Protect Medicaid from Administrative Cuts

Dear Colleague:

Please join us in cosponsoring H.R. 5613, "Protecting the Medicaid Safety Net Act of 2008." This legislation would place a temporary one-year moratorium on seven Administration-imposed Medicaid regulations that would make significant cuts to the program over the next five years. These moratoria are scheduled to expire this spring and if these regulations are implemented, they will be particularly damaging for seniors, children, and people with disabilities.

Over the last year, the Administration has issued regulations that will force states to make significant changes to Medicaid. If implemented, these changes will withdraw Federal support for important health services and threaten access to health care for millions of our Nation's most vulnerable citizens. Because special needs children are particularly dependent on Medicaid, they stand to be hurt the most by these rulings.

In December 2007, Congress enacted temporary moratoria on several of the regulations, but these will expire by July 2008. H.R. 5613 would delay the implementation of these regulations for one year, giving Congress time to better evaluate and assess their effects.

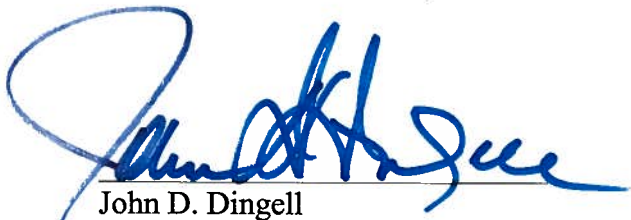

More than 1,700 groups have given support to this legislation (see <http://energycommerce.house.gov>). A recent letter from the American Academy of Pediatrics (AAP) states that "this legislation is an important step towards guaranteeing continued access to services under the Medicaid program for children....It is important to remember that close to 30 million children depend on the Medicaid program."

A similar letter from AARP asserts that "the funding reductions imposed by these regulations do nothing to address the underlying problem[s] in our health care system....The regulations impact goes far beyond reasonable program integrity goals and instead would shift costs for many legitimate and necessary services to states and individuals." Many States will simply be unable to cover this unexpected shift in cost to them and, as a result, the State program will suffer.

The American Hospital Association (AHA) notes that "many of these regulations will have significant negative consequences for the people served by Medicaid, as they limit beneficiary access to services to hospital- and school-based clinics, case management, and immunizations.....The solution to Medicaid's problems is not harsh spending cuts."

These regulations pose a direct threat to Medicaid programs and services, so please join us in supporting legislation to delay its implementation. To become a cosponsor, please contact Hasan Sarsour (hasan.sarsour@mail.house.gov) with the Committee on Energy and Commerce staff at ext. 5-2927 or Brendan Belair (brendan.belair@mail.house.gov) with Representative Tim Murphy's staff at ext. 5-2301.

Sincerely,

John D. Dingell

Tim Murphy
