### Change of Commodity Reporting and Analysis on Cocoa and Honey

**AGENCY:** Foreign Agricultural Service, USDA.

**ACTION:** Notice of change of commodity reporting and analysis on cocoa and honey.

**SUMMARY:** Beginning with the June, 2000, *Tropical Products: World Markets and Trade* Circular and the November, 2000, *Sugar: World Markets and Trade* Circular, commodity and country analysis and statistical tables for cocoa and honey will be discontinued. This decision is due to declining Foreign Agricultural Service (FAS) budget resources and the need to more strategically target remaining resources in support of the agency's primary mission to facilitate the expansion of export opportunities for U.S.-produced agricultural commodities. The availability of similar production and trade information from other sources was also a factor behind the decision. FAS expects to continue to receive voluntary reporting on cocoa production and trade from an abbreviated number of countries and these will continue to be posted on the FAS Home page upon receipt: <http://www.fas.usda.gov>.

**FOR FURTHER INFORMATION CONTACT:**

Nancy Hirschhorn, Horticultural and Tropical Products Division, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, DC 20250-1049 or telephone at (202) 720-2974.

Issued at Washington, DC, the 24th day of April, 2000.

## DEPARTMENT OF AGRICULTURE

### Forest Service

#### Natural Areas Trails Environmental Impact Statement

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of Intent to Prepare an Environmental Impact Statement.

**SUMMARY:** The Department of Agriculture, Forest Service will prepare an Environmental Impact Statement (EIS) to analyze seven Natural Areas for designation of hiker/equestrian trails on the Shawnee National Forest and to amend the Shawnee National Forest Land and Resource Management Plan (LRMP) to increase trail density standards in Management Area (MA) 5.1.

#### Proposed Federal Action

The proposed Federal action includes:

(1) Designation trails for hiker/equestrian use in or around three natural areas, and allowing construction, reconstruction and maintenance on the trails. The analysis will include four other natural areas although additional specific trail locations are not being proposed in those areas.

(2) Amending the LRMP to increase the Forest Service (FS) system trail density standards in MA 5.1 (Wilderness) from 1-mile of trail per square mile to 2-miles of trail per square mile.

A more specific description follows: Maps of the proposed management action will be made available for viewing and photocopying specific areas of interest at each of the Shawnee National Forest (NF) offices. Electronic viewing is proposed to be available by May 10, 2000 on the Shawnee NF website: [www.fs.fed.us/r9/shawnee](http://www.fs.fed.us/r9/shawnee).

(1) Natural Area Trails—The proposed Federal action includes Forest System trail proposals for hiker/equestrian designation in Jackson Hollow, Double Branch Hole and Lusk Creek (Ecological/Zoological) Natural Areas. Hiker/equestrian trails have already been designated in Garden of the Gods, and LaRue Pine Hills Natural Areas within corridors shown on the Trail Corridor Map attached to the ALRMP of 1992. There are currently no proposed trail locations for Little Grand Canyon, Bulge Hole or the portion of the Lusk Creek Zoological area lying south of the Eddyville-Golconda blacktop.

Based upon a site-specific review of the trail corridors suggested on the Trail Plan Corridor Map in the LRMP 1992 Amendment (ALRMP), designation of hiker/equestrian trails is not possible in

Little Grand Canyon and Bulge Hole Natural Areas for the following reasons: (a) The Trail Map did not recognize the cliff and deep drainages which prohibit the north-south location of a trail in Little Grand Canyon. In addition, annual flooding would make trail construction and maintenance for equestrian use impractical; (b) extremely steep terrain in Bulge Hole makes an equestrian trail proposal expensive and impractical, and (c) there was no evidence of user-created equestrian trail routes in either of these areas prior to closure. There appears to be little or no evidence of equestrian use near the Lusk Creek Zoological Area south of the Eddyville-Golconda blacktop. The Shawnee is proposing no additional trails at this time in that area. Suggestions for the Bulge Hole Ecological Area, the Little Grand Canyon Ecological Area, and the Lusk Creek Zoological (south of the Eddyville-Golconda blacktop) that surface during the scoping process may assist in the development of alternatives.

Within all Natural Areas (Management Area 8.2) equestrian use is restricted to designated Forest Service system trails. Maps of proposed trails can be viewed at each of the Shawnee National Forest offices. A decision to designate hiker/equestrian trails would include future construction, reconstruction and maintenance of the trails using equipment, where appropriate, or by hand.

(2) Amending the ALRMP trail density standards in MA 5.1 (Wilderness) from 1 mile of trail per square mile to 2 miles of trail per square mile. (One square mile is equivalent to 640 acres. Two miles of trail would occupy 1 to 2 acres.) This action would allow the designation of the proposed trails in and around Natural Areas (MA 8.2) in this management area. In addition, at the time of the signing of the ALRMP in 1992, designated Forest Service system trails were within the trail density standards. However, the Forest Plan Trail Corridor Map identifies potential trail corridors that would exceed the trail density standards, if implemented.

Decision to be made are whether or not to:

(1) Designate, construct, reconstruct, maintain equestrian/hiker trails in or around seven natural areas;

(2) Amend the ALRMP to increase trail density standards in MA 5.1 from 1 mile per square mile to 2 miles per square mile; and

(3) The decision to be made includes the Forest Supervisor's approval of site-specific mitigation and/or monitoring standards.
