects an increase the contract with Public Health for chronic public inebriate and nursing care case management supported by City of Seattle General Funds.

#### Technical Adjustments

**Reverse Telecom Double Count - (\$52,222).** This technical change corrects the inadvertent double count of a central rate during PSQ.

**Central Rate Adjustments - (\$117,829).** Central rate adjustments include CX Overhead, ITS Infrastructure, Information Resource Management, Debt Service, Long Term Leases and Lease Admin Fee, DCFM Space Charge, Insurance Charges, Finance, Retirement, and COLA.

WORKLOAD / PERFORMANCE INDICATORS			
	2000	2001	2002

### **Children & Family Set Aside Fund**

#### **Technical Adjustments**

**Adjust Expenditure-Work Training - \$147,937.** This adjustment corrects expenditure levels to Work Training fund.

**Net Expenditure Adjustment - Public Health - \$7.** This net adjustment removes one-time 2001 funds and adds an expenditure to support community oral health programs in the Public Health Department.

**Adjust Expenditures Community Services Division - (\$63,080).** This adjustment corrects expenditure levels to match revenues in the fund.

**Central Rate Adjustments - \$449.** Central rate adjustment reflects an increase in Finance rates.

**PUBLIC HEALTH**

**ISSUES AND PRIORITIES**

**Mission  
Public Health  
Seattle & King County**  
Provide public health services that promote health and prevent disease to King County residents in order to achieve and sustain healthy people and healthy communities.

Public Health-Seattle/King County (PH) is responsible for overseeing population-based health matters in King County and the City of Seattle. It is the mission of Public Health to provide public health services that promote health and prevent disease to King County residents in order to achieve and sustain healthy people and healthy communities. By preventing the high societal costs that come from epidemics, polluted water systems and other health risks, the public health system saves resources in health care and social costs.

The 2002 Executive Proposed Budget for PH has been developed around the Washington Administrative Code (WAC) 246-05, the Interlocal Agreement between King County and the City of Seattle

and Public Health's Business Plan. Each of these documents has provided guidance to Public Health as it developed and prioritized the 2002 budget.

The 2002 Executive Proposed Budget for Public Health preserves Current Expense funding for services listed as critical under the guiding Washington Administrative Code. There are 11 health services categorized as critical based on the WAC. They are Health Education/Promotion, MCH (Maternal Child Health)/AIDS Center, Family Planning/Family Planning Health Education, Immunizations, Women, Infants and Children, Food Protection, AIDS Prevention/ Education Contracts, Family Planning CSO, Clinic HIV/AIDS, and Day Care Screening. Beginning in 2002, Seattle General Fund dollars previously allocated to those 11 critical Public Health programs will begin to be replaced with countywide funding. The 2002 Proposed Budget replaces General Fund in the Women, Infants and Children (WIC) projects with other revenue from project 921, which saw a one-time expenditure in 2001 for the Clark lawsuit settlement. Declining CX revenue requires Public Health to search for other revenue streams to support its non-critical services. The 2002 Proposed Budget demonstrates the success of Public Health in pursuing alternative revenue sources.

**Funding Critical Services Countywide.** Declining CX revenues have compelled Public Health to prioritize 2002 CX funds to those services established as critical services. Guided by the service category definitions contained within the WAC, service levels of the eleven projects categorized as critical Public Health services received the highest priority for Countywide funding. No service reductions are proposed to those critical projects. In order to preserve Current Expense funding for critical services such as the TB program, the Medical Examiner's Office, Immunization program, the 2002 Proposed Budget begins to make reductions to enhanced category programs formerly supported by CX. In 2002, Public Health will begin to phase out CX funding for Community Clinics. All CX funding for community clinics will be eliminated in 2003.

**Increasing Grant Funds and Patient Generated Revenue.** Public Health actively seeks grant funding to support its activities and the 2002 Proposed Budget reflects those efforts. New and expanded grant funded programs are seen in Environmental Health, Chronic Disease and Healthy Aging, Tobacco Prevention, Vaccine Inventory, TB Program, Communicable Disease/Epidemiology and Parent Child Health. In order to support the increasing number of grants, Public Health will add infrastructure staff to sustain the growing work of maintaining, managing and expanding the 44 grants in the Public Health fund.

Public Health is projecting significant increases in some of its revenue sources in 2002, including patient generated revenue. Patient generated revenue increases are due in part to planned increases in levels of service that will be obtained by the staffing model changes that are reflected in the 2002 Executive Proposed Budget. Public Health's Signature System, the integrated scheduling, registration and billing software information system, is part of the overall effort to increase services and the revenue derived from those services.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**Changing Environmental Health Fees.** The 2002 Executive Proposed Budget increases Food and Living Environment Fees based on inflation. Public Health will increase Living Environment fees by 16.7 % and increase Food Regulatory fees by 16%. The last time Living Environment Fees were adjusted was 1994. The Food program fees were adjusted in 2000. The Food Regulatory fee change reflects the expectation that regulatory costs are shared by the industry being regulated.

**Maintaining Jail Health Services.** Maintaining accreditation by the National Commission on Correctional Health Care (NCCHC) is a priority for King County. The 2002 Proposed Budget includes an increase to Public Health/Jail Health Services for staffing and operational expenses that enables Public Health to maintain accreditation.

**Restructuring North Rehabilitation Facility.** The 2002 Executive Proposed Budget includes a reduction for operational and staffing expenses for the North Rehabilitation Facility (NRF). A staffing and service model for NRF has been designed in conjunction with the Department of Adult and Juvenile Detention and the Adult and Juvenile Justice Master Plan, reducing the number of inmates served by 100 in 2002.

**Supporting Emergency Medical Services Levy.** The 2002 Executive Proposed budget for Emergency Medical Services (EMS) incorporates the final recommendations of the Strategic Plan Update as drafted by the Emergency Medical Service Task Force. The Strategic Plan Update was passed by motion by the King County Council in 2001. The Task Force is comprised of elected representatives and appointees from cities and unincorporated areas across the King County region. The Task Force reviewed numerous potential funding options that could provide consensus based long-term financial support for future funding and operational plans. The Task Force recommended a six-year dedicated property tax levy for Advanced Life Support, Basic Life Support and Regional Services. The levy is proposed to be .25 cents or less per \$1,000 of assessed value for the period 2002-2007. The levy requires voter approval and will appear on the November 2001 Ballot. The proposed levy will support a system of integrated emergency medical response services considered among the highest rated in the nation.

**Decontaminating Illegal Drug Labs.** The 2002 Proposed Budget reflects the creation of a regional Illegal Drug Lab Abatement Fund as a subfund of the Local Hazardous Waste fund. This initiative will allow Public Health to meet the increasing demand for responses to illegal drug laboratories in King County. The Revised Code of Washington (RCW) 64.44 delegates specific authority to Public Health in responding to illegal drug labs that no other agency or organization has. Public Health assesses contamination levels, warns the public of hazards and oversees decontamination of illegal drug labs. Public Health and building departments have joint and overlapping jurisdiction on the abatement of housing determined to be "unfit for use" due to illegal drug manufacturing. Following criminal investigations and arrests by Public Safety departments, and the removal of hazardous materials containers by Haz Mat Teams, Public Health assesses residual contamination levels, warns the public of hazards and oversees decontamination. When property owners abandon property or fail to abate chemical hazards as ordered by Public Health enforcement actions, County and local building department jurisdictions have had to assume the costs of abating the hazard, and place a lien on the property to eventually recover abatement costs. This mechanism has proved cumbersome for building departments, and is largely an unfunded obligation that they have attempted to assume within existing budgets. This fund enables Public Health to carryout its RCW mandate with a fund that supports directly abating properties contaminated by illegal drug manufacturing and abandoned by the property owner.

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

Proviso(s):

PROVIDED THAT:

Of this appropriation, \$368,255 shall be expended solely to provide partial, one-time restoration of community clinic funding that can no longer be maintained at its historic level due to the loss of sales tax and other revenues because of annexation and incorporation. It is the intent of the council, if possible, in future years to continue to provide a base level of funding commensurate with the county's local role of helping to provide access to care for unincorporated residents who are low-income and not covered by insurance.

PROVIDED FURTHER THAT:

The department of public health shall submit a report to the council analyzing the county's regulatory policy on emerging and alternative technologies in on-site septic systems. The report shall examine the degree to which the county's regulatory policy and practices are consistent with the state's approval of such technologies and the reasons for any policy inconsistencies in practice or policy. The original report and 15 copies must be delivered to the council clerk, who will retain the original and will forward copies to each councilmember and to the lead staff of the growth management & unincorporated areas committee or its successor. Of this appropriation, \$100,000 shall not be encumbered or expended until such report is transmitted to the council clerk.

PROVIDED FURTHER THAT:

Of this appropriation, \$565,090 may be expended or encumbered only to the extent that the board of health imposes fee adjustments to yield such additional revenue.

***Program Highlights***

**CX Target Reductions**

**Significant Program Reductions**

**Community Based Oral Health Services - (\$206,422 CX /2.50 FTE).** Community based oral health (also called “Field Dental”) services in King County will be supported by non-CX revenues in 2002, as Field Dental is classified as an enhanced service. There will be no direct service reduction associated with this change as it will be offset by a grant from Children and Family Set Aside Fund (CFSA) through 2003. CFSA will receive increased revenue through parking garage fees in 2002 and 2003, which will support this important service to King County children. Consequently, off site services provided to elementary school children in the form of sealants will continue.

**Revenue in Lieu of Reduction- CX Reduction to Environmental Health - (\$180,000).** \$180,000 of CX support will be eliminated from Environmental Health Services (EHS) and be replaced by fee revenue. EHS will levy a surcharge fee on sewage sludge disposal per gallon of sludge disposed at the County facility. The fee revenue will replace eliminated CX. There will be no loss of services to EHS due to this reduction of CX.

**Reduce CX Transfer to County Community Health Centers - (\$736,510).** The 2002 Executive Proposed Budget for Public Health categorizes services as critical or enhanced as guided by the Washington Administrative Code. There are eleven health services categorized as critical based on the WAC. Current Expense funding of Community Health Centers is categorized as enhanced. This reduction lowers the level of Current Expense funding provided to non-profit community clinic agencies via contract. \$663,946 in CX funding remains in the 2002 Proposed Budget on a one-time basis to provide a transition period to the clinics as they adjust to the eventual elimination of CX funding in 2003. It is anticipated that community clinics may find relief from this reduction by seeking revenue from other sources such as private foundations and the United Way. Additionally, Community Clinics may choose to avail themselves of additional funding via the Medicaid Family Planning Waiver.

**School Linked Health Centers Program - (\$35,000/. 50 FTE).** The reduction of CX for the School Linked Health Centers Program in 2002 is due to increased participation of Public Health’s community partners and does not reduce services to the community. This proposal allows the partnership of Public Health and its community providers to continue operating the Highline and Renton school-linked health centers. This proposal reduces a 1.0 Public Health Nurse (PHN) to .50 at the Renton site, which is operated by Group Health. The PHN, which is an employee of Public Health, provides clinical services in the health center and outreach and education within the Renton School District. Under the reduction, the PHN will focus primarily on clinical service. Group Health, Renton Area Youth and Family Services, and the south region Public Health Educator will assume portions of the school and community based outreach. All other reductions reflect shifting costs from Public Health to the community partners.

**Parenting for Prevention - (\$21,671CX).** There is mild direct service impact with this proposed reduction of parenting for prevention services available in King County. There will be fewer classes offered on adolescent communication skills, recognizing early indications of substance abuse and other skills building courses offered. Public Health states that the direct service impact is mitigated, as there have been vacancies in the program over the last year, which reduced the number of participants.

**Other Reductions**

**Environmental Health Permit Based Volume Changes - (\$329,215/2.81FTE).** This reduction reflects anticipated changes in the volume of requested services. Volume estimates are based on the analysis of current and historical trends, population forecasts, and regulatory changes. Service polices are unaffected by this proposed reduction which mirrors an anticipated reduction in the demand for Wastewater Disposal and Drinking Water as well as Plumbing Gas/Piping services.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**Chronic Disease Prevention & Healthy Aging - (\$40,460).** Public Health's budget for Chronic Disease and Healthy Aging is a \$230,000 net increase over 2001 Adopted Budget. This proposed reduction represents a decrease of one-time support for a City of Seattle funded prostate cancer literature review and assessment of public health messages.

**Staff Reductions – Medical Examiner - (\$148,223/2.00 FTE).** The total net reduction proposed in the Medical Examiner's Office budget is (\$8,449). The \$148,223 reduction will neither reduce the number of autopsies performed nor change the number of death investigations performed for sudden and unexpected deaths in King County. This proposal will reduce regular and temporary positions that provide technical support duties within the Medical Examiner's Office.

**Tobacco Prevention Technical and Program Reductions - (\$41,308).** This reduction affects the public awareness/advertising component of the Tobacco Prevention Program. A decrease in tobacco prevention education materials and fewer numbers of health fairs attended by PH staff is mitigated by a statewide media campaign implemented by the Washington State Department of Health.

**Grant Funded Project Ending - Project 831 - (\$93,281/. 50 FTE).** The Federal grant (SAMHSA) to Public Health is ending. The grant supported adapting parenting curriculum to ethnic communities. The community served was aware that this was a time-limited grant with a specific purpose.

**EPE Core Reduction - (\$88,354/. 95 FTE).** This proposed reduction reflects the relocating of staff into grant-funded projects. Though this is a decrease, Public Health's budget for Core Community Assessment shows a \$104,833 net increase over the 2001 Adopted Budget. The Department states that the primary effect of this reduction is that there will be fewer health reports produced as staff are now allocated to working on different projects.

**TB Department Target Reductions - (\$23,279/. 20 FTE).** This reduction adjusts the budget and FTEs to reflect existing staffing patterns. There is no service reduction associated with this adjustment, as the incumbent currently works .80 FTE.

**North Rehabilitation Facility - (\$856,385/16.50 FTE).** Detention, treatment, rehabilitative and preventative services will be provided to 100 fewer incarcerated offenders with this reduction.

**PCH Information & Education - (\$170,323/. 25 FTE).** There is no direct service reduction with this administrative adjustment. This administrative realignment intended to maximize resources and efficiency. The changes to expenditure are related to combining several projects (Infant Mortality, and Early Intervention Services) into one project with Medicaid Outreach.

**CHILD Profile Program Adjustments - (\$232,122/. 50 FTE).** There is no direct service reduction associated with this adjustment that aligns expenditures with revenue forecasts. The proposed reductions reflect administrative efficiencies made to the program.

### **Significant Program Additions**

Public Health is requesting \$12,135,435 in non-CX revenue backed adds with its 2002 Executive Proposed Budget. Due to the significant amount of revenue backed adds requested by Public Health (66) in its 2002 request, major themes and notable issues of the adds will be identified; each revenue backed request will not be detailed.

The additions proposed by Public Health fall into two categories: the redistribution of existing revenues to new or expanded activities; or the increase of funds, both grant and non-grant. Many of Public Health's proposed additions involve the redistribution of revenues to fund new or expanded services or programs. The significant program additions are in alignment with its business plan and core services.

**Best Beginnings Nurse Family Partnership Expansion - \$522,203/5.7 FTE.** The Best Beginnings/Nurse Family Partnership is an intensive PHN home visit program targeting low-income women pregnant with their first baby. 150 low-income young women, up to the age of 24, who live in Auburn, Kent, or Renton or who have been referred by the University of Washington Physicians will be served. Several programs in the Department of Community and Human Services are active

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

partners, referring clients to the program. There will also be active outreach activities to the entire juvenile justice sector.

**Family Support Services - \$322,638/8.42 FTE.** This item increases staff and resources in Public Health sites that serve populations with the greatest unmet need in Medicaid insured populations. The Family Support program provides assessment, education and skills building to support pregnant women and families with children so that the impacts of health problems are minimized.

**Public Health Nursing Increase - \$281,997/3.25 TLT.** Decreases to Public Health's central rates to enables this addition of 3.25 TLT Public Health Nurses (PHN). The additional staff will serve low-income, high-risk families, providing expanded case management services.

**Seattle Reserve for Enhancements - \$668,160/. 25 FTE.** This item is the reprogramming of Seattle General Fund dollars to enhanced Public Health services in the City of Seattle. This action is in accordance with the City and County Interlocal agreement and reflects the King County Council approved plan per the Interlocal/Joint Executive Committee agreement.

**Public Health Information Systems-Signature/FSI Support - \$725,881/.75 FTE/ (.83 TLP).** This addition supports the ongoing maintenance of Public Health's information and billing system, Signature. FSI is the pharmacy component of the information system. This increase provides for the updating of the contractual agreement with the service providers of Signature and FSI and costs associated with linking stand alone immunization tracking and Public Health Nurse referral systems to Signature. It also provides for the implementation costs for the pharmacy inventory module to FSI. This item also includes the cost of a consultant who will review Public Health's readiness to meet the requirements of the Health Insurance Portability and Accountability Act (HIPAA) prior to PH going forward with other components of technology improvements.

**Environmental Health Services Additions - Site Hazard Assessments – \$295,584/(2.0FTE).** This addition is the result of increased funding through an existing grant from the Washington State Department of Ecology. This funding will provide for work relating to arsenic contamination on Vashon Island and mainland King County.

**Jail Health Accreditation - \$700,000/10.29 FTE.** This CX funded addition annualizes the Supplemental Budget Ordinance adopted by the King County Council in August 2001. This addition realigns staffs for more effective, efficient provision of services to inmates and supports Jail Health in maintaining its National Commission on Correctional Health Care accreditation.

**Site Management and Clerical Support - \$1,179,539/22.62 FTE.** This addition reflects revenue backed staffing and operational costs to execute an updated service delivery model. This addition enables reorganized provider support processes, including phone answering, appointment making, check-in and registration, charge entry and billing to obtain maximum reimbursement for services provided. This staffing model is within the standard means provided by the Medical Group Management Association.

**Health Resources and Services Administration (HRSA) Kids Get Care Grant - \$961,326/075 FTE.** This item reflects the award of HRSA grant funding to Public Health. The objective of Kids Get Care (KGC) is to ensure that all children, regardless of insurance status, receive a basic level of health care services that includes physical, oral and developmental health through attachment to a health care home. Public Health will accomplish this by developing three hub sites in communities with high concentrations of uninsured and underinsured children and by linking children to the hub sites through established community-based organizations. Additionally, KGC will train a range of health care providers and staff in community based organizations on how to screen for important health care indicators, including: physical, oral and developmental health

### **Technical Adjustments**

The 2002 Proposed Budget reflects a net increase of \$74,684, 1.59 FTE, .41 TLT in 50 technical adjustments. These adjustments reflect a variety of actions such as the consolidation of programs, more closely aligning revenues with expenditures, and the amendment of contracts with third party

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

entities. The conversion of TLT positions to FTE positions is also reflected in the net technical adjustment figures. As with significant program additions above, major themes and notable issues of the adjustments will be identified; each technical adjustment will not be detailed.

**Public Health Salary Adjustments Since PSQ – \$378,891.** This item adjusts salaries for certain positions in Public Health that have changed since PSQ, reflecting reclassifications and new hires.

**Technical Adjustments for Balancing – (\$414,757/1.19 FTE)/1.74 TLT.** This technical adjustment is comprised of Public Health's realignment of overhead costs across all programs in Public Health as well as salary adjustments from position reclassifications and the abrogation of vacant positions.

**STD Technical Adjustments - \$158,639 (1.01 FTE).** The Sexually Transmitted Disease (STD) program will be reorganized in 2002 to better reflect the specific lines of business within STD. This action brings into line patient generated revenues in the STD program.

**Family Health Program Adjustments – (\$435,875)/1.22 FTE.** This adjustment includes technical adjustments at all sites where the Family Health Program is located, reflecting both increases and decreases to expenditures and a modest program expansion at the Eastgate Clinic. The changes for 2002 include adjustments to pharmaceuticals, medical supplies, and contracted laboratory expenses that reflect continued operational efficiencies and re-negotiated contracts with vendors; realignment of individual staff whose work has shifted across program budgets in the past year; and adjustments to clerical support staffing to achieve a ratio of 1.0 FTE clerk per 1.0 FTE medical provider. At Eastgate, the Family Health Program will add 0.3 FTE medical provider staff in response to increasing demand for pediatric health services. With these adjustments, Public Health projects to provide 41,359 Family Health visits in 2002, compared to 40,697 in 2001.

**Central Rates – (\$717,621).** Central rates reflect charges for financial services, telecommunications, and prosecutor services, ITS services, leases, major maintenance repair/reserve and general government.

**[Link to Public Health Financial Plan, 9 KB .pdf](#)**

### *COUNCIL ADOPTED BUDGET*

***Community Clinics - \$368,258.*** Council restored \$368,258 of CX funds to Public Health for the 2002 Adopted budget. This one time funding will provide support to non-profit community based clinics.

## Emergency Medical Services (EMS) 1190/0830

Code/Item #	Description	0830	Expenditures	FTEs*	TLPs
-------------	-------------	------	--------------	-------	------

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

## HEALTH & HUMAN SERVICES PROGRAM PLAN

---

### **Emergency Medical Services**

#### **Significant Program Additions**

**EMS Regional Services Efficiencies - (\$193,711)/(0.50).** This reduction reflects a decrease to multiple administrative accounts and includes the elimination of a .50 Office Tech I position. These efficiencies will not result in service levels changes to King County residents.

#### **Significant Program Additions**

**Change in ALS Expenditures - \$2,909,758.** This addition funds one complete paramedic unit to provide Advanced Life Support (ALS) services to South King County per the EMS Strategic Plan Update approved by the King County Council in July of 2001. Revenue to support this initiative assumes voters will approve the EMS levy in the November 2001 General Election.

**Basic Life Support Services Contract Adjustment - \$248,340.** King County EMS contracts with 35 fire departments/districts to provide basic life support services to King County residents. This item reflects a 3% increase to Basic Life Support (BLS) contracts based on the local consumer price index (CPI).

**Injury Prevention Program - \$12,000.** Funds from the 2002-2007 levy will be used support this addition. The Injury Prevention program promotes prevention strategies to the elderly to reduce the number of bodily injuries incurred as a result of slips and falls in daily activities.

**South King County Paramedic Consortium Study - \$15,467/ 0.15 TLT.** This addition enables temporary staff to conduct a one-time feasibility study of paramedic services provided by South King County fire departments. The study is similar to the 2001 study of Northeast King County and will determine the feasibility of having a consortium of cities provide paramedic services.

**King County Medic One Adjustments - \$1,158,539/1.00 FTE.** This initiative represents a variety of changes to King County Medic One's South King County Provider Group. Adjustments include the transfer of a 1.00 FTE Training Supervisor from EMS Regional Services to King County Medic One; the transfer of overhead costs to King County Medic One from EMS Regional Services consistent with other paramedic service provider practices and reflective of the EMS Strategic Plan Update; and, stipends and tuition for two paramedic trainees at Harborview Hospital.

**Black Diamond Manufactured Home - \$78,138.** This addition reflects the cost of purchasing a manufactured home to be used as on-duty paramedic living quarters. The quarters will be sited on existing leased space for the southeast King County Medic One unit and is supported by fund balance.

**Paramedic Vehicles - \$8,454.** This item reflects the cost of inflation for two paramedic vehicles funded in 2001.

**Electrical Technician-King County Medic One - \$7,868/ 0.75 FTE.** This item reflects the addition of a .75 FTE electrical technician position to perform routine and emergent repair of medic unit apparatus electronic parts and systems.

**Bellevue ALS - \$682,456.** This addition represents an increase for paramedic services provided by Bellevue Advanced Life Support (ALS) provider to the level specified in the contract for 2002 services.

**Administrative Adjustments - \$31,313 (0.65TLT).** This addition reflects the elimination of a .65 TLT planning position in Administration and the transfer of a Financial Officer position from Administration to Planning and Evaluation.

**Labor Settlement Contingency - \$502,000.** This addition reflects the estimated additional expenditure authority needed for anticipated contract settlements.

#### **Technical Changes**

**EMS Position Transfers to Public Health - (\$525,780) (3.00 FTE).** This technical change represents the reclassification and transfer of positions from EMS Training to King County Medic One and to the Public Health Division.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**Re-Class of FTE - (\$2,179).** This is a technical change that re-classes an Administrative Assistant IV to an Administrative Services Officer III based on an OHRM evaluation of position duties and responsibilities. There are no direct service impacts.

**Planning and Evaluation - \$70,000.** This technical change represents additional costs to support the Regional Data Collection Project (RDC). The RDC is countywide system that electronically collects and distributes data from Medical Incident Reports between the County's thirty-five separate service providers.

**Community Programs & Education for Strategy Initiatives - (\$6,463).** This technical adjustment reflects a change to the Advanced Life Support (ALS) Triage and the Telephone Referral Program for non-urgent 911 calls. It includes enhanced training for dispatchers, including electronic web-based training capabilities. No service impact is anticipated due to efficiencies that allow referral of non-urgent EMS responses to other resources.

**Salary Adjustments & Step Increases - \$45,030.** This technical change adjusts salaries and benefits for six administrative, fiscal, and technical staff positions.

**Internal Department Overhead Adjustments - (\$4,323).** This technical adjustment reflects internal Public Health Departmental overhead

**Central Rate Adjustments – (\$243,495).** Central rate adjustments include CX Overhead, ITS Infrastructure & GIS, Information Resource Management, Telecommunications, Motor Pool, Insurance, Prosecuting Attorney Charges, Long Term Leases and Lease Admin Fee, Finance, and COLA.

\* FTEs do not include temporaries and overtime.

\*\* This includes revised 2001 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

**Local Hazardous Waste Program**

**Significant Program Additions**

**Illegal Drug Lab Abatement Fund - \$54,409:** This item reflects the addition of a renewable Illegal Drug Lab Abatement Fund in order to provide a more effective capacity for abating illegal drug labs. Public Health assesses contamination levels, warns the public of hazards and oversees decontamination of illegal drug labs. The Abatement Fund will be constructed as a sub-account of the Local Hazardous Waste Fund and be available for Public Health to decontaminate abandoned illegal drug labs throughout King County, including properties within suburban cities and the City of Seattle. The fund will be used when the following criteria are met:

Public Health is confronted with a non-compliant and unresponsive owner of a property that has been contaminated by illegal drug manufacturing;

Contamination on the property presents significant immediate or long-term risk to the public;

Administrative enforcement options have been exhausted; and

Public Health is authorized by court order (when needed) to implement specific abatement activities, such as: fencing, boarding up a house, or hiring a certified contractor for clean up of the contaminated property.

The Abatement Fund will be renewed through successful recovery of liens for abatement costs on decontaminated properties. Alternatively, the Abatement Fund may be renewed through annual allocations of additional funding to the Abatement Fund via Local Hazardous Waste Management Plan, Management Coordinating Committee, King County Board of Health, and King County Council authorization.

**Central Rate Adjustments - \$9,345.** Central rate adjustments include CX Overhead and Finance rate adjustments.
