COMMANDANT INSTRUCTION M3140.5B

COMDTINST M3140.5B
Apr 22, 1991

Subj: Nautical Chart and Publication Allowance for Cutters

- Ref:
- (a) DMA Pub CATP2V01U - Defense Mapping Agency Catalog of Maps, Charts, and Related Products, Part 2 - Hydrographic Products, Volume 1 - Nautical Charts and Publications.
 - (b) COMDTINST 3530.1 - Cutter Navigation Standards and Procedures
 - (c) COMDTINST 16502.10 - Development of New Nautical Charts and Publications

1. PURPOSE. This manual prescribes the nautical chart and publication allowance for Coast Guard cutters.
2. DIRECTIVES AFFECTED. COMDTINST M3140.5A is canceled.
3. DISCUSSION.
 - a. This allowance list contains a listing of unclassified nautical chart and publication requirements applicable to Coast Guard cutters.
 - b. The established allowance constitutes the minimum inventory of charts and publications which are required to be on board all cutters. Daily operations as well as military requirements were considered when establishing these requirements. Commanding officers are authorized to requisition additional charts and publications which may be needed to carry out operational assignments.

COMDTINST M3140.5B
APR 22, 1991

4. ACTION. Area and district commanders, commanders of maintenance and logistic commands, unit commanding officers, and Commander, CG Activities Europe shall maintain the established allowance in accordance with this instruction.
5. CHANGES. Recommendations for improvement of this allowance list should be submitted via the chain of command to Commandant (G-NSR-3).

J. W. LOCKWOOD
Chief, Office of Navigation Safety
and Waterway Services

N. Annual Inventory	1-5
O. Chart Portfolio Description	1-5
Index of Regions and Subregions	1-6
Chapter 2 - Atlantic Allowance Requirements	2-1
Chapter 3 - Pacific Allowance Requirements	3-1

A. Definitions.

1. Permanent Allowance. The minimum number of nautical charts and publications (those listed in this instruction) a cutter is required to hold at all times.
2. Individual Unit Allowance. Additional nautical charts and publications, in addition to the Permanent Allowance, a cutter desires to maintain.
3. Automatic Initial Distribution (AID). AID is the automatic issue, by the Defense Mapping Agency Combat Support Center (DMACSC), in predetermined quantities, of new or revised nautical products to customers with established AID accounts. AID is the means by which a unit's Permanent Allowance and Individual Unit Allowance is kept current, with no requisition action required.
4. Standard Products. Maps, charts, and related publications listed in reference (a).
5. Nonstandard Products. Maps, charts, and related publications not listed in reference (a).

B. Automatic Initial Distribution.

1. AID for new charts, new editions of charts and publications, and changes to publications are automatically provided by DMACSC, to support established allowance requirements. This service is provided for all products on a command's Permanent and Individual Unit Allowance. If a command is not receiving its allowance of charts and publications, it should provide the specifics of the problem to Commandant (G-NSR-3), with a copy to DMACSC (ATTN: PMSA).
2. Unless otherwise specified, one copy of each publication listed is supplied. Quantities of nautical charts are listed in accordance with reference (c). Cutters are supplied with one copy (two copies for cutters equipped with a CIC/CSC) of charts of unrestricted waters. For restricted waters, cutters are supplied with two copies (three copies for cutters equipped with a CIC/CSC).
3. Recommendations for changes to the Permanent Allowance shall be forwarded, through the chain of command, to Commandant (G-NSR-3). Changes to an Individual Unit Allowance may be made by submitting a letter of request to DMACSC (ATTN: PMSA). The letter of request for changes/additions is not considered a requisition for products. A separate requisition must be submitted.

1.C. Extended Overhaul Periods and Deactivations.

1. A cutter entering an extended overhaul period shall maintain its charts and publications. Every effort should be made to store and maintain the products ashore. A great savings is made by such storage because less than 20 percent of the nautical charts and publications are revised in one year.
2. Commands scheduled for permanent deactivation should notify Commandant (G-NSR-3) with the date AID is to be terminated. Charts and publications should be offered to other units or disposed of in accordance with reference (a).

D. Permanent Allowance Activation or Reactivation. Activities responsible for cutters scheduled to be commissioned should request the activation of the initial allowance of nautical charts and publications in the appropriate OFCO. This request should be submitted to Commandant (G-NSR-3) at least 90 days prior to commissioning.

E. Additional Quantities.

1. Items listed in this instruction are the minimum requirements and are not intended to restrict the number of charts or publications a cutter may hold. Additional quantities should be requisitioned from DMACSC (ATTN: PMSR), in accordance with the procedures set forth in reference (a), including noting the requirement for the products to be added to AID.
2. Cutters maintaining charts and publications other than those on AID should consult the Quarterly Bulletin and/or Notice to Mariners for announcement of availability of new editions and other changes affecting the excess holdings.

F. Crisis Support Requirements.

1. When products other than allowance holdings are required for sudden crisis situations, they should be requested in accordance with procedures set forth in reference (a). Crisis support requests must meet the approved crisis definitions as defined in reference (a). Such requests may be for either standard products as shown in reference (a) or nonstandard products.

- 1.F.2. Where commands identify an urgent need for a nonstandard product, instead of listing specific products, the basic requirement should be stated as "Require nautical charts to support navigation of Port XXXXXX." DMAHTC will research its library holdings (including foreign charts) for any available product which might satisfy the command requirement or DMA will construct a product, on an urgent basis, to meet the requirement.
3. Telephone requests, if feasible, are preferred as they will expedite the DMA response. The telephone numbers are as follows:
- a. Crisis requirements for standard products.
- During normal duty hours
(0700-1600 EST, Monday thru Friday):
Defense Mapping Agency Combat Support Center
COMM: (301) 227-2273/3826/5540
STU-III (301) 227-5540
AUTOVON: 287-2273/3826/5540
STU-III 287-5540
- Outside above normal duty hours:
Headquarters, Defense Mapping Agency
Crisis Management Team (CMT) Duty Officer Pager
COMM: (202) 928-2927
Chief, CMT Pager
COMM: (202) 928-2928
HQ DMA Guard Desk
COMM: (703) 285-9368
HQ DMA Guard Desk
AUTOVON: 356-9368
STU-III - Both the CMT Duty Officer and the Chief, CMT have immediate access to STU-III, which will be automatically used when responding to a pager alert.
Defense Mapping Agency Combat Support Center
COMM: (202) 917-7808/7809 (Pager)
- b. Crisis requirements for nonstandard products.
- During above normal duty hours:
Headquarters, Defense Mapping Agency
COMM: (703) 285-9329/9525
STU-III (703) 285-9356 ext 1111 or 1116
AUTOVON: 356-9329/9525
STU-III 356-9356 ext 1111 or 1116

Outside above normal duty hours:
Headquarters, Defense Mapping Agency
Crisis Management Team (CMT) Duty Officer Pager
 COMM: (202) 928-2927
Chief, CMT Pager
 COMM: (202) 928-2928
HQ DMA Guard Desk
 COMM: (703) 285-9368
HQ DMA Guard Desk
 AUTOVON: 356-9368

4. If the request is made by telephone, a confirmation message (using the appropriate security classification) is required, with Commandant (G-NSR-3) as an information addressee. Amplifying instructions are provided in reference (a).
- G. Classified Charts and Publications. Requisitions for classified charts and publications should be submitted to DMACSC (PMSR), in accordance with reference (a). Classified charts and publications that become obsolete or worn beyond use should be destroyed in accordance with applicable directives.
- H. Development or Revision of Nautical Charts and Publications. Reference (c) should be consulted for guidance concerning the development or revision of nautical charts and publications.
- I. Foreign Charts. Requirements for foreign charts should be submitted to Commandant (G-NSR-3).
- J. Command Address. All allowance products are mailed to the command address listed in the DMACSC AID file.
- K. DMA Distribution Offices. Commands having immediate operational requirements may obtain DMA products on an over-the-counter basis from DMA Distribution Offices. Addresses and telephone numbers for these activities are listed in reference (a).
- L. DMA User Assistance Visit Program. Personnel at DMA Branch Offices (addresses listed in reference (a)) conduct ship and shore activity visits upon request to provide assistance and briefings on charting matters. Requests for such visits should be made to the local office by message, letter, or telephone.
- M. Consumable Products. No allowances are required for Chart/Publication Correction Record Cards, Chart Correction Templates, Maneuvering Board Pads, plotting sheets, and other miscellaneous forms. Stock numbers for these products are listed in reference (a) and may be requisitioned as needed.

- 1.N. Annual Inventory. Annually, DMACSC (PMSA) will provide cutters with a printout of the Individual Unit Allowance products. Respond to this inventory by annotating any changes to the inventory requirements and returning the original to DMACSC (PMSA). Requests for changes to the Individual Unit Allowance should be annotated; however, requests for changes to the Permanent Allowance should be made in accordance with paragraph B.3. Failure to reply to the inventory will cause the Individual Unit Allowance products to be removed from AID.
- O. Chart Portfolio Description.
1. Individual Item Identification. Nautical charts are grouped by region, subregion, or other major geographical areas. Specific charts are not included in the allowance list. The appropriate volume of the DMA Catalog of Maps, Charts, and Related Products should be referred to for complete listings of individual items.
 2. Standard Nautical Charts. The letter 'A', 'B', or 'X' immediately following the two-digit subregion figure in each regional chart listing signifies the following:
 - A - The 'A' series of portfolios contain all unclassified operating area, principal coastal, harbor, and approach charts within the subregion.
 - B - The 'B' series of portfolios Supplement the 'A' coverage with additional unclassified coastal, harbor, and approach charts within the subregion.
 - X - An 'X' designates standard nautical charts Which have not been assigned to either an 'A' or 'B' portfolio.
 3. World and Miscellaneous Charts. The letters 'A', 'P', 'B', and 'X' immediately following the two-digit subregion figure in the regional chart listing signifies the following:
 - A - Designates Atlantic Ocean
 - P - Designates Pacific Ocean
 - B - Designates other ocean regions or charts which cannot be categorized by a specific geographic region.
 - X - Designates charts not in a portfolio.
