

**Compiled by the U.S. Department of Energy  
Seattle Regional Office  
From FC Search ® Version 4.0  
Fall 2001**

The following list of foundation funding opportunities was compiled by the Seattle Regional Office, U.S. Department of Energy, from The Foundation Center's Database on CD-ROM FC Search(& Version 4.0. FC Search(r) contains funding information on over 53,000 foundations and corporate giving programs. For more information on these funding opportunities, and the FC Search(V database, go to: <http://www.fdncenter.org/>.

There are thousands of organizations accepting proposals for energy and environmental education projects; this list does not suggest that "the search stops here." Rather, our intent was to present a list of foundations that meet the following 3 criteria: 1) Each organization identifies "energy AND education" or "environmental education" as a specific field of interest; 2) The stated purpose and activities of these organizations align with potential energy and/or environmental education projects; 3) Each organization funds projects nationwide or to specific states within the Seattle Region (AK, AZ, CA, HI, ID, NV, OR, and WA). We hope this snapshot of funding opportunities is useful.

Do you have any foundation program resources that should be added to this list? Please let us know - we'd really appreciate your input on this document. Contact Laurie Brown, DOE, at [laurie.brown@ee.doe.gov](mailto:laurie.brown@ee.doe.gov) or by phone at (206) 553-2158.

**Purpose and Activities:** For more than 100 years, AT&T has steadfastly committed itself to public service and social responsibility. From the beginning, the company has recognized that business interests are entwined with the well being of society. As a result, AT&T has developed an ethic of not just doing well, but doing good. At the heart of corporate citizenship is a set of beliefs. The belief in innovation--in taking risks and trying new approaches. The belief in diversity--that all are richer when embracing their differences and learning from them. The belief in equality--that everyone should have an equal opportunity to achieve success and independence. The belief in human development--that investing in the talents and potential of people is the key to a better society. The belief in involvement--that people working together can

make a difference. In addition to providing cash grants, the company also supports nonprofit organizations through employee volunteerism.
