

NEPA

Quarterly Schedule of Proposed Actions

July - September, 2007

PURPOSE OF THE NEPA QUARTERLY

This schedule lists actions being proposed on the Forest that are governed by the National Environmental Policy Act (NEPA). The purpose of this schedule is to provide early and informal notice of proposed projects so that you can become aware of Forest Service activities, indicate your interest in specific projects, and become involved early in the environmental analysis and documentation process.

FORMAT

Proposed actions (projects) are sorted by the Ranger District where the action would occur. In some cases, Forest-wide projects are listed separately. Information indicating the status of public involvement and analysis for each proposal is provided. With this information, you'll have an idea of upcoming projects, and you may wish to get involved by commenting on them. We're still analyzing some projects listed in the last Quarterly schedule, so they appear once again in this update. In future months, we'll add new projects as they are proposed, and remove projects that have the NEPA process completed.

The information given for each project is brief, but specific. A table provides the project name, short description, location, time frames for public involvement, a date when we expect to make a final decision on the projects, a contact person, and the status of the analysis. From time to time other information associated with environmental analysis or planning may also be included in the NEPA Quarterly.

HOW YOU CAN BECOME INVOLVED

Read through the list of proposed projects. If you want to comment on a project or be placed on the project mailing list, call the contact person or write to the appropriate office (see list of offices on the next page). You may comment right then, or ask to be put on a mailing list for that specific project to receive more information and an opportunity to comment at a later time. We ask you be project-specific about your interest. You will only be added to a project involvement list if you notify us of your specific interest in a project.

ROLE OF THE NEPA QUARTERLY

The NEPA Quarterly adds to the public involvement activities we have always done; it doesn't replace them. We will continue to contact those people known to be affected by and/or interested in our proposals. Those that have expressed interest about certain projects will still be contacted.

Thank you for reviewing this list of recent decisions and proposed projects. We appreciate your interest in the management of the Chequamegon-Nicolet National Forest.

PRIVACY OF YOUR COMMENTS

Comments received in response to solicitation as part of the NEPA process, including names and addresses of those who comment, will be considered part of the public record on a proposed action, and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act permits such confidentiality.

ANTICIPATED "WALK-IN" BUSINESS

Requests from the public occasionally necessitate that analysis be completed with a short turn-around. This may mean that some decisions are made without prior announcement in this update. Examples of walk-in requests include special use roads and utility rights-of-way. Scoping efforts for these requests will be conducted as applicable.

ADDITIONAL REQUESTS

For additional requests, please contact one of the offices listed on the next page. Please let us know if the address we have for you is incorrect.

This publication is available in large print from the Chequamegon-Nicolet National Forest Headquarters in Rhinelander, Wisconsin.

DEFINITION OF TERMS

Appeal Period - The 45-day period after publication of a decision during which an administrative appeal can be filed.

Categorical Exclusion (CE) - A category of actions that do not individually or cumulatively have a significant effect on the human environment. Neither an environmental assessment nor an environmental impact statement is required.

Comment Period - The 30-day (EA) or 45-day (EIS) period for interested persons to provide comments to a Responsible Official on a proposed action.

Contact Person – For each project listed a *Project Contact* person is provided with contact information. To express interest in a project, you should call, write or email that person.

Decision Memo (DM) - A concise written record of the responsible official's decision to implement an action that has been categorically excluded from documentation in an EA or EIS.

Decision Notice (DN) - A concise written record of the responsible official's decision based on an environmental assessment (EA) and finding of no significant impact (FONSI).

Environmental Assessment (EA) - A document prepared to determine if a proposed action, or its alternatives, may have significant environmental effects. If potentially significant effects may occur, an EIS is prepared. If not, a FONSI and Decision Notice are issued.

Environmental Impact Statement (EIS) - This document is required for proposed actions that may

have significant effects on the human environment. An EIS discloses significant issues and effects from the action, and alternatives, for public review.

Finding of No Significant Impact (FONSI) - A document presenting the reasons why an action, not otherwise excluded, will have no significant effect on the human environment, and for which an EIS will not be prepared.

NEPA – Acronym for the *National Environmental Policy Act of 1969*. This is the procedural guide for the decision-making and public disclosure process for site-specific project proposals and decisions.

Proposed Action - A proposal made by the Forest Service to authorize, recommend, or implement an action on National Forest System lands to meet a specific purpose and need which is subject to public notice comment provisions under NEPA.

Record of Decision (ROD) - A concise written record of the responsible official's decision based upon an environmental impact statement (EIS).

Scoping – A process required by NEPA to solicit important issues related to a proposed action from within the agency, from other agencies, and from the public. Issues identified during scoping often lead to development of alternatives to a proposed action.

Significance - As used in the National Environmental Policy Act (NEPA), *significance* pertains to the intensity and context of effects from our action on the human environment.

Schedule of Proposed Action (SOPA)

07/01/2007 to 09/30/2007

Chequamegon / Nicolet National Forest
