## Summary of County Agricultural Data

California's counties reported an increase of 15.0 percent in the value of their agricultural production for 2007. Fourteen counties reported a value of production in excess of \$1.10 billion. Fresno continued as the leading county with an agricultural production value of \$5.34 billion, an increase of 10.4 percent from the 2006 value. Tulare County was second in value of production with \$4.87 billion, a 25.9 percent increase from 2006. Kern had an increase of 22.7 percent in production to \$4.09 billion, moving the county to third in value. Monterey's smaller increase of 9.5 percent to \$3.82 billion in agricultural production dropped the county to fourth in value.

### Notable Changes in County Ranks and State Totals:

Milk and Cream	Tulare leads with nearly 26 percent of the State total
Grapes, All	Fresno leads, followed closely by Kern and Tulare
Nursery Products	San Diego continues to lead with more than 20 percent of the total
Cattle and Calves	Tulare is number one, followed by Fresno and Imperial
Almonds	Fresno leads with 18 percent, followed by Stanislaus
Lettuce	Monterey still leads with 63 percent of the State total
Strawberries	Monterey and Ventura lead with nearly 60 percent of the total
Alfalfa Hay	Kern leads the way, followed by Tulare and Imperial
Oranges	Tulare leads with 48 percent of the total, followed by Kern
Chickens	Fresno and Merced lead the State with more than 70 percent
Tomatoes, Processing	Fresno leads with nearly 41 percent, followed by Yolo and San Joaquin
Walnuts, English	San Joaquin leads, followed closely by Tulare and Stanislaus
Flowers and Foliage	San Diego has more than 50 percent of the total
Rice (Excl. seed)	Colusa leads with more than 28 percent, followed by Butte
Silage, All	Tulare leads with 31 percent, followed by Merced and Stanislaus

## Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. *The County Agricultural Commissioners' Reports* also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, California Field Office. The larger total value reported by the agricultural commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 0.2 percent more than the \$43.9 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2006-2007" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2006-2007" table on page 3.

### California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

**California's Leading Timber Counties, 2007 a/**

Timber Rank	County	Timber Volume	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
		<i>Million Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Humboldt	296,840	270,269	147,114	54.4
2	Siskiyou	246,141	235,848	59,344	25.2
3	Shasta	191,618	141,949	43,949	31.0
4	Mendocino	103,031	171,854	43,648	25.4
5	Plumas	136,521	49,170	28,070	57.1

a/ Timber volume and value data are from the State Board of Equalization, Timber Tax Division.

### County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report. Many of the counties publish the reports on their web sites.

USDA's National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at: [www.nass.usda.gov/ca](http://www.nass.usda.gov/ca).

10. ---	---				

a/ The data rankings were extracted from County Agricultural Commissioners' Reports where published. Those not ranked by the counties were ranked by USDA's National Agricultural Statistics Service, California Field Office. Timber was omitted in rankings. Three County Agricultural Commissioners' Reports were not available at publication so 2003 data (last available report) was used for Trinity County, while 2006 data was used for Humboldt and Tuolumne counties for this report.
