(Vice-Chairperson)

Whenever we receive a permit application for a new or modified source of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile of the proposed source and all residents and businesses located within 1,000 feet of the proposed source.

SANTA CLARA COUNTY

The City of Richmond has applied for a permit to operate a natural-gas fired micro-turbine that will be used to generate electricity at a municipal building complex located at 401 27th Street.

Jack P. Broadbent
EXECUTIVE OFFICER/APCO

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source are within acceptable levels and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed source.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at <http://www.baaqmd.gov/permit/pn.htm>.
