Foreign Agricultural Service

Title: Request for Vessel Approval.

OMB Control Number: 0551-0008.

Summary of Collection: Title I of the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480, 83rd Congress, as amended) provides for U.S. government financing of sales of U.S. agricultural commodities to recipients (foreign countries or private entities). In accordance with the law, an agreement providing for long-term credit financing is first negotiated with the recipient through diplomatic channels. Within the U.S. government, the Foreign Agricultural Service (FAS) of the Department of Agriculture (USDA) is the agency responsible for administering Public Law 480, Title I ("Title I") agreements. After an agreement has been signed, the recipient applies to FAS for authorization to purchase each commodity provided in the agreement. A purchase authorization is issued which provides for financing of commodity sales by the Commodity Credit Corporation. The recipient then purchases the commodity for delivery at U.S. ports and arranges for ocean transportation. The recipient must send the pertinent terms of all proposed ocean freight contracts, regardless of whether any portion of the ocean freight is financed by CCC, to FAS for review and approval before the vessel is "fixed" (i.e., contracted). FAS will collect information using form CCC-105, "Request for Vessel Approval".

Need and Use of the Information: FAS will collect information on the ocean freight contract. The information is needed to insure that Title I recipient comply with the requirement that U.S.-flag vessels carry 75 percent of the tonnage shipped under this program. The information is used by FAS to ensure that program recipients comply with Public Law 664 (Cargo Preference Act) and the Merchant Marine Act of 1936, as amended. FAS also uses the information to prepare Form CCC-106, "Advice of Vessel Approval," which specifies what part of the ocean freight rate will be financed by the CCC.

Rural Development

Title: 7 CFR 1901-K, "Certificates of Beneficial Ownership and Insured Notes".

OMB Control Number: 0575-0064.

Summary of Collection: This regulation is currently shared by the Rural Housing Service (RHS), Farm Service Agency (FSA), and the Rural Business Service (RBS) and the Rural Utilities Service (RUS), and is administered under the provisions of the Consolidated Farm and Rural Development Act (CONACT) as amended. FSA's Farm Loan Program (FLP) provides supervised credit in the form of loans to family farmers and ranchers to purchase land and finance agricultural production. RHS provides supervised credit in the form of Multi-Family Housing (MFH) loans and Community Facility (CF) loans. The MFH loan program provides eligible persons with rental or cooperative housing pursuant to the Housing Act of 1949. RBS provides supervised credit in the form of direct loans to businesses in rural areas. In the past, these agencies financed the lending activity of their respective insurance funds through the sale of insured notes, insurance contracts, and Certificates of Beneficial Ownership (CBO) to the Federal Financing Bank and the public. Although this practice has been modified significantly and sales to the public of this type no longer occur, the agencies must still service outstanding certificates of beneficial ownership, insurance contracts, and insured notes. Information will be collected, as appropriate, to process the sale of insured notes, assignment of CBO's, death of certificate owners, or the loss, theft, or destruction of a note or CBO. Rural Development (RD) will collect information using form RD 471-7.

Need and Use of the Information: RD will collect information on the name and address of seller; name and address of buyer; date of sale; amount and date of original debt instrument; name of rural development borrower and case number on an as needed basis. Failure by RD to monitor Certificates of Beneficial Ownership (CBO) sales and transfers could possibly lead to noncompliance with statutory intent. The agencies keep information collection requirements to a minimum but must monitor CBO sales and transfer

consistent with sound financial management practices.

Description of Respondents: Individuals or households.

Rural Housing Service

Title: Annual Survey of Housing Conditions for Migrant and Seasonal Farmworkers.

OMB Control Number: 0575-NEW.

Summary of Collection: Migrant and seasonal farmworkers are among the poorest and worst-housed groups in the United States. Only limited information has been collected on farmworker demographics and working conditions, and even less on the housing in which they live. The Rural Housing Service (RHS) plans to conduct a survey to collect data on the housing conditions of farmworkers in the Midwestern and Western migrant streams including types of structures occupied, proportion of households crowded, proportion of households cost burdened, proportion lacking full appliances and sanitary facilities, proportion residing in grower-provided housing, and other characteristics. In combination with a previous study of migrant workers in the East Coast, a national perspective on housing conditions for migrant and seasonal farmworkers will be gained. More detailed information concerning farmworker housing conditions is necessary in order to determine the significant health risks associated with farmworker housing and effectively focus housing resources on the areas of greatest need. The collection of housing data will greatly benefit farmworkers by improving the information available to organizations and federal agencies that address farmworker health and housing needs. The Rural Housing Service will collect information using a survey on Farmworker Housing.

Need and Use of the Information: RHS will collect information on the types of housing occupied by farmworkers, the quality of that housing, its cost, and whether or not overcrowding is prevalent in farmworkers housing. The data collected will be used to improve how farmworker housing and health programs are used so that farmworkers' needs may be better met by the government and private organizations.

Description of Respondents: Individuals or households.

Number of Respondents: 6,000.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 1,500.

SUPPLEMENTARY INFORMATION:

Title: Animal Welfare.

OMB Number: 0579-0092.

Expiration Date of Approval: July 31, 1999.

Type of Request: Extension of approval of an information collection.

Abstract: Regulations and standards have been promulgated under the Animal Welfare Act (the Act) to promote and ensure the humane care and treatment of regulated animals under the Act. Title 9, part 3, subparts B and C, of the Code of Federal Regulations (CFR) address specific care and handling regulations for guinea pigs, hamsters, and rabbits. To enforce the Act and regulations, we need to collect information concerning the transportation of these animals.

The regulations for transporting guinea pigs, hamsters, and rabbits require intermediate handlers and carriers to accept shipping enclosures only if they meet the minimum requirements set forth in § 3.36 of the regulations or if they are accompanied by documentation signed by the consignor verifying that the shipping enclosures comply with the regulations. If guinea pigs, hamsters, or rabbits are transported in cargo space in which the temperature falls below 45 °F (7.2 °C), the regulations specify that the animals must be accompanied by a certificate of acclimation signed by a U.S. Department of Agriculture-accredited veterinarian.

In addition, all shipping enclosures must be marked "Live Animals" and have arrows indicating the correct upright position of the container. Intermediate handlers and carriers of any live animals are required to attempt to contact the consignee at least once every 6 hours upon arrival. Intermediate handlers and carriers must document their attempts to contact the consignor and must maintain that documentation for inspection by Animal and Plant Health Inspection Service (APHIS) personnel.

The above reporting and recordkeeping requirements do not mandate the use of any official government form.

The burden generated by APHIS requirements that all shipping documents be attached to the container has been cleared by the Office of Management and Budget (OMB) under OMB control no. 0579-0036.

The reporting and recordkeeping requirements of 9 CFR, part 3, subparts B & C, are necessary to enforce regulations intended to ensure the
