

**Attention
electronic claim submitters**

Reminder!

The National Uniform Billing Committee has restricted the use of value codes A1, A2, A7, B1, B2, B7, C1, C2 and C7 to paper UB-04 claims. DHS no longer accepts these value codes on any institutional electronic claims. This applies to both fee-for-service providers and managed care plans.

Do not send these value codes in your electronic transactions as they will be rejected at the DHS translator and will not be entered into the DHS claims payment system.
