

# INTRODUCTION

This February, 2008 edition of the City Zone Atlas is produced from computerized, digital information contained within the Albuquerque Geographic Information System (AGIS).

This edition of the Zone Atlas includes new information regarding annexations by the City of Albuquerque, the additions of new subdivisions and land use changes which have occurred since Sept., 2007, when the last printed edition was published. The date of the most recent amendment appears on each Zone Atlas page. Amendment dates will vary.

The Zone Atlas is for information purposes only and published in this form solely for the convenience of the user. Thus, the maps should not be used for exact measurements or legal descriptions of property. Legal descriptions and dimensions must be obtained from the records of the County Clerk.

The official Zone Map part of the Comprehensive Zoning Ordinance is that map published as a legal advertisement on March 24, 1959, and as subsequently amended. Certification of zoning on particular pieces of property must be obtained from the Zoning Division of the Planning Department.
