

Important Information

Changes in “open-card” OHP pharmacy benefits

Starting January 24, 2008, if you are treated for a covered medical condition, the Oregon Health Plan (OHP) will pay for some brand-name over-the-counter medicines, allergy medicines, cold medicines or brand-name vitamins. However, your provider must get permission (prior authorization) from DMAP first. Your provider or pharmacy will have a list of drugs OHP will pay for and they will know what medical conditions OHP covers.
