

**THE ASSISTANT SECRETARY OF THE NAVY**

(RESEARCH, DEVELOPMENT AND ACQUISITION)

1000 NAVY PENTAGON

WASHINGTON DC 20350-1000

**AUG 09 2007**

The Honorable Bart Stupak  
Chairman, Subcommittee on  
Oversight and Investigations  
Committee on Energy and Commerce  
House of Representatives  
Washington, DC 20515-6115

Dear Mr. Chairman:

Thank you for your letter of July 6, 2007, requesting documentation related to the American Superconductor Corporation (AMSC) and a briefing.

We have forwarded your letter to appropriate organizations within the Department of the Navy and are assembling the requested information. Our initial survey indicates that, because of the breadth of your request, many thousands of pages of material may be required. We are working to identify the requested material and will provide an initial delivery of contracts documents before the end of this month. Thereafter, the Department will continue coordination with your Committee staff and provide the requested material and schedule a briefing on the projects and the quality of work performed by AMSC for the Department of the Navy.

A similar reply is being sent to Chairman Dingell. As always, if I can be of further assistance, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Delores M. Etter".

Delores M. Etter
