Data Source: Department of Commerce, U.S. Census Bureau, Foreign Trade Statistics
Warning: FAS totals include all Agricultural Commodities and FAS selected NONAG commodity items.
(*) denotes a country that is a summarization of its component countries.

**** WARNING ****

Users should use cautious interpretation on QUANTITY reports using mixed units of measure. Commodity groups on a value report will reflect a total of all statistics for each commodity in the group in DOLLARS, whereas a QUANTITY line item will show statistics on the greatest number of like units of measure for grouped commodities.
