1998 COUNTY AGRICULTURAL COMMISSIONERS' DATA

This summary is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These Crop Reports provide the most detailed annual data available on agricultural production by county.

Basic data collected by the Agricultural Commissioner and his or her staff are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc.

The amount of detail varies by county. For instance, one county may list grapes only; another may show grapes by raisin, table, and wine; another may list a further breakdown, such as canned, crushed, dried, fresh, and juice. The data were coded at the detail level.

Users are reminded that price data reflect the average price received by growers, except for fresh market fruits and vegetables, which are on a packed and ready to ship basis (F.O.B. = Free On Board).

The sum of other counties included only those counties that provide the California Department of Food and Agriculture a listing of commodities that cannot be published at the county level due to disclosure of confidential information. However, data can be published when combined with other counties. Please be aware that the count is shown as one in all cases.

All counties compiled a report in 1998, except Alpine.

Credit is due the County Agricultural Commissioners and their staffs for preparing the annual county Crop Reports upon which this compilation is based.
