Juvenile Justice Information System

Data & Evaluation Reports Youth & Referrals (2003)

JJIS Steering Committee JJIS Data & Evaluation Sub-Committee

JJIS – A Shared Information System

Oregon Youth Authority Oregon Juvenile Department Directors' Association

JJIS Steering Committee (2004)

The JJIS Steering Committee provides oversight to the JJIS project. It meets monthly to review the project and ensure that it is on task to accomplish the vision and goals of JJIS. The Steering Committee prioritizes the development of software features, makes policy decisions, and allocates resources to the project.

Karen Olson, Assistant Director

Oregon Youth Authority Business Services

- Dave Koch, Assistant Director, Juvenile Services Division Multnomah County Department of Community Justice
- Trish Reding, Director

Polk County Juvenile Department

- Tim Loewen, Director Yamhill County Juvenile Department
- Charles Logan-Belford, Director Umatilla County Juvenile Department
- Lisa Smith, Director Lane County Juvenile Department

JJIS Policy & Standards Coordinator

JJIS Data & Evaluation Subcommittee

-- serving as a standing subcommittee of the JJIS Steering Committee to:

- guide the development of routine publications/statistics; specific research initiatives; design, reporting, and analysis of JJIS data in order to provide quality program and system evaluations and forecasting for system resources and prevention and intervention strategies; and
- function as an analytical Users Group that assesses development, implementation, and interpretation of reports for consistency, accuracy, and appropriateness in the areas of program evaluation, forecasting, policy analysis, impact analysis, and trend analysis.

Joe Christy

Data & Evaluation Subcommittee Chair and Washington County Juvenile Department Director

The JJIS Vision is to promote public safety and youth accountability, and to offer opportunities for rehabilitation to youth, through the development of a statewide juvenile justice information system that:

- Provides a comprehensive view of information about juvenile offenders across Oregon's state and county juvenile justice agencies;
- Provides comprehensive support for managing individual juvenile offender cases and tracking juveniles through the juvenile justice process;
- Provides the capacity for and aids in the overall planning, development, and evaluation of programs designed to reduce juvenile crime; and
- Recognizes and supports the common needs of juvenile justice partnership agencies.

Introduction

Purpose of this report

In 1995 the Oregon Legislature became increasingly concerned about public safety, and the increase in the frequency and severity of juvenile crime. In response to these concerns, the Legislature created the Oregon Youth Authority as a separate state agency and acted to strengthen the juvenile justice system through the passage of Senate Bill 1 and Ballot Measure 11. This legislation mandated that juveniles committing serious crimes be treated as adults. It further required an unprecedented level of cooperation among agencies involved in the juvenile justice process.

The Legislature envisioned the juvenile justice system as a partnership among local, county, and state agencies with much of the custodial and rehabilitation effort occurring at the local and county level. The successful operation of an effective, coordinated, and integrated juvenile justice system required an infrastructure of comprehensive and timely information shared among these agencies.

This "information infrastructure" did not exist at the time the legislation passed. It was difficult, if not impossible, for any agency to determine a youth's history with another jurisdiction within the state. Spurred by these legislative requirements, the Oregon Youth Authority (OYA) and the Oregon Juvenile Department Directors' Association (OJDDA) formed a partnership to address the information systems needs of the juvenile justice community in Oregon. The partnership created the JJIS Steering Committee as the guiding body to oversee the planning, development, and implementation of JJIS. Since its inception this partnership jointly created the statewide Juvenile Justice Information System (JJIS).

The JJIS Steering Committee's vision was that JJIS would promote public safety and youth accountability, and offer opportunities for rehabilitation to youth, by:

- Providing a comprehensive view of information about juvenile offenders across Oregon's state and county juvenile justice agencies;
- Providing comprehensive support for managing individual juvenile offender cases and tracking juveniles through the juvenile justice process;
- Providing the capacity for and aiding in the overall planning, development, and evaluation of programs designed to reduce juvenile crime; and
- Recognizing and supporting the common needs of juvenile justice partnership agencies.

This report is one in a series published by the JJIS Steering Committee designed specifically to address the third statement in this vision: Aid in the overall planning, development and evaluation of programs designed to reduce juvenile crime. The report is intended to communicate

information not only to evaluators but also to any party interested in Oregon's juvenile justice system.

Contents of this report

This document contains statewide and county specific reports describing offenses committed by juveniles and the characteristics of the juveniles committing those offenses in the State of Oregon for each reporting year.

There are two reports for each jurisdiction, "Youth" counts and "Referral" counts. Additionally, there are statewide reports for youth and referrals. The reports count:

- The unique number of "youth" processed by the juvenile justice system in the reporting year. This means no matter how many offenses a youth commits, the youth is only counted once on the youth report. The youth is categorized by the most serious offense the youth committed during the reporting period.
- The unique number of "referrals" received by county juvenile departments during the reporting year. A single youth can have more than one referral in a year (i.e., the youth may have several reports by the police). The most serious charge associated with a referral is used to categorize the referral.

The report divides the counts into criminal offenses (felony and misdemeanor), non-criminal offenses (violations), and dependency/status offenses. Each category is further divided into areas of interest. Sub-totals and grand-totals are provided for each category.

Each statistic is broken down by sex, age at time of referral, and race/ethnicity of the offender.

Notes about the information

<u>*Counts:*</u> It is possible the total "youth" count for the statewide report is less than the sum of the county youth totals. A youth could have committed an offense in more than one county causing them to show up on each county's report. However at the statewide level the youth will only be counted once for his/her most serious offense.

<u>*Categories:*</u> These reports categorize offenses according to Oregon Revised Statute (ORS), Criminal Code of Oregon, as defined by the Oregon Legislature. Please note the ORS categories sometimes differ from the Oregon Uniform Crime Reporting (OUCR) categories. Consequently, the categories and counts may differ from OUCR statistics.

Oregon Uniform Crime Reporting categorizes offenses that are neither person nor property as "Behavioral". ORS does not categorize offenses as "Behavioral". However, "Behavioral" offenses

can be inferred on these reports. Any offense outside the person or property category is comparable to the OUCR "Behavioral" category.

Local ordinances are not included on the reports.

Inchoate crimes (attempts, solicitations, and conspiracies) are reported in the crime category for the crime with which the inchoate is associated (e.g., Attempted Murder is reported in the Homicide-related offense category). Inchoate crimes that result in a violation classification are reported as non-criminal.

Appendix A of this document contains the specific mappings between the Oregon Revised Statute (ORS) offense numbers and the reporting categories used here.

- <u>Dependency Status Offenses</u>: Most status offenses are included in the Non-Criminal reporting category. However, there are a few offenses generally considered status offenses that are categorized in statute as Dependency. These include Runaway, Beyond Parental Control, and Behavior to Endanger Self or Others
- <u>*Referrals Included:*</u> The date the juvenile was referred to the juvenile agency ("Referral Date") was used to select data for inclusion in this report.
- *County*: The county responsible for handling the youth's referral was used to select the county to which a youth's offense was attributed.
- <u>Race and Ethnicity</u>: The JJIS Steering Committee defined Age and Race/Ethnicity reporting categories based on best practices and available data. Race may be as recorded by the juvenile department based on police reports and youths' self-reporting, unless they stated their ethnicity was Hispanic in which case the youth is categorized as Hispanic. Note, there are several efforts underway in the state to standardize reporting of race and ethnicity. The categories of Race/Ethnicity used in this report may change in the future when state standards are defined.
- <u>*Comparison to Juvenile Recidivism:*</u> "Total Referrals" in this series of reports counts criminal and non-criminal referrals received during the calendar year. "Oregon's Statewide Report on Juvenile Recidivism" considers criminal referrals and subsequent criminal referrals for a youth. Consequently, the numbers of referrals in the two reports are not comparable.

Appendix B is a chart of the severity scores for each crime category's class and type.
