Includes PSD changes: No  
Includes Trade Matrix: No  
Unscheduled Report  
Beijing [CH1], CH

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Beijing, People's Republic of China for U.S. exporters of domestic food and agricultural products and paid for by the US Codex Office. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

### **Introduction**

The People's Republic of China Ministry of Health (MOH) published DRAFT versions of several National Standards in August 2002 on the MOH website ([www.moh.gov.cn](http://www.moh.gov.cn)). This document is an UNOFFICIAL translation of a National Standard that appeared on that website.

The MOH has not published a final version to this DRAFT therefore, the previous standard is still valid. National Standards that are abbreviated 'GB' and issued by MOH are compulsory standards that both China's domestic goods and goods imported into China must satisfy. MOH standards abbreviated 'GB/T' are voluntary.

At this time, U.S. industry and government officials are invited to offer comments on the DRAFTED National Standard. Questions and comments can be submitted to the USDA FAS International Trade Policy Office of Food Safety and Technical Services by fax (202-690-0677) or by email ([ofsts@fas.usda.gov](mailto:ofsts@fas.usda.gov)). Questions can also be provided to the U.S. Embassy Office of Agricultural Affairs by fax (86-10-6532-2962) or by email ([AgBeijing@fas.usda.gov](mailto:AgBeijing@fas.usda.gov)).

Once finalized, the Standard will replace GB15200-94 Hygienic Standard of Maximum Levels of Iron in Foods.

### **GB152000-XXXX Maximum Levels of Iron in Foods**

#### **1. Scope of application**

This standard specifies the Maximum Levels of Iron in Foods. This standard applies to edible oils, juices, jams, soy sauce, beer, and canned animal and plant products. This standard does not apply to iron fortified foods.

#### **2. Documents Cited by this Standard**

The clauses in the following documents that were cited by this Standard became clauses of this Standard. For cited documents with a date, all their subsequent modifications or revisions do not apply to this Standard. However, parties having reached an agreement based on cited standards with a date are encouraged to study whether the latest versions of the cited documents with a date are applicable. For cited documents without a date, the latest versions apply to this Standard.

GB/T 5009.90 Determination of iron, magnesium and manganese in foods

### 3. Technical Requirements

The Maximum Levels of Iron in Foods shall comply with the regulations in Table 1.

Table 1 The Maximum Levels of Iron in Foods

Items	Maximum Levels (MLs, mg/kg)
Edible oil	20
Juice drinks	15
Fruit Jams/Jellies	15
Soy sauce	70
Beer	5
Canned Animal Products	70
Canned Plant Products	20

### 4. Inspection Methods

Determined according to the methods specified in GB/T 5009.90.
