The Federal Buildings Fund finances the activities of the Public Buildings Service which provides space and services for Federal agencies in a relationship similar to that of landlord and tenant.

The Fund, established in 1975, replaces direct appropriations by using income derived from rent assessments which approximate commercial rates for comparable space and services. Rent and other income to the Fund is as follows:

| [In millions of dollars] | | | |
|---|-------------|-----------|-----------|
| Rental charges | 2003 actual | 2004 est. | 2005 est. |
| | 6,380 | 6,821 | 7,178 |

The Federal Buildings Fund program consists of the following activities financed from rent charges:

Construction and acquisition of facilities.—Space is acquired through the construction or purchase of facilities and prospectus-level extensions to existing buildings. All costs directly attributable to site acquisition, construction, and the full range of design and construction services and management and inspection of construction projects are funded under this activity.

Courthouse program.—Included is approximately \$381 million for courthouse projects. This will fund three projects on the Judiciary's priority list which can be awarded in 2005.

Repairs and alterations.—Repairs and alterations of public buildings as well as associated design and construction services are funded under this activity. Protection of the Government's investment, health and safety of building occupants, transfer of agencies from leased space, and cost effectiveness are the principal criteria used in establishing priorities. Primary consideration is given to repairs to prevent deterioration and damage to buildings, their support systems, and operating equipment. This activity also provides for conversion of existing facilities and non-prospectus extensions.

Installment acquisition payments.—Payments are made for liabilities incurred under purchase contract authority and lease purchase arrangements. The periodic payments cover principal, interest, and other requirements.

Rental of space.—Space is acquired through the leasing of buildings including space occupied by Federal agencies in U.S. Postal Service facilities, 166 million rentable square feet in 2004, and 168 million rentable square feet in 2005.

Building operations.—Services are provided for Government-owned and leased facilities, including cleaning, utilities and fuel, maintenance, miscellaneous services (such as moving, evaluation of new materials and equipment, and field supervision), and general management and administration of all real property related programs including salaries and benefits paid from the Federal Buildings Fund. The following list shows the 2004 and 2005 direct program (estimated square feet and expenses in millions):

Intragovernmental funds—Continued

FEDERAL BUILDINGS FUND—Continued

(INCLUDING TRANSFER OF FUNDS)—Continued

[In millions]

| | 2004 | | 2005 | |
|----------------------------|-------------|----------|-------------|----------|
| | Square feet | Expenses | Square feet | Expenses |
| Cleaning | 150 | 236 | 158 | 250 |

| IT support | 0 | 130 | 0 | 135 |
| International Trade Center | 0 | 4 | 0 | 0 |
| Total | | 1,661 | | 1,710 |

Other programs.—When requested by Federal agencies, the Public Buildings Service provides building services such as tenant alterations, cleaning and other operations, and protection services which are in excess of those services provided under the commercial rental charge. For presentation purposes, the balances of the Unconditional Gifts of Real, Personal, or Other Property trust fund have been combined with the Federal Buildings Fund.

Agency debt.—The following table reflects agency debt outstanding for the construction of federal buildings under authorities previously provided:

lliana af dallawal

This appropriation covers relocation costs involved in moving agencies from valuable underutilized property, targeted for public sale, to facilities determined to be more economically suitable to their needs. Relocation and disposal is considered when the benefit/cost ratio is at least 2:1. The sale of these valuable underutilized properties would provide significant revenue to the Treasury and would far outweigh the relocation costs involved.

No appropriation is requested for this program in 2005. GSA will solicit relocation proposals from agencies.

Auctioneers and brokers familiar with local markets may be used to accelerate the disposal of surplus real and related personal property, including the outleasing of Government-owned buildings and space. Fees of auctioneers, brokers, appraisers, and environmental consultants, surveying costs, costs of advertising and costs of environmental and historical preservation services are paid out of receipts from disposals within each year in accordance with 40 U.S.C. 572. GSA's general provisions include a proposed provision that would encompass additional contractual functions currently performed in-house. They are in the areas of highest and best use of property studies, utilization of property studies and deed compliance inspection. Also included is expenses incurred in a relocation to clarify GSA's authority to recover its initial costs from the sales proceeds.

The expenses of Transportation Audit Contracts and Contract Administration activities are financed from overcharges collected from carriers on transportation bills paid by the Government as a result of post payment audits. In 1986, Public Law 99–627 granted GSA the authority to conduct prepayment audits and to delegate this authority to Federal agencies, upon their request; permanent authority to pay transportation audit contractors from carrier overcharges collected; and authority to transfer net overpayments collected to the Treasury. In 1998, with the passage of the Travel and Transportation Act, the prepayment audit of transportation bills became mandatory. The Act's changes were fully implemented in October 2000.

In FY 2003 \$13 million of carrier overcharges were collected, and \$1 million was returned to the U.S. Treasury, resulting in net receipts of \$12 million.

The General Supply Fund (GSF) finances certain activities within the Federal Supply Service (FSS) and the Federal Technology Service (FTS). FSS offers Federal agencies an extensive range of commercial services and more than 4 million commercial products. To provide total solutions for customers FSS acquisition and service delivery activities are organized around five business lines: Global Supply, Commercial Acquisition, Personal Property Management, Travel and Transportation and Vehicle Acquisition and Leasing Services. In January 2003, the GSA Administrator established the Office of Professional Services within FTS to manage and direct a new professional services program. This new program provides assistance to Federal agencies in the areas of acquisition management, project management and financial management.

FSS employs world-class business practices to provide customers with economical, efficient, and effective service delivery with significant savings in time and administrative costs. Customers can make best-value choices with different levels of services, with almost all service and product delivery provided by commercial suppliers through more than 10,000 FSS contractors. In fiscal year 2003, FSS' business volume was

\$33.8 billion, and is projected to be \$38.5 billion in fiscal year 2005. FSS operations are largely funded through the GSF with its operating expenses recovered in the prices paid by Federal agencies.

FSS customers are able to choose the level of service and program support that is right for the acquisition of products and services at any given time. More importantly, the government benefits whenever Federal agencies rely upon the procurement and logistics expertise of FSS to help fulfill their supply needs. Benefits accrue from volume purchasing, FSS contracting expertise, and programs that are compliant with federal procurement and socioeconomic policies. FSS promotes commercial buying practices, reduces acquisition time, and under non-mandatory programs, provides agencies opportunities to determine best value—helping them get what they need, when they need it, to do their jobs effectively and focus on core missions.

The Federal Supply Service also plays an important role in expanding electronic government (E-Gov), one of the five key elements of the President's Management Agenda. In supporting this goal the FSS will invest \$22 million and \$9.9 million in 2004 and 2005 respectively in information technology projects within the E-Gov initiative. GSA is the lead agency for three FSS mission-related projects; e-Acquisition, e-Property (Federal Asset Sales), and e-Travel.

In addition, GSA is proposing a new general provision that would amend existing law to permit the Administrator, after consulting with the Office of Management and Budget, to retain and transfer to the Electronic Government Fund not to exceed \$40 million in a fiscal year of surplus generated by the operation of the GSF to provide for governmentwide E-Gov projects for purposes authorized under Section 3604 of title 44.

Global supply.—Quick fulfillment of recurring customer needs for basic business and mission supplies by leveraging best practices in supply chain management programs is the primary objective and focus of the Office of Global Supply. Fulfillment solutions for supplies include electronic and hard copy catalogs, multiple ordering channels, FSS management of billing and paying transactions, order administration, and customer service support. The Global Supply program is fully complementary to the services offered through the Commercial Acquisition Multiple Award Schedules program. More important than providing service solutions, is support of the Government's national defense and other strategic mission responsibilities, as well as its socioeconomic objectives. This business line is funded through prices paid by customer agencies.

Commercial acquisition.—Commercial Acquisition offers Federal agencies millions of commercial products and an extensive range of technology, financial, environmental, management, and administrative services through the Multiple Award Schedules program. Agencies can make best-value choices and purchase directly from commercial suppliers through over 10,000 FSS schedule contracts. In 2004, GSA will receive revenue for Schedules program contract administration in the amount of 0.75 percent of the Schedules business volume. This reduction from the one percent fee that was recovered in 2003 and prior fiscal years will save customer agencies over \$50 million in 2004. Customer agencies are able to purchase over 2.4 million items from the Schedules program through GSA Advantage, an on-line electronic catalog system. In fiscal year 2003, the business volume under the Schedules program was \$27.7 billion.

Personal property management.—FSS' personal property program specializes in government cost avoidance and property sales through comprehensive electronic solutions. Property no longer needed by one Federal agency is entered into an electronic system for screening and use by other Federal agencies, thereby avoiding new procurements. Property with

no further Federal use can be screened electronically by eligible recipients and is offered at no cost to state and local governments and eligible nonprofit groups. Property whose value cannot be extended by reuse or donation is sold to the public, primarily through on-line auctions.

Travel and transportation.—The FSS Travel and Transportation business line helps control the government's direct and administrative costs for travel and transportation services. Travel services include negotiated airline contracts, travel agency, and travel charge card services. Airline City-Pairs contracts will continue to save Federal agencies about 70 percent off the commercial value of each fare. A change to capacity-based fares during fiscal year 2002 will be continued to allow the airline industry to better manage its seat inventory. Transportation services include the shipment of parcels, freight and household goods. The business line also oversees the use of audit contractors to examine the government's air passenger, freight and household goods transportation billings to identify and seek recovery of incorrect billings and overpayments for the federal government. In recent years, Federal travel and transportation budgets have totaled approximately \$24 billion each year. This business line is funded through prices and fees paid by Federal agencies.

Vehicle acquisition and leasing services.—The Vehicle Acquisition and Leasing Services business line provides two distinct services. One service, GSA Automotive, manages the acquisition of vehicles for all Federal agencies through consolidated acquisitions and the Multiple Award Schedules program. By consolidating all their customer requirements, they are able to leverage their buying power to achieve significant discounts. In fiscal year 2003, GSA Automotive contracted for over 58,000 sedans, trucks and other non-tactical vehicles worth more than \$1.2 billion. FSS continues to save customers about 20 percent off the invoice prices listed in the Black Book Lease Guide. This service is funded through prices and fees paid by Federal agencies.

The other service, GSA Fleet, manages a fleet of more than 190,000 vehicles. GSA Fleet provides non-tactical vehicles needed by civilian and military customer agencies with a comprehensive "cradle to grave" leasing program. GSA Fleet handles all aspects of the management of these assets, including vehicle acquisition, maintenance and repairs, accident management, fuel expenses, and resale of the used vehicles. Revenue is generated through monthly and mileage charges. GSA Fleet continues to grow. In 2002 and 2003 over 6,700 vehicles were added by consolidating other Federal fleets.

Professional services.—The Professional Services (PS) business line provides assistance on a cost reimbursable basis in the areas of acquisition management, project management, procurement support and financial management, to assist Federal agencies in acquiring a range of Professional Services via eight specific GSA Multiple Award Schedules. These schedules include: Management, Organization and Business Improvement, Logistics Worldwide, Professional Engineering Services, Environmental Management, Energy Management, Language, Financial and Business Management and Marketing, Media and Public Information.

Intragovernmental funds—Continued

INFORMATION TECHNOLOGY FUND—Continued

Program and Financing (in millions of dollars)—Continued

| Identification code 47–4548–0–4–804 | 2003 actual | 2004 est. | 2005 est. |
|-------------------------------------|-------------|-----------|-----------|
| 90.00 Outlays | -99 | -31 | -1 |

The Fund finances the operations of the Federal Technology Service (FTS) in providing telecommunications and information technology solutions to Federal agencies on a reimbursable basis (fee for service) through four business units:

FTS 2001 long distance.—FTS provides long-distance telecommunications services that offers the Federal Government low-cost, state-of-the-art, integrated voice, data, and video telecommunications. Services are provided through an eight-year multibillion dollar long-distance contract with business partners Sprint, MCI Worldcom, AT&T, Qwest, and IDT-Winstar. Complementing this business unit are specialized services which offer customers the benefits of satellite, wireless, paging, and other services. The cost of Federal long distance services declined from an average of 27 cents per minute in FY 1988 to less than 2 cents per minute in FY 2003. Under the existing contracts prices began at about 4.5 cents per minute and will decrease to less than 1 cent per minute by the end of the contracts' period in FY 2008.

Regional telecommunications services.—The Regional Telecommunications business unit provides national program leadership and delivers voice and data telecommunications services to customers through eleven regional offices. Switched services are currently provided through more than 500 local telecommunications systems, which offer all the features of the most modern systems. FTS Regional Telecommunications contracts deliver substantial price reductions in local telephone markets by taking advantage of increased competition as permitted by the Telecommunications Act of 1996. FTS offers many local service customers the value FTS can provide in dealing with the changing environment, as well as full service support that allows agencies to concentrate on core missions. Regional Telecommunications plans to increase the diversity of its service mix between traditional dial tone services and expanded services.

Regional IT solutions.—Through its regional client support centers, FTS provides Federal agencies with systems definition and design, business and scientific software services, computer security studies and risk analyses, and access to all of FTS' products and services. A large part of the business unit is designed to enable Federal agencies to purchase commercial off-the-shelf information technology software, equipment and non-complex services. It offers Federal agencies products and services, plus the "value-added" technical, acquisition, project management and financial services support.

National IT solutions.—FTS assists Federal agencies on large, complex systems integration efforts, delivering full service management of information technology acquisitions worth more than \$100 million. This program enables agencies to purchase hardware, software, maintenance, training and analyst support, and information systems security services from various industry sources. National IT Solutions develops and deploys innovative new service areas that incorporate the most current technologies and approaches to solving Federal IT problems; for example, implementing financial and administrative systems. This program provides IT based solutions to traditional training challenges for Federal clients worldwide to include distance learning and computer based training and provides a full range of smart card services and outsourcing solutions for IT needs of Federal agencies.

Provides for Government-wide policy development, support, and evaluation functions associated with real and personal property, supplies, vehicles, aircraft, information technology, acquisition, transportation and travel management. This office also provides for the Federal Procurement Data Center, Workplace Initiatives, Regulatory Information Service Center, the Catalog of Federal Domestic Assistance, and the Committee Management Secretariat. The Office of Government-wide Policy, working cooperatively with other agencies, provides the leadership needed to develop and evaluate the implementation of policies designed to achieve the most cost-effective solutions for the delivery of administrative services and sound workplace practices, while reducing regulations and empowering employees.

This appropriation provides agency-wide audit and investigative functions to identify and correct management and administrative deficiencies within GSA, which create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function provides internal audit

and contract audit services. Contract audits provide professional advice to GSA contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. The fiscal year 2005 budget provides for an expanded effort to conduct preaward audits and contract performance assessments of Federal Supply and Federal Technology Government-wide contracts funded by reimbursement of \$2 million each from the General Supply Fund and the Information Technology Fund. Internal audits review and evaluate all facets of GSA operations and programs, test internal control systems, and develop information to improve operating efficiencies and enhance customer services. The investigative function provides for the detection and investigation of improper and illegal activities involving GSA programs, personnel, and operations.

ELECTRONIC GOVERNMENT (E-GOV) FUND

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in support of interagency projects that enable the Federal Government to expand its ability to conduct activities electronically, through the development and implementation of innovative uses of the Internet and other electronic methods, [\$3,000,000] \$5,000,000, to remain available until expended: Provided, That these funds may be transferred to Federal agencies to carry out the purposes of the Fund: Provided further, That this transfer authority shall be in addition to any other transfer authority provided in this Act: Provided further, That such transfers may not be made until 10 days after a proposed spending plan and justification for each project to be undertaken has been submitted to the Committees on Appropriations. (Division F, H.R. 2673, Consolidated Appropriations Bill, FY 2004.)

This program will support interagency "electronic government" or "E-Gov" initiatives, i.e., projects that will use the Internet or other electronic methods to provide individuals, businesses, and other government agencies with simpler and more timely access to Federal information, benefits, services, and business opportunities. The program would also further the Administration's implementation of the Government Paperwork Elimination Act (GPEA) of 1998, which calls upon agencies to provide the public with optional use and acceptance of electronic information, services, and signatures, when practicable. In addition to the \$5 million requested for this appropriation, it is proposed that an additional \$40 million will be made available for this activity from surplus revenues generated in the General Supply Fund. Proposals for funding will be required to meet capital planning guidelines and include adequate documentation to demonstrate a sound business case, attention to security and privacy, and a way to measure performance against planned results. In addition, a small portion of the money could be used for awards to those project management teams that delivered the best product to meet customer needs.

Funds are appropriated in accordance with the Presidential Transition Act of 1963, as amended, to provide for an orderly transfer of executive leadership. These expenses include costs of \$1,000,000 provided for briefing personnel associated with the incoming administration. New appropriations are generally requested in Presidential election years.

The FY 2005 Appropriation language proposes to amend the Presidential Transition Act to permit the expenditure of not to exceed \$1,000,000 for training and briefings for incoming appointees associated with the second term of an incumbent President. Except for the \$1,000,000 provided for briefing personnel associated with the incoming administration, there shall be no expenditure of funds for the provision of services and facilities to such incumbent under this Act, and any funds appropriated for such purposes shall be returned to the general fund of the Treasury.

The Services Acquisition Reform Act of 2003 (SARA), Title XIV of the National Defense Authorization Act for Fiscal Year 2004, authorized the Acquisition Workforce Training Fund to ensure that the Federal acquisition workforce has the business acumen necessary to make effective decisions. The Acquisition Workforce Training Fund is used to develop training to foster a highly qualified workforce vested with the skills and perspectives it needs to function strategically in the changing environment of the 21st century. The fund is managed by the Federal Acquisition Institute at GSA and supports the training of the acquisition workforce of all the executive agencies except the Department of Defense (DOD). The fund is credited with 5% of the fees collected from non-DOD agencies under Government-wide acquisition contracts, multiagency contracts, and multiple-award schedule contracts.

The Federal Citizen Information Center (FCIC) Fund provides for the efficient operation of the FCIC's activities. Under the revolving fund, the FCIC's activities are financed from moneys deposited to the fund, consisting of annual appropriations from the general funds of the Treasury, reimbursements from agencies, fees collected from the public, gifts for undertaking consumer information activities, and other income incident to FCIC activities.

Administrative expenses.—The Federal Citizen Information Center (FCIC) maintains close working relationships with more than 40 Federal departments and agencies to identify, develop, promote, and make accessible to the public Federal consumer information. The FCIC helps these departments and agencies release consumer information collected as a byproduct of their program activities. The FCIC promotes public awareness of this information through publication of the quarterly Consumer Information Catalog, through marketing and media promotions, and through Internet websites located at www.pueblo.gsa.gov, www.info.gov, and www.kids.gov. The FCIC also produces and distributes the Consumer Action Handbook, which provides information to citizens in resolving consumer problems, and it operates a toll-free National Contact Center for responding to citizen inquiries about the Federal Government. FCIC's websites and National Contact Center are part of GSA's evolution into the premier electronic portal through which citizens may access a wide variety of Federal Government information and services. This is a key

element of the Administration's initiative to expand Electronic Government (E-Gov). During FY 2002, GSA created a new Office of Citizen Services and Communications of which FCIC is an important part. As part of this reorganization, FCIC acquired operational responsibility for the FirstGov.gov website. Administrative expenses are funded by the direct appropriation, by fees collected from the public when ordering publications listed in the Catalog, and by revenue received through FCIC's gift authority.

Publications distribution.—The FCIC bills agencies and in turn reimburses the Government Printing Office for the costs of distributing free publications to the public.

This fund provides for management and administration, and centralized internal and external reimbursable administrative support functions.

Centralized administration.—Centralized administrative support services are funded through reimbursable funding from GSA's benefiting accounts and from external sources including small agencies and commissions for services provided. Reimbursable services include administrative, information resources management, financial and management support, legal advice and services, and equal employment opportunity; budgetary policy and liaison activities with Congress and OMB; and management review and oversight of financial management systems. This funding provides liaison with the Small Business Administration on national minority business proposals and contracts to ensure that minority and small businesses receive a fair share of the agency's business. This activity is also responsible for implementation and execution of the functions and duties under sections 8 and 15 of the Small Business Act (P.L. 95-507).

GENERAL PROVISIONS—GENERAL SERVICES ADMINISTRATION

SEC. 401. The appropriate appropriation or fund available to the General Services Administration shall be credited with the cost of operation, protection, maintenance, upkeep, repair, and improvement, included as part of rentals received from Government corporations pursuant to law (40 U.S.C. 129).

SEC. 402. Funds available to the General Services Administration shall be available for the hire of passenger motor vehicles.

SEC. 403. Funds in the Federal Buildings Fund made available for fiscal year [2004] 2005 for Federal Buildings Fund activities may be transferred between such activities only to the extent necessary to meet program requirements: Provided, That notice of any proposed transfers shall be [approved] transmitted in advance [by] to the Committees on Appropriations.

SEC. 404. No funds made available by this Act shall be used to transmit a fiscal year [2005] 2006 request for United States Courthouse construction that: (1) does not meet the design guide standards for construction as established and approved by the General Services Administration, the Judicial Conference of the United States, and the Office of Management and Budget; and (2) does not reflect the priorities of the Judicial Conference of the United States as set out in its approved 5-year construction plan: Provided, That the fiscal year [2005] 2006 request must be accompanied by a standardized courtroom utilization study of each facility to be constructed, replaced, or expanded.

SEC. 405. None of the funds provided in this Act may be used to increase the amount of occupiable square feet, provide cleaning services, security enhancements, or any other service usually provided through the Federal Buildings Fund, to any agency that does not pay the rate per square foot assessment for space and services as determined by the General Services Administration in compliance with the Public Buildings Amendments Act of 1972 (Public Law 92–313)

[Sec. 406. Funds provided to other Government agencies by the Information Technology Fund, General Services Administration, under section 110 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 757) and sections 5124(b) and 5128 of the Clinger-Cohen Act of 1996 (40 U.S.C. 1424(b) and 1428), for performance of pilot information technology projects which have potential for Government-wide benefits and savings, may be repaid to this Fund from any savings actually incurred by these projects or other funding, to the extent feasible.]

SEC. [407] 406. From funds made available under the heading "Federal Buildings Fund, Limitations on Availability of Revenue", claims against the Government of less than \$250,000 arising from direct construction projects and acquisition of buildings may be liquidated from savings effected in other construction projects with prior notification to the Committees on Appropriations.

[Sec. 408. (a) Notwithstanding any other provision of law, the Administrator of General Services is authorized to acquire, under such terms and conditions as he deems to be in the interests of the United States, approximately 27 acres of land, identified as Site 7 and located at 234 Corporate Drive, Pease International Tradeport, Portsmouth, NH 03801, as a site for the public building needs of the Federal Government, and to design and construct upon the site a new Federal Office Building of approximately 98,000 gross square feet: Provided, That the Administrator shall not acquire any property under this subsection until the Administrator determines that the property is in compliance with applicable environmental laws, and that the property is suitable and available for use as a site to house the Federal agencies presently located in the Thomas J. McIntyre Federal Building.

(b) For the site acquisition, design, construction, and relocation, \$11,149,000 shall be available from funds previously provided under the heading "General Services Administration, Real Property Activities, Federal Buildings Fund" in Public Law 108–7 for repairs and alterations to the Thomas J. McIntyre Federal Building in Portsmouth, New Hampshire, which was included in the plan for expenditure of repairs and alterations funds as required by accompanying House Report 108–10.

(c) For any additional costs of construction, management and inspection of the new facility to house the Federal agencies relocated from the McIntyre Federal Office Building, and for the costs of relocating the Federal agencies occupying the McIntyre Federal Office Building, \$13,669,000 shall be deposited into the Federal Buildings Fund (40 U.S.C. 592) from the General Fund; which amount, together

with the amount set forth in subsection (b) of this section shall remain available until expended and shall be subject to such escalation and reprogramming authorities available to the Administrator for any other new construction projects under the heading "Federal Building Fund Limitations on Availability of Revenue".

(d) The Administrator is authorized and directed to convey, without consideration, the Thomas J. McIntyre Federal Office Building to the City of Portsmouth, New Hampshire for economic development purposes subject to the following conditions: (i) that all Federal agencies currently occupying the McIntyre Building except the United States Postal Service are completely relocated to the new Federal Building for so long as those agencies have continuing mission needs for that new location, (ii) that the requirements of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11411 et seq.) shall not apply to this conveyance; and (iii) that the Administrator may include in the conveyance documents such terms and conditions as the Administrator determines in the best interest of the United States.

[Sec. 409. (a) The Administrator of General Services shall carry out the authority of the Election Assistance Commission to make election assistance payments under subtitle D of title II of the Help America Vote Act of 2002, including the authority under such subtitle to receive statements and applications from entities seeking such payments and reports from entities receiving such payments.

- (b) The authority of the Administrator of General Services under subsection (a) shall apply with respect to amounts appropriated for fiscal year 2004 and amounts appropriated for fiscal year 2003 which remain unobligated and unexpended at the end of fiscal year 2003, except that this authority shall expire upon the earlier of—
 - (1) the expiration of the 3-month period which begins on the date on which all members of the Election Assistance Commission are appointed; or
 - (2) June 30, 2004.
- (c) Upon the appointment of all members of the Election Assistance Commission, the Administrator of General Services shall transmit to the Commission all statements, applications, and reports received by the Administrator in carrying out this section.]
- [SEC. 410. None of the funds made available in this Act may be used by the General Services Administration to establish a quick response team processing center on East Brainerd Road in Chattanooga, Tennessee.]

SEC. 407. Notwithstanding 40 U.S.C. 524, 571, and 572, the Administrator of General Services may sell the Middle River Depot at Middle River, Maryland, and credit the proceeds of such sale as offsetting collections to the Federal Buildings Fund, to be available, in addition to amounts otherwise appropriated for such Fund, for such capital activities of the Fund as the Administrator may deem appropriate.

[Sec. 411. Completion of Land Conveyance, San Joaquin County, California. Section 140 of division C of Public Law 105–277 (112 Stat. 2681–599), as amended by section 3034 of the 1999 Emer-

gency Supplemental Appropriations Act (Public Law 106–31; 113 Stat. 104), is amended— $\,$

- (1) in subsection (a)-
- (A) in the first sentence, by striking "Attorney General" and inserting "Administrator of General Services, on behalf of the Attorney General,";
- (B) in the second sentence, by striking "Attorney General" and inserting "Administrator"; and
- (C) in the second sentence, by striking "not later than August 21, 1999" and inserting "as soon as practicable";
- (2) in subsection (b), by striking "Attorney General" and inserting "Administrator";
 - (3) in subsection (c)(1)—
 - (A) in the first sentence, by striking "as the location" and all that follows through "other educational purposes" and inserting "for educational or recreational purposes"; and
 - (B) by striking the second sentence;
- (4) in subsection (c)(2), by striking "Attorney General" and inserting "Administrator";
- (5) in subsection (d), by striking paragraph (2) and inserting the following new paragraph:
- "(2) The use of the real property conveyed under subsection (a) for recreational purposes, as provided in subsection (c), shall be subject to the approval of the Secretary of the Interior.";
 - (6) in subsection (e)—
 - (A) in paragraph (1), by striking "If the Secretary" and all that follows through "not being used" and inserting "If a portion of the real property conveyed under subsection (a) is used for educational purposes, as provided in subsection (c), and the Secretary of Education determines that such portion is no longer being used"; and
 - (B) in paragraph (2), by striking "as a public park or for other recreational purposes" and inserting "for recreational purposes"; and
 - (7) in subsection (f), by striking "Attorney General" and inserting "Administrator". floor

SEC. 408. 40 U.S.C. 572 is amended in subsection (a)(2)(ii) by inserting the following before the period: ", highest and best use of property studies, utilization of property studies, deed compliance inspection, and the expenses incurred in a relocation".

SEC. 409. 40 U.S.C. 321 is amended by adding the following new paragraph at the end of subsection (f):

"(3) From any surplus generated by operation of the Fund, less amounts retained under subsection (2) above and under section 605(b)(2) of this title, the Administrator may, after consulting with the Office of Management and Budget, retain and transfer not to exceed \$40,000,000 in a fiscal year to the Electronic Government Fund to provide for governmentwide electronic government (E-Gov) projects, authorized under 44 U.S.C. 3604." (Division F, H.R. 2673, Consolidated Appropriations Bill, FY 2004.)
