September 20, 2007

2006 COUNTY AGRICULTURAL COMMISSIONERS' DATA

This summary is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These reports provide the most detailed annual data available on agricultural production by county.

Basic data collected by the Agricultural Commissioners and their staffs are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc.

The amount of detail varies by county. For instance, one county may list all grapes; another may show grapes by raisin, table, and wine; another may list a further breakdown, such as canned, crushed, dried, fresh, and juice. The data were coded at the detail level.

Users are reminded that price data reflect the average price received by growers, except for fresh market fruits and vegetables, which are on a packed and ready to ship basis (F.O.B.= Free-On-Board).

The sum of other counties included only those counties that provide the California Department of Food and Agriculture a listing of commodities that cannot be published at the county level due to disclosure of confidential information. However, data can be published when combined with other counties. Please be aware that the count is shown as one in all cases.

Reports were received from 57 of 58 counties for 2006. Trinity County's report was not available at publication. The last year available (2003) was used for this report.

Credit is due the County Agricultural Commissioners and their staffs for preparing the annual county Crop Reports upon which this compilation is based.

USDA'S National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at: www.nass.usda.gov/ca
